EFFECT: Removes a project prioritization requirement related to improving health, safety, and academic performance for the largest number of students for the amount of state grant support. Modifies the grant prioritization criteria to include the following: (a) extension of the useful life of the school facility; (b) provision of facilities that support pathways to graduation from high school; and (c) reduction of the achievement gap for specified categories of students. Retains grant prioritization criteria related to improvement of health and safety. Allows projects that were prioritized but unfunded under the grant program's 2019-21 capital budget proviso to remain on the program's project list for the 2021-23 biennium.
