

RCW 78.56.080 Estimate of costs by department of ecology and department of natural resources—Fee on operations to be established by department of ecology. (1) (a) As part of its normal budget development process and in consultation with the metals mining industry, the department of ecology shall estimate the costs required for the department to meet its obligations for the additional inspections of metals mining and milling operations required by chapter 232, Laws of 1994. The department shall also estimate the cost of employing the metals mining coordinator established in RCW 78.56.060.

(b) As part of its normal budget development process and in consultation with the metals mining industry, the department of natural resources shall estimate the costs required for the department to meet its obligations for the additional inspections of metals mining and milling operations required by chapter 232, Laws of 1994.

(2) Based on the cost estimates generated by the department of ecology and the department of natural resources, the department of ecology shall establish the amount of a fee to be paid by each active metals mining and milling operation regulated under this chapter. The fee shall be established at a level to fully recover the direct and indirect costs of the agency responsibilities identified in subsection (1) of this section. The amount of the fee for each operation shall be proportional to the number of visits required per site. Each applicant for a metals mining and milling operation shall also be assessed the fee based on the same criterion. The department of ecology may adjust the fees established in this subsection if unanticipated activity in the industry increases or decreases the amount of funding necessary to meet agencies' inspection responsibilities.

(3) The department of ecology shall collect the fees established in subsection (2) of this section. All moneys from these fees shall be deposited into the general fund. [2012 c 198 § 15; 1997 c 170 § 1; 1994 c 232 § 8.]
