
HOUSE BILL 1755

State of Washington

69th Legislature

2025 Regular Session

By Representatives Street, Macri, Schmick, Parshley, Thai, Salahuddin, Ormsby, Stonier, and Reed

Read first time 01/31/25. Referred to Committee on Health Care & Wellness.

1 AN ACT Relating to exempting elective percutaneous coronary
2 intervention performed in certain hospitals owned or operated by a
3 state entity from certificate of need requirements; and reenacting
4 and amending RCW 70.38.111.

5 BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF WASHINGTON:

6 **Sec. 1.** RCW 70.38.111 and 2024 c 259 s 5, 2024 c 165 s 1, and
7 2024 c 121 s 23 are each reenacted and amended to read as follows:

8 (1) The department shall not require a certificate of need for
9 the offering of an inpatient tertiary health service by:

10 (a) A health maintenance organization or a combination of health
11 maintenance organizations if (i) the organization or combination of
12 organizations has, in the service area of the organization or the
13 service areas of the organizations in the combination, an enrollment
14 of at least 50,000 individuals, (ii) the facility in which the
15 service will be provided is or will be geographically located so that
16 the service will be reasonably accessible to such enrolled
17 individuals, and (iii) at least 75 percent of the patients who can
18 reasonably be expected to receive the tertiary health service will be
19 individuals enrolled with such organization or organizations in the
20 combination;

1 (b) A health care facility if (i) the facility primarily provides
2 or will provide inpatient health services, (ii) the facility is or
3 will be controlled, directly or indirectly, by a health maintenance
4 organization or a combination of health maintenance organizations
5 which has, in the service area of the organization or service areas
6 of the organizations in the combination, an enrollment of at least
7 50,000 individuals, (iii) the facility is or will be geographically
8 located so that the service will be reasonably accessible to such
9 enrolled individuals, and (iv) at least 75 percent of the patients
10 who can reasonably be expected to receive the tertiary health service
11 will be individuals enrolled with such organization or organizations
12 in the combination; or

13 (c) A health care facility (or portion thereof) if (i) the
14 facility is or will be leased by a health maintenance organization or
15 combination of health maintenance organizations which has, in the
16 service area of the organization or the service areas of the
17 organizations in the combination, an enrollment of at least 50,000
18 individuals and, on the date the application is submitted under
19 subsection (2) of this section, at least 15 years remain in the term
20 of the lease, (ii) the facility is or will be geographically located
21 so that the service will be reasonably accessible to such enrolled
22 individuals, and (iii) at least 75 percent of the patients who can
23 reasonably be expected to receive the tertiary health service will be
24 individuals enrolled with such organization;
25 if, with respect to such offering or obligation by a nursing home,
26 the department has, upon application under subsection (2) of this
27 section, granted an exemption from such requirement to the
28 organization, combination of organizations, or facility.

29 (2) A health maintenance organization, combination of health
30 maintenance organizations, or health care facility shall not be
31 exempt under subsection (1) of this section from obtaining a
32 certificate of need before offering a tertiary health service unless:

33 (a) It has submitted at least 30 days prior to the offering of
34 services reviewable under RCW 70.38.105(4)(d) an application for such
35 exemption; and

36 (b) The application contains such information respecting the
37 organization, combination, or facility and the proposed offering or
38 obligation by a nursing home as the department may require to
39 determine if the organization or combination meets the requirements

1 of subsection (1) of this section or the facility meets or will meet
2 such requirements; and

3 (c) The department approves such application. The department
4 shall approve or disapprove an application for exemption within 30
5 days of receipt of a completed application. In the case of a proposed
6 health care facility (or portion thereof) which has not begun to
7 provide tertiary health services on the date an application is
8 submitted under this subsection with respect to such facility (or
9 portion), the facility (or portion) shall meet the applicable
10 requirements of subsection (1) of this section when the facility
11 first provides such services. The department shall approve an
12 application submitted under this subsection if it determines that the
13 applicable requirements of subsection (1) of this section are met.

14 (3) A health care facility (or any part thereof) with respect to
15 which an exemption was granted under subsection (1) of this section
16 may not be sold or leased and a controlling interest in such facility
17 or in a lease of such facility may not be acquired and a health care
18 facility described in subsection (1)(c) of this section which was
19 granted an exemption under subsection (1) of this section may not be
20 used by any person other than the lessee described in subsection
21 (1)(c) of this section unless:

22 (a) The department issues a certificate of need approving the
23 sale, lease, acquisition, or use; or

24 (b) The department determines, upon application, that (i) the
25 entity to which the facility is proposed to be sold or leased, which
26 intends to acquire the controlling interest, or which intends to use
27 the facility is a health maintenance organization or a combination of
28 health maintenance organizations which meets the requirements of
29 subsection (1)(a)(i) of this section, and (ii) with respect to such
30 facility, meets the requirements of subsection (1)(a)(ii) or (iii) of
31 this section or the requirements of subsection (1)(b)(i) and (ii) of
32 this section.

33 (4) In the case of a health maintenance organization, an
34 ambulatory care facility, or a health care facility, which ambulatory
35 or health care facility is controlled, directly or indirectly, by a
36 health maintenance organization or a combination of health
37 maintenance organizations, the department may under the program apply
38 its certificate of need requirements to the offering of inpatient
39 tertiary health services to the extent that such offering is not
40 exempt under the provisions of this section or RCW 70.38.105(7).

1 (5) (a) The department shall not require a certificate of need for
2 the construction, development, or other establishment of a nursing
3 home, or the addition of beds to an existing nursing home, that is
4 owned and operated by a continuing care retirement community that:

5 (i) Offers services only to contractual members;

6 (ii) Provides its members a contractually guaranteed range of
7 services from independent living through skilled nursing, including
8 some assistance with daily living activities;

9 (iii) Contractually assumes responsibility for the cost of
10 services exceeding the member's financial responsibility under the
11 contract, so that no third party, with the exception of insurance
12 purchased by the retirement community or its members, but including
13 the medicaid program, is liable for costs of care even if the member
14 depletes his or her personal resources;

15 (iv) Has offered continuing care contracts and operated a nursing
16 home continuously since January 1, 1988, or has obtained a
17 certificate of need to establish a nursing home;

18 (v) Maintains a binding agreement with the state assuring that
19 financial liability for services to members, including nursing home
20 services, will not fall upon the state;

21 (vi) Does not operate, and has not undertaken a project that
22 would result in a number of nursing home beds in excess of one for
23 every four living units operated by the continuing care retirement
24 community, exclusive of nursing home beds; and

25 (vii) Has obtained a professional review of pricing and long-term
26 solvency within the prior five years which was fully disclosed to
27 members.

28 (b) A continuing care retirement community shall not be exempt
29 under this subsection from obtaining a certificate of need unless:

30 (i) It has submitted an application for exemption at least 30
31 days prior to commencing construction of, is submitting an
32 application for the licensure of, or is commencing operation of a
33 nursing home, whichever comes first; and

34 (ii) The application documents to the department that the
35 continuing care retirement community qualifies for exemption.

36 (c) The sale, lease, acquisition, or use of part or all of a
37 continuing care retirement community nursing home that qualifies for
38 exemption under this subsection shall require prior certificate of
39 need approval to qualify for licensure as a nursing home unless the
40 department determines such sale, lease, acquisition, or use is by a

1 continuing care retirement community that meets the conditions of (a)
2 of this subsection.

3 (6) A rural hospital, as defined by the department, reducing the
4 number of licensed beds to become a rural primary care hospital under
5 the provisions of Part A Title XVIII of the Social Security Act
6 Section 1820, 42 U.S.C., 1395c et seq. may, within three years of the
7 reduction of beds licensed under chapter 70.41 RCW, increase the
8 number of licensed beds to no more than the previously licensed
9 number without being subject to the provisions of this chapter.

10 (7) A rural health care facility licensed under RCW 70.175.100
11 formerly licensed as a hospital under chapter 70.41 RCW may, within
12 three years of the effective date of the rural health care facility
13 license, apply to the department for a hospital license and not be
14 subject to the requirements of RCW 70.38.105(4)(a) as the
15 construction, development, or other establishment of a new hospital,
16 provided there is no increase in the number of beds previously
17 licensed under chapter 70.41 RCW and there is no redistribution in
18 the number of beds used for acute care or long-term care, the rural
19 health care facility has been in continuous operation, and the rural
20 health care facility has not been purchased or leased.

21 (8) A rural hospital determined to no longer meet critical access
22 hospital status for state law purposes as a result of participation
23 in the Washington rural health access preservation pilot identified
24 by the state office of rural health and formerly licensed as a
25 hospital under chapter 70.41 RCW may apply to the department to renew
26 its hospital license and not be subject to the requirements of RCW
27 70.38.105(4)(a) as the construction, development, or other
28 establishment of a new hospital, provided there is no increase in the
29 number of beds previously licensed under chapter 70.41 RCW. If all or
30 part of a formerly licensed rural hospital is sold, purchased, or
31 leased during the period the rural hospital does not meet critical
32 access hospital status as a result of participation in the Washington
33 rural health access preservation pilot and the new owner or lessor
34 applies to renew the rural hospital's license, then the sale,
35 purchase, or lease of part or all of the rural hospital is subject to
36 the provisions of this chapter.

37 (9) (a) A nursing home that voluntarily reduces the number of its
38 licensed beds to provide assisted living, licensed assisted living
39 facility care, adult day care, adult day health, respite care,
40 hospice, outpatient therapy services, congregate meals, home health,

1 or senior wellness clinic, or to reduce to one or two the number of
2 beds per room or to otherwise enhance the quality of life for
3 residents in the nursing home, may convert the original facility or
4 portion of the facility back, and thereby increase the number of
5 nursing home beds to no more than the previously licensed number of
6 nursing home beds without obtaining a certificate of need under this
7 chapter, provided the facility has been in continuous operation and
8 has not been purchased or leased. Any conversion to the original
9 licensed bed capacity, or to any portion thereof, shall comply with
10 the same life and safety code requirements as existed at the time the
11 nursing home voluntarily reduced its licensed beds; unless waivers
12 from such requirements were issued, in which case the converted beds
13 shall reflect the conditions or standards that then existed pursuant
14 to the approved waivers.

15 (b) To convert beds back to nursing home beds under this
16 subsection, the nursing home must:

17 (i) Give notice of its intent to preserve conversion options to
18 the department of health no later than 30 days after the effective
19 date of the license reduction; and

20 (ii) Give notice to the department of health and to the
21 department of social and health services of the intent to convert
22 beds back. If construction is required for the conversion of beds
23 back, the notice of intent to convert beds back must be given, at a
24 minimum, one year prior to the effective date of license modification
25 reflecting the restored beds; otherwise, the notice must be given a
26 minimum of 90 days prior to the effective date of license
27 modification reflecting the restored beds. Prior to any license
28 modification to convert beds back to nursing home beds under this
29 section, the licensee must demonstrate that the nursing home meets
30 the certificate of need exemption requirements of this section.

31 The term "construction," as used in (b)(ii) of this subsection,
32 is limited to those projects that are expected to equal or exceed the
33 expenditure minimum amount, as determined under this chapter.

34 (c) Conversion of beds back under this subsection must be
35 completed no later than four years after the effective date of the
36 license reduction. However, for good cause shown, the four-year
37 period for conversion may be extended by the department of health for
38 one additional four-year period.

39 (d) Nursing home beds that have been voluntarily reduced under
40 this section shall be counted as available nursing home beds for the

1 purpose of evaluating need under RCW 70.38.115(2) (a) and (k) so long
2 as the facility retains the ability to convert them back to nursing
3 home use under the terms of this section.

4 (e) When a building owner has secured an interest in the nursing
5 home beds, which are intended to be voluntarily reduced by the
6 licensee under (a) of this subsection, the applicant shall provide
7 the department with a written statement indicating the building
8 owner's approval of the bed reduction.

9 (10)(a) The department shall not require a certificate of need
10 for a hospice agency if:

11 (i) The hospice agency is designed to serve the unique religious
12 or cultural needs of a religious group or an ethnic minority and
13 commits to furnishing hospice services in a manner specifically aimed
14 at meeting the unique religious or cultural needs of the religious
15 group or ethnic minority;

16 (ii) The hospice agency is operated by an organization that:

17 (A) Operates a facility, or group of facilities, that offers a
18 comprehensive continuum of long-term care services, including, at a
19 minimum, a licensed, medicare-certified nursing home, assisted
20 living, independent living, day health, and various community-based
21 support services, designed to meet the unique social, cultural, and
22 religious needs of a specific cultural and ethnic minority group;

23 (B) Has operated the facility or group of facilities for at least
24 10 continuous years prior to the establishment of the hospice agency;

25 (iii) The hospice agency commits to coordinating with existing
26 hospice programs in its community when appropriate;

27 (iv) The hospice agency has a census of no more than 40 patients;

28 (v) The hospice agency commits to obtaining and maintaining
29 medicare certification;

30 (vi) The hospice agency only serves patients located in the same
31 county as the majority of the long-term care services offered by the
32 organization that operates the agency; and

33 (vii) The hospice agency is not sold or transferred to another
34 agency.

35 (b) The department shall include the patient census for an agency
36 exempted under this subsection (10) in its calculations for future
37 certificate of need applications.

38 (11) To alleviate the need to board psychiatric patients in
39 emergency departments and increase capacity of hospitals to serve

1 individuals on 90-day or 180-day commitment orders, for the period of
2 time from May 5, 2017, through June 30, 2028:

3 (a) The department shall suspend the certificate of need
4 requirement for a hospital licensed under chapter 70.41 RCW that
5 changes the use of licensed beds to increase the number of beds to
6 provide psychiatric services, including involuntary treatment
7 services. A certificate of need exemption under this subsection
8 (11) (a) shall be valid for two years.

9 (b) The department may not require a certificate of need for:

10 (i) The addition of beds as described in RCW 70.38.260 (2) and
11 (3); or

12 (ii) The construction, development, or establishment of a
13 behavioral health hospital licensed as an establishment under chapter
14 71.12 RCW that will have no more than 16 beds and provide treatment
15 to adults on 90 or 180-day involuntary commitment orders, as
16 described in RCW 70.38.260(4).

17 (12) (a) An ambulatory surgical facility is exempt from all
18 certificate of need requirements if the facility:

19 (i) Is an individual or group practice and, if the facility is a
20 group practice, the privilege of using the facility is not extended
21 to physicians outside the group practice;

22 (ii) Operated or received approval to operate, prior to January
23 19, 2018; and

24 (iii) Was exempt from certificate of need requirements prior to
25 January 19, 2018, because the facility either:

26 (A) Was determined to be exempt from certificate of need
27 requirements pursuant to a determination of reviewability issued by
28 the department; or

29 (B) Was a single-specialty endoscopy center in existence prior to
30 January 14, 2003, when the department determined that endoscopy
31 procedures were surgeries for purposes of certificate of need.

32 (b) The exemption under this subsection:

33 (i) Applies regardless of future changes of ownership, corporate
34 structure, or affiliations of the individual or group practice as
35 long as the use of the facility remains limited to physicians in the
36 group practice; and

37 (ii) Does not apply to changes in services, specialties, or
38 number of operating rooms.

39 (13) A rural health clinic providing health services in a home
40 health shortage area as declared by the department pursuant to 42

1 C.F.R. Sec. 405.2416 is not subject to certificate of need review
2 under this chapter.

3 (14) Hospital at-home services, as defined in RCW 70.41.550, are
4 not subject to certificate of need review under this chapter.

5 (15) Elective percutaneous coronary intervention provided in a
6 hospital that is owned or operated by a state entity shall not
7 require a certificate of need for these services.

--- END ---
