
HOUSE BILL 1615

State of Washington

68th Legislature

2023 Regular Session

By Representatives Eslick, Corry, Graham, Barkis, Volz, Dent, Couture, Low, Steele, Christian, and McEntire

Read first time 01/26/23. Referred to Committee on Education.

1 AN ACT Relating to creating the students first program which
2 establishes education savings accounts for students in need of
3 support; adding a new section to chapter 28B.77 RCW; adding a new
4 chapter to Title 28A RCW; and creating a new section.

5 BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF WASHINGTON:

6 NEW SECTION. **Sec. 1.** (1) The state Constitution makes clear
7 that it is the paramount duty of the state to make ample provision
8 for the education of all children residing within its borders,
9 without distinction or preference on account of race, color, caste,
10 or sex. The legislature finds the state does not provide for the
11 education of children outside of the public school system. The
12 legislature recognizes that the state has fallen short on its mandate
13 to all children in this state.

14 (2) The legislature also recognizes the power entrusted to
15 parents to know what is best for their children. Parents can choose
16 to place their student in a common school, charter public school, or
17 private school or provide home-based instruction. However, not all
18 parents have access to every option for their student. Public charter
19 schools are limited in number and space, while home school and
20 private school options require a large investment from families. The

1 legislature intends to put students first and empower families by
2 decreasing these barriers.

3 (3) While the legislature has spent years increasing funding to
4 the public school system, the legislature finds many students have
5 been left behind. National test scores have been trending down over
6 the last decade and, after extensive school closures, state test
7 scores are down to the lowest they have been since administration of
8 the smarter balanced assessment began. Over 62 percent of
9 Washington's students did not meet grade level standards in math and
10 about half did not meet grade level standards in English.

11 (4) The legislature further finds the effects from the school
12 closures disproportionately impacted students with the most need,
13 specifically those from underrepresented communities. Students with
14 disabilities who were eligible for special education services were
15 delayed in getting their needed supports for too long. Since the
16 2018-19 school year, there has been an over four percent increase in
17 private school students and over 49 percent increase in students
18 receiving home-based instruction. The legislature finds that families
19 are not satisfied with the education their students are receiving.

20 (5) Therefore, the legislature intends to allow the money
21 invested in students to indeed follow the student by establishing the
22 students first program. The legislature intends to fund education
23 savings accounts for students with priority given to students
24 eligible for special education services, low-income students, and
25 students in failing schools. Parents who apply for the students first
26 program on behalf of their students must agree to only use the funds
27 for education-related expenses. The legislature intends to make the
28 funds accessible with the use of a debit card managed by the state
29 with oversight capability. Students eligible for special education
30 services will qualify for additional support. This program will
31 empower parents to do what is best for their student regardless of
32 income level or zip code, while also meeting the state's moral and
33 constitutional obligation to put students first.

34 NEW SECTION. **Sec. 2.** The definitions in this section apply
