Effective Date: Ninety days after adjournment of session in which bill is passed.

Staff Summary of Public Testimony: PRO: Legislative oversight is necessary to know what health care agencies are doing throughout the year. The health care system is also unaffordable, causing individuals to go bankrupt or avoid treatment because of health care costs. The joint select committee should remain functioning in order to keep the Legislature informed and address health care affordability. The name of the committee should also include behavioral health to reflect the work the state has done integrating physical health and behavioral health.
