READ FIRST TIME 02/22/21.

1 AN ACT Relating to the provision of public education to youth in
2 or released from institutional education facilities; amending RCW
3 28A.150.200, 43.41.400, and 13.04.145; reenacting and amending RCW
4 28A.320.192; adding new sections to chapter 28A.190 RCW; adding a new
5 section to chapter 28A.300 RCW; creating new sections; repealing RCW
6 28A.190.015 and 28A.190.020; and providing expiration dates.

7 BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF WASHINGTON:

8 NEW SECTION. **Sec. 1.** (1) The legislature finds that students in
9 Washington's secure facilities have been unable to access the
10 education and supports they need to make life-changing academic
11 progress. As a result, these students have experienced dismal
12 graduation and recidivism rates, and have lost invaluable
13 opportunities for hope and transformation.

14 (2) In 2020, the legislature enacted chapter 226, Laws of 2020,
15 and established the task force on improving institutional education
16 programs and outcomes. The task force efforts resulted in a series of
17 well-considered recommendations that inform this act and, perhaps
18 more importantly, offer a new opportunity to make critical policy
19 advances for students and dedicated staff that are too often
20 overlooked.

1 (3) The legislature acknowledges that institutional education
2 facilities are part of the public school system and that the students
3 in secure facilities deserve full access to the state's basic
4 education program and its promise of an opportunity to graduate with
5 a meaningful diploma that prepares them for postsecondary education,
6 gainful employment, and citizenship.

7 (4) The legislature finds that key reforms are needed to the
8 institutional education system, including the development of an
9 education program that is both student-centered and anchored in the
10 principle that student improvement through education must be the
11 system's primary objective. The legislature further finds that an
12 effective institutional education system must have sufficient funding
13 and proper administrative structures to assure effective
14 functionality, oversight, and accountability.

15 (5) Although the task of making meaningful reforms to the
16 institutional education system cannot be accomplished through a
17 single legislative act, the legislature intends for this act to be a
18 significant step of progress in better meeting the needs of students
19 who are in or have been involved with the traditional components of
20 the juvenile justice system, with subsequent legislative efforts to
21 be focused on the education of students in other institutional
22 settings, including those in long-term inpatient programs and those
23 with exceptional mental or physical needs.

24 (6) The legislature, therefore, intends to establish new and
25 modified requirements for the institutional education system that
26 promote student success through improved agency and education
27 provider practices, updated credit-awarding practices, new data
28 collection and reporting requirements, and the development of expert
29 recommendations that will create an implementable blueprint for
30 successfully meeting complex student needs and improving education
31 and postrelease outcomes.

32 **Sec. 2.** RCW 28A.150.200 and 2017 3rd sp.s. c 13 s 401 are each
33 amended to read as follows:

34 (1) The program of basic education established under this chapter
35 is deemed by the legislature to comply with the requirements of
36 Article IX, section 1 of the state Constitution, which states that
37 "It is the paramount duty of the state to make ample provision for
38 the education of all children residing within its borders, without
39 distinction or preference on account of race, color, caste, or sex,"

1 and is adopted pursuant to Article IX, section 2 of the state
2 Constitution, which states that "The legislature shall provide for a
3 general and uniform system of public schools."

4 (2) The legislature defines the program of basic education under
5 this chapter as that which is necessary to provide the opportunity to
6 develop the knowledge and skills necessary to meet the state-
7 established high school graduation requirements that are intended to
8 allow students to have the opportunity to graduate with a meaningful
9 diploma that prepares them for postsecondary education, gainful
10 employment, and citizenship. Basic education by necessity is an
11 evolving program of instruction intended to reflect the changing
12 educational opportunities that are needed to equip students for their
13 role as productive citizens and includes the following:

14 (a) The instructional program of basic education the minimum
15 components of which are described in RCW 28A.150.220;

16 (b) The program of education provided by chapter 28A.190 RCW for
17 students in residential schools as defined by (~~RCW 28A.190.020~~)
18 section 3 of this act and for juveniles in detention facilities as
19 identified by RCW 28A.190.010;

20 (c) The program of education provided by chapter 28A.193 RCW for
21 individuals under the age of eighteen who are incarcerated in adult
22 correctional facilities;

23 (d) Transportation and transportation services to and from school
24 for eligible students as provided under RCW 28A.160.150 through
25 28A.160.180; and

26 (e) Statewide salary allocations necessary to hire and retain
27 qualified staff for the state's statutory program of basic education.

28 NEW SECTION. **Sec. 3.** A new section is added to chapter 28A.190
29 RCW to read as follows:

30 The definitions in this section apply throughout this chapter
31 unless the context clearly requires otherwise.

32 (1) "Institutional education facility" means residential
33 habilitation and child study and treatment centers operated by the
34 department of social and health services, state long-term juvenile
35 institutions operated by the department of children, youth, and

38 that incarcerate juveniles committed as adults.

7 providing education services to youth in an institutional education
8 facility.

15 education facilities: Green Hill school, Naselle Youth Camp, Echo
16 Glen, Lakeland Village, Rainier school, Yakima Valley school,

19 centers established by the department of social and health services
20 or the department of children, youth, and families for the diagnosis,
21 confinement, and rehabilitation of juveniles committed by the courts
22 or for the care and treatment of persons who are exceptional in their
23 needs by reason of mental or physical deficiency. "Residential
24 school" does not include the state schools for the blind, the
25 Washington state center for childhood deafness and hearing loss, or
26 adult correctional institutions.

27 (6) "School district" has the same meaning as in RCW 28A.315.025
28 and includes any educational service district that has entered into
29 an agreement to provide a program of education for residents at an
30 institutional education facility on behalf of the school district as
31 a cooperative service program pursuant to RCW 28A.310.180.

37 **Sec. 4.** RCW 28A.320.192 and 2017 c 166 s 1 and 2017 c 40 s 1 are
38 each reenacted and amended to read as follows:

1 (1) In order to eliminate barriers and facilitate the on-time
2 grade level progression and graduation of students who are homeless
3 as described in RCW 28A.300.542, dependent pursuant to chapter 13.34
4 RCW, (~~(or)~~) at-risk youth or children in need of services pursuant to
5 chapter 13.32A RCW, or in or have been released from an institutional
6 education facility, school districts must incorporate the procedures
7 in this section.

8 (2) School districts must waive specific courses required for
9 graduation if similar coursework has been satisfactorily completed in
10 another school district or must provide reasonable justification for
11 denial. Should a waiver not be granted to a student who would qualify
12 to graduate from the sending school district, the receiving school
13 district must provide an alternative means of acquiring required
14 coursework so that graduation may occur on time.

15 (3) School districts must consolidate partial credit, unresolved,
16 or incomplete coursework and provide opportunities for credit accrual
17 in a manner that eliminates academic and nonacademic barriers for the
18 student.

19 (4) For students in or released from an institutional education
20 facility, school districts must provide students with access to world
21 language proficiency tests, American sign language proficiency tests,
22 and general education development tests. Access to the tests may not
23 be conditioned or otherwise dependent upon a student's request.
24 School districts must award at least one high school credit to
25 students upon meeting the standard established by the state board of
26 education under subsection (9) of this section on a world language or
27 American sign language proficiency test or a general education
28 development test. Additional credits may be awarded by the district
29 if a student has completed a course or courses of study to prepare
30 for the test. If the school district has a local policy for awarding
31 mastery-based credit on state or local assessments, the school
32 district must apply this policy for students in or released from an
33 institutional education facility.

34 (5) For students who have been unable to complete an academic
35 course and receive full credit due to withdrawal or transfer, school
36 districts must grant partial credit for coursework completed before
37 the date of withdrawal or transfer and the receiving school must
38 accept those credits, apply them to the student's academic progress
39 or graduation or both, and allow the student to earn credits

1 regardless of the student's date of enrollment in the receiving
2 school.

3 ~~((5))~~ (6) Should a student who is transferring at the beginning
4 or during the student's junior or senior year be ineligible to
5 graduate from the receiving school district after all alternatives
6 have been considered, the sending and receiving districts must ensure
7 the receipt of a diploma from the sending district if the student
8 meets the graduation requirements of the sending district.

9 ~~((6))~~ (7) The superintendent of public instruction shall adopt
10 and distribute to all school districts lawful and reasonable rules
11 prescribing the substantive and procedural obligations of school
12 districts to implement these provisions.

13 ~~((7))~~ (8) Should a student have enrolled in three or more
14 school districts as a high school student and have met state
15 requirements but be ineligible to graduate from the receiving school
16 district after all alternatives have been considered, the receiving
17 school district must waive its local requirements and ensure the
18 receipt of a diploma.

19 (9) The state board of education, in consultation with the office
20 of the superintendent of public instruction, shall identify the
21 scores students must achieve in order to meet the standard on world
22 language or American sign language proficiency tests and general
23 education development tests in accordance with subsection (4) of this
24 section.

26 facility" and "school district" have the same meaning as in section 3
27 of this act.

28 NEW SECTION. Sec. 5. (1) The office of the superintendent of
29 public instruction shall examine the dropout prevention,
30 intervention, and retrieval system established under chapter 28A.175
31 RCW, including associated rules. The purpose of the examination is to
32 recommend new or modified dropout reengagement requirements and
33 practices that will promote credit earning and high school completion
34 by youth and postresident youth.

35 (2) Findings and recommendations resulting from the examination
36 required by this section must be submitted by November 1, 2021, to

5 RCW to read as follows:

6 (1) Institutional education providers shall annually deliver to
7 all staff providing an institutional education program one day of
8 professional development that builds pedagogical strategies to
9 navigate the intersectionality of factors impacting student learning,
10 including trauma, and physical, mental, and behavioral health in
11 order to achieve academic milestone progression. At a minimum, the
12 professional development must include training on the following
13 topics:

14 (a) The cognitive, psychosocial, and emotional development of
15 adolescents;

16 (b) Mental and behavioral health literacy;

17 (c) The complex needs of students involved in the juvenile

22 28A.410.260; and

23 (e) Working with adolescents with many adverse childhood
24 experiences.

25 (2) In addition to the professional learning allocations provided
26 in RCW 28A.150.415, the legislature shall provide and the
27 superintendent of public instruction shall allocate to institutional
28 education providers one professional learning day of funding to
29 provide the professional development required under this section.

30 NEW SECTION. **Sec. 7.** A new section is added to chapter 28A.190
31 RCW to read as follows:

32 With respect to students in institutional education facilities
33 governed by this chapter, the department of children, youth, and
34 families must:

35 (1) Identify data needed by the department and institutional
36 education facilities to evaluate the facilities' administrative and
37 operational role in providing education to students and supporting
38 students' educational outcomes. This data must include attendance,

1 discipline rates, course and certificate completion rates, and other
2 educational metrics;

3 (2) Analyze, and make a plan to resolve, department and
4 institutional education facilities policies and practices that
5 suspend the provision of educational services to a student as a
6 disciplinary action, so that students are never denied the
7 opportunity to engage in educational activities; and

8 (3) Review and resolve department and institutional education
9 facility policies and practices that create barriers to students
10 participating in meaningful learning opportunities, for example,
11 career and technical education and postsecondary opportunities, in
12 whatever location and format those opportunities are provided.

13 (4) In meeting the requirements of this section, the department
14 of children, youth, and families must seek input from institutional
15 education providers.

21 Washington's every student succeeds act consolidated plan, Title I,
22 part D: Prevention and intervention programs for children and youth
23 who are neglected, delinquent, or at-risk, and the education outcomes
24 resulting from the funding and provided services.

25 (b) The purpose of the report is to inform the legislature of
26 progress toward the goals established in the consolidated plan and
27 provide the legislature with the opportunity to determine whether
28 subsequent legislation should be enacted to ensure the education
29 needs of youth and postresident youth.

30 (2) Reports required by this section, which must delineate the
31 recipients of the federal funds and how they are being used to

29 state-operated community facilities, rules to implement
30 accountability measures for special education services delivered by
31 institutional education providers, including the establishment of
