In accordance with the requirements of RCW 42.17.290 that agencies prevent unreasonable invasions of privacy, protect public records from damage or disorganization, and prevent excessive interference with essential functions of the agency, public records are only obtainable by members of the public when those members of the public comply with the following procedures:

(1) A request shall be made in writing. The written request shall be presented to the secretary (executive director) or designee at the administrative office of the board during customary office hours or may also be mailed. The request shall include the following information:

The board may impose a charge for providing copies of public records and for the use by any person of agency equipment to copy public records; such charges shall not exceed fifteen cents per page for photocopies of public records or for use of agency equipment to photocopy public records and the actual postage or delivery charge and the cost of any container or envelope used to mail the public records to the requester. [Statutory Authority: RCW 28A.305.010 and 28A.305.130. 96-01-066, § 180-10-030, filed 12/15/95, effective 1/15/96.]

WAC 180-10-035 Determination regarding exempt records. (1) The board reserves the right to determine that a public record requested in accordance with WAC 180-10-025 is exempt under the provisions of RCW 42.17.310 and 42.17.315. Such determination may be made in consultation with the secretary (executive director) or an assistant attorney general assigned to the board.

(2) Pursuant to RCW 42.17.260, the board reserves the right to delete identifying details when it makes available or publishes any public record when there is reason to believe that disclosure of such details would be an unreasonable invasion of personal privacy: *Provided, however,* In each case, the justification for the deletion shall be explained fully in writing.

(3) Response to requests for a public record must be made promptly. Within five business days of receiving a public record request, the board shall respond by either:

- (a) Providing the record;
- (b) Acknowledging that the board has received the request and providing a reasonable estimate of the time the board will require to respond to the request; or
- (c) Denying the public record request.

Additional time required to respond to a request may be based upon the need to clarify the intent of the request, to locate and assemble the information requested, to notify third persons or agencies affected by the request, or to determine whether any of the information requested is exempt and that a denial should be made as to all or part of the request. In acknowledging receipt of a public record request that is unclear, the agency may ask the requester to clarify what information the requester is seeking. If the requester fails to clarify the request within five working days of being asked for said clarification, the board need not respond to it.

(4) All denials of request for public records must be accompanied by a written statement, signed by the secretary (executive director) or designee, specifying the reason for the denial, a statement of the specific exemption authorizing the withholding of the record, and a brief explanation of how the exemption applies to the public record withheld.

[Statutory Authority: RCW 28A.305.010 and 28A.305.130. 96-01-066, § 180-10-035, filed 12/15/95, effective 1/15/96.]

WAC 180-10-040 Review of denials of public record requests. (1) Any person who objects to the denial of a request for a public record may petition for prompt review of such decision by tendering a written request for review. The written request shall specifically refer to the written statement which constituted or accompanied the denial.

(2) The written request by a person petitioning for prompt review of a decision denying a public record shall be submitted to the board's secretary (executive director) or designee.

(3) Within two business days after receiving a written request by a person petitioning for a prompt review of a

decision denying a public record, the secretary (executive director) or designee shall complete such review.

(4) During the course of the review the secretary (executive director) or designee shall consider the obligations of the board to comply fully with the intent of chapter 42.17 RCW insofar as it requires providing full public access to official records, but shall also consider both the exemptions provided in RCW 42.17.310 through 42.17.315, and the provisions of the statute which require the agency to protect public records from damage or disorganization, prevent excessive interference with essential functions of the agency, and prevent any unreasonable invasion of personal privacy by deleting identifying details.

[Statutory Authority: RCW 28A.305.010 and 28A.305.130. 96-01-066, § 180-10-040, filed 12/15/95, effective 1/15/96.]

WAC 180-16-162 Presumption of approved program operation—Strikes—Exception—Approval/disapproval of program during strike period. It shall be presumed that all school days conducted during a school year for which the state board of education has granted annual program approval are conducted in an approved manner, except for school days conducted during the period of a strike. The following shall govern the approval or disapproval of a program conducted during the period of a strike:

(1) Upon the submission of a complaint of substandard program operation by a credible observer, the state superintendent of public instruction may investigate the complaint and program being operated during the strike.

(2) The district's program shall be deemed disapproved if the investigation of the state superintendent establishes a violation of any one or more of the following standards or, as the case may be, such deviations as have been approved by the state board:

(a) All administrators must have proper credentials;

(b) WAC 180-16-220(2) which requires that all teachers have proper credentials;

(4) The decision of the state superintendent shall be final except as it may be reviewed by and at the option of the state board.

Nothing in WAC 180-16-162, 180-16-163 or 180-16-191 through 180-16-240 shall be construed as condoning or authorizing any form of work stoppage which disrupts the planned educational program of a district, or any portion thereof, or the maintenance of an approved program for less than the minimum number of school days required by law except as excused for apportionment purposes by the superintendent of public instruction pursuant to RCW 28A.150.290.

WAC 180-16-195 Annual reporting and review process. (1) **Annual district reports.** A review of each school district's kindergarten through twelfth grade program shall be conducted annually for the purpose of determining compliance or noncompliance with these basic education allocation entitlement requirements. On or before the third Monday in October of each school year, each school district superintendent shall complete and return the program data report form(s) prepared and distributed by the superintendent of public instruction. Such forms shall be designed to elicit data necessary to a determination of a school district's compliance or noncompliance with these entitlement requirements. Data reported on any such form(s) by a school district shall accurately represent the actual status of the school district's program as of the first school day in October and as thus far provided and scheduled for the entire current school year. Such forms shall be signed by:

- (a) The school board president or chairperson, and
- (b) The superintendent of the school district.

(2) **State staff review.** The superintendent of public instruction shall review each school district's program data report and such supplemental state reports as staff deemed necessary, conduct on-site monitoring visits of randomly selected school districts and prepare recommendations and supporting reports for presentation to the state board of education: *Provided*, That, if a school district's initial program data report and any other state reports considered do not establish compliance with these basic education allocation entitlement requirements, the district shall be

provided the opportunity to explain the deficiency and provide supplemental data. School districts which foresee that they will not be able to comply with these entitlement requirements or that are deemed by the superintendent of public instruction to be in noncompliance may petition for a waiver on the basis of the limited ground of substantial lack of classroom space as set forth in WAC 180-16-225.

(3) Annual certification of compliance or noncompliance—Withholding of funds for noncompliance.

(a) At the annual March meeting of the state board of education, or at such other meeting as the board shall designate, the board shall certify each school district as being in compliance or noncompliance with these basic education allocation entitlement requirements.

(b) A certification of compliance shall be effective for the then current school year subject to any subsequent ad hoc review and determination of noncompliance as may be deemed necessary or advisable by the state board of education or the superintendent of public instruction. In addition, a certification of compliance shall be effective tentatively for the succeeding school year until such time as the state board takes its annual action certifying compliance or noncompliance with these entitlement requirements.

(c) A certification of noncompliance shall be effective until program compliance is assured by the school district to the satisfaction of the superintendent of public instruction, subject to review by the state board. Basic education allocation funds shall be deducted from the basic education allocation of a school district that has been certified as being in noncompliance unless such district has received a waiver, pursuant to WAC 180-16-225, from the state board for such noncompliance, or assurance of program compliance is subsequently provided for the school year previously certified as in noncompliance and is accepted by the state board.

(d) The withholding of basic education allocation funding from a school district shall occur for a noncompliance provided that the school district has been given a reasonable amount of time to remediate the noncompliance situation, not to exceed forty school business days from the time the district receives notice of the noncompliance from the superintendent of public instruction. It is presumed that forty school business days is a reasonable time for school districts to correct an existing noncompliance. The superintendent of public instruction may extend such timeline only if the district demonstrates, by clear and convincing evidence, that such timeline is not reasonable to make the necessary corrections. For the purposes of this section, a school business day shall mean any calendar day, exclusive of Saturdays, Sundays, and any federal and school holidays upon which the office of the superintendent of the school district is open to the public for the conduct of business. A school business day shall be concluded or terminated upon the closure of said office for the calendar day.

(e) The superintendent of public instruction, or his/her designee, after notification to a school district regarding an existing noncompliance, shall enter into a compliance agreement with the school district that shall include, but not be limited to, the following criteria:

(i) A deadline for school district remediation of the noncompliance(s), not to exceed forty school business days per noncompliance as specified in (d) of this subsection.

(ii) A listing of all the noncompliance areas and the necessary terms that must be satisfied in each area in order for the school district to gain compliance status. This listing also shall specify additional deadlines for the accomplishment of the stated terms if different from the final deadline as specified in subsection (1) of this section.

(iii) A closing statement specifying that a school district's failure to remediate a noncompliance by the determined deadline shall result in the immediate withholding of the district's basic education allocation funding by the superintendent of public instruction.

(iv) The date and the signatures of the superintendent of the school district, or his/her designee, and the superintendent of public instruction, or his/her designee, to the agreement. A copy of the completed compliance agreement shall be sent to the chairperson of the school district's board of directors.

(f) In the event a school district fails to sign the compliance agreement within five school business days from the date of issuance or does not satisfy the terms of the signed compliance agreement within the designated amount of time, the superintendent of public instruction shall withhold state funds for the basic education allocation until program compliance is assured.

(g) The superintendent of public instruction shall withhold state funds for the basic education allocation to a school district based on the following procedure:

(i) For the first month that a noncompliance exists following the conditions as specified in (f) of this subsection, the superintendent of public instruction shall withhold twenty-five percent of the state funds for the basic education allocation to a school district.

(ii) For the second month that a noncompliance exists following the conditions as specified in (f) of this subsection, the superintendent of public instruction shall withhold fifty percent of the state funds for the basic education allocation to a school district.

(iii) For the third month that a noncompliance exists following the conditions as specified in (f) of this subsection, the superintendent of public instruction shall withhold seventy-five percent of the state funds for the basic education allocation to a school district.

(iv) For the fourth month, and every month thereafter, that a noncompliance exists following the conditions as specified in (f) of this subsection, the superintendent of public instruction shall withhold one hundred percent of the state funds for the basic education allocation to a school district until compliance is assured.

(h) Any school district may appeal to the state board of education the decision of noncompliance by the superintendent of public instruction. Such appeal shall be limited to the interpretation and application of these rules and regulations by such superintendent of public instruction. Such appeal shall not stay the withholding of any state funds pursuant to this section. The state board of education may not waive any of the basic education entitlement requirements as set forth in this chapter, except as provided in WAC 180-16-225.

WAC 180-16-200 Total program hour offering—Basic skills and work skills requirements—Waiver. (1) Total program hour offering—Definition.

(a) Each school district shall make available to students enrolled at least a total program hour offering as set forth in subsections (2) through (6) of this section. For the purpose of this section, "total program hour offering" shall mean those hours of sixty minutes each, inclusive of intermissions for class changes, recess and teacher/parent-guardian conferences which are planned and scheduled by the district for purposes of discussing students' educational needs or progress—exclusive of time actually spent for eating lunchtime meals—when students are provided the opportunity to engage in educational activity planned by and under the direction of school district staff, as directed by the administration and board of directors of the district.

For special education/handicapped programs operating in separate facilities in a school district, do not exclude the time actually spent for eating lunchtime meals if that time is specifically identified and utilized as instructional meal training for each student in the program.

(b) Adjustments of program hour offerings between grade level groupings. Any school district may petition the state board of education for a reduction in the total program hour offering requirements for one or more of the grade level groupings specified in subsections (2) through (6) of this section. The state board of education shall grant all such petitions that are accompanied by an assurance that the minimum total program hour offering requirements in one or more other grade level groupings will be exceeded concurrently by no less than the number of hours of the reduction.

(c) Each school district shall make available to students enrolled at least an instructional hour offering as set forth in subsections (3) through (6) of this section. For the purpose of this section, "instructional hour offering" shall mean those hours of sixty minutes each—exclusive of recess time, passing time, total lunch intermission time, and noncountable release time on early dismissal days—when students are provided the opportunity to engage in the basic skills and/or work skills offered by and under the direction of school district staff, as directed by the administration and board of directors of the district.

(d) A school district has "provided the opportunity to engage in" the basic skills and work skills activities required by this section when the district actually conducts basic skills and work skills instruction for students. If a district is not actually conducting the percentage(s) of basic skills and/or work skills required by this section, such district nevertheless shall be deemed to be in compliance with such requirements if such district's instructional time offered to students in basic skills and work skills instruction equals or exceeds the minimum instructional hour requirements in each grade level grouping as specified in subsections (3) through (6) of this section. A school district that makes a reasonable and good faith effort through the first day of the school term to provide students the opportunity to take the section(s) or course(s) necessary to comply with the basic skills and work skills percentages, as specified in subsections (3) through (6)

of this section and no student enrolled in such section(s) or course(s), may count that section(s) or course(s) toward the total basic skills and work skills percentages offered to students that term. Each of the basic skills areas specified in subsections (2) through (6) of this section for a particular grade level grouping must be offered each school year to students at one or more of the grade levels within the particular grade level grouping. Instruction in at least one of the following work skills must be offered each school year to students at one or more of the grade levels within each of the grade level groupings specified in subsections (5) and (6) of this section: Industrial arts, home and family life education, business and office education, distributive education, agricultural education, health occupations education, vocational education, trade and industrial education, technical education and career education.

(e) Five percent variation—Basic skills and work skills requirements. A school district may establish minimum course mix percentages that deviate within any grade level grouping by up to five percentage points above or below the minimums established by subsections (3) through (6) of this section, provided the total program hour offering requirement for the grade level grouping is met.

(2) **Kindergarten.** Each school district shall make available to students in kindergarten at least a total program offering of four hundred fifty hours each school year. The program shall include reading, arithmetic, language skills and such other subjects and activities as the school district shall determine to be appropriate for the education of the school district's students enrolled in such program.

(3) **Grades 1 through 3.** Each school district shall make available to students in grades one through three at least a total program hour offering of two thousand seven hundred hours each school year. A minimum of ninety-five percent (ninety percent with the five percent variation included, or 2,430 instructional hours) of such total program hour offerings shall be in the instruction of the basic skills areas of reading/language arts (which may include a language other than English), mathematics, social studies, science, music, art, health and physical education. The remaining five percent of the total program hour offerings may include such subjects and activities as the school district shall determine to be appropriate for the education of the school district's students in such grades.

(4) **Grades 4 through 6.** Each school district shall make available to students in grades four through six at least a total program offering of two thousand nine hundred seventy hours each school year. A minimum of ninety percent (eighty-five percent with the five percent variation included, or 2,524.5 instructional hours) of such total program hour offerings shall be in the instruction of the basic skills areas of reading/language arts (which may include a language other than English), mathematics, social studies, science, music, art, health and physical education. Each school district shall state which option is in use when providing compliance documentation to the superintendent of public instruction.

(7) Basis and means for determining compliance with basic skills and work skills percentage requirements.

(a) Each school district shall adopt a written policy and procedure for establishing the basis and means for determining and monitoring compliance with the basic skills and work skills percentages, the course requirements and instructional hour minimums as established by this section. WAC 180-16-205 Classroom teacher contact hours requirement—Waiver. (1) **Contact hours requirement—Definition.**

The average annual classroom contact hours for each average annual full-time equivalent certificated classroom teacher employed by a school district shall be no less than twenty-five hours per week. For the purpose of this section "classroom contact hours" shall mean those hours a certificated classroom teacher is instructing students in a classroom, exclusive of such time as the teacher spends for preparation, conferences, administrative duties, and any other nonclassroom instruction duties.

(2) **Classroom—Definition.** For the purpose of this section, "classroom" shall mean those areas or spaces within or without a building, on or off a school campus, that are utilized by a certificated classroom teacher and his/her students for the conduct of planned instructional activities.

(3) **Computation of FTE teachers.** For the purpose of this section the "average annual full-time equivalent classroom teachers" of a school district shall be the sum of full-time and part-time teachers computed as follows:

(a) **Full-time teachers.** Each employee who is employed full time for the regular instructional year exclusive of summer school, and who is assigned solely classroom instructional and related duties (e.g., planning periods, parent/teacher conferences, before and after school supervision of students, etc.) pursuant to his/her basic contract shall be counted as one full-time equivalent classroom teacher regardless of his/her actual teaching load. No such employee shall be counted as more than one full-time equivalent classroom teacher: *Provided*, That in the case of full-time employees of a school district that conducts a year round regular school program who are employed for a term in excess of the equivalent of the regular instructional year for individual students, such excess term of employment shall be counted as a portion of an additional full-time equivalent classroom teacher.

(b) **Part-time teachers.** Each part-time employee who is assigned classroom instructional duties solely or in part, and each full-time employee who is assigned both classroom instructional duties and nonclassroom related duties (e.g., administrative duties, extracurricular instructional or supervisory duties, etc.) pursuant to his/her basic contract, shall be counted as a fractional full-time equivalent classroom teacher based upon the percentage of time he or she performs duties equivalent to the duties performed by a full-time employee who is assigned solely classroom instructional duties and related duties (e.g., planning periods, parent/teacher conferences, before and after school supervision of students, etc.) pursuant to his/her basic contract.

(4) **Computation of annual average classroom contact hour requirement.** A school district's compliance with the average annual contact requirement shall be based upon teachers' normally assigned weekly instructional schedules, as assigned by the district administration. Additional recordkeeping by classroom teachers as a means of accounting for contact hours shall not be required.

(a) For each teacher, count the actual number of minutes during the school week when the teacher has regularly scheduled responsibilities for the instruction of students. Teacher instructional contact time for the purposes of this requirement shall be that time between the start of the first regularly scheduled class and the end of the last regularly scheduled class including actual minutes scheduled in all regular classes, laboratories, study halls and the supervision of extended classrooms, work experience, outdoor education and other such programs.

(b) Time spent for lunch intermissions, class changes, recesses, planning/preparation, staff meetings, home visits, conferences, supervision of students in noninstructional activities (lunch duty, playground duty, hall duty, sports programs, student clubs and other activities not requiring student attendance or required for credit), and for specialist teachers (librarian, subject-matter specialist) when the teacher is free from instructional purposes (i.e., released from classroom responsibilities) shall not be countable time for the purpose of computing the teacher's instructional contact. This time is considered valuable and is covered under (e) of this subsection.

(c) The number of average annual full-time equivalent classroom teachers employed by a school district and computed pursuant to subsection (3) of this section shall be divided into the total number of actual contact minutes within a normally scheduled instructional week, pursuant to (a) and (b) of this subsection, that such average annual full-time equivalent classroom teachers are scheduled to be in contact with and instructing students in a classroom (including those hours which would have been accrued but for the implementation of WAC 180-16-215(4) relating to students graduating from high school).

(d) The quotient received by dividing the total number of actual contact minutes per week, for all average annual full-time equivalent classroom teachers in the school district by the number of average annual full-time equivalent classroom teachers shall be called the net average contact minutes per week for the average annual full-time equivalent certificated classroom teacher in the school district.

(e) At the discretion of each school district board of directors, up to two hundred minutes per average annual full-

time equivalent classroom teacher for every five school days scheduled for the regular instructional year may be added to the net average contact minutes per week to accommodate for time spent in authorized parent-guardian/teacher conferences, recess, passing time between classes and informal instructional activity.

(f) The quotient received by dividing the net average contact minutes, per week, including up to two hundred minutes to accommodate for time spent in authorized parent-guardian/teacher conferences, recess, passing time between classes and informal instructional activity, by sixty shall be the school district's *average annual direct classroom contact hours* per week for the average annual full-time equivalent certificated classroom teacher in the school district.

(g) The average annual classroom contact hours per week shall not be less than twenty-five hours per week.

(5) **Waiver option, application and renewal procedures.** See WAC 180-18-050 for waiver process.

WAC 180-16-210 Kindergarten through grade three students to classroom teacher ratio requirement. The ratio of the FTE students enrolled in a school district in kindergarten through grade three to kindergarten through grade three FTE classroom teachers shall not be greater than the ratio of the FTE students to FTE classroom teachers in grades four through twelve. For the purpose of this section "classroom teacher" shall mean any instructional employee who possesses a valid teaching certificate or permit issued by the superintendent of public instruction, but not necessarily employed as a certificated employee, and whose "primary" duty is the daily educational instruction of students.

Computation of ratios. The FTE student to FTE classroom teacher ratios shall be computed as follows:

(1) For the purpose of this section exclude that portion of the time teachers and students participate in vocationally approved programs, traffic safety and special education programs from the above computations (i.e., programs hereby deemed to be "special programs").

(2) Exclude preparation and planning times from the computations for all FTE classroom teachers.

(3) Include in the above computations only the time certificated employees are actually instructing students on a regularly scheduled basis.

(4) Calculations:

(a) The kindergarten FTE October enrollment plus the October FTE enrollment in grades 1-3 divided by the FTE classroom teachers whose "primary" duty is the daily instruction of pupils in grades K through 3.

(b) The October FTE enrollment in grades 4 and above divided by the FTE classroom teachers whose "primary"

duty is the daily instruction of pupils in grades 4 and above: *Provided*, That any district with three hundred or fewer FTE students in grades K-3 and an average K-3 classroom ratio of twenty-five or fewer FTE classroom students to one FTE classroom teacher shall be exempt from the FTE students to FTE classroom teachers ratio requirement of this subsection.

WAC 180-16-223 Temporary out-of-endorsement assignment criteria. In order to assign a classroom teacher to an out-of-endorsement assignment for more than one year, the board of directors of the district must comply with the following:

(1) The board of directors of the district must make one or more of the following factual determinations:

(a) The district was unable to recruit a teacher with the proper endorsement who was the best qualified of candidates for the position.

(b) The need for a teacher with such an endorsement could not have been reasonably anticipated and the recruit-

ment of such a classroom teacher at the time of assignment was not reasonably practicable.

(c) The reassignment of another teacher within the district with the appropriate endorsement to such assignment would be unreasonably disruptive to the current assignments of other classroom teachers or would have an adverse effect on the educational program of the students assigned such other classroom teachers.

(d) The district has a surplus of teachers with endorsements in specified grade levels or subject areas and it is necessary to reassign such teachers in whole or part in order to avoid adversely affecting such teachers' contract status.

(2) The teacher assigned to the out-of-endorsement grade level or subject area must meet the following requirements:

(a) The teacher so assigned must have at least two full school years of classroom teaching experience and must not have been placed on probation pursuant to RCW 28A.405.100 during the last two school years.

(b) The teacher so assigned must have completed six semester hours or nine quarter hours of course work which are applicable to an endorsement in the out-of-endorsement grade level or subject area.

(3) The board of directors of the district shall comply with the following conditions:

(a) Prior to the assignment of the out-of-endorsement grade level or subject area, or as soon as reasonably practicable thereafter, but in no event beyond twenty school days after the commencement of the assignment, if the assignment was not reasonably foreseeable, a designated representative of the district and the classroom teacher so assigned shall mutually develop a written plan which provides necessary assistance to the teacher so assigned and which provides for a reasonable amount of planning and study time associated specifically with the out-of-endorsement classroom assignment.

(b) No classroom teacher shall be assigned in any one semester or trimester to more than one preparation in one out-of-endorsement grade level or subject area and for no more than two periods of not more than sixty minutes each per day.

(c) Any observation conducted in the out-of-endorsement grade level or subject area will not be utilized by the district as evidence to support probation of the teacher so assigned pursuant to RCW 28A.405.100 or nonrenewal of such teacher pursuant to RCW 28A.405.210.

(d) A second or third year assignment to an out-of-endorsement grade level or subject area will be made only pursuant to WAC 180-16-224 and in no case will the teacher be assigned to the same out-of-endorsement grade level or subject area during more than three school years at any time in which the teacher serves within the same school district; hence, this provision applies to assignments in consecutive or nonconsecutive school years.

(4) The board of directors shall submit to the office of superintendent of public instruction as part of its annual report required by WAC 180-16-195, a list which indicates all assignments for the previous school year in out-of-endorsement grade levels or subject areas. Such list shall include:

(a) The name and certification number of each teacher so assigned, the out-of-endorsement grade levels or subject

areas and the number of such periods taught by such teacher, and the dates upon which such assignment(s) commenced and concluded.

(b) The reason for each such assignment.

(c) The reason why the particular teacher was selected for the out-of-endorsement grade level or subject area.

(d) A dated copy of each plan of assistance required pursuant to subsection (3)(a) of this section. Such copy shall not contain any personal information the disclosure of which would violate the named teacher's right to privacy pursuant to RCW 42.17.310(b).

(e) An assurance that each such assignment was made in compliance with WAC 180-16-221 through 180-16-224.

(5)(a) If the conditions in subsections (1), (2) and (3) of this section are met, a school district may place a teacher in an out-of-endorsement assignment without the approval of the state board of education.

(b) If the conditions in one or more of subsection (1), (2) or (3) of this section are not met a school district must apply for a waiver under subsection (6) of this section.

(6) *Provided*, That the provisions of subsections (2)(a) and (b) and (3)(b) of this section shall be waived for a period of three consecutive school years for each proposed out-of-endorsement assignment by the state board of education or such lessor period as specified by the board, if:

(a) The board of directors of the school district adopts a resolution for each proposed out-of-endorsement assignment which states that the district has made a good faith effort to comply with the provision(s) for which it is requesting a waiver. Such resolution must recite the actions that the school district has taken to comply. Upon adoption and transmission of such resolution to the superintendent of public instruction, the district shall be authorized to assign each such classroom teacher affected to the proposed out-of-endorsement assignment until the state board of education makes its determination under (c) of this subsection.

(b) The superintendent of public instruction presents the resolution at a meeting of the state board of education and documents to the board the stated efforts of the district.

(c) The state board of education determines, based on the evidence received, that a good faith effort to comply has been made.

Notwithstanding the provisions of WAC 180-16-223(1), a classroom teacher who was assigned an out-of-endorsement grade level or subject area for the previous school year may be assigned to the same assignment for a second or third school year if the board of directors of the district offers to reimburse the teacher so assigned any tuition costs, equal to at least the rate of tuition at the nearest regional or state university, whichever is closer, that is necessary, up to a maximum of fifteen quarter or ten semester hours, to secure the needed endorsements for

(1) **Grounds.** The state board of education may waive one or more of the basic education allocation entitlement requirements set forth in WAC 180-16-200 through 180-16-220(1) only if a school district's failure to comply with such requirement(s) is found by the state board to be caused by substantial lack of classroom space.

As a condition to a waiver based on substantial lack of classroom space the state board will consider and a school district must demonstrate at least that the facilities of the school district do not contain enough classroom space or other space that can reasonably be converted into classroom space, and that necessary classroom space may not reasonably be acquired by lease or rental, to enable the district to comply with the referenced entitlement requirements.

(2) **Waiver procedure.** In order to secure a waiver pursuant to subsection (1) of this section a school district must submit a petition together with a detailed explanation and documentation in support of its request not later than thirty days prior to either:

(a) The state board of education meeting immediately preceding commencement of the school year; or

(b) The March (or such other meeting as the state board shall have established) meeting of the board at which the board will consider certifications of compliance and noncompliance with these entitlement requirements.

A school district that can reasonably foresee an inability to comply with entitlement requirements by reason of substantial lack of classroom space should petition for a waiver as early as the state board meeting immediately preceding commencement of the school year in order to allow for the possibility that the request may be denied.

(3) **Nonwaiverable requirements.** The certification, including endorsement, and the student learning objectives requirements set forth in WAC 180-16-220 (2) and (3) may not be waived for any reason.

WAC 180-20-115 Issuing procedures for temporary school bus driver authorization—Effective period. A temporary authorization may be issued by an educational service district superintendent upon application by an authorized representative of the employing school district subject to compliance with the following provisions:

(1) Issuing procedure.

(a) Application for a temporary authorization must be approved by an authorized representative of the employing school district, verified by said school official that the applicant meets the qualification requirements set forth in WAC 180-20-101 (except for a course in first aid and/or the results of a requested criminal record check), and further verified by a certified instructor that the applicant has satisfactorily completed the appropriate training course. The application shall be submitted to the educational service district superintendent for approval.

(b) Upon approval of the application by the educational service district superintendent, the temporary authorization will be transmitted to the employing school district.

WAC 180-20-120 Discipline—Grounds for denial, suspension, or revocation of authorization. (1) A request for an authorization may be denied or an authorization issued under this chapter may be suspended, or revoked for failure to meet any of the minimum requirements set forth in WAC 180-20-101, established by a preponderance of the evidence.

(2) Conduct, which by a preponderance of the evidence, amounts to a serious behavioral problem which endangers the educational welfare or personal safety of students, teachers, bus drivers, or other colleagues is grounds for denial, suspension, or revocation whether or not the conduct constitutes a crime. If the act constitutes a crime, conviction in a criminal proceeding is not a condition precedent to denial, suspension, or revocation action. Upon such conviction, however, the judgment and sentence is conclusive evidence at the ensuing hearing of the guilt of the authorized driver or applicant of the crime described in the indictment or information, and of the person's violation of the statute on which it is based.

(3) Any person in treatment for alcohol or other drug misuse shall have his or her authorization temporarily suspended until successful treatment is satisfactorily confirmed by a state-approved alcohol or other drug treatment program, or by the court in deferred prosecution cases under chapter 10.05 RCW, at which time the authorization will be reinstated.

[Statutory Authority: RCW 28A.160.210. 96-20-042, § 180-20-120, filed 9/24/96, effective 10/25/96; 93-08-007, § 180-20-120, filed 3/24/93, effective 4/24/93.]

WAC 180-20-123 Applicability of chapter to off-duty hours. Nothing in WAC 180-20-101 (1)(o) shall be applied so as to deny, revoke, or suspend authorizations to any individual for the orderly exercise during off-duty hours of any rights guaranteed under the law to citizens generally, except where such conduct indicates a safety risk for the transportation of students.

[Statutory Authority: RCW 28A.160.210. 93-08-007, § 180-20-123, filed 3/24/93, effective 4/24/93.]

WAC 180-20-125 Discipline—Emergency suspension. If the superintendent of public instruction finds that public health, safety, or welfare imperatively requires emergency action, and incorporates a finding to that effect in its order, emergency suspension of an authorization may be ordered pending proceedings for revocation or other action. In such cases, the superintendent of public instruction shall expedite all due process actions as quickly as possible.

[Statutory Authority: RCW 28A.160.210. 93-08-007, § 180-20-125, filed 3/24/93, effective 4/24/93.]

proceedings in RCW 34.05.413 through 34.05.494 and the administrative practices and procedures of the superintendent of public instruction in chapter 392-101 WAC.

(2) The superintendent of public instruction may assign the adjudicative proceeding to the office of administrative hearings and may delegate final decision making authority to the administrative law judge conducting the hearing.

(2) The notification in writing shall be by certified or registered mail and shall identify the name of the authorized driver, his or her authorization number, the court in which the action is commenced, and the case number assigned to the action.

[Statutory Authority: RCW 28A.160.210. 93-08-007, § 180-20-140, filed 3/24/93, effective 4/24/93.]

(1) Every school district shall evaluate each authorized driver for continuing compliance with the provisions of this chapter annually. (2) This report shall be added to the regular school bus driver status report (Report 1799) exchanged between all school districts and the superintendent of public instruction.

WAC 180-24-003 Authority. The general authority for this chapter is RCW 28A.305.130(9) which authorizes

(1997 Ed.)

the state board of education to carry out powers and duties relating to the organization and reorganization of school districts under chapter 28A.315 RCW. This authority is supplemented by the following specific statutes:

(1) RCW 28A.305.150 which requires the state board of education to prescribe regulations governing the classification and numbering system of school districts;

(2) RCW 28A.315.120 which authorizes the state board of education to establish standards and considerations to be utilized by regional committees and the state board of education for approval of proposals for changes in the organization of school districts, including any equitable adjustment of the assets and liabilities of the districts involved in the reorganization;

(3) RCW 28A.315.060 which empowers the state board of education to establish regulations for the conduct of elections for membership on regional committees.

WAC 180-24-007 Purpose. The purpose of this chapter is to set forth policies and procedures of the state board of education related to the implementation of its authority pursuant to chapter 28A.315 RCW, Organization and reorganization of school districts, and its related authority within RCW 28A.305.150 pertaining to the classification and numbering of school districts.

WAC 180-24-008 Constitutional and statutory framework. Under the constitutional framework and the laws of the state of Washington, local school districts are political subdivisions of the state and, consequently, the organization of such districts—including the powers, duties, and boundaries thereof—may be altered or abolished by laws of the state of Washington. Current laws provide three alternative methods for changing district boundaries. They are:

(1) Consolidation of existing districts into a new district, pursuant to RCW 28A.315.270, which requires ratification by a majority of the registered voters within each district affected by the consolidation proposal;

(2) Transfer of territory from one district to another, pursuant to RCW 28A.315.280, and which requires ratification by a majority of the registered voters within the area to be transferred only if ten percent or more of the common school population within the district of the territory proposed to be transferred are affected;

(3) Dissolution and annexation of a district to one or more contiguous districts under conditions stated in RCW 28A.315.290 and 28A.315.320. Such conditions may require dissolution and annexation or may require the regional committee to give consideration to such action; but, in either case, no ratification by the registered voters within the dissolved school district is required.

[Statutory Authority: 1990 c 33. 90-17-009, § 180-24-008, filed 8/6/90, effective 9/6/90. Statutory Authority: RCW 28A.04.120(9). 87-04-059 (Order 1-87), § 180-24-008, filed 2/4/87.]

WAC 180-24-013 State policy—The preferred four-part test. The state board of education is vested with the final administrative power and duty to judge and approve or disapprove recommended changes in the organization and extent of school districts as defined in RCW 28A.315.020 (hereafter referred to as a change in school district organization). Prior to acting upon a recommended change in school district organization, the state board of education shall consider the regional committee report required by WAC 180-24-115. No single consideration or combination of considerations necessarily warrants a change in school district organization. It, however, shall be the policy of the state board of education to favor those recommended changes in school district organization which in the board's judgment meet the following four-part test:

(1) Part one—Geographic accessibility. The first part of the test is that a recommended change in school district organization involves populated areas, and either (a) the area recommended for transfer from one school district to another is significantly more geographically accessible for school program purposes to the school district to which transfer is proposed, or (b) in the case of a recommended annexation or consolidation, the area or areas of the proposed enlarged or new district or districts taken as a whole is generally geographically accessible for school program purposes.

Whether or not geographic accessibility warrants a favorable consideration of a recommended change in school district organization shall be judged based upon the factors set forth in WAC 180-24-016.

(2) Part two—Significant detrimental effects, if any, on operational efficiency. The second part of the test is that at a minimum the recommended change in school district organization is not likely to have a significant detrimental effect upon the operational efficiency of any affected school district.

The likely effects of a recommended change in school district organization upon the operational efficiency of the affected school districts shall be judged based upon the factors set forth in WAC 180-24-017.

Part two of the test involves a minimum or threshold consideration respecting operational efficiency, and is not intended to disregard the desirability of effecting improvements in the organization and operation of school districts above and beyond a significant increase in geographic accessibility. Accordingly, the likely positive effects upon operational efficiency shall also be judged in accordance with the third part of the test.

(3) Part three—Overall satisfactory improvement in the school system. The third part of the test is that the likely positive and negative effects of a recommended change in school district organization respecting (a) geographic accessibility and (b) operational efficiency taken as a whole provide for a satisfactory improvement in the school district system of the counties and the state.

Part three of the test involves a judgmental weighing of the various degrees of the likely positive and negative effects of a recommended change in school district organization. In making this judgment the state board of education may consider such additional matters as the state board deems pertinent including, but not limited to, the region involved, the state's instructional and building programs, and economic patterns.

(4) Part four—Equitable adjustment of assets and liabilities. If the recommended change in school district organization necessarily involves a consideration of an adjustment in school district assets and liabilities, the fourth part of the test is that an equitable adjustment of assets and liabilities is provided for.

[Statutory Authority: 1990 c 33, 90-17-009, § 180-24-013, filed 8/6/90, effective 9/6/90. Statutory Authority: RCW 28A.04.120(9), 87-04-059 (Order 1-87), § 180-24-013, filed 2/4/87.]

WAC 180-24-016 Factors pertaining to geographic accessibility. The matter of geographic accessibility generally involves a consideration of the extent to which two or more areas are, or are not, compatible in terms of travel to and from the areas. The following factors shall be considered in judging whether or not a recommended change in school district organization meets the first part of the test set forth in WAC 180-24-013:

(1) Mountains, hills, valleys, waste land, and related geographic and man-made features which either enhance or impede travel;

(2) Rivers, lakes, canals, and other natural or man-made waterways and bodies of water which either enhance or impede travel;

(3) The extent and nature of roads, highways, ferries, and traffic patterns;

(4) Climatic conditions; and

(5) The time required to travel to and from school.

(a) Public schools located on American Indian reservations; or

(b) School buildings which are the sole site within a school district for the conduct of a regular or special needs program for students of the age(s) or grade level(s) served at the site; or

(c) Student enrollments in programs established and conducted to address extraordinary educational needs, such as bilingual orientation programs, where the assignment and

enrollment of students are based solely upon their extraordinary educational needs, the enrollment of students in the program is limited to the duration of their extraordinary educational need, and adherence to the policy would defeat the educational purpose of the program.

WAC 180-27-010 Purpose. The purpose of this chapter is to set forth provisions applicable to basic state support and assistance in the construction of school facilities, including state board of education approval criteria. The limitations set forth represent the level of state support within moneys available and are not to be interpreted as maximum criteria to meet the educational requirements of all school districts, the determination of such criteria being the prerogative of respective school districts.

(a) To equate insofar as possible the efforts by districts to provide capital moneys;

(b) To equalize insofar as possible the educational opportunities for the students of the state;

(c) To establish a level of state support for the construction and modernization of school facilities consistent with moneys available;

(d) To recognize that districts may find it necessary to apply local moneys in excess of state matching funds in order to provide facilities commensurate with their respective educational specifications; and

(e) To recognize that districts may have reasons to remove district facilities from current inventories and provide consistent state-wide policies for removal.

(2) Nonhigh district participation in financing the cost of secondary school facilities shall be established pursuant to the provisions of chapter 28A.540 RCW.

(2) In the event the percentage of state assistance to any school district computed in accordance with RCW 28A.525.166(2) is less than twenty percent and such school district otherwise is eligible for state assistance under statutory provisions and state board of education regulations, the percentage for such district shall be twenty percent of the matchable cost of the project.

(3) In addition to the computed percent of state assistance as stated above, a school district as provided in RCW 28A.525.166(3), shall be entitled to additional percentage points determined by the average percentage of growth for the past three years. One percent shall be added to the computed percent of state assistance for each average percent of student growth for the past three years, with a maximum addition of twenty percent. In no case shall the state dollars matched exceed one hundred percent of the maximum allowable cost of the project.

WAC 180-27-030 Applicable state matching percentage for project. Pursuant to provisions of RCW 28A.525.166, the percentage of state assistance prevailing at the time the voters of the school district authorize the issuance of bonds and/or the levying of excess taxes to meet the statutory and state board of education fiscal requirements for state assistance in providing school facilities shall be the percentage used for the allocation of state moneys: *Provided*, That in the event a higher percentage of state assistance prevails at the time of state board of education project approval or at the superintendent of public instruction construction and other document approval as set forth in WAC 180-29-030 and 180-29-085, then that higher percentage of state assistance shall govern the project.

(1) State assistance in the construction of school facilities for grades kindergarten through twelve and classrooms planned for the exclusive use of handicapped students shall be based on a space allowance per enrolled student and for state matching purposes shall be computed in accordance with the following table:

Grade or Area	Maximum Matchable Area Per Student
Grades kindergarten through six	80 square feet
Grades seven and eight	110 square feet
Grades nine through twelve	120 square feet
Classrooms for handicapped	140 square feet

For purposes of this subsection, kindergarten students shall be calculated at fifty percent of actual headcount enrollments on October 1 and submitted to the superintendent of public instruction on October 1 each year; handicapped students shall be counted as one student for each such student assigned to a specially designated self-contained classroom for handicapped children for at least one hundred minutes per school day, calculated on actual headcount enrollment submitted to the superintendent of public instruction.

(2) State assistance for construction of vocational-technical institutes shall be based on full time equivalent students enrolled on October 1 and computed as follows:

Type of Facility	Maximum Matchable Area Per Full-Time Equivalent Student
Vocational-Technical Institutes	140 square feet

(3) State assistance for construction of vocational skill centers shall be based on one-half of students enrolled on October 1 and computed as follows:

Type of Facility	Maximum Matchable Area Per One-Half Enrolled Student
Skill Centers	140 square feet
(4) Space allowance for state matching purposes— districts with senior or four-year high schools with fewer than four hundred students. Space allowance for districts with senior or four-year high schools with fewer than four hundred students for state matching purposes shall be computed in accordance with the following formula:	
Number of Headcount Student-Grades 9-12	Maximum Matchable Area Per Facility
0-100	37,000 square feet
101-200	42,000 square feet
201-300	48,000 square feet

The square foot area analysis, when submitted for review by the superintendent of public instruction shall be calculated in accordance with the American Institute of Architects, Document D101, *The Architectural Area and Volume of Buildings*, latest edition, except for the following areas which shall not be counted:

- (1) Exterior covered walkways, cantilevered or supported;
- (2) Exterior porches, including loading platforms; and
- (3) Spaces above occupied areas which are either vacant or primarily housing mechanical and/or electrical equipment.

WAC 180-27-045 Space allocations—Enrollment projection provisions. In planning for construction of all school facilities, a school district shall estimate capacity needs on the basis of the following:

- (1) A three or five-year cohort survival enrollment projection for growth districts, whichever is greater;
- (2) A three or five-year cohort survival enrollment projection for a declining district, whichever is lesser;
- (3) Actual enrollment of preschool handicapped students; and
- (4) Supplemental information regarding district growth factors which may include but not be limited to the following types of information:
 - (a) County live birth rates;
 - (b) New housing starts;
 - (c) Utility/telephone hookups; and
 - (d) Economic/industrial expansion.

For the purpose of this section, kindergarten students and students with disabilities shall be counted as provided

(1997 Ed.)

under WAC 180-27-035 and all other grade one through twelve students shall be counted as October count day full-time equivalent students as reported to the superintendent of public instruction: *Provided*, That a school district which has or has had an annual average full-time equivalent enrollment of over five hundred, and which applied for and received additional state basic education allocation moneys based upon an enrollment increase after the first of the month enrollment count, may use the average of the two highest monthly full-time equivalent enrollment counts during the school year.

WAC 180-27-050 Space allocations—Computing building capacity. The net total area of a school facility eligible for state matching purposes shall be calculated as follows:

(1) The capacity of existing buildings within the district based on the school district's assigned grade spans shall be computed in accordance with the tables set forth in WAC 180-27-035 and the square foot area analysis set forth in WAC 180-27-040.

(2) The number of students projected at each grade span shall be multiplied by appropriate numbers of square feet as set forth in WAC 180-27-035. (Note: The area generated at each grade level determines district eligibility, if any.)

(3) The amount of housing the district is eligible to construct at each grade span is determined by subtracting the area computed in subsection (2) of this section from the existing housing capacity at each grade span in the school district. Using this formula, over housing at the secondary grade level, grades nine through twelve, or elementary grade level, kindergarten through eight, will not negatively affect unhoused eligibility at the elementary grade level or secondary grade level respectively.

(4) Appropriate grade assignment is a local determination and shall not affect the above calculations.

WAC 180-27-052 Order of funding under dual priority systems. During a priority approval process imposed by order of the state board of education, projects which secured local capital funds and state board of education project approval under WAC 180-25-045 as of January 26, 1991, and which continue to remain eligible under WAC 180-25-040 and 180-26-060, shall be prioritized under WAC 180-27-058 and funded prior to other projects. All other projects shall then be prioritized under WAC 180-27-500 and funded to the extent state construction assistance moneys remain available.

[Statutory Authority: RCW 28A.525.020 and 1992 c 233 § 24(8). 92-16-058, § 180-27-052, filed 8/3/92, effective 9/3/92.]

WAC 180-27-053 State moneys for studies and surveys. State moneys for school district studies and

surveys conducted pursuant to chapter 180-25 WAC shall be available even though the state board of education deems it necessary to order a priority approval process pursuant to WAC 180-27-054. At the beginning of each biennium, the superintendent of public instruction shall estimate the amount of moneys necessary for allocation to districts for studies and surveys and not make such moneys available for any other purpose. In the event the estimated amount proves to be insufficient, the superintendent shall set aside additional moneys.

[Statutory Authority: RCW 28A.47.830. 85-04-008 (Order 2-85), § 180-27-053, filed 1/25/85.]

WAC 180-27-054 Implementation of priority approval process. In the event the state board of education determines that projected revenues, as calculated by the ceiling established in WAC 180-27-056(2), are insufficient to meet school construction needs of school districts for the ensuing state fiscal year, the state board of education shall order the implementation of a priority approval process on final approval by the superintendent of public instruction of additional school construction projects pursuant to WAC 180-29-107. Such priority approval process shall remain in effect until the order is rescinded by the state board of education: *Provided*, That if the state board of education determines that projected revenue is insufficient for the 1985-86 state fiscal year, the priority approval process shall not become effective prior to the end of the 1985 regular session and any immediately following special session of the forty-ninth legislature unless the state board of education prior to such adjournment specifically orders an earlier implementation date.

[Statutory Authority: RCW 28A.47.830. 85-04-008 (Order 2-85), § 180-27-054, filed 1/25/85.]

WAC 180-27-056 Funding during the period of a priority approval process order by state board of education. During the period of a priority approval process imposed by order of the state board of education school construction projects shall receive final approval pursuant to WAC 180-29-107 as follows:

(1) On or after July 1 following the state board of education order for the implementation of a priority approval process the superintendent of public instruction shall rank all projects for which final approval has been requested pursuant to WAC 180-29-107 as per the applicable priority list in WAC 180-27-058 or 180-27-500. Only school construction projects with state board of education approval under WAC 180-25-045 and secured local capital funds by December 31 of the previous state fiscal year and eligible for final approval pursuant to WAC 180-29-107 by June 30 of the previous state fiscal year shall be placed on that priority list: *Provided*, That for the state fiscal year beginning July 1, 1992, the December 31, 1991, cutoff date is extended to March 27, 1992.

(2) Based on a ceiling of one and one-half times the amount of the estimated revenue available for the state fiscal year plus fund balance for the state fiscal year minus outstanding encumbrances for the state fiscal year or as close thereto as is reasonably practical, the superintendent of public instruction shall give final approval pursuant to WAC

180-29-107 during the state fiscal year to school construction projects on the priority list. For the purpose of this subsection the term "estimated revenue available for the state fiscal year" shall mean the estimated revenue from the common school construction fund for the current state fiscal year and the subsequent state fiscal year, the result of which is divided by two.

(3) In the event the state board of education does not rescind the order for the implementation of a priority approval process by the close of the state fiscal year, school construction projects remaining on the priority list without final approval and, therefore, without secured funding status pursuant to WAC 180-29-107 shall be combined with new school construction projects that have secured local capital funds by December 31 of the state fiscal year and that are eligible, pursuant to WAC 180-29-107, for final approval by the close of the state fiscal year, and a new priority list shall be established on or after July 1 of the next state fiscal year and such remaining and new school construction projects shall be eligible for final approval pursuant to the provisions of subsections (1) and (2) of this section.

Notwithstanding the provisions of WAC 180-27-056, if within any state fiscal year, that is the second year of a biennium, there is funding authority and revenue in excess of what is required for the priority list established pursuant to WAC 180-27-056, then there may be a subsequent priority list established in the same state fiscal year for the purpose of funding or encumbering funding only for those projects for which preliminary funded status had been granted prior to July 1 of that state fiscal year. The priority order shall be as per WAC 180-27-500 through 180-27-535.

WAC 180-27-057 State assistance—Deferred payment. (1) In the event state moneys are not sufficient for a school district project, a school district may proceed at its own financial risk. At such time state moneys become

available, reimbursement may be made for the project provided the provisions of chapter 180-29 WAC have been complied with.

(2) Notwithstanding subsection (1) of this section, and the moratorium upon approval imposed by WAC 180-25-300, a school district may elect to proceed in compliance with the procedural requirements of chapters 180-25 through 180-33 WAC with a project for which a completed request for state board approval was filed with the superintendent of public instruction during the period January 1 through March 30, 1989, at the district's expense and risk; and, the project may be approved for state assistance purposes by the board subsequent to the termination of this moratorium subject to the terms and conditions of chapters 180-25 through 180-33 WAC, as hereafter revised and in effect at the time of approval.

WAC 180-27-058 State assistance—Priorities. The priority system for the funding of school construction projects that have secured local capital funds and state board of education project approval per WAC 180-25-045 as of January 26, 1991, during a priority approval process imposed by order of the state board of education shall be as follows:

(1) Priority one: New construction projects in districts with unhoused students other than those in priority two. Projects within this priority shall be ranked as follows: The project with the highest percentage of unhoused students in the district by grade level on the date of project approval pursuant to WAC 180-25-040 shall be ranked highest—i.e., projected enrollment times authorized space allocation as calculated pursuant to WAC 180-27-035 divided by capacity of existing buildings as calculated pursuant to WAC 180-27-050(1). In the event two or more districts possess an equal percentage of unhoused students, the district with the greatest number of unhoused students shall be ranked the highest.

(2) Priority two: New construction projects in districts with unhoused students due to the need to replace a building. In the event the district is precluded from educating students in a facility due to bona fide abatement procedure and order to vacate, such related space requirement shall be treated as unhoused students in priority one. Projects with this priority shall be ranked as follows: The project with the highest percentage of unhoused students in the district by grade level on the date of project approval pursuant to WAC 180-25-040 shall be ranked highest. In the event two or more districts possess an equal percentage of unhoused students, the district with the greatest number of unhoused students shall be ranked the highest.

(3) Priority three: All projects with secured local capital funding and authority to proceed pursuant to WAC 180-25-040 as of September 30, 1985, which are not included in priority one or two pursuant to this section. Projects within this priority shall be ranked pursuant to the priority system in effect as of September 30, 1985: *Provided*, That the authority to proceed pursuant to WAC 180-25-040 and the priority three ranking of any such project shall lapse and be null and void as of July 2, 1991, unless approval to open

bids for the project has been granted pursuant to WAC 180-29-107 prior to that date.

(4) Priority four: New construction of vocational-technical institutes and interdistrict cooperative vocational skill center facilities. Projects within this priority shall be ranked as follows: The project with the earliest date of project approval pursuant to WAC 180-25-040 shall be ranked highest. In the event two or more projects possess the same project approval date, the project with the earliest date of application received in the office of superintendent of public instruction shall be ranked the highest. Funding allocations for this priority shall not exceed ten percent of the available funds remaining after funding eligible projects in priorities one and two or for one vocational-technical institute or interdistrict skill center project, whichever is greater.

(5) Priority five: Modernization projects in districts with no unhoused students and not funded under priority three. Projects within this priority shall be ranked as follows: The project with the highest percentage of projected student occupancy shall be ranked the highest—i.e., projected enrollment times authorized space allocation as calculated pursuant to WAC 180-27-035 divided by capacity of existing buildings as calculated pursuant to WAC 180-27-050(1). In the event two or more projects possess an equal percentage, the highest ranking shall be given to the project with the earliest date of project approval pursuant to WAC 180-25-040. For the purpose of ranking within this subsection vocational technical institute and interdistrict cooperative facilities other than interdistrict transportation cooperatives shall be considered as independent school district projects: *Provided*, That under no circumstances should this priority receive less than sixty percent of funds available for priorities four and five.

(6) Priority six: New construction of interdistrict cooperative facilities which are not included in priority three, four, or seven. The project with the earliest date of project approval pursuant to WAC 180-25-040 shall be ranked the highest. In the event two or more projects possess the same project approval date, the project with the earliest date of application received in the office of superintendent of public instruction shall be ranked the highest.

(7) Priority seven: Interdistrict transportation cooperatives. Projects within this priority shall be ranked as follows: The project with the earliest date of project approval pursuant to WAC 180-25-040 shall be ranked the highest. In the event two or more projects possess the same project approval date, the project with the earliest date of application received in the office of superintendent of public instruction shall be ranked the highest.

WAC 180-27-060 Determining the area cost allowance. The area cost allowance for state assistance shall apply to the cost of construction of the total facility and grounds including state sales and use taxes generally levied throughout the state of Washington and excluding those local option sales and use taxes levied by political subdivisions. The maximum area cost allowance used in calculating state financial assistance for construction of school facilities shall be determined by the superintendent of public instruction as follows:

(1) Commencing with the two-month period of July-August, 1984, a two-month area cost allowance is determined as follows: The average seven-city building cost index for commercial and factory buildings in Washington state reported by the E. H. Boeckh Company (Boeckh Index) for that two-month period (1,494.99) shall be multiplied by the 1984 area cost allowance (\$74.87). That product shall be divided by the 1984 area cost index (1,494.99).

(2) The calculation in subsection (1) of this section shall be made for each subsequent two-month period averaging six Washington cities and the Portland, Oregon metropolitan area reported by E. H. Boeckh Company.

(3) Each of the actual two-month area cost allowances calculated as set forth in subsections (1) and (2) of this section shall be recorded by the superintendent of public instruction.

(4) The average monthly rate of increase in the area cost allowance for the previous one year is determined as follows: Not later than August 31 of each year, the actual two-month area cost allowance calculated for the first two-month reporting period in the twelve-month period ending August 31 shall be subtracted from the actual area cost allowance for the current two-month reporting period. This result shall be divided by twelve.

(5) The projected maximum monthly area cost allowances for the next ensuing school fiscal year are calculated as follows:

(a) The area cost allowance for July-August 1985 effective September 1, 1985 shall be the actual amount as calculated in subsections (1) and (2) of this section.

(b) The projected area cost allowance for the following twelve months will be the amount of the previous month plus the average monthly rate of increase as calculated in subsection (4) of this section.

(6) The projection process will be repeated no later than August 31 for each following school fiscal year.

WAC 180-27-063 Annual review and report by the superintendent of public instruction to the state board of education. The superintendent of public instruction on an annual basis shall review actual construction costs of school projects and report findings together with recommended

WAC 180-27-065 Educational specifications. (1) Only school facility projects which are complete new facilities or modernization projects pursuant to chapter 180-33 WAC are eligible for state assistance in the preparation of education specifications.

(2) The construction of interdistrict transportation cooperatives, or additions of less than fifteen thousand square feet to existing facilities, unless combined with modernization, are not eligible.

(3) The amount of state assistance for which a district is eligible for the preparation of educational specifications shall be the state matching percentage multiplied by the greater of the following:

- (a) One quarter of one percent of the area cost allowance multiplied by the square foot area at time of bid; or
- (b) Ten thousand dollars.

WAC 180-27-070 Architectural and engineering services. School districts shall select their architectural and engineering consultants in accordance with chapter 39.80 RCW. As required by RCW 39.80.050, the district shall negotiate a contract with the most qualified consultants at a price which the school district determines is fair and reasonable to the district; and, in making its determination, the district shall take into account the estimated value of the services to be rendered as well as the scope, complexity, and professional nature thereof.

The allocation of state moneys for matching purposes for a school facility project shall be based on the basic architectural and engineering services as defined by the *American Institute of Architects Handbook of Professional Practice*, eleventh edition, 1988, and calculated by the percentage(s) in relation to the square foot area of construction as calculated in WAC 180-27-040 and project type, as set forth below:

(1) **New construction projects:**

Architectural and Engineering Team Fee Matching Limitations

Square Feet of Construction	Percent of Construction Cost
Under 3,700	10.0
3,700	9.0
7,350	8.75
11,000	8.5
14,650	8.25
18,300	8.0
25,700	7.75
36,700	7.5
55,000	7.25
73,400	7.0
101,000	6.75

128,450	6.5
156,000	6.25
183,500 & above	6.0

Note: Compensation for projects with square foot area of construction between the values shown shall be established for matching purposes by the process as indicated in the example below.

Example:

Assume: Area of construction = 75,000 sq. ft.
Area cost allowance = \$90/sq. ft.

73,400 sq. ft. x \$90/sq. ft. x 7.0% = \$462,420.00
1,600 sq. ft. x \$90/sq. ft. x 6.75% = 9,720.00
75,000 sq. ft. \$472,140.00

State share = \$472,140.00 x state matching percentage

(2) Modernization projects:

For modernization projects, the limits of state participation shall be one and one-half times the amount calculated for new construction as set forth in subsection (1) of this section.

(3) Combination projects:

For those projects which include a combination of new construction and modernization, the limits of state participation shall be prorated as set forth in subsection (1) and (2) of this section.

One copy of the energy conservation report, approved by the district board of directors, shall be filed with the superintendent of public instruction. The amount of state assistance for which a district is eligible for the preparation of the energy conservation report shall be the state matching percentage multiplied by ten thousand dollars. The amount of state assistance for which a district is eligible for the report review fee charged by the Washington state energy office shall be the state matching percentage multiplied by the fee charged.

WAC 180-27-080 Value engineering study—Requirements and definition. At the appropriate time in the design process for a school facility approved by the state board of education, the district shall cause to be prepared a standard value engineering study of the project except that any project which includes fifteen thousand square feet or less shall be exempt from this requirement. For the purpose of this section, a standard value engineering study is defined as a cost control technique which is based on the use of a systematic, creative analysis of the functions of the facility

(1997 Ed.)

with the objective of identifying unnecessary high costs or functions and/or identifying cost savings that may result in high maintenance and operation costs. The study shall consist of a forty-hour workshop involving a minimum of a five-person team pursuant to WAC 180-29-065. The amount of state assistance for which a district is eligible for a value engineering study shall be the state matching percentage multiplied by the greater of the following:

- (1) One-quarter of one percent of the area cost allowance multiplied by the square foot area at time of bid; or
- (2) Fifteen thousand dollars.

WAC 180-27-085 Construction cost savings—Sharing incentive. The purpose of this section is to set forth provisions designed to further enhance cost effectiveness in the construction of exclusively new school facilities.

(1) Districts become eligible for a cost saving incentive equal to sixty percent of the state share of the construction cost savings if the cost of new construction at bid is less than the approved state matchable construction cost, as set forth in WAC 180-27-020 (2)(a).

(2) The state matched fee for basic architectural and engineering services shall not be reduced if the project is bid and is awarded below the approved state matchable construction cost (WAC 180-27-070) or the cost contracted for between the school district and architect/engineer, whichever is less.

(3) Any project attached to or adjacent to or otherwise designed to operate in conjunction with an existing facility and which contains additional area equal to or less than fifty percent of the area in the existing facility shall be classified as an addition and shall not be eligible for the cost saving incentive option authorized in this section.

(4) Districts shall not be eligible for a cost-saving incentive where the entire project, or any part of the project, qualifies for state support under chapter 180-33 WAC.

(5) Receipt of a portion of the state share of construction cost savings shall not reduce the district's future eligibility and entitlement to state assistance in providing school facilities and shall not result in the district receiving more than one hundred percent of the cost of construction.

[Statutory Authority: RCW 28A.47.830, 85-24-048 (Order 25-85), § 180-27-085, filed 11/27/85; 83-21-066 (Order 11-83), § 180-27-085, filed 10/17/83.]

WAC 180-27-095 Support level—Furniture and equipment allowances. (1) A matchable allowance for furniture and equipment purchases shall be added to total construction cost of an approved school facilities project. The amount of state assistance for which a district is eligible shall be the eligible square foot area of the project multiplied by the area cost allowance of state support at time of bid and that product multiplied by:

- (a) Two percent for elementary schools;
- (b) Three percent for middle and junior high schools;
- (c) Four percent for high schools;
- (d) Five percent for handicapped facilities;
- (e) Five percent for vocational-technical facilities;

(f) Five percent for interdistrict cooperative occupational skill centers; and

(g) Seven percent for interdistrict transportation cooperatives.

(2) For those projects where the eligible square footage is allocated to grade spans which do not conform to those listed above, the equipment allowance shall be allocated based on eligibility as established in WAC 180-27-035.

WAC 180-27-100 Special inspections and testing.

All special inspections and testing to be performed by independent sources as specified in the construction documents shall be matched in addition to the construction costs subject to the approval of the superintendent of public instruction. For the purposes of this section, special inspections shall be those special inspections required under the Uniform Building Code.

WAC 180-27-105 Support level—Insurance receipts.

It is a school district, not a state, determination whether or not a school facility shall be insured. Should a district need to replace or repair a school facility destroyed or damaged by fire, it will be the district's financial responsibility to replace or repair the number of square feet destroyed or damaged by the fire.

WAC 180-27-110 Support level—Federal moneys.

A school district determined to be eligible for moneys made available by acts of congress for school facility construction, including but not limited to Public Law 815 moneys, shall complete the following steps:

(1) Make application for such moneys, which requirement shall be prerequisite for a preliminary or provisional allocation of state matching moneys;

(2) Furnish evidence of the availability of such federal moneys, which requirement shall be a prerequisite for a final allocation of state moneys: *Provided*, That nothing in this section shall restrict a school district from receipt of federal moneys otherwise provided for specific purposes in accordance with the conditions imposed by the federal government incumbent upon the recipient school district; and

(3) Include the number of square feet in school facilities constructed with federal moneys and used for instructional purposes in the district's inventory which will decrease district eligibility for state moneys by an equal number.

[Statutory Authority: RCW 28A.47.830. 83-21-066 (Order 11-83), § 180-27-110, filed 10/17/83.]

WAC 180-27-115 Support level—Additional assistance.

State assistance in addition to the amount determined pursuant to WAC 180-27-020 and 180-27-055 may be allowed for the purposes and in accordance with the requirements set forth in this section: *Provided*, That in no case shall the state assistance exceed one hundred percent of the

amount calculated for matching purposes: In each of the following exceptions, either at the time the project is approved pursuant to WAC 180-25-040 or at any time prior to receiving secured funding status pursuant to WAC 180-29-107, written school district application for additional assistance and state board of education approval is required:

(1) A school facility subject to abatement and an order to vacate.

A school district required to replace a school facility determined to be hazardous to the safety and health of school children and staff—as evidenced by reports of architects or engineers licensed to practice in the state of Washington, the health agency having jurisdiction, and/or the fire marshal and building official having jurisdiction—shall be eligible for additional assistance if the voters of the school district authorize the issuance of bonds and/or the levying of excess taxes to meet the statutory limits. If the state board of education determines that the voters of the school district have authorized the issuance of bonds to its legal limit, the board shall provide state financial assistance for the remaining cost of the building to a level not exceeding the area cost allowance set forth in WAC 180-27-060: *Provided*, That at any time thereafter when the state board of education finds that the capital financial position of such district has improved, the amount of the additional allocation provided pursuant to this subsection shall be recovered by deducting an amount equal to all or a portion of such additional allocation from any future state school facility construction funds which might otherwise be provided to such district.

(2) Interdistrict cooperative centers.

In the financing of interdistrict cooperative projects as set forth in chapter 180-31 WAC, the state board of education shall allocate at seventy-five percent of the total approved project cost determined eligible for state matching purposes if the planned school facility meets the following criteria:

(a) Provides educational opportunities, including vocational skills programs, not otherwise provided; or

(b) Avoids unnecessary duplication of specialized or unusually expensive educational programs or facilities.

(3) School housing emergency.

A school district found by the state board of education to have a school housing emergency requiring an allocation of state moneys in excess of the amount allocable under the statutory formula may be considered for an additional allocation of moneys: *Provided*, That the school district must have authorized the issuance of bonds to its legal capacity to meet the statutory and state board of education fiscal requirements for state assistance in providing school facilities.

The total amount of state moneys allocated shall be the total approved project cost determined eligible for state matching purposes multiplied by the districts' regular match rate as calculated pursuant to RCW 28A.525.166 plus twenty percent and not to exceed ninety percent in total: *Provided further*, That at any time thereafter when the state board of education finds that the capital financial position of such district has improved, the amount of the additional allocation provided pursuant to this subsection shall be recovered by deducting an amount equal to all or a portion of such additional allocation from any future state school facility

construction funds which might otherwise be provided to such district.

(4) Improved school district organization.

If two or more school districts reorganize into a single school district and the construction of new school facilities results in the elimination of a small high school with a full-time equivalent enrollment in grades 9-12 of less than four hundred students and/or an elementary school with a full-time equivalent enrollment of less than one hundred students, the state board of education shall match the total approved cost of the project at seventy-five percent.

(5) Racial imbalance.

Any school district that contains a school facility which is racially imbalanced as defined in WAC 180-26-025 shall receive state assistance under this subsection in the amount of an additional ten percentage points above the matching percentage as calculated pursuant to RCW 28A.525.116 (b) and (c) which will not exceed a total of ninety percent of the total approved cost of construction: *Provided*, School construction projects for racial balance that meet the following conditions shall be provided state assistance at seventy-five percent of the approved square foot cost allowance under the provisions of this subsection as they existed prior to the amendment of this subsection in 1993:

(a) Voter approved local matching funds were authorized before December 31, 1992;

(b) The superintendent of public instruction approved a comprehensive desegregation plan with specific construction and modernization projects under additional state assistance criterion in effect at that time, which will be identified on or before September 15, 1993; and

(c) The superintendent of public instruction confirms at the time of project approval pursuant to WAC 180-25-040 the continued existence of racial balance needs.

In the case of a school district which contains a racially imbalanced school facility the district must demonstrate that, as a result of new construction or modernization, the particular school facility will no longer be racially imbalanced, that the combined minority enrollment in the particular school facility will be reduced by more than ten percentage points, and that the above stated results will be obtained as a direct result of increased enrollment of nonminority students in the particular school facility: *Provided*, That the particular school facility shall remain racially balanced for a period of at least five years after the date of actual building occupancy: *Provided further*, That if the state board of education finds that the school facility does not remain racially balanced for five years then the amount of additional state assistance provided pursuant to this subsection shall be recovered by deducting an amount equal to all of the additional allocation from any future state school facility construction funds which might otherwise be provided to such district.

(6) Any project that has received approval for additional state assistance under provisions of this section as they existed prior to the amendment of this section in 1993 shall retain authorization for additional assistance under the provisions in effect at the time of such approval.

WAC 180-27-500 State assistance—Priorities after June 30, 1992. The priority system for the funding of school construction projects after June 30, 1992, that are not subject to the priority system under WAC 180-27-058 shall be as follows: For all new construction and modernization projects for school districts, there will be a unique priority score determined by the following several factors and formulas contained in WAC 180-27-505 through 180-27-520. The total score shall be used to rank all projects that have secured local funding and state board of education approval after January 26, 1991, and are otherwise eligible for state funding assistance. The following factors are divided into three groups:

- (1) Common factors;
- (2) New construction for growth factors; and
- (3) Modernization or new-in-lieu of modernization factors.

In the case of a combined project (i.e., new construction for growth and modernization), the respective scores in each group will be prorated on the basis of each group's related gross square footage in the total project: *Provided*, That all related priority scores for projects that are front funded by the district under the provisions of WAC 180-27-057 shall be determined and the project shall take its place on the priority funding list as if it had not been completed.

WAC 180-27-505 State assistance—Common priority factors. The three priority factors that are common to all projects are as follows:

- (1) Type of space - Ten possible points. In this element the net assignable square feet (NASF) of a project are identified by planned space inventory category. Category one is space used for scheduled instruction and libraries (classrooms, laboratories, PE teaching space, libraries, and learning resource centers). Category two is space used in

support of instruction (assembly, student services, office space, and classroom/lab service and support). Category three space is cafeteria/food service, spectator seating, covered play areas, and general support space. The formula for determining points prorates the NASF with weightings of ten for category one, seven for category two, and four for category three as shown below.

NASF of Category One	X	10 points = X
NASF of Category Two	X	7 points = X
NASF of Category Three	X	4 points = X

Then: The sum of X divided by the sum of NASF equals points.

(2) Local priority - Five possible points. For this element, five maximum points are awarded to the district's first priority project. Each priority from there has one point deducted from it, to a minimum of zero points awarded.

(3) Joint funding - Five possible points. A binding agreement between the school district and another governmental entity for the joint financing of the construction or improvement of space which is not eligible for state assistance.

Total Project Cost Up to \$1,000,000	Required Joint Funding 25% of total project cost (\$250,000 at \$1,000,000)
Between \$1,000,000 and \$ 2,000,000	\$275,000
Between \$2,000,000 and \$ 3,000,000	\$300,000
Between \$3,000,000 and \$ 4,000,000	\$325,000
Between \$4,000,000 and \$ 5,000,000	\$350,000
Between \$5,000,000 and \$ 6,000,000	\$375,000
Between \$6,000,000 and \$ 7,000,000	\$400,000
Between \$7,000,000 and \$ 8,000,000	\$425,000
Between \$8,000,000 and \$ 9,000,000	\$450,000
Between \$9,000,000 and \$10,000,000	\$475,000
\$10,000,000 and over	\$500,000

(4) Modified calendar or schedule - Five possible points. For this element, up to five points utilizing the table below will be awarded to a project in a district which has adopted a modified school calendar or schedule that enables more students to use school buildings each year over what current state capacity standards at WAC 180-27-035 recognize for state assistance purposes. The modified calendar or schedule shall utilize either extended school day or additional days for instruction in the year. The enrollment percentage shall be calculated on the same grade span groupings as for eligibility in WAC 180-27-050.

Enrollment Percentage Increase Over Capacity	Priority Points
20 to above	5
16 to 19.9	4
12 to 15.9	3
8 to 11.9	2
4 to 7.9	1
Below 4	0

The scores in this group will be determined after district compliance with the requirements of WAC 180-29-107.

Authority: RCW 28A.525.020 and 1992 c 233 § 24(8). 92-16-058, § 180-27-505, filed 8/3/92, effective 9/3/92.]

WAC 180-27-510 State assistance—New construction for growth priority factors. The three factors that are related to new construction for growth are as follows:

(1) Projected percent unhoused - Fifty-five possible points. The district percent unhoused five years in the future is based on the projection of enrollment per WAC 180-27-045 for two grade categories, including preschool special education, compared to the formula capacity of existing space based on WAC 180-27-035 as computed per WAC 180-27-050.

If the projected district percent unhoused for the applicable grade category is equal to or greater than forty percent, full points are awarded. If the projected district percent unhoused is less than five percent but greater than zero percent, then a minimum of fifteen points are awarded. If the projected percent unhoused is between five percent and forty percent, then the forty remaining points (55-15) are proportionately awarded.

(2) Mid-range projection - Five possible points. This factor is to recognize the degree of immediacy of a district's capacity problem. The district's point score in subsection (1) of this section is first multiplied by .091 to reflect the relationship between the fifty-five possible points in subsection (1) of this section and the five points in this subsection. This produces the maximum points a project can be awarded in this factor. The actual points are determined by the relationship between the district's unhoused percentage three years in the future divided by the unhoused percentage five years in the future. For example, if a district received 43.57 points in subsection (1) of this section due to a projected thirty percent unhoused condition and its three-year projection is that it will be twenty-four percent unhoused, it will receive 3.17 points (i.e., ((42.57 x .091) X (24 percent/30 percent)) = 3.17).

(3) Number of years unhoused - Five possible points. This factor is to recognize the duration of an unhoused problem. One point is awarded for each year the district has had an unhoused condition in the applicable grade category during the past five years, up to the five points maximum.

The scores shall be determined at the time of project approval per WAC 180-25-045. These scores shall be carried for a period of twenty-four months, at which time new scores shall be determined utilizing the then most current enrollment projections and facts. A district may request a redetermination of scores at any time.

[Statutory Authority: RCW 28A.525.020 and 1992 c 233 § 24(8). 92-16-058, § 180-27-510, filed 8/3/92, effective 9/3/92.]

WAC 180-27-515 Modernization factors or new-in-lieu of modernization priority factors. The three factors that are related to modernization or new-in-lieu projects are as follows:

(1) Health & safety - Twenty possible points. Sixteen points are awarded based on the evaluation contained in the Building Condition Evaluation Form (BCEF) (WAC 180-27-535) and are awarded as follows:

15 - 19 percent = 16 points, 20 - 24 percent = 15 points, 25 -29 percent = 14 points, etc., until 95 percent at which no points are awarded.

The health and safety condition points are combined with an additional:

Two points if school does not meet seismic code requirements.

Two points if school is not asbestos free.

(2) Condition of building - Thirty possible points. The score is based on the building condition evaluation form (WAC 180-27-535) analysis for all categories other than handicapped access. If the building condition score is thirty-one or less, then the maximum thirty points are awarded to the project. If the condition score is ninety-one or more, then no points are awarded. If the condition score is from thirty-two to ninety, the condition score is subtracted from ninety-one and multiplied by fifty percent to determine the points. In cases where projects affect multiple buildings, the BCEF score is weighted by the proportion of gross square feet (GSF) affected.

(3) Cost/benefit factor - Ten minus points possible. If the proposed project is a modernization and the BCEF score is less than forty, one point is deducted for each point the BCEF score is less than forty up to a total possible deduction of ten points.

If the proposed project is a new-in-lieu of modernization and the BCEF score is greater than sixty, one point is deducted for each point the BCEF score is higher than sixty to a total possible deduction of ten points.

The scores shall be determined at the time of project approval per WAC 180-25-045. These scores shall be carried until the district requests a redetermination.

WAC 180-27-525 State assistance—Priorities for co-ops. For cooperative projects approved by the state board of education under the authority of chapters 180-31 and 180-32 WAC, the following priority scores shall be assigned with similar projects ranked in order of date of approval with the earliest date ranked highest:

Type of Interdistrict Cooperative Facility	Priority Score
Vocational Skill Centers	25
Transportation Centers	10
Other Cooperative Facilities	20

[Statutory Authority: RCW 28A.525.020 and 1992 c 233 § 24(8). 92-16-058, § 180-27-525, filed 8/3/92, effective 9/3/92.]

WAC 180-27-530 Type of school space—Determination. In order to determine the inventory space category of net assignable square feet for priority scoring purposes in WAC 180-27-305, the category use for which the space is designated by the district shall be the assigned category. When inventory space has been designated and scheduled for multiple purposes, the category for priority scoring purposes shall be the primary scheduled use.

[Statutory Authority: RCW 28A.525.020 and 1992 c 233 § 24(8). 92-16-058, § 180-27-530, filed 8/3/92, effective 9/3/92.]

WAC 180-27-535 Existing building condition—Evaluation. Building condition and health and safety evaluations for purposes of determining priority scores and completing building inventories shall be conducted and reported to the superintendent of public instruction, utilizing an evaluation model and reporting forms for building type, history, equipment, condition, health and safety factors, and portables on site that shall be adopted and subject to revision from time to time by the state board of education. The information provided by the district on these forms shall be subject to review by the state board of education, the staff or agents of the superintendent of public instruction, or to audit by the state auditor. Compliance with this requirement for all schools in a district is a requirement for the receipt of any state construction assistance for projects approved after January 26, 1991.

(1) The term "emergency repair" means a repair to a school building necessitated by unforeseeable defects in the building due to error(s) in the design and/or construction of the building.

(2) "Error in the design or construction of a building" means the failure of the architect(s), engineers(s) or contractor(s) to design and construct a building in accordance with generally accepted and applied standards at the time the building was constructed.

The state board of education may allocate an amount not to exceed five million dollars per fiscal year 1995-96 and 1996-97 to school districts for emergency repair projects for school buildings which present imminent health and safety hazards for building occupants in accordance with the following process and eligibility criteria:

(1) A school district board of directors shall approve and present to the superintendent of public instruction a written application for emergency repair funding on a form provided by the superintendent of public instruction.

(2) The application and accompanying documentation shall include, but not be limited to:

(a) Certification of the unrestricted balance, if any, of the district's general fund and capital projects fund;

(b) A determination and description of available alternative housing options for occupants of the building;

(d) A detailed description of the nature and extent of the imminent health and safety hazards that exist, and the extent they would be alleviated by the emergency repair;

(e) Evidence that the district is aggressively pursuing civil remedies against the responsible party(ies);

(f) Certification by a health official, fire official, building official, labor and industries official or other independent and competent authority that an imminent health and safety hazard to building occupants of a specified nature and extent exists unless the emergency repairs are made; and

WAC 180-27-990 Interim application of priority system during transitional period. (1) It is the intent of the state board of education that one-A and one-B building projects, and certain exemplary special education projects, will be granted a preference to available state assistance in future state fiscal years as provided in this rule and notwithstanding the terms of WAC 180-27-058 (the priority system rule), or any other rule set forth in chapters 180-25 through 180-33 WAC, to the contrary.

(2) The following definitions apply for the purposes of this rule: (a) "One-A building projects" means and includes all building projects for which staff of the superintendent of public instruction determined were eligible for issuance of Form C-6 approval pursuant to WAC 180-29-107 during the period of April 2 through April 10, 1985, and, which have not been granted Form C-8 approval prior to April 15, 1985, pursuant to WAC 180-29-115 (notwithstanding such Form

C-6 approval, no Form C-8 approval shall hereafter be granted for such projects pursuant to WAC 180-29-115 until on or after July 1, 1985, in accordance with this rule); and (b) "one-B building projects" means and includes any building project for which a Form C-2 had been issued pursuant to WAC 180-25-040 and 180-29-025 and, in addition, for which a complete and approvable application for Form C-6 approval pursuant to WAC 180-29-107 was delivered to the office of the superintendent of public instruction prior to noon of April 11, 1985, which, but for the unavailability of state assistance, would have been granted Form C-6 approval.

(3) **Fiscal year 1985-86.** As of July, 1985, all eligible building projects shall be prioritized or ranked in accordance with WAC 180-27-058. State assistance deemed available as of that time shall first be allocated for priority one or WAC 180-27-058(1) building projects (inclusive of such one-A and one-B building projects as may qualify as priority one projects). In the event such available state assistance is more than sufficient for such priority one projects, all remaining one-A building projects alone shall then be prioritized or ranked in accordance with the date and time staff of the superintendent of public instruction determined the projects were eligible for issuance of Form C-6 approval pursuant to WAC 180-29-107, and remaining available state assistance shall be allocated for such projects. If available state assistance remains, all remaining one-B building projects alone shall be prioritized or ranked alone in accordance with the date and time application for Form C-6 approval was received by staff of the superintendent of public instruction, and the remaining available state assistance shall be allocated for such projects.

WAC 180-29-147 Retained percentage law related requirements. (1) State school building assistance is conditioned upon a school district's compliance with the cash, or bond in lieu of cash, retained percentage requirements of chapter 60.28 RCW and this section. A school district may elect to administer compliance with all requirements of chapter 60.28 RCW or, in part, designate the state board of education acting through the superintendent of public instruction as agent of the school district for purposes of administering retained percentage moneys reserved under RCW 60.28.011.

(2) Under RCW 60.28.011, a school district either:

(a) Must provide for the reservation of five percent of all moneys earned by a contractor either by the district, deposited by the district in an interest-bearing account or placed in escrow as provided in RCW 60.28.011(4); or

(b) Must accept a bond submitted by the contractor from any portion of the retainage in a form acceptable to the superintendent of public instruction and the school district and from a bonding company which meets the standards established at subsection (4)(b) of this section and by the school district, unless the school district can demonstrate good cause for refusing to accept the bond.

As a general rule, the state board of education prefers and recommends the cash retainage option for reasons which include the security and ease of enforcement which the cash option affords.

(3) Cash retainage.

(a) If the school district reserves five percent of all moneys earned by the contractor in a retainage trust fund administered by the school district in accordance with RCW 60.28.011(1), moneys deposited in that trust fund (whether retained by the district, deposited by the district in an interest-bearing account, or placed in escrow), may be paid to the contractor without prior written consent by the superintendent of public instruction. The superintendent of public instruction shall make available to the school district model procedures and forms for setting up the trust fund selected by the contractor under RCW 60.28.011(4).

(b) At the request of the school district, the state board of education acting through the superintendent of public instruction may be designated as agent of the school district for cash retainage and will:

(i) Administer the retained percentage trust fund in accordance with RCW 60.28.011, inclusive of depositing, releasing and accounting for such moneys;

(ii) Establish and administer the retained percentage trust fund in accordance with the terms of chapter 60.28 RCW, and such terms as may be established by the superintendent of public instruction to ensure compliance with chapter 60.28 RCW, the security of trust fund moneys and efficient administration; and

(iii) Ensure that no moneys lawfully deposited in the retained percentage trust fund shall be paid to the contractor without the prior written consent of the superintendent of public instruction, except for the payment of interest earnings as may be required by law.

(4) If at the request of the contractor the bond in lieu of cash retained percentage option is implemented the following conditions apply:

(a) The bond shall be in terms and of a form approved and established by the superintendent of public instruction to ensure that the bond adequately addresses the purposes of chapter 60.28 RCW; and

(b) The bond shall be signed by a surety that is:

(i) Registered with the Washington state insurance commissioner; and

(ii) On the currently authorized insurance list published by the Washington state insurance commissioner.

(c) Whatever additional requirements for the bonding company as may be established by the school district.

(5) The release of retainage, whether cash or bond-in-lieu, shall be conditioned upon satisfactory compliance with the provisions of WAC 180-29-165.

[Statutory Authority: RCW 28A.525.020 and 1992 c 233 § 24 (8)(e). 94-14-028, § 180-29-147, filed 6/28/94, effective 7/29/94.]

WAC 180-29-150 Changes in contract cost. The final contract cost shall be determined after inclusion of the net change due to additive and/or deductive change orders. If the final contract cost results in an increase above the original bid amount, the school district shall finance the entire increase. If the final contract cost results in a decrease from the original bid amount, the school district and

the state shall share the amount of the decrease based on the matching ratio in effect at the time of contract award. Copies of all change orders when executed and signed by the school district's authorized agent and the project architect/engineer shall be forwarded to the superintendent of public instruction.

Upon final completion of the project by contractor(s), the architect/engineer shall inspect the project to determine compliance with the construction documents. The architect/engineer, upon determining that the project has been completed satisfactorily, shall make such recommendation through the issuance of a certificate of completion to the school district board of directors. Separate certificates of completion shall be written for each contract awarded.

[Statutory Authority: RCW 28A.47.830. 83-21-067 (Order 12-83), § 180-29-155, filed 10/17/83.]

WAC 180-29-160 Acceptance of project by school district. Based upon an inspection of the project and the certificate(s) of completion signed by the architect/engineer, the school district board of directors shall accept the project as complete or reject the project as incomplete. Until the superintendent of public instruction receives a school district board resolution officially accepting the project as complete, no release of retainage shall be made in accordance with WAC 180-29-165.

(1) These documents shall be required no later than thirty days after official acceptance:

A copy of each lien shall be forwarded to the superintendent of public instruction;

(c) Either a permanent or temporary occupancy permit by building official of the jurisdiction. Also required are

STATE ASSISTANCE IN PROVIDING SCHOOL PLANT FACILITIES

WAC 180-30-005 Regulatory provisions. The policies, principles, rules and regulations hereinafter set forth, being all of chapter 180-30 WAC relating to state assistance in providing school plant facilities, shall govern the allocation and disbursement of funds appropriated or reappropriated to the state board of education in accordance with statutory provisions as now or hereafter amended.

[Order 5-75, § 180-30-005, filed 5/27/75; Order 2-73, § 180-30-005, filed 6/13/73; Order 7-71, § 180-30-005, filed 10/13/71; Order 7-69, § 180-30-005, filed 10/31/69.]

WAC 180-30-010 Policies and principles—Basic policy. The state board of education recognizes (a) the statutory responsibilities and authority of the board of directors of a school district to determine the type of school building it desires to construct for the children of its district, and (b) the statutory responsibilities and authority of the state board of education to prescribe rules and regulations governing the administration, control, terms, conditions and

disbursement of allotments to school districts to assist them in providing school plant facilities.

In prescribing the rules and regulations hereinafter in chapter 180-30 WAC set forth, it shall be the policy of the state board of education to equate insofar as possible the efforts by school districts to provide capital funds, to equalize insofar as possible the educational opportunities for the children of the state and to establish a level of state support consistent with funds available, recognizing that school districts may find it necessary to apply local funds in excess of matching funds to provide facilities commensurate with their respective educational specifications.

[Order 7-69, § 180-30-010, filed 10/31/69.]

WAC 180-30-015 Policies and principles—Policies and principles relating to nonhigh school districts contemplating establishment of high schools and to districts operating small high schools. (1) Response to legislative mandate. The policy of the state board of education with respect to state assistance in school building construction to nonhigh school districts contemplating establishment of high schools and to school districts operating small high schools is the state board's response to the legislative mandate that such assistance must be considered in light of "the need for improvement of school administrative units and school attendance areas among or within such districts."

(2) **Small high schools—Effectiveness and remoteness.** In administering the program of state assistance to school districts in providing school plant facilities consideration will be given to (a) the effectiveness of the small high school when considered from the point of view of curriculum offerings and per capita expenditures required for operations and for facilities, and (b) the advisability of providing high school services in areas so remote or isolated that students residing therein could not live at home and attend other high schools.

Except in rare instances, it is inadvisable for nonhigh school districts to establish high schools or for existing high schools with limited enrollment to be continued because they are unnecessary from the viewpoint of convenience and the educational opportunities of students—the primary factors to be considered in determining if a new high school is to be established or an existing high school is to be continued.

(3) **Purposes and objectives.** The program of state assistance in providing school plant facilities shall be administered in conformity with the policies and principles hereinbefore set forth and in accordance with the following purposes and objectives:

(a) To encourage the establishment of a single area high school through the unification of two or more existing high school districts wherever physical features, travel time for students and other conditions permit.

(b) To allot state funds to nonhigh school districts for construction of secondary school facilities only upon prior approval by the state board of education pursuant to provisions of RCW 28A.305.130(5) for the establishment of a new secondary program or any new grade in grades nine through twelve.

(c) To allot state funds to high school districts for use in providing school plant facilities only when such allot-

ments will not result in the continuation of small high schools in cases where (i) the students involved or affected can be served without undue inconvenience in a neighboring high school or schools of larger size or (ii) the operating district can be united with another district or districts for the purpose of establishing a high school of more acceptable size. In such cases an allotment may be made only for providing necessary additional elementary school facilities.

(d) To make high school operations possible in areas that are found to be remote or isolated, and likely to remain so, because of physical features, distance from population centers, lack of transportation and other factors related thereto. Eligibility for an allotment of state funds on the basis of remoteness must be determined in the light of (i) the situation, with respect to the items hereinbefore mentioned, which prevails at the time of the application; (ii) the best obtainable information about possible future changes in the situation aforesaid; and (iii) the number of high school students living in the area who cannot reside at home and attend another high school.

[Statutory Authority: 1990 c 33, 90-17-009, § 180-30-015, filed 8/6/90, effective 9/6/90; Order 5-75, § 180-30-015, filed 5/27/75; Order 7-69, § 180-30-015, filed 10/31/69.]

WAC 180-30-030 Eligibility for state assistance—Need for school facilities a basis for eligibility. Allotments of funds to school districts for state assistance in providing school building facilities shall be determined on the basis of the extent to which one, or a combination of more than one, of the following conditions prevail in a school district:

(1) Facilities (a) have been destroyed by fire, flood, earthquake or other calamity; or (b) are definitely known to be hazardous to the safety and health of school children as evidenced by reports of structural engineers licensed to practice in the state of Washington and by representatives of the health agency with jurisdiction and the state fire marshal: *Provided*, That the pupils affected cannot be housed elsewhere without undue inconvenience, overcrowding or the use of unsanitary improvised facilities.

(2) Existing facilities are seriously overcrowded.

(3) Certain facilities necessary for the education, health and well-being of pupils are lacking or extremely inadequate, including but not limited to multipurpose rooms, kitchens, health units, shops and physical education facilities.

(4) There exists a foreseeable excessive future increase in school population which will create or accentuate the conditions described in subsection (2) above.

[Order 7-69, § 180-30-030, filed 10/31/69.]

WAC 180-30-035 Eligibility for state assistance—School district effort to provide capital funds a basis for eligibility. (1) In order to qualify pursuant to statutory requirements that no part of state-appropriated funds shall be allotted to a school district until such district has provided funds for school building construction in an amount equivalent to two and one-half percent of the value of its taxable property, or such lesser amount as may be required by the state board of education, a district must meet one of the following fiscal requirements conformable to the aforesaid two and one-half percent equivalence:

(a) Have bonds authorized for school building construction purposes equivalent to two and one-half percent of the value of its taxable property; OR

(b) Have currently collectible and/or authorized excess tax levies for the building fund equivalent to one and three-fourths percent or more of the value of its taxable property plus such additional excess levies for the building and/or the bond redemption fund as may be required to equal a minimum total of two and one-half percent of the value of its taxable property, said additional excess levies to include currently collectible and/or authorized levies and levies for the four-year period immediately preceding the current year; OR

(c) Have a combination of bonds authorized and currently collectible and/or authorized excess levies for the building fund equivalent to one and three-fourths percent or more of the value of its taxable property plus such additional excess levies for the building and/or the bond redemption fund as may be required to equal a minimum total of two and one-half percent of the value of its taxable property, said additional excess levies to include currently collectible and/or authorized levies and levies for the four-year period immediately preceding the current year.

(2) Allotment of state funds shall be subject to the availability of local funds for financing of the school district's share of the project cost and only such local funds as are derived from excess tax levies, bond issues to be serviced by excess tax levies and investment funds from bonds and levies shall be eligible for state matching purposes. For the purpose of this subsection, availability of local funds shall mean (a) authorized bond issues or excess tax levies as a prerequisite for a provisional reservation and/or preliminary allotment of funds, and (b) certification that the required amount of local funds derived from bond issues is on deposit with the county treasurer as a prerequisite for a final allotment of funds.

[Order 7-71, § 180-30-035, filed 10/13/71; Order 14-70, § 180-30-035, filed 12/10/70; Order 7-69, § 180-30-035, filed 10/31/69.]

WAC 180-30-040 Eligibility for state assistance—Evidence that new construction will not create or aggravate racial imbalance a basis for eligibility. (1) **Definition.** For the purpose of this section racial imbalance shall be deemed to exist when a school has an enrollment of any one minority racial group in excess of forty percent of the total enrollment in that school. A minority racial group is defined as a racial group constituting a lesser part or smaller number identified in relation to the total enrollment of children in the public schools of the state.

(2) **Prerequisite for allotment.** A prerequisite for an allotment of funds to a school district for state assistance in providing school building facilities shall be satisfactory evidence by the superintendent of public instruction that the proposed construction will not create or aggravate racial imbalance within the boundaries of the applicant school district: *Provided*, That this regulation shall not apply to schools serving American Indian communities.

(3) **Study required.** In order to determine the effect of proposed construction upon racial imbalance the superintendent of public instruction shall require study for that purpose as provided in WAC 180-30-620 and 180-30-630.

[Order 7-69, § 180-30-040, filed 10/31/69.]

WAC 180-30-050 General regulations—Licensed architects. Architects employed on school building projects involving state school building funds must be licensed to practice in the state of Washington.

[Order 7-69, § 180-30-050, filed 10/31/69.]

WAC 180-30-055 General regulations—Sites—Approval, sizes and fee simple title. (1) **Site approval requirement.** Evidence of compliance with applicable statutory requirements relating to sites for public buildings and approval of the site by the state board of education shall be prerequisites for state assistance in financing a school building project.

(2) **Site sizes.** Minimum site sizes (a) for elementary schools shall be five acres plus an additional acre for each one hundred pupils of projected maximum enrollment; and (b) for middle schools, junior high schools, senior high schools and four-year high schools shall be ten acres plus an additional acre for each one hundred pupils of projected maximum enrollment: *Provided*, That any deviations below such minimums shall be subject to state board of education approval.

(3) **Fee simple title.** Unless this regulation be waived in a particular case by the state board of education, a school district applying for state assistance in financing school building construction shall file with the state board of education an opinion of the prosecuting attorney having jurisdiction or other legal counsel (a) that fee simple title to the real property is vested in the school district making application, free and clear of all encumbrances including but not limited to all mineral reservations in such property that would in any way interfere with the construction or operation of the proposed school plant facilities; and (b) containing the legal description of such property. The receipt of said opinion shall be a prerequisite to approval of a project for state assistance: *Provided*, That this regulation shall not apply to land secured on lease from the state of Washington.

[Order 7-69, § 180-30-055, filed 10/31/69.]

WAC 180-30-060 General regulations—Replacement of substandard facilities. Applications for state assistance in financing replacement of substandard facilities must be supported by reports concerning the condition of the existing structure and adverse reports relating to the health, safety and welfare of children by (a) a structural engineer licensed to practice in the state of Washington, (b) the health agency having jurisdiction and (c) the state fire marshal.

[Order 7-69, § 180-30-060, filed 10/31/69.]

WAC 180-30-065 General regulations—Time limit for advancement of projects. The board of directors of a school district authorized by the state board of education to prepare final plan and specifications for a school building project and for which the state board has made a provisional reservation of state funds for architectural and engineering services must advertise for bids for construction of the project within twelve months after the issuance date of the

authorization document. In the event of failure by the board of directors of a school district to advertise for bids within the time limit herein specified, the authorization herein described shall be declared null and void and the funds reserved thereunder shall revert to the state fund from which the reservation was made and become available for reservation or allotment toward the financing of some other project or projects as the state board shall determine: *Provided*, That an extension of time may be granted when failure to act within the specified time is due to conditions judged by the state board to be beyond the control of the school district board of directors: *Provided further*, That in the event final plan and specifications for the project have been completed and advancement of the project is precluded by conditions beyond the control of the school district board of directors, said board of directors may request consideration of state assistance in costs of architectural and engineering services incurred through preparation of final plan and specifications as set forth in WAC 180-30-635.

[Order 5-75, § 180-30-065, filed 5/27/75; Order 4-70, § 180-30-065, filed 3/10/70; Order 7-69, § 180-30-065, filed 10/31/69.]

WAC 180-30-071 General regulation—Change in project scope. A project for which the state board of education has granted approval of preliminary plans shall not be increased in excess of the total floor area eligible for state matching purposes except upon approval by the state board.

[Statutory Authority: RCW 28A.47.060. 80-07-001 (Order 10-80), § 180-30-071, filed 6/5/80.]

WAC 180-30-075 General regulations—Change orders. (1) **Cost increases.** Project cost increases resulting from change orders on contracts for the construction of school building facilities approved by the state board of education for state assistance shall be financed entirely by school district local funds.

(2) **Cost decreases.** Project cost decreases resulting from change orders on contracts for the construction of school building facilities approved by the state board of education for state assistance shall be credited to school district and state funds, the amounts respectively to be computed on the same basis as for final allocation of state funds.

(3) **Copies to state board.** Copies of all change orders, whether related to cost increases or decreases, shall be furnished to the state board of education.

(4) **Reservation of funds for change orders.** Since changes often are unavoidable, it is recommended that the school district provide for such contingencies by reserving funds for this purpose.

[Order 5-75, § 180-30-075, filed 5/27/75; Order 7-69, § 180-30-075, filed 10/31/69.]

WAC 180-30-100 Basic state support level—Related factors. The amount of state assistance to a school district in providing school plant facilities shall be determined on the basis of component factors, as hereinafter in WAC 180-30-110 through 180-30-135 set forth, relating to (a) the number of unhouseed students, (b) space allocations, (c) square foot cost allowance which may fluctuate according to the construction cost index and state resources available, (d)

allowance for equipment purchases, (e) the amount of insurance, federal or other nontax source local funds applied to a project and (f) certain specified costs which must be financed entirely by the school district. The limitations specified in the aforementioned factors represent the level of state support within funds available and are not to be interpreted as maximum criteria to meet the educational requirements of all school districts, the determination of such criteria being the prerogative of the respective school districts.

[Statutory Authority: RCW 28A.47.060, 80-07-001 (Order 10-80), § 180-30-100, filed 6/5/80; Order 7-69, § 180-30-100, filed 10/31/69.]

WAC 180-30-105 Basic state support level—State matching percentage. (1) The percentage of state assistance to a school district, if otherwise qualified under prevailing statutory provisions and rules and regulations of the state board of education, shall be determined in accordance with the state matching formula as in RCW 28A.525.166 set forth: *Provided*, That in the event the percentage of state assistance to any school district computed as herein provided is less than twenty per cent and such school district otherwise is eligible for state assistance under statutory provisions and state board regulations, the percentage for such district shall be twenty percent of the matchable cost of the project.

(2) Pursuant to provisions of RCW 28A.525.168, the value of the taxable property of the school district and the percentage of state assistance prevailing at the time the voters of the school district authorize the issuance of bonds and/or the levying of excess taxes to meet the statutory and state board of education fiscal requirements for state assistance in providing school facilities shall be the value and the percentage used for the purpose of determining the eligibility of the district for an allotment of state funds and the amount or amounts of such allotments, respectively, for all projects for which the voters authorized the capital funds as aforesaid: *Provided*, That in the event a higher percentage of state assistance prevails on the date that preliminary plan approval or final plan approval for assistance in financing a project is granted by the state board of education, then that higher percentage of state assistance shall govern the project.

[Statutory Authority: 1990 c 33, 90-17-009, § 180-30-105, filed 8/6/90, effective 9/6/90; Order 3-75, § 180-30-105, filed 2/4/75; Order 7-71, § 180-30-105, filed 10/13/71; Order 4-70, § 180-30-105, filed 3/10/70; Order 7-69, § 180-30-105, filed 10/31/69.]

WAC 180-30-110 Basic state support level—Space allocations. (1) **Space allowance for state matching purposes.** State assistance in the construction of school plant facilities for grades kindergarten through twelve, vocational-technical institute facilities and facilities for the handicapped based on space allowance for full-time equivalent students for state matching purposes shall be computed in accordance with the following table:

Grade or Facility	Maximum Matchable Area Per Full-time Equivalent Student
Grades kindergarten through six	80 square feet
Grades seven and eight	110 square feet

Grades nine through twelve	120 square feet
Vocational-technical institutes	140 square feet
Facilities for the handicapped	140 square feet

Senior or four-year high schools with fewer than 400 students may be given consideration for approval of additional footage, the total area not to exceed 48,000 square feet.

Full-time equivalent student shall mean the same as now or hereafter defined in Title 392 WAC for purposes of determining basic education fund allocations as of the latest October for which enrollment data are available.

(2) **Enrollment projection provisions.** In planning for construction of all facilities for grades kindergarten through twelve, vocational-technical institute facilities and facilities for the handicapped, a school district may estimate capacity needs on the basis of (a) a two or five-year cohort survival or adjusted cohort survival enrollment projection for elementary schools, whichever is the lesser, and (b) a three or five-year cohort survival or adjusted cohort survival enrollment projection for secondary schools and vocational-technical institutes, whichever is the lesser: *Provided*, That such limitations may be waived as shall be determined by the state board of education in its discretion.

(3) **Determination of existing capacity.** In order to determine the net total square foot area eligible for state matching purposes, the capacity of existing facilities shall be computed in accordance with the table set forth in subsection (1) above: *Provided*, That in facilities judged by the state board of education to contain an inordinate footage unusable for instruction purposes, the computation may be adjusted to reflect a reasonable estimate of existing capacity: *Provided further*, That those districts having authorized bond issues and/or excess tax levies for their building funds for specific school construction projects as identified in ballot propositions on or before April 3, 1979, may, when requesting state board of education consideration of state assistance for such projects, determine capacities of existing school plant facilities based on space allowance in accordance with the following table:

Grade or Facility	Maximum Area Per Full-time Equivalent Student
Grades kindergarten through six	90 square feet
Grades seven through twelve	130 square feet
Vocational-technical institutes	150 square feet
Facilities for the handicapped	150 square feet

Additional footage may be allowed for senior or four-year high schools with fewer than 400 students, the total area not to exceed 52,000 square feet.

(4) In the event the amount of state assistance applied for and which may reasonably be anticipated to be applied for pursuant to this chapter exceeds the amount appropriated and made available by the legislature, the state board of education shall adopt one or more schedules which rank(s) school building projects on the basis of urgency of need and determine(s) the order in which applications for state assistance will be considered for the purpose of allocating funds within biennial limitations.

(b) Changing the grade span grouping by facility by the addition, deletion, or combination thereof of two or more grades within the affected facility; or

(c) The reduction of the number of operating school facilities in a district by combining the remaining school facilities through modernization and new capital construction so as to achieve more cost effective and efficient operation in the combined school facility or facilities. In order to be eligible for state financial assistance, such a project shall result in additional space for at least 100 additional pupils and the following enrollment in any combined facility:

(i) Elementary school facility—500 pupils;

(ii) Middle or junior high school facility—700 pupils;

(iii) Senior high school facility—850 pupils;

Provided, That modernization projects in school districts with a high school enrollment of less than 850 pupils need not comply with the enrollment figures set forth above: *Provided further*, That unless the district meets an exception provided in WAC 180-33-043 or demonstrates the existence of unhoused students, state financial assistance for the new construction component of a combined modernization and new construction project shall be limited to the provision of WAC 180-33-040.

(2) School districts shall certify that a proposed modernization project will extend the life of the modernized school facility by at least twenty years.

(3) School districts shall be ineligible for state assistance for modernization of any school facility accepted by the school district board of directors prior to January 1, 1993, where the principal purpose of that modernization project is to:

(a) Restore building systems and subsystems that have deteriorated due to deferred maintenance;

(b) Perform piecemeal work on one section or system of a school facility;

(c) Modernize a facility or any section thereof which has been constructed within the previous twenty years;

(d) Modernize a facility or any section thereof which has received state assistance under the authority of this chapter within the previous twenty years;

(e) To modernize a senior high school facility in a district with a senior high school where there is existing space available to serve the students involved or affected in a neighboring senior high school without, in the judgment of the state board of education, an undue increase in the cost of transporting the students to and from school, decrease in educational opportunity, or proportional increase in the cost of instruction pursuant to chapter 180-25 WAC.

(4) School facilities accepted by the school district board of directors after January 1, 1993, shall be ineligible for state assistance for modernization of the facility or any section thereof where:

(a) The facility was constructed and occupied within the previous thirty years;

(b) The facility received state assistance under the authority of this chapter within the previous thirty years.

State assistance in an approved modernization project shall be derived by applying the percentage of state assistance determined pursuant to provisions of RCW 28A.525.166 and WAC 180-27-025 to the eligible cost which shall be calculated by multiplying the approved square foot area of the modernization project by the area cost allowance for state support, less any deductions as set forth in WAC 180-33-023 if applicable, by the factor in WAC 180-33-040 set forth, any cost in excess thereof shall be financed entirely by the school district.

WAC 180-33-023 State assistance in post 1992 facilities. State assistance for modernization of school facilities accepted by the school district board of directors after January 1, 1993, shall be limited according to the following conditions:

(1) A school facility shall be ineligible for state assistance if the total expenditures for maintenance of plant and equipment during the fifteen-year period immediately preceding the project application was below one-half of one percent of the total of the annually determined building replacement values during the same period;

(2) The allowable cost per square foot used to determine the amount of state assistance in any modernization project where the total expenditures for maintenance of plant and equipment during the fifteen-year period immediately preceding the project application was at least one-half but less than two percent of the total of the annually determined building replacement values during the same period shall be reduced as follows:

(a) The allowable cost per square foot shall be reduced by twenty-two and one-half percent where the above expenditure is at least one-half but less than one percent;

(b) The allowable cost per square foot shall be reduced by fifteen percent where the above expenditure is at least one but less than one and one-half percent;

(c) The allowable cost per square foot shall be reduced by seven and one-half percent where the above expenditure is at least one and one-half but less than two percent;

(3) No reduction in the allowable cost per square foot shall be applied to any modernization project where the total expenditures for maintenance of plant and equipment during the fifteen-year period immediately preceding the project application was two percent, or greater, of the total of the annually determined building replacement values during the same period;

(4) A district shall not be allowed to replace a school facility through new construction in lieu of modernization under WAC 180-33-042 where the total expenditures for maintenance of plant and equipment during the fifteen-year period immediately preceding the project application was below two percent of the total of the annually determined building replacement values during the same period.

WAC 180-33-025 Space eligible for state financial assistance in modernization. Space allowance and enrollment projection provision for state matching purposes.

(1) In planning for modernization in any school facility, under the provisions of WAC 180-33-015 (1)(a) and (b), a school district shall estimate capacity needs on the basis of a cohort survival enrollment as per WAC 180-27-045. Any space above and beyond a school district's estimated capacity needs as calculated on the basis of a five-year cohort survival or adjusted cohort survival enrollment shall not be eligible for state financial assistance in modernization with the exception as stated in subsection (2) below.

(2) In computing the amount of eligible space for modernization, the state will match the entire facility if 3/4 of the overall square footage of the facility is eligible for state financial assistance. If less than 3/4 of the overall square footage of the facility is eligible for state financial assistance, the district shall pay the entire cost of modernizing any additional space: *Provided*, That this subsection shall not be applicable to new construction in lieu of modernization facility projects authorized by this chapter.

(3) In determining the eligible space for modernizing vocational-technical institutes, enrollment data furnished by the school district will be reviewed by the superintendent of public instruction or his or her designee.

(4) In planning for modernization in any combined facility as per WAC 180-33-015 (3)(c) a school district shall estimate enrollment in the district on the basis of a cohort survival enrollment as per WAC 180-27-045.

School directors will pass a resolution and submit it to the state board of education that the modernized facility will be used for instructional purposes for five years after the completion of the project. If the school facility is not used for instructional purposes during this five-year period, the amount of state money allocated and spent for the modernization project must be returned to the state school building construction fund. The five-year use requirement and the five year prohibition against additional modernization funding shall be waived in the event that a facility is rendered permanently unusable before the end of the five-year period by an unforeseen natural event. The definition of "unforeseen natural event" shall be as set forth in RCW 28A.150.290.

WAC 180-33-035 Minimum project—Forty percent of replacement costs. State assistance in modernization of school facilities shall be limited to projects which may

include an entire facility or one or more complete buildings within a facility for which the estimated cost of major structural change is not less than forty percent of the estimated cost of replacement. The estimated cost of major structural change shall not include the estimated capital costs associated with restoring building systems or subsystems due to deterioration as determined in the study and survey to be caused by deferred maintenance. The estimated cost of replacement shall be derived from multiplication of the total square foot area of the facility or facilities proposed for modernization by the area cost allowance of state support at projected time of bid as in WAC 180-27-045 set forth.

[Statutory Authority: [RCW 28A.525.020.] 91-12-058, § 180-33-035, filed 6/5/91, effective 7/6/91. Statutory Authority: RCW 28A.47.073. 81-24-049 (Order 13-81), § 180-33-035, filed 12/1/81.]

WAC 180-33-040 Maximum costs eligible for state matching purposes—Eighty percent of replacement cost. The cost of an approved modernization project in excess of eighty percent of the estimated cost of replacement with a comparable school facility computed on the basis of the prevailing square foot cost level of state support as in chapter 180-27 WAC set forth shall be paid from school district local funds in excess of such local funds applied toward the modernization cost in accordance with the statutory formula and state board of education regulations governing basic support level as in chapter 180-27 WAC set forth.

[Statutory Authority: RCW 28A.47.830. 83-21-071 (Order 16-83), § 180-33-040, filed 10/17/83. Statutory Authority: RCW 28A.47.073. 81-24-049 (Order 13-81), § 180-33-040, filed 12/1/81.]

WAC 180-33-042 Replacement option. A district with space eligible for modernization pursuant to WAC 180-33-015 and 180-33-025 may elect to replace such space through new construction in lieu of modernization. In such case, the district shall apply for a new school facility in accordance with applicable rules and regulations pertaining to new school plant facilities and the local board shall certify that after the new construction is finally completed:

- (1) The existing building or space to be replaced will not be used for district instructional purposes; and
- (2) The existing building or space will be ineligible for any future state financial assistance.

Further, if the existing building or space is subsequently returned by the district to instructional purposes in whole or in part, the district shall become ineligible for any state construction financial assistance for a period of ten years from the date that the executive director or the chief executive officer of the state board notifies the board during the course of an open public meeting or sends written notice to members of the board of the return of the building in whole or in part to instructional purposes. Except as otherwise provided in WAC 180-33-043, districts exercising this election shall be limited in state assistance to the provision of WAC 180-33-040. In the event the district elects to replace a facility and construct a new facility with more space than the facility being replaced, the additional space, in order to be eligible for state assistance shall meet the eligibility requirements for new construction or the new

construction component requirement of WAC 180-33-015 (1)(c): *Provided*, That no new construction in lieu of modernization project may qualify for additional state assistance pursuant to WAC 180-27-115 unless the facility being replaced would have qualified pursuant to such section for additional state assistance as a modernization project.

WAC 180-40-200 Purpose and application. The purpose of this chapter is to implement RCW 28A.305.160 by prescribing the substantive and procedural due process rights of students served by any program or activity conducted by or in behalf of a common school district: *Provided*, That the enforcement of rules promulgated by the Washington interscholastic association and like organizations that govern the participation of students in interschool activities, and appeals in connection therewith, shall be governed by rules of the organization that have been adopted pursuant to RCW 28A.600.200 and approved by the state board of education—not by this chapter. The procedures and standards set forth in this chapter and those adopted by a school district in conformance with this chapter shall govern the imposition of corrective action or punishment (i.e., discipline, suspension, and expulsion) upon any student by a school district and its agents.

The provisions of this chapter are intended to establish the minimum procedural and substantive due process rights of students. School districts are free to establish additional due process requirements and limitations and shall do so as necessary to accommodate the constitutional rights of students as now or hereafter established.

For rules regarding student conduct which supplement this chapter see chapter 392-145 WAC governing the operation of school buses, particularly WAC 392-145-015(4) regarding the responsibility of bus drivers and certificated staff members who accompany students for the behavior of students, and WAC 392-145-035 regarding the duty to adopt and post rules, including rules of conduct, governing school bus passengers.

A suspension also may include a denial of admission to or entry upon real and personal property that is owned, leased, rented, or controlled by the school district.

(3) "Short-term suspension" shall mean a suspension for any portion of a calendar day up to and not exceeding ten consecutive school days.

(4) "Long-term suspension" shall mean a suspension which exceeds a "short-term suspension" as defined in subsection (3) of this section.

WAC 180-40-210 Student responsibilities and duties. The mission of the common school system is to provide learning experience which will assist all students to develop skills, competencies, and attitudes that are fundamental to an individual's achievement as a responsible, contributing citizen. In order to maintain and advance this mission, it shall be the responsibility and duty of each student to pursue his/her course of studies, comply with written rules of a common school district which are adopted pursuant to and in compliance with WAC 180-40-225 and RCW 28A.600.010, and submit to reasonable corrective action or punishment imposed by a school district and its agents for violation(s) of such rules. The provisions of this chapter do not lessen the foregoing responsibilities and duties of each student. This chapter is intended to assure that corrective action or punishment is imposed for just cause and in a fair and just manner.

WAC 180-40-220 Student disciplinary boards—Establishment at option of school district—Functions. The board of directors of any school district may authorize the establishment of one or more student disciplinary boards composed of students, teachers, administrators, or parents, or any combination thereof. Disciplinary boards may be authorized to prescribe reasonable discipline and may recommend, but not prescribe, suspension or expulsion to the appropriate school authority. Such school authority shall be granted the power to set aside or modify any such prescription or recommendation. In addition, disciplinary boards may be authorized to periodically review rules of the school district defining the types of misconduct for which corrective action or punishment may be imposed and to recommend amendments thereto to the board of directors.

In addition, written procedures for administering corrective action shall be developed and reviewed periodically as follows:

(a) Each school district shall provide for the development with parent and community participation of written procedures for administering corrective action at each school as required by RCW 28A.600.020(3).

(2) Rules that establish types of misconduct pursuant to this section must have a real and substantial relationship to the lawful maintenance and operation of the school district including, but not limited to, the preservation of the health and safety of students and employees and the preservation of an educational process which is conducive to learning.

(3) The rules set forth in this chapter, the rules of a school district that establish types of misconduct pursuant to subsection (1) above, and the written procedures of a district for administering corrective action adopted pursuant to subsection (1)(a) above, shall be published and made available to all students and parents on an annual basis. WAC 180-40-230 Persons authorized to impose discipline, suspension, expulsion, or emergency removal upon students. (1) Each certificated teacher, each school administrator, each school bus driver, and any other school employee designated by the board of directors of a school district shall possess the authority to impose discipline upon a student for misconduct which violates rules of the school district established pursuant to WAC 180-40-225 and to impose an emergency removal from a class, subject, or activity upon a student pursuant to WAC 180-40-290.

(2) The board of directors of any school district may delegate to the superintendent and/or his or her designee(s) the authority to impose suspensions and expulsions upon students for misconduct which violates rules of the school district established pursuant to WAC 180-40-225. Each certificated teacher and each administrator shall possess the authority to recommend suspensions and expulsions for such misconduct.

(3) Any board of directors which chooses not to delegate the authority to impose suspensions and/or expulsions, nevertheless, shall be subject to the requirements set forth in this chapter when it imposes a suspension or expulsion.

(4) Notwithstanding any provision of this section to the contrary, each teacher is empowered to exclude any student who creates a disruption of the educational process in violation of the building disciplinary standards while under the teacher's immediate supervision from his or her individual classroom and instructional or activity area for all or any portion of the balance of the school day or until the principal or designee and teacher have conferred, whichever occurs first: *Provided*, That except in emergency circumstances as provided for in WAC 180-40-290, the teacher shall have first attempted one or more alternative forms of corrective action: *Provided further*, That in no event without the consent of the teacher shall an excluded student be returned during the balance of the particular class or activity period from which the student was initially excluded.

DISCIPLINE

WAC 180-40-235 Discipline—Conditions and limitations. Discipline may be imposed upon any student for violation of the rules of the school district that have been established pursuant to WAC 180-40-225, subject to the following limitations and conditions and the grievance procedure set forth in WAC 180-40-240:

(1) No form of discipline shall be enforced in such a manner as to prevent a student from accomplishing specific academic grade, subject, or graduation requirements.

(2) A student's academic grade or credit in a particular subject or course may be adversely affected by reason of tardiness or absences only to the extent and upon the basis that:

(a) The student's attendance and/or participation is related to the instructional objectives or goals of the particular subject or course, and

(b) The student's attendance and/or participation has been identified by the teacher pursuant to policy of the school district as a basis for grading, in whole or in part, in the particular subject or course.

(3) Corporal punishment which is defined as any act which willfully inflicts or willfully causes the infliction of physical pain on a student is prohibited. This prohibition shall take effect in all school districts September 1, 1994.

Corporal punishment does not include:

Any student, parent, or guardian who is aggrieved by the imposition of discipline shall have the right to an informal conference with the building principal or his or her designee for the purpose of resolving the grievance. The employee whose action is being grieved shall be notified of the initiation of a grievance as soon as reasonably possible. During such conference the student, parent, or guardian shall be subject to questioning by the building principal or his or her designee and shall be entitled to question school personnel involved in the matter being grieved. If the grievance is not resolved, the student, parent, or guardian, upon two school business days' prior notice, shall have the right to present a written and/or oral grievance to the board of directors during the board's next regular meeting or to the school district disciplinary appeal council if the board has delegated its responsibility to hear and decide such grievances to the council pursuant to WAC 180-40-317. The board or council shall notify the student, parent, or guardian of its response to the grievance within ten school business days after the date of the meeting. The discipline action shall continue notwithstanding the implementation of the grievance procedure set forth in this section unless the principal or his or her designee elects to postpone such action.

SHORT-TERM SUSPENSION

WAC 180-40-245 Short-term suspension—Conditions and limitations. A short-term suspension may be imposed upon a student for violation of school district rules adopted pursuant to WAC 180-40-225, subject to the following limitations or conditions, the prior informal conference procedures set forth in WAC 180-40-250, and the grievance procedures set forth in WAC 180-40-255:

(1) The nature and circumstances of the violation must be considered and must reasonably warrant a short-term suspension and the length of the suspension imposed. This requirement does not preclude school districts (that is, the boards of directors of school districts) from establishing the nature and extent of the corrective actions and/or punishments which, as a general rule, must be imposed as a

consequence of proscribed misconduct. Such advance notice to students is advisable, and the imposition of such preestablished corrective action and/or punishment is permissible as long as (a) disciplinarians and hearing officers are allowed to grant exceptions in cases involving extenuating and/or exceptional circumstances, and (b) short-term suspension is not established as the corrective action or punishment for a student's first time offense other than for offenses involving exceptional misconduct as defined in subsection (2) of this section.

(2) As a general rule, no student shall be suspended for a short term unless another form of corrective action or punishment reasonably calculated to modify his or her conduct has previously been imposed upon the student as a consequence of misconduct of the same nature. A school district may, however, elect to adopt rules providing for the immediate resort to short-term suspension in cases involving exceptional misconduct as long as disciplinarians and hearing officers may grant exceptions in cases involving extenuating and/or exceptional circumstances, notwithstanding the fact prior alternative corrective action or punishment has not been imposed upon the student(s) involved. For the purpose of this rule, "exceptional misconduct" means misconduct other than absenteeism which a school district has judged following consultation with an ad hoc citizens committee to (a) be of such frequent occurrence, notwithstanding past attempts of district personnel to control such misconduct through the use of other forms of corrective action and/or punishment, as to warrant an immediate resort to short-term suspension, and/or (b) be so serious in nature and/or so serious in terms of the disruptive effect upon the operation of the school(s) as to warrant an immediate resort to short-term suspension (for example, misconduct judged by a school district to be the same or of the same nature as a violation of the state's drug or controlled substances laws). The ad hoc citizens committee required by this section shall be composed of three or more persons chosen by the school district or the administrative designee(s) of the district, and shall be constituted with the intent and purpose of representing various socio economic, minority and majority populations of the school district to the extent deemed practical.

(3) No student subject to compulsory attendance pursuant to chapter 28A.225 RCW, as now or hereafter amended, shall be suspended by reason, in whole or part, of one or more unexcused absences unless the school district has first imposed an alternative corrective action or punishment reasonably calculated to modify his or her conduct and, in addition:

(a) Provided notice to the student's parent(s) or guardian(s) or custodial parent(s) in writing in English or, if different, the primary language of the parent(s), guardian(s) or custodial parent(s) that the student has failed to attend school without valid justification, and by other means reasonably necessary to achieve notice of such fact;

(b) Scheduled a conference or conferences with the parent(s) or guardian(s) or custodial parent(s) and the student at a time and place reasonably convenient to all persons included to analyze the causes for the student's absence, the analysis to determine by appropriate means whether the student should be made a focus of concern for placement in a special education or other special program designed for his/her educational success; and

(c) Taken steps to reduce the student's absence which include, where appropriate in the judgment of local school officials and where possible, discussed with the student, parent(s), guardian(s) or custodial parent(s), adjustments of the student's school program or school or course assignment or assisting the student or parent to obtain supplementary services that might ameliorate the cause(s) for the student's absence from school.

(4) Kindergarten through grade four—No student in grades kindergarten through four shall be subject to short-term suspensions for more than a total of ten school days during any single semester or trimester as the case may be, and no loss of academic grades or credit shall be imposed by reason of the suspension of such a student.

(5) Grade five and above program—No student in the grade five and above program shall be subjected to short-term suspensions for more than a total of fifteen school days during any single semester or ten school days during any single trimester, as the case may be.

(6) Any student subject to a short-term suspension shall be provided the opportunity upon his or her return to make up assignments and tests missed by reason of the short-term suspension if:

(a) Such assignments or tests have a substantial effect upon the student's semester or trimester grade or grades, or

(b) Failure to complete such assignments or tests would preclude the student from receiving credit for the course or courses.

(7) Any student who has been suspended shall be allowed to make application for readmission at any time. Each school district board of directors shall adopt written rules which provide for such an application for readmission and set forth the procedures to be followed.

LONG-TERM SUSPENSION

WAC 180-40-260 Long-term suspension—Conditions and limitations. A long-term suspension may be imposed upon a student for violation of school district rules adopted pursuant to WAC 180-40-225, subject to the following limitations or conditions and the notice requirements set forth in WAC 180-40-265 and the hearing requirements set forth in WAC 180-40-270:

(1) The nature and circumstances of the violation must be considered and must reasonably warrant a long-term suspension and the length of the suspension imposed. This requirement does not preclude school districts (that is, the boards of directors of school districts) from establishing the nature and extent of the corrective actions and/or punishments which, as a general rule, must be imposed as a consequence of proscribed misconduct. Such advance notice to students is advisable, and the imposition of such preestablished corrective action and/or punishment is permissible as

long as (a) disciplinarians and hearing officers are allowed to grant exceptions in cases involving extenuating and/or exceptional circumstances, and (b) long-term suspension is not established as the corrective action or punishment for a student's first time offense other than for offenses involving exceptional misconduct as defined in subsection (2) of this section.

(2) As a general rule, no student shall be suspended for a long term unless another form of corrective action or punishment reasonably calculated to modify his or her conduct has previously been imposed upon the student as a consequence of misconduct of the same nature. A school district may, however, elect to adopt rules providing for the immediate resort to long-term suspension in cases involving exceptional misconduct as long as disciplinarians and hearing officers are allowed to grant exceptions in cases involving extenuating and/or exceptional circumstances, notwithstanding the fact prior alternative corrective action or punishment has not been imposed upon the student(s) involved. For the purpose of this rule, "exceptional misconduct" means misconduct other than absenteeism which a school district has judged following consultation with an ad hoc citizens committee to (a) be of such frequent occurrence, notwithstanding past attempts of district personnel to control such misconduct through the use of other forms of corrective action and/or punishment, as to warrant an immediate resort to long-term suspension, and/or (b) be so serious in nature and/or so serious in terms of the disruptive effect upon the operation of the school(s) as to warrant an immediate resort to long-term suspension (for example, misconduct judged by a school district to be the same or of the same nature as a violation of the state's drug or controlled substances laws). The ad hoc citizens committee required by this section shall be composed of three or more persons chosen by the school district or the administrative designee(s) of the district, and shall be constituted with the intent and purpose of representing various socio economic, minority and majority populations of the school district to the extent deemed practical.

(3) No student subject to compulsory attendance pursuant to chapter 28A.225 RCW, as now or hereafter amended, shall be suspended by reason, in whole or part, of one or more unexcused absences unless the school district has first imposed an alternative corrective action or punishment reasonably calculated to modify his or her conduct and, in addition:

(a) Provided notice to the student's parent(s) or guardian(s) or custodial parent(s) in writing in English or, if different, the primary language of the parent(s), guardian(s) or custodial parent(s) that the student has failed to attend school without valid justification, and by other means reasonably necessary to achieve notice of such fact;

(b) Scheduled a conference or conferences with the parent(s) or guardian(s) or custodial parent(s) and the student at a time and place reasonably convenient to all persons included to analyze the causes for the student's absence, the analysis to determine by appropriate means whether the student should be made a focus of concern for placement in a special education or other special program designed for his/her educational success; and

(c) Taken steps to reduce the student's absence which include, where appropriate in the judgment of local school officials and, where possible, discussed with the student,

parent(s), guardian(s) or custodial parent(s), adjustments of the student's school program or school or course assignment or assisting the student or parent to obtain supplementary services that might ameliorate the cause(s) for the student's absence from school.

(4) Kindergarten through grade four—No student in grades kindergarten through four shall be subject to long-term suspension.

(5) Grade five and above program—No single long-term suspension shall be imposed upon a student in the grade five and above program in a manner which causes the student to lose academic grades or credit for in excess of one semester or trimester, as the case may be, during the same school year.

(6) Any student who has been suspended shall be allowed to make application for readmission at any time. Each school district board of directors shall adopt written rules which provide for such an application for readmission and set forth the procedures to be followed.

(7) All long-term suspensions and the reasons therefor shall be reported in writing to the superintendent of the school district or his or her designee within twenty-four hours after the imposition of the suspension.

WAC 180-40-265 Long-term suspension—Notice of hearing—Waiver of hearing. (1) Prior to the long-term suspension of a student, written notice of an opportunity for a hearing shall be delivered in person or by certified mail to the student and to his or her parent(s) or guardian(s). The notice shall:

(a) Be provided in the predominant language of a student and/or a parent(s) or guardian(s) who predominantly speak a language other than English, to the extent feasible,

(b) Specify the alleged misconduct and the school district rule(s) alleged to have been violated,

(c) Set forth the corrective action or punishment proposed,

(d) Set forth the right of the student and/or his or her parent(s) or guardian(s) to a hearing for the purpose of contesting the allegation(s), and

(e) Set forth the facts that:

(i) A written (or "oral" if provided for by school district policy) request for a hearing must be received by the school district employee designated, or by his or her office, on or before the expiration of the third school business day after receipt of the notice of opportunity for a hearing, and

(ii) If such a request is not received within the prescribed period of time, then the right to a hearing may be deemed to have been waived and the proposed long-term suspension may be imposed by the school district without any further opportunity for the student or his or her parent(s) or guardian(s) to contest the matter. A schedule of "school business days" potentially applicable to the exercise of such hearing right should be included with the notice.

(2) The student and/or his or her parent(s) or guardian(s) shall reply to the notice of opportunity for a hearing and request a hearing within three school business days after the date of receipt of notice. A request for a hearing shall be provided to the school district employee specified in the notice of opportunity for a hearing, or to his or her office. A request for a hearing shall be accepted if in writing and may be accepted orally if expressly provided for and allowed by rule of the school district.

(3) If a request for a hearing is not received within the required three school business day period, the school district may deem the student and his or her parent(s) or guardian(s) to have waived the right to a hearing and the proposed long-term suspension may be imposed.

[Order 6-77, § 180-40-265, filed 6/2/77, effective 8/1/77.]

WAC 180-40-270 Long-term suspension—Prehearing and hearing process. (1) If a request for a hearing is received pursuant to WAC 180-40-265 within the required three school business days, the school district shall schedule a hearing to commence within three school business days after the date upon which the request for a hearing was received.

(2) The student and his or her parent(s) or guardian(s) shall have the right to:

(a) Inspect in advance of the hearing any documentary and other physical evidence which the school district intends to introduce at the hearing,

(b) Be represented by legal counsel,

(c) Question and confront witnesses,

(d) Present his or her explanation of the alleged misconduct, and

(e) Make such relevant showings by way of witnesses and the introduction of documentary and other physical evidence as he or she desires.

(3) The designee(s) of the school district assigned to present the district's case shall have the right to inspect in advance of the hearing any documentary and other physical evidence which the student and his or her parent(s) or guardian(s) intend to introduce at the hearing.

(4) The person(s) hearing the case shall not be a witness and the guilt or innocence of the student shall be determined solely on the basis of the evidence presented at the hearing.

(5) Either a tape-recorded or verbatim record of the hearing shall be made.

(6) A written decision setting forth the findings of fact, conclusions, and the nature and duration of the long-term suspension or lesser form or corrective action or punishment to be imposed, if any, shall be provided to the student's legal counsel or, if none, to the student and his or her parent(s) or guardian(s).

requirements set forth in WAC 180-40-280, and the hearing requirements set forth in WAC 180-40-285:

(1) The nature and circumstances of the violation must reasonably warrant the harshness of expulsion.

(2) No student shall be expelled unless other forms of corrective action or punishment reasonably calculated to modify his or her conduct have failed or unless there is good reason to believe that other forms of corrective action or punishment would fail if employed.

(3) In addition to the alternative corrective action requirement of subsection (2) of this section, no student subject to compulsory attendance pursuant to chapter 28A.225 RCW, as now or hereafter amended, shall be expelled by reason, in whole or part, of one or more unexcused absences unless the school district has also first:

(a) Provided notice to the student's parent(s) or guardian(s) or custodial parent(s) in writing in English or, if different, the primary language of the parent(s), guardian(s) or custodial parent(s) that the student has failed to attend school without valid justification, and by other means reasonably necessary to achieve notice of such fact;

(5) Any student who has been expelled shall be allowed to make application for readmission at any time. Each school district board of directors shall adopt written rules which provide for such an application for readmission and set forth the procedures to be followed.

Pursuant to RCW 28A.305.130(11), all pupils in the public and private schools of the state carrying out a kindergarten through twelve program, or any part thereof, shall receive instruction so that in case of sudden emergency they shall be able to leave their particular building in the shortest possible time, or take such other steps as the particular emergency demands, and without confusion or panic. Instruction of pupils, training of school personnel and preparatory measures with respect to the building and equipment shall include but not be limited to the provisions hereinafter in WAC 180-41-015 through 180-41-040 set forth.

[Statutory Authority: 1990 c 33. 90-17-009, § 180-41-010, filed 8/6/90, effective 9/6/90; Order 10-70, § 180-41-010, filed 10/22/70.]

WAC 180-41-015 Evacuation of buildings in sudden emergency—Responsibilities of school authorities. It shall be the responsibility of school district boards of directors and governing bodies of private schools, respectively, (1) to provide for the instruction of pupils and develop specific plans and procedures for their schools consistent with the rules and regulations hereinafter in WAC 180-41-020 through 180-41-040 set forth and in accordance with guidelines to be provided by the superintendent of public instruction and (2) to ensure compliance with the plans and procedures so established. It is recognized that procedures for the sudden evacuation of a school building may vary

according to the situation, circumstances and/or conditions existing in a particular school or school system.

WAC 180-41-020 Evacuation of buildings in sudden emergency—Classroom instruction. Safety education programs at all grade levels should provide opportunity for each pupil to develop a foundation for a sense of security in orderly and safe exit in emergency situations.

[Order 10-70, § 180-41-020, filed 10/22/70.]

WAC 180-41-025 Evacuation of buildings in sudden emergency—Out-of-class traffic. Areas where pupils congregate before school and at noon should be properly supervised to assure safe conditions at all times and a minimum of confusion and consternation in the event of an emergency exit drill or actual emergency situation necessitating immediate evacuation.

Reasonable regulations governing traffic in halls, on stairways and elsewhere on school premises should be cooperatively established and kept up-to-date by student and faculty representatives.

In addition to specific instruction relating to emergency exit drills, the principal should provide opportunity for an objective evaluation of the practice following each such drill.

Staff personnel, assigned to act in the absence of the principal, should be thoroughly familiar with emergency exit drill procedures.

[Order 10-70, § 180-41-030, filed 10/22/70.]

Exit drills shall be held as frequently as may be necessary to assure rapid and orderly evacuation of the building in the event of an emergency. Drills should be executed at irregular times of day or evening so as to eliminate any possible distinction between a drill and an actual emergency situation.

Plans and procedures for exit drills shall include but not be limited to the following provisions:

(1) Emergency evacuation directions shall be posted in each room of the building.

(2) Special provision shall be made for removal of disabled and physically handicapped persons from the building.

(3) All occupants of the building—pupils, teachers and other school personnel without exception—shall, at the beginning of each school year, be given full and explicit instructions on exit drills in order that they have a clear working knowledge of exit drill directions and rules.

(1997 Ed.)

Recognizing that the educational staff associate endorsements, established approximately twenty years ago, need to be reviewed to determine if they continue to meet the emerging needs of today's children, the state board of education and the superintendent of public instruction will establish an advisory committee to study ESA certification. (1) Candidates shall be eligible for internship certificates which allow the holder full authority to serve as a part-time or full-time teacher and will be subject to the local school district's evaluation procedures under the following conditions:

(a) Persons must possess a master's degree and have a minimum of forty-five quarter hours (thirty semester hours) in an endorsement area or in a directly related area of study; or a bachelor's degree with a minimum of forty-five quarter hours (thirty semester hours) in an endorsement area or in a directly related area of study and at least five years of relevant work experience, subsequent to the bachelor's degree, as determined by the college or university;

(b) Candidates must be admitted to an approved Washington state college or university teacher education program, and hold a contract for employment as a teacher in a participating school district or be given written notice of other program or placement options if the candidate does not hold a contract. Candidates would be eligible for the internship certificate only upon completion of the college or university course work, as specified in subsection (2)(d) of this section, and employment in a participating school district;

(c) Notwithstanding the provisions above or other provisions in this section, in order to conduct a field test of an alternative model for the internship certificate, Teach for America resident teachers participating in a professional teaching residency shall be eligible for internship certificates for the two years of their residency program if they are employed by the Seattle School District.

The internship certificate shall be issued for up to two years. The internship certificates shall be endorsed on the basis of the academic requirements in WAC 180-79-086. If a resident teacher does not continue in the program for the full two years, the certificate shall become invalid when the resident teacher leaves the program.

Prior to teaching under the internship certificate the resident teacher shall have studied issues of abuse, child or adolescent psychology, classroom management, methods of instruction in the appropriate endorsement area, the legal responsibilities of the professional educator, reading in the content area, and the safety and supervision of children.

If a resident teacher has not completed such study in the summer training program the Seattle School District shall be responsible for assuring that each resident teacher has completed the required study prior to teaching. The resident teacher shall continue study throughout the two years in appropriate workshops or courses as determined by the Seattle School District and Teach for America.

The resident teacher shall receive on-site assistance throughout the two years.

The assessment of the Professional Teaching Residency field test will focus specifically on the effective recruitment of outstanding individuals (especially minority candidates), the performance-based assessment process, and the teaching

effectiveness demonstrated by the resident teachers who complete the program.

At the completion of their two-year internships, resident teachers shall be eligible for the initial certificate upon recommendation by the Seattle School District and by a review board of experienced educators. The authorization for the Teach for America field test extends from the 1994-95 school year through the 1998-99 school year.

An advisory board shall be established by Teach for America and the Seattle School District to assure the active involvement of interested persons, including teachers, principals, representatives of higher education, administrators, and parents in the ongoing review of the professional teaching residency program in order:

- (i) To assure that the program is consistent with Seattle School District goals and priorities; and
- (ii) To provide ongoing feedback to Teach for America and the Seattle School District.

An evaluation of the program shall be completed prior to the close of the first school year by a professional education advisory committee subcommittee, which shall include a site visit to the Seattle School District and the collection of data from the resident teachers and other parties, including, but not limited to, relevant students, teachers, principals, administrators, and parents. Findings from the evaluations shall be reviewed by the professional education advisory committee. Recommendations for continuation, revisions, or discontinuation of the professional teaching residency program shall be submitted by the professional education advisory committee to the state board of education. On the basis of the evaluation, the state board of education may rescind the authorization for any additional recruitment of resident teachers prior to the beginning of the next school year.

Prior to September 1, 1998, the professional education advisory committee shall review the evaluations of the teaching residency program and make recommendations to the state board on its future status.

(2) The college or university approved internship program shall be designed as follows:

(a) Students shall proceed through the program as a cohort group;

(b) The program shall be a minimum of forty-five quarter hours (thirty semester hours) of upper division and/or graduate study and must meet the state board of education standards for approved programs;

(c) The program shall provide the intern a minimum of fifteen quarter hours (ten semester hours) of study prior to the beginning of the school year, five quarter hours (three semester hours) for each quarter/semester of the school year and fifteen quarter hours (ten semester hours) in the summer following the first year of teaching;

(d) Prior to beginning teaching, the candidate must complete a minimum of fifteen quarter hours (ten semester hours) of course work in pedagogy including but not limited to: Child or adolescent psychology, classroom management, methods instruction in the appropriate endorsement area, the legal responsibilities of the professional educator, reading in a content area, and the safety and supervision of children (the course work must include forty hours of observation of school students in learning situations);

(e) During each quarter/semester the interns shall participate in a college/university three hour seminar weekly in order to provide the interns with peer interaction and assistance on issues associated with their teaching experiences;

(f) The college/university shall assign a college supervisor to work with each intern;

(g) The school district shall assign a staff member to serve as a mentor (who shall be selected using the criteria established for the teacher assistance program) for each intern;

(h) The school district and the college/university shall specify in detail the resources they will provide and the procedures they will follow to assure that the intern is qualified to assume full-time responsibility when placed in the classroom as a teacher.

(i) The year of internship teaching shall be deemed comparable to the state board of education student teaching requirement, provided, the college/university evaluates the intern's teaching as satisfactory. The local school district evaluation of the intern shall be shared with the college/university in making its decision;

(j) The internship certificate shall be issued for one year and may be renewed only once for one additional year to persons who for good cause were unable to complete the program upon recommendation by the college or university where the person is enrolled in the teacher education program.

(3) At least one college/university and one school district that meet the following criteria shall be approved by the state board of education to conduct this pilot program:

(a) Colleges and universities and school districts wishing to participate in this program must submit joint proposals to the state board of education for its consideration, provided, one college/university may have joint agreements with more than one school district and may include within such agreements a cooperative arrangement with an educational service district.

(b) Colleges/universities and school districts shall submit a detailed description of the program based on the requirements in subsection (2) of this section, provided, the state board of education will consider modifications to the requirements if the proposal indicates how the intent of the program can be met in a different curricular design.

(4) The internship teaching program shall be reviewed annually by the respective professional education advisory board and evaluated by the professional education advisory committee during its third year of operation. After receiving the recommendation from the professional education advisory committee, the state board of education shall determine whether or not or under what circumstances the pilot project shall be continued.

(5) The pilot project shall terminate on August 31, 1999, with the exception of the field test described in subsection (1)(c) of this section unless the state board of education extends or revises the existing program.

WAC 180-86-065 Grounds for issuance of a reprimand order. The superintendent of public instruction may issue a reprimand order whenever the superintendent of public instruction determines one or both of the following:

(1) That the certificate holder has committed an act of unprofessional conduct but the evidence is probably insufficient to meet the clear and convincing proof standard for suspension or revocation.

(3) *Provided*, That the superintendent of public instruction, in the administration of this chapter, shall place a high priority on processing complaints that allege circumstances which appear to warrant a suspension or revocation and, in order to do so, may elect not to pursue, when necessary, any and all complaints which appear to only warrant a reprimand.

Such order may contain a requirement that the certificate holder fulfill certain conditions precedent to resuming professional practice and certain conditions subsequent to resuming practice.

(2) The certificate holder has committed an act of unprofessional conduct or lacks good moral character but the superintendent of public instruction has determined that a suspension as applied to the particular certificate holder will probably deter subsequent unprofessional or other conduct which evidences lack of good moral character or personal fitness by such certificate holder, and believes the interest of the state in protecting the health, safety, and general welfare of students, colleagues, and other affected persons is adequately served by a suspension. Such order may contain a requirement that the certificate holder fulfill certain conditions precedent to resuming professional practice and certain conditions subsequent to resuming practice.

(3) The certificate holder lacks personal fitness but the superintendent of public instruction has determined the deficiency is correctable through remedial action and believes the interest of the state in protecting the health, safety, and general welfare of students, colleagues, and other affected persons is adequately served by a suspension which states condition precedent to resuming professional practice and which also may state certain conditions subsequent to resuming practice.

(4) *Provided*, That suspension shall never be appropriate if the certificate holder has committed a felony crime under WAC 180-75-081(1).

[Statutory Authority: RCW 28A.70.005. 90-02-076, § 180-86-070, filed 1/2/90, effective 2/2/90.]

APPEALS

WAC 180-86-140 Appeal—General. Any person who applies directly to the superintendent of public instruction for a certificate, particular endorsement, certificate renewal, or certificate reinstatement whose application is denied or any person who is notified that his or her certificate has lapsed or that his or her certificate will be suspended or revoked or that a reprimand order will be issued in thirty calendar days unless the decision is appealed shall be advised that he or she is entitled to appeal that decision to the superintendent of public instruction if he or she follows the procedures established in this chapter: *Provided*, That the appeal procedure may not be used to seek reinstatement of a certificate if that certificate has been revoked in the preceding twelve months by the superintendent of public instruction.

The appeal procedure to the superintendent of public instruction consists of two levels, one informal and one formal. The use of the informal level is a condition precedent to use of the formal level. In addition, the provisions of WAC 180-86-155 provide an additional appeal to the state board of education and RCW 34.05.570 provides for judicial review of such decisions.

WAC 180-86-145 Appeal procedure—Informal SPI review. Any person who appeals the decision or proposed order to deny his or her application, the lapsing of his or her certificate, the issuance of a reprimand, or the proposed order to suspend or revoke his or her certificate must file a written notice with the superintendent of public instruction within thirty calendar days following the date of mailing

from the section of the superintendent of public instruction's office responsible for certification of the decision or proposed order.

The written notice must set forth the reasons why the appellant believes his or her application should have been granted or why his or her certificate should not be lapsed, suspended, or revoked, or why the proposed reprimand should not be issued whichever is applicable.

Following timely notice of appeal, the superintendent of public instruction shall appoint a review officer who shall proceed as follows:

(1) If the appeal does not involve good moral character, personal fitness, or unprofessional conduct, the review officer shall review the application or notice of lapsing, whichever is applicable, and appeal notice and may request further written information including, but not limited to, an explanation from the person or persons who initially reviewed the application or decided to lapse the certificate, whichever is applicable, of the reason(s) why the application was denied or lapsed. If the review officer deems it advisable, he or she shall schedule an informal meeting with the appellant, the person or persons who denied the application or lapsed the certificate, and any other interested party designated by the review officer to receive oral information concerning the application or lapsing. Any such meeting must be held within thirty calendar days of the date of receipt by the superintendent of public instruction of the timely-filed appeal notice.

(2) If the appeal involves good moral character, personal fitness, or acts of unprofessional conduct, the review officer shall schedule an informal meeting of the applicant or certificate holder and/or counsel for the applicant or certificate holder with the admissions and professional conduct advisory committee. Such meeting shall be scheduled in accordance with the calendar of meetings of the advisory committee: *Provided*, That notice of appeal must be received at least fifteen calendar days in advance of a scheduled meeting.

(3) Send by certified mail a written decision—i.e., findings of fact and conclusions of law—on the appeal within thirty calendar days from the date of receipt of the timely-filed appeal notice or informal meeting, whichever is later. The review officer may uphold, reverse, or modify the decision to deny the application, the lapsing of the certificate, the proposed order to reprimand, or the proposed order to suspend or revoke the certificate.

(4) The timelines stated herein may be extended by the review officer for cause.

(5) *Provided*, That in the case of an action for suspension or revocation of a certificate, the review officer, if so requested by an appellant, shall delay any review under this section until all quasi-judicial administrative or judicial proceedings (i.e., criminal and civil actions), which the review officer and the appellant agree are factually related to the suspension or revocation proceeding, are completed, including appeals, if the appellant signs the agreement stated in WAC 180-86-160. In requesting such delay, the appellant shall disclose fully all pending quasi-judicial administrative proceedings in which the appellant is involved.
