

SB 5370 - DIGEST

Creates the state commercial aviation coordinating commission.

Requires the department of transportation to provide staff support for coordinating and administering the commission and technical assistance as requested by commission members.

Requires the commission to: (1) Review existing data and conduct research as needed to determine the state's long-range commercial aviation facility needs and the site of a new commercial aviation facility;

(2) Make recommendations to the legislature on future aviation facility needs;

(3) Identify a preferred location for a new commercial aviation facility; and

(4) Project a timeline for the development of an additional commercial aviation facility that is completed and functional by the year 2040.
