The appropriation in this section is subject to the following conditions and limitations: The entire general fund—federal appropriation (CRF) is provided solely for expenditure into the COVID-19 public health response account, from which the department of health may make expenditures from this sum solely for the statewide response to the COVID-19 pandemic.

NEW SECTION. **Sec. 19.** A new section is added to chapter 43.70 RCW to read as follows:

COVID-19 PUBLIC HEALTH RESPONSE ACCOUNT CREATED. (1) The COVID-19 public health response account is created in the custody of the state treasurer. The account shall consist of funds appropriated by the legislature and grants received by the department of health for activities in response to the coronavirus pandemic (COVID-19). Only the secretary, or the secretary's designee, may authorize expenditures from the account for costs related to the public health response to COVID-19, subject to any limitations imposed by grant funding deposited into the account. The COVID-19 public health response account is subject to allotment procedures under chapter 43.88 RCW, but an appropriation is not required for expenditures.

1 (2) (a) The legislature finds that a safe, efficient, and
2 effective delivery of vaccinations is of the utmost importance for
3 restoring societal and economic functions. As we learn more about the
4 virus, the vaccine, and challenges to vaccine allocation and
5 distribution, it is anticipated that the state's COVID-19 vaccination
6 distribution plan will evolve. To that end, the legislature has
7 provided flexibility by funding vaccine expenditure at the discretion
8 of the secretary and without an appropriation. However, to maintain
9 fiscal control and to ensure spending priorities align, the
10 department is required to collaborate and communicate with the chairs
11 and ranking members of the health care and fiscal committees of the
12 legislature and local health jurisdictions in advance of any
13 significant revision of the state's COVID-19 vaccination plan and to
14 provide regular updates on its implementation and spending.

15 (b) As part of the public health response to COVID-19, the
16 expenditures from the account must be used to effectively administer
17 the vaccine for COVID-19 and conduct testing and contact tracing. The
18 department must ensure that COVID-19 outreach is accessible,
19 culturally and linguistically appropriate, and that it includes
20 community-driven partnerships and strategies.

21 (c) When making expenditures for administering the vaccine for
22 COVID-19, the department must focus on identifying persons for
23 vaccination, prioritizing hard-to-reach communities, making the
24 vaccine accessible, and providing support to schools for safe
25 reopening.

26 (d) When making expenditures regarding testing and contact
27 tracing, the department must provide equitable access, prioritize
28 hard-to-reach communities, and provide support and resources to
29 facilitate the safe reopening of schools while minimizing community
30 spread of the virus.

31 (3) When making expenditures from the account, the department
32 must include an emphasis on public communication regarding the
33 availability and accessibility of the vaccine and testing, and the
34 importance of vaccine and testing availability to the safe reopening
35 of the state.

36 (4) (a) The department must report to the fiscal and health care
37 committees of the legislature on a monthly basis regarding its
38 COVID-19 response.

1 (b) To the extent that it is available, the report must include
2 data regarding vaccine distribution, testing, and contact tracing, as
3 follows:

4 (i) The number of vaccines administered per day, including
5 regional data regarding the location and age groups of persons
6 receiving the vaccine, specifically identifying hard-to-reach
7 communities in which vaccines were administered; and

8 (ii) The number of tests conducted per week, including data
9 specifically addressing testing conducted in hard-to-reach
10 communities.

11 (c) The first monthly report is due no later than one month from
12 the effective date of this section. Monthly reports are no longer
13 required upon the department's determination that the remaining
14 balance of the COVID-19 response account is less than \$100,000.

15 NEW SECTION. **Sec. 20.** If any provision of this act or its
16 application to any person or circumstance is held invalid, the
17 remainder of the act or the application of the provision to other
18 persons or circumstances is not affected.

19 NEW SECTION. **Sec. 21.** If any part of this act is found to be in
20 conflict with federal requirements that are a prescribed condition to
21 the allocation of federal funds to the state, the conflicting part of
22 this act is inoperative solely to the extent of the conflict and with
23 respect to the agencies directly affected, and this finding does not
24 affect the operation of the remainder of this act in its application
25 to the agencies concerned. Rules adopted under this act must meet
26 federal requirements that are a necessary condition to the receipt of
27 federal funds by the state.

28 NEW SECTION. **Sec. 22.** This act is necessary for the immediate
29 preservation of the public peace, health, or safety, or support of
30 the state government and its existing public institutions, and takes
31 effect immediately.
