When this player's turn to draw comes, they receive an up-card for each hand and then play each hand in order. If such species, subspecies, or hybrid does already exist in the wild in Washington, it may be released within its established range by persons other than the director, but only after obtaining a permit from the director.

(a) Application for a permit must be made on a form provided by the department. It must be submitted at least thirty days prior to acquisition of the wildlife or aquatic plants intended for release or planting, and must provide all information indicated.

(b) Permits will only be issued if the director determines there will be no adverse impact on the wildlife or wildlife habitat of the state.

(c) Each permit shall require that at least thirty days prior to planting or release of wildlife or aquatic plants they must be made available for inspection by the director. It shall be the responsibility of the applicant to show that the wildlife will not pose a disease threat. If the director is not satisfied that the wildlife or aquatic plants do not pose a disease threat, they shall not be released or planted in the state. Director approval for release or planting may be withdrawn for cause.

(d) Each permit shall require that an applicant intending to release wildlife in the state shall report immediately to the director the outbreak of any disease among the wildlife intended to be released. If the director determines that such outbreak presents a threat to the wildlife of the state, the director may immediately order such action as necessary including quarantine or destruction of stock, sterilization of enclosures and facilities, cessation of activities, and disposal of wildlife in a manner satisfactory to the director.

(e) Each permit shall require that wildlife to be released shall not be branded, tattooed, tagged, fin clipped or otherwise marked for identification without approval of the director or as required in WAC 232-12-044.

(f) Legally acquired pheasant of the genus *Phasianus*; gray partridge of the genus *Perdix*; chukar partridge of the genus *Alectoris*; quail of the genus *Lophortyx*, *Callipepla*, and *Colinus*; and mallard ducks of the species *Anas platyrhynchos* may be released without a permit for purposes of dog training, and hunting pursuant to WAC 232-12-044. Game birds released for these purposes must be purchased from facilities that have been inspected by a certified veterinarian within the past twelve months.

(2) Release by the director. The director may plant aquatic plants or release animal species, subspecies, or hybrids which have been planted or released previously in Washington if they do not pose a disease threat and if planting or release will not cause adverse impact on the wildlife or wildlife habitat of the state. Before releasing any species, subspecies, or hybrid of animal not already existing in the wild in Washington, the director shall report to the commission on the planned release, stating the basis for determining that the planned release fulfills

the criteria set forth herein. The director may release nonnative species, subspecies, or hybrids not previously released in Washington only if the director in his or her sole discretion has determined that:

(a) There is no reasonable expectation of adverse impact on the wildlife or wildlife habitat of the state and there is an adequate plan for evaluating such impact following the release;

(b) The commission has classified the species, subspecies, or hybrids to be released pursuant to RCW 77.12.020;

(c) Suitable habitat is available;

(d) The nonnative species, subspecies, or hybrids to be released are free of exotic pathogens;

(e) The release serves the public interest.

WAC 232-12-618 Repealed. See Disposition Table at beginning of this chapter.

WAC 232-12-619 1992-94 Washington game fish regulations. These regulations are effective from April 16, 1992, to April 15, 1994, both dates inclusive.

Definitions.

Boat fishing: Fishing while in or on a boat, raft, or any other floating device.

Catch-and-release: A type of angling where none of the fish caught are retained by the angler.

Daily catch limit: The maximum number of fish of a given species and size which a person may legally retain in a single day. When you are fishing with bait, all legal trout are counted as part of the daily catch limit, whether kept or released. Steelhead may be caught and released while using bait until the daily catch limit is retained.

Fish in possession: Any fish retained, secure from escape, whether dead or alive.

In waters designated as "fly fishing only" an angler may not fish from any floating device equipped with a motor, except where specifically allowed under special regulations for individual waters.

Mouth of stream, river, or slough: Those waters upstream of a line projected between the outermost uplands at the mouth. Outermost uplands means those lands are not covered by water during an ordinary high water.

Maximum size limit: The longest length of a fish of a given species that an angler may keep, measured from snout to tip of tail (not fork).

Minimum size limit: The shortest length of a fish of a given species that an angler may keep, measured from snout to tip of tail (not fork).

Night closure: On those waters where night closures are specified, it is unlawful to fish from one hour after official sunset to one hour before official sunrise.

Fishing seasons open at 12:01 a.m. on the first day and close at 11:59 p.m. on the last day.

Possession limit: The maximum number of fish allowed to be retained in the field, in transit, in the home, and/or in a food-storage facility.

Selective fishery regulations: Only artificial flies or lures with a barbless single-pointed hook are allowed; bait is prohibited; fish may be released until the catch limit is retained. No one may fish from any floating device equipped with a motor, except where specifically allowed under special regulations for individual waters. If any fish has swallowed the hook or is hooked in the gill, eye or tongue, it should be kept if legal to do so.

Slough: Any swamp, marsh, bog, pond, side-channel, or backwater connected to a river by water. Many waters commonly called sloughs are not connected to a river and, therefore, are considered lakes.

Wild cutthroat release: Only cutthroat trout with missing adipose fins may be possessed. There must be a healed scar in the location of the missing fin.

Wild steelhead release: Only steelhead with missing adipose or ventral fins may be possessed. There must be a healed scar in the location of the missing fin. It is unlawful to use a gaff hook to land steelhead in waters designated "wild steelhead release."

State-wide regulations.

Taking and possessing game fish.

It is unlawful to:

Use a gaff hook to land steelhead in waters designated as "wild steelhead release."

Take bullfrogs except by angling, hand dip netting, spearing (gigging) or with bow and arrow.

Feed or use any substance to attract game fish unless specifically authorized by special regulations.

Fish for game fish with a bow and arrow or spear.

Possess fish which are under the minimum size or over the maximum size as shown in general or special regional regulations.

Annual limit - steelhead trout only: Each angler who possesses a valid steelhead permit card may retain thirty steelhead over twenty inches in length per year (May 1 to April 30).

Exception for rehabilitated lakes.

Lakes have no size, catch, or possession limits on the day of their rehabilitation and for ten days following. Dip nets are allowed for the taking of fish during this period. All fishing license requirements apply.

Licenses - requirements.

When taking bullfrogs, a hunting or fishing license is required.

Free fishing weekends:

The weekends corresponding with National Fishing Week have been declared as family fishing weekends in Washington. On these weekends (June 6-7, 1992; June 5-6, 1993) fishing licenses will not be required to fish for game fish, except steelhead trout. These free fishing days are valid for everyone, regardless of residency or age. All other regulations remain in effect. Only waters open to fishing may be fished; lure and/or bait restrictions and size and catch limits currently in place must be followed.

1992-94 license fees.

Military personnel, regardless of the length of time in the state of Washington, who are permanently stationed at a military installation within the state, are entitled to purchase a resident license. Military personnel must have a license to fish for game fish anywhere in the state. Dependents must establish a ninety-day residency.

WAC 232-12-831 Assistance to the visually handicapped. (1) This regulation is intended to carry out the legislative policy of this state to enhance participation in hunting opportunities by persons of disability.

(2) Definition of blind and visually handicapped. As used in this section, blind or visually handicapped means a person who is totally blind or whose central visual acuity does not exceed 20/200 in the better eye with corrective lenses, or the widest diameter of the visual field is no greater than 20 degrees.

(3) Disabled hunter permit for the blind. A blind or visually handicapped person may receive a disabled hunter permit for the blind or visually handicapped upon application.

(4) A person who possesses a disabled hunter permit for the blind or visually handicapped, as well as all other required licenses, tags, and permits, is authorized to designate a nondisabled licensed hunter who, while in the immediate company of the blind or visually handicapped hunter, may shoot, tag, and retrieve game for the blind or visually handicapped hunter.

ELK SEASONS

Bag limit: One elk per hunter during the annual (July 1-March 31) hunting season.

Hunting method: Elk hunters must select one of the hunting methods (modern firearm, archery, muzzleloader).

Tag required: Elk hunters must choose one of the four elk hunting areas (Blue Mountains, Yakima, Colockum or Western Washington) to hunt in and buy the appropriate tag for that area. (Archery elk hunters may hunt in any tag area in late seasons.)

Bull elk seasons: Open only to the taking of male elk with visible antlers (bull calves are illegal).

Definition: Visible antler is defined as a horn-like growth projecting above the hairline.

Spike bull restriction GMUs: Bull elk taken in these GMUs must have at least one antler that is a spike above the ears (does not branch above the ears). An animal with branch antlers on both sides is illegal but an animal with a spike on one side is legal in spike only units.

Spike only GMUs: 145-185.

Branched antler restriction GMUs: Bull elk taken in these GMUs must meet minimum antler point requirements. Minimum antler point requirements are antler points on one side only. Antler points include eye guards but all antler points must be at least one inch long. Antler restrictions apply to all hunters during any open season.

3 point GMUs: 418, 460, 466, 472, 478, 490, 506, 524, 530, 556, 558, 572, 601, 602, 607, 621, 636, 638, 639, 681; and GMUs 157 and 485 by permit only.

Special permits: Modern firearm late season elk tag holders along with muzzleloader tag holders may apply to be drawn in special elk permit seasons. Blue Mountain archery, muzzleloader, and early modern firearm tag holders may apply for bull permits in the Blue Mountains. Hunters drawn for a special permit may hunt only with a weapon in compliance with their tag. Hunters drawn for bull permits in the Blue Mountains may hunt bulls during the following season for their user group. Modern firearm - during early Blue Mountain season. Archery - during early Blue Mountain archery season. Muzzleloader - during any Blue Mountain muzzleloader season.

Modern firearm elk information

Modern firearm elk hunters have early and late hunts in all elk areas. Those who choose the early tag have the first opportunity to hunt bulls, but only those who

WAC 232-28-230 1991-92 Deer and elk permit hunting seasons.

Application instructions

Note: Hunt numbers and GMU numbers are not the same.

A permit gives a hunter additional opportunity but it does not give him/her an extra deer or elk, EXCEPT that antlerless only permit holders for GMUs 105, 108, 111, 113, 118, 119, 121, and 124 may buy a second deer tag and harvest a second antlerless deer (see special deer permit hunting seasons).

To apply for special deer permit: You must have a valid 1991 Washington hunting license and a modern firearm or muzzleloader deer tag. Only those hunters with a Washington disabled hunter permit may apply for the special hunt for disabled. You may submit one (only one) special deer permit application for 1991.

To apply for special elk permit: You must have a valid 1991 Washington hunting license and a valid late modern firearm, muzzleloader, or archery elk tag; EXCEPT Blue Mountain archery tag holders and early Blue Mountain modern firearm tag holders may apply for branched antler permits in the Blue Mountains. Only those hunters with a Washington disabled hunter permit may apply for the special hunt for the disabled. You may submit one (only one) special permit application for elk. You may not submit an elk permit application if you were drawn for any elk permit during 1989 or 1990. Permit hunters may hunt only with a weapon in compliance with their tag.

Application deadline: To qualify for the drawing all applications must be postmarked no later than August 1, 1991 or received no later than 5:00 p.m. on August 1, 1991 at the department of wildlife headquarters in Olympia or at any of the regional department of wildlife offices.

- Permits will be drawn by random computer selection.

- There are no refunds or exchanges for deer or elk tags for persons applying for special permits.

Special hunting season permits

You MUST have a valid hunting license and tag to apply for any special hunting season set by the wildlife commission. (Special hunting seasons do not include hunts open to all hunters.)

SPECIAL DEER PERMIT HUNTING SEASONS (Open to permit holders only)

Hunters must purchase a hunting license and deer tag prior to purchase of a permit application. Only modern firearm deer tag holders and muzzleloader deer tag holders may apply for the following permit hunts.

Hunters successfully drawn for an antlerless only permit for GMUs 105, 108, 111, 113, 118, 119, 121, or 124 may, after killing an antlerless white-tailed deer, purchase one additional antlerless only deer tag by presenting, in person, a completed report card and valid 1991 hunting license at the Spokane regional office. Additional tags are valid in the permit season and in the modern firearm deer season in the GMU for which the original permit was issued. No more than two antlerless white-tailed deer per hunter may be harvested. It is ILLEGAL for hunters with the second antlerless deer tag to kill a buck.

Use the FOUR DIGIT HUNT NUMBER on your application.
