

**SB 6218 - DIGEST**

Creates the clean energy education program which will be administered by the director of the Washington State University extension energy program.

Requires the director to: (1) Develop a series of workshops open to voluntary participation by eligible students focusing on a variety of clean energy technologies;

(2) Develop workshops that feature a broad variety of clean energy technologies for the purpose of presenting a diverse range of ideas to students;

(3) Develop a process for including individuals active in the field of energy technology as voluntary participants in the workshops;

(4) Develop a strategy for publicizing workshops to eligible students and their teachers; and

(5) Develop an application process for eligible students to participate in the workshops.

Creates the clean energy education program account.
