

**SSB 6280 - S AMD 1155**

By Senator Nguyen

**ADOPTED 02/19/2020**

1 Strike everything after the enacting clause and insert the  
2 following:

3 "NEW SECTION. **Sec. 1.** The legislature finds that:

4 (1) Unconstrained use of facial recognition services by state and  
5 local government agencies poses broad social ramifications that  
6 should be considered and addressed. Accordingly, legislation is  
7 required to establish safeguards that will allow state and local  
8 government agencies to use facial recognition services in a manner  
9 that benefits society while prohibiting uses that threaten our  
10 democratic freedoms and put our civil liberties at risk.

11 (2) However, state and local government agencies may use facial  
12 recognition services in a variety of beneficial ways, such as  
13 locating missing or incapacitated persons, identifying victims of  
14 crime, and keeping the public safe.

15 NEW SECTION. **Sec. 2.** The definitions in this section apply  
16 throughout this chapter unless the context clearly requires  
17 otherwise.

18 (1) "Accountability report" means a report developed in  
19 accordance with section 3 of this act.

20 (2) "Enroll," "enrolled," or "enrolling" means the process by  
21 which a facial recognition service creates a facial template from one  
22 or more images of an individual and adds the facial template to a  
23 gallery used by the facial recognition service for recognition or  
24 persistent tracking of individuals. It also includes the act of  
25 adding an existing facial template directly into a gallery used by a  
26 facial recognition service.

27 (3) (a) "Facial recognition service" means technology that  
28 analyzes facial features and is used by a state or local government  
29 agency for the identification, verification, or persistent tracking  
30 of individuals in still or video images.

1 (b) "Facial recognition service" does not include: (i) The  
2 analysis of facial features to grant or deny access to an electronic  
3 device; or (ii) the use of an automated or semiautomated process for  
4 the purpose of redacting a recording for release or disclosure  
5 outside the law enforcement agency to protect the privacy of a  
6 subject depicted in the recording, if the process does not generate  
7 or result in the retention of any biometric data or surveillance  
8 information.

9 (4) "Facial template" means the machine-interpretable pattern of  
10 facial features that is extracted from one or more images of an  
11 individual by a facial recognition service.

12 (5) "Identification" means the use of a facial recognition  
13 service by a state or local government agency to determine whether an  
14 unknown individual matches any individual whose identity is known to  
15 the state or local government agency and who has been enrolled by  
16 reference to that identity in a gallery used by the facial  
17 recognition service.

18 (6) "Meaningful human review" means review or oversight by one or  
19 more individuals who are trained in accordance with section 8 of this  
20 act and who have the authority to alter the decision under review.

21 (7) "Ongoing surveillance" means tracking the physical movements  
22 of a specified individual through one or more public places over  
23 time, whether in real time or through application of a facial  
24 recognition service to historical records. It does not include a  
25 single recognition or attempted recognition of an individual, if no  
26 attempt is made to subsequently track that individual's movement over  
27 time after they have been recognized.

28 (8) "Persistent tracking" means the use of a facial recognition  
29 service by a state or local government agency to track the movements  
30 of an individual on a persistent basis without identification or  
31 verification of that individual. Such tracking becomes persistent as  
32 soon as:

33 (a) The facial template that permits the tracking is maintained  
34 for more than forty-eight hours after first enrolling that template;  
35 or

36 (b) Data created by the facial recognition service is linked to  
37 any other data such that the individual who has been tracked is  
38 identified or identifiable.

1 (9) "Recognition" means the use of a facial recognition service  
2 by a state or local government agency to determine whether an unknown  
3 individual matches:

4 (a) Any individual who has been enrolled in a gallery used by the  
5 facial recognition service; or

6 (b) A specific individual who has been enrolled in a gallery used  
7 by the facial recognition service.

8 (10) "Serious criminal offense" means any offense defined under  
9 RCW 9.94A.030 (26), (33), (42), (43), (47), or (56).

10 (11) "Verification" means the use of a facial recognition service  
11 by a state or local government agency to determine whether an  
12 individual is a specific individual whose identity is known to the  
13 state or local government agency and who has been enrolled by  
14 reference to that identity in a gallery used by the facial  
15 recognition service.

16 NEW SECTION. **Sec. 3.** (1) A state or local government agency  
17 using or intending to develop, procure, or use a facial recognition  
18 service must produce an accountability report for that service. The  
19 report must be clearly communicated to the public at least ninety  
20 days prior to the agency putting the facial recognition service into  
21 operational use, posted on the agency's public web site, and  
22 submitted to the consolidated technology services agency established  
23 in RCW 43.105.006. The consolidated technology services agency must  
24 post each submitted accountability report on its public web site.

25 (2) Each accountability report must include, at minimum, clear  
26 and understandable statements of the following:

27 (a) (i) The name of the facial recognition service, vendor, and  
28 version; and (ii) a description of its general capabilities and  
29 limitations, including reasonably foreseeable capabilities outside  
30 the scope of the proposed use of the agency;

31 (b) (i) The type or types of data inputs that the technology uses;  
32 (ii) how that data is generated, collected, and processed; and (iii)  
33 the type or types of data the system is reasonably likely to  
34 generate;

35 (c) (i) A description of the purpose and proposed use of the  
36 facial recognition service, including what decision or decisions will  
37 be used to make or support it; (ii) whether it is a final or support  
38 decision system; and (iii) its intended benefits, including any data  
39 or research demonstrating those benefits;

1 (d) A clear use and data management policy, including protocols  
2 for the following:

3 (i) How and when the facial recognition service will be deployed  
4 or used and by whom including, but not limited to, the factors that  
5 will be used to determine where, when, and how the technology is  
6 deployed, and other relevant information, such as whether the  
7 technology will be operated continuously or used only under specific  
8 circumstances. If the facial recognition service will be operated or  
9 used by another entity on the agency's behalf, the facial recognition  
10 service accountability report must explicitly include a description  
11 of the other entity's access and any applicable protocols;

12 (ii) Any measures taken to minimize inadvertent collection of  
13 additional data beyond the amount necessary for the specific purpose  
14 or purposes for which the facial recognition service will be used;

15 (iii) Data integrity and retention policies applicable to the  
16 data collected using the facial recognition service, including how  
17 the agency will maintain and update records used in connection with  
18 the service, how long the agency will keep the data, and the  
19 processes by which data will be deleted;

20 (iv) Any additional rules that will govern use of the facial  
21 recognition service and what processes will be required prior to each  
22 use of the facial recognition service;

23 (v) Data security measures applicable to the facial recognition  
24 service including how data collected using the facial recognition  
25 service will be securely stored and accessed, if and why an agency  
26 intends to share access to the facial recognition service or the data  
27 from that facial recognition service with any other entity, and the  
28 rules and procedures by which an agency sharing data with any other  
29 entity will ensure that such entities comply with the sharing  
30 agency's use and data management policy as part of the data sharing  
31 agreement;

32 (vi) How the facial recognition service provider intends to  
33 fulfill security breach notification requirements pursuant to chapter  
34 19.255 RCW and how the agency intends to fulfill security breach  
35 notification requirements pursuant to RCW 42.56.590; and

36 (vii) The agency's training procedures, including those  
37 implemented in accordance with section 8 of this act, and how the  
38 agency will ensure that all personnel who operate the facial  
39 recognition service or access its data are knowledgeable about and

1 able to ensure compliance with the use and data management policy  
2 prior to use of the facial recognition service;

3 (e) The agency's testing procedures, including its processes for  
4 periodically undertaking operational tests of the facial recognition  
5 service in accordance with section 6 of this act;

6 (f) Information on the facial recognition service's rate of false  
7 matches, potential impacts on protected subpopulations, and how the  
8 agency will address error rates, determined independently, greater  
9 than one percent;

10 (g) A description of any potential impacts of the facial  
11 recognition service on civil rights and liberties, including  
12 potential impacts to privacy and potential disparate impacts on  
13 marginalized communities, and the specific steps the agency will take  
14 to mitigate the potential impacts and prevent unauthorized use of the  
15 facial recognition service; and

16 (h) The agency's procedures for receiving feedback, including the  
17 channels for receiving feedback from individuals affected by the use  
18 of the facial recognition service and from the community at large, as  
19 well as the procedures for responding to feedback.

20 (3) Prior to finalizing and implementing the accountability  
21 report, the agency must consider issues raised by the public through:

22 (a) A public review and comment period; and

23 (b) Community consultation meetings during the public review  
24 period.

25 (4) The accountability report must be updated every two years and  
26 each update must be subject to the public comment and community  
27 consultation processes described in this section.

28 (5) An agency seeking to use a facial recognition service for a  
29 purpose not disclosed in the agency's existing accountability report  
30 must first seek public comment and community consultation on the  
31 proposed new use and adopt an updated accountability report pursuant  
32 to the requirements contained in this section.

33 (6) The accountability report required for the facial recognition  
34 matching system authorized in RCW 46.20.037 is due July 1, 2021.

35 NEW SECTION. **Sec. 4.** (1) State and local government agencies  
36 using a facial recognition service are required to prepare and  
37 publish an annual report that discloses:

38 (a) The extent of their use of such services;

1 (b) An assessment of compliance with the terms of their  
2 accountability report;

3 (c) Any known or reasonably suspected violations of their  
4 accountability report, including categories of complaints alleging  
5 violations; and

6 (d) Any revisions to the accountability report recommended by the  
7 agency during the next update of the policy.

8 (2) The annual report must be submitted to the office of privacy  
9 and data protection.

10 (3) All agencies must hold community meetings to review and  
11 discuss their annual report within sixty days of its public release.

12 NEW SECTION. **Sec. 5.** State and local government agencies using  
13 a facial recognition service to make decisions that produce legal  
14 effects concerning individuals or similarly significant effects  
15 concerning individuals must ensure that those decisions are subject  
16 to meaningful human review. Decisions that produce legal effects  
17 concerning individuals or similarly significant effects concerning  
18 individuals means decisions that result in the provision or denial of  
19 financial and lending services, housing, insurance, education  
20 enrollment, criminal justice, employment opportunities, health care  
21 services, or access to basic necessities such as food and water.

22 NEW SECTION. **Sec. 6.** Prior to deploying a facial recognition  
23 service in the context in which it will be used, state and local  
24 government agencies using a facial recognition service to make  
25 decisions that produce legal effects on individuals or similarly  
26 significant effect on individuals must test the facial recognition  
27 service in operational conditions. State and local government  
28 agencies must take reasonable steps to ensure best quality results by  
29 following all reasonable guidance provided by the developer of the  
30 facial recognition service.

31 NEW SECTION. **Sec. 7.** (1) A state or local government agency  
32 that deploys a facial recognition service must require a facial  
33 recognition service provider to make available an application  
34 programming interface or other technical capability, chosen by the  
35 provider, to enable legitimate, independent, and reasonable tests of  
36 those facial recognition services for accuracy and unfair performance  
37 differences across distinct subpopulations. However, making such an

1 application programming interface or other technical capability  
2 available does not require the disclosure of proprietary data, trade  
3 secrets, intellectual property, or other information, or if doing so  
4 would increase the risk of cyberattacks including, without  
5 limitation, cyberattacks related to unique methods of conducting  
6 business, data unique to the product or services, or determining  
7 prices or rates to be charged for services. Such subpopulations are  
8 defined by visually detectable characteristics such as: (a) Race,  
9 skin tone, ethnicity, gender, age, or disability status; or (b) other  
10 protected characteristics that are objectively determinable or self-  
11 identified by the individuals portrayed in the testing dataset. If  
12 the results of the independent testing identify material unfair  
13 performance differences across subpopulations, and the methodology,  
14 data, and results are disclosed in a manner that allows full  
15 reproduction directly to the provider who, acting reasonably,  
16 determines that the methodology and results of that testing are  
17 valid, then the provider must develop and implement a plan to  
18 mitigate the identified performance differences.

19 (2) This section does not apply to the facial recognition  
20 matching system authorized in RCW 46.20.037 under contract as of the  
21 effective date of this section. Upon renewal or extension of the  
22 contract as of the effective date of this section, or upon entering  
23 into a new contract for facial recognition services, the department  
24 of licensing must ensure that the facial recognition service provider  
25 of the system authorized in RCW 46.20.037 fulfills the requirements  
26 of this section.

27 NEW SECTION. **Sec. 8.** State and local government agencies using  
28 a facial recognition service must conduct periodic training of all  
29 individuals who operate a facial recognition service or who process  
30 personal data obtained from the use of a facial recognition service.  
31 The training must include, but not be limited to, coverage of:

32 (1) The capabilities and limitations of the facial recognition  
33 service;

34 (2) Procedures to interpret and act on the output of the facial  
35 recognition service; and

36 (3) To the extent applicable to the deployment context, the  
37 meaningful human review requirement for decisions that produce legal  
38 effects concerning individuals or similarly significant effects  
39 concerning individuals.

1        NEW SECTION.    **Sec. 9.**    (1) State and local government agencies  
2 must disclose their use of a facial recognition service on a criminal  
3 defendant to that defendant in a timely manner prior to trial.

4        (2) State and local government agencies using a facial  
5 recognition service shall maintain records of their use of the  
6 service that are sufficient to facilitate public reporting and  
7 auditing of compliance with agencies' facial recognition policies.

8        (3) In January of each year, any judge who has issued a warrant  
9 for ongoing surveillance, or an extension thereof, as described in  
10 section 12(1) of this act, that expired during the preceding year, or  
11 who has denied approval of such a warrant during that year shall  
12 report to the administrator for the courts:

13        (a) The fact that a warrant or extension was applied for;

14        (b) The fact that the warrant or extension was granted as applied  
15 for, was modified, or was denied;

16        (c) The period of ongoing surveillance authorized by the warrant  
17 and the number and duration of any extensions of the warrant;

18        (d) The identity of the applying investigative or law enforcement  
19 officer and agency making the application and the person authorizing  
20 the application; and

21        (e) The nature of the public spaces where the surveillance was  
22 conducted.

23        NEW SECTION.    **Sec. 10.**    This chapter does not apply to a state or  
24 local government agency that is mandated to use a specific facial  
25 recognition service pursuant to a federal regulation or order.

26        NEW SECTION.    **Sec. 11.**    (1)(a) A legislative task force on facial  
27 recognition services is established, with members as provided in this  
28 subsection.

29        (i) The president of the senate shall appoint one member from  
30 each of the two largest caucuses of the senate;

31        (ii) The speaker of the house of representatives shall appoint  
32 one member from each of the two largest caucuses of the house of  
33 representatives;

34        (iii) Eight representatives from advocacy organizations that  
35 represent individuals or protected classes of communities  
36 historically impacted by surveillance technologies including, but not  
37 limited to, African American, Hispanic American, Native American, and

1 Asian American communities, religious minorities, protest and  
2 activist groups, and other vulnerable communities;

3 (iv) Two members from law enforcement or other agencies of  
4 government;

5 (v) One representative from a retailer or other company who  
6 deploys facial recognition services in physical premises open to the  
7 public;

8 (vi) Two representatives from consumer protection organizations;

9 (vii) Two representatives from companies that develop and provide  
10 facial recognition services; and

11 (viii) Two representatives from universities or research  
12 institutions who are experts in either facial recognition services or  
13 their sociotechnical implications, or both.

14 (b) The task force shall choose two cochairs from among its  
15 legislative membership.

16 (2) The task force shall review the following issues:

17 (a) Provide recommendations addressing the potential abuses and  
18 threats posed by the use of a facial recognition service to civil  
19 liberties and freedoms, privacy and security, and discrimination  
20 against vulnerable communities, as well as other potential harm,  
21 while also addressing how to facilitate and encourage the continued  
22 development of a facial recognition service so that individuals,  
23 businesses, government, and other stakeholders in society continue to  
24 utilize its benefits;

25 (b) Provide recommendations regarding the adequacy and  
26 effectiveness of applicable Washington state laws; and

27 (c) Conduct a study on the quality, accuracy, and efficacy of a  
28 facial recognition service including, but not limited to, its  
29 quality, accuracy, and efficacy across different subpopulations.

30 (3) Staff support for the task force must be provided by senate  
31 committee services and the house of representatives office of program  
32 research.

33 (4) Legislative members of the task force are reimbursed for  
34 travel expenses in accordance with RCW 44.04.120. Nonlegislative  
35 members are not entitled to be reimbursed for travel expenses if they  
36 are elected officials or are participating on behalf of an employer,  
37 governmental entity, or other organization. Any reimbursement for  
38 other nonlegislative members is subject to chapter 43.03 RCW.

39 (5) The expenses of the task force must be paid jointly by the  
40 senate and the house of representatives. Task force expenditures are

1 subject to approval by the senate facilities and operations committee  
2 and the house of representatives executive rules committee, or their  
3 successor committees.

4 (6) The task force shall report its findings and recommendations  
5 to the governor and the appropriate committees of the legislature by  
6 September 30, 2021.

7 (7) This section expires May 1, 2022.

8 NEW SECTION. **Sec. 12.** A new section is added to chapter 9.73  
9 RCW to read as follows:

10 (1) State and local government agencies may not use a facial  
11 recognition service to engage in ongoing surveillance unless the use  
12 is in support of law enforcement activities and there is probable  
13 cause to believe that an individual has committed, is engaged in, or  
14 is about to commit, a felony or there is a need by law enforcement to  
15 invoke their community care-taking function, and either:

16 (a) A court order has been obtained to permit the use of the  
17 facial recognition service for ongoing surveillance; or

18 (b) Where the agency reasonably determines that an exigent  
19 circumstance exists, and an appropriate court order is obtained as  
20 soon as reasonably practicable. In the absence of an authorizing  
21 order, such use must immediately terminate at the earliest of the  
22 following:

23 (i) The information sought is obtained;

24 (ii) The application for the order is denied; or

25 (iii) When forty-eight hours have lapsed since the beginning of  
26 the emergency surveillance for the purpose of ongoing surveillance.

27 (2) State and local government agencies must not apply a facial  
28 recognition service to any individual based on their religious,  
29 political, or social views or activities, participation in a  
30 particular noncriminal organization or lawful event, or actual or  
31 perceived race, ethnicity, citizenship, place of origin, age,  
32 disability, gender, gender identity, sexual orientation, or other  
33 characteristic protected by law. This subsection does not condone  
34 profiling including, but not limited to, predictive law enforcement  
35 tools. The prohibition in this subsection does not prohibit state and  
36 local government agencies from applying a facial recognition service  
37 to an individual who happens to possess one or more of these  
38 characteristics where an officer of that agency holds a reasonable  
39 suspicion that that individual has committed, is engaged in, or is

1 about to commit a felony or there is need to invoke their community  
2 care-taking function.

3 (3) State and local government agencies may not use a facial  
4 recognition service to create a record describing any individual's  
5 exercise of rights guaranteed by the First Amendment of the United  
6 States Constitution and by Article I, section 5 of the state  
7 Constitution, unless:

8 (a) Such use is specifically authorized by applicable law and is  
9 pertinent to and within the scope of an authorized law enforcement  
10 activity; and

11 (b) There is reasonable suspicion to believe the individual has  
12 committed, is engaged in, or is about to commit a felony or there is  
13 need to invoke their community care-taking function.

14 (4) Law enforcement agencies that utilize body worn camera  
15 recordings shall comply with the provisions of RCW 42.56.240(14).

16 (5) A facial recognition service match alone does not constitute  
17 reasonable suspicion.

18 NEW SECTION. **Sec. 13.** Sections 1 through 10 of this act  
19 constitute a new chapter in Title 43 RCW."

**SSB 6280 - S AMD 1155**  
By Senator Nguyen

**ADOPTED 02/19/2020**

20 On page 1, line 1 of the title, after "services;" strike the  
21 remainder of the title and insert "adding a new section to chapter  
22 9.73 RCW; adding a new chapter to Title 43 RCW; creating a new  
23 section; and providing an expiration date."

EFFECT: Clarifies the user of a facial recognition service in the  
definitions of facial recognition service, persistent tracking, and  
recognition.

Exempts services that grant or deny access to an electronic  
device or that process for the purpose of redacting a recording from  
the definition of facial recognition service.

Provides definitions for identification and verification.

Requires the accountability report to include protocols regarding  
security breach notification requirements under current law and  
information related to a facial recognition service such as rates of  
false matches.

Increases the number of representatives from advocacy  
organizations on the task force from two to eight.

Adds two representatives from consumer protection organizations to the task force.

Specifies that profiling is not condoned and that a facial recognition service match does not constitute reasonable suspicion.

Makes technical corrections.

Revises the definition of serious criminal offense.

Clarifies that judges shall submit required reports to the administrator for the courts.

Clarifies that a facial recognition service may not be used for ongoing surveillance unless there is probable cause to believe that an individual has committed, is engaged in, or is about to commit a felony or there is a need by law enforcement to invoke their community care-taking function.

Clarifies permitted uses of a facial recognition service by requiring a court order or determination of exigent circumstances.

Clarifies that prohibitions do not prohibit application of a facial recognition service if there is reasonable suspicion that an individual has committed, is engaged in, or is about to commit a felony or there is need to invoke community care-taking functions.

--- END ---
