WAC 98-40-010 Purpose for procedures. There are many considerations that must be taken into account when a crematory is entrusted with the disposition of human remains. Identification of the deceased, holding the remains for cremation, the cremation process and procedures, processing and disposition of the cremated remains are items of concern not only to the crematory, but also to the consuming public. High standards must be employed during all phases of the cremation process.

Therefore, uniform procedures have been developed in order to maintain the professionalism and public trust expected of those involved in this vital service. It is the objective of the following procedures to ensure that all procedures reflect those high standards and serve as standards for those professionals charged with the sacred trust of the disposition of the human dead by cremation, within the realm of law and dignity. [Statutory Authority: RCW 68.05.100 as amended by 1985 c 402 § 8. 85-19-012 (Order 108), § 98-40-010, filed 9/6/85.]
