WAC 289-12-010 Purpose. The purpose of this chapter is to provide minimum standards for substantial remodeling of existing jails or constructing new jail facilities and for evaluating and measuring conformance of existing jails for degree of compliance with physical plant standards in accordance with RCW 70.48.050 through 70.48.080.

[Statutory Authority: RCW 70.48.050(1). 79-07-067 (Order 2), § 289-12-010, filed 6/27/79.]

(2) All architectural plans for new construction or substantial remodeling shall adequately describe expansion capabilities and such description shall include mechanical and electrical services to the expansion points.

(3) Site and construction plans for a jail, which otherwise meet the requirements of these physical plant standards, will generally be approved for state funding with a ratio of sixty percent single cells to forty percent dormitories. Approval of jail plans providing for a greater or lesser ratio of single cells may be granted within the discretion of the

commission upon a showing of necessity under the specific circumstances.

[Statutory Authority: RCW 70.48.050(1). 79-07-067 (Order 2), § 289-12-020, filed 6/27/79.]

WAC 289-12-030 New facilities. (1) Initial planning for new facilities. The design planning of all new detention and correctional facilities shall include:

(a) Obtaining the participation of the community and surrounding governing units in site selection and planning; and

(b) Analyzing the present and future qualitative function and quantitative workload of the proposed facility, giving optimum consideration to alternatives to confinement.

(2) Specific physical plant standards. (Detention and correctional facilities except as otherwise noted.)

(a) Functional areas.

(i) Sleeping and living areas shall be designed to provide adequate confinement, reasonable prisoner to prisoner privacy, sight and sound surveillance and protection for prisoners and staff. For such purposes, the following are the design criteria for state funding of new construction or renovation of detention and correctional facilities. Modifications thereto shall be considered under the provisions of WAC 289-12-035.

(A) Single occupancy cells shall be seventy-two square feet or larger with not less than eight foot ceilings. A single occupancy cell should contain not less than fifty square feet of clear floor space. Each single occupancy cell or group of single occupancy cells shall provide an adjacent day room which shall provide a minimum of thirty-five square feet per prisoner, but not less than a total of one hundred forty-four square feet.

(B) Dormitories, when included shall have a minimum and maximum capacity of eight to fourteen males or four to fourteen females. Each dormitory shall provide a sleeping and day room area. The combined space of a dormitory sleeping and day room area shall provide a minimum of eighty-five square feet per prisoner, except for board-approved variances as provided in WAC 289-12-045. The day room portion shall be not less than one hundred forty-four square feet. The sleeping area shall have not less than eight foot, six inch ceilings if double bunks are used.

(ii) Program, recreation and exercise areas. Detention and correctional facilities shall provide adequate indoor program and recreation area(s) and a multipurpose outdoor exercise and activity area with toilet facilities.

(iii) Kitchen and dining facilities.

(A) When kitchen facilities are included, such facilities shall be adequate for the sanitary preparation of three nutritionally balanced meals per day and shall meet the requirements of chapter 248-84 WAC.

(B) Dining area(s) shall allow conversational opportunities in adequate surroundings. Meals shall not be served in cells, except where necessary for the health, security and/or well-being of prisoners and staff.

(iv) Examining room, infirmary and medical isolation.

(A) Detention and correctional facilities shall provide space to be used as a medical examining room. This space may be multipurpose, but when used as an examining room it shall provide sight and sound privacy and be equipped

with natural spectrum fluorescent lighting, a handwashing lavatory with a gooseneck spout, either foot, knee, push plate, electric eye beam, or equivalent faucet controls, and sufficient lockable storage for medical equipment and supplies.

(B) When an infirmary is located within the facility, infirmary space shall allow a minimum of three feet between the perimeter of each bed and walls, beds, and any fixed obstruction: *Provided*, That this three foot requirement does not apply to the distance between the head of a bed and the wall. The infirmary shall be equipped with its own lavatory, toilet, shower and bathtub.

(C) If medical isolation facilities are located within the jail such facilities shall conform to applicable standards of WAC 248-18-530 and 248-18-718.

(v) Visitation and confidential consultation.

(A) Space for visitation shall be included in detention and correctional facilities. Such space shall allow surveillance and the degree of control over physical contact deemed necessary by jail management for visible control, and shall simultaneously provide adequate seating for prisoners and their visitor(s).

(B) Detention and correctional facilities shall provide adequate facilities for confidential consultation(s).

(vi) Laundry. If laundry facilities are provided within the jail, such facilities shall be adequate for sanitary washing and drying of the jail laundry. Separate areas should be arranged for storage and sorting of soiled laundry and for the sorting, folding and storage of clean laundry.

(vii) Storage. Detention and correctional facilities shall include one or more secure storage area(s) for the storage of prisoner personal clothing and property and for necessary jail equipment and supplies.

(viii) Supervisory stations.

(A) Sufficient space and equipment for the facility supervisor shall be provided in an area secure from prisoner access. An adequate control room shall be secure from any unauthorized access and it shall be capable of controlling access to the facility by the general public.

(B) Sight and sound surveillance equipment, where used, shall be monitored in the control room and remote control operating devices shall also be in the control room. The control room shall be equipped with a sink and toilet.

(ix) Booking and reception areas. The booking area(s) shall include, but not be limited to, restroom facilities with shower, a "strip search" room, holding cell(s) (may be multiple occupancy), telephone, and space for photographing, fingerprinting, delousing, intoxication determinations and health screening.

(b) Structural criteria. Subject to appropriate modifications on a case-by-case basis under the provisions of WAC 289-12-035, the following structural criteria shall apply to all state funded new construction or remodeling of detention and correctional facilities:

(i) Building codes. All standards contained in the current Washington state building code established by RCW 19.27.030, the electrical wiring provisions of chapter 19.28 RCW, and more restrictive local standards shall be followed in all new jail construction.

(ii) Materials for walls, floors and ceilings. In all jail facilities, walls, floors and ceilings shall be constructed with materials adequate to attain the degree of security required

for each area of the facility. Such materials shall be easily cleanable, provide minimum sound transmission and fire protection. Polyurethane, neoprene or similar type materials shall not be used in padded cells. All paint used in a jail facility shall be fire resistant and nontoxic.

(iii) Entrances and exits.

(A) Detention and correctional facilities shall have two secure vestibules for ingress and egress.

(B) Elevators shall have no less than six feet by eight feet inside dimensions.

(C) A secure area shall be provided for loading and unloading prisoners.

(iv) Windows and/or skylights. Windows and/or skylights shall be sufficient to provide natural light to all living areas, yet locations shall assure security from escape and introduction of contraband.

(v) Noise level. Noise level shall conform to the requirements of chapter 173-60 WAC (Maximum environmental noise levels).

(c) Utilities. Subject to the appropriate modifications on a case-by-case basis under the provisions of WAC 289-12-035, the following criteria for utilities will apply to all state funded new construction or remodeling of detention and correctional facilities:

(i) Prisoner living areas, inspection corridors, and vestibules shall have secure lights with outside switch control. No electrical conduit shall be accessible from any cell, though each living unit may contain outlets and switches, provided they are unilaterally controllable by staff.

(ii) Lighting. Illumination at all times shall be adequate for security and surveillance, and daytime and evening illumination shall be sufficient to permit prisoners to read in their cells (thirty foot candles at thirty inches minimum, one hundred foot candles at thirty inches for medical examining areas, fifty foot candles at thirty inches for work areas).

(iii) Water supply. There shall be an adequate supply of sanitary hot and cold water available at all times to prisoners. Hot water for general use shall be adequate.

(iv) Plumbing—Toilets, lavatories, showers and floor drains.

(A) There shall be at least one toilet and lavatory for every fourteen prisoners. Separate facilities shall be provided for each sex.

(B) A minimum of one shower head shall be provided for every fourteen prisoners.

(C) Floor drains shall be constructed to serve all cells, dormitories and other areas where necessary to facilitate cleaning. Floor drains shall be located outside the cell space to reduce the incidence of tampering and flooding. Plumbing connection and pipes shall be secure from uncontrolled access by prisoners.

(v) Heating, ventilation and air conditioning.

(A) The systems shall maintain mean temperatures between sixty-five and eighty-five degrees F.

(B) The ventilating system shall provide for the number of air changes per hour as specified in the Uniform Building Code.

(d) Support systems.

(i) Fire detection and suppression. All jails shall have smoke and fire detection and alarm equipment. Fire alarm systems shall conform to all state and local fire regulations. Sprinklers shall not be required within cells and conflicting

requirements of local code provisions are preempted, when all other applicable code provisions relating to fire safety are met and an effective smoke control system is incorporated in the facility design.

All detention and correctional facilities shall be equipped with emergency power sources with sufficient capacity to maintain communications and alarm systems, to move one jail elevator, where one exists, to provide minimum lighting within the facility and perimeter and for the preparation of a light meal.

(3) Minimum security facilities. Jail facilities shall be constructed to totally separate areas for housing prisoners who are allowed to go outside the jail regularly from all other prisoner areas.

(4) Holding facilities. Holding facilities shall be secure. Such facilities shall have adequate lighting, heat, ventilation and fire detection and suppression equipment. Each holding facility cell shall be equipped with a bed, toilet, lavatory and a drinking fountain. A telephone shall be accessible.

WAC 289-12-035 Guidelines for review of plans not meeting physical plant standards. (1) Purpose. It is the purpose of this rule, in response to chapter 12, Laws of 1981 2nd ex. sess., to establish guidelines for the review and approval of plans which do not meet the previously-adopted physical plant standards set forth above but which may still satisfy minimal constitutional standards.

(2) General guidelines. In light of recent supreme court decisions, plans for new and/or remodeled state-funded detention or correctional facilities may be submitted to the commission for approval even though such plans contain modifications to the physical plant standards cited above. Such modifications to physical plant standards may include but are not necessarily limited to the following:

(a) Less than 72 square feet per prisoner in single occupancy cells;

(b) Less than 50 square feet per prisoner in dormitories;

(c) Less than 35 square feet per prisoner in dayrooms; and

(d) Multiple occupancy cells of more than one prisoner.

(3) Criteria for review. Based on recent supreme court decisions, the commission's review of plans submitted which contain requests for significant modifications from the physical plant standards shall take into consideration the following elements:

(a) The reasonableness of the proposed square footage per prisoner under (2)(a) through (2)(d) above;

(b) The length of prisoner stay in living areas designed to less than square footage required by WAC 289-12-030;

(c) Amount of out-of-cell opportunities, including but not limited to recreational, educational, and work programs;

(d) Whether modifications being proposed under (2) above will permit adequate classification and segregation of prisoners; and

(e) Whether other areas of the jail incorporate adequate space for necessary support activities and services, for which purpose the jail commission's "jail architectural programming guidelines" shall continue to be the general reference.

(4) Procedures for review. (a) Governing unit requests for approval of plans which include modifications to the physical plant standards as set forth in subsection (2), shall be submitted and approved or denied in accordance with established funding procedures set forth in chapter 289-13 WAC;

(b) Plans submitted by a governing unit for review and approval of modifications to the physical plant standards shall include a detailed statement that contains a sufficient amount of information on items (3)(b) through (3)(e) above to make a determination of adequacy on the plans;

(c) Governing unit requests for approval of plans will be scheduled for public meeting review and approval or disapproval by the full commission.

(5) Approval of plans submitted under this section will be based upon the established funded capacity and maximum budget for specific projects. No plan will be approved under this section which is not supported by a written showing of either (a) reduced construction costs or (b) no increase in construction costs but significant operational savings to the governing unit.

[Statutory Authority: 1981 2nd ex. s. c 12, RCW 70.48.050(5), 70.48.060(3) and 70.48.070(4). 82-11-069 (Order 27), § 289-12-035, filed 5/17/82.]

WAC 289-12-040 Remodeled facilities. Plans for substantially remodeling existing jail facilities shall conform to the minimum standards for physical plants, except where variances are approved by the commission.

[Statutory Authority: RCW 70.48.050(1). 79-07-067 (Order 2), § 289-12-040, filed 6/27/79.]

WAC 289-12-045 Variances from space requirements. (1) Purpose. It is the purpose of this section to establish guidelines for local jurisdictions to apply for a variance from the square footage requirements as set forth in WAC 289-12-030 (2)(a)(i)(B) relating to square footage per prisoner in day rooms and dormitories in detention and correctional facilities and WAC 289-10-310 relating to square footage per prisoner in living space in special detention and work release facilities. RCW 70.48.070(2) authorizes the corrections standards board to grant variances from the physical plant standards consistent with the intent of the City and County Jails Act. The rule set forth in this section are consistent with the act's legislative declaration that states "It is the policy of this state that all city and county jails provide a humane and safe environment."

(2) Guidelines. Approval or disapproval of variances and increased capacity will be considered on a case-by-case basis, considering those applications elements cited under subsection (3)(a) through (l) of this section and the following guidelines:

(a) Expansion of capacity and the granting of a variance under this section should be the final reasonable option available to the local jurisdiction for handling the increase in jail population.

(b) The local jurisdiction must provide assurance that all other options, including the use of alternatives to incarceration

tion, completion of state-funded jail expansion space, decreasing the number of out-of-jurisdiction prisoners, not including those prisoners held under contract for other local governing units, and opening a new special detention facility have been satisfactorily considered.

(c) Variances will be approved pursuant to this section in response to overcrowding of local prisoners.

(3) Application. Application for a variance for the purpose of increasing the capacity in a detention, correctional, or special detention facility beyond that allowed by the physical plant standards shall be made jointly by the chief law enforcement officer or director of the local department of corrections and local governing unit. The application shall address, but not be limited to, the following elements:

(a) The specific area or areas of a facility for which a capacity increase is proposed.

(b) The impact on compliance with physical plant standards, e.g., day room space, number of showers and toilets per prisoner, adequacy of ancillary services such as exercise (outdoor and indoor), recreation, visiting, dining, food services, laundry, and program areas.

(c) The anticipated length-of-stay for prisoners to be placed in an area for which capacity has been increased, and the reasons for placing this population in this increased-capacity area.

(d) The amount of time the prisoner would have away from the sleeping area.

(e) The availability of access to day rooms, visiting, exercise areas, and other programs.

(f) The impact on compliance with custodial standards, with particular focus on:

(i) Prisoner monitoring and surveillance, i.e., continual surveillance, observation every hour, and three-minute response time;

(ii) Delivery of medical services;

(iii) Quality and quantity of food;

(iv) Ability to classify properly;

(v) Sanitation, including a specific plan as to how sanitation will be maintained despite the increased population;

(vi) Visiting;

(vii) Indoor and outdoor exercise; and

(viii) Other programs and services.

(g) The impact of the change on other jail populations.

(h) The impact on incidents and violence, including a specific plan as to how violence will be controlled despite the increased population and the increased potential for hostility and tension.

(i) Assurances from the jurisdiction that increasing capacity would not cause the staff-to-prisoner ratio to be insufficient for purposes of providing a safe, secure, healthful environment.

(j) Certification from local fire officials that the safety of inmates is not being compromised by adding or increasing capacity in all or a portion of the jail.

(k) The impact on transport services, e.g., to court, the hospital, and clinics.

(l) Written policies and procedures on classification and segregation, specifying which area(s) of the jail for which increased capacity is approved, which types of inmates may be placed in an area for which capacity has been increased, who will make this decision, and the length of time an

inmate may be held in an area for which capacity has been increased.

(4) Limitations. Variance requests are limited to dormitories and will not be considered for single occupancy cells.

(5) Procedures for review. Requests for approval of variances and increased capacity will be scheduled for public meeting review and approval or disapproval by the corrections standards board.

(6) Conditions on approved variances. The corrections standards board, on approval of a variance, may impose such conditions as it deems appropriate. These may include, but are not limited to, any or all of the following conditions:

(a) Quarterly reports on the impact of the increased capacity which may include, but not be limited to:

(i) Number of inmates placed in an area for which capacity has been increased;

(ii) Average length of stay;

(iii) Number and nature of incidents that have occurred;

(iv) Noncompliance with custodial care standards;

(v) Certification that the staff-to-prisoner ratio is or is not sufficient for purposes of providing a safe, secure, healthful environment.

(b) Specific conditions to ensure that the health, welfare and security of persons confined in the jail is maintained.

(7) Prior variances. Variances previously granted by the board shall remain in effect unless specifically modified or terminated by the board at the time a variance pursuant to this section is granted.

(8) Termination. A variance may be terminated by the board if increased capacity is determined to cause an adverse impact on the health, welfare, and security of persons confined in the jail. In the event of a variance termination, the board may enter such orders as it deems appropriate to safeguard the health and safety of prisoners and the public, including but not limited to any combination of the following:

(a) Requiring submission of a plan to either release excess prisoners or provide another adequate facility for the housing of excess prisoners, or both;

(b) Requiring the removal of beds from the affected dormitory area; and

(c) Requiring the jurisdiction to provide other alternative means to ensure a reduction of the population.

WAC 289-13-010 Purpose. The rules set forth in this chapter shall govern all applications for state funding of new construction and/or substantial remodeling of detention and correctional facilities, including the allocation and disbursement of all funds appropriated or reappropriated to the state jail commission for such purpose under chapter 70.48 RCW and the physical plant standards adopted pursuant thereto and incorporated in chapter 289-12 WAC.

[Statutory Authority: Chapter 70.48 RCW and 1979 ex.s. c 232. 79-11-002 (Order 4), § 289-13-010, filed 10/4/79.]

WAC 289-13-020 Application—General. (1) Any governing unit within the state is eligible to submit an application for state funding of the substantial remodeling and/or new construction of a jail which it currently operates and which has been classified by the state jail commission as a detention or correctional facility within the meaning of WAC 289-02-020 (4) and (6), whether or not it has previously submitted an application to the commission for initial consideration. A governing unit which does not currently operate a detention or correctional facility may submit an application for classification of a new jail as a detention or correctional facility or for reclassification of an existing jail. Any such request shall be governed by WAC 289-02-030.

(2) Two or more contiguous governing units may apply for state funding of a consolidated detention or correctional facility. Whenever any jail is operated by a governing unit which includes a combination of cities and/or counties one

such city or county shall be designated as primarily responsible for the operation of said jail. An application for funding of a consolidated jail shall be submitted jointly by the governing units involved. Such application shall include a draft of a jail services contract in accordance with RCW 70.48.090 as amended by chapter 232, Laws of 1979 ex. sess., and a statement of conditional intention to enter into such contract executed by the governing units involved.

(3) Governing units which have appropriated and spent or encumbered funds for substantial remodeling or construction of detention or correctional facilities after February 16, 1974 and before June 23, 1977, are entitled to consideration for state funding on the same basis as any other governing unit requesting such funding and may make application for state funding of such facilities as provided under the provisions of this chapter.

(4)(a) All governing units requesting state funding of jail construction and/or substantial remodeling hereunder shall complete and submit a standard application form as prescribed by the commission, together with all supporting information and the documents specified therein. The deadline for the submission of such applications for inclusion in the commission's first determination of approved funding levels and priorities under WAC 289-13-050 shall be January 31, 1980.

(b) Any governing unit which fails to submit an application for such funding on or before January 31, 1980, may submit an application by July 31, 1980. Any governing unit which fails to submit an application by such latter date shall be deemed to not be seeking such assistance. A governing unit's failure to apply for state funding shall not affect the mandatory effect of the applicable physical plant standards.

(c) A governing unit which operates an existing detention and correctional facility which is in substantial compliance with the physical plant standards may apply for a variance from specific provisions of the standards with which the facility does not currently comply. Such application shall be in the form prescribed by the commission and shall be submitted by January 31, 1980.

(5) A governing unit which has received a commitment of federal or other nonstate funding for the construction and/or remodeling of a detention or correctional facility shall submit its construction plans to the commission, by January 31, 1980, for review of projected jail capacity and compliance with state physical plant standards. Federal or other nonstate funding shall not affect the mandatory effect of the applicable physical plant standards in such a facility.

(6) Any funds allocated to a governing unit or units for jail construction and/or substantial remodeling under the provisions of this chapter shall constitute full funding of the cost of implementing the physical plant standards within the meaning of RCW 70.48.070: *Provided*, That this provision shall not preclude the disbursement of funds for such purpose on a staged or phased basis as requested by the governing unit or units at the time of the application and in accordance with conditions established by the commission at the time of its determination of level of funding and priority.

(7) No governing unit which receives state funding hereunder, or which receives federal or other nonstate funding for such purpose, shall be eligible for further state funding under chapter 70.48 RCW and these rules for a

period of ten years from the date of completion of any project approved hereunder.

[Statutory Authority: Chapter 70.48 RCW and 1979 ex.s. c 232. 79-11-002 (Order 4), § 289-13-020, filed 10/4/79.]

WAC 289-13-030 Applications for funding. (1) The commission shall adopt and distribute by October 15, 1979, a standard application form to be used by all governing units which are requesting state funds for jail construction and/or remodeling under chapter 70.48 RCW and the provisions of these rules or which are seeking variances from the physical plant standards as applied to their facilities. The commission shall also adopt and distribute by the same date jail population statistical guidelines and architectural guidelines to be applied in preparing the application.

(2) The application shall contain the following elements:

(a) General information on governing unit and jail facility, including classification;

(b) Information affecting jail capacity determination including:

(i) Jail population projection to the year 2000 with supporting documentation as required by the commission. In general, the projected jail capacity shall be based upon current incarceration rates as applied to population projections by age group, using the most current population forecasts of the population, enrollment, and economic studies division of the office of financial management and applying a peaking factor not to exceed 1.29 standard deviations above the mean average daily population: *Provided*, That such population projections shall consider projected population over the entire period in question using five-year increments: *And provided further*, That there will be provision for challenging state population and incarceration rate figures and substantiating alternative projections.

(ii) Supporting historical information on the jail population, including crime rate information, average daily population figures for the prior five-year period, detailed information on the jail population over an average year for the jail in question and for other jails within the governing unit.

(iii) Description of existing and planned programs within the governing unit which affect jail population, including work release and pre- and post-trial diversion programs as well as arrest, prosecution, and sentencing practices.

(c) Specific jail facility plans, including:

(i) General description of plans with regard to the jail in question including nature of building or remodeling plans and relationship to other jails within the governing unit and to other criminal justice facilities;

(ii) Description of all existing jails within the governing unit, and of the feasibility of remodeling any or all of those facilities to meet part or all of the projected jail population;

(iii) Description of feasibility of operating consolidated jail facilities with other governing units, providing specific information prescribed by the commission in the application;

(iv) Narrative description of planned facility, including total square feet and division of square feet between cells, dormitories, day rooms, and ancillary areas of jail, and specific housing plan for projected population by each major classification;

(v) Description of project site, its availability, and alternative sites and effect of site change on plans;

(vi) Description of expansion capability of the jail within a range specified in the architectural guidelines;

(vii) Complete statistical and construction cost analysis in a form prescribed by the commission;

(viii) Projected time schedule for entire project, including design, bids, commencement of construction, completion, and occupancy;

(ix) Operational plan for planned facility, including staff and budget requirements for meeting mandatory custodial care standards within such facility.

[Statutory Authority: Chapter 70.48 RCW and 1979 ex.s. c 232. 79-11-002 (Order 4), § 289-13-030, filed 10/4/79.]

WAC 289-13-040 Review of funding applications—Initial. (1) Each project which is submitted for state funding under WAC 289-13-020 shall be initially reviewed by the director of the state jail commission to determine:

(a) Whether the facility for which funding is sought is currently classified as a detention or correctional facility or, if not, whether it is either an existing facility which should properly be reclassified as a detention or correctional facility or represents a necessary jail facility which should properly be classified as a detention or correctional facility; and, if so,

(b) Whether the plans submitted meet the applicable mandatory physical plant standards set forth in chapter 289-12 WAC for the projected capacity adopted by the governing unit submitting the application.

(2) Initial review of submitted applications shall be completed and applying governing units provided written notice of initial acceptance or rejection for consideration, on either basis, within forty-five days of receipt of the application. Notice of rejection shall state the specific reason(s) for rejection and the terms on which a project may be resubmitted.

(3) Any governing unit whose application is rejected on initial review due to noncompliance with the physical plant standards shall have thirty days in which to resubmit an application which meets such standards.

(4) Acceptance of an application for consideration for state funding upon this initial review shall be based solely upon the verification that the application is in the form specified by the commission and contains all required information, the classification of the facility, and plan compliance with the physical plant standards. Such initial review shall be based upon the capacity projected by the governing unit in question and shall not constitute, or in any way imply, approval of such project for state funding or the approval of any specific details of the project as submitted. Final approval and determination of funding shall take place only pursuant to the review process set forth in WAC 289-13-050: *Provided*, That the director may grant exceptions from application requirements where it is determined that such requirements cannot be met and in such cases may require additional corroborating documentation. In such cases, additional time for submission of the completed application may be granted by the commission.

[Statutory Authority: Chapter 70.48 RCW and 1979 ex.s. c 232. 79-11-002 (Order 4), § 289-13-040, filed 10/4/79.]

WAC 289-13-050 Final review of funding applications—General. (1) The commission shall complete its final review of all projects which are accepted for consideration under the initial review process set forth in WAC 289-13-040 and provide written notification of the commission's final determination with respect to approved funding level and priority for available funding as determined under WAC 289-13-080 no later than April 30, 1980, for those applications which are received by January 31, 1980, and no later than October 31, 1980, for those applications which are received by the final application deadline of July 31, 1980.

(2) During the course of its review the commission, or its director, may request necessary additional or explanatory information. In addition, the commission or its director may schedule a conference with a particular governing unit or two or more contiguous governing units to review their application(s) as well as the feasibility and desirability of alternative plans, including consolidated jail facilities.

[Statutory Authority: Chapter 70.48 RCW and 1979 ex.s. c 232. 79-11-002 (Order 4), § 289-13-050, filed 10/4/79.]

WAC 289-13-060 Final review of funding applications—Capacity. (1) Projects which are given initial approval for funding consideration shall first be reviewed to determine the capacity for which the facility may be considered for state funding. For such purpose, the capacity of individual jail facilities will be computed using population projections to the year 2000.

(2) In verifying and setting the capacity of a planned jail facility for purposes of state funding, the commission shall consider all relevant information, including data supplied to it by the office of financial management with regard to the governing unit's population projections, current incarceration rates as applied to population projections by age group, and peaking factors not to exceed 1.29 standard deviations above the mean average daily population as well as all information obtained in the application in accordance with WAC 289-13-030 (2)(b).

(3) To assist governing units in determining their jail population projections, the commission shall adopt jail population statistical guidelines to be followed in preparing all funding applications.

(4) Each governing unit shall have an opportunity in its application for funding to present information relating to the accurate projection of its jail population and to set forth reasons why the population projections of the office of financial management's population enrollment and economic studies division may not accurately forecast such projected population.

(5) Following the commission's review and determination of each jail's projected capacity, its decision shall be reviewed with the office of financial management in accordance with section 9, chapter 232, Laws of 1979 ex. sess., to insure the accuracy of the data relied upon.

[Statutory Authority: Chapter 70.48 RCW and 1979 ex.s. c 232. 79-11-002 (Order 4), § 289-13-060, filed 10/4/79.]

WAC 289-13-070 Final review of funding applications—Level of funding. (1) A governing unit will be awarded only the minimum amount necessary to fully implement the physical plant standards in the particular

detention or correctional facility which is being considered based upon the approved capacity set by the commission under WAC 289-13-060.

(2) The following elements will be considered in determining the necessary minimum cost of construction or substantial remodeling projects:

(a) Prime architect and engineer fees, including the total cost of services performed by the architect and engineer who are responsible for the facility design, and any subcontracts for design specialists necessary for the development of the project: *Provided*, That the applying governing unit must submit a description of its consultant selection process which must, except where a contract for such services was executed prior to June 1, 1979, substantially comply with the consultant selection process adopted by the department of general administration, division of engineering and architecture as adapted to the particular governing unit's organization and structure: *Provided further*, That the commission will provide to each governing unit a list of known minority and female architect and engineer firms to which an announcement of each governing unit's selection process shall be sent, and all such firms shall be given a full and equal opportunity to participate in any such process commenced following receipt of such list: *Provided further*, That no reimbursement shall be made for fees of any prime architect selected following the effective date of this rule who does not have in effect an affirmative action plan which includes, at a minimum, the same goals as the governing unit's plan with regard to its own employment practices or, if no such governing unit plan exists, which meets or exceeds the participation standard set within WAC 289-13-170 (1)(b): *Provided further*, That all prime architects whose fees are submitted for reimbursement hereunder shall submit a copy of the firm's affirmative action plan, or a statement with regard to its affirmative action practices regardless of the time it was selected. All such fees shall generally be evaluated in accordance with the prime architect and engineer fee schedule set forth in the state of Washington capital budget instructions for the 1979-81 biennium.

(b) Initial architectural consultant fees required to prepare preliminary jail facility plans for presentation to the commission, upon demonstration of the necessity for such services apart from the work normally associated with the prime architect and engineer: *Provided*, That the applying governing unit provides adequate indication of a consultant selection process free of conflict of interest and which insures the selection of a qualified person or firm. All such fees shall be evaluated on the basis of a fee schedule to be developed by the commission. Service by a person or firm as an initial architectural consultant does not preclude such person or firm's selection as the prime architect for a particular jail facility.

(c) Site survey and soil testing as necessary prior to construction.

(d) Construction costs, including, but not specifically limited to:

(i) Necessary earthwork integral to the construction of the jail itself;

(ii) Drainage, water and sewer work;

(iii) Necessary fire protection design features, including fire extinguishing and alarm systems;

(iv) Walkways and driveways;

- (v) Service vehicle and visitor parking;
 - (vi) Power, lighting, and telephone connections to jail building and related equipment, as well as all interior wiring and permanent power, lighting, and telephone equipment;
 - (vii) Necessary security features which constitute permanent fixtures of the structure, including:
 - (A) Standard security hardware;
 - (B) Electronically controlled gates and doors as conditions require (with mechanical override);
 - (C) Electronically controlled door locking devices for prisoner rooms operated from centralized consoles;
 - (D) Closed circuit television (C.C.T.V.), surveillance systems where required, **except that** C.C.T.V. will not be funded for general prisoner population cells or dormitories;
 - (E) Intercom and telephone systems connecting all major control points and monitored through central control telephone system for secure noncontact visitation; and
 - (F) Equipment and systems to control vandalism in such areas as water supply, mechanical and electrical fixtures.
 - (x) Standard permanent jail fixtures, including but not limited to bunks, tables, toilets, showers, sinks, and other such necessary furnishings for cells, dormitories, dayrooms, and dining and visitor areas;
 - (xi) Minimum laundry and kitchen appliances and equipment where adequate justification for such appliances and equipment is demonstrated;
 - (xii) Minimum furnishings and equipment for medical examining area and, where justified, for infirmary, as required under WAC 289-12-030 (2)(a)(iv)(A) and (B);
 - (xiii) Separate staff facilities within the architectural guidelines to be adopted by the commission.
- (3) Energy conservation design features which may increase initial construction or remodeling costs shall not be precluded from consideration for state funding when properly supported by a life cycle cost analysis as required by chapter 39.35 RCW.
- (4) Costs which will not be considered for state funding purposes include:
- (a) Any architect and engineering fees or other costs that are not directly related to and specifically required for jail construction and/or remodeling to comply with the physical plant standards and the rules adopted herein;
 - (b) Site acquisition and site preparation, including surveys and soil testing, clearing, disposal of debris and demolition of existing structures;
 - (c) Landscaping, art works, or any decorative features of design or construction which are not necessary costs of jail construction or substantial remodeling to meet the physical plant standards;
 - (d) Movable equipment and furnishings, e.g., shelves, desks, conference tables, and file cabinets;
 - (e) Court room or facilities solely related to court activities;
 - (f) Any portion of elevator construction cost not related to jail operation: *Provided*, That where an elevator serves a jail facility as well as other portions of a courthouse, criminal justice facility or other multistoried structure in which the jail is located, such cost shall be prorated;
 - (g) The cost for construction of skybridges or tunnels that connect the jail with any structure other than another portion of the jail: *Provided*, That following completion of design development and a cost analysis based thereon, a

governing unit may request approval of the inclusion of such a structure to provide a secure connection between the jail and related criminal justice facilities, within the maximum level of funding previously established for the project, and the director is authorized to grant such approval subject to said budget restriction;

(h) Any other design features, equipment, or furnishings not specifically required to implement the mandatory physical plant standards at minimum cost in a specific facility.

(5) The commission will adopt and distribute to each governing unit, not later than October 15, 1979, specific architectural guidelines which shall govern its review of all projects accepted for final consideration. Such guidelines will specify the total square footage of ancillary areas which will generally be funded within jails in addition to the necessary cells, dormitories, and day room areas required under the physical plant standards for the specific capacity set by the commission, expressed in ranges and subject to appropriate adjustment by the commission in each specific case.

(6) Detention and correctional facilities shall be funded on the basis of a ratio of sixty percent single cells to forty percent dormitory cells under the specific capacity set by the commission, **except that** the commission may grant exceptions to such requirement when a request for such exception is contained in the final application and is adequately supported by the specific circumstances set forth therein.

(7) In allocating funds for jail construction and/or substantial remodeling the commission shall review all projects submitted to ensure that the number of square feet allowed per bed is generally consistent for facilities of similar size and classification within either major urban, medium urban, or rural counties.

(8) The level of funding for the construction and/or substantial remodeling of detention and correctional facilities for which their governing units appropriated and spent or encumbered funds after February 16, 1974, and before June 23, 1977 and for which a funding application has been filed in accordance with WAC 289-13-020(3) shall be determined in accordance with the above provisions and in the same manner as all other jail funding applications.

(9) Upon completion of its review of each detention and correctional facility funding application accepted for consideration, the commission shall authorize a specific funding level for each facility based upon current costs and give written notice to each applying governing unit of that determination. Actual allocation and disbursement of proceeds from the sale of bonds deposited in the local jail improvement and construction account to any governing unit or units shall be governed by the provisions of WAC 289-13-080 relating to funding priorities and rules to be adopted relating to funding level adjustments.

[Statutory Authority: RCW 70.48.260 and 70.48.060(3). 82-11-071 (Order 29), § 289-13-070, filed 5/17/82. Statutory Authority: Chapter 70.48 RCW. 82-01-090 (Order 20), § 289-13-070, filed 12/22/81. WAC 289-13-075 Additional funding. (1) The director shall have authority to and will reimburse all

reasonable expenditures which are necessary to design and build a functional jail facility meeting minimum state physical plant standards where such item does not increase the maximum project budget, including contingency allowance.

(2) It is recognized that specific costs which may be subject to reimbursement under the policy stated above may include the following:

(a) Design

Reimbursable architect costs charged in addition to the basic fee.

Special design studies not normally included in the standard AIA contract but reasonably necessary to complete jail design.

Design costs related to additional work ordered as a result of change orders.

Prime A/E fees previously incurred which were for design work directly applicable to the project and do not increase total fees to be paid beyond maximum set.

Increased design fees for development of drawings for phased construction when not included within basic design contract.

(b) Project management services

The purchase of project management services which saves rather than increases the cost of the project should be subject to reimbursement upon proper documentation. Project management refers to concentrated and intensive coordination and oversight of the project such as is frequently employed to effect phased construction techniques which may not normally be undertaken by the governing unit's own supervising officials.

(c) Specific consultant costs necessary to prepare

Environmental impact statement

Life cycle cost analysis

And similar studies necessary

(d) None of the above enumerated expenses legitimately connected to proper design and construction of a jail facility meeting minimum state standards shall categorically be excluded from consideration for adjustment of project budgets from available contingency allowance except that such adjustment shall not be considered prior to submission of the complete schematic design package and will be granted only upon adequate documentation.

(3) Use of contingency. Unused contingency allowance will not be relinquished without specific action by the commission. This question will be reviewed prior to the end of each biennium at which time governing units will be given notice and an opportunity to comment on any proposed policy. In no case, however, shall such contingency become part of the authorized project budget without specific request and review and approval by the director and/or the commission.

(4) Transfer of moneys between budget items. At the time each project is authorized to proceed to schematic design, a simple budget corresponding to the elements considered in the maximum level of funding analysis will be established and each jurisdiction will have an opportunity to review those budget items and to request adjustments in them.

(5) Those budget categories which were based directly upon the estimates given in the application, and which were not challenged in the maximum level of funding analysis

already made, shall be available for transfer to another budget category up to an amount not to exceed five percent of the funds assigned to such category. Included in this category are: Initial A/E fees, equipment, site preparation, and site costs. The same judgment would appear with regard to adjustments to construction costs made specifically upon detailed information provided by the applicant because of flood plane or other unique circumstances. However, other budget categories reflect the general maximum level of funding analysis and should be subject to adjustment upon reasonable documentation as the project proceeds in accordance with commission rules. Review of this policy will be conducted before the end of the current biennium to determine whether any adjustments should be made.

WAC 289-13-080 Determination of priorities. (1)

At the same time as it determines the level of funding to be assigned to each jail construction and/or substantial remodeling project accepted for consideration, the commission shall establish the priority which each project will be accorded in disbursing state funds which have been appropriated for such purpose.

(2) Those governing units which have appropriated funds for substantial remodeling or construction of a detention or correctional facility between February 16, 1974, and June 23, 1977, which have entered into a construction contract prior to June 1, 1979, and which have applied for and been assigned a specific level of funding under WAC 289-13-060, shall have first priority for available state funds: *Provided*, That the specific level of funding will be determined on the same basis as that for all other facilities and funds shall be disbursed only as work is completed: *Provided further*, That any application by such a governing unit for additional new construction and/or substantial remodeling for which the governing unit did not appropriate and spend or encumber funds during the above stated dates shall be reviewed with the request for reimbursement of funds already appropriated for purposes of determining capacity and assigning a level of funding, with the priority for payment of any difference between the total level of funding authorized for the facility and the funds previously appropriated by such governing unit being determined in the same manner as the priority of all other projects: *And provided further*, That any such project shall be required to meet the physical plant standards except as variances may be granted therefrom by the commission.

(3) The priority of all other projects which have been assigned a specific level of funding under WAC 289-13-070 shall be set by the commission after considering all such projects together in light of the following factors:

(a) The nature and extent of the jail's present physical plant deficiencies which may be detrimental to the health, welfare and security of prisoners and staff as assessed on the basis of the physical plant standards set forth in chapter 289-12 WAC.

(b) The impact of such deficiencies upon the governing unit's ability to comply with the mandatory custodial care standards set forth in chapters 289-14 through 289-24 WAC.

(c) The frequency and extent of overcrowding within the facility, particularly with respect to its impact on sleeping area conditions and upon the facility's ability to properly classify and segregate its jail population.

(d) The existence of any court orders or pending legal proceedings relating to conditions within the jail which were filed prior to June 1, 1979.

(e) The extent to which the governing unit or units making application have considered and implemented effective programs for pre- and post-trial alternatives to incarceration: *Provided*, That no priority shall be assigned a governing unit which does not include a plan relating to such programs in its final application.

(f) Whether the governing unit or units making application have given full consideration to the feasibility of a consolidated jail facility or facilities and the cost-effectiveness of the proposed facility or facilities with respect to both construction and operational costs.

[Statutory Authority: Chapter 70.48 RCW and 1979 ex.s. c 232, 79-11-002 (Order 4), § 289-13-080, filed 10/4/79.]

WAC 289-13-100 Encumbrance of funds for new projects. Within thirty days of its written notification of final funding decisions, as provided in WAC 289-13-050, the commission shall issue written notification by registered mail with return receipt requested to those governing units for which funds currently available will be encumbered and disbursed in accordance with other rules set forth in this chapter. Other applicants shall be notified in the same manner as to the status of their applications and their right to proceed under WAC 289-13-160.

[Statutory Authority: Chapter 70.48 RCW, 80-04-113 (Order 6), § 289-13-100, filed 4/2/80.]

WAC 289-13-110 Authorization to proceed—Time limits. (1) Schematic drawings. Issuance of the commission's decision to encumber funds for specific projects under WAC 289-13-100 shall constitute formal authorization to the specified governing units to proceed to prepare schematic drawings and adjusted cost estimates based thereon which shall be submitted to the director for approval within four months or such longer period as shall be designated in the authorization, for good cause shown. At the time schematic drawings are submitted or, alternatively, at the time design development drawings and cost estimates are submitted, the director shall be authorized to adjust the prior funding decisions by no greater than three percent of the contingency allowance and/or up to all of the inflation adjustment included in the project budget, where applicable. Requests for greater adjustments and requests for increases which are denied by the director shall be submitted to the commission for review.

(2) Final plans and specifications. Following approval of schematic drawings and adjusted cost estimates as provided in subsection (1) of this section, the director shall issue authorization to governing units for which funds have been encumbered to proceed to prepare final plans and specifications, and each such governing unit shall submit final plans for review and approval by the director within six months of such authorization or such longer period as may be set at the time the project budget was established and

authorization to proceed given by the director. Failure to meet such schedule shall result in removal of the project from those for which existing funding is encumbered: *Provided*, That upon showing of good cause, the director may extend such deadline by no longer than six months: *Provided further*, That the director may adjust the last previously authorized level of funding at this stage by an amount which shall not cause the total contingency adjustment to date to exceed six percent and/or the balance of any inflation adjustment specified in the project budget, where applicable, and any larger requests or any requests for increases which are denied by the director will be submitted to the commission for review: *Provided further*, That the director may authorize a project to proceed to bid notwithstanding submission of a dispute with regard to contingency adjustment to the commission for determination.

(3) Bidding. Any governing unit for which funds have been encumbered hereunder shall advertise for bids for construction of the project within two months of the issuance date of the document approving its final plans and authorizing it to proceed. In the event of failure by a governing unit to advertise for bids within the time limit herein specified, the authorization herein described shall be declared null and void and the funds reserved thereunder shall revert to the state fund from which the reservation was made and become available for reservation or allotment toward the financing of such other jail project or projects as the commission shall determine: *Provided*, That an extension of time may be granted by the director when failure to act within the specified time is due to conditions judged by him to be beyond the control of the governing unit: *Provided further*, That in the event final plans and specifications for the project have been completed and advancement of the project is precluded by conditions beyond the control of the governing unit, it nonetheless may request consideration of state assistance in costs of architectural and engineering services incurred through preparation of final plans and specifications, pending the availability of additional state jail bond moneys: *Provided*, That such reimbursement shall be subject to the provisions of WAC 289-13-070 (2)(a).

(4) Further adjustments to budget or timetable. Following receipt, review, and acceptance of a bid for jail construction work in accordance with state law and local ordinances, the governing unit shall submit such bid to the director for authorization to proceed to construction should such bid require any adjustment of the project timetable or budget. At this time the director is authorized to grant extensions or modifications of the project timetable and to adjust the project budget up to the full amount of the project contingency allowance established at the time of the original funding notice. Any dispute with regard to the director's determination of allowable contingency adjustment shall be submitted to the commission for determination. When the bid does require any such adjustment, the governing unit shall provide a copy of the accepted bid and proceed to construction of the project without further review by the director. Any request for timetable adjustment which would extend commencement of construction of a project beyond eighteen months will be referred to the commission for approval.

(5) Construction review. During the course of construction, any substantial change from the construction drawings

shall be submitted to the director for review and approval whenever compliance with state physical plant standards is affected or any further adjustment in the previously approved budget may be sought as a result of such change. The director is authorized to approve adjustments in the project budget during the course of construction based upon appropriate documentation of the necessity therefor not to exceed the remaining balance within the twelve percent contingency allowance established at the time of the notice of funding: *Provided*, That submission of change orders which do not substantially alter the project as approved and which do not require adjustment of the approved project budget will be submitted to the director but will not require specific approval: *Provided further*, That the failure to submit a change order for approval prior to completion of the work in question shall not preclude later approval and, when appropriate, adjustment of the project budget.

- (1) The provisional reservation of funds is a guarantee of state participation in the costs of architectural and engineering services incurred in the preparation of preliminary plan and final plans and specifications and any part of such provisional reservation not required for this purpose shall revert to the state fund from which the provisional reservation is made.

- (2) A prerequisite to payment of such costs shall be completion of final plans and specifications, except where exemption from such requirement is granted by the commission.

WAC 289-13-160 Preliminary provisional allotment of state funds. (1) In the event that funds authorized by the legislature currently are not available to the commission for preliminary allotment to a governing unit under this chapter and it is determined upon review as provided that the project is eligible for state assistance under chapter 70.48 RCW the commission may (a) authorize the governing unit to proceed at its own financial risk with advancement of an approved project pending availability of an appropriation for state funding of such project; (b) grant a preliminary provisional allotment of state funds and approval of final plans and specifications; and (c) authorize the governing unit to call for bids: *Provided*, That if and when such an appropriation is made available to the commission, a governing unit which is authorized to proceed with such advancement action and subsequently expends local funds in lieu of state funds for commission approved project costs shall be entitled to reimbursement for such expended local funds: *Provided further*, That such reimbursement shall be subject to the following conditions:

- (2) Compliance with rules. The governing unit shall comply with all rules and regulations of the commission otherwise applicable to a project approved for financing with available state funds.

- (3) Governing unit certification. Prior to the award of contracts, the governing unit shall certify to the commission by resolution that (a) sufficient local funds are available to finance the entire cost of the project; (b) the governing unit will assume full financial responsibility for completion of the project; and (c) it is understood that if and when state funds

are available for such purpose, the governing unit shall be entitled to reimbursement in accordance with the provisions of this chapter.

(4) Preliminary provisional allotment of state funds not commitment of state funds. The authorization documents shall direct attention to the fact and the transmittal letter shall state explicitly that the approval and authorizations described therein do not constitute a commitment of state funds.

(5) Reimbursement contingency. Payment of state funds in reimbursement of local funds expended in lieu of state funds provisionally approved for the project shall be contingent upon availability of funds under the statutory authority or appropriation designation cited in the appropriate allocation documents or the availability of funds appropriated in lieu thereof.

(a) Identification of women and minority group firms available to participate in the jail project and the women and minority group workforce available for employment by the contractor and subcontractors.

(b) The minimum participation by such firms and individuals which can reasonably be achieved in the particular project, which shall be:

(c) A detailed plan for meeting these goals within the construction timetable set forth in the bid.

(2) Approval of such affirmative action plan by a subcommittee of the commission established for such purpose shall be a prerequisite to the director's authority to authorize awarding of a bid to such contractor under WAC 289-13-180 in all cases in which the plan submitted with the bid differs in any substantial degree from the governing unit's requirements or the plan requirements outlined above, whichever are applicable.

(3) For purposes of this section, "minority group members" means: Ethnic persons residing in the United States, including American Indians, Asian Pacific Americans, Black Americans, Mexican Americans and Native Americans, but does not include nonethnic women. WAC 289-14-005 Introduction to custodial care standards. (1) The provisions of chapters 289-14 through 289-24 WAC incorporate custodial care standards applicable to holding, detention or correctional facilities as defined under WAC 289-02-020. Each standard is mandatory for the classification to which it applies unless specifically labeled as advisory or not applicable.

(2) Within each chapter, paragraphs numbered from 010 to 099 are introductory or definitional in nature and apply to all jails unless otherwise noted. Paragraphs numbered from 100 to 199 apply to holding facilities. Paragraphs numbered from 200 to 299 apply to detention and correctional facilities unless otherwise noted. For this purpose, "holding" and "detention" and "correctional" facilities are defined as set forth in WAC 289-02-020. For purposes of the holding facility standards, a distinction is made between different maximum time periods persons are held within such facility, including thirty-day facility, seventy-two hour facility, and six-hour facility.

(3) The adoption of the mandatory custodial care standards is intended to meet minimum legal requirements relating to prisoner health, welfare, and security and does not preclude the adoption of more stringent requirements not in conflict with such standards by the governing authority, chief law enforcement officer, or department of corrections responsible for a particular jail.

[Statutory Authority: Chapter 70.48 RCW. 81-08-014 (Order 13), § 289-14-005, filed 3/24/81. 81-07-057 (Order 10), § 289-14-005, filed 3/18/81. Statutory Authority: Chapter 70.48 RCW and 1979 1st ex.s. c 232. 79-12-

WAC 289-14-010 Emergency suspension of custodial care standards. Nothing in these standards shall be construed to deny the power of any department of corrections or chief law enforcement officer to temporarily suspend any standard herein prescribed in the event of any emergency which threatens the safety or security of any jail, prisoners, staff, or the public. Only such standards as are directly affected by the emergency may be suspended and the department of corrections or chief law enforcement officer shall notify the state jail commission within three business days of such suspension: *Provided*, That suspension of standards relating to overcrowding is subject to the additional requirements of WAC 289-15-120 and 289-15-220.

WAC 289-15-110 Fire prevention and suppression. (Holding facilities.) The department of corrections or chief law enforcement officer shall establish and maintain a written fire prevention, suppression, and evacuation plan.

[Statutory Authority: Chapter 70.48 RCW. 81-08-014 (Order 13), § 289-15-110, filed 3/24/81.]

WAC 289-15-120 Overcrowding. (Holding facilities.) No prisoner shall be required to sleep on a mattress on the floor in excess of seventy-two hours, or directly on the floor for any period of time, unless there are reasonable grounds to believe that such provisions are necessary to prevent the prisoner from damaging property, inflicting bodily harm to himself or others, or substantially compromising the security of the jail.

[Statutory Authority: Chapter 70.48 RCW. 81-08-014 (Order 13), § 289-15-120, filed 3/24/81.]

WAC 289-15-130 Use of force. (Holding facilities.) (1) The department of corrections or chief law enforcement officer shall establish and maintain written policies and procedures regarding the use of force and the use of deadly force, which shall be consistent with this section.

(2) Only lawful and reasonable force to the person of a prisoner shall be used.

(3) Deadly force shall not be used on a prisoner unless the person applying the deadly force reasonably believes that the prisoner poses an immediate threat of death or grievous physical injury to an officer or employee of a jail or any other person, or to prevent the escape of a prisoner arrested

for a felony, and the officer reasonably believes that other reasonable and available alternatives would be ineffective.

(4) A written report on the use of force or deadly force shall be made. In the case of deadly force a written report shall be made by each staff member involved or observing the use of such deadly force. The report(s) on the use of deadly force shall be reviewed by the chief law enforcement officer or department of corrections or his designee who shall, if appropriate, investigate the incident further and make a determination whether appropriate, justified or reasonable force was used. Said determination shall be made a matter of record.

(5) The "carotid sleeper hold" means any hold or restraint specifically designed to inhibit blood flow through the carotid arteries of the neck without inhibiting breathing by compression of the airway in the neck and without compression of the larynx or trachea. The carotid sleeper hold shall be considered to be deadly force.

(6) The "choke hold" means any hold or restraint specifically designed to inhibit breathing by compression of the airway in the neck. The choke hold shall be considered to be deadly force.

(7) The carotid sleeper hold generally presents less danger of causing serious injury or death than the choke hold and therefore is generally preferred over the choke hold in situations where such holds are permissible.

(8) No neck hold shall be used, except by persons instructed in the dangers of the neck holds, its definition as deadly force, and the proper use and constraints of the carotid sleeper hold, by someone specifically trained in the use and dangers of neck holds. Refresher training shall be provided on at least an annual basis.

(9) Medical attention shall be administered to the prisoner by a qualified medical professional as soon as possible after the use of the carotid sleeper hold or the choke hold.

WAC 289-15-200 Emergency procedures. (Detention and correctional facilities.) (1) The department of corrections or the chief law enforcement officer shall formulate written emergency procedures relative to escapes, riots, rebellions, assaults, injuries, suicides or attempted suicides, outbreak of infectious disease, fire, acts of nature, and any other type of major disaster or disturbance. The emergency plan shall outline the responsibilities of jail facility staff, evacuation procedures, and subsequent disposition of the prisoners after removal from the area or facility. Such plan shall be formulated in cooperation with the appropriate supporting local government units.

(2) Emergency plans shall always be available to the officer in charge of the jail, and all personnel shall be aware of, and trained in, the procedures.

[Statutory Authority: Chapter 70.48 RCW. 81-07-057 (Order 10), § 289-15-200, filed 3/18/81.]

WAC 289-15-210 Fire prevention and suppression. (Detention and correctional facilities.) (1) The department of corrections or chief law enforcement officer shall consult

with the local fire department having jurisdiction over the facility in developing a written fire prevention and suppression plan which shall include, but not be limited to:

(a) A fire prevention plan to be part of the operations manual of policies and procedures;

(b) A requirement that staff are alert to fire hazards during their daily rounds.

(c) Fire prevention inspections at least semi-annually by the fire department having jurisdiction; provided, that when such inspections cannot be obtained from such fire department the facility shall provide such inspections by an independent, qualified source.

(d) Recommendations resulting from inspections should be promptly implemented WAC 289-15-210 (1)(d) ADVISORY; and

(e) A regular schedule for inspections, testing and servicing fire suppression equipment.

(2) Results of all fire department inspections shall be kept on file at the jail, together with records of actions taken to comply with recommendations from such reports.

WAC 289-15-220 Overcrowding. (Detention and correctional facilities.) (1) Purpose. The purpose of this section is to provide a means for determining and setting maximum population figures for local detention and correctional facilities. In so doing, the commission recognizes that each facility is unique and that the establishment of rigid criteria for defining and identifying overcrowding in most existing facilities would be unworkable. However, overcrowding remains a concern of constitutional dimensions within local jails and must be addressed. It is the purpose of these standards to provide a firm approach to preventing overcrowding in new jail facilities and to create a workable and flexible process for addressing overcrowding in existing jails.

(2) No prisoner shall be required to sleep directly on the floor for any length of time, or on a mattress on the floor in excess of one 72-hour period, unless there are reasonable grounds to believe that such provisions are necessary to prevent the prisoner from damaging property, inflicting bodily harm to himself or others or substantially compromising the security of the jail.

(3) Existing jails.

(a) The director of the local department of corrections or chief law enforcement officer shall propose a maximum capacity for each detention or correctional facility within his or her jurisdiction. This capacity shall reflect a judgment as to the maximum number of prisoners who may be housed within the facility in question in a humane fashion. Notice of such proposed maximum capacity shall be delivered to the state jail commission within 30 days of the final adoption of this revision to this standard. The proposed maximum capacity shall be the maximum capacity of the facility unless revised by the commission.

(b) Within 45 days of the receipt by the jail commission of notice of a proposed maximum capacity for a given facility, the commission shall schedule a public meeting to concur in or revise those capacity figures, pursuant to RCW

34.04.025 through 34.04.058. A written notice of such meeting shall be provided by the director to all known interested parties at least 20 days in advance of such meeting. It shall be the responsibility of the jail commission to establish cause for revising the maximum capacities proposed by the governing unit in question. The commission's concurrence in or revision of proposed maximum capacities shall take into account a detailed analysis of the following factors:

(i) The average amount of cell and day room space which would be available to each prisoner at maximum capacity;

(ii) The number of hours each day prisoners in the area have access to day rooms;

(iii) If the day room access is less than 12 hours each day, the amount of space per prisoner in the cell area;

(iv) The classification and types of prisoners held;

(v) The average length of stay of prisoners held;

(vi) The maximum length of actual stay of prisoners held;

(vii) The nature and amount of physical exercise available to prisoners;

(viii) The amount of access to visitation;

(ix) The amount of other out-of-living area time available to prisoners;

(x) Description of other services and programs available to prisoners, especially those covered by custodial care standards; and

(xi) The number of incidents occurring in the jail in the previous 12 months, classified by the categories of the population accounting form.

(c) In appropriate cases, the commission may establish a maximum capacity figure for an existing jail on an interim basis, when further study as to the circumstances appears necessary to make a final decision, in which case a date no more than six months in the future, shall be specified for a final determination with regard to maximum capacity.

(4) New facilities. The commission shall establish a maximum capacity for each newly constructed detention or correctional facility which is funded at the total fundable capacity set by the commission. Such maximum capacity shall be based upon the physical plant standards set forth in chapter 289-12 WAC.

(5) Overcrowding.

(a) The maximum capacity may only be exceeded to the extent that the average daily population for any calendar month does not exceed the established maximum capacity.

(b) Any holding of prisoners beyond the established maximum capacity in a given calendar month, shall be reported by mailing the monthly population accounting form to the director by the department of corrections or chief law enforcement officer within the first five business days following the month. Each such case [or] [of] overcrowding shall be referred to the commission for possible enforcement action under chapter 289-30 WAC.

(c) Any report of conditions of overcrowding required under this section shall be considered as a notice of an emergency suspension of standards within the meaning of WAC 289-14-010.

(d) An emergency suspension of the overcrowding standard established under this section must be approved by the director.

(e) No emergency suspension of the standards relative to established maximum capacities within any calendar month shall be approved except when the following conditions are met:

(i) Any related suspension of other custodial care standards is also specifically approved;

(ii) All existing diversion programs have been fully utilized;

(iii) All prisoners being held for other jurisdictions have been transferred to those jurisdictions to the extent possible;

(iv) All facilities within adjacent counties have been utilized to the fullest extent reasonably practical and permissible by their classifications; and

(v) The jurisdiction provides the commission within 45 days with a plan setting forth alternatives to incarceration which will be examined and implemented.

(f) Each department of corrections or chief law enforcement officer shall establish, with the cooperation of the presiding judge of the superior court, a procedure for release of prisoners before the end of their term when overcrowding occurs as herein defined.

(g) In the event of overcrowding caused in part by the existence of state prisoners, the director shall contact the state department of corrections in an effort to have such prisoners removed.

(h) In the event of overcrowding caused in part by the existence of federal prisoners, the director shall contact the appropriate federal agency in an effort to have such prisoners removed.

Reviser's note: RCW 34.05.395 requires the use of underlining and deletion marks to indicate amendments to existing rules, and deems ineffectual changes not filed by the agency in this manner. The bracketed material in the above section does not appear to conform to the statutory requirement.

WAC 289-15-230 Use of force. (Detention and correctional facility.) (1) The department of corrections or chief law enforcement officer shall establish and maintain written policies and procedures regarding the use of force and the use of deadly force, which shall be consistent with this section.

(2) Only lawful and reasonable force to the person of a prisoner shall be used.

(3) Deadly force shall not be used on a prisoner unless the person applying the deadly force reasonably believes that the prisoner poses an immediate threat of death or grievous physical injury to an officer or employee of a jail or any other person, or to prevent the escape of a prisoner arrested for a felony, and that the officer reasonably believes that other reasonable and available alternatives would be ineffective.

(4) A written report on the use of such force or deadly force shall be made. In the case of deadly force a written report shall be made by each staff member involved or observing the use of such deadly force. The report(s) shall be reviewed by the chief law enforcement officer or department of corrections or his designee who shall, if appropriate, investigate the incident further and make a determination whether appropriate, justified or reasonable force was used. Said determination shall be made a matter of record.

(5) The "carotid sleeper hold" means any hold or restraint specifically designed to inhibit blood flow through the carotid arteries of the neck without inhibiting breathing by compression of the airway in the neck and without compression of the larynx or trachea. The carotid sleeper hold shall be considered to be deadly force.

(6) The "choke hold" means any hold or restraint specifically designed to inhibit breathing by compression of the airway in the neck. The choke hold shall be considered to be deadly force.

(7) The carotid sleeper hold generally presents less danger of causing serious injury or death than the choke hold and therefore is generally preferred over the choke hold in situations where such holds are permissible.

(8) No neck hold shall be used, except by persons instructed in the dangers of the neck holds, its definition as deadly force, and the proper use and constraints of the carotid sleeper hold, by someone specifically trained in the use and dangers of neck holds. Refresher training shall be provided on at least an annual basis.

(9) Medical attention shall be administered to the prisoner by a qualified medical professional as soon as possible after the use of the carotid sleeper hold or the choke hold.

WAC 289-16-100 Admissions. (Holding facilities.)

(1) Authorized confinement. No prisoner shall be confined without proper legal authority.

(2) Telephone. Each prisoner, within a reasonable period of time after completion of booking, shall be advised of his right to, and be allowed to complete, at least two local or collect calls to persons of his choice who may be able to come to his assistance. If the prisoner chooses not to place the calls allowed, this information shall be noted on the booking form: *Provided*, That appropriate protection of

access to an attorney shall be maintained for prisoners without funds.

(3) Language problems. Reasonable provisions for communication with non-English speaking, handicapped and illiterate prisoners shall be provided.

(4) Booking process. The booking process shall be completed promptly unless extenuating circumstances necessitate delay.

(5) Search/examination, when allowed.

(a) The department of corrections or chief law enforcement officer shall establish and maintain written policies and procedures regarding pat searches, strip searches, and body cavity searches, which shall be consistent with this section.

(b) Each prisoner shall be searched for contraband in a manner consistent with this subsection and written policies and procedures established thereunder, as necessary to protect the safety of prisoners, staff, and institutional security.

(c) No strip search shall be conducted except pursuant to the written policies and procedures required by (a) of this subsection.

(d) No strip search shall be conducted prior to the prisoner's first court appearance unless there is reasonable suspicion that the person has on his or her person evidence of a crime, contraband, fruits of a crime, things otherwise criminally possessed, a weapon, or other things by means of which a crime has been or reasonably appears about to be committed. Reasonable suspicion shall be deemed to be present when a prisoner has been arrested for:

(i) A violent offense as defined in RCW 9.94A.030(17) or any successor statute;

(ii) An offense involving escape, burglary, or the use of a deadly weapon; or

(iii) An offense involving possession of a drug or controlled substance under chapter 69.50 RCW or any successor statute.

No strip search shall be authorized or conducted in these cases unless a thorough pat-down search, a thorough electronic metal-detector search, and a thorough clothing search, where appropriate, do not satisfy the safety, security or evidentiary concerns of the jail.

(e) A written record or records of any strip search shall be maintained in the individual file of each person strip searched, which record(s) shall contain the following information:

(i) The name and serial number of the officer conducting the strip search and of all others present or observing any part of the strip search;

(ii) The time, date, and place of the strip search; and

(iii) Any weapons, criminal evidence, other contraband, or health condition discovered as a result of the strip search. Except where reasonable suspicion is deemed present because of the nature of the arrest offense, this report or these reports shall also contain:

(iv) The name of the supervisor authorizing the strip search; and

(v) The specific facts constituting reasonable suspicion to believe the strip search was necessary.

(f) No body cavity search shall be conducted except pursuant to a valid search warrant. No search warrant for a body cavity search shall be sought without prior authorization of the ranking shift supervisor, pursuant to the written

policies and procedures required by (a) of this subsection. Before any body cavity search is authorized or conducted, a thorough pat-down search, a thorough electronic metal-detector search, and a thorough clothing search, where appropriate, must be used to search for and seize any evidence of a crime, contraband, fruits of crime, things otherwise criminally possessed, weapons, or other things by means of which a crime has been committed or reasonably appears about to be committed. No body cavity search shall be authorized or conducted unless these other methods do not satisfy the safety, security, or evidentiary concerns of the law enforcement agency.

(6) Search procedures, general. The following provisions shall apply to all strip searches and body cavity searches:

(a) Strip searches and body cavity searches shall be conducted in a professional manner which protects the prisoner's dignity to the extent possible.

(b) A strip search or body cavity search, as well as presearch undressing or postsearch dressing shall occur at a location made private from the observation of persons not physically conducting the search. A strip search or body cavity search shall be performed or observed only by persons of the same sex as the person being searched, except for licensed medical professionals as required by subsection (7)(a) of this section, as permitted by subsection (7)(c) of this section or when necessary to assure the safety of the prisoner or any person conducting the search.

(c) No person may be present or observe during a strip search or body cavity search unless the person is necessary to conduct the search or to ensure the safety of those persons conducting the search except as provided in subsection (7)(c) of this section.

(d) When a strip search or a body cavity search of a prisoner is conducted, it should include a thorough visual check for birthmarks, wounds, sores, cuts, bruises, scars, and injuries; "health tags"; and body vermin. Less complete searches should include the same checks to the extent possible. WAC 289-16-100 (6)(d) ADVISORY.

(e) Persons conducting a strip search or body cavity search shall not touch the person being searched except as reasonably necessary to effectuate the search of the person.

(7) Body cavity searches. The following additional provisions shall apply to body cavity searches:

(a) A body cavity search may be conducted only pursuant to subsection (5)(e) of this section. Any body cavity search shall be performed under sanitary conditions and conducted by a physician, registered nurse, or registered physician's assistant, licensed to practice in this state, who is trained in the proper medical process and the potential health problems associated with a body cavity search.

(b) When a body cavity search is conducted by a licensed medical professional of the opposite sex, an observer of the same sex as the prisoner should be present. WAC 289-16-100 (7)(b) ADVISORY.

(c) Nothing in this section prohibits a person upon whom a body cavity search is to be performed from having a readily available person of his or her choosing present at the time the search is conducted. However, the person chosen shall not be a person being held in custody by a law enforcement agency.

(d) The officer requesting the body cavity search shall prepare and sign a report, which shall include:

(i) A copy of the warrant and any supporting documents required;

(ii) The name and sex of all persons conducting or observing the search;

(iii) The time, date, place, and description of the search; and

(a) The primary criteria for classification shall be safety of the prisoner and the security of the institution.

(b) Juvenile.

(i) No juvenile shall be held in a jail without sight and sound separation from adult prisoners. For purposes of this standard, a juvenile is a person under the chronological age of eighteen, who has not been transferred previously to adult courts: *Provided*, That no person under the chronological age of sixteen shall be held in a jail or holding facility for adults: *Provided further*, That this standard does not preclude or prohibit the housing of remanded pretrial prisoners under the chronological age of eighteen within juvenile detention facilities rather than city or county adult detention facilities. (a) The department of corrections or chief law enforcement officer shall establish written classification and reclassification procedures which shall be included in the manual of policies and procedures.

(b) A classification committee, or individual shall be designated as responsible for classification of prisoners confined in the facility in accordance with such written procedures: *Provided*, That this does not preclude designation of alternate persons to serve in such individuals' absence: *Provided further*, That certain classification functions, such as initial cell assignment, may be delegated, in writing, to staff not assigned to classification functions.

(c) It is recommended that no less than two facility staff members be responsible for classification determinations when reasonably possible. WAC 289-16-230 (1)(c) ADVISORY.

(b) Each prisoner shall be classified as soon as reasonably possible.

A juvenile shall not be considered "transferred previously to adult court" unless a juvenile court has held a hearing under RCW 13.40.110 or successor statute and ordered the juvenile transferred for adult criminal prosecution. The exercise of jurisdiction by a limited-jurisdiction court in traffic, fish, boating, or game offenses or infractions pursuant to RCW 13.04.030 (6)(c) or successor statute does not constitute a "transfer."

(b) Written documentation shall be maintained for each case of administrative segregation.

WAC 289-26-005 Introduction to custodial care standards for special detention facilities. (1) The provisions of chapter 289-26 WAC incorporate custodial care standards applicable to special detention facilities as defined

[Title 289 WAC—page 50]

under WAC 289-02-020 and 289-02-050, and to work release facilities. Each standard is mandatory for the classification to which it applies unless specifically labeled as advisory or not applicable.

(2) The mandatory custodial care standards for special detention facilities are intended to meet minimum legal requirements for health, welfare, and security for low-risk prisoners (including work release prisoners) considering the length of stay and the prisoner classification involved. They do not preclude the adoption of more stringent requirements not in conflict with such standards by the governing authority, chief law enforcement officer, or department of corrections responsible for a particular facility.

[Statutory Authority: RCW 70.48.050 (3)(c) and 1984 c 110 § 7. 84-21-043 (Order 84-51), § 289-26-005, filed 10/12/84.]

WAC 289-26-100 General administration. There shall be written policies and procedures which shall be made available to each authorized person who is responsible for the confinement of a prisoner in the facility. These may be included in policies and procedures for a jail of which the special detention facility is a part.

[Statutory Authority: RCW 70.48.050 (3)(c) and 1984 c 110 § 7. 84-21-043 (Order 84-51), § 289-26-100, filed 10/12/84.]

WAC 289-26-120 Training. (1) All authorized persons responsible for the confinement of a prisoner shall receive an orientation to the policies and procedures of the facility relative to their duties. On the job training shall be provided as deemed appropriate by the chief law enforcement officer or department of corrections.

(2) All special detention facility staff whose primary responsibility is the supervision of prisoners shall meet the training and education standards established by the Washington state criminal justice training commission.

[Statutory Authority: RCW 70.48.050 (3)(c) and 1984 c 110 § 7. 84-21-043 (Order 84-51), § 289-26-120, filed 10/12/84.]

WAC 289-26-130 Records. (1) Confidentiality. All facility personnel shall be advised of the statutory provisions for confidentiality of jail records under RCW 70.48.100(2).

(2) Individual case records. An individual file or record shall be kept for each prisoner.

(3) Medical.

(a) Any prisoner medical information other than that included in the prisoner's individual file under WAC 289-26-130(2) shall be maintained separately to the extent necessary to maintain confidentiality.

(b) Any medical problems experienced by a prisoner while in the facility shall be recorded and such records maintained. Information concerning medical problems shall be transmitted at the time the prisoner is transported to another jail, hospital, or other facility.

(4) Jail register. Each special detention facility shall keep a jail register as required by RCW 70.48.100.

(5) Population accounting. Each special detention facility shall submit reports on its population on at least a monthly basis, on forms provided by the corrections standards board. (Not applicable - 72 hour)

(6) Incidents and infractions. Written records shall be maintained for all incidents which result in major property

damage or bodily harm, and for all instances where major disciplinary sanctions are imposed.

(7) Incident reports. The corrections standards board shall be notified within seven business days of any death, completed escape or serious fire. Reports of such incidents shall be retained.

(8) Activity log. A log of daily activity should be kept within the facility. WAC 289-26-130(7) ADVISORY.

(9) Personnel. Performance and training records should be maintained for each staff member employed by the facility. WAC 289-14-130(8) ADVISORY.

[Statutory Authority: RCW 70.48.050 (3)(c) and 1984 c 110 § 7. 84-21-043 (Order 84-51), § 289-26-130, filed 10/12/84.]

WAC 289-26-200 Emergency procedures. (1) The department of corrections or chief law enforcement officer shall establish and maintain written emergency procedures as appropriate for the specific facility.

(2) The emergency plans shall outline the responsibilities of special detention facility staff, evacuation procedures, and subsequent disposition of the prisoners after removal from the area or facility.

(3) Emergency plans shall always be available to the authorized person in charge of the facility.

(4) All personnel shall be trained in the emergency procedures.

[Statutory Authority: RCW 70.48.050 (3)(c) and 1984 c 110 § 7. 84-21-043 (Order 84-51), § 289-26-200, filed 10/12/84.]

WAC 289-26-210 Fire prevention and suppression. The department of corrections or chief law enforcement officer shall establish and maintain a written fire prevention, suppression, and evacuation plan.

[Statutory Authority: RCW 70.48.050 (3)(c) and 1984 c 110 § 7. 84-21-043 (Order 84-51), § 289-26-210, filed 10/12/84.]

WAC 289-26-220 Use of force. (1) The department of corrections or chief law enforcement officer shall establish and maintain written policies and procedures regarding the use of force and the use of deadly force, which shall be consistent with WAC 289-28-220.

(2) Only lawful and reasonable force to the person of a prisoner shall be used.

(3) Deadly force shall not be used on a prisoner unless the person applying the deadly force reasonably believes that the prisoner poses an immediate threat of death or grievous physical injury to an officer or employee of the facility or any other person, or prevent the escape of a prisoner arrested for a felony, and the officer reasonably believes that other reasonable and available alternatives would be ineffective.

(4) A written report on the use of such force or deadly force shall be made. In the case of deadly force a written report shall be made by each staff member involved or observing the use of such deadly force. The report(s) shall be reviewed by the chief law enforcement officer or department of corrections or his designee who shall, if appropriate, investigate the incident further and make a determination whether appropriate, justified or reasonable force was used. Said determination shall be made a matter of record.

(5) The "carotid sleeper hold" means any hold or restraint specifically designed to inhibit blood flow through

the carotid arteries of the neck without inhibiting breathing by compression of the airway in the neck and without compression of the larynx or trachea. The carotid sleeper hold shall be considered to be deadly force.

(6) The "choke hold" means any hold or restraint specifically designed to inhibit breathing by compression of the airway in the neck. The choke hold shall be considered to be deadly force.

(7) The carotid sleeper hold generally presents less danger of causing serious injury or death than the choke hold and therefore is generally preferred over the choke hold in situations where such holds are permissible.

(8) No neck hold shall be used, except by persons instructed in the use of the carotid sleeper hold, its dangers and in the dangers of the choke hold. Refresher training shall be provided on at least an annual basis.

(9) Medical attention shall be administered to the prisoner by a qualified medical professional as soon as possible after the use of the carotid sleeper hold or the choke hold.

[Statutory Authority: RCW 70.48.050 (3)(c) and 1984 c 110 § 7. 84-21-043 (Order 84-51), § 289-26-220, filed 10/12/84.]

WAC 289-26-300 Capacity. (1) The director of the local department of corrections or chief law enforcement officer shall propose a maximum capacity for each special detention facility, except where such facility's capacity is already included within a jail facility with an established capacity under WAC 289-15-225. Notice of such proposed maximum capacity shall be delivered to the corrections standards board at least sixty days prior to the opening of a facility.

(2) The board shall establish a maximum capacity at its next regularly-scheduled public meeting. It shall be the responsibility of the board to establish cause for revising the maximum capacities proposed by the governing unit in question. One year special detention and work release facilities will be deemed adequate to house up to the number of prisoners which would result in an average net living space of seventy-five square feet per prisoner in each of the living areas of the facility, except for board-approved variances as provided in WAC 289-12-045. Seventy-two hour special detention facilities will be deemed adequate to house up to the number of prisoners which would result in sixty square feet per prisoner in each single room, multiple occupancy room and dormitory.

[Statutory Authority: RCW 70.48.050. 86-19-016 (Order 86-07), § 289-26-300, filed 9/9/86; 85-18-024 (Order 86-02), § 289-26-300, filed 8/27/85. Statutory Authority: RCW 70.48.050 (3)(c) and 1984 c 110 § 7. 84-21-043 (Order 84-51), § 289-26-300, filed 10/12/84.]
