(1) The department of commerce, through a contract with a land use and economics entity, shall develop guidance for local governments on the review and evaluation program in RCW 36.70A.215. The contract shall be with an entity experienced in serving private and public sector clients which can assist developers and policymakers to understand near-term market realities and long-term planning considerations, and with experience facilitating successful conversations between multiple local governments and stakeholders on complex land use issues. The department of commerce shall enable appropriate public participation by affected stakeholders in the development of the guidance for the appropriate market factor analysis and review and update of the overall buildable lands program. This guidance regarding the market factor methodology and buildable lands program shall be completed by December 1, 2018. The buildable lands guidance shall analyze and provide recommendations on:

(d) Infrastructure costs, including but not limited to transportation, water, sewer, stormwater, and the cost to provide new or upgraded infrastructure if required to serve development; cost of development; timelines to permit and develop land; market availability of land; the nexus between proposed densities, economic conditions needed to achieve those densities, and the impact to housing affordability for homeownership and rental housing; and, market demand when evaluating if land is suitable for development or redevelopment. These all have an impact on whether development occurs or if planned for densities will differ from achieved densities;

(f) Evaluating how existing zoning and land use regulations are promoting or hindering attainment of the goal for affordable housing in RCW 36.70A.020(4). Barriers to meeting this goal shall be identified and considered as possible reasonable measures for each

county and city, and as part of the next countywide planning policies and county and city comprehensive plan update;
