35 read as follows:

36 (1) A state universal communications services program is
37 established. The program is established to protect public safety and
38 welfare under the authority of the state to regulate
39 telecommunications under Article XII, section 19 of the state

1 Constitution. The purpose of the program is to support continued
2 provision of basic telecommunications services under rates, terms,
3 and conditions established by the commission and the provision,
4 enhancement, and maintenance of broadband services, recognizing that,
5 historically, the incumbent public network functions to provide all
6 communications services including, but not limited to, voice and
7 broadband services.

8 (2) Under the program, eligible communications providers may
9 receive distributions from the universal communications services
10 account created in RCW 80.36.690 in exchange for the affirmative
11 agreement to provide continued telecommunications services under the
12 rates, terms, and conditions established by the commission under this
13 chapter, and broadband services, for the period covered by the
14 distribution. The commission must implement and administer the
15 program under terms and conditions established in RCW 80.36.630
16 through 80.36.690. Expenditures for the program may not exceed (~~five~~
17 ~~million dollars~~) \$5,000,000 per fiscal year; provided, however, that
18 if less than (~~five million dollars~~) \$5,000,000 is expended in any
19 fiscal year, the unexpended portion must be carried over to
20 subsequent fiscal years and, unless fully expended, must be available
21 for program expenditures in such subsequent fiscal years in addition
22 to the (~~five million dollars~~) \$5,000,000 allotted for each of those
23 subsequent fiscal years.

24 (3) A communications provider is eligible to receive
25 distributions from the account if:

26 (a)(i) The communications provider is: (A) An incumbent local
27 exchange carrier serving fewer than (~~forty thousand~~) 40,000 access
28 lines in the state; or (B) a radio communications service company
29 providing wireless two-way voice communications service and broadband
30 services to less than the equivalent of (~~forty thousand~~) 40,000
31 access lines in the state. For purposes of determining the access
32 line threshold in this subsection, the access lines or equivalents of
33 all wireline affiliates must be counted as a single threshold, if the
34 lines or equivalents are located in Washington;

35 (ii) The communications provider has adopted a plan to provide,
36 enhance, (~~or~~) and maintain broadband services in its service area;
37 and

38 (iii) The communications provider meets any other requirements
39 established by the commission pertaining to the provision of

1 communications services, including basic telecommunications services;
2 or

3 (b) The communications provider demonstrates to the commission
4 that the communications provider is able to provide the same or
5 comparable services at the same or similar service quality standards
6 at a lower price; and: (i) Will provide communications services to
7 all customers in the exchange or exchanges in which it will provide
8 service; and (ii) submits to the commission's regulation of its
9 service as if it were the incumbent local exchange company serving
10 the exchange or exchanges for which it seeks distribution from the
11 account.

12 (4)(a) Distributions to eligible communications providers are
13 based on criteria established by the commission.

14 (b) If the program does not have sufficient funds to fully fund
15 the distribution formula set out in (a) of this subsection,
16 distributions must be reduced on a pro rata basis using the amounts
17 calculated for that year's program support as the basis of the pro
18 rata calculations.

19 (c) To receive a distribution under the program, an eligible
20 communications provider must affirmatively consent to continue
21 providing communications services to its customers under rates,
22 terms, and conditions established by the commission pursuant to this
23 chapter for the period covered by the distribution.

24 (5) The program is funded from amounts deposited by the
25 legislature in the universal communications services account
26 established in RCW 80.36.690. The commission must operate the program
27 within amounts appropriated for this purpose and deposited in the
28 account.

29 (6) The commission must periodically review the accounts and
30 records of any communications provider that receives distributions
31 under the program to ensure compliance with the program and monitor
32 the providers' use of the funds.

33 (7) The commission must establish an advisory board, consisting
34 of a reasonable balance of representatives from different types of
35 stakeholders, including but not limited to communications providers
36 and consumers, to advise the commission on any rules and policies
37 governing the operation of the program.

38 (8) The program terminates on June 30, (~~(2024)~~) 2034, and no
39 distributions may be made after that date.

7 data that must be filed with the commission, including, but not
8 limited to, how a communication provider used the distributed funds;
9 and the communications provider's infrastructure;

10 (b) Operation of the universal communications services account
11 established in RCW 80.36.690;
