AN ACT Relating to prohibiting active shooter scenarios for school safety-related drills; and amending RCW 28A.320.125.

BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF WASHINGTON:

Sec. 1. RCW 28A.320.125 and 2021 c 223 s 1 are each amended to read as follows:

(1) The legislature considers it to be a matter of public safety for public schools and staff to have current safe school plans and procedures in place, fully consistent with federal law. The legislature further finds and intends, by requiring safe school plans to be in place, that school districts will become eligible for federal assistance. The legislature further finds that schools are in a position to serve the community in the event of an emergency resulting from natural disasters or human-induced disasters.

(2) Schools and school districts shall consider the guidance and resources provided by the state school safety center, established under RCW 28A.300.630, and the regional school safety centers, established under RCW 28A.310.510, when developing their own individual comprehensive safe school plans. Each school district shall adopt and implement a safe school plan. The plan shall:

(a) Include required school safety policies and procedures;
(b) Address emergency mitigation, preparedness, response, and recovery;

(c) Include provisions for assisting and communicating with students and staff, including those with special needs or disabilities;

(d) Include a family-student reunification plan, including procedures for communicating the reunification plan to staff, students, families, and emergency responders;

(e) Use the training guidance provided by the Washington emergency management division of the state military department in collaboration with the state school safety center in the office of the superintendent of public instruction, established under RCW 28A.300.630, and the school safety and student well-being advisory committee, established under RCW 28A.300.635;

(f) Require the building principal to be certified on the incident command system;

(g) Take into account the manner in which the school facilities may be used as a community asset in the event of a community-wide emergency; and

(h) Set guidelines for requesting city or county law enforcement agencies, local fire departments, emergency service providers, and county emergency management agencies to meet with school districts and participate in safety-related drills.

(3) To the extent funds are available, school districts shall annually:

(a) Review and update safe school plans in collaboration with local emergency response agencies;

(b) Conduct an inventory of all hazardous materials;

(c) Update information to reflect current plans, including:

(i) Identifying all staff members who are trained on the national incident management system, trained on the incident command system, or are certified on the incident command system; and

(ii) Identifying school transportation procedures for evacuation, to include bus staging areas, evacuation routes, communication systems, parent-student reunification sites, and secondary transportation agreements; and

(d) Provide information to all staff on the use of emergency supplies and notification and alert procedures.

(4) School districts are encouraged to work with local emergency management agencies and other emergency responders to conduct one
tabletop exercise, one functional exercise, and two full-scale
exercises within a four-year period.

(5)(a) Due to geographic location, schools have unique safety
challenges. It is the responsibility of school principals and
administrators to assess the threats and hazards most likely to
impact their school, and to practice three basic functional drills,
shelter-in-place, lockdown, and evacuation, as these drills relate to
those threats and hazards. Some threats or hazards may require the
use of more than one basic functional drill.

(b) Schools shall conduct at least one safety-related drill per
month, including summer months when school is in session with
students. These drills must teach students three basic functional
drill responses:

(i) "Shelter-in-place," used to limit the exposure of students
and staff to hazardous materials, such as chemical, biological, or
radiological contaminants, released into the environment by isolating
the inside environment from the outside;

(ii) "Lockdown," used to isolate students and staff from threats
of violence, such as suspicious trespassers or armed intruders, that
may occur in a school or in the vicinity of a school; and

(iii) "Evacuation," used to move students and staff away from
threats, such as fires, oil train spills, lahars, or tsunamis.

(c) The drills described in (b) of this subsection must
incorporate the following requirements:

(i) A pedestrian evacuation drill for schools in mapped lahars or
tsunami hazard zones; and

(ii) An earthquake drill using the state-approved earthquake
safety technique "drop, cover, and hold."

(d) The drills described in (b) of this subsection and any other
safety-related drills conducted by schools may not be based on active
shooter scenarios.

(e) Schools shall document the date, time, and type (shelter-in-
place, lockdown, or evacuate) of each drill required under this
subsection (5), and maintain the documentation in the school office.

(f) This subsection (5) is intended to satisfy all
federal requirements for comprehensive school emergency drills and
evacuations.

(6) Educational service districts are encouraged to apply for
federal emergency response and crisis management grants with the
assistance of the superintendent of public instruction and the
Washington emergency management division of the state military department.

(7) The superintendent of public instruction may adopt rules to implement provisions of this section. These rules may include, but are not limited to, provisions for evacuations, lockdowns, or other components of a comprehensive safe school plan.

(8)(a) Whenever a first responder agency notifies a school of a situation that may necessitate an evacuation or lockdown, the agency must determine if other known schools in the vicinity are similarly threatened. The first responder agency must notify every other known school in the vicinity for which an evacuation or lockdown appears reasonably necessary to the agency's incident commander unless the agency is unable to notify schools due to duties directly tied to responding to the incident occurring. For purposes of this subsection, "school" includes a private school under chapter 28A.195 RCW.

(b) A first responder agency and its officers, agents, and employees are not liable for any act, or failure to act, under this subsection unless a first responder agency and its officers, agents, and employees acted with willful disregard.

--- END ---
