WAC 114-12-011 Colleges—Policy. (1) In determining a college's eligibility for accreditation the board may utilize, at its discretion, recognized chiropractic accrediting associations, recognized regional accrediting associations, and appropriate professional firms, agencies and individuals.

(2) Accreditation shall be primarily contingent upon a course of study which incorporates educationally sound practices and complies with the chiropractic educational requirements for the state of Washington.

(3) A college must have successfully graduated a class prior to making application for accreditation. [Statutory Authority: RCW 18.25.025. 81-05-004 (Order PL 371), § 114-12-011, filed 2/6/81.]

WAC 114-12-021 Definitions. The following terms are so defined for the purposes of this chapter:

(1) "Board" means the board of chiropractic examiners and/or its designee.

(2) "College" means an institution whose curriculum provides education leading to the acquiring of a professional degree in chiropractic.

(3) "Approval" and "accreditation" are used interchangeably. [Statutory Authority: RCW 18.25.025. 81-05-004 (Order PL 371), § 114-12-021, filed 2/6/81.]

WAC 114-12-031 Accreditation of colleges—Procedure. (1) Application and determination. A chiropractic college which desires to be accredited by the board may secure an application form by sending a written request to the secretary of the board. The applicant shall

complete the application form and submit it to the secretary of the board, along with any accompanying documents. Recent photographs of the college or the buildings in which the college is located shall be submitted with the application. Within one hundred twenty days after the receipt of the completed application, the board shall consider the application, determine whether or not the college fulfills the requirements for accreditation, and deposit in the mails a notice of the board's determination, addressed to the applicant. If the board determines that the college is not worthy of accreditation, the notice shall set forth the reasons for denial: *Provided*, The board may withhold making a determination for a reasonable period of time for any justifiable cause upon giving notice to the applicant.

(2) Interrogatories. If the board desires, it may request the applicant to answer specific inquiries. The granting or the denial of accreditation may be contingent upon the applicants' response to such inquiries.

(3) Oath. The answers to the inquiries in the application, and any other inquiries, shall be sworn to before a notary public.

(4) Inspection. If the board desires, it may make the physical inspection of a particular college a condition for its being accredited. Such necessary on-campus visitation of reasonable cost shall be funded by the applicant.

(5) Duration. A college which is once accredited shall continue to be accredited for so long as it fulfills the requirements set forth by the board, or to be set forth by the board. Upon receiving convincing evidence that a college has ceased to fulfill the requirements, the board shall withdraw the accreditation of the college and shall inform the college of its reasons for doing so. A college shall inform the board of changes, if any, in status which could reasonably jeopardize the college's qualifications for accreditation. Such changes shall include, but are not limited to, changes in curriculum, administration, faculty, classrooms and equipment.

(6) Revocation of accreditation. Where the board receives evidence that an accredited institution is not complying with board criteria, it may, after meeting with institutional representatives, place the institution on probation. The institution shall be supplied with a written bill of particulars setting forth the specifics of the non-compliance. The board and chief administrative officer of the institution may agree on a mutually acceptable timetable and procedures for correction of the deficiencies or the board may set the timetable. Should the institution not make the corrections recommended, or should further deficiencies develop during the probation, the board may, after meeting with institutional representatives, revoke the accreditation of the college.

(7) Reinstatement of accredited status. Once the board has revoked the accredited status of an institution, it must reapply by submitting either a new self-study or an updated self-study as may be required by the board. The board's usual procedure for applicants for initial accreditation and petitions for renewal is applied to petitioners for reinstatement. The visitation team report, hearing evidence and supporting data must show not

only correction of the deficiencies which led to the dis-accreditation but, in addition, compliance with the board's criteria.

(8) Appeal. An appeal of a decision adverse to the college must be filed with the board within thirty days of receipt of the board's written decision. To be valid the appeal must contain a certified copy of a formal action authorizing the appeal, taken by a lawfully constituted meeting of the governing body of the institution. The appeal is based on a review of self-evaluation documents, catalog, visitor's report, institution's response to visitor's report, pre-decision hearing of the board and board decision. Alleged improvements effective subsequent to the evaluation which can be verified only through another on-site visit provide the basis for another evaluation, not for an appeal. An appeal does not include a dispute on a finding of fact unless appellant makes a prima facie showing that the finding is clearly erroneous in view of the reliable, probative and substantial evidence on the whole record before the board. The board shall meet to consider the appeal at its earliest opportunity, and send a formal reply to the appealing college within thirty days of such meeting, unless it extends the time for good cause shown. [Statutory Authority: RCW 18.25.025. 81-05-004 (Order PL 371), § 114-12-031, filed 2/6/81.]

it, the board may grant a time extension.
