(1) Each code city that owns or operates a rail fixed guideway public transportation system as defined in RCW 81.104.015 shall submit a system safety program plan and a system security and emergency preparedness plan for that guideway to the state department of transportation by September 1, 1999, or at least one hundred eighty calendar days before beginning operations or instituting significant revisions to its plans. These plans must describe the code city's procedures for (a) reporting and investigating any reportable incident, accident, or security breach and identifying and resolving hazards or security vulnerabilities discovered during planning, design, construction, testing, or operations, (b) developing and submitting corrective action plans and annual safety and security audit reports, (c) facilitating on-site safety and security reviews by the state department of transportation and the federal transit administration, and (d) addressing passenger and employee safety and security. The plans must, at a minimum, conform to the standards adopted by the state department of transportation as set forth in the most current version of the Washington state rail safety oversight program standard manual as it exists on March 25, 2016, or such subsequent date as may be provided by the department by rule, consistent with the purposes of this section. If required by the department, the code city shall revise its plans to incorporate the department's review comments within sixty days after their receipt, and resubmit its revised plans for review.

(2) Each code city shall implement and comply with its system safety program plan and system security and emergency preparedness plan. The code city shall perform internal safety and security audits to evaluate its compliance with the plans, and submit its audit schedule to the department of transportation pursuant to the requirements in the most current version of the Washington state rail safety oversight program standard manual as it exists on March 25, 2016, or such subsequent date as may be provided by the department by rule, consistent with the purposes of this section. The code city shall prepare an annual report for its internal safety and security audits undertaken in the prior year and submit it to the department no later than February 15th. The department shall establish the requirements for the annual report. The contents of the annual report must include, at a minimum, the dates the audits were conducted, the scope of the audit activity, the audit findings and recommendations, the status of any corrective actions taken as a result of the audit activity, and the results of each audit in terms of the adequacy and effectiveness of the plans.

(3) Each code city shall notify the department of transportation, pursuant to the most current version of the Washington state rail safety oversight program standard manual as it exists on March 25, 2016, or such subsequent date as may be provided by the department by rule, consistent with the purposes of this section, any reportable

incident, accident, security breach, hazard, or security vulnerability. The department may adopt rules further defining any reportable incident, accident, security breach, hazard, or security vulnerability. The code city shall investigate any reportable incident, accident, security breach, hazard, or security vulnerability and provide a written investigation report to the department as described in the most current version of the Washington state rail safety oversight program standard manual as it exists on March 25, 2016, or such subsequent date as may be provided by the department by rule, consistent with the purposes of this section.

(4) The system security and emergency preparedness plan required in subsection (1) of this section is exempt from public disclosure under chapter 42.56 RCW. However, the system safety program plan as described in this section is not subject to this exemption. [2016 c 33 § 3; 2007 c 422 § 2; 2005 c 274 § 267; 1999 c 202 § 2.]

(1) A code city may not adopt an ordinance that has the effect, directly or indirectly, of discriminating against consumers' choices in the placement or use of a

- (a) A manufactured home be a new manufactured home;
 - (b) The manufactured home be set upon a permanent foundation, as specified by the manufacturer, and that the space from the bottom of the home to the ground be enclosed by concrete or an approved concrete product which can be either load bearing or decorative;

(c) A code city is not precluded by (a) or (b) of this subsection from restricting the location of a manufactured/mobile home in manufactured/mobile home communities for any other reason including, but not limited to, failure to comply with fire, safety, or other local ordinances or state laws related to manufactured/mobile homes.

(3) Except as provided under subsection (4) of this section, a code city may not adopt an ordinance that has the effect, directly or indirectly, of preventing the entry or requiring the removal of a recreational vehicle used as a primary residence in manufactured/mobile home communities.

(a) Imposes fire, safety, or other regulations related to recreational vehicles;

(b) Requires utility hookups in manufactured/mobile home communities to meet state or federal building code standards for manufactured/mobile home communities or recreational vehicle parks; or

(5) For the purposes of this section, "manufactured/mobile home community" has the same meaning as in RCW 59.20.030.

RCW 35A.21.360 Hosting the homeless by religious organizations—When authorized—Requirements—Prohibitions on local actions. (1) A religious organization may host the homeless on property owned or controlled by the religious organization whether within buildings located on the property or elsewhere on the property outside of buildings.

(2) Except as provided in subsection (7) of this section, a code city may not enact an ordinance or regulation or take any other action that:

(a) Imposes conditions other than those necessary to protect public health and safety and that do not substantially burden the decisions or actions of a religious organization regarding the location of housing or shelter, such as an outdoor encampment, indoor overnight shelter, temporary small house on-site, or vehicle resident safe parking, for homeless persons on property owned or controlled by the religious organization;

(b) Requires a religious organization to obtain insurance pertaining to the liability of a municipality with respect to homeless persons housed on property owned by a religious organization or otherwise requires the religious organization to indemnify the municipality against such liability;

(c) Imposes permit fees in excess of the actual costs associated with the review and approval of permit applications. A code city has discretion to reduce or waive permit fees for a religious organization that is hosting the homeless;

(d) Specifically limits a religious organization's availability to host an outdoor encampment on its property or property controlled by the religious organization to fewer than six months during any calendar year. However, a code city may enact an ordinance or regulation that requires a separation of time of no more than three months between subsequent or established outdoor encampments at a particular site;

(e) Specifically limits a religious organization's outdoor encampment hosting term to fewer than four consecutive months;

(f) Limits the number of simultaneous religious organization outdoor encampment hostings within the same municipality during any given period of time. Simultaneous and adjacent hostings of outdoor encampments by religious organizations may be limited if located within one thousand feet of another outdoor encampment concurrently hosted by a religious organization;

(g) Limits a religious organization's availability to host safe parking efforts at its on-site parking lot, including limitations on any other congregationally sponsored uses and the parking available to support such uses during the hosting, except for limitations that are in accord with the following criteria that would govern if enacted by local ordinance or memorandum of understanding between the host religious organization and the jurisdiction:

(i) No less than one space may be devoted to safe parking per ten on-site parking spaces;

(ii) Restroom access must be provided either within the buildings on the property or through use of portable facilities, with the provision for proper disposal of waste if recreational vehicles are hosted; and

(iii) Religious organizations providing spaces for safe parking must continue to abide by any existing on-site parking minimum requirement so that the provision of safe parking spaces does not reduce the total number of available parking spaces below the minimum number of spaces required by the code city, but a code city may enter into a memorandum of understanding with a religious organization that reduces the minimum number of on-site parking spaces required;

(h) Limits a religious organization's availability to host an indoor overnight shelter in spaces with at least two accessible exits due to lack of sprinklers or other fire-related concerns, except that:

(i) If a code city fire official finds that fire-related concerns associated with an indoor overnight shelter pose an imminent danger to persons within the shelter, the code city may take action to limit the religious organization's availability to host the indoor overnight shelter; and

(ii) A code city may require a host religious organization to enter into a memorandum of understanding for fire safety that includes local fire district inspections, an outline for appropriate emergency procedures, a determination of the most viable means to evacuate occupants from inside the host site with appropriate illuminated exit signage, panic bar exit doors, and a completed fire watch agreement indicating:

(A) Posted safe means of egress;

(B) Operable smoke detectors, carbon monoxide detectors as necessary, and fire extinguishers;

(C) A plan for monitors who spend the night awake and are familiar with emergency protocols, who have suitable communication devices, and who know how to contact the local fire department; or

(i) Limits a religious organization's ability to host temporary small houses on land owned or controlled by the religious organization, except for recommendations that are in accord with the following criteria:

(i) A renewable one-year duration agreed to by the host religious organization and local jurisdiction via a memorandum of understanding;

(ii) Maintaining a maximum unit square footage of one hundred twenty square feet, with units set at least six feet apart;

(iii) Electricity and heat, if provided, must be inspected by the local jurisdiction;

(iv) Space heaters, if provided, must be approved by the local fire authority;

(v) Doors and windows must be included and be lockable, with a recommendation that the managing agency and host religious organization also possess keys;

(vi) Each unit must have a fire extinguisher;

(vii) Adequate restrooms must be provided, including restrooms solely for families if present, along with handwashing and potable running water to be available if not provided within the individual units, including accommodating black water;

(viii) A recommendation for the host religious organization to partner with regional homeless service providers to develop pathways to permanent housing.

(3) (a) A code city may enact an ordinance or regulation or take any other action that requires a host religious organization and a distinct managing agency using the religious organization's property, owned or controlled by the religious organization, for hostings to include outdoor encampments, temporary small houses on-site, indoor overnight shelters, or vehicle resident safe parking to enter into a memorandum of understanding to protect the public health and safety of both the residents of the particular hosting and the residents of the code city.

(b) At a minimum, the agreement must include information regarding: The right of a resident in an outdoor encampment, vehicle resident safe parking, temporary small house on-site, or indoor overnight shelter to seek public health and safety assistance, the resident's ability to access social services on-site, and the resident's ability to directly interact with the host religious organization, including the ability to express any concerns regarding the managing agency to the religious organization; a written code of conduct agreed to by the managing agency, if any, host religious organization, and all volunteers working with residents of the outdoor encampment, temporary small house on-site, indoor overnight shelter, or vehicle resident safe parking; and when a publicly funded managing agency exists, the ability for the host religious organization to interact with residents of the outdoor encampment, indoor overnight shelter, temporary small house on-site, or vehicle resident safe parking using a release of information.

(4) If required to do so by a code city, any host religious organization performing any hosting of an outdoor encampment, vehicle resident safe parking, or indoor overnight shelter, or the host religious organization's managing agency, must ensure that the code city or local law enforcement agency has completed sex offender checks of all adult residents and guests. The host religious organization retains the authority to allow such offenders to remain on the property. A host religious organization or host religious organization's managing agency performing any hosting of vehicle

resident safe parking must inform vehicle residents how to comply with laws regarding the legal status of vehicles and drivers, and provide a written code of conduct consistent with area standards.

(5) Any host religious organization performing any hosting of an outdoor encampment, vehicle resident safe parking, temporary small house on-site, or indoor overnight shelter, with a publicly funded managing agency, must work with the code city to utilize Washington's homeless client management information system, as provided for in RCW 43.185C.180. When the religious organization does not partner with a managing agency, the religious organization is encouraged to partner with a local homeless services provider using the Washington homeless client managing information system. Any managing agency receiving any funding from local continuum of care programs must utilize the homeless client management information system. Temporary, overnight, extreme weather shelter provided in religious organization buildings does not need to meet this requirement.

(6) For the purposes of this section:

(a) "Managing agency" means an organization such as a religious organization or other organized entity that has the capacity to organize and manage a homeless outdoor encampment, temporary small houses on-site, indoor overnight shelter, and a vehicle resident safe parking program.

(b) "Outdoor encampment" means any temporary tent or structure encampment, or both.

(c) "Religious organization" means the federally protected practice of a recognized religious assembly, school, or institution that owns or controls real property.

(d) "Temporary" means not affixed to land permanently and not using underground utilities.

(7) (a) Subsection (2) of this section does not affect a code city policy, ordinance, memorandum of understanding, or applicable consent decree that regulates religious organizations' hosting of the homeless if such policies, ordinances, memoranda of understanding, or consent decrees:

(i) Exist prior to June 11, 2020;

(ii) Do not categorically prohibit the hosting of the homeless by religious organizations; and

(iii) Have not been previously ruled by a court to violate the religious land use and institutionalized persons act, 42 U.S.C. Sec. 2000cc.

(b) If such policies, ordinances, memoranda of understanding, and consent decrees are amended after June 11, 2020, those amendments are not affected by subsection (2) of this section if those amendments satisfy (a) (ii) and (iii) of this subsection.

(8) An appointed or elected public official, public employee, or public agency as defined in RCW 4.24.470 is immune from civil liability for (a) damages arising from the permitting decisions for a temporary encampment for the homeless as provided in this section and (b) any conduct or unlawful activity that may occur as a result of the temporary encampment for the homeless as provided in this section.

(9) A religious organization hosting outdoor encampments, vehicle resident safe parking, or indoor overnight shelters for the homeless that receives funds from any government agency may not refuse to host any resident or prospective resident because of age, sex, marital status, sexual orientation, race, creed, color, national origin, honorably discharged veteran or military status, or the presence of any sensory, mental, or physical disability or the use of a trained

dog guide or service animal by a person with a disability, as these terms are defined in RCW 49.60.040.

(10)(a) Prior to the opening of an outdoor encampment, indoor overnight shelter, temporary small house on-site, or vehicle resident safe parking, a religious organization hosting the homeless on property owned or controlled by the religious organization must host a meeting open to the public for the purpose of providing a forum for discussion of related neighborhood concerns, unless the use is in response to a declared emergency. The religious organization must provide written notice of the meeting to the code city legislative authority at least one week if possible but no later than ninety-six hours prior to the meeting. The notice must specify the time, place, and purpose of the meeting.

(b) A code city must provide community notice of the meeting described in (a) of this subsection by taking at least two of the following actions at any time prior to the time of the meeting:

(i) Delivering to each local newspaper of general circulation and local radio or television station that has on file with the governing body a written request to be notified of special meetings;

(ii) Posting on the code city's website. A code city is not required to post a special meeting notice on its website if it: (A) Does not have a website; (B) employs fewer than ten full-time equivalent employees; or (C) does not employ personnel whose duty, as defined by a job description or existing contract, is to maintain or update the website;

(iii) Prominently displaying, on signage at least two feet in height and two feet in width, one or more meeting notices that can be placed on or adjacent to the main arterials in proximity to the location of the meeting; or

(iv) Prominently displaying the notice at the meeting site.

(a) By ordinance, require a state and federal background investigation of license applicants or licensees in occupations specified by ordinance;

(b) By ordinance, require a federal background investigation of code city employees, applicants for employment, volunteers, vendors, and independent contractors, who, in the course of their work or volunteer activity with the code city, may have unsupervised access to children, persons with developmental disabilities, or vulnerable adults;

(c) Require a state criminal background investigation of code city employees, applicants for employment, volunteers, vendors, and independent contractors, who, in the course of their work or volunteer

activity with the code city, may have unsupervised access to children, persons with developmental disabilities, or vulnerable adults; and

(d) Require a criminal background investigation conducted through a private organization of code city employees, applicants for employment, volunteers, vendors, and independent contractors, who, in the course of their work or volunteer activity with the code city, may have unsupervised access to children, persons with developmental disabilities, or vulnerable adults.

(2) The investigation conducted under subsection (1)(a) through (c) of this section shall consist of a background check as allowed through the Washington state criminal records privacy act under RCW 10.97.050, the Washington state patrol criminal identification system under RCW 43.43.832 through 43.43.834, and the federal bureau of investigation.

(3) The background checks conducted under subsection (1)(a) through (c) of this section must be done through the Washington state patrol identification and criminal history section and may include a national check from the federal bureau of investigation, which shall be through the submission of fingerprints. The Washington state patrol shall serve as the sole source for receipt of fingerprint submissions and the responses to the submissions from the federal bureau of investigation, which must be disseminated to the code city.

(4) For a criminal background check conducted under subsection (1)(a) through (c) of this section, the code city shall transmit appropriate fees for a state and national criminal history check to the Washington state patrol, unless alternately arranged. The cost of investigations conducted under this section shall be borne by the code city.

(5) The authority for background checks outlined in this section is in addition to any other authority for such checks provided by law. [2017 c 332 § 2; 2010 c 47 § 3.]

RCW 35A.21.380 Warrant officers—Training requirements—

Authority. (1) Any code city may establish the position of warrant officer.

(2) If any code city establishes the position of warrant officer, the position shall be maintained by the city within the city police department. The number and qualifications of warrant officers shall be fixed by ordinance, and their compensation shall be paid by the city. The chief of police of the city must establish training requirements consistent with the job description of warrant officer established in that city. Training requirements must be approved by the criminal justice training commission.

(3) Warrant officers shall be vested only with the special authority identified in ordinance, which may include the authority to make arrests authorized by warrants and other authority related to service of civil and criminal process.

(4) Process issuing from any court that is directed to a police department in which a warrant officer position is maintained may be served or enforced by the warrant officer, if within the warrant officer's authority as identified in ordinance.

(5) Warrant officers shall not be entitled to death, disability, or retirement benefits pursuant to chapter 41.26 RCW on the basis of service as a warrant officer as described in this section. [2015 c 288 § 2.]

RCW 35A.21.390 Failing septic systems—Connection to public sewer systems—Appeals process. (1) A city with an ordinance or resolution requiring, upon the failure of an on-site septic system, connection to a public sewer system must, in accordance with this section, provide an administrative appeals process to consider denials of permit applications to repair or replace the septic system. The administrative appeals process required by this section applies only to requests to repair or replace existing, failing on-site septic systems that:

(a) Were made for a single-family residence by its owner or owners;

(b) Were denied solely because of a law, regulation, or ordinance requiring connection to a public sewer system; and

(c) Absent the applicable law, regulation, or ordinance requiring connection to a public sewer system upon which the denial was based, would be approved.

(2) If the city has an administrative appeals process, the city may, subject to the requirements of this section, use that process. The administrative appeals process required by this section, however, must be presided over by the legislative body of the city or by an administrative hearings officer.

(3) The administrative appeals process required by this section must, at a minimum, consider whether:

(a) It is cost-prohibitive to require the property owner to connect to the public sewer system. In complying with this subsection (3)(a), the city must consider the estimated cost to repair or replace the on-site septic system compared to the estimated cost to connect to the public sewer system;

(b) There are public health or environmental considerations related to allowing the property owner to repair or replace the on-site septic system. In complying with this subsection (3)(b), the city must consider whether the repaired or replaced on-site septic system contributes to the pollution of surface waters or groundwater;

(c) There are public sewer system performance or financing considerations related to allowing the property owner to repair or replace the on-site septic system; and

(d) There are financial assistance programs or latecomer agreements offered by the city or state that may impact a decision of the property owner to repair or replace the on-site septic system.

(4) If the city, following the appeals process required by this section, determines that the property owner must connect the residence to the public sewer system, the property owner may, in complying with the determination and subject to approval of appropriate permits, select and hire contractors at his or her own expense to perform the work necessary to connect the residence to the public sewer system.

(5) Unless otherwise required by law, a city determination requiring the owner of a single-family residence with a failing on-site septic system to connect a residence to a public sewer system is not subject to appeal.

The notice must be sent by regular mail.

(3) The special assessment authorized by this section constitutes a lien against the property, and is binding upon successors in title only from the date the lien is recorded in the county where the affected real property is located. Up to two thousand dollars of the recorded lien is of equal rank with state, county, and municipal taxes.

(4) A code city levying a special assessment under this section may contract with the county treasurer to collect the special assessment in accordance with RCW 84.56.035. [2016 c 100 § 2.]

A code city shall not prohibit transitional housing or permanent supportive housing in any zones in which residential dwelling units or hotels are allowed. Reasonable occupancy, spacing, and intensity of use requirements may be imposed by ordinance on permanent supportive housing, transitional housing, indoor emergency housing, and indoor emergency shelters to protect public health and safety. Any such requirements on occupancy, spacing, and intensity of use may not prevent the siting of a sufficient number of permanent supportive housing, transitional housing, indoor emergency housing, or indoor

RCW 35A.21.440 New housing in existing buildings—Prohibitions on local regulation. (1)(a) Code cities must adopt or amend by ordinance, and incorporate into their development regulations, zoning regulations, and other official controls the requirements of subsection (2) of this section for buildings that are zoned for commercial or mixed use no later than six months after its next periodic comprehensive plan update required under RCW 36.70A.130.

(b) The requirements of subsection (2) of this section apply and take effect in any code city that has not adopted or amended ordinances, regulations, or other official controls as required under this section by the timeline in (a) of this subsection and supersede, preempt, and invalidate any conflicting local development regulations.

(2) Through ordinances, development regulations, zoning regulations, or other official controls as required under subsection (1) of this section, code cities may not:

(a) Impose a restriction on housing unit density that prevents the addition of housing units at a density up to 50 percent more than what is allowed in the underlying zone if constructed entirely within an existing building envelope in a building located within a zone that permits multifamily housing, provided that generally applicable health and safety standards, including but not limited to building code standards and fire and life safety standards, can be met within the building;

(b) Impose parking requirements on the addition of dwelling units or living units added within an existing building, however, cities may require the retention of existing parking that is required to satisfy existing residential parking requirements under local laws and for nonresidential uses that remain after the new units are added;

(c) With the exception of emergency housing and transitional housing uses, impose permitting requirements on the use of an existing building for residential purposes beyond those requirements generally applicable to all residential development within the building's zone;

(d) Impose design standard requirements, including setbacks, lot coverage, and floor area ratio requirements, on the use of an existing building for residential purposes beyond those requirements generally applicable to all residential development within the building's zone;

(e) Impose exterior design or architectural requirements on the residential use of an existing building beyond those necessary for health and safety of the use of the interior of the building or to preserve character-defining streetscapes, unless the building is a designated landmark or is within a historic district established through a local preservation ordinance;

(f) Prohibit the addition of housing units in any specific part of a building except ground floor commercial or retail that is along a major pedestrian corridor as defined by the code city, unless the addition of the units would violate applicable building codes or health and safety standards;

(g) Require unchanged portions of an existing building used for residential purposes to meet the current energy code solely because of the addition of new dwelling units within the building, however, if any portion of an existing building is converted to new dwelling

units, each of those new units must meet the requirements of the current energy code;

(h) Deny a building permit application for the addition of housing units within an existing building due to nonconformity regarding parking, height, setbacks, elevator size for gurney transport, or modulation, unless the code city official with decision-making authority makes written findings that the nonconformity is causing a significant detriment to the surrounding area; or

(i) Require a transportation concurrency study under RCW 36.70A.070 or an environmental study under chapter 43.21C RCW based on the addition of residential units within an existing building.

(3) Nothing in this section requires a code city to approve a building permit application for the addition of housing units constructed entirely within an existing building envelope in a building located within a zone that permits multifamily housing in cases in which the building cannot satisfy life safety standards.

(4) For the purpose of this section, "existing building" means a building that received a certificate of occupancy at least three years prior to the permit application to add housing units. [2023 c 285 § 1.]
