AN ACT Relating to providing reentry services to persons releasing from state and local institutions; amending RCW 74.09.670, 74.09.555, 9.94.049, 72.09.370, 71.24.470, 71.24.480, and 72.09.270; adding a new section to chapter 71.24 RCW; and creating new sections.

BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF WASHINGTON:

NEW SECTION. Sec. 1. The legislature finds that the success of persons with behavioral health needs being released from confinement in a prison, jail, juvenile rehabilitation facility, state hospital, and other state and local institutions can be increased with access to continuity of medical assistance, supportive services, and other targeted assistance. The legislature finds that this act provides strategies to prevent interruption of medical assistance benefits and to allow for a seamless transfer between systems of care. The legislature further finds that this act removes stigmatizing language from the program created under RCW 72.09.370 and 71.24.470 and creates a work group to study how to expand the cost-effective strategies of this program to other populations and settings to enhance recovery, reduce recidivism, and improve safety.

Sec. 2. RCW 74.09.670 and 2016 c 154 s 2 are each amended to read as follows:
When the authority receives information that a person enrolled in medical assistance is confined in a setting in which federal financial participation is disallowed by the state's agreements with the federal government, the authority (is directed to) shall suspend, rather than terminate, medical assistance benefits (by July 1, 2017,) for these persons, including those who are incarcerated in a correctional institution as defined in RCW 9.94.049, or committed to a state hospital or other treatment facility. (This must include the ability for a) A person who is not currently enrolled in medical assistance must be allowed to apply for medical assistance in suspense status during (incarceration) confinement, and the ability to apply may not depend upon knowledge of the release or discharge date of the person. (The authority must provide a progress report describing program design and a detailed fiscal estimate to the governor and relevant committees of the legislature by December 1, 2016.)

Sec. 3. RCW 74.09.555 and 2019 c 325 s 4005 are each amended to read as follows:

(1) The authority shall adopt rules and policies providing that when persons (with a mental disorder,) who were enrolled in medical assistance immediately prior to confinement, or who become enrolled in medical assistance in suspense status during the period of confinement, are released from confinement, their medical assistance coverage (will) shall be fully reinstated (on the day) no later than at the moment of their release, subject to any expedited review of their continued eligibility for medical assistance coverage that is required under federal or state law. The authority may reinstate medical assistance prior to the day of release provided that no federal funds are expended for any purpose that is not authorized by the state's agreements with the federal government.

(2) The authority, in collaboration with the Washington association of sheriffs and police chiefs, the department of corrections, the department of children, youth, and families, managed care organizations, and behavioral health administrative services organizations, shall establish procedures for coordination between the authority and department field offices, institutions for mental disease, and correctional institutions, as defined in RCW 9.94.049, that result in prompt reinstatement of eligibility and speedy eligibility determinations for (persons who are likely to be
eligible for) medical assistance services upon release from confinement. Procedures developed under this subsection must address:

(a) Mechanisms for receiving medical assistance services applications on behalf of confined persons in anticipation of their release from confinement;

(b) Expeditious review of applications filed by or on behalf of confined persons and, to the extent practicable, completion of the review before the person is released;

(c) Mechanisms for providing medical assistance services identity cards to persons eligible for medical assistance services ((immediately upon)) before their release from confinement; ((and))

(d) Coordination with the federal social security administration, through interagency agreements or otherwise, to expedite processing of applications for federal supplemental security income or social security disability benefits, including federal acceptance of applications on behalf of confined persons; and

(e) Assuring that notification of the person's release date, current location, and other appropriate information is provided to the person's managed care organization before the person's scheduled release from confinement, or as soon as practicable thereafter.

(3) Where medical or psychiatric examinations during a person's confinement indicate that the person is disabled, the correctional institution or institution for mental diseases shall provide the authority with that information for purposes of making medical assistance eligibility and enrollment determinations prior to the person's release from confinement. The authority shall, to the maximum extent permitted by federal law, use the examination in making its determination whether the person is disabled and eligible for medical assistance.

(4) For purposes of this section, "confined" or "confinement" means incarcerated in a correctional institution, as defined in RCW 9.94.049, or admitted to an institute for mental disease, as defined in 42 C.F.R. part 435, Sec. 1009 on July 24, 2005.

(6)) The economic services administration within the department shall adopt standardized statewide screening and application practices and forms designed to facilitate the application of a confined person ((who is likely to be eligible)) for medicaid.

NEW SECTION. Sec. 4. (1) The health care authority shall apply for a waiver allowing the state to provide medicaid services to persons who are confined in a correctional institution as defined in RCW 9.94.049 or confined in a state hospital or other treatment facility up to 30 days prior to the person's release or discharge to the community. The purpose is to create continuity of care and provide reentry services.

(2) The health care authority shall consult with the work group established under section 9 of this act about how to optimize the waiver application and its chance of success, including by limiting its scope if deemed appropriate.

(3) The health care authority shall inform the governor and relevant committees of the legislature in writing when the waiver application is submitted and update them as to progress of the waiver at appropriate points.

(4) No provision of this section may be interpreted to require the health care authority to provide medicaid services to persons who are confined in a correctional institution, state hospital, or other treatment facility up to 30 days prior to the person's release or discharge unless the health care authority obtains final approval for its waiver application from the centers for medicare and medicaid services.

to themselves or others if released to the community without
supportive services; and (b) have a mental disorder. In ((determining

factors, based on research, that are linked to ((an increased)) risk
(for) of dangerousness ((of offenders)) for persons with mental
illnesses within the criminal justice system and shall include
consideration of ((an offender's)) the person's history of substance

including the division of developmental disabilities, the appropriate
managed care organization ((contracted with the health care
authority, the appropriate)) or behavioral health administrative

to the ((offender)) person upon release. In developing the plan, the
(offender) person shall be offered assistance in executing a mental health advance directive under chapter 71.32 RCW, after being fully informed of the benefits, scope, and purposes of such directive. The team may include a school district representative for ((offenders)) persons under the age of ((twenty-one)) 21. The supporting documentation shall include the ((offender's)) person's criminal history, history of judicially required or administratively ordered involuntary antipsychotic medication while in confinement, and any known history of involuntary civil commitment.

(4) If an evaluation by a designated crisis responder is recommended by the team, such evaluation shall occur not more than ten days, nor less than five days, prior to release.

(5) A second evaluation by a designated crisis responder shall occur on the day of release if requested by the team, based upon new information or a change in the ((offender's)) person's mental condition, and the initial evaluation did not result in an emergency detention or a summons under chapter 71.05 RCW.

(6) If the designated crisis responder determines an emergency detention under chapter 71.05 RCW is necessary, the department shall release the ((offender)) person only to a state hospital or to a consenting evaluation and treatment facility or secure withdrawal management and stabilization facility. The department shall arrange
transportation of the ((offender)) person to the hospital or facility.

(7) If the designated crisis responder believes that a less restrictive alternative treatment is appropriate, he or she shall seek a summons, pursuant to the provisions of chapter 71.05 RCW, to require the ((offender)) person to appear at an evaluation and treatment facility or secure withdrawal management and stabilization facility. If a summons is issued, the ((offender)) person shall remain within the corrections facility until completion of his or her term of confinement and be transported, by corrections personnel on the day of completion, directly to the identified ((evaluation and treatment)) facility.

(8) The secretary shall adopt rules to implement this section.

The institute shall collaborate with the work group established under section 9 of this act to determine research parameters and help the work group answer additional research questions including, but not limited to, the potential cost, benefit, and risks involved in expanding or replicating the reentry community services program; and what modifications to the program are most likely to prove advantageous based on the current state of knowledge about evidence-based, research-based, and promising programs.
