

such things as road construction, illness, specific market area problems, or other circumstances which prevented normal operations during the base period. Also included in this category are service stations located in discrete market areas or communities which may be experiencing severe supply imbalances as compared to the statewide average. Such imbalances may be due to disproportionate growth, unanticipated demand, or product loss, (e.g., station closures) since the base allocation period. In addition, the office may determine it appropriate to issue set-aside on the basis that an emergency or serious disruption in the market place may occur if such state action is not taken;

(v) all remaining cases representing wholesale purchaser-consumers or end-users;

(vi) all remaining applicants.

(b) If set-aside product is not available to meet all requests within a given category, as listed above in (2)(a), cases within that category will be processed on a first-in, first-out basis. No distinction will be made among cases received prior to the first of the month for which the product is requested. All such cases will be randomly logged in as being received on the first of the month.

(3) Acceptance of product. Applicants receiving a set-aside assignment must notify their supplier of their intent to receive the allocated product no later than 7 days from the date the order was issued, whichever comes sooner. Such notification having been given, the set-aside order is valid irrespective of the fact that the allocated product may not be delivered during the month the assignment was made.
