[Order 76-5, § 236-10-030, filed 5/14/76.]

WAC 236-10-040 Integration of SEPA procedures with other governmental operations. To clarify threshold decisions and to categorize department actions applicable to the environment protection process, typical department of general administration actions have been identified as follows:

(1) Category I. Projects which will almost always require EIS.

(a) Master plan

(b) Construction project - (determined by environmental assessment)

(i) Projects requiring preparation of major state construction plans.

(ii) Projects undertaken for another state agency or private applicant where the assessment process identifies significant known or potential impact(s).

(c) All department of general administration projects where the assessment process identifies known or potential significant environmental impact.

(d) Alteration projects entailing laboratory space which will utilize dangerous or hazardous chemicals, drugs, or radioactive materials.

(e) Procurement and/or disposal of hazardous materials or substances.

(2) Category II. Projects which may require EIS or further assessment.

(a) Construction projects.

(i) Repair and alteration projects requiring a major change in energy requirement or source.

(ii) Repair and alteration projects affecting architectural character of buildings of recognized historical importance.

(b) Real property acquisitions already covered by EIS for the project or covered by an EIS on the master plan in which the proposed action has been identified with no significant change in scope.

(c) Construction project, with no significant change in scope, which is an integral part of a master plan for which a final EIS has been filed, and all known environmental impacts have been considered.

(d) Upgrading of existing space with significant change in use.

(3) Category III. Application for exemptions within the department of general administration. Each "action" as defined in SEPA-WAC 197-10-040 (2)(a) thru (c), of the department shall have a form completed and retained in the division file. This form shall show the "action" and "exemption" decisions and be signed by the department of general administration representative making that decision. This form shall also show any threshold decision signed by the department representative. Two copies of this completed form shall be submitted to the division of facilities planning for review and approval or disapproval.

(4) Category IV. Division exemptions. The department of general administration has reviewed SEPA, the council on environmental protections rules and regulations adopted pursuant thereto, and its own programs and concludes that the activities of the following divisions of the department are exempt by virtue of WAC 197-10-040(2), 197-10-150 through 197-10-190. Archives and records management, capitol buildings and grounds, communications, data processing service center, fiscal and management center, motor transport, personnel office, state mail service, surplus property office, purchasing, and lease and property. If any of the aforementioned divisions become involved in any "action" as defined in WAC 197-10-040 (2)(a) thru (c), which is not exempt, then these guidelines will apply and the division supervisor must integrate these department procedures with their operations.

(5) Category V. CEP exemptions of agency activities. Pursuant to Administrative Order No. 76-12, dated June 3, 1976, issued by the council on environmental policy, all of the activities of the division of banking and the division of savings and loan associations of the department of general administration under programs they administer as of December 12, 1975, except for building construction, are exempt from the threshold determination and environmental impact statement requirements of chapter 43.21C RCW and chapter 197-10 WAC.

[Order 76-6, § 236-10-040, filed 8/31/76; Order 76-5, § 236-10-040, filed 5/14/76.]

WAC 236-10-050 Timing of the EIS process. Any agency submitting a public works request or space request to the department of general administration shall be regarded as the lead agency. It will be the sole responsibility of any agency submitting a public works request or space request to determine whether the action is exempt and, if not, to prepare environmental checklists, make threshold determinations, declarations of nonsignificance or significance, prepare draft and final EIS's and

conduct public hearings. If an EIS is required for any public works request or space request the working draft EIS must be prepared concurrently or prior to the completion of the design development phase as defined in S.F.96.82 (Rev.7-75) Conditions of Agreement Section C, 1 thru 4.

[Order 76-6, § 236-10-050, filed 8/31/76; Order 76-5, § 236-10-050, filed 5/14/76.]

WAC 236-10-060 Summary of information which may be required of a private applicant. (1) There are three areas of these guidelines where an agency is allowed to require information from a private applicant. These are:

- (a) Environmental checklist;
- (b) Threshold determination; and,
- (c) Draft and final EIS.

The responsible official may determine that any information supplied by a private applicant is insufficient and require further information, if in the judgment of the responsible official the information initially supplied was not reasonably adequate to fulfill the purpose for which it was required. An applicant may choose to voluntarily submit, at any time, information beyond that which may be required under these guidelines.

(2) Environmental checklist. A private applicant is required to complete an environmental checklist as set forth in WAC 197-10-365 either concurrently with or after filing the application. Explanations for each "yes" and "maybe" answer indicated thereon are required. Agencies may not require a complete assessment of "mini-EIS" at this stage. (See WAC 197-10-310.)

(3) Threshold determination. The responsible official shall make an initial review of a completed checklist without requiring more information from a private applicant. If, and only if, the responsible official determines as a result of its initial review that the information available to it is not reasonably sufficient to determine the environmental impacts of the proposal, the responsible official, may require further information from the applicant, including explanation of "no" answers on the checklist. This information shall be limited to those elements on the environmental checklist for which, as determined by the responsible official information accessible to the responsible official is not reasonably sufficient to evaluate the environmental impacts of the proposal. Field investigations or research by the applicant reasonably related to determining the environmental impacts of the proposal may be required. (See WAC 197-10-330.)

(4) Draft and final EIS preparation. If the guidelines of the lead agency so provide, an EIS may be prepared by the applicant under the direction of the responsible official. (See WAC 197-10-420.) Alternatively, the responsible official may require a private applicant to provide data and information which is not in the possession of the lead agency relevant to any or all areas to be covered by an EIS. A private applicant shall not be required to provide information which is the subject of a predraft

consultation request until the consulted agency has responded, or the forty-five days allowed for response by the consulted agency has expired, whichever is earlier.

(5) If the responsible official determines that an EIS is required the applicant will be provided the option of the following impact statement preparation methods:

(a) Applicant prepares the EIS under the supervision and to the satisfaction of the department responsible official.

(b)(i) Applicant posts a mutually agreed upon deposit.

(ii) The department retains a mutually agreed upon and independent consultant to prepare the document.

(iii) The consultant prepares the document under and to the satisfaction of the department responsible official.

(iv) The consultant is paid from the deposit and the balance of the deposit is returned. The applicant will be provided an itemized accounting of the expenditures made.

(6) Threshold determination appeal procedures. In the event that the threshold determination results in an appeal by the private applicant within 15 calendar days from listing in the appropriate register, the following procedures shall be followed:

(a) The responsible official will review its decision with particular emphases on the areas of appeal. The responsible official may request further information of the applicant. The decision of the responsible official shall be final and shall be in writing with copies to the project file, the applicant, each protestant, and department SEPA public information center.

(b) The responsible official will act upon the appeal within one week of receipt. If more time is required, the applicant will be advised in writing of the anticipated schedule.

[Order 76-6, § 236-10-060, filed 8/31/76; Order 76-5, § 236-10-060, filed 5/14/76.]

WAC 236-10-070 Sensitive areas. In its actions, the department shall respect "environmentally sensitive areas" and their modified exemption criteria which have been adopted and displayed by local governments pursuant to WAC 197-10-177.

[Order 76-5, § 236-10-070, filed 5/14/76.]

WAC 236-10-080 Preparation of EIS by persons outside the lead agency. (1) Preparation of the EIS is the responsibility of the lead agency, by or under the direction of its responsible official. No matter who participates in the preparation of the EIS, it is nevertheless the EIS of the responsible official of the lead agency. The responsible official, prior to distributing the draft EIS, shall be satisfied that it complies with the provisions of these guidelines and the guidelines of the lead agency.

(2) An EIS may be prepared by a private applicant or agent there, or by an outside consultant retained by either a private applicant or the lead agency. In such case, the responsible official within the lead agency shall assure that the EIS is prepared in a responsible manner and with appropriate methodology. The responsible official shall direct the areas of research and examination to

be undertaken, as well as the organization of the resulting document.

(3) If a person other than the lead agency is preparing the EIS, the responsible official will coordinate any pre-draft consultation procedures so that the individual preparing the EIS immediately receives all substantive information submitted by consulted agencies. The responsible official shall also attempt to obtain any information needed by the person preparing the EIS which is on file with another agency. The responsible official shall allow any private party preparing an EIS access to all public records of the lead agency which are relevant to the subject matter of the EIS, pursuant to chapter 42.17 RCW (public disclosure and public records law; Initiative 276, (1973)).

(4) Private applicants shall participate in the preparation of the EIS; however, the final authority over content shall be the responsible official.

(5) No private applicant shall be required to participate in the preparation of an EIS except when consistent with the guidelines of the lead agency. A private applicant may, however, volunteer to provide any information or effort desired, so long as the contents and organization of the resulting EIS are supervised and approved by the responsible official as required by this section.

(6) The provisions of this section apply to both the draft and final EIS.

[Order 76-5, § 236-10-080, filed 5/14/76.]

WAC 236-10-090 Designation of responsible official. (1) Within the department of general administration the ultimately responsible official is the director.

(2) The division of facilities planning is the responsible official for overall direction and control of environmental protection within the department of general administration and the division shall maintain the department SEPA public information center.

(3) When the department of general administration is the lead agency the operational responsibility for determining if the department's involvement is an "action" and if the department's "action" is "exempt" shall be controlled by the division of facilities planning.

(4) All capital budget line items of the department will be submitted to the division of facilities planning for environmental assessment prior to submittal to OPP and FM.

(5) All public work requests, Form A15 (repair and/or remodel), originating within the department must first be submitted to the division of facilities planning together with an environmental checklist and significant or nonsignificant declaration, or work form that the action is exempt.

(6) The division of facilities planning shall review and agree or disagree with all project or program exemptions, environmental checklists, declarations of nonsignificance or significance and threshold determinations initiated within the department. In the event that there is disagreement with the initiator of the project the decision of the division of facilities planning shall be final.

(7) The department's responsibilities as consulted agency will be coordinated by the division of facilities

planning. When the department of general administration is responding as the consulted agency to a draft EIS, etc., and when specific contents of an EIS impacts a particular (GA) division, then that EIS will be sent to the affected division head for review and response. The affected division's comments and/or recommendation will then be incorporated into the overall department response and sent to the (department of general administration) responsible official for final approval.

(8) A private applicant will follow the procedures as outlined in WAC 236-10-060.

[Order 76-5, § 236-10-090, filed 5/14/76.]

(a) A "proposed declaration of nonsignificance register" which shall contain a listing of all current proposed declarations of nonsignificance.

(c) An "EIS available register" which shall contain a listing of all draft and final EISs prepared by the agency during the previous six months, including thereon the date by which comments must be received on draft EISs, and the date for any public hearing scheduled for the proposal.

(4) Each of the registers required by subsection (3) hereof shall be kept current and maintained at the information center for public inspection. In addition, the registers, or updates thereof containing new entries added since the last mailing, shall be mailed once every two weeks to those organizations and individuals who make written request therefor, unless no new proposals are placed on the registers, in which event a copy of the register or update shall be mailed when a new proposal is added. Agencies may charge a periodic fee for the service of mailing the registers or updates, which shall be reasonably related to the costs of reproduction and mailing.

WAC 236-11-040 Integration of SEPA procedures with other governmental operations. To clarify threshold decisions and to categorize department actions applicable to the environment protection process, typical department of general administration actions have been identified as follows:

(1) Category I. Projects which will normally require an EIS.

(a) Construction projects – (determined by environmental checklist).

(i) Projects requiring preparation of major state construction plans.

(ii) Projects undertaken for another state agency or applicant where the assessment process identifies significant known or potential impacts.

(b) All department of general administration projects where the assessment process identifies known or potential significant environmental impact.

(c) Procurement and/or disposal of hazardous materials or substances.

(2) Category II. Projects which may require EIS or further assessment.

(a) Construction projects.

(i) Repair and alteration projects requiring a major change in energy requirement or source.

(ii) Repair and alteration projects affecting architectural character of buildings of recognized historical importance.

(b) Upgrading of existing space with significant change in use.

(c) Alteration projects entailing laboratory space which will utilize dangerous or hazardous chemicals, drugs, or radioactive materials.

(3) Category III. Division exemptions. Pursuant to WAC 197-11-875, except for building construction, all activities of the division of banking and the division of savings and loan associations are exempted.

(4) Category IV. Categorical exemptions. Pursuant to WAC 197-11-800, Part Nine except for limitations on categorical exemptions contained in chapter 197-305 WAC, the following divisions are exempted: Division of buildings and grounds, division of telecommunications, data processing service center, division of administrative services, division of motor transport, risk management, personnel office, division of purchasing and surplus property office and the state mail service. If any of the aforementioned divisions become involved in an action as defined in WAC 197-11-704 which is not exempt, then these rules will apply and the division supervisor must integrate these department procedures with their operations.

(5) Category V. Emergencies. Pursuant to WAC 197-11-880, actions which must be undertaken immediately or within a time too short to allow full compliance with this chapter, or chapter 197-11 WAC, to avoid an imminent threat to public health or safety, to prevent an imminent danger to public or private property, or to prevent an imminent threat of serious environmental degradation, shall be exempt.

[Statutory Authority: RCW 43.21C.120. 84-20-015 (Order 84-02), § 236-11-040, filed 9/25/84.]

WAC 236-11-050 Applications for exemptions within the department of general administration. Each "action" as defined in Part Eight, WAC 197-11-704, of the department shall have a form completed and retained in the applicant's division files. This form shall show the action and exemption decision and be signed by the department of general administration representative making that decision. This form shall also show any threshold decision signed by the department representative. A copy of this completed form shall be submitted to

the division of facilities planning for review and approval or disapproval.

[Statutory Authority: RCW 43.21C.120. 84-20-015 (Order 84-02), § 236-11-050, filed 9/25/84.]

WAC 236-11-060 Timing of the EIS process. (1) Public works request. Any agency submitting a public works request to the department of general administration shall be regarded as the lead agency. It will be the sole responsibility of an agency submitting a public works request to determine whether the action is exempt and, if not, to prepare an environmental checklist, make threshold determinations of nonsignificance or significance, prepare draft and final EIS's and conduct public hearings. If an EIS is required for any public works request the working draft EIS must be prepared concurrently or prior to the completion of the design development phase. Evidence of compliance with SEPA rules, chapter 197-11 WAC, must be provided to the department of general administration prior to implementing proposals.

(2) Space request. The department of general administration will normally assume responsibility as lead agency for space requests submitted to the department. However, if an EIS is required for a space request the agency submitting the space request may be assigned responsibility for preparing the draft and final EIS's and to conduct public hearings.

[Statutory Authority: RCW 43.21C.120. 84-20-015 (Order 84-02), § 236-11-060, filed 9/25/84.]

WAC 236-11-070 Facility acquisition. Facilities or real estate acquired under RCW 43.82.010 and which are subject to the provisions of chapter 197-11 WAC, SEPA rules, shall be environmentally administered as follows:

(1) Upon identification of plans to locate or relocate a state agency within a community, the department of general administration shall determine whether the proposal is categorically exempt, does not have a probable significant environmental impact, or does have a probable significant impact. If an EIS is required, the agency which will be the recipient of the facility or real estate may be assigned as lead agency as determined in WAC 236-11-060(2).

(2) Prior to publication of a determination of nonsignificance, or determination of significance, the department of general administration shall coordinate plans for acquisition with appropriate government officials and interest groups through the department of community development.

(3) Determinations of significance or nonsignificance, and any subsequent environmental review actions shall be publicized, with copies of determinations and review actions transmitted to appropriate government officials and interest groups.

[Statutory Authority: RCW 43.21C.120. 84-20-015 (Order 84-02), § 236-11-070, filed 9/25/84.]

WAC 236-11-080 Public notice requirements. (1) The department shall give public notice when issuing a

DNS under WAC 197-11-340, or DS and scoping notice under WAC 197-11-360.

(2) The department may require an applicant to perform the public notice requirement at its expense.

(3) The department shall use one or more of the following methods of public notice, taking into consideration the geographic area affected by the proposal, the size and complexity of the proposal, public interest expressed in the proposal, and whether the proposal is a project or regulation:

(a) Mailing to public or private persons or groups who have expressed interest in the proposal, in a certain type of proposal, or proposals in the geographic area in which the proposal is located;

(b) Publication in a newspaper of general circulation in the area in which the proposal will be implemented; and/or

(c) Posting the property, for site-specific proposals.

[Statutory Authority: RCW 43.21C.120. 84-20-015 (Order 84-02), § 236-11-080, filed 9/25/84.]

WAC 236-11-090 EIS decision levels. There are four levels of decisions involved in the EIS process.

(1)(a) Determination of eligibility for a categorical exemption.

(b) In determining whether a proposal is exempt from SEPA, the department shall respect "environmentally sensitive area" designations made by local governments under WAC 197-11-908 and the threshold levels adopted by cities/counties under WAC 197-11-800(1).

(2) Completion of an environmental checklist, Form GEN-FP-007, by the applicant in accordance with WAC 197-11-315 to determine if a proposal will have probable significant adverse environmental impact.

(3) Completion of a threshold determination by the lead agency in accordance with WAC 197-11-310 to determine if an EIS is required.

(a) Determination of nonsignificance (DNS), Form GEN-FP-008, which documents a decision that a proposal is not likely to have a significant adverse environmental impact and, therefore, not require an EIS.

(b)(i) Determination of significance (DS), Form GEN-FP-009, which documents a decision that a proposal is likely to have a significant adverse environmental impact and, therefore, an EIS is required.

(ii) Completion of scoping the proposal to limit an EIS to significant environmental issues.

(4) Completion of an environmental impact statement (EIS) which is the detailed statement required by RCW 43.21C.030 (2)(c).

(a) Completion of a draft EIS (DEIS) which informs decision makers and the public of a proposal and the mitigation measures which would avoid or minimize adverse impacts.

(b) Completion of a final EIS (FEIS) which revises the DEIS as appropriate and responds to comments received from decision makers and the public.

(c) Completion of a supplemental EIS (SEIS) which revises a draft or final EIS if there are substantial changes or significant new information on the proposal

indicating probable significant adverse environmental impacts.

[Statutory Authority: RCW 43.21C.120. 84-20-015 (Order 84-02), § 236-11-090, filed 9/25/84.]

WAC 236-11-100 Policies and procedures for conditioning or denying permits or other approvals. (1)(a) It is department of general administration policy to avoid or mitigate adverse environmental impacts which may result from the department's decisions.

(b) The department shall use all practicable means, consistent with other essential considerations of state policy, to improve and coordinate plans, functions, programs, and resources so that the state and its citizens may:

(i) Fulfill the responsibilities of each generation as trustee of the environment for succeeding generations;

(ii) Assure for all people of Washington, safe, healthful, productive, and aesthetically and culturally pleasing surroundings;

(iii) Attain the widest range of beneficial uses of the environment without degradation, risk to health or safety, or other undesirable and unintended consequences;

(iv) Preserve important historic, cultural, and natural aspects of our national heritage;

(v) Maintain, wherever possible, an environment which supports diversity and variety of individual choice;

(vi) Achieve a balance between population and resource use which will permit high standards of living and a wide sharing of life's amenities; and

(vii) Enhance the quality of renewable resources and approach the maximum attainable recycling of depletable resources.

(c) The department shall develop plans and programs to economically house state government activities so as to provide maximum services to the people of Washington consistent with (b) of this subsection.

(2) Supplementary implementing instructions and procedures to the policies contained in this section are contained in department of general administration policies and procedures, chapter 7, section 3.

(3) The department responsible official may:

(a) Condition the approval for a proposal if mitigation measures are reasonable and capable of being accomplished and the proposal is inconsistent with the policies in subsection (1) of this section.

(b) Deny the permit or approval for a proposal if reasonable mitigation measures are insufficient to mitigate significant adverse environmental impacts and the proposal is inconsistent with the policies in subsection (1) of this section.

(4) The procedures in WAC 197-11-660 must be followed when conditioning or denying permits or other approvals.

[Statutory Authority: RCW 43.21C.120. 84-20-015 (Order 84-02), § 236-11-100, filed 9/25/84.]

WAC 236-11-110 Designation of responsible official. (1) Within the department of general administration the ultimate responsible official is the director.

(2) The division of facilities planning is the responsible official for overall direction and control of environmental reviews within the department of general administration and the division shall maintain the department SEPA information center.

(3) When the department of general administration is the lead agency, the operational responsibility for determining if the department's involvement is an "action" and if the department's "action" is "exempt" shall be controlled by the division of facilities planning.

(4) The division of facilities planning shall review and agree or disagree with all project or program exemptions, environmental checklists and determinations of nonsignificance or significance initiated within the department. In the event that there is disagreement with the initiator of the project, the decision of the responsible official, division of facilities planning, shall be final.

(5) The department's responsibilities as consulted agency will be coordinated by the division of facilities planning. When the department of general administration is responding as the consulted agency to a draft EIS and when specific contents of an EIS impacts a particular division of the department of general administration, then that EIS will be sent to the affected division director for review and response. The affected division's response comments and/or recommendation will then be incorporated into the overall department response and sent to the department of general administration responsible official for final approval.

(6) Any decision of the responsible official, division of facilities planning, shall be final until such time as it is superseded by the director, department of general administration.

[Statutory Authority: RCW 43.21C.120. 84-20-015 (Order 84-02), § 236-11-110, filed 9/25/84.]

[Statutory Authority: Chapter 39.32 RCW, 84-13-008 (Order 84-01), § 236-47-001, filed 6/8/84.]

WAC 236-47-002 Authority. Prior to submission of this plan to the administrator of general services administration (GSA), general public notice of the proposed plan was published for a period of sixty calendar days and interested parties were given a period of thirty calendar days in which to submit comments. These comments, as well as the relative needs and resources of all public agencies and other eligible donees, were considered in developing the plan of operation.

This office has complete responsibility and authority to carry out the requirements of acquiring, warehousing, and distributing federal surplus property in the state of Washington pursuant to the provisions of the Federal Property and Administrative Services Act of 1949, as amended. WAC 236-47-004 Statement of policy. The state agency operates a "want list" oriented system to serve eligible donees and will aim for direct shipment of allocated items from the holding agencies to the donee's place of intended use. Donees are encouraged to submit a listing of items needed. The state agency employees will be guided by these requests in their search and selection of property. This equipment will be distributed on the basis of need, resources, and ability to utilize the property.

Small miscellaneous items will be available from the distribution center, eight hours per day, five days per week. Bulletins are mailed to all donees listing property available in the distribution center. They are mailed on Fridays to provide equal opportunity for all donees on Monday to telephone their requests.

The state agency will recommend to GSA the certification of donee screeners which are qualified and required in accordance with FPMR 101-44.116.

The state agency will make distribution of available property to eligible organizations in the state on a fair and equitable basis determined by their relative needs, resources, and ability to utilize the property. Elements of these are as follows:

(1) Relative needs:

- (a) Interest and expression of need on the part of the donee in the property available;
- (b) Type and quantity of property received by donee to date;
- (c) Economic condition of agency, activity, or institution;
- (d) Critical or urgent need;
- (e) Geographic location (urban, suburban, or rural).

(2) Relative resources:

- (a) Availability and sources of funds (grants, donations, taxes);
 - (b) Equipment availability;
 - (c) Alternate resources available.
- (3) Ability to utilize:
- (a) Ability of the donee to select and remove property from the distribution center or federal activity on a timely basis;
 - (b) Contemplated length of time and frequency of use;
 - (c) When item can be put in use;
 - (d) Ability to repair or maintain property.

Where competing requests are received for property items, the state agency will make a determination as to the donee based on the evaluation of the criteria above.

Donees which suffer or experience a loss of property due to a local disaster such as fire, flood, tornado, etc., will be given a temporary priority for all requested property. Special efforts will be made to locate and distribute needed property to them.

[Statutory Authority: Chapter 39.32 RCW. 84-13-008 (Order 84-01), § 236-47-005, filed 6/8/84.]

WAC 236-47-006 Terms and conditions. As a condition of eligibility, the donee will be required to file an application for eligibility with the state agency. Each form must be signed by the chief executive/administrative officer of the donee organization agreeing to the requirements prior to the donation of any surplus property. The certifications and agreements, and the terms, conditions, reservations and restrictions are printed on this document and on the reverse side of each state agency warehouse issue sheet and invoice (Exhibit 3).

The state agency will impose the statutory requirement that all property acquired by donees must be placed into use within one year of donation and be used for one year thereafter.

Following are periods of additional restriction established by the state agency:

(1) All passenger motor vehicles and items with a unit acquisition cost of three thousand dollars or more – an additional six-month period of restriction will be added, making a total of eighteen months from the date the property is placed in use.

(2) Aircraft (except combat-type) and vessels (fifty feet or more in length) with a unit acquisition cost of three thousand dollars or more – a total of sixty months from the date the property is placed in use. Such donations shall be subject to the requirements of the conditional transfer document (Exhibits 4 and 5).

(3) Aircraft (combat-type) – restricted in perpetuity. Donations of combat-type aircraft shall be subject to the requirements of a conditional transfer document (Exhibit 6).

When considered appropriate, the state agency may impose such terms, conditions, reservations, and restrictions as it deems reasonable on the use of donable property other than passenger motor vehicles or items with a unit acquisition cost of three thousand dollars or more.

The state agency will impose on the donation of any surplus item of property, regardless of unit acquisition cost, such conditions involving special handling or use limitations as the general services administration may determine necessary because of the characteristics of the property.

The state agency may amend, modify, or grant release of any term, condition, reservation, or restriction it has imposed on donated item of personal property.

[Statutory Authority: Chapter 39.32 RCW. 84-13-008 (Order 84-01), § 236-47-006, filed 6/8/84.]

WAC 236-47-007 Compliance and utilization. At least once during the period of restriction, state agency personnel will review all passenger motor vehicles and issued items with an original acquisition cost of three thousand dollars or more to determine that these items are being utilized in accordance with the purposes for which acquired. Review will consist of physical inspections and written certification or utilization of property by donees.

Also during the physical review, the state agency representative will insure that the donee is complying with any special handling conditions or use limitations imposed on items of property by GSA in accordance with FPMR 101-44.108. The review will include a survey of donee compliance with the statutory requirement that all items of property acquired by the donee since the last utilization survey have been placed into use within one year of acquisition and used for one year thereafter. Written reports on utilization and compliance review will be made and placed on file.

The state agency shall provide adequate assurance that they will initiate appropriate investigations of alleged fraud in the acquisition of donated property or misuse of such property. The FBI and GSA will be notified immediately of any cases involving alleged fraud. Further, GSA shall be advised of any misuse of donated property. The state agency will take necessary actions to prosecute cases of fraud or misuse and will assist GSA and other federal and state agencies in investigating such cases.

All passenger motor vehicles and all items having an acquisition cost of three thousand dollars or more will be identified at the distribution center by a blue stock tag. Separate warehouse issue sheets will be prepared for

each of these items and will include the following statement:

Note: Compliance Item
See Terms and Conditions on
the reverse
side of this form

All passenger motor vehicles registered by the department of licensing will show the state agency as lien holder. When the vehicle has been used in compliance with the terms and conditions, and eighteen months of use have expired, the state agency will release the title to the donee.

[Statutory Authority: Chapter 39.32 RCW. 84-13-008 (Order 84-01), § 236-47-007, filed 6/8/84.]

WAC 236-47-008 Financing and service charges. A revolving fund established by legislative action finances the acquisition and distribution of federal surplus property and is designed to maintain a working capital reserve to cover one year of operational expenses. These reserve moneys are invested in interest-bearing accounts and certificates as authorized by state law.

To maintain the revolving fund, service charges are assessed at a rate designed to cover all direct and indirect costs involved in acquiring and distributing federal surplus property. Emphasis will be placed on keeping the service charge to a minimum but at the same time providing the necessary service to donees and operating the agency on a sound financial basis. Factors considered in applying service charges are: Original acquisition cost, present value, screening cost, quantity, condition, desirability of property, transportation cost, loading and unloading cost, and administrative costs. Service charge funds may be used to improve or acquire office and warehouse facilities and to purchase necessary equipment and supplies to repair and rehabilitate equipment and to purchase replacement parts.

When the working capital reserve reflects an insufficient or excessive amount, service charges will be adjusted accordingly.

As a general guide and based on the listed factors and the following exceptions, the following schedule will be used in determining service charges:

Percent	Acquisition Cost
0-30	\$ 0.00 – 200.00
0-25	\$ 201.00 – 2500.00
0-15	\$ 2501.00 – 10000.00
0-7.5	\$ 10001.00 – 25000.00
0-3	(not to exceed \$5000.00) above \$25001.00

EXCEPTIONS.

The following exceptions to the above schedule have been developed to address two important areas which are frequently encountered. These two areas are incorrect condition code assignment and acquisition cost. Corrections of condition code or adjustment of acquisition costs will be coordinated with the GSA regional office.

Condition code – When an obviously incorrect condition code has been assigned, the correct code will be used for discount purposes.

Acquisition cost – When an incorrect acquisition cost has been detected, there will be an adjustment for service charge purposes which will reflect the correct acquisition cost. This figure will be assigned by research of available records for similar equipment or supplies, including federal stock/pricing manuals.

Special or extraordinary costs may be added to the service charge as follows:

(1) **Rehabilitated property** – Direct costs for rehabilitating property will be added to the service charge.

(2) **Overseas property** – Additional direct costs for returning the property may be added.

(3) **Long-haul property** – Charges for major items with unusual costs may be added. Any such costs which are anticipated will be discussed with the donee prior to shipment.

(4) **Special handling** – An additional charge may be made for dismantling, packing, crating, shipping, delivery, and other extraordinary handling charges.

(5) **Screening** – Extraordinary costs incurred in screening property may be added.

Minimum service charges are assessed in cases where the state agency provides document processing only and no other direct costs are involved. Based on an analysis of state agency expenses, where direct transfers of property to eligible donees are made, the service charge will be discounted approximately twenty-five percent for locating and screening the material, and ten percent for direct pickup by the donee, based on the service charge that would have been assessed if the property had been transferred from the state agency distribution center.

[Statutory Authority: Chapter 39.32 RCW. 84-13-008 (Order 84-01), § 236-47-008, filed 6/8/84.]

WAC 236-47-009 Inventory controls and accounting systems.

Inventory control.

The following actions will be the responsibility of the state agency in acquiring items for the distribution center inventory and subsequent reallocation to donees.

Immediately upon receipt, property is moved into a receiving area for check-in. Shipping documents and the applicable S.F. 123 and its attachments are used to check and identify property. Overage and shortage reports, and supplemental S.F. 123's will be prepared in accordance with the requirements of the Federal Property Management Regulations (FPMR) 101-44.115 and mailed to the GSA regional office. Upon verification of the description, condition, and quantity, a stock tag is prepared and attached to the commodity with the following data:

- Allocation number.
- Item number.
- Unit acquisition cost.
- Description, including serial number if applicable.
- Unit of measure.
- Unit service and handling charge.

Following verification of receiving information, individual stock record cards are prepared on all items having an individual acquisition cost of five dollars or more.

All actions, including receipt, issue and inventory status, are recorded on this card. The stock record card will be retained on file for not less than three years after the property has been issued.

A complete physical inventory will be taken annually of all material in possession of the state agency. Shortages and overages are listed on the annual inventory report which is used to record inventory adjustments and must be approved by the supervisor before posting to stock cards. Adjustments are made only when all reasonable efforts have been exhausted to determine the reason for variance. A statement explaining the variances will be included in the corrected inventory report.

Accounting systems.

A state approved double entry accounting system will be used. It will include a chart of accounts, a general ledger with accounts for all assets, liabilities, income and expense, and journals for all original record of transactions. It will identify and separately account for funds accumulated from service charges. Monthly and year-end reports will be provided for management visibility and program control.

WAC 236-47-010 Return of donated property.

When a determination has been made that property has not been put into use by a donee within one year from the date of receipt of the property or has not used the property for one year thereafter under terms and conditions of the application for eligibility, if the property is still usable the donee must:

(1) Return the property at its own expense to the state agency distribution center. Property returned by a donee will be received into inventory stock control for reissuance to other donees; or

(2) Retransfer the property to another eligible donee as directed by the state agency; or

(3) Make such other disposal as the state agency may direct.

The state agency will periodically emphasize this utilization requirement when corresponding and meeting with donees and when surveying the utilization of donated property at donee facilities.

[Statutory Authority: Chapter 39.32 RCW. 84-13-008 (Order 84-01), § 236-47-010, filed 6/8/84.]

WAC 236-47-011 Nonutilized donable property. All property in the possession of the state agency for six months which cannot be utilized by eligible donees shall be reported to GSA for disposal authorization in accordance with FPMR 101-44.205. In accordance with this regulation the state agency shall:

(1) Transfer the property to another state agency or federal agency; or

(2) Sell the property by public sale; or

(3) Abandon or destroy the property.

In the event of disposal by transfer to another state agency or by public sale, the state agency may seek such reimbursement as is authorized in accordance with FPMR 101-44.205.

[Statutory Authority: Chapter 39.32 RCW. 84-13-008 (Order 84-01), § 236-47-011, filed 6/8/84.]

WAC 236-47-012 Audit. An internal audit of the state agency will be conducted by the department of general administration annually.

A fiscal audit and a performance review (external audit) will be conducted every two years by the state auditor's office in accordance with normal audit procedures for a public agency. The fiscal audit and the performance review will cover the conformance of the state agency with the state plan of operation and the requirements of FPMR 101-44.202. Copies of all audits will be made available to GSA, with a full report of corrective actions taken with respect to any exceptions or violations.

GSA representatives shall review state agency operations periodically and may, for appropriate reasons, conduct its own audit of the state agency following due notice to the governor of the reasons for such audit. Financial records and all other books and records of the state agency shall be made available to all authorized federal activities.

[Statutory Authority: Chapter 39.32 RCW. 84-13-008 (Order 84-01), § 236-47-012, filed 6/8/84.]

WAC 236-47-013 Consultation with advisory bodies and private groups. An advisory board will be established representing both public and nonprofit donee agencies, institutions, and organizations and will be comprised of donee representatives from the various geographic locations of the state. The supervisor of the property redistribution office (PRO) will act as chairperson.

The board will meet annually or at the discretion of the chairperson. The membership may fluctuate to fully meet the interests of eligible activities in the state. The minutes of the meetings will be used to report on the donation program to the groups concerned, and the board will solicit expressions of need and interest from eligible donees so that the state agency and GSA may be advised of such requirements, including requirements for specific items of property.

Additionally, state agency staff will speak at meetings and public and private groups representing donee activities to explain the program, encourage participation and to obtain expressions of need and interest for surplus property.

[Statutory Authority: Chapter 39.32 RCW. 84-13-008 (Order 84-01), § 236-47-013, filed 6/8/84.]

It is the desire of the agency to continue, renew, or enter into such agreements authorized under section 203(n) of the act.

It may include a description of any requirement for inspecting, testing, or preparing a material, equipment, supplies, or service for delivery.

(18) **State purchasing division.** The state purchasing division is the office of state procurement of the department of general administration. Whenever a purchase or sale is made by an agency other than the office of state procurement, any reference to the office of state procurement in this chapter shall mean such agency. (30) **Supplier list.** List of potential bidders maintained by the office of state procurement from which names may be drawn for solicitation of bids/quotes.

[Statutory Authority: RCW 43.19.180 - 43.19.1932 and 43.19.520 - 43.19.538. 89-17-094 (Order 89-02), § 236-48-003, filed 8/22/89, effective 9/22/89; Order 77-2, § 236-48-003, filed 1/28/77.]

WAC 236-48-004 Procedure followed in the solicitation of bids. Whenever practicable the governing standard for state purchases is one of competitive bids in combination with a formal sealed bid procedure. The office of state procurement mails invitations for bid to a sufficient number of prospective bidders to elicit adequate competition, such suppliers being drawn from established supplier lists and from any other source thought to be of advantage to the state. Invitations to bid may call for bid prices with and without trade-in.

[Statutory Authority: RCW 43.19.180 - 43.19.1932 and 43.19.520 - 43.19.538. 89-17-094 (Order 89-02), § 236-48-004, filed 8/22/89, effective 9/22/89. Statutory Authority: Chapter 43.19 RCW. 83-18-

004 (Order 83-03), § 236-48-004, filed 8/26/83; Order 77-2, § 236-48-004, filed 1/28/77.]

WAC 236-48-005 Exceptions to competitive formal sealed bid procedure. (1) **Emergency purchase.** Emergency purchases need not be procured through a formal sealed bid procedure. Unless revoked by the office of state procurement, all agencies have the delegated authority to make emergency purchases if notice of such a purchase and the reason therefor is transmitted to the office of state procurement immediately after the purchase is made, in accordance with RCW 43.19.200.

(2) **Purchases not exceeding five thousand dollars.** Purchases not exceeding five thousand dollars may be solicited by the state by other than a formal sealed bid procedure unless the director specifically requires a formal sealed bid.

(3) **Single source or special facilities, services or market conditions.** Purchases which are clearly and legitimately limited to a single source of supply and purchases involving special facilities, services, or market conditions may be acquired through direct negotiation with documented source selection.

(4) **Used equipment.** The purchase of used equipment from private suppliers is generally considered by the office of state procurement to be a purchase falling within the exception set forth in subsection (3) of this section. A state agency desiring to purchase used equipment shall be responsible to determine what used equipment is available on the market and properly record this search. In the case of a purchase involving used equipment for less than the sealed bid limit, the agency need not submit the requirement to the office of state procurement. The purchase file located at the state agency shall be fully documented with agency determination as to fair market value. In the case of purchases exceeding the sealed bid limit, two written appraisals are required to be submitted to the office of state procurement with the purchase request. The purchase request file must contain justification for the acquisition of used equipment and include documentation to sufficiently establish fair market value. All appraisals must be from competent firms or persons not associated with the supplier or purchaser which certify that the agreed upon price represents a fair market value for the equipment. The appraisals will normally be made by individuals or firms knowledgeable of a particular market, not just knowledgeable of the equipment. For purchases exceeding the sealed bid limit, the appraisals must include a statement as to the fair market value of like goods if purchased new (e.g., with full factory warranty). All equipment with full factory warranty shall be purchased as new equipment.

(5) Purchases from institutional industries and other suppliers who, under law, receive a preference.

(6) Purchases from sheltered workshops and programs of the department of social and health services as required by law. Fair market value will be as determined by the office of state procurement.

WAC 236-48-012 Bidding or quoting time. The bidding or quoting time shall be as determined by the buyer involved. All invitations for bid shall provide sufficient time to allow bidders an opportunity to prepare and submit their bid. The buyer shall have the discretion to lengthen or shorten bid or quote times, should special circumstances or needs dictate a shorter or longer time frame. When extending or shortening the time allowed to submit a bid or quote, the buyer is to issue an addendum notifying bidders of the revised opening/due date. If it is determined that regular mail will not reach bidders in time to respond, the buyer shall attempt to notify each prospective bidder by telephone or other available means of communication. All bids must be received by the time specified for bid opening. No deviations will be allowed. Late bids will be returned unopened unless retention is deemed by the director to be in the best interests of the state. WAC 236-48-021 Supplier lists. Supplier lists are categorized according to specific categories of purchased goods and services and are maintained and updated by the office of state procurement. Such lists are used by buyers to determine suppliers from which to solicit bids. Due to cost considerations not all suppliers are solicited for each bid invitation. In order to be considered for inclusion on a supplier list, suppliers must apply to the office of state procurement. The office of state procurement may deny issuance of a bid to a prospective supplier if such supplier fails to register on a given supplier list when requested. The office of state procurement may deny or limit placement on supplier list(s) for reason(s) outlined under WAC 236-48-024.

Surety bonds and letters of credit will be returned to bidders after award of contract; cashier's and certified checks or cash will be returned via a state warrant in the amount of the deposit. Bidders who regularly conduct business with the state shall be permitted to file an annual bid bond in lieu of bid bonds for individual contracts in an amount determined by the state. WAC 236-48-079 Standard specifications. Specifications contained in the invitation for bid will, where practical, be nonrestrictive so as to provide an equal basis for competition and participation by an optimum number of qualified bidders. Unless otherwise specifically provided in the invitation for bid, reference to any equipment, material or supplies by trade name, make, or catalog number, shall be regarded as establishing a standard of quality and shall not be construed as limiting competition. All bids which offer a different trade name, make, or catalog number must state whether the item offered is an equal or an alternate, and literature which describes the item offered must be provided when available. The final decision as to whether an item is an equal or a satisfactory alternate shall rest with the office of state procurement. In the absence of a bidder's statement of a bid being an "alternate" it shall be evaluated as an "equal."

WAC 236-48-082 Request for samples, descriptive literature. The office of state procurement reserves the right to ask for samples, competitive demonstrations, and/or descriptive literature at the bidder's expense. Unless approved in advance by the buyer, samples must be identified to that bid. If not received within a reasonable period of time, as determined by the buyer, a bid may be rejected. However, the office of state procurement shall have the discretion to accept an alternate bid/quote if it can be shown that the alternate substantially conforms to the bid specifications. Bidder must submit complete documentation with bid sufficient to establish product comparison. Unless identified as an alternate, bidder warrants the product bid to be at least equal in quality and performance. If a bidder misrepresents his/her bid as being "an equal" when in fact it is "an alternate," his/her bid may be rejected and bidder will be liable for damages caused by the misrepresentation.

In accordance with the Laws of 1983 and chapter 43.19 RCW, the director of general administration shall compile a list of each state, relating to state purchasing, which statutes or regulations the director believes grant a preference to suppliers located within that state or to goods manufactured within that state. This list shall be updated on an annual basis and shall include only those states with currently active in-state preference clauses for procuring goods and services and the list shall contain the percentage of preference allowed. States with only reciprocity legislation will not be included on the list. The office of state procurement will be responsible for the official compilation of the list and notification to impacted state agency, college and university purchasing offices. The notification shall be made by office of state procurement circular letter.

For the purposes of determining whether to assess a percentage penalty against a supplier's bid, and the amount of that penalty, the buyer in charge of the bid will consider only the business address from which the bid was submitted. It is recognized that under certain circumstances this will adversely affect bidders with in-state operations whose bids are prepared centrally in an out-of-state office.

Buyers will add the appropriate percentage penalty to each bid bearing the address from a state with in-state preference rather than subtracting a like amount from Washington state bidders.

This action will be used only for bid analysis and award. In no instance shall the increase be paid to a supplier whose bid is accepted.

This WAC section applies only to formal invitations for bid solicited in accordance with chapter 43.19 RCW.

WAC 236-49-020 Washington state purchasing structure. The office of state procurement has been charged by the legislature with the responsibility to purchase all material, supplies, services (except personal services) and equipment (except data processing and telephone equipment/systems) needed for the support, maintenance and use of all state institutions, colleges, community colleges and universities, the offices of the elective state officers, the supreme court, the court of appeals, the administrative and other departments of state government, and the offices of all appointive officers of the state. Primary authority for the purchase of specialized equipment, instructional and research material for their own use rests with the colleges, community colleges and universities. Primary authority for the purchase of materials, supplies and equipment for resale to other than public agencies rests with the state agency concerned. The legislature has the responsibility of making purchases necessary for the operation of the legislature. Primary authority for purchase of automatic data processing equipment and telephone equipment/systems rests with the department of information services.

The office of state procurement has authority to delegate to state agencies authorization to purchase or sell, which authorization shall specify types of material, equipment, services and supplies: *Provided*, That acceptance of the purchasing authorization by a state agency

does not relieve such agency from conformance with RCW 43.19.190 through 43.19.1939, as now or hereafter amended, from chapter 236-48 WAC, or from policies established by the director after consultation with the state supply management advisory board. The delegation of such authorization to a state agency, including an educational institution, to purchase or sell material, equipment, services, and supplies shall not be granted, or otherwise continued under a previous authorization, if such agency is not in substantial compliance with overall state purchasing and material control policies, chapter 236-48 WAC or RCW 43.19.190 through 43.19.1939.

[Statutory Authority: RCW 43.19.180 - 43.19.1932 and 43.19.520 - 43.19.538. 89-17-094 (Order 89-02), § 236-49-020, filed 8/22/89, effective 9/22/89; Order 77-2, § 236-49-020, filed 1/28/77.]

WAC 236-49-030 Delegated authority. The office of state procurement shall administer all purchases and sales for state agencies except those for which the agencies have statutory or delegated authority. Delegated purchases are set forth in: (1) General authorities; (2) specific authorities; and (3) limited authorities. All delegations must be given in writing prior to the purchase or sale.

[Statutory Authority: RCW 43.19.180 - 43.19.1932 and 43.19.520 - 43.19.538. 89-17-094 (Order 89-02), § 236-49-030, filed 8/22/89, effective 9/22/89; Order 77-2, § 236-49-030, filed 1/28/77.]

WAC 236-49-040 Types of purchasing. Acquisition of purchased goods and services by the office of state procurement is divided into three major types:

(1) State contracts: Term contracts for material, supplies, services, and equipment in common use by state agencies. The contract document will identify the condition(s) under which usage by state agencies is required.

(2) Materials management center: The office of state procurement maintains a materials management center for the storage and distribution of a wide variety of supplies in high common use. Any agency which is in need of such supply items must purchase from the materials management center regardless of whether authority to purchase such supply items has been delegated to it. In addition, the materials management center also handles the maintenance, repair and servicing of office equipment used by state agencies in their servicing areas.

(3) Single acquisitions: Specific material, supplies, equipment or service acquisitions by the office of state procurement for which authority has not been delegated, for which there is no existing contract, or which the materials management center is unable to supply, must be made by submitting a purchase requisition to the office of state procurement. Such requisition must refer to any applicable Washington state specifications, standards and qualified products lists unless otherwise provided by the director or designee. Requests to use specifications, standards or qualified products which differ from the established Washington state specifications, standards and qualified products must be in writing to the director or designee. A purchase requisition must describe the items requisitioned in such detail and in such full and

explicit terms as to be easily understood by bidders. Diagrams, specimens, samples and other illustrative material should be included with a requisition, where appropriate. If a proprietary item is required, the agency must attach adequate justification. After consultation with the using agency, the office of state procurement may select equal or alternate items offered by bidders if the equal or alternate items offered will perform the same function as the specified item and if the quality is equal or greater.

[Statutory Authority: RCW 43.19.180 - 43.19.1932 and 43.19.520 - 43.19.538. 89-17-094 (Order 89-02), § 236-49-040, filed 8/22/89, effective 9/22/89; Order 77-2, § 236-49-040, filed 1/28/77.]

WAC 236-49-060 Cooperative purchasing. Under the authority of chapter 39.34 RCW, political subdivisions may enter into an interlocal cooperative purchasing agreement with the office of state procurement. Participation is voluntary—A political subdivision may use state contracts and purchase orders when the office of state procurement provides therefore.

[Statutory Authority: RCW 43.19.180 - 43.19.1932 and 43.19.520 - 43.19.538. 89-17-094 (Order 89-02), § 236-49-060, filed 8/22/89, effective 9/22/89. Statutory Authority: Chapter 43.19 RCW. 83-18-004 (Order 83-03), § 236-49-060, filed 8/26/83.]

WAC 236-49-061 Cooperative purchasing program fee. In order to distribute contract copies to political subdivisions in a manner similar to that provided for state agencies, it is necessary to require payment of an annual fee to cover costs. This fee may be adjusted periodically to reflect current program costs. When the nature of a contract requires that the political subdivision orders be prepared by the office of state procurement, an additional charge per order processed may be assessed.

[Statutory Authority: RCW 43.19.180 - 43.19.1932 and 43.19.520 - 43.19.538. 89-17-094 (Order 89-02), § 236-49-061, filed 8/22/89, effective 9/22/89. Statutory Authority: Chapter 43.19 RCW. 83-18-004 (Order 83-03), § 236-49-061, filed 8/26/83.]

WAC 236-60-010 Definition. As used in this chapter, the following words shall have the following meanings:

(1) Handicapped pedestrian – a pedestrian, or person in a wheelchair, who has limited mobility, stamina, agility, reaction time, impaired vision or hearing, or who may have difficulty walking, with or without assistive devices.

(2) Curb ramp – an interruption in a curb with a ramp from roadway to walk which forms a part of the accessible route of travel, no part of which projects into the roadway. It includes a center ramp and two shoulder slopes.

(3) Center ramp – the sloped surface providing pedestrian access to the roadway.

(4) Shoulder slope – the sloped flared sides on each side of the center ramp, providing a gradual incline from the edge of the center ramp to the sidewalk.

(5) Landing – a level area at least as wide as and, as long as, the width (except as otherwise provided), and within or at a terminus of, a stair or ramp, but not less than 5'["10" in width.

(6) Main pedestrian path – the walkway used by the pedestrian traffic clear of utility poles, signs, and parking meters.

[Statutory Authority: RCW 35.68.076. 78-02-066 (Order 77-5), § 236-60-010, filed 1/24/78.]

WAC 236-60-020 Design standards. The following construction standards are applicable to all curb-ramps set forth in this chapter.

(1) The width of the center ramps shall be at least thirty-six inches.

(2) Shoulder slopes shall not exceed one inch in 6.

(3) The center ramp slope shall not exceed 1 in 12 and the cross slope shall not exceed 1 in 50.

(4) Curb ramps should contain a slip-resistant surface.

(5) The site of the curb ramp should be graded and drained to eliminate pooling of water or the accumulation of ice or water on the ramp, the ramp landing, or at the toe of the ramp.

(6) Handrails shall not be used at any point of access along the curb ramp.

(7) Curb ramps should be outside of the main pedestrian path.

(8) Whenever curb ramps are placed in the main flow of pedestrian traffic, the following standards prevail:

(a) Align with the direction of pedestrian traffic.

(b) Advance warning system.

(9) The curb ramp should be distinguished from surrounding surfaces either by color or texture.

(10) There should be no abrupt change in elevation to exceed 1/2 inch.

(11) A landing 5 feet x 5 feet should be located at top and bottom of every curb ramp.

[Statutory Authority: RCW 35.68.076. 78-02-066 (Order 77-5), § 236-60-020, filed 1/24/78.]

WAC 236-60-030 Advance warning system for the blind. Whenever curb ramps are placed in the main flow of pedestrian traffic, an advance warning system is necessary in order to aid the blind. Warning materials should be adapted to local conditions. This texture should be in advance of a ramp curb. (See WAC 236-60-060.)

(b) "Leasing" means using a piece of property without transferring ownership. Leasing is an alternative to direct ownership of energy saving equipment. This is also known as an operating lease.

(c) "Municipal or capital leasing" means a tax exempt lease where the cost of equipment is amortized over the lease term. At the end of the lease period ownership passes to the lessee. This is also known as a lease purchase.

(d) "Shared savings" means a program in which the sole source of payment for energy conservation measures or services provided by a company is a predetermined percentage of the energy cost savings of the user resulting from the energy conservation measure or service.

(e) "Utility financing" means grants provided by utilities for energy conservation.

(f) "Vendor financing" means financing provided by an equipment supplier, equipment manufacturer, company or contractor.

(10) "Request for proposal" means the document which communicates information to prospective contractors and should include, but not be limited to:
