

**RCW 70.128.270 Legislative intent—Enacting recommendations included in the adult family home quality assurance panel report. (1)**

The protection of vulnerable residents living in adult family homes and other long-term care facilities in the state is a matter of ongoing concern and grave importance. In 2011, the legislature examined problems with the quality of care and oversight of adult family homes in Washington. The 2011 legislature passed Engrossed Substitute House Bill No. 1277 to address some of these issues, and in addition, created an adult family home quality assurance panel, chaired by the state long-term care ombudsman [ombuds], to meet and make recommendations to the governor and legislature by December 1, 2012, for further improvements in adult family home care and the oversight of the homes by the department of social and health services.

(2) The legislature recognizes that significant progress has been made over the years in adult family home care, and that many adult family homes provide high quality care and are the preferred alternative for many residents in contrast to a larger care facility setting. The legislature finds however that the quality of care in some adult family homes would be improved, and abuse and neglect would decline, if these homes' caregivers and providers received better training and mentoring, residents and their families were more informed and able to select an appropriate home, and oversight by the department of social and health services was more vigorous and prompt against poorly performing homes. It is therefore the intent of the legislature to enact the recommendations included in the adult family home quality assurance panel report in order to improve the quality of care of vulnerable residents and the department's oversight of adult family homes. [2013 c 300 § 1.]
