

RCW 48.41.037 Washington state health insurance pool account.

The Washington state health insurance pool account is created in the custody of the state treasurer. All receipts from moneys specifically appropriated to the account must be deposited in the account. Expenditures from this account shall be used to cover deficits incurred by the Washington state health insurance pool under this chapter in excess of the threshold established in this section. To the extent funds are available in the account, funds shall be expended from the account to offset that portion of the deficit that would otherwise have to be recovered by imposing an assessment on members in excess of a threshold of seventy cents per insured person per month. The commissioner shall authorize expenditures from the account, to the extent that funds are available in the account, upon certification by the pool board that assessments will exceed the threshold level established in this section. The account is subject to the allotment procedures under chapter 43.88 RCW, but an appropriation is not required for expenditures.

Whether the assessment has reached the threshold of seventy cents per insured person per month shall be determined by dividing the total aggregate amount of assessment by the proportion of total assessed members. Thus, stop loss members shall be counted as one-tenth of a whole member in the denominator given that is the amount they are assessed proportionately relative to a fully insured medical member. [2007 c 259 § 29; 2000 c 79 § 36.]
