The long-term benefits to society in the form of greater educational attainment, employment, and projected lifetime earnings as well as the savings to be realized, from lower crime rates, welfare support, and reduced teenage pregnancy, have been demonstrated through lifelong research of at-risk children and early childhood programs.

The legislature intends to encourage development of community partnerships for children at risk by authorizing a program of voluntary grants and contributions from business and community organizations to increase opportunities for children to participate in early childhood education."
