
SECOND SUBSTITUTE HOUSE BILL 2421

State of Washington

69th Legislature

2026 Regular Session

By House Appropriations (originally sponsored by Representatives Hall, Berry, Parshley, Zahn, Ramel, Pollet, Reed, and Hill)

READ FIRST TIME 02/09/26.

1 AN ACT Relating to 6PPD and regrettable 6PPD substitutes in
2 tires; reenacting and amending RCW 43.21B.110 and 43.21B.300; adding
3 a new chapter to Title 70A RCW; and creating a new section.

4 BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF WASHINGTON:

5 NEW SECTION. **Sec. 1.** (1) The legislature finds that 6PPD
6 (N-(1,3-dimethylbutyl)-N'-phenyl-p-phenylenediamine) is a chemical
7 commonly used in motor vehicle tires to keep them from cracking and
8 degrading quickly. 6PPD works by moving to the surface of the tire
9 and forming a film that protects the tire. When 6PPD is exposed to
10 oxygen and ozone at the surface of a tire, it forms 6PPD-quinone
11 (2-((4-methylpentan-2-yl)amino)-5-(phenylamino)cyclohexa-2,5-diene-1,
12 4-dione). As tires are used and degrade, they release 6PPD-quinone as
13 tire wear particles that are washed or deposited into streams,
14 rivers, and other water bodies through stormwater runoff, aerial
15 deposition, and other pathways.

16 (2) The legislature further finds that 6PPD-quinone is directly
17 linked to urban runoff mortality syndrome, a condition where coho
18 salmon die prior to spawning. 6PPD-quinone is known to be toxic to
19 aquatic species and is the primary causal toxicant for coho salmon.

20 (3) The legislature recognizes the urgency in reducing and
21 stopping the release of 6PPD-quinone into Washington waterways by

1 incentivizing the development and use of safer alternatives to
2 protect salmon, trout, and other aquatic species. Salmon, trout, and
3 other aquatic species are central to Washington's ecosystems, treaty-
4 reserved tribal rights, cultural heritage, recreational fishing, and
5 the state's economy. Ongoing mortality of salmonids linked to 6PPD-
6 quinone undermines ecological health, fisheries, and community well-
7 being.

8 (4) The legislature further finds that alternatives to 6PPD are
9 under development. Phasing out 6PPD in favor of safer alternatives
10 will incentivize innovation, protect aquatic species, reduce
11 stormwater pollution, align with Washington's leadership in toxics
12 reduction and salmonid recovery, and provide the timing necessary to
13 identify an alternative to 6PPD that ensures motorist safety and
14 protection of human health and the environment.

15 (5) It is therefore the legislature's intent to restrict 6PPD in
16 tires after providing time for the industry to bring 6PPD
17 alternatives into the marketplace, and restrict 6PPD substitutes that
18 are not safer alternatives to 6PPD in tires.

19 NEW SECTION. **Sec. 2.** The definitions in this section apply
20 throughout this chapter unless the context clearly requires
21 otherwise.

22 (1) "6PPD" has the same meaning as in RCW 70A.350.010(1).

23 (2) "Department" means the department of ecology.

24 (3) "Regrettable 6PPD substitute" means a chemical or chemicals
25 that are not determined by the department to be a safer alternative
26 consistent with section 3 of this act.

27 (4) "Safer alternative" has the same meaning as in RCW
28 70A.350.010.

29 (5) "Vehicle" has the same meaning as in RCW 46.04.670.

30 NEW SECTION. **Sec. 3.** (1) Beginning January 1, 2035, no person
31 may manufacture, sell, offer for sale, distribute for sale, or
32 distribute for use in this state a new vehicle tire containing
33 intentionally added 6PPD or a regrettable 6PPD substitute identified
34 by rule by the department.

35 (2) In adopting rules to identify regrettable 6PPD substitutes
36 subject to the requirements of this section, the department, in
37 consultation with the department of health, may consider information
38 generated by other states or nations to identify likely regrettable

1 6PPD substitutes. The department may identify as a regrettable 6PPD
2 substitute any alternative that it determines is not a safer
3 alternative consistent with the criteria established under chapter
4 70A.350 RCW.

5 (3) The provisions of this section do not apply to vehicle tires
6 for use on products certified, regulated, or specified by the United
7 States federal aviation administration, United States department of
8 defense, United States department of homeland security, or the
9 national aeronautics and space administration.

10 (4) Nothing in this chapter limits the authority of the
11 department with respect to tires, 6PPD, or 6PPD substitutes under
12 chapter 70A.350 RCW.

13 NEW SECTION. **Sec. 4.** (1) The department may adopt rules as
14 necessary for implementing, administering, and enforcing this
15 chapter. The department may not start rule making under this
16 subsection prior to July 1, 2029.

17 (2) A person violating a requirement of this chapter, a rule
18 adopted under this chapter, or an order issued under this chapter, is
19 subject to a civil penalty not to exceed \$5,000 for each violation in
20 the case of a first offense. Repeat violations are subject to a civil
21 penalty not to exceed \$10,000 for each repeat offense.

22 (3) The department may issue a corrective action order to a
23 person in violation of the requirements of this chapter.

24 (4) Any penalty provided for in this section, and any order
25 issued by the department under this chapter, may be appealed to the
26 pollution control hearings board.

27 (5) All penalties collected under this chapter shall be deposited
28 in the model toxics control operating account created in RCW
29 70A.305.180.
