projects that have cross-organizational or enterprise impact, including information technology projects that affect organizations within the coalition. The office of the chief information officer shall maintain a statewide perspective when collaborating with the coalition to ensure that projects are planned for in a manner that ensures the efficient use of state resources and maximizes federal financial participation. The appropriations in this section are subject to the following conditions and limitations:
The authority shall not accept or expend any federal funds received under a medicaid transformation waiver under healthier Washington except as described in subsections (2) and (3) of this section until specifically approved and appropriated by the legislature. To ensure compliance with legislative directive budget requirements and terms and conditions of the waiver, the authority shall implement the waiver and reporting requirements with oversight from the office of financial management. The legislature finds that appropriate management of the innovation waiver requires better analytic capability, transparency, consistency, timeliness, accuracy, and lack of redundancy with other established measures and that the patient must be considered first and foremost in the implementation and execution of the demonstration waiver. In order to effectuate these goals, the authority shall:

(a) Require the Dr. Robert Bree collaborative and the health technology assessment program to reduce the administrative burden upon providers by only requiring performance measures that are nonduplicative of other nationally established measures. The joint select committee on health care oversight will evaluate the measures chosen by the collaborative and the health technology assessment program for effectiveness and appropriateness;

(b) develop a patient satisfaction survey with the goal to gather information about whether it was beneficial for the patient to use the center of excellence location in exchange for additional out-of-pocket savings;

(c) ensure patients and health care providers have significant input into the implementation of the demonstration waiver, in order to ensure improved patient health outcomes; and

(d) in cooperation with the department of social and health services, consult with and provide notification of work on applications for federal waivers, including details on waiver duration, financial implications, and potential future impacts on the state budget, to the joint select committee on health care oversight prior to submitting waivers for federal approval.

(2) No more than $99,113,000 of the general fund—federal appropriation and no more than $82,554,000 of the general fund—local appropriation may be expended for transformation through accountable communities of health described in initiative 1 of the medicaid transformation demonstration waiver under healthier Washington, including preventing youth drug use, opioid prevention and treatment, and physical and behavioral health integration. Under this initiative, the authority shall take into account local input.
regarding community needs. In order to ensure transparency to the appropriate fiscal committees of the legislature, the authority shall provide fiscal staff of the legislature query ability into any database of the fiscal intermediary that authority staff would be authorized to access. The authority shall not increase general fund—state expenditures under this initiative. The director shall also report to the fiscal committees of the legislature all of the expenditures under this subsection and shall provide such fiscal data in the time, manner, and form requested by the legislative fiscal committees.

(3) No more than $26,837,000 of the general fund—federal appropriation and $26,839,000 of the general fund—local appropriation may be expended for tailored support for older adults and medicaid alternative care described in initiative 2 of the medicaid transformation demonstration waiver under healthier Washington as well as administrative expenses for initiative 3. The authority shall contract and provide funding to the department of social and health services to administer initiative 2. The director in cooperation with the secretary of the department of social and health services shall report to the office of financial management all of the expenditures of this section and shall provide such fiscal data in the time, manner, and form requested. The authority shall not increase general fund—state expenditures on this initiative.

(4)(a) No more than $74,069,000 of the general fund—federal appropriation and no more than $22,862,000 of the general fund—local appropriation may be expended for supported housing and employment services described in initiative 3a and 3b of the medicaid transformation demonstration waiver under healthier Washington. Under this initiative, the authority and the department of social and health services shall ensure that allowable and necessary services are provided to eligible clients as identified by the department or its third party administrator. The authority shall not increase general fund—state expenditures under this initiative. The director shall report to the joint select committee on health care oversight no less than quarterly on financial and health outcomes. The director shall also report to the fiscal committees of the legislature all of the expenditures of this subsection and shall provide such fiscal data in the time, manner, and form requested by the legislative fiscal committees.
(b) No more than $243,047,000 of the general fund—federal appropriation and no more than $99,274,000 of the general fund—local appropriation may be expended for the medicaid quality improvement program. Under federal regulations, the medicaid quality improvement program is authorized and allows states to design quality improvement programs for the medicaid population in ways that support the state's quality goals. Medicaid quality improvement program payments will not count against initiative 1 of the medicaid transformation demonstration waiver spending limit and are excluded from the waiver's budget neutrality calculation. Apple health managed care organizations and their partnering providers will receive medicaid quality improvement program payments as they meet designated milestones. Partnering providers and apple health managed care organizations will work together to achieve medicaid quality improvement program goals according to the performance period timelines and reporting deadlines as set forth by the authority. The authority shall only utilize the medicaid quality improvement program to support the transformation waiver and shall not pursue its use for other purposes. Any programs created or funded by the medicaid quality improvement program do not create an entitlement. The authority shall not increase general fund—state, federal, or local expenditures under this program. The director shall report to the joint select committee on health care oversight not less than quarterly on financial and health outcomes. The director shall report to the fiscal committees of the legislature all of the expenditures under this subsection and shall provide such fiscal data in the time, manner, and form requested by the legislative fiscal committees.

(5) Annually, no later than November 1st, the authority shall report to the governor and appropriate committees of the legislature savings attributed to behavioral and physical health integration and the level of savings achieved in areas that have integrated behavioral and physical health.

(6) Sufficient amounts are appropriated in this subsection to implement the medicaid expansion as defined in the social security act, section 1902(a)(10)(A)(i)(VIII).

(7) The legislature finds that medicaid payment rates, as calculated by the health care authority pursuant to the appropriations in this act, bear a reasonable relationship to the costs incurred by efficiently and economically operated facilities
for providing quality services and will be sufficient to enlist enough providers so that care and services are available to the extent that such care and services are available to the general population in the geographic area. The legislature finds that the cost reports, payment data from the federal government, historical utilization, economic data, and clinical input constitute reliable data upon which to determine the payment rates.

(8) Based on quarterly expenditure reports and caseload forecasts, if the health care authority estimates that expenditures for the medical assistance program will exceed the appropriations, the health care authority shall take steps including but not limited to reduction of rates or elimination of optional services to reduce expenditures so that total program costs do not exceed the annual appropriation authority.

(9) In determining financial eligibility for medicaid-funded services, the health care authority is authorized to disregard recoveries by Holocaust survivors of insurance proceeds or other assets, as defined in RCW 48.104.030.

(10) The legislature affirms that it is in the state's interest for Harborview medical center to remain an economically viable component of the state's health care system.

(11) When a person is ineligible for medicaid solely by reason of residence in an institution for mental diseases, the health care authority shall provide the person with the same benefits as he or she would receive if eligible for medicaid, using state-only funds to the extent necessary.

(12) $4,261,000 of the general fund—state appropriation for fiscal year 2022, $4,261,000 of the general fund—state appropriation for fiscal year 2023, and $8,522,000 of the general fund—federal appropriation are provided solely for low-income disproportionate share hospital payments.

(13) Within the amounts appropriated in this section, the health care authority shall provide disproportionate share hospital payments to hospitals that provide services to children in the children's health program who are not eligible for services under Title XIX or XXI of the federal social security act due to their citizenship status.

(14) $7,000,000 of the general fund—federal appropriation is provided solely for supplemental payments to nursing homes operated
by public hospital districts. The public hospital district shall be
responsible for providing the required nonfederal match for the
supplemental payment, and the payments shall not exceed the maximum
allowable under federal rules. It is the legislature's intent that
the payments shall be supplemental to and shall not in any way offset
or reduce the payments calculated and provided in accordance with
part E of chapter 74.46 RCW. It is the legislature's further intent
that costs otherwise allowable for rate-setting and settlement
against payments under chapter 74.46 RCW shall not be disallowed
solely because such costs have been paid by revenues retained by the
nursing home from these supplemental payments. The supplemental
payments are subject to retrospective interim and final cost
settlements based on the nursing homes' as-filed and final medicare
cost reports. The timing of the interim and final cost settlements
shall be at the health care authority's discretion. During either the
interim cost settlement or the final cost settlement, the health care
authority shall recoup from the public hospital districts the
supplemental payments that exceed the medicaid cost limit and/or the
medicare upper payment limit. The health care authority shall apply
federal rules for identifying the eligible incurred medicaid costs
and the medicare upper payment limit.

(15) The health care authority shall continue the inpatient
hospital certified public expenditures program for the 2021-2023
fiscal biennium. The program shall apply to all public hospitals,
including those owned or operated by the state, except those
classified as critical access hospitals or state psychiatric
institutions. The health care authority shall submit reports to the
governor and legislature by November 1, 2022, and by November 1,
2023, that evaluate whether savings continue to exceed costs for this
program. If the certified public expenditures (CPE) program in its
current form is no longer cost-effective to maintain, the health care
authority shall submit a report to the governor and legislature
detailing cost-effective alternative uses of local, state, and
federal resources as a replacement for this program. During fiscal
year 2022 and fiscal year 2023, hospitals in the program shall be
paid and shall retain one hundred percent of the federal portion of
the allowable hospital cost for each medicaid inpatient fee-for-
service claim payable by medical assistance and one hundred percent
of the federal portion of the maximum disproportionate share hospital
payment allowable under federal regulations. Inpatient medicaid

SB 5092
payments shall be established using an allowable methodology that approximates the cost of claims submitted by the hospitals. Payments made to each hospital in the program in each fiscal year of the biennium shall be compared to a baseline amount. The baseline amount will be determined by the total of (a) the inpatient claim payment amounts that would have been paid during the fiscal year had the hospital not been in the CPE program based on the reimbursement rates developed, implemented, and consistent with policies approved in the 2021-2023 biennial operating appropriations act and in effect on July 1, 2015, (b) one-half of the indigent assistance disproportionate share hospital payment amounts paid to and retained by each hospital during fiscal year 2005, and (c) all of the other disproportionate share hospital payment amounts paid to and retained by each hospital during fiscal year 2005 to the extent the same disproportionate share hospital programs exist in the 2019-2021 fiscal biennium. If payments during the fiscal year exceed the hospital's baseline amount, no additional payments will be made to the hospital except the federal portion of allowable disproportionate share hospital payments for which the hospital can certify allowable match. If payments during the fiscal year are less than the baseline amount, the hospital will be paid a state grant equal to the difference between payments during the fiscal year and the applicable baseline amount. Payment of the state grant shall be made in the applicable fiscal year and distributed in monthly payments. The grants will be recalculated and redistributed as the baseline is updated during the fiscal year. The grant payments are subject to an interim settlement within eleven months after the end of the fiscal year. A final settlement shall be performed. To the extent that either settlement determines that a hospital has received funds in excess of what it would have received as described in this subsection, the hospital must repay the excess amounts to the state when requested. $26,204,000 of the general fund—state appropriation for fiscal year 2022 and $44,788,000 of the general fund—state appropriation for fiscal year 2023 are provided solely for state grants for the participating hospitals.

(16) The health care authority shall seek public-private partnerships and federal funds that are or may become available to provide on-going support for outreach and education efforts under the federal children's health insurance program reauthorization act of 2009.
(17) The health care authority shall target funding for maternity support services towards pregnant women with factors that lead to higher rates of poor birth outcomes, including hypertension, a preterm or low birth weight birth in the most recent previous birth, a cognitive deficit or developmental disability, substance abuse, severe mental illness, unhealthy weight or failure to gain weight, tobacco use, or African American or Native American race. The health care authority shall prioritize evidence-based practices for delivery of maternity support services. To the extent practicable, the health care authority shall develop a mechanism to increase federal funding for maternity support services by leveraging local public funding for those services.

(18) The authority shall submit reports to the governor and the legislature by September 15, 2022, and no later than September 15, 2023, that delineate the number of individuals in medicaid managed care, by carrier, age, gender, and eligibility category, receiving preventative services and vaccinations. The reports should include baseline and benchmark information from the previous two fiscal years and should be inclusive of, but not limited to, services recommended under the United States preventative services task force, advisory committee on immunization practices, early and periodic screening, diagnostic, and treatment (EPSDT) guidelines, and other relevant preventative and vaccination medicaid guidelines and requirements.

(19) Managed care contracts must incorporate accountability measures that monitor patient health and improved health outcomes, and shall include an expectation that each patient receive a wellness examination that documents the baseline health status and allows for monitoring of health improvements and outcome measures.

(20) Sufficient amounts are appropriated in this section for the authority to provide an adult dental benefit.

(21) The health care authority shall coordinate with the department of social and health services to provide referrals to the Washington health benefit exchange for clients that will be ineligible for medicaid.

(22) To facilitate a single point of entry across public and medical assistance programs, and to maximize the use of federal funding, the health care authority, the department of social and health services, and the health benefit exchange will coordinate efforts to expand HealthPlanfinder access to public assistance and medical eligibility staff. The health care authority shall complete
medicaid applications in the HealthPlanfinder for households receiving or applying for medical assistance benefits.

(23) $90,000 of the general fund—state appropriation for fiscal year 2022, $90,000 of the general fund—state appropriation for fiscal year 2023, and $180,000 of the general fund—federal appropriation are provided solely to continue operation by a nonprofit organization of a toll-free hotline that assists families to learn about and enroll in the apple health for kids program.

(24) Within the amounts appropriated in this section, the authority shall reimburse for primary care services provided by naturopathic physicians.

(25) Within the amounts appropriated in this section, the authority shall continue to provide coverage for pregnant teens that qualify under existing pregnancy medical programs, but whose eligibility for pregnancy related services would otherwise end due to the application of the new modified adjusted gross income eligibility standard.

(26) Sufficient amounts are appropriated in this section to remove the mental health visit limit and to provide the shingles vaccine and screening, brief intervention, and referral to treatment benefits that are available in the medicaid alternative benefit plan in the classic medicaid benefit plan.

(27) The authority shall use revenue appropriated from the dedicated marijuana fund for contracts with community health centers under RCW 69.50.540 in lieu of general fund—state payments to community health centers for services provided to medical assistance clients, and it is the intent of the legislature that this policy will be continued in subsequent fiscal biennia.

TOTAL APPROPRIATION: $3,727,657,000

The appropriations in this section are subject to the following conditions and limitations:

1. For the purposes of this section, "behavioral health entities" means managed care organizations and administrative services organizations in regions where the authority is purchasing medical and behavioral health services through fully integrated contracts pursuant to RCW 71.24.380, and behavioral health organizations in regions that have not yet transitioned to fully integrated managed care.

2. Within the amounts appropriated in this section, funding is provided for implementation of the settlement agreement under Trueblood, et al. v. collaboration with the health care authority and the criminal justice
training commission, must implement the provisions of the settlement
agreement pursuant to the timeline and implementation plan provided
for under the settlement agreement. This includes implementing
provisions related to competency evaluations, competency restoration,
crisis diversion and supports, education and training, and workforce
development.

(4) $10,424,000 of the general fund—state appropriation for
fiscal year 2022, $10,424,000 of the general fund—state appropriation
for fiscal year 2023, and $23,444,000 of the general fund—federal
appropriation are provided solely for the authority and behavioral
health entities to continue to contract for implementation of high-
intensity programs for assertive community treatment (PACT) teams. In
determining the proportion of medicaid and nonmedicaid funding
provided to behavioral health entities with PACT teams, the authority
shall consider the differences between behavioral health entities in
the percentages of services and other costs associated with the teams
that are not reimbursable under medicaid. The authority may allow
behavioral health entities which have nonmedicaid reimbursable costs
that are higher than the nonmedicaid allocation they receive under
this section to supplement these funds with local dollars or funds
received under subsection (6) of this section. The authority and
behavioral health entities shall maintain consistency with all
essential elements of the PACT evidence-based practice model in
programs funded under this section.

(5) From the general fund—state appropriations in this section,

Of the remaining amount per fiscal year, 80 percent must be distributed to behavioral health administrative service organizations and 20 percent to managed care organizations. The percentage of funding provided to each behavioral health administrative services organization must be proportionate to the fiscal year 2021 regional allocation of flexible nonmedicaid funds.

(b) The authority must include the following language in medicaid contracts with behavioral health entities unless they are provided formal notification from the center for medicaid and medicare services that the language will result in the loss of federal medicaid participation: "The contractor may voluntarily provide services that are in addition to those covered under the state plan, although the cost of these services cannot be included when determining payment rates unless including these costs are specifically allowed under federal law or an approved waiver."

(7) The authority is authorized to continue to contract directly, rather than through contracts with behavioral health entities for children's long-term inpatient facility services.

(11) Within the amounts appropriated in this section, funding is provided for the authority to develop and phase in intensive mental health services for high needs youth consistent with the settlement agreement in T.R. v. Dreyfus and Porter.

(12) The authority must ensure allocated reserves provided to behavioral health administrative services organizations are maintained in accordance with contract language that clearly states the requirements and limitations. The authority must monitor revenue and expenditure reports and must require a behavioral health administrative services organization to submit a corrective action plan on how it will spend its unspent funding within a reasonable period of time, when its reported reserves exceed maximum levels established under the contract. The authority must review and approve such plans and monitor to ensure compliance. If the authority determines that a behavioral health administrative services organization has failed to provide an adequate excess reserve corrective action plan or is not complying with an approved plan, the authority must reduce payments to the entity in accordance with remedial actions provisions included in the contract. These
reductions in payments must continue until the authority determines that the entity has come into substantial compliance with an approved excess reserve corrective action plan.

(14) Within the amounts appropriated in this section, the authority may contract with the University of Washington and community-based providers for the provision of the parent-child assistance program or other specialized chemical dependency case management providers for pregnant, post-partum, and parenting women. Contracts with behavioral health entities must require that behavioral health entities include in their provider network specialized expertise in the provision of manualized, evidence-based chemical dependency treatment services for offenders. The department of corrections and the authority must develop a memorandum of understanding for department of corrections offenders on active supervision who are Medicaid eligible and meet medical necessity for outpatient substance use disorder treatment. The agreement will ensure that treatment services provided are coordinated, do not result in duplication of services, and maintain access and quality of care for the individuals being served. The authority must provide all necessary data, access, and reports to the department of corrections for all department of corrections offenders that receive Medicaid paid services.

(16) No more than $1,535,000 of the general fund—federal appropriation and $810,000 of the general fund—local appropriation may be expended for supported housing and employment services described in initiative 3a and 3b of the Medicaid Transformation demonstration waiver under Healthier Washington. services shall ensure that allowable and necessary services are
provided to eligible clients as identified by the authority or its
providers or third party administrator. The department and the
authority in consultation with the medicaid forecast work group,
shall ensure that reasonable reimbursements are established for
services deemed necessary within an identified limit per individual.
The authority shall not increase general fund—state expenditures
under this initiative. The secretary in collaboration with the
director of the authority shall report to the joint select committee
on health care oversight no less than quarterly on financial and
health outcomes. The secretary in cooperation with the director shall

the substance abuse prevention and treatment federal block grant
amount, is provided solely for the authority to develop a memorandum
of understanding with the department of health for implementation of
chapter 297, Laws of 2017 (opioid treatment programs). The authority

costs incurred through the implementation of the bill.

(19) $9,795,000 of the general fund—state appropriation for

for fiscal year 2023, and $15,025,000 of the general fund—federal

For managed care organizations, this funding must be provided through the behavioral health portion of the medicaid integrated managed care capitation rates. The authority must require managed care organizations to provide a report that details the methodology the managed care organization used to distribute this funding to their contracted behavioral health providers. The report submitted by behavioral health administrative service organizations and managed care organizations must include mechanisms employed to disperse the funding as well as estimated impacts to behavioral health providers in the community. General Fund—State Appropriation (FY 2023) . . . . . . . . $6,303,000

TOTAL APPROPRIATION . . . . . . . . . . . . . . . . . . . . . . $25,671,000

The appropriations in this section are subject to the following
conditions and limitations:

(1) The appropriations in this section are provided solely for
expenditure into the information technology investment revolving
account created in RCW 43.41.433. Restricted federal funds may be
transferred only to the extent permitted by law, and will otherwise
remain outside the information technology investment account. The
projects affected remain subject to the other provisions of this
section.

(2) Agencies must apply to the office of financial management and
the office of the chief information officer to receive funding from
the information technology investment revolving account. The office
of financial management must notify the fiscal committees of the
legislature of the receipt of each application and may not approve a
funding request for ten business days from the date of notification.

(3) Allocations and allotments of information technology
investment revolving account must be made for discrete stages of
projects as determined by the technology budget approved by the
office of the chief information officer and office of financial
management. Fifteen percent of total funding allocated by the office
of financial management, or another amount as defined jointly by the
office of financial management and the office of the chief
information officer, will be retained in the account, but remain
allocated to that project. The retained funding will be released to
the agency only after successful completion of that stage of the
project. For the one Washington project, the amount retained is
increased to at least twenty percent of total funding allocated for
any stage of that project.

(4)(a) Each project must have a technology budget. The technology
budget must use a method similar to the state capital budget,
identifying project costs, each fund source, and anticipated
deliverables through each stage of the entire project investment and
across fiscal periods and biennia from project onset through
implementation and close out.

(b) As part of the development of a technology budget and at each
request for funding, the agency shall submit detailed financial
information to the office of financial management and the office of
the chief information officer. The technology budget must describe
the total cost of the project to include and identify:

(i) Fund sources;
(ii) Full time equivalent staffing level to include job
classification assumptions;
(iii) Discreet financial budget codes;
(iv) Subobject codes of expenditures; and
(v) Anticipated deliverables.

(c) If a project technology budget changes and a revised
technology budget is completed, a comparison of the revised
technology budget to the last approved technology budget must be
posted to the dashboard, to include a narrative rationale on what
changed, why, and how that impacts the project in scope, budget, and
schedule.

(5)(a) Each project must have an investment plan that includes:
(i) An organizational chart of the project management team that
identifies team members and their roles and responsibilities;
(ii) The office of the chief information officer staff assigned
to the project;
(iii) An implementation schedule covering activities, critical
milestones, and deliverables at each stage of the project for the
life of the project at each agency affected by the project;
(iv) Performance measures used to determine that the project is
on time, within budget, and meeting expectations for quality of work
product; and
(v) Ongoing maintenance and operations cost of the project post
implementation and close out delineated by agency staffing,
contracted staffing, and service level agreements.

(6) Projects with estimated costs greater than one hundred
million dollars from initiation to completion and implementation may
be divided into discrete subprojects as determined by the office of
the chief information officer, except for the one Washington project
which must be divided into the following discrete subprojects: Core
financials, expanding financials and procurement, budget, and human
resources. Each subproject must have a technology budget and
investment plan as provided in this section.

(7)(a) The office of the chief information officer shall maintain
an information technology project dashboard that provides updated
information each fiscal month on projects subject to this section.
This includes, at least:

(i) Project changes each fiscal month;

(ii) Noting if the project has a completed market requirements
document;

(iii) Financial status of information technology projects under
oversight;

(iv) Coordination with agencies;

(v) Monthly quality assurance reports, if applicable;

(vi) Monthly office of the chief information officer status
reports;

(vii) Historical project budget and expenditures through fiscal
year 2021;

(viii) Budget and expenditures each fiscal month; and

(ix) Estimated annual maintenance and operations costs by fiscal
year.

(b) The dashboard must retain a roll up of the entire project
cost, including all subprojects, that can display subproject detail.

(8) If the project affects more than one agency:

(a) A separate technology budget and investment plan must be
prepared for each agency; and

(b) The dashboard must contain a statewide project technology
budget roll up that includes each affected agency at the subproject
level.

(9) For any project that exceeds two million dollars in total
funds to complete, requires more than one biennium to complete, or is
financed through financial contracts, bonds, or other indebtedness:

(a) Quality assurance for the project must report independently
to the office of the chief information officer;

(b) The office of the chief information officer must review, and,
if necessary, revise the proposed project to ensure it is flexible
and adaptable to advances in technology;

(c) The technology budget must specifically identify the uses of
any financing proceeds. No more than thirty percent of the financing
proceeds may be used for payroll-related costs for state employees assigned to project management, installation, testing, or training;

(d) The agency must consult with the office of the state treasurer during the competitive procurement process to evaluate early in the process whether products and services to be solicited and the responsive bids from a solicitation may be financed; and 

(e) The agency must consult with the contracting division of the department of enterprise services for a review of all contracts and agreements related to the project's information technology procurements.

(10) The office of the chief information officer must evaluate the project at each stage and certify whether the project is planned, managed, and meeting deliverable targets as defined in the project's approved technology budget and investment plan.

(11) The office of the chief information officer may suspend or terminate a project at any time if it determines that the project is not meeting or not expected to meet anticipated performance and technology outcomes. Once suspension or termination occurs, the agency shall unallot any unused funding and shall not make any expenditure for the project without the approval of the office of financial management. The office of the chief information officer must report on July 1 and December 1 each calendar year any suspension or termination of a project in the previous six month period to the legislative fiscal committees.

(12) The office of the chief information officer, in consultation with the office of financial management, may identify additional projects to be subject to this section, including projects that are not separately identified within an agency budget. The office of the chief information officer must report on July 1 and December 1 each calendar year any additional projects to be subjected to this section that were identified in the previous six month period to the legislative fiscal committees.

(13) Any cost to administer or implement this section for projects listed in subsection (1) of this section, must be paid from the information technology investment revolving account. For any other information technology project made subject to the conditions, limitations, and review of this section, the cost to implement this section must be paid from the funds for that project.

(14) Funds in the account are provided solely for the following information technology projects:

amounts not to exceed actual deposits into the account and attributable to those counties' share pursuant to RCW 43.79.520. If a county eligible for distributions under RCW 43.79.520 has not adopted a sales and use tax under RCW 82.14.460 before July 1, 2019, then to prevent these distributions from supplanting existing local funding for vulnerable populations, the distributions are subject to the procedural requirements in this section. Before the county may receive distributions, it must provide a final budget for the distributions, submit the final budget to the department of commerce, and publish the final budget on its web site. To develop this final budget, under RCW 36.40.040 the county must develop and hold hearings on a preliminary budget that is separate from other appropriations ordinances or resolutions, and it must consult stakeholders, including community service organizations, and must consider input received during this process. Before holding a hearing on the preliminary budget, the county must notify local governments in the county that are within the borders of the regional transit authority, and legislators whose districts are within those borders. The county must then adopt a final budget under RCW 36.40.080 for the distributions that is separate from other appropriations ordinances or resolutions. After the county submits its final budget for the distributions to the department of commerce, the department must notify the state treasurer, who may then make the distributions to the county.

continued in subsequent fiscal biennia. If chapter 365, Laws of 2019
(Second Substitute Senate Bill No. 5511, broadband service) is
enacted by June 30, 2019, then during the 2019-2021 fiscal biennium,
the legislature may direct the state treasurer to make transfers of
moneys in the public works assistance account to the statewide
broadband account. During the 2021-2023 fiscal biennium, the
legislature may appropriate moneys from the public works assistance
account for activities related to the voluntary stewardship program,

on a biennial basis. The purpose of the review is to assess the
consistency in achieving policy priorities within the private market
rental housing segment for housing persons experiencing homelessness.
The independent reviewer must notify the department and the office of
financial management of its findings. The first biennial expenditure
review, for the 2017-2019 fiscal biennium, is due February 1, 2020.
Independent reviews conducted thereafter are due February 1st of each
even-numbered year.

(4) During the 2019-2021 and 2021-2023 fiscal bienniums, expenditures from the account may also be used for shelter
capacity grants.

Sec. 960. RCW 43.320.110 and 2019 c 415 s 973 are each amended

(3) The division of securities shall deposit one hundred percent
of all moneys received that are attributable to increases in fees
implemented by rule pursuant to RCW 21.20.340(15).

(4) Disbursements from the fund shall be on authorization of the
director of financial institutions or the director's designee. In
order to maintain an effective expenditure and revenue control, the
fund shall be subject in all respects to chapter 43.88 RCW, but no
appropriation is required to permit expenditures and payment of
obligations from the fund.
During the 2017-2019 fiscal biennium, the legislature may transfer from the financial services regulation fund to the state general fund such amounts as reflect the excess fund balance of the fund. During the 2017-2019 and 2021-2023 fiscal biennia, moneys from the financial services regulation fund may be appropriated for the family prosperity account program at the department of commerce and for the operations of the department of revenue.

motor vehicle fuel from August 1, 2015, through June 30, 2016; and (vii) thirty-four and nine-tenths cents per gallon of motor vehicle fuel from July 1, 2016, through June 30, 2031; and (b) beginning July 1, 2031, and thereafter, the state's motor vehicle fuel tax rate in existence at the time of the fuel purchase, less proper deductions for refunds and costs of collection as provided in RCW 46.68.090.

(2) The treasurer must place these funds in the general fund as follows:

(a) Thirty-six percent must be credited to the ORV and nonhighway vehicle account and administered by the department of natural resources solely for acquisition, planning, development, maintenance, and management of ORV, nonmotorized, and nonhighway road recreation facilities, and information programs and maintenance of nonhighway roads;

(b) Three and one-half percent must be credited to the ORV and nonhighway vehicle account and administered by the department of fish and wildlife solely for the acquisition, planning, development, maintenance, and management of ORV, nonmotorized, and nonhighway road recreation facilities and the maintenance of nonhighway roads;

(c) Two percent must be credited to the ORV and nonhighway vehicle account and administered by the parks and recreation commission solely for the acquisition, planning, development, maintenance, and management of ORV, nonmotorized, and nonhighway road recreation facilities; and

(d) Fifty-eight and one-half percent must be credited to the nonhighway and off-road vehicle activities program account to be administered by the board for planning, acquisition, development, maintenance, and management of ORV, nonmotorized, and nonhighway road recreation facilities and for education, information, and law enforcement programs. The funds under this subsection must be expended in accordance with the following limitations:

(i) Not more than thirty percent may be expended for education, information, and law enforcement programs under this chapter;

(ii) Not less than seventy percent may be expended for ORV, nonmotorized, and nonhighway road recreation facilities. Except as provided in (d)(i) of this subsection, of this amount:

(A) Not less than thirty percent, together with the funds the board receives under RCW 46.68.045, may be expended for ORV recreation facilities;
(B) Not less than thirty percent may be expended for nonmotorized recreation facilities. Funds expended under this subsection (2)(d)(ii)(B) are known as Ira Spring outdoor recreation facilities funds; and

(C) Not less than thirty percent may be expended for nonhighway road recreation facilities;

(iii) The board may waive the minimum percentage cited in (d)(ii) of this subsection due to insufficient requests for funds or projects that score low in the board's project evaluation. Funds remaining after such a waiver must be allocated in accordance with board policy.

(3) On a yearly basis an agency may not, except as provided in RCW 46.68.045, expend more than ten percent of the funds it receives under this chapter for general administration expenses incurred in carrying out this chapter.

(4) During the 2009-2011 fiscal biennium, the legislature may appropriate such amounts as reflect the excess fund balance in the NOVA account to the department of natural resources to install consistent off-road vehicle signage at department-managed recreation sites, and to implement the recreation opportunities on department-managed lands in the Reiter block and Ahtanum state forest, and to the state parks and recreation commission. The legislature finds that the appropriation of funds from the NOVA account during the 2009-2011 fiscal biennium for maintenance and operation of state parks or to improve accessibility for boaters and off-road vehicle users at state parks will benefit boaters and off-road vehicle users and others who use nonhighway and nonmotorized recreational facilities. The appropriations under this subsection are not required to follow the specific distribution specified in subsection (2) of this section.

(5) During the 2021-2023 fiscal biennium, the legislature may appropriate moneys from the NOVA account to the department of natural resources to support programs that benefit nonhighway road and nonmotorized recreational facilities.
