

HB 1552 - DIGEST

Requires the Washington State University center for sustaining agriculture and natural resources to: (1) Study the economic development of the local food system in the state to identify a ten-year plan for expansion of the state's food production, processing, and distribution capacity; and

(2) Include in the recommendations of the study, short and long-term action plans for the legislature to support and sustain the local food sector in the state.

Expires December 31, 2018.
