- (2) The department shall provide appropriate custody and nursing staff levels for body scanners installed at a state correctional facility under this section. Staffing must be adequate to provide for subsequent searches and dry cell watches if a body scan indicates the presence of contraband.
- (a) An incarcerated individual with a body scan indicating the presence of substance-related contraband shall undergo, appropriate, a comprehensive assessment for substance use disorder and receive relevant substance use disorder treatment services, including medication-assisted treatment. The department prioritize substance use disorder treatment services for incarcerated individuals with cognitive, behavioral, and physiological symptoms indicating the incarcerated individual is experiencing a substance use disorder. The department shall distinguish between incarcerated individuals who have symptoms indicating a substance use disorder and incarcerated individuals who transport substances individuals and do not have symptoms indicating a substance use disorder.
- (b) A department employee, contractor, visitor, or volunteer with a body scan indicating the presence of contraband shall be disciplined in accordance with department policies.
- (3) The department shall provide appropriate radiation safety and body scanner operation training to all staff who will administer the body scan. Only staff who have completed all related trainings may be permitted to operate the body scanner and review body scans. The department shall develop policies, in ((consultation and collaboration)) accordance with the department of health rules for the use of body scanners, on scanner use and screening procedures, including frequency and radiation exposure limits, to minimize harmful radiation exposure while safely and effectively utilizing the full body scanners to create drug-free correctional facilities. The department shall develop a method to track and maintain records on the frequency of body scans conducted on any individual subject to the comprehensive body scanner program to comply with any maximum
