7 (i) Laws that regulate greenhouse gas emissions from stationary  
8 sources, and the greenhouse gas emission reductions attributable to  
9 each chapter, relative to a baseline in which this chapter and all  
10 other state laws that regulate greenhouse gas emissions are presumed  
11 to remain in effect; and

12 (ii) Laws whose implementation may effectuate reductions in  
13 greenhouse gas emissions from stationary sources.

14 (b) The state laws that the office of financial management may  
15 address in completing the report required in this subsection include,  
16 but are not limited to:

32 (c) The office of financial management may contract for all or  
33 part of the work product required under this subsection."

EFFECT: Preempts state agencies from adopting or enforcing greenhouse gas emission limitations or greenhouse gas pricing or market-based emission programs on stationary sources authorized by any state statute that is not in effect as of July 1, 2022. Requires the Office of Financial Management (OFM) to submit a report to the Legislature by December 1, 2023, that summarizes (1) other state laws besides the Climate Commitment Act that effectuate greenhouse gas emission reductions and (2) other state laws besides the Climate Commitment Act that regulate greenhouse gas emissions from stationary sources, including the greenhouse gas emission reductions attributable to those laws. Authorizes OFM to contract for all or part of the work product related to the 2023 report.
