ENGROSSED HOUSE BILL 2372

State of Washington 68th Legislature 2024 Regular Session

By Representatives Lekanoff, Stearns, Leavitt, Davis, Nance, Reed, Chopp, Ormsby, and Pollet

Read first time 01/15/24. Referred to Committee on Capital Budget.

AN ACT Relating to transferring public property to Washington state federally recognized tribes for facilities to provide alcohol and substance use disorder prevention, treatment, and aftercare programs and services, and for behavioral health and related programs and services; adding a new section to chapter 39.33 RCW; and creating a new section.

7 BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF WASHINGTON:

NEW SECTION. Sec. 1. The legislature finds that there is a 8 9 great need for comprehensive programs and services for alcohol and 10 substance use disorder prevention, treatment, and aftercare, as well 11 as help to address behavioral health and related issues for all 12 Washington citizens. The legislature also finds that Washington state 13 federally recognized tribes provide comprehensive prevention 14 services, withdrawal management services, inpatient and outpatient 15 health services, wellness programs, and aftercare services for those 16 experiencing addiction and coping with behavioral health conditions 17 and related issues in a holistic and culturally based approach. The 18 legislature promotes the expansion of these programs and services by 19 Washington state federally recognized tribes that benefit all 20 Washington citizens by authorizing government-to-government transfers 21 of public land and facilities for these purposes.

<u>NEW SECTION.</u> Sec. 2. A new section is added to chapter 39.33
RCW to read as follows:

(1) The state or any municipality or any political subdivision 3 thereof, without further consideration except for subsection (2) of 4 this section, may transfer real property, both improved and 5 6 unimproved, to a Washington state federally recognized tribe, or consortium of federally recognized tribes, for the purpose of 7 providing prevention services, withdrawal management services, 8 inpatient and outpatient health services, wellness programs, and 9 10 aftercare services to help patients address alcohol and substance use disorders, behavioral health conditions, and related issues. 11

12 (2) (a) Any transfer of property under subsection (1) of this section must be done on such terms and conditions as are mutually 13 agreed to by the state, municipality, or political subdivision and 14 15 the Washington state federally recognized tribe or tribes. The terms 16 and conditions must include a requirement that the property in subsection (1) of this section reverts to the state, municipality, or 17 political subdivision if the property ceases to be used for the 18 purposes described in subsection (1) of this section earlier than 50 19 years from the date of the transfer. 20

(b) For transfers under (a) of this subsection involving 21 22 unimproved land or where major renovations to an existing facility 23 are necessary, the Washington state federally recognized tribe or facility constructed or renovated and 24 tribes must have the 25 operational within six years of the transfer and must have the capacity to continue to add onto the facility or property with 26 27 services that address prevention, withdrawal management, inpatient 28 and outpatient health services, wellness programs, and aftercare services. The legislature intends that any necessary state and local 29 30 permits be expedited for these projects to the extent feasible.

31 (3) The state, municipalities, and political subdivisions and 32 Washington state federally recognized Indian tribes are encouraged to 33 consult and cooperate regarding identifying public property that the 34 state, municipality, or political subdivision could consider 35 transferring to a Washington state federally recognized tribe or 36 tribes to provide critical alcohol and substance use disorder 37 services, behavioral health services, and related services.
