BRAD HENDRICKSON

Secretary

FILED

March 31, 2020

**Secretary of State
State of Washington**

SUBSTITUTE SENATE BILL 6086

Passed Legislature - 2020 Regular Session

State of Washington

66th Legislature

2020 Regular Session

By Senate Behavioral Health Subcommittee to Health & Long Term Care
(originally sponsored by Senators Hasegawa, Keiser, Kuderer, and
Nguyen)

READ FIRST TIME 02/03/20.

1 AN ACT Relating to increasing access to medications for people
2 with opioid use disorder; adding a new section to chapter 18.64 RCW;
3 and creating a new section.

4 BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF WASHINGTON:

5 NEW SECTION. **Sec. 1.** (1) The legislature declares opioid use
6 disorder is a public health crisis. Access to medications to treat
7 this disease needs to be made readily available, especially to
8 vulnerable populations who may not be able to access medical care or
9 a pharmacy.

10 (2) The legislature recognizes that increased access to
11 buprenorphine, as well as additional medications necessary to aid in
12 recovery, could benefit individuals who are suffering from opioid use
13 disorder. The legislature further recognizes that access to
14 pharmacies may be difficult for vulnerable populations. To increase
15 access to medications while ensuring patient safety the legislature
16 intends to create a new credential to allow for a pharmacy license to
17 be extended to a remote dispensing site where technology is used to
18 dispense medications.

19 NEW SECTION. **Sec. 2.** A new section is added to chapter 18.64
20 RCW to read as follows:

1 (1) The license of location for a pharmacy licensed under this
2 chapter may be extended to a remote dispensing site where technology
3 is used to dispense medications approved by the United States food
4 and drug administration for the treatment of opioid use disorder.

5 (2) In order for a pharmacy to use remote dispensing sites, a
6 pharmacy must register each separate remote dispensing site with the
7 commission.

8 (3) The commission shall adopt rules that establish minimum
9 standards for remote dispensing sites registered under this section.
10 The minimum standards shall address who may retrieve medications for
11 opioid use disorder stored in or at a remote dispensing site pursuant
12 to a valid prescription or chart order. The minimum standards must
13 require the pharmacy be responsible for stocking and maintaining a
14 perpetual inventory of the medications for opioid use disorder stored
15 in or at the registered remote dispensing site.

16 (4) The secretary may adopt rules to establish a reasonable fee
17 for obtaining and renewing a registration issued under this section.

18 (5) The registration issued under this section will be considered
19 as part of the pharmacy license issued under RCW 18.64.043. If the
20 underlying pharmacy license is not active, then the registration
21 shall be considered inoperable by operation of law.

Passed by the Senate February 14, 2020.

Passed by the House March 6, 2020.

Approved by the Governor March 31, 2020.

Filed in Office of Secretary of State March 31, 2020.
