The department must determine an annual payment by beverage manufacturers or their third-party representative that is adequate to cover, but not exceed, the department's full costs to implement, administer, and enforce this chapter in the next fiscal year, including rule making. The department must equitably determine payment amounts for an individual beverage manufacturer and third-party representatives.

(ii) The department must:
(A) Apply any remaining annual payment funds from the current year to the annual payment for the coming year, if the collected annual payment exceeds the department's costs for a given year; and

(B) Increase annual payments for the coming year to cover the department's costs, if the collected annual payment was less than the department's costs for a given year.

(e) By April 1, 2022, and every April 1st thereafter, beverage manufacturers or their third-party representative must submit a payment as determined by the department under (d) of this subsection.

(3)(a) A beverage manufacturer that sells, offers for sale, or distributes plastic beverage containers in or into Washington must meet the following annual minimum postconsumer recycled content on average for the total quantity of plastic beverage containers that are sold, offered for sale, or distributed in Washington effective for beverages except dairy milk:

(4)(a) Beginning January 1, 2025, the department may, on an annual basis, review and determine whether to adjust the minimum postconsumer recycled content percentage required pursuant to subsection (3) of this section. The department's review may be initiated by the department or at the petition of the beverage manufacturing industry not more than once annually. The department may not adjust the minimum postconsumer recycled content requirements above the minimum postconsumer recycled content percentages required pursuant to subsection (3) of this section. In making a determination pursuant to this subsection, the department must consider, at a minimum, all of the following factors:
(i) Changes in market conditions, including supply and demand for postconsumer recycled content plastics, collection rates, and bale availability both domestically and globally;

(ii) Recycling rates;

(iii) The availability of recycled plastic suitable to meet the minimum postconsumer recycled content requirements pursuant to subsection (3) of this section, including the availability of high quality recycled plastic, and food-grade recycled plastic from beverage container recycling programs;

(iv) The capacity of recycling or processing infrastructure; and

(v) The progress made by beverage manufacturers in achieving the goals of this section.

NEW SECTION.  Sec. 4. BEVERAGE MANUFACTURER REPORTING REQUIREMENTS. (1)(a) Beginning April 1, 2024, beverage manufacturers, individually or through a third party representing a group of manufacturers, must provide an annual report to the department that includes the amount of virgin plastic and the amount of postconsumer recycled content by resin type used for plastic beverage containers sold, offered for sale, or distributed into Washington state, including the total postconsumer recycled content resins as a percentage of total weight. The report must be submitted under penalty of perjury and in a format and manner prescribed by the department. A manufacturer may submit national data allocated on a per capita basis for Washington to approximate the information required in this subsection if the manufacturer demonstrates to the
department that state level data is not available or feasible to generate.

(b) The department must post the information reported under this subsection on its website.

(2) A beverage manufacturer that submits information or records to the department under this chapter may request that the information or records be made available only for the confidential use of the department, the director, or the appropriate division of the department. The director of the department must give consideration to the request and if this action is not detrimental to the public interest and is otherwise in accordance with the policies and purposes of chapter 43.21A RCW, the director must grant the request for the information to remain confidential as authorized in RCW 43.21A.160.

NEW SECTION. Sec. 5. FEES. (1)(a) Beginning January 1, 2023, a beverage manufacturer that does not meet the minimum postconsumer recycled content requirements pursuant to section 3 of this act is subject to an annual administrative fee pursuant to this section. Beginning March 1, 2024, the administrative fee must be collected annually, if a reduction has not been approved pursuant to subsection (3) of this section and calculated in accordance with subsection (2) of this section.

(b) A beverage manufacturer that is assessed a fee pursuant to this section may pay the fee to the department in quarterly installments or arrange an alternative payment schedule subject to the approval of the department, not to exceed a 12-month payment plan unless an extension is needed due to unforeseen circumstances, such as a public health emergency, state of emergency, or natural disaster.

(2) Beginning March 1, 2024, and annually thereafter, the department shall invoice any assessed administrative fee for the previous calendar year based on the postconsumer recycled content requirement of the previous calendar year. The department shall calculate the amount of the fee based upon the amounts in pounds in the aggregate of virgin plastic, postconsumer recycled content plastic, and any other plastic used by the beverage manufacturer to produce beverage containers sold or offered for sale in the state, in accordance with the following:
(a)(i) The annual administrative fee amount assessed to a beverage manufacturer must equal the product of both of the following: The total pounds of plastic used multiplied by the relevant minimum postconsumer recycled plastic target percentage, less the pounds of total plastic multiplied by the percent of postconsumer recycled plastic used; multiplied by 20 cents.

(ii) Example: \[
(Total \ pounds \ of \ plastic \ used \times \ minimum \ postconsumer \ recycled \ plastic \ target \ percentage) \ - \ (Total \ pounds \ of \ plastic \ used \times \ postconsumer \ recycled \ plastic \ percentage \ used) \times 20 \ cents.\]

(b) For the purposes of (a) of this subsection, both of the following apply:

(i) The total pounds of plastic used must equal the sum of the amount of virgin plastic, postconsumer recycled content plastic, and any other plastic used by the beverage manufacturer, as reported pursuant to section 4 of this act.

(ii) If the product calculated pursuant to (a) of this subsection is equal to or less than zero, an administrative fee may not be assessed.

(3)(a)(i) The department shall consider granting a reduction of administrative fees assessed pursuant to this section for the purpose of meeting the minimum postconsumer recycled content requirements required pursuant to section 3 of this act.

(ii) In determining whether to grant the reduction pursuant to (a)(i) of this subsection, the department shall consider, at a minimum, all of the following factors:

(A) Anomalous market conditions;
(B) Disruption in, or lack of supply of, recycled plastics; and
(C) Other factors that have prevented a beverage manufacturer from meeting the requirements.

(b) In lieu of or in addition to assessing a fee under this section, the department may require a beverage manufacturer to submit a corrective action plan detailing how the beverage manufacturer plans to come into compliance with section 3 of this act.

(4) A beverage manufacturer shall pay the fee assessed pursuant to this section, as applicable, based on the information reported to the department as required under section 4 of this act in the form and manner prescribed by the department.
(5) A beverage manufacturer may appeal the fee assessed under this section to the pollution control hearings board within 30 days of assessment.

For the purposes of this section, written notification serves as notice of the violation. The department must issue at least two notices of violation by certified mail prior to assessing a penalty.

(b) A manufacturer of products in violation of this section is subject to a civil penalty for each violation in an amount not to exceed:

(i) $250 if it is the manufacturer's first penalty; and

(ii) $1,000 if the manufacturer has previously been issued a civil penalty under this section.

(c) Penalties collected under this section must be deposited in the model toxics control operating account created in RCW 70A.305.180.

pollution control hearings board established in chapter 43.21B RCW.

(3) A city, town, county, or municipal corporation may not
implement a local ordinance restricting products prohibited under
subsection (1) of this section unless the ordinance was filed by
April 1, 2021, and enacted by June 1, 2021. An ordinance restricting

Utensils provided by a food service business for use by customers may not be bundled or packaged in plastic in such a way that a customer is unable to take only the type of single-use utensil or utensils desired without also taking a different type or types of utensil.

(3)(a) The department may issue a civil penalty of no less than $150 per day and no more than $2,000 per day to the owner or operator of a food service business for each day single-use food service products are provided in violation of this section.
