

RCW 79.15.210 Findings—Damage to timber. From time to time timber on state land is damaged by events such as fire, windstorms, and flooding. After such events the timber becomes very susceptible to loss of value and quality due to rot and disease. To obtain maximum value for the state, it is important to sell any damaged timber as fast as possible while providing ample protection for the physical environment and recognizing the sensitivity of removing timber from certain locations. [1987 c 126 § 1. Formerly RCW 79.01.790.]
