

RCW 70A.05.060 Estimated state agency costs. (1) By September 30, 2024, the department of ecology shall provide the estimated state agency costs for implementing the updated climate response strategy, including existing programs and new recommended actions, to the governor and appropriate committees of the legislature. Estimated state agency costs should be projected over two, four, and 10-year time frames.

(2) The department of ecology shall track funding appropriated by the legislature for implementing the strategy and include this information as part of reporting to the governor's office on odd-numbered years starting in 2025. [2023 c 169 § 7.]

Findings—Intent—2023 c 169: See note following RCW 70A.05.010.
