WAC 50-20-010 Books and records. (1) The company shall maintain a borrower's individual account card file, income and expense accounts, and have a general ledger readily available, and such other books and records including a monthly trial balance as will enable the supervisor to determine whether such company is complying with the provisions of this act and with the rules and regulations of the supervisor with the result that these books and accounts will fairly reflect the condition of the company independent of other business conducted in the office.

Such books, accounts, and records may be maintained in each industrial loan company office by means of electronic display equipment if such equipment is made available to the supervisor of banking or his representatives for purposes of examination in the industrial loan company office. Such books, accounts, and records shall be made available to the supervisor of banking or his representatives in printed form within ten days after a request for such records.

(2) For a period of not less than two years after the making of the final entry upon its books with respect to any such transaction the company shall preserve the records of original and final entry upon all loans made and upon all transactions pertinent to the sale and issuance of investment certificates.

(3) If the company operates branches, there shall be kept in each branch office such books, accounts and records as will enable the supervisor to determine whether such company is complying with the provisions of this act and with the rules and regulations of the supervisor.

(4) The original application for a loan and all original papers relating thereto, including the note, any instrument held as collateral security, security agreement, salary assignment, etc., shall be available for inspection by the supervisor, or any duly authorized representative. All real estate mortgage loans shall be supported by an appraisal from a qualified appraiser, disclosing all pertinent information, including a detailed schedule of all prior liens.

(5) No corporation shall take any instruments in which blanks are not filled in completely before the proceeds of the loan are delivered.

WAC 50-20-050 Restrictions as to charges. (1) No company shall charge the borrower for notarial fees.

(2) No industrial loan company shall require the purchasing of property insurance from the company or any employee, affiliate or associate of the company or from any agent, broker, or insurance company designated by the company as a condition precedent to the making of a loan nor shall any company decline existing insurance which meets or exceeds the standards set forth in this section.

A company may provide insurance on the life and disability of one borrower and on the life of the spouse of the borrower if both are obligors, provided that such insurance coverage shall not exceed the approximate unpaid balance of the total amount repayable under contract of indebtedness scheduled to be outstanding. The premium or cost for all such insurance when written pursuant to the Washington insurance code and regulations issued thereunder, shall not be deemed interest, charges or consideration in connection with the loan transaction and any gain or advantage to the lender arising out of the premium or cost of the insurance or from its sale shall not be a violation of any provision of chapter 31.04 RCW. The amount of the premium or cost of such insurance may be included in the original loan amount and may be paid from the proceeds of the loan.

If the loan contract is prepaid in full by cash, a new loan, renewal, refinancing, or otherwise, the credit life and/or accident and health insurance coverage shall be cancelled and a portion of the charge made for such insurance shall be rebated as provided by the Washington insurance code and regulations issued thereunder.

(3) No company shall make any charge for the filing, recording or releasing of mortgages or other instruments or for transferring title certificates to automobiles unless such charges are or are in fact to be paid out by the company to the proper officials for such filing, recording, transferring or releasing thereof.

(4) In the event a company makes a new loan where any part of the proceeds is used to pay the amount due it on an existing loan within four months from date of the existing loan, no charge for investigation fee shall be permitted, unless the investigation fee on the existing loan is refunded.

(5) No industrial loan company may charge and collect an annual fee in excess of eighteen dollars payable each year in advance for the privilege of opening and maintaining an open-end loan account.

(6) No industrial loan company may charge and collect an appraisal fee incurred in appraising security offered by the borrower in excess of the actual costs paid to an independent third party professional appraiser. No charge may be made or collected for costs of an appraisal if the loan application is rejected by the company, or if the appraisal is inadequate to meet reasonable appraisal requirements for comparable loans from other lending institutions.

(7) Any note which is prepaid in full by cash, a new loan, refinancing, or otherwise before the final due date, the unearned portion of the interest shall be refunded using the sum of the digits method commonly known as the "Rule of 78's."

Provided, however, That in the case of any loan originally scheduled to be repaid in sixty-one months or more which is secured by an investment certificate, the refund of the unearned portion of the interest shall be computed as follows: Interest shall be considered earned at the single nominal annual percentage rate which if applied to the unpaid amounts of principal outstanding from time to time would produce the same total of interest paid at maturity as originally contracted for, based upon the assumption that all payments were made on the loan according to the schedule of payments due on the certificate and calculations were made according to the actuarial method. Interest earned so calculated up to the scheduled due date nearest the date of prepayment shall be subtracted from the original amount of interest included in the note and the balance of such interest shall be refunded.

For purposes of this calculation only, the original principal amount of the loan shall be deemed to be the amount of the total note less the interest deducted in advance. Actuarial method means the method of allocating payments made between principal and interest whereby a payment is applied first to the interest accumulated to date and the remainder then applied to the unpaid principal amount. In computing an actuarial refund, the lender may round the single annual percentage rate used to the nearest quarter of one percent.

In computing any required refund, any prepayment made on or before the fifteenth day following the scheduled payment date on the investment certificate shall be

deemed to have been made on the payment date preceding such prepayment. In the case of prepayment prior to the first installment date, the company may retain an amount not to exceed 1/30 of the first month's interest charge for each date between the origination date of the loan and the actual date of prepayment. [Statutory Authority: RCW 31.04.150. 85-19-053 (Order 63), § 50-20-050, filed 9/13/85; 84-06-001 (Order 59), § 50-20-050, filed 2/23/84. WAC 50-20-055 Simple interest defined. (1) For purposes of RCW 31.04.090, simple interest shall be computed by applying the annual simple interest rate to the unpaid balances of the principal of the loan outstanding for the time outstanding. Each payment shall be applied first to accumulated interest and the remainder of the payment shall be applied to the unpaid balance of the principal until paid in full.

Interest may not be payable in advance nor compounded; however, if part or all of the consideration for a new loan contract is the unpaid balance of a prior loan, then the original principal payable under such new loan contract may include, on a simple interest loan any unpaid interest or other charges which have accrued (the unpaid balance of a discounted loan shall be the balance due after giving effect to any required refund or credit of interest charged). For the purpose of computing interest, a day shall be 1/365th of a year. The term "principal" as used herein means the sum of the "amount financed" and any "prepaid finance charge" disclosed to the borrower pursuant to the federal Truth-in-Lending Act.

(2) The provisions of RCW 31.04.090 as they relate to investment certificates are not applicable to loans upon which interest is computed and charged on this basis. [Statutory Authority: RCW 31.04.150(2). 85-22-014 (Order 65), § 50-20-055, filed 10/29/85; 82-24-074 (Order 48), § 50-20-055, filed 12/1/82.]

(2) The borrower has agreed in writing prior to the increase to base the interest rate on the index. [Statutory Authority: RCW 31.04.150. 85-19-053 (Order 63), § 50-20-090, filed 9/13/85.]
