

RCW 70.97.210 Standards for fire protection. (1) Standards for fire protection and the enforcement thereof, with respect to all facilities licensed under this chapter, are the responsibility of the chief of the Washington state patrol, through the director of fire protection, who must adopt recognized standards as applicable to facilities for the protection of life against the cause and spread of fire and fire hazards. If the facility to be licensed meets with the approval of the chief of the Washington state patrol, through the director of fire protection, the director of fire protection must submit to the department a written report approving the facility with respect to fire protection before a full license can be issued. The chief of the Washington state patrol, through the director of fire protection, shall conduct an unannounced full inspection of facilities at least once every eighteen months. The statewide average interval between full facility inspections must be fifteen months.

(2) Inspections of facilities by local authorities must be consistent with the requirements adopted by the chief of the Washington state patrol, through the director of fire protection. Findings of a serious nature must be coordinated with the department and the chief of the Washington state patrol, through the director of fire protection, for determination of appropriate actions to ensure a safe environment for residents. The chief of the Washington state patrol, through the director of fire protection, has exclusive authority to determine appropriate corrective action under this section. [2005 c 504 § 423.]
