<p>Brief Summary of Bill</p> <ul style="list-style-type: none">• Applies the requirement that health plans reimburse for a 12-month supply of contraceptives to all prescriptions, instead of only refills.
--

Hearing Date: 1/15/25

Staff: Jim Morishima (786-7191).

Background:

Health plans are required to cover contraceptive drugs without cost sharing. A health plan must provide reimbursement for a 12-month supply of contraceptive drugs obtained at one time by the enrollee, unless the enrollee requests a smaller supply or the prescriber instructs the enrollee to receive a smaller supply. The health plan must allow the enrollee to receive the contraceptive drugs on-site at the provider's office, if available. The 12-month supply requirement applies only to refills of contraceptive drugs, not the original prescription.

Summary of Bill:

The 12-month supply requirement is applied to all prescriptions of contraceptive drugs, not just refills.

This analysis was prepared by non-partisan legislative staff for the use of legislative members in their deliberations. This analysis is not part of the legislation nor does it constitute a statement of legislative intent.

Appropriation: None.

Fiscal Note: Available.

Effective Date: The bill takes effect on January 1, 2026.
