BERNARD DEAN

**Chief Clerk**

FILED

April 3, 2020

**Secretary of State  
State of Washington**

---

**SUBSTITUTE HOUSE BILL 2905**

---

AS AMENDED BY THE SENATE

Passed Legislature - 2020 Regular Session

**State of Washington**

**66th Legislature**

**2020 Regular Session**

**By** House Appropriations (originally sponsored by Representatives J. Johnson, Riccelli, Caldier, Doglio, Pollet, and Ryu)

READ FIRST TIME 02/11/20.

1 AN ACT Relating to increasing outreach and engagement with access  
2 to baby and child dentistry programs; adding a new section to chapter  
3 74.09 RCW; and creating a new section.

4 BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF WASHINGTON:

5 NEW SECTION. **Sec. 1.** The legislature recognizes that oral  
6 disease is the most common childhood chronic disease, yet is almost  
7 entirely preventable, impacting school readiness, future  
8 employability, and overall well-being and quality of life. The access  
9 to baby and child dentistry program has made Washington a leader in  
10 oral health care access across the nation, providing greater levels  
11 of access and utilization for medicaid eligible children under six  
12 years old. The legislature further recognizes that the access to baby  
13 and child dentistry program connects children to a dental home in  
14 their communities, enabling children to get off to a healthy start.  
15 While the state has made great strides, children of color continue to  
16 experience higher rates of tooth decay than their peers and children  
17 under the age of two are not accessing care at the same rate as older  
18 children. Therefore, it is the legislature's intent to expand on the  
19 program investments the state has already made to provide additional  
20 outreach and support to eligible families and providers, increase

1 very young children's access to care, and further reduce racial and  
2 ethnic disparities in access to care and oral health outcomes.

3 NEW SECTION. **Sec. 2.** A new section is added to chapter 74.09  
4 RCW to read as follows:

5 (1) The authority, in consultation with the office of equity,  
6 created in chapter . . . (Engrossed Second Substitute House Bill No.  
7 1783), Laws of 2020, shall work with the statewide managing partner  
8 of the access to baby and child dentistry program to develop a local  
9 access to baby and child dentistry program fund allocation formula,  
10 key deliverables, and target metrics for increased outreach and  
11 provider engagement and support with the goal of reducing racial and  
12 ethnic disparities.

13 (2) The authority, in consultation with the office of equity,  
14 created in chapter . . . (Engrossed Second Substitute House Bill No.  
15 1783), Laws of 2020, shall collaborate with stakeholders to monitor  
16 progress toward the goals articulated in subsection (1) of this  
17 section and provide support to local access to baby and child  
18 dentistry programs and providers.

Passed by the House March 10, 2020.

Passed by the Senate March 6, 2020.

Approved by the Governor April 2, 2020.

Filed in Office of Secretary of State April 3, 2020.
