RCW 35.21.005 Sufficiency of petitions. Wherever in this title petitions are required to be signed and filed, the following rules shall govern the sufficiency thereof:

(1) A petition may include any page or group of pages containing an identical text or prayer intended by the circulators, signers or sponsors to be presented and considered as one petition and containing the following essential elements when applicable, except that the elements referred to in (d) and (e) of this subsection are essential for petitions referring or initiating legislative matters to the voters, but are directory as to other petitions:

(a) The text or prayer of the petition which shall be a concise statement of the action or relief sought by petitioners and shall include a reference to the applicable state statute or city ordinance, if any;

(b) If the petition initiates or refers an ordinance, a true copy thereof;

(c) If the petition seeks the annexation, incorporation, withdrawal, or reduction of an area for any purpose, an accurate legal description of the area proposed for such action and if practical, a map of the area;

(d) Numbered lines for signatures with space provided beside each signature for the name and address of the signer and the date of signing;

(e) The warning statement prescribed in subsection (2) of this section.

(2) Petitions shall be printed or typed on single sheets of white paper of good quality and each sheet of petition paper having a space thereon for signatures shall contain the text or prayer of the petition and the following warning:

WARNING

> Every person who signs this petition with any other than his or her true name, or who knowingly signs more than one of these petitions, or signs a petition seeking an election when he or she is not a legal voter, or signs a petition when he or she is otherwise not qualified to sign, or who makes herein any false statement, shall be guilty of a misdemeanor.

Each signature shall be executed in ink or indelible pencil and shall be followed by the name and address of the signer and the date of signing.

(3) The term "signer" means any person who signs his or her own name to the petition.

(4) To be sufficient a petition must contain valid signatures of qualified registered voters or property owners, as the case may be, in the number required by the applicable statute or ordinance. Within three working days after the filing of a petition, the officer with whom the petition is filed shall transmit the petition to the county auditor for petitions signed by registered voters, or to the county assessor for petitions signed by property owners for determination of sufficiency. The officer or officers whose duty it is to determine the

sufficiency of the petition shall proceed to make such a determination with reasonable promptness and shall file with the officer receiving the petition for filing a certificate stating the date upon which such determination was begun, which date shall be referred to as the terminal date. Additional pages of one or more signatures may be added to the petition by filing the same with the appropriate filing officer prior to such terminal date. Any signer of a filed petition may withdraw his or her signature by a written request for withdrawal filed with the receiving officer prior to such terminal date. Such written request shall so sufficiently describe the petition as to make identification of the person and the petition certain. The name of any person seeking to withdraw shall be signed exactly the same as contained on the petition and, after the filing of such request for withdrawal, prior to the terminal date, the signature of any person seeking such withdrawal shall be deemed withdrawn.

(5) Petitions containing the required number of signatures shall be accepted as prima facie valid until their invalidity has been proved.

(6) A variation on petitions between the signatures on the petition and that on the voter's permanent registration caused by the substitution of initials instead of the first or middle names, or both, shall not invalidate the signature on the petition if the surname and handwriting are the same.

(7) If a person signs a petition more than once, all but the first valid signature must be rejected.

(8) Signatures followed by a date of signing which is more than six months prior to the date of filing of the petition shall be stricken.

(9) When petitions are required to be signed by the owners of property, the determination shall be made by the county assessor. Where validation of signatures to the petition is required, the following shall apply:

(a) The signature of a record owner, as determined by the records of the county auditor, shall be sufficient without the signature of his or her spouse;

(b) In the case of mortgaged property, the signature of the mortgagor shall be sufficient, without the signature of his or her spouse;

(c) In the case of property purchased on contract, the signature of the contract purchaser, as shown by the records of the county auditor, shall be deemed sufficient, without the signature of his or her spouse;

(d) Any officer of a corporation owning land within the area involved who is duly authorized to execute deeds or encumbrances on behalf of the corporation, may sign on behalf of such corporation, and shall attach to the petition a certified excerpt from the bylaws of such corporation showing such authority;

(e) When the petition seeks annexation, any officer of a corporation owning land within the area involved, who is duly authorized to execute deeds or encumbrances on behalf of the corporation, may sign under oath on behalf of such corporation. If an officer signs the petition, he or she must attach an affidavit stating that he or she is duly authorized to sign the petition on behalf of such corporation;

(f) When property stands in the name of a deceased person or any person for whom a guardian has been appointed, the signature of the

executor, administrator, or guardian, as the case may be, shall be equivalent to the signature of the owner of the property; and

(g) When a parcel of property is owned by multiple owners, the signature of an owner designated by the multiple owners is sufficient.

(10) The officer or officers responsible for determining the sufficiency of the petition shall do so in writing and transmit the written certificate to the officer with whom the petition was originally filed. [2014 c 121 § 2; 2008 c 196 § 1; 2003 c 331 § 8; 1996 c 286 § 6.]

Finding—Intent—2014 c 121: "(1) The legislature finds that in *Filo Foods, LLC v. City of SeaTac*, No. 70758-2-I (Wash. Ct. Apps. Div. I, Feb. 10, 2014), the Washington court of appeals ruled that RCW 35A.01.040(7), requiring local certifying officers to strike all signatures of any person signing an optional municipal code city initiative petition two or more times, was unconstitutional. The court held that the statute unduly burdened the first amendment rights of voters who expressed a view on a political matter by signing an initiative petition.

(2) The legislature intends to require local officers certifying city and town petitions to count one valid signature of a duplicate signer. This will ensure that a person inadvertently signing a city or town petition more than once will not be penalized for doing so." [2014 c 121 § 1.]

Intent—Severability—Effective date—2003 c 331: See notes following RCW 35.13.410.

RCW 35.21.010 General corporate powers—Towns, restrictions as to area. (1) Municipal corporations now or hereafter organized are bodies politic and corporate under the name of the city of . . . . . ., or the town of . . . . . ., as the case may be, and as such may sue and be sued, contract or be contracted with, acquire, hold, possess and dispose of property, subject to the restrictions contained in other chapters of this title, having a common seal, and change or alter the same at pleasure, and exercise such other powers, and have such other privileges as are conferred by this title. However, not more than two square miles in area shall be included within the corporate limits of a town having a population of fifteen hundred or less, or located in a county with a population of one million or more, and not more than three square miles in area shall be included within the corporate limits of a town having a population of more than fifteen hundred in a county with a population of less than one million, nor shall more than twenty acres of unplatted land belonging to any one person be taken within the corporate limits of a town without the consent of the owner of such unplatted land.

(2) Notwithstanding subsections (1) and (3) of this section, a town located in three or more counties is excluded from a limitation in square mileage.

(3) Except as provided in subsection (2) of this section, the original incorporation of a town shall be limited to an area of not more than one square mile and a population as prescribed in RCW 35.01.040. [1995 c 196 § 5; 1991 c 363 § 37; 1965 c 138 § 1; 1965 c 7 § 35.21.010. Prior: 1963 c 119 § 1; 1890 p 141 § 15, part; RRS § 8935.]

Purpose—Captions not law—1991 c 363: See notes following RCW 2.32.180.

Validation of certain incorporations and annexations—Municipal corporations of the fourth class—1961 ex.s. c 16: "Any incorporation of a municipal corporation of the fourth class and any annexation of territory to a municipal corporation of the fourth class prior to March 31, 1961, which is otherwise valid except for compliance with the limitation to the area of one square mile as prescribed by section 15, page 141, Laws of 1889-90, is hereby validated and declared to be a valid incorporation or annexation in all respects." [1961 ex.s. c 16 § 1.]

RCW 35.21.015 Salary commissions. (1) Salaries for elected officials of towns and cities may be set by salary commissions established in accordance with city charter or by ordinance and in conformity with this section.

(2) The members of such commissions shall be appointed in accordance with the provisions of a city charter, or as specified in this subsection:

(a) Shall be appointed by the mayor with approval of the city council;

(b) May not be appointed to more than two terms;

(c) May only be removed during their terms of office for cause of incapacity, incompetence, neglect of duty, or malfeasance in office or for a disqualifying change of residence; and

(d) May not include any officer, official, or employee of the city or town or any of their immediate family members. "Immediate family member" as used in this subsection means the parents, spouse, siblings, children, or dependent relatives of the officer, official, or employee, whether or not living in the household of the officer, official, or employee.

(3) Any change in salary shall be filed by the commission with the city clerk and shall become effective and incorporated into the city or town budget without further action of the city council or salary commission.

(4) Salary increases established by the commission shall be effective as to all city or town elected officials, regardless of their terms of office.

(5) Salary decreases established by the commission shall become effective as to incumbent city or town elected officials at the commencement of their next subsequent terms of office.

(6) Salary increases and decreases shall be subject to referendum petition by the people of the town or city in the same manner as a city ordinance upon filing of such petition with the city clerk within thirty days after filing of the salary schedule. In the event of the filing of a valid referendum petition, the salary increase or decrease shall not go into effect until approved by vote of the people.

(7) Referendum measures under this section shall be submitted to the voters of the city or town at the next following general or municipal election occurring thirty days or more after the petition is filed, and shall be otherwise governed by the provisions of the state Constitution, or city charter, or laws generally applicable to referendum measures.

(8) The action fixing the salary by a commission established in conformity with this section shall supersede any other provision of state statute or city or town ordinance related to municipal budgets or to the fixing of salaries.

(9) Salaries for mayors and councilmembers established under an ordinance or charter provision in existence on July 22, 2001, that substantially complies with this section shall remain in effect unless and until changed in accordance with such charter provision or ordinance. [2001 c 73 § 4.]

Findings—Intent—2001 c 73: "The legislature hereby finds and declares that:

(1) Article XXX, section 1 of the state Constitution permits midterm salary increases for municipal officers who do not fix their own compensation;

(2) The Washington citizens' commission on salaries for elected officials established pursuant to Article XXVIII, section 1 of the state Constitution with voter approval has assured that the compensation for state and county elected officials will be fair and certain, while minimizing the dangers of midterm salary increases being used to influence those officers in the performance of their duties;

(3) The same public benefits of independent salary commissions should be extended to the setting of compensation of municipal elected officers; and

(4) This act is intended to clarify the intent of the legislature that existing state law authorizes:

(a) The establishment of independent salary commissions to set the salaries of city or town elected officials, county commissioners, and county councilmembers; and

(b) The authority of the voters of such cities, towns, and counties to review commission decisions to increase or decrease such salaries by means of referendum." [2001 c 73 § 1.]

Severability—2001 c 73: "If any provision of this act or its application to any person or circumstance is held invalid, the remainder of the act or the application of the provision to other persons or circumstances is not affected." [2001 c 73 § 6.]

RCW 35.21.020 Auditoriums, art museums, swimming pools, etc.—Power to acquire. [1965 c 7 § 35.21.020. Prior: 1947 c 28 § 1; 1937 c 98 § 1; Rem. Supp. 1947 § 8981-4.]

The ordinance shall designate the fund as "cumulative reserve fund for . . . . . (naming purpose or purposes for which fund is to be accumulated and expended)." The moneys in the fund may be allowed to accumulate from year to year until the legislative authority of the city or town shall determine to expend the moneys in the fund for the purpose or purposes specified: PROVIDED, That any moneys in the fund shall never be expended for any other purpose or purposes than those specified, without an approving vote by a two-thirds majority of the members of the legislative authority of the city or town. [1983 c 173 § 1; 1965 c 7 § 35.21.070. Prior: 1953 c 38 § 1; 1941 c 60 § 1; Rem. Supp. 1941 § 9213-5.]

An item for said cumulative reserve fund may be included in the city or town's annual budget or estimate of amounts required to meet public expense for the ensuing year and a tax levy made within the limits and as authorized by law for said item; and said item and levy may be repeated from year to year until, in the judgment of the legislative body of the city or town, the amount required for the specified purpose or purposes has been raised or accumulated. Any moneys in said fund at the end of the fiscal year shall not lapse nor shall the same be a surplus available or which may be used for any other purpose or purposes than those specified, except as herein provided. [1965 c 7 § 35.21.080. Prior: 1953 c 38 § 2; 1941 c 60 § 2; Rem. Supp. 1941 § 9213-6.]

The accounts of the city or town shall be so kept that they shall show the department

or departments and amounts to which the payment is properly chargeable.

(2) Claims—into which may be paid moneys from time to time from any funds which are available and upon which warrants may be issued and paid in payment of claims against the city or town for any purpose. The accounts of the city or town shall be so kept that they shall show the department or departments and the respective amounts for which the warrant is issued and paid. [1965 c 7 § 35.21.085. Prior: 1953 c 27 § 1.]

RCW 35.21.086 Payrolls fund—Transfers from insolvent funds. Transfers from an insolvent fund to the payrolls fund or claims fund shall be by warrant. [1965 c 7 § 35.21.086. Prior: 1953 c 27 § 2.]

RCW 35.21.087 Employee checks, drafts, warrants—City, town may cash. In the event that any personal check cashed for a city or town employee by the city or town under this section is dishonored by the drawee financial institution when presented for payment, the city or town is authorized, after notice to the drawer or endorser of the dishonor, to withhold from the drawer's or endorser's next payroll check, draft, or warrant the full amount of the dishonored check. [1991 c 185 § 1.]

RCW 35.21.088 Equipment rental fund. Any city or town may create, by ordinance, an "equipment rental fund," hereinafter referred to as "the fund," in any department of the city or town to be used as a revolving fund to be expended for salaries, wages, and operations required for the repair, replacement, purchase, and operation of equipment, and for the purchase of equipment, materials, and supplies to be used in the administration and operation of the fund.

The legislative authority of a city or town may transfer any equipment, materials or supplies of any office or department to the equipment rental fund either without charge, or may grant a credit to such office or department equivalent to the value of the equipment, materials or supplies transferred. An office or department receiving such a credit may use it any time thereafter for renting or purchasing equipment, materials, supplies or services from the equipment rental fund.

Money may be placed in the fund from time to time by the legislative authority of the city or town. Cities and towns may purchase and sell equipment, materials and supplies by use of such fund, subject to any laws governing the purchase and sale of property. Such equipment, materials and supplies may be rented for the use of various offices and departments of any city or town or may be rented by any such city or town to governmental agencies. The proceeds received by any city or town from the sale or rental of such property shall be placed in the fund, and the purchase price of any such property or rental payments made by a city or town shall be made from moneys available in the fund. The ordinance creating the fund shall designate the official or body that is to administer the fund and the terms and charges for the rental for the use of any such property which has not been purchased for its own use out of its own funds and may from time to time amend such ordinance.

There shall be paid monthly into the fund out of the moneys available to the department using any equipment, materials, and/or supplies, which have not been purchased by that department for its own use and out of its own funds, reasonable rental charges fixed by the legislative authority of the city or town, and moneys in the fund shall be retained there from year to year so long as the legislative authority of the city or town desires to do so.

Every city having a population of more than eight thousand, according to the last official census, shall establish such an equipment rental fund in its street department or any other department of city government. Such fund shall acquire the equipment necessary to serve the needs of the city street department. Such fund may, in addition, be created to service any other departments of city government or other governmental agencies as authorized hereinabove. [1965 c 7 § 35.21.088. RCW 35.21.090 Dikes, levees, embankments—Authority to construct. Any city or town shall have power to provide for the protection of such city or town, or any part thereof, from overflow, and to establish, construct and maintain dikes, levees, embankments, or other structures and works, or to open, deepen, straighten or otherwise enlarge natural watercourses, waterways and other channels, including the acquisition or damaging of lands, rights-of-way, rights and property therefor, within or without the corporate limits of such city or town, and to manage, regulate and control the same. [1965 c 7 § 35.21.090. Prior: 1911 c 98 § 4; 1907 c 241 § 68; RRS § 9355.]

Eminent domain: Chapter 8.12 RCW.

RCW 35.21.095 Bridge jumping hazard signs. (1)(a) The executive officer, or a designated employee, with control of operations and maintenance of a bridge of any city or town may authorize the erection of informational signs near or attached to bridges providing location-specific information about the hazards of jumping with the goal of

preventing future deaths. These signs are meant to provide more information than just a "no jumping" sign so that people can better understand the hazards related to a particular location. Signs providing information on the hazards of cold-water shock that leads to drowning may be erected in locations where people might otherwise think a location is safe for swimming. Signs may include the statewide 988 suicide prevention hotline.

(b) Any city or town responsible for the repair, replacement, and maintenance of bridges is encouraged to create a process where individuals may request the installation of an informational sign to address jumping off a bridge in locations that do not have such signs installed.

(c) Signs created under this section may not conflict with provisions of the manual on uniform traffic control devices or existing state laws related to placement and design of signs that are placed along transportation corridors.

(d) If a sign is to be located along a state highway or the interstate system, the department of transportation must approve the sign and location prior to erecting the sign, but no permit or fee is necessary.

(e) Cities and towns may accept gifts or donations to pay for the creation, installation, or maintenance of signs under this section.

(2) This section applies prospectively.

(3) This section does not create a private right of action by, or a legal duty to, any party, and may not be used to impose liability on the city or town if a sign has or has not been erected on its property. The state of Washington, including all of its agencies, subdivisions, employees, and agents, shall not be liable in tort for any violation of chapter 54, Laws of 2023, notwithstanding any other provision of law. [2023 c 54 § 4.]

Short title—2023 c 54: "This act may be known and cited as "Zack's law."" [2023 c 54 § 1.]

Intent—Finding—2023 c 54: "(1) The legislature intends state and local agencies to install signs on or near bridges to warn people of the dangers of diving or jumping off the bridge.

(2) This law is enacted at the request of family and friends of Zachary Lee Rager and the Chehalis community in the expectation that better information on bridges will prevent future deaths. On March 23, 2021, Zachary Lee Rager jumped off a bridge in a location he had jumped from many times before during the summer months. Unfortunately, the colder water and conditions were different earlier in the year, and he did not survive.

(3) The legislature finds that cold-water shock drowning can occur when the water temperature is below 70 degrees Fahrenheit. The temperature difference when a body is submerged in the colder water leads to involuntary gasping, inhalation of water, loss of mobility, and loss of consciousness. The ability to hold one's breath is substantially reduced to seconds rather than minutes. Many people may underestimate the conditions on a sunny and warm day, like Zachary Lee Rager did, and a sign that waters may still be too cold for swimming and facts about cold-water shock drowning could prevent future deaths.

(4) The legislature recognizes that state agencies and local governments currently may install informational signs pursuant to RCW 47.42.050. This act creates a pathway so that governments may work

with individuals and communities to provide more signs with location appropriate information in the expectation that more information will prevent future deaths.

(5) Lastly, the legislature is directing state and local governments to consider installing informational signs about the hazards of diving or jumping under this act when they construct new bridges or replace existing infrastructure. The legislature recognizes that not every bridge will need such signs. The choice to install a sign is going to be specific to the location and an assessment of many different factors, including the size of the waterway, the height of the bridge, the communities' level of interest in having such signs, the physical layout of the bridge and surrounding terrain, the resources provided to pay for the bridge, and the likelihood of individuals to use that particular location to dive or jump." [2023 c 54 § 2.]

RCW 35.21.100 Donations—Authority to accept and use. Every city and town by ordinance may accept any money or property donated, devised, or bequeathed to it and carry out the terms of the donation, devise, or bequest, if within the powers granted by law. If no terms or conditions are attached to the donation, devise, or bequest, the city or town may expend or use it for any municipal purpose. [1965 c 7 § 35.21.100. Prior: 1941 c 80 § 1; Rem. Supp. 1941 § 9213-8.]

RCW 35.21.110 Ferries—Authority to acquire and maintain. Any incorporated city or town within the state is authorized to construct, or condemn and purchase, or purchase, and to maintain a ferry across any unfordable stream adjoining and within one mile of its limits, together with all necessary grounds, roads, approaches and landings necessary or appertaining thereto located within one mile of the limits of such city or town, with full jurisdiction and authority to manage, regulate and control the same beyond the limits of the corporation and to operate the same free or for toll. [1965 c 7 § 35.21.110. Prior: 1895 c 130 § 1; RRS § 5476.]

RCW 35.21.120 Solid waste handling system—Contracts. A city or town may by ordinance provide for the establishment of a system or systems of solid waste handling for the entire city or town or for portions thereof. A city or town may provide for solid waste handling by or under the direction of officials and employees of the city or town or may award contracts for any service related to solid waste handling including contracts entered into under RCW 35.21.152. Contracts for solid waste handling may provide that a city or town provide for a minimum periodic fee or other method of compensation in consideration of the operational availability of a solid waste handling system, plant, site, or other facility at a specified minimum level, without regard to the ownership of the system, plant, site, or other facility, or the amount of solid waste actually handled during all or any part of the contract period. When a minimum level of solid waste is specified in a contract for solid waste handling, there shall be a specific allocation of financial responsibility in the event the amount of solid waste handled falls below the minimum level provided in the contract.

As used in this chapter, the terms "solid waste" and "solid waste handling" shall be as defined in RCW 70A.205.015. [2020 c 20 § 1005; 1989 c 399 § 1; 1986 c 282 § 18; 1965 c 7 § 35.21.120. Prior: 1943 c 270 § 1, part; Rem. Supp. 1943 § 9504-1, part.]

Contracts with vendors for solid waste handling: RCW 35.21.156.

RCW 35.21.130 Solid waste or recyclable materials collection—Ordinance. A solid waste or recyclable materials collection ordinance may:

(1) Require property owners and occupants of premises to use the solid waste collection and disposal system or recyclable materials collection and disposal system, and to dispose of their solid waste and recyclable materials as provided in the ordinance: PROVIDED, That a solid waste or recycling ordinance shall not require any retail enterprise engaged in the sale of consumer-packaged products to locate or place a public recycling collection site or buy-back center upon or within a certain distance of the retail establishment as a condition of engaging in the sale of consumer-packaged products; and

(2) Fix charges for solid waste collection and disposal, recyclable materials collection and disposal, or both, and the manner and time of payment therefor including therein a provision that upon failure to pay the charges, the amount thereof shall become a lien against the property for which the solid waste or recyclable materials collection service is rendered. The ordinance may also provide penalties for its violation. [1989 c 431 § 51; 1965 c 7 § 35.21.130. Prior: 1943 c 270 § 1, part; Rem. Supp. 1943 § 9504-1, part.]

RCW 35.21.135 Solid waste or recyclable materials collection—Curbside recycling—Reduced rate. (1) Each city or town providing by ordinance or resolution a reduced solid waste collection rate to residents participating in a residential curbside recycling program implemented under RCW 70A.205.045, may provide a similar reduced rate to residents participating in any other recycling program, if such program is approved by the jurisdiction. Nothing in this section shall be interpreted to reduce the authority of a city to adopt ordinances under RCW 35.21.130(1).

(2) For the purposes of this section, "reduced rate" means a residential solid waste collection rate incorporating a rebate, refund, or discount. Reduced rate shall not include residential solid waste collection rate based on the volume or weight of solid waste set out for collection. [2020 c 20 § 1006; 1991 c 319 § 404.]

RCW 35.21.140 Garbage—Notice of lien—Foreclosure. A notice of the city's or town's lien for garbage collection and disposal service specifying the charges, the period covered by the charges and giving the legal description of the premises sought to be charged, shall be filed with the county auditor within the time required and shall be foreclosed in the manner and within the time prescribed for liens for

labor and material. [1965 c 7 § 35.21.140. Prior: 1943 c 270 § 1, part; Rem. Supp. 1943 § 9504-1, part.]

RCW 35.21.150 Garbage—Lien—Priority. The garbage collection and disposal service lien shall be prior to all liens and encumbrances filed subsequent to the filing of the notice of it with the county auditor, except the lien of general taxes and local improvement assessments whether levied prior or subsequent thereto. [1965 c 7 § 35.21.150. Prior: 1943 c 270 § 1, part; Rem. Supp. 1943 § 9504-1, part.]

RCW 35.21.152 Solid waste handling—Agreements—Purposes—Terms and conditions. A city or town may construct, lease, condemn, purchase, acquire, add to, alter, and extend systems, plants, sites, or other facilities for solid waste handling, and shall have full jurisdiction and authority to manage, regulate, maintain, utilize, operate, control, and establish the rates and charges for those solid waste handling systems, plants, sites, or other facilities owned or operated by the city or town. A city or town may enter into agreements with public or private parties to: (1) Construct, lease, purchase, acquire, manage, maintain, utilize, or operate publicly or privately owned or operated solid waste handling systems, plants, sites, or other facilities; (2) establish rates and charges for those systems, plants, sites, or other facilities; (3) designate particular publicly or privately owned or operated systems, plants, sites, or other facilities as disposal sites; and (4) sell the materials or products of those systems, plants, or other facilities. Any agreement entered into shall be for such term and under such conditions as may be determined by the legislative authority of the city or town. [1989 c 399 § 2; 1977 ex.s. c 164 § 1; 1975 1st ex.s. c 208 § 1.]

RCW 35.21.154 Solid waste—Compliance with chapter 70A.205 RCW required. Nothing in RCW 35.21.152 will relieve a city or town of its obligations to comply with the requirements of chapter 70A.205 RCW. [2020 c 20 § 1007; 1989 c 399 § 3; 1975 1st ex.s. c 208 § 3.]

RCW 35.21.156 Solid waste—Contracts with vendors for solid waste handling systems, plants, sites, or facilities—Requirements—Vendor selection procedures. (1) Notwithstanding the provisions of any city charter, or any law to the contrary, and in addition to any other authority provided by law, the legislative authority of a city or town may contract with one or more vendors for one or more of the design, construction, or operation of, or other service related to, the systems, plants, sites, or other facilities for solid waste handling in accordance with the procedures set forth in this section. Solid waste handling systems, plants, sites, or other facilities constructed, purchased, acquired, leased, added to, altered, extended, maintained, managed, utilized, or operated pursuant to this section, RCW 35.21.120 and 35.21.152, whether publicly or privately owned, shall be in substantial compliance with the solid waste management plan applicable to the city or town adopted pursuant to chapter 70A.205 RCW. Agreements relating to such solid waste handling systems,

plants, sites, or other facilities may be for such term and may contain such covenants, conditions, and remedies as the legislative authority of a city or town may deem necessary or appropriate. When a contract for design services is entered into separately from other services permitted under this section, procurement shall be in accordance with chapter 39.80 RCW.

(2) If the legislative authority of the city or town decides to proceed with the consideration of qualifications or proposals for services from vendors, the city or town shall publish notice of its requirements and request submission of qualifications statements or proposals. The notice shall be published in the official newspaper of the city or town at least once a week for two weeks not less than sixty days before the final date for the submission of qualifications statements or proposals. The notice shall state in summary form (a) the general scope and nature of the design, construction, operation, or other service, (b) the name and address of a representative of the city or town who can provide further details, (c) the final date for the submission of qualifications statements or proposals, (d) an estimated schedule for the consideration of qualifications, the selection of vendors, and the negotiation of a contract or contracts for services, (e) the location at which a copy of any request for qualifications or request for proposals will be made available, and (f) the criteria established by the legislative authority to select a vendor or vendors, which may include but shall not be limited to the vendor's prior experience, including design, construction, or operation of other similar facilities; respondent's management capability, schedule availability and financial resources; cost of the services, nature of facility design proposed by the vendor; system reliability; performance standards required for the facilities; compatibility with existing service facilities operated by the public body or other providers of service to the public; project performance guarantees; penalty and other enforcement provisions; environmental protection measures to be used; consistency with the applicable comprehensive solid waste management plan; and allocation of project risks.

(3) If the legislative authority of the city or town decides to proceed with the consideration of qualifications or proposals, it may designate a representative to evaluate the vendors who submitted qualifications statements or proposals and conduct discussions regarding qualifications or proposals with one or more vendors. The legislative authority or representative may request submission of qualifications statements and may later request more detailed proposals from one or more vendors who have submitted qualifications statements, or may request detailed proposals without having first received and evaluated qualifications statements. The legislative authority or its representative shall evaluate the qualifications or proposals, as applicable. If two or more vendors submit qualifications or proposals that meet the criteria established by the legislative authority of the city or town, discussions and interviews shall be held with at least two vendors. Any revisions to a request for qualifications or request for proposals shall be made available to all vendors then under consideration by the city or town and shall be made available to any other person who has requested receipt of that information.

(4) Based on criteria established by the legislative authority of the city or town, the representative shall recommend to the legislative authority a vendor or vendors that are initially

determined to be the best qualified to provide one or more of the design, construction or operation of, or other service related to, the proposed project or services. The legislative authority may select one or more qualified vendors for one or more of the design, construction, or operation of, or other service related to, the proposed project or services.

(5) The legislative authority or its representative may attempt to negotiate a contract with the vendor or vendors selected for one or more of the design, construction, or operation of, or other service related to, the proposed project or services on terms that the legislative authority determines to be fair and reasonable and in the best interest of the city or town. If the legislative authority or its representative is unable to negotiate such a contract with any one or more of the vendors first selected on terms that it determines to be fair and reasonable and in the best interest of the city or town, negotiations with any one or more of the vendors shall be terminated or suspended and another qualified vendor or vendors may be selected in accordance with the procedures set forth in this section. If the legislative authority decides to continue the process of selection, negotiations shall continue with a qualified vendor or vendors in accordance with this section at the sole discretion of the legislative authority until an agreement is reached with one or more qualified vendors, or the process is terminated by the legislative authority. The process may be repeated until an agreement is reached.

(6) Prior to entering into a contract with a vendor, the legislative authority of the city or town shall make written findings, after holding a public hearing on the proposal, that it is in the public interest to enter into the contract, that the contract is financially sound, and that it is advantageous for the city or town to use this method for awarding contracts compared to other methods.

(7) Each contract shall include a project performance bond or bonds or other security by the vendor that in the judgment of the legislative authority of the city or town is sufficient to secure adequate performance by the vendor.

(8) The provisions of chapters 39.12 and 39.19 RCW shall apply to a contract entered into under this section to the same extent as if the systems and plants were owned by a public body.

(9) The vendor selection process permitted by this section shall be supplemental to and shall not be construed as a repeal of or limitation on any other authority granted by law.

The alternative selection process provided by this section may not be used in the selection of a person or entity to construct a publicly owned facility for the storage or transfer of solid waste or solid waste handling equipment unless the facility is either (a) privately operated pursuant to a contract greater than five years, or (b) an integral part of a solid waste processing facility located on the same site. Instead, the applicable provisions of RCW 35.22.620, and 35.23.352, and chapters 39.04 and 39.30 RCW shall be followed. [2020 c 20 § 1008; 1989 c 399 § 7; 1986 c 282 § 17. Formerly RCW 35.92.024.]

Legislative findings—Construction—1986 c 282 §§ 17-20: "The legislature finds that the regulation, management, and disposal of solid waste through waste reduction, recycling, and the use of resource recovery facilities of the kind described in RCW 35.92.022 and 36.58.040 should be conducted in a manner substantially consistent

with the priorities and policies of the solid waste management act, chapter 70.95 RCW. Nothing contained in sections 17 through 20 of this act shall detract from the powers, duties, and functions given to the utilities and transportation commission in chapter 81.77 RCW." [1986 c 282 § 16.]

Liberal construction—Supplemental powers—1986 c 282 §§ 16-20: "Sections 16 through 20 of this act, being necessary for the health and welfare of the state and its inhabitants, shall be liberally construed to effect its purposes. Sections 16 through 20 of this act shall be deemed to provide an alternative method for the performance of those subjects authorized by these sections and shall be regarded as supplemental and additional to powers conferred by the Washington state Constitution, other state laws, and the charter of any city or county." [1986 c 282 § 21.]

RCW 35.21.157 Solid waste collection—Rate increase notice. (1) A city that contracts for the collection of solid waste, or provides for the collection of solid waste directly, shall notify the public of each proposed rate increase for a solid waste handling service. The notice may be mailed to each affected ratepayer or published once a week for two consecutive weeks in a newspaper of general circulation in the collection area. The notice shall be available to affected ratepayers at least forty-five days prior to the proposed effective date of the rate increase.

(2) For purposes of this section, "solid waste handling" has the same meaning as provided in RCW 70A.205.015. [2020 c 20 § 1009; 1994 c 161 § 2.]

Findings—Declaration—1994 c 161: "The legislature finds that local governments and private waste management companies have significantly changed solid waste management services in an effort to preserve landfill space and to avoid costly environmental cleanups of municipal landfills. The legislature recognizes that these new services have enabled the state to achieve one of the nation's highest recycling rates.

The legislature also finds that the need to pay for the cleanup of past disposal practices and to provide new recycling services has caused solid waste rates to increase substantially. The legislature further finds that private solid waste collection companies regulated by the utilities and transportation commission are required to provide public notice but that city-managed solid waste collection systems are not. The legislature declares it to be in the public interest for city-managed systems to provide public notice of solid waste rate increases." [1994 c 161 § 1.]

RCW 35.21.158 Collection and transportation of recyclable materials by recycling companies or nonprofit entities—Reuse or reclamation—Application of chapter. Nothing in this chapter shall prevent a recycling company or nonprofit entity from collecting and transporting recyclable materials from a buy-back center, drop-box, or from a commercial or industrial generator of recyclable materials, or upon agreement with a solid waste collection company.

Nothing in this chapter shall be construed as prohibiting a commercial or industrial generator of commercial recyclable materials from selling, conveying, or arranging for transportation of such material to a recycler for reuse or reclamation. [1989 c 431 § 33.]

RCW 35.21.160 Jurisdiction over adjacent waters. The powers and jurisdiction of all incorporated cities and towns of the state having their boundaries or any part thereof adjacent to or fronting on any bay or bays, lake or lakes, sound or sounds, river or rivers, or other navigable waters are hereby extended into and over such waters and over any tidelands intervening between any such boundary and any such waters to the middle of such bays, sounds, lakes, rivers, or other waters in every manner and for every purpose that such powers and jurisdiction could be exercised if the waters were within the city or town limits. In calculating the area of any town for the purpose of determining compliance with the limitation on the area of a town prescribed by RCW 35.21.010, the area over which jurisdiction is conferred by this section shall not be included. [1969 c 124 § 1; 1965 c 7 § 35.21.160. Prior: 1961 c 277 § 4; 1909 c 111 § 1; RRS § 8892.]

Except as limited by the maximum penalties authorized by law, no city or town may establish a penalty for an act that constitutes the crime of driving while under the influence of intoxicating liquor or any drug, as provided in RCW 46.61.502, or the crime of being in actual physical control of a motor vehicle while under the influence of intoxicating liquor or any drug, as provided in RCW 46.61.504, that is less than the penalties prescribed for those crimes in RCW 46.61.5055. [1995 c 332 § 8; 1994 c 275 § 36; 1983 c 165 § 40.]

In the construction of any such utilities, any damages done to the surface of such parkways, park drives or boulevards shall not be borne by any park funds of such city or town. RCW 35.21.217 Utility services—Deposit—Tenants' delinquencies—Notice—Lien. (1) Prior to furnishing utility services, a city or town may require a deposit to guarantee payment for services. However, failure to require a deposit does not affect the validity of any lien authorized by RCW 35.21.290 or 35.67.200. A city or town may determine how to apply partial payments on past due accounts.

(2) A city or town may provide a real property owner or the owner's designee with duplicates of tenant utility service bills, or may notify an owner or the owner's designee that a tenant's utility account is delinquent. However, if an owner or the owner's designee notifies the city or town in writing that a property served by the

city or town is a residential rental property, asks to be notified of a tenant's delinquency, and has provided, in writing, a complete and accurate mailing address, the city or town shall notify the owner or the owner's designee of a residential tenant's delinquency at the same time and in the same manner the city or town notifies the tenant of the tenant's delinquency or by mail, and the city or town is prohibited from collecting from the owner or the owner's designee any charges for electric light or power services more than four months past due. When a city or town provides a real property owner or the owner's designee with duplicates of residential tenant utility service bills or notice that a tenant's utility account is delinquent, the city or town shall notify the tenant that it is providing the duplicate bills or delinquency notice to the owner or the owner's designee.

(3) After August 1, 2010, if a city or town fails to notify the owner of a tenant's delinquency after receiving a written request to do so and after receiving the other information required by subsection (2) of this section, the city or town shall have no lien against the premises for the residential tenant's delinquent and unpaid charges and is prohibited from collecting the tenant's delinquent and unpaid charges for electric light or power services from the owner or the owner's designee.

(4) When a utility account is in a tenant's name, the owner or the owner's designee shall notify the city or town in writing within fourteen days of the termination of the rental agreement and vacation of the premises. If the owner or the owner's designee fails to provide this notice, a city or town providing electric light or power services is not limited to collecting only up to four months of a tenant's delinquent charges from the owner or the owner's designee, provided that the city or town has complied with the notification requirements of subsection (2) of this section.

(5)(a) If an occupied multiple residential rental unit receives utility service through a single utility account, if the utility account's billing address is not the same as the service address of a residential rental property, or if the city or town has been notified that a tenant resides at the service address, the city or town shall make a good faith and reasonable effort to provide written notice to the service address of pending disconnection of electric power and light or water service for nonpayment at least seven calendar days prior to disconnection. The purpose of this notice is to provide any affected tenant an opportunity to resolve the delinquency with his or her landlord or to arrange for continued service. If requested, a city or town shall provide electric power and light or water services to an affected tenant on the same terms and conditions as other residential utility customers, without requiring that he or she pay delinquent amounts for services billed directly to the property owner or a previous tenant except as otherwise allowed by law and only where the city or town offers the opportunity for the affected tenant to set up a reasonable payment plan for the delinquent amounts legally due. If a landlord fails to pay for electric power and light or water services, any tenant who requests that the services be placed in his or her name may deduct from the rent due all reasonable charges paid by the tenant to the city or town for such services. A landlord may not take or threaten to take reprisals or retaliatory action as defined in RCW 59.18.240 against a tenant who deducts from his or her rent payments made to a city or town as provided in this subsection.

(b) Nothing in this subsection (5) affects the validity of any lien authorized by RCW 35.21.290 or 35.67.200. Furthermore, a city or town that provides electric power and light or water services to a residential tenant in these circumstances shall retain the right to collect from the property owner, previous tenant, or both, any delinquent amounts due for service previously provided to the service address if the city or town has complied with the notification requirements of subsection (2) of this section when applicable. [2011 c 151 § 5; 2010 c 135 § 1; 1998 c 285 § 1.]

RCW 35.21.220 Sidewalks—Regulation of use of. Cities of several classes in this state shall be empowered to regulate the use of sidewalks within their limits, and may in their discretion and under such terms and conditions as they may determine permit a use of the same by abutting owners, provided such use does not in their judgment unduly and unreasonably impair passage thereon, to and fro, by the public. Such permission shall not be considered as establishing a prescriptive right, and the right may be revoked at any time by the authorities of such cities. [1965 c 7 § 35.21.220. RCW 35.21.228 Rail fixed guideway public transportation system—Safety program plan and security and emergency preparedness plan. (1) Each city or town that owns or operates a rail fixed guideway public transportation system as defined in RCW 81.104.015 shall submit a system safety program plan and a system security and emergency preparedness plan for that guideway to the state department of transportation by September 1, 1999, or at least one hundred eighty calendar days before beginning operations or instituting significant revisions to its plans. These plans must describe the city's procedures for (a) reporting and investigating any reportable incident, accident, or security breach and identifying and resolving hazards or security vulnerabilities discovered during planning, design, construction, testing, or operations, (b) developing and submitting corrective action plans and annual safety and security audit reports, (c) facilitating on-site safety and security reviews by the state department of transportation and the federal transit administration, and (d) addressing passenger and employee safety and security. The plans must, at a minimum, conform to the standards adopted by the state department of transportation as set forth in the most current version of the Washington state rail safety oversight program standard manual as it exists on March 25, 2016, or such

subsequent date as may be provided by the department by rule, consistent with the purposes of this section. If required by the department, the city or town shall revise its plans to incorporate the department's review comments within sixty days after their receipt, and resubmit its revised plans for review.

(2) Each city or town shall implement and comply with its system safety program plan and system security and emergency preparedness plan. The city or town shall perform internal safety and security audits to evaluate its compliance with the plans, and submit its audit schedule to the department of transportation pursuant to the requirements in the most current version of the Washington state rail safety oversight program standard manual as it exists on March 25, 2016, or such subsequent date as may be provided by the department by rule, consistent with the purposes of this section. The city or town shall prepare an annual report for its internal safety and security audits undertaken in the prior year and submit it to the department no later than February 15th. The department shall establish the requirements for the annual report. The contents of the annual report must include, at a minimum, the dates the audits were conducted, the scope of the audit activity, the audit findings and recommendations, the status of any corrective actions taken as a result of the audit activity, and the results of each audit in terms of the adequacy and effectiveness of the plans.

(3) Each city or town shall notify the department of transportation, pursuant to the most current version of the Washington state rail safety oversight program standard manual as it exists on March 25, 2016, or such subsequent date as may be provided by the department by rule, consistent with the purposes of this section, any reportable incident, accident, security breach, hazard, or security vulnerability. The department may adopt rules further defining any reportable incident, accident, security breach, hazard, or security vulnerability. The city or town shall investigate any reportable incident, accident, security breach, hazard, or security vulnerability and provide a written investigation report to the department as described in the most current version of the Washington state rail safety oversight program standard manual as it exists on March 25, 2016, or such subsequent date as may be provided by the department by rule, consistent with the purposes of this section.

(4) The system security and emergency preparedness plan required in subsection (1) of this section is exempt from public disclosure under chapter 42.56 RCW. However, the system safety program plan as described in this section is not subject to this exemption. [2016 c 33 § 2; 2007 c 422 § 1; 2005 c 274 § 264; 1999 c 202 § 1.]

RCW 35.21.230 Streets over tidelands declared public highways. All streets in any incorporated city in this state, extending from high tide into the navigable waters of the state, are hereby declared

public highways. [1965 c 7 § 35.21.230. Prior: 1890 p 733 § 1; RRS § 9293.]

Public highways: Title 47 RCW.

RCW 35.21.250 Streets and alleys over first-class tidelands—Control of. All streets and alleys, which have been heretofore or may hereafter be established upon, or across tide and shore lands of the first class shall be under the supervision and control of the cities within whose corporate limits such tide and shore lands are situated, to the same extent as are all other streets and alleys of such cities. [1965 c 7 § 35.21.250. Prior: 1901 c 149 § 1; RRS § 9295.]

RCW 35.21.260 Streets—Annual report to secretary of transportation. The governing authority of each city and town on or before May 31st of each year shall submit such records and reports regarding street operations in the city or town to the secretary of transportation on forms furnished by him or her as are necessary to enable him or her to compile an annual report thereon. [2009 c 549 § 2042; 1999 c 204 § 1; 1984 c 7 § 19; 1977 c 75 § 29; 1965 c 7 § 35.21.260. Prior: 1943 c 82 § 12; 1937 c 187 § 64; Rem. Supp. 1943 § 6450-64.]

[1995 c 301 § 35; 1984 c 7 § 20; 1965 c 7 § 35.21.270. Prior: 1949 c 164 § 5; Rem. Supp. 1949 § 9300-5.]

RCW 35.21.275 Street improvements—Provision of supplies or materials. Any city or town may assist a street abutter in improving the street serving the abutter's premises by providing asphalt, concrete, or other supplies or materials. The furnishing of supplies or materials or paying to the abutter the cost thereof and the providing of municipal inspectors and other incidental personnel shall not render the street improvements a public work or improvement subject to competitive bidding. The legislative authority of such city or town shall approve any such assistance at a public meeting and shall maintain a public register of any such assistance setting forth the value, nature, purpose, date and location of the assistance and the name of the beneficiary. [1983 c 103 § 1.]

RCW 35.21.278 Contracts with community service organizations for public improvements—Limitations. (1) Without regard to competitive bidding laws for public works, a county, city, town, school district, metropolitan park district, park and recreation district, port district, or park and recreation service area may contract with a chamber of commerce, a service organization, a community, youth, or athletic association, or other similar association located and providing service in the immediate neighborhood, for drawing design plans, making improvements to a park, school playground, public square, other public spaces, or port habitat site, installing equipment or artworks, or providing maintenance services for such a project, or for a facility or facilities as a community or neighborhood project, or for an environmental justice stewardship or sustainability project, and may reimburse the contracting association its expense. The contracting association may use volunteers to whom no wage or salary compensation is paid in the project and provide the volunteers with clothing or tools; meals or refreshments; accident/injury insurance coverage; and reimbursement of their expenses. The consideration to be received by the public entity through the value of the improvements, artworks, equipment, or maintenance shall have a value at least equal to two times that of the payment to the contracting association. All payments made by a public entity under the authority of this section for all such contracts in any one year shall not exceed $75,000 or two dollars per resident within the boundaries of the public entity, whichever is greater.

(2) A county, city, town, school district, metropolitan park district, park and recreation district, or park and recreation service area may ratify an agreement, which qualifies under subsection (1) of this section and was made before June 9, 1988.

(3) Without regard to competitive bidding laws for public works, a school district, institution of higher education, or other governmental entity that includes training programs for students may contract with a community service organization, nonprofit organization, or other similar entity, to build tiny houses for low-income housing, if the students participating in the building of the tiny houses are in:

(a) Training in a community and technical college construction or construction management program;

(b) A career and technical education program;

(c) A state-recognized apprenticeship preparation program; or

(d) Training under a construction career exploration program for high school students administered by a nonprofit organization. [2023 c 238 § 2; 2019 c 352 § 7; 2012 c 218 § 1; 1988 c 233 § 1.]

Findings—Intent—2023 c 238: "The legislature finds that office of financial management forecasts are showing state population growth of more than 2.2 million people by the year 2050. In the face of this dramatic growth, the legislature finds that it is more important than ever to help preserve, maintain, and enhance local parks, trails, and open spaces that are key contributors to the state's quality of life.

The legislature further finds that local parks and recreation agencies confronted with this growth are still dealing with severe budget impacts brought on by the COVID-19 pandemic and facing a pending economic slowdown, even as the utilization of parks, open spaces, and trails has spiked up dramatically.

The legislature finds that local parks agencies desperately need additional funding and tools to address the significant growth in use and to better empower nonprofit and service organizations to make a positive impact in their communities.

The legislature finds that community service organizations can help local agencies bring people together in a way that fosters an ethic of service, builds cohesion among residents, and provides more free and accessible outdoor recreation opportunities, particularly in underserved communities.

The legislature finds that increased use of volunteers, and agreements with community service organizations, can help smaller agencies stretch local dollars further and take on bigger projects than they otherwise would be able to.

The legislature finds that one way to incentivize these types of agreements with community service organizations is by modernizing the state laws around contracting with such organizations, which have not been updated since 1988.

The legislature further finds that years of inflation and growth should be taken into account in updating these state laws, which currently restrict many local agencies to a $25,000 per year limit for all community service organization contracts.

Therefore, it is the intent of the legislature to modernize the state laws around contracting with community service organizations in a manner that accounts for three and a half decades of growth and inflationary costs, so that local parks agencies can operate with more reasonable and up-to-date limits that are in keeping with today's budget and cost realities. Doing so will provide local agencies one additional tool to address maintenance backlogs, preserve quality open spaces, and better serve communities experiencing inequities and lacking access to parks and recreation facilities and programs that support healthy living. The legislature therefore intends to increase the dollar limit from $25,000 to $75,000 for smaller agencies. It is the intent of the legislature that this limit apply annually to all contracts entered into by an agency under RCW 35.21.278 in any one year, and that this limit not be interpreted to apply on a per contract basis so as to allow any number of individual contracts of up to $75,000.

It is the intent of the legislature that this authority be used to provide additional opportunities for public service organizations to meaningfully participate in the betterment of their community, rather than as a way for local agencies to advantage nonprofits over other businesses in public contracting." RCW 35.21.280 Tax on admissions—Exceptions. (1) Every city and town may levy and fix a tax of not more than one cent on twenty cents or fraction thereof to be paid by the person who pays an admission charge to any place: PROVIDED, No city or town shall impose such tax on persons paying an admission to any activity of any elementary or secondary school or any public facility of a public facility district under chapter 35.57 or 36.100 RCW for which a tax is imposed under RCW 35.57.100 or 36.100.210, except the city or town may impose a tax on persons paying an admission to any activity of such public facility if the city or town uses the admission tax revenue it collects on the

admission charges to that public facility for the construction, operation, maintenance, repair, replacement, or enhancement of that public facility or to develop, support, operate, or enhance programs in that public facility.

(2) Tax authorization under this section includes a tax on persons who are admitted free of charge or at reduced rates to any place for which other persons pay a charge or a regular higher charge for the same privileges or accommodations. A city that is located in a county with a population of one million or more may not levy a tax on events in stadia constructed on or after January 1, 1995, that are owned by a public facilities district under chapter 36.100 RCW and that have seating capacities over forty thousand. The city or town may require anyone who receives payment for an admission charge to collect and remit the tax to the city or town.

(3) The term "admission charge" includes:

(a) A charge made for season tickets or subscriptions;

(b) A cover charge, or a charge made for use of seats and tables reserved or otherwise, and other similar accommodations;

(c) A charge made for food and refreshment in any place where free entertainment, recreation or amusement is provided;

(d) A charge made for rental or use of equipment or facilities for purposes of recreation or amusement; if the rental of the equipment or facilities is necessary to the enjoyment of a privilege for which a general admission is charged, the combined charges shall be considered as the admission charge;

(e) Automobile parking charges if the amount of the charge is determined according to the number of passengers in the automobile. RCW 35.21.290 Utility services—Lien for—Emergency declaration. (1) Except as provided in RCW 35.21.217(4) and in subsection (2) of this section, cities and towns owning their own waterworks, or electric light or power plants shall have a lien against the premises to which water, electric light, or power services were furnished for four months charges therefor due or to become due, but not for any charges more than four months past due.

(2) The lien provided for in subsection (1) of this section may apply to charges more than four months past due, if the city or town has been unable to pursue collection or a lien against the premises to which water, electric light, or power services were furnished due to an emergency declaration by the governor. A lien may be imposed after the expiration of the emergency declaration that prevented collection. The period in which the lien may be imposed is the later of:

(a) Three months from the expiration of the emergency declaration preventing collection or a lien; or

(b) Three months of the ratepayer's failure to abide by the terms of an agreed payment plan, if the payment plan for past due charges

would have allowed the ratepayer to repay the past due charges over a period of six months or more. [2021 c 296 § 15; 2010 c 135 § 2; 1965 c 7 § 35.21.290. Prior: 1933 c 135 § 1; 1909 c 161 § 1; RRS § 9471.]

Finding—Intent—Effective date—2021 c 296: See notes following RCW 82.14.310.

RCW 35.21.300 Utility services—Enforcement of lien—Limitations on termination of service for residential heating. (1) The lien for charges for service by a city waterworks, or electric light or power plant may be enforced only by cutting off the service until the delinquent and unpaid charges are paid, except that until June 30, 1991, utility service for residential space heating may be terminated between November 15 and March 15 only as provided in subsections (2) and (4) of this section. In the event of a disputed account and tender by the owner of the premises of the amount the owner claims to be due before the service is cut off, the right to refuse service to any premises shall not accrue until suit has been entered by the city and judgment entered in the case.

(2) Utility service for residential space heating shall not be terminated between November 15 through March 15 if the customer:

(a) Notifies the utility of the inability to pay the bill, including a security deposit. This notice should be provided within five business days of receiving a payment overdue notice unless there are extenuating circumstances. If the customer fails to notify the utility within five business days and service is terminated, the customer can, by paying reconnection charges, if any, and fulfilling the requirements of this section, receive the protections of this chapter;

(b) Provides self-certification of household income for the prior twelve months to a grantee of the department of commerce which administers federally funded energy assistance programs. The grantee shall determine that the household income does not exceed the maximum allowed for eligibility under the state's plan for low-income energy assistance under 42 U.S.C. 8624 and shall provide a dollar figure that is seven percent of household income. The grantee may verify information in the self-certification;

(c) Has applied for home heating assistance from applicable government and private sector organizations and certifies that any assistance received will be applied to the current bill and future utility bills;

(d) Has applied for low-income weatherization assistance to the utility or other appropriate agency if such assistance is available for the dwelling;

(e) Agrees to a payment plan and agrees to maintain the payment plan. The plan will be designed both to pay the past due bill by the following October 15 and to pay for continued utility service. If the past due bill is not paid by the following October 15, the customer shall not be eligible for protections under this chapter until the past due bill is paid. The plan shall not require monthly payments in excess of seven percent of the customer's monthly income plus one-twelfth of any arrearage accrued from the date application is made and thereafter during November 15 through March 15. A customer may agree to pay a higher percentage during this period, but shall not be in default unless payment during this period is less than seven percent

of monthly income plus one-twelfth of any arrearage accrued from the date application is made and thereafter. If assistance payments are received by the customer subsequent to implementation of the plan, the customer shall contact the utility to reformulate the plan; and

(f) Agrees to pay the moneys owed even if he or she moves.

(3) The utility shall:

(a) Include in any notice that an account is delinquent and that service may be subject to termination, a description of the customer's duties in this section;

(b) Assist the customer in fulfilling the requirements under this section;

(c) Be authorized to transfer an account to a new residence when a customer who has established a plan under this section moves from one residence to another within the same utility service area;

(d) Be permitted to disconnect service if the customer fails to honor the payment program. Utilities may continue to disconnect service for those practices authorized by law other than for nonpayment as provided for in this section. Customers who qualify for payment plans under this section who default on their payment plans and are disconnected can be reconnected and maintain the protections afforded under this chapter by paying reconnection charges, if any, and by paying all amounts that would have been due and owing under the terms of the applicable payment plan, absent default, on the date on which service is reconnected; and

(e) Advise the customer in writing at the time it disconnects service that it will restore service if the customer contacts the utility and fulfills the other requirements of this section.

(4) All municipal utilities shall offer residential customers the option of a budget billing or equal payment plan. The budget billing or equal payment plan shall be offered low-income customers eligible under the state's plan for low-income energy assistance prepared in accordance with 42 U.S.C. 8624(C)(1) without limiting availability to certain months of the year, without regard to the length of time the customer has occupied the premises, and without regard to whether the customer is the tenant or owner of the premises occupied.

(5) An agreement between the customer and the utility, whether oral or written, shall not waive the protections afforded under this chapter. [2023 c 470 § 2016; 1995 c 399 § 36; 1991 c 165 § 2; 1990 1st ex.s. c 1 § 1; 1987 c 356 § 1; 1986 c 245 § 1; 1985 c 6 § 3; 1984 c 251 § 1; 1965 c 7 § 35.21.300. Prior: 1909 c 161 § 2; RRS § 9472.]

Explanatory statement—2023 c 470: See note following RCW 10.99.030.

Findings—1991 c 165: "The legislature finds that the health and welfare of the people of the state of Washington require that all citizens receive essential levels of heat and electric service regardless of economic circumstance and that rising energy costs have had a negative effect on the affordability of housing for low-income citizens and have made it difficult for low-income citizens of the state to afford adequate fuel for residential space heat. The legislature further finds that level payment plans, the protection against winter heating shutoff, and house weatherization programs have all been beneficial to low-income persons." [1991 c 165 § 1.]

RCW 35.21.302 Utility services—Involuntary termination of service during heat-related alerts prohibited—Reconnection and repayment plan—Report. (1) A city or town, including a code city, that owns or operates an electric or water utility may not effect, due to lack of payment, an involuntary termination of utility service to any residential user, including tenants of metered apartment buildings and residents of mobile homes, on any day for which the national weather service has issued or has announced that it intends to issue a heat-related alert, such as an excessive heat warning, a heat advisory, an excessive heat watch, or a similar alert, for the area in which the residential user's address is located.

(2)(a) A residential user at whose dwelling utility service has been disconnected for lack of payment may request that the utility reconnect service on any day for which the national weather service has issued or has announced that it intends to issue a heat-related alert, such as an excessive heat warning, a heat advisory, an excessive heat watch, or a similar alert, for the area in which the residential user's address is located. The utility shall inform all customers in the notice of disconnection of the ability to seek reconnection and provide clear and specific information on how to make that request, including how to contact the utility.

(b) Upon receipt of a request made pursuant to (a) of this subsection, the utility shall promptly make a reasonable attempt to reconnect service to the dwelling. The utility, in connection with a request made pursuant to (a) of this subsection, may require the residential user to enter into a payment plan prior to reconnecting service to the dwelling. If the utility requires the residential user to enter into a repayment plan, the repayment plan must comply with subsection (3) of this section.

(3) A repayment plan required by a utility pursuant to subsection (2)(b) of this section will be designed both to pay the past due bill by the following May 15th, or as soon as possible after May 15th if needed to maintain monthly payments that are no greater than six percent of the customer's monthly income, and to pay for continued utility service. The plan may not require monthly payments in excess of six percent of the customer's monthly income. A customer may agree to pay a higher percentage during this period, but will not be in default unless payment during this period is less than six percent of the customer's monthly income. If assistance payments are received by the customer subsequent to implementation of the plan, the customer shall contact the utility to reformulate the plan.

(4) On an annual basis, each city or town, including a code city, that owns or operates an electric or water utility with more than 25,000 retail electric customers or 2,500 water customers in Washington must submit a report to the department of commerce that includes the total number of disconnections that occurred on each day for which the national weather service issued, or announced that it intended to issue, a heat-related alert. Utilities with fewer than 25,000 retail electric customers or 2,500 water customers in Washington must provide similar information upon request by the department.

(a) Subject to availability, each utility must provide any other information related to utility disconnections that is requested by the department.

(b) The information required in this subsection must be submitted in a form, timeline, and manner as prescribed by the department. [2023 c 105 § 3.]

RCW 35.21.305 Utility connection charges—Waiver for low-income persons. A city or town, including a code city, that owns or operates an electric or gas utility may waive connection charges for properties purchased by low-income persons from organizations exempt from tax under section 501(c)(3) of the federal internal revenue code as amended prior to July 23, 1995. Waivers of connection charges for the same class of electric or gas utility service must be uniformly applied to all qualified property. Nothing in this section authorizes the impairment of a contract. [1995 c 140 § 1.]

RCW 35.21.310 Removal of overhanging or obstructing vegetation—Removal, destroying debris. Any city or town may by general ordinance require the owner of any property therein to remove or destroy all trees, plants, shrubs or vegetation, or parts thereof, which overhang any sidewalk or street or which are growing thereon in such manner as to obstruct or impair the free and full use of the sidewalk or street by the public; and may further so require the owner of any property therein to remove or destroy all grass, weeds, shrubs, bushes, trees or vegetation growing or which has grown and died, and to remove or destroy all debris, upon property owned or occupied by them and which are a fire hazard or a menace to public health, safety or welfare. The ordinance shall require the proceedings therefor to be initiated by a resolution of the governing body of the city or town, adopted after not less than five days' notice to the owner, which shall describe the property involved and the hazardous condition, and require the owner to make such removal or destruction after notice given as required by said ordinance. The ordinance may provide that if such removal or destruction is not made by the owner after notice given as required by the ordinance in any of the above cases, that the city or town will cause the removal or destruction thereof and may also provide that the cost to the city or town shall become a charge against the owner of the property and a lien against the property. Notice of the lien herein authorized shall as nearly as practicable be in substantially the same form, filed with the same officer within the same time and manner, and enforced and foreclosed as is provided by law for liens for labor and materials.

The provisions of this section are supplemental and additional to any other powers granted or held by any city or town on the same or a similar subject. [1969 c 20 § 1; 1965 c 7 § 35.21.310. Prior: 1949 c 113 § 1; Rem. Supp. 1949 § 9213-10.]

Homes built to 42 U.S.C. Sec. 5401-5403 standards (as amended in 2000) must be regulated for the purposes of siting in the same manner as site built homes, factory built homes, or homes built to any other state construction or local design standard. However, except as provided in subsection (2) of this section, any city or town may require that:

(a) A manufactured home be a new manufactured home;

(b) The manufactured home be set upon a permanent foundation, as specified by the manufacturer, and that the space from the bottom of the home to the ground be enclosed by concrete or an approved concrete product which can be either load bearing or decorative;

(c) The manufactured home comply with all local design standards applicable to all other homes within the neighborhood in which the manufactured home is to be located;

(d) The home is thermally equivalent to the state energy code; and

(2)(a) A city or town may not adopt an ordinance that has the effect, directly or indirectly, of restricting the location of manufactured/mobile homes in manufactured/mobile home communities that were legally in existence before June 12, 2008, based exclusively on the age or dimensions of the manufactured/mobile home.

(b) A city or town may not prohibit the siting of a manufactured/mobile home on an existing lot based solely on lack of compliance with existing separation and setback requirements that regulate the distance between homes.

(c) A city or town is not precluded by (a) or (b) of this subsection from restricting the location of a manufactured/mobile home in manufactured/mobile home communities for any other reason including, but not limited to, failure to comply with fire, safety, or other local ordinances or state laws related to manufactured/mobile homes.

(3) Except as provided under subsection (4) of this section, a city or town may not adopt an ordinance that has the effect, directly or indirectly, of preventing the entry or requiring the removal of a recreational vehicle or tiny house with wheels as defined in RCW 35.21.686 used as a primary residence in manufactured/mobile home communities.

(4) Subsection (3) of this section does not apply to any local ordinance or state law that:

(b) Requires utility hookups in manufactured/mobile home communities to meet state or federal building code standards for manufactured/mobile home communities; or

(c) Includes both of the following provisions:

(ii) If the requirement in (c)(i) of this subsection is not met, a manufactured/mobile home community must provide toilets and showers.

(5) For the purposes of this section, "manufactured/mobile home community" has the same meaning as in RCW 59.20.030.

(6) This section does not override any legally recorded covenants or deed restrictions of record.

Sec. 5401-5403); and this federal regulation is equivalent to the state's uniform building code. The legislature also finds that congress has declared that: (1) Manufactured housing plays a vital role in meeting the housing needs of the nation; and (2) manufactured homes provide a significant

resource for affordable homeownership and rental housing accessible to all Americans (42 U.S.C. Sec. 5401-5403). The legislature intends to protect the consumers' rights to choose among a number of housing construction alternatives without restraint of trade or discrimination by local governments." [2004 c 256 § 1.]

Effective date—2004 c 256: "This act takes effect July 1, 2005." [2004 c 256 § 6.]

As used in this section, "low income" means income that does not exceed eighty percent of the median income for the standard metropolitan statistical area in which the city or town is located. Housing constructed with loans or grants made under this section shall not be considered public works or improvements subject to competitive bidding or a purchase of services subject to the prohibition against advance payment for services: PROVIDED, That whenever feasible the borrower or grantee shall make every reasonable and practicable effort to utilize a competitive public bidding process. [1986 c 248 § 1.]

(3) Tenants of tiny house communities are entitled to all rights and subject to all duties and penalties required under chapter 59.20 RCW.

(4) For purposes of this section:

(b) "Tiny house communities" means real property rented or held out for rent to others for the placement of tiny houses with wheels or tiny houses utilizing the binding site plan process in RCW 58.17.035. [2019 c 352 § 5.]

(2) A city or town may require that the facility: (a) Comply with all building, fire, safety, health code, and business licensing requirements; (b) conform to lot size, building size, setbacks, and lot coverage standards applicable to the zoning district except if the structure is a legal nonconforming structure; (c) is certified by the department of children, youth, and families licensor as providing a safe passenger loading area; (d) include signage, if any, that conforms to applicable regulations; and (e) limit hours of operations to facilitate neighborhood compatibility, while also providing appropriate opportunity for persons who use family day-care who work a nonstandard work shift.

(3) A city or town may also require that the family day-care provider, before state licensing, require proof of written notification by the provider that the immediately adjoining property owners have been informed of the intent to locate and maintain such a facility. If a dispute arises between neighbors and the day-care provider over licensing requirements, the licensor may provide a forum to resolve the dispute.

(4) This section may not be construed to prohibit a city or town from imposing zoning conditions on the establishment and maintenance of a family day-care provider's home serving twelve or fewer children in an area zoned for residential or commercial use, if the conditions are no more restrictive than conditions imposed on other residential dwellings in the same zone and the establishment of such facilities is not precluded. Cities which impose a license fee or tax upon business activities consisting of the making of retail sales of tangible personal property which are measured by gross receipts or gross income from such sales shall be required to submit an annual report to the state auditor identifying the rate established and the revenues received from each fee or tax. This section shall not apply to any business activities subject to the tax imposed by chapter 82.16 RCW. For purposes of this section, the providing to consumers of competitive telephone service, as defined in RCW 82.04.065, or the providing of payphone service, shall be subject to tax at the same rate as business activities consisting of the making of retail sales of tangible personal property. As used in this section, "payphone service" means making telephone service available to the public on a fee-per-call basis, independent of any other commercial transaction, for the purpose of making telephone calls, when the telephone can only be activated by inserting coins, calling collect, using a calling card or credit card, or dialing a toll-free number, and the provider of the service owns or leases the telephone equipment but does not own the telephone line providing the service to that equipment and has no affiliation with the owner of the telephone line. RCW 35.21.714 License fees or taxes on telephone business—Imposition on certain gross revenues authorized—Limitations. (1) Any city which imposes a license fee or tax upon the business activity of engaging in the telephone business which is measured by gross receipts or gross income may impose the fee or tax, if it desires, on one hundred percent of the total gross revenue derived from intrastate toll telephone services subject to the fee or tax: PROVIDED, That the city shall not impose the fee or tax on that portion of network telephone service which represents charges to another telecommunications company, as defined in RCW 80.04.010, for connecting fees, switching charges, or carrier access charges relating to intrastate toll telephone services, or for access to, or charges for, interstate services, or charges for network telephone service that is purchased for the purpose of resale, or charges for mobile telecommunications services provided to customers whose place of primary use is not within the city.

RCW 35.21.715 Taxes on network telephone services. Notwithstanding RCW 35.21.714 or 35A.82.060, any city or town which imposes a tax upon business activities measured by gross receipts or gross income from sales, may impose such tax on that portion of network telephone service, as defined in RCW 82.16.010, which represents charges to another telecommunications company, as defined

in RCW 80.04.010, for connecting fees, switching charges, or carrier access charges relating to intrastate toll services, or charges for network telephone service that is purchased for the purpose of resale. RCW 35.21.717 Taxation of internet access—Moratorium. A city or town may tax internet access providers under generally applicable business taxes or fees, at a rate not to exceed the rate applied to a general service classification. For the purposes of this section, "internet access" has the same meaning as in RCW 82.04.297. [2009 c 535 § 1101; 2004 c 154 § 1; 2002 c 181 § 1; 1999 c 307 § 1; 1997 c 304 § 2.]

Intent—Construction—2009 c 535: See notes following RCW 82.04.192.

Findings—1997 c 304: "The legislature finds that the newly emerging business of providing internet service is providing widespread benefits to all levels of society. The legislature further finds that this business is important to our state's continued growth in the high-technology sector of the economy and that, as this industry emerges, it should not be burdened by new taxes that might not be appropriate for the type of service being provided. The legislature further finds that there is no clear statutory guidance as to how internet services should be classified for tax purposes and intends to ratify the state's current treatment of such services." [1997 c 304 § 1.]

Severability—1997 c 304: "If any provision of this act or its application to any person or circumstance is held invalid, the remainder of the act or the application of the provision to other persons or circumstances is not affected." [1997 c 304 § 6.]

Effective date—1997 c 304: "This act is necessary for the immediate preservation of the public peace, health, or safety, or support of the state government and its existing public institutions, and takes effect immediately [May 9, 1997]." [1997 c 304 § 7.]

RCW 35.21.718 State route No. 16—Tax on operation prohibited. A city or town may not impose a tax on amounts received from operating state route number 16 corridor transportation systems and facilities constructed and operated under chapter 47.46 RCW. [1998 c 179 § 2.]

Finding—1998 c 179: "The legislature finds and declares that the people of the state may not enjoy the full benefits of public-private initiative for state route number 16 corridor improvements due to the many taxes that may apply to this project. Generally these taxes would not apply if the state built these projects through traditional financing and construction methods. These tax exemptions will reduce the cost of the project, allow lower tolls, and reduce the time for which tolls are charged." [1998 c 179 § 1.]

(4) Enter into contracts with public corporations, commissions, and authorities for the purpose of exercising any powers of a community renewal agency under chapter 35.81 RCW; and

(5) Create public corporations, commissions, and authorities to: Administer and execute federal grants or programs; receive and administer private funds, goods, or services for any lawful public purpose; and perform any lawful public purpose or public function. The ordinance or resolution shall limit the liability of such public corporations, commissions, and authorities to the assets and properties of such public corporation, commission, or authority in order to prevent recourse to such cities, towns, or counties or their assets or credit. RCW 35.21.735 Public corporations—Declaration of public purpose—Power and authority to enter into agreements, receive and expend funds—Security—Special funds—Agreements to implement federal new markets tax credit program. (1) The legislature hereby declares that carrying out the purposes of federal grants or programs is both a public purpose and an appropriate function for a city, town, county,

or public corporation. The provisions of RCW 35.21.730 through 35.21.755 and 35.21.660 and 35.21.670 and the enabling authority herein conferred to implement these provisions shall be construed to accomplish the purposes of RCW 35.21.730 through 35.21.755.

(2) All cities, towns, counties, and public corporations shall have the power and authority to enter into agreements with the United States or any agency or department thereof, or any agency of the state government or its political subdivisions, and pursuant to such agreements may receive and expend, or cause to be received and expended by a custodian or trustee, federal or private funds for any lawful public purpose. Pursuant to any such agreement, a city, town, county, or public corporation may issue bonds, notes, or other evidences of indebtedness that are guaranteed or otherwise secured by funds or other instruments provided by or through the federal government or by the federal government or an agency or instrumentality thereof under section 108 of the housing and community development act of 1974 (42 U.S.C. Sec. 5308), as amended, or its successor, and may agree to repay and reimburse for any liability thereon any guarantor of any such bonds, notes, or other evidences of indebtedness issued by such jurisdiction or public corporation, or issued by any other public entity. For purposes of this subsection, federal housing mortgage insurance shall not constitute a federal guarantee or security.

(3) A city, town, county, or public corporation may pledge, as security for any such bonds, notes, or other evidences of indebtedness or for its obligations to repay or reimburse any guarantor thereof, its right, title, and interest in and to any or all of the following: (a) Any federal grants or payments received or that may be received in the future; (b) any of the following that may be obtained directly or indirectly from the use of any federal or private funds received as authorized in this section: (i) Property and interests therein, and (ii) revenues; (c) any payments received or owing from any person resulting from the lending of any federal or private funds received as authorized in this section; (d) any proceeds under (a), (b), or (c) of this subsection and any securities or investments in which (a), (b), or (c) of this subsection or proceeds thereof may be invested; (e) any interest or other earnings on (a), (b), (c), or (d) of this subsection.

(4) A city, town, county, or public corporation may establish one or more special funds relating to any or all of the sources listed in subsection (3)(a) through (e) of this section and pay or cause to be paid from such fund the principal, interest, premium if any, and other amounts payable on any bonds, notes, or other evidences of indebtedness authorized under this section, and pay or cause to be paid any amounts owing on any obligations for repayment or reimbursement of guarantors of any such bonds, notes, or other evidences of indebtedness. A city, town, county, or public corporation may contract with a financial institution either to act as trustee or custodian to receive, administer, and expend any federal or private funds, or to collect, administer, and make payments from any special fund as authorized under this section, or both, and to perform other duties and functions in connection with the transactions authorized under this section. If the bonds, notes, or other evidences of indebtedness and related agreements comply with subsection (6) of this section, then any such funds held by any such trustee or custodian, or by a public corporation, shall not constitute public moneys or funds

of any city, town, or county and at all times shall be kept segregated and set apart from other funds.

(5) For purposes of this section, "lawful public purpose" includes, without limitation, any use of funds, including loans thereof to public or private parties, authorized by the agreements with the United States or any department or agency thereof under which federal or private funds are obtained, or authorized under the federal laws and regulations pertinent to such agreements.

(6) If any such federal or private funds are loaned or granted to any private party or used to guarantee any obligations of any private party, then any bonds, notes, other evidences of indebtedness issued or entered into for the purpose of receiving or causing the receipt of such federal or private funds, and any agreements to repay or reimburse guarantors, shall not be obligations of any city, town, or county and shall be payable only from a special fund as authorized in this section or from any of the security pledged pursuant to the authority of this section, or both. Any bonds, notes, or other evidences of indebtedness to which this subsection applies shall contain a recital to the effect that they are not obligations of the city, town, or county or the state of Washington and that neither the faith and credit nor the taxing power of the state or any municipal corporation or subdivision of the state or any agency of any of the foregoing, is pledged to the payment of principal, interest, or premium, if any, thereon. Any bonds, notes, other evidences of indebtedness, or other obligations to which this subsection applies shall not be included in any computation for purposes of limitations on indebtedness. To the extent expressly agreed in writing by a city, town, county, or public corporation, this subsection shall not apply to bonds, notes, or other evidences of indebtedness issued for, or obligations incurred for, the necessary support of the poor and infirm by that city, town, county, or public corporation.

(7) Any bonds, notes, or other evidences of indebtedness issued by, or reimbursement obligations incurred by, a city, town, county, or public corporation consistent with the provisions of this section but prior to May 3, 1995, and any loans or pledges made by a city, town, or county in connection therewith substantially consistent with the provisions of this section but prior to May 3, 1995, are deemed authorized and shall not be held void, voidable, or invalid due to any lack of authority under the laws of this state.

(8) All cities, towns, counties, public corporations, and port districts may create partnerships and limited liability companies and enter into agreements with public or private entities, including partnership agreements and limited liability company agreements, to implement within their boundaries the federal new markets tax credit program established by the community renewal tax relief act of 2000 (26 U.S.C. Sec. 45D) or its successor statute. [2007 c 230 § 2; 1995 c 212 § 2; 1985 c 332 § 3; 1974 ex.s. c 37 § 3.]

Purpose—2007 c 230: "The purpose of this act is to assist community and economic development by clarifying how cities, towns, counties, public corporations, and port districts may fully participate in the federal new markets tax credit program." [2007 c 230 § 1.]

Construction—2007 c 230: "The authority granted by this act is additional and supplemental to any other authority of any city, town,

Any previous actions consistent with this act are ratified and confirmed." [2007 c 230 § 3.]

Severability—2007 c 230: "If any provision of this act or its application to any person or circumstance is held invalid, the remainder of the act or the application of the provision to other persons or circumstances is not affected." [2007 c 230 § 4.]

Purpose—1995 c 212: "The purpose of this act is to assist community and economic development by clarifying the authority of all cities, towns, counties, and public corporations to engage in federally guaranteed "conduit financings" and to specify procedures that may be used for such conduit financings. Generally, in such a conduit financing a municipality borrows funds from the federal government or from private sources with the help of federal guarantees, without pledging the credit or tax revenues of the municipality, and then lends the proceeds for private projects that both fulfill public purposes, such as community and economic development, and provide the revenues to retire the municipal borrowings. Such conduit financings include issuance by municipalities of federally guaranteed notes under section 108 of the housing and community development act of 1974, as amended, to finance projects eligible under federal community development block grant regulations." [1995 c 212 § 1.]

Severability—1995 c 212: "If any provision of this act or its application to any person or circumstance is held invalid, the remainder of the act or the application of the provision to other persons or circumstances is not affected." [1995 c 212 § 3.]

Construction—1995 c 212: "The authority granted by this act is additional and supplemental to any other authority of any city, town, county, or public corporation. Nothing in this act may be construed to imply that any of the power or authority granted hereby was not available to any city, town, county, or public corporation under prior law. Any previous actions consistent with the provisions of this act are ratified and confirmed." [1995 c 212 § 4.]

Effective date—1995 c 212: "This act is necessary for the immediate preservation of the public peace, health, or safety, or support of the state government and its existing public institutions, and shall take effect immediately [May 3, 1995]." [1995 c 212 § 5.]

RCW 35.21.740 Public corporations—Exercise of powers, authorities, or rights—Territorial jurisdiction. Powers, authorities, or rights expressly or impliedly granted to any city, town, or county or their agents under any provision of RCW 35.21.730 through 35.21.755 shall not be operable or applicable, or have any effect beyond the limits of the incorporated area of any city or town implementing RCW 35.21.730 through 35.21.755, unless so provided by contract between the city and another city or county. [1985 c 332 § 4; 1974 ex.s. c 37 § 4.]

Nothing in this section shall be construed to prevent the governing body of the public corporation, commission, or authority from holding an executive session during a regular or special meeting in accordance with RCW 42.30.110(1)(c). In addition, the public corporation,

commission, or authority shall advertise notice of the meeting in a local newspaper of general circulation at least twice no less than seven days and no more than two weeks before the public meeting. [1990 c 189 § 1.]

RCW 35.21.750 Public corporations—Insolvency or dissolution. In the event of the insolvency or dissolution of a public corporation, commission, or authority, the superior court of the county in which the public corporation, commission, or authority is or was operating shall have jurisdiction and authority to appoint trustees or receivers of corporate property and assets and supervise such trusteeship or receivership: PROVIDED, That all liabilities incurred by such public corporation, commission, or authority shall be satisfied exclusively from the assets and properties of such public corporation, commission, or authority and no creditor or other person shall have any right of action against the city, town, or county creating such corporation, commission or authority on account of any debts, obligations, or liabilities of such public corporation, commission, or authority. (1) A public corporation, commission, or authority created pursuant to RCW 35.21.730, 35.21.660, or 81.112.320 shall receive the same immunity or exemption from taxation as that of the city, town, or county creating the same: PROVIDED, That, except for (a) any property within a special review district established by ordinance prior to January 1, 1976, or listed on or which is within a district listed on any federal or state register of historical sites or (b) any property owned, operated, or controlled by a public corporation that is used primarily for low-income housing, or that is used as a convention center, performing arts center, public assembly hall, public meeting place, public esplanade, street, public way, public open space, park, public utility corridor, or view corridor for the general public or (c) any blighted property owned, operated, or controlled by a public corporation that was acquired for the purpose of remediation and redevelopment of the property in accordance with an agreement or plan approved by the city, town, or county in which the property is located, or (d) any property owned, operated, or controlled by a public corporation created under RCW 81.112.320, any such public corporation, commission, or authority shall pay to the county treasurer an annual excise tax equal to the amounts which would be paid upon real property and personal property devoted to the purposes of such public corporation, commission, or authority were it in private ownership, and such real property and personal property is acquired and/or operated under RCW 35.21.730 through 35.21.755, and the proceeds of such excise tax shall be allocated by the county treasurer to the various taxing authorities in which such property is situated, in the same manner as though the property were in private ownership: PROVIDED FURTHER, That the provisions of chapter 82.29A RCW shall not apply to property within a special review district established by ordinance prior to January 1, 1976, or listed on or which is within a district listed on any federal or state register of historical sites and which is controlled by a public corporation, commission, or authority created pursuant to RCW

RCW 35.21.762 Urban emergency medical service districts—Creation authorized in city or town with territory in two counties. The council of a city or town that has territory included in two counties may adopt an ordinance creating an urban emergency medical service district in all of the portion of the city or town that is located in one of the two counties if: (1) The county in which the urban emergency medical service district is located does not impose an emergency medical service levy authorized under RCW 84.52.069; and (2) the other county in which the city or town is located does impose an emergency medical service levy authorized under RCW 84.52.069. The ordinance creating the district may only be adopted after a public hearing has been held on the creation of the district and the council makes a finding that it is in the public interest to create the district. The members of the city or town council, acting in an ex officio capacity and independently, shall compose the governing body of the urban emergency medical service district. RCW 35.21.765 Fire protection, ambulance or other emergency services provided by municipal corporation within county—Financial and other assistance by county authorized. See RCW 36.32.470.

RCW 35.21.766 Ambulance services—Establishment authorized. (1) Whenever a regional fire protection service authority determines that the fire protection jurisdictions that are members of the authority are not adequately served by existing private ambulance service, the governing board of the authority may by resolution provide for the establishment of a system of ambulance service to be operated by the authority as a public utility or operated by contract after a call for bids.

(2) The legislative authority of any city or town may establish an ambulance service to be operated as a public utility. However, the legislative authority of the city or town shall not provide for the establishment of an ambulance service utility that would compete with any existing private ambulance service, unless the legislative authority of the city or town determines that the city or town, or a substantial portion of the city or town, is not adequately served by an existing private ambulance service. In determining the adequacy of an existing private ambulance service, the legislative authority of the city or town shall take into consideration objective generally accepted medical standards and reasonable levels of service which shall be published by the city or town legislative authority. The decision of the city council or legislative body shall be a discretionary, legislative act. When it is preliminarily concluded that the private ambulance service is inadequate, before issuing a call for bids or before the city or town establishes an ambulance service utility, the legislative authority of the city or town shall allow a minimum of sixty days for the private ambulance service to meet the generally accepted medical standards and reasonable levels of service. In the event of a second preliminary conclusion of inadequacy within a twenty-four month period, the legislative authority of the city or town may immediately issue a call for bids or establish an ambulance service utility and is not required to afford the private ambulance service another sixty-day period to meet the generally accepted medical standards and reasonable levels of service. Nothing in chapter 482, Laws of 2005 is intended to supersede requirements and standards adopted by the department of health. A private ambulance service which is not licensed by the department of health or whose license is denied, suspended, or revoked shall not be entitled to a sixty-day period within which to demonstrate adequacy and the

legislative authority may immediately issue a call for bids or establish an ambulance service utility.

(3) The city or town legislative authority is authorized to set and collect rates and charges in an amount sufficient to regulate, operate, and maintain an ambulance utility. Prior to setting such rates and charges, the legislative authority must determine, through a cost-of-service study, the total cost necessary to regulate, operate, and maintain the ambulance utility. Total costs shall not include capital cost for the construction, major renovation, or major repair of the physical plant. Once the legislative authority determines the total costs, the legislative authority shall then identify that portion of the total costs that are attributable to the availability of the ambulance service and that portion of the total costs that are attributable to the demand placed on the ambulance utility.

(a) Availability costs are those costs attributable to the basic infrastructure needed to respond to a single call for service within the utility's response criteria. Availability costs may include costs for dispatch, labor, training of personnel, equipment, patient care supplies, and maintenance of equipment.

(b) Demand costs are those costs that are attributable to the burden placed on the ambulance service by individual calls for ambulance service. Demand costs shall include costs related to frequency of calls, distances from hospitals, and other factors identified in the cost-of-service study conducted to assess burdens imposed on the ambulance utility.

(4) A city or town legislative authority is authorized to set and collect rates and charges as follows:

(a) The rate attributable to costs for availability described under subsection (3)(a) of this section shall be uniformly applied across user classifications within the utility;

(b) The rate attributable to costs for demand described under subsection (3)(b) of this section shall be established and billed to each utility user classification based on each user classification's burden on the utility;

(c) The fee charged by the utility shall reflect a combination of the availability cost and the demand cost;

(d)(i) Except as provided in (d)(ii) of this subsection, the combined rates charged shall reflect an exemption for persons who are medicaid eligible and who reside in a nursing facility, assisted living facility, adult family home, or receive in-home services. The combined rates charged may reflect an exemption or reduction for designated classes consistent with Article VIII, section 7 of the state Constitution. The amounts of exemption or reduction shall be a general expense of the utility, and designated as an availability cost, to be spread uniformly across the utility user classifications.

(ii) For cities with a population less than two thousand five hundred that established an ambulance utility before May 6, 2004, the combined rates charged may reflect an exemption or reduction for persons who are medicaid eligible, and for designated classes consistent with Article VIII, section 7 of the state Constitution;

(e)(i) Except as provided in (e)(ii) of this subsection (4), the legislative authority must continue to allocate at least seventy percent of the total amount of general fund revenues expended, as of May 5, 2004, toward the total costs necessary to regulate, operate, and maintain the ambulance service utility. However, cities or towns that operated an ambulance service before May 6, 2004, and commingled general fund dollars and ambulance service dollars, may reasonably

estimate that portion of general fund dollars that were, as of May 5, 2004, applied toward the operation of the ambulance service, and at least seventy percent of such estimated amount must then continue to be applied toward the total cost necessary to regulate, operate, and maintain the ambulance utility. Cities and towns which first established an ambulance service utility after May 6, 2004, must allocate, from the general fund or emergency medical service levy funds, or a combination of both, at least an amount equal to seventy percent of the total costs necessary to regulate, operate, and maintain the ambulance service utility as of May 5, 2004, or the date that the utility is established.

(ii) After January 1, 2012, the legislative authority may allocate general fund revenues toward the total costs necessary to regulate, operate, and maintain the ambulance service utility in an amount less than required by (e)(i) of this subsection (4). However, before making any reduction to the general fund allocation, the legislative authority must hold a public hearing, preceded by at least thirty days' notice provided in each ratepayer's utility bill, at which the legislative authority must allow for public comment and present:

(A) The utility's most recent cost of service study;

(B) A summary of the utility's current revenue sources;

(C) A proposed budget reflecting the reduced allocation of general fund revenues;

(D) Any proposed change to utility rates; and

(E) Any anticipated impact to the utility's level of service;

(f) The legislative authority must allocate available emergency medical service levy funds, in an amount proportionate to the percentage of the ambulance service costs to the total combined operating costs for emergency medical services and ambulance services, towards the total costs necessary to regulate, operate, and maintain the ambulance utility;

(g) The legislative authority must allocate all revenues received through direct billing to the individual user of the ambulance service to the demand-related costs under subsection (3)(b) of this section;

(h) The total revenue generated by the rates and charges shall not exceed the total costs necessary to regulate, operate, and maintain an ambulance utility; and

(i) Revenues generated by the rates and charges must be deposited in a separate fund or funds and be used only for the purpose of paying for the cost of regulating, maintaining, and operating the ambulance utility.

(5) Ambulance service rates charged pursuant to this section do not constitute taxes or charges under RCW 82.02.050 through 82.02.090, or 35.21.768, or charges otherwise prohibited by law. [2012 c 10 § 39; 2011 c 139 § 1; 2005 c 482 § 2; 2004 c 129 § 34; 1975 1st ex.s. c 24 § 1.]

Application—2012 c 10: See note following RCW 18.20.010.

Finding—Intent—2005 c 482: "The legislature finds that ambulance and emergency medical services are essential services and the availability of these services is vital to preserving and promoting the health, safety, and welfare of people in local communities throughout the state. All persons, businesses, and industries benefit from the availability of ambulance and emergency medical services, and

survival rates can be increased when these services are available, adequately funded, and appropriately regulated. It is the legislature's intent to explicitly recognize local jurisdictions' ability and authority to collect utility service charges to fund ambulance and emergency medical service systems that are based, at least in some part, upon a charge for the availability of these services." [2005 c 482 § 1.]

Ambulance services by counties authorized: RCW 36.01.100.

RCW 35.21.7661 Study and review of ambulance utilities. The joint legislative audit and review committee shall study and review ambulance utilities established and operated by cities under chapter 482, Laws of 2005. The committee shall examine, but not be limited to, the following factors: The number and operational status of utilities established under chapter 482, Laws of 2005; whether the utility rate structures and user classifications used by cities were established in accordance with generally accepted utility rate-making practices; and rates charged by the utility to the user classifications. The committee shall provide a final report on this review by December 2007. [2005 c 482 § 3.]

Finding—Intent—2005 c 482: See note following RCW 35.21.766.

RCW 35.21.768 Ambulance services—Excise taxes authorized—Use of proceeds. The legislative authority of any city or town is authorized to adopt ordinances for the levy and collection of excise taxes and/or for the imposition of an additional tax for the act or privilege of engaging in the ambulance business. Such business and occupation tax shall be imposed in such amounts as fixed and determined by the legislative authority.

The excise taxes other than the business and occupation tax authorized by this section shall be levied and collected from all persons, businesses, and industries who are served and billed for said ambulance service owned and operated or contracted for by the city or town in such amounts as shall be fixed and determined by the legislative authority of the city or town.

All taxes authorized pursuant to this section shall be construed to be taxes other than a retail sales tax defined in chapter 82.08 RCW and a use tax defined in chapter 82.12 RCW, and the city or town shall appropriate and use the proceeds derived from all taxes authorized by this section only for the operation, maintenance and capital needs of its municipally owned, operated, leased or contracted for ambulance service. [1975 1st ex.s. c 24 § 2.]

RCW 35.21.770 Members of legislative bodies authorized to serve as volunteer firefighters, volunteer ambulance personnel, or reserve law enforcement officers. Notwithstanding any other provision of law, the legislative body of any city or town, by resolution adopted by a

two-thirds vote of the full legislative body, may authorize any of its members to serve as volunteer firefighters, volunteer ambulance personnel, or reserve law enforcement officers, or two or more of such positions, and to receive the same compensation, insurance, and other benefits as are applicable to other volunteer firefighters, volunteer ambulance personnel, or reserve law enforcement officers employed by the city or town. [1997 c 65 § 1; 1993 c 303 § 1; 1974 ex.s. c 60 § 1.]

RCW 35.21.772 Fire department volunteers—Holding public office—Definitions. (1) Except as otherwise prohibited by law, a volunteer member of any fire department who does not serve as fire chief for the department may be:

(a) A candidate for elective public office and serve in that public office if elected; or

(b) Appointed to any public office and serve in that public office if appointed.

(2) For purposes of this section, "volunteer" means a member of any fire department who performs voluntarily any assigned or authorized duties on behalf of or at the direction of the fire department without receiving compensation or consideration for performing such duties.

(3) For purposes of this section, "compensation" and "consideration" do not include any benefits the volunteer may have accrued or is accruing under chapter 41.24 RCW. [2006 c 211 § 1.]

RCW 35.21.775 Provision of fire protection services to state-owned facilities. Subject to the provisions of RCW 35.21.779, whenever a city or town has located within its territorial limits facilities, except those leased to a nontax-exempt person or organization, owned by the state or an agency or institution of the state, the state or agency or institution owning such facilities and the city or town may contract for an equitable share of fire protection services for the protection and safety of personnel and property, pursuant to chapter 39.34 RCW, as now or hereafter amended. Nothing in this section shall be construed to require the state, or any state agency or institution, to contract for services which are performed by the staff and equipment of such an entity or by a fire protection district pursuant to RCW 52.30.020. [1992 c 117 § 4; 1985 c 6 § 4; 1984 c 230 § 82; 1983 c 146 § 1; 1979 ex.s. c 102 § 1.]

Findings—1992 c 117: "The legislature finds that certain state-owned facilities and institutions impose a financial burden on the cities and towns responsible for providing fire protection services to those state facilities. The legislature endeavors pursuant to chapter 117, Laws of 1992, to establish a process whereby cities and towns that have a significant share of their total assessed valuation taken up by state-owned facilities can enter into fire protection contracts with state agencies or institutions to provide a share of the jurisdiction's fire protection funding." [1992 c 117 § 3.]

RCW 35.21.778 Existing contracts for fire protection services and equipment not abrogated. Nothing in chapter 117, Laws of 1992,

shall be interpreted to abrogate existing contracts for fire protection services and equipment, nor be deemed to authorize cities and towns to negotiate additional contractual provisions to apply prior to the expiration of such existing contracts. Upon expiration of contracts negotiated prior to March 31, 1992, future contracts between such cities and towns and state agencies and institutions shall be governed by the provisions of RCW 35.21.775 and 35.21.779. [1992 c 117 § 5.]

Findings—1992 c 117: See note following RCW 35.21.775.

RCW 35.21.779 Fire protection services for state-owned facilities—Contracts with the department of commerce—Consolidation of negotiations with multiple state agencies—Arbitration. (1) In cities or towns where the estimated value of state-owned facilities constitutes ten percent or more of the total assessed valuation, the state agency or institution owning the facilities shall contract with the city or town to pay an equitable share for fire protection services. The contract shall be negotiated as provided in subsections (2) through (6) of this section and shall provide for payment by the agency or institution to the city or town.

(2) A city or town seeking to enter into fire protection contract negotiations shall provide written notification to the department of commerce and the state agencies or institutions that own property within the jurisdiction, of its intent to contract for fire protection services. Where there are multiple state agencies located within a single jurisdiction, a city may choose to notify only the department of commerce, which in turn shall notify the agencies or institution that own property within the jurisdiction of the city's intent to contract for fire protection services. Any such notification shall be based on the valuation procedures, based on commonly accepted standards, adopted by the department of commerce in consultation with the department of enterprise services and the association of Washington cities.

(3) The department of commerce shall review any such notification to ensure that the valuation procedures and results are accurate. The department will notify each affected city or town and state agency or institution of the results of their review within thirty days of receipt of notification.

(4) The parties negotiating fire protection contracts under this section shall conduct those negotiations in good faith. Whenever there are multiple state agencies located within a single jurisdiction, every effort shall be made by the state to consolidate negotiations on behalf of all affected agencies.

(5) In the event of notification by one of the parties that an agreement cannot be reached on the terms and conditions of a fire protection contract, the director of the department of commerce shall mediate a resolution of the disagreement. In the event of a continued impasse, the director of the department of commerce shall recommend a resolution.

(6) If the parties reject the recommendation of the director and an impasse continues, the director shall direct the parties to arbitration. The parties shall agree on a neutral arbitrator, and the fees and expenses of the arbitrator shall be shared equally between the parties. The arbitration shall be a final offer, total

arbitration, with the arbitrator empowered only to pick the final offer of one of the parties or the recommended resolution by the director of the department of commerce. The decision of the arbitrator shall be final, binding, and nonappealable on the parties.

(7) The provisions of this section shall not apply if a city or town and a state agency or institution have contracted pursuant to RCW 35.21.775.

(8) The provisions of this section do not apply to cities and towns not meeting the conditions in subsection (1) of this section. Cities and towns not meeting the conditions of subsection (1) of this section may enter into contracts pursuant to RCW 35.21.775. [2015 c 225 § 29; 1995 c 399 § 39; 1992 c 117 § 6.]

(1) The governing bodies of a county and any city or town located therein may by agreement revise any part of the corporate boundary of the city or town which coincides with the centerline, edge, or any portion of a public street, road or highway right-of-way by substituting therefor a right-of-way line of the same public street, road or highway so as fully to include or fully to exclude that segment of the public street, road or highway from the corporate limits of the city or town.

(2) The revision of a corporate boundary as authorized by this section shall become effective when approved by ordinance of the city or town council or commission and by ordinance or resolution of the county legislative authority. It is the finding of the legislature that foreign trade zones serve an important public purpose by the creation of employment opportunities within the state and that the establishment of zones designed to accomplish this purpose is to be encouraged. RCW 35.21.830 Controls on rent for residential structures—Prohibited—Exceptions. The imposition of controls on rent is of statewide significance and is preempted by the state. No city or town of any class may enact, maintain, or enforce ordinances or other provisions which regulate the amount of rent to be charged for single-family or multiple-unit residential rental structures or sites other than properties in public ownership, under public management, or properties providing low-income rental housing under joint public-private agreements for the financing or provision of such low-income rental housing. This section shall not be construed as prohibiting any city or town from entering into agreements with private persons which regulate or control the amount of rent to be charged for rental properties. [1981 c 75 § 1.]

Applicability to floating home moorage sites—1981 c 75: "Nothing in this act shall be construed to preempt local ordinances that relate to the control of rents or other relationships at floating home moorage sites." [1981 c 75 § 3.]

Severability—1981 c 75: "If any provision of this act or its application to any person or circumstance is held invalid, the remainder of the act or the application of the provision to other persons or circumstances is not affected." [1981 c 75 § 4.]

RCW 35.21.840 Taxation of motor carriers of freight for hire—Allocation of gross receipts. The following principles shall allocate gross receipts of a motor carrier of freight for hire (called the "motor carrier" in this section) to prevent multiple taxation by two or more municipalities. They shall apply when two or more municipalities in this state impose a license fee or tax for the act or privilege of engaging in business activities; each municipality has a basis in local activity for imposing its tax; and the gross receipts measured by all taxing municipalities, added together, exceed the motor carrier's gross receipts.

(1) No municipality shall be entitled to an allocation of the gross receipts of a motor carrier on account of the use of its streets or highways when no pickup or delivery occurs therein.

(2) Gross receipts of a motor carrier derived within a municipality, where it solicits orders and engages in business activities that are a significant factor in holding the market but where it maintains no office or terminal, shall be allocated equally between the municipality providing the local market and the municipality where the motor carrier's office or terminal is located. Where no such local solicitation and business activity occurs, all the gross receipts shall be allocated to the municipality where the office or terminal is located irrespective of the place of pickup or delivery. The word "terminal" means a location at which any three of the following four occur: Dispatching takes place, from which trucks operate or are serviced, personnel report and receive assignments, and orders are regularly received from the public.

(3) Gross receipts of a motor carrier that are not attributable to transportation services, such as investment income, truck repair, and rental of equipment, shall be allocated to the office or terminal conducting such activities.

(4) Gross receipts of a motor carrier with an office or terminal in two or more municipalities in this state shall be allocated to the office or terminal at which the transportation services commenced. [1982 c 169 § 1.]

Applicability—1982 c 169: "This act applies to motor carriers of freight for hire only. Nothing in this act applies to a person engaged in the business of making sales at retail or wholesale or of providing storage services for tangible personal property." [1982 c 169 § 4.]

Motor freight carriers: Chapter 81.80 RCW.

Municipal business and occupation tax authorized: RCW 35.95.040.

RCW 35.21.845 Taxation of motor carriers of freight for hire—Tax allocation formula. A motor carrier of freight for hire whose gross receipts are subject to multiple taxation by two or more municipalities in this state may request and thereupon shall be given a joint audit of the taxpayer's books and records by all of the taxing authorities seeking to tax all or part of such gross receipts. Such taxing authorities shall agree upon and establish a tax allocation formula which shall be binding upon the taxpayer and the taxing authorities participating in the audit or receiving a copy of such request from the taxpayer. Payment by the taxpayer of the taxes to each taxing authority in accordance with such tax allocation formula shall be a complete defense in any action by any taxing authority to recover additional taxes, interest, and/or penalties. A taxing municipality, whether or not a party to such joint audit, may seek a revision of the formula by giving written notice to each other taxing municipality concerned and the taxpayer. Any such revision as may be agreed upon by the taxing municipalities, or as may be decreed by a court of competent jurisdiction in an action initiated by one or more taxing authorities, shall apply only to gross receipts of the taxpayer received after the date of any such agreed revision or effective date of the judgment or order of any such court. [1982 c 169 § 2.]

Applicability—1982 c 169: See note following RCW 35.21.840.

RCW 35.21.850 Taxation of motor carriers of freight for hire—Limitation—Exceptions. No demand for a fee or tax or penalty shall be made by a city or town against a motor carrier of freight for hire on gross income derived from providing transportation services more than four years after the close of the year in which the same accrued except (1) against a taxpayer who has been guilty of fraud or misrepresentation of a material fact; or (2) where a taxpayer has executed a written waiver of such limitations; or (3) against a taxpayer who has not registered as required by the ordinance of the city or town imposing such tax or fee, provided this subsection shall not apply to a taxpayer who has registered in any city or town where the taxpayer maintains an office or terminal, or in the case of a taxpayer who has paid a license fee or tax based on such gross receipts to any city or town levying same which may reasonably be construed to be the principal market of the taxpayer but in which he or she maintains no office or terminal. [2009 c 549 § 2043; 1982 c 169 § 3.]

(1) A city shall not impose a gross receipts tax on amounts received by a chamber of commerce or other similar business association for administering the operation of a parking and business improvement area within the meaning of RCW 35.87A.110.

(2) For the purposes of this section, the following definitions apply:

(a) "Gross receipts tax" means a tax measured by gross proceeds of sales, gross income of the business, or value proceeding or accruing.

(b) "City" includes cities, code cities, and towns. [2005 c 476 § 2.]

RCW 35.21.855 Taxation of intellectual property creating activities—Gross receipts tax prohibited—Exceptions. (1) A city may not impose a gross receipts tax on intellectual property creating activities.

(2) A city may impose a gross receipts tax measured by gross receipts from royalties only on taxpayers domiciled in the city. For the purposes of this section, "royalties" does not include gross receipts from casual or isolated sales as defined in RCW 82.04.040, grants, capital contributions, donations, or endowments.

(3) This section does not prohibit a city from imposing a gross receipts tax measured by the value of products manufactured in the city merely because intellectual property creating activities are involved in the design or manufacturing of the products. An intellectual property creating activity shall not constitute an activity defined within the meaning of the term "to manufacture" under chapter 82.04 RCW.

(4) This section does not prohibit a city from imposing a gross receipts tax measured by the gross proceeds of sales made in the city merely because intellectual property creating activities are involved in creation of the articles sold.

(5) This section does not prohibit a city from imposing a gross receipts tax measured by the gross income received for services rendered in the city merely because intellectual property creating activities are some part of services rendered.

(6) A tax in effect on January 1, 2002, is not subject to this section until January 1, 2004.

(7) The definitions in this subsection apply to this section.

(a) "Gross receipts tax" means a tax measured by gross proceeds of sales, gross income of the business, or value proceeding or accruing.

(b) "City" includes cities, code cities, and towns.

(c) "Domicile" means the principal place from which the trade or business of the taxpayer is directed and managed. A taxpayer has only one domicile.

(d) "Intellectual property creating activity" means research, development, authorship, creation, or general or specific inventive activity without regard to whether the intellectual property creating activity actually results in the creation of patents, trademarks, trade secrets, subject matter subject to copyright, or other intellectual property.

(a) A tax authorized by RCW 35.21.865 may be imposed;

(b) A fee may be charged to such businesses or service providers that recovers actual administrative expenses incurred by a city or town that are directly related to receiving and approving a permit, license, and franchise, to inspecting plans and construction, or to the preparation of a detailed statement pursuant to chapter 43.21C RCW;

(c) Taxes permitted by state law on service providers;

(d) Franchise requirements and fees for cable television services as allowed by federal law; and

(e) A site-specific charge pursuant to an agreement between the city or town and a service provider of personal wireless services acceptable to the parties for:

(ii) The placement of replacement structures when the replacement is necessary for the installation or attachment of wireless facilities, the replacement structure is higher than the replaced structure, and the overall height of the replacement structure and the wireless facility is more than sixty feet; or

(iii) The placement of personal wireless facilities on structures owned by the city or town located in the right-of-way. However, a site-specific charge shall not apply to the placement of personal wireless facilities on existing structures, unless the structure is owned by the city or town.

A city or town is not required to approve the use permit for the placement of a facility for personal wireless services that meets one of the criteria in this subsection absent such an agreement. If the parties are unable to agree on the amount of the charge, the service provider may submit the amount of the charge to binding arbitration by serving notice on the city or town. Within thirty days of receipt of the initial notice, each party shall furnish a list of acceptable arbitrators. The parties shall select an arbitrator; failing to agree on an arbitrator, each party shall select one arbitrator and the two arbitrators shall select a third arbitrator for an arbitration panel. The arbitrator or arbitrators shall determine the charge based on comparable siting agreements involving public land and rights-of-way. The arbitrator or arbitrators shall not decide any other disputed issues, including but not limited to size, location, and zoning requirements. Costs of the arbitration, including compensation for the arbitrator's services, must be borne equally by the parties participating in the arbitration and each party shall bear its own costs and expenses, including legal fees and witness expenses, in connection with the arbitration proceeding.

(2) Subsection (1) of this section does not prohibit franchise fees imposed on an electrical energy, natural gas, or telephone business, by contract existing on April 20, 1982, with a city or town, for the duration of the contract, but the franchise fees shall be considered taxes for the purposes of the limitations established in RCW 35.21.865 and 35.21.870 to the extent the fees exceed the costs allowable under subsection (1) of this section. [2014 c 118 § 2; 2007 c 6 § 1020; 2000 c 83 § 8; 1983 2nd ex.s. c 3 § 39; 1982 1st ex.s. c 49 § 2.]

(1) No city or town may impose a tax on the privilege of conducting an electrical energy, natural gas, steam energy, or telephone business at a rate which exceeds six percent unless the rate is first approved by a majority of the voters of the city or town voting on such a proposition.

(2)(a) If a city or town is imposing a rate of tax under subsection (1) of this section in excess of six percent on April 20, 1982, the city or town must decrease the rate to a rate of six percent or less by reducing the rate each year on or before November 1st by ordinances to be effective on January 1st of the succeeding year, by an amount equal to one-tenth the difference between the tax rate on April 20, 1982, and six percent.

(b) Nothing in this subsection prohibits a city or town from reducing its rates by amounts greater than the amounts required in this subsection.

(3) Voter approved rate increases under subsection (1) of this section may not be included in the computations under this subsection.

(4) No city or town may impose a tax on the privilege of conducting a natural gas business with respect to sales that are exempt from the tax imposed under chapter 82.16 RCW as provided in RCW 82.16.310 at a rate higher than its business and occupation tax rate on the sale of tangible personal property or, if the city or town does not impose a business and occupation tax on the sale of tangible personal property, at a rate greater than .002. A city or town required by RCW 35.21.870(2) to reduce its rate of taxation on telephone business may defer for one year the required reduction in rates for the year 1987. If the delay in rate reductions authorized by the preceding sentence is inadequate for a city or town to offset the impact of revenue reductions arising from the removal of revenues from connecting fees, switching charges, or

carrier access charges under the provisions of RCW 35.21.714, then the legislative body of such city or town may reimpose for 1987 the rates that such city or town had in effect upon telephone business during 1985. In each succeeding year, the city or town shall reduce the rate by one-tenth of the difference between the tax rate on April 20, 1982, and six percent. [1986 c 70 § 3.]

The customer shall include in this written notification the street address for the customer's place of primary use, the account name and number for which the customer seeks a correction, and a description of the error asserted by the customer. Within sixty days of receiving a notice under this section, the home service provider shall review its records and the electronic database or enhanced zip code used pursuant to RCW 82.32.490 and 82.32.495 to determine the customer's taxing jurisdiction. The home service provider shall notify the customer in writing of the results of its review.

The procedures in this section shall be the first remedy available to customers seeking correction of assignment of place of primary use or taxing jurisdiction, or a refund of or other compensation for taxes, charges, and fees erroneously collected by the home service provider, and no cause of action based upon a dispute arising from such taxes, charges, or fees shall accrue to the extent otherwise permitted by law until a customer has reasonably exercised the rights and procedures set forth in this section. (1) A religious organization may host the homeless on property owned or controlled by the religious organization whether within buildings located on the property or elsewhere on the property outside of buildings.

(2) Except as provided in subsection (7) of this section, a city or town may not enact an ordinance or regulation or take any other action that:

(a) Imposes conditions other than those necessary to protect public health and safety and that do not substantially burden the decisions or actions of a religious organization regarding the location of housing or shelter, such as an outdoor encampment, indoor overnight shelter, temporary small house on-site, or vehicle resident safe parking, for homeless persons on property owned or controlled by the religious organization;

(b) Requires a religious organization to obtain insurance pertaining to the liability of a municipality with respect to homeless persons housed on property owned by a religious organization or otherwise requires the religious organization to indemnify the municipality against such liability;

(c) Imposes permit fees in excess of the actual costs associated with the review and approval of permit applications. A city or town has discretion to reduce or waive permit fees for a religious organization that is hosting the homeless;

(d) Specifically limits a religious organization's availability to host an outdoor encampment on its property or property controlled by the religious organization to fewer than six months during any calendar year. However, a city or town may enact an ordinance or regulation that requires a separation of time of no more than three months between subsequent or established outdoor encampments at a particular site;

(e) Specifically limits a religious organization's outdoor encampment hosting term to fewer than four consecutive months;

(f) Limits the number of simultaneous religious organization outdoor encampment hostings within the same municipality during any given period of time. Simultaneous and adjacent hostings of outdoor encampments by religious organizations may be limited if located within one thousand feet of another outdoor encampment concurrently hosted by a religious organization;

(g) Limits a religious organization's availability to host safe parking efforts at its on-site parking lot, including limitations on any other congregationally sponsored uses and the parking available to support such uses during the hosting, except for limitations that are in accord with the following criteria that would govern if enacted by local ordinance or memorandum of understanding between the host religious organization and the jurisdiction:

(i) No less than one space may be devoted to safe parking per ten on-site parking spaces;

(ii) Restroom access must be provided either within the buildings on the property or through use of portable facilities, with the provision for proper disposal of waste if recreational vehicles are hosted; and

(iii) Religious organizations providing spaces for safe parking must continue to abide by any existing on-site parking minimum requirement so that the provision of safe parking spaces does not reduce the total number of available parking spaces below the minimum number of spaces required by the city or town, but a city or town may enter into a memorandum of understanding with a religious organization that reduces the minimum number of on-site parking spaces required;

(h) Limits a religious organization's availability to host an indoor overnight shelter in spaces with at least two accessible exits due to lack of sprinklers or other fire-related concerns, except that:

(i) If a city or town fire official finds that fire-related concerns associated with an indoor overnight shelter pose an imminent danger to persons within the shelter, the city or town may take action to limit the religious organization's availability to host the indoor overnight shelter; and

(ii) A city or town may require a host religious organization to enter into a memorandum of understanding for fire safety that includes local fire district inspections, an outline for appropriate emergency procedures, a determination of the most viable means to evacuate occupants from inside the host site with appropriate illuminated exit signage, panic bar exit doors, and a completed fire watch agreement indicating:

(A) Posted safe means of egress;

(B) Operable smoke detectors, carbon monoxide detectors as necessary, and fire extinguishers;

(C) A plan for monitors who spend the night awake and are familiar with emergency protocols, who have suitable communication devices, and who know how to contact the local fire department; or

(i) A renewable one-year duration agreed to by the host religious organization and local jurisdiction via a memorandum of understanding;

(ii) Maintaining a maximum unit square footage of one hundred twenty square feet, with units set at least six feet apart;

(iii) Electricity and heat, if provided, must be inspected by the local jurisdiction;

(iv) Space heaters, if provided, must be approved by the local fire authority;

(v) Doors and windows must be included and be lockable, with a recommendation that the managing agency and host religious organization also possess keys;

(vi) Each unit must have a fire extinguisher;

(vii) Adequate restrooms must be provided, including restrooms solely for families if present, along with handwashing and potable running water to be available if not provided within the individual units, including accommodating black water;

(viii) A recommendation for the host religious organization to partner with regional homeless service providers to develop pathways to permanent housing.

(3)(a) A city or town may enact an ordinance or regulation or take any other action that requires a host religious organization and a distinct managing agency using the religious organization's property, owned or controlled by the religious organization, for hostings to include outdoor encampments, temporary small houses on-site, indoor overnight shelters, or vehicle resident safe parking to enter into a memorandum of understanding to protect the public health and safety of both the residents of the particular hosting and the residents of the city or town.

(b) At a minimum, the agreement must include information regarding: The right of a resident in an outdoor encampment, vehicle resident safe parking, temporary small house on-site, or indoor overnight shelter to seek public health and safety assistance, the resident's ability to access social services on-site, and the resident's ability to directly interact with the host religious organization, including the ability to express any concerns regarding the managing agency to the religious organization; a written code of conduct agreed to by the managing agency, if any, host religious organization, and all volunteers working with residents of the outdoor encampment, temporary small house on-site, indoor overnight shelter, or vehicle resident safe parking; and when a publicly funded managing agency exists, the ability for the host religious organization to interact with residents of the outdoor encampment, indoor overnight shelter, temporary small house on-site, or vehicle resident safe parking using a release of information.

(4) If required to do so by a city or town, any host religious organization performing any hosting of an outdoor encampment, vehicle resident safe parking, or indoor overnight shelter, or the host religious organization's managing agency, must ensure that the city or town or local law enforcement agency has completed sex offender checks of all adult residents and guests. The host religious organization retains the authority to allow such offenders to remain on the property. A host religious organization or host religious organization's managing agency performing any hosting of vehicle resident safe parking must inform vehicle residents how to comply with laws regarding the legal status of vehicles and drivers, and provide a written code of conduct consistent with area standards.

(5) Any host religious organization performing any hosting of an outdoor encampment, vehicle resident safe parking, temporary small house on-site, or indoor overnight shelter, with a publicly funded managing agency, must work with the city or town to utilize Washington's homeless client management information system, as provided for in RCW 43.185C.180. When the religious organization does not partner with a managing agency, the religious organization is

encouraged to partner with a local homeless services provider using the Washington homeless client managing information system. Any managing agency receiving any funding from local continuum of care programs must utilize the homeless client management information system. Temporary, overnight, extreme weather shelter provided in religious organization buildings does not need to meet this requirement.

(6) For the purposes of this section:

(a) "Managing agency" means an organization such as a religious organization or other organized entity that has the capacity to organize and manage a homeless outdoor encampment, temporary small houses on-site, indoor overnight shelter, and a vehicle resident safe parking program.

(c) "Religious organization" means the federally protected practice of a recognized religious assembly, school, or institution that owns or controls real property.

(d) "Temporary" means not affixed to land permanently and not using underground utilities.

(7)(a) Subsection (2) of this section does not affect a city or town policy, ordinance, memorandum of understanding, or applicable consent decree that regulates religious organizations' hosting of the homeless if such policies, ordinances, memoranda of understanding, or consent decrees:

(i) Exist prior to June 11, 2020;

(ii) Do not categorically prohibit the hosting of the homeless by religious organizations; and

(iii) Have not been previously ruled by a court to violate the religious land use and institutionalized persons act, 42 U.S.C. Sec. 2000cc.

(b) If such policies, ordinances, memoranda of understanding, and consent decrees are amended after June 11, 2020, those amendments are not affected by subsection (2) of this section if those amendments satisfy (a)(ii) and (iii) of this subsection.

(8) An appointed or elected public official, public employee, or public agency as defined in RCW 4.24.470 is immune from civil liability for (a) damages arising from the permitting decisions for a temporary encampment for the homeless as provided in this section and (b) any conduct or unlawful activity that may occur as a result of the temporary encampment for the homeless as provided in this section.

(9) A religious organization hosting outdoor encampments, vehicle resident safe parking, or indoor overnight shelters for the homeless that receives funds from any government agency may not refuse to host any resident or prospective resident because of age, sex, marital status, sexual orientation, race, creed, color, national origin, honorably discharged veteran or military status, or the presence of any sensory, mental, or physical disability or the use of a trained dog guide or service animal by a person with a disability, as these terms are defined in RCW 49.60.040.

(10)(a) Prior to the opening of an outdoor encampment, indoor overnight shelter, temporary small house on-site, or vehicle resident safe parking, a religious organization hosting the homeless on property owned or controlled by the religious organization must host a meeting open to the public for the purpose of providing a forum for discussion of related neighborhood concerns, unless the use is in response to a declared emergency. The religious organization must

provide written notice of the meeting to the city or town legislative authority at least one week if possible but no later than ninety-six hours prior to the meeting. The notice must specify the time, place, and purpose of the meeting.

(b) A city or town must provide community notice of the meeting described in (a) of this subsection by taking at least two of the following actions at any time prior to the time of the meeting:

(i) Delivering to each local newspaper of general circulation and local radio or television station that has on file with the governing body a written request to be notified of special meetings;

(ii) Posting on the city or town's website. A city or town is not required to post a special meeting notice on its website if it: (A) Does not have a website; (B) employs fewer than ten full-time equivalent employees; or (C) does not employ personnel whose duty, as defined by a job description or existing contract, is to maintain or update the website;

(iii) Prominently displaying, on signage at least two feet in height and two feet in width, one or more meeting notices that can be placed on or adjacent to the main arterials in proximity to the location of the meeting; or

(iv) Prominently displaying the notice at the meeting site. [2020 c 223 § 3; 2010 c 175 § 3.]

RCW 35.21.925 Supplemental transportation improvements. In addition to any other power and authority conferred to a city that is located in a county having a population of more than one million five hundred thousand, a city legislative authority may provide or contract for supplemental transportation improvements to meet mobility needs within the city's boundaries. For purposes of this section, a "supplemental transportation improvement" or "supplemental improvement" means any project, work, or undertaking to provide or contract for public transportation service in addition to any existing or planned public transportation service provided by public transportation agencies and systems serving the city. The supplemental authority provided to the city legislative authority under this section is subject to the following requirements:

(1) Prior to taking any action to provide or contract for supplemental transportation improvements permitted under this section, the legislative authority of the city shall conduct a public hearing at the time and place specified in a notice published at least once, not less than ten days before the hearing, in a newspaper of general circulation within the proposed district. The notice must specify the supplemental facilities or services to be provided or contracted for by the city, and must include estimated capital, operating, and maintenance costs. The legislative authority of the city shall hear objections from any person affected by the proposed supplemental improvements.

(2) Following the hearing held pursuant to subsection (1) of this section, if the city legislative authority finds that the proposed supplemental transportation improvements are in the public interest, the legislative authority shall adopt an ordinance providing for the supplemental improvements and provide or contract for the supplemental improvements.

(3) For purposes of providing or contracting for the proposed supplemental transportation improvements, the legislative authority of

the city may contract with private providers and nonprofit organizations, and may form public-private partnerships. Such contracts and partnerships must require that public transportation services be coordinated with other public transportation agencies and systems serving the area and border jurisdictions.

(4) The legislative authorities of cities that are participating jurisdictions in a transportation benefit district, as provided under chapter 36.73 RCW, may petition the transportation benefit district for partial or full funding of supplemental transportation improvements as prescribed under RCW 36.73.180.

(5) Supplemental transportation improvements must be consistent with the city's comprehensive plan under chapter 36.70A RCW. [2010 c 251 § 1.]

RCW 35.21.930 Community assistance referral and education services program. (1) Any fire department may develop a community assistance referral and education services program to provide community outreach and assistance to residents of its jurisdiction in order to improve population health and advance injury and illness prevention within its community. The program should identify members of the community who use the 911 system or emergency department for low acuity assistance calls (calls that are nonemergency or nonurgent) and connect them to their primary care providers, other health care professionals, low-cost medication programs, and other social services. The program may partner with hospitals to reduce readmissions. The program may also provide nonemergency contact information in order to provide an alternative resource to the 911 system. The program may hire or contract with health care professionals as needed to provide these services, including emergency medical technicians certified under chapter 18.73 RCW and advanced emergency medical technicians and paramedics certified under chapter 18.71 RCW. The services provided by emergency medical technicians, advanced emergency medical technicians, and paramedics must be under the responsible supervision and direction of an approved medical program director. Nothing in this section authorizes an emergency medical technician, advanced emergency medical technician, or paramedic to perform medical procedures they are not trained and certified to perform.

(2) In order to support its community assistance referral and education services program, a participating fire department may seek grant opportunities and private gifts, and, by resolution or ordinance, establish and collect reasonable charges for these services.

(3) In developing a community assistance referral and education services program, a fire department may consult with the health workforce council to identify health care professionals capable of working in a nontraditional setting and providing assistance, referral, and education services.

(4) Community assistance referral and education services programs implemented under this section must, at least annually, measure any reduction of repeated use of the 911 emergency system and any reduction in avoidable emergency room trips attributable to implementation of the program. Results of findings under this subsection must be reportable to the legislature or other local governments upon request. Findings should include estimated amounts of

medicaid dollars that would have been spent on emergency room visits had the program not been in existence.

(5) For purposes of this section, "fire department" includes city and town fire departments, fire protection districts organized under Title 52 RCW, regional fire protection service authorities organized under chapter 52.26 RCW, providers of emergency medical services eligible to levy a tax under RCW 84.52.069, and federally recognized Indian tribes. (2) If any city or town establishes the position of warrant officer, the position shall be maintained by the city or town within the city or town police department. The number and qualifications of warrant officers shall be fixed by ordinance and their compensation shall be paid by the city or town. The chief of police of the city or town must establish training requirements consistent with the job description of warrant officer established in that city or town. Training requirements must be approved by the criminal justice training commission.

(3) Warrant officers shall be vested only with the special authority identified in ordinance, which may include the authority to make arrests authorized by warrants and other authority related to service of civil and criminal process.

(4) Process issuing from any court that is directed to a police department in which a warrant officer position is maintained may be served or enforced by the warrant officer, if within the warrant officer's authority as identified in ordinance.

(5) Warrant officers shall not be entitled to death, disability, or retirement benefits pursuant to chapter 41.26 RCW on the basis of service as a warrant officer as described in this section. [2015 c 288 § 1.]

(1) A city with an ordinance or resolution requiring, upon the failure of an on-site septic system, connection to a public sewer system must, in accordance with this section, provide an administrative appeals process to consider denials of permit applications to repair or replace the septic system. The administrative appeals process required by this section applies only to requests to repair or replace existing, failing on-site septic systems that:

(a) Were made for a single-family residence by its owner or owners;

(b) Were denied solely because of a law, regulation, or ordinance requiring connection to a public sewer system; and

(c) Absent the applicable law, regulation, or ordinance requiring connection to a public sewer system upon which the denial was based, would be approved.

(2) If the city has an administrative appeals process, the city may, subject to the requirements of this section, use that process. The administrative appeals process required by this section, however, must be presided over by the legislative body of the city or by an administrative hearings officer.

(3) The administrative appeals process required by this section must, at a minimum, consider whether:

(a) It is cost-prohibitive to require the property owner to connect to the public sewer system. In complying with this subsection (3)(a), the city must consider the estimated cost to repair or replace the on-site septic system compared to the estimated cost to connect to the public sewer system;

(b) There are public health or environmental considerations related to allowing the property owner to repair or replace the on-site septic system. In complying with this subsection (3)(b), the city must consider whether the repaired or replaced on-site septic system contributes to the pollution of surface waters or groundwater;

(c) There are public sewer system performance or financing considerations related to allowing the property owner to repair or replace the on-site septic system; and

(d) There are financial assistance programs or latecomer agreements offered by the city or state that may impact a decision of the property owner to repair or replace the on-site septic system.

(4) If the city, following the appeals process required by this section, determines that the property owner must connect the residence to the public sewer system, the property owner may, in complying with the determination and subject to approval of appropriate permits, select and hire contractors at his or her own expense to perform the work necessary to connect the residence to the public sewer system.

(5) Unless otherwise required by law, a city determination requiring the owner of a single-family residence with a failing on-site septic system to connect a residence to a public sewer system is not subject to appeal.

(6) For purposes of this section, "city" means a city or town. [2015 c 297 § 1.]

If a municipality elects to contract under this subsection for all, some, or one component of water storage asset management services for its water storage assets, each municipality shall publish notice of its requirements to procure asset management service of its water storage assets. The announcement must concisely state the scope and nature of the water storage asset management service for which a contract is required and encourage firms to submit proposals to meet these requirements. If a municipality chooses to negotiate a water storage asset management service contract under this section, no otherwise applicable statutory procurement requirement applies.

(2) The municipality may negotiate a fair and reasonable water storage asset management service contract with the firm that submits the best proposal based on criteria that is established by the municipality.

(3) If the municipality is unable to negotiate a satisfactory water storage asset management service contract with the firm that submits the best proposal, negotiations with that firm must formally be terminated and the municipality may select another firm in accordance with this section and continue negotiation until a water storage asset management service contract is reached or the selection process is terminated.

Such special assessment authority is supplemental to any existing authority of a city or town to levy an assessment or obtain a lien for costs of abatement. The notice must be sent by regular mail.

(2) A city or town that exercises its authority under chapter 7.48 RCW, RCW 35.22.280, 35.23.440, or 35.27.410, or other applicable law to declare a nuisance, abate a nuisance, or impose fines or costs upon persons who create, continue, or maintain a nuisance may levy a special assessment on the land or premises where the nuisance is situated to reimburse the city or town for the expense of abatement. corporation before the action is finalized. The public hearing must allow individuals to provide testimony regarding the proposed action. The city, town, or municipal corporation must provide notice of the public hearing at least ten days before the hearing at its usual place of business and issue a press release to local media providing the date, time, location, and reason for the public hearing. The notice must be posted on the city, town, or municipal corporation's website if it is updated for any reason before the hearing date. The notice must also identify the property and provide a brief explanation of the restrictive covenant to be removed, vacated, or extinguished. Any member of the public, in person or by counsel, may submit testimony at the public hearing. [2017 c 119 § 3.]

Short title—2017 c 119: "This act may be known and cited as the land covenant preservation and transparency act." [2017 c 119 § 1.]

Finding—2017 c 119: "The legislature finds that many pieces of property are provided to government agencies as part of agreements in which the land includes restrictive covenants. There is a desire that government agencies become more transparent when they want to change the use of property that has covenants that restrict what can be done with property, especially if the property was a gift to be used for parks, open space, habitat, or environmental mitigation and conservation. The legislature declares that any local government agency that intends to remove restrictive covenants from real property owned by the agency must do so through an open process in which citizens are made aware of the agency's intent to remove or modify the restrictive covenant before the legal action occurs." [2017 c 119 § 2.]

(1) A city with a population of more than five hundred fifty thousand that permits a public facility to be constructed or operated by another local government agency, transit authority, or public facility district in a neighborhood with a high poverty level and a high rate of ethnic diversity shall formally request that the entity that is constructing or is operating the public facility assess and mitigate the negative impacts that the facility has had on parking in the surrounding neighborhood. The entity operating or constructing the facility must consider the potential or actual disparate racial, social, and economic impacts of the public facility on residents nearby and develop a mitigation plan, which keeps the residents of the impacted neighborhood whole for the costs of the mitigation strategy, including paying for the costs of any residential parking zone necessitated by the facility causing the impact. The entity operating or constructing the facility may negotiate with other political

subdivisions who have a direct interest in having created the negative impacts, but the residents must be held harmless.

(2) For purposes of this section, neighborhood boundaries are defined by the boundaries of community reporting areas, as established in the most recent United States census.

(3) For purposes of this section:

[2009 c 521 § 78.]

RCW 35.21.990 New housing in existing buildings—Prohibitions on local regulation. (1)(a) Cities must adopt or amend by ordinance, and incorporate into their development regulations, zoning regulations, and other official controls the requirements of subsection (2) of this section for buildings that are zoned for commercial or mixed use no later than six months after its next periodic comprehensive plan update required under RCW 36.70A.130.

(b) The requirements of subsection (2) of this section apply and take effect in any city that has not adopted or amended ordinances, regulations, or other official controls as required under this section by the timeline in (a) of this subsection and supersede, preempt, and invalidate any conflicting local development regulations.

(2) Through ordinances, development regulations, zoning regulations, or other official controls as required under subsection (1) of this section, cities may not:

(a) Impose a restriction on housing unit density that prevents the addition of housing units at a density up to 50 percent more than what is allowed in the underlying zone if constructed entirely within an existing building envelope in a building located within a zone that permits multifamily housing, provided that generally applicable health and safety standards, including but not limited to building code

standards and fire and life safety standards, can be met within the building;

(b) Impose parking requirements on the addition of dwelling units or living units added within an existing building, however, cities may require the retention of existing parking that is required to satisfy existing residential parking requirements under local laws and for nonresidential uses that remain after the new units are added;

(c) With the exception of emergency housing and transitional housing uses, impose permitting requirements on the use of an existing building for residential purposes beyond those requirements generally applicable to all residential development within the building's zone;

(d) Impose design standard requirements, including setbacks, lot coverage, and floor area ratio requirements, on the use of an existing building for residential purposes beyond those requirements generally applicable to all residential development within the building's zone;

(e) Impose exterior design or architectural requirements on the residential use of an existing building beyond those necessary for health and safety of the use of the interior of the building or to preserve character-defining streetscapes, unless the building is a designated landmark or is within a historic district established through a local preservation ordinance;

(f) Prohibit the addition of housing units in any specific part of a building except ground floor commercial or retail that is along a major pedestrian corridor as defined by each city, unless the addition of the units would violate applicable building codes or health and safety standards;

(g) Require unchanged portions of an existing building used for residential purposes to meet the current energy code solely because of the addition of new dwelling units within the building, however, if any portion of an existing building is converted to new dwelling units, each of those new units must meet the requirements of the current energy code;

(h) Deny a building permit application for the addition of housing units within an existing building due to nonconformity regarding parking, height, setbacks, elevator size for gurney transport, or modulation, unless the city official with decision-making authority makes written findings that the nonconformity is causing a significant detriment to the surrounding area; or

(i) Require a transportation concurrency study under RCW 36.70A.070 or an environmental study under chapter 43.21C RCW based on the addition of residential units within an existing building.

(3) Nothing in this section requires a city to approve a building permit application for the addition of housing units constructed entirely within an existing building envelope in a building located within a zone that permits multifamily housing in cases in which the building cannot satisfy life safety standards.

(4) For the purpose of this section, "existing building" means a building that received a certificate of occupancy at least three years prior to the permit application to add housing units. [2023 c 285 § 2.]
