NEW SECTION. Sec. 1. The legislature finds that successful rehabilitation and reentry has a positive impact on reduced recidivism rates and increased community safety. The legislature further finds that the success of individuals releasing from confinement in correctional institutions can be increased through access to supportive services, medical assistance, and other necessities. The legislature recognizes that the mortality rate in the first 72 hours following release from confinement is on average 18 times higher than the general population. The legislature further finds that access to basic human needs like food, medication, clothing, transportation, and shelter are necessary supports for most individuals exiting confinement. Therefore, the legislature resolves to enhance recovery, reduce recidivism, and improve public safety by providing increased access to supportive services and assistance following release from confinement.

Sec. 2. RCW 72.09.270 and 2021 c 200 s 3 are each amended to read as follows:

(1) The department of corrections shall develop an individual reentry plan as defined in RCW 72.09.015 for every incarcerated individual who is committed to the jurisdiction of the department except:

(a) Incarcerated individuals who are sentenced to life without the possibility of release or sentenced to death under chapter 10.95 RCW; and

(b) Incarcerated individuals who are subject to the provisions of 8 U.S.C. Sec. 1227.

(2) The individual reentry plan may be one document, or may be a series of individual plans that combine to meet the requirements of this section.
(3) In developing individual reentry plans, the department shall assess all incarcerated individuals using standardized and comprehensive tools to identify the criminogenic risks, programmatic needs, and educational and vocational skill levels for each incarcerated individual. The assessment tool should take into account demographic biases, such as culture, age, and gender, as well as the needs of the incarcerated individual, including any learning disabilities, substance abuse or mental health issues, and social or behavior challenges.

(4)(a) The initial assessment shall be conducted as early as sentencing, but, whenever possible, no later than forty-five days of being sentenced to the jurisdiction of the department of corrections.

(b) The incarcerated individual's individual reentry plan shall be developed as soon as possible after the initial assessment is conducted, but, whenever possible, no later than sixty days after completion of the assessment, and shall be periodically reviewed and updated as appropriate.

(5) The individual reentry plan shall, at a minimum, include:

(a) A plan to maintain contact with the incarcerated individual's children and family, if appropriate. The plan should determine whether parenting classes, or other services, are appropriate to facilitate successful reunification with the incarcerated individual's children and family;

(b) An individualized portfolio for each incarcerated individual that includes the incarcerated individual's education achievements, certifications, employment, work experience, skills, and any training received prior to and during incarceration; and

(c) A plan for the incarcerated individual during the period of incarceration through reentry into the community that addresses the needs of the incarcerated individual including education, employment, substance abuse treatment, mental health treatment, family reunification, and other areas which are needed to facilitate a successful reintegration into the community.

(6)(a) (Prior to) Within one year prior to the release or discharge of any incarcerated individual, the department shall develop an individual discharge plan and provide reentry linkage case management services as follows:

(i) Evaluate the incarcerated individual's behavioral health and physical health needs and, to the extent possible, connect the incarcerated individual with existing services and resources that
meet those needs) relevant services, treatment programs, medication- 
assisted treatment, tribal and urban health clinics, and behavioral 
health services, and other resources based on the individual's 
evaluated needs;

(ii) Assist the incarcerated individual with obtaining 
identification upon release;

(iii) Assist the incarcerated individual with submitting 
applications for applicable state and federal government assistance 
and benefits programs on behalf of the incarcerated individual;

(iv) Prepare a 90-day supply of any necessary prescribed 
medications to be provided upon release, through a combination of a 
30-day supply of in-hand medications and 60-day supply of 
prescriptions, when clinically appropriate, to ensure continuity of 
care and that medications are readily available for the incarcerated 
individual upon release; and

((i)) (v) Connect the incarcerated individual with a community 
justice center and/or community transition coordination network in 
the area in which the incarcerated individual will be residing once 
released from the correctional system if one exists.

(b) If the department recommends partial confinement in an 
incarcerated individual's individual reentry plan, the department 
shall maximize the period of partial confinement for the incarcerated 
individual as allowed pursuant to RCW 9.94A.728 to facilitate the 
incarcerated individual's transition to the community.

(7) The department shall establish mechanisms for sharing 
information from individual reentry plans to those persons involved 
with the incarcerated individual's treatment, programming, and 
reentry, when deemed appropriate. When feasible, this information 
shall be shared electronically.

(8)(a) In determining the county of discharge for an incarcerated 
individual released to community custody, the department may approve 
a residence location that is not in the incarcerated individual's 
county of origin if the department determines that the residence 
location would be appropriate based on any court-ordered condition of 
the incarcerated individual's sentence, victim safety concerns, and 
factors that increase opportunities for successful reentry and long- 
term support including, but not limited to, location of family or 
other sponsoring persons or organizations that will support the 
incarcerated individual, ability to complete an educational program 
that the incarcerated individual is enrolled in, availability of
appropriate programming or treatment, and access to housing, employment, and prosocial influences on the person in the community.

(b) In implementing the provisions of this subsection, the department shall approve residence locations in a manner that will not cause any one county to be disproportionately impacted.

(c) If the incarcerated individual is not returned to his or her county of origin, the department shall provide the law and justice council of the county in which the incarcerated individual is placed with a written explanation.

(d)(i) For purposes of this section, except as provided in (d)(ii) of this subsection, the incarcerated individual's county of origin means the county of the incarcerated individual's residence at the time of the incarcerated individual's first felony conviction in Washington state.

(ii) If the incarcerated individual is a homeless person as defined in RCW 43.185C.010, or the incarcerated individual's residence is unknown, then the incarcerated individual's county of origin means the county of the incarcerated individual's first felony conviction in Washington state.

(9) Nothing in this section creates a vested right in programming, education, or other services.

NEW SECTION. Sec. 3. If specific funding for the purposes of this act, referencing this act by bill or chapter number, is not provided by June 30, 2023, in the omnibus appropriations act, this act is null and void."

Correct the title.
