

to prevent bleeding during its race. In order to obtain authorization for race day treatment of the bleeder, the trainer must obtain a certificate of examination from the commission veterinarian and the horse is then placed on the official bleeder list. The commission veterinarian must, by examination, and/or in consultation with the stewards, establish that the horse did in fact hemorrhage from one or both nostrils or that an endoscopic examination in the test barn or receiving barn showed observable amounts of free blood in the respiratory tract. When confirmed by the commission veterinarian, the horse shall be placed on the bleeder list which is maintained by the commission veterinarian. Once on the list, a horse shall be removed from the bleeder list only upon the directions of the commission veterinarian, who must certify in writing to the commission his recommendation for removal of the horse from the list. The list is a state-wide list that applies only at Class A or Class B licensed associations and not at any other track. If the commission so orders, horses placed on the bleeders list shall be assigned to a prerace security stall, to be known as a detention stall, no later than four hours prior to the scheduled post time for any race in which it is entered to start. The detention stall is assigned by the commission veterinarian and may at his discretion be the stall regularly assigned that horse for its customary stabling. Once placed in the detention stall, a horse shall remain there until it is taken to the receiving barn or to the paddock to be saddled or harnessed for the race, except that the stewards may permit horses to leave the secured stall to engage in exercise blowouts or warm-up heats. If the horse on the bleeder list is assigned as a detention stall its regular stall, that stall shall be posted and the stall shall be under direct observation of a responsible, licensed employee of the trainer or the owner.

Where facilities permit, the commission veterinarian may designate a secured area and assign stalls within that secured area to those horses on the bleeder list who are entered to race that day or night.

WAC 260-70-028 Detention stall. If so ordered by the commission, a trainer whose horse is on the bleeder list and is to be administered bleeder medication in accordance with the rules, shall obtain a detention stall assignment from the commission veterinarian and will be provided a detention stall sign. The trainer shall post the detention stall sign in a readily visible location at the detention stall to be used and the trainer must have a responsible, licensed person remain in close proximity to that stall between the time the horse has been administered the bleeder medication and the time it leaves for the receiving barn or paddock in preparation for a race. Close proximity means that the licensed person shall be in a position to observe and to prevent any unauthorized person from approaching the horse. If the horse is found to be unattended during that period or found to have been tampered with during that period, the trainer will be deemed negligent in the performing of required duties.

No unauthorized person shall approach the posted detention stall. If any unauthorized person does approach

the posted detention stall, a report of the incident is to be made immediately to the commission veterinarian or to the stewards.

(3) The department shall adjust rates for increased costs that must be incurred and which cannot be otherwise met through the contractor's prospective rate, for the following:

- (a) Program changes required by the department;
- (b) Changes in staffing levels or consultants at a facility required by the department; and
- (c) Changes required by survey; and
