

RCW 80.28.370 Community solar companies—Definitions. The definitions in this section apply throughout this section and RCW 80.28.375 unless the context clearly requires otherwise.

(1) "Community solar company" means a person, firm, or corporation, other than an electric utility or a community solar cooperative, that owns a community solar project and provides community solar project services to project participants.

(2) "Community solar project" means a solar energy system that has a direct current nameplate generating capacity that is no larger than one thousand kilowatts.

(3) "Community solar project services" means the provision of electricity generated by a community solar project, or the provision of the financial benefits associated with electricity generated by a community solar project, to multiple project participants, and may include other services associated with the use of the community solar project such as system monitoring and maintenance, warranty provisions, performance guarantees, and customer service.

(4) "Electric utility" means a consumer-owned utility or investor-owned utility as those terms are defined in RCW 19.280.020.

(5) "Project participant" means a customer who enters into a lease, power purchase agreement, loan, or other financial agreement with a community solar company in order to obtain a beneficial interest in, other than direct ownership of, a community solar project.

(6) "Solar energy system" means any device or combination of devices or elements that rely upon direct sunlight as an energy source for use in the generation of electricity. [2017 3rd sp.s. c 36 § 10.]
