1 AN ACT Relating to medically tailored meals; adding a new section
2 to chapter 74.39A RCW; adding a new section to chapter 74.09 RCW; and
3 creating a new section.

4 BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF WASHINGTON:

5 NEW SECTION. **Sec. 1.** (1) The legislature finds that:

6 (a) Washington state recently received authority from the federal
7 centers for medicare and medicaid services to administer a health
8 benefit under the apple health program to provide medically tailored
9 meals to certain medical assistance clients with health-related
10 conditions that require nutrition supports to improve their health
11 outcomes;

12 (b) The provision of fresh, locally sourced meals provides
13 clients with proper nutrition to manage their health conditions and
14 an example of healthier food options that can promote healthier
15 future meal decisions;

16 (c) The production and delivery of medically tailored meals at
17 the local level can reduce pollution and other impacts on the
18 environment; and

19 (d) Local delivery drivers of medically tailored meals from a
20 client's community are able to connect directly with clients and

1 monitor their health and emotional status and alert community service
2 providers when services may be necessary.

3 (2) The legislature, therefore, intends to prioritize the
4 provision of medically tailored meals to clients enrolled in state-
5 supported medical assistance programs by medically tailored meal
6 vendors that are able to provide locally sourced whole foods through
7 the use of community-based delivery drivers.
