15 BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF WASHINGTON:

16 NEW SECTION. **Sec. 1.** (1) A capital budget is hereby adopted
17 and, subject to the provisions set forth in this act, the several
18 dollar amounts hereinafter specified, or so much thereof as shall be
19 sufficient to accomplish the purposes designated, are hereby
20 appropriated and authorized to be incurred for capital projects

1 during the period beginning with the effective date of this act and
2 ending June 30, 2023, out of the several funds specified in this act.

3 (2) The definitions in this subsection apply throughout this act
4 unless the context clearly requires otherwise.

5 (a) "Fiscal year 2022" or "FY 2022" means the period beginning
6 July 1, 2021, and ending June 30, 2022.

7 (b) "Fiscal year 2023" or "FY 2023" means the period beginning
8 July 1, 2022, and ending June 30, 2023.

9 (c) "Lapse" or "revert" means the amount shall return to an
10 unappropriated status.

11 (d) "Provided solely" means the specified amount may be spent
12 only for the specified purpose.

13 (3) Unless otherwise specifically authorized in this act, any
14 portion of an amount provided solely for a specified purpose that is
15 not expended subject to the specified conditions and limitations to
16 fulfill the specified purpose shall lapse.

17 (4) The amounts shown under the headings "Prior Biennia," "Future
18 Biennia," and "Total" in this act are for informational purposes only
19 and do not constitute legislative approval of these amounts. "Prior
20 biennia" typically refers to the immediate prior biennium for
21 reappropriations, but may refer to multiple biennia in the case of
22 specific projects. A "future biennia" amount is an estimate of what
23 may be appropriated for the project or program in the 2023-2025
24 biennium and the following three biennia; an amount of zero does not
25 necessarily constitute legislative intent to not provide funding for
26 the project or program in the future.

27 (5) "Reappropriations" in this act are appropriations and, unless
28 the context clearly provides otherwise, are subject to the relevant
29 conditions and limitations applicable to appropriations.
30 Reappropriations shall be limited to the unexpended balances
31 remaining on June 30, 2021, from the 2019-2021 biennial
32 appropriations for each project.

18 is to assist libraries operated by governmental units, as defined in
19 RCW 27.12.010, in acquiring, constructing, repairing, or
20 rehabilitating facilities.

21 (3) The department must establish a committee to develop the
22 grant program criteria and review proposals. The committee must be
23 composed of five members as provided in this subsection. The

32 2021-23 Clean Energy V - Investing in Washington's Clean Energy
33 (40000148)

34 The appropriations in this section are subject to the following
35 conditions and limitations:

36 (1) The appropriations in this section are provided solely for
37 projects that provide a benefit to the public through development,
38 demonstration, and deployment of clean energy technologies that save

1 energy and reduce energy costs, reduce harmful air emissions, or
2 increase energy independence for the state. Priority must be given to
3 projects that benefit vulnerable populations and overburdened
4 communities, including tribes and communities with high environmental
5 or energy burdens.

6 (2) The 2021 state energy strategy must guide the department in
7 the design of programs under this section, using an equity and
8 environmental justice lens for program structure and participation.
9 To the extent practicable, the department must prioritize projects
10 that build upon Washington's existing strengths in communities,
11 aerospace, maritime, information and communications technology
12 (particularly data center infrastructure, artificial intelligence and
13 machine learning), grid modernization, advanced materials, and
14 decarbonizing the built environment.

15 (3) Subject to the availability of funds, the department must
16 reconvene an advisory committee to support involvement of a broad
17 range of stakeholders in the design and implementation of programs
18 implemented under this section to encourage collaboration, leverage
19 partners, and engage communities and organizations in improving the
20 equitable distribution of benefits from the program.

21 (4) In soliciting and evaluating proposals, awarding contracts,
22 and monitoring projects under this section, the department must:

23 (a) Ensure that competitive processes, rather than sole source
24 contracting processes, are used to select all projects, except as
25 otherwise noted in this section; and

26 (b) Conduct due diligence activities associated with the use of
27 public funds including, but not limited to, oversight of the project
28 selection process, project monitoring, and ensuring that all
29 applications and contracts fully comply with all applicable laws
30 including disclosure and conflict of interest statutes.

31 (5) During project solicitation periods for grants funded with
32 this appropriation, the department must maintain a list of applicants
33 by grant program that scored competitively but did not receive a
34 grant award due to lack of available funding. These applicants must
35 be considered for funding during future grant award cycles. If the
36 department submits a 2022 supplemental budget request for this
37 program, the request must include a list of prioritized projects by
38 grant type.

39 (6) (a) Pursuant to chapter 42.52 RCW, the ethics in public
40 service act, the department must require a project applicant to

1 identify in application materials any state of Washington employees
2 or former state employees employed by the firm or on the firm's
3 governing board during the past 24 months. Application materials must
4 identify the individual by name, the agency previously or currently
5 employing the individual, job title or position held, and separation
6 date. If it is determined by the department that a conflict of
7 interest exists, the applicant may be disqualified from further
8 consideration for award of funding.

9 (b) If the department finds, after due notice and examination,
10 that there is a violation of chapter 42.52 RCW, or any similar
11 statute involving a grantee who received funding under this section,
12 either in procuring or performing under the grant, the department in
13 its sole discretion may terminate the funding grant by written
14 notice. If the grant is terminated, the department must reserve its
15 right to pursue all available remedies under law to address the
16 violation.

17 (7) The requirements in subsections (4) and (6) of this section
18 must be specified in funding agreements issued by the department.

8 (5) The appropriations in this section are subject to the
9 following reporting requirements:

10 (a) By June 30, 2023, the department must report on its website
11 the following for every previous funding cycle: The number of

9 no later than December 1, 2022.

10 (7) The legislature finds that there are insufficient data
11 sources to identify adults with intellectual and developmental
12 disabilities facing housing insecurity in Washington state and that
13 the absence of reliable data limits the ability for the legislature
14 to make informed decisions that will improve the outcomes of these
15 individuals. The legislature further finds that reliable, current
16 information about the unmet housing needs of this population will
17 position Washington state to leverage community-based partnerships
18 and funding to establish greater housing choice and increased
19 community integration of individuals with intellectual and
20 developmental disabilities.

32 determines, in consultation with the advisory group established in

34 projects in a category of projects under subsection (5) of this
35 section, the department may allocate funds to other behavioral health

17 conditions and limitations:

18 (1) (a) \$37,651,000 of the appropriation in this section is

27 (2) (a) \$9,790,000 of the appropriation in this section is

31 limited to, United States department of agriculture funded
32 multifamily housing.

33 (b) Within the amount provided in this subsection (2), the
34 department must implement the necessary procedures to enable rapid
35 commitment of funds on a first-come, first-served basis to qualifying

9 must work with the applicant to ensure that this does not create an
10 unnecessary impediment to rapidly accessing these funds.

11 (iv) Awards may be used for acquisition or for acquisition and
12 rehabilitation of properties to preserve the affordable housing units
13 beyond existing use restrictions and keep them in Washington's
14 housing portfolio.

15 (v) No single award may exceed \$2,500,000, although the
16 department must consider waivers of this award cap if an applicant
17 demonstrates sufficient need.

18 (vi) The award limit in (c)(v) of this subsection (2) may only be
19 applied to the use of awards provided under this subsection. The
20 amount awarded under this subsection may not be calculated in award
21 limitations for other housing trust fund awards.

23 funding under this program, proposals that provide the greatest
24 public benefit, as defined by the department, must be prioritized.
25 For purposes of this subsection (2)(c)(vii), "greatest public
26 benefit" includes, but is not limited to:

27 (A) The number of units that will be preserved;

4 NEW SECTION. **Sec. 1071. FOR THE DEPARTMENT OF COMMERCE**

5 2021-23 Rapid Capital Housing Acquisition (40000222)

6 The appropriation in this section is subject to the following
7 conditions and limitations:

8 (1) Except as provided in subsections (7) through (9) of this
9 section, the appropriation in this section is provided solely for the
10 department to issue competitive financial assistance to eligible
11 organizations under RCW 43.185A.040 to acquire or rent real property
12 for a rapid conversion into enhanced emergency shelters, permanent
13 supportive housing, transitional housing, permanent housing, youth
14 housing, drop-in center, or shelter for extremely low-income people,
15 as well as individuals, families, unaccompanied youth, and young
16 people experiencing sheltered and unsheltered homelessness. Amounts
17 provided in this section may be also used for renovation and building
18 update costs associated with establishment of the acquired or rented
19 facilities. For youth housing, drop-in centers, and shelter projects,
20 renovation of existing properties is an allowable activity. The
21 department may only approve funding for projects resulting in
22 increased shelter or housing capacity. Amounts provided in this
23 section may not be used for operating or maintenance costs associated
24 with providing housing, supportive services, or debt service.

25 (2) Funds may also be used for permanent financing for real
26 estate acquired using other short term acquisition sources. To expand
27 availability of permanent housing, financing of acquisition of
28 unoccupied multifamily housing is a priority. Funds must also be
29 provided specifically for the city of Seattle to move people
30 experiencing unsheltered homelessness into safe spaces, including,
31 but not limited to, tiny homes, hotels, enhanced emergency shelters,
32 or other rapid housing alternatives.

33 (3) While emphasizing the rapid deployment of the amounts
34 appropriated under this section to alleviate the immediate crisis of
35 homelessness throughout the state, the department shall establish
36 criteria for the issuance of the grants, which may include provisions
37 that require that capital improvements be held by the grantee for a
38 specified period of time appropriate to the amount of the grant,

1 during which time the property must be used for the express purpose
2 of the grant. If the grantee is found to be out of compliance with
3 provisions of the contract, the grantee shall repay to the state
4 general fund the principal amount of the grant plus interest
5 calculated at the rate of interest on state of Washington general
6 obligation bonds issued on the date most close in time to the date of
7 authorization of the grant. The criteria must include:

8 (a) The date upon which structural modifications or construction
9 would begin and the anticipated date of completion of the project;

10 (b) A detailed estimate of the costs associated with the
11 acquisition and any updates or improvements necessary to make the
12 property habitable for its intended use;

13 (c) A detailed estimate of the costs associated with opening the
14 beds or units; and

15 (d) A financial plan demonstrating the ability to maintain and
16 operate the property and support its intended tenants throughout the
17 end of the grant contract.

18 (4) The department must provide a progress report on its website
19 by December 1, 2022. The report must include:

20 (a) The total number of applications and amount of funding
21 requested; and

22 (b) A list and description of the projects approved for funding
23 including state funding, total project cost, services anticipated to
24 be provided, housing units, and anticipated completion date.

25 (5) The funding provided under this section is not subject to the
26 90-day application periods in RCW 43.185.070 or 43.185A.050. The
27 department of commerce shall dispense funds to the city of Seattle
28 and other qualifying applicants within 45 days of receipt of
29 documentation from the applicant for qualifying uses and execution of
30 any necessary contracts with the department in order to effect the
31 purpose of rapid deployment of funds under this section.

32 (6) If the department receives simultaneous applications for
33 funding under this program, proposals that reach the greatest public
34 benefit, as defined by the department, must be prioritized. For
35 purposes of this subsection (6), "greatest public benefit" must
36 include, but is not limited to:

37 (a) The greatest number of accommodations or increased shelter
38 capacity that will benefit extremely low-income people, as well as
39 individuals, families, and youth experiencing homelessness.

1 (b) Whether the project has federally funded rental assistance
2 tied to it;

33 The appropriation in this section is subject to the following
 34 conditions and limitations:

35 \$10,000,000 of the appropriation in this section is provided
 36 solely for the preservation of affordable multifamily housing at risk
 37 of losing affordability due to expiration of use restrictions that

1 otherwise require affordability including, but not limited to, United
2 States department of agriculture funded multifamily housing.

3 (1) Within the amount provided in this section, the department
4 must implement necessary procedures to enable rapid commitment of
5 funds on a first-come, first-served basis to qualifying project
6 proposals that satisfy the goal of long-term preservation of
7 Washington's affordable multifamily housing stock, particularly in
8 rural areas of the state.

9 (2) The department must adhere to the following award terms and
10 procedures for the rapid response program created under this section:

13 (b) Awards must be in the form of a recoverable grant with a 40-
14 year low-income housing covenant on the land.

15 (c) If a capital needs assessment is required, the department
16 must work with the applicant to ensure that this does not create an
17 unnecessary impediment to rapidly accessing these funds.

18 (d) Awards may be used for acquisition or for acquisition and
19 rehabilitation of properties to preserve the affordable housing units
20 beyond existing use restrictions and keep them in Washington's
21 housing portfolio.

22 (e) No single award may exceed \$2,500,000, although the
23 department must consider waivers of this award cap if an applicant
24 demonstrates sufficient need.

25 (f) The award limit in (e) of this subsection (2) may only be
26 applied to the use of awards provided under this section. The amount
27 awarded under this section may not be calculated in award limitations
28 for other housing trust fund awards.

7 The appropriation in this section is subject to the following
8 conditions and limitations:

9 (1) The department may not expend the appropriation in this
10 section unless and until the nonstate share of project costs have
11 been either expended or firmly committed, or both, in an amount
12 sufficient to complete the project or a distinct phase of the project

22 The appropriations in this section are subject to the following
23 conditions and limitations:

24 (1) (a) The appropriations in this section are provided solely to
25 the statewide broadband office for qualifying broadband
26 infrastructure projects.

27 (b) Unless otherwise stated, eligible applicants for grants
28 awarded under subsections (2) and (3) of this section are:

29 (i) Local governments, including ports and public utility
30 districts;

31 (ii) Federally recognized tribes;

32 (iii) Nonprofit organizations;

33 (iv) Nonprofit cooperative organizations; and

34 (v) Multiparty entities comprised of a combination of public
35 entity members or private entity members. A multiparty entity cannot
36 be solely comprised of private entities.

37 (c) Projects receiving grants under this section must:

1 (i) Demonstrate that the project site is under the applicant's
2 control for a minimum of 25 years, either through ownership or a
3 long-term lease; and

4 (ii) Commit to using the infrastructure funded by the grant for
5 the purposes of providing broadband connectivity for a minimum of 25
6 years.

7 (d) Unless otherwise stated, priority must be given to projects:

8 (i) Located in unserved areas of the state, which for the
9 purposes of this section means areas of Washington in which
10 households and businesses lack access to broadband service of speeds
11 at a minimum of 100 megabits per second download and at a minimum 20
12 megabits per second upload;

13 (ii) Located in geographic areas of greatest priority for the
14 deployment of broadband infrastructure to achieve the state's
15 broadband goals, as provided in RCW 43.330.536, identified with
16 department and board mapping tools; or

17 (iii) That construct last mile infrastructure, as defined in RCW
18 43.330.530.

19 (e) Unless otherwise stated, appropriations may not be used for
20 projects where a broadband provider currently provides, or has begun
21 construction to provide, broadband service to end users in the
22 proposed project area at speeds equal to or greater than the state
23 speed goals provided in RCW 43.330.536.

24 (f) The appropriations must be used for projects that use a
25 technology-neutral approach in order to expand access at the lowest
26 cost to the most unserved or underserved residents.

27 (g) (i) The statewide broadband office must act as fiscal agent
28 for the grants authorized in subsections (2) and (3) of this section.

29 (ii) No more than 1.5 percent of the funds appropriated for the
30 program may be expended by the statewide broadband office for
31 administration purposes.

32 (2) (a) \$50,000,000 of the state building construction account—
33 state appropriation is provided solely to the statewide broadband
34 office to award as grants to eligible applicants as match funds to

37 infrastructure funders" are the state broadband office, the public
38 works board, and the community economic revitalization board.

39 (ii) The statewide broadband office must develop a project
40 evaluation process to assist in coordination among state broadband

1 infrastructure funders to maximize opportunities to leverage federal
2 funding and ensure efficient state investment. The project evaluation
3 process must help determine whether a project is a strong candidate
4 for a known federal funding opportunity and if a project can be
5 packaged as part of a regional or other coordinated federal grant
6 proposal. The state broadband infrastructure funders are encouraged
7 to enter into a memorandum of understanding outlining how
8 coordination will take place so that the process can help with a
9 coordinated funding strategy across these entities.

11 —federal appropriation and \$16,000,000 of the coronavirus capital

35 districts;

11 (2) \$500,000 is provided solely for the department to grant to
12 the YMCA of greater Seattle to retain expertise to scope, plan, and
13 advance the future of the Camp Colman experience given the
14 restoration of the Whiteman cove estuary. The planning process should
15 be inclusive of tribal input, with an open invitation for their
16 participation, and must include department technical experts,
17 participation from the departments of ecology and fish and wildlife,
18 and any other resources needed. The plan should include a vision for
19 how the cove can be returned to a fully functioning estuary,
20 benefiting native flora and fauna, as well as serve as an
21 environmental outdoor educational opportunity that will serve youth
22 and families, especially those from historically marginalized and
23 underrepresented communities, and include educational opportunities
24 for youth and families to learn of native cultural heritage unique
25 and specific to the natural and human history of the site. The plan
26 must identify specific projects and estimated costs, given estuary
27 restoration, for physical improvements for the camp, such as water
28 access structures or swimming facilities, with recommendations for
29 funding. The department, on behalf of the YMCA, must submit the plan
30 in a report to the fiscal committees of the legislature by December
31 31, 2021.

33 fish blockage removal and predesign enhancements for a new bridge and
34 roadway across Whiteman cove that are part of the fish blockage
35 removal project and necessary as part of maintaining the route as
36 access to the camp. The predesign must take into consideration the
37 means to maintain continuous road access to Camp Colman for campers
38 and camp staff without disruption, ensure the continuation,

1 mitigation and innovation of Camp Colman's recreational, water
2 safety, and environmental education programs in the salt water
3 estuary, and maintain the critical outdoor experiences for
4 historically marginalized and underrepresented communities.

7 2019-21 Housing Trust Fund Program (40000036)

8 The appropriations in this section are subject to the following
9 conditions and limitations:

10 (1) \$132,666,000 of the state taxable building construction
11 account—state appropriation, \$44,084,000 of the state building

14 this subsection:

15 (a) \$35,000,000 of the appropriation is provided solely for
16 housing projects that provide supportive housing and case-management
17 services to persons with chronic mental illness. When evaluating
18 applications for this population, the department must prioritize low-
19 income supportive housing unit proposals that show:

20 (i) Evidence that the application was developed in collaboration
21 with one or more health care entities that provide behavioral health
22 care services to individuals eligible for the housing provided under
23 this subsection;

24 (ii) A commitment by the applicant to provide, directly or
25 through a formal partnership, necessary treatment and supportive
26 services to the tenants and maintain the beds or housing units for at
27 least a forty-year period;

28 (iii) Readiness to begin structural modifications or construction
29 resulting in a fast project completion;

30 (iv) Program requirements that adhere to the key elements of
31 permanent supportive housing programs including choice in housing and
32 living arrangements, functional separation of housing and services,
33 community integration, rights of tenancy, and voluntary recovery-
34 focused services; and

35 (v) To achieve geographic distribution, the department must
36 prioritize projects in rural areas as defined by the department per
37 RCW 43.185.050 and unserved communities with the goal of maximizing

1 the investment and increasing the number of supportive housing units
2 in rural, unserved communities.

3 (b) \$10,000,000 of the appropriation in this section is provided
4 solely for competitive grant awards for modular housing which
5 includes high quality affordable housing projects that will quickly
6 move people from homelessness into secure housing and are
7 significantly less expensive to construct than traditional housing.
8 These funds must be awarded to projects with a total project
9 development cost per housing unit of less than \$200,000, excluding
10 the value of land, off-site infrastructure costs, and any capitalized
11 reserves, compliant with the Americans with disabilities act, and
12 with a commitment by the applicant to maintain the housing units for
13 at least a fifty year period.

14 (c) \$10,000,000 of the appropriation in this section is provided
15 solely for a state match or state matches on private contributions
16 that fund the production and preservation of affordable housing.
17 Awards must be made using a competitive process. If any funding
18 remains unallocated after the first fiscal year during the 2019-2021
19 fiscal biennium, the department may allocate the remaining funding
20 through its annual competitive process for affordable housing
21 projects that serve and benefit low-income and special needs
22 populations in need of housing.

23 (d) (i) \$10,000,000 of the appropriation in this section is
24 provided solely for housing preservation grants or loans to be
25 awarded competitively.

27 preservation, and system replacements, necessary for the existing
28 housing trust fund portfolio to maintain long-term viability. The
29 department must require a capital needs assessment to be provided
30 prior to contract execution. Funds may not be used to add or expand
31 the capacity of the property.

32 (iii) To allocate preservation funds, the department must review
33 applications and evaluate projects based on the following criteria:

34 (A) The age of the property, with priority given to buildings
35 that are more than fifteen years old;

36 (B) The population served, with priority given to projects with
37 at least 50 percent of the housing units being occupied by families
38 and individuals at or below 50 percent area median income;

1 (C) The degree to which the applicant demonstrates that the
2 improvements will result in a reduction of operating or utilities
3 costs, or both;

4 (D) The potential for additional years added to the affordability
5 period of the property; and

6 (E) Other criteria that the department considers necessary to
7 achieve the purpose of this program.

12 analysis report to the department and must demonstrate energy-saving
13 and renewable energy systems either designed to reach net-zero energy
14 use after housing is fully occupied or designed to achieve the most
15 recent building standard of the passive house institute US as of the
16 effective date of this section.

17 (iii) The department must consider, at a minimum and in any
18 order, the following factors in assigning a numerical ranking to a
19 project:

20 (A) Whether the proposed design has demonstrated that the project
21 will achieve either net-zero energy use when fully occupied or will
22 achieve the most recent building standard of the passive house
23 institute US as of the effective date of this section;

24 (B) The life-cycle cost of the project;

25 (C) That the project demonstrates a design, use of materials, and
26 construction process that can be replicated by the Washington
27 building industry;

28 (D) The extent to which the project leverages nonstate funds;

29 (E) The extent to which the project is ready to proceed to
30 construction;

31 (F) Whether the project promotes sustainable use of resources and
32 environmental quality;

33 (G) Whether the project is being well managed to fund maintenance
34 and capital depreciation;

35 (H) Reduction of housing and utilities carbon footprint; and

36 (I) Other criteria that the department considers necessary to
37 achieve the purpose of this program.

38 (iv) The department must monitor and track the results of the
39 housing projects that receive ultra-high energy efficiency funding
40 under this section.

11 Kitchens and bathrooms may be contained within the individual
12 structures or offered as a separate facility that is shared with the
13 community. When evaluating applications for this grant program, the
14 department must prioritize projects that demonstrate:

15 (i) The availability of land to locate the community;

16 (ii) A strong readiness to proceed to construction;

17 (iii) A longer term of commitment to maintain the community;

18 (iv) A commitment by the applicant to provide, directly or
19 through a formal partnership, case management and employment support
20 services to the tenants;

2 allowed under chapter 43.185A RCW.

3 (C) In addition to the definition of "first-time home buyer" in
4 RCW 43.185A.010, for the purposes of awarding homeownership projects

22 (3)(a) The department must strive to allocate all of the amounts
23 appropriated in this section within the 2019-2021 fiscal biennium in
24 the manner prescribed in subsection (1) of this section. However, if
25 upon review of applications the department determines there are not
26 adequate suitable projects in a category, the department may allocate
27 funds to projects serving other low-income and special needs
28 populations, provided those projects are located in an area with an
29 identified need for the type of housing proposed.

30 (b) By June 30, 2021, the department must report on its web site
31 the following for every previous funding cycle: The number of
32 homeownership and multifamily rental projects funded by housing trust
33 fund moneys; the percentage of housing trust fund investments made to
34 homeownership and multifamily rental projects; and the total number
35 of households being served at up to eighty percent of the area median
36 income, up to fifty percent of the area median income, and up to
37 thirty percent of the area median income, for both homeownership and
38 multifamily rental projects.

39 (4)(a) The department, in cooperation with the housing finance
40 commission, must develop and implement a process for the collection

1 of certified final development cost data from each grant or loan
2 recipient under this section. The department must use this data as
3 part of its cost containment policy.

4 (b) Beginning December 1, 2019, and continuing annually, the
5 department must provide the legislature with a report of its final
6 cost data for each project under this section. Such cost data must,
7 at a minimum, include total development cost per unit for each
8 project completed within the past year, descriptive statistics such
9 as average and median per unit costs, regional cost variation, and
10 other costs that the department deems necessary to improve cost
11 controls and enhance understanding of development costs. The
12 department must coordinate with the housing finance commission to
13 identify relevant development costs data and ensure that the measures
14 are consistent across relevant agencies.

10 **Sec. 6007.** 2020 c 356 s 1011 (uncodified) is amended to read as
11 follows:

12 **FOR THE DEPARTMENT OF COMMERCE**

13 2020 Local and Community Projects (40000116)

14 The appropriation in this section is subject to the following
15 conditions and limitations:

16 (1) The department shall not expend the appropriation in this
17 section unless and until the nonstate share of project costs have
18 been either expended or firmly committed, or both, in an amount
19 sufficient to complete the project or a distinct phase of the project
20 that is useable to the public for the purpose intended by the
21 legislature. This requirement does not apply to projects where a
22 share of the appropriation is for design costs only.

23 (2) Prior to receiving funds, project recipients must demonstrate
24 that the project site is under control for a minimum of ten years,
25 either through ownership or a long-term lease. This requirement does
26 not apply to appropriations for preconstruction activities or
27 appropriations in which the sole purpose is to purchase real property
28 that does not include a construction or renovation component.

29 (3) Projects funded in this section may be required to comply
30 with Washington's high performance building standards as required by
31 chapter 39.35D RCW.

32 (4) Project funds are available on a reimbursement basis only,
33 and shall not be advanced under any circumstances.

34 (5) In contracts for grants authorized under this section the
35 department shall include provisions which require that capital
36 improvements be held by the grantee for a specified period of time
37 appropriate to the amount of the grant and that facilities be used
38 for the express purpose of the grant. If the grantee is found to be

1 out of compliance with provisions of the contract, the grantee shall
2 repay to the state general fund the principal amount of the grant
3 plus interest calculated at the rate of interest on state of
4 Washington general obligation bonds issued most closely to the date
5 of authorization of the grant.

6 (6) Projects funded in this section, including those that are
7 owned and operated by nonprofit organizations, are generally required
8 to pay state prevailing wages.

25 follows:

26 **FOR THE DEPARTMENT OF FISH AND WILDLIFE**

27 (1) Nothing in this section alters the obligation set forth in
28 the permanent injunction, including the compliance deadline, entered
29 on March 29, 2013, in *United States v. Washington*, sub-proceeding
30 01-1 (Culverts), or the guidelines for compliance within the
31 specified timeline with the permanent injunction as developed by the
32 state agencies during the implementation process.

33 (2) Nothing in this section creates an obligation on the part of
34 the state to provide funding for corrections for nonstate-owned
35 culverts. Nothing in this section precludes the state from providing
36 funding for corrections for nonstate-owned culverts.

1 (3) In order to provide recommendations, the Brian Abbott fish
2 barrier removal board must develop a comprehensive statewide culvert
3 remediation plan that works in conjunction with the state approach
4 and that fully satisfies the requirements of the *United States v.*
5 *Washington* permanent injunction and makes both local and state
6 funding recommendations for additional nonstate barrier corrections
7 across state culvert correction programs that maximize the fisheries
8 habitat gain and other benefits to prey available for southern
9 resident killer whale and salmon recovery.

10 (4) The comprehensive statewide culvert remediation plan must be
11 consistent with the principles and requirements of the *United States*
12 *v. Washington* permanent injunction and RCW 77.95.180 and must achieve
13 coordinated investment strategy goals of permanent injunction
14 compliance and the following additional resource benefits. The
15 Brian Abbott fish barrier removal board chair, representing the board
16 and the appropriate department of fish and wildlife executive
17 management, shall consult with tribes to develop a watershed
18 approach. Provided it is consistent with the *United States v.*
19 *Washington* permanent injunction, prioritization of barrier
20 corrections must be developed on a watershed basis and must maximize
21 the following resource priorities:

22 (a) Stocks that are listed as threatened or endangered under the
23 federal endangered species act;

24 (b) Stocks that contribute to protection and recovery of southern
25 resident orca whales;

26 (c) Critical stocks of anadromous fish that limit or prevent
27 harvest of anadromous fish, as identified in the Pacific salmon
28 treaty; and

29 (d) Weak stocks of anadromous fish that limit or prevent harvest
30 of anadromous fish, as determined in North of Cape Falcon process.

31 (5) The comprehensive statewide culvert remediation plan must
32 include recommendations on methods and procedures for state agencies
33 and local governments to complete and maintain accurate barrier
34 inventories. This plan must also allow for efficient bundling of
35 projects to minimize disruption to the public due to construction as
36 well as adjustments in response to obstacles and opportunities
37 encountered during delivery.

38 (6) The Brian Abbott fish barrier removal board must also:

39 (a) Provide to the office of financial management and the fiscal
40 committees of the legislature its recommendation as to statutory or

1 policy changes, or budget needs for the board or state capital budget
2 programs, for better implementation and coordination among the
3 state's culvert correction programs by (~~January 15, 2021~~) June 30,
4 2021; and

5 (b) Develop a plan to seek and maximize the chances of success of
6 significant federal investment in the comprehensive statewide culvert
7 remediation plan.

8 (7) It is the intent of the legislature that, in developing
9 future budgets, state agencies administering state culvert correction
10 programs will recommend, to the maximum extent possible, funding in
11 their culvert correction programs for correction of barriers that are
12 part of the comprehensive statewide culvert remediation plan
13 developed by the Brian Abbott fish barrier removal board under this
14 section.

15 (8) By November 1, 2020, and March 1, 2021, the Brian Abbott fish
16 barrier removal board and the department of transportation must
17 provide updates on the development of the statewide culvert
18 remediation plan to the office of financial management and the
19 legislative fiscal committees. The first update must include a
20 project timeline and plan to ensure that all agencies with culvert
21 correction programs are involved in the creation of the comprehensive
22 plan.

23 (9) Prior to presenting the comprehensive statewide culvert
24 remediation plan, the Brian Abbott fish barrier removal board must
25 present the status of the plan to the annual Washington state and
26 Western Washington treaty tribes fish passage barrier repair progress
27 and coordination meeting. The board must submit the comprehensive
28 statewide culvert remediation plan and the process by which it will
29 be adaptively managed over time to the governor and the legislative
30 fiscal committees by (~~January 15, 2021~~) June 30, 2021.

1 **PART 7**

2 **MISCELLANEOUS PROVISIONS**

3 NEW SECTION. **Sec. 7001.** RCW 43.88.031 requires the disclosure
4 of the estimated debt service costs associated with new capital bond
5 appropriations. The estimated debt service costs for the
6 appropriations contained in this act are \$46,768,901 for the
7 2021-2023 biennium, \$314,662,796 for the 2023-2025 biennium, and
8 \$447,088,148 for the 2025-2027 biennium.

9 NEW SECTION. **Sec. 7002.** ACQUISITION OF PROPERTIES AND
10 FACILITIES THROUGH FINANCIAL CONTRACTS. (1) The following agencies
11 may enter into financial contracts, paid from any funds of an agency,
12 appropriated or nonappropriated, for the purposes indicated and in
13 not more than the principal amounts indicated, plus financing
14 expenses and required reserves pursuant to chapter 39.94 RCW. When
15 securing properties under this section, agencies shall use the most
16 economical financial contract option available, including long-term
17 leases, lease-purchase agreements, lease-development with option to
18 purchase agreements or financial contracts using certificates of
19 participation. Expenditures made by an agency for one of the
20 indicated purposes before the issue date of the authorized financial
21 contract and any certificates of participation therein are intended
22 to be reimbursed from proceeds of the financial contract and any
23 certificates of participation therein to the extent provided in the
24 agency's financing plan approved by the state finance committee.

25 (2) Those noninstructional facilities of higher education
26 institutions authorized in this section to enter into financial
27 contracts are not eligible for state funded maintenance and
28 operations. Instructional space that is available for regularly
29 scheduled classes for academic transfer, basic skills, and workforce
30 training programs may be eligible for state funded maintenance and
31 operations.

32 (3) Secretary of state: Enter into a financing contract for up to
33 \$119,000,000 plus financing expenses and required reserves pursuant
34 to chapter 39.94 RCW to construct a new library-archives building.

35 (4) Washington state patrol: Enter into a financing contract for
36 up to \$7,706,000 plus financing expenses and required reserves
37 pursuant to chapter 39.94 RCW to construct a burn building for live

1 (5) Department of social and health services: Enter into a
2 financing contract for up to \$115,700,000 plus costs and financing
3 expenses and required reserves pursuant to chapter 39.94 RCW to
4 construct a nursing facility on the fircrest residential habilitation
5 center campus. The department may contract to lease develop or lease
6 purchase the facility. Before entering into a contract, the
7 department must consult with the office of financial management and
8 the office of the state treasurer. Should the department of social
9 and health services choose to use a financing contract that does not
10 provide for the issuance of certificates of participation, the
11 financing contract shall be subject to approval by the state finance
12 committee as required by RCW 39.94.010. In approving a financing
13 contract not providing for the use of certificates of participation,
14 the state finance committee should be reasonably certain that the
15 contract is excluded from the computation of indebtedness,
16 particularly that the contract is not backed by the full faith and
17 credit of the state and the legislature is expressly not obligated to
18 appropriate funds to make payments. For purposes of this subsection,
19 "financing contract" includes but is not limited to a certificate of
20 participation and tax exempt financing similar to that authorized in
21 RCW 47.79.140.

22 (6) Community and technical colleges:

23 (a) Enter into a financing contract on behalf of Grays Harbor

33 and required reserves pursuant to chapter 39.94 RCW to renovate a
34 health education building.

35 (d) Enter into a financing contract on behalf of Bates Technical
36 College for up to \$1,350,000 plus financing expenses and required
37 reserves pursuant to chapter 39.94 RCW to purchase land and
38 facilities.

39 (7) The department of ecology: Submit a financing contract
40 proposal to fully fund the Lacey headquarters parking garage

1 preservation project, including financing expenses and required
2 reserves pursuant to chapter 39.94 RCW, in the department's 2022
3 supplemental capital budget request.

4 NEW SECTION. **Sec. 7003.** (1) To ensure that major construction
5 projects are carried out in accordance with legislative and executive
6 intent, agencies must complete a predesign for state construction
7 projects with a total anticipated cost in excess of \$5,000,000, or
8 \$10,000,000 for higher education institutions. "Total anticipated
9 cost" means the sum of the anticipated cost of the predesign, design,
10 and construction phases of the project.

11 (2) Appropriations for design may not be expended or encumbered
12 until the office of financial management has reviewed and approved
13 the agency's predesign.

14 (3) The predesign must explore at least three project
15 alternatives. These alternatives must be both distinctly different
16 and viable solutions to the issue being addressed. The chosen
17 alternative should be the most reasonable and cost-effective
18 solution. The predesign document must include, but not be limited to,
19 program, site, and cost analysis, and an analysis of the life-cycle
20 costs of the alternatives explored, in accordance with the predesign
21 manual adopted by the office of financial management.

22 (4) The office of financial management may make an exception to
23 the predesign requirements in this section after notifying the
24 legislative fiscal committees and waiting ten days for comment by the
25 legislature regarding the proposed exception.

26 (5) If House Bill No. 1023 (predesign) is enacted by June 30,
27 2021 this section is null and void.

28 NEW SECTION. **Sec. 7004.** (1) To ensure that major construction
29 projects are carried out in accordance with legislative and executive
30 intent, agencies must complete a predesign for state construction
31 projects with a total anticipated cost in excess of \$10,000,000. For
32 purposes of this section, "total anticipated cost" means the sum of
33 the anticipated cost of the predesign, design, and construction
34 phases of the project.

35 (2) Appropriations for design may not be expended or encumbered
36 until the office of financial management has reviewed and approved
37 the agency's predesign.

1 (3) The predesign must explore at least three project
2 alternatives. These alternatives must be both distinctly different
3 and viable solutions to the issue being addressed. The chosen
4 alternative should be the most reasonable and cost-effective
5 solution. The predesign document must include, but not be limited to,
6 program, site, and cost analysis, and an analysis of the life-cycle
7 costs of the alternatives explored, in accordance with the predesign
8 manual adopted by the office of financial management.

9 (4) For projects exceeding the \$10,000,000 predesign threshold
10 established in this section, the office of financial management may
11 make an exception to some or all of the predesign requirements in
12 this section. The office of financial management shall report any
13 exception to the fiscal committees of the legislature:

14 (a) A description of the major capital project for which the
15 predesign waiver is made;

16 (b) An explanation of the reason for the waiver; and

17 (c) A rough order of magnitude cost estimate for the project's
18 design and construction.

19 (5) In deliberations related to submitting an exception under
20 this section, the office of financial management shall consider the
21 following factors:

22 (a) Whether there is any determination to be made regarding the
23 site of the project;

24 (b) Whether there is any determination to be made regarding
25 whether the project will involve renovation, new construction, or
26 both;

27 (c) Whether, within six years of submitting the request for
28 funding, the agency has completed, or initiated the construction of,
29 a substantially similar project;

30 (d) Whether there is any anticipated change to the project's
31 program or the services to be delivered at the facility;

32 (e) Whether the requesting agency indicates that the project may
33 not require some or all of the predesign requirements in this section
34 due to a lack of complexity; and

35 (f) Whether any other factors related to project complexity or
36 risk, as determined by the office of financial management, could
37 reduce the need for, or scope of, a predesign.

38 (6) If under this section, some or all predesign requirements are
39 waived, the office of financial management may instead propose a

1 professional project cost estimate instead of a request for predesign
2 funding.

3 (7) If House Bill No. 1023 (predesign) is not enacted by June 30,
4 2021, this section is null and void.

5 NEW SECTION. **Sec. 7005.** (1) The legislature finds that use of
6 life-cycle cost analysis will aid public entities, architects,
7 engineers, and contractors in making design and construction
8 decisions that positively impact both the initial construction cost
9 and the ongoing operating and maintenance cost of a project. To
10 ensure that the total cost of a project is accounted for and the most
11 reasonable and cost efficient design is used, agencies shall develop
12 life-cycle costs for any construction project over \$10,000,000. The
13 life-cycle costs must represent the present value sum of capital
14 costs, installation costs, operating costs, and maintenance costs
15 over the life expectancy of the project. The legislature further
16 finds the most effective approach to the life-cycle cost analysis is
17 to integrate it into the early part of the design process.

18 (2) Agencies must develop a minimum of three project alternatives
19 for use in the life-cycle cost analysis. These alternatives must be
20 both distinctly different and viable solutions to the issue being
21 addressed. Agencies must choose the most reasonable and cost-
22 effective solution, as supported by the life-cycle cost analysis. A
23 brief description of each project alternative and why it was chosen
24 must be included in the life-cycle cost analysis section of the
25 predesign.

26 (3) The office of financial management shall: (a) Make available
27 a life-cycle cost model to be used for analysis; (b) in consultation
28 with the department of enterprise services, provide assistance in
29 using the life-cycle cost model; and (c) update the life-cycle cost
30 model annually including assumptions for inflation rates, discount
31 rates, and energy rates.

32 (4) Agencies shall consider architectural and engineering firms'
33 and general contractors' experience using life-cycle costs, operating
34 costs, and energy efficiency measures when selecting an architectural
35 and engineering firm, or when selecting contractors using alternative
36 contracting methods.

37 NEW SECTION. **Sec. 7006.** Agencies administering construction
38 projects with a total anticipated cost in excess of \$5,000,000, or

1 \$10,000,000 for higher education institutions, must submit progress
2 reports to the office of financial management and to the fiscal
3 committees of the house of representatives and senate. "Total
4 anticipated cost" means the sum of the anticipated cost of the
5 predesign, design, and construction phases of the project. Reports
6 must be submitted on July 1st and December 31st of each year in a
7 format determined by the office of financial management. After the
8 project is completed, agencies must also submit a closeout report
9 that identifies the total project cost and any unspent
10 appropriations.

11 NEW SECTION. **Sec. 7007.** (1) Allotments for appropriations in
12 this act shall be provided in accordance with the capital project
13 review requirements adopted by the office of financial management and
14 in compliance with RCW 43.88.110. Projects that will be employing
15 alternative public works construction procedures under chapter 39.10
16 RCW are subject to the allotment procedures defined in this section
17 and RCW 43.88.110.

18 (2) Each project is defined as proposed in the legislative budget
19 notes or in the governor's budget document.

20 NEW SECTION. **Sec. 7008.** (1) The office of financial management
21 may authorize a transfer of appropriation authority provided for a
22 capital project that is in excess of the amount required for the
23 completion of such project to another capital project for which the
24 appropriation is insufficient. No such transfer may be used to expand
25 the capacity of any facility beyond that intended in making the
26 appropriation. Such transfers may be effected only between capital
27 appropriations to a specific department, commission, agency, or
28 institution of higher education and only between capital projects
29 that are funded from the same fund or account. No transfers may occur
30 between projects to local government agencies except where the grants
31 are provided within a single omnibus appropriation and where such
32 transfers are specifically authorized by the implementing statutes
33 that govern the grants.

34 (2) The office of financial management may find that an amount is
35 in excess of the amount required for the completion of a project only
36 if: (a) The project as defined in the notes to the budget document is
37 substantially complete and there are funds remaining; or (b) bids
38 have been let on a project and it appears to a substantial certainty

1 that the project as defined in the notes to the budget document can
2 be completed within the biennium for less than the amount
3 appropriated in this act.

4 (3) For the purposes of this section, the intent is that each
5 project be defined as proposed to the legislature in the governor's
6 budget document, unless it clearly appears from the legislative
7 history that the legislature intended to define the scope of a
8 project in a different way.

9 (4) A report of any transfer effected under this section, except
10 emergency projects or any transfer under \$250,000, shall be filed
11 with the fiscal committees of the legislature by the office of
12 financial management at least thirty days before the date the
13 transfer is effected. The office of financial management shall report
14 all emergency or smaller transfers within thirty days from the date
15 of transfer.

16 NEW SECTION. **Sec. 7009.** (1) It is expected that projects be
17 ready to proceed in a timely manner depending on the type or phase of
18 the project or program that is the subject of the appropriation in
19 this act. Except for major projects that customarily may take more
20 than two biennia to complete from predesign to the end of
21 construction, or large infrastructure grant or loan programs
22 supporting projects that often take more than two biennia to
23 complete, the legislature generally does not intend to reappropriate
24 funds more than once, particularly for smaller grant programs, local/
25 community projects, and minor works.

26 (2) Agencies shall expedite the expenditure of reappropriations
27 and appropriations in this act in order to: (a) Rehabilitate
28 infrastructure resources; (b) accelerate environmental rehabilitation
29 and restoration projects for the improvement of the state's natural
30 environment; (c) reduce additional costs associated with acquisition
31 and construction inflationary pressures; and (d) provide additional
32 employment opportunities associated with capital expenditures.

33 (3) To the extent feasible, agencies are directed to accelerate
34 expenditure rates at their current level of permanent employees and
35 shall use contracted design and construction services wherever
36 necessary to meet the goals of this section.

37 NEW SECTION. **Sec. 7010.** (1) Any building project that receives
38 over \$10,000,000 in funding from the capital budget must be built to

1 sustainable standards. "Sustainable building" means a building that
2 integrates and optimizes all major high-performance building
3 attributes, including energy efficiency, durability, life-cycle
4 performance, and occupant productivity, and minimizes greenhouse gas
5 emissions. The following design and construction attributes must be
6 integrated into the building project:

7 (a) Employ integrated design principles: Use a collaborative,
8 integrated planning and design process that initiates and maintains
9 an integrated project team in all stages of a project's planning and
10 delivery. Establish performance goals for siting, energy, water,
11 materials, and indoor environmental quality along with other
12 comprehensive design goals and ensures incorporation of these goals
13 throughout the design and life-cycle of the building. Consider all
14 stages of the building's life-cycle, including deconstruction.

15 (b) Commissioning: Employ commissioning practices tailored to the
16 size and complexity of the building and its system components in
17 order to verify performance of building components and systems and
18 help ensure that design requirements are met. This should include an
19 experienced commissioning provider, inclusion of commissioning
20 requirements in construction documents, a commissioning plan,
21 verification of the installation and performance of systems to be
22 commissioned, and a commissioning report.

23 (c) Optimize energy performance: Establish a whole building
24 performance target that takes into account the intended use,
25 occupancy, operations, plug loads, other energy demands, and design
26 to earn the ENERGY STAR targets for new construction and major
27 renovation where applicable. For new construction target low energy
28 use index. For major renovations, target reducing energy use by 50
29 percent below prerenovations baseline.

30 (d) On-site renewable energy: Implement renewable energy
31 generation projects on agency property for agency use, when life-
32 cycle cost effective.

33 (e) High-efficiency electric equipment: Use only high-efficiency
34 electric equipment for water and space heating needs not met through
35 on-site renewable energy, when life-cycle cost effective.

36 (f) Measurement and verification: For buildings over 50,000
37 square feet, install building level electricity meters in new major
38 construction and renovation projects to track and continuously
39 optimize performance. Include equivalent meters for natural gas and
40 steam, where natural gas and steam are used. Where appropriate,

1 install dashboards inside buildings to display and incentivize
2 occupants on energy use.

3 (g) Benchmarking: Compare performance data from the first year of
4 operation with the energy design target. Verify that the building
5 performance meets or exceeds the design target. For other building
6 and space types, use an equivalent benchmarking tool.

7 NEW SECTION. **Sec. 7011.** State agencies, including institutions
8 of higher education, shall allot and report full-time equivalent
9 staff for capital projects in a manner comparable to staff reporting
10 for operating expenditures.

11 NEW SECTION. **Sec. 7012.** Executive Order No. 21-02,
12 archaeological and cultural resources, was issued effective November
13 10, 2005. Agencies shall comply with the requirements set forth in
14 this executive order and must consult with the department of
15 archaeology and historic preservation and affected tribes on the
16 potential effects of projects on cultural resources and historic
17 properties proposed in state-funded construction or acquisition
18 projects, including grant or pass-through funding that culminates in
19 construction or land acquisitions. Consultation with the department
20 of archaeology and historic preservation and affected tribes must be
21 initiated early in the project planning process, prior to
22 construction or taking title.

23 **Sec. 7013.** RCW 43.19.501 and 2020 c 356 s 7005 are each amended
24 to read as follows:

25 The Thurston county capital facilities account is created in the
26 state treasury. The account is subject to the appropriation and
27 allotment procedures under chapter 43.88 RCW. Moneys in the account
28 may be expended for capital projects in facilities owned and managed
29 by the department in Thurston county.

30 During the 2019-2021 and 2021-2023 fiscal (~~biennium~~) biennia,
31 the Thurston county capital facilities account may be appropriated
32 for costs associated with staffing to support capital budget and
33 project activities and lease and facility oversight activities.

34 NEW SECTION. **Sec. 7014.** FOR THE ARTS COMMISSION—ART WORK
35 ALLOWANCE. (1) One-half of one percent of moneys appropriated in this

1 act for original construction of school plant facilities is provided
2 solely for the purposes of RCW 28A.335.210.

3 (2) One-half of one percent of moneys appropriated in this act
4 for original construction or any major renovation or remodel work
5 exceeding \$200,000 by colleges or universities is provided solely for
6 the purposes of RCW 28B.10.027.

7 (3) One-half of one percent of moneys appropriated in this act
8 for original construction of any public building by a state agency
9 identified in RCW 43.17.200 is provided solely for the purposes of
10 RCW 43.17.200.

11 (4) At least 80 percent of the moneys spent by the Washington
12 state arts commission during the 2021-2023 biennium for the purposes
13 of RCW 28A.335.210, 28B.10.027, and 43.17.200 must be expended solely
14 for direct acquisition of works of art. Except for art allocations
15 made under K-3 class size reduction grants under section 5030 of this
16 act, art allocations not expended within the ensuing two biennia will
17 lapse. The commission may use up to \$200,000 of this amount to
18 conserve or maintain existing pieces in the state art collection.

19 NEW SECTION. **Sec. 7015.** To carry out the provisions of this
20 act, the governor may assign responsibility for predesign, design,
21 construction, and other related activities to any appropriate agency.

22 NEW SECTION. **Sec. 7016.** If any federal moneys appropriated by
23 this act for capital projects are not received by the state, the
24 department or agency to which the moneys were appropriated may
25 replace the federal moneys with funds available from private or local
26 sources. No replacement may occur under this section without the
27 prior approval of the director of financial management in
28 consultation with the senate ways and means committee and the house
29 of representatives capital budget committee.

30 NEW SECTION. **Sec. 7017.** (1) Unless otherwise stated, for all
31 appropriations under this act that require a match of nonstate money
32 or in-kind contributions, the following requirement, consistent with
33 RCW 43.88.150, shall apply: Expenditures of state money shall be
34 timed so that the state share of project expenditures never exceeds
35 the intended state share of total project costs.

36 (2) Provision of the full amount of required matching funds is
37 not required to permit the expenditure of capital budget

1 appropriations for phased projects if a proportional amount of the
2 required matching funds is provided for each distinct, identifiable
3 phase of the project.

4 NEW SECTION. **Sec. 7018.** NONTAXABLE AND TAXABLE BOND PROCEEDS.
5 Portions of the appropriation authority granted by this act from the
6 state building construction account, or any other account receiving
7 bond proceeds, may be transferred to the state taxable building
8 construction account as deemed necessary by the state finance
9 committee to comply with the federal internal revenue service rules
10 and regulations pertaining to the use of nontaxable bond proceeds.
11 Portions of the general obligation bond proceeds authorized by
12 chapter . . . (Substitute House Bill No. 1081), Laws of 2021, (State
13 General Bonds and General Accounts) for deposit into the state
14 taxable building construction account that are in excess of amounts
15 required to comply with the federal internal revenue service rules
16 and regulations shall be deposited into the state building
17 construction account. The state treasurer shall submit written
18 notification to the director of financial management if it is
19 determined that a shift of appropriation authority between the state
20 building construction account, or any other account receiving bond
21 proceeds, and the state taxable building construction account is
22 necessary, or that a shift of appropriation authority from the state
23 taxable building construction account to the state building
24 construction account may be made.

25 NEW SECTION. **Sec. 7019.** (1) Minor works project lists are
26 single line appropriations that include multiple projects of a
27 similar nature and that are valued between \$25,000 and \$1,000,000
28 each, with the exception of higher education minor works projects
29 that may be valued up to \$2,000,000. Funds appropriated in this act
30 for minor works may not be initially allotted until agencies submit
31 project lists to the office of financial management for review and
32 approval.

33 (2) Revisions to the project lists, including the addition of
34 projects and the transfer of funds between projects, are allowed but
35 must be submitted to the office of financial management, the house of
36 representatives capital budget committee, and the senate ways and
37 means committee for review and comment, and must include an
38 explanation of variances from prior approved lists. Any project list

1 revisions must be approved by the office of financial management
2 before funds may be expended from the minor works appropriation.

3 (3) (a) All minor works projects should be completed within two
4 years of the appropriation with the funding provided.

5 (b) Agencies are prohibited from including projects on their
6 minor works lists that are a phase of a larger project, and that if
7 combined over a continuous period of time, would exceed \$1,000,000,
8 or \$2,000,000 for higher education minor works projects.

9 (c) Minor works appropriations may not be used for the following:
10 Studies, except for technical or engineering reviews or designs that
11 lead directly to and support a project on the same minor works list;
12 planning; design outside the scope of work on a minor works list;
13 movable, temporary, and traditionally funded operating equipment not
14 in compliance with the equipment criteria established by the office
15 of financial management; software not dedicated to control of a
16 specialized system; moving expenses; land or facility acquisition;
17 rolling stock; computers; or to supplement funding for projects with
18 funding shortfalls unless expressly authorized. The office of
19 financial management may make an exception to the limitations
20 described in this subsection (3) (c) for exigent circumstances after
21 notifying the legislative fiscal committees and waiting ten days for
22 comments by the legislature regarding the proposed exception.

23 (d) Minor works preservation projects may include program
24 improvements of no more than 25 percent of the individual minor works
25 preservation project cost.

26 (e) Improvements for accessibility in compliance with the
27 Americans with disabilities act may be included in any of the minor
28 works categories.

29 NEW SECTION. **Sec. 7020. FOR THE STATE TREASURER—TRANSFERS**

30 (1) Public Works Assistance Account: For transfer
31 to the drinking water assistance account, up to
32 \$5,500,000 for fiscal year 2022 and up to \$5,500,000 for
33 fiscal year 2023 \$11,000,000

34 (2) Public Works Assistance Account: For
35 transfer to the water pollution control revolving
36 account, up to \$7,500,000 for fiscal year 2022 and

2 statewide broadband account, up to \$7,000,000 for fiscal year 2022
3 and up to \$7,000,000 for fiscal year 2023. \$14,000,000

4 NEW SECTION. **Sec. 7021.** To the extent that any appropriation
5 authorizes expenditures of state funds from the state building
6 construction account, or from any other capital project account in
7 the state treasury, for a capital project or program that is
8 specified to be funded with proceeds from the sale of bonds, the
9 legislature declares that any such expenditures for that project or
10 program made prior to the issue date of the applicable bonds are
11 intended to be reimbursed from proceeds of those bonds in a maximum
12 amount equal to the amount of such appropriation.

13 NEW SECTION. **Sec. 7022.** In order to accelerate the reduction of
14 embodied carbon and improve the environmental performance of
15 construction materials, agencies shall, whenever possible, review and
16 consider embodied carbon reported in environmental product
17 declarations when evaluating proposed structural materials for
18 construction projects.

19 NEW SECTION. **Sec. 7023.** The joint legislative task force
20 created in 2018 c 298 s 7011 (uncodified) is hereby reauthorized
21 through June 30, 2023, subject to the requirements that studies and
22 selection of scientists or organizations to implement the studies
23 must be made by a 60 percent majority of the members of the task
24 force and that if a member has not been designated for a position set
25 forth in section 7011(2), chapter 298, Laws of 2018 (uncodified),
26 that position may not be counted for purposes of determining a
27 quorum.

28 **Sec. 7024.** RCW 90.94.090 and 2019 c 413 s 7035 are each
29 reenacted and amended to read as follows:

30 (1) A joint legislative task force on water resource mitigation
31 is established to review the treatment of surface water and
32 groundwater appropriations as they relate to instream flows and fish
33 habitat, to develop and recommend a mitigation sequencing process and
34 scoring system to address such appropriations, and to review the
35 Washington supreme court decision in *Foster v. Department of Ecology*,
36 184 Wn.2d 465, 362 P.3d 959 (2015).

1 (2) The task force must consist of the following members:

10 appointed by the director of the department of fish and wildlife;
11 (e) A representative from the department of agriculture,
12 appointed by the director of the department of agriculture;
13 (f) One representative from each of the following groups,
14 appointed by the consensus of the cochair of the task force:

18 (iii) Two representatives from an environmental advocacy
19 organization or organizations;
20 (iv) An organization representing municipal water purveyors;
21 (v) An organization representing business interests;
22 (vi) Representatives of two federally recognized Indian tribes,
23 one invited by recommendation of the Northwest Indian fisheries
24 commission, and one invited by recommendation of the Columbia river
25 intertribal fish commission.
26 (3) If a member has not been designated for a position set forth
27 in subsection (2) of this section, that position may not be counted
28 for purposes of determining a quorum.
29 (4) One cochair of the task force must be a member of the
30 majority caucus of one chamber of the legislature, and one cochair
31 must be a member of the minority caucus of the other chamber of the
32 legislature, as those caucuses existed as of January 19, 2018.
33 (5) The first meeting of the task force must occur by June 30,
34 2018.
35 (6) Staff support for the task force must be provided by the
36 office of program research and senate committee services. The
37 department and the department of fish and wildlife shall cooperate
38 with the task force and provide information as the cochair
39 reasonably request.

1 (7) Within existing appropriations, the expenses of the
2 operations of the task force, including the expenses associated with
3 the task force's meetings, must be paid jointly and in equal amounts
4 by the senate and the house of representatives. Task force
5 expenditures are subject to approval by the house executive rules
6 committee and the senate facility and operations committee.
7 Legislative members of the task force are reimbursed for travel
8 expenses in accordance with RCW 44.04.120. Nonlegislative members are
9 not entitled to be reimbursed for travel expenses if they are elected
10 officials or are participating on behalf of an employer, governmental
11 entity, or other organization. Any reimbursement for other
12 nonlegislative members is subject to chapter 43.03 RCW.

13 (8)(a) By November 15, 2019, and November 15, 2022, the joint
14 legislative task force must make recommendations to the legislature
15 in compliance with RCW 43.01.036. (~~The task force may update its
16 November 15, 2019, recommendations by November 15, 2020, if a
17 majority of the members of the task force determine that such an
18 update is appropriate based on additional information developed as a
19 result of the pilot projects established under subsection (9) of this
20 section.~~)

21 (b) Recommendations of the joint legislative task force must be
22 made by a sixty percent majority of the appointed members of the task
23 force. The representatives of the departments of fish and wildlife,
24 ecology, and agriculture are not eligible to vote on the
25 recommendations. Minority recommendations that achieve the support of
26 at least five of the appointed voting members of the task force may
27 also be submitted to the legislature.

28 (9) The department shall issue permit decisions for up to five
29 water resource mitigation pilot projects. It is the intent of the
30 legislature to use the pilot projects to inform the legislative task
31 force process while also enabling the processing of water right
32 applications that address water supply needs. The department is
33 authorized to issue permits in reliance upon water resource
34 mitigation of impacts to instream flows and closed surface water
35 bodies under the following mitigation sequence:

36 (a) Avoiding impacts by: (i) Complying with mitigation required
37 by adopted rules that set forth minimum flows, levels, or closures;
38 or (ii) making the water diversion or withdrawal subject to the
39 applicable minimum flows or levels; or

1 (b) Where avoidance of impacts is not reasonably attainable,
2 minimizing impacts by providing permanent new or existing trust water
3 rights or through other types of replacement water supply resulting
4 in no net annual increase in the quantity of water diverted or
5 withdrawn from the stream or surface water body and no net
6 detrimental impacts to fish and related aquatic resources; or

7 (c) Where avoidance and minimization are not reasonably
8 attainable, compensating for impacts by providing net ecological
9 benefits to fish and related aquatic resources in the water resource
10 inventory area through in-kind or out-of-kind mitigation or a
11 combination thereof, that improves the function and productivity of
12 affected fish populations and related aquatic habitat. Out-of-kind
13 mitigation may include instream or out-of-stream measures that
14 improve or enhance existing water quality, riparian habitat, or other
15 instream functions and values for which minimum instream flows or
16 closures were established in that watershed.

17 (10) The department must monitor the implementation of the pilot
18 projects, including all mitigation associated with each pilot
19 project, approved under this section at least annually through
20 December 31, 2028.

21 (11) The pilot projects eligible for processing under this
22 section, based on criteria as of January 19, 2018, include:

23 (a) A city operating a group A water system in Kitsap county and
24 water resource inventory area 15, with a population between 13,000
25 and 14,000;

26 (b) A city operating a group A water system in Pierce county and
27 water resource inventory area 10, with a population between 9,500 and
28 10,500;

29 (c) A city operating a group A water system in Thurston county
30 and water resource inventory area 11, with a population between 8,500
31 and 9,500;

32 (d) A nonprofit mutual water system operating a group A water
33 system in Pierce county and water resource inventory area 12, with
34 between 10,500 and 11,500 service connections; and

35 (e) An irrigation district located in Whatcom county and water
36 resource inventory area 1, solely for the purpose of processing
37 changes of water rights from surface water to groundwater, and
38 implementing flow augmentation to benefit instream flows.

39 (12) Water right applicants eligible to be processed under this
40 pilot project authority must elect to be included in the pilot

1 project review by notifying the department by July 1, 2018. Once an
2 applicant notifies the department of its intent to be processed under
3 this pilot project authority, subsection (9) of this section applies
4 to final decisions issued by the department, even if such a final
5 decision is issued after the expiration of this section.

6 (13) By November 15, 2018, the department must furnish the task
7 force with information on conceptual mitigation plans for each water
8 resource mitigation pilot project application. By November 15, 2019,
9 and November 15, 2022, the department must provide the task force
10 with an update on the mitigation plans based on additional
11 information developed after November 15, 2018.

12 (14) To ensure that the processing of pilot project applications
13 can inform the task force process in a timely manner, the department
14 must expedite processing of applications for water resource
15 mitigation pilot projects. The applicant for each pilot project must
16 reimburse the department for the department's costs of processing the
17 applicant's application.

18 (15) The water resource mitigation pilot project authority
19 granted to the department does not affect or modify any other
20 procedural requirements of chapter 90.03, 90.44, or 90.54 RCW that
21 apply to the processing of such applications.

22 (16) The joint legislative task force expires December 31,
23 ~~((2020))~~ 2022. During the period from November 16, 2019, through
24 December 31, ~~((2020))~~ 2022, the work of the task force is limited to:

25 (a) A review of any additional information that may be developed
26 after November 15, 2019, as a result of the pilot projects
27 established under subsection (9) of this section; and

28 (b) An update of the task force's November 15, 2019,
29 recommendations ~~((under subsection (8) of this section))~~.

30 (17) This section expires January 1, 2029.

31 **Sec. 7025.** RCW 28B.15.210 and 2019 c 413 s 7023 are each amended
32 to read as follows:

33 Within thirty-five days from the date of collection thereof, all
34 building fees at the University of Washington, including building
35 fees to be charged students registering in the schools of medicine
36 and dentistry, shall be paid into the state treasury and credited as
37 follows:

38 One-half or such larger portion as may be necessary to prevent a
39 default in the payments required to be made out of the bond

1 retirement fund to the "University of Washington bond retirement
2 fund" and the remainder thereof to the "University of Washington
3 building account." The sum so credited to the University of
4 Washington building account shall be used exclusively for the purpose
5 of erecting, altering, maintaining, equipping, or furnishing
6 buildings, and for certificates of participation under chapter 39.94
7 RCW, except for any sums transferred as authorized in RCW
8 28B.20.725(3). The sum so credited to the University of Washington
9 bond retirement fund shall be used for the payment of principal of
10 and interest on bonds outstanding as provided by chapter 28B.20 RCW
11 except for any sums transferred as authorized in RCW 28B.20.725(5).
12 (~~During the 2017-2019 biennium, sums credited to the University of
13 Washington building account may also be used for routine facility
14 maintenance, utility costs, and facility condition assessments.~~)
15 During the 2019-2021 biennium, sums credited to the University of
16 Washington building account may also be used for routine facility
17 maintenance, utility costs, and facility condition assessments.
18 During the 2021-2023 biennium, sums credited to the University of
19 Washington building account may also be used for routine facility
20 maintenance, utility costs, and facility condition assessments.

21 **Sec. 7026.** RCW 28B.15.310 and 2019 c 413 s 7024 are each amended
22 to read as follows:

23 Within thirty-five days from the date of collection thereof, all
24 building fees shall be paid and credited as follows: To the
25 Washington State University bond retirement fund, one-half or such
26 larger portion as may be necessary to prevent a default in the
27 payments required to be made out of such bond retirement fund; and
28 the remainder thereof to the Washington State University building

32 (d) The flexibility to innovate, including utilizing natural
33 systems, addressing multiple regulatory drivers, and forming regional
34 partnerships;

28 ecology, department of health, and department of commerce shall
29 facilitate the work of the system improvement team.

7 system improvement team must submit a report to the appropriate
8 committees of the legislature that includes the following:

9 (a) A list of all projects funded by members of the system
10 improvement team;

11 (b) A description of the coordination the system improvement team
12 has completed with other grant programs and funds leveraged; and

15 **Sec. 7034.** RCW 43.88D.010 and 2019 c 413 s 7032 are each amended
16 to read as follows:

17 (1) By October 1st of each even-numbered year, the office of
18 financial management shall complete an objective analysis and scoring
19 of all capital budget projects proposed by the public four-year
20 institutions of higher education and submit the results of the
21 scoring process to the legislative fiscal committees and the four-
22 year institutions. Each project must be reviewed and scored within
23 one of the following categories, according to the project's principal
24 purpose. Each project may be scored in only one category. The
25 categories are:

26 (a) Access-related projects to accommodate enrollment growth at
27 all campuses, at existing or new university centers, or through
28 distance learning. Growth projects should provide significant
29 additional student capacity. Proposed projects must demonstrate that
30 they are based on solid enrollment demand projections, more
31 cost-effectively provide enrollment access than alternatives such as
32 university centers and distance learning, and make cost-effective use
33 of existing and proposed new space;

34 (b) Projects that replace failing permanent buildings. Facilities
35 that cannot be economically renovated are considered replacement
36 projects. New space may be programmed for the same or a different use
37 than the space being replaced and may include additions to improve
38 access and enhance the relationship of program or support space;

1 (c) Projects that renovate facilities to restore building life
2 and upgrade space to meet current program requirements. Renovation
3 projects should represent a complete renovation of a total facility
4 or an isolated wing of a facility. A reasonable renovation project
5 should cost between sixty to eighty percent of current replacement
6 value and restore the renovated area to at least twenty-five years of
7 useful life. New space may be programmed for the same or a different
8 use than the space being renovated and may include additions to
9 improve access and enhance the relationship of program or support
10 space;

11 (d) Major stand-alone campus infrastructure projects;

12 (e) Projects that promote economic growth and innovation through
13 expanded research activity. The acquisition and installation of
14 specialized equipment is authorized under this category; and

15 (f) Other project categories as determined by the office of
16 financial management in consultation with the legislative fiscal
17 committees.

18 (2) The office of financial management, in consultation with the
19 legislative fiscal committees, shall establish a scoring system and
20 process for each four-year project category that is based on the
21 framework used in the community and technical college system of
22 prioritization. Staff from the state board for community and
23 technical colleges and the four-year institutions shall provide
24 technical assistance on the development of a scoring system and
25 process.

26 (3) The office of financial management shall consult with the
27 legislative fiscal committees in the scoring of four-year institution
28 project proposals, and may also solicit participation by independent
29 experts.

30 (a) For each four-year project category, the scoring system must,
31 at a minimum, include an evaluation of enrollment trends,
32 reasonableness of cost, the ability of the project to enhance
33 specific strategic master plan goals, age and condition of the
34 facility if applicable, and impact on space utilization.

35 (b) Each four-year project category may include projects at the
36 predesign, design, or construction funding phase.

37 (c) To the extent possible, the objective analysis and scoring
38 system of all capital budget projects shall occur within the context
39 of any and all performance agreements between the office of financial
40 management and the governing board of a public, four-year institution

1 of higher education that aligns goals, priorities, desired outcomes,
2 flexibility, institutional mission, accountability, and levels of
3 resources.

4 (4) In evaluating and scoring four-year institution projects, the
5 office of financial management shall take into consideration project
6 schedules that result in realistic, balanced, and predictable
7 expenditure patterns over the ensuing three biennia.

8 (5) The office of financial management shall distribute common
9 definitions, the scoring system, and other information required for
10 the project proposal and scoring process as part of its biennial
11 budget instructions. The office of financial management, in
12 consultation with the legislative fiscal committees, shall develop
13 common definitions that four-year institutions must use in developing
14 their project proposals and lists under this section.

15 (6) In developing any scoring system for capital projects
16 proposed by the four-year institutions, the office of financial
17 management:

18 (a) Shall be provided with all required information by the four-
19 year institutions as deemed necessary by the office of financial
20 management;

21 (b) May utilize independent services to verify, sample, or
22 evaluate information provided to the office of financial management
23 by the four-year institutions; and

24 (c) Shall have full access to all data maintained by the joint
25 legislative audit and review committee concerning the condition of
26 higher education facilities.

27 (7) By August 1st of each even-numbered year each public four-
28 year higher education institution shall prepare and submit
29 prioritized lists of the individual projects proposed by the
30 institution for the ensuing six-year period in each category. The
31 lists must be submitted to the office of financial management and the
32 legislative fiscal committees. The four-year institutions may
33 aggregate minor works project proposals by primary purpose for
34 ranking purposes. Proposed minor works projects must be prioritized
35 within the aggregated proposal, and supporting documentation,
36 including project descriptions and cost estimates, must be provided
37 to the office of financial management and the legislative fiscal
38 committees.

39 (8) For the ((2017-2019 fiscal biennium and the)) 2019-2021
40 fiscal biennium and the 2021-2023 fiscal biennium, pursuant to

1 subsection (1) of this section, by November 1, ((2020)) 2022, the
2 office of financial management must score higher education capital
3 project criteria with a rating scale that assesses how well a
4 particular project satisfies those criteria. The office of financial
5 management may not use a rating scale that weighs the importance of
6 those criteria.

7 (9) For the ((2017-2019 fiscal biennium and the)) 2019-2021
8 fiscal biennium and the 2021-2023 fiscal biennium, pursuant to
9 subsection (6)(a) of this section and in lieu of the requirements of
10 subsection (7) of this section, by August 15, ((2020)) 2022, the
11 institutions of higher education shall prepare and submit or resubmit
12 to the office of financial management and the legislative fiscal
13 committees:

14 (a) Individual project proposals developed pursuant to subsection
15 (1) of this section;

16 (b) Individual project proposals scored in prior biennia pursuant
17 to subsection (1) of this section; and

18 (c) A prioritized list of up to five project proposals submitted
19 pursuant to (a) and (b) of this subsection.

20 NEW SECTION. **Sec. 7035.** The public use general aviation airport
21 loan revolving account is created in the custody of the state
22 treasurer. All receipts from moneys directed by law to the account
23 must be deposited into the account. Expenditures from the account may
24 be used only for the purposes described in section 7036 of this act.
25 Only the community aviation revitalization board or the board's
26 designee may authorize expenditures from the account. The account is
27 subject to allotment procedures under chapter 43.88 RCW, but an
28 appropriation is not required for expenditures.

29 NEW SECTION. **Sec. 7036.** (1)(a) The community aviation
30 revitalization board is established to exercise the powers granted
31 under this section.

32 (b) The board must consist of a representative from the
33 department of transportation's aviation division, the public works
34 board, and a nonlegislative member of the community economic
35 revitalization board. The board must also consist of the following
36 members appointed by the secretary of transportation: One port
37 district official, one county official, one city official, one
38 representative of airport managers, and one representative of a

1 general aviation pilots organization within Washington that has an
2 active membership and established location, chapter, or appointed
3 representative within Washington. The appointive members must
4 initially be appointed to terms as follows: Two members for two-year
5 terms, and three members for three-year terms that must include the
6 chair. Thereafter, each succeeding term must be for three years. The
7 secretary of transportation must select the chair of the board. The
8 members of the board must elect one of their members to serve as vice
9 chair.

10 (c) The department of transportation must provide management
11 services, including fiscal and contract services, to assist the board
12 in implementing this section.

13 (d) If a vacancy occurs by death, resignation, or otherwise of
14 appointive members of the board, the secretary of transportation must
15 fill the vacancy for the unexpired term. Members of the board may be
16 removed for malfeasance or misfeasance in office, upon specific
17 written charges by the secretary of transportation, under chapter
18 34.05 RCW.

19 (e) A member appointed by the secretary of transportation may not
20 be absent from more than 50 percent of the regularly scheduled
21 meetings in any one calendar year. Any member who exceeds this
22 absence limitation has withdrawn from the board and may be replaced
23 by the secretary of transportation.

24 (f) A majority of members currently appointed constitutes a
25 quorum.

26 (g) The board must meet three times a year or as deemed necessary
27 by the department of transportation.

28 (h) The department of transportation must provide staff support
29 as needed.

30 (2) In addition to other applicable provisions of law pertaining
31 to conflicts of interest of public officials, any community aviation
32 revitalization board member, appointive or otherwise, may not
33 participate in any decision on any board contract in which the board
34 member has any interests, direct or indirect, with any firm,
35 partnership, corporation, or association that would be the recipient
36 of any aid under this section. If such participation occurs, the
37 board must void the transaction and the involved member is subject to
38 further sanctions as provided by law. The board must adopt a code of
39 ethics for its members, which must be designed to protect the state
40 and its citizens from any unethical conduct by the board.

1 (3) The community aviation revitalization board may:

2 (a) Adopt bylaws for the regulation of its affairs and the
3 conduct of its business;

4 (b) Adopt an official seal and alter the seal at its pleasure;

5 (c) Use the services of other governmental agencies;

6 (d) Accept from any federal agency loans or grants for the
7 planning or financing of any project and enter into an agreement with
8 the agency respecting the loans or grants;

9 (e) Conduct examinations and investigations and take testimony at
10 public hearings of any matter material for its information that will
11 assist in determinations related to the exercise of the board's
12 lawful powers;

13 (f) Accept any gifts, grants, loans of funds, property, or
14 financial or other aid in any form from any other source on any terms
15 and conditions that are not in conflict with this section;

16 (g) Enter into agreements or other transactions with and accept
17 grants and cooperation from any governmental agency in furtherance of
18 this section;

19 (h) Adopt rules under chapter 34.05 RCW as necessary to carry out
20 the purposes of this section; and

21 (i) Perform all acts and things necessary or convenient to carry
22 out the powers expressly granted or implied under this section.

23 (4)(a)(i) The community aviation revitalization board may make
24 direct loans to airport sponsors of public use airports in the state
25 for the purpose of airport improvements that primarily support
26 general aviation activities. The board may provide loans for the
27 purpose of airport improvements only if the state is receiving
28 commensurate public benefit, which must include, as a condition of
29 the loan, a commitment to provide public access to the airport for a
30 period of time equivalent to one and one-half times the term of the
31 loan.

32 (ii) For purposes of this subsection (4)(a), "public use
33 airports" means all public use airports not listed as having more
34 than \$75,000 annual commercial air service passenger enplanements as
35 published by the federal aviation administration.

36 (b) An application for loan funds under this section must be made
37 in the form and manner that the board prescribes. When evaluating
38 loan applications, the board must prioritize applications that
39 provide conclusive justification that completion of the loan
40 application project will create revenue-generating opportunities. The

1 board is not limited to, but must also use, the following expected
2 outcome conditions when evaluating loan applications:

3 (i) A specific private development or expansion is ready to occur
4 and will occur only if the aviation facility improvement is made;

5 (ii) The loan application project results in the creation of jobs
6 or private sector capital investment as determined by the board;

7 (iii) The loan application project improves opportunities for the
8 successful maintenance, operation, or expansion of an airport or
9 adjacent airport business park;

10 (iv) The loan application project results in the creation or
11 retention of long-term economic opportunities; and

12 (v) The loan application project results in leveraging additional
13 federal funding for an airport.

14 (c)(i) If the board chooses to require a local match, the board
15 must develop guidelines for local participation and allowable match
16 and activities.

17 (ii) An application must:

18 (A) Be supported by the port district, city, or county in which
19 the project is located; or

20 (B) Clearly identify the source of funds intended to repay the
21 loan.

22 (5) The public use general aviation airport loan program, when
23 authorized by the community aviation revitalization board, is subject
24 to the following conditions:

25 (a) The moneys in the public use general aviation airport loan
26 revolving account created in section 7035 of this act must be used
27 only to fulfill commitments arising from loans authorized in this
28 section. The total outstanding amount that the board must dispense at
29 any time pursuant to this section must not exceed the moneys
30 available from the account.

31 (b) On contracts made for public use general aviation airport
32 loans, the board must determine the interest rate that loans must
33 bear. The interest rate must not exceed the amount needed to cover
34 the administrative expenses of the board and the loan program. The
35 board may provide reasonable terms and conditions for the repayment
36 of loans, with the repayment of a loan to begin no later than three
37 years after the award date of the loan. The loans must not exceed 20
38 years in duration.

39 (c) The repayment of any loan made from the public use general
40 aviation airport loan revolving account under the contracts for

1 aviation loans must be paid into the public use general aviation
2 airport loan revolving account.

3 (6) All receipts from moneys collected under this section must be
4 deposited into the public use general aviation airport loan revolving
5 account.

6 NEW SECTION. **Sec. 7037.** Sections 7035 and 7036 of this act do
7 not take effect if chapter . . . (Senate Bill 5031), Laws of 2021
8 (community aviation revitalization loan program) is enacted by June
9 30, 2021.

10 NEW SECTION. **Sec. 7038.** The state board for community and
11 technical colleges shall report to the fiscal committees of the
12 legislature by December 15, 2021, on alternative methods of
13 prioritizing and presenting the list of requested capital projects
14 for community and technical colleges in the 2023-2025 fiscal
15 biennium. This report shall take into consideration: (a) The need to
16 balance long term community and technical college system planning and
17 growth management priorities; (b) the need to balance major capital
18 project requests for design and construction funding, given the
19 fiscal impact of funded design projects on the state's capital
20 budget; and (c) the need to balance state funding between design and
21 construction to meet the community and technical colleges'
22 priorities. The alternative methods included in the report may
23 include, but are not limited to, the following concepts:

24 (1) Separately ranking the following types of requests for
25 project funding: (a) Requests for major projects' construction phase,
26 including those projects for which design and construction funding
27 are requested together to facilitate alternative public works
28 contracting procedures pursuant to chapter 39.10 RCW; (b) requests
29 solely for the design phase of major projects; and (c) requests for
30 minor works funding; and

31 (2) Requiring that the number of major project funding requests
32 that are solely for the design phase may not exceed the number of
33 major projects funding requests that include funding for the
34 construction phase.

35 **Sec. 7039.** RCW 43.330.520 and 2019 c 404 s 2 are each amended to
36 read as follows:

1 (1) The department must produce a biennial report identifying a
2 list of projects to address incompatible developments near military
3 installations.

4 (a) The list must include a description of each project, the
5 estimated cost of the project, the amount of recommended state
6 funding, and the amount of any federal or local funds documented to
7 be available to be used for the project.

8 (b) Projects on the list must be prioritized with consideration
9 given to:

10 (i) The recommendations of the recent United States department of
11 defense base realignment and closure (BRAC) processes, joint land use
12 studies, or other federally initiated land use processes; and

13 (ii) Whether a branch of the United States armed forces has
14 identified the project as increasing the viability of military
15 installations for current or future missions.

16 (c) The department may consult with the commanders of United
17 States military installations in Washington to understand impacts and
18 identify the viability of community identified projects to reduce
19 incompatibility.

20 (2) The department must submit the report to appropriate
21 committees of the house of representatives and the senate, including
22 the joint committee on veterans' and military affairs and the house
23 of representatives capital budget committee, by January 1, 2020, and
24 every two years thereafter.

25 (3) For the 2021-2023 fiscal biennium, the department shall
26 develop the report in subsection (2) of this section by November 1,
27 2022, rather than by January 1, 2022.

28 **Sec. 7040.** RCW 43.155.160 and 2019 c 365 s 7 are each amended to
29 read as follows:

30 (1) The board, in collaboration with the office, shall establish
31 a competitive grant and loan program to award funding to eligible
32 applicants in order to promote the expansion of access to broadband
33 service in unserved areas of the state.

34 (2)(a) Grants and loans may be awarded under this section to
35 assist in funding acquisition, installation, and construction of
36 middle mile and last mile infrastructure that supports broadband
37 services and to assist in funding strategic planning for deploying
38 broadband service in unserved areas.

1 (b) The board may choose to fund all or part of an application
2 for funding, provided that the application meets the requirements of
3 subsection (9) of this section.

4 (3) Eligible applicants for grants and loans awarded under this
5 section include:

6 (a) Local governments;

7 (b) Tribes;

8 (c) Nonprofit organizations;

14 (4) (a) The board shall develop administrative procedures
15 governing the application and award process. The board shall act as
16 fiscal agent for the program and is responsible for receiving and
17 reviewing applications and awarding funds under this section.

18 (b) At least sixty days prior to the first day applications may
19 be submitted each fiscal year, the board must publish on its web site
20 the specific criteria and any quantitative weighting scheme or
21 scoring system that the board will use to evaluate or rank
22 applications and award funding.

23 (c) The board may maintain separate accounting in the statewide
24 broadband account created in RCW 43.155.165 as the board deems
25 necessary to carry out the purposes of this section.

26 (d) The board must provide a method for the allocation of loans,
27 grants, provision of technical assistance, and interest rates under
28 this section.

29 (5) An applicant for a grant or loan under this section must
30 provide the following information on the application:

31 (a) The location of the project;

32 (b) Evidence regarding the unserved nature of the community in
33 which the project is to be located;

34 (c) Evidence that proposed infrastructure will be capable of
35 scaling to greater download and upload speeds;

36 (d) The number of households passed that will gain access to
37 broadband service as a result of the project or whose broadband
38 service will be upgraded as a result of the project;

39 (e) The estimated cost of retail services to end users
40 facilitated by a project;

15 including the applicant's financial soundness, organizational
16 capacity, and technical expertise;
- 17 (n) A strategic plan to maintain long-term operation of the
18 infrastructure;
- 19 (o) Evidence that no later than six weeks before submission of
20 the application, the applicant contacted, in writing, all entities
21 providing broadband service near the proposed project area to ask
22 each broadband service provider's plan to upgrade broadband service
23 in the project area to speeds that meet or exceed the state's
24 definition for broadband service as defined in RCW 43.330.530, within
25 the time frame specified in the proposed grant or loan activities;
- 26 (p) If applicable, the broadband service providers' written
27 responses to the inquiry made under (o) of this subsection; and

- 29 (6)(a) Within thirty days of the close of the grant and loan
30 application process, the board shall publish on its web site the
31 proposed geographic broadband service area and the proposed broadband
32 speeds for each application submitted.
- 33 (b) Any existing broadband service provider near the proposed
34 project area may, within thirty days of publication of the
35 information under (a) of this subsection, submit in writing to the
36 board an objection to an application. An objection must contain
37 information demonstrating that:
- 38 (i) The project would result in overbuild, meaning that the
39 objecting provider currently provides, or has begun construction to
40 provide, broadband service to end users in the proposed project area

1 at speeds equal to or greater than the state speed goals contained in
2 RCW 43.330.536; or

3 (ii) The objecting provider commits to complete construction of
4 broadband infrastructure and provide broadband service to end users
5 in the proposed project area at speeds equal to or greater than the
6 state speed goals contained in RCW 43.330.536, no later than twenty-
7 four months after the date awards are made under this section for the
8 grant and loan cycle under which the application was submitted.

9 (c) Objections submitted to the board under this subsection must
10 be certified by affidavit.

11 (d) The board may evaluate the information submitted under this
12 section by the objecting provider and must consider it in making a
13 determination on the application objected to. The board may request
14 clarification or additional information. The board may choose to not
15 fund a project if the board determines that the objecting provider's
16 commitment to provide broadband service that meets the requirements
17 of (b) of this subsection in the proposed project area is credible.
18 In assessing the commitment, the board may consider whether the
19 objecting provider has or will provide a bond, letter of credit, or
20 other indicia of financial commitment guaranteeing the project's
21 completion.

22 (e) If the board denies funding to an applicant as a result of a
23 broadband service provider's objection made under this section, and
24 the broadband service provider does not fulfill its commitment to
25 provide broadband service in the project area, then for the following
26 two grant and loan cycles, the board is prohibited from denying
27 funding to an applicant on the basis of a challenge by the same
28 broadband service provider, unless the board determines that the
29 broadband service provider's failure to fulfill the provider's
30 commitment was the result of factors beyond the broadband service
31 provider's control. The board is not prohibited from denying funding
32 to an applicant for reasons other than an objection by the same
33 broadband service provider.

34 (f) An applicant or broadband service provider that objected to
35 the application may request a debriefing conference regarding the
36 board's decision on the application. Requests for debriefing must be
37 coordinated by the office and must be submitted in writing in
38 accordance with procedures specified by the office.

1 (g) Confidential business and financial information submitted by
2 an objecting provider under this subsection is exempt from disclosure
3 under chapter 42.56 RCW.

4 (7)(a) In evaluating applications and awarding funds, the board
5 shall give priority to applications that are constructed in areas
6 identified as unserved.

7 (b) In evaluating applications and awarding funds, the board may
8 give priority to applications that:

9 (i) Provide assistance to public-private partnerships deploying
10 broadband infrastructure from areas currently served with broadband
11 service to areas currently lacking access to broadband services;

12 (ii) Demonstrate project readiness to proceed;

13 (iii) Construct infrastructure that is open access, meaning that
14 during the useful life of the infrastructure, service providers may
15 use network services and facilities at rates, terms, and conditions
16 that are not discriminatory or preferential between providers, and
17 employing accountable interconnection arrangements published and
18 available publicly;

19 (iv) Are submitted by tribal governments whose reservations are
20 in rural and remote areas where reliable and efficient broadband
21 services are unavailable to many or most residents;

22 (v) Bring broadband service to tribal lands, particularly to
23 rural and remote tribal lands or areas servicing rural and remote
24 tribal entities;

25 (vi) Are submitted by tribal governments in rural and remote
26 areas that have spent significant amounts of tribal funds to address
27 the problem but cannot provide necessary broadband services without
28 either additional state support, additional federal support, or both;

29 (vii) Serve economically distressed areas of the state as the
30 term "distressed area" is defined in RCW 43.168.020;

31 (viii) Offer new or substantially upgraded broadband service to
32 important community anchor institutions including, but not limited
33 to, libraries, educational institutions, public safety facilities,
34 and health care facilities;

35 (ix) Facilitate the use of telemedicine and electronic health
36 records, especially in deliverance of behavioral health services and
37 services to veterans;

38 (x) Provide technical support and train residents, businesses,
39 and institutions in the community served by the project to utilize
40 broadband service;

1 (xi) Include a component to actively promote the adoption of
2 newly available broadband services in the community;

3 (xii) Provide evidence of strong support for the project from
4 citizens, government, businesses, and community institutions;

5 (xiii) Provide access to broadband service to a greater number of
6 unserved households and businesses, including farms;

7 (xiv) Utilize equipment and technology demonstrating greater
8 longevity of service;

9 (xv) Seek the lowest amount of state investment per new location
10 served and leverage greater amounts of funding for the project from
11 other private and public sources;

12 (xvi) Include evidence of a customer service plan;

13 (xvii) Consider leveraging existing broadband infrastructure and
14 other unique solutions;

15 (xviii) Benefit public safety and fire preparedness; or

16 (xix) Demonstrate other priorities as the board, in collaboration
17 with the office, may prescribe by rule.

18 (c) The board shall endeavor to award funds under this section to
19 qualified applicants in all regions of the state.

20 (d) The board shall consider affordability and quality of service
21 to end users in making a determination on any application.

22 (e) The board, in collaboration with the office, may develop
23 additional rules for eligibility, project applications, the
24 associated objection process, and funding priority, as provided under
25 this subsection and subsections (3), (5), and (6) of this section.

26 (f) The board, in collaboration with the office, may adopt rules
27 for a voluntary nonbinding mediation between incumbent providers and
28 applicants to the grant and loan program created in this section.

29 (8) To ensure a grant or loan to a private entity under this
30 section primarily serves the public interest and benefits the public,
31 any such grant or loan must be conditioned on a guarantee that the
32 asset or infrastructure to be developed will be maintained for public
33 use for a period of at least fifteen years.

34 (9) (a) No funds awarded under this section may fund more than
35 fifty percent of the total cost of the project, except as provided in
36 (b) of this subsection.

37 (b) The board may choose to fund up to ninety percent of the
38 total cost of a project in financially distressed areas as the term
39 "distressed area" is defined in RCW 43.168.020, and in areas

1 identified as Indian country as the term "Indian country" is defined
2 in WAC 458-20-192.

3 (c) Funds awarded to a single project under this section must not
4 exceed two million dollars, except that the board may choose to fund
5 projects qualifying for the exception in (b) of this subsection up
6 to, but not to exceed, five million dollars.

7 (10) (~~Prior~~) Except for during the 2021-2023 fiscal biennium,
8 prior to awarding funds under this section, the board must consult
9 with the Washington utilities and transportation commission. The
10 commission must provide to the board an assessment of the technical
11 feasibility of a proposed application. The board must consider the
12 commission's assessment as part of its evaluation of a proposed
13 application.

14 (11) The board shall have such rights of recovery in the event of
15 default in payment or other breach of financing agreement as may be
16 provided in the agreement or otherwise by law.

17 (12) The community economic revitalization board shall facilitate
18 the timely transmission of information and documents from its
19 broadband program to the board in order to effectuate an orderly
20 transition.

21 (13) The definitions in RCW 43.330.530 apply throughout this
22 section unless the context clearly requires otherwise.

23 NEW SECTION. **Sec. 7041.** (1) The department of enterprise
24 services shall convene a construction industry work group to
25 recommend how to apply successful carbon reduction strategies,
26 incorporate necessary parameters of design and construction
27 considerations, and allow for efficient and cost effective state
28 construction projects. The work group must be comprised of
29 construction industry professionals as recommended by a leading
30 association on Washington business in design, specification,
31 construction, and material supply and construction professionals that
32 have successfully realized real and measurable results. The work
33 group must also include a representative from the department of
34 enterprise services, representatives from environmental groups, and
35 someone of applicable expertise from the Washington academy of
36 sciences.

37 (2) The work group shall identify and recommend carbon reduction
38 strategies and environmental product declaration principles to
39 successfully apply in state construction projects and:

1 (a) Clarify the definition of environmental product declaration
2 to ensure that environmental product declarations (EPD) are applied
3 properly, consistently, and as intended and provide a baseline of
4 understanding based on accepted metrics to obtain measurable results
5 for state construction projects;

6 (b) Suggest a pilot project or project review to apply
7 construction industry recommendations and create an education and
8 standards brief that accompanies the report required under subsection
9 (3) of this section;

10 (c) Outline the environmental project review data collection
11 process in functional detail and use existing data gathering
12 resources such as EC3; and

13 (d) Identify measurable outcome criteria to establish a project
14 baseline summary for use during design from estimated project
15 material quantities using industry average environmental product
16 declarations.

17 (3) The work group shall provide their recommendations in a
18 report to the fiscal committees of the legislature by January 1,
19 2022.

20 (d) Identify measurable outcome criteria to establish a project
21 baseline summary for use during design from estimated project
22 material quantities using industry average environmental product
23 declarations; and

24 (e) Identify sustainable and low-carbon emitting building
25 materials, including but not limited to, aggregate and recycled
26 concrete materials, as described in subsection (4) of this section.

27 (3) The work group shall provide their recommendations in a
28 report to the fiscal committees of the legislature by January 1,
29 2022.

30 (4) (a) The legislature continues to prioritize Washington state's
31 sustainability goals and reaffirms its determination that recyclable
32 construction aggregate and recycled concrete materials are too
33 valuable to be wasted and landfilled. The legislature further finds
34 that the reuse of construction aggregate and recycled concrete
35 materials into construction projects is known to:

36 (i) Reduce the need for consumption of new construction aggregate
37 materials and conserves existing aggregate resources;

38 (ii) Encourages reuse and recycling, reduces waste, and
39 discourages landfilling of readily available natural resources;

1 (iii) Reduces truck trips and related transportation emissions;
2 and

3 (iv) Reduces greenhouse gases related to the construction of
4 state funded construction projects, reduce embodied energy, and
5 improve and advance the sustainable principles and practices of
6 Washington state.

7 (b) These recyclable materials have well established markets, are
8 substantially a primary or secondary product of necessary
9 construction processes and production, as a commodity substantially
10 meets widely recognized international, national, and local standards
11 and specifications, and are managed as an item of commercial value.

12 **Sec. 7042.** RCW 43.63A.750 and 2020 c 356 s 7008 are each amended
13 to read as follows:

14 (1) A competitive grant program to assist nonprofit organizations
15 in acquiring, constructing, or rehabilitating performing arts, art
16 museums, and cultural facilities is created.

17 (2)(a) The department shall submit a list of recommended
18 performing arts, art museum projects, and cultural organization
19 projects eligible for funding to the governor and the legislature in
20 the department's biennial capital budget request beginning with the
21 2001-2003 biennium and thereafter. The list, in priority order, shall
22 include a description of each project, the amount of recommended
23 state funding, and documentation of nonstate funds to be used for the
24 project. The total amount of recommended state funding for projects
25 on a biennial project list shall not exceed twelve million dollars,
26 except that lists submitted during the 2019-2021 and 2021-2023 fiscal
27 (~~biennium~~) biennia may not exceed sixteen million dollars.

28 (b) The department shall establish a competitive process to
29 prioritize applications for state assistance as follows:

30 (i) The department shall conduct a statewide solicitation of
31 project applications from nonprofit organizations, local governments,
32 and other entities, as determined by the department. The department
33 shall evaluate and rank applications in consultation with a citizen
34 advisory committee, including a representative from the state arts
35 commission, using objective criteria. The evaluation and ranking
36 process shall also consider local community support for projects and
37 an examination of existing assets that applicants may apply to
38 projects.

1 (ii) The department may establish the amount of state grant
2 assistance for individual project applications but the amount shall
3 not exceed twenty percent, or thirty-three and one-third percent for
4 lists submitted during the 2019-2021 fiscal biennium, of the
5 estimated total capital cost or actual cost of a project, whichever
6 is less. The remaining portions of the project capital cost shall be
7 a match from nonstate sources. The nonstate match may include cash,
8 the value of real property when acquired solely for the purpose of
9 the project, and in-kind contributions. The department is authorized
10 to set matching requirements for individual projects. State
11 assistance may be used to fund separate definable phases of a project
12 if the project demonstrates adequate progress and has secured the
13 necessary match funding.

14 (iii) The department shall not sign contracts or otherwise
15 financially obligate funds under this section until the legislature
16 has approved a specific list of projects. In contracts for grants
17 authorized under this section, the department shall include
18 provisions requiring that capital improvements be held by the grantee
19 for a specified period of time appropriate to the amount of the grant
20 and that facilities be used for the express purpose of the grant. If
21 the grantee is found to be out of compliance with provisions of the
22 contract, the grantee shall repay to the state general fund the
23 principal amount of the grant plus interest calculated at the rate of
24 interest on state of Washington general obligation bonds issued most
25 closely to the date of authorization of the grant.

26 NEW SECTION. **Sec. 7043.** The office of financial management must
27 compile a list of 2021-2023 fiscal biennium capital budget grant
28 programs managed by state agencies and the direct and indirect
29 administrative fee percentages charged for each. For the purposes of
30 this section, "administrative fee percentages" means rates charged by
31 state agencies and the rates grant recipients are allowed to charge
32 for direct and/or indirect administrative costs. The office of
33 financial management must submit the list of capital budget grant
34 programs and their associated administrative fee percentages to the
35 house capital budget committee and the senate ways and means
36 committee by October 1, 2021.

37 **Sec. 7044.** RCW 28B.77.070 and 2019 c 413 s 7029 are each amended
38 to read as follows:

1 (1) The council shall identify budget priorities and levels of
2 funding for higher education, including the two and four-year
3 institutions of higher education and state financial aid programs. It
4 is the intent of the legislature for the council to make budget
5 recommendations for allocations for major policy changes in
6 accordance with priorities set forth in the ten-year plan, but the
7 legislature does not intend for the council to review and make
8 recommendations on individual institutional budgets. It is the intent
9 of the legislature that recommendations from the council prioritize
10 funding needs for the overall system of higher education in
11 accordance with priorities set forth in the ten-year plan. It is also
12 the intent of the legislature that the council's recommendations take
13 into consideration the total per-student funding at similar public
14 institutions of higher education in the global challenge states.

15 (2) By December of each odd-numbered year, the council shall
16 outline the council's fiscal priorities under the ten-year plan that
17 it must distribute to the institutions, the state board for community
18 and technical colleges, the office of financial management, and the
19 joint higher education committee.

20 (a) Capital budget outlines for the two-year institutions shall
21 be submitted to the office of financial management by August 15th of
22 each even-numbered year, and shall include the prioritized ranking of
23 the capital projects being requested, a description of each capital
24 project, and the amount and fund source being requested.

25 (b) Capital budget outlines for the four-year institutions must
26 be submitted to the office of financial management by August 15th of
27 each even-numbered year, and must include: The institutions' priority
28 ranking of the project; the capital budget category within which the
29 project will be submitted to the office of financial management in
30 accordance with RCW 43.88D.010; a description of each capital
31 project; and the amount and fund source being requested.

32 (c) The office of financial management shall reference these
33 reporting requirements in its budget instructions.

34 (3) The council shall submit recommendations on the operating
35 budget priorities to support the ten-year plan to the office of
36 financial management by October 1st each year, and to the legislature
37 by January 1st each year.

38 (4) (a) The office of financial management shall develop one
39 prioritized list of capital projects for the legislature to consider
40 that includes all of the projects requested by the four-year

1 institutions of higher education that were scored by the office of
2 financial management pursuant to chapter 43.88D RCW, including
3 projects that were previously scored but not funded. The prioritized
4 list of capital projects shall be based on the following priorities
5 in the following order:

6 (i) Office of financial management scores pursuant to chapter
7 43.88D RCW;

8 (ii) Preserving assets;

9 (iii) Degree production; and

10 (iv) Maximizing efficient use of instructional space.

11 (b) The office of financial management shall include all of the
12 capital projects requested by the four-year institutions of higher
13 education, except for the minor works projects, in the prioritized
14 list of capital projects provided to the legislature.

15 (c) The form of the prioritized list for capital projects
16 requested by the four-year institutions of higher education shall be
17 provided as one list, ranked in priority order with the highest
18 priority project ranked number "1" through the lowest priority
19 project numbered last. The ranking for the prioritized list of
20 capital projects may not:

21 (i) Include subpriorities;

22 (ii) Be organized by category;

23 (iii) Assume any state bond or building account biennial funding
24 level to prioritize the list; or

25 (iv) Assume any specific share of projects by institution in the
26 priority list.

27 (5) Institutions and the state board for community and technical
28 colleges shall submit any supplemental capital budget requests and
29 revisions to the office of financial management by November 1st and
30 to the legislature by January 1st.

31 (6) For the (~~2017-2019 fiscal biennium and the~~) 2019-2021
32 fiscal biennium and the 2021-2023 fiscal biennium, pursuant to
33 subsection (4) of this section, the office of financial management
34 may, but is not obligated to, develop one prioritized list of capital
35 projects for the legislature to consider that includes all of the
36 projects requested by the four-year institutions of higher education
37 that were scored by the office of financial management pursuant to
38 chapter 43.88D RCW, including projects that were previously scored
39 but not funded.

1 **Sec. 7045.** RCW 28A.320.330 and 2019 c 411 s 3 and 2019 c 410 s 3
2 are each reenacted and amended to read as follows:

3 School districts shall establish the following funds in addition
4 to those provided elsewhere by law:

5 (1)(a) A general fund for the school district to account for all
6 financial operations of the school district except those required to
7 be accounted for in another fund.

8 (b) By the 2018-19 school year, a local revenue subfund of its
9 general fund to account for the financial operations of a school
10 district that are paid from local revenues. The local revenues that
11 must be deposited in the local revenue subfund are enrichment levies
12 and transportation vehicle levies collected under RCW 84.52.053,
13 local effort assistance funding received under chapter 28A.500 RCW,
14 and other school district local revenues including, but not limited
15 to, grants, donations, and state and federal payments in lieu of
16 taxes, but do not include other federal revenues, or local revenues
17 that operate as an offset to the district's basic education
18 allocation under RCW 28A.150.250. School districts must track
19 expenditures from this subfund separately to account for the
20 expenditure of each of these streams of revenue by source, and must
21 provide the supplemental expenditure schedule under (c) of this
22 subsection, and any other supplemental expenditure schedules required
23 by the superintendent of public instruction or state auditor, for
24 purposes of RCW 43.09.2856.

25 (c) Beginning in the 2019-20 school year, the superintendent of
26 public instruction must require school districts to provide a
27 supplemental expenditure schedule by revenue source that identifies
28 the amount expended by object for each of the following supplementary
29 enrichment activities beyond the state funded amount:

30 (i) Minimum instructional offerings under RCW 28A.150.220 or
31 28A.150.260 not otherwise included on other lines;

36 formula;

37 (iii) Program components under RCW 28A.150.200, 28A.150.220, or
38 28A.150.260, not otherwise included on other lines;

39 (iv) Program components to support students in the program of
40 special education;

1 (v) Program components of professional learning, as defined by
2 RCW 28A.415.430, beyond that allocated under RCW 28A.150.415;

3 (vi) Extracurricular activities;

4 (vii) Extended school days or an extended school year;

5 (viii) Additional course offerings beyond the minimum
6 instructional program established in the state's statutory program of
7 basic education;

8 (ix) Activities associated with early learning programs;

9 (x) Activities associated with providing the student
10 transportation program;

11 (xi) Any additional salary costs attributable to the provision or
12 administration of the enrichment activities allowed under RCW
13 28A.150.276;

14 (xii) Additional activities or enhancements that the office of
15 the superintendent of public instruction determines to be a
16 documented and demonstrated enrichment of the state's statutory
17 program of basic education under RCW 28A.150.276; and

18 (xiii) All other costs not otherwise identified in other line
19 items.

20 (d) For any salary and related benefit costs identified in
21 (c)(xi), (xii), and (xiii) of this subsection, the school district
22 shall maintain a record describing how these expenditures are
23 documented and demonstrated enrichment of the state's statutory
24 program of basic education. School districts shall maintain these
25 records until the state auditor has completed the audit under RCW
26 43.09.2856.

27 (2) A capital projects fund shall be established for major
28 capital purposes. All statutory references to a "building fund" shall
29 mean the capital projects fund so established. Money to be deposited
30 into the capital projects fund shall include, but not be limited to,
31 bond proceeds, proceeds from excess levies authorized by RCW
32 84.52.053, state apportionment proceeds as authorized by RCW
33 28A.150.270, earnings from capital projects fund investments as
34 authorized by RCW 28A.320.310 and 28A.320.320, and state forest
35 revenues transferred pursuant to subsection (3) of this section.

36 Money derived from the sale of bonds, including interest earnings
37 thereof, may only be used for those purposes described in RCW
38 28A.530.010, except that accrued interest paid for bonds shall be
39 deposited in the debt service fund.

1 Money to be deposited into the capital projects fund shall
2 include but not be limited to rental and lease proceeds as authorized
3 by RCW 28A.335.060, and proceeds from the sale of real property as
4 authorized by RCW 28A.335.130.

5 Money legally deposited into the capital projects fund from other
6 sources may be used for the purposes described in RCW 28A.530.010,
7 and for the purposes of:

8 (a) Major renovation and replacement of facilities and systems
9 where periodical repairs are no longer economical or extend the
10 useful life of the facility or system beyond its original planned
11 useful life. Such renovation and replacement shall include, but shall
12 not be limited to, major repairs, exterior painting of facilities,
13 replacement and refurbishment of roofing, exterior walls, windows,
14 heating and ventilating systems, floor covering in classrooms and
15 public or common areas, and electrical and plumbing systems.

16 (b) Renovation and rehabilitation of playfields, athletic fields,
17 and other district real property.

18 (c) The conduct of preliminary energy audits and energy audits of
19 school district buildings. For the purpose of this section:

20 (i) "Preliminary energy audits" means a determination of the
21 energy consumption characteristics of a building, including the size,
22 type, rate of energy consumption, and major energy using systems of
23 the building.

24 (ii) "Energy audit" means a survey of a building or complex which
25 identifies the type, size, energy use level, and major energy using
26 systems; which determines appropriate energy conservation maintenance
27 or operating procedures and assesses any need for the acquisition and
28 installation of energy conservation measures, including solar energy
29 and renewable resource measures.

30 (iii) "Energy capital improvement" means the installation, or
31 modification of the installation, of energy conservation measures in
32 a building which measures are primarily intended to reduce energy
33 consumption or allow the use of an alternative energy source.

34 (d) Those energy capital improvements which are identified as
35 being cost-effective in the audits authorized by this section.

36 (e) Purchase or installation of additional major items of
37 equipment and furniture: PROVIDED, That vehicles shall not be
38 purchased with capital projects fund money.

39 (f) (i) Costs associated with implementing technology systems,
40 facilities, and projects, including acquiring hardware, licensing

1 software, and online applications and training related to the
2 installation of the foregoing. However, the software or applications
3 must be an integral part of the district's technology systems,
4 facilities, or projects.

5 (ii) Costs associated with the application and modernization of
6 technology systems for operations and instruction including, but not
7 limited to, the ongoing fees for online applications, subscriptions,
8 or software licenses, including upgrades and incidental services, and
9 ongoing training related to the installation and integration of these
10 products and services. However, to the extent the funds are used for
11 the purpose under this subsection (2)(f)(ii), the school district
12 shall transfer to the district's general fund the portion of the
13 capital projects fund used for this purpose. The office of the
14 superintendent of public instruction shall develop accounting
15 guidelines for these transfers in accordance with internal revenue
16 service regulations.

17 (g) Major equipment repair, painting of facilities, and other
18 major preventative maintenance purposes. However, to the extent the
19 funds are used for the purpose under this subsection (2)(g), the
20 school district shall transfer to the district's general fund the
21 portion of the capital projects fund used for this purpose. The
22 office of the superintendent of public instruction shall develop
23 accounting guidelines for these transfers in accordance with internal
24 revenue service regulations. Based on the district's most recent two-
25 year history of general fund maintenance expenditures, funds used for
26 this purpose may not replace routine annual preventive maintenance
27 expenditures made from the district's general fund.

28 (h) During the (~~2019-2021~~) 2021-2023 fiscal biennium,
29 renovation and replacement of facilities and systems, purchase or
30 installation of items of equipment and furniture, including
31 maintenance vehicles and machinery, and other preventative
32 maintenance or infrastructure improvement purposes.

33 (3) A debt service fund to provide for tax proceeds, other
34 revenues, and disbursements as authorized in chapter 39.44 RCW. State
35 forestland revenues that are deposited in a school district's debt
36 service fund pursuant to RCW 79.64.110 and to the extent not
37 necessary for payment of debt service on school district bonds may be
38 transferred by the school district into the district's capital
39 projects fund.

1 (4) An associated student body fund as authorized by RCW
2 28A.325.030.

3 (5) Advance refunding bond funds and refunded bond funds to
4 provide for the proceeds and disbursements as authorized in chapter
5 39.53 RCW.

6 NEW SECTION. **Sec. 7046.** The department of natural resources, in
7 coordination with the department of social and health services, shall
8 enter into long-term, revenue-generating opportunities for under used
9 portions of the Fircrest Residential Habilitation Center bounded by
10 15th Ave NE and NE 150th Street to benefit the charitable,
11 educational, penal, and reformatory institutions account. Long-term,
12 revenue generating opportunities may include, but are not limited to,
13 land leases, land sales, and land swaps. The department of social and
14 health services and the department of natural resources must amend
15 their lease under chapter 7, Laws of 1986 if necessary to conform
16 with this section.

17 NEW SECTION. **Sec. 7047.** The legislature intends to consider
18 predesign funding for the Washington state patrol crime laboratory
19 I-5 consolidated facility in the 2022 supplemental capital budget. By
20 December 1, 2021, the Washington state patrol must provide data to
21 support the request for a consolidated crime lab. The agency must
22 provide legislative fiscal staff with operating budget financial
23 information including, but not limited to, a list of each leased
24 facility that will be vacated when the consolidated lab is completed.
25 For each facility, the Washington state patrol must provide at least
26 the following:

- 27 (1) Lease contract number;
- 28 (2) Lease contract term;
- 29 (3) Lease facility street address;
- 30 (4) Lease facility cost, by fund and by state fiscal year for
31 fiscal years 2020, 2021, 2022, and 2023;
- 32 (5) Lease facility and maintenance staffing levels and funding by
33 state fiscal year for fiscal years 2020, 2021, 2022, and 2023;
- 34 (6) The most current six-year facilities plan;
- 35 (7) An estimated certificate of participation payback schedule;
- 36 and

1 (8) A summary of how the operating costs from subsection (1) of
2 this section will offset the certification of participation costs
3 from subsection (3) of this section by state fiscal year.

4 NEW SECTION. **Sec. 7048.** The coronavirus capital projects
5 account is created in the state treasury. All receipts from the
6 federal coronavirus capital projects fund moneys under P.L. 117-2,
7 Sec. 604, must be deposited into the account. Moneys in the account
8 may be spent only after appropriation. Expenditures from the account
9 may be used only for capital projects directly enabling work,
10 education and health monitoring, including remote options, in
11 response to the public health emergency with respect to the
12 coronavirus disease.

13 **Sec. 7049.** RCW 39.35D.030 and 2011 c 99 s 1 are each amended to
14 read as follows:

15 (1) All major facility projects of public agencies receiving any
16 funding in a state capital budget, or projects financed through a
17 financing contract as defined in RCW 39.94.020, must be designed,
18 constructed, and certified to at least the LEED silver standard. This
19 subsection applies to major facility projects that have not entered
20 the design phase prior to July 24, 2005, and to the extent
21 appropriate LEED silver standards exist for that type of building or
22 facility.

23 (2) All major facility projects of any entity other than a public
24 agency or public school district receiving any funding in a state
25 capital budget must be designed, constructed, and certified to at
26 least the LEED silver standard. This subsection applies to major
27 facility projects that have not entered the grant application process
28 prior to July 24, 2005, and to the extent appropriate LEED silver
29 standards exist for that type of building or facility.

30 (3)(a) Public agencies, under this section, shall monitor and
31 document ongoing operating savings resulting from major facility
32 projects designed, constructed, and certified as required under this
33 section.

34 (b) Public agencies, under this section, shall report annually to
35 the department on major facility projects and operating savings.

36 (4) The department shall consolidate the reports required in
37 subsection (3) of this section into one report and report to the
38 governor and legislature by September 1st of each even-numbered year

1 beginning in 2006 and ending in 2016. In its report, the department
2 shall also report on the implementation of this chapter, including
3 reasons why the LEED standard was not used as required by RCW
4 39.35D.020(5)(b). The department shall make recommendations regarding
5 the ongoing implementation of this chapter, including a discussion of
6 incentives and disincentives related to implementing this chapter.

7 (5) For the purposes of determining compliance with the
8 requirement for a project to be designed, constructed, and certified
9 to at least the LEED silver standard, the department must credit one
10 additional point for a project that uses wood products with a
11 credible third-party sustainable forest certification or from forests
12 regulated under chapter 76.09 RCW, the Washington forest practices
13 act. For projects that qualify for this additional point, and for
14 which an additional point would have resulted in formal certification
15 under the LEED silver standard, the project must be deemed to meet
16 the standard under this section.

17 (6) During the 2021-2023 fiscal biennium, an alternative high-
18 performance building certification, as determined by the legislature,
19 may be used instead of the LEED silver building design, construction,
20 and certification standard required by this section.

21 NEW SECTION. Sec. 7050. If any provision of this act or its
22 application to any person or circumstance is held invalid, the
23 remainder of the act or the application of the provision to other
24 persons or circumstances is not affected.

25 NEW SECTION. Sec. 7051. This act is necessary for the immediate
26 preservation of the public peace, health, or safety, or support of
27 the state government and its existing public institutions, and takes
28 effect immediately.
