WAC 304-12-070 Washington state library gift policy. (1) The Washington state library welcomes gifts.

(2) The Washington state library commission also welcomes donations from interested organizations or individuals for the purpose of recognizing an individual's outstanding contribution to the improvement of the state library or to the statewide library development. It is felt that such donations should be in the nature of significant additions to the informational resources of the state library or equipment of permanent value to the state library rather than a plaque or similar nonproductive items. As a rule, additions to the library's collection will be appropriately marked and become part of the general collection. Exceptions may be made by the state library commission if, in the judgment of the state library staff, the usefulness of the materials being donated will be enhanced by special treatment.

The Washington state library commission affirms one of the purposes of the library to be the collection, preservation and occasional exhibition materials on the history of the state and the region, and the commission adopts the following points as governing policy in acquisition of historical materials:

(a) The library welcomes gifts of materials on the history of Washington communities, the state and the pacific northwest region.

(b) The library considers its collection of materials by Washington authors to be of major contemporary and historical significance and welcomes gifts which may be included in the collection.

(c) Inasmuch as the state library is not a museum it rarely accepts objects other than printed or manuscript material.

In keeping with accepted practice, the library reserves the privilege of deciding whether a gift should be added to the collection.

All gift material added to the collection will become an integral part of the collection and becomes the property of the library, the policy of use will follow regular state library practice.

The library will make an effort to dispose to the best advantage all gift material which is not added to the collection, however, if a donor wishes, the material which is not added to the collection may be returned.

When the library receives a cash gift for the purchase of memorial, tribute or other materials, the selection will be made by the donor and/or the library.

[Order 1-72, § 304-12-070, filed 5/24/72.]

WAC 304-12-125 General statement of criteria. (1)

In a free and open society the mission of libraries is to be aware of individuals' need for knowledge and personal growth and to respond to those needs by providing access to the wisdom, experience and imagination of mankind.

(2) The state agency's criteria for determining the adequacy of library service to the public are:

(a) That ninety percent of the requests by library users for specific titles is available through their library in a manner that is satisfactory to the users.

(b) That ninety percent of the requests by library users for works by a particular author or creator is available through their library in a manner that is satisfactory to the users.

(c) That ninety percent of the requests by library users for materials on a specific subject is available through their library in a manner that is satisfactory to the users.

(d) That ninety percent of the requests by library users for information is answered through their library in a manner that is satisfactory to the users.

(e) That ninety percent of the people in a library's service area is aware of the kinds of services provided by their library.

(f) That the percentage of use by each demographic group as defined in the Library Services and Construction Act regulations is the same, +/- fifteen percent, based on the highest percentage of use.

The determination of adequacy is made by comparing these criteria with annual reports which by law must be submitted to the state agency by each public library.

In allocating library services and construction funds, special consideration will be given to library programs, research and projects which:

(i) Serve disadvantaged persons residing in urban or rural areas with high concentrations of low-income families and to areas with high concentrations of persons with limited English speaking ability;*

(ii) Serve persons residing in sparsely settled areas of the state which are distant from adequate public library facilities;

(iii) Serve physically handicapped persons (including the blind or other visually handicapped);

(iv) Serve inmates, patients, or residents of penal institutions, reformatories, residential training schools, orphanages, residential schools for handicapped persons, and other general or special institutions or hospitals operated or substantially supported by the state;

(v) Serve persons residing in areas of the state having no local public library service;

(vi) Extend the range and improve the qualities of career development opportunities for people of all ages without regard to educational level;

(vii) Lead to the improvement and efficient management of library resources, both human and material, and which provide to all people maximum accessibility to those resources;

(viii) Strengthen metropolitan public libraries which serve as national or regional resource centers.

Footnote: *In accord with requirements of the Library Services and Construction Amendments of 1970 (Public Law 91-600) and the Code of Federal Regulations (45 CFR Part 130) priority will be given to (i) above, i.e. programs or projects which serve urban and rural areas with high concentrations of low-income families and to programs and projects which serve areas with high concentrations of persons with limited English-speaking ability (as defined by PL 93-380, Education Amendments of 1974).

These areas are defined as those areas with low-income families or with concentrations of non-English speaking persons as reported in U.S. Bureau of Census 1970 PC (1)-C Series: General Social and Economic Characteristics. Low-income families are defined as those with annual incomes as designated by federal agencies. This information will be updated through publications of the Washington state office of economic opportunity.

Programs and priorities will change as needs in the state change or as revised federal regulations and/or new federal legislation may require.

Where applicable, an evaluation component will be a part of each project.

Where applicable, each grant request should contribute toward the achievement of the existing Washington state plan for library development, now called the Proposed Regional Library Plan for Washington by Charles Bowerman, 1950, or any plan which supersedes this existing plan.

Programs may also be developed across state lines when such inclusion meets the standards set forth and will contribute to the basic objectives of library development in Washington state. Interstate compact legislation facilitates such programs.

WAC 304-12-140 Other services grant programs—Principles. (1) Basic to Washington's program of library development are the following elements:

(a) Encouraging and facilitating of cooperation among all types of libraries, and between libraries and other agencies.

(b) Providing trustees of public libraries with continuing education opportunities which will enhance their board skills and expand their awareness of library issues and trends.

(c) Assisting in the determination and implementation of effective service areas for libraries.

(d) Providing, improving, and strengthening all levels of continuing education and staff development for library service providers.

(e) Initiating and encouraging library planning and research.

(f) Stimulating the concern of citizens for quality library service through effective marketing.

(g) Assisting in community efforts to overcome adult illiteracy.

(h) Advancing the utilization of library-related automation and technology for the provision of quality library service.

(i) Improving document delivery methods to better serve library patrons.

(j) Providing services geared to children, young adults and other special age groups such as the elderly.

(2) The Washington state library commission is receptive to request which may include areas not yet specifically stated as eligible. The guiding principle upon which items are included has been and will be whether or not the proposal will make, or has the potential to make, a permanent contribution to the improvement and development of library service in our state. Also basic is the principle that grant funds do not take the place of local funds, but are to be used to support costs which cannot be considered a legitimate responsibility of the area requesting the grant or which constitute a temporary emergency.

WAC 304-12-290 Construction grant program—

Rules. The following final rules and regulations were adopted by the Washington state library commission in order to comply with the provisions of the Library Services and Construction Act of 1969 (formerly Public Law 88-269; Public Law 89-511 and now Public Law 91-600).

(1) Only projects to be owned by a state or local public agency are eligible for consideration.

(2) Requests for projects from any unit within a library district must be submitted with approval by the respective district library administration.

(3) Applicants will be required to give written evidence of official approval of any governmental unit involved in the project.

(4) Agreements to observe the legal requirements of the grants will be executed between the Washington state library commission and the officials administering approved projects.

(5) Applicants will be required to submit adequate evidence for evaluation of their request on the points established as criteria for evaluation by the Washington state library commission.

(6) Each application will be acknowledged and each applicant notified when the project will be considered by the state library commission.

(7) Each applicant will be notified concerning acceptance or rejection by the state library commission within ten days of such official action.

(8) Rejected applications will be accompanied by a statement as to why the project was not approved.

(9) Rejected applications may be resubmitted with evidence the objections have been met.

(10) Any applicant who feels their request has been unjustly rejected may request a hearing. Said hearing will be set to meet the convenience of both the Washington state library commission and the applicant insofar as is reasonably possible.

(11) The local share must be expended before grant funds will be paid, except for those projects covering two fiscal years, in which instance federal regulations will hold. Grant funds will be paid based upon a percentage of completion.

(12) Certification must be presented that local funds are on hand.

(13) Submission of a schedule of the planned progress of the project with estimated dates each step will be completed, is required.

(14) Upon receipt of formal approval by the state library commission, the project must be initiated within a six months' period.

(15) The building plans must meet the approval of the state library. Federal regulations, including but not limited to, evaluation of flood hazards, provision for the physically handicapped, environmental policies and procedures, and competitive bidding must be observed.

(16) When a plaque indicating completion date and source of funds is planned as part of the completed building or when a construction site sign is planned, acknowledgment shall be given to federal participation.

(17) The state library commission will establish a completion date, based upon the project architect's estimate of the time needed. A project is considered to be completed when it has been opened to the public for service.

(18) Expenses related to acquisition of an existing building or of land, architect's fees, preliminary planning and capital improvements mandated by law or regulation may be considered an allowable previous expense and used as matching funds. To be considered an allowable previous expense, the following criteria must be met:

(a) Expenses must be incurred within a three-year period prior to the date of award of the grant by the state library commission.

(b) Expenses must directly relate to the grant project.

(c) Type of funds used must meet allowable match criteria for Library Services and Construction Act projects.

(d) Expenditures must meet all federal regulations applicable to Library Services and Construction Act projects.

(19) Five percent of the federal share of the project will be withheld as the final payment. Final payment of the grant will be made upon completion of the project and when the state library commission has been satisfied that all conditions of the grant have been met, including the completion of a successful audit.

(20) When changes in federal regulations affect the above without sufficient time for formal notice and change, federal regulations will be considered as official.

(21) Projects are reviewed by the agency designated by the governor as federal coordinator.

(22) The advisory council will be kept fully informed as to pending projects, and progress of the approved project.

(23) Participants in federally-funded projects will cooperate with the advisory council during the period of evaluation.

WAC 304-16-010 Rules and regulations. (1) The Washington state library will publish a basic list of documents at least annually to include an author, title and subject index to the annual list.

(2) Prepare a monthly supplement to the basic list. At least one copy of each basic list and each basic supplement will be sent to each depository library.

(3) Indicate in the monthly supplement if a publication has been sent to the depositories, availability, etc.

(4) Ship documents at least once a week to all full depository libraries.

(5) Provide the Washington state library classification number and other pertinent cataloging data in each shipment for each new document title distributed as a suggested aid to other libraries in the organization of the documents.

(6) Confirm with state agencies as specified in RCW 40.06.030 the number of copies needed for distribution to libraries prior to publication.

(7) The Washington state library shall develop, in consultation with state agencies, periodically review and

distribute to depository libraries, the criteria for classification of documents as depository items.

(8) All library inquiries, special requests, etc., concerning requests for state documents [for libraries] which are directed to state agencies will be channeled through the state library.

(9) There will be periodic revisions of number of copies needed by libraries.

[(10)] Libraries should send to the state library names of every state agency on whose mailing list they are currently listed.

(11) If disagreement develops on designation of a library as a depository, a committee of arbitration will be set up by the president of the Washington Library Association acting under instructions from the Washington Library Association executive board. Any staff member of any library involved who is also on the Washington Library Association board will be ineligible to be a member of the arbitration panel.

(2) Any library designated as a depository shall meet the conditions specified in the following section:

(a) Provide space to house the publications in an approved manner with adequate provisions for expansion. State publications do not need to be maintained in a separate collection unless the receiving library prefers to do so. Housing in a vertical file rather than on shelves is acceptable for appropriate pamphlet-type materials.

(c) Process and shelve all state publications within 30 days after receipt of the material.

(d) Provide a professionally trained librarian to render satisfactory service without charge to qualified patrons in the use of such publications. This librarian need not spend full time on state publications.
