RCW 28B.20.298 Clean energy research, development, manufacturing, and marketing—Findings—Policy. (1) The legislature finds that Washington state currently derives many benefits from its renewable energy and energy efficiency sectors. These sectors are an important source of employment and income for a significant number of Washington residents, currently generating close to one billion dollars in annual revenue and employing over three thousand eight hundred people. Equally important, energy efficiency and renewable energy businesses add to the region's quality of life by employing technologies that can reduce some of the harmful effects of the reliance on fossil fuels. Washington state possesses all the necessary elements to do much more to develop these sectors and to become a national leader in the research, development, manufacturing, and marketing of clean energy technologies and services. The state's workforce is highly educated; the state's higher education institutions are supportive of clean energy research and cooperate closely with the private sector in developing and deploying new energy technologies; there are numerous enterprises already located in the

state that are engaged in clean energy research and development; and the state's citizens, utilities, and governmental sectors at all levels are committed to diversifying the state's energy sources and increasing energy efficiency.

(2) It is therefore declared to be the policy of the state that its public agencies and institutions of higher learning maximize their efforts collectively and cooperatively with the private sector to establish the state as a leader in clean energy research, development, manufacturing, and marketing. To this end, all state agencies are directed to employ their existing authorities and responsibilities to:

(a) Work with local organizations and energy companies to facilitate the development and implementation of workable renewable energy and energy efficiency projects;

(b) Actively promote policies that support energy efficiency and renewable energy development;

(c) Encourage utilities and customer groups to invest in new renewables and products and services that promote energy efficiency; and

(d) Assist in the development of stronger markets for renewables and products and services that promote energy efficiency.

(3) For the purposes of this section and *RCW 28B.20.296 and for *RCW 28B.20.285 and 28B.20.287, energy efficiency shall include the application of digital technologies to the generation, delivery, and use of power. [2004 c 151 § 1.]

At least one such student at all times shall be in a career pathway preparing for or

engaged in research related to diabetes, its antecedents, or complications; and

(3) Earnings on additional funds within the endowment may be used for any purpose of the institute as outlined in RCW 28B.20.464. [1990 c 282 § 3.]

RCW 28B.20.472 Warren G. Magnuson institute—Local endowment fund. The state matching funds and the private donations shall be deposited in the university's local endowment fund. The university is responsible for investing and maintaining all moneys within the fund. The principal of the invested endowment fund shall not be invaded. The university may augment the endowment fund with additional private donations. The earnings of the fund shall be used solely to support the purposes of the Warren G. Magnuson institute for biomedical research and health professions training as set forth in RCW 28B.20.464. [1990 c 282 § 6.]

RCW 28B.20.475 Sea grant program—Geoduck aquaculture—Scientific research studies—Reports. (1) The sea grant program at the University of Washington shall, consistent with this section, commission a series of scientific research studies that examines the possible effects, including the cumulative effects, of the current prevalent geoduck aquaculture techniques and practices on the natural environment in and around Puget Sound, including the Strait of Juan de Fuca. The sea grant program shall use funding provided from the geoduck aquaculture research account created in RCW 28B.20.476 to review existing literature, directly perform research identified as needed, or to enter into and manage contracts with scientific organizations or institutions to accomplish these results.

(2) Prior to entering into a contract with a scientific organization or institution, the sea grant program must:

(a) Analyze, through peer review, the credibility of the proposed party to the contract, including whether the party has credible experience and knowledge and has access to the facilities necessary to fully execute the research required by the contract; and

(b) Require that all proposed parties to a contract fully disclose any past, present, or planned future personal or professional connections with the shellfish industry or public interest groups.

(3) All research commissioned under this section must be subjected to a rigorous peer review process prior to being accepted and reported by the sea grant program.

(4) In prioritizing and directing research under this section, the sea grant program shall meet with the department of ecology at least annually and rely on guidance submitted by the department of ecology. The department of ecology shall convene the shellfish aquaculture regulatory committee created in section 4, chapter 216, Laws of 2007 as necessary to serve as an oversight committee to formulate the guidance provided to the sea grant program. The objective of the oversight committee, and the resulting guidance provided to the sea grant program, is to ensure that the research required under this section satisfies the planning, permitting, and data management needs of the state, to assist in the prioritization of research given limited funding, and to help identify any research that

is beneficial to complete other than what is listed in subsection (5) of this section.

(5) To satisfy the minimum requirements of subsection (1) of this section, the sea grant program shall review all scientific research that is existing or in progress that examines the possible effect of currently prevalent geoduck practices, on the natural environment, and prioritize and conduct new studies as needed, to measure and assess the following:

(a) The environmental effects of structures commonly used in the aquaculture industry to protect juvenile geoducks from predation;

(b) The environmental effects of commercial harvesting of geoducks from intertidal geoduck beds, focusing on current prevalent harvesting techniques, including a review of the recovery rates for benthic communities after harvest;

(c) The extent to which geoducks in standard aquaculture tracts alter the ecological characteristics of overlying waters while the tracts are submerged, including impacts on species diversity, and the abundance of other benthic organisms;

(d) Baseline information regarding naturally existing parasites and diseases in wild and cultured geoducks, including whether and to what extent commercial intertidal geoduck aquaculture practices impact the baseline;

(e) Genetic interactions between cultured and wild geoduck, including measurements of differences between cultured geoducks and wild geoducks in terms of genetics and reproductive status; and

(f) The impact of the use of sterile triploid geoducks and whether triploid animals diminish the genetic interactions between wild and cultured geoducks.

(6) If adequate funding is not made available for the completion of all research required under this section, the sea grant program shall consult with the shellfish aquaculture regulatory committee, via the department of ecology, to prioritize which of the enumerated research projects have the greatest cost/benefit ratio in terms of providing information important for regulatory decisions; however, the study identified in subsection (5)(b) of this section shall receive top priority. The prioritization process may include the addition of any new studies that may be appropriate in addition to, or in place of, studies listed in this section.

(7) When appropriate, all research commissioned under this section must address localized and cumulative effects of geoduck aquaculture.

(8) The sea grant program and the University of Washington are prohibited from retaining greater than fifteen percent of any funding provided to implement this section for administrative overhead or other deductions not directly associated with conducting the research required by this section.

(9) Individual commissioned contracts under this section may address single or multiple components listed for study under this section.

(10) All research commissioned under this section must be completed and the results reported to the appropriate committees of the legislature by December 1, 2013. In addition, the sea grant program shall provide the appropriate committees of the legislature with annual reports updating the status and progress of the ongoing studies that are completed in advance of the 2013 deadline. [2007 c 216 § 1.]

RCW 28B.20.476 Sea grant program—Geoduck aquaculture research account. The geoduck aquaculture research account is created in the custody of the state treasurer. All receipts from any legislative appropriations, the aquaculture industry, or any other private or public source directed to the account must be deposited in the account. Expenditures from the account may only be used by the sea grant program for the geoduck research projects identified by RCW 28B.20.475. Only the president of the University of Washington or the president's designee may authorize expenditures from the account. The account is subject to the allotment procedures under chapter 43.88 RCW, but an appropriation is not required for expenditures. During the 2017-2019, 2019-2021, and 2021-2023 fiscal biennia, amounts available in the geoduck aquaculture research account may also be appropriated for the sea grant program at the University of Washington to conduct research examining the possible negative and positive effects of evolving shellfish aquaculture techniques and practices on Washington's economy and marine ecosystems. It is the intent of the legislature that this policy be continued in future biennia. [2021 c 334 § 961; 2019 c 415 § 953; 2018 c 299 § 905; 2013 2nd sp.s. c 4 § 960; 2007 c 216 § 2.]

RCW 28B.20.510 Behavioral health and suicide prevention—

Statewide resource. (1) Subject to availability of amounts appropriated for this specific purpose, an entity within the University of Washington school of social work that has expertise in suicide prevention, in collaboration with the student achievement council, shall develop a statewide resource for behavioral health and suicide prevention for the state's postsecondary institutions.

(2) To establish the components of the statewide resource, the entity shall convene and consult with a work group that consists of representatives from stakeholder groups the entity deems appropriate. The entity must consider representatives from those organizations listed in the mental health and suicide prevention in higher education task force, created by chapter 67, Laws of 2015. At a minimum, the stakeholders in the work group must include:

- (a) Representation from a tribal college;
- (b) Representation from a veterans training support center;
- (c) Representation from students and families;
- (d) Representatives selected by the educational opportunity gap oversight and accountability committee;
- (e) Representation from a community behavioral health provider;
- (f) A suicide prevention expert;
- (g) Representation from the department of health; and
- (h) Three institutional counseling center directors or executive directors to include one from each of the following: A public four-year college or university, a private, nonprofit institution, and a community and technical college.

(3) The entity must be responsible for constructing and hosting the statewide resource and linking the resource to the student achievement council's and the department of health's websites.

(4) At a minimum, the statewide resource must:

- (a) Be made publicly available through a web-based portal or a support line;
- (b) Provide a free curriculum to train faculty, staff, and students in suicide recognition and referral skills and in the specific needs of student veterans;
- (c) Provide a resource to build capacity within the institutions to train individuals to deliver training in person;
- (d) Contain model crisis protocols, per sector, that include behavioral health and suicide identification, intervention, reentry, and postvention;
- (e) Contain model marketing materials and messages that promote student behavioral health on college campuses;
- (f) Develop capacity for an annual conference for postsecondary institutions seeking to address students' behavioral health and suicide prevention needs. The entity must be responsible for hosting the first conference for postsecondary institutions; and
- (g) Include resources that will serve diverse communities and underrepresented populations, including resources that are culturally relevant.

(5) The statewide resource must be made available to postsecondary institutions by June 30, 2020. [2018 c 293 § 2.]

Intent—Findings—2018 c 293: "(1) Washington has been a leader in addressing suicide as a public health issue. The legislature intends for Washington to continue its leadership by supporting the creation of comprehensive suicide prevention and behavioral health initiatives for postsecondary students. In 2015, the legislature created the mental health and suicide prevention in higher education task force. The task force was charged with determining the policies, resources, and technical assistance needed to support postsecondary institutions in improving access to behavioral health services and improving suicide prevention responses. In November 2016, the task force issued its report on mental health and suicide prevention in higher education.

(2) According to the task force report:

(a) The 2005 American college health assessment survey found that nine and one-half percent of students seriously considered suicide, one and one-half percent of students nationwide have attempted suicide, and less than twenty percent were in treatment. According to the 2015 American college health association national college health assessment, seventy-five percent of postsecondary students reported feeling overwhelmed and thirty percent reported feeling so depressed it was difficult to function. More than one-third of students reported anxiety as negatively impacting academics and almost one-quarter said depression negatively impacted academics;

(b) There is incomplete data on suicide deaths among Washington's postsecondary students and the availability of behavioral health resources on Washington's campuses. There is currently no statewide system in place to track this data;

(c) Lack of funding for behavioral health resources across all sectors is the largest barrier to providing services for postsecondary students statewide;

(d) Due to funding constraints, the level of professional mental and behavioral health counseling is often limited for postsecondary institutions in all sectors. For example, six institutions in the public two-year sector servicing nearly fifty thousand students have either no professional mental health providers to counsel students or have such limited resources that the counselor to student ratio was as low as one to nearly eight thousand five hundred in 2014-2015.

(3) The legislature also recognizes that, as of 2016, there were over sixteen thousand student veterans and dependents enrolled in Washington's community and technical colleges, and approximately four thousand veterans and dependents enrolled in Washington's four-year institutions of higher education. The legislature recognizes that the risk for suicide is significantly higher among veterans when compared to nonveteran adults in the United States and that student veterans face unique challenges and often have vastly different life experiences from traditional students. According to a study presented a few years ago at an annual convention of the American psychological association, almost half of military veterans who are enrolled in college have contemplated suicide at some point and twenty percent have planned to kill themselves.

(4) The legislature intends to implement task force recommendations by:

(a) Creating a publicly available statewide resource for postsecondary institutions;

(b) Developing and centralizing data collection; and

(c) Creating a grant program for resource-challenged institutions to help develop suicide prevention programs in those institutions, which may include for example, enhancing treatment services to student veterans; creating campus-wide crisis services; expanding existing crisis plans to integrate suicide intervention; reentry, including medical leave that supports reentry; postvention; and creating links and referral systems between campus behavioral health resources and community-based mental health resources." [2018 c 293 § 1.]

RCW 28B.20.520 Behavioral health and suicide prevention—Data.

(1) By December 31, 2018, for the purposes of collecting data on suicide prevention and behavioral health in higher education, the entity within the University of Washington school of social work specified under RCW 28B.20.510 shall identify data, methods for data collection, and data definitions to be used by postsecondary institutions required to submit annual reports under *RCW 28B.20.515. The entity shall collaborate with the postsecondary institutions, as defined in RCW 28B.77.120, in establishing data collection requirements and criteria.

(2) The entity shall aggregate the information it receives by sector and, by December 1st of each year, the entity must submit an aggregated summary report to the relevant committees of the legislature. The entity shall serve as the depository for annual reports submitted by institutions of higher education under *RCW 28B.20.515. [2018 c 293 § 5.]

***Reviser's note:** RCW 28B.20.515 expired December 31, 2022.

Intent—Findings—2018 c 293: See note following RCW 28B.20.510.

RCW 28B.20.522 Suicide prevention training modules—Construction industry. (1) Subject to funds appropriated for this specific purpose, the University of Washington's forefront suicide prevention center of excellence, in coordination with associations representing the construction industry, shall develop:

(a) An online, interactive training module in suicide prevention; and

(b) A series of modules intended to be delivered by the construction industry that complement the online training module, which must include training on available resources, lethal means safety, screening tools, men's mental health, and a refresher on the online training.

(2) The University of Washington's forefront suicide prevention center of excellence shall complete the modules developed under subsection (1) of this section by July 1, 2021. [2020 c 229 § 3.]

RCW 28B.20.530 Behavioral health innovation and integration campus. (1) A behavioral health innovation and integration campus is created within the University of Washington school of medicine. The campus must include inpatient treatment capacity and focus on inpatient and outpatient care for individuals with behavioral health needs while training a behavioral health provider workforce. The training must include an interdisciplinary curriculum and programs that support and encourage professionals to work in teams. The

training must use current best practices, including best practices in suicide prevention, must encourage innovation of future best practices in order to provide behavioral health care across the entire spectrum of health care providers, and must be culturally appropriate, including training specifically appropriate for providing care to federally recognized tribes and tribal members.

(2) The siting and design for the new campus should take into account local community needs and resources, with attention to diversity and cultural competence, a focus on training and supporting the next generation of health care providers, and close coordination with existing local and regional programs, clinics, and resources. [2019 c 323 § 2.]

Findings—Intent—2019 c 323: "The legislature finds that there is a need for services for individuals with behavioral health needs, and there is a shortage of behavioral health workers in Washington state. The legislature further finds that there is a need for a trained workforce that is experienced in fully integrated care and able to address a full range of needs, including primary care, mental health, substance use disorder, and suicide prevention, in all health care specialties. The legislature further finds that there is a need to support rural and otherwise underserved communities around the state with timely telepsychiatry specialty consultation.

The legislature further finds that the University of Washington school of medicine department of psychiatry and behavioral sciences is a nationally competitive program and has the expertise to establish innovative clinical inpatient and outpatient care for individuals with behavioral health needs while at the same time training the next generation of behavioral health providers, including primary care professionals, in inpatient and outpatient settings. The legislature further finds that the University of Washington school of medicine department of psychiatry and behavioral sciences, along with the University of Washington schools of nursing, social work, pharmacy, public health, the department of psychology, and other relevant disciplines, are especially well-situated to take on the task of developing this transformational service-oriented programming.

Therefore, the legislature intends to partner with the University of Washington to develop plans for the creation of the University of Washington behavioral health innovation and integration campus to increase access to behavioral health services in the state. Planning for the campus should also include capacity to provide inpatient care for up to one hundred fifty individuals who receive extended inpatient psychiatric care at western state hospital under the state's involuntary treatment act, chapter 71.05 RCW." [2019 c 323 § 1.]

RCW 28B.20.535 Behavioral health innovation and integration campus—Teaching facility. For purposes of siting and other land use planning and approval process, work should be done within the existing major institution master plan including the existing community advisory committee addressing land use and building permit approval for the behavioral health teaching facility under RCW 28B.20.530 and section 3, chapter 323, Laws of 2019. [2019 c 323 § 4.]

Findings—Intent—2019 c 323: See note following RCW 28B.20.530.

RCW 28B.20.540 Diversity in clinical trials. If at any time the University of Washington receives funding from the national institutes of health to conduct clinical trials of drugs or medical devices, the University of Washington shall adopt a policy concerning the identification and recruitment of persons who are members of underrepresented demographic groups to participate in clinical trials of drugs and medical devices. This policy must include requirements to:

(1) Adopt a policy concerning the identification and recruitment of persons who are members of underrepresented demographic groups to participate in clinical trials. This policy must include requirements that investigators who are conducting clinical trials collaborate with community-based organizations and use methods recognized by the United States food and drug administration to identify and recruit such persons to participate in those clinical trials;

(2) Provide information to trial participants in languages other than English;

(3) Provide translation services or bilingual staff for trial screening;

(4) Provide culturally specific recruitment materials alongside general enrollment materials; and

(5) Provide electronic consent when not prohibited by the granting entity or federal regulations. [2023 c 426 § 8.]

RCW 28B.20.545 Alternative jet fuels—Emissions of ultrafine and fine particulate matter. (1) To assess the potential cobenefits of alternative jet fuel for Washington's communities, by December 1, 2024, and December 1st of each year until such time as the joint legislative audit and review committee has completed its final report on the tax preferences contained in RCW 82.04.287, 82.04.436, 82.04.4361, and 82.16.187, the University of Washington's department of environmental and occupational health sciences, in collaboration with Washington State University, shall calculate emissions of ultrafine and fine particulate matter and sulfur oxides from the use of alternative jet fuel as compared to conventional fossil jet fuel, including the potential regional air quality benefits of any reductions. This emissions calculation shall be conducted for alternative jet fuel used from an international airport owned by a port district in a county with a population greater than 1,500,000. The University of Washington may access and use any data necessary to complete the reporting requirements of this section.

(2) To facilitate the calculation required in subsection (1) of this section, an international airport owned by a port district in a county with a population greater than 1,500,000 must report to the University of Washington the total annual volume of conventional and alternative jet fuel used for flights departing the airport by July 1, 2024, and July 1st of each year until such time as the joint legislative audit and review committee has completed its final report on the tax preferences contained in RCW 82.04.287, 82.04.436, 82.04.4361, and 82.16.187. [2023 c 232 § 7.]

Reviser's note: 2023 c 232 § 7 directed that this section be added to chapter 28B.30 RCW, but codification in chapter 28B.20 RCW appears to be more appropriate.

Effective date—2023 c 232 §§ 1-7: See note following RCW 70A.535.010.

Automatic expiration date exemption—2023 c 232: See note following RCW 82.04.287.

Intent—2023 c 232: See note following RCW 70A.535.010.

MISCELLANEOUS

RCW 28B.20.744 University buildings and facilities for critical patient care or specialized medical research—Alternative process for awarding contracts—Reports. (1) This section provides an alternative process for awarding contracts for construction, building, renovation, remodeling, alteration, repair, or improvement of university buildings and facilities in which critical patient care or highly specialized medical research is located. These provisions may be used, in lieu of other procedures to award contracts for such work, when the estimated cost of the work is equal to or less than five million dollars and the project involves construction, renovation, remodeling, or alteration of improvements within a building that is used directly for critical patient care or highly specialized medical research.

(2) The university may create a single critical patient care or specialized medical research facilities roster or may create multiple critical patient care or specialized medical research facilities rosters for different trade specialties or categories of anticipated work. At least once a year, the university shall publish in a newspaper of general circulation and with the office of minority and women's business enterprises, a notice of the existence of the roster or rosters and solicit a statement of qualifications from contractors who wish to be on the roster or rosters of prime contractors. In addition, qualified contractors shall be added to the roster or rosters at any time they submit a written request, necessary records, and meet the qualifications established by the university. The university may require eligible contractors desiring to be placed on a roster to keep current records of any applicable licenses, certifications, registrations, bonding, insurance, or other appropriate matters on file with the university with input from the women-owned and minority-owned business community as a condition of being placed on a roster or rosters. Placement on a roster shall be on the basis of qualifications.

(3) The public solicitation of qualifications shall include but not be limited to:

(a) A description of the types of projects to be completed and where possible may include programmatic, performance, and technical requirements and specifications;

(b) The reasons for using the critical patient care and specialized medical research roster process;

(c) A description of the qualifications to be required of a contractor, including submission of an accident prevention program;

(d) A description of the process the university will use to evaluate qualifications, including evaluation factors and the relative weight of factors;

(e) The form of the contract to be awarded;

(f) A description of the administrative process by which the required qualifications, evaluation process, and project types may be appealed; and

(g) A description of the administrative process by which decisions of the university may be appealed.

(4) The university shall establish a committee that includes one representative from the minority-owned business community and one representative from the women-owned business community to evaluate the contractors submitting qualifications. Evaluation criteria for selection of the contractor or contractors to be included on a roster shall include, but not be limited to:

(a) Ability of a contractor's professional personnel;

(b) A contractor's past performance on similar projects, including but not limited to medical facilities, and involving either negotiated work or other public works contracts;

(c) The contractor's ability to meet time and budget requirements;

(d) The contractor's ability to provide preconstruction services, as appropriate;

(e) The contractor's capacity to successfully complete the project;

(f) The contractor's approach to executing projects;

(g) The contractor's approach to safety and the contractor's safety history;

(h) The contractor's record of performance, integrity, judgment, and skills;

(i) The contractor's record of including office of minority and women's business enterprises-certified, minority, women, veteran, and small businesses; and

(j) The contractor's past history of use of small business entities, disadvantaged business enterprises, minority business enterprises, women business enterprises, and minority women business enterprises over the last five years on projects of five million dollars or less and the contractor's proposed outreach plan and commitment to include such firms.

(5) Contractors meeting the evaluation committee's criteria for selection must be placed on the applicable roster or rosters.

(6) When a project is selected for delivery through this roster process, the university must establish a procedure for securing written quotations from all contractors on a roster to assure that a competitive price is established. Invitations for quotations shall include an estimate of the scope and nature of the work to be performed as well as materials and equipment to be furnished. Plans and specifications must be included in the invitation but may not be detailed. Award of a project must be made to the responsible bidder submitting the lowest responsive bid.

(7) The university shall make an effort to solicit proposals from certified minority or certified woman-owned contractors. The university business diversity program shall establish aspirational goals for small business entities, disadvantaged business enterprises, minority business enterprises, women business enterprises, and minority women business enterprises for each roster based on the

projected subcontracting opportunities and to the extent permitted by the Washington state civil rights act, RCW 49.60.400.

(8) Beginning in September 2010 and every other September thereafter, the university shall provide a report to the capital projects advisory review board which must, at a minimum, include a list of rosters used, contracts awarded, office of minority and women's business enterprises-certified small business entities, disadvantaged business enterprises, veterans, and women and minority-owned business use rates on the projects.

(9) Beginning in September 2015 and every September thereafter, the university shall report to the office of minority and women's business enterprises and to the appropriate legislative fiscal committees the number of qualified women and minority-owned business contractors on the roster or rosters and the number of contracts awarded to women and minority-owned businesses.
