Summary of Bill: The bill as referred to committee not considered.

Summary of Bill (First Substitute): Multipurpose nonprofit senior centers (senior centers) are eligible for a property tax exemption if the property is owned by a senior center organization and is used for the operation of the senior center, and the facilities and services are available to all regardless of race, color, national origin, or ancestry. Multipurpose senior centers are defined as a community facility that provides a broad spectrum of services, which may include the provision of health, social, nutritional, and educational services, and the provision of facilities for recreational activities for senior citizens. Senior citizen organization means a private organization formed to support senior citizens, that is exempt from federal income tax under 501(c)(3) of the internal revenue code and operates a multipurpose senior citizen center.

The senior center may be used for fund-raising events if the event is conducted by a nonprofit organization or the purpose of the event is consistent with the purpose of the property tax exemption. Exempt property may be loaned or rented for an unlimited number of days if the rents and donations received for the use of the senior center are reasonable and do not exceed the maintenance and operation expenses attributable to the portion of the property loaned or rented. The senior center may operate or host a thrift store, farmers market, or similar activity year-round without nullifying the exemption.

The use of an exempt senior center, other than as specifically described in the bill, nullifies the exemption for the assessment year.

Appropriation: None.

Fiscal Note: Available.

Creates Committee/Commission/Task Force that includes Legislative members: No.

Effective Date: Ninety days after adjournment of session in which bill is passed.

Staff Summary of Public Testimony on First Substitute: PRO: This exemption will allow senior centers to be more effective at the tremendous work they do in the community. The 1977 Senior Citizens Services Act makes it the policy of the state to support programs that provide an alternative to institutional care. This helped fund area agencies on aging, and these agencies need partners like multipurpose senior center to provide services. There are many people who come into our center and say we're the reason they are still alive. There is a large body of research showing that recreation, socialization, and exercise keep people outside of institutions and in their homes. Such alternatives allow us to put money back into programming that keeps seniors healthy and active. According to the Health Center Authority, the annual cost to keep someone in a nursing home is \$91,000 with 72 percent of that being paid by Medicaid or other public funding like VA. The services provided at these centers include all sorts of exercise and fall prevention. The 2015 White House conference on aging was all about falls prevention and they said two things: move for better balance and get regular blood pressure checks. Our hub does both those things and many more. This center does so much for the physical and fitness part; I've lost more than 200 pounds.
