SENATE COMMITTEE ON WAYS & MEANS

Staff: Shani Bauer (786-7468)

Background: In addition to the state general fund, which may be expended for any lawful purpose, the state maintains several hundred accounts dedicated to particular statutory purposes. These accounts generally fall into one of three categories:

- accounts located in the State Treasury, which require appropriation by the Legislature;
- accounts held in the custody of the State Treasurer, which may or may not require legislative appropriation; and
- accounts located in state agencies and institutions of higher education, known as local accounts.

State law requires the state treasurer, in each odd-numbered year, to provide the Office of Financial Management a list of any accounts believed to be obsolete.

This analysis was prepared by non-partisan legislative staff for the use of legislative members in their deliberations. This analysis is not part of the legislation nor does it constitute a statement of legislative intent.

Summary of Bill: The following accounts are eliminated:

- State Higher Education Construction Account;
- Higher Education Construction Account;
