WAC 246-812-360 Identification of new dentures. Every complete upper and lower denture and removable partial denture fabricated by a denturist licensed under the provisions of chapter 18.30 RCW, or fabricated pursuant to the denturist's work order or under the denturist's direction or supervision, shall be marked with the name of the patient for whom the denture is intended. The markings shall be done during fabrication and shall be permanent, legible, and cosmetically acceptable. The exact location of the markings and the methods used to apply or implant them shall be determined by the denturist fabricating the denture. If, in the professional judgment of the denturist, this identification is not practical, identification shall be provided as follows:

(1) The initials of the patient may be shown alone, if use of the patient's name is impracticable; or

(2) The identification marks may be omitted in their entirety if none of the forms of identification specified in subsection (1) of this section is practicable, clinically safe, or the patient declines.

[Statutory Authority: RCW 18.30.070(3). 98-20-068, § 246-812-360, filed 10/2/98, effective 11/2/98; 95-22-062, § 246-812-360, filed 10/30/95, effective 11/30/95.]

WAC 246-812-390 Improper billing practices. The following acts shall constitute grounds for which disciplinary action may be taken:

(1) Rebating or offering to rebate to an insured any payment to the licensee by the third-party payor of the insured for services or treatments rendered under the insured's policy.

(2) Submitting to any third-party payor a claim for a service or treatment at a greater or an inflated fee or charge other than the usual fee the licensee charges for that service or treatment when rendered without third-party reimbursement.

[Statutory Authority: RCW 18.30.070(3). 98-20-068, § 246-812-390, filed 10/2/98, effective 11/2/98; 95-22-062, § 246-812-390, filed 10/30/95, effective 11/30/95.]

WAC 246-812-400 Denturist associations or societies. The president or chief executive officer of any denturist association or society within this state shall report to the secretary when an association or society determines that a denturist has committed unprofessional conduct or that a denturist may not be able to practice denturism with reasonable skill and safety to patients as the result of any mental or physical condition and constitutes an apparent risk to the public health, safety, or welfare. The report required by this section shall be made without regard to whether the license holder appeals, accepts, or acts upon the determination made by the association or society. Notification of appeal shall be included.

[Statutory Authority: RCW 18.30.070(3). 98-20-068, § 246-812-400, filed 10/2/98, effective 11/2/98; 95-22-062, § 246-812-400, filed 10/30/95, effective 11/30/95.]

WAC 246-812-410 Insurance carriers. The executive officer of every insurer, licensed under Title 48 RCW operating in the state of Washington, shall report to the secretary any evidence that a denturist has charged fees for denturist services not actually provided, or has otherwise committed unprofessional conduct.

[Statutory Authority: RCW 18.30.070(3). 98-20-068, § 246-812-410, filed 10/2/98, effective 11/2/98; 95-22-062, § 246-812-410, filed 10/30/95, effective 11/30/95.]

WAC 246-812-420 Professional liability carriers. Every institution or organization providing professional liability insurance directly or indirectly to denturists shall send the secretary a complete report of any malpractice settlement, award or payment over five thousand dollars as a result of a claim or action for damages alleged to have been caused by an insured denturist's incompetence or negligence in the practice of denturism. Such institution or organization shall also report the payment of three or more claims during a year as the result of alleged incompetence or negligence in the practice of denturism regardless of the dollar amount of the payment.

[Statutory Authority: RCW 18.30.070(3). 98-20-068, § 246-812-420, filed 10/2/98, effective 11/2/98; 95-22-062, § 246-812-420, filed 10/30/95, effective 11/30/95.]

WAC 246-812-430 Courts. The secretary requests the assistance of all clerks of trial courts within the state to report, to the secretary, all professional malpractice judgments and all criminal convictions of licensed denturists, other than for minor traffic violations.

[Statutory Authority: RCW 18.30.070(3). 98-20-068, § 246-812-430, filed 10/2/98, effective 11/2/98; 95-22-062, § 246-812-430, filed 10/30/95, effective 11/30/95.]

WAC 246-812-440 State and federal agencies. The secretary requests the assistance of executive officers of any state or federal program operating in the state of Washington, under which a denturist has been judged to have demonstrated incompetence or negligence in the practice of denturism, or has otherwise committed unprofessional conduct; or whose practice is impaired as a result of a mental, physical or chemical condition, to report to the secretary all professional malpractice judgments and decisions.

[Statutory Authority: RCW 18.30.070(3). 98-20-068, § 246-812-440, filed 10/2/98, effective 11/2/98; 95-22-062, § 246-812-440, filed 10/30/95, effective 11/30/95.]

WAC 246-812-450 Professional standards review organizations. Unless prohibited by federal or state law, every professional standards review organization operating within the state of Washington shall report to the secretary any conviction, determination, or finding that a license holder has committed an act which constitutes unprofessional conduct, or to report information which indicates that the license holder may not be able to practice their profession with reasonable skill and safety to consumers as a result of a mental or physical condition.

[Statutory Authority: RCW 18.30.070(3). 98-20-068, § 246-812-450, filed 10/2/98, effective 11/2/98; 95-22-062, § 246-812-450, filed 10/30/95, effective 11/30/95.]

WAC 246-812-460 Board conflict of interest. Members of the board shall not participate in a disciplinary case where their participation presents a conflict of interest or creates an appearance of a conflict of interest.

[Statutory Authority: RCW 18.30.070(3). 98-20-068, § 246-812-460, filed 10/2/98, effective 11/2/98; 95-22-062, § 246-812-460, filed 10/30/95, effective 11/30/95.]

INFECTION CONTROL

WAC 246-812-501 Purpose. The purpose of WAC 246-812-501 through 246-812-520 is to establish requirements for infection control in denturist offices to protect the health and well-being of the people of the state of Washington. For purposes of infection control, all denturist staff members and all patients shall be considered potential carriers of communicable diseases. Infection control procedures are required to prevent disease transmission from patient to denturist and staff, denturist and staff to patient, and from patient to patient. Every denturist is required to comply with the applicable standard of care in effect at the time of treatment. At a minimum, the denturist must comply with the requirements defined in WAC 246-812-520.

[Statutory Authority: RCW 18.30.070(3). 98-20-068, § 246-812-501, filed 10/2/98, effective 11/2/98; 95-22-062, § 246-812-501, filed 10/30/95, effective 11/30/95.]

WAC 246-812-510 Definitions. The following definitions pertain to WAC 246-812-501 through 246-812-520.

"Communicable diseases" means an illness caused by an infectious agent which can be transmitted from one person, animal, or object to another person by direct or indirect means including transmission via an intermediate host or vector, food, water or air.

"Decontamination" means the use of physical or chemical means to remove, inactivate, or destroy bloodborne pathogens on a surface or item to the point where they are no longer capable of transmitting infectious particles and the surface or item is rendered safe for handling, use, or disposal.

"Direct care staff" are the denturist staff who directly provide denturist care to patients.

"Sterilize" means the use of a physical or chemical procedure to destroy all microbial life including highly resistant bacterial endospores.

[Statutory Authority: RCW 18.30.070(3). 98-20-068, § 246-812-510, filed 10/2/98, effective 11/2/98; 95-22-062, § 246-812-510, filed 10/30/95, effective 11/30/95.]

WAC 246-812-520 Use of barriers and sterilization techniques. The use of barriers and sterilization techniques is the primary means of assuring that there is the least possible chance of the transmission of communicable diseases from denturist and staff to patients, from patient to patient and from patient to denturist and staff. To prevent patient to patient cross contamination, instruments and supplies contaminated or likely to be contaminated with blood or saliva and touched during treatment must be sterilized between patients or discarded except as otherwise set forth below. Surfaces and equipment which are likely to be contaminated with blood or saliva and touched during treatment must be decontaminated or covered with a barrier which is discarded and replaced between patients except as otherwise set forth below:

(1) Denturists shall comply with the following barrier techniques:

(a) Gloves shall be used by the denturist and direct care staff during treatment which involves intraoral procedures or contact with items potentially contaminated with the patient's bodily fluids. Fresh gloves shall be used for every intraoral patient contact. Gloves shall not be washed or reused for any purpose. The same pair of gloves shall not be used, removed, and reused for the same patient at the same visit or for any other purpose. Gloves that have been used for denturist treatment shall not be reused for any nondenturist purpose.

(b) Masks shall be worn by the denturist and direct care staff when splatter or aerosol is likely.

(c) Unless effective surface decontamination methods are used, protective barriers shall be placed over areas which are likely to be touched during treatment, not removable to be sterilized, and likely to be contaminated by blood or saliva. These procedures must be followed between each patient. These include but are not limited to:

(i) Delivery unit;

(ii) Chair controls (not including foot controls);

(iii) Light handles;

(iv) Head rest;

(v) Instrument trays;

(vi) Treatment area and laboratory countertops/benches.

(d) Protective eyewear shields shall be worn by the denturist and direct care staff and provided to all patients during times when splatter or aerosol is expected.

(2) Denturists shall comply with the following sterilization requirements:

(a) Every denturist office shall have the capability to ultrasonically clean and sterilize contaminated items by autoclave, dry heat, unsaturated formaldehyde/alcohol vapor (such as MDT Chemiclave ®) or ethylene oxide, where adequate ventilation is provided. Sterilizers shall be tested by a biological spore test on at least a weekly basis. In the event of a positive biological spore test, the denturist shall take immediate remedial action to ensure the objectives of (a) of this subsection are accomplished. Documentation shall be maintained either in the form of a log reflecting dates and person(s) conducting the testing or copies of reports from an independent testing entity. The documentation shall be maintained for a period of at least five years.

(b) The following items shall be sterilized by an appropriate autoclave, dry heat, unsaturated formaldehyde/alcohol vapor (such as MDT Chemiclave ®) or ethylene oxide sterilization method between patients:

(i) Hand instruments;

(ii) Air-water syringe tips;

(iii) High volume evacuator tips;

(iv) Nose cone sleeves;

(v) Metal impression trays.

(c) Gross debris shall be removed from items prior to sterilization. Ultrasonic disinfectant solution cleaning shall be used whenever possible.

(d) Nondisposable items used in patient care which cannot be autoclaved, dry heat, unsaturated formaldehyde/alcohol vapor (such as MDT Chemiclave ®) or ethylene oxide sterilized shall be immersed and ultrasonically cleaned in a chemical sterilant. If such a technique is used, the solution shall be approved by the Environmental Protection Agency and used in accordance with the manufacturer's directions for sterilization.

(e) Items such as impressions contaminated with blood or saliva shall be thoroughly rinsed, appropriately disinfected, placed in and transported to the denturist laboratory in an appropriate case containment device that is properly sealed and separately labeled.

(f) In the laboratory: Ragwheels shall be sterilized or disinfected; patient pumice shall be discarded after each use; and, patient burrs and stones shall be sterilized or disinfected.

[Statutory Authority: RCW 18.30.070(3). 98-20-068, § 246-812-520, filed 10/2/98, effective 11/2/98; 95-22-062, § 246-812-520, filed 10/30/95, effective 11/30/95.]

SUBSTANCE ABUSE MONITORING

WAC 246-812-601 Purpose. The secretary recognizes the need to establish a means of proactively providing early recognition and treatment options for denturists whose competency may be impaired due to the abuse of drugs or alcohol. The secretary intends that such denturists be treated and their treatment monitored so that they can return to or continue to practice their profession in a way which safeguards the public. To accomplish this the secretary shall approve voluntary

substance abuse monitoring programs and shall refer denturists impaired by substance abuse to approved programs as an alternative to instituting disciplinary proceedings as defined in RCW 18.130.160.

[Statutory Authority: RCW 18.30.070(3). 98-20-068, § 246-812-601, filed 10/2/98, effective 11/2/98; 95-22-062, § 246-812-601, filed 10/30/95, effective 11/30/95.]

WAC 246-812-610 Definitions. The following general terms are defined within the context used in this chapter:

"Aftercare" is that period of time after intensive treatment that provides the denturist and the denturist's family with group or individual counseling sessions, discussions with other families, ongoing contact and participation in self-help groups and ongoing continued support of treatment program staff.

"Approved substance abuse monitoring program" or **"approved monitoring program"** is a program the secretary has determined meets the requirements of the law and the criteria established by the secretary in WAC 246-812-620 which enters into a contract with denturists who have substance abuse problems regarding the required components of the denturist's recovery activity and oversees the denturist's compliance with these requirements. Substance abuse monitoring programs do not provide evaluation or treatment to participating denturists.

"Approved treatment facility" is a facility approved by the bureau of alcohol and substance abuse, department of social and health services according to RCW 70.96A.020(2) or 69.54.030 to provide intensive alcoholism or drug treatment if located within Washington state. Drug and alcohol treatment programs located out-of-state must be equivalent to the standards required for approval under RCW 70.96A.020(2) or 69.54.030.

"Contract" is a comprehensive, structured agreement between the recovering denturist and the approved monitoring program stipulating the denturist's consent to comply with the monitoring program and its required components of the denturist's recovery activity.

"Health care professional" is an individual who is licensed, certified, or registered in Washington to engage in the delivery of health care to patients.

"Random drug screens" are laboratory tests to detect the presence of drugs of abuse in body fluids which are performed at irregular intervals not known in advance by the person being tested.

"Substance abuse" means the impairment, as determined by the secretary, of a denturist's professional services by an addiction to, a dependency on, or the use of alcohol, legend drugs, or controlled substances.

"Support group" is a group of health care professionals meeting regularly to support the recovery of its members. The group provides a confidential setting with a trained and experienced health care professional facilitator in which denturists may safely discuss drug diversion, licensure issues, return to work, and other professional issues related to recovery.

"Twelve-step groups" are groups such as alcoholics anonymous, narcotics anonymous, and related organizations based on a philosophy of anonymity, belief in a power outside of oneself, a peer group association, and self-help.

[Statutory Authority: RCW 18.30.070(3). 98-20-068, § 246-812-610, filed 10/2/98, effective 11/2/98; 95-22-062, § 246-812-610, filed 10/30/95, effective 11/30/95.]

WAC 246-812-620 Approval of substance abuse monitoring programs. The secretary shall approve the monitoring program(s) which shall participate in the substance abuse monitoring program. A monitoring program approved by the secretary may be contracted with an entity outside the department but within the state, out-of-state, or a separate structure within the department.

(1) The approved monitoring program shall not provide evaluation or treatment to the participating denturist.

(2) The approved monitoring program staff must have the qualifications and knowledge of both substance abuse and the practice of denturism as defined in this chapter to be able to evaluate:

(a) Clinical laboratories;

(b) Laboratory results;

(c) Providers of substance abuse treatment, both individuals and facilities;

(d) Support groups;

(e) The denturist work environment; and

(f) The ability of the denturist to practice with reasonable skill and safety.

(3) The approved monitoring program shall enter into a contract with the denturist and the secretary to oversee the denturist's compliance with the requirements of the program.

(4) The approved monitoring program may make exceptions to individual components of the contract on an individual basis.

(5) The approved monitoring program staff shall recommend, on an individual basis, whether a denturist shall be prohibited from engaging in the practice of denturism for a period of time and restrictions, if any, on the denturist's access to controlled substances in the work place.

(6) The approved monitoring program shall maintain records on participants.

(7) The approved monitoring program shall be responsible for providing feedback to the denturist as to whether treatment progress is acceptable.

(8) The approved monitoring program shall report to the secretary any denturist who fails to comply with the requirements of the monitoring program.

(9) The approved monitoring program shall receive from the secretary guidelines on treatment, monitoring, and limitations on the practice of denturism for those participating in the program.

[Statutory Authority: RCW 18.30.070(3). 98-20-068, § 246-812-620, filed 10/2/98, effective 11/2/98; 95-22-062, § 246-812-620, filed 10/30/95, effective 11/30/95.]

WAC 246-812-630 Participation in approved substance abuse monitoring program. (1) In lieu of disciplinary action, the denturist may accept secretary referral into the approved substance abuse monitoring program.

(a) The denturist shall undergo a complete physical and psychosocial evaluation before entering the approved moni-

toring program. This evaluation shall be performed by health care professional(s) with expertise in chemical dependency. The person(s) performing the evaluation shall not also be the provider of the recommended treatment.

(b) The denturist shall enter into a contract with the secretary and the approved substance abuse monitoring program to comply with the requirements of the program which shall include, but not be limited to:

(i) The denturist shall undergo intensive substance abuse treatment in an approved treatment facility.

(ii) The denturist shall agree to remain free of all mind-altering substances including alcohol except for medications prescribed by an authorized prescriber, as defined in RCW 69.41.030 and 69.50.101.

(iii) The denturist must complete the prescribed aftercare program of the intensive treatment facility, which may include individual and/or group psychotherapy.

(iv) The treatment counselor(s) shall provide reports to the approved monitoring program at specified intervals. Reports shall include treatment, prognosis, and goals.

(v) The denturist shall submit to random drug screening as specified by the approved monitoring program.

(vi) The denturist shall attend support groups facilitated by a health care professional and/or twelve-step group meetings as specified by the contract.

(vii) The denturist shall comply with specified employment conditions and restrictions as defined by the contract.

(viii) The denturist shall sign a waiver allowing the approved monitoring program to release information to the secretary if the denturist does not comply with the requirements of this contract.

(c) The denturist is responsible for paying the costs of the physical and psychosocial evaluation, substance abuse treatment, and random drug screens.

(d) The denturist may be subject to disciplinary action under RCW 18.130.160, if the denturist does not consent to be referred to the approved monitoring program, does not comply with specified employment restrictions, or does not successfully complete the program.

(2) A denturist who is not being investigated by the secretary or subject to current disciplinary action or currently being monitored by the secretary for substance abuse may voluntarily participate in the approved substance abuse monitoring program without being referred by the secretary. Such voluntary participants shall not be subject to disciplinary action under RCW 18.130.160 for their substance abuse, and shall not have their participation made known to the secretary if they meet the requirements of the approved monitoring program as defined in subsection (1) of this section.

(3) The treatment and pretreatment records of license holders referred to or voluntarily participating in approved monitoring programs shall be confidential, shall be exempt from RCW 42.17.250 through 42.17.450 and shall not be subject to discovery by subpoena or admissible as evidence except for monitoring records reported to the disciplinary authority for cause as defined in subsection (1) of this section. Records held by the secretary under this section shall be exempt from RCW 42.17.250 through 42.17.450 and shall not be subject to discovery by subpoena except by the license holder.

[Statutory Authority: RCW 18.30.070(3). 98-20-068, § 246-812-630, filed 10/2/98, effective 11/2/98; 95-22-062, § 246-812-630, filed 10/30/95, effective 11/30/95.]

FEES

WAC 246-812-990 Denturist fees and renewal cycle. (1) Licenses must be renewed every other year on the practitioner's birthday as provided in chapter 246-12 WAC, Part 2.

(2) The following nonrefundable fees will be charged:

Title of Fee	Fee
Application	$ 1,000.00
Examination	1,500.00
Reexamination, written	500.00
Reexamination, practical	500.00
License renewal	2,750.00
Late renewal penalty	300.00
Expired license reissuance	300.00
Inactive license renewal	1,500.00
Expired inactive license reissuance	300.00
Duplicate license	15.00
Certification of license	25.00
Multiple location licenses	50.00

[Statutory Authority: RCW 43.70.250 and chapter 18.30 RCW. 00-07-050, § 246-812-990, filed 3/8/00, effective 4/8/00. Statutory Authority: RCW 18.30.070(3). 98-20-068, § 246-812-990, filed 10/2/98, effective 11/2/98. Statutory Authority: RCW 43.70.280. 98-05-060, § 246-812-990, filed 2/13/98, effective 3/16/98. Statutory Authority: RCW 18.30.070(3). 95-22-062, § 246-812-990, filed 10/30/95, effective 11/30/95.]

WAC 246-812-995 Conversion to a birthday renewal cycle. (1) The biennial license renewal date is changed to coincide with the practitioner's birthday.

(2) Renewal fees will be prorated during the transition period while renewal dates are changed to coincide with the practitioner's birthday.

(3) After the initial conversion to a staggered system, practitioners will renew their license every other year on their birthday at the current renewal rate.

[Statutory Authority: RCW 18.30.070(3). 98-20-068, § 246-812-995, filed 10/2/98, effective 11/2/98. Statutory Authority: RCW 43.70.280. 98-05-060, § 246-812-995, filed 2/13/98, effective 3/16/98.]

Chapter 246-814 WAC
ACCESS TO DENTAL CARE FOR CHILDREN

WAC

WAC 246-814-010 Purpose. The purpose of this chapter is to implement RCW 18.29.220 and 18.32.226. These laws are intended to improve access to dental care for low-income, rural, and other at-risk children by enhancing the authority of dental hygienists and dental assistants to provide dental sealant and fluoride varnish treatments in school-based programs. The department of health encourages partnerships

within geographical regions and among participants in the oral health care community in implementing this law.

[Statutory Authority: RCW 43.70.650. 02-21-128, § 246-814-010, filed 10/23/02, effective 11/23/02.]

WAC 246-814-020 Practices authorized. (1) **Dental hygienists.** Solely for purposes of providing services under this chapter, dental hygienists holding endorsements under this chapter may assess by determining the need for (i.e., the absence of gross carious lesions and sealants) and acceptability of dental sealant and/or fluoride varnish treatment for children in school-based programs and may apply dental sealants and fluoride varnish treatments, without the supervision of a licensed dentist. This determination does not include or involve diagnosing conditions or constitute a dental examination.

(2) **Dental assistants.** A dental assistant is currently defined by the Dental Quality Assurance Commission in WAC 246-817-510 as an unlicensed person working under the *close* supervision of a licensed dentist. Solely for purposes of this chapter, authorized dental assistants may apply dental sealants and fluoride varnish treatments to children in school-based programs under the *general* supervision of a Washington state licensed dentist, as described in this chapter.

(a) *Close supervision* requires the licensed supervising dentist to first determine the need for and acceptability of dental sealant and fluoride varnish treatments, refer the treatment and the dentist must be in the treatment facility when the treatment is provided.

(b) *General supervision* requires the licensed supervising dentist to first determine the need for and acceptability of dental sealant and fluoride varnish treatments, refer the treatment and the dentist does not have to be in the treatment facility when the treatment is provided.

(3) Dental assistants and their supervising dentists, as well as dental hygienists shall coordinate with local public health jurisdictions and local oral health coalitions prior to providing services under this chapter, consistent with RCW 18.29.220 and 18.32.226.

[Statutory Authority: RCW 43.70.650. 02-21-128, § 246-814-020, filed 10/23/02, effective 11/23/02.]

WAC 246-814-030 Application process and documentation of training required to qualify for endorsement. (1) The department of health has issued endorsements to all dental hygienists holding valid licenses on or before April 19, 2001, the effective date of RCW 18.29.220.

(2) Dental hygienists licensed after April 19, 2001, must obtain an endorsement to provide services under this chapter. Applicants must meet the additional requirements in RCW 18.29.220 and must submit the following to the department:

(a) Application for endorsement;

(b) Fee;

(c) Information of having a valid Washington state dental hygiene license for reference; and

(d) Proof of the completion of training that has incorporated the Washington state department of health sealant/fluoride varnish program guidelines as described in WAC 246-814-040(3).

(3) Dental assistants employed by a Washington state licensed dentist on or before April 19, 2001, are not required to obtain an endorsement but may voluntarily do so without having to meet the additional requirements in RCW 18.32.226.

(4) Dental assistants employed by a Washington state licensed dentist for two hundred hours after April 19, 2001, must obtain an endorsement to provide services under this chapter. Applicants must meet the additional requirements in RCW 18.32.226 and must submit the following to the department:

(a) Application for endorsement;

(b) Fee;

(c) Proof of two hundred hours of employment as a dental assistant by a Washington state licensed dentist that has included theoretical and clinical training in the application of dental sealants and fluoride varnish treatments, verified by a declaration provided by the licensed dentist who provided the training; and

(d) Proof of completion of training that has incorporated the Washington state department of health sealant/fluoride varnish program guidelines as described in WAC 246-814-040(3).

(5) Dental assistants and their supervising dentists, as well as dental hygienists should use the Washington state department of health sealant/fluoride varnish guidelines described in WAC 246-814-040 and other protocols that may be in place for the geographic region when coordinating with local public health jurisdictions. To assist the local public health jurisdictions and the practitioners in coordinating these services, a "letter of understanding" is recommended and would provide a means to address mutual concerns. It may include, but is not limited to:

(a) Data collection requirements;

(b) Delineation of responsibilities of the treatment providers and the local public health jurisdictions;

(c) Quality assurance mechanisms; and

(d) Communication with schools being served.

(6) Dental assistants and their supervising dentists, as well as dental hygienists shall coordinate with the local oral health coalitions by participating in oral health coalition meetings that may be held in the geographical region.

[Statutory Authority: RCW 43.70.650. 02-21-128, § 246-814-030, filed 10/23/02, effective 11/23/02.]

WAC 246-814-040 Training and the provision of services. (1) The "Washington state department of health sealant/fluoride varnish program guidelines" have been developed, maintained and distributed by the department of health in partnership with the oral health community and health care practitioners. To obtain copies of the "guidelines" contact the department of health.

(2) The Washington state department of health sealant/fluoride varnish program guidelines are designed to assist the local public health jurisdictions and oral health care communities in the planning, implementation, and evaluation of school-based dental sealant and fluoride varnish programs. Every school-based dental sealant and fluoride varnish pro-

gram should design their program to provide, at minimum, for the following:

(a) Assessing and targeting the population.

(b) Establishing community capacity and infrastructure.

(c) Determining staffing needs and training.

(d) Securing equipment and supplies.

(e) Developing policies, procedures and data collection forms.

(f) Scheduling schools/sites.

(g) Preparing sites for implementation.

(h) Providing services.

(i) Evaluating the process and outcomes.

(3) The Washington state department of health sealant/fluoride varnish program guidelines also provides the training required for dental hygienists and dental assistants providing services under this chapter. Applicants for endorsement must obtain training as contained in these specific guidelines, which can be met through any one of the following methods:

(a) Graduation from a dental assisting, dental hygiene or dental educational program, accredited by the American Dental Association, which has incorporated the Washington state department of health sealant/fluoride varnish program guidelines.

(b) Continuing education courses which teach the Washington state department of health sealant/fluoride varnish program guidelines.

(c) Individual training provided by a Washington licensed dentist, which has incorporated the Washington state department of health sealant/fluoride varnish program guidelines.

[Statutory Authority: RCW 43.70.650. 02-21-128, § 246-814-040, filed 10/23/02, effective 11/23/02.]

WAC 246-814-990 Endorsement fees for dental assistants and dental hygienists, renewal of endorsement not required. (1) Endorsements do not require renewal.

(2) Endorsement documents are issued to the qualified applicant, and are not the property of the employer or the supervisor.

(3) The following one-time, nonrefundable fee will be charged:

Dental assistant application/endorsement. $50

Dental hygiene application/endorsement. $50

[Statutory Authority: RCW 43.70.650. 02-21-128, § 246-814-990, filed 10/23/02, effective 11/23/02.]

Chapter 246-815 WAC
DENTAL HYGIENISTS

WAC

DISPOSITION OF SECTIONS FORMERLY CODIFIED IN THIS CHAPTER

246-815-040 AIDS prevention and information education requirements. [Statutory Authority: RCW 18.29.130 and 70.24.270. 92-02-018 (Order 224), § 246-815-040, filed 12/23/91, effective 1/23/92. Statutory Authority: RCW 43.70.040. 91-02-049 (Order 121), recodified as § 246-815-040, filed 12/27/90, effective 1/31/91. Statutory Authority: RCW 70.24.270. 88-22-077 (Order PM 786), § 308-25-300, filed 11/2/88.] Repealed by 98-05-060, filed 2/13/98, effective 3/16/98. Statutory Authority: RCW 43.70.280.

246-815-060 Dismissal from examination. [Statutory Authority: Chapter 18.29 RCW and RCW 18.20.150(4). 95-16-102, § 246-815-060, filed 8/1/95, effective 9/1/95. Statutory Authority: RCW 18.29.031. 86-09-014 (Order PL 585), § 308-25-035, filed 4/7/86.] Repealed by 98-14-123, filed 7/1/98, effective 8/1/98. Statutory Authority: RCW 18.29.150 and18.29.120.

246-815-080 Written examination review procedures. [Statutory Authority: RCW 43.70.040. 91-02-049 (Order 121), recodified as § 246-815-080, filed 12/27/90, effective 1/31/91. Statutory Authority: RCW 18.29.120(5). 90-12-068 (Order 064), § 308-25-037, filed 6/1/90, effective 7/2/90.] Repealed by 98-14-123, filed 7/1/98, effective 8/1/98. Statutory Authority: RCW 18.29.150 and 18.29.120.

246-815-090 Practical examination review procedures. [Statutory Authority: RCW 18.29.120(5). 92-15-033 (Order 284), § 246-815-090, filed 7/7/92, effective 8/7/92. Statutory Authority: RCW 43.70.040. 91-02-049 (Order 121), recodified as § 246-815-090, filed 12/27/90, effective 1/31/91. Statutory Authority: RCW 18.29.120(5). 90-12-068 (Order 064), § 308-25-038, filed 6/1/90, effective 7/2/90.] Repealed by 98-14-123, filed 7/1/98, effective 8/1/98. Statutory Authority: RCW 18.29.150 and 18.29.120.

246-815-150 Renewal of licenses. [Statutory Authority: RCW 43.70.040. 91-02-049 (Order 121), recodified as § 246-815-150, filed 12/27/90, effective 1/31/91. Statutory Authority: RCW 43.24.020 and 43.24.024. 82-06-043 (Order 672), § 308-25-050, filed 3/2/82.] Repealed by 98-05-060, filed 2/13/98, effective 3/16/98. Statutory Authority: RCW 43.70.280.

246-815-300 Reinstatement of a dental hygiene expired license. [Statutory Authority: RCW 18.29.071. 94-04-005, § 246-815-300, filed 1/20/94, effective 2/20/94.] Repealed by 98-05-060, filed 2/13/98, effective 3/16/98. Statutory Authority: RCW 43.70.280.

WAC 246-815-020 Dental hygiene examination eligibility. (1) To be eligible to take the Washington dental hygiene examination, the applicant must meet the following requirements:

(a) The applicant must have successfully completed a dental hygiene education program approved by the secretary of the department of health pursuant to WAC 246-815-030.

(b) Applicants must complete seven clock hours of AIDS education as required in chapter 246-12 WAC, Part 8.

(c) The applicant must demonstrate knowledge of Washington law pertaining to the practice of dental hygiene.

(d) The applicant must complete the required application materials and pay the required fee.

(2) Applications for the dental hygiene examination are available from the department of health dental hygiene program. The completed application must be received by the department of health sixty days prior to the examination. The application must include:

(a) The required examination fee.

(b) Either the national board IBM card reflecting a passing score or a notarized copy of the national board certificate.

(c) Two photographs of the applicant taken within one year preceding the application.

(3) An official transcript or certificate of completion constitutes proof of successful completion from an approved dental hygiene education program. Applicants who will successfully complete the dental hygiene education program within forty-five days preceding the examination for which they are applying may provide documentation of successful completion by inclusion of their names on a verified list of students successfully completing the program from the dean or director of the education program. No other proof of successful completion is acceptable. An applicant may complete the application and be scheduled for the examination, but will not be admitted to the examination if the department of health has not received the required proof of successful completion.

[Statutory Authority: RCW 43.70.280. 98-05-060, § 246-815-020, filed 2/13/98, effective 3/16/98. Statutory Authority: Chapter 18.29 RCW and RCW 18.20.150(4). 95-16-102, § 246-815-020, filed 8/1/95, effective 9/1/95. Statutory Authority: RCW 18.29.130. 92-02-018 (Order 224), § 246-815-020, filed 12/23/91, effective 1/23/92. Statutory Authority: RCW 43.70.040. 91-02-049 (Order 121), recodified as § 246-815-020, filed 12/27/90, effective 1/31/91. Statutory Authority: Chapter 18.29 RCW, RCW 18.29.021, [18.29.]045 and [18.29.]130. 90-23-011 (Order 098), § 308-25-011, filed 11/13/90, effective 12/14/90.]

WAC 246-815-030 Education requirements for licensure applicants. (1) To be eligible for dental hygiene licensure, the applicant must have successfully completed a dental hygiene education program approved by the secretary of the department of health. The secretary adopts those standards of the American Dental Association Commission on Dental Accreditation relevant to the accreditation of dental hygiene schools, in effect in January, 1993. In implementing the adopted standards, the secretary approves those dental hygiene education programs which were accredited by the commission as of January 1993. Provided, That the accredited education program's curriculum includes:

(a) Didactic and clinical competency in the administration of injections of local anesthetic;

(b) Didactic and clinical competency in the administration of nitrous oxide analgesia;

(c) Didactic and clinical competency in the placement of restorations into cavities prepared by a dentist; and

(d) Didactic and clinical competency in the carving, contouring, and adjusting contacts and occlusions of restorations.

(2) Dental hygiene education programs approved by the secretary of the department of health pursuant to the American Dental Association Commission on Dental Accreditation standards in effect in January, 1993, whose curriculum does not include the didactic and clinical competency enumerated in (1)(a)-(d) above will be accepted if the applicant has successfully completed an expanded functions education program(s) approved pursuant to WAC 246-815-110, 246-815-120, and 246-815-130.

(3) A form will be provided in the department of health licensure application packages for the purpose of education verification.

[Statutory Authority: RCW 18.29.130. 94-05-053, § 246-815-030, filed 2/10/94 effective 3/13/94; 92-02-018 (Order 224), § 246-815-030, filed 12/23/91, effective 1/23/92. Statutory Authority: RCW 43.70.040. 91-02-049 (Order 121), recodified as § 246-815-030, filed 12/27/90, effective 1/31/91. Statutory Authority: Chapter 18.29 RCW, RCW 18.29.021, [18.29.]045 and [18.29.]130. 90-23-011 (Order 098), § 308-25-013, filed 11/13/90, effective 12/14/90.]

WAC 246-815-031 Dental hygiene expanded functions education requirement for licensure implementation. The dental hygiene education requirement for licensure regarding the didactic and clinical competency of the expanded functions referenced in WAC 246-815-030 (1)(a)-(d), (2) and (3) shall become effective February 1, 1993.

[Statutory Authority: RCW 18.29.130(6). 92-03-006 (Order 232), § 246-815-031, filed 1/3/92, effective 2/3/92; 91-11-065 (Order 172), § 246-815-031, filed 5/16/91, effective 6/16/91.]

WAC 246-815-050 Examination. (1) The dental hygiene examination will consist of both written and practical tests approved by the committee. An applicant seeking licensure in Washington by examination must successfully complete all of the following:

(a) The dental hygiene national board examination.

(b) The Washington written examination.

(c) The Washington restorative examination.

(d) The Western Regional Examining Board (WREB) dental hygiene patient evaluation/prophylaxis and local anesthetic examinations.

(2) The successful completion of the WREB dental hygiene examinations from May 8, 1992, and thereafter will be accepted.

(3) The committee may, at its discretion, give a test in any other phase of dental hygiene. Candidates will receive information concerning each examination.

(4) The applicant will comply with all written instructions provided by the department of health.

[Statutory Authority: Chapter 18.29 RCW and RCW 18.20.150(4). 95-16-102, § 246-815-050, filed 8/1/95, effective 9/1/95. Statutory Authority: RCW 18.29.120(2). 95-07-003, § 246-815-050, filed 3/2/95, effective 4/2/95. Statutory Authority: RCW 43.70.040. 91-02-049 (Order 121), recodified as § 246-815-050, filed 12/27/90, effective 1/31/91. Statutory Authority: Chapter 18.29 RCW, RCW 18.29.021, [18.29.]045 and [18.29.]130. 90-23-011 (Order 098), § 308-25-015, filed 11/13/90, effective 12/14/90. Statu-

tory Authority: RCW 18.29.031. 86-09-014 (Order PL 585), § 308-25-015, filed 4/7/86.]

WAC 246-815-100 Licensure by interstate endorsement of credentials. A license to practice as a dental hygienist in Washington may be issued pursuant to RCW 18.29.045 provided the applicant meets the following requirements:

(1) The applicant has successfully completed a dental hygiene education program which is approved by the secretary of the department of health pursuant to WAC 246-815-030.

(2) The applicant has been issued a valid, current, nonlimited license by successful completion of a dental hygiene examination in another state. The other state's current licensing standards must be substantively equivalent to the licensing standards in the state of Washington. The other state's examination must have included the following portions and minimum level of competency standards.

(a) Written tests - the written tests include:

(i) The National Board of Dental Hygiene examination.

(ii) A state written test covering the current dental hygiene subjects that are tested for Washington state.

(b) Practical tests - all portions shall be graded anonymously by calibrated practicing dental hygienists or dental hygienists and dentists. The calibration process shall consist of training sessions which include components to evaluate and confirm each examiners ability to uniformly detect known errors on pregraded patients and/or dentoforms. Examiners will be calibrated to the established standard of minimum level of competency. The examination must have equivalent patient selection criteria for the patient evaluation, prophylaxis and anesthesia portions. The current Washington state patient selection criteria for examination will be used as the basis of comparison at the time of application for licensure by interstate endorsement of credentials. The practical tests include:

(i) Patient evaluation clinical competency test which includes what is currently tested for the Washington state dental hygiene examination.

(ii) Prophylaxis clinical competency test which includes what is currently tested for the Washington state dental hygiene examination.

(iii) Anesthesia clinical competency test which includes what is currently tested for the Washington state dental hygiene examination.

(iv) Restorative test which includes what is currently tested for the Washington state dental hygiene examination.

(3) The applicant holds a valid current license, and has been currently engaged in clinical practice at any time within the previous year as a dental hygienist in another state or in the discharge of official duties in the United States Armed Services, Coast Guard, Public Health Services, Veterans' Bureau, or Bureau of Indian Affairs. Verification of licensure must be obtained from the state of licensure, and any fees for verification required by the state of licensure must be paid by the applicant.

(4) The applicant has not engaged in unprofessional conduct as defined in the Uniform Disciplinary Act in RCW 18.130.180 or is not an impaired practitioner under RCW 18.130.170 in the Uniform Disciplinary Act.

(5) Applicants must complete seven clock hours of AIDS education as required in chapter 246-12 WAC, Part 8.

(6) The applicant demonstrates to the secretary knowledge of Washington law pertaining to the practice of dental hygiene.

(7) The applicant completes the required application materials and pays the required application fee. Applications for licensure by interstate endorsement are available from the department of health dental hygiene program.

(8) If the secretary of the department of health finds that the other state's licensing standards are substantively equivalent except for a portion(s) of the examination, the applicant may take that portion(s) to qualify for interstate endorsement. That portion(s) of the exam must be successfully completed to qualify for interstate endorsement and an additional examination fee as well as the licensure by interstate endorsement fee shall be required.

[Statutory Authority: RCW 43.70.280. 98-05-060, § 246-815-100, filed 2/13/98, effective 3/16/98. Statutory Authority: Chapter 18.29 RCW and RCW 18.20.150(4). 95-16-102, § 246-815-100, filed 8/1/95, effective 9/1/95. Statutory Authority: RCW 18.29.045. 93-06-042A (Order 332), § 246-815-100, filed 2/24/93, effective 3/27/93. Statutory Authority: RCW 18.29.130. 92-02-018 (Order 224), § 246-815-100, filed 12/23/91, effective 1/23/92. Statutory Authority: RCW 43.70.040. 91-02-049 (Order 121), recodified as § 246-815-100, filed 12/27/90, effective 1/31/91. Statutory Authority: Chapter 18.29 RCW, RCW 18.29.021, [18.29.]045 and [18.29.]130. 90-23-011 (Order 098), § 308-25-041, filed 11/13/90, effective 12/14/90.]

WAC 246-815-110 Application procedures for approval of dental hygiene expanded functions education programs. (1) The representative of the education program must complete the required application materials and pay the required nonrefundable fee.

(2) Applications for approval of dental hygiene expanded functions education programs are available from the department of health, professional licensing services, dental hygiene program.

(3) The application shall include but is not limited to a self study guide which reflects WAC 246-815-120 and 246-815-130.

(4) The application may include a site visit and evaluation at the discretion of the secretary of the department of health.

(5) An approved dental hygiene expanded function education program shall report in writing all modifications of the approved program to the department of health and shall be required to pay the nonrefundable evaluation fee if the secretary of the department determines that the modification(s) substantially affects an area included in WAC 246-815-120.

(6) An approved dental hygiene expanded function education program shall apply for evaluation sixty days prior to the month and day of the initial approval date every four years and shall pay the required nonrefundable evaluation fee. Provided, That the approved dental hygiene expanded function education program has not been required to be evaluated due to modifications within one year prior to the required four year evaluation date.

[Statutory Authority: RCW 18.29.130. 92-02-018 (Order 224), § 246-815-110, filed 12/23/91, effective 1/23/92. Statutory Authority: RCW 43.70.040. 91-02-049 (Order 121), recodified as § 246-815-110, filed 12/27/90, effective 1/31/91. Statutory Authority: Chapter 18.29 RCW, RCW 18.29.021,

[18.29.]045 and [18.29.]130. 90-23-011 (Order 098), § 308-25-072, filed 11/13/90, effective 12/14/90.]

WAC 246-815-115 Exception application procedures for approval of dental hygiene expanded functions education programs. (1) This section applies only to dental hygiene programs:

(a) Currently accredited by the American Dental Association Commission on Dental Accreditation; and

(b) With accredited program curriculum that includes the administration of local anesthetic, administration of nitrous oxide analgesia and restorative dentistry.

(2) A program representative may apply for approval of a dental hygiene expanded function(s) education program by submitting to the department:

(a) An application on forms available from the department of health, professional licensing services, dental hygiene program, Olympia, Washington.

(b) The current and the proposed expanded function course outlines and syllabuses, and:

(i) An identification of the differences between the current and proposed courses;

(ii) Documentation of the differences between the current and proposed courses.

(3) The program representative shall not submit a self study guide or an application fee.

(4) The department may, at the secretary's discretion, conduct a site visit and evaluation.

(5) The representative of an approved expanded function education program shall:

(a) Report all modifications of the approved program to the department in writing; and

(b) Apply for evaluation every four years, sixty days prior to the month and day of the initial approval date. Provided, that the program has not been evaluated due to modifications within the year previous to the required evaluation date.

[Statutory Authority: RCW 18.29.130(6) and 18.29.021 (1)(a). 92-03-126 (Order 236), § 246-815-115, filed 1/21/92, effective 2/21/92.]

WAC 246-815-120 Standards required for approval of dental hygiene expanded functions education programs. The standards for approval by the secretary of the department of health of dental hygiene expanded functions education programs shall include:

(1) Administration. Administrative structure must insure the attainment of program goals. Administration must include formal provisions for program planning, development, staffing, direction, coordination and evaluation.

(2) Curriculum. The curriculum must be defined in terms of program goals, general and specific instructional objectives, learning experiences designed to achieve goals and objectives and evaluation procedures to assess attainment of goals and objectives.

(a) Instructional objectives shall be defined in the cognitive, psychomotor and affective domains which are consistent with and contributory to the attainment of program goals.

(b) Written documentation of all aspects of the curriculum, including comprehensive course outlines, must be prepared by the faculty.

(c) There must be mechanisms for ongoing curriculum evaluation, revision and implementation.

(3) Admissions. Admission of dental hygiene students must be based upon specific written criteria, procedures and policies.

(a) The program administrator and faculty, in cooperation with appropriate college personnel, shall establish admission criteria procedures and policies that will be followed in accepting students.

(b) Civil rights and nondiscriminatory policies must be observed in admitting students.

(4) Faculty. The program shall be staffed by faculty who are well qualified in curricular subject matter, dental hygiene functions and educational methodology.

(5) Facilities. Physical facilities and equipment must be adequate to permit achievement of dental hygiene program objectives. Facilities shall effectively accommodate the number of students, faculty and staff and include appropriate provisions for safety.

(6) Learning resources. A wide range of printed materials and instructional aids and equipment shall be available for utilization by students and faculty.

(7) Students. Policies and procedures to protect and serve students must be established and implemented.

(a) Ethical standards and policies to protect the students as consumers and avenues for appeal and due process must be provided.

(b) Student records should accurately reflect work accomplished in the program and be maintained in a secure manner.

(8) Assess outcomes. The program must regularly evaluate the degree to which its goals are being met through a formal assessment of outcomes. Approved programs must design and implement their own outcome measures to determine the degree to which their stated goals and objectives are met.

[Statutory Authority: RCW 43.70.040. 91-02-049 (Order 121), recodified as § 246-815-120, filed 12/27/90, effective 1/31/91. Statutory Authority: Chapter 18.29 RCW, RCW 18.29.021, [18.29.]045 and [18.29.]130. 90-23-011 (Order 098), § 308-25-073, filed 11/13/90, effective 12/14/90.]

WAC 246-815-130 Curriculum requirements for expanded functions dental hygiene education programs approval. (1) Curriculum for expanded function dental hygiene education programs approved by the secretary of the department of health shall include:

(a) Instruction in the administration of injections of a local anesthetic.

(i) The basic curriculum shall require didactic and clinical competency.

(ii) Demonstration of clinical proficiency in each of the following functions:

Infiltration: ASA, MSA, Nasopalatine, greater palatine.

Block: Long buccal, mental, inferior alveolar and PSA.

(b) Instruction in the administration of nitrous oxide analgesia. The basic curriculum shall require didactic and clinical competency.

(c) Instruction in restorative dentistry and specifically how to place restorations into a cavity prepared by the dentist and thereafter carve, contour, and adjust contacts and occlu-

sion of the restoration. The basic curriculum shall require didactic and clinical competency.

(2) Representatives of expanded function dental hygiene education programs may apply for approval of one or more of (1)(a)-(c) above. Approval of the specific expanded function(s) will be based on the applicable curriculum listed in (1)(a)-(c) above.

(3) It shall be the responsibility of the approved expanded functions education program to evaluate the students curriculum needs on an individual basis for successful completion of their approved program.

[Statutory Authority: RCW 43.70.040. 91-02-049 (Order 121), recodified as § 246-815-130, filed 12/27/90, effective 1/31/91. Statutory Authority: Chapter 18.29 RCW, RCW 18.29.021, [18.29.]045 and [18.29.]130. 90-23-011 (Order 098), § 308-25-074, filed 11/13/90, effective 12/14/90.]

WAC 246-815-140 Continuing education for dental hygienists. (1) Purposes. The secretary of the department of health in consultation with the dental hygiene examining committee has determined that the public health, safety and welfare will be served by requiring all holders of dental hygiene licenses granted under chapter 18.29 RCW to continue their education after receiving such licenses.

(2) Requirements. Licensed dental hygienists must complete 15 clock hours of continuing education as required in chapter 246-12 WAC, Part 7. A current CPR card must be maintained as part of this requirement.

(3) Acceptable continuing education. Continuing education must be dental related education for professional development as a dental hygienist. The 15 clock hours shall be obtained through continuing education courses, correspondence courses, college credit courses, dental hygiene examination standardization/calibration workshops and dental hygiene examination item writer workshops.

[Statutory Authority: RCW 43.70.280. 98-05-060, § 246-815-140, filed 2/13/98, effective 3/16/98. Statutory Authority: RCW 43.70.040. 91-02-049 (Order 121), recodified as § 246-815-140, filed 12/27/90, effective 1/31/91. Statutory Authority: Chapter 18.29 RCW, RCW 18.29.021, [18.29.]045 and [18.29.]130. 90-23-011 (Order 098), § 308-25-180, filed 11/13/90, effective 12/14/90.]

WAC 246-815-160 Standards of dental hygiene conduct or practice. The purpose of defining standards of dental hygiene conduct or practice is to identify minimum responsibilities of the registered dental hygienist licensed in Washington in health care settings and as provided in the Dental Hygiene Practice Act, chapter 18.29 RCW, and the Uniform Disciplinary Act, chapter 18.130 RCW. The standards provide consumers with information about quality care and provides the secretary guidelines to evaluate safe and effective care. Upon entering the practice of dental hygiene, each individual assumes the responsibility, public trust, and a corresponding obligation to adhere to the standards of dental hygiene practice.

(1) Dental hygiene provision of care.

The dental hygienist shall:

(a) Accurately and systematically collect, permanently record, and update data on the general and oral health status of the client.

(b) Communicate collected data to the appropriate health care professional.

(c) Take into consideration the dental hygiene assessment, the client treatment goals, appropriate sequencing of procedures, and currently accepted scientific knowledge in developing a dental hygiene plan.

(i) The dental hygiene plan shall include preventative and therapeutic care to promote and maintain the clients' oral health.

(ii) Where appropriate, the dental hygiene plan shall be compatible with the treatment plan of other licensed health care professionals.

(d) Communicate the dental hygiene plan to the client and/or legal guardian.

The client and/or legal guardian or where appropriate other **health care professionals** are to be informed of the **progress** and **results** of dental hygiene care and clients' self-care.

(e) Continually re-evaluate client progress related to the attainment of their oral health goals. Implement additional dental hygiene treatment and client self-care as appropriate.

(2) Professional responsibilities.

The licensed dental hygienist shall have knowledge of the statutes and regulations governing dental hygiene practice and shall function within the legal scope of dental hygiene practice.

[Statutory Authority: RCW 18.29.130, 18.29.076 and 18.130.050. 92-02-018 (Order 224), § 246-815-160, filed 12/23/91, effective 1/23/92. Statutory Authority: RCW 43.70.040. 91-02-049 (Order 121), recodified as § 246-815-160, filed 12/27/90, effective 1/31/91. Statutory Authority: RCW 18.29.076 and 18.130.050(12). 89-16-096 (Order PM 858), § 308-25-170, filed 8/2/89, effective 9/2/89.]

WAC 246-815-170 General provisions. (1) "Unprofessional conduct" as used in this chapter shall mean the conduct described in RCW 18.130.180.

(2) "Hospital" means any health care institution licensed pursuant to chapter 70.41 RCW.

(3) "Nursing home" means any health care institution which comes under chapter 18.51 RCW.

(4) "Department" means the department of health.

(5) "Dental hygienist" means a person licensed pursuant to chapter 18.29 RCW.

(6) "Mentally or physically disabled dental hygienist" means a dental hygienist who is currently mentally incompetent or mentally ill as determined by a court, or who is unable to practice dental hygiene with reasonable skill and safety to patients by reason of any mental or physical condition and who continues to practice while so impaired.

[Statutory Authority: RCW 18.29.130 and 18.130.070. 92-02-018 (Order 224), § 246-815-170, filed 12/23/91, effective 1/23/92. Statutory Authority: RCW 43.70.040. 91-02-049 (Order 121), recodified as § 246-815-170, filed 12/27/90, effective 1/31/91. Statutory Authority: RCW 18.130.070. 89-14-092 (Order PM 842), § 308-25-080, filed 6/30/89.]

WAC 246-815-180 Mandatory reporting. (1) All reports required by this chapter shall be submitted to the department as soon as possible, but no later than twenty days after a determination is made.

(2) A report should contain the following information if known:

(a) The name, address, and telephone number of the person making the report.

(b) The name and address and telephone numbers of the dental hygienist being reported.

(c) The case number of any client whose treatment is a subject of the report.

(d) A brief description or summary of the facts which gave rise to the issuance of the report, including dates of occurrences.

(e) If court action is involved, the name of the court in which the action is filed along with the date of filing and docket number.

(f) Any further information which would aid in the evaluation of the report.

(3) Mandatory reports shall be exempt from public inspection and copying to the extent permitted under RCW 42.17.310 or to the extent that public inspection or copying of the report or any portion of the report would invade or violate a person's right to privacy as set forth in RCW 42.17.255.

(4) A person is immune from civil liability, whether direct or derivative, for providing information to the department pursuant to RCW 18.130.070.

[Statutory Authority: RCW 43.70.040. 91-02-049 (Order 121), recodified as § 246-815-180, filed 12/27/90, effective 1/31/91. Statutory Authority: RCW 18.130.070. 89-14-092 (Order PM 842), § 308-25-090, filed 6/30/89.]

WAC 246-815-190 Health care institutions. The chief administrator or executive officer or their designee of any hospital or nursing home shall report to the department when any dental hygienist's services are terminated or are restricted based on a determination that the dental hygienist has either committed an act or acts which may constitute unprofessional conduct or that the dental hygienist may be unable to practice with reasonable skill or safety to the client by reason of a mental or physical condition.

[Statutory Authority: RCW 43.70.040. 91-02-049 (Order 121), recodified as § 246-815-190, filed 12/27/90, effective 1/31/91. Statutory Authority: RCW 18.130.070. 89-14-092 (Order PM 842), § 308-25-100, filed 6/30/89.]

WAC 246-815-200 Dental hygienist associations or societies. The president or chief executive officer of any dental hygienist association or society within this state shall report to the department when an association or society determines that a dental hygienist has committed unprofessional conduct or that a dental hygienist may not be able to practice dental hygiene with reasonable skill and safety to clients as the result of any mental or physical condition. The report required by this section shall be made without regard to whether the license holder appeals, accepts, or acts upon the determination made by the association or society. Notification of appeal shall be included.

[Statutory Authority: RCW 43.70.040. 91-02-049 (Order 121), recodified as § 246-815-200, filed 12/27/90, effective 1/31/91. Statutory Authority: RCW 18.130.070. 89-14-092 (Order PM 842), § 308-25-110, filed 6/30/89.]

WAC 246-815-210 Health care service contractors and disability insurance carriers. The executive officer of every health care service contractor and disability insurer, licensed under chapters 48.20, 48.21, 48.21A, and 48.44 RCW, operating in the state of Washington shall report to the department all final determinations that a dental hygienist has engaged in fraud in billing for services.

[Statutory Authority: RCW 43.70.040. 91-02-049 (Order 121), recodified as § 246-815-210, filed 12/27/90, effective 1/31/91. Statutory Authority: RCW 18.130.070. 89-14-092 (Order PM 842), § 308-25-120, filed 6/30/89.]

WAC 246-815-220 Professional liability carriers. Every institution or organization providing professional liability insurance directly or indirectly to dental hygienists shall send a complete report to the department of any malpractice settlement, award, or payment in excess of twenty thousand dollars as a result of a claim or action for damages alleged to have been caused by an insured dental hygienist's incompetency or negligence in the practice of dental hygiene. Such organization or institution shall also report the award, settlement, or payment of three or more claims during a twelve-month period as a result of the dental hygienist's alleged incompetence or negligence in the practice of dental hygiene.

[Statutory Authority: RCW 43.70.040. 91-02-049 (Order 121), recodified as § 246-815-220, filed 12/27/90, effective 1/31/91. Statutory Authority: RCW 18.130.070. 89-14-092 (Order PM 842), § 308-25-130, filed 6/30/89.]

WAC 246-815-230 Courts. The department requests the assistance of the clerk of trial courts within the state to report all professional malpractice judgments and all convictions of licensed dental hygienists, other than minor traffic violations.

[Statutory Authority: RCW 43.70.040. 91-02-049 (Order 121), recodified as § 246-815-230, filed 12/27/90, effective 1/31/91. Statutory Authority: RCW 18.130.070. 89-14-092 (Order PM 842), § 308-25-140, filed 6/30/89.]

WAC 246-815-240 State and federal agencies. The department requests the assistance of executive officers of any state or federal program operating in the state of Washington, under which a dental hygienist is employed to provide client care services, to report to the department whenever such a dental hygienist has been judged to have demonstrated his/her incompetency or negligence in the practice of dental hygiene, or has otherwise committed unprofessional conduct, or is a mentally or physically disabled dental hygienist. These requirements do not supersede any federal or state law.

[Statutory Authority: RCW 43.70.040. 91-02-049 (Order 121), recodified as § 246-815-240, filed 12/27/90, effective 1/31/91. Statutory Authority: RCW 18.130.070. 89-14-092 (Order PM 842), § 308-25-150, filed 6/30/89.]

WAC 246-815-250 Cooperation with investigation. (1) A licensee must comply with a request for records, documents, or explanation from an investigator who is acting on behalf of the secretary of the department of health by submitting the requested items within fourteen calendar days of receipt of the request by either the licensee or their attorney, whichever is first. If the licensee fails to comply with the request within fourteen calendar days, the investigator will contact that individual or their attorney by telephone or letter as a reminder.

(2) Investigators may extend the time for response if the request for extension does not exceed seven calendar days. Any other requests for extension of time may be granted by the secretary or the secretary's designee.

(3) If the licensee fails to comply with the request within three business days after receiving the reminder, a subpoena will be served to obtain the requested items. A statement of

charges may be issued pursuant to RCW 18.130.180(8) for failure to cooperate. If there is sufficient evidence to support additional charges, those charges may be included in the statement of charges.

(4) If the licensee complies with the request after the issuance of the statement of charges, the secretary or the secretary's designee will decide if the charges will be prosecuted or settled. If the charges are to be settled the settlement proposal will be negotiated by the secretary's designee. Settlements are not considered final until the secretary signs the settlement agreement.

[Statutory Authority: RCW 18.29.130 and 18.130.070. 92-02-018 (Order 224), § 246-815-250, filed 12/23/91, effective 1/23/92. Statutory Authority: RCW 43.70.040. 91-02-049 (Order 121), recodified as § 246-815-250, filed 12/27/90, effective 1/31/91. Statutory Authority: RCW 18.130.070. 89-14-092 (Order PM 842), § 308-25-160, filed 6/30/89.]

WAC 246-815-990 Dental hygiene fees and renewal cycle. (1) Licenses must be renewed every year on the practitioner's birthday as provided in chapter 246-12 WAC, Part 2.

(2) The following nonrefundable fees will be charged:

Title of Fee	Fee
Application examination and reexamination	$100.00
Renewal	60.00
Late renewal penalty	50.00
Expired license reissuance	50.00
Credentialing application	300.00
Temporary license application	115.00
Duplicate license	15.00
Certification of license	25.00
Education program evaluation	200.00

[Statutory Authority: RCW 43.70.280. 98-05-060, § 246-815-990, filed 2/13/98, effective 3/16/98. Statutory Authority: Chapter 18.29 RCW and RCW 18.20.150(4). 95-16-102, § 246-815-990, filed 8/1/95, effective 9/1/95. Statutory Authority: RCW 43.70.250. 94-02-059, § 246-815-990, filed 1/3/94, effective 3/1/94. DENTISTS

WAC 246-817-001 Purpose. The purpose of these rules is to further clarify and define chapter 18.32 RCW, Dentistry.

[Statutory Authority: RCW 18.32.035. 95-21-041, § 246-817-001, filed 10/10/95, effective 11/10/95.]

WAC 246-817-010 Definitions. The following general terms are defined within the context used in this chapter.

"Acquired immunodeficiency syndrome" or "AIDS" means the clinical syndrome of HIV-related illness as defined by the board of health by rule.

"Clinics" are locations situated away from the School of Dentistry on the University of Washington campus, as recommended by the dean in writing and approved by the DQAC.

"Department" means the department of health.

"DQAC" means the dental quality assurance commission as established by RCW 18.32.0351.

"Facility" is defined as the building housing the School of Dentistry on the University of Washington campus, and other buildings, designated by the dean of the dental school and approved by the DQAC.

"HPQAD" means the health professions quality assurance division of the department of health.

"Office on AIDS" means that section within the department of health or any successor department with jurisdiction over public health matters as defined in chapter 70.24 RCW.

"Secretary" means the secretary of the department of health or the secretary's designee.

"WREB" means the western regional examining board, a regional testing agency that provides clinical dental testing services.

[Statutory Authority: RCW 18.32.035. 95-21-041, § 246-817-010, filed 10/10/95, effective 11/10/95.]

WAC 246-817-015 Adjudicative proceedings—Procedural rules for the dental quality assurance commission. The DQAC adopts the model procedural rules for adjudicative proceedings as adopted by the department of health and contained in chapter 246-11 WAC, including subsequent amendments.

[Statutory Authority: RCW 18.32.035. 95-21-041, § 246-817-015, filed 10/10/95, effective 11/10/95.]

LICENSURE—APPLICATION AND ELIGIBILITY REQUIREMENTS

WAC 246-817-101 Dental licenses—Types authorized. The DQAC is granted the authority to issue the following types of dental licenses or permits:

(1) Licensure by examination standard. (RCW 18.32.040)

(2) Licensure without examination—Licensed in another state. (RCW 18.32.215)

(3) Faculty licensure. (RCW 18.32.195)

(4) Dental resident licensure. (RCW 18.32.195)

(5) Conscious sedation permits. (RCW 18.32.640)

(6) Anesthesia permits. (RCW 18.32.640)

(7) Temporary practice permits. (RCW 18.130.075)

[Statutory Authority: RCW 18.32.035. 95-21-041, § 246-817-101, filed 10/10/95, effective 11/10/95.]

WAC 246-817-110 Dental licensure—Initial eligibility and application requirements. To be eligible for Washington state dental licensure, the applicant shall complete an application provided by the dental HPQAD of the department of health, and shall include written documentation to meet the eligibility criteria for the license for which he/she is applying. Each applicant shall provide:

(1) Completed application and fee. The applicant shall submit a signed, notarized application and required fee. (Refer to WAC 246-817-990 for fee schedule.)

(2) Proof of graduation from a dental school approved by the DQAC. The DQAC adopts those standards of the American Dental Association's Commission on Accreditation which were relevant to accreditation of dental schools and current in May 1993 and has approved all and only those dental schools which were accredited by the commission as of May 1993. Other dental schools which apply for DQAC approval and which meet these adopted standards to the DQAC's satisfaction may be approved, but it is the responsibility of a school to apply for approval and of a student to ascertain whether or not a school has been approved.

(3) Certification of successful completion of the National Board Dental Examination Parts I and II. An original scorecard or a certified copy of the scorecard shall be accepted.

(4) Proof of graduation from an approved dental school. The only acceptable proof is an official, posted transcript sent directly from such school, or in the case of recent graduates, a verified list of graduating students submitted directly from the dean of the dental school. Graduates of nonaccredited dental schools must also meet the requirements outlined in WAC 246-817-160.

(5) A complete listing of professional education and experience including college or university (predental), and a complete chronology of practice history from the date of dental school graduation to present, whether or not engaged in activities related to dentistry.

(6) Applicants must complete seven clock hours of AIDS education as required in chapter 246-12 WAC, Part 8.

(7) Certification of malpractice insurance if available, including dates of coverage and any claims history.

(8) Written certification of any licenses held, submitted directly from another licensing entity, and including license number, issue date, expiration date and whether applicant has been the subject of final or pending disciplinary action.

(9) Proof of successful completion of an approved practical/clinical examination and a written jurisprudence

examination or any other examination approved by and administered under the direction of the DQAC.

(10) Photograph. A recent photograph, signed and dated, shall be attached to the application.

(11) Inquiries from other sources may be conducted as determined by the DQAC, including but not limited to the national practitioner data bank and drug enforcement agency. Applicants are responsible for any fees incurred in obtaining verification of requirements.

(12) Additional requirements for each license type as further defined.

[Statutory Authority: RCW 43.70.280. 98-05-060, § 246-817-110, filed 2/13/98, effective 3/16/98. Statutory Authority: RCW 18.32.035. 95-21-041, § 246-817-110, filed 10/10/95, effective 11/10/95.]

WAC 246-817-120 Examination content. An applicant seeking licensure in Washington by examination must successfully complete a written and practical examination approved by the DQAC.

(1) The examination will consist of:

(a) Written: Only national board exam accepted, except as provided in (c) of this subsection.

(b) Practical/practice: The DQAC accepts the Western Regional Examining Board's (WREB) clinical examination as its examination standard after January 1, 1995. The results of the WREB examination shall be accepted for five years immediately preceding application for state licensure.

(c) The DQAC may, at its discretion, give an examination in any other subject under (a) or (b) of this subsection, whether in written and/or practical form. The applicant shall receive information concerning such examination.

(2) An applicant for the clinical examination may obtain an application directly from the Western Regional Examining Board.

[Statutory Authority: RCW 18.32.035. 95-21-041, § 246-817-120, filed 10/10/95, effective 11/10/95.]

WAC 246-817-130 Licensure without examination for dentists—Eligibility. The DQAC may grant licensure without an examination to dentists licensed in other states if they meet the requirements of WAC 246-817-110 and:

(1) Hold an active license, registration or certificate to practice dentistry, without restrictions, in another state, obtained by successful completion of an examination, if the other state's current licensing standards are substantively equivalent to the licensing standards of the state of Washington. The DQAC shall determine if the other state's current licensing standards are substantively equivalent to licensing standards in this state, pursuant to WAC 246-817-140.

(2) Are currently practicing clinical dentistry in another state pursuant to WAC 246-817-135(5).

(3) Agree to participate in a personal interview with the DQAC, if requested.

[Statutory Authority: RCW 18.32.035. 95-21-041, § 246-817-130, filed 10/10/95, effective 11/10/95.]

WAC 246-817-135 Licensure without examination for dentists—Application procedure. The applicant is responsible for obtaining and furnishing to the DQAC all materials required to establish eligibility for a license without examination. In addition to the requirements defined in WAC 246-817-110 the following documentation must be provided:

(1) A statement by the applicant as to whether he/she has been the subject of any disciplinary action in the state(s) of licensure and whether he/she has engaged in unprofessional conduct as defined in RCW 18.130.180.

(2) A statement by the applicant that he/she is not an impaired practitioner as defined in RCW 18.130.170.

(3) A certification by the state board(s) of dentistry (or equivalent authority) that, based on successful completion of an examination, the applicant was issued a license, registration, certificate or privilege to practice dentistry, without restrictions, and whether he/she has been the subject of final or pending disciplinary action.

(4) Documentation to substantiate that standards defined in WAC 246-817-140 have been met.

(5) Proof that the applicant is currently engaged in the practice of clinical, direct patient care dentistry, in another state, and has been practicing for a minimum of five years within the seven years immediately preceding application, as demonstrated by the following information:

(a) Address of practice location(s);

(b) Length of time at the location(s);

(c) Certification of a minimum of twenty hours per week in clinical dental practice;

(d) A letter from all malpractice insurance carrier(s) defining years when insured and any claims history;

(e) Federal or state tax numbers;

(f) DEA numbers if any;

Dentists serving in the United States federal services as described in RCW 18.32.030(2), for the period of such service, need not provide (a) through (f) of this subsection, but must provide documentation from their commanding officer regarding length of service, duties and responsibilities including any adverse actions or restrictions. Such dental service, including service within the state of Washington, shall be credited toward the dental practice requirement.

Dentists employed by a dental school approved by the DQAC for the period of such dental practice, need not provide (a) through (f) of this subsection, but must provide documentation from the dean or appropriate administrator of the institution regarding the length and terms of employment and their duties and responsibilities, and any adverse actions or restrictions. Such dental practice, including practice within the state of Washington, shall be credited toward the dental practice requirement. Dental practice within a residency program shall be credited toward the dental practice requirement. A license may be revoked upon evidence of misinformation or substantial omission.

All information must be completed and received within one hundred eighty days of receipt of the initial application. Only completed applications will be reviewed by the DQAC, or its designee(s) at the next scheduled DQAC meeting or at other intervals as determined by the DQAC.

[Statutory Authority: RCW 18.32.035. 95-21-041, § 246-817-135, filed 10/10/95, effective 11/10/95.]

WAC 246-817-140 Licensure without examination for dentists—Licensing examination standards. An applicant is deemed to have met Washington state examination standards if either subsection (1) or (2) of this section is met:

(1) The state in which the applicant received a license, following successful completion of an examination, currently administers or subscribes to an examination, which includes all components listed in subsection (2)(a) of this section and at least two of the components listed in subsection (2)(b) of this section.

(2) The applicant provides documentation that he/she has successfully completed an examination in another state which included all of the components listed in (a) of this subsection and at least two of the components listed in (b) of this subsection.

(a) The applicant must have successfully completed an examination which included/includes the following components:

(i) Oral diagnosis and treatment planning, written or clinical test.

(ii) Class II amalgam test on a live patient.

(iii) Cast gold test on a live patient restoring at least one proximal surface, from a Class II inlay up to and including a full cast crown.

(iv) Periodontal test on a live patient to include a documentation and patient evaluation as well as scaling and root planing of at least one quadrant.

(v) Use of a rubber dam during restorative procedures.

(vi) Removable prosthodontics written or clinical test.

(b) The examination included/includes at least two of the following characteristics or components:

(i) Standardization and calibration of examiners.

(ii) Anonymity between candidates and grading examiners.

(iii) Endodontic test which requires the obturation of at least one canal.

(iv) Other clinical procedures (i.e., composite, gold foil).

The DQAC shall publish a list of states or regional licensing examinations which on the date of publication of the list are considered to be substantively equivalent to the Washington state dental licensing standard. The list shall be updated periodically and available upon request.

[Statutory Authority: RCW 18.32.035. 95-21-041, § 246-817-140, filed 10/10/95, effective 11/10/95.]

WAC 246-817-150 Licenses—Persons licensed or qualified out-of-state who are faculty at school of dentistry—Conditions. (1) The department shall provide an application for faculty licensure upon receipt of a written request from the dean of the University of Washington, School of Dentistry.

(2) Applicants for faculty licensure shall submit a signed, notarized application, including applicable fees, and other documentation as required by the DQAC.

(3) The dean of the University of Washington, School of Dentistry, or his designee, shall notify the department of health of any changes in employment status of any person holding a faculty license.

(4) Clinics situated away from the School of Dentistry on the University of Washington campus, must be recommended by the dean in writing and approved by the DQAC. The recommendation must list the rationale for including each location as a University of Washington School of Dentistry facility.

[Statutory Authority: RCW 43.70.280. 98-05-060, § 246-817-150, filed 2/13/98, effective 3/16/98. Statutory Authority: RCW 18.32.035. 95-21-041, § 246-817-150, filed 10/10/95, effective 11/10/95.]

WAC 246-817-160 Graduates of nonaccredited schools. The following requirements apply to persons who are graduates of dental schools or colleges not accredited by the American Dental Association Commission on Accreditation.

(1) A person who has been issued a degree of doctor of dental medicine or doctor of dental surgery by a nonaccredited dental school listed by the World Health Organization, or by a nonaccredited dental school approved by the DQAC, shall be eligible to take the examination in the theory and practice of the science of dentistry upon furnishing all of the following:

(a) Certified copies of dental school diplomas.

(b) Official dental school transcripts.

(c) Proof of identification by an appropriate governmental agency. Alternate arrangements may be made for political refugees.

(d) Effective February 1, 1985, satisfactory evidence of the successful completion of at least two additional predoctoral or postdoctoral academic years of dental school education at a dental school approved pursuant to WAC 246-817-110(2) and a certification by the dean of that school that the candidate has achieved the same level of didactic and clinical competence as expected of a graduate of that school.

(2) Upon completion of the requirements in subsection (1) of this section, an applicant under this section shall be allowed to take the examination pursuant to WAC 246-817-120 and shall be subject to the applicable provisions of WAC 246-817-110. This rule supersedes WAC 246-818-090 which provided applicants one opportunity to take and pass the clinical (practical) examination, in 1985, without meeting the post-graduate training requirement.

[Statutory Authority: RCW 18.32.035. 95-21-041, § 246-817-160, filed 10/10/95, effective 11/10/95.]

WAC 246-817-170 Applications—Permits—Renewals for the administration of conscious sedation with multiple oral or parenteral agents or general anesthesia (including deep sedation). (1) To administer conscious sedation with parenteral or multiple oral agents or general anesthesia (including deep sedation), a dentist must first meet the requirements of this chapter, possess and maintain a current license pursuant to chapter 18.32 RCW and obtain a permit of authorization from the DQAC through the department. Application forms for permits, which may be obtained from the department, shall be fully completed and include the application fee.

(2) To renew a permit of authorization, which is valid for three years from the date of issuance, a permit holder shall fully and timely complete a renewal application form and:

(a) Demonstrate continuing compliance with this chapter.

(b) Produce satisfactory evidence of eighteen hours of continuing education as required by this chapter. The dentist must maintain records that can be audited and must submit course titles, instructors, dates attended, sponsors, and number of hours for each course every three years as required by this chapter.

(c) Pay any applicable renewal fee.

(3) Prior to the issuance or renewal of a permit for the use of general anesthesia, the DQAC may, at its discretion, require an on-site inspection and evaluation of the facility, equipment, personnel, licensee, and the procedures utilized by such licensee. Every person issued a permit under this article shall have an on-site inspection at least once in every five-year period, or at other intervals determined by the DQAC. An on-site inspection performed by a public or private organization may be accepted by the DQAC to satisfy the requirements of this section.

[Statutory Authority: RCW 18.32.035. 95-21-041, § 246-817-170, filed 10/10/95, effective 11/10/95.]

WAC 246-817-175 Conscious sedation with parenteral or multiple oral agents—Education and training requirements—Application. (1) To obtain a permit of authorization to administer conscious sedation with parenteral or multiple oral agents, the dentist shall meet the requirements of subsection (2) of this section and submit an application and fee. Applications may be obtained from the dental HPQAD division.

(2) Training requirements: To administer conscious sedation with parenteral or multiple oral agents, the dentist must have successfully completed a postdoctoral course(s) of sixty clock hours or more which includes training in basic conscious sedation, physical evaluation, venipuncture, technical administration, recognition and management of complications and emergencies, monitoring, and supervised experience in providing conscious sedation to fifteen or more patients.

[Statutory Authority: RCW 18.32.035. 95-21-041, § 246-817-175, filed 10/10/95, effective 11/10/95.]

WAC 246-817-180 General anesthesia (including deep sedation)—Education and training requirements. (1) Training requirements for dentists: To administer deep sedation or general anesthesia, the dentist must have current and documented proficiency in advanced cardiac life support. One method of demonstrating such proficiency is to hold a valid and current ACLS certificate or equivalent. A dentist must also meet one or more of the following criteria:

(a) Have completed a minimum of one year's advanced training in anesthesiology or related academic subjects, or its equivalent beyond the undergraduate dental school level, in a training program as outlined in Part 2 of *Teaching the Comprehensive Control of Pain and Anxiety in an Advanced Education Program*, published by the American Dental Association, Council on Dental Education, dated July 1993.

(b) Is a fellow of the American Dental Society of Anesthesiology.

(c) Is a diplomate of the American Board of Oral and Maxillofacial Surgery, or is eligible for examination by the American Board of Oral and Maxillofacial Surgery pursuant to the July 1, 1989, standards.

(d) Is a fellow of the American Association of Oral and Maxillofacial Surgeons.

(2) Only a dentist meeting the above criteria for administration of deep sedation or general anesthesia may utilize the services of a nurse licensed pursuant to chapter 18.79 RCW to administer deep sedation or general anesthesia under the close supervision of the dentist as defined in WAC 246-817-510.

[Statutory Authority: RCW 18.32.035. 95-21-041, § 246-817-180, filed 10/10/95, effective 11/10/95.]

WAC 246-817-185 Temporary practice permits—Eligibility. (1) A temporary practice permit, as defined in RCW 18.130.075, shall be issued at the written request of an applicant:

(a) Licensed in another state, with licensing standards substantially equivalent to Washington, who applies for the dental examination and meets the eligibility criteria for the examination as outlined in this chapter; or

(b) Currently licensed and practicing clinical dentistry in another state, who applies for dental licensure without examination and meets the eligibility criteria for the licensure without examination program as outlined in this chapter.

(2) In addition to the requirements outlined in subsection (1)(a) or (b) of this section, the conditions of WAC 246-817-160 shall also be met for applicants who are graduates of dental schools or colleges not accredited by the American Dental Association Commission on Accreditation.

[Statutory Authority: RCW 18.32.035. 95-21-041, § 246-817-185, filed 10/10/95, effective 11/10/95.]

WAC 246-817-186 Temporary practice permits—Issuance and duration. (1) Unless there is a basis for denial of the license or for issuance of a conditional license, the applicant shall be issued a temporary practice permit by the DQAC, upon:

(a) Receipt of a completed application form on which a request for a temporary practice permit is indicated;

(b) Payment of the appropriate application fee;

(c) Receipt of written verification of all dental licenses, whether active or not, attesting that the applicant has a dental license in good standing and is not the subject of any disciplinary action for unprofessional conduct or impairment;

(d) Receipt of disciplinary data bank reports.

(2) The temporary practice permit shall expire:

(a) Immediately upon issuance of a full, unrestricted dental license by the DQAC;

(b) Upon notice of failure of the dental examination;

(c) Upon issuance of a statement of intent to deny; or

(d) Within a maximum of one hundred twenty days.

(3) A temporary practice permit shall not be renewed, reissued or extended.

[Statutory Authority: RCW 18.32.035. 95-21-041, § 246-817-186, filed 10/10/95, effective 11/10/95.]

WAC 246-817-210 Expired license. (1) If the license has expired for three years or less, the practitioner must meet the requirements of chapter 246-12 WAC, Part 2.

(2) If the license has expired for over three years, the practitioner must:

(a) Comply with the current statutory conditions;

(b) Meet the requirements of chapter 246-12 WAC, Part 2.

[Statutory Authority: RCW 43.70.280. 98-05-060, § 246-817-210, filed 2/13/98, effective 3/16/98. Statutory Authority: RCW 18.32.035. 95-21-041, § 246-817-210, filed 10/10/95, effective 11/10/95.]

GENERAL PRACTICE REQUIREMENTS AND PROHIBITIONS

WAC 246-817-301 Display of licenses. The license of any dentist, dental hygienist or other individual licensed pursuant to the laws of Washington to engage in any activity being performed in the premises under the supervision or control of a licensed dentist shall be displayed in a place visible to individuals receiving services in the premises, and readily available for inspection by any designee of the DQAC.

[Statutory Authority: RCW 18.32.035. 95-21-041, § 246-817-301, filed 10/10/95, effective 11/10/95.]

WAC 246-817-310 Maintenance and retention of records. Any dentist who treats patients in the state of Washington shall maintain complete treatment records regarding patients treated. These records shall include, but shall not be limited to x-rays, treatment plans, patient charts, patient histories, correspondence, financial data and billing. These records shall be retained by the dentist for five years in an orderly, accessible file and shall be readily available for inspection by the DQAC or its authorized representative: X-rays or copies of records may be forwarded to a second party upon the patient's or authorized agent's written request. Also, office records shall state the date on which the records were released, method forwarded and to whom, and the reason for the release. A reasonable fee may be charged the patient to cover mailing and clerical costs.

Every dentist who operates a dental office in the state of Washington must maintain a comprehensive written and dated record of all services rendered to his/her patients. In offices where more than one dentist is performing the services the records must specify the dentist who performed the services. Whenever requested to do so, by the secretary or his/her authorized representative, the dentist shall supply documentary proof:

(1) That he/she is the owner or purchaser of the dental equipment and/or the office he occupies.

(2) That he/she is the lessee of the office and/or dental equipment.

(3) That he/she is, or is not, associated with other persons in the practice of dentistry, including prosthetic dentistry, and who, if any, the associates are.

(4) That he/she operates his office during specific hours per day and days per week, stipulating such hours and days.

[Statutory Authority: RCW 18.32.035. 95-21-041, § 246-817-310, filed 10/10/95, effective 11/10/95.]

WAC 246-817-320 Report of patient injury or mortality. All licensees engaged in the practice of dentistry shall submit a complete report of any patient mortality or other incident which results in temporary or permanent physical or mental injury requiring hospitalization of said patient during, or as a direct result of dental procedures or anesthesia related thereto. This report shall be submitted to the DQAC within thirty days of the occurrence.

[Statutory Authority: RCW 18.32.035. 95-21-041, § 246-817-320, filed 10/10/95, effective 11/10/95.]

WAC 246-817-330 Prescriptions. Every dentist who operates a dental office in the state of Washington must write a valid prescription to the dental laboratory or dental technician with whom he/she intends to place an order for the making, repairing, altering or supplying of artificial restorations, substitutes or appliances to be worn in the human mouth. A separate prescription must be submitted to the dental laboratory or dental technician for each patient's requirements. To be valid, such prescriptions must be written in duplicate and contain the date, the name and address of the dental laboratory or the dental technician, the name and address of the patient, description of the basic work to be done, the signature of the dentist serving the patient for whom the work is being done and the dentist's license certificate number. The original prescription shall be referred to the dental laboratory or the dental technician and the carbon copy shall be retained for three years, by the dentist, in an orderly, accessible file and shall be readily available for inspection by the secretary or his/her authorized representative.

[Statutory Authority: RCW 18.32.035. 95-21-041, § 246-817-330, filed 10/10/95, effective 11/10/95.]

WAC 246-817-340 Recording requirements for all prescription drugs. An accurate record of any medication(s) prescribed or dispensed shall be clearly indicated on the patient history. This record shall include the date prescribed or the date dispensed, the name of the patient prescribed or dispensed to, the name of the medication, and the dosage and amount of the medication prescribed or dispensed.

[Statutory Authority: RCW 18.32.035. 95-21-041, § 246-817-340, filed 10/10/95, effective 11/10/95.]

WAC 246-817-350 Recording requirement for scheduled drugs. When Schedule II, III, IV or V drugs as described in chapter 69.50 RCW are stocked by the dental office for dispensing to patients, an inventory control record must be kept in such a manner to identify disposition of such medicines. Such records shall be available for inspection by the secretary or his/her authorized representative.

[Statutory Authority: RCW 18.32.035. 95-21-041, § 246-817-350, filed 10/10/95, effective 11/10/95.]

WAC 246-817-360 Prescribing, dispensing or distributing drugs. No dentist shall prescribe, dispense or distribute any controlled substance or legend drug for other than dental-related conditions.

[Statutory Authority: RCW 18.32.035. 95-21-041, § 246-817-360, filed 10/10/95, effective 11/10/95.]

WAC 246-817-370 Nondiscrimination. It shall be unprofessional conduct for any dentist to discriminate or to permit any employee or any person under the supervision and control of the dentist to discriminate against any person, in the practice of dentistry, on the basis of race, color, creed or national origin, or to violate any of the provisions of any state or federal antidiscrimination law.

[Statutory Authority: RCW 18.32.035. 95-21-041, § 246-817-370, filed 10/10/95, effective 11/10/95.]

WAC 246-817-380 Patient abandonment. The attending dentist, without reasonable cause, shall not neglect, ignore, abandon, or refuse to complete the current procedure for a patient. If the dentist chooses to withdraw responsibility for a patient of record, the dentist shall:

(1) Advise the patient that termination of treatment is contemplated and that another dentist should be sought to complete the current procedure and for future care; and

(2) Advise the patient that the dentist shall remain reasonably available under the circumstances for up to fifteen days from the date of such notice to render emergency care related to that current procedure.

[Statutory Authority: RCW 18.32.035. 95-21-041, § 246-817-380, filed 10/10/95, effective 11/10/95.]

WAC 246-817-390 Representation of care, fees, and records. Dentists shall not represent the care being rendered to their patients or the fees being charged for providing such care in a false or misleading manner, nor alter patient records, such as but not limited to, misrepresenting dates of service or treatment codes.

[Statutory Authority: RCW 18.32.035. 95-21-041, § 246-817-390, filed 10/10/95, effective 11/10/95.]

WAC 246-817-400 Disclosure of provider services. A dentist who is personally present, operating as a dentist or personally overseeing the operations being performed in a dental office, over fifty percent of the time that such office is being operated, shall identify himself/herself in any representation to the public associated with such office or practice and shall provide readily visible signs designating his/her name at such respective office entrances or office buildings. Any representation that omits such a listing of dentists is misleading, deceptive, or improper conduct. Dentists who are present or overseeing operations under this rule less than fifty percent of the time shall identify themselves to patients prior to services being initiated or rendered in any fashion. Every office shall have readily available a list of the names of dentists who are involved in such office less than fifty percent of the time.

[Statutory Authority: RCW 18.32.035. 95-21-041, § 246-817-400, filed 10/10/95, effective 11/10/95.]

WAC 246-817-410 Disclosure of membership affiliation. It shall be misleading, deceptive or improper conduct for any dentist to represent that he/she is a member of any dental association, society, organization, or any component thereof where such membership in fact does not exist.

[Statutory Authority: RCW 18.32.035. 95-21-041, § 246-817-410, filed 10/10/95, effective 11/10/95.]

WAC 246-817-420 Specialty representation. (1) It shall be misleading, deceptive or improper conduct for a dentist to represent or imply that he/she is a specialist or use any of the terms to designate a dental specialty such as:

(a) Endodontist
(b) Oral or maxillofacial surgeon
(c) Oral pathologist
(d) Orthodontist
(e) Pediatric dentist
(f) Periodontist
(g) Prosthodontist
(h) Public health

or any derivation of these specialties unless he/she is entitled to such specialty designation under the guidelines or requirements for specialties approved by the Commission on Dental Accreditation and the Council on Dental Education of the American Dental Association, or such guidelines or requirements as subsequently amended and approved by the DQAC, or other such organization recognized by the DQAC.

(2) A dentist not currently entitled to such specialty designation shall not represent that his/her practice is limited to providing services in a specialty area without clearly disclosing in the representation that he/she is a general dentist. A specialist who represents services in areas other than his/her specialty is considered a general dentist.

[Statutory Authority: RCW 18.32.035. 95-21-041, § 246-817-420, filed 10/10/95, effective 11/10/95.]

WAC 246-817-430 A rule applicable to dental technicians. To be exempt from the law prohibiting the practice of dentistry, dental technicians must comply with the provisions of RCW 18.32.030(6). The form of the required prescription is defined in WAC 246-817-330.

[Statutory Authority: RCW 18.32.035. 95-21-041, § 246-817-430, filed 10/10/95, effective 11/10/95.]

WAC 246-817-440 Continuing education requirements. (1) **Purpose.** The dental quality assurance commission (DQAC) has determined that the public health, safety and welfare of the citizens of the state will be served by requiring all dentists, licensed under chapter 18.32 RCW, to continue their professional development via continuing education after receiving such licenses.

(2) **Effective date.** The effective date for the continuing education requirement for dentists is July 1, 2001. The first reporting cycle for verifying completion of continuing education hours will begin with renewals due July 1, 2002, and each renewal date thereafter. Every licensed dentist will be required to sign an affidavit attesting to the completion of the required number of hours as a part of their annual renewal requirement.

(3) **Requirements.** Licensed dentists must complete twenty-one clock hours of continuing education, each year, in conjunction with their annual renewal date. DQAC may randomly audit up to twenty-five percent of practitioners for compliance after the credential is renewed as allowed by chapter 246-12 WAC, Part 7.

(4) **Acceptable continuing education - Qualification of courses for continuing education credit.** DQAC will not

authorize or approve specific continuing education courses. Continuing education course work must contribute to the professional knowledge and development of the practitioner, or enhance services provided to patients.

For the purposes of this chapter, acceptable continuing education shall be defined as courses offered or authorized by industry recognized state, private, national and international organizations, agencies or institutions of higher learning. Examples of sponsors, or types of continuing education courses may include, but are not limited to:

(a) The American Dental Association, Academy of General Dentistry, National Dental Association, American Dental Hygienists' Association, National Dental Hygienists' Association, American Dental Association specialty organizations, including the constituent and component/branch societies.

(b) Basic first aid, CPR, BLS, ACLS, OSHA/WISHA, or emergency related training; such as courses offered or authorized by the American Heart Association or the American Cancer Society; or any other organizations or agencies.

(c) Educational audio or videotapes, films, slides, Internet, or independent reading, where an assessment tool is required upon completion are acceptable but may not exceed three hours per year.

(d) Teaching a seminar or clinical course for the first time is acceptable but may not exceed ten hours per year.

(e) Nonclinical courses relating to dental practice organization and management, patient management, or methods of health delivery may not exceed seven hours per year. Estate planning, financial planning, investments, and personal health courses are not acceptable.

(f) Dental examination standardization and calibration workshops.

(g) Provision of clinical dental services in a formal volunteer capacity may be considered for continuing education credits when preceded by an educational/instructional training prior to provision of services. Continuing education credits in this area shall not exceed seven hours per renewal cycle.

(5) Refer to chapter 246-12 WAC, Part 7, administrative procedures and requirements for credentialed health care providers for further information regarding compliance with the continuing education requirements for health care providers including:

(a) When is continuing education required?

(b) How to prove compliance.

(c) Auditing for compliance.

(d) What is acceptable audit documentation?

(e) When is a practitioner exempt from continuing education?

(f) How credit hours for continuing education courses are determined.

(g) Carrying over continuing education credits.

(h) Taking the same course more than once during a reporting cycle.

[Statutory Authority: RCW 18.32.0365. 01-16-007, § 246-817-440, filed 7/19/01, effective 8/19/01.]

DELEGATIONS OF DUTIES TO PERSONS NOT LICENSED AS DENTISTS

WAC 246-817-501 Purpose. The purpose of WAC 246-817-501 through 246-817-570 is to establish guidelines on delegation of duties to persons who are not licensed to practice dentistry. The dental laws of Washington state authorized the delegation of certain duties to nondentist personnel and prohibit the delegation of certain other duties. By statute, the duties that may be delegated to a person not licensed to practice dentistry may be performed only under the supervision of a licensed dentist. The degree of supervision required to assure that treatment is appropriate and does not jeopardize the systemic or oral health of the patient varies with, among other considerations, the nature of the procedure and the qualifications of the person to whom the duty is delegated. The dentist is ultimately responsible for the services performed in his/her office and this responsibility cannot be delegated. In order to protect the health and well-being of the people of this state, the DQAC finds it necessary to adopt the following definitions and regulations.

[Statutory Authority: RCW 18.32.035. 95-21-041, § 246-817-501, filed 10/10/95, effective 11/10/95.]

WAC 246-817-510 Definitions for WAC 246-817-501 through 246-817-570. "Close supervision" means that a licensed dentist whose patient is being treated has personally diagnosed the condition to be treated and has personally authorized the procedures to be performed. A dentist shall be physically present in the treatment facility while the procedures are performed. Close supervision does not require a dentist to be physically present in the operatory; however, an attending dentist must be in the treatment facility and be capable of responding immediately in the event of an emergency.

"Coronal polishing" means a procedure limited to the removal of plaque and stain from exposed tooth surfaces, utilizing an appropriate rotary instrument with rubber cap or brush and a polishing agent.

This procedure shall not be intended or interpreted as an oral prophylaxis as defined in WAC 246-817-510 a procedure specifically reserved to performance by a licensed dentist or dental hygienist. Coronal polishing may, however, be performed by dental assistants under close supervision as a portion of the oral prophylaxis. In all instances, however, a licensed dentist shall determine that the teeth need to be polished and are free of calculus or other extraneous material prior to performance of coronal polishing by a dental assistant.

"Debridement at the periodontal surgical site" means curettage and/or root planing after reflection of a flap by the supervising dentist. This does not include cutting of osseous tissues.

"Elevating soft tissues" is defined as part of a surgical procedure involving the use of the periosteal elevator to raise flaps of soft tissues. Elevating soft tissue is not a separate and distinct procedure in and of itself.

"General supervision" means supervision of dental procedures based on examination and diagnosis of the patient

and subsequent instructions given by a licensed dentist but not requiring the physical presence of the supervising dentist in the treatment facility during the performance of those procedures.

"Incising" is defined as part of the surgical procedure of which the end result is removal of oral tissue. Incising, or the making of an incision, is not a separate and distinct procedure in and of itself.

"Luxation" is defined as an integral part of the surgical procedure of which the end result is extraction of a tooth. Luxation is not a distinct procedure in and of itself. It is the dislocation or displacement of a tooth or of the temporomandibular articulation.

"Oral prophylaxis" means the preventive dental procedure of scaling and polishing which includes complete removal of calculus, soft deposits, plaque, stains and the smoothing of unattached tooth surfaces. The objective of this treatment shall be creation of an environment in which hard and soft tissues can be maintained in good health by the patient.

"Periodontal soft tissue curettage" means the closed removal of tissue lining the periodontal pocket, not involving the reflection of a flap.

"Root planing" means the process of instrumentation by which the unattached surfaces of the root are made smooth by the removal of calculus and/or deposits.

"Suturing" is defined as the readaption of soft tissue by use of stitches as a phase of an oral surgery procedure. Suturing is not a separate and distinct procedure in and of itself.

"Treatment facility" means a dental office or connecting suite of offices, dental clinic, room or area with equipment to provide dental treatment, or the immediately adjacent rooms or areas. A treatment facility does not extend to any other area of a building in which the treatment facility is located.

"Unlicensed person" means a person who is neither a dentist duly licensed pursuant to the provisions of chapter 18.32 RCW nor a dental hygienist duly licensed pursuant to the provisions of chapter 18.29 RCW.

[Statutory Authority: RCW 18.32.035. 95-21-041, § 246-817-510, filed 10/10/95, effective 11/10/95.]

WAC 246-817-520 Acts that may be performed by unlicensed persons. A dentist may allow an unlicensed person to perform the following acts under the dentist's close supervision:

(1) Oral inspection, with no diagnosis.

(2) Patient education in oral hygiene.

(3) Place and remove the rubber dam.

(4) Hold in place and remove impression materials after the dentist has placed them.

(5) Take impressions solely for diagnostic and opposing models.

(6) Take impressions and wax bites solely for study casts.

(7) Remove the excess cement after the dentist has placed a permanent or temporary inlay, crown, bridge or appliance, or around orthodontic bands.

(8) Perform coronal polish.

(9) Give fluoride treatments.

(10) Place periodontal packs.

(11) Remove periodontal packs or sutures.

(12) Placement of a matrix and wedge for a silver restoration after the dentist has prepared the cavity.

(13) Place a temporary filling (as ZOE) after diagnosis and examination by the dentist.

(14) Apply tooth separators as for placement for Class III gold foil.

(15) Fabricate, place, and remove temporary crowns or temporary bridges.

(16) Pack and medicate extraction areas.

(17) Deliver a sedative drug capsule to patient.

(18) Place topical anesthetics.

(19) Placement of retraction cord.

(20) Polish restorations at a subsequent appointment.

(21) Select denture shade and mold.

(22) Acid etch.

(23) Apply sealants.

(24) Place dental x-ray film and expose and develop the films.

(25) Take intra-oral and extra-oral photographs.

(26) Take health histories.

(27) Take and record blood pressure and vital signs.

(28) Give preoperative and postoperative instructions.

(29) Assist in the administration of nitrous oxide analgesia or sedation, but shall not start the administration of the gases and shall not adjust the flow of the gases unless instructed to do so by the dentist. Patients must never be left unattended while nitrous oxide-oxygen analgesia or sedation is administered to them. The dentist must be present at chairside during the entire administration of nitrous oxide and oxygen analgesia or sedation if any other central nervous system depressant has been given to the patient. This regulation shall not be construed to prevent any person from taking appropriate action in the event of a medical emergency.

(30) Select orthodontic bands for size.

(31) Place and remove orthodontic separators.

(32) Prepare teeth for the bonding or orthodontic appliances.

(33) Fit and adjust headgear.

(34) Remove fixed orthodontic appliances.

(35) Remove and replace archwires and orthodontic wires.

(36) Take a facebow transfer for mounting study casts.

[Statutory Authority: RCW 18.32.035. 95-21-041, § 246-817-520, filed 10/10/95, effective 11/10/95.]

WAC 246-817-530 An act that may be performed by unlicensed persons outside the treatment facility. Unlicensed persons may select shade for crowns or fixed prostheses with the use of a technique which does not contact the oral cavity to avoid contamination with blood or saliva. The procedure shall be performed pursuant to the written instructions and order of a licensed dentist.

[Statutory Authority: RCW 18.32.035. 95-21-041, § 246-817-530, filed 10/10/95, effective 11/10/95.]

WAC 246-817-540 Acts that may not be performed by unlicensed persons. No dentist shall allow an unlicensed person who is in his/her employ or is acting under his/her supervision or direction to perform any of the following procedures:

(1) Any removal of or addition to the hard or soft natural tissue of the oral cavity.

(2) Any placing of permanent or semi-permanent restorations in natural teeth.

(3) Any diagnosis of or prescription for treatment of disease, pain, deformity, deficiency, injury, or physical condition of the human teeth or jaws, or adjacent structure.

(4) Any administration of general or injected local anesthetic of any nature in connection with a dental operation.

(5) Any oral prophylaxis, except coronal polishing as a part of oral prophylaxis as defined in WAC 246-817-510 and 246-817-520(8).

(6) Any scaling procedure.

(7) The taking of any impressions of the teeth or jaws, or the relationships of the teeth or jaws, for the purpose of fabricating any intra-oral restoration, appliances, or prosthesis. Not prohibited are the taking of impressions solely for diagnostic and opposing models or taking wax bites solely for study casts.

(8) Intra-orally adjust occlusal of inlays, crowns, and bridges.

(9) Intra-orally finish margins of inlays, crowns, and bridges.

(10) Cement or recement, permanently, any cast restoration or stainless steel crown.

(11) Incise gingiva or other soft tissue.

(12) Elevate soft tissue flap.

(13) Luxate teeth.

(14) Curette to sever epithelial attachment.

(15) Suture.

(16) Establish occlusal vertical dimension for dentures.

(17) Try-in of dentures set in wax.

(18) Insertion and post-insertion adjustments of dentures.

(19) Endodontic treatment—open, extirpate pulp, ream and file canals, establish length of tooth, and fill root canal.

[Statutory Authority: RCW 18.32.035. 95-21-041, § 246-817-540, filed 10/10/95, effective 11/10/95.]

WAC 246-817-550 Acts that may be performed by licensed dental hygienists under general supervision. A dentist may allow a dental hygienist licensed under the provisions of chapter 18.29 RCW to perform the following acts under the dentist's general supervision:

(1) Oral inspection and measuring of periodontal pockets, with no diagnosis.

(2) Patient education in oral hygiene.

(3) Take intra-oral and extra-oral radiographs.

(4) Apply topical preventive or prophylactic agents.

(5) Polish and smooth restorations.

(6) Oral prophylaxis and removal of deposits and stains from the surfaces of the teeth.

(7) Record health histories.

(8) Take and record blood pressure and vital signs.

(9) Perform sub-gingival and supra-gingival scaling.

(10) Perform root planing.

(11) Apply sealants.

[Statutory Authority: RCW 18.32.035. 95-21-041, § 246-817-550, filed 10/10/95, effective 11/10/95.]

WAC 246-817-560 Acts that may be performed by licensed dental hygienists under close supervision. In addition to the acts performed under WAC 246-817-520, a dentist may allow a dental hygienist licensed under the provisions of chapter 18.29 RCW to perform the following acts under the dentist's close supervision:

(1) Perform soft-tissue curettage.

(2) Give injections of a local anesthetic.

(3) Place restorations into the cavity prepared by the dentist, and thereafter could carve, contour, and adjust contacts and occlusion of the restoration.

(4) Administer nitrous oxide analgesia.

[Statutory Authority: RCW 18.32.035. 95-21-041, § 246-817-560, filed 10/10/95, effective 11/10/95.]

WAC 246-817-570 Acts that may not be performed by dental hygienists. No dentist shall allow a dental hygienist duly licensed under the provisions of chapter 18.29 RCW who is in his/her employ or is acting under his/her supervision or direction to perform any of the following procedures:

(1) Any surgical removal of tissue of the oral cavity, except for soft-tissue curettage, as defined in WAC 246-817-510.

(2) Any prescription of drugs or medications requiring the written order or prescription of a licensed dentist or physician.

(3) Any diagnosis for treatment or treatment planning.

(4) The taking of any impression of the teeth or jaw, or the relationship of the teeth or jaw, for the purpose of fabricating any intra-oral restoration, appliances, or prosthesis. Not prohibited are the taking of impressions solely for diagnostic and opposing models or taking wax bites solely for study casts.

(5) Intra-orally adjust occlusal of inlays, crowns, and bridges.

(6) Intra-orally finish margins of inlays, crowns, and bridges.

(7) Cement or recement, permanently, any cast restorations or stainless steel crowns.

(8) Incise gingiva or other soft tissue.

(9) Elevate soft tissue flap.

(10) Luxate teeth.

(11) Curette to sever epithelial attachment.

(12) Suture.

(13) Establish occlusal vertical dimension for dentures.

(14) Try-in of dentures set in wax.

(15) Insertion and post-insertion adjustments of dentures.

(16) Endodontic treatment—open, extirpate pulp, ream and file canals, establish length of tooth, and fill root canal.

[Statutory Authority: RCW 18.32.035. 95-21-041, § 246-817-570, filed 10/10/95, effective 11/10/95.]

INFECTION CONTROL

WAC 246-817-601 Purpose. The purpose of WAC 246-817-601 through 246-817-630 is to establish requirements for infection control in dental offices to protect the health and well-being of the people of the state of Washington. For purposes of infection control, all dental staff members and all patients shall be considered potential carriers of communicable diseases. Infection control procedures are required to prevent disease transmission from patient to doctor and staff, doctor and staff to patient, and from patient to patient. Every dentist is required to comply with the applicable standard of care in effect at the time of treatment. At a minimum, the dentist must comply with the requirements defined in WAC 246-817-620 and 246-817-630.

[Statutory Authority: RCW 18.32.035. 95-21-041, § 246-817-601, filed 10/10/95, effective 11/10/95.]

WAC 246-817-610 Definitions. The following definitions pertain to WAC 246-817-601 through 246-817-660 which supersede WAC 246-816-701 through 246-816-740 which became effective May 15, 1992.

"Communicable diseases" means an illness caused by an infectious agent which can be transmitted from one person, animal, or object to another person by direct or indirect means including transmission via an intermediate host or vector, food, water or air.

"Decontamination" means the use of physical or chemical means to remove, inactivate, or destroy bloodborne pathogens on a surface or item to the point where they are no longer capable of transmitting infectious particles and the surface or item is rendered safe for handling, use, or disposal.

"Direct care staff" are the dental staff who directly provide dental care to patients.

"Sterilize" means the use of a physical or chemical procedure to destroy all microbial life including highly resistant bacterial endospores.

[Statutory Authority: RCW 18.32.035. 95-21-041, § 246-817-610, filed 10/10/95, effective 11/10/95.]

WAC 246-817-620 Use of barriers and sterilization techniques. The use of barriers and sterilization techniques is the primary means of assuring that there is the least possible chance of the transmission of communicable diseases from doctor and staff to patients, from patient to patient and from patient to doctor and staff. To prevent patient to patient cross contamination, instruments and supplies contaminated or likely to be contaminated with blood or saliva and touched during treatment must be sterilized between patients or discarded except as otherwise set forth below. Surfaces and equipment which are likely to be contaminated with blood or saliva and touched during treatment must be decontaminated or covered with a barrier which is discarded and replaced between patients except as otherwise set forth below:

(1) Dentists shall comply with the following barrier techniques:

(a) Gloves shall be used by the dentist and direct care staff during treatment which involves intra-oral procedures or contact with items potentially contaminated with the patient's bodily fluids. Fresh gloves shall be used for every intraoral patient contact. Gloves shall not be washed or reused for any purpose. The same pair of gloves shall not be used, removed, and reused for the same patient at the same visit or for any other purpose. Gloves that have been used for dental treatment shall not be reused for any nondental purpose.

(b) Masks shall be worn by the dentist and direct care staff when splatter or aerosol is likely. Masks shall be worn during surgical procedures except in those specific instances in which the dentist determines that the use of a mask would prevent the delivery of health care services or would increase the hazard and risk to his/her patient. In those circumstances where a dentist determines not to wear a mask during a surgical procedure, such determination shall be documented in the patient record.

(c) Unless effective surface decontamination methods are used, protective barriers shall be placed over areas of the dental operatory which are likely to be touched during treatment, not removable to be sterilized, and likely to be contaminated by blood or saliva. These procedures must be followed between each patient. These include but are not limited to:

(i) Delivery unit.

(ii) Chair controls (not including foot controls).

(iii) Light handles.

(iv) High volume evacuator and air-water syringe controls.

(v) X-ray heads and controls.

(vi) Head rest.

(vii) Instrument trays.

(viii) Low speed handpiece motors.

(d) Protective eyewear shall be worn by the dentist and direct care staff and offered to all patients during times when splatter or aerosol is expected.

(2) Dentists shall comply with the following sterilization requirements:

(a) Every dental office shall have the capability to ultrasonically clean and sterilize contaminated items by autoclave, dry heat, unsaturated formaldehyde/alcohol vapor (such as MDT Chemiclave ®) or ethylene oxide. Sterilizers shall be tested by biological spore test on at least a weekly basis. In the event of a positive biological spore test, the dentist shall take immediate remedial action to ensure the objectives of (a) of this subsection are accomplished. Documentation shall be maintained either in the form of a log reflecting dates and person(s) conducting the testing or copies of reports from an independent testing entity. The documentation shall be maintained for a period of at least five years.

(b) The following items shall be sterilized by an appropriate autoclave, dry heat, unsaturated formaldehyde/alcohol vapor (such as MDT Chemiclave ®) or ethylene oxide sterilization method between patients:

(i) Low speed handpiece contra angles, prophy angles and nose cone sleeves.

(ii) High speed handpieces.

(iii) Hand instruments.

(iv) Burs.

(v) Endodontic instruments.

(vi) Air-water syringe tips.

(vii) High volume evacuator tips.

(viii) Surgical instruments.

(ix) Sonic or ultrasonic periodontal scalers and tips.

(x) Surgical handpieces.

(c) Gross debris shall be removed from items prior to sterilization. Ultrasonic cleaning shall be used whenever possible.

(d) Nondisposable items used in patient care which cannot be autoclaved, dry heat, unsaturated formaldehyde/alcohol vapor (such as MDT Chemiclave ®) or ethylene oxide sterilized shall be immersed in a chemical sterilant. If such a technique is used, the solution shall be approved by the Environmental Protection Agency and used in accordance with the manufacturer's directions for sterilization.

(e) Items such as impressions contaminated with blood or saliva shall be thoroughly rinsed, placed in and transported to the dental laboratory in an appropriate case containment device that is properly sealed and labeled.

[Statutory Authority: RCW 18.32.035. 95-21-041, § 246-817-620, filed 10/10/95, effective 11/10/95.]

WAC 246-817-630 Management of single use items. (1) Sterile disposable needles shall be used. The same needle may be recapped with a single-handed recapping technique or recapping device and subsequently reused for the same patient during the same visit.

(2) Single use items used in patient treatment which have been contaminated by saliva or blood shall be discarded and not reused. These include, but are not limited to, disposable needles, local anesthetic carpules, saliva ejectors, polishing discs, bonding agent brushes, prophy cups, prophy brushes, fluoride trays and interproximal wedges.

[Statutory Authority: RCW 18.32.035. 95-21-041, § 246-817-630, filed 10/10/95, effective 11/10/95.]

ADMINISTRATION OF ANESTHETIC AGENTS FOR DENTAL PROCEDURES

WAC 246-817-701 Purpose. The purpose of WAC 246-817-701 through 246-817-795 is to govern the administration of sedation and general anesthesia by dentists licensed in the state of Washington in settings other than hospitals as defined in WAC 246-318-010(31) and ambulatory surgical facilities as defined in WAC 246-310-010(5), pursuant to the DQAC's authority in RCW 18.32.640(2).

[Statutory Authority: RCW 18.32.035. 95-21-041, § 246-817-701, filed 10/10/95, effective 11/10/95.]

WAC 246-817-710 Definitions for WAC 246-817-701 through 246-817-795. **"Analgesia"** is the diminution of pain in the conscious patient.

"Conscious sedation" is a minimally depressed level of consciousness that retains the patient's ability to independently and continuously maintain an airway and respond appropriately to physical stimulation and/or verbal command, produced by a pharmacologic method, and that carries a margin of safety wide enough to render unintended loss of protective reflexes unlikely.

"General anesthesia" (to include deep sedation) is a controlled state of depressed consciousness or unconsciousness, accompanied by partial or complete loss of protective reflexes, including the ability to independently maintain an airway and respond purposefully to physical stimulation or verbal command, produced by a pharmacologic or nonpharmacologic method, or combination thereof.

"Local anesthesia" is the elimination of sensations especially pain, in one part of the body by the topical application or regional injection of a drug.

[Statutory Authority: RCW 18.32.035. 95-21-041, § 246-817-710, filed 10/10/95, effective 11/10/95.]

WAC 246-817-720 Basic life support requirements. Whenever a licensee administers local anesthesia, nitrous oxide sedation, conscious sedation, or general anesthesia (including deep sedation) in an in-office or out-patient setting, the dentist and his/her staff providing direct patient care must have a current basic life support (BLS) certification. New staff hired shall be allowed thirty days from the date they are hired to obtain BLS certification.

[Statutory Authority: RCW 18.32.035. 95-21-041, § 246-817-720, filed 10/10/95, effective 11/10/95.]

WAC 246-817-730 Local anesthesia. (1) Procedures for administration: Local anesthesia shall be administered only by a person qualified under this chapter and dental hygienists as provided in chapter 18.29 RCW.

(2) Equipment and emergency medications: All offices in which local anesthesia is administered must comply with the following recordkeeping and equipment standards:

(a) Dental records must contain an appropriate medical history and patient evaluation. Any adverse reactions shall be indicated.

(b) Office facilities and equipment shall include:

(i) Suction equipment capable of aspirating gastric contents from the mouth and pharynx.

(ii) Portable oxygen delivery system including full face masks and a bag-valve-mask combination with appropriate connectors capable of delivering positive pressure, oxygen-enriched ventilation to the patient.

(iii) A blood pressure cuff (sphygmomanometer) of appropriate size and stethoscope; or equivalent monitoring devices.

(3) A permit of authorization is not required.

[Statutory Authority: RCW 18.32.035. 95-21-041, § 246-817-730, filed 10/10/95, effective 11/10/95.]

WAC 246-817-740 Nitrous oxide/oxygen sedation. (1) Training requirements: To administer nitrous oxide sedation, a dentist must have completed a course containing a minimum of fourteen hours of either predoctoral dental school or postgraduate instruction.

(2) Procedures for administration: Nitrous oxide shall be administered under the close supervision of a person qualified under this chapter and dental hygienists as provided in chapter 18.29 RCW. When administering nitrous oxide sedation, a second individual shall be on the office premises who can immediately respond to any request from the person administering the nitrous oxide. The patient shall be continuously observed while nitrous oxide is administered.

(3) Equipment and emergency medications: All offices in which nitrous oxide sedation is administered must comply with the following recordkeeping and equipment standards:

(a) Dental records must contain an appropriate medical history and patient evaluation. A notation must be made in the chart if any nitrous oxide and/or oxygen is dispensed.

(b) Office facilities and equipment shall include:

(i) Suction equipment capable of aspirating gastric contents from the mouth and pharynx.

(ii) Portable oxygen delivery system including full face masks and a bag-valve-mask combination with appropriate connectors capable of delivering positive pressure, oxygen-enriched ventilation to the patient.

(iii) A blood pressure cuff (sphygmomanometer) of appropriate size and stethoscope; or equivalent monitoring devices.

(4) Continuing education: A dentist who administers nitrous oxide sedation to patients must participate in seven hours of continuing education or equivalent every five years. The education must include instruction in one or more of the following areas: Sedation, physiology, pharmacology, nitrous oxide analgesia, patient evaluation, patient monitoring, medical emergencies, basic life support (BLS), or advanced cardiac life support (ACLS).

(5) A permit of authorization is not required.

[Statutory Authority: RCW 18.32.035. 95-21-041, § 246-817-740, filed 10/10/95, effective 11/10/95.]

WAC 246-817-750 Conscious sedation with an oral agent. Conscious sedation with an oral agent includes the administration or prescription for a single oral sedative agent used alone or in combination with nitrous oxide sedation.

(1) Training requirements: In order to administer oral sedative agents, a dentist must have completed a course containing a minimum of fourteen hours of either predoctoral dental school or postgraduate instruction in the fields of pharmacology and physiology of oral sedative medications. Dentists must possess a valid United States Department of Justice (DEA) registration for the prescription of controlled substances.

(2) Procedures for administration: Oral sedative agents can be administered in the treatment setting or prescribed for patient dosage prior to the appointment. When nitrous oxide is administered concurrently, a second individual shall be on the office premises who can immediately respond to any request from the person administering the nitrous oxide. The patient shall be continuously observed while nitrous oxide is administered. Any adverse reactions shall be indicated in the records. If purposeful response of the patient to verbal command cannot be maintained under medication, periodic monitoring of pulse, respiration, and blood pressure or pulse oximetry shall be maintained. In such cases, these same parameters must be taken and recorded at appropriate intervals throughout the procedure and vital signs and level of consciousness shall be recorded prior to dismissal of the patient.

(3) Equipment and emergency medications: All offices in which oral sedation is administered or prescribed must comply with the following recordkeeping and equipment standards:

(a) Dental records must contain appropriate medical history and patient evaluation. Vital signs, dosage, and types of medications administered should be noted. If nitrous oxide-oxygen is used, proportions and duration of administration should be noted.

(b) Office facilities and equipment shall include:

(i) Suction equipment capable of aspirating gastric contents from the mouth and pharynx.

(ii) Portable oxygen delivery system including full face masks and a bag-valve-mask combination with appropriate connectors capable of delivering positive pressure, oxygen-enriched patient ventilation.

(iii) A blood pressure cuff (sphygmomanometer) of appropriate size and stethoscope; or equivalent monitoring devices.

(4) Continuing education: A dentist who administers or prescribes oral sedation for patients must participate in seven hours of continuing education or equivalent every five years. The education must include instruction in one or more of the following areas: Sedation, physiology, pharmacology, nitrous oxide analgesia, patient evaluation, patient monitoring, medical emergencies, basic life support (BLS), or advanced cardiac life support (ACLS).

(5) A permit of authorization is not required.

[Statutory Authority: RCW 18.32.035. 95-21-041, § 246-817-750, filed 10/10/95, effective 11/10/95.]

WAC 246-817-760 Conscious sedation with parenteral or multiple oral agents. Conscious sedation with parenteral or multiple oral agents includes the prescription or administration of more than one oral agent to be used concurrently for the purposes of sedation either as a combined regimen or in association with nitrous oxide-oxygen. For purposes of this section, oral agents shall include any nonparenteral agents regardless of route of delivery. This also includes the parenteral administration of medications for the purpose of conscious sedation of dental patients.

(1) Procedures for administration: Multiple oral sedative agents may be administered in the treatment setting or prescribed for patient dosage prior to the appointment. In the treatment setting, a patient receiving conscious parenteral sedation must have that sedation administered by a person qualified under this chapter. Only a dentist meeting the above criteria for administration of conscious parenteral sedation may utilize the services of a nurse licensed pursuant to chapter 18.88 RCW to administer conscious parenteral sedation under the close supervision of the dentist as defined in WAC 246-817-510. An intravenous infusion shall be maintained during the administration of a parenteral agent. The person administering the medications must be continuously assisted by at least one individual experienced in monitoring sedated patients.

In the treatment setting, a patient experiencing conscious sedation with parenteral or multiple oral agents shall have visual and tactile observation as well as continual monitoring of pulse, respiration, and blood pressure and/or blood oxygen saturation. Unless prevented by the patient's physical or emotional condition, these vital sign parameters must be noted and recorded whenever possible prior to the procedure. In all cases these vital sign parameters must be noted and recorded

at the conclusion of the procedure. Blood oxygen saturation must be continuously monitored and recorded at appropriate intervals throughout any period of time in which purposeful response of the patient to verbal command cannot be maintained. The patient's level of consciousness shall be recorded prior to the dismissal of the patient and individuals receiving these forms of sedation must be accompanied by a responsible individual upon departure from the treatment facility. When verbal contact cannot be maintained during the procedure, continuous monitoring of blood oxygen saturation is required.

(2) Equipment and emergency medications: All offices in which parenteral or multiple oral sedation is administered or prescribed must comply with the following recordkeeping and equipment standards:

(a) Dental records must contain appropriate medical history and patient evaluation. Dosage and forms of medications dispensed shall be noted.

(b) Office facilities and equipment shall include:

(i) Suction equipment capable of aspirating gastric contents from the mouth and pharynx.

(ii) Portable oxygen delivery system including full face masks and a bag-valve-mask combination with appropriate connectors capable of delivering positive pressure, oxygen-enriched patient ventilation and oral and nasal pharyngeal airways of appropriate size.

(iii) A blood pressure cuff (sphygmomanometer) of appropriate size and stethoscope; or equivalent monitoring devices.

(iv) An emergency drug kit with minimum contents of:

-Sterile needles, syringes, and tourniquet
-Narcotic antagonist
-A and B adrenergic stimulant
-Vasopressor
-Coronary vasodilator
-Antihistamine
-Parasympatholytic
-Intravenous fluids, tubing, and infusion set
-Sedative antagonists for drugs used if available.

(3) Continuing education: A dentist who administers conscious parenteral or multi-agent oral sedation must participate in eighteen hours of continuing education or equivalent every three years. The education must include instruction in one or more of the following areas: Venipuncture, intravenous sedation, physiology, pharmacology, nitrous oxide analgesia, patient evaluation, patient monitoring, medical emergencies, basic life support (BLS), or advanced cardiac life support (ACLS).

(4) A permit of authorization is required. (See WAC 246-817-175 for training requirements.)

[Statutory Authority: RCW 18.32.035. 95-21-041, § 246-817-760, filed 10/10/95, effective 11/10/95.]

WAC 246-817-770 General anesthesia (including deep sedation). Deep sedation and general anesthesia must be administered by an individual qualified to do so under this chapter.

(1) Training requirements for monitoring personnel: In addition to those individuals necessary to assist the practitioner in performing the procedure, a trained individual must be present to monitor the patient's cardiac and respiratory functions. The individual monitoring patients receiving deep sedation or general anesthesia must have received a minimum of fourteen hours of documented training in a course specifically designed to include instruction and practical experience in use of all equipment required in this section. This must include, but not be limited to, the following equipment:

(a) Sphygmomanometer;

(b) Pulse oximeter;

(c) Electrocardiogram;

(d) Bag-valve-mask resuscitation equipment;

(e) Oral and nasopharyngeal airways;

(f) Defibrillator;

(g) Intravenous fluid administration set.

A course, or its equivalent, may be presented by an individual qualified under this section or sponsored by an accredited school, medical or dental association or society, or dental specialty association.

(2) Procedures for administration: Patients receiving deep sedation or general anesthesia must have continual monitoring of their heart rate, blood pressure, and respiration. In so doing, the licensee must utilize electrocardiographic monitoring and pulse oximetry. The patient's blood pressure, heart rate, and respiration shall be recorded at least every five minutes. During deep sedation or general anesthesia, the person administering the anesthesia and the person monitoring the patient, may not leave the immediate area.

During the recovery phase, the patient must be monitored continually by an individual trained to monitor patients recovering from general anesthesia or deep sedation. A discharge entry shall be made in the patient's record indicating the patient's condition upon discharge and the responsible party to whom the patient was discharged.

(3) Equipment and emergency medications: All offices in which general anesthesia (including deep sedation) is administered must comply with the following recordkeeping and equipment standards:

(a) Dental records must contain appropriate medical history and patient evaluation. Anesthesia records shall be recorded during the procedure in a timely manner and must include: Blood pressure, heart rate, respiration, blood oxygen saturation, drugs administered including amounts and time administered, length of procedure, any complications of anesthesia.

(b) Office facilities and equipment shall include:

(i) An operating theater large enough to adequately accommodate the patient on a table or in an operating chair and permit an operating team consisting of at least three individuals to freely move about the patient.

(ii) An operating table or chair which permits the patient to be positioned so the operating team can maintain the airway, quickly alter patient position in an emergency, and provide a firm platform for the administration of basic life support.

(iii) A lighting system which is adequate to permit evaluation of the patient's skin and mucosal color and a backup lighting system of sufficient intensity to permit conclusion of any operation underway at the time of general power failure.

(iv) Suction equipment capable of aspirating gastric contents from the mouth and pharyngeal cavities. A backup suction device must be available.

(v) An oxygen delivery system with adequate full face masks and appropriate connectors that is capable of delivering high flow oxygen to the patient under positive pressure, together with an adequate portable backup system.

(vi) A recovery area that has available oxygen, adequate lighting, suction, and electrical outlets. The recovery area can be the operating theater.

(vii) Ancillary equipment which must include the following:

(A) Laryngoscope complete with adequate selection of blades, spare batteries, and bulb.

(B) Endotracheal tubes and appropriate connectors.

(C) Oral airways.

(D) Tonsillar or pharyngeal suction tip adaptable to all office outlets.

(E) Endotracheal tube forceps.

(F) Sphygmomanometer and stethoscope.

(G) Adequate equipment to establish an intravenous infusion.

(H) Pulse oximeter.

(I) Electrocardiographic monitor.

(J) Synchronized defibrillator available on premises.

(c) Drugs. Emergency drugs of the following types shall be maintained:

(i) Vasopressor.

(ii) Corticosteroid.

(iii) Bronchodilator.

(iv) Muscle relaxant.

(v) Intravenous medications for treatment of cardiac arrest.

(vi) Narcotic antagonist. Sedative antagonist, if available.

(vii) Antihistaminic.

(viii) Anticholinergic.

(ix) Antiarrhythmic.

(x) Coronary artery vasodilator.

(xi) Antihypertensive.

(xii) Anticonvulsant.

(4) Continuing education: A dentist granted a permit to administer general anesthesia (including deep sedation) under this chapter, must participate in eighteen hours of continuing education every three years. A dentist granted a permit must maintain records that can be audited and must submit course titles, instructors, dates attended, sponsors, and number of hours for each course every three years. The education must be provided by organizations approved by the DQAC and must be in one or more of the following areas: General anesthesia, conscious sedation, physical evaluation, medical emergencies, monitoring and use of monitoring equipment, pharmacology of drugs and agents used in sedation and anesthesia, or basic life support (BLS), or advanced cardiac life support (ACLS).

(5) A permit of authorization is required.

[Statutory Authority: RCW 18.32.035. 95-21-041, § 246-817-770, filed 10/10/95, effective 11/10/95.]

WAC 246-817-780 Mandatory reporting of death or significant complication. If a death or other life-threatening complication or permanent injury which may be a result of the administration of nitrous oxide, conscious sedation, deep sedation or general anesthesia, the dentist involved must submit a written report to the DQAC within thirty days of the incident.

The written report must include the following:

(1) Name, age, and address of the patient.

(2) Name of the dentist and other personnel present during the incident.

(3) Address of the facility or office where the incident took place.

(4) Description of the type of sedation or anesthetic being utilized at the time of the incident.

(5) Dosages, if any, of drugs administered to the patient.

(6) A narrative description of the incident including approximate times and evolution of symptoms.

(7) Additional information which the DQAC may require or request.

[Statutory Authority: RCW 18.32.035. 95-21-041, § 246-817-780, filed 10/10/95, effective 11/10/95.]

WAC 246-817-790 Application of chapter 18.130 RCW. The provisions of the Uniform Disciplinary Act, chapter 18.130 RCW, apply to the permits of authorization that may be issued and renewed under this chapter.

[Statutory Authority: RCW 18.32.035. 95-21-041, § 246-817-790, filed 10/10/95, effective 11/10/95.]

SUBSTANCE ABUSE MONITORING PROGRAMS

WAC 246-817-801 Intent. It is the intent of the legislature that the DQAC seek ways to identify and support the rehabilitation of dentists where practice or competency may be impaired due to the abuse of drugs including alcohol. The legislature intends that these dentists be treated so that they can return to or continue to practice dentistry in a way which safeguards the public. The legislature specifically intends that the DQAC establish an alternate program to the traditional administrative proceedings against such dentists.

In lieu of disciplinary action under RCW 18.130.160 and if the DQAC determines that the unprofessional conduct may be the result of substance abuse, the DQAC may refer the license holder to a voluntary substance abuse monitoring program approved by the DQAC.

[Statutory Authority: RCW 18.32.035. 95-21-041, § 246-817-801, filed 10/10/95, effective 11/10/95.]

WAC 246-817-810 Terms used in WAC 246-817-801 through 246-817-830. "Aftercare" is that period of time after intensive treatment that provides the dentist or the dentist's family with group or individual counseling sessions, discussions with other families, ongoing contact and participation in self-help groups, and ongoing continued support of treatment and/or monitoring program staff.

"Approved substance abuse monitoring program" or **"approved monitoring program"** is a program the DQAC has determined meets the requirements of the law and the cri-

teria established by the DQAC in the Washington Administrative Code which enters into a contract with dentists who have substance abuse problems regarding the required components of the dentist's recovery activity and oversees the dentist's compliance with these requirements. Substance abuse monitoring programs may provide evaluation and/or treatment to participating dentists.

"Approved treatment facility" is a facility approved by the bureau of alcohol and substance abuse, department of social and health services according to RCW 18.130.175.

"Contract" is a comprehensive, structured agreement between the recovering dentist and the approved monitoring program wherein the dentist consents to comply with the monitoring program and the required components for the dentist's recovery activity.

"Dentist support group" is a group of dentists and/or other health professionals meeting regularly to support the recovery of its members. The group provides a confidential setting with a trained and experienced facilitator in which participants may safely discuss drug diversion, licensure issues, return to work, and other professional issues related to recovery.

"Random drug screens" are laboratory tests to detect the presence of drugs of abuse in bodily fluids collected under observation which are performed at irregular intervals not known in advance by the person to be tested.

"Substance abuse" is the impairment, as determined by the DQAC, of a dentist's professional services by an addiction to, a dependency on, or the use of alcohol, legend drugs, or controlled substances.

"Twelve-steps groups" are groups such as Alcoholics Anonymous, Narcotics Anonymous, and related organizations based on a philosophy of anonymity, belief in a power outside of oneself, peer group association, and self-help.

[Statutory Authority: RCW 18.32.035. 95-21-041, § 246-817-810, filed 10/10/95, effective 11/10/95.]

WAC 246-817-820 Approval of substance abuse monitoring programs. The DQAC will approve the monitoring program(s) which will participate in the recovery of dentists. The DQAC will enter into a contract with the approved substance abuse monitoring program(s) on an annual basis.

(1) An approved monitoring program may provide evaluations and/or treatment to the participating dentists.

(2) An approved monitoring program staff must have the qualifications and knowledge of both substance abuse and the practice of dentistry as defined in this chapter to be able to evaluate:

(a) Drug screening laboratories;

(b) Laboratory results;

(c) Providers of substance abuse treatment, both individual and facilities;

(d) Dentists' support groups;

(e) The dentists' work environment; and

(f) The ability of the dentist to practice with reasonable skill and safety.

(3) An approved monitoring program shall enter into a contract with the dentist and the DQAC to oversee the dentist's compliance with the requirements of the program.

(4) An approved monitoring program staff shall evaluate and recommend to the DQAC, on an individual basis, whether a dentist will be prohibited from engaging in the practice of dentistry for a period of time and restrictions, if any, on the dentist's access to controlled substances in the work place.

(5) An approved monitoring program shall maintain records on participants.

(6) An approved monitoring program shall be responsible for providing feedback to the dentist as to whether treatment progress is acceptable.

(7) An approved monitoring program shall report to the DQAC any dentist who fails to comply with the requirements of the monitoring program.

(8) An approved monitoring program shall provide the DQAC with a statistical report on the program, including progress of participants, at least annually, or more frequently as requested by the DQAC.

(9) The approved monitoring program shall receive from the DQAC guidelines on treatment, monitoring, and/or limitations on the practice of dentistry for those participating in the program.

(10) An approved monitoring program shall provide for the DQAC a complete financial breakdown of cost for each individual dental participant by usage at an interval determined by the DQAC in the annual contract.

(11) An approved monitoring program shall provide for the DQAC a complete annual audited financial statement.

(12) An approved monitoring program shall enter into a written contract with the DQAC and submit monthly billing statements supported by documentation.

[Statutory Authority: RCW 18.32.035. 95-21-041, § 246-817-820, filed 10/10/95, effective 11/10/95.]

WAC 246-817-830 Participation in approved substance abuse monitoring program. (1) In lieu of disciplinary action, the dentist may accept DQAC referral into an approved substance abuse monitoring program.

(a) The dentist shall undergo a complete physical and psychosocial evaluation before entering the approved monitoring program. This evaluation shall be performed by health care professionals with expertise in chemical dependency.

(b) The dentist shall enter into a contract with the approved substance abuse monitoring program to comply with the requirements of the program which shall include, but not be limited to the following:

(i) The dentist shall agree to remain free of all mind-altering substances, including alcohol, except for medications prescribed by an authorized prescriber, as defined in RCW 69.41.030 and 69.50.101.

(ii) The dentist shall submit to random drug screening as specified by the approved monitoring program.

(iii) The dentist shall sign a waiver allowing the approved monitoring program to release information to the DQAC if the dentist does not comply with the requirements of this contract.

(iv) The dentist shall undergo intensive substance abuse treatment in an approved treatment facility.

(v) The dentist must complete the prescribed aftercare program of the approved treatment facility, which may include individual and/or group psychotherapy.

(vi) The treatment counselor(s) shall provide reports, as requested by the dentist, to the approved monitoring program at specified intervals. Reports shall include treatment prognosis and goals.

(vii) The dentist shall attend dentists' support groups and/or twelve-step group meetings as specified by the contract.

(viii) The dentist shall comply with specified practice conditions and restrictions as defined by the contract.

(ix) Except for (b)(i) through (iii) of this subsection, an approved monitoring program may make an exception to the foregoing comments on individual contracts.

(c) The dentist is responsible for paying the costs of the physical and psychosocial evaluation, substance abuse treatment, random drug screens, and therapeutic group sessions.

(d) The dentist may be subject to disciplinary action under RCW 18.130.160 and 18.130.180 if the dentist does not consent to be referred to the approved monitoring program, does not comply with specified practice restrictions, or does not successfully complete the program.

(2) A dentist who is not being investigated by the DQAC or subject to current disciplinary action, not currently being monitored by the DQAC for substance abuse, may voluntarily participate in the approved substance abuse monitoring program without being referred by the DQAC. Such voluntary participants shall not be subject to disciplinary action under RCW 18.130.160 and 18.130.180 for their substance abuse, and shall not have their participation made known to the DQAC if they meet the requirements of the approved monitoring program:

(a) The dentist shall undergo a complete physical and psychosocial evaluation before entering the approved monitoring program. This evaluation shall be performed by health care professional(s) with expertise in chemical dependency.

(b) The dentist shall enter into a contract with the approved substance abuse monitoring program to comply with the requirements of the program which may include, but not be limited to the following:

(i) The dentist shall undergo approved substance abuse treatment in an approved treatment facility.

(ii) The dentist shall agree to remain free of all mind-altering substances, including alcohol, except for medications prescribed by an authorized prescriber as defined in RCW 69.41.030 and 69.50.101.

(iii) The dentist must complete the prescribed aftercare program of the approved treatment facility, which may include individual and/or group psychotherapy.

(iv) The dentist must cause the treatment counselor(s) to provide reports to the approved monitoring program at specified intervals. Reports shall include treatment prognosis and goals.

(v) The dentist shall submit to random observed drug screening as specified by the approved monitoring program.

(vi) The dentist shall attend dentists' support groups and/or twelve-step group meetings as specified by the contract.

(vii) The dentist shall comply with practice conditions and restrictions as defined by the contract.

(viii) The dentist shall sign a waiver allowing the approved monitoring program to release information to the DQAC if the dentist does not comply with the requirements of this contract.

(c) The dentist is responsible for paying the costs of the physical and psychosocial evaluation, substance abuse treatment, random drug screens, and therapeutic group sessions.

(3) Treatment and pretreatment records shall be confidential as provided by law.

[Statutory Authority: RCW 18.32.035. 95-21-041, § 246-817-830, filed 10/10/95, effective 11/10/95.]

WAC 246-817-990 Dentist fees and renewal cycle. (1) Licenses must be renewed every year on the practitioner's birthday as provided in chapter 246-12 WAC, Part 2, except faculty and resident licenses.

(2) Faculty and resident licenses must be renewed every year on July 1 as provided in chapter 246-12 WAC, Part 2.

(3) The following nonrefundable fees will be charged:

Title of Fee	Fee
Original application by examination*	
Initial application	$ 325.00
Original application - Without examination	
Initial application	350.00
Initial license	350.00
Faculty license application	325.00
Resident license application	60.00
License renewal:	
Renewal	205.00
Surcharge - impaired dentist	25.00
Late renewal penalty	102.50
Expired license reissuance	102.50
Duplicate license	15.00
Certification of license	25.00
Anesthesia permit	
Initial application	50.00
Renewal - (three-year renewal cycle)	50.00
Late renewal penalty	50.00
Expired permit reissuance	50.00
On-site inspection fee	To be determined by future rule adoption.

* In addition to the initial application fee above, applicants for licensure via examination will be required to submit a separate application and examination fee directly to the dental testing agency accepted by the dental quality assurance commission.

[Statutory Authority: RCW 18.32.0365 and 43.70.250. 01-11-166, § 246-817-990, filed 5/23/01, effective 7/1/01. Chapter 246-822 WAC
DIETITIANS OR NUTRITIONISTS

WAC

DISPOSITION OF SECTIONS FORMERLY CODIFIED IN THIS CHAPTER

246-822-100 Cooperation with investigation. [Statutory Authority: RCW 18.138.070, 18.130.050 and 18.130.070. 92-02-018 (Order 224), § 246-822-100, filed 12/23/91, effective 1/23/92. Statutory Authority: RCW 43.70.040. 91-02-049 (Order 121), recodified as § 246-822-100, filed 12/27/90, effective 1/31/91. Statutory Authority: RCW 18.130.070. 89-14-092 (Order PM 842), § 308-177-090, filed 6/30/89.] Repealed by 97-20-101, filed 9/29/97, effective 10/30/97. Statutory Authority: RCW 43.70.040.

246-822-110 AIDS prevention and information education requirements. [Statutory Authority: RCW 18.138.070, 18.130.050, 18.130.070 and 70.24.270. 92-02-018 (Order 224), § 246-822-110, filed 12/23/91, effective 1/23/92. Statutory Authority: RCW 43.70.040. 91-02-049 (Order 121), recodified as § 246-822-110, filed 12/27/90, effective 1/31/91. Statutory Authority: RCW 70.24.270. 88-22-077 (Order PM 786), § 308-177-100, filed 11/2/88.] Repealed by 98-05-060, filed 2/13/98, effective 3/16/98. Statutory Authority: RCW 43.70.280.

246-822-140 Certification renewal registration date. [Statutory Authority: RCW 43.70.040. 91-02-049 (Order 121), recodified as § 246-822-140, filed 12/27/90, effective 1/31/91. Statutory Authority: RCW 18.138.070. 89-03-035 (Order PM 814), § 308-177-140, filed 1/11/89.] Repealed by 97-20-101, filed 9/29/97, effective 10/30/97. Statutory Authority: RCW 43.70.040.

WAC 246-822-010 Definitions. (1) "Accredited college or university" means a college or university accredited by a national or regional accrediting body recognized by the council on postsecondary education at the time the applicant completed the required education.

(2) "Continuous preprofessional experience" means a minimum of 900 hours of supervised competency-based practice in the field of dietetics accumulated over a maximum of thirty-six months. This competency-based practice should include, but not be limited to the following:

(a) Assuring that food service operations meet the food and nutrition needs of clients and target markets.

(b) Utilization of food, nutrition, and social services in community programs.

(c) Providing nutrition care through systematic assessment, planning, intervention, and evaluation of groups and individuals.

(d) Providing nutrition counseling and education to individuals and groups for health promotion, health maintenance, and rehabilitation.

(e) Applying current research information and methods to dietetic practice.

(f) Utilizing computer and other technology in the practice of dietetics.

(g) Integrating food and nutrition services in the health care delivery system.

(h) Promoting positive relationships with others who impact on dietetic service.

(i) Coordinating nutrition care with food service systems.

(j) Participating in the management of cost-effective nutrition care systems.

(k) Utilizing menu as the focal point for control of the food service system.

(l) Participating in the management of food service systems, including procurement, food production, distribution, and service.

(m) Participating in the management of human, financial, material, physical, and operational resources.

(n) Providing education and training to other professionals and supportive personnel.

(o) Engaging in activities that promote improved nutrition status of the public and advance the profession of dietetics.

(p) Recognizing the impact of political, legislative, and economic factors on dietetic practice.

(q) Utilizing effective communication skills in the practice of dietetics.

(r) Participating in the management of a quality assurance program.

(3) "Supervision" means the oversight and responsibility for the dietitian's or nutritionist's continued practice by a qualified supervisor. Methods of supervision may include face-to-face conversations, direct observation, or review of written notes or tapes.

(4) "Qualified supervisor" means a dietitian who is certified under this chapter or who is qualified for certification under this chapter.

(5) "Coordinated undergraduate program" means supervised dietetic practice that is part of a course of study.

[Statutory Authority: RCW 43.70.040. 91-02-049 (Order 121), recodified as § 246-822-010, filed 12/27/90, effective 1/31/91. Statutory Authority: RCW 18.138.070. 89-17-071, § 308-177-115, filed 8/16/89, effective 9/16/89.]

WAC 246-822-020 General provisions. (1) "Unprofessional conduct" as used in this chapter shall mean the conduct described in RCW 18.130.180.

(2) "Hospital" means any health care institution licensed pursuant to chapter 70.41 RCW.

(3) "Nursing home" means any health care institution which comes under chapter 18.51 RCW.

(4) "Department" means the department of health, whose address is:

Department of Health
Professional Licensing Services
1300 Quince St., P.O. Box 47870
Olympia, Washington 98504-7870

(5) "Dietitian or nutritionist" means a person certified pursuant to chapter 18.138 RCW.

(6) "Mentally or physically disabled dietitian or nutritionist" means a dietitian or nutritionist who is currently mentally incompetent or mentally ill as determined by a court, or who is unable to practice dietetics or general nutrition services with reasonable skill and safety to patients by reason of any mental or physical condition and who continues to practice while so impaired.

[Statutory Authority: RCW 18.138.070, 18.130.050 and 18.130.070. 92-02-018 (Order 224), § 246-822-020, filed 12/23/91, effective 1/23/92. Statutory Authority: RCW 43.70.040. 91-02-049 (Order 121), recodified as § 246-822-020, filed 12/27/90, effective 1/31/91. Statutory Authority: RCW 18.130.070. 89-14-092 (Order PM 842), § 308-177-010, filed 6/30/89.]

WAC 246-822-030 Mandatory reporting. (1) All reports required by this chapter shall be submitted to the department as soon as possible, but no later than twenty days after a determination is made.

(2) A report should contain the following information if known:

(a) The name, address, and telephone number of the person making the report.

(b) The name and address and telephone numbers of the dietitian or nutritionist being reported.

(c) The case number of any client whose treatment is a subject of the report.

(d) A brief description or summary of the facts which gave rise to the issuance of the report, including dates of occurrences.

(e) If court action is involved, the name of the court in which the action is filed along with the date of filing and docket number.

(f) Any further information which would aid in the evaluation of the report.

(3) Mandatory reports shall be exempt from public inspection and copying to the extent permitted under RCW 42.17.310 or to the extent that public inspection or copying of the report or any portion of the report would invade or violate a person's right to privacy as set forth in RCW 42.17.255.

(4) A person is immune from civil liability, whether direct or derivative, for providing information to the department pursuant to RCW 18.130.070.

[Statutory Authority: RCW 43.70.040. 91-02-049 (Order 121), recodified as § 246-822-030, filed 12/27/90, effective 1/31/91. Statutory Authority: RCW 18.130.070. 89-14-092 (Order PM 842), § 308-177-020, filed 6/30/89.]

WAC 246-822-040 Health care institutions. The chief administrator or executive officer or designee of any hospital or nursing home shall report to the department when any dietitian or nutritionist's services are terminated or are restricted based on a determination that the dietitian or nutritionist has either committed an act or acts which may constitute unprofessional conduct or that the dietitian or nutritionist may be unable to practice with reasonable skill or safety to clients by reason of a physical or mental condition.

[Statutory Authority: RCW 43.70.040. 91-02-049 (Order 121), recodified as § 246-822-040, filed 12/27/90, effective 1/31/91. Statutory Authority: RCW 18.130.070. 89-14-092 (Order PM 842), § 308-177-030, filed 6/30/89.]

WAC 246-822-050 Dietitian or nutritionist associations or societies. The president or chief executive officer of any dietitian or nutritionist association or society within this state shall report to the department when the association or society determines that a dietitian or nutritionist has committed unprofessional conduct or that a dietitian or nutritionist may not be able to practice dietetics or general nutrition services with reasonable skill and safety to clients as the result of any mental or physical condition. The report required by this section shall be made without regard to whether the certificate holder appeals, accepts, or acts upon the determination made by the association or society. Notification of appeal shall be included.

[Statutory Authority: RCW 43.70.040. 91-02-049 (Order 121), recodified as § 246-822-050, filed 12/27/90, effective 1/31/91. Statutory Authority: RCW 18.130.070. 89-14-092 (Order PM 842), § 308-177-040, filed 6/30/89.]

WAC 246-822-060 Health care service contractors and disability insurance carriers. The executive officer of every health care service contractor and disability insurer, licensed under chapters 48.20, 48.21, 48.21A, and 48.44 RCW, operating in the state of Washington shall report to the department all final determinations that a dietitian or nutritionist has engaged in fraud in billing for services.

[Statutory Authority: RCW 43.70.040. 91-02-049 (Order 121), recodified as § 246-822-060, filed 12/27/90, effective 1/31/91. Statutory Authority: RCW 18.130.070. 89-14-092 (Order PM 842), § 308-177-050, filed 6/30/89.]

WAC 246-822-070 Professional liability carriers. Every institution or organization providing professional liability insurance directly or indirectly to dietitians or nutritionists shall send a complete report to the department of any malpractice settlement, award, or payment in excess of twenty thousand dollars as a result of a claim or action for damages alleged to have been caused by an insured dietitian or nutritionist's incompetency or negligence in the practice of dietetics or general nutrition services. Such institution or organization shall also report the award, settlement, or payment of three or more claims during a twelve-month period as a result of the dietitian or nutritionist's alleged incompetence or negligence in the practice of dietetics or general nutrition services.

[Statutory Authority: RCW 43.70.040. 91-02-049 (Order 121), recodified as § 246-822-070, filed 12/27/90, effective 1/31/91. Statutory Authority: RCW 18.130.070. 89-14-092 (Order PM 842), § 308-177-060, filed 6/30/89.]

WAC 246-822-080 Courts. The department requests the assistance of the clerk of trial courts within the state to report all professional malpractice judgments and all convictions of dietitians or nutritionists, other than minor traffic violations.

[Statutory Authority: RCW 43.70.040. 91-02-049 (Order 121), recodified as § 246-822-080, filed 12/27/90, effective 1/31/91. Statutory Authority: RCW 18.130.070. 89-14-092 (Order PM 842), § 308-177-070, filed 6/30/89.]

WAC 246-822-090 State and federal agencies. The department requests the assistance of executive officers of any state or federal program operating in the state of Washington, under which a dietitian or nutritionist is employed to provide patient care services, to report to the department whenever such a dietitian or nutritionist has been judged to have demonstrated his/her incompetency or negligence in the

practice of dietetics or general nutrition services, or has otherwise committed unprofessional conduct, or is a mentally or physically disabled dietitian or nutritionist. These requirements do not supersede any federal or state law.

[Statutory Authority: RCW 43.70.040. 91-02-049 (Order 121), recodified as § 246-822-090, filed 12/27/90, effective 1/31/91. Statutory Authority: RCW 18.130.070. 89-14-092 (Order PM 842), § 308-177-080, filed 6/30/89.]

WAC 246-822-120 Application requirements. (1) Individuals applying for certification as a certified dietitian must submit:

(a) A completed application form with fee;

(b) Complete four clock hours of AIDS education as required in chapter 246-12 WAC, Part 8; and

(c) Verification of current registration status with the commission on dietetic registration.

(2) Individuals applying for certification as a certified dietitian who have not passed the required written examination or who are not registered with the commission on dietetic registration must:

(a) Provide transcripts forwarded directly from the issuing college or university showing completion of a baccalaureate degree or higher in a major course of study in human nutrition, foods and nutrition, dietetics, or food management;

(b) Provide evidence of completion of a continuous preprofessional experience or coordinated undergraduate program in dietetics under the supervision of a qualified supervisor;

(c) Take and pass the required written examination; and

(d) Complete four clock hours of AIDS education as required in chapter 246-12 WAC, Part 8.

(3) Individuals applying for certification as a certified nutritionist must submit:

(a) A completed application form with fee; and

(b) Documentation that the applicant meets the application requirements for certified dietitians, as set forth in subsection (1) or (2) of this section; or

(c) Transcripts forwarded directly from the issuing college or university showing completion of a masters or doctorate degree in one of the following subject areas: Human nutrition, nutrition education, foods and nutrition, or public health nutrition; and

(d) Complete four clock hours of AIDS education as required in chapter 246-12 WAC, Part 8.

WAC 246-822-130 Nutritionist minimum core curriculum. Training for certified nutritionist should include coursework at the collegiate level or equivalent in the following areas:

(1) Basic science - Which should include courses in one or more of the following:

(a) Physiology.

(b) Biochemistry.

(2) Foods - Which should include courses in one or more of the following:

(a) Selection.

(b) Composition.

(c) Food science.

(3) Nutritional science.

(4) Applied nutrition - Which should include courses in one or more of the following:

(a) Diet therapy.

(b) Nutrition of the life cycle.

(c) Cultural/anthropological nutrition.

(d) Public health nutrition.

(5) Counseling/education - Which should include courses in one or more of the following:

(a) Psychological counseling.

(b) Educational psychology.

(c) Communication.

(d) Psychology.

(e) Education.

[Statutory Authority: RCW 43.70.040. 91-02-049 (Order 121), recodified as § 246-822-130, filed 12/27/90, effective 1/31/91. Statutory Authority: RCW 18.138.070. 89-17-071, § 308-177-130, filed 8/16/89, effective 9/16/89; 89-03-035 (Order PM 814), § 308-177-130, filed 1/11/89.]

WAC 246-822-150 Examinations. (1) A written examination will be given at least once annually to qualified applicants at a time and place determined by the secretary.

(2) Applications must be received sixty days in advance of the scheduled examination.

(3) Applicants who fail the examination shall submit the appropriate fee for reexamination.

[Statutory Authority: RCW 18.138.070, 18.130.050 and 18.130.070. 92-02-018 (Order 224), § 246-822-150, filed 12/23/91, effective 1/23/92. Chapter 246-824 WAC
DISPENSING OPTICIANS

WAC

WAC 246-824-010 Definitions. (1) "Secretary" means the secretary of the department of health.

(2) "Primary supervisor" is a physician licensed under chapter 18.57 or 18.71 RCW, an optometrist licensed under chapter 18.53 RCW, or a dispensing optician licensed under chapter 18.34 RCW, who is responsible for the acts of the apprentice and provides the majority of the training and direct supervision received by the apprentice.

(3) "One year of apprenticeship" is 2,000 hours of training under the supervision of a licensed physician, optometrist or dispensing optician.

(4) "Direct supervision" means the supervising optometrist, physician, or dispensing optician shall:

(a) Inspect a substantial portion of the apprentice's work;

(b) Be physically present on the premises where the apprentice is working and available for consultation with the apprentice a minimum of 80% of the time claimed as apprenticeship training; and

(c) When fitting or adjusting contact lenses, "direct supervision" means the supervising optician, optometrist, or physician inspect all the apprentice's work and be physically present on the premises at all times.

[Statutory Authority: RCW 18.34.070, 43.70.040. 02-18-025, § 246-824-010, filed 8/23/02, effective 9/23/02. Statutory Authority: RCW 43.70.040. 91-02-049 (Order 121), recodified as § 246-824-010, filed 12/27/90, effective 1/31/91. Statutory Authority: RCW 18.04.040. 78-07-073 (Order PL-289), § 308-26-005, filed 6/30/78; Order PL-106, § 308-26-005, filed 2/2/71.]

WAC 246-824-020 Registration of apprentices. (1) The primary supervisor shall apply for registration of an apprentice on forms provided by the secretary.

(2) Separate registrations shall be required if an individual receives his or her apprenticeship training from more than one primary supervisor.

(3) Once registered by the primary supervisor, the apprentice may thereafter, at the business or place of employment of the primary supervisor, receive training and direct supervision from a physician, optometrist or dispensing optician. No physician, optometrist or dispensing optician may have more than two apprentices in training or under their direct supervision at any one time.

(4) Only the apprenticeship training received subsequent to the date the apprentice was formally registered with the secretary will be credited toward the required 6,000 apprenticeship hours. No apprentice may engage in the work of a dispensing optician unless formally registered as an apprentice with the secretary. An apprentice must complete his or her apprenticeship training in no less than three or no more than six years.

(5) An individual registered by the Washington State Apprenticeship and Training Council or other similar program with substantially equivalent standards administered by an agency of the state of Washington may have dispensing optician training hours credited toward the required 6,000 apprenticeship hours, if:

(a) The program is approved by the secretary;

(b) The apprentice received training and direct supervision from a licensed physician, optometrist or dispensing optician; and

(c) The apprentice is formally registered as an apprentice with the secretary by the licensed physician, optometrist or dispensing optician who has provided or does provide the supervision referred to in (b) of this subsection.

(6) The primary supervisor and registered apprentice shall maintain a record of all apprenticeship hours. This record shall be verified by initial of both the primary supervisor and apprentice and shall be available upon request by the secretary or secretary's designee.

(7) The primary supervisor shall notify the secretary whenever the apprenticeship training is terminated and provide the total number of apprenticeship hours accumulated during the training period.

[Statutory Authority: RCW 18.34.070, 43.70.040. 02-18-025, § 246-824-020, filed 8/23/02, effective 9/23/02. Statutory Authority: RCW 43.70.280. 98-05-060, § 246-824-020, filed 2/13/98, effective 3/16/98. Statutory Authority: RCW 43.17.060 and 18.130.070. 91-09-024 (Order 155), § 246-824-020, filed 4/10/91, effective 5/11/91. Statutory Authority: RCW 43.70.040. 91-02-049 (Order 121), recodified as § 246-824-020, filed 12/27/90, effective 1/31/91; Order PL 241, § 308-26-010, filed 2/26/76; Order PL-106, § 308-26-010, filed 2/2/71.]

WAC 246-824-030 Comments. In order to facilitate comments on the apprentice's performance, the name, business address and business telephone number of the departmental supervisor or the supervising optician, optometrist or physician shall be posted in public view on the premises where the apprentice works.

[Statutory Authority: RCW 43.70.040. 91-02-049 (Order 121), recodified as § 246-824-030, filed 12/27/90, effective 1/31/91. Statutory Authority: RCW 18.04.040. 78-07-073 (Order PL-289), § 308-26-011, filed 6/30/78.]

WAC 246-824-040 Application for examination. (1) An individual shall make application for examination, in accordance with RCW 18.34.070, on an application form prepared and provided by the secretary.

(2) The apprenticeship training requirement shall be supported with certification by the licensed individual (or individuals) who provided such training.

(3) If an applicant is unable to attend his or her scheduled examination, and so notifies the secretary in writing at least 7 days prior to the scheduled examination date, the applicant will be rescheduled at no additional charge. Otherwise, the fee will be forfeited. (Emergencies considered.)

(4) If an applicant takes the examination and fails to obtain a satisfactory grade, he or she may be scheduled to retake the examination by submitting an application and paying the statutory examination fee.

(5) Applications and fees for examination and all documents required in support of the application must be submitted to the division of professional licensing, department of health, at least sixty days prior to the scheduled examination. Failure to meet the deadline will result in the applicant not being scheduled until the next scheduled examination.

(6) Apprenticeship training shall be completed prior to the application deadline.

[Statutory Authority: RCW 43.70.280. 98-05-060, § 246-824-040, filed 2/13/98, effective 3/16/98. Statutory Authority: RCW 43.70.250. 93-14-011, § 246-824-040, filed 6/24/93, effective 7/25/93. Statutory Authority: RCW 43.70.040 and chapter 18.34 RCW. 92-02-018 (Order 224), § 246-824-040, filed 12/23/91, effective 1/23/92. Statutory Authority: RCW 43.70.040. 91-02-049 (Order 121), recodified as § 246-824-040, filed 12/27/90, effective 1/31/91. Statutory Authority: RCW 18.34.040 and 18.34.080. 84-08-019 (Order PL 464), § 308-26-015, filed 3/27/84; Order PL-106, § 308-26-015, filed 2/2/71.]

WAC 246-824-050 Approval of prescribed courses in opticianry. The secretary, pursuant to RCW 18.34.070, hereby adopts the accreditation standards of the Commission on Opticianry Accreditation, "Essentials of an Accredited Educational Program for Ophthalmic Dispensers," as adopted by the Commission on Opticianry Accreditation on July 1, 1990. The secretary approves all and only those institutions accredited by, and in good standing with, the Commission on Opticianry Accreditation in accordance with these accreditation standards as of July 1, 1990. Institutions approved by the secretary which have not been accredited by the Commission on Opticianry Accreditation are hereby required to obtain such accreditation on or before September 30, 1992. Graduates from institutions that have not received accreditation from the Commission on Opticianry Accreditation by that date will not be eligible to sit for the examination.

It is the responsibility of a student to ascertain whether or not a school has been approved by the secretary.

[Statutory Authority: RCW 43.17.060 and 18.130.070. 91-21-028 (Order 197), § 246-824-050, filed 10/8/91, effective 11/8/91. Statutory Authority: RCW 43.70.040. 91-02-049 (Order 121), recodified as § 246-824-050, filed 12/27/90, effective 1/31/91. Statutory Authority: RCW 18.34.040 and 18.34.070(5). 80-01-070 (Order 327), § 308-26-016, filed 12/21/79.]

WAC 246-824-060 Dispensing optician examination. (1) Every qualified applicant shall pass an examination with a score of at least seventy percent in each of the three examination sections: Written contact lenses, written basic optical concepts to include anatomy and physiology, and practical. Subject to subsection (2), any applicant obtaining a score of less than 70% in any section will only be required to retake the section(s) in which a grade of less than 70% was obtained.

(2) Applicants failing an examination section may retake the section(s) failed at the next scheduled examination. Failure to pass the entire examination after three consecutive regularly scheduled examinations (emergencies may be considered) shall require reexamination on all three sections.

[Statutory Authority: RCW 43.70.040. 91-02-049 (Order 121), recodified as § 246-824-060, filed 12/27/90, effective 1/31/91. Statutory Authority: RCW 18.34.040 and 18.34.080. 84-08-019 (Order PL 464), § 308-26-017, filed 3/27/84. Statutory Authority: RCW 18.34.080. 82-11-056 (Order PL 397), § 308-26-017, filed 5/13/82.]

WAC 246-824-065 Duties and responsibilities of the dispensing optician examining committee. The dispensing optician examining committee shall meet at such times as deemed necessary by the secretary to prepare and administer the state's licensing examinations and to provide technical expertise, advise, and make recommendations to the secretary on the administration of the dispensing optician statute.

[Statutory Authority: RCW 43.17.060 and 18.130.070. 91-21-028 (Order 197), § 246-824-065, filed 10/8/91, effective 11/8/91.]

WAC 246-824-070 Examination appeal procedures. (1) Any candidate who does not pass the examination may request informal review of his or her examination results by the dispensing optician examining committee. This request must be in writing and must be received by the department within thirty days of receipt of the examination results. The committee will not set aside its prior determination unless the candidate shows error in examination content or procedure, or bias, prejudice, or discrimination in the examination process. The committee will not consider any challenges to examination scores unless the total revised score on any examination section would result in a passing score on that section of the examination.

(2) The procedure for filing an informal review is as follows:

(a) Contact the department of health office in Olympia for an appointment to appear personally to review incorrect answers on the written portion of failed examination, and score sheets on the failed practical portion of the examination.

(b) The candidate will be provided a form to complete in the department of health office in Olympia in defense of examination answers.

(c) The candidate must specifically identify the challenged portion(s) of the examination and must state the specific reason or reasons why the candidate feels the results of the examination should be changed.

(3) Any candidate who is not satisfied with the result of the informal examination review may submit a request for a formal hearing to be held before the dispensing optician examining committee. This request must be in writing and must be received by the department within thirty days of receipt of the results of the committee's informal examination review. The written request must specifically identify the challenged portion(s) of the examination and must state the specific reason(s) why the candidate feels the results of the examination should be changed. The examining committee will not set aside its prior determination unless the candidate shows error in examination content or procedure, or bias, prejudice, or discrimination in the examination process. The committee will not consider any challenges to examination scores unless the total revised score on any individual examination section would result in a passing score on that section of the examination.

(4) The formal hearing will be held pursuant to the Administrative Procedure Act, chapter 34.05 RCW, and the model procedural rules for adjudicative proceeding of the department of health, chapter 246-10 WAC.

[Statutory Authority: RCW 18.34.070, 43.70.040. 02-18-025, § 246-824-070, filed 8/23/02, effective 9/23/02. Statutory Authority: RCW 43.70.040 and chapter 18.34 RCW. 92-02-018 (Order 224), § 246-824-070, filed 12/23/91, effective 1/23/92. Statutory Authority: RCW 43.70.040. 91-02-049 (Order 121), recodified as § 246-824-070, filed 12/27/90, effective 1/31/91. Statutory Authority: RCW 43.24.060. 87-22-019 (Order PM 688), § 308-26-025, filed 10/27/87.]

WAC 246-824-071 Licensure by endorsement. (1) A license to practice as a dispensing optician may be issued without examination to an individual who is currently licensed in another state that has licensing standards substantially equivalent to those currently applicable in Washington state.

(2) The department will issue a license by endorsement upon receipt of:

(a) A completed application and application fee;

(b) The applicant will provide documentation from the state in which the applicant is currently licensed sufficient to establish that the state's licensing standards are substantially equivalent to the licensing standards currently applicable in Washington state;

(c) A completed open-book state law questionnaire;

(d) Documentation of completion of four clock hours of AIDS education as required in chapter 246-12 WAC, Part 8;

(e) Verification from all states in which the applicant has ever held a license, whether active or inactive, indicating that the applicant is not subject to charges or disciplinary action for unprofessional conduct or impairment.

(3) If licensure by endorsement is not granted, and the applicant is otherwise qualified for the licensing examination, he or she may apply for licensure by examination in accordance with RCW 18.34.070 and WAC 246-824-040.

(4) Endorsement application fees may be applied towards the examination fee if licensure by endorsement is not granted.

[Statutory Authority: RCW 18.34.070, 43.70.040. 02-18-025, § 246-824-071, filed 8/23/02, effective 9/23/02. Statutory Authority: RCW 43.70.280. 98-05-060, § 246-824-071, filed 2/13/98, effective 3/16/98. Statutory Authority: RCW 43.70.250. 93-14-011, § 246-824-071, filed 6/24/93, effective 7/25/93.]

WAC 246-824-072 Temporary permits. Eligibility requirements for temporary permits are the same for licensure by endorsement (WAC 246-824-071), therefore, no temporary permits will be issued. Individuals inquiring about temporary permits will be given information and an application for licensure by endorsement.

[Statutory Authority: RCW 43.70.250. 93-14-011, § 246-824-072, filed 6/24/93, effective 7/25/93.]

WAC 246-824-073 Retired active credential. A practitioner may obtain a retired active credential. Refer to the requirements of chapter 246-12 WAC, Part 5.

[Statutory Authority: RCW 43.70.280. 98-05-060, § 246-824-073, filed 2/13/98, effective 3/16/98. Statutory Authority: RCW 43.70.250. 93-14-011, § 246-824-073, filed 6/24/93, effective 7/25/93.]

WAC 246-824-074 Inactive credential. A practitioner may obtain an inactive credential. Refer to the requirements of chapter 246-12 WAC, Part 4.

[Statutory Authority: RCW 43.70.280. 98-05-060, § 246-824-074, filed 2/13/98, effective 3/16/98.]

WAC 246-824-075 Continuing education requirements for dispensing opticians. Purpose and scope. The purpose of these requirements is to ensure the continued high quality of services provided by the licensed dispensing optician. Continuing education consists of educational activities designed to review existing concepts and techniques and conveys information and knowledge about advances in the field of opticianry, so as to keep the licensed dispensing opticians abreast of current and forecasted developments in a rapidly changing field.

(1) Basic requirements. Licensed dispensing opticians must complete thirty hours of continuing education every three years as required in chapter 246-12 WAC, Part 7.

(2) Fifteen of the credit hours must relate to contact lenses.

(3) Qualification of program for continuing education credit. Courses offered by the organizations and methods listed in this section will be presumed to qualify as continuing education courses. The secretary reserves the authority to refuse to accept credits in any course if the secretary determines that the course did not provide information sufficient

in amount or relevancy to opticianry. Qualifying organizations and methods for the purposes of this section shall include in-class training, correspondence courses, video and/or audio tapes offered by any of the following:

(a) American board of opticianry;

(b) National academy of opticianry;

(c) Optical laboratories association;

(d) National contact lens examiners;

(e) Pacific coast contact lens society;

(f) Contact lens society of America;

(g) Opticians association of Washington;

(h) Opticianry colleges or universities approved by the secretary;

(i) Speakers sponsored by any of the above organizations;

(j) Any state or national opticianry association; and

(k) Additional qualifying organizations or associations as approved by the secretary.

[Statutory Authority: RCW 43.70.280. 98-05-060, § 246-824-075, filed 2/13/98, effective 3/16/98. Statutory Authority: RCW 43.17.060 and 18.130.070. 91-09-024 (Order 155), § 246-824-075, filed 4/10/91, effective 5/11/91.]

WAC 246-824-080 General provisions. (1) "Unprofessional conduct" as used in this chapter shall mean the conduct described in RCW 18.130.180.

(2) "Hospital" means any health care institution licensed pursuant to chapter 70.41 RCW.

(3) "Nursing home" means any health care institution which comes under chapter 18.51 RCW.

(4) "Department" means the department of health, whose address is:

Department of Health
Professional Licensing Services
1300 S.E. Quince St.
Olympia, Washington 98504

(5) "Dispensing optician" means a person licensed pursuant to chapter 18.34 RCW.

(6) "Mentally or physically disabled dispensing optician" means a dispensing optician who is currently mentally incompetent or mentally ill as determined by a court, or who is unable to practice dispensing with reasonable skill and safety to patients by reason of any mental or physical condition and who continues to practice while so impaired.

[Statutory Authority: RCW 43.17.060 and 18.130.070. 91-09-024 (Order 155), § 246-824-080, filed 4/10/91, effective 5/11/91. Statutory Authority: RCW 43.70.040. 91-02-049 (Order 121), recodified as § 246-824-080, filed 12/27/90, effective 1/31/91. Statutory Authority: RCW 18.130.070. 89-14-092 (Order PM 842), § 308-26-055, filed 6/30/89.]

WAC 246-824-090 Mandatory reporting. (1) All reports required by this chapter shall be submitted to the department as soon as possible, but no later than twenty days after a determination is made.

(2) A report should contain the following information if known:

(a) The name, address, and telephone number of the person making the report.

(b) The name and address and telephone numbers of the dispensing optician being reported.

(c) The case number of any patient whose treatment is a subject of the report.

(d) A brief description or summary of the facts which gave rise to the issuance of the report, including dates of occurrences.

(e) If court action is involved, the name of the court in which the action is filed along with the date of filing and docket number.

(f) Any further information which would aid in the evaluation of the report.

(3) Mandatory reports shall be exempt from public inspection and copying to the extent permitted under RCW 42.17.310 or to the extent that public inspection or copying of the report or any portion of the report would invade or violate a person's right to privacy as set forth in RCW 42.17.255.

(4) A person is immune from civil liability, whether direct or derivative, for providing information to the department pursuant to RCW 18.130.070.

[Statutory Authority: RCW 43.70.040. 91-02-049 (Order 121), recodified as § 246-824-090, filed 12/27/90, effective 1/31/91. Statutory Authority: RCW 18.130.070. 89-14-092 (Order PM 842), § 308-26-065, filed 6/30/89.]

WAC 246-824-100 Health care institutions. The chief administrator or executive officer of any hospital or nursing home or their designee shall report to the department when any dispensing optician's services are terminated or are restricted based on a determination that the dispensing optician has either committed an act or acts which may constitute unprofessional conduct or that the dispensing optician may be unable to practice with reasonable skill or safety to clients by reason of any mental or physical condition.

[Statutory Authority: RCW 43.70.040. 91-02-049 (Order 121), recodified as § 246-824-100, filed 12/27/90, effective 1/31/91. Statutory Authority: RCW 18.130.070. 89-14-092 (Order PM 842), § 308-26-075, filed 6/30/89.]

WAC 246-824-110 Dispensing optician associations or societies. The president or chief executive officer of any dispensing optician association or society within this state shall report to the department when the association or society determines that a dispensing optician has committed unprofessional conduct or that a dispensing optician may not be able to practice dispensing of optical goods with reasonable skill and safety to clients as the result of any mental or physical condition. The report required by this section shall be made without regard to whether the license holder appeals, accepts, or acts upon the determination made by the association or society. Notification of appeal shall be included.

[Statutory Authority: RCW 43.70.040. 91-02-049 (Order 121), recodified as § 246-824-110, filed 12/27/90, effective 1/31/91. Statutory Authority: RCW 18.130.070. 89-14-092 (Order PM 842), § 308-26-085, filed 6/30/89.]

WAC 246-824-120 Health care service contractors and disability insurance carriers. The executive officer of every health care service contractor and disability insurer, licensed under chapters 48.20, 48.21, 48.21A, and 48.44 RCW, operating in the state of Washington shall report to the department all final determinations that a dispensing optician has engaged in fraud in billing for services.

[Statutory Authority: RCW 43.70.040. 91-02-049 (Order 121), recodified as § 246-824-120, filed 12/27/90, effective 1/31/91. Statutory Authority: RCW 18.130.070. 89-14-092 (Order PM 842), § 308-26-095, filed 6/30/89.]

WAC 246-824-130 Professional liability carriers. Every institution or organization providing professional liability insurance directly or indirectly to dispensing opticians shall send a complete report to the department of any malpractice settlement, award, or payment in excess of twenty thousand dollars as a result of a claim or action for damages alleged to have been caused by an insured dispensing optician's incompetency or negligence in the practice of opticianry. Such institution or organization shall also report the award, settlement, or payment of three or more claims during a twelve-month period as a result of the dispensing optician's alleged incompetence or negligence.

[Statutory Authority: RCW 43.70.040. 91-02-049 (Order 121), recodified as § 246-824-130, filed 12/27/90, effective 1/31/91. Statutory Authority: RCW 18.130.070. 89-14-092 (Order PM 842), § 308-26-105, filed 6/30/89.]

WAC 246-824-140 Courts. The department requests the assistance of the clerk of trial courts within the state to report all professional malpractice judgments and all convictions of licensed dispensing opticians, other than minor traffic violations.

[Statutory Authority: RCW 43.70.040. 91-02-049 (Order 121), recodified as § 246-824-140, filed 12/27/90, effective 1/31/91. Statutory Authority: RCW 18.130.070. 89-14-092 (Order PM 842), § 308-26-115, filed 6/30/89.]

WAC 246-824-150 State and federal agencies. The department requests the assistance of executive officers of any state or federal program operating in the state of Washington, under which a dispensing optician is employed to provide client care services, to report to the department whenever such a dispensing optician has been judged to have demonstrated his/her incompetency or negligence in the practice of opticianry, or has otherwise committed unprofessional conduct, or is a mentally or physically disabled dispensing optician. These requirements do not supersede any federal or state law.

[Statutory Authority: RCW 43.70.040. 91-02-049 (Order 121), recodified as § 246-824-150, filed 12/27/90, effective 1/31/91. Statutory Authority: RCW 18.130.070. 89-14-092 (Order PM 842), § 308-26-125, filed 6/30/89.]

WAC 246-824-160 Cooperation with investigation. (1) A licensee must comply with a request for records, documents, or explanation from an investigator who is acting on behalf of the secretary of the department of health by submitting the requested items within fourteen calendar days of receipt of the request by either the licensee or their attorney, whichever is first. If the licensee fails to comply with the request within fourteen calendar days, the investigator will contact that individual or their attorney by telephone or letter as a reminder.

(2) Investigators may extend the time for response if the request for extension does not exceed seven calendar days. Any other requests for extension of time may be granted by the secretary or the secretary's designee.

(3) If the licensee fails to comply with the request within three business days after receiving the reminder, a subpoena will be served to obtain the requested items. A statement of charges may be issued pursuant to RCW 18.130.180(8) for failure to cooperate. If there is sufficient evidence to support additional charges, those charges may be included in the statement of charges.

(4) If the licensee complies with the request after the issuance of the statement of charges, the secretary or the secretary's designee will decide if the charges will be prosecuted or settled. If the charges are to be settled the settlement proposal will be negotiated by the secretary's designee. Settlements are not considered final until the secretary signs the settlement agreement.

[Statutory Authority: RCW 43.70.040, 18.130.050, 18.130.070 and chapter 18.34 RCW. 92-02-018 (Order 224), § 246-824-160, filed 12/23/91, effective 1/23/92. Statutory Authority: RCW 43.70.040. 91-02-049 (Order 121), recodified as § 246-824-160, filed 12/27/90, effective 1/31/91. Statutory Authority: RCW 18.130.070. 89-14-092 (Order PM 842), § 308-26-135, filed 6/30/89.]

WAC 246-824-170 AIDS prevention and information education requirements. Applicants must complete four clock hours of AIDS education as required in chapter 246-12 WAC, Part 8.

[Statutory Authority: RCW 43.70.280. 98-05-060, § 246-824-170, filed 2/13/98, effective 3/16/98. Statutory Authority: RCW 43.70.040, 70.24.270 and chapter 18.34 RCW. 92-02-018 (Order 224), § 246-824-170, filed 12/23/91, effective 1/23/92. Statutory Authority: RCW 43.70.040. 91-02-049 (Order 121), recodified as § 246-824-170, filed 12/27/90, effective 1/31/91. Statutory Authority: RCW 70.24.270. 88-22-077 (Order PM 786), § 308-26-200, filed 11/2/88.]

WAC 246-824-220 Retention of contact lens records. Dispensing opticians shall maintain contact lens records for a minimum of five years. Such records shall include:

(1) The written prescription;

(2) Base curve (posterior radius of curvature);

(3) Thickness when applicable;

(4) Secondary/peripheral curve, when applicable;

(5) Power of lens dispensed;

(6) Lens material, brand name and/or manufacturer;

(7) Diameter, when applicable;

(8) Suggested wearing schedule and care regimen;

(10) Color, when applicable;

[Statutory Authority: RCW 18.130.070, 43.17.060 and 43.70.040. 94-06-047, § 246-824-220, filed 3/1/94, effective 4/1/94.]

WAC 246-824-230 Minimum fitting equipment. Dispensing opticians shall have direct access to the following equipment while fitting contact lenses: Slitlamp or biomicroscope (for evaluation of the fit only), radioscope, diameter gauge, thickness gauge, lensometer, and keratometer.

[Statutory Authority: RCW 18.130.070, 43.17.060 and 43.70.040. 94-06-047, § 246-824-230, filed 3/1/94, effective 4/1/94.]

WAC 246-824-990 Dispensing optician fees and renewal cycle. (1) Licenses must be renewed every year on the practitioner's birthday as provided in chapter 246-12 WAC, Part 2.

(2) The following nonrefundable fees will be charged:

Title of Fee	Fee
Optician:	
Full examination (or reexamination)	$200.00
Reexamination—Practical only	50.00
Reexamination—Written (basic) only	25.00
Reexamination—Written (contact lens) only	25.00
Renewal	125.00
Late renewal penalty	75.00
Expired license reissuance	62.50
Duplicate license	15.00
Certification of license	15.00
Apprentice registration	75.00
Endorsement application	100.00
Inactive license	35.00

[Statutory Authority: RCW 43.70.280. 98-05-060, § 246-824-990, filed 2/13/98, effective 3/16/98. Statutory Authority: RCW 43.70.250. 94-08-078, § 246-824-990, filed 4/5/94, effective 5/6/94; 93-14-011, § 246-824-990, filed 6/24/93, effective 7/25/93. Statutory Authority: RCW 43.70.040, 43.70.250 and chapter 18.34 RCW. 92-02-018 (Order 224), § 246-824-990, filed 12/23/91, effective 1/23/92. Statutory Authority: RCW 43.70.040. 91-02-049 (Order 121), recodified as § 246-824-990, filed 12/27/90, effective 1/31/91. Statutory Authority: RCW 43.24.086. 87-10-028 (Order PM 650), § 308-26-045, filed 5/1/87.]

WAC 246-824-995 Conversion to a birthday renewal cycle. (1) The annual license renewal date is changed to coincide with the practitioner's birthday.

(2) Renewal fees will be prorated during the transition period while renewal dates are changed to coincide with the practitioner's birthday.

(3) After the initial conversion to a staggered system, practitioners will annually renew their license on their birthday at the current renewal rate.

[Statutory Authority: RCW 43.70.280. 98-05-060, § 246-824-995, filed 2/13/98, effective 3/16/98.]

Chapter 246-826 WAC
HEALTH CARE ASSISTANTS

WAC

WAC 246-826-020 Delegation of functions to health care assistants. The authority to perform the functions authorized in chapter 18.135 RCW may only be personally delegated from one individual (the delegator) to another individual (the delegatee). The delegator can only delegate those functions that he or she can order within the scope of his or her license. A licensee who is performing a function at or under the direction of another may not further delegate that function. Functions may not be delegated unless a completed and current certification/delegation form is on file with the department of health.

[Statutory Authority: RCW 18.135.030. 92-02-018 (Order 224), § 246-826-020, filed 12/23/91, effective 1/23/92. Statutory Authority: RCW 43.70.040. 91-02-049 (Order 121), recodified as § 246-826-020, filed 12/27/90, effective 1/31/91. Statutory Authority: RCW 18.135.030. 85-06-018 (Order PL 515), § 308-175-010, filed 2/25/85.]

WAC 246-826-030 Supervision of health care assistants. A health care assistant may be supervised by either the practitioner who delegated the act or by a practitioner who could order the act under his or her own license. The practitioner who is supervising the health care assistant must be physically present and immediately available in the facility during the administration of injections. The supervising practitioner need not be present during procedures to withdraw blood.

[Statutory Authority: RCW 43.70.040. 91-02-049 (Order 121), recodified as § 246-826-030, filed 12/27/90, effective 1/31/91. Statutory Authority: RCW 18.135.030. 85-06-018 (Order PL 515), § 308-175-020, filed 2/25/85.]

WAC 246-826-040 Certification of health care assistants. Health care assistants' certification is valid for two years. The delegating practitioner or health care facility is responsible for certifying or recertifying health care assistants. An updated recertification form must be submitted if a health care assistant is to be delegated functions by a practitioner other than the delegating practitioner indicated on his or her delegation/certification form.

[Statutory Authority: RCW 18.135.030. 92-02-018 (Order 224), § 246-826-040, filed 12/23/91, effective 1/23/92. Statutory Authority: RCW 43.70.040. 91-02-049 (Order 121), recodified as § 246-826-040, filed 12/27/90, effective 1/31/91. Statutory Authority: RCW 18.135.030. 85-06-018 (Order PL 515), § 308-175-030, filed 2/25/85.]

WAC 246-826-050 Renewal of health care assistants. Updated certification/delegation forms must be submitted within two years from the date of the most recent certification on file with the department of health. It is the responsibility of every health care facility and health care practitioner who certifies health care assistants to submit the renewal forms and fees on or before certification expiration date.

[Statutory Authority: RCW 43.70.280. 98-05-060, § 246-826-050, filed 2/13/98, effective 3/16/98. Statutory Authority: RCW 18.135.030. 92-02-018 (Order 224), § 246-826-050, filed 12/23/91, effective 1/23/92. Statutory Authority: RCW 43.70.040. 91-02-049 (Order 121), recodified as § 246-826-050, filed 12/27/90, effective 1/31/91. Statutory Authority: RCW 18.135.030. 87-23-022 (Order PM 689), § 308-175-040, filed 11/12/87; 85-06-018 (Order PL 515), § 308-175-040, filed 2/25/85.]

WAC 246-826-060 Department of health responsibilities. The department of health will maintain files with regard to certification of health care assistants and delegation of functions. Department of health will not approve training programs.

[Statutory Authority: RCW 18.135.030. 92-02-018 (Order 224), § 246-826-060, filed 12/23/91, effective 1/23/92. Statutory Authority: RCW 43.70.040. 91-02-049 (Order 121), recodified as § 246-826-060, filed 12/27/90, effective 1/31/91. Statutory Authority: RCW 18.135.030. 87-23-022 (Order PM 689), § 308-175-050, filed 11/12/87; 85-06-018 (Order PL 515), § 308-175-050, filed 2/25/85.]

WAC 246-826-070 Maintenance of listing of drugs and functions authorized. Each delegator must maintain a list of the specific medications/diagnostic agents and the route of administration of each that he or she has authorized for injection. Both the delegator and the delegatee shall sign the above list, indicating the date of each signature. The signed list shall be available for review by the secretary of the department of health or his/her designee.

[Statutory Authority: RCW 18.135.030. 92-02-018 (Order 224), § 246-826-070, filed 12/23/91, effective 1/23/92. Statutory Authority: RCW 43.70.040. 91-02-049 (Order 121), recodified as § 246-826-070, filed 12/27/90, effective 1/31/91. Statutory Authority: RCW 18.135.030. 85-06-018 (Order PL 515), § 308-175-060, filed 2/25/85.]

WAC 246-826-080 Medication and diagnostic agent list. The list of specific medications, diagnostic agents, and the route of administration of each that has been authorized for injection pursuant to RCW 18.135.065 shall be submitted to the secretary at the time of initial certification registration and again with every recertification registration. If any changes occur which alter the list, a new list with the delegator and delegatee's signatures must be submitted to the department within thirty days of the change. All submitted lists will be maintained in the department of health filed under the name of the certifying practitioner or facility and shall be available for review.

[Statutory Authority: RCW 18.135.030. 92-02-018 (Order 224), § 246-826-080, filed 12/23/91, effective 1/23/92. Statutory Authority: RCW 43.70.040. 91-02-049 (Order 121), recodified as § 246-826-080, filed 12/27/90, effective 1/31/91. Statutory Authority: RCW 18.135.030. 87-23-022 (Order PM 689), § 308-175-065, filed 11/12/87.]

WAC 246-826-090 Decertification or disciplinary actions. Any proceeding taken pursuant to these rules or chapter 18.135 RCW by the department of health, by the licensing authority of health care facilities or by the disciplinary board of the delegating or supervising health care practitioner shall be pursuant to the provisions of the Administrative Procedure Act, chapter 34.05 RCW.

[Statutory Authority: RCW 18.135.030 and 34.05.220. 92-02-018 (Order 224), § 246-826-090, filed 12/23/91, effective 1/23/92. Statutory Authority: RCW 43.70.040. 91-02-049 (Order 121), recodified as § 246-826-090, filed 12/27/90, effective 1/31/91. Statutory Authority: RCW 18.135.030. 85-06-018 (Order PL 515), § 308-175-070, filed 2/25/85.]

WAC 246-826-100 Health care assistant classification. Effective December 2001, there are seven categories of health care assistants:

(1) Category A assistants may perform venous and capillary invasive procedures for blood withdrawal.

(2) Category B assistants may perform arterial invasive procedures for blood withdrawal.

(3) Category C assistants may perform intradermal, subcutaneous and intramuscular injections for diagnostic agents and administer skin tests.

(4) Category D assistants may perform intravenous injections for diagnostic agents.

(5) Category E assistants may perform intradermal, subcutaneous and intramuscular injections for therapeutic agents and administer skin tests.

(6) Category F assistants may perform intravenous injections for therapeutic agents.

(7) Category G assistants may perform hemodialysis.

[Statutory Authority: RCW 18.135.030 and 18.135.020. 02-06-115, § 246-826-100, filed 3/6/02, effective 4/6/02. Statutory Authority: RCW 43.70.040. 91-02-049 (Order 121), recodified as § 246-826-100, filed 12/27/90, effective 1/31/91. Statutory Authority: RCW 18.135.030. 87-23-022 (Order PM 689), § 308-175-075, filed 11/12/87.]

WAC 246-826-110 Qualified trainer. Qualified trainers for health care assistant trainees are:

(1) Delegator with a minimum of two years of current experience (within the last five years) in the appropriate category in which they are providing the training.

(2) Delegatee from the appropriate category of health care assistants who has a minimum of two years experience obtained within the last five years in the appropriate procedures.

(3) Licensed nurses who meet the educational and experiential criteria for the appropriate category.

[Statutory Authority: RCW 43.70.040. 91-02-049 (Order 121), recodified as § 246-826-110, filed 12/27/90, effective 1/31/91. Statutory Authority: RCW 18.135.030. 87-23-022 (Order PM 689), § 308-175-085, filed 11/12/87.]

WAC 246-826-120 Provision of health care assistants training. The training of health care assistants may be provided either:

(1) Under a licensed physician, osteopathic physician, podiatrist or certified registered nurse with prescriptive authorization, who shall ascertain the proficiency of the health care assistant; or under a registered nurse, physician's assistant, osteopathic physician's assistant, health care assistant, or LPN acting under the direction of a licensed physician, osteopathic physician, podiatrist or certified registered nurse with prescriptive authorization who shall be responsible for determining the content of the training and for ascertaining the proficiency of the health care assistant; or

(2) In a training program provided by a post-secondary institution registered with the Washington state council for post- secondary education, or a community college approved by the Washington state board for community college education, or a vocational education program approved by the superintendent of public instruction, or in a private vocational school registered with the Washington state commission on vocational education, or in a program or post-secondary institution accredited by an accrediting agency recognized by the U.S. Department of Education.

[Statutory Authority: RCW 43.70.040. 91-02-049 (Order 121), recodified as § 246-826-120, filed 12/27/90, effective 1/31/91. Statutory Authority: RCW 18.135.030. 87-23-022 (Order PM 689), § 308-175-090, filed 11/12/87; 85-06-018 (Order PL 515), § 308-175-090, filed 2/25/85.]

WAC 246-826-130 Category A minimum requirements. Effective September 1, 1988, Category A assistants shall meet all of the following minimum requirements:

(1) Educational and occupational qualifications to perform venous and capillary invasive procedures for blood withdrawal:

(a) High school education or its equivalent;

(b) The ability to read, write, and converse in the English language; and

(c) Adequate physical ability, including sufficient manual dexterity to perform the requisite health care services.

(2) Training and instruction. The Category A assistant shall receive training, evaluation(s), and assessment of knowledge and skills to determine entry level competency in the following areas:

(a) Job responsibilities - to cover all areas of the responsibilities to be delegated which include ethical implications and patient confidentiality;

(b) Patient identification process;

(c) Identification of and relationship to licensed health care practitioner;

(d) Procedure requesting process, including forms used, accessing process, and collection patterns;

(e) Materials to be used;

(f) Anatomic considerations for performing such functions as venipuncture, capillary finger collection, heel sticks;

(g) Procedural standards and techniques for blood collection;

(h) Common terminology and practices such as medical classifications, standard diagnoses, test synonyms, background information on procedures, interferences;

(i) Physical layout of the work place, including patient care areas; and

(j) Safety requirements including the handling of infectious disease cases and the handling and disposal of biohazardous materials.

(3) Work experience. The Category A assistant should have the following work experience under the direct supervision of a qualified trainer:

(a) Practice technique in a simulated situation;

(b) Observe and perform procedures on patients until the trainee demonstrates proficiency to be certified at the minimum entry level of competency. The time and number of performances will vary with the specific procedure and skill of the trainee; and

(c) Document all training on a checklist appropriate to the facility and the duties and responsibilities of the trainee. This will be completed, signed by the qualified trainer, trainee and delegator and be placed in employee personnel file.

[Statutory Authority: RCW 43.70.040. 91-02-049 (Order 121), recodified as § 246-826-130, filed 12/27/90, effective 1/31/91. Statutory Authority: RCW 18.135.030. 87-23-022 (Order PM 689), § 308-175-095, filed 11/12/87.]

WAC 246-826-140 Category B minimum requirements. Effective September 1, 1988, Category B assistants shall meet all of the following minimum requirements:

(1) Educational and occupational qualifications to perform arterial invasive procedures for blood withdrawal:

(a) Minimum high school education or its equivalent with additional education to include but not be limited to anatomy, physiology, concepts of asepsis, and microbiology;

(b) The ability to read, write, and converse in the English language; and

(c) Adequate physical ability, including sufficient manual dexterity to perform the requisite health care services.

(2) Training and instruction. The Category B assistant shall receive training, evaluation(s), and assessment of knowledge and skills to determine entry level competency in the following areas:

(a) Job responsibilities - to cover all areas of the responsibilities to be delegated which include ethical implications and patient confidentiality;

(b) Patient identification process;

(c) Identification of and relationship to licensed health care practitioner;

(d) Procedure requesting process, including forms used, accessing process, and collection patterns;

(e) Materials to be used;

(f) Anatomic considerations for performing such functions as venipuncture, capillary finger collection, heel sticks, arterial puncture, line draws, and use of local anesthetic agents;

(g) Procedural standards and techniques for blood collection;

(h) Common terminology and practices such as medical classifications, standard diagnoses, test synonyms, background information on procedures, interferences;

(i) Physical layout of the work place, including patient care areas; and

(j) Safety requirements including the handling of infectious disease cases and the handling and disposal of biohazardous materials.

(3) Work experience. The Category B assistant should have the following work experience under the direct supervision of a qualified trainer:

(a) Practice technique in a simulated situation;

(b) Observe and perform procedures on patients until the trainee demonstrates proficiency to be certified at the minimum level of competency. The time and number of performances will vary with the specific procedure and skill of the trainee; and

(c) Document all training on a checklist appropriate to the facility and the duties and responsibilities of the trainee. This will be completed, signed by the qualified trainer, trainee, and delegator and be placed in employee personnel file.

[Statutory Authority: RCW 43.70.040. 91-02-049 (Order 121), recodified as § 246-826-140, filed 12/27/90, effective 1/31/91. Statutory Authority: RCW 18.135.030. 87-23-022 (Order PM 689), § 308-175-100, filed 11/12/87.]

WAC 246-826-150 Category C minimum requirements. Effective September 1, 1988, Category C assistants shall meet all of the following minimum requirements:

(1) Educational and occupational qualifications to perform intradermal (including skin tests), subcutaneous, and intramuscular injections for diagnostic agents:

(a) One academic year of formal education at the postsecondary level. Education shall include but not be limited to

anatomy, physiology, basic pharmacology, concepts of asepsis, and microbiology;

(b) The ability to read, write, and converse in the English language;

(c) Possess a basic knowledge of mathematics; and

(d) Adequate physical ability including sufficient manual dexterity to perform the requisite health care services.

(2) Training and instruction. The Category C assistant shall receive training, evaluation(s), and assessment of knowledge and skills to determine entry level competency in the following areas:

(a) Job responsibilities - to cover all areas of the responsibilities to be delegated which include ethical implications and patient confidentiality;

(b) Patient identification process;

(c) Identification of and relationship to licensed health care practitioner;

(d) Procedure requesting process to include, but not be limited to, forms used;

(e) Materials to be used;

(f) Anatomic considerations for performing injections;

(g) Procedures for injections of agents will include readily available written, current, organized information. For each agent there shall be instruction concerning dosage, technique, acceptable route(s) of administration and appropriate anatomic sites, expected reactions, possible adverse reactions, appropriate intervention for adverse reaction and risk to patient and employee;

(h) Common terminology and practices such as medical classifications, standard diagnoses, test synonyms, background information on procedures, interferences;

(i) Physical layout of the work place, including patient care areas; and

(j) Safety requirements including the handling of infectious disease cases and the handling and disposal of biohazardous materials.

(3) Work experience. The Category C assistant should have the following work experience under the direct supervision of a qualified trainer:

(a) Practice technique in a simulated situation;

(b) Observe and perform procedure on patients until the trainee demonstrates proficiency in each drug classification. The time and number of performances will vary with the specific procedure and skill of the trainee; and

(c) Document all health care assistants' training on a checklist appropriate to the facility and the duties and responsibilities of the trainee. This documentation will be completed, signed by the qualified trainer, trainee, and delegator and be placed in employee personnel file. The trainee must demonstrate minimum entry level skill proficiency before certification can be granted.

[Statutory Authority: RCW 43.70.040. 91-02-049 (Order 121), recodified as § 246-826-150, filed 12/27/90, effective 1/31/91. Statutory Authority: RCW 18.135.030. 87-23-022 (Order PM 689), § 308-175-105, filed 11/12/87.]

WAC 246-826-160 Category D minimum requirements. Effective September 1, 1988, Category D assistants shall meet all of the following minimum requirements:

(1) Educational and occupational qualifications to perform intravenous injections for diagnostic agents:

(a) Two academic years of formal education at the post-secondary level. Education shall include but not be limited to anatomy, physiology, basic pharmacology, mathematics, chemistry, concepts of asepsis, and microbiology;

(b) The ability to read, write, and converse in the English language; and

(c) Adequate physical ability including sufficient manual dexterity to perform the requisite health care services.

(2) Training and instruction. The Category D assistant shall receive training, evaluation(s), and assessment of knowledge and skills to determine entry level competency in the following areas:

(a) Job responsibilities - to cover all areas of the responsibilities to be delegated which include ethical implications and patient confidentiality;

(b) Patient identification process;

(c) Identification of and relationship to licensed health care practitioner;

(d) Procedure requesting process to include, but not be limited to, forms used;

(e) Materials to be used;

(f) Anatomic considerations for performing injections;

(g) Procedures for injections of agents will include readily available written, current, organized information. For each agent there shall be instruction concerning dosage, technique, acceptable route(s) of administration and appropriate anatomic sites, expected reactions, possible adverse reactions, appropriate intervention for adverse reaction and risk to patient and employee;

(h) Common terminology and practices such as medical classifications, standard diagnoses, test synonyms, background information on procedures, interferences;

(i) Physical layout of the work place, including patient care areas; and

(j) Safety requirements including the handling of infectious disease cases and the handling and disposal of biohazardous materials.

(3) Work experience. The Category D assistant should have the following work experience under the direct supervision of a qualified trainer:

(a) Practice technique in a simulated situation;

(b) Observe and perform procedure on patients until the trainee demonstrates proficiency in each drug classification. The time and number of performances will vary with the specific procedure and skill of the trainee; and

(c) Document all health care assistants' training on a checklist appropriate to the facility and the duties and responsibilities of the trainee. This documentation will be completed, signed by the qualified trainer, trainee, and delegator and be placed in employee personnel file. The trainee must demonstrate minimum entry level skill proficiency before certification can be granted.

[Statutory Authority: RCW 43.70.040. 91-02-049 (Order 121), recodified as § 246-826-160, filed 12/27/90, effective 1/31/91. Statutory Authority: RCW 18.135.030. 87-23-022 (Order PM 689), § 308-175-110, filed 11/12/87.]

WAC 246-826-170 Category E minimum requirements. Effective September 1, 1988, Category E assistants shall meet all of the following minimum requirements:

(1) Educational and occupational qualifications to perform intramuscular, intradermal (including skin tests), and subcutaneous injections for therapeutic agents:

(a) One academic year of formal education at the post-secondary level. Education shall include but not be limited to anatomy, physiology, pharmacological principles and medication administration, mathematics, concepts of asepsis, and microbiology;

(b) The ability to read, write, and converse in the English language; and

(c) Adequate physical ability including sufficient manual dexterity to perform the requisite health care services.

(2) Training and instruction. The Category E assistant shall receive training, evaluation(s), and assessment of knowledge and skills to determine entry level competency in the following areas:

(a) Job responsibilities - to cover all areas of the responsibilities to be delegated which include ethical implications and patient confidentiality;

(b) Patient identification process;

(c) Identification of and relationship to licensed health care practitioner;

(d) Procedure requesting process to include, but not be limited to, forms used;

(e) Materials to be used;

(f) Anatomic considerations for performing injections;

(g) Procedures for injections of agents will include readily available written, current, organized information. For each agent there shall be instruction concerning dosage, technique, acceptable route(s) of administration and appropriate anatomic sites, expected reactions, possible adverse reactions, appropriate intervention for adverse reaction, and risk to patient and employee;

(h) Common terminology and practices such as medical classifications, standard diagnoses, test synonyms, background information on procedures, interferences;

(i) Physical layout of the work place, including patient care areas; and

(j) Safety requirements including the handling of infectious disease cases and the handling and disposal of biohazardous materials.

(3) Work experience. The Category E assistant should have the following work experience under the direct supervision of a qualified trainer:

(a) Practice technique in a simulated situation;

(b) Observe and perform procedure on patients until the trainee demonstrates proficiency in each drug classification. The time and number of performances will vary with the specific procedure and skill of the trainee; and

(c) Document all health care assistants' training on a checklist appropriate to the facility and the duties and responsibilities of the trainee. This documentation will be completed, signed by the qualified trainer, trainee, and delegator and be placed in employee personnel file. The trainee must demonstrate minimum entry level skill proficiency before certification can be granted.

WAC 246-826-180 Category F minimum requirements. Effective September 1, 1988, Category F assistants shall meet all of the following minimum requirements:

(1) Educational and occupational qualifications to perform intravenous injections for therapeutic agents:

(a) Two academic years of formal education at the post-secondary level. Education shall include but not be limited to anatomy, physiology, pharmacological principles and medication administration, chemistry, mathematics, concepts of asepsis, and microbiology;

(b) The ability to read, write, and converse in the English language; and

(c) Adequate physical ability including sufficient manual dexterity to perform the requisite health care services.

(2) Training and instruction. The Category F assistant shall receive training, evaluation(s), and assessment of knowledge and skills to determine entry level competency in the following areas:

(a) Job responsibilities - to cover all areas of the responsibilities to be delegated which include ethical implications and patient confidentiality;

(b) Patient identification process;

(c) Identification of and relationship to licensed health care practitioner;

(d) Procedure requesting process to include, but not be limited to, forms used;

(e) Materials to be used;

(f) Anatomic considerations for performing injections;

(g) Procedures for injections of agents will include readily available written, current, organized information. For each agent there shall be instruction concerning dosage, technique, acceptable route(s) of administration and appropriate anatomic sites, expected reactions, possible adverse reactions, appropriate intervention for adverse reaction and risk to patient and employee;

(h) Common terminology and practices such as medical classifications, standard diagnoses, test synonyms, background information on procedures, interferences;

(i) Physical layout of the work place, including patient care areas; and

(j) Safety requirements including the handling of infectious disease cases and the handling and disposal of biohazardous materials.

(3) Work experience. The Category F assistant should have the following work experience under the direct supervision of a qualified trainer:

(a) Practice technique in a simulated situation;

(b) Observe and perform procedure on patients until the trainee demonstrates proficiency in each drug classification. The time and number of performances will vary with the specific procedure and skill of the trainee; and

(c) Document all health care assistants' training on a checklist appropriate to the facility and the duties and responsibilities of the trainee. This documentation will be completed, signed by the qualified trainer, trainee, and delegator and be placed in employee personnel file. The trainee must demonstrate minimum entry level skill proficiency before certification can be granted.

[Statutory Authority: RCW 43.70.040. 91-02-049 (Order 121), recodified as § 246-826-180, filed 12/27/90, effective 1/31/91. Statutory Authority: RCW 18.135.030. 87-23-022 (Order PM 689), § 308-175-120, filed 11/12/87.]

WAC 246-826-190 Grandfather clause. Currently certified health care assistants performing any of the practices authorized in RCW 18.135.010 may continue to be certified or recertified by demonstrating proficiency in the appropriate classification to a delegator as defined in RCW 18.135.020. Retraining or completion of a training program shall not be necessary if the health care assistant is able to so demonstrate. Eligibility for recertification by individuals certified under the provisions of this section shall not be restricted by change of employment.

[Statutory Authority: RCW 43.70.040. 91-02-049 (Order 121), recodified as § 246-826-190, filed 12/27/90, effective 1/31/91. Statutory Authority: RCW 18.135.030. 87-23-022 (Order PM 689), § 308-175-125, filed 11/12/87.]

WAC 246-826-200 Hospital or nursing home drug injection. (1) Class C, D, E, or F health care assistants working in a hospital or nursing home may administer the following types of drugs by injection as authorized and directed by a delegator and as permitted by the category of certification of the health care assistant:

Antihistamines
Antiinfective agents
Antineoplastic agents
Autonomic drugs
Blood derivatives
Blood formation and coagulation
Cardiovascular drugs
CNS agents
Diagnostic agents
Electrolytic, caloric and water balance
Enzymes
Gastrointestinal drugs
Gold compounds
Heavy metal antagonists
Hormones/synthetic substitutes
Local anesthetics
Oxytocics
Radioactive agents
Serums toxoids, vaccines
Skin and mucous membrane agents
Smooth muscle relaxants
Vitamins
Unclassified therapeutic agents

(2) The schedule of drugs in subsection (1) of this section shall not include any controlled substances as defined in RCW 69.50.101 (1)(d), any experimental drug and any cancer chemotherapy agent unless a delegator is physically present in the immediate area where the drug is administered.

[Statutory Authority: RCW 43.70.040. 91-02-049 (Order 121), recodified as § 246-826-200, filed 12/27/90, effective 1/31/91. Statutory Authority: RCW 18.135.030. 87-23-022 (Order PM 689), § 308-175-130, filed 11/12/87.]

WAC 246-826-210 Intravenous medications flow restrictions. (1) Category D and F assistants will be permitted to interrupt an IV, administer an injection, and restart at the same rate.

(2) Line draws may be performed by a Category B assistant only if the IV is stopped and restarted by a licensed practitioner.

[Statutory Authority: RCW 43.70.040. 91-02-049 (Order 121), recodified as § 246-826-210, filed 12/27/90, effective 1/31/91. Statutory Authority: RCW 18.135.030. 87-23-022 (Order PM 689), § 308-175-135, filed 11/12/87.]

WAC 246-826-230 AIDS prevention and information education requirements—Health care assistants. Applicants must complete seven clock hours of AIDS education as required in chapter 246-12 WAC, Part 8.

[Statutory Authority: RCW 43.70.280. 98-05-060, § 246-826-230, filed 2/13/98, effective 3/16/98. Statutory Authority: RCW 43.70.040. 91-02-049 (Order 121), recodified as § 246-826-230, filed 12/27/90, effective 1/31/91. Statutory Authority: RCW 18.135.030. 90-14-131 (Order 069), § 308-175-200, filed 7/5/90, effective 8/5/90; 88-22-076 (Order PM 785), § 308-175-200, filed 11/2/88.]

WAC 246-826-300 Definitions. This section defines terms used in hemodialysis.

(1) "Hemodialysis technician" means a person certified as a health care assistant, category G, by the department of health, who is authorized under chapter 18.135 RCW and these rules to assist with the direct care of patients undergoing hemodialysis and to perform certain invasive procedures under proper delegation and supervision by health care practitioners.

(2) "Competency" means the demonstration of knowledge in a specific area and the ability to perform specific skills and tasks in a safe, efficient manner.

(3) "Hemodialysis" means a process by which dissolved substances are removed from a patient's body by diffusion from one fluid compartment to another across a semipermeable membrane.

(4) "Dialysis facility or center" means a place awarded conditional or unconditional status by the center for Medicaid/Medicare services to provide dialysis services. This does not include in the home setting.

(5) "Direct supervision" means the licensed health care practitioner, as required by or authorized by RCW 18.135.020, is physically present and accessible in the immediate patient care area and available to intervene, when necessary.

(6) "Preceptor" means the licensed health care practitioner, as required by or authorized by RCW 18.135.020, who supervises, trains, and/or observes students providing direct patient care in a dialysis facility or center.

(7) "Training monitor" means the certified hemodialysis technician who with limited accountability mentors skill building and monitors for safety. The training monitor does not replace or substitute for the preceptor.

(8) "End-stage renal disease" (ESRD) means the stage of renal impairment that appears irreversible and permanent, and requires either the replacement of kidney functions through renal transplantation or the permanent assistance of those functions through dialysis.

[Statutory Authority: RCW 18.135.030 and 18.135.020. 02-06-115, § 246-826-300, filed 3/6/02, effective 4/6/02.]

WAC 246-826-301 Hemodialysis technician, category G minimum requirements to perform hemodialysis. An individual may not function as or represent himself or herself as a hemodialysis technician, category G, unless that individual has satisfied the training and competency requirements of these rules. The individual in the process of completing training as a hemodialysis technician shall be identified as a trainee when present in any patient area of the facility. Applicants must meet all of the following minimum requirements prior to being certified as a health care assistant for category G:

(1) Minimum qualifications for hemodialysis technician, category G assistants to perform hemodialysis, the applicant must have:

(a) A high school education or its equivalent;

(b) The ability to read, write and converse in the English language;

(c) Basic math skills including the use of fractions and decimal points; and

(d) Adequate physical ability, including sufficient manual dexterity to perform the requisite health care services.

(2) Documentation of the satisfactory completion of a skills competency checklist equivalent to, or exceeding the competencies required by these rules.

(3) Training and experience. The hemodialysis technician, category G assistant shall receive training, evaluation(s), and assessment of knowledge and skills to determine minimum level competency, as required by WAC 246-826-302.

(4) The dialysis facility forwarding an application for certification as a hemodialysis technician must verify the applicant has satisfactorily completed all of the core competencies and minimum training standards for hemodialysis training programs required by chapter 18.135 RCW and these rules. The dialysis facility must verify that the applicant is sufficiently qualified, skilled, and knowledgeable to perform all procedures to be delegated to the applicant upon certification.

[Statutory Authority: RCW 18.135.030 and 18.135.020. 02-06-115, § 246-826-301, filed 3/6/02, effective 4/6/02.]

WAC 246-826-302 Minimum training standards for mandatory hemodialysis technician training programs. (1) Administration and organization: The hemodialysis technician training must be provided by a licensed health care practitioner, as required by RCW 18.135.020. The health care facility or health care practitioner shall be responsible for the development, implementation, and evaluation of the training program, and clinical experiences.

(2) Training program record retention requirements: The training program shall maintain the orientation checklists and any appropriate training documentation while the hemodialysis technician is employed with the health care facility or health care practitioner.

(3) The training program for new hemodialysis technicians must be a minimum of six to eight weeks. The hemodialysis technician shall complete training in both didactic and supervised clinical instruction. The training program shall (a) extend over a period of time sufficient to provide essential, sequenced learning experiences, which enables the trainee to develop competence and shall (b) show evidence of an organized pattern of instruction consistent with principles of learning and sound educational practices.

(4) Supervised clinical experience must provide opportunities for the application of theory and for the achievement of stated objectives in a patient care setting. Training through supervised clinical experience must include clinical learning experiences to develop the skills required by hemodialysis technicians to provide safe patient care. The preceptor must be physically accessible to the hemodialysis technician when the hemodialysis technician is in the patient care area.

(5) The dialysis facility may accept documentation of a hemodialysis technician's successful completion of training objectives in another dialysis facility or accredited academic institution if it is substantially equivalent to the core competencies described in WAC 246-826-303. The dialysis facility that accepts the documentation assumes responsibility for confirming the core competency of the hemodialysis technician.

[Statutory Authority: RCW 18.135.030 and 18.135.020. 02-06-115, § 246-826-302, filed 3/6/02, effective 4/6/02.]

WAC 246-826-303 Minimum standards of practice and core competencies of hemodialysis technicians. The following standards are the minimum competencies that a health care assistant, category G, must hold to be certified to practice in the state of Washington. The competencies are statements of skills and knowledge, and are written as descriptions of behaviors, which can be observed and measured. All competencies are performed, as required by chapter 18.135 RCW, under the direction and supervision of a health care practitioner as required by RCW 18.135.020. The level or depth of accomplishment of any given competency is appropriate to the "assisting" role of basic hemodialysis care under supervision of a health care practitioner.

Patient care.

(1) Data collection and communication. The hemodialysis technician must:

(a) Verify patient identification and dialysis prescription.

(b) Gather predialysis patient information necessary for treatment as required by facility protocols.

(c) Accurately calculate patient fluid removal and replacement needs.

(d) Monitor and verify treatment parameters during dialysis as required by facility protocols.

(e) Gather post dialysis patient information necessary to conclude treatment as required by facility protocols.

(f) Communicate and report patient, family or other care providers' concerns and/or needs to the nurse.

(g) Provide written documentation to the patient's medical record related to both routine treatment and unusual events.

(h) Recognize, report and document signs and symptoms related to:

(i) Hemodialysis vascular access complications.

(ii) Patient treatment complications.

(iii) Complications due to operator or equipment error.

(iv) Complications associated with allergic reactions.

(v) Complications associated with treatment anticoagulation.

(2) Basic hemodialysis treatment skills. The hemodialysis technician must be able to:

(a) Set up dialysis related supplies and equipment as required by a licensed health care practitioner prescription and facility policies and procedures.

(b) Prepare and mix additives to hemodialysis concentrates as required by facility procedure based on patient prescription.

(c) Prepare and administer heparin and sodium chloride solutions and intradermal, subcutaneous, or topical administration of local anesthetics during treatment in standard hemodialysis doses.

(d) Provide routine care for and cannulate hemodialysis vascular accesses for treatment as required by facility policies and procedures.

(e) Initiate hemodialysis treatment as required by facility policies and procedures.

(f) Provide routine care for, initiate, and terminate hemodialysis treatments using central catheters as required by facility protocols.

(g) Terminate hemodialysis treatment as required by facility policies and procedures.

(h) Provide routine care for equipment post dialysis including rinsing, disinfecting and shutting down as required by facility policies and procedures.

(i) Draw required samples for laboratory testing as required by facility protocols and procedures.

(3) Hemodialysis treatment interventions. The hemodialysis technician must be able to:

(a) Administer oxygen to patient by cannula or mask.

(b) Initiate CPR.

(c) Provide initial response to patient complications and emergencies during treatment per facility procedures, including, but not limited to, the administration of normal saline per facility protocol.

(d) Respond to equipment alarms and make necessary adjustments.

(4) Education and personal development for hemodialysis technicians: The hemodialysis technician should be able to demonstrate a basic understanding of the following subjects:

(a) General orientation subjects for the new hemodialysis technician.

(i) Common manifestations of renal failure.

(ii) Principles of dialysis.

(iii) Dialyzer and concentrate use and prescription.

(iv) Basic concepts of hemodialysis water treatment and dialyzer reuse.

(v) Principles of fluid management.

(vi) Hemodialysis treatment complications and emergencies.

(vii) Standard precautions and the use of aseptic techniques.

(viii) Hazardous chemical use in the hemodialysis setting.

(ix) Use and care of hemodialysis vascular accesses.

(x) Common laboratory testing procedures and critical alert values.

(xi) Basic concepts related to dialysis patient dietary/nutrition requirements.

(xii) Common psychosocial issues related to aging, chronic illness and dialysis therapy.

(b) Facility requirements as required by written policies and procedures. The hemodialysis technician must:

(i) Maintain current CPR certification.

246-828-400 Temporary practice permits—Scope and purpose.[Statutory Authority: RCW 18.35.161 (1) and (3). 95-19-017, § 246-828-400, filed 9/7/95, effective 10/8/95. Statutory Authority: RCW 18.35.161(3). 93-07-008 (Order 341B), § 246-828-400, filed 3/5/93, effective 4/5/93.] Repealed by 97-20-104, filed 9/29/97, effective 10/30/97. Statutory Authority: RCW 18.35.161.

246-828-410 Definitions. [Statutory Authority: RCW 18.35.161 (1) and (3). 95-19-017, § 246-828-410, filed 9/7/95, effective 10/8/95. Statutory Authority: RCW 18.35.161(3). 93-07-008 (Order 341B), § 246-828-410, filed 3/5/93, effective 4/5/93.] Repealed by 97-20-104, filed 9/29/97, effective 10/30/97. Statutory Authority: RCW 18.35.161.

246-828-420 Issuance of temporary practice permits. [Statutory Authority: RCW 18.35.161(3). 93-07-008 (Order 341B), § 246-828-420, filed 3/5/93, effective 4/5/93.] Repealed by 97-20-104, filed 9/29/97, effective 10/30/97. Statutory Authority: RCW 18.35.161.

246-828-430 Duration of temporary practice permits. [Statutory Authority: RCW 18.35.161(3). 93-07-008 (Order 341B), § 246-828-430, filed 3/5/93, effective 4/5/93.] Repealed by 97-20-104, filed 9/29/97, effective 10/30/97. Statutory Authority: RCW 18.35.161.

246-828-520 Effective date of requirement. [Statutory Authority: RCW 18.35.161(3). 93-07-007 (Order 342B), § 246-828-520, filed 3/5/93, effective 4/5/93.] Repealed by 98-05-060, filed 2/13/98, effective 3/16/98. Statutory Authority: RCW 43.70.280.

246-828-540 Qualification of program for continuing education credit. [Statutory Authority: RCW 18.35.161(3). 93-07-007 (Order 342B), § 246-828-540, filed 3/5/93, effective 4/5/93.] Repealed by 98-05-060, filed 2/13/98, effective 3/16/98. Statutory Authority: RCW 43.70.280.

246-828-560 Certification of compliance. [Statutory Authority: RCW 18.35.161 (1) and (3). 95-19-017, § 246-828-560, filed 9/7/95, effective 10/8/95. Statutory Authority: RCW 18.35.161(3). 93-07-007 (Order 342B), § 246-828-560, filed 3/5/93, effective 4/5/93.] Repealed by 98-05-060, filed 2/13/98, effective 3/16/98. Statutory Authority: RCW 43.70.280.

WAC 246-828-020 Examinations. (1) The examination required of hearing instrument fitter/dispenser license applicants shall be a written examination.

(a) The minimum passing grade shall be seventy or greater to pass the required examination for licensure.

(b) Applications for examinations shall be received by the department at least sixty days prior to the date of the scheduled examination. If the application is received less than sixty days before the next scheduled examination, the applicant will be scheduled for the second examination following receipt of the application.

(c) A national examination or examination administered by another licensing jurisdiction approved by the board may be accepted in lieu of the board's written examination.

(2) The examination required of all audiology certificate applicants shall be the National Examination in Audiology (NESPA), including a passing examination score of six hundred or greater and written hearing instrument fitter/dispenser examination described in subsection (1) of this section, including a passing examination score of seventy or greater.

(3) The examination required of speech-language pathologist certificate applicants shall be the National Examination in Speech Language Pathology (NESPA), including a passing examination score of six hundred or greater.

[Statutory Authority: RCW 18.35.040 and 18.35.161. 98-13-110, § 246-828-020, filed 6/17/98, effective 7/18/98. Statutory Authority: RCW 18.35.161. 91-11-031 (Order 165B), recodified as § 246-828-020, filed 5/8/91, effective 6/8/91. Statutory Authority: RCW 18.35.161(4). 89-08-096 (Order PM 828), § 308-50-010, filed 4/5/89. Statutory Authority: RCW 18.35.161(3). 87-14-030 (Order PM 654), § 308-50-010, filed 6/26/87. Statutory Authority: RCW 18.35.161. 84-08-062 (Order PL 463), § 308-50-010, filed 4/4/84; Order PL 190, § 308-50-010, filed 5/23/75; Order PL 159, § 308-50-010, filed 2/8/74.]

WAC 246-828-025 Definitions. (1) "Board-approved institution of higher education" means an institution offering a Washington higher education coordinating board-accredited program in audiology or speech-language pathology leading to a master's degree, or an equivalent program as determined by the board.

(2) "Postgraduate professional work experience" means a full-time professional experience, or the part-time equiva-

lent, involving direct patient/client contact, consultations, record keeping, and administrative duties relevant to a bona fide program of clinical work.

(a) "Full-time professional experience" means a minimum of 30 hours per week over 36 weeks. Postgraduate professional work experience cannot be obtained in fewer than 36 weeks.

(b) "Part-time equivalent" means any of the following:

(i) 15-19 hours per week over 72 weeks;

(ii) 20-24 hours per week over 60 weeks;

(iii) 25-29 hours per week over 48 weeks.

(c) Professional experience of fewer than 15 hours per week cannot be counted toward postgraduate professional work experience.

[Statutory Authority: RCW 18.35.040(2) and 18.35.161. 98-13-109, § 246-828-025, filed 6/17/98, effective 7/18/98.]

WAC 246-828-030 Reexaminations. (1) Should an applicant fail any part of the hearing instrument fitter/dispenser examination, he/she may apply to the department to retake the failed part of the examination.

(2) All reexaminations shall be conducted at the next regularly scheduled examination.

(3) Any person who fails to qualify for licensure after three consecutive regularly scheduled examinations shall be required to take the entire examination. A waiver may be granted upon a showing of emergency circumstances.

[Statutory Authority: RCW 18.35.161. 98-06-079, § 246-828-030, filed 3/3/98, effective 4/3/98; 91-11-031 (Order 165B), recodified as § 246-828-030, filed 5/8/91, effective 6/8/91; 89-04-017 (Order PM 818), § 308-50-020, filed 1/23/89. Statutory Authority: RCW 18.35.161(3). 87-14-030 (Order PM 654), § 308-50-020, filed 6/26/87. Statutory Authority: RCW 18.35.161. 84-19-019 (Order PL 479), § 308-50-020, filed 9/12/84; Order PL 222, § 308-50-020, filed 11/5/75; Order PL 159, § 308-50-020, filed 2/8/74.]

WAC 246-828-040 Examination review and appeal procedures. (1) Each applicant who takes the examination for licensure and does not pass any part of the examination shall be provided information indicating the area of the examination in which the applicant was deficient with the notice of the examination results.

(2) Any applicant who does not pass a part of the examination may request an informal review by the board of his or her examination results. This request must be in writing and must be received by the department within thirty days of the postmark of the notice of examination results.

(3) The procedure for the informal review is as follows:

(a) An applicant submitting a written request for an informal review by the deadline described in subsection (2) of this section shall be contacted by the department to arrange an appointment to appear personally in the Olympia office to review the part or parts of the examination failed.

(b) The applicant shall be provided a form to complete in the Olympia office in defense of examination answers and/or examination performance.

(c) The applicant shall be identified only by applicant number for the purpose of this procedure. Letters of reference or requests for special consideration shall not be read or considered by the board.

(d) That applicant may bring textbooks or published material for use in completing the informal review, but such material must be retained by the Olympia office until the board has completed the informal review request submitted by the applicant.

(e) The applicant shall not be allowed to take any notes or materials from the office upon leaving.

(f) The information submitted to the board for its consideration in the informal review must state the specific reason or reasons why the results of the examination should be changed. The board shall not modify examination results unless the applicant can prove or show conclusive evidence of error in examination content or procedure, or bias, prejudice, or discrimination in the examination process. The board shall not consider a challenge to the examination unless the total revised score including the questions or sections to be reviewed could result in a passing score in the examination.

(g) The board shall schedule a closed session meeting to conduct the informal review of the material submitted by the applicant.

(h) The applicant shall be notified in writing of the results of the informal review.

(4) Any applicant who is not satisfied with the result of the examination review may request that a formal hearing be held before the board pursuant to the Administrative Procedure Act. Such a hearing request must be received by the department within thirty days of postmark of the notification of the result of the board's informal review of the applicant's examination results. The request must be in writing and must state the specific reasons why the results of the examination should be changed. The board shall not modify examination results unless the applicant can prove or show conclusive evidence of error in examination content or procedure, or bias, prejudice, or discrimination in the examination process. The board shall not consider a challenge to the examination unless the total revised score including the questions or sections to be reconsidered could result in a passing score in the examination.

(5) The hearing shall not be scheduled until the applicant and the state's attorney have appeared before an administrative law judge for a prehearing conference to consider the following:

(a) The simplification of issues;

(b) The necessity of amendments to the notice of specific reasons for the examination result modification;

(c) The possibility of obtaining stipulations, admission of facts and documents;

(d) The limitation of the number of expert witnesses;

(e) A schedule for completion of all discovery; and,

(f) Such other matters as may aid in the disposition of the proceeding.

(6) The administrative law judge shall enter an order which recites the actions taken at the conference, the amendments allowed to the pleadings and the agreements made by the parties or their qualified representatives as to any of the matters considered, including the settlement or simplification of issues, and which limits the issues for hearing to those not disposed of by admissions or agreements; and such order shall control the subsequent course of the proceeding unless modified for good cause by subsequent prehearing order.

(7) Applicants shall receive at least twenty days notice of the time and place of the formal hearing. The hearing shall be

restricted to the specific reasons the applicant has identified as the basis for a change in the examination score.

[Statutory Authority: RCW 18.35.161 (1) and (3). 95-19-017, § 246-828-040, filed 9/7/95, effective 10/8/95. Statutory Authority: RCW 18.35.161. 91-11-031 (Order 165B), recodified as § 246-828-040, filed 5/8/91, effective 6/8/91; 89-14-007 (Order PM 848), § 308-50-035, filed 6/22/89; 89-04-017 (Order PM 818), § 308-50-035, filed 1/23/89. Statutory Authority: RCW 18.35.161(3). 87-14-030 (Order PM 654), § 308-50-035, filed 6/26/87.]

WAC 246-828-045 Interim permit. Interim permit requirements.

(1) The department will issue an interim permit to any applicant who has shown to the satisfaction of the department that the applicant:

(a) Is supervised by a speech-language pathologist or audiologist certified under chapter 18.35 RCW, in good standing for at least two years unless otherwise approved by the board.

(i) Supervision includes the personal and direct involvement of the supervisor. The supervisor must directly observe diagnostic and therapeutic procedures.

(ii) All purchase agreements for the sale of hearing instruments must be signed by the supervisor and the permit holder.

(iii) No certified audiologist or speech-language pathologist under chapter 18.35 RCW may assume the responsibility for more than one permit holder.

(iv) The supervisor is responsible for all acts of the interim permit holder in connection with audiology or speech-language pathology services during the duration of the permit.

(b) Has paid the application and permit fee.

(c) Has not committed unprofessional conduct as specified by the Uniform Disciplinary Act or chapter 18.35 RCW.

(2) The provisions of RCW 18.35.030, 18.35.110, 18.35.120 shall apply to any person issued an interim permit. A person issued an audiology interim permit may engage in the fitting and dispensing of hearing instruments.

(3) The interim permit shall contain the name and title of the certified supervisor under chapter 18.35 RCW who is supervising the permit holder. The supervisor shall execute and submit to the department acknowledgment of responsibility for all acts of the permit holder in connection with audiology or speech-language pathology services.

Interim permit period.

(4) The interim permit period is divided into three equal segments. The supervisor must complete a minimum of:

(a) No less than thirty-six supervisory activities spaced uniformly throughout the year.

(b) At least eighteen on-site observations (one hour equals one on-site observation). At least six on-site observations must be accrued during each segment (up to six hours may be accrued in one day).

(c) Eighteen other monitoring activities, at least six per segment.

(d) Upon the completion of each segment the supervisor must submit documentation of completion to the department on a form provided by the department.

(e) A review of all purchase agreements in the fitting and dispensing of hearing instruments prior to signing. All purchase agreements will be signed by the supervisor.

(5) The interim permit is valid for one year or for the duration of the postgraduate experience. The interim permit will expire one year from the date of its issuance. The board may extend the permit an additional six months.

Supervisor delegation.

(6) Portions of the supervisory activities including the supervision in hearing instrument fitting and dispensing may be obtained in another facility and may be under the supervision of another certified speech-language pathologist or audiologist as delegated by the supervisor of record.

(a) The audiologist supervisor of record may delegate the supervision of hearing instrument fitting and dispensing to a licensed hearing instrument fitter/dispenser who has been licensed in good standing for at least two years.

(b) Delegation of the responsibility of supervision must be approved by the department.

(7) The department may approve transfer of a permit holder to another eligible supervisor upon the written request of either the supervisor or the permit holder.

(8) It is the responsibility of the permit holder to immediately report the termination of the supervisor to the department in writing, by certified mail.

(9) The supervisor of a permit holder who desires to terminate the responsibility as supervisor must immediately notify the department in writing, by certified mail, of the termination. The supervisor is responsible for the permit holder until such time as the notification of termination to the department is deposited in the United States mail.

[Statutory Authority: RCW 18.35.161(3) and 18.35.060(6). 99-08-102, § 246-828-045, filed 4/6/99, effective 5/7/99.]

WAC 246-828-055 Apprenticeship program—Definitions. For the purposes of this chapter, these terms shall be defined as follows:

(1) "Sponsor" means the licensed hearing instrument fitter/dispenser or certified audiologist who is registered with the department of health to provide sponsorship to an apprentice. The sponsor must be licensed or certified in good standing as a hearing instrument fitter/dispenser or audiologist with the state of Washington for at least two years.

(2) "Direct supervision" means that the sponsor is physically present and in the same room with the apprentice, observing the testing, fitting and dispensing activities of the apprentice at all times.

(3) "Sponsor in good standing" means a sponsor whose license or certificate has not been subject to sanctions under RCW 18.130.160 in the last two years.

[Statutory Authority: RCW 18.35.040 and 18.35.161. 97-15-128, § 246-828-055, filed 7/23/97, effective 8/23/97. Statutory Authority: RCW 18.35.161. 94-11-108, § 246-828-055, filed 5/18/94, effective 6/18/94.]

WAC 246-828-061 Requirements for apprenticeship training waiver. Requests to the board to waive all or part of the required apprenticeship training "in recognition of formal education in fitting and dispensing of hearing instruments or in recognition of previous licensure in Washington or in

another state, territory or the District of Columbia" as defined in RCW 18.35.040 (1)(b) will be reviewed as follows:

(1) The board may waive part or all of the apprenticeship training in recognition of formal education in hearing instrument technology that is a certificate program at least six months in duration and is governed under the Washington state board of community and technical colleges or the equivalent agency in another state, territory, or the District of Columbia. The program must include instruction in all subject areas listed in WAC 246-828-070(2).

(2) The board may waive part or all of the apprenticeship training in recognition of:

(a) Current licensure or certification in Washington or in another state, territory, or the District of Columbia for a minimum of two years in good standing; or

(b) Previous licensure or certification, in good standing that has not been inactive for more than five years.

(3) Applicants requesting that the apprenticeship training requirement be waived that do not meet the criteria of subsection (1) or (2) of this section will be denied.

[Statutory Authority: RCW 18.35.040 and [18.35.]161.3[(3)]. 99-19-059, § 246-828-061, filed 9/15/99, effective 10/16/99.]

WAC 246-828-070 Apprenticeship program—Minimum training requirements. (1) An apprenticeship program will be at least six months in duration. The apprentice is in an apprenticeship program for a minimum of ten hours each week. The apprentice is under the direct supervision of the sponsor at all times when performing the functions of a hearing instrument fitter/dispenser apprentice. An apprentice must hold a valid hearing instrument fitter/dispenser permit. An apprentice must complete the National Hearing Aid Society home study course and submit proof of passing the home study course final examination and complete all stages of the apprenticeship program prior to taking the Washington state examination. If the apprentice passes the home study course final examination but fails the Washington state licensure examination, the apprentice will not have to repeat the home study course before the next available Washington state licensure examination. The apprenticeship program is divided into three stages:

(a) Stage 1 is at least 1 month in duration. During this stage, the apprentice may perform audiometric tests, and make ear mold impressions and modifications. The sponsor is physically present, in the same room at all times when the apprentice is performing these functions. The apprentice can not recommend the selection of a hearing instrument, dispense a hearing instrument, or counsel a client.

(b) Stage 2 - at least 2 months. During this stage the apprentice may perform all tasks in Stage 1, recommend the selection of a hearing instrument, and counsel a client. The sponsor is physically present, in the same room at all times when the apprentice is performing these functions. The apprentice can not dispense a hearing instrument.

(c) Stage 3 - at least 3 months. During this stage the apprentice may perform all the tasks in Stage 1 and 2 and dispense hearing instruments, but the sponsor is physically present in the same room at the time a hearing instrument is delivered to the client. The receipt required by RCW 18.35.-030 must have the signatures and the license/permit numbers of the sponsor and apprentice. The title of the sponsor and apprentice is next to the respective signatures.

(2) It is the sponsor's responsibility to provide instruction and guidance, in order to adequately prepare the apprentice for practice as a hearing instrument fitter/dispenser and for the written and practical examinations. Training received by an apprentice during the apprenticeship program must include at least the following subject areas:

(a) Chapters 18.35 and 18.130 RCW, and chapter 246-828 WAC;

(b) Physics of sound;

(c) Anatomy of the outer, middle and inner ear;

(d) Otoscopy;

(e) Hearing disorders: Conductive hearing loss, sensorineural hearing loss, mixed hearing loss, central auditory processing disorder, nonorganic hearing loss;

(f) Diseases of the ear;

(g) Current criteria for medical referral;

(h) Pure tone audiometry, air conduction and bone conduction;

(i) Masking for pure tone audiometry: Rationale; methods; techniques;

(j) Speech audiometry;

(k) Masking for speech audiometry: Rationale; methods; techniques;

(l) Sound field testing;

(m) Audiogram analysis and interpretation;

(n) Proper ear/ears selection: Hearing instrument selection/modifications (evaluating fitting criteria);

(o) Cros/bi-cros: Rationale and its application;

(p) Hearing aid measurements (ANSI) standard);

(q) Interpretation of hearing instruments specification data;

(r) Impression technique;

(s) Earmolds: Shell design and their effects on frequency response;

(t) Types and styles of hearing instruments; components, functions, and benefits;

(u) Dispensing hearing instruments and counseling on usage and care.

(3) The sponsor must file a report with the department at the end of each stage of the apprentice program; this report must be filed no later than ten days after the completion of each stage. The sponsor must certify that the educational and training objectives of each stage have been met and the number of hours of training provided.

(4) The apprenticeship program begins at the date of department approval, unless the board specifies another date.

(5) Transfer of apprentice to another sponsor. The department may approve transfers of an apprentice to another eligible sponsor, prior to the completion of the apprenticeship program, upon the request of either the sponsor or the apprentice.

(a) An apprentice who changes his or her sponsor for any reason must not continue his or her apprenticeship status with a new sponsor until a new apprenticeship application and fee has been filed and approved by the department.

(b) It is the apprentice's responsibility to report the loss of such sponsorship to the department in writing within ten

days of such occurrence and to stop the practice of fitting and dispensing.

(c) The sponsor of an apprentice who desires to terminate the responsibilities of sponsorship must provide the apprentice two weeks written notice of such termination, stating reasons for termination, and shall immediately notify the department, by registered or certified mail, of the sponsorship termination and the reasons for termination.

(d) In the event the apprentice terminates the program, the sponsor must notify the department immediately by registered or certified mail.

The sponsor is responsible for the apprentice until such time as the notification of termination to the department is deposited in the United States mail.

(e) Whenever a transfer is approved, credit is transferred for the completed stages of the apprenticeship program.

(f) Transfer of credit for stages uncompleted is subject to review and approval by the board.

[Statutory Authority: RCW 18.35.040 and 18.35.161. 97-15-128, § 246-828-070, filed 7/23/97, effective 8/23/97. Statutory Authority: RCW 18.35.161 (1) and (3). 95-19-017, § 246-828-070, filed 9/7/95, effective 10/8/95. Statutory Authority: RCW 18.35.161. 94-11-108, § 246-828-070, filed 5/18/94, effective 6/18/94; 91-11-031 (Order 165B), recodified as § 246-828-070, filed 5/8/91, effective 6/8/91; 84-08-062 (Order PL 463), § 308-50-100, filed 4/4/84; Order PL 159, § 308-50-100, filed 2/8/74.]

WAC 246-828-075 Student supervisors—Scope and definitions. (1) Students enrolled in an accredited education or training program may perform the duties of a hearing instrument fitter/dispenser in the course of their training if under the supervision of a Washington state licensed hearing instrument fitter/dispenser or certified audiologist. Supervision shall mean that the licensee/certificate holder is physically present on the premises at all times.

(2) An accredited education or training program shall be defined as any course of study in the field of fitting and dispensing hearing instruments that is offered by a school or program recognized by the state of Washington.

(3) The student shall at all times wear an identification badge readily visible to the public which identifies him or her as a student.

(4) The licensed/certified supervisor shall be responsible for all acts of the student.

[Statutory Authority: RCW 18.35.161. 98-06-079, § 246-828-075, filed 3/3/98, effective 4/3/98. Statutory Authority: RCW 18.35.161 (1) and (3). 95-19-017 § 246-828-075, filed 9/7/95, effective 10/8/95.]

WAC 246-828-080 Minimum standards of equipment. Minimum equipment in the fitting and dispensing of hearing instruments shall include:

(1) Access to a selection of hearing instrument models, and hearing instrument supplies and services sufficiently complete to accommodate the various user needs.

(2) Facilities for the personal comfort of customers.

(3) A test environment with background noise no greater than current American National Standards Institute specifications (S3.1-1960 (R-1971)) plus 15 dB. When nonstandard environments must be used, appropriate procedures shall be employed and documented.

(4) Pure tone audiometer calibrated in accordance with WAC 246-828-090.

(5) Equipment appropriate for conducting speech audiometry (testing).

[Statutory Authority: RCW 18.35.161. 98-06-079, § 246-828-080, filed 3/3/98, effective 4/3/98. Statutory Authority: RCW 18.35.161 (1) and (3). 95-19-017 § 246-828-080, filed 9/7/95, effective 10/8/95. Statutory Authority: RCW 18.35.161. 91-11-031 (Order 165B), recodified as § 246-828-080, filed 5/8/91, effective 6/8/91; 84-19-019 (Order PL 479), § 308-50-110, filed 9/12/84; Order PL 159, § 308-50-110, filed 2/8/74.]

WAC 246-828-090 Standards for equipment calibration. (1) All electronic equipment utilized by licensees/certificate holders for the determination of audiometric thresholds for pure tones and for speech shall conform to all current standards of the American National Standards Institute. Licensees/certificate holders shall insure that all such audiometric equipment has been evaluated electrically and acoustically at least once each year, adjusted or repaired if necessary, and that conformity with such standards was determined at that time. Records of such calibration shall be permanently maintained by licensees/certificate holders and shall be available for inspection at any time by the department. No licensee/certificate holder shall be permitted to certify as to the calibration of his own equipment unless authorized to do so by the department. In addition, all licensees/certificate holders shall utilize routine procedures for the daily inspection of audiometric equipment, or prior to use if used less often than on a daily basis, to generally determine that it is in normal working order.

(2) Hearing instruments, assistive listening devices, and electronic equipment used for assessment and/or monitoring of auditory and vestibular function shall be maintained according to manufacturer's specifications.

(3) All instrumental technology used to diagnose and/or treat disorders of communication, swallowing and hearing shall be maintained in proper working order and be properly calibrated according to accepted standards.

[Statutory Authority: RCW 18.35.161. 98-06-079, § 246-828-090, filed 3/3/98, effective 4/3/98. Statutory Authority: RCW 18.35.161 (1) and (3). 95-19-017 § 246-828-090, filed 9/7/95, effective 10/8/95. Statutory Authority: RCW 18.35.161. 91-11-031 (Order 165B), recodified as § 246-828-090, filed 5/8/91, effective 6/8/91; 84-08-062 (Order PL 463), § 308-50-120, filed 4/4/84; Order PL 159, § 308-50-120, filed 2/8/74.]

WAC 246-828-095 Audiology minimum standards of practice. Certified audiologists are independent practitioners who provide a comprehensive array of services related to the identification, assessment, habitation/rehabilitation and prevention of auditory and vestibular impairments.

Audiologists serve in a number of roles including but not limited to clinician, therapist, teacher, consultant, researcher, and administrator. Audiologists provide services in hospitals, clinics, schools, nursing facilities, care centers, private practice and other settings in which audiological services are relevant. Audiologists provide services to individuals of all ages.

Audiologists must engage in and supervise only those aspects of the profession that are within the scope of their education, training and experience.

Standard procedures for providing audiology services may include one or more of the following:

(1) Case history to include:

(a) Documentation of referrals.

(b) Historical review of the nature, onset, progression and stability of the hearing problem, and associated otic and/or vestibular symptoms.

(c) Review of communication difficulties.

(d) Review of medical, pharmacology, vocational, social and family history pertinent to the etiology, assessment and management of the underlying hearing disorder.

(2) Physical examination of the external ear includes:

(a) Otoscopic examination of the external auditory canal to detect:

(i) Congenital or traumatic abnormalities of the external canal or tympanic membrane.

(ii) Inflammation or irritation of the external canal or tympanic membrane.

(iii) Perforation of the tympanic membrane and/or discharge from the external canal.

(iv) A foreign body or impacted cerumen in the external canal.

(b) Cerumen management to clean the external canal and to remove excess cerumen for the preservation of hearing.

(c) Referral for otologic evaluation and/or treatment when indicated.

(3) Identification of audiometry:

(a) Hearing screening administered as needed, requested, or mandated for those persons who may be identified as at risk for hearing impairment.

(b) Referral of persons who fail the screening for rescreening, audiologic assessment and/or for medical or other examination and services.

(c) Audiologists may perform speech and language screening measures for initial identification and referral.

(4) Assessment of auditory function includes:

(a) The administration of behavioral and/or objective measures of the peripheral and central auditory system to determine the presence, degree and nature of hearing loss or central auditory impairment, the effect of the hearing impairment on communication, and/or the site of the lesion within the auditory system. Assessment may also include procedures to detect and quantify nonorganic hearing loss.

(i) When traditional audiometric techniques cannot be employed as in infants, children or multiple impaired clients, developmentally appropriate behavioral and/or objective measures may be employed.

(ii) Assessment and intervention of central auditory processing disorders in which there is evidence of communication disorders may be provided in collaboration with other professionals.

(b) Interpretation of measurement recommendations for habilitative/rehabilitative management and/or referral for further evaluation and the counseling of the client and family.

(5) Assessment of vestibular function includes administration and interpretation of behavioral and objective measures of equilibrium to detect pathology within the vestibular system, to determine the site of lesion, to monitor changes in balance and to determine the contribution of visual, vestibular and proprioceptive systems to balance.

(6) Habilitation/rehabilitation of auditory and vestibular disorders may include:

(a) Aural rehabilitation therapy.

(b) Fitting and dispensing of hearing instruments and assistive listening devices.

(c) Habilitative and rehabilitative nonmedical management of disorders of equilibrium.

(7) Industrial and community hearing conservation programs.

(8) Intraoperative neurophysiologic monitoring.

(9) Standardized and nonstandardized procedures may be employed for assessment, habilitation/rehabilitation of auditory and vestibular disorders. When standardized procedures are employed they must be conducted according to the standardized procedure or exception documented. Nonstandardized measures must be conducted according to established principles and procedures of the profession.

[Statutory Authority: RCW 18.35.161 (3) and (10). 98-14-055, § 246-828-095, filed 6/26/98, effective 7/27/98.]

WAC 246-828-100 Hearing instrument fitting dispensing—Minimal standards of practice. Minimum procedures in the fitting and dispensing of hearing instruments shall include:

(1) Obtain case history to include the following:

(a) As required by WAC 246-828-280, documentation of referrals, or as otherwise required by this chapter.

(b) Historical evaluation to include inquiry regarding hearing loss, onset of loss, and any associated symptoms including significant noise in the ears, vertigo, acute or chronic dizziness, nausea, earaches, or other such discomfort which may indicate the presence of medical illness. Specific inquiry should be made to determine if hearing loss has been sudden or rapidly progressive in the past ninety days, if there has been any active drainage or infection in ears during the past ninety days, and if there are any specific physical problems which may relate to the use of a hearing instrument.

(2) Examination of the ears should be done to reasonably determine if any of the following conditions exist:

(a) Impacted ear wax.

(b) Foreign body within the ear canal.

(c) Discharge in the ear canal.

(d) Presence of inflammation or irritation of the ear canal.

(e) Perforation of the ear drum.

(f) Any other abnormality.

(3) Hearing testing shall be performed to include the following:

(a) Hearing loss, or residual hearing, shall be established for each ear using pure tone threshold audiometry by air and bone conduction with effective masking as required.

(b) Appropriate live voice or recorded speech audiometry by ear phones to determine the following: Speech reception threshold, most comfortable level, uncomfortable level, and the speech discrimination percent.

(c) Hearing testing shall be conducted in the appropriate environment as required by WAC 246-828-080, minimum standards of equipment, or as otherwise required by this chapter.

(d) When pure tone audiometry indicates an air-bone gap of 15db or more, 500, 1000, and 2000 Hz, the presence of unilateral hearing loss, or any inconsistent audiometric findings, the client shall be advised of the potential help available

through medical treatment. Should the client decline to consider such methods, or if the client has previously been appropriately treated or has been advised against such procedures, an appropriate notation shall be made in the client's record.

(e) In the event a client is referred to a licensee by an M.A. audiologist, otologist, otolaryngologist, or by a fitter/dispenser duly licensed under chapter 18.35 RCW, and the audiometric results obtained within the previous six months are provided to the licensee as a part of this referral, the applicable provisions of WAC 246-828-100 shall not be required. However, a confirmatory audiometric examination is recommended.

(4) Medical evaluation requirements:

(a) If the prospective hearing instrument user is eighteen years of age or older, the hearing instrument dispenser may afford the prospective user an opportunity to waive the medical evaluation requirements of (b) of this subsection provided that the hearing instrument dispenser:

(i) Informs the prospective user that the exercise of the waiver is not in the user's best health interest;

(ii) Does not in any way actively encourage the prospective user to waive such a medical evaluation;

(iii) Affords the prospective user the opportunity to sign the following statement:

I have been advised by (hearing instrument fitter/dispenser name) that the Food and Drug Administration has determined that my best health interest would be served if I had a medical evaluation before purchasing a hearing instrument; and

(iv) Provides the prospective user with a copy of the signed waiver statement.

(b) Except as provided in (a) of this subsection, a hearing instrument dispenser shall not sell a hearing instrument unless the prospective user has presented to the hearing instrument dispenser a written statement signed by a licensed physician that states that the patient's hearing loss has been medically evaluated and the patient may be considered a candidate for a hearing instrument. The medical evaluation must have taken place within the preceding six months.

(5) Selection and fitting of the hearing instrument shall include the following:

(a) Provide information regarding the selection of the most appropriate method and model for amplification for the needs of the client.

(b) Provide the user with the cost of the recommended instruments and services.

(c) Provide for or have available an appropriate custom made ear mold.

(d) Provide final fitting of the hearing instrument to ensure physical and operational comfort.

(e) Provide adequate instructions and appropriate post-fitting adjustments to ensure the most successful use of the hearing instrument.

(6) Keeping records on every client to whom the licensee/certificate holder renders service in connection with the dispensing of a hearing instrument. Such records shall be preserved for at least three years after the dispensing of the first hearing instrument to the client. If other hearing instruments are subsequently dispensed to that client, cumulative records must be maintained for at least three years after the latest dispensing of an instrument to that client. The records must be available for the department inspection and will include:

(a) Client's case history.

(b) Source of referral and appropriate documents.

(c) Medical clearance for the hearing instrument user or the waiver set forth in subsection (4)(a)(iii) of this section which has been signed after being fully informed that it is in the best health interest to seek medical evaluation.

(d) Copies of any contracts and receipts executed in connection with the fitting and dispensing of each hearing instrument provided.

(e) A complete record of tests, test results, and services provided except for minor services.

(f) All correspondence specifically related to the service given the client or the hearing instrument or instruments dispensed to the client.

WAC 246-828-105 Speech-language pathology—Minimum standards of practice. Certified speech-language pathologists are independent practitioners who provide a comprehensive array of services related to the identification, assessment, habilitation/rehabilitation, of communication disorders and dysphagia. Speech-language pathologists serve in a number of roles including but not limited to clinician, therapist, teacher, consultant, researcher, and administrator. Speech-language pathologists provide services in hospitals, clinics, schools, nursing facilities, care centers, private practice, and other settings in which speech-language pathology services are relevant. Speech-language pathologists provide services to individuals of all ages.

Services must be provided and products dispensed only when benefit can reasonably be expected. All services provided and products dispensed must be evaluated for effectiveness. A certified speech-language pathologist must engage in and supervise only those aspects of the profession that are within the scope of their education, training, and experience. Speech-language pathologists must provide services appropriate to each individual in his or her care, which may include one or more of the following standard procedures:

(1) Case history, to include the following:

(a) Documentation of referral.

(b) Review of the communication, cognitive and/or swallowing problem.

(c) Review of pertinent medical, pharmacological, social and educational status.

(2) Examination of the oral mechanism for the purposes of determining adequacy for speech communication and swallowing.

(3) Screening to include: Speech and language.

(a) Hearing screening, limited to pure-tone air conduction and screening tympanometry.

(b) Swallowing screening. Children under the age of three years who are considered at risk are assessed, not screened;

(4) Assessment may include the following:

(a) Language may include parameters of phonology, morphology, syntax, semantics, and pragmatics; and include receptive and expressive communication in oral, written, graphic and manual modalities;

(b) Speech may include articulation, fluency, and voice (including respiration, phonation and resonance). Treatment shall address appropriate areas;

(c) Swallowing;

(d) Cognitive aspects of communication may include communication disability and other functional disabilities associated with cognitive impairment;

(e) Central auditory processing disorders in collaboration with other qualified professionals;

(f) Social aspects of communication may include challenging behaviors, ineffective social skills, lack of communication opportunities;

(g) Augmentative and alternative communication include the development of techniques and strategies that include selecting, and dispensing of aids and devices (excluding hearing instruments) and providing training to individuals, their families, and other communication partners in their use.

(5) Habilitation/rehabilitation of communication and swallowing to include the following:

(a) Treatment of speech disorders including articulation, fluency and voice.

(b) Treatment of language disorders including phonology, morphology, syntax, semantics, and pragmatics; and include receptive and expressive communication in oral, written, graphic and manual modalities.

(c) Treatment of swallowing disorders.

(d) Treatment of the cognitive aspects of communication.

(e) Treatment of central auditory processing disorders in which there is evidence of speech, language, and/or other cognitive communication disorders.

(f) Treatment of individuals with hearing loss, including aural rehabilitation and related counseling.

(g) Treatment of social aspects of communication, including challenging behaviors, ineffective social skills, and lack of communication opportunities.

(6) All services must be provided with referral to other qualified resources when appropriate.

[Statutory Authority: RCW 18.35.161 (3) and (10). 99-19-058, § 246-828-105, filed 9/15/99, effective 10/16/99; 98-14-055, § 246-828-105, filed 6/26/98, effective 7/27/98.]

WAC 246-828-220 Unfair or deceptive practices, unethical conduct and unfair methods of competition—Used or rebuilt products. (1) A licensee may not represent, directly or indirectly, that any industry product or part thereof is new, unused, or rebuilt, when such is not the fact.

(2) In the marketing of a hearing aid which has been used, or which contains used parts, a licensee shall make full and nondeceptive disclosure of such fact in all advertising and promotional literature relating to the product, on the container, box or package in which such product is packed or enclosed and, if the product has the appearance of being new, on the product itself. The required disclosure may be made by use of such words as "used," "secondhand," "repaired," or "rebuilt," whichever most accurately describes the product involved.

(3) A licensee shall not misrepresent the identity of the rebuilder of a hearing aid. If the rebuilding of a hearing aid was done by other than the original manufacturer, a licensee shall disclose such fact wherever the original manufacturer is identified.

[Statutory Authority: RCW 18.35.161. 91-11-031 (Order 165B), recodified as § 246-828-220, filed 5/8/91, effective 6/8/91; Readopted by 84-14-100 (Order PL 469), § 308-50-260, filed 7/3/84; Order PL 159, § 308-50-260, filed 2/8/74.]

WAC 246-828-270 Personal disclosure. A licensee/certificate holder who contacts a prospective purchaser away from the licensee's/certificate holder's place of business must:

(1) When the contact is in person, present the prospective purchaser with written notice of:

(a) His or her name, the name of his or her business firm, his or her business address and telephone number;

(b) The number of his or her license/certificate.

(2) Telephone contact with prospective purchasers must disclose the name of the licensee/certificate holder, name and location of his or her principal establishment and purpose of call.

(3) When the contact is through a direct mail piece or other advertising initiated by the licensee/certificate holder, clearly show on all promotional items the business/establishment name, the principal establishment address and telephone number, not just the address or telephone number where he/she will be on given days.

(4) A principal establishment is one which is bonded pursuant to RCW 18.35.240.

[Statutory Authority: RCW 18.35.161. 98-06-079, § 246-828-270, filed 3/3/98, effective 4/3/98; 91-11-032 (Order 166B), § 246-828-270, filed 5/8/91, effective 6/8/91; 91-11-031 (Order 165B), recodified as § 246-828-270, filed 5/8/91, effective 6/8/91; 85-23-065 (Order PL 563), § 308-50-310, filed 11/19/85; Order PL 159, § 308-50-310, filed 2/8/74.]

WAC 246-828-290 Purchaser recision rights. In addition to the receipt and disclosure information required by RCW 18.35.030, 18.35.185, 63.14.040 and 63.14.120, every retail agreement for the sale of hearing instruments shall contain or have attached the following notice to buyer in twelve point type or larger. The language in part 1 under "Notice to Buyer" is intended to have the same legal effect as the notices required in RCW 63.14.040(2) and 63.14.120(3) and may be substituted for those notices.

The rights summarized in the "Notice to Buyer" must be made known to the purchaser before the contract is executed. The licensee or certificate holder must provide this "Notice to Buyer" in writing to the purchaser. The purchaser must demonstrate knowledge of these rights by initialing each numbered section of the "Notice to Buyer" and by signing his or her name in the appropriate space following the "Notice to Buyer."

Notice to Buyer

Do not sign this agreement before you read it or if any spaces intended for the agreed terms are blank.

You are entitled to receive a copy of this agreement at the time you sign it.

The seller's business address must be shown on the agreement.

Section 1 CANCELLATION - WITHIN THREE DAYS

Purchaser's Initial .....

You may cancel this agreement within three days, without explaining your reasons, if the seller solicited it in person and you signed it at a place other than the seller's business address.

To cancel this agreement without explaining your reasons, you must notify the seller in writing that you are canceling the agreement. You may deliver the written notice to the seller at the seller's business address. Alternatively, you may send the written notice by certified mail, return receipt requested, to the seller at the seller's business address.

Your written notice must be mailed or delivered by midnight of the third business day after you signed this agreement.

Any merchandise you received under this agreement must be in its original condition. You must return it to the seller or make it available to the seller at the same place it was delivered to you.

The seller must refund to you all deposits, including any down payment, and must return to you all goods traded in as part of the agreement.

You will incur no additional liability for canceling the agreement.

Section 2 RECISION - WITHIN THIRTY DAYS

Purchaser's Initial .....

You may rescind (or terminate) the agreement within thirty days, for reasonable cause. This thirty-day period is called the "recision period."

To rescind this agreement, you must notify the seller in writing that you are rescinding the agreement for reasonable cause pursuant to RCW 18.35.185(1). (Reasonable cause does not include cosmetic concerns or a mere change of mind.) You may deliver the written notice to the seller at the seller's business address. Alternatively, you may send the written notice by certified mail, return receipt requested, to the seller at the seller's business address.

Your written notice must be mailed or delivered by midnight of the thirtieth day after delivery of the hearing instrument.

Any merchandise you received under this agreement must be in its original condition, except for normal wear and tear. You must return it to the seller or make it available to the seller at the same place it was delivered to you.

The seller must refund to you all deposits, including any down payment, and must return to you all goods traded in as part of the agreement. However, for each hearing instrument you return, the seller may keep either one hundred fifty dollars or fifteen percent of the total purchase price, whichever is less. The seller also may deduct any costs incurred in making traded-in goods ready for resale.

The seller must refund your money and return your traded goods, or have them postmarked and in the mail to you, within ten business days after receiving your notice of recision.

You will incur no additional liability for rescinding the agreement.

Section 3 EXTENSION OF RECISION PERIOD

Purchaser's Initial .....

If you notify the seller within the thirty-day recision period that your hearing instrument has developed a problem that constitutes reasonable cause to rescind the agreement or that prevents you from evaluating your hearing instrument, the seller must extend the recision period. The recision period stops running on the date you notify the seller of the problem and starts running again on the date the seller notifies you that your hearing instrument is ready for redelivery.

You and the seller may agree to a recision period longer than thirty days.

Whenever the recision period is extended, the seller must provide you written notice of the last date upon which you may demand a refund and return of traded goods.

WAC 246-828-330 Notice of availability and location of follow-up services. Every licensee/certificate holder shall provide to a hearing instrument purchaser, in writing prior to the signing of the contract, notice of availability of services. The notice shall include the specific location of the follow-up service, including date and time if applicable.

[Statutory Authority: RCW 18.35.161. 98-06-079, § 246-828-330, filed 3/3/98, effective 4/3/98; 91-11-031 (Order 165B), recodified as § 246-828-330, filed 5/8/91, effective 6/8/91; 85-10-024 (Order PL 526), § 308-50-400, filed 4/24/85.]

WAC 246-828-350 Reasonable cause for recision. The purchaser of the hearing instrument(s) may rescind the purchase and recover moneys in accordance with RCW 18.35.190(2) for reasonable cause. The term "reasonable cause" is defined to include the following:

(1) Any material misstatement of fact or misrepresentation by the licensee/certificate holder regarding the hearing instrument(s) or fitting and dispensing services to be provided which the purchaser relied on or which induced the purchaser into making the agreement;

(2) Failure by the licensee/certificate holder to provide the purchaser with the hearing instrument(s) and fitting and dispensing services which conform to those specified in the purchase agreement between the parties;

(3) Diagnosis of a medical condition unknown to the purchaser at the time of purchase, which precludes the purchaser from using the hearing instrument(s);

(4) Failure by the licensee/certificate holder to remedy a significant material defect of the hearing instrument(s) within a reasonable period of time in accordance with RCW 18.35.190 (2)(c);

(5) The hearing instrument(s) and/or fitting and dispensing services would not be in accordance with accepted practices of the industry; and

(6) The licensee/certificate holder fails to meet any standard of conduct prescribed in the laws regarding the fitting and dispensing of hearing instruments and this failure adversely affects in any way the transaction which the purchaser seeks to rescind.

[Statutory Authority: RCW 18.35.161. 98-06-079, § 246-828-350, filed 3/3/98, effective 4/3/98; 91-11-031 (Order 165B), recodified as § 246-828-350, filed 5/8/91, effective 6/8/91; 89-04-017 (Order PM 818), § 308-50-420, filed 1/23/89; 86-09-064 (Order PL 586), § 308-50-420, filed 4/17/86.]

WAC 246-828-360 Procedure for declaratory ruling. (1) In accord with RCW 34.05.240, on petition of any interested person, the board may issue a declaratory ruling with respect to the applicability to any person, property, or state of facts of any rule or statute enforceable by it.

(2) Such interested person shall submit the petition for declaratory ruling in written form to the board's departmental staff.

(3) The petition shall set forth, at a minimum, the following:

(a) The name of the person(s) seeking the ruling,

(b) The person's or persons' interest in the subject matter of the petition,

(c) The rule or statute at issue,

(d) A concise statement of the facts at issue, and

(e) A statement by the petitioner that he or she understands that he or she waives any possible objections to the board's fitness to hear the same matter as a disciplinary case should the board decline to issue a declaratory ruling or should the board issue a ruling contrary to the petitioner(s) argument and the facts otherwise warrant prosecution.

(4) The board shall make the preliminary decision whether or not to accept the petition at the first meeting subsequent to the department's receipt of the request or as soon thereafter as reasonably possible.

(5) If the board accepts the petition, the matter may be referred to committee, but shall ultimately be decided by a quorum of the board.

(6) The party or parties to the petition may request leave to present argument which may or may not be heard at the discretion of the board.

(7) The ruling shall be binding, pursuant to RCW 34.05.240, if issued after argument and stated to be binding between the board and the petitioner.

[Statutory Authority: RCW 18.35.161 (1) and (3). 95-19-017, § 246-828-360, filed 9/7/95, effective 10/8/95. Statutory Authority: RCW 18.35.161. 91-11-031 (Order 165B), recodified as § 246-828-360, filed 5/8/91, effective 6/8/91; 86-09-064 (Order PL 586), § 308-50-430, filed 4/17/86.]

WAC 246-828-370 AIDS prevention and information education requirements. Applicants must complete four clock hours of AIDS education as required in chapter 246-12 WAC, Part 8.

[Statutory Authority: RCW 43.70.280. 98-05-060, § 246-828-370, filed 2/13/98, effective 3/16/98. WAC 246-828-500 Citation and purpose. The purpose of these rules is to require licensed hearing aid fitters and dispensers to continue their professional education as a condition of maintaining a license to practice the fitting and dispensing of hearing aids in this state.

[Statutory Authority: RCW 18.35.161(3). 93-07-007 (Order 342B), § 246-828-500, filed 3/5/93, effective 4/5/93.]

WAC 246-828-510 Continuing education. (1) Licensed hearing instrument fitter/dispensers must complete ten hours of continuing education as required in chapter 246-12 WAC, Part 7.

(2) A maximum of two hours may be in the area of practice management. Practice management includes, but is not limited to, marketing, computer recordkeeping, and personnel issues.

[Statutory Authority: RCW 43.70.280. 98-05-060, § 246-828-510, filed 2/13/98, effective 3/16/98. Statutory Authority: RCW 18.35.161(3). 93-07-007 (Order 342B), § 246-828-510, filed 3/5/93, effective 4/5/93.]

WAC 246-828-530 Exceptions for continuing education. An exception for continuing education requirements includes, but is not limited to, severe illness.

[Statutory Authority: RCW 43.70.280. 98-05-060, § 246-828-530, filed 2/13/98, effective 3/16/98. Statutory Authority: RCW 18.35.161 (1) and (3). 95-19-017, § 246-828-530, filed 9/7/95, effective 10/8/95. Statutory Authority: RCW 18.35.161(3). 93-07-007 (Order 342B), § 246-828-530, filed 3/5/93, effective 4/5/93.]

WAC 246-828-550 Programs approved by the board on fitting and dispensing of hearing aids. Completion of the following are deemed to qualify an individual for continuing education credit:

(1) Attendance at a continuing education program having a featured speaker(s) or panel which has been approved by an industry-recognized local, state, national, or international organization.

(2) Participation as a speaker or panel member in a continuing education program which has been approved by an industry-recognized local, state, national, or international organization. A maximum of two hours of such participation may be applied towards the total ten hours required.

(3) Completion as a student, of a written, video, or audio continuing education program which has been approved by an industry-recognized local, state, national, or international organization. Only such programs which have accompanying required tests of comprehension upon completion and are independently graded shall be accepted.

[Statutory Authority: RCW 18.35.161 (1) and (3). 95-19-017, § 246-828-550, filed 9/7/95, effective 10/8/95. Statutory Authority: RCW 18.35.161(3). 93-07-007 (Order 342B), § 246-828-550, filed 3/5/93, effective 4/5/93.]

WAC 246-828-570 Adjudicative proceedings. The board adopts the model procedural rules for adjudicative proceedings as adopted by the department of Health and contained in chapter 246-11 WAC, including subsequent amendments.

[Statutory Authority: RCW 18.35.161(3). 93-17-044, § 246-828-570, filed 8/12/93, effective 9/12/93.]

WAC 246-828-990 Hearing aid fitter/dispenser, audiologist and speech language pathologists fees and renewal cycle. (1) Licenses and certificates must be renewed every year on the practitioner's birthday as provided in chapter 246-12 WAC, Part 2.

(2) The following nonrefundable fees will be charged for fitter/dispensers:

Title of Fee	Fee
Fitter/dispenser:	
License application	$125.00
Initial license	100.00
Renewal	200.00
Written Exam	100.00

Chapter 246-830 WAC
MASSAGE PRACTITIONERS

WAC

DISPOSITION OF SECTIONS FORMERLY CODIFIED IN THIS CHAPTER

246-830-030 Reciprocity. [Statutory Authority: RCW 18.108.025. 91-01-077 (Order 102B), recodified as § 246-830-030, filed 12/17/90, effective 1/31/91; 88-19-048 (Order PM 770), § 308-51-021, filed 9/14/88.] Repealed by 94-13-181, filed 6/21/94, effective 7/22/94. Statutory Authority: RCW 18.108.025(1).

246-830-050 AIDS prevention and information education requirements. [Statutory Authority: RCW 18.108.085 and 70.24.270. 92-02-018 (Order 224), § 246-830-050, filed 12/23/91, effective 1/23/92. Statutory Authority: RCW 43.70.040. 91-02-049 (Order 121), recodified as § 246-830-050, filed 12/27/90, effective 1/31/91. Statutory Authority: RCW 70.24.270. 88-22-077 (Order PM 786), § 308-51-320, filed 11/2/88.] Repealed by 98-05-060, filed 2/13/98, effective 3/16/98. Statutory Authority: RCW 43.70.280.

246-830-220 Grading of examinations. [Statutory Authority: RCW 18.108.025. 91-01-077 (Order 102B), recodified as § 246-830-220, filed 12/17/90, effective 1/31/91; 88-11-011 (Order PM 725), § 308-51-110, filed 5/10/88. Statutory Authority: RCW 18.108.020 and 18.108.070. 85-01-043 (Order PL 501), § 308-51-110, filed 12/13/84. Statutory Authority: RCW 18.108.020. 79-10-042 (Order 314, Resolution No. 9/79), § 308-51-110, filed 9/13/79; Order PL 248, § 308-51-110, filed 5/25/76.] Repealed by 97-20-101, filed 9/29/97, effective 10/30/97. Statutory Authority: RCW 43.70.040.

246-830-230 Frequency and location of examinations. [Statutory Authority: RCW 18.108.025(1). 95-11-108, § 246-830-230, filed 5/23/95, effective 6/23/95. Statutory Authority: RCW 18.108.085. 92-02-018 (Order 224), § 246-830-230, filed 12/23/91, effective 1/23/92. Statutory Authority: RCW 18.108.025. 91-01-077 (Order 102B), recodified as § 246-830-230, filed 12/17/90, effective 1/31/91; 90-13-005 (Order 053), § 308-51-120, filed 6/7/90, effective 7/8/90. Statutory Authority: RCW 18.108.020. 83-23-077 (Order PL 448), § 308-51-120, filed 11/18/83; 80-01-017 (Order PL 330, Resolution No. 12/79), § 308-51-120, filed 12/13/79; Order PL 248, § 308-51-120, filed 5/25/76.] Repealed by 97-20-101, filed 9/29/97, effective 10/30/97. Statutory Authority: RCW 43.70.040.

246-830-240 Examination appeal procedures. [Statutory Authority: RCW 18.108.025. 91-01-077 (Order 102B), recodified as § 246-830-240, filed 12/17/90, effective 1/31/91; 88-11-011 (Order PM 725), § 308-51-125, filed 5/10/88. Statutory Authority: RCW 18.108.020. 87-21-049 (Order PM 685), § 308-51-125, filed 10/15/87.] Repealed by 97-20-101, filed 9/29/97, effective 10/30/97. Statutory Authority: RCW 43.70.040.

246-830-250 Reexamination. [Statutory Authority: RCW 18.108.025. 91-01-077 (Order 102B), recodified as § 246-830-250, filed 12/17/90, effective 1/31/91; 90-13-005 (Order 053), § 308-51-130, filed 6/7/90, effective 7/8/90. Statutory Authority: RCW 18.108.020. 80-04-012 (Order PL 336), § 308-51-130, filed 3/10/80; Order PL 248, § 308-51-130, filed 5/25/76.] Repealed by 97-20-101, filed 9/29/97, effective 10/30/97. Statutory Authority: RCW 43.70.040.

246-830-255 Time limitation on initial application for licensure. [Statutory Authority: RCW 18.108.025(1). 94-13-181, § 246-830-255, filed 6/21/94, effective 7/22/94.] Repealed by 97-20-101, filed 9/29/97, effective 10/30/97. Statutory Authority: RCW 43.70.040.

246-830-260 Special examination. [Statutory Authority: RCW 18.108.025. 91-01-077 (Order 102B), recodified as § 246-830-260, filed 12/17/90, effective 1/31/91; 88-19-048 (Order PM 770), § 308-51-140, filed 9/14/88; 88-11-011 (Order PM 725), § 308-51-140, filed 5/10/88; Order PL 248, § 308-51-140, filed 5/25/76.] Repealed by 97-20-101, filed 9/29/97, effective 10/30/97. Statutory Authority: RCW 43.70.040.

246-830-270 Reexamination for assurance of competency. [Statutory Authority: RCW 18.108.085. 92-02-018 (Order 224), § 246-830-270, filed 12/23/91, effective 1/23/92. Statutory Authority: RCW 18.108.025. 91-01-077 (Order 102B), recodified as § 246-830-270, filed 12/17/90, effective 1/31/91; 88-11-011 (Order PM 725), § 308-51-220, filed 5/10/88.] Repealed by 97-20-101, filed 9/29/97, effective 10/30/97. Statutory Authority: RCW 43.70.040.

246-830-280 Dismissal from examination. [Statutory Authority: RCW 18.108.025(1). 94-13-181, § 246-830-280, filed 6/21/94, effective 7/22/94.] Repealed by 97-20-101, filed 9/29/97, effective 10/30/97. Statutory Authority: RCW 43.70.040.

246-830-410 Definitions. [Statutory Authority: RCW 18.108.025(1). 94-13-181, § 246-830-410, filed 6/21/94, effective 7/22/94. Statutory Authority: RCW 18.108.025. 92-15-153 (Order 291B), § 246-830-410, filed 7/22/92, effective 8/22/92; 91-01-077 (Order 102B), recodified as § 246-830-410, filed 12/17/90, effective 1/31/91; 88-13-038 (Order PM 739), § 308-51A-010, filed 6/9/88.] Repealed by 95-11-108, filed 5/23/95, effective 6/23/95. Statutory Authority: RCW 18.108.025(1).

246-830-465 Effective date of requirement. [Statutory Authority: RCW 18.108.025(1). 94-13-181, § 246-830-465, filed 6/21/94, effective 7/22/94.] Repealed by 98-05-060,

filed 2/13/98, effective 3/16/98. Statutory Authority: RCW 43.70.280.

246-830-470 Exemptions. [Statutory Authority: RCW 18.108.025(1). 94-13-181, § 246-830-470, filed 6/21/94, effective 7/22/94.] Repealed by 98-05-060, filed 2/13/98, effective 3/16/98. Statutory Authority: RCW 43.70.280.

246-830-480 Certification of compliance. [Statutory Authority: RCW 18.108.025(1). 94-13-181, § 246-830-480, filed 6/21/94, effective 7/22/94.] Repealed by 98-05-060, filed 2/13/98, effective 3/16/98. Statutory Authority: RCW 43.70.280.

246-830-690 Cooperation with investigation. [Statutory Authority: RCW 18.108.085, 18.130.050 and 18.130.070. 92-02-018 (Order 224), § 246-830-690, filed 12/23/91, effective 1/23/92. Statutory Authority: RCW 43.70.040. 91-02-049 (Order 121), recodified as § 246-830-690, filed 12/27/90, effective 1/31/91. Statutory Authority: RCW 18.130.070. 89-14-092 (Order PM 842), § 308-51-310, filed 6/30/89.] Repealed by 97-20-101, filed 9/29/97, effective 10/30/97. Statutory Authority: RCW 43.70.040.

MISCELLANEOUS

WAC 246-830-005 Definitions. For the purpose of administering chapter 18.108 RCW, the following definitions shall apply:

(1) "Massage" is as defined in RCW 18.108.010.

(2) "Massage school" is an institution which has the sole purpose of offering training in massage therapy.

(3) "Massage program" is training in massage therapy offered by an academic institution which also offers training in other areas of study. A program is an established area of study offered on a continuing basis.

(4) "Apprenticeship program" is defined for the purposes of this chapter as training in massage administered by an apprenticeship trainer that satisfies the educational requirements for massage set forth in WAC 246-830-430, 246-830-440, and 246-830-450. This training shall be offered by an apprenticeship trainer to no more than three apprentices at one time and shall be completed within two years.

(5) "Apprenticeship trainer" is defined as a massage practitioner licensed in the state of Washington with not less than five current years of experience in full-time practice.

(6) "Apprentice" is defined as an individual enrolled in an apprenticeship program, and shall be held to the same standards as students in schools or programs.

(7) "Student" shall mean an individual currently enrolled in an approved school, program, or apprenticeship program, who is practicing massage solely for the purposes of education as is incidental to their current course work and who is not receiving compensation for said practice.

(8) "Direct supervision" shall mean a faculty member is on the premises, is quickly and easily available and the client has been examined by the faculty member at such time as acceptable massage practice requires.

[Statutory Authority: RCW 18.108.025(1) and 18.108.085 (1)(a). 96-22-098, § 246-830-005, filed 11/6/96, effective 12/7/96. Statutory Authority: RCW 18.108.025(1). 95-11-108, § 246-830-005, filed 5/23/95, effective 6/23/95.]

WAC 246-830-010 Meetings of the board. The board shall meet as needed throughout the year to accomplish the business of the board. The meeting dates are listed in the Washington State Register. Information regarding meetings of the board may be obtained by contacting: Department of Health, Board of Massage, P.O. Box 47869, 1300 Quince St. SE, Olympia, WA 98504-7869.

[Statutory Authority: RCW 18.108.025(1). 94-13-181, § 246-830-010, filed 6/21/94, effective 7/22/94.]

WAC 246-830-020 Applications. Application forms for licensure shall be prepared by the secretary and shall provide for the statement of all information required for the license in question. An applicant shall be required to furnish to the secretary a current photograph of passport size, approximately two inches by two inches, with the original application and satisfactory evidence to establish that all requirements for the license have been fulfilled by the applicant, including the requirement that the applicant be of good moral character and is not in violation of chapter 18.130 RCW.

[Statutory Authority: RCW 18.108.085. 92-02-018 (Order 224), § 246-830-020, filed 12/23/91, effective 1/23/92. Statutory Authority: RCW 18.108.025. 91-01-077 (Order 102B), recodified as § 246-830-020, filed 12/17/90, effective 1/31/91; 88-11-011 (Order PM 725), § 308-51-010, filed 5/10/88. Statutory Authority: RCW 18.108.020 and 18.108.070. 85-01-043 (Order PL 501), § 308-51-010, filed 12/13/84. Statutory Authority: RCW 18.108.020. 81-11-005 (Order PL 379), § 308-51-010, filed 5/11/81; Order PL 255, § 308-51-010, filed 8/20/76; Order PL 231, § 308-51-010, filed 10/30/75.]

WAC 246-830-035 Licensing without examination. (1) A license to practice massage shall be issued without examination provided an individual holds a current license to practice massage in another jurisdiction that has examination and education requirements substantially equivalent to those in Washington.

(2) An individual applying for a license without examination shall submit to the department:

(a) A completed application on a form provided by the department;

(b) The required nonrefundable application fee;

(c) Documentation that the examination and education requirements of the other jurisdiction are substantially equivalent to those in Washington;

(d) Successful completion of an open book test provided by the department which demonstrates a working knowledge of Washington law as contained in chapters 18.108 and 18.130 RCW, and chapter 246-830 WAC;

(e) Applicants must complete four clock hours of AIDS education as required in chapter 246-12 WAC, Part 8;

(f) Written certification from all jurisdictions in which the applicant has practiced massage verifying that the applicant has a record of good standing and has not been the subject of any disciplinary action.

(3) Restrictions:

(a) All applicants shall be subject to the grounds for denial or issuance of a license conditioned on the applicant's compliance with an order entered pursuant to RCW 18.130.160;

(b) An individual who has failed the Washington state licensing examination shall not be eligible for licensing without examination.

(4) If application for licensing without examination is denied, the applicant may apply for licensing as set forth in RCW 18.108.070.

(5) A license issued without examination is subject to an original license fee and all other renewal requirements set forth in this chapter.

[Statutory Authority: RCW 43.70.280. 98-05-060, § 246-830-035, filed 2/13/98, effective 3/16/98. Statutory Authority: RCW 18.108.025(1). 94-13-181, § 246-830-035, filed 6/21/94, effective 7/22/94.]

WAC 246-830-040 Equipment and sanitation. (1) All practitioners utilizing hydrotherapies including but not limited to cabinet, vapor or steam baths, whirlpool, hot tub or tub baths shall have available adequate shower facilities.

(2) All cabinets, showers, tubs, basins, massage or steam tables, hydrotherapy equipment, and all other fixed equipment used shall be thoroughly cleansed and shall be rendered free from harmful organisms by the application of an accepted bactericidal agent.

(3) Combs, brushes, shower caps, mechanical, massage and hydrotherapy instruments, or bathing devices that come in contact with the body shall be sterilized or disinfected by modern and approved methods and instruments. Devices, equipment or parts thereof having been used on one person shall be sterilized or disinfected before being used on another person.

(4) Impervious material shall cover, full length, all massage tables or pads, directly under fresh sheets and linens or disposable paper sheets.

(5) All single service materials and clean linen such as sheets, towels, gowns, pillow cases and all other linens used in the practice of massage, shall be furnished by the practitioner for the use of each client. Linens shall be stored in a sanitary manner.

(6) All towels and linens used for one person shall be laundered or cleaned before they are used by any other person.

(7) All soiled linens shall be immediately placed in a covered receptacle.

(8) Soap and clean towels shall be provided by the practitioner for use by clients and employees.

(9) All equipment shall be clean, well maintained and in good repair.

[Statutory Authority: RCW 18.108.025. 91-01-077 (Order 102B), recodified as § 246-830-040, filed 12/17/90, effective 1/31/91; 88-11-011 (Order PM 725), § 308-51-050, filed 5/10/88; Order PL 231, § 308-51-050, filed 10/30/75.]

EXAMINATION

WAC 246-830-201 Scope of examination. (1) The examination for a massage practitioner's license shall, except as noted in subsection (2) of this section, consist of written questions as well as a practical demonstration of massage therapy.

(2) An applicant handicapped by blindness will not be subject to a written examination. A blind applicant will be asked questions orally to appropriately test the range and depth of his/her knowledge of the subjects shown in subsection (3) of this section.

(3) Questions will be sufficient in number to satisfy the board of massage that the applicant has been given an adequate opportunity to express his or her knowledge relating to subjects as stated in RCW 18.108.073(2).

(4) The practical demonstration of massage will be conducted before the examiner(s) and the applicant will be required to perform massage therapy. The following will be evaluated:

(a) Professional manner,

(b) Lubrication,

(c) Overall demonstration of work: Pressure, rhythm, smoothness, organization,

(d) Interaction with client,

(e) Effleurage,

(f) Petrissage,

(g) Friction,

(h) Vibration,

(i) Tapotement,

(j) Joint demonstration and Swedish gymnastics,

(k) Specific muscle demonstration,

(l) Client endangerment,

(m) Draping and turning,

(n) Treatment of various conditions.

[Statutory Authority: RCW 18.108.025. 91-01-077 (Order 102B), recodified as § 246-830-201, filed 12/17/90, effective 1/31/91; 88-11-011 (Order PM 725), § 308-51-100, filed 5/10/88. Statutory Authority: RCW 18.108.020 and 18.108.070. 85-01-043 (Order PL 501), § 308-51-100, filed 12/13/84. Statutory Authority: RCW 18.108.020. 80-01-018 (Order PL 329, Resolution No. 12/79), § 308-51-100, filed 12/13/79; Order PL 248, § 308-51-100, filed 5/25/76.]

WAC 246-830-290 Documents in a foreign language. All application documents submitted in a foreign language shall be accompanied by an accurate translation of those documents into English. Translated documents shall bear a notarized affidavit certifying that the translator is competent in both the language of the document and the English language and that the translation is a true and complete translation of the foreign language original. Costs of translation of all documents shall be at the expense of the applicant.

[Statutory Authority: RCW 18.108.025(1). 94-13-181, § 246-830-290, filed 6/21/94, effective 7/22/94.]

EDUCATION

WAC 246-830-401 Scope and purpose. (1) The minimum educational requirements for licensure to practice massage therapy in Washington is successful completion of a course of study from a massage school, program, or apprenticeship program approved by the board.

(2) The purpose of this chapter is to provide a set of standards and procedures by which massage schools, programs, or apprenticeship programs may obtain approval by the board in order that graduates of those schools, programs, or apprenticeship programs may be permitted to take examinations for licensure.

[Statutory Authority: RCW 18.108.025(1). 95-11-108, § 246-830-401, filed 5/23/95, effective 6/23/95. Statutory Authority: RCW 18.108.025. 92-15-153 (Order 291B), § 246-830-401, filed 7/22/92, effective 8/22/92; 91-01-077 (Order 102B), recodified as § 246-830-401, filed 12/17/90, effective 1/31/91; 88-13-038 (Order PM 739), § 308-51A-030, filed 6/9/88.]

WAC 246-830-420 Approval of school, program, or apprenticeship program. The board may accept proof of a national professional association's approval of a school or program based on standards and requirements which are substantially equivalent to those identified in this chapter, in lieu of the requirements contained in this chapter. Approval in this manner may be requested on a form provided by the department. The board will consider for approval any school, program, or apprenticeship program which meets the requirements as outlined in this chapter.

(1) Approval of any other school or program may be requested on a form provided by the department.

(2) Application for approval of a school or program, shall be made by the authorized representative of the school or the administrator of the apprenticeship agreement.

(3) The authorized representative of the school or the administrator of the apprenticeship program may request approval of the school or program, as of the date of the application or retroactively to a specified date.

(4) The application for approval of a school, program, or apprenticeship program shall include, but not be limited to, documentation required by the board pertaining to: Syllabus, qualifications of instructors, training locations, and facilities, outline of curriculum plan specifying all subjects and length in hours such subjects are taught, class objectives, and a sample copy of one of each of the following exams: Anatomy, physiology, and massage therapy.

(5) Any school, program, or apprenticeship program that is required to be licensed by private vocational education (see chapter 28C.10 RCW or Title 28B RCW), or any other statute, must complete these requirements before being considered by the board for approval.

(6) The board will evaluate the application and, if necessary, conduct a site inspection of the school, program, or apprenticeship program, prior to granting approval by the board.

(7) Upon completion of the evaluation of the application, the board may grant or deny approval or grant approval conditioned upon appropriate modification to the application.

(8) In the event the department denies an application or grants conditional approval, the authorized representative of the applicant's school or program may request a review within thirty days of the board's adverse decision/action. Should a request for review of an adverse action be made after thirty days following the board's action, the contesting party may obtain review only by submitting a new application.

(9) The authorized representative of an approved school, program or the administrator of an apprenticeship agreement shall notify the board of significant changes with respect to information provided on the application within sixty days.

(10) The board may inspect or review an approved school, program, or apprenticeship program at reasonable intervals for compliance. Approval may be withdrawn if the board finds failure to comply with the requirements of law, administrative rules, or representations in the application.

(11) The authorized representative of a school, program or administrator of an apprenticeship agreement must immediately correct the deficiencies which resulted in withdrawal of the board's approval.

[Statutory Authority: RCW 18.108.025(1). 95-11-108, § 246-830-420, filed 5/23/95, effective 6/23/95. Statutory Authority: RCW 18.108.025. 92-15-153 (Order 291B), § 246-830-420, filed 7/22/92, effective 8/22/92; 91-01-077 (Order 102B), recodified as § 246-830-420, filed 12/17/90, effective 1/31/91; 88-13-038 (Order PM 739), § 308-51A-020, filed 6/9/88.]

WAC 246-830-430 Training. (1) A massage education program shall have a curriculum and system of training consistent with its particular area of practice. The training in massage therapy shall consist of a minimum of five hundred hours. An hour of training is defined as fifty minutes of actual instructional time. Certification in American Red Cross first aid and American Heart Association CPR or the equivalent shall be required. This requirement is in addition to the five hundred hours of training in massage therapy. These five hundred hours are not to be completed in less than six months and shall consist of the following:

(a) One hundred thirty hours of anatomy, physiology, and kinesiology including palpation, range of motion, and physics of joint function. There must be a minimum of forty hours of kinesiology.

(b) Fifty hours of pathology including indications and contraindications consistent with the particular area of practice.

(c) Two hundred sixty-five hours of theory and practice of massage to include techniques, remedial movements, body mechanics of the practitioner, and the impact of techniques on pathologies. A maximum of fifty of these hours may include time spent in a student clinic. Hydrotherapy shall be included when consistent with the particular area of practice.

(d) Fifty-five hours of clinical/business practices, at a minimum to include hygiene, recordkeeping, medical terminology, professional ethics, business management, human behavior, client interaction, and state and local laws.

(2) To receive credit in an apprenticeship program for previous education, this education must have been completed within the five-year period prior to enrollment in the apprenticeship program.

(3) Students attending schools and programs outside the state of Washington shall acquire a working knowledge of the laws of Washington state applying to massage therapy.

[Statutory Authority: RCW 18.108.025(1). 95-11-108, § 246-830-430, filed 5/23/95, effective 6/23/95; 94-13-181, § 246-830-430, filed 6/21/94, effective 7/22/94. Statutory Authority: RCW 18.108.025. 92-15-153 (Order 291B), § 246-830-430, filed 7/22/92, effective 8/22/92; 91-01-077 (Order 102B), recodified as § 246-830-430, filed 12/17/90, effective 1/31/91; 88-13-038 (Order PM 739), § 308-51A-040, filed 6/9/88.]

WAC 246-830-440 Curriculum—Academic standards—Faculty—Student clinic. (1) The curriculum of the school, program, or apprenticeship program shall be designed and presented to meet or exceed the requirement of five hundred hours.

(2) Academic standards. The school, program or apprenticeship trainer shall regularly evaluate the quality of its instruction and have a clearly defined set of standards of competence required of its students. Promotion to each successive phase of the program and graduation shall be dependent on mastery of the knowledge and skills presented in the program.

(3) Faculty. Apprenticeship trainers and faculty members shall be qualified by training and experience to give effective instruction in the subject(s) taught. The apprenticeship trainer and faculty should develop and evaluate the curriculum instructional methods and facilities; student discipline, welfare, and counseling; assist in the establishment of administrative and educational policies, and scholarly and professional growth. Schools, programs, or apprenticeship programs shall not discriminate on the basis of sex, race, age, color, religion, physical handicap, or national or ethnic origin in the recruitment and hiring of faculty.

(4) Student clinic (optional program). The clinical facilities shall be adequate in size, number, and resources to provide for student practice of massage on the general public. There shall be properly equipped rooms for consultations, massage therapy or treatment, and equipment as required in the practice of massage. A faculty member who is a licensed massage practitioner and adequately experienced in massage therapy must be present in the clinic at all times the clinic is open and in direct supervision of, and have final decision in, the massage therapy which is rendered to clients by students.

[Statutory Authority: RCW 18.108.025(1). 95-11-108, § 246-830-440, filed 5/23/95, effective 6/23/95. WAC 246-830-450 Health, sanitation, and facility standards. All schools, programs, and apprenticeship programs shall have adequate facilities and equipment available for students learning massage therapy. All facility equipment shall be maintained in accordance with local rules and ordinances in addition to those imposed by chapter 246-830 WAC. Instructional and practice equipment shall be similar to that found in common occupational practice. An adequate reference library, appropriate to the subjects being taught, shall be available.

[Statutory Authority: RCW 18.108.025(1). 95-11-108, § 246-830-450, filed 5/23/95, effective 6/23/95. Statutory Authority: RCW 18.108.025. 92-15-153 (Order 291B), § 246-830-450, filed 7/22/92, effective 8/22/92; 91-01-077 (Order 102B), recodified as § 246-830-450, filed 12/17/90, effective 1/31/91; 88-13-038 (Order PM 739), § 308-51A-060, filed 6/9/88.]

WAC 246-830-460 Continuing education requirement—Amount. Licensed massage therapists must complete sixteen hours of continuing education every two years as required in chapter 246-12 WAC, Part 7.

[Statutory Authority: RCW 43.70.280. 98-05-060, § 246-830-460, filed 2/13/98, effective 3/16/98. Statutory Authority: RCW 18.108.025(1). 94-13-181, § 246-830-460, filed 6/21/94, effective 7/22/94.]

WAC 246-830-475 Qualification of program for continuing education credit. Completion of a formal program of learning which serves to enhance the professional knowledge and development of the licensee shall qualify as continuing education credit. For the purposes of this chapter, a formal program of learning shall be defined as any of the following:

(1) Attendance at a local, state, national or international continuing education program having a featured speaker;

(2) First aid, CPR or emergency related classes;

(3) Viewing of educational video tapes not to exceed four credits;

(4) Teaching a seminar for the first time, not to exceed eight hours;

(5) Business and management courses not to exceed six hours;

(6) Specialized training in an aspect of massage therapy provided by an individual who has expertise in that area, has been licensed in this state for no less than three years, and who charges a fee;

(7) Courses from a state, county, or city school or program or approved massage school, program, or apprenticeship trainer in massage therapy or related topics; or

(8) Training provided by a health care professional certified or licensed in their area of expertise.

[Statutory Authority: RCW 18.108.025(1). 95-11-108, § 246-830-475, filed 5/23/95, effective 6/23/95; 94-13-181, § 246-830-475, filed 6/21/94, effective 7/22/94.]

WAC 246-830-485 Somatic education training program exemption. (1) The secretary will consider approval for exemption from this chapter any individual who has completed a somatic education program that has a professional organization with a permanent administrative location that oversees the practice of somatic education training and that has the following:

(a) Standards of practice;

(b) A training accreditation process;

(c) An instructor certification process;

(d) A practitioner certification process;

(e) A code of ethics or code of professional conduct.

(2) An authorized representative shall submit a request for approval of a program on forms provided by the secretary.

(3) The secretary or designee will evaluate the training program and grant approval or denial. If denied, applicants will be given the opportunity to appeal through the brief adjudicative hearing process as authorized in chapter 246-10 WAC.

(4) The secretary may request from an approved training program, and the program shall provide, updated information every three years to ensure the program's compliance with this rule. Approval may be withdrawn if the program fails to maintain the requirements of this rule. Where a determination has been made that the program no longer meets the requirements of this rule and a decision is made to withdraw approval, an approved program may appeal through the brief adjudicative proceeding as authorized in chapter 246-10 WAC.

[Statutory Authority: Chapter 18.108 RCW. 00-07-086, § 246-830-485, filed 3/15/00, effective 4/15/00.]

DISCIPLINARY

WAC 246-830-610 Definitions. For the purposes of WAC 246-830-610 through 246-830-690, the following words and phrases shall have the following meanings unless the context clearly indicates otherwise.

(1) "Department" means the department of health, whose address is:

Department of Health
Health Professions Quality Assurance Division
P.O. Box 1099
Olympia, Washington 98507-1099

(2) "Hospital" means any health care institution licensed pursuant to chapter 70.41 RCW.

(3) "Massage practitioner" means an individual licensed under chapter 18.108 RCW.

(4) "Mentally or physically disabled massage practitioner" means a massage practitioner who is currently mentally incompetent or mentally ill as determined by a court, or who is unable to practice massage therapy with reasonable skill and safety to patients by reason of any mental or physical condition and who continues to practice while so impaired.

(5) "Nursing home" means any health care institution which comes under chapter 18.51 RCW.

(6) "Unprofessional conduct" means the conduct described in RCW 18.130.180.

[Statutory Authority: RCW 18.108.025(1). 95-11-108, § 246-830-610, filed 5/23/95, effective 6/23/95. Statutory Authority: RCW 18.108.085 and 18.130.050. 92-02-018 (Order 224), § 246-830-610, filed 12/23/91, effective 1/23/92. Statutory Authority: RCW 43.70.040. 91-02-049 (Order 121), recodified as § 246-830-610, filed 12/27/90, effective 1/31/91. Statutory Authority: RCW 18.130.070. 89-14-092 (Order PM 842), § 308-51-230, filed 6/30/89.]

WAC 246-830-620 Mandatory reporting. (1) All reports required by this chapter shall be submitted to the department as soon as possible, but no later than twenty days after a determination is made.

(2) A report should contain the following information if known:

(a) The name, address, and telephone number of the person making the report.

(b) The name and address and telephone numbers of the massage practitioner being reported.

(c) The case number of any client whose treatment is a subject of the report.

(d) A brief description or summary of the facts which gave rise to the issuance of the report, including dates of occurrences.

(e) If court action is involved, the name of the court in which the action is filed along with the date of filing and docket number.

(f) Any further information which would aid in the evaluation of the report.

(3) Mandatory reports shall be exempt from public inspection and copying to the extent permitted under RCW 42.17.310 or to the extent that public inspection or copying of the report or any portion of the report would invade or violate a person's right to privacy as set forth in RCW 42.17.255.

(4) A person is immune from civil liability, whether direct or derivative, for providing information to the department pursuant to RCW 18.130.070.

[Statutory Authority: RCW 43.70.040. 91-02-049 (Order 121), recodified as § 246-830-620, filed 12/27/90, effective 1/31/91. Statutory Authority: RCW 18.130.070. 89-14-092 (Order PM 842), § 308-51-240, filed 6/30/89.]

WAC 246-830-630 Health care institutions. The chief administrator or executive officer of any hospital or nursing home or their designee shall report to the department when any massage practitioner's services are terminated or are restricted based on a determination that the massage practitioner has either committed an act or acts which may constitute unprofessional conduct or that the massage practitioner may be unable to practice with reasonable skill or safety to clients by reason of any mental or physical condition.

[Statutory Authority: RCW 43.70.040. 91-02-049 (Order 121), recodified as § 246-830-630, filed 12/27/90, effective 1/31/91. Statutory Authority: RCW 18.130.070. 89-14-092 (Order PM 842), § 308-51-250, filed 6/30/89.]

WAC 246-830-640 Massage practitioner associations or societies. The president or chief executive officer of any massage practitioner association or society within this state shall report to the department when the association or society determines that a massage practitioner has committed unprofessional conduct or that a massage practitioner may not be able to practice massage therapy with reasonable skill and safety to clients as the result of any mental or physical condition. The report required by this section shall be made without regard to whether the license holder appeals, accepts, or acts upon the determination made by the association or society. Notification of appeal shall be included.

[Statutory Authority: RCW 43.70.040. 91-02-049 (Order 121), recodified as § 246-830-640, filed 12/27/90, effective 1/31/91. Statutory Authority: RCW 18.130.070. 89-14-092 (Order PM 842), § 308-51-260, filed 6/30/89.]

WAC 246-830-650 Health care service contractors and disability insurance carriers. The executive officer of every health care service contractor and disability insurer, licensed under chapters 48.20, 48.21, 48.21A, and 48.44 RCW, operating in the state of Washington shall report to the department all final determinations that a massage practitioner has engaged in fraud in billing for services.

[Statutory Authority: RCW 43.70.040. 91-02-049 (Order 121), recodified as § 246-830-650, filed 12/27/90, effective 1/31/91. Statutory Authority: RCW 18.130.070. 89-14-092 (Order PM 842), § 308-51-270, filed 6/30/89.]

WAC 246-830-660 Professional liability carriers. Every institution or organization providing professional liability insurance directly or indirectly to massage practitioners shall send a complete report to the department of any malpractice settlement, award, or payment in excess of twenty thousand dollars as a result of a claim or action for damages alleged to have been caused by an insured massage practitioner's incompetency or negligence in the practice of massage. Such institution or organization shall also report the award, settlement, or payment of three or more claims during a twelve-month period as a result of the massage practitioner's alleged incompetence or negligence in the practice of massage therapy.

[Statutory Authority: RCW 43.70.040. 91-02-049 (Order 121), recodified as § 246-830-660, filed 12/27/90, effective 1/31/91. Statutory Authority: RCW 18.130.070. 89-14-092 (Order PM 842), § 308-51-280, filed 6/30/89.]

WAC 246-830-670 Courts. The department requests the assistance of the clerk of trial courts within the state to report all professional malpractice judgments and all convictions of licensed massage practitioners, other than minor traffic violations.

[Statutory Authority: RCW 43.70.040. 91-02-049 (Order 121), recodified as § 246-830-670, filed 12/27/90, effective 1/31/91. Statutory Authority: RCW 18.130.070. 89-14-092 (Order PM 842), § 308-51-290, filed 6/30/89.]

WAC 246-830-680 State and federal agencies. The department requests the assistance of executive officers of any state or federal program operating in the state of Washington, under which a massage practitioner is employed to provide client care services, to report to the department whenever such a massage practitioner has been judged to have demonstrated his/her incompetency or negligence in the practice of massage therapy, or has otherwise committed unprofessional conduct, or is a mentally or physically disabled massage practitioner. These requirements do not supersede any state or federal law.

[Statutory Authority: RCW 43.70.040. 91-02-049 (Order 121), recodified as § 246-830-680, filed 12/27/90, effective 1/31/91. Statutory Authority: RCW 18.130.070. 89-14-092 (Order PM 842), § 308-51-300, filed 6/30/89.]

FEES

WAC 246-830-990 Massage fees and renewal cycle. (1) Licenses must be renewed every year on the practitioner's birthday as provided in chapter 246-12 WAC, Part 2.

(2) The following nonrefundable fees will be charged:

Title of Fee	Fee
Written examination and reexamination	$ 65.00
Practical examination and reexamination	50.00
Initial license	55.00
Renewal	40.00
Late renewal penalty	40.00
Expired license reissuance	40.00
Certification of license	10.00
Duplicate license	10.00

[Statutory Authority: RCW 43.70.250. 99-08-101, § 246-830-990, filed 4/6/99, effective 7/1/99. Statutory Authority: RCW 43.70.280. 98-05-060, § 246-830-990, filed 2/13/98, effective 3/16/98. Chapter 246-834 WAC
MIDWIVES

WAC

DISPOSITION OF SECTIONS FORMERLY CODIFIED IN THIS CHAPTER

246-834-350 Cooperation with investigation. [Statutory Authority: RCW 18.50.135, 18.50.045, 18.130.050 and 18.130.070. 92-02-018 (Order 224), § 246-834-350, filed 12/23/91, effective 1/23/92. Statutory Authority: RCW 43.70.040. 91-02-049 (Order 121), recodified as § 246-834-350, filed 12/27/90, effective 1/31/91. Statutory Authority: RCW 18.130.070. 89-14-092 (Order PM 842), § 308-115-350, filed 6/30/89.] Repealed by 97-20-101, filed 9/29/97, effective 10/30/97. Statutory Authority: RCW 43.70.040.

246-834-500 AIDS prevention and information education requirements. [Statutory Authority: RCW 18.50.135, 18.50.045 and 70.24.270. 92-02-018 (Order 224), § 246-834-500, filed 12/23/91, effective 1/23/92. Statutory Authority: RCW 43.70.040. 91-02-049 (Order 121), recodified as § 246-834-500, filed 12/27/90, effective 1/31/91. Statutory Authority: RCW 70.24.270. 88-22-077 (Order PM 786), § 308-115-500, filed 11/2/88.] Repealed by 98-05-060, filed 2/13/98, effective 3/16/98. Statutory Authority: RCW 43.70.280.

WAC 246-834-010 Definitions. (1) Academic director as used in these rules means the individual who is responsible for planning, organizing and implementing all aspects of the curriculum of a midwifery education program.

(2) Health care provider as used in RCW 18.50.108 means any licensed physician who is engaged in active clinical obstetrical practice.

(3) Nursing education as used in these rules means completion of courses for credit in a school that is approved to train persons for licensure as registered nurses or licensed practical nurses, or courses in other formal training programs which include instruction in basic nursing skills.

(4) Practical midwifery experience as used in these rules means performance in midwifery functions, prior to obtaining a license, that is verified by affidavit, testimony or other sworn written documentation that verifies that the experience and its documentation is equivalent to that required of regularly enrolled midwifery students.

(5) Preceptor. A preceptor is a licensed or legally practicing obstetric practitioner who assumes responsibility for supervising the practical (clinical obstetric) experience of a student midwife. The preceptor shall be physically present whenever the student is managing a birth, and shall evaluate in writing the student's overall performance.

(6) Supervision means the observation and evaluation of a student midwife's practical performance. A supervisor need

not be physically present in nonbirth situations. However, when a student midwife undertakes managing a birth, the supervisor must be physically present.

(7) Survey visit is an information gathering and observational visit intended to provide the basis for the director's assessment of a school's compliance with all aspects of chapter 18.50 RCW.

[Statutory Authority: RCW 18.50.135 and 18.50.045. 92-02-018 (Order 224), § 246-834-010, filed 12/23/91, effective 1/23/92. Statutory Authority: RCW 43.70.040. 91-02-049 (Order 121), recodified as § 246-834-010, filed 12/27/90, effective 1/31/91. Statutory Authority: RCW 18.50.135. 85-23-044 (Order PL 566), § 308-115-050, filed 11/18/85; 82-19-079 (Order PL 406), § 308-115-050, filed 9/21/82.]

WAC 246-834-050 Examination requirements for licensure as a midwife. This rule provides the minimum examination requirements for licensure as a midwife.

(1) The midwifery examination offered by the North American Registry of Midwives (NARM) is the official examination for midwifery licensure. All applicants must complete this examination with a passing score. This examination shall be offered by the department of health midwifery program twice a year. If the applicant passes the examination within two years prior to applying for a Washington license, the department will accept the results.

(2) In addition to the NARM examination, all applicants must pass the Washington state specific component examination.

[Statutory Authority: RCW 18.50.060. 99-03-064, § 246-834-050, filed 1/18/99, effective 2/18/99.]

WAC 246-834-060 Application requirements for licensure as a midwife. This rule provides the requirements for application for a midwife license.

(1) All applicants must submit a Washington state application for licensure, along with the applicable fees specified in WAC 246-830-990 and additional documentation as specified below. Applications must be received fifty-six days prior to the examination.

(2) Applicants must submit the following documentation:

(a) Transcripts sent directly from an approved school which indicate the applicant has received a certificate or diploma in midwifery. Those applicants applying under WAC 246-834-220 will be exempted from this requirement.

(b) One current passport type photograph, signed and dated across the bottom of the photo or on the back.

(c) Proof of high school graduation or passing the general educational development test.

(d) A current plan for consultation, emergency transfer and transport.

(e) Verification of seven clock hours of AIDS education as required in chapter 246-12 WAC, Part 8.

(f) Applicants with disabilities who wish to request special accommodations must do so when submitting their application.

(g) Applicants who have passed the NARM examination within the past two years must have verification of the examination results sent directly from NARM to the department.

(3) It is the applicant's responsibility to complete an application for the NARM examination and submit the application along with the NARM examination fee directly to NARM. A NARM application and instructions will be provided in the state application packet sent to the applicant.

[Statutory Authority: RCW 18.50.060. 99-03-064, § 246-834-060, filed 1/18/99, effective 2/18/99. Statutory Authority: RCW 43.70.280. 98-05-060, § 246-834-060, filed 2/13/98, effective 3/16/98. WAC 246-834-065 Application for examination—Out-of-state education. (1) A midwife not licensed in the state of Washington may sit for the licensing examination without completing the required coursework or the midwife-in-training program provided the midwife meets the following requirements:

(a) Has completed a program preparing candidates to practice as a midwife provided such program is equivalent to the minimum course requirements of approved midwifery programs in Washington at the time of applicant's program completion. Proof of equivalency shall be submitted by the applicant with the application.

(b) The transcript of the applicant's completed midwifery program verifies that:

(i) All courses were completed with a grade of C (pass) or better; and

(ii) At least fifteen managed births were completed under the preceptorship of an experienced midwife approved by the candidate's educational program.

(c) If managed births completed under the preceptorship in (b)(ii) of this subsection are less than fifty, then affidavits of births the applicant has managed must be submitted in a sufficient number to prove that the applicant has managed a total of at least fifty births.

(2) The applicant shall submit to the department:

(i) A complete notarized application with the required fee.

(ii) Notarized copies of educational preparation or an official transcript verifying educational preparation or an official transcript verifying educational preparation to practice midwifery.

(iii) Declarations of managed births as required in subsection (1)(c) of this section.

(3) Applicants must demonstrate completion of seven clock hours of AIDS education as provided in chapter 246-12 WAC, Part 8.

[Statutory Authority: RCW 43.70.280. 98-05-060, § 246-834-065, filed 2/13/98, effective 3/16/98. Statutory Authority: RCW 43.70.040. 91-02-049 (Order 121), recodified as § 246-834-065, filed 12/27/90, effective 1/31/91. Statutory Authority: RCW 18.50.135. 89-16-037 (Order PM 856), § 308-115-065, filed 7/25/89, effective 8/25/89.]

WAC 246-834-070 Release of examination results. (1) Applicants shall be notified of examination results. All notices shall be by mail. The minimum passing score for both the NARM examination and the Washington state specific component examination is 75.

(2) Applicants who pass both the NARM examination and the Washington state specific component examination and meet all eligibility requirements shall receive a license to practice as a midwife, unless there are grounds for disciplinary action under chapter 18.130 RCW.

(3) Applicants who fail shall receive notice of their eligibility to be reexamined, and of the procedure for applying for reexamination.

(4) Results of the examination will not be released to anyone except as provided above unless release is authorized by the applicant in writing.

[Statutory Authority: RCW 18.50.060. 99-03-064, § 246-834-070, filed 1/18/99, effective 2/18/99. Statutory Authority: RCW 18.50.135. 82-19-079 (Order PL 406), § 308-115-070, filed 9/21/82.]

WAC 246-834-080 Failures. (1) An applicant who has failed either the NARM examination or the Washington state specific component examination or both must retake and pass the examination(s) which he or she failed. The applicant may sit for the examination if he or she:

(a) Applies to the department at least fifty-six days prior to the next scheduled examination; and

(b) Pays any required fee as specified in WAC 246-834-990.

(2) Applicants who fail the second retest shall be required to submit evidence to the secretary of completion of an individualized program of study approved in advance by the department prior to retaking the examination.

(3) Applicants may have their examination hand-scored by submitting a request and appropriate fee directly to NARM within ninety days of the examination administration. A copy of their request must be sent to the department. The department will inform the applicant of the results of the hand-scored examination.

[Statutory Authority: RCW 18.50.060. 99-03-064, § 246-834-080, filed 1/18/99, effective 2/18/99. Statutory Authority: RCW 18.50.135 and 18.50.045. 92-02-018 (Order 224), § 246-834-080, filed 12/23/91, effective 1/23/92. Statutory Authority: RCW 43.70.040. 91-02-049 (Order 121), recodified as § 246-834-080, filed 12/27/90, effective 1/31/91. WAC 246-834-090 Purpose of accreditation of midwifery educational programs. The secretary provides for accreditation of midwifery educational programs for the following reasons:

(1) To ensure that only qualified midwives will be licensed to practice in the state of Washington.

(2) To ensure the safe practice of midwifery by setting minimum standards for midwifery educational programs that prepare persons for licensure as midwives.

(3) To ensure that each midwifery educational program has flexibility to develop and implement its program of study and that it is based on minimum standards for accredited schools of midwifery provided herein.

(4) To ensure that standards for each accredited midwifery program promote self evaluation.

(5) To assure the graduates of accredited schools of their eligibility for taking the licensing examination for midwives.

[Statutory Authority: RCW 18.50.135 and 18.50.045. 92-02-018 (Order 224), § 246-834-090, filed 12/23/91, effective 1/23/92. Statutory Authority: RCW 43.70.040. 91-02-049 (Order 121), recodified as § 246-834-090, filed 12/27/90, effective 1/31/91. Statutory Authority: RCW 18.50.135. 82-19-079 (Order PL 406), § 308-115-090, filed 9/21/82.]

WAC 246-834-100 Philosophy, purpose and objectives of an accredited midwifery educational program. The philosophy, purpose and objectives of an accredited midwifery educational program shall be stated clearly and shall be in written form.

[Statutory Authority: RCW 43.70.040. 91-02-049 (Order 121), recodified as § 246-834-100, filed 12/27/90, effective 1/31/91. Statutory Authority: RCW 18.50.135. 82-19-079 (Order PL 406), § 308-115-100, filed 9/21/82.]

WAC 246-834-110 Advisory body. Each institution that offers a midwifery educational program shall appoint an advisory body composed of health professionals, midwives and public members. The group should have a minimum of five members and should meet regularly. Functions of the advisory body shall include but not be limited to the following:

(1) Promoting communication between the community and the school;

(2) Making recommendations on the curriculum, student selection and faculty;

(3) Informing the school about needs in midwifery education and practices; and

(4) Being informed about the school's finances.

In institutions whose advisory bodies are provided for by statute, or rule as in the case of public community colleges, universities and vocational-technical institutes, it can be presumed that the advisory body provided for meets these requirements.

[Statutory Authority: RCW 43.70.040. 91-02-049 (Order 121), recodified as § 246-834-110, filed 12/27/90, effective 1/31/91. Statutory Authority: RCW 18.50.135. 82-19-079 (Order PL 406), § 308-115-110, filed 9/21/82.]

WAC 246-834-120 Learning sites. (1) Learning sites utilized by accredited midwifery educational programs shall:

(a) Include a variety of sites in addition to the school that may be used for student experience. These may include, but need not be limited to, hospitals, clinics, offices of health professionals and health centers.

(b) Provide learning experiences of sufficient number and variety that students can achieve the course/curriculum objectives and requirements of the statute.

(2) Written agreements shall be maintained between the school and any supervising clinicians and faculty. Such agreements shall be reviewed periodically by the parties and shall state the responsibilities and privileges of each party.

[Statutory Authority: RCW 43.70.040. 91-02-049 (Order 121), recodified as § 246-834-120, filed 12/27/90, effective 1/31/91. Statutory Authority: RCW 18.50.135. 82-19-079 (Order PL 406), § 308-115-120, filed 9/21/82.]

WAC 246-834-130 Staffing and teacher qualifications. At the time of application for accreditation pursuant to WAC 246-834-180, the school shall provide proof of the following:

(1) That the academic director for the midwifery program is either (a) a midwife licensed under chapter 18.50

RCW or (b) a nurse midwife (ARNP) licensed under chapter 18.88 RCW or (c) has been educated in a midwifery program having standards comparable to standards in Washington and has experience in legal midwifery clinical practice.

(2) That the clinical faculty and preceptors either (a) hold a current license in the jurisdiction where they practice and demonstrate expertise in the subject area to be taught, or (b) are legally engaged in an active clinical practice and demonstrate expertise in the subject area to be taught.

(3) That each member of the faculty either (a) holds a certificate or degree in midwifery or the subject area to be taught, or (b) has no less than three years of experience in the subject area to be taught.

[Statutory Authority: RCW 18.50.135 and 18.50.045. 92-02-018 (Order 224), § 246-834-130, filed 12/23/91, effective 1/23/92. Statutory Authority: RCW 43.70.040. 91-02-049 (Order 121), recodified as § 246-834-130, filed 12/27/90, effective 1/31/91. Statutory Authority: RCW 18.50.045. 86-16-012 (Order PM 608), § 308-115-130, filed 7/25/86. Statutory Authority: RCW 18.50.135. 82-19-079 (Order PL 406), § 308-115-130, filed 9/21/82.]

WAC 246-834-140 Curriculum. (1) The basic curriculum shall be at least three academic years, and shall consist of both didactic and clinical instruction sufficient to meet the educational standards of the school and of chapter 18.50 RCW. However, the school may shorten the length of time for the program after consideration of the student's documented education and experience in the required subjects, if the applicant is a registered nurse under chapter 18.88 RCW, a licensed practical nurse under chapter 18.78 RCW, or has had previous nursing education or practical midwifery experience. The midwifery training shall not be reduced to a period of less than two academic years. Each student must undertake the care of not less than fifty women in each of the prenatal, intrapartum and early postpartum periods. The care of up to thirty five women in each of the periods may be undertaken as a part of previous nursing education or practical midwifery experience as defined in WAC 246-834-010(5). No less than fifteen women must be cared for in each period while enrolled in the school from which the student graduates. The student need not see the same women throughout each of the periods. A candidate for licensure must observe an additional fifty women in the intrapartum period in order to qualify for licensure. Up to thirty five of these observations may be as a part of previous nursing education or practical midwifery experience as defined in WAC 246-834-010(5). No less than fifteen women must be observed in the intrapartum period while enrolled in the school from which the student graduates.

(2) Each school must ensure that the students receive instructions in the following instruction area:

(a) Instruction in basic sciences (including biology, physiology, microbiology, anatomy with emphasis on female reproductive anatomy, genetics and embryology) normal and abnormal obstetrics and gynecology, family planning techniques, childbirth education, nutrition both during pregnancy and lactation, breast feeding, neonatology, epidemiology, community care, and medicolegal aspects of midwifery.

(b) Instruction in basic nursing skills and clinical skills, including but not limited to vital signs, perineal prep, enema, catheterization, aseptic techniques, administration of medications both orally and by injection, local infiltration for anesthesia, venipuncture, administration of intravenous fluids, infant and adult resuscitation, and charting.

(c) Clinical practice in midwifery which includes care of women in the prenatal, intrapartal and early postpartum periods, in compliance with RCW 18.50.040.

(3) Provision shall be made for systematic, periodic evaluation of the curriculum.

(4) Any proposed major curriculum revision shall be presented to the secretary at least three months prior to implementation.

[Statutory Authority: RCW 18.50.135 and 18.50.045. 92-02-018 (Order 224), § 246-834-140, filed 12/23/91, effective 1/23/92. Statutory Authority: RCW 43.70.040. 91-02-049 (Order 121), recodified as § 246-834-140, filed 12/27/90, effective 1/31/91. Statutory Authority: RCW 18.50.135. 87-21-011 (Order PM 686), § 308-115-140, filed 10/9/87; 85-23-044 (Order PL 566), § 308-115-140, filed 11/18/85; 82-19-079 (Order PL 406), § 308-115-140, filed 9/21/82.]

WAC 246-834-150 Students. (1) Written policies and procedures for selection, admission, promotion, graduation and withdrawal of students shall be available.

(2) Courses completed prior to enrollment in the midwifery school should have been completed within ten years of enrollment and must be documented by official transcript in order for reduction of basic requirements to be considered.

(3) Students who seek admission by transfer from another midwifery educational program shall meet the equivalent of the school's current standards for those regularly enrolled. The school may grant credit for the care of up to thirty five women in each of the periods undertaken as a part of previous midwifery education. No less than fifteen women must be cared for in each period while enrolled in the school from which the student graduates. The student need not see the same women throughout each of the periods. A candidate for licensure must observe an additional fifty women in the intrapartum period in order to qualify for licensure. Up to thirty five of these observations may be as a part of previous midwifery education. No less than fifteen women must be observed in the intrapartum period while enrolled in the school from which the student graduates.

(4) Individuals may request advanced placement on the basis of their previous practical midwifery experience as specified in RCW 18.50.040(2) and WAC 246-834-010(5) but in no case shall a school grant credit for more than thirty-five of the fifty required managed births. At least fifteen of the managed births must be undertaken while enrolled in the school granting advanced placement.

(5) Each school shall maintain a comprehensive system of student records.

[Statutory Authority: RCW 18.50.135 and 18.50.045. 92-02-018 (Order 224), § 246-834-150, filed 12/23/91, effective 1/23/92. Statutory Authority: RCW 43.70.040. 91-02-049 (Order 121), recodified as § 246-834-150, filed 12/27/90, effective 1/31/91. Statutory Authority: RCW 18.50.135. 85-23-044 (Order PL 566), § 308-115-150, filed 11/18/85; 82-19-079 (Order PL 406), § 308-115-150, filed 9/21/82.]

WAC 246-834-160 Student midwife permit. (1) A permit may be issued to any individual who has:

(a) Successfully completed an accredited midwifery program as specified in RCW 18.50.040 (2)(a) and (b); and

(b) Undertaken the care of not less than fifty women in each of the prenatal, intrapartum and early postpartum peri-

ods as required by RCW 18.50.040 (2)(c) and by these rules; and

(c) Satisfactorily completed the licensing examination required by RCW 18.50.060; and

(d) Filed a completed application for student midwife permit accompanied by a nonrefundable fee as specified in WAC 246-834-990.

(2) The student midwife permit authorizes the individuals to practice and observe fifty women in the intrapartum period under the supervision of a licensed midwife, licensed physicians or CRN (nurse midwife).

[Statutory Authority: RCW 18.50.135 and 18.50.045. 92-02-018 (Order 224), § 246-834-160, filed 12/23/91, effective 1/23/92. Statutory Authority: RCW 43.70.040. 91-02-049 (Order 121), recodified as § 246-834-160, filed 12/27/90, effective 1/31/91. Statutory Authority: RCW 18.50.135. 82-19-079 (Order PL 406), § 308-115-160, filed 9/21/82.]

WAC 246-834-170 Reports to the department of health by accredited midwifery educational programs. (1) An annual report on the program and its progress for the period July 1 to June 30 shall be submitted to the department by each midwifery educational program on forms supplied by the department.

(2) Written notification shall be sent to the department regarding major changes relating to, but not limited to, the following:

(a) Change in the administrator or academic director.

(b) Organizational change.

(c) Changes in extended learning sites.

The information submitted to the department of health shall include the reason for the proposed change.

(3) The secretary may require submission of additional reports.

[Statutory Authority: RCW 43.70.280. 98-05-060, § 246-834-170, filed 2/13/98, effective 3/16/98. Statutory Authority: RCW 18.50.135 and 18.50.045. 92-02-018 (Order 224), § 246-834-170, filed 12/23/91, effective 1/23/92. Statutory Authority: RCW 18.50.135. 82-19-079 (Order PL 406), § 308-115-170, filed 9/21/82.]

WAC 246-834-180 Application for accreditation. Applicants for accreditation as midwifery educational programs shall:

(1) Apply for accreditation using a form provided by the secretary.

(2) Comply with the department's accreditation procedures and obtain accreditation before its first class graduates, in order for these graduates to be eligible to take the state licensing examination.

The accreditation will be based on, but not limited to, the quality of the curriculum and the qualifications of the faculty and preceptors.

[Statutory Authority: RCW 18.50.135 and 18.50.045. 92-02-018 (Order 224), § 246-834-180, filed 12/23/91, effective 1/23/92. Statutory Authority: RCW 43.70.040. 91-02-049 (Order 121), recodified as § 246-834-180, filed 12/27/90, effective 1/31/91. Statutory Authority: RCW 18.50.045. 86-16-012 (Order PM 608), § 308-115-180, filed 7/25/86. Statutory Authority: RCW 18.50.135. 82-19-079 (Order PL 406), § 308-115-180, filed 9/21/82.]

WAC 246-834-190 School survey visits. The secretary's designee shall make survey visits to midwifery educational programs:

(1) At least annually during the first three years of operation, and

(2) At least every two years after the new school's first three years of operation or more often at the discretion of the secretary.

(3) The cost of a survey visit to a midwifery educational program outside the state of Washington shall be borne by the program requesting accreditation.

[Statutory Authority: RCW 18.50.135 and 18.50.045. 92-02-018 (Order 224), § 246-834-190, filed 12/23/91, effective 1/23/92. Statutory Authority: RCW 43.70.040. 91-02-049 (Order 121), recodified as § 246-834-190, filed 12/27/90, effective 1/31/91. Statutory Authority: RCW 18.50.135. 85-23-044 (Order PL 566), § 308-115-190, filed 11/18/85; 82-19-079 (Order PL 406), § 308-115-190, filed 9/21/82.]

WAC 246-834-200 Appeal of department of health decisions. A school of midwifery aggrieved by a department decision affecting its accreditation may appeal the decision pursuant to chapter 18.50 RCW and the Administrative Procedure Act, chapter 34.05 RCW.

[Statutory Authority: RCW 43.70.280. 98-05-060, § 246-834-200, filed 2/13/98, effective 3/16/98. Statutory Authority: RCW 43.70.040. 91-02-049 (Order 121), recodified as § 246-834-200, filed 12/27/90, effective 1/31/91. Statutory Authority: RCW 18.50.135. 82-19-079 (Order PL 406), § 308-115-200, filed 9/21/82.]

WAC 246-834-210 Closure of an accredited school of midwifery. (1) When an organization decides to discontinue its school of midwifery, written notification of the planned closure should be sent to the department.

(2) A school in the process of closing shall remain accredited until the students who are enrolled at the time the department receives the notice of planned closure have been graduated, provided that the minimum standards are maintained by the school.

(3) When a closing midwifery school's last students graduate, its accreditation shall terminate.

(4) A closing midwifery school shall provide for safe storage of vital school records and should confer with the secretary concerning the matter.

[Statutory Authority: RCW 18.50.135 and 18.50.045. 92-02-018 (Order 224), § 246-834-210, filed 12/23/91, effective 1/23/92. Statutory Authority: RCW 43.70.040. 91-02-049 (Order 121), recodified as § 246-834-210, filed 12/27/90, effective 1/31/91. Statutory Authority: RCW 18.50.135. 82-19-079 (Order PL 406), § 308-115-210, filed 9/21/82.]

WAC 246-834-220 Credit toward educational requirements for licensure. (1) Applicants not meeting the minimum requirements set forth in WAC 246-834-060 may apply to the department for licensure by submitting the following:

(a) A completed, notarized application on a form provided by the department accompanied by a nonrefundable fee as specified in WAC 308-115-405;

(b) Credit for academic courses:

(i) Certification by an accrediting body, which has been approved by the department, of completed academic and con-

tinuing education courses as required in RCW 18.50.040 (2)(b) for which the applicant has received a grade of "C" or better. A certified copy of the courses taken and grades or scores achieved shall be submitted by the accrediting body directly to the department; or

(ii) Completion of challenge examinations approved by the department with a minimum score of 75% for any academic subject required in RCW 18.50.040 (2)(b). Challenge examinations shall be administered a minimum of twice a year. An applicant for challenge examination must file a completed application for each examination along with the required fee with the department at least 45 days prior to the examination.

(c) A prospectus for permission to undertake a midwife-in-training program. Such a program shall be on such terms as the department finds necessary to assure that the applicant meets the minimum statutory requirements for licensure set forth in RCW 18.50.040, and shall include, but not be limited to the following:

(i) The program shall be under the guidance and supervision of a preceptor, and shall be conducted for a period of not more than five years;

(ii) The program shall be designed to provide for individual learning experiences and instruction based upon the applicant's academic background, training, and experience;

(iii) The prospectus for the program shall be submitted on an approved form, signed by the preceptor, and approved by the department prior to the commencement of the program. Any changes in the program shall be reported within 30 days in writing to the department, and the department may withdraw the approval given, or alter the conditions under which approval was originally given, if the department finds that the program as originally submitted and approved has not been or is not being followed.

(2) The midwife-in-training program prospectus must include the following components:

(a) A plan for completion of required academic subjects required in RCW 18.50.040 (2)(b);

(b) Planned reading and written assignments;

(c) A project including at least one problem-solving component to be submitted in writing. The problem-solving component should include the definition of an acknowledged problem, the method of approach to the problem, the listing of possible alternatives, the actions taken, evaluation, and final recommendations to improve care given;

(d) Other planned learning experiences including acquisition of knowledge about other health and welfare agencies in the community;

(e) A quarterly written report, on an approved form, submitted to the department by the trainee, which shall include a detailed outline of progress toward meeting the objectives of the prospectus during the reporting period;

(f) The program must provide for a broad range of experience with a close working relationship between preceptor and the trainee. Toward that end, as a general rule, no program will be approved which would result in an individual preceptor supervising more than two midwives-in-training simultaneously. Exception to this rule may be granted by the department in unusual circumstances;

(g) The department may, in an individual case, require additional approved education, based upon assessment of the individual applicant's background, training and experience.

(3) Upon approval of the application, a trainee permit will be issued which enables the trainee to practice under the supervision of a preceptor. The permit shall expire within one year of issuance and may be extended as provided by rule.

(4) The trainee shall provide documentation of care given as follows:

(a) Records of no more than thirty-five women to whom the trainee has given care in each of the prenatal, intrapartum, and early postpartum periods, although the same women need not have been seen through all three periods. These records must contain affidavits from the clients certifying that the care was given. If a client is unavailable to sign an affidavit, an affidavit from a preceptor or a certified copy of the birth certificate may be substituted. The care may have been given prior to the beginning of the midwife-in-training program or during the trainee period;

(b) After being issued a trainee permit, the trainee must manage care in the prenatal, intrapartum, and early postpartum period of fifteen women under the supervision of the preceptor. These women shall be in addition to the women whose records were used to meet the conditions of (a) of this subsection. The preceptor shall submit, on approved forms, completed check-lists of skills and experiences when this requirement has been met;

(c) Evidence, on an approved form, of observing 50 deliveries in addition to those specified in (b) of this subsection. The deliveries may have been observed prior to the beginning of the midwife-in-training program or may be observed during the trainee period.

(5) Upon satisfactory completion of subsections (1)(a) through (4)(c) of this section, the trainee is eligible to apply for the examination.

[Statutory Authority: RCW 18.50.135 and 18.50.045. 92-02-018 (Order 224), § 246-834-220, filed 12/23/91, effective 1/23/92. Statutory Authority: RCW 43.70.040. 91-02-049 (Order 121), recodified as § 246-834-220, filed 12/27/90, effective 1/31/91. Statutory Authority: RCW 18.50.040(3) and 18.50.115. 88-12-040 (Order PM 732), § 308-115-220, filed 5/27/88.]

WAC 246-834-230 Preceptor for midwife-in-training program. (1) In reviewing a proposed midwife-in-training program, the department shall use the following criteria in assessing the qualifications and determining the responsibilities of the preceptor:

(a) Qualifications of preceptor:

(i) The preceptor shall have demonstrated the ability and skill to provide safe, quality care;

(ii) The preceptor shall have demonstrated continued interest in professional development beyond the requirements of basic licensure;

(iii) The preceptor shall participate in and successfully complete any preceptor workshop or other training deemed necessary by the department; and,

(iv) The preceptor shall be licensed in the state of Washington. Exception to this rule may be granted by the department in unusual circumstances.

(b) Responsibilities of the preceptor:

(i) The preceptor shall monitor the educational activities of the trainee and shall have at least one conference with the trainee quarterly to discuss progress;

(ii) The preceptor shall submit quarterly progress reports on approved forms to the department, and,

(iii) The preceptor shall maintain and submit the checklists as specified in WAC 246-834-220 (4)(b).

[Statutory Authority: RCW 18.50.135 and 18.50.045. 92-02-018 (Order 224), § 246-834-230, filed 12/23/91, effective 1/23/92. Statutory Authority: RCW 43.70.040. 91-02-049 (Order 121), recodified as § 246-834-230, filed 12/27/90, effective 1/31/91. Statutory Authority: RCW 18.50.040(3) and 18.50.115. 88-12-040 (Order PM 732), § 308-115-230, filed 5/27/88.]

WAC 246-834-240 Trainee permit for midwife-in-training program. (1) A trainee permit may be issued to any individual who has:

(a) Been approved for a midwife-in-training program; and,

(b) Filed a completed application accompanied by a nonrefundable fee.

(2) The trainee permit authorizes individuals to manage care as required in WAC 246-834-220 (4)(b).

(3) Permits will be issued yearly for the duration of the trainee's midwife-in-training program.

[Statutory Authority: RCW 18.50.135 and 18.50.045. 92-02-018 (Order 224), § 246-834-240, filed 12/23/91, effective 1/23/92. Statutory Authority: RCW 43.70.040. 91-02-049 (Order 121), recodified as § 246-834-240, filed 12/27/90, effective 1/31/91. Statutory Authority: RCW 18.50.040(3) and 18.50.115. 88-12-040 (Order PM 732), § 308-115-240, filed 5/27/88.]

WAC 246-834-250 Legend drugs and devices. (1) Licensed midwives may purchase and use legend drugs and devices which are deemed integral to providing safe care to the public. Such devices include the following:

(a) Dopplers, syringes, needles, phlebotomy equipment, suture, urinary catheters, intravenous equipment, heparin locks, amnihooks, and "DeLee type" mucous traps;

(b) Pharmacies may fill orders for diaphragms which have been issued by licensed midwives for postpartum women.

(2) In addition to medications listed in RCW 18.50.115, licensed midwives may administer the following medications:

(a) Intravenous fluids limited to Lactated Ringers, 5% Dextrose with Lactated Ringers, and 5% Dextrose with water;

(b) Heparin for use in heparin locks, Epinephrine for use in allergic reactions, and Magnesium Sulphate shall be used according to midwifery advisory committee established protocols. Such protocols shall state the indications for use, the dosage and the administration of these medications.

(c) Licensed midwives may obtain and administer Rubella vaccine to non-immune postpartum women.

(3) The client's records shall contain documentation of all medications administered.

(4) Whenever Epinephrine or Magnesium Sulfate is administered, a report, on approved forms, shall be submitted within thirty days to the midwifery advisory committee.

[Statutory Authority: RCW 43.70.040. 91-02-049 (Order 121), recodified as § 246-834-250, filed 12/27/90, effective 1/31/91. Statutory Authority: RCW 18.50.040(3) and 18.50.115. 88-12-040 (Order PM 732), § 308-115-250, filed 5/27/88.]

WAC 246-834-260 General provisions. (1) "Unprofessional conduct" as used in this chapter shall mean the conduct described in RCW 18.130.180.

(2) "Hospital" means any health care institution licensed pursuant to chapter 70.41 RCW.

(3) "Nursing home" means any health care institution which comes under chapter 18.51 RCW.

(4) "Department" means the department of health, whose address is:

Department of Health
Midwifery Program
1300 S.E. Quince St.
P.O. Box 47864
Olympia, Washington 98504-7864

(5) "Midwife" means a person licensed pursuant to chapter 18.50 RCW.

(6) "Mentally or physically disabled midwife" means a midwife who is currently mentally incompetent or mentally ill as determined by a court, or who is unable to practice midwifery with reasonable skill and safety to patients by reason of any mental or physical condition and who continues to practice while so impaired.

[Statutory Authority: RCW 43.70.280. 98-05-060, § 246-834-260, filed 2/13/98, effective 3/16/98. Statutory Authority: RCW 18.50.135, 18.50.045, 18.130.050 and 18.130.070. 92-02-018 (Order 224), § 246-834-260, filed 12/23/91, effective 1/23/92. Statutory Authority: RCW 43.70.040. 91-02-049 (Order 121), recodified as § 246-834-260, filed 12/27/90, effective 1/31/91. Statutory Authority: RCW 18.130.070. 89-14-092 (Order PM 842), § 308-115-260, filed 6/30/89.]

WAC 246-834-270 Mandatory reporting. (1) All reports required by this chapter shall be submitted to the department as soon as possible, but no later than twenty days after a determination is made.

(2) A report should contain the following information if known:

(a) The name, address, and telephone number of the person making the report.

(b) The name and address and telephone numbers of the midwife being reported.

(c) The case number of any patient whose treatment is a subject of the report.

(d) A brief description or summary of the facts which gave rise to the issuance of the report, including dates of occurrences.

(e) If court action is involved, the name of the court in which the action is filed along with the date of filing and docket number.

(f) Any further information which would aid in the evaluation of the report.

(3) Mandatory reports shall be exempt from public inspection and copying to the extent permitted under RCW 42.17.310 or to the extent that public inspection or copying of the report or any portion of the report would invade or violate a person's right to privacy as set forth in RCW 42.17.255.

(4) A person is immune from civil liability, whether direct or derivative, for providing information to the department pursuant to RCW 18.130.070.

[Statutory Authority: RCW 43.70.040. 91-02-049 (Order 121), recodified as § 246-834-270, filed 12/27/90, effective 1/31/91. Statutory Authority: RCW 18.130.070. 89-14-092 (Order PM 842), § 308-115-270, filed 6/30/89.]

WAC 246-834-280 Health care institutions. The chief administrator or executive officer or their designee of any hospital or nursing home shall report to the department when any midwife's services are terminated or are restricted based on a determination that the midwife has either committed an act or acts which may constitute unprofessional conduct or that the midwife may be unable to practice with reasonable skill or safety to clients by reason of any mental or physical condition.

[Statutory Authority: RCW 43.70.040. 91-02-049 (Order 121), recodified as § 246-834-280, filed 12/27/90, effective 1/31/91. Statutory Authority: RCW 18.130.070. 89-14-092 (Order PM 842), § 308-115-280, filed 6/30/89.]

WAC 246-834-290 Midwifery associations or societies. The president or chief executive officer of any midwifery association or society within this state shall report to the department when the association or society determines that a midwife has committed unprofessional conduct or that a midwife may not be able to practice midwifery with reasonable skill and safety to patients as the result of any mental or physical condition. The report required by this section shall be made without regard to whether the license holder appeals, accepts, or acts upon the determination made by the association or society. Notification of appeal shall be included.

[Statutory Authority: RCW 43.70.040. 91-02-049 (Order 121), recodified as § 246-834-290, filed 12/27/90, effective 1/31/91. Statutory Authority: RCW 18.130.070. 89-14-092 (Order PM 842), § 308-115-290, filed 6/30/89.]

WAC 246-834-310 Health care service contractors and disability insurance carriers. The executive officer of every health care service contractor and disability insurer, licensed under chapters 48.20, 48.21, 48.21A, and 48.44 RCW, operating in the state of Washington shall report to the department all final determinations that a midwife has engaged in fraud in billing for services.

[Statutory Authority: RCW 43.70.040. 91-02-049 (Order 121), recodified as § 246-834-310, filed 12/27/90, effective 1/31/91. Statutory Authority: RCW 18.130.070. 89-14-092 (Order PM 842), § 308-115-310, filed 6/30/89.]

WAC 246-834-320 Professional liability carriers. Every institution or organization providing professional liability insurance directly or indirectly to midwives shall send a complete report to the department of any malpractice settlement, award, or payment in excess of twenty thousand dollars as a result of a claim or action for damages alleged to have been caused by an insured midwife's incompetency or negligence in the practice of midwifery. Such institution or organization shall also report the award, settlement, or payment of three or more claims during a twelve-month period as a result of the midwife's alleged incompetence or negligence in the practice of midwifery.

[Statutory Authority: RCW 43.70.040. 91-02-049 (Order 121), recodified as § 246-834-320, filed 12/27/90, effective 1/31/91. Statutory Authority: RCW 18.130.070. 89-14-092 (Order PM 842), § 308-115-320, filed 6/30/89.]

WAC 246-834-330 Courts. The department requests the assistance of the clerk of trial courts within the state to report all professional malpractice judgments and all convictions of licensed midwives, other than minor traffic violations.

[Statutory Authority: RCW 43.70.040. 91-02-049 (Order 121), recodified as § 246-834-330, filed 12/27/90, effective 1/31/91. Statutory Authority: RCW 18.130.070. 89-14-092 (Order PM 842), § 308-115-330, filed 6/30/89.]

WAC 246-834-340 State and federal agencies. The department requests the assistance of executive officers of any state or federal program operating in the state of Washington, under which a midwife is employed to provide patient care services, to report to the department whenever such a midwife has been judged to have demonstrated his/her incompetency or negligence in the practice of midwifery, or has otherwise committed unprofessional conduct, or is a mentally or physically disabled midwife. These requirements do not supersede any federal or state law.

[Statutory Authority: RCW 43.70.040. 91-02-049 (Order 121), recodified as § 246-834-340, filed 12/27/90, effective 1/31/91. Statutory Authority: RCW 18.130.070. 89-14-092 (Order PM 842), § 308-115-340, filed 6/30/89.]

WAC 246-834-400 Expired license. (1) If the license has expired for three years or less, the practitioner must meet the requirements of chapter 246-12 WAC, Part 2.

(2) If the license has expired for over three years, the practitioner must:

(a) Demonstrate competence to the standards established by the secretary;

(b) Meet the requirements of chapter 246-12 WAC, Part 2.

[Statutory Authority: RCW 43.70.280. 98-05-060, § 246-834-400, filed 2/13/98, effective 3/16/98.]

WAC 246-834-990 Midwifery fees and renewal cycle. (1) Licenses must be renewed every year on the practitioner's birthday as provided in chapter 246-12 WAC, Part 2.

(2) The following fees are nonrefundable:

Title of Fee	Fee
Initial application	$500.00
National examination administration (initial/retake)	100.00
State examination (initial/retake)	150.00
Renewal	950.00
Late renewal penalty	300.00
Duplicate license	25.00
Certification of license	25.00
Application fee—Midwife-in-training program	950.00
Expired license reissuance	300.00

[Statutory Authority: RCW 43.70.250, 2001 2nd sp.s. c 7 and RCW 18.50.102. 01-23-101, § 246-834-990, filed 11/21/01, effective 1/21/02. Statutory Authority: RCW 18.50.102 and 43.70.250. 98-11-069, § 246-834-990, filed 5/19/98, effective 7/13/98. Statutory Authority: RCW 43.70.250. 91-13-002 (Order 173), § 246-834-990, filed 6/6/91, effective 7/7/91. Statutory Authority: RCW 43.70.040. 91-02-049 (Order 121), recodified as § 246-834-990, filed 12/27/90, effective 1/31/91. Statutory Authority: RCW

WAC 246-836-010 Definitions. For the purposes of this chapter, the following words and phrases shall have the following meanings unless the context clearly indicates otherwise.

(1) "Department" means the department of health, whose address is:

Department of Health
Professional Licensing Service
P.O. Box 1099
Olympia, Washington 98507

(2) "Hospital" means any health care institution licensed pursuant to chapter 70.41 RCW.

(3) "Mentally or physically disabled naturopath" means a naturopath who is currently mentally incompetent or mentally ill as determined by a court, or who is unable to practice naturopathy with reasonable skill and safety to patients by reason of any mental or physical condition and who continues to practice while so impaired.

(4) "Naturopath" means a person licensed pursuant to chapter 18.36A RCW.

(5) "Nursing home" means any health care institution which comes under chapter 18.51 RCW.

(6) "Unprofessional conduct" means the conduct described in RCW 18.130.180.

[Statutory Authority: RCW 18.36A.060. 92-02-018 (Order 224), § 246-836-010, filed 12/23/91, effective 1/23/92.]

WAC 246-836-020 Eligibility for licensure examination. (1) Graduates holding a degree/diploma from a college of naturopathic medicine approved by Washington state department of health shall be eligible to take the examination, provided all other requirements of RCW 18.36A.090 are met.

(2) All applicants shall file with the department a completed application, with the required fee, at least 60 days prior to the exam.

(3) Applicants shall request that the college of naturopathic medicine send official transcripts directly to the department.

(4) Applicants who have filed the required applications, whose official transcript has been received by the department, and who meet all qualifications shall be notified of their eligibility, and only such applicants will be admitted to the exam.

[Statutory Authority: RCW 18.36A.060. 92-02-018 (Order 224), § 246-836-020, filed 12/23/91, effective 1/23/92. Statutory Authority: RCW 43.70.040. 91-02-049 (Order 121), recodified as § 246-836-020, filed 12/27/90, effective 1/31/91. Statutory Authority: RCW 18.36A.060. 88-14-009 (Order PM 742), § 308-34-110, filed 6/24/88.]

WAC 246-836-030 Licensure examination. (1) The licensure examination shall consist of the following components and tests:

(a) Basic science component which may include but not be limited to tests in the following subjects: Pathology, anatomy, physiology, microbiology and biochemistry.

(b) Clinical science component which may include but not be limited to tests in the following subjects: Physical diagnosis; nutrition; physical medicine; botanical medicines and toxicology; psychological and lifestyle counseling; emergency medicine, basic skills and public health; lab and x-ray diagnosis.

(c) Law of the state and administrative regulations as they relate to the practice of naturopathic medicine.

(d) The department, at its discretion, may require tests in other subjects. Candidates will receive information concerning additional tests prior to the examination.

(2) Candidates may take the basic science component of the exam after two years of training. A candidate who has achieved a passing score on the basic science component after two years of training must achieve a passing score on the clinical science component and the state law test within twenty-seven months after graduation; otherwise, the candidate's basic science component exam results will be null and void and the candidate must again take the basic science component of the exam. All exam candidates are required to obtain a passing score on all tests before a license is issued. A candidate who takes the basic science component of the exam after two years of training must submit an application for reexamination, along with reexamination fees, to take the clinical science component and the state law test at a later exam administration.

(3) Examinations shall be conducted twice a year.

(4) The minimum passing score for each test in the examination is seventy-five.

[Statutory Authority: RCW 43.70.040. 91-02-049 (Order 121), recodified as § 246-836-030, filed 12/27/90, effective 1/31/91. Statutory Authority: RCW 18.36A.060. 88-14-009 (Order PM 742), § 308-34-120, filed 6/24/88.]

WAC 246-836-040 Release of examination results. (1) Candidates shall be notified of examination results by mail only.

(2) Candidates who successfully complete all components and tests of the examination shall receive a license to practice as a naturopathic physician provided all other requirements are met.

(3) Candidates who fail any test in the examination shall be so notified and shall be sent an application to retake the examination.

(4) A candidate's examination scores shall be released only to the candidate unless the candidate has requested, in writing, that the examination scores also be released to a specific school, individual, or entity.

[Statutory Authority: RCW 43.70.040. 91-02-049 (Order 121), recodified as § 246-836-040, filed 12/27/90, effective 1/31/91. Statutory Authority: RCW 18.36A.060. 88-14-009 (Order PM 742), § 308-34-130, filed 6/24/88.]

WAC 246-836-050 Reexaminations. (1) A candidate wishing to retake the examination or any portion thereof must file with the department the required reexamination fees and an application to retake the examination at least sixty days before the administration of the exam.

(2) A candidate must retake the entire basic science component if he or she failed to achieve a passing score in three or more basic science tests. A candidate must retake the entire clinical science component if he or she failed to achieve a passing score in four or more clinical science tests. A candidate must retake any test(s) for which the candidate failed to achieve a passing score.

(3) A candidate who failed to achieve a passing score in three or more basic science tests and/or four or more clinical science tests must achieve a passing score on those tests within the next two administrations of the examination. A candidate who does not achieve a passing score within those next two administrations of the exam will be required to retake the entire component.

(4) A candidate must achieve passing scores on all tests in the entire exam within a twenty-seven month period; otherwise the candidate's exam results are null and void and the candidate must retake the entire exam. Provided: WAC 246-836-030(2) shall apply to a candidate who took the basic science component of the exam after two years in training.

(5) A candidate is required to pay a reexamination fee to retake the exam or any portion thereof.

(6) A candidate who took the basic science component of the exam after two years of training must submit an application for reexamination, along with reexamination fees, to take the clinical science component and the state law test at a later exam administration.

[Statutory Authority: RCW 18.36A.060. 92-02-018 (Order 224), § 246-836-050, filed 12/23/91, effective 1/23/92. Statutory Authority: RCW 43.70.040. 91-02-049 (Order 121), recodified as § 246-836-050, filed 12/27/90, effective 1/31/91. WAC 246-836-080 Continuing competency program. (1) Licensed naturopathic physicians must demonstrate completion of 20 hours of continuing education as provided in chapter 246-12 WAC, Part 7. Only courses in diagnosis and therapeutics as listed in RCW 18.36A.040 shall be eligible for credit.

(2) In emergency situations, such as personal or family illness, the department may in its discretion, for good cause shown, waive all or part of the continuing education requirement for a particular one year period for an individual licensee. The department may require such verification of the emergency as is necessary to prove its existence.

[Statutory Authority: RCW 43.70.280. 98-05-060, § 246-836-080, filed 2/13/98, effective 3/16/98. WAC 246-836-100 Applicants educated and/or licensed in another country. (1) Applicants for licensure educated in a country outside the United States or its territories shall meet the following requirements for licensure.

(a) Satisfactory completion of a basic naturopathic medical program in a naturopathic school or college officially approved by the country where the school is located.

(i) The naturopathic education program at the time of graduation shall be equivalent to or exceed the minimum required standards for Washington state approved colleges of naturopathic medicine.

(ii) Any deficiencies in the naturopathic medical program shall be satisfactorily completed in a Washington state approved college of naturopathic medicine.

(b) Applicants licensed under the laws of a country outside of the United States or its territories shall be required to take the current licensing examinations noted in WAC 246-836-030: Provided, That those persons meeting the requirements of WAC 246-836-110, (Licensing by endorsement), are exempt from this requirement.

(c) All other requirements of chapter 18.36A RCW and this chapter must be met, including the requirement that the applicant be of good moral character; not have engaged in unprofessional conduct; and not be unable to practice with reasonable skill and safety as a result of a physical or mental impairment.

(2) Applicants for examination shall:

(a) File with the department a completed notarized license application with the required fee at least sixty days prior to examination.

(b) Request the college of naturopathic medicine to submit an official transcript directly to the department.

(c) Request the licensing agency in the country of original license to submit evidence of licensure to the department.

(d) If the applicant's original documents (education and licensing) are on file in another state, the applicant may request that the other state send to the department notarized copies in lieu of the originals.

[Statutory Authority: RCW 18.36A.060. 92-02-018 (Order 224), § 246-836-100, filed 12/23/91, effective 1/23/92. Statutory Authority: RCW 43.70.040. 91-02-049 (Order 121), recodified as § 246-836-100, filed 12/27/90, effective 1/31/91. Statutory Authority: RCW 18.36A.060(1). 89-02-051 (Order PM 815), § 308-34-310, filed 1/3/89.]

WAC 246-836-110 Licensing by endorsement. A license to practice as a naturopathic physician in the state of Washington may be issued without examination at the discretion of the secretary provided the applicant meets all of the following requirements:

(1) The candidate has graduated from and holds a degree/diploma from a college of naturopathic medicine approved by the state or jurisdiction where the school is located and which prepares candidates for licensure as a naturopathic physician: Provided, That such program at the time of the candidate's graduation is equivalent to or exceeds the minimum naturopathic medical educational standards required for Washington state approved schools;

(2) The candidate holds a current valid license in good standing to practice as a naturopathic physician in another state or jurisdiction. Official written verification of such licensure status must be received by the department from the other state or jurisdiction;

(3) The candidate has completed and filed with the department a notarized application for licensure by endorsement, a true and correct copy of the current valid license, and the required application fee;

(4) The candidate has successfully passed a naturopathic physician licensure examination in another state or jurisdiction.Written official verification of successful completion of the licensure examination and of licensure in good standing must be requested of the state or jurisdiction by the candidate and must be received by the department directly from the state or jurisdiction;

(5) The candidate must meet all other requirements of chapter 18.36A RCW and this chapter, including the requirement that the applicant be of good moral character; not have engaged in unprofessional conduct; and not be unable to practice with reasonable skill and safety as a result of a physical or mental impairment; and

(6) The state or jurisdiction in which the candidate is currently licensed grants similar privilege of licensure without examination to candidates who are licensed in Washington as naturopathic physicians.

[Statutory Authority: RCW 18.36A.060. 92-02-018 (Order 224), § 246-836-110, filed 12/23/91, effective 1/23/92. Statutory Authority: RCW 43.70.040. 91-02-049 (Order 121), recodified as § 246-836-110, filed 12/27/90, effective 1/31/91. Statutory Authority: RCW 18.36A.060(1). 89-02-051 (Order PM 815), § 308-34-320, filed 1/3/89.]

WAC 246-836-120 Reciprocity or waiver of examination requirements. Reciprocity or waiver of examination requirements may be granted for certain examinations administered by other states or jurisdictions. These examinations must include the clinical and the basic science sections. The minimum passing score will depend upon the quality of the examination, but must be equivalent to or better than the score of seventy-five which is required in WAC 246-836-030. Reciprocity or waiver shall be in accordance with the reciprocal agreement in place with that state or jurisdiction.

[Statutory Authority: RCW 18.36A.060. 92-02-018 (Order 224), § 246-836-120, filed 12/23/91, effective 1/23/92. Statutory Authority: RCW 43.70.040. 91-02-049 (Order 121), recodified as § 246-836-120, filed 12/27/90, effective 1/31/91. Statutory Authority: RCW 18.36A.060(1). 89-02-051 (Order PM 815), § 308-34-330, filed 1/3/89.]

WAC 246-836-130 Approval of colleges of naturopathic medicine. (1) The minimum educational requirement for licensure to practice naturopathic medicine in Washington is graduation from a naturopathic college approved by the secretary which teaches adequate courses in all subjects necessary to the practice of naturopathic medicine.

(2) These rules provide the standards and procedures by which naturopathic colleges may obtain approval by the secretary in order that graduates of those schools may be permitted to take examinations for license.

[Statutory Authority: RCW 18.36A.060. 92-02-018 (Order 224), § 246-836-130, filed 12/23/91, effective 1/23/92. Statutory Authority: RCW 43.70.040. 91-02-049 (Order 121), recodified as § 246-836-130, filed 12/27/90, effective 1/31/91. Statutory Authority: RCW 18.36A.060(1). 89-02-051 (Order PM 815), § 308-34-410, filed 1/3/89.]

WAC 246-836-140 Provisional approval of colleges of naturopathic medicine. Provisional approval is the initial approval given to a previously unapproved program while the program is undergoing the process of gaining full program approval. The secretary may grant provisional approval to a naturopathic college which has been in continuous operation for at least one year. Provisional approval may be granted for a period not to exceed two and one-half years and may not be renewed or extended. Provisional approval shall neither imply nor assure eventual approval.

(1) In order to obtain provisional approval, a naturopathic college must demonstrate compliance with, or adequate planning and resources to achieve compliance with, the standards contained in this chapter and chapter 18.36A RCW.

(2) The procedures for application, examination, review and revocation of provisional approval shall be the same as those specified for full approval in this chapter.

[Statutory Authority: RCW 18.36A.060. 92-02-018 (Order 224), § 246-836-140, filed 12/23/91, effective 1/23/92. Statutory Authority: RCW 43.70.040. 91-02-049 (Order 121), recodified as § 246-836-140, filed 12/27/90, effective 1/31/91. Statutory Authority: RCW 18.36A.060(1). 89-02-051 (Order PM 815), § 308-34-420, filed 1/3/89.]

WAC 246-836-150 Full approval of colleges of naturopathic medicine. (1) Full approval of a college of naturopathic medicine is the approval given a program that meets the requirements of chapter 18.36A RCW and this chapter. Colleges of naturopathic medicine seeking approval shall apply to the secretary on a form and in a manner prescribed by the secretary.

(2) The secretary may grant full approval to naturopathic colleges which have demonstrated compliance with the standards contained in this chapter and chapter 18.36A RCW.

(3) To be eligible for full approval a naturopathic college must have been in continuous operation for a period of at least three years.

(4) After approval by the secretary, periodic reports may be required. Failure to conform to or maintain established standards may result in loss of approval. No naturopathic college shall receive approval for a period longer than five years. Prior to the expiration of the period of approval, the college must apply to the secretary for renewal of approval. The secretary shall review the application and make a final decision of approval or disapproval in not more than one hundred twenty days.

(5) If a naturopathic college fails to maintain the required standards or fails to report significant institutional changes, including changes in location, within ninety days of the change, the secretary may revoke or suspend approval. The secretary may contact a naturopathic college at any time, either through an evaluation committee or representative, to audit, inspect or gather information concerning the operating of the school or college.

(6) After suspension of approval of a naturopathic college, the secretary may reinstate approval upon receipt of satisfactory evidence that the college meets the standards of chapter 18.36A RCW and this chapter.

(7) After revocation of approval of a naturopathic college, a college may seek provisional approval, if otherwise qualified.

[Statutory Authority: RCW 18.36A.060. 92-02-018 (Order 224), § 246-836-150, filed 12/23/91, effective 1/23/92. Statutory Authority: RCW 43.70.040. 91-02-049 (Order 121), recodified as § 246-836-150, filed 12/27/90, effective 1/31/91. Statutory Authority: RCW 18.36A.060(1). 89-02-051 (Order PM 815), § 308-34-430, filed 1/3/89.]

WAC 246-836-160 Unapproved college of naturopathic medicine. An "unapproved college of naturopathic medicine" is a program that has been removed from the secretary's list of approved colleges of naturopathic medicine for failure to meet the requirements of chapter 18.36A RCW and/or this chapter, or a program that has never been approved by the secretary.

[Statutory Authority: RCW 18.36A.060. 92-02-018 (Order 224), § 246-836-160, filed 12/23/91, effective 1/23/92. Statutory Authority: RCW 43.70.040. 91-02-049 (Order 121), recodified as § 246-836-160, filed 12/27/90, effective 1/31/91. Statutory Authority: RCW 18.36A.060(1). 89-02-051 (Order PM 815), § 308-34-440, filed 1/3/89.]

WAC 246-836-170 Appeal of secretary's decisions. A college of naturopathic medicine deeming itself aggrieved by a decision of the secretary affecting its approval status shall have the right to appeal the secretary's decision in accordance with the provisions of the Administrative Procedure Act, chapter 34.05 RCW.

[Statutory Authority: RCW 18.36A.060 and 34.05.220. 92-02-018 (Order 224), § 246-836-170, filed 12/23/91, effective 1/23/92. Statutory Authority: RCW 43.70.040. 91-02-049 (Order 121), recodified as § 246-836-170, filed 12/27/90, effective 1/31/91. Statutory Authority: RCW 18.36A.060(1). 89-02-051 (Order PM 815), § 308-34-450, filed 1/3/89.]

WAC 246-836-180 Standards for approval of colleges of naturopathic medicine. The following standards shall be used by the secretary in considering a naturopathic college's application for approval:

(1) Objectives. The objectives of the institution shall be clearly stated and address the preparation for the naturopathic physician to provide patient care. The implementation of the objectives should be apparent in the administration of the institution, individual course objectives, and in the total program leading to graduation.

(2) Organization. The institution shall be incorporated under the laws of the state of its residence as an education corporation. Control shall be vested in a board of directors composed of naturopathic physicians and others. No less than one-third plus one of the directors shall be naturopathic physicians. Under no circumstances shall more than one-third of the directors have administrative or instructional positions in the college. The directors must demonstrate collective responsibility in their knowledge of, and policy decisions consistent with, the objectives of the college; support of college programs and active participation in college governance; and selection and oversight of the chief administrative officer.

(3) Administration. The education and experience of directors, administrators, supervisors, and instructors should be sufficient to ensure that the student will receive educational services consistent with institutional objectives. The administration of the institution shall be such that the lines of authority are clearly drawn. The institution shall present with its application a catalog and a brief, narrative explanation of how the administration of the institution is, or is to be, orga-

nized and how the administrative responsibility for each of the following is, or is to be, managed:

(a) Faculty and staff recruitment;

(b) Personnel records management;

(c) Faculty pay scale and policies;

(d) Standards and practices relating to evaluation, improvement of instruction, promotion, retention and tenure;

(e) Admissions policies including procedures used to solicit students;

(f) Development and administration of policies governing rejection and retention of students, job placement, and student counseling and advising services;

(g) Curriculum requirements;

(h) Tuition and fee policies; and

(i) Financial management policies.

(4) Financial condition. The institution shall demonstrate its financial stability by submitting certified audits once every three years and, reports, or other appropriate evidence annually.

(5) Records. The institution shall maintain an adequately detailed system of records for each student beginning with application credentials through the entire period of attendance. The records, including matriculation, attendance, grades, disciplinary action and financial accounts, shall be the permanent property of the institution, to be safeguarded from all hazards and not to be loaned or destroyed.

(6) Educational credentials.

(a) Upon satisfactory completion of the educational program, the student shall receive a degree from the institution indicating that the course of study has been satisfactorily completed by the student.

(b) In addition, for each student who graduates or withdraws, the institution shall prepare, permanently file, and make available a transcript which specifies all courses completed. Each course entry shall include a title, the number of credits awarded, and a grade. The transcript shall separately identify all credits awarded by transfer or by examination.

(c) Upon request, all student records and transcripts shall be made available to the secretary.

(7) Catalog. The institution shall publish a current catalog at least every two years containing the following information:

(a) Name and address of the school;

(b) Date of publication;

(c) Admission requirements and procedures;

(d) A statement of tuition and other fees or charges for which a student is responsible and a statement on refund policies;

(e) A school calendar designating the beginning and ending dates of each term, vacation periods, holidays, and other dates of significance to students;

(f) Objectives of the institution;

(g) A list of trustees (directors), administrative officers and faculty members including titles and academic qualifications;

(h) A statement of policy about standards of progress required of students, including the grading system, minimum satisfactory grades, conditions for interruption for unsatisfactory progress, probation, and reentry, if any;

(i) A description of each course indicating the number of hours and course content, and its place in the total program;

(j) A description of facilities and major equipment, including library, laboratory and clinical training facilities;

(k) Statements on the nature and availability of student financial assistance, counseling, housing, and placement services, if any;

(l) A statement indicating whether the school is recognized by other agencies or associations for the licensing or certification of naturopathic physicians; and

(m) Any other material facts concerning the institution which are reasonably likely to affect the decision of the potential student.

(8) Admission policies and procedures. The institution shall not deny admission to a prospective student because of sex, race, color, religion, physical handicap and/or ethnic origin.

(9) Attendance. The institution shall have a written policy relative to attendance.

(10) Curriculum. The curriculum of the institution shall be designed and presented to meet or exceed the requirements of this chapter. Each student shall complete a minimum of three thousand hours instruction, which shall include no less than two hundred post-graduate hours in the study of mechanotherapy. A minimum total clinical training shall be one thousand one hundred hours, of which no less than eight hundred hours shall be training with student actively involved in diagnosis and treatment in accordance with RCW 18.36A.-050(3). The remainder, if any, may be preceptorships overseen by the college. The clinical training shall be in naturopathic procedures. The following standards are intended not as an exact description of a college's curriculum, but rather as guidelines for the typical acceptable program. It is expected that the actual program taught by each naturopathic college will be prepared by the academic departments of the college to meet the needs of their students and will exceed the outline present here. The secretary's policy is to preserve the autonomy and uniqueness of each naturopathic college, and to encourage innovative and experimental programs to enhance the quality of education in colleges of naturopathic medicine.

(a) Basic science
Anatomy (includes histology and embryology)
Physiology
Pathology
Biochemistry
Public health (includes public health, genetics, microbiology, immunology)
Naturopathic philosophy
Pharmacology

(b) Clinical sciences

(i) Diagnostic courses
Physical diagnosis
Clinical diagnosis
Laboratory diagnosis
Radiological diagnosis

(ii) Therapeutic courses
Matera medica (botanical medicine)
Homeopathy
Nutrition

Physical medicine
(includes mechanical and manual manipulation, hydrotherapy, and electrotherapy)
Psychological medicine

(iii) Specialty courses
Organ systems (cardiology, dermatology, endocrinology, EENT, gastroenterology)
Human development (gynecology, obstetrics, pediatrics, geriatrics)
State law and regulations as they relate to the practice of naturopathy
Medical emergencies
Office procedures

(iv) Clinical externship/preceptorship

(11) Academic standards. The institution must regularly evaluate the quality of its instruction and have a clearly defined set of standards of competence required of its students. Promotion to each successive phase of the program and graduation shall be dependent on mastery of the knowledge and skills presented in the program.

(12) Faculty. Faculty members shall be qualified by training and experience to give effective instruction in the subject(s) taught; advanced degrees in their respective disciplines are expected. The faculty should participate in development and evaluation of curriculum instructional methods and facilities; student discipline, welfare, and counseling; establishment of administrative and educational policies; scholarly and professional growth. Provisions shall be made to allow and encourage faculty involvement in these noninstructional functions, including a plan for peer observation and evaluation among faculty. The institution shall not discriminate on the basis of sex, race, age, color, religion, physical handicap, or national or ethnic origin in the recruitment and hiring of faculty. The institution shall have stated policies on faculty hiring, compensation, fringe benefits, tenure, retirement, firing, grievance and appeals procedures. The institution shall submit to the secretary for each faculty member a resume which includes the following information.

(a) Academic rank or title;

(b) Degree(s) held, the institution(s) that conferred the degree(s), the date(s) thereof, and whether earned or honorary;

(c) Other qualifying training or experience;

(d) Name and course number of each course taught;

(e) Other noninstructional responsibilities, if any, and the proportion of the faculty member's time devoted to them; and

(f) The length of time associated with the institution.

(13) Library. The library shall be staffed, equipped and organized to adequately support the instruction, and research of students and faculty.

(14) Clinical training. The clinical facilities shall be adequate in size, number and resources to provide all aspects of naturopathic diagnosis and treatment. There shall be properly equipped rooms for consultation, physical examination and therapy, and a pharmacy, laboratory, and radiological equipment each consistent with the definition of practice in chapter 18.36A RCW as now or hereafter amended. A licensed and adequately experienced naturopathic physician must be in direct supervision of and have final decision in the diagnosis and treatment of patients by students, and must be present in the clinic at all times when the clinic is open.

(15) Physical plant, materials and equipment. The institution shall own or enjoy the full use of buildings and equipment adequate to accommodate the instruction of its students, and administrative and faculty offices. There shall be adequate facilities of the safekeeping of valuable records. The plant and grounds, equipment and facilities shall be maintained in an efficient, sanitary, and presentable condition. All laws relating to safety and sanitation and other regulations concerning public buildings shall be observed. There shall be sufficient personnel employed to carry out proper maintenance.

(16) Cancellation and refund policy. The institution shall maintain a fair and equitable policy regarding refund of the unused portion of tuition fees and other charges in the event a student fails to enter the course, or withdraws at any time prior to completion of the course. Such a policy shall be in keeping with generally accepted practices of institutions of higher education.

(17) Other information. The applicant institution shall provide any other information about the institution and its programs as required by the secretary.

[Statutory Authority: RCW 18.36A.060. 92-02-018 (Order 224), § 246-836-180, filed 12/23/91, effective 1/23/92. Statutory Authority: RCW 43.70.040. 91-02-049 (Order 121), recodified as § 246-836-180, filed 12/27/90, effective 1/31/91. WAC 246-836-200 Site review procedures for approval of college of naturopathic medicine. The secretary may send a representative or an examining or evaluation committee to inspect any institution requesting approval as a college of naturopathic medicine. Such inspections may be at any reasonable time during the normal operating hours of the institution. The report of the representative or committee and the institution's response shall be submitted as part of the documentation necessary for the secretary's action on the institution's application for approval. Expenses incurred for the site review shall be the responsibility of the program requesting approval.

[Statutory Authority: RCW 18.36A.060. 92-02-018 (Order 224), § 246-836-200, filed 12/23/91, effective 1/23/92. WAC 246-836-210 Authority to use, prescribe, dispense and order. Licensed naturopaths may use, prescribe, dispense, and order certain medicines of mineral, animal, and botanical origin including the following:

(1) Nonlegend medicines derived from animal organs, tissues, and oils, minerals, and plants administered orally and topically.

(2) Legend topical ointments, creams, and lotions containing antiseptics.

(3) Legend topical, local anesthetics applied to superficial structures for use during minor office procedures as appropriate. Topical local anesthetic means the local application of anesthetic which may be injected into the intradermal

subcutaneous layers of the skin only to the extent necessary to care for superficial lacerations, abrasions and the removal of foreign bodies located in superficial structures not to include the eye.

(4) Legend vitamins, minerals, trace minerals, and whole gland thyroid.

(5) Nondrug contraceptive devices except intrauterine devices.

(6) All homeopathic preparations.

(7) Intramuscular injections limited to vitamin B-12 preparations and combinations when clinical or laboratory evaluation has indicated vitamin B-12 deficiency.

(8) Immunizing agents approved by the Bureau of Biologics, United States Food and Drug Administration and listed in the current *Recommendations of the United States Public Health Services Immunizations Practices Advisory Committee* (ACIP) or the *Report of the Committee of Infectious Diseases* published by the American Academy of Pediatrics.

(9) Legend substances as exemplified in traditional botanical and herbal pharmacopeia as identified by a list of substances to be developed by the secretary.

[Statutory Authority: RCW 18.36A.060 [(1)](a). 92-06-020 (Order 247), § 246-836-210, filed 2/25/92, effective 3/27/92.]

WAC 246-836-330 Mandatory reporting. (1) All reports required by this chapter shall be submitted to the department as soon as possible, but no later than twenty days after a determination is made.

(2) A report should contain the following information if known:

(a) The name, address, and telephone number of the person making the report.

(b) The name and address and telephone numbers of the naturopath being reported.

(c) The case number of any patient whose treatment is a subject of the report.

(d) A brief description or summary of the facts which gave rise to the issuance of the report, including dates of occurrences.

(e) If court action is involved, the name of the court in which the action is filed along with the date of filing and docket number.

(f) Any further information which would aid in the evaluation of the report.

(3) Mandatory reports shall be exempt from public inspection and copying to the extent permitted under RCW 42.17.310 or to the extent that public inspection or copying of the report or any portion of the report would invade or violate a person's right to privacy as set forth in RCW 42.17.255.

(4) A person is immune from civil liability, whether direct or derivative, for providing information to the department pursuant to RCW 18.130.070.

[Statutory Authority: RCW 43.70.040. 91-02-049 (Order 121), recodified as § 246-836-330, filed 12/27/90, effective 1/31/91. Statutory Authority: RCW 18.130.070. 89-14-092 (Order PM 842), § 308-130-330, filed 6/30/89.]

WAC 246-836-340 Health care institutions. The chief administrator or executive officer or their designee of any hospital or nursing home shall report to the department when any naturopath's services are terminated or are restricted based on a determination that the naturopath has either committed an act or acts which may constitute unprofessional conduct or that the naturopath may be unable to practice with reasonable skill or safety to clients by reason of any mental or physical condition.

[Statutory Authority: RCW 43.70.040. 91-02-049 (Order 121), recodified as § 246-836-340, filed 12/27/90, effective 1/31/91. Statutory Authority: RCW 18.130.070. 89-14-092 (Order PM 842), § 308-130-340, filed 6/30/89.]

WAC 246-836-350 Naturopathic associations or societies. The president or chief executive officer of any naturopathic association or society within this state shall report to the department when the association or society determines that a naturopath has committed unprofessional conduct or that a naturopath may not be able to practice naturopathy with reasonable skill and safety to patients as the result of any mental or physical condition. The report required by this section shall be made without regard to whether the license holder appeals, accepts, or acts upon the determination made by the association or society. Notification of appeal shall be included.

[Statutory Authority: RCW 43.70.040. 91-02-049 (Order 121), recodified as § 246-836-350, filed 12/27/90, effective 1/31/91. Statutory Authority: RCW 18.130.070. 89-14-092 (Order PM 842), § 308-130-350, filed 6/30/89.]

WAC 246-836-360 Health care service contractors and disability insurance carriers. The executive officer of every health care service contractor and disability insurer, licensed under chapters 48.20, 48.21, 48.21A, and 48.44 RCW, operating in the state of Washington shall report to the department all final determinations that a naturopath has engaged in fraud in billing for services.

[Statutory Authority: RCW 43.70.040. 91-02-049 (Order 121), recodified as § 246-836-360, filed 12/27/90, effective 1/31/91. Statutory Authority: RCW 18.130.070. 89-14-092 (Order PM 842), § 308-130-360, filed 6/30/89.]

WAC 246-836-370 Professional liability carriers. Every institution or organization providing professional liability insurance directly or indirectly to naturopaths shall send a complete report to the department of any malpractice settlement, award, or payment in excess of twenty thousand dollars as a result of a claim or action for damages alleged to have been caused by an insured naturopath's incompetency or negligence in the practice of naturopathy. Such institution or organization shall also report the award, settlement, or payment of three or more claims during a twelve-month period as a result of the naturopath's alleged incompetence or negligence in the practice of naturopathy.

[Statutory Authority: RCW 43.70.040. 91-02-049 (Order 121), recodified as § 246-836-370, filed 12/27/90, effective 1/31/91. Statutory Authority: RCW 18.130.070. 89-14-092 (Order PM 842), § 308-130-370, filed 6/30/89.]

WAC 246-836-380 Courts. The department requests the assistance of the clerk of trial courts within the state to report all professional malpractice judgments and all convictions of licensed naturopaths, other than minor traffic violations.

[Statutory Authority: RCW 43.70.040. 91-02-049 (Order 121), recodified as § 246-836-380, filed 12/27/90, effective 1/31/91. Statutory Authority: RCW 18.130.070. 89-14-092 (Order PM 842), § 308-130-380, filed 6/30/89.]

WAC 246-836-390 State and federal agencies. The department requests the assistance of executive officers of any state or federal program operating in the state of Washington, under which a naturopath is employed to provide patient care services, to report to the department whenever such a naturopath has been judged to have demonstrated his/her incompetency or negligence in the practice of naturopathy, or has otherwise committed unprofessional conduct, or is a mentally or physically disabled naturopath. These requirements do not supersede any federal or state law.

[Statutory Authority: RCW 43.70.040. 91-02-049 (Order 121), recodified as § 246-836-390, filed 12/27/90, effective 1/31/91. Statutory Authority: RCW 18.130.070. 89-14-092 (Order PM 842), § 308-130-390, filed 6/30/89.]

WAC 246-836-410 AIDS prevention and information education requirements. Applicants must complete seven clock hours of AIDS education as required in chapter 246-12 WAC, Part 8.

[Statutory Authority: RCW 43.70.280. 98-05-060, § 246-836-410, filed 2/13/98, effective 3/16/98. Statutory Authority: RCW 18.36A.060 and 70.24.270. 92-02-018 (Order 224), § 246-836-410, filed 12/23/91, effective 1/23/92. Statutory Authority: RCW 43.70.040. 91-02-049 (Order 121), recodified as § 246-836-410, filed 12/27/90, effective 1/31/91. Statutory Authority: RCW 70.24.270. 88-22-077 (Order PM 786), § 308-130-410, filed 11/2/88.]

WAC 246-836-990 Naturopathic physician licensing fees and renewal cycle. (1) Licenses must be renewed every year on the practitioner's birthday as provided in chapter 246-12 WAC, Part 2.

(2) The following nonrefundable fees will be charged:

Title of Fee	Amount
Application initial/retake	50.00
State examination (initial/retake)	50.00
Initial license	50.00
License renewal	450.00
Late renewal penalty	225.00

DISPOSITION OF SECTIONS FORMERLY CODIFIED IN THIS CHAPTER

246-840-100 AIDS education and training. [Statutory Authority: Chapter 18.79 RCW. 97-13-100, § 246-840-100, filed 6/18/97, effective 7/19/97.] Repealed by 98-05-060, filed 2/13/98, effective 3/16/98. Statutory Authority: RCW 43.70.280.

246-840-110 Renewal of licenses. [Statutory Authority: Chapter 18.79 RCW. 97-13-100, § 246-840-110, filed 6/18/97, effective 7/19/97.] Repealed by 98-05-060, filed 2/13/98, effective 3/16/98. Statutory Authority: RCW 43.70.280.

246-840-113 Impaired practical nurse program—Content—License surcharge. [Statutory Authority: Chapter 18.79 RCW. 97-13-100, § 246-840-113, filed 6/18/97, effective 7/19/97.] Repealed by 99-01-099, filed 12/17/98, effective 1/17/99. Statutory Authority: Chapter 18.79 RCW.

246-840-115 Responsibility for maintaining mailing address. [Statutory Authority: Chapter 18.79 RCW. 97-13-100, § 246-840-115, filed 6/18/97, effective 7/19/97.] Repealed by 98-05-060, filed 2/13/98, effective 3/16/98. Statutory Authority: RCW 43.70.280.

246-840-315 Clinical specialist in psychiatric/mental health nursing. [Statutory Authority: Chapter 18.79 RCW. 97-13-100, § 246-840-315, filed 6/18/97, effective 7/19/97.] Repealed by 00-21-119, filed 10/18/00, effective 11/18/00. Statutory Authority: RCW 18.79.110 and 18.79.050.

246-840-430 Termination of ARNP prescriptive authorization. [Statutory Authority: Chapter 18.79 RCW. 97-13-100, § 246-840-430, filed 6/18/97, effective 7/19/97.] Repealed by 00-21-119, filed 10/18/00, effective 11/18/00. Statutory Authority: RCW 18.79.110 and 18.79.050.

246-840-440 Prescriptive authorization period. [Statutory Authority: RCW 43.70.280. 98-05-060, § 246-840-440, filed 2/13/98, effective 3/16/98. Statutory Authority: Chapter 18.79 RCW. 97-13-100, § 246-840-440, filed 6/18/97, effective 7/19/97.] Repealed by 00-21-119, filed 10/18/00, effective 11/18/00. Statutory Authority: RCW 18.79.110 and 18.79.050.

246-840-715 Standards/competencies. [Statutory Authority: Chapter 18.79 RCW. 97-13-100, § 246-840-715, filed 6/18/97, effective 7/19/97.] Repealed by 02-06-117, filed 3/6/02, effective 4/6/02. Statutory Authority: RCW 18.79.110.

246-840-980 Evaluation of nurse delegation. [Statutory Authority: Chapter 18.79 RCW. 96-05-060, § 246-840-980, filed 2/19/96, effective 3/21/96.] Repealed by 02-02-047, filed 12/27/01, effective 1/27/02. Statutory Authority: Chapters 18.79 and 18.88A RCW.

WAC 246-840-010 Definitions. (1) "Auxiliary services" are all nursing services provided to patients by persons other than the licensed practical nurse, the registered nurse and the nursing student.

(2) "Beginning practitioner" means a newly licensed nurse beginning to function in the nurse role.

(3) "Behavioral objectives" means the measurable outcomes of specific content.

(4) "Client" means the person who receives the services of the practical nurse or registered nurse.

(5) "Client advocate" means a supporter of client rights and choices.

(6) "Commission" means the Washington state nursing care quality assurance commission.

(7) "Competencies" means the tasks necessary to perform the standards.

(8) "Conceptual framework" means the theoretical base around which the curriculum is developed.

(9) "Conditional approval" of a school of nursing is the approval given a school of nursing that has failed to meet the requirements of the law and the rules and regulations of the commission, and it specifies conditions that must be met within a designated time to rectify the failure.

(10) "Delegation" means the licensed practical nurse or registered nurse transfers the performance of selected nursing tasks to competent individuals in selected situations. The licensed practical nurse or registered nurse delegating the task retains the responsibility and accountability for the nursing care of the client. The licensed practical nurse or registered nurse delegating the task supervises the performance of the unlicensed person;

(a) Nursing acts delegated by the licensed practical nurse or registered nurse shall:

(i) Be within the area of responsibility of the licensed practical nurse or registered nurse delegating the act;

(ii) Be such that, in the opinion of the licensed practical nurse or registered nurse, it can be properly and safely performed by the person without jeopardizing the patient welfare;

(iii) Be acts that a reasonable and prudent licensed practical nurse or registered nurse would find are within the scope of sound nursing judgment.

(b) Nursing acts delegated by the licensed practical nurse or registered nurse shall not require the unlicensed person to exercise nursing judgment nor perform acts which must only be performed by a licensed practical nurse or registered nurse, except in an emergency situation (RCW 18.79.240 (1)(b) and (2)(b)).

(c) When delegating a nursing act to an unlicensed person it is the registered nurse who shall:

(i) Make an assessment of the patient's nursing care need before delegating the task;

(ii) Instruct the unlicensed person in the delegated task or verify competency to perform or be assured that the person is competent to perform the nursing task as a result of the systems in place by the health care agency;

(iii) Recognize that some nursing interventions require nursing knowledge, judgment, and skill and therefore may not lawfully be delegated to unlicensed persons.

(11) Direction and Supervision:

(a) "Supervision" of licensed or unlicensed nursing personnel means the provision of guidance and evaluation for

the accomplishment of a nursing task or activity with the initial direction of the task or activity; periodic inspection of the actual act of accomplishing the task or activity; and the authority to require corrective action.

(b) "Consulting capacity" shall mean the recommendations to a professional entity, employed at that facility, which may be accepted, rejected, or modified. These recommendations shall not be held out as providing nursing services by the consulting nurse to the patient or public.

(c) "Direct supervision" shall mean the licensed registered nurse is on the premises, is quickly and easily available and the patient has been assessed by the licensed registered nurse prior to the delegation of the duties to any caregiver.

(d) "Immediate supervision" shall mean the registered nurse is on the premises and is within audible and visual range of the patient and the patient has been assessed by the registered nurse prior to the delegation of duties to any caregiver.

(e) "Indirect supervision" shall mean the registered nurse is not on the premises but has given either written or oral instructions for the care and treatment of the patient and the patient has been assessed by the registered nurse prior to the delegation of duties to any caregiver.

(12) "Extended learning sites" refers to any area external to the parent organization selected by faculty for student learning experiences.

(13) "Faculty" means persons who are responsible for the educational program of the school of nursing and who hold faculty appointment in the school.

(14) "Full approval" of a school of nursing is the approval given a school of nursing that meets the requirements of the law and the rules and regulations of the commission.

(15) "Minor nursing services." The techniques and procedures used by the nursing profession are extremely difficult to categorize as major or minor nursing services. The important factor with which this law is concerned is the determination of which nursing person and at what level of preparation that person may perform said technique or procedure in relation to the condition of a given patient, and this kind of determination rests with the registered nurse.

(16) "Minimum standards of competency" means the functions that are expected of the beginning level nurse.

(17) "Nurse administrator" is an individual who meets the qualifications contained in WAC 246-840-555 and who has been designated as the person primarily responsible for the direction of the program in nursing. Titles for this position may include, among others, dean, director, coordinator or chairperson.

(18) The phrase "nursing aide" used in RCW 18.79.240 (1)(c) shall mean a "nursing technician." "Nursing technician" is a nursing student currently enrolled in a commission or state board of nursing approved nursing education program and employed for the purpose of giving help, assistance and support in the performance of those services which constitute the practice of registered nursing. The nursing student shall use the title "nursing technician" while employed.

(19) "Nursing student" is a person currently enrolled in an approved school of nursing.

(20) "Philosophy" means the beliefs and principles upon which the curriculum is based.

(21) "Program" means a division or department within a state supported educational institution, or other institution of higher learning charged with the responsibility of preparing persons to qualify for the licensing examination.

(22) "Provisional approval" of schools of nursing is the approval given a new school of nursing based on its proposed program prior to the admission of its first class.

(23) "Registered nurse" as used in these rules shall mean a nurse as defined by RCW 18.79.030(1).

(24) "School" means an educational unit charged with the responsibility of preparing persons to practice as practical nurses or registered nurses. Three types of basic schools of nursing are distinguished by the certificate awarded to the graduate. Schools of nursing within colleges and universities award the associate degree or baccalaureate degree. Schools of nursing sponsored by a hospital award a diploma.

(25) "Standards" means the overall behavior which is the desired outcome.

(26) "Terminal objectives" means the statements of goals which reflect the philosophy and are the measurable outcomes of the total curriculum.

(27) An "unapproved school of nursing" is a school of nursing that has been removed from the list of approved schools for failure to meet the requirements of the law and the rules and regulations of the commission or a school that has never been approved by the commission.

[Statutory Authority: RCW 43.70.280. 98-05-060, § 246-840-010, filed 2/13/98, effective 3/16/98. Statutory Authority: Chapter 18.79 RCW. 97-13-100, § 246-840-010, filed 6/18/97, effective 7/19/97.]

WAC 246-840-020 Documents issued to nurses in Washington. The following documents are the only documents issued to nurses in Washington.

(1) Active license. A license is issued upon completion of all requirements for licensure, confers the right to use the title licensed practical nurse or licensed registered nurse and the use of its abbreviation, L.P.N. or R.N., and to practice as a licensed practical nurse or registered nurse in the state of Washington.

A student who has graduated from a basic professional nursing course and who is pursuing a baccalaureate degree in nursing, an advanced degree in nursing or an advanced certification in nursing shall hold an active Washington RN license before participating in the practice of nursing as required to fulfill the learning objectives in a clinical course.

Exception to this requirement may be granted by the commission on an individual basis upon a petition submitted by the dean or director of a school of nursing, on a case-by-case basis.

(a) The exception allows the student to practice in a clinical setting only under the direct supervision of an RN faculty member. The commission requires that any RN faculty member supervising these students meet the requirements of direct supervision as defined in WAC 246-840-010 (13)(c)(ii) and, in addition, that supervising faculty document that all clients under the care of the student be assessed by the RN faculty each clinical day.

(b) The dean or director of the school of nursing shall ensure that each faculty member who supervises these students be provided a copy of these rules and be assigned in a manner that allows for direct supervision.

(c) Nursing students who participate in clinical courses under this section are not eligible for the nursing technician role.

(2) Inactive license. A license issued to a person previously holding an active license in this state, is in good standing and does not practice in Washington state. Refer to chapter 246-12 WAC, Part 4.

(3) Limited educational license. A limited educational license may be issued to a person who has been on inactive or lapsed status for three years or more and who wishes to return to active status. A limited educational license does not authorize practice for employment.

(4) Advanced registered nurse practitioner (ARNP) recognition document. An ARNP recognition document may be issued to any person who meets the requirements of the commission as contained in WAC 246-840-300. Only persons holding this recognition document shall have the right to use the title "advanced registered nurse practitioner" or the abbreviation "ARNP" or any title or abbreviation which may indicate that the person is entitled to practice at an advanced and specialized level as a nurse practitioner, a specialized nurse practitioner, a nurse midwife, or a nurse anesthetist. This document authorizes the ARNP to engage in the scope of practice allowed for his or her specialty area and is valid only with a current registered nurse license.

(5) ARNP interim permit. An interim permit may be issued following satisfactory completion of an advanced formal education program, registration for the first certification examination of an approved program following completion of the education and filing of an application, fee and requested documentation. If the applicant passes the examination the department shall grant advanced registered nurse practitioner status. If the applicant fails the examination, the interim permit shall expire upon notification and is not renewable.

(6) ARNP prescriptive authorization. A notation of prescriptive authorization may be placed on the ARNP recognition document issued to any person who meets the requirements of the commission as contained in WAC 246-840-410. This authorizes the ARNP to prescribe drugs within his or her scope of practice and is valid only with a current registered nurse license.

[Statutory Authority: RCW 18.79.110. 99-10-079, § 246-840-020, filed 5/4/99, effective 6/4/99. Statutory Authority: RCW 43.70.280. 98-05-060, § 246-840-020, filed 2/13/98, effective 3/16/98. Statutory Authority: Chapter 18.79 RCW. 97-13-100, § 246-840-020, filed 6/18/97, effective 7/19/97.]

WAC 246-840-030 Examination and licensure. (1) Graduates from Washington state board approved schools of nursing holding a degree/diploma from such a school shall be eligible to write the examination provided all other requirements are met.

(2) Graduates from a nursing school approved by a board of nursing in another U.S. jurisdiction shall be eligible to take the examination provided that:

(a) The nursing school meets the minimum standards approved for state board school of nursing in Washington at the time of the applicant's graduation;

(b) Graduate has completed all institutional requirements for the degree/diploma in nursing education per attestation from the administrator of the approved nursing education program;

(c) All other requirements of the statute and regulations shall be met.

(3) Graduates of a nontraditional school of nursing which meet the requirements of subsection (2)(a), (b) and (c) of this section, are eligible to take the registered nurse examination provided that the following conditions are met: (For purposes of this section, nontraditional schools of nursing are defined as schools that have curricula which do not include a faculty supervised teaching/learning component in clinical settings.)

(a) The candidate is a licensed practical nurse in Washington state; and

(b) There is documentation of at least two hundred hours of supervised clinical experience (preceptorship) in the role of a registered nurse. The required elements of a preceptorship are as follows:

(i) Acceptable clinical sites - Acceptable clinical sites include acute care or subacute care settings or skilled nursing facilities. Other sites must be approved by the commission.

(ii) Qualifications of preceptor (instructor) - The preceptor must be a licensed registered nurse in Washington state with at least two years experience in a practice setting and have no history of disciplinary actions. The candidate must provide documentation that the preceptor meets these requirements when he/she applies for licensure and must also provide a written agreement between the candidate and the preceptor (or facility) that preceptorship supervision will occur.

(iii) Experiences in the preceptorship - Experiences must include delegation and supervision, decision making and critical thinking, patient assessment as part of the nursing process and evaluation of care. A checklist, provided by the commission, must be completed by the preceptor which indicates the candidate's satisfactory completion of the identified skills. This checklist must be submitted with the candidate's application for licensure; and

(c) The candidate receives a satisfactory evaluation from their preceptor meeting commission requirements as previously identified ((b)(iii) of this subsection); and

(d) All other requirements of the nursing statute and regulations are met.

(4) In order to be eligible for licensure by examination the applicant shall have satisfactorily completed an approved practical nursing program, fulfilling all the basic course content as stated in WAC 246-840-575, or its equivalent as determined by the board. Every applicant must have satisfactorily completed an approved practical nursing program within two years of the date of the first examination taken or the applicant must meet other requirements of the board to determine current theoretical and clinical knowledge of practical nursing practice.

(5) An applicant who has not completed an approved practical nurse program must establish evidence of successful

completion of nursing and related courses at an approved school preparing persons for licensure as registered nurses, which courses include personal and vocational relationships of the practical nurse, basic science and psychosocial concepts, theory and clinical practice in medications and the nursing process, and theory and clinical practice in medical, surgical, geriatric, pediatric, obstetric and mental health nursing. These courses must be equivalent to those same courses in a practical nursing program approved by the board.

(6) A notice of eligibility for admission to the licensing examination may be issued to all new graduates from board approved practical nursing programs after the filing of a completed application, payment of the application fee, and official notification from the program certifying that the individual has satisfactorily completed all requirements for the diploma/certification.

(7) All other requirements of the statute and regulations shall be met.

[Statutory Authority: Chapter 18.79 RCW. 99-01-098, § 246-840-030, filed 12/17/98, effective 1/17/99. Statutory Authority: RCW 18.79.160. 97-17-015, § 246-840-030, filed 8/8/97, effective 9/8/97.]

WAC 246-840-040 Filing of application for licensing examination. (1) All applicants must file with the Washington state nursing commission a completed application, with the required fee sixty days prior to the anticipated date of examination.

(2) Applicants must request the school of nursing to send an official transcript directly to the Washington state nursing commission. The transcript must contain adequate documentation to verify that statutory requirements are met and shall include course names and credits accepted from other programs.

(3) Applicants must also file an examination application, along with the required fee directly with the testing service.

(4) Applicants who have filed the required applications and met all qualifications will be notified of their eligibility, and only such applicants will be admitted to the examination.

(5) Applicants must submit with the application one recent U.S. passport identification photograph of the applicant unmounted and signed by the applicant across the front.

(6) Applicants must complete seven clock hours of AIDS education as required in chapter 246-12 WAC, Part 8.

[Statutory Authority: RCW 43.70.280. 98-05-060, § 246-840-040, filed 2/13/98, effective 3/16/98. Statutory Authority: Chapter 18.79 RCW. 97-13-100, § 246-840-040, filed 6/18/97, effective 7/19/97.]

WAC 246-840-050 Licensing examination. (1) The current series of the National Council of the State Boards of Nursing Registered Nurse or Practical Nurse Licensing Examination (NCLEX-RN or NCLEX-PN) Computerized Adaptive Test (NCLEX CAT) shall be the official examinations for nurse licensure. In order to be licensed in this state, all nurse applicants shall take and pass the National Council Licensure Examination (NCLEX-RN or NCLEX-PN) within four attempts and within two years of completion of the nursing program.

(2) The NCLEX will consist of a Computerized Adaptive Test that will be individualized with the score for the examination reported as either pass or fail. Specific parameters of the exam will be as prescribed by contract with National Council of State Boards of Nursing, Inc. (NCSBN).

(3) Examinations shall be conducted throughout the year.

(4) The executive director of the commission shall negotiate with NCSBN for the use of the NCLEX CAT.

(5) The examination shall be administered in accord with the NCSBN security measures and contract. All appeals of examination results shall be managed in accord with policies in the NCSBN contract.

[Statutory Authority: RCW 18.79.110. 99-13-086, § 246-840-050, filed 6/14/99, effective 7/15/99. Statutory Authority: Chapter 18.79 RCW. 97-13-100, § 246-840-050, filed 6/18/97, effective 7/19/97.]

WAC 246-840-060 Release of results of examination. (1) Candidates shall be notified regarding the examination results by mail only.

(2) Candidates who pass shall receive a license to practice as a licensed practical nurse or registered nurse provided all other requirements are met.

(3) Candidates who fail shall receive a letter of notification regarding their eligibility to rewrite the examination.

(4) The candidate's examination results will be maintained in his/her application file in the health professions quality assurance division, department of health.

[Statutory Authority: Chapter 18.79 RCW. 97-13-100, § 246-840-060, filed 6/18/97, effective 7/19/97.]

WAC 246-840-070 Failures—Repeat examination. (1) The retest may be scheduled no sooner than ninety days following the date of the last exam taken.

(2) Request to retake the exam must be submitted to the commission no less than forty-five days prior to the anticipated test date.

(3) Candidates who fail the examination will be permitted to retake the examination three times within the two-year period from the month of completion of the nursing program.

(4) Candidates who fail to pass the examination within the time period specified in subsection (3) of this section shall be required to complete a program of study approved by the commission. Upon successful completion of the approved program, the candidate shall be required to take the examination.

[Statutory Authority: RCW 18.79.110. 99-13-086, § 246-840-070, filed 6/14/99, effective 7/15/99. Statutory Authority: Chapter 18.79 RCW. 97-13-100, § 246-840-070, filed 6/18/97, effective 7/19/97.]

WAC 246-840-080 Licensure of graduates of foreign schools of nursing. (1) Applicants for licensure educated in a country outside the United States or its territories must meet the following requirements for licensure:

(a) Satisfactory completion of a basic nursing education program approved in the country of original licensure.

(i) The nursing education program must be equivalent to the minimum standards prevailing for commission or state board approved schools of nursing in Washington at the time of graduation.

(ii) Any deficiencies in the nursing program (theory and clinical practice in medical, psychiatric, obstetric, surgical

and pediatric nursing) must be satisfactorily completed in a state board approved school of nursing.

(b) Screening exams:

FOR PRACTICAL NURSES:

Satisfactory passage of the test of English as a foreign language (TOEFL). All applicants with nursing educations obtained in countries outside of the United States and never before licensed in another jurisdiction or territory of the United States, shall be required to take the TOEFL and attain a minimum score of fifty in each section. Once an applicant obtains a score of fifty in a section, the board will require reexamination and passage only in the section(s) failed. Passage of all sections of the TOEFL must be attained and the applicant must cause TOEFL services to forward directly to the board a copy of the official examinee's score record. These results must be timely received with the individual's application before the NCLEX can be taken. Exceptions may be made, in the commission's discretion and for good cause, to this requirement.

FOR REGISTERED NURSES:

Satisfactory passage of the screening examination for foreign nurses. As of May 1, 1981, all applicants from countries outside the United States, and never before licensed in one of the United States jurisdictions shall have passed the commission on graduates of foreign nursing schools (CGFNS) qualifying examination.

(c) Applicants licensed under the laws of a country outside the United States or its territories shall be required to take the current series of the National Council of State Boards of Nursing Licensing exam for Practical or Registered Nurse (NCLEX-PN or NCLEX-RN) as provided in WAC 246-840-050: Provided, That those persons meeting the requirements of WAC 246-840-090(7) are exempt from this requirement; or show evidence of having already successfully passed the state board licensing examination for practical or registered nurses in another jurisdiction or territory of the United States with the passing standard required in Washington.

(d) All other requirements of the statute and regulation must be met.

(2) Applicants for examination must:

(a) File with the nursing commission a completed license application with the required fee sixty days prior to the anticipated date of the examination.

(b) Request the school of nursing to submit an official transcript directly to the health professions quality assurance division of department of health. The transcript shall contain the date of graduation and the credential conferred, and shall be in English or accompanied by an official English translation notarized as a true and correct copy.

(c) Applicants shall also file an examination application, along with the required fee directly with the testing service.

(d) Applicants must demonstrate completion of seven clock hours of AIDS education as provided in chapter 246-12 WAC, Part 8.

(e) Request the licensing agency in the country of original license to submit evidence of licensure.

(f) Submit a notarized copy of the certificate issued by the CGFNS or results of TOEFL exam.

(g) If the applicant's original documents (education and licensing) are on file in another state or with the CGFNS, the applicant may request that the state board or the CGFNS send notarized copies in lieu of the originals.

(h) Submit one recent passport sized photograph of the applicant unmounted and signed by the applicant across the front.

[Statutory Authority: RCW 43.70.280. 98-05-060, § 246-840-080, filed 2/13/98, effective 3/16/98. Statutory Authority: Chapter 18.79 RCW. 97-13-100, § 246-840-080, filed 6/18/97, effective 7/19/97.]

WAC 246-840-090 Licensure by interstate endorsement. A license to practice as a nurse in Washington may be issued without examination provided the applicant meets all of the following requirements:

FOR PRACTICAL NURSE PROGRAMS:

(1) The applicant has graduated and holds a credential from:

(a) A commission or state board approved program preparing candidates for licensure as a practical nurse; or

(b) Its equivalent as determined by the commission, which program must fulfill the minimum requirement for commission or state board approved practical nursing programs in Washington at the time of graduation.

(2) Applicants shall have passed a state board constructed test, the SBTPE (state board test pool examination), or NCLEX in their original state of licensure within four attempts and within two years of completion of the nursing program.

(3) The applicant held or currently holds a license to practice as a practical nurse in another state or territory. If the license is lapsed or inactive for three years or more, the applicant must successfully complete a commission approved refresher course before an active Washington license is issued.

(4) That grounds do not exist for denial under chapter 18.130 RCW.

(5) The applicant shall:

(a) Submit a completed application with the required fee.

(b) Applicants must complete seven clock hours of AIDS education as required in chapter 246-12 WAC, Part 8.

FOR REGISTERED NURSE PROGRAMS:

(6) The applicant has graduated and holds a degree/diploma from a commission or state board approved school of nursing preparing candidates for licensure as a registered nurse provided such nursing program is equivalent to the minimum nursing educational standards prevailing for commission or state board approved schools of nursing in Washington at the time of the applicant's graduation.

(a) Applicants who were licensed prior to January 1, 1953, must have scored at least seventy-five percent on the commission or state board examination in the state of original licensure.

(i) Applicants licensed after January 1, 1953, but before June 1, 1982, must have passed the state board test pool examination for registered nurse licensure with a minimum standard score of 350 in each test.

(ii) Applicants licensed after July 1, 1982, must have passed with a minimum standard score as established by contract with the National Council of State Boards of Nursing.

(b) The applicant holds a valid current license to practice as a registered nurse in another state or territory.

(c) Applicants must complete seven clock hours of AIDS education as required in chapter 246-12 WAC, Part 8.

(d) The application must be completed and notarized, the fee must be filed with the application. A notarized copy of a valid current license shall be filed with the application.

(e) Verification of licensure by examination must be obtained from the state or territory of original licensure. Any fee for verification required by the state or territory of original license must be paid by the applicant.

(7) Applicants from countries outside the United States who were granted a license in another United States jurisdiction or territory prior to December 31, 1971, and who were not required to pass the state board test pool examination must meet the following requirements:

(a) The nursing education program must meet the minimum approved standards prevailing for schools of nursing in Washington at the time of the applicant's graduation.

(b) The applicant holds a valid current license to practice as a registered nurse in another United States jurisdiction or territory.

(c) The applicant must submit to the commission:

(i) A complete notarized application. The fee must be filed with the application.

(ii) Verification of original licensure obtained in the United States jurisdiction or territory.

(iii) Notarized copies of educational preparation and licensure by examination submitted directly from the country of original licensure or from the state commission or territory of original United States licensure.

(iv) Verification of current nursing practice for three years prior to application for Washington licensure.

(v) Applicants must complete seven clock hours of AIDS education as required in chapter 246-12 WAC, Part 8.

(d) The applicant shall meet all requirements of chapter 18.79 RCW and regulations of the commission.

[Statutory Authority: RCW 18.79.110. 99-13-086, § 246-840-090, filed 6/14/99, effective 7/15/99. Statutory Authority: RCW 43.70.280. 98-05-060, § 246-840-090, filed 2/13/98, effective 3/16/98. Statutory Authority: Chapter 18.79 RCW. 97-13-100, § 246-840-090, filed 6/18/97, effective 7/19/97.]

WAC 246-840-105 Brief adjudicative proceedings—Denials based on failure to meet education, experience, or examination prerequisites for licensure. The commission adopts RCW 34.05.482 and 34.05.485 through 34.05.494 for adjudicative proceedings requested by applicants, who are denied a license under chapter 18.79 RCW or chapter 246-840 WAC for failure to meet the education, experience, or examination prerequisites for licensure. The sole issue at the adjudicative proceeding shall be whether the applicant meets the education, experience, and examination prerequisites for the issuance of a license.

[Statutory Authority: Chapter 18.79 RCW. 97-13-100, § 246-840-105, filed 6/18/97, effective 7/19/97.]

WAC 246-840-111 Expired license. (1) If the license has expired for three years or less, the practitioner must meet the requirements of chapter 246-12 WAC, Part 2.

(2) If the license has expired for more than three years and the practitioner has been in active practice in another United States jurisdiction, the practitioner must:

(a) Submit verification of active practice from any other United States jurisdiction;

(b) Meet the requirements of chapter 246-12 WAC, Part 2.

(3) If the license has expired for more than three years and the practitioner has not been in active practice in another United States jurisdiction, the practitioner must:

(a) Successfully complete a commission approved refresher course. The practitioner will be issued a limited educational license to enroll in the refresher course. The limited educational license is valid only while working under the direct supervision of a preceptor and is not valid for employment as a licensed practical or registered nurse;

(b) Meet the requirements of chapter 246-12 WAC, Part 2.

[Statutory Authority: RCW 43.70.280. 98-05-060, § 246-840-111, filed 2/13/98, effective 3/16/98.]

WAC 246-840-120 Inactive credential. (1) A practitioner may obtain an inactive credential. Refer to the requirements of chapter 246-12 WAC, Part 4.

(2) Practitioners with an inactive credential for three years or less who wish to return to active status must meet the requirements of chapter 246-12 WAC, Part 4.

(3) Practitioners with an inactive credential for more than three years, who have been in active practice in another United States jurisdiction, and wish to return to active status must:

(a) Submit verification of active practice from any other United States jurisdiction;

(b) Meet the requirements of chapter 246-12 WAC, Part 4.

(4) Practitioners with an inactive credential for more than three years, who have not been in active practice in another United States jurisdiction, and wish to return to active status must:

(a) Successfully complete a commission approved refresher course. The practitioner will be issued a limited educational license to enroll in the refresher course. The limited educational license is valid only while working under the direct supervision of a preceptor and is not valid for employment as a licensed practical or registered nurse;

(b) Meet the requirements of chapter 246-12 WAC, Part 4.

[Statutory Authority: RCW 43.70.280. 98-05-060, § 246-840-120, filed 2/13/98, effective 3/16/98. Statutory Authority: Chapter 18.79 RCW. 97-13-100, § 246-840-120, filed 6/18/97, effective 7/19/97.]

WAC 246-840-130 Criteria for approved refresher course. (1) Philosophy, purpose and objectives.

(a) Philosophy, purpose and objectives of the course shall be clearly stated and available in written form. They shall be consistent with the definition of nursing as outlined in chapter 18.79 RCW.

(b) Objectives reflecting the philosophy shall be stated in behavioral terms and describe the capabilities and competencies of the graduate.

(2) Faculty.

(a) All nurse faculty shall hold a current license to practice as a registered nurse in the state of Washington.

(b) All faculty shall be qualified academically and professionally for their respective areas of responsibility.

(c) All faculty shall be qualified to develop and implement the program of study.

(d) Faculty shall be sufficient in number to achieve the stated program objectives.

(e) The maximum faculty to student ratio in the clinical area shall be 1 to 12. Exceptions shall be justified to and approved by the commission.

(3) Course content.

(a) The course content, length, methods of instruction and learning experiences shall be consistent with the philosophy and objectives of the course. Outlines and descriptions of all learning experiences shall be available in writing.

FOR PRACTICAL NURSE PROGRAMS:

(b) The course content shall consist of a minimum of sixty hours of theory content and one hundred twenty hours of clinical practice.

(c) The theory course content shall include, but not be limited to, a minimum of sixty hours in current basic concepts of:

(i) Nursing process;

(ii) Pharmacology;

(iii) Review of the concepts in the areas of:

(A) Practical nursing today including legal expectations;

(B) Basic communications and observational practices needed for identification, reporting, and recording patient needs; and

(C) Basic physical, biological, and social sciences necessary for practice; and

(iv) Review and updating of practical nursing knowledge and skills to include, but not be limited to, concepts of fundamentals, medical/surgical, parent/child, geriatric, and mental health nursing.

(d) The clinical course content shall include a minimum of one hundred twenty hours of clinical practice in the area(s) listed in (c) of this subsection. Exceptions shall be justified to and approved by the commission.

FOR REGISTERED NURSE PROGRAMS:

(e) The course content shall consist of a minimum of forty hours core course content, forty hours of specialty course content, and one hundred sixty hours of clinical practice in the specialty area.

(f) The core course content shall include, but not be limited to, a minimum of forty hours of theory in current basic concepts of:

(i) Nursing process;

(ii) Pharmacology;

(iii) Review of the concepts in the areas of:

(A) Professional nursing today including legal expectations;

(B) Basic communications and observational practices needed for identification, reporting, and recording patient needs; and

(C) Basic physical, biological and social sciences necessary for practice; and

(iv) Review and updating of basic nursing knowledge.

(g) The specialty course content shall include, but not be limited to, a minimum of forty hours of theory in current specialty nursing practice concepts of basic nursing related to the special area of interest such as surgical; pediatrics; obstetrics; psychiatric; acute, intensive, or extended care nursing; or community health nursing.

(h) The clinical course content shall include a minimum of one hundred sixty hours of clinical practice in the specialty area(s) listed in (c) and (d) of this subsection. Exceptions shall be justified to and approved by the commission.

FOR BOTH REGISTERED NURSE AND PRACTICAL NURSE PROGRAMS:

(4) Evaluation.

(a) Evaluation methods shall be used to measure the student's achievement of the stated theory and clinical objectives.

(b) The course shall be periodically evaluated by faculty and students.

(5) Admission requirements.

(a) Any person holding an inactive practical or registered nurse license in another state may apply for a limited educational license provided that the applicant meets the requirements of WAC 246-840-120.

(b) Requirements for admission shall be available in writing.

(c) All students shall hold a current valid license or hold (apply and be eligible for) a limited educational license approved by the commission.

(6) Records.

(a) Evidence that the student has successfully completed the course and met the stated objectives shall be kept on file.

(b) The refresher course provider shall submit a certification of successful completion of the course to the commission office.

(7) Refresher courses taken outside of the state of Washington shall be reviewed individually for approval by the commission prior to starting the course.

[Statutory Authority: Chapter 18.79 RCW. 97-13-100, § 246-840-130, filed 6/18/97, effective 7/19/97.]

ADVANCED PRACTICE

WAC 246-840-299 Definitions. (1) Advanced nursing practice: Advanced nursing practice is the delivery of expert nursing care by registered nurses who have acquired experience and formal education in specialized areas. A nurse with this preparation may qualify as ARNP as delineated in WAC 246-840-300.

(2) Advanced registered nurse practitioner (ARNP): An ARNP is a registered nurse who has had formal graduate education and has achieved national specialty certification for the nurse practitioner, nurse anesthetist or nurse midwife role.

[Statutory Authority: RCW 18.79.110 and 18.79.050. 00-21-119, § 246-840-299, filed 10/18/00, effective 11/18/00.]

WAC 246-840-300 Advanced registered nurse practitioner. An advanced registered nurse practitioner is a registered nurse prepared in a formal educational program to assume primary responsibility for continuous and comprehensive management of a broad range of patient care, concerns and problems. Advanced registered nurse practitioners function within the specialty scopes of practice and/or description of practice and/or standards of care developed by national professional organizations and reviewed and approved by the commission. These statements form the basis for selection of test items or competency based evaluation processes and are derived from standard educational curricula for certain practice areas. ARNP members of the commission will review these statements on a biennial basis and will present substantive changes to the full commission for approval or disapproval. Advanced registered nurse practitioners are prepared and qualified to assume primary responsibility and accountability for the care of their patients. This practice is grounded in nursing and incorporates the use of independent judgment as well as collaborative interaction with other health care professionals when indicated in the assessment and management of wellness and conditions as appropriate to the ARNP's area of specialization.

Within the scope of the advanced registered nurse practitioner's knowledge, experience and specialty scope of practice statement(s), licensed advanced registered nurse practitioners may perform the following functions:

- Examine patients and establish medical diagnoses by client history, physical examination and other assessment criteria;
- Admit patients to health care facilities;
- Order, collect, perform and interpret laboratory tests;
- Initiate requests for radiographic and other testing measures;
- Identify, develop, implement and evaluate a plan of care and treatment for patients to promote, maintain and restore health;
- Prescribe medications when granted authority under this chapter;
- Refer clients to other health care practitioners or facilities.

An advanced registered nurse practitioner:

(1) Shall hold a current license to practice as a registered nurse in Washington;

(2) Shall have completed a formal advanced nursing education meeting the requirements of WAC 246-840-305;

(3) Shall present documentation of initial certification credential granted by a national certifying body recognized by the commission, approved ARNP specialty whose certification program is approved by the commission and subsequently maintain currency and competency as defined by the certifying body;

(4) Copies of statements of scope of practice or practice descriptions are maintained in the nursing commission's office. Specialty designations recognized by the commission and the date of the commission approved statement of scope of practice or practice description are:

(a) Family Nurse Practitioner (FNP) (American Nurses Association, 1998; American Academy of Nurse Practitioners, 1992).

(b) Women's Health Nurse Practitioner (WHNP) (American Association of Women's Health, Obstetric, and Neonatal Nurses, 1997).

(c) Pediatric Nurse Practitioner (PNP) (National Association of Pediatric Nurse Associates and Practitioners, 2000; American Nurses Association, 1998).

(d) Adult Nurse Practitioner (ANP) (American Nurses Association, 1998; American Academy of Nurse Practitioners, 1992).

(e) Geriatric Gerontological Nurse Practitioner (GNP) (American Nurses Association, 1998).

(f) Certified Nurse Midwife (CNM) (American College of Nurse Midwives, 1997).

(g) Certified Registered Nurse Anesthetist (CRNA) (American Association of Nurse Anesthetists, 1996).

(h) School Nurse Practitioner (American Nurses Association, 1998).

(i) Neonatal Nurse Practitioner (NNP) (American Association of Women's Health, Obstetric, and Neonatal Nurses, 1997).

(j) Psychiatric Nurse Practitioner or Clinical Specialist in Psychiatric-Mental Health Nursing (American Nurses Association, 1998).

(k) Acute Care Nurse Practitioner (American Nurses Association, 1998).

(5) Shall be held individually accountable for practice based on and limited to the scope of his/her education, demonstrated competence, and advanced nursing experience;

(6) Shall obtain instruction, supervision, and consultation as necessary before implementing new or unfamiliar techniques or practices;

(7) Shall be responsible for maintaining current knowledge in his/her field of practice;

(8) Must be prepared to show documentation of any additional formal education, skills training, or supervised clinical practice beyond the basic ARNP preparation; and

(9) May choose to limit his or her area of practice within the recognized specialty or specialties.

(10) If recognized in more than one specialty area, must obtain and maintain certification in all areas and must obtain formal education and training for each area of specialization.

[Statutory Authority: RCW 18.79.110 and 18.79.050. 00-21-119, § 246-840-300, filed 10/18/00, effective 11/18/00. Statutory Authority: Chapter 18.79 RCW. 97-13-100, § 246-840-300, filed 6/18/97, effective 7/19/97.]

WAC 246-840-305 Criteria for formal advanced nursing education meeting the requirement for ARNP licensure. The college or university graduate education program which prepares the registered nurse for eventual licensure as an ARNP shall have as its primary purpose the preparation of advanced practice nurses for roles as defined in WAC 246-840-300. Documentation that may be requested to substantiate preparation for the ARNP role may include, but shall not be limited to:

(1) The philosophy, purpose, and objectives of the program, which are clearly defined and available in written form.

(2) The objectives reflecting the philosophy which are written in outcomes that describe the competencies of the graduate.

(3) Administrative policies of the program, which include:

(a) Clearly stated admission criteria, available in written form.

(b) Provision of official evidence that the student has completed the program successfully.

(c) Documentation that the program is conducted by an accredited college or university.

(4) Evidence that faculty meet the following requirements:

(a) Inclusion of faculty who are currently authorized to assume primary responsibility for patient care in the given specialty.

(b) Only medical faculty who are authorized to practice.

(c) The number of qualified faculty in the specialty area available to develop and implement the program is adequate.

(d) Preceptors who participate in teaching, supervising, and evaluating students. Criteria are in place for selection and functioning of preceptors. Preceptors guide students and communicate with faculty regarding student progress.

(5) Curriculum of the advanced nursing practice program which reflects:

(a) Course content that is consistent with the philosophy and objectives of the program.

(b) The coordinated, formal program of study shall be based on defined outcome competencies. Minimal course requirements shall include:

- Advanced physiology/pathophysiology
- Advanced health assessment
- Diagnostic theory and medical management of health care problems
- Advanced pharmacotherapeutics
- A minimum of 500 hours in direct patient care in the ARNP role with clinical preceptor supervision and faculty oversight
- Role of the ARNP.

(c) Before January 1, 1995, content that requires a minimum of one academic year for completion.

(d) After January 1, 1995, content that culminates in a graduate degree with a concentration in advanced nursing practice.

(e) If the formal educational program to prepare for the advanced nursing practice role is taken after completion of the graduate degree, the candidate must submit evidence that the practitioner preparation program, as stated in (e)(ii) of this subsection, is equivalent to that leading to a graduate degree in advanced practice specialty.

(6) Outlines and descriptions of curriculum content which are available in written form.

[Statutory Authority: RCW 18.79.110 and 18.79.050. 00-21-119, § 246-840-305, filed 10/18/00, effective 11/18/00. Statutory Authority: Chapter 18.79 RCW. 97-13-100, § 246-840-305, filed 6/18/97, effective 7/19/97.]

WAC 246-840-310 Use of nomenclature. Any person who qualifies under WAC 246-840-300 and whose application for advanced registered nurse practitioner designation has been approved by the commission shall be designated as an advanced registered nurse practitioner and shall have the right to use the title "advanced registered nurse practitioner" or nurse practitioner and the abbreviation following the nurse's name shall read "ARNP" and the title or abbreviation designated by the approved national certifying body. No other person shall assume such title or use such abbreviation. No other person shall use any other title, words, letters, signs or figures to indicate that the person using same is recognized as an advanced registered nurse practitioner and:

(1) Family nurse practitioner, FNP; or

(2) Women's health care nurse practitioner, WHCNP; or

(3) Pediatric nurse practitioner/associate, PNP/PNA; or

(4) Adult nurse practitioner, ANP; or

(5) Geriatric nurse practitioner, GNP; or

(6) Certified nurse midwife/nurse midwife, CNM; or

(7) Certified registered nurse anesthetist, CRNA; or

(8) School nurse practitioner, SNP; or

(9) Neonatal nurse practitioner, NNP; or

(10) Clinical nurse specialist in psychiatric/mental health nursing or psychiatric nurse practitioners; or

(11) Acute care nurse practitioner, ACNP.

[Statutory Authority: RCW 18.79.110 and 18.79.050. 00-21-119, § 246-840-310, filed 10/18/00, effective 11/18/00. Statutory Authority: Chapter 18.79 RCW. 97-13-100, § 246-840-310, filed 6/18/97, effective 7/19/97.]

WAC 246-840-311 ARNP previously adopted specialties. (1) The nursing care quality assurance commission recognizes the need to provide for renewing the licenses of advanced registered nurse practitioners certified in:

(a) Community health nurse;

(b) Maternal/GYN/neonatal nurse;

(c) Medical/surgical nursing;

(d) Occupational health nurse;

(e) Neurosurgical nursing; or

(f) Enterostomal therapy.

(2) Failure to renew. If any current credential holder of one or more of the above six categories fails to renew his or her credential(s), then upon the expiration of the current credential listed above, the nursing care quality assurance commission will not renew or recognize the specialty certification(s) listed above for that individual according to the requirements of WAC 246-840-360.

(3) Existing licenses only. This rule applies only to existing licensees issued credentials in the above six categories by the Washington state nursing care quality assurance commission. No new applications will be accepted for certification in the above six categories.

[Statutory Authority: RCW 18.79.110. 02-20-077, § 246-840-311, filed 9/30/02, effective 10/31/02.]

WAC 246-840-320 Certification and certification program. (1) Certification is a form of credentialing, under sponsorship of a national certifying body that recognizes specialized and advanced nursing practice.

(2) A certification program shall be based on:

(a) A scope of practice statement as identified in WAC 246-840-300 shall denote the dimension and boundary, the focus, and the standards of specialized and advanced nursing practice in the area of certification.

(b) A formal program of study requirement in the area of certification which shall:

(i) Be based on measurable objectives that relate directly to the scope of practice;

(ii) Include theoretical and clinical content directed to the objectives; and

(iii) Be equivalent to at least one academic year. A preceptorship which is part of the formal program shall be included as part of the academic year. Current practice in the area of certification will not be accepted as a substitute for the formal program of study.

(c) The process of certification shall:

(i) Measure the theoretical and clinical content denoted in the scope of practice;

(ii) Be developed in accordance with generally accepted standards of validity and reliability;

(iii) Be only to registered nurses who have successfully completed the program of study referred to in (b) of this subsection; and

(iv) The certification program must successfully meet the criteria of the National Commission on Certifying Agencies, the third-party organization which periodically reviews the exam integrity, exam content and administrative processes of the certifying organization.

(3) The commission shall periodically review each certification program and may discontinue approval in the event that a certification program no longer meets the requirements of subsection (2) of this section.

[Statutory Authority: RCW 18.79.110 and 18.79.050. 00-21-119, § 246-840-320, filed 10/18/00, effective 11/18/00. Statutory Authority: Chapter 18.79 RCW. 97-13-100, § 246-840-320, filed 6/18/97, effective 7/19/97.]

WAC 246-840-330 Commission approval of certification programs and commission recognition of new specialties. (1) The commission shall review each certification program at least once every four years. The review will occur at a commission business meeting. The commission may discontinue approval in the event that a certification program no longer meets the criteria of WAC 246-840-320.

(2) The commission shall notify licensees of pending review and may request that further information be provided regarding compliance with the provisions of WAC 246-840-320(2).

(3) Schools contemplating the development of a new ARNP specialty may request that new specialties and related certification programs be considered for ARNP designation through the rule-making process.

[Statutory Authority: RCW 18.79.110 and 18.79.050. 00-21-119, § 246-840-330, filed 10/18/00, effective 11/18/00. Statutory Authority: Chapter 18.79 RCW. 97-13-100, § 246-840-330, filed 6/18/97, effective 7/19/97.]

WAC 246-840-340 Application requirements for ARNP. A registered nurse applicant for licensure as an ARNP shall:

(1) Submit a completed application and fee as specified in WAC 246-840-990.

(2) Meet the requirements of WAC 246-840-300 and 246-840-305. The following documents must be submitted as evidence to these requirements:

(a) An official transcript received by the commission directly from the formal advanced nursing education program showing all courses, grades, degree or certificate granted, official seal and appropriate registrar or program director's signature.

(b) Program objectives and course descriptions.

(c) Documentation from program director or faculty specifying the area of specialty, unless such is clearly indicated on the official transcript.

(3) Have graduated from an advanced nursing education program, as defined in WAC 246-840-300, within five years of application; if longer than five years have practiced a minimum of one thousand five hundred hours in an expanded specialty role within five years immediately preceding application.

(4) Submit evidence of certification by a certification program approved by the commission.

(5) Persons not meeting the educational requirements in subsection (2) of this section may be licensed if:

(a) Certified prior to December 31, 1994, by a national certifying organization recognized by the commission at the time certification was granted; and

(b) Recognized as an advanced registered nurse practitioner by another jurisdiction prior to December 31, 1994; and

(c) Completed an advanced registered nurse practitioner program equivalent to one academic year.

(6) Persons not meeting the requirements in subsection (3) of this section may be licensed following successful completion of five hundred hours of clinical practice supervised by an advanced registered nurse practitioner or a physician (licensed under chapter 18.71 or 18.57 RCW) in the same specialty area. Following completion of the supervised practice, the supervisor must submit an evaluation to the commission and verify that the applicant's knowledge and skills are at a safe and appropriate level.

[Statutory Authority: RCW 43.70.280. 98-05-060, § 246-840-340, filed 2/13/98, effective 3/16/98. Statutory Authority: Chapter 18.79 RCW. 97-13-100, § 246-840-340, filed 6/18/97, effective 7/19/97.]

WAC 246-840-345 ARNP designation in more than one area of specialty. (1) An applicant who wishes to be recognized in more than one ARNP area of specialization and title shall be required to submit separate application and nonrefundable fee for each area.

(2) All requirements in WAC 246-840-300 through 246-840-370 must be met for each area of specialization.

[Statutory Authority: Chapter 18.79 RCW. 97-13-100, § 246-840-345, filed 6/18/97, effective 7/19/97.]

WAC 246-840-350 Application requirements for ARNP interim permit. A registered nurse who has completed advanced formal education and registered for a commission approved national certification examination may be issued an interim permit to practice specialized and advanced nursing pending notification of the results of the first certification examination. The holder of an ARNP permit must use the title graduate registered nurse practitioner (GRNP).

(1) An applicant for ARNP interim permit must:

(a) Submit a completed application on a form provided by the commission accompanied by a fee as specified in WAC 246-840-990; and

(b) Submit documentation of completion of advanced formal education in the area of specialty; and

(c) Submit documentation of registration for the first certification examination administered by an approved certification program following completion of advanced formal education; and

(d) Hold a current license to practice as a registered nurse in Washington.

(2) The permit expires when advanced registered nurse practitioner status is granted. If the applicant fails the examination, the interim permit will expire upon notification and is not renewable.

(3) An applicant who does not write the examination on the date scheduled must immediately return the permit to the department of health.

(4) The interim permit authorizes the holder to perform the functions of advanced and specialized nursing practice as described in this section.

[Statutory Authority: RCW 43.70.280. 98-05-060, § 246-840-350, filed 2/13/98, effective 3/16/98. Statutory Authority: Chapter 18.79 RCW. 97-13-100, § 246-840-350, filed 6/18/97, effective 7/19/97.]

WAC 246-840-360 Renewal of ARNP designation. The applicant must:

(1) Maintain a current registered nurse license in Washington.

(2) Submit evidence of current certification by her/his certifying body in all specialty areas.

(3) Provide documentation of thirty contact hours (a contact hour is fifty minutes) of continuing education during the renewal period in the area of certification derived from any combination of the following approved by the commission:

(a) Formal academic study;

(b) Continuing education offerings.

(4) Attest, on forms provided by the commission, to having a minimum of two hundred fifty hours of specialized and advanced nursing practice within the preceding biennium providing direct patient care services. The commission may perform random audits of licensee's attestations.

(5) Comply with the requirements of chapter 246-12 WAC, Part 2.

[Statutory Authority: RCW 18.79.110 and 18.79.050. 00-21-119, § 246-840-360, filed 10/18/00, effective 11/18/00. Statutory Authority: RCW 43.70.280. 98-05-060, § 246-840-360, filed 2/13/98, effective 3/16/98. Statutory Authority: Chapter 18.79 RCW. 97-13-100, § 246-840-360, filed 6/18/97, effective 7/19/97.]

WAC 246-840-365 Return to active ARNP status from inactive or expired status. Persons on inactive or expired status who do not hold a current active license in any other United States jurisdiction and who wish to return to active status must apply for reinstatement of ARNP licensure. This requires:

(1) Current RN license in the state of Washington.

(2) Evidence of current certification by his/her certifying body.

(3) Documentation of thirty contact hours of continuing education in the area of specialty during the last two years.

(4) Two hundred fifty hours of precepted/supervised advanced clinical practice supervised by an ARNP or physician in the same specialty within the last year.

(5) If the license has been expired, meet the requirements of chapter 246-12 WAC, Part 2.

(6) If the licensee has been on inactive status, meet the requirements of chapter 246-12 WAC, Part 4.

During the time of the preceptorship, the nurse will be practicing under RN license and will not use the designation ARNP.

ARNP licensure must be reinstated before reapplying for prescriptive authority. At that time the CE requirement will be the same as if applying for prescriptive authority for the first time, as in WAC 246-840-410.

[Statutory Authority: RCW 43.70.280. 98-05-060, § 246-840-365, filed 2/13/98, effective 3/16/98. Statutory Authority: Chapter 18.79 RCW. 97-13-100, § 246-840-365, filed 6/18/97, effective 7/19/97.]

WAC 246-840-370 Termination of ARNP designation by the commission. ARNP designation may be terminated by the commission when the ARNP has:

(1) Practiced outside the scope of practice denoted for the area of certification; or

(2) Been found in violation of any provision of RCW 18.79.250 or 18.130.180.

[Statutory Authority: Chapter 18.79 RCW. 97-13-100, § 246-840-370, filed 6/18/97, effective 7/19/97.]

WAC 246-840-400 ARNP with prescriptive authorization. An advanced registered nurse practitioner licensed under chapter 18.79 RCW when authorized by the nursing commission may prescribe drugs pursuant to applicable state and federal laws. The ARNP when exercising prescriptive authority is accountable for competency in:

(1) Patient selection;

(2) Problem identification through appropriate assessment;

(3) Medication and/or device selection;

(4) Patient education for use of therapeutics;

(5) Knowledge of interactions of therapeutics, if any;

(6) Evaluation of outcome; and

(7) Recognition and management of complications and untoward reactions.

[Statutory Authority: Chapter 18.79 RCW. 97-13-100, § 246-840-400, filed 6/18/97, effective 7/19/97.]

WAC 246-840-410 Application requirements for ARNP with prescriptive authority. An advanced registered nurse practitioner who applies for authorization to prescribe drugs must:

(1) Be currently designated as an advanced registered nurse practitioner in Washington.

(2) Provide evidence of completion of thirty contact hours of education in pharmacotherapeutics related to the applicant's scope of specialized and advanced practice and:

(a) Include pharmacokinetic principles and their clinical application and the use of pharmacological agents in the prevention of illness, restoration, and maintenance of health.

(b) Are obtained within a two-year time period immediately prior to the date of application for prescriptive authority.

(c) Are obtained from the following:

(i) Study within the advanced formal educational program; and/or

(ii) Continuing education programs.

Exceptions shall be justified to and approved by the commission.

(3) Submit a completed, notarized application on a form provided by the commission accompanied by a fee as specified in WAC 246-840-990.

[Statutory Authority: RCW 18.79.110 and 18.79.050. 00-21-119, § 246-840-410, filed 10/18/00, effective 11/18/00. Statutory Authority: RCW 43.70.280. 98-05-060, § 246-840-410, filed 2/13/98, effective 3/16/98. Statutory Authority: Chapter 18.79 RCW. 97-13-100, § 246-840-410, filed 6/18/97, effective 7/19/97.]

WAC 246-840-420 Authorized prescriptions by the ARNP with prescriptive authority. (1) Prescriptions for drugs shall comply with all applicable state and federal laws.

(2) Prescriptions shall be signed by the prescriber with the initials ARNP.

(3) Prescriptions for controlled substances in Schedules I through IV are prohibited by RCW 18.79.240 (1)(r).

(4) Any ARNP with prescriptive authorization who prescribes Schedule V controlled substances shall register with the drug enforcement administration.

[Statutory Authority: Chapter 18.79 RCW. 97-13-100, § 246-840-420, filed 6/18/97, effective 7/19/97.]

WAC 246-840-421 How do advanced registered nurse practitioners qualify for prescriptive authority for Schedule II - IV drugs? Applicants must:

(1) Hold a valid and unrestricted registered nurse license.

(2) Hold or be eligible for an advanced registered nurse practitioner license with authority for legend drugs and Schedule V drugs. (See also WAC 246-840-410.) As noted in RCW 18.79.250, each advanced registered nurse practitioner prescribes within his or her scope of practice for a particular license specialty.

(3) Have a joint practice arrangement that meets requirements of WAC 246-840-422 with a physician or physicians licensed under chapter 18.71 or 18.57 RCW who holds a license without restrictions related to prescribing scheduled drugs.

(4) Submit a completed application form for Schedule II - IV endorsement on a form provided by the department of health, nursing care quality assurance commission accompanied by a fee as specified in WAC 246-840-990.

[Statutory Authority: RCW 18.79.240, 2000 c 64, and RCW 18.79.320. 01-16-011, § 246-840-421, filed 7/19/01, effective 8/19/01.]

WAC 246-840-422 Criteria for joint practice arrangement. The joint practice arrangement shall include:

(1) The names of both the licensed advanced registered nurse practitioner and the licensed physician, both license numbers and both practice addresses;

(2) A written agreement that describes how collaboration will occur between the practitioners; and

(3) The description of the collaboration will vary according to the relationship between the advanced registered nurse practitioner and physician, but must include a description of:

(a) When the advanced registered nurse practitioner will consult with a physician;

(b) How consultation will occur (e.g., face-to-face, phone, fax, e-mail, etc.);

(c) How consultation will be documented.

(4) Joint practice arrangements may be made with more than one physician.

[Statutory Authority: RCW 18.79.240, 2000 c 64, and RCW 18.79.320. 01-16-011, § 246-840-422, filed 7/19/01, effective 8/19/01.]

WAC 246-840-423 Endorsement of joint practice arrangements for ARNP licensure. (1) The joint practice arrangement shall be submitted by the advanced registered nurse practitioner to the department of health, nursing care quality assurance commission at the time of initial licensure or endorsement and biennially with renewal.

(2) A notice of the joint practice arrangement shall be forwarded by the nursing care quality assurance commission to either the medical quality assurance commission or to the board of osteopathic medicine and surgery for review to assure the physician's license is unrestricted. The medical quality assurance commission or the board of osteopathic medicine and surgery will notify the nursing care quality assurance commission in the event a physician who has signed a joint practice arrangement, has a license with restrictions related to prescribing scheduled drugs.

(3) The advanced registered nurse practitioner can only begin prescribing Schedule II - IV drugs after his or her license endorsement has been issued and he or she has obtained the appropriate Drug Enforcement Administration registration.

[Statutory Authority: RCW 18.79.240, 2000 c 64, and RCW 18.79.320. 01-16-011, § 246-840-423, filed 7/19/01, effective 8/19/01.]

WAC 246-840-424 Process for joint practice arrangement termination. (1) The joint practice arrangement between the advanced registered nurse practitioner and the physician shall provide for written notice of termination of the arrangement. The nursing care quality assurance commission shall be notified of the termination. Once the joint practice arrangement is terminated, the advanced registered nurse practitioner must submit a new joint practice arrangement before resuming prescribing Schedule II - IV drugs.

(2) The nursing care quality assurance commission will notify either the medical quality assurance commission or the board of osteopathic medicine and surgery that the joint practice arrangement has been terminated.

(3) A joint practice arrangement may be terminated as a result of disciplining action taken by a disciplining authority.

(4) In the event either the advanced registered nurse practitioner or the physician is disciplined, the disciplining authority for the other party will be notified that the joint practice arrangement no longer exists due to disciplinary action.

(5) If an advanced registered nurse practitioner has multiple approved joint practice arrangements and one is termi-

nated, he or she may continue to prescribe Schedule II - IV drugs under the other joint practice arrangement(s).

[Statutory Authority: RCW 18.79.240, 2000 c 64, and RCW 18.79.320. 01-16-011, § 246-840-424, filed 7/19/01, effective 8/19/01.]

WAC 246-840-425 Seventy-two-hour limit. (1) Advanced registered nurse practitioners can dispense up to a seventy-two-hour supply of Schedule II - IV drugs.

(2) The seventy-two-hour limit on dispensing does not apply to prescribing Schedule II - IV drugs.

[Statutory Authority: RCW 18.79.240, 2000 c 64, and RCW 18.79.320. 01-16-011, § 246-840-425, filed 7/19/01, effective 8/19/01.]

WAC 246-840-426 Education for prescribing Schedule II - IV drugs. Special education for advanced registered nurse practitioners is strongly recommended in the areas of pain management and drug seeking behaviors and/or addiction. Continuing education credit in these subjects may be applied to the biennial pharmacotherapeutics requirement found in WAC 246-840-450.

[Statutory Authority: RCW 18.79.240, 2000 c 64, and RCW 18.79.320. 01-16-011, § 246-840-426, filed 7/19/01, effective 8/19/01.]

WAC 246-840-427 Jurisdiction. Nothing in WAC 246-840-421 through 246-840-466 shall be interpreted as giving a disciplining authority jurisdiction over a practitioner not licensed by that commission or board.

[Statutory Authority: RCW 18.79.240, 2000 c 64, and RCW 18.79.320. 01-16-011, § 246-840-427, filed 7/19/01, effective 8/19/01.]

WAC 246-840-450 Renewal. ARNP with prescriptive authorization must be renewed every two years. For renewal of ARNP with prescriptive authorization, the licensee must:

(1) Meet the requirements of WAC 246-840-360 (1), (2), and (3).

(2) Provide documentation of fifteen additional contact hours of continuing education during the renewal period in pharmacotherapeutics related to licensee's scope of practice. This continuing education must meet the requirements of WAC 246-840-410 (3)(a) and chapter 246-12 WAC, Part 7.

(3) Submit a completed and notarized renewal application with a nonrefundable fee as specified in WAC 246-840-990. If the licensee fails to renew his or her prescriptive authorization prior to the expiration date, then the individual is subject to the late renewal fee specified in WAC 246-840-990 and chapter 246-12 WAC, Part 2.

[Statutory Authority: RCW 43.70.280. 98-05-060, § 246-840-450, filed 2/13/98, effective 3/16/98. Statutory Authority: Chapter 18.79 RCW. 97-13-100, § 246-840-450, filed 6/18/97, effective 7/19/97.]

WAC 246-840-500 Philosophy governing approval of nursing education programs. While the commission herein has established minimum standards for approved schools of nursing, it believes that each school of nursing should have flexibility in developing and implementing its philosophy, purposes, and objectives. Such development and implementation should be based not only upon the minimum standards for approved schools of nursing, but also upon sound educational and professional principles for the preparation of registered and practical nurses to meet current and future nursing needs of the public. The commission believes that there must be congruence between the total program activities of the school of nursing and its stated philosophy, purpose and objectives.

The commission further believes that the minimum standards for approved schools of nursing can be useful to schools of nursing by promoting self-evaluation which may lead to program development and improvement.

[Statutory Authority: RCW 18.79.110. 95-21-072, § 246-840-500, filed 10/16/95, effective 11/16/95.]

WAC 246-840-505 Purposes of commission approval of nursing education programs. The commission approves nursing education programs for the following purposes:

(1) To assure preparation for the safe practice of nursing by setting minimum standards for nursing education programs preparing persons for licensure as registered nurses or practical nurses;

(2) To provide guidance for the development of new nursing education programs;

(3) To foster continued improvement of established nursing education programs;

(4) To provide criteria for the commission to evaluate new or established nursing education programs;

(5) To assure the student adequate educational preparation;

(6) To assure eligibility for admission to the licensing examinations for registered or practical nurses, and to facilitate interstate endorsement of graduates of commission approved schools of nursing.

[Statutory Authority: RCW 18.79.110. 95-21-072, § 246-840-505, filed 10/16/95, effective 11/16/95.]

WAC 246-840-510 Approval of nursing education programs. (1) Application for program development.

(a) An educational institution wishing to establish a program in nursing shall:

(i) Submit to the commission at least eighteen months in advance of expected opening date a statement of intent to establish a nursing education program.

(ii) Submit to the commission, along with the statement of intent, a feasibility study to include at least the following information:

(A) Nursing studies documenting the need for entry level nurses in the area.

(B) Purposes and classification of the program.

(C) Availability of qualified faculty.

(D) Budgeted faculty positions.

(E) Availability of adequate clinical facilities for the program.

(F) Availability of adequate academic facilities for the program.

(G) Potential effect on other nursing programs in the area.

(H) Evidence of financial resources adequate for the planning, implementation, and continuation of the program.

(I) Anticipated student population.

(J) Tentative time schedule for planning and initiating the program.

(iii) Respond to the commission's request(s) for additional information.

(b) The commission shall either grant or withhold approval for program development.

(2) Program development.

(a) At least twelve months in advance of the anticipated admission of students, the organization shall appoint a qualified nurse administrator to develop a proposed nursing education program. The proposed program plan shall include:

(i) Purpose, philosophy, and objectives.

(ii) Organization and administration.

(iii) Budget.

(iv) Resources, facilities, and services.

(v) Provisions for faculty, including qualifications, responsibilities, organization, and faculty/student ratio.

(vi) Curriculum, including course descriptions and course outlines.

(vii) Policies and procedures for student selection, admission, progression, withdrawal and graduation, and record system.

(viii) Projected plans for the orderly expansion of the program.

(b) The nurse administrator shall submit to the commission a written report of the proposed program plan at least five weeks prior to a scheduled commission meeting at which time the plan is to be reviewed. This review shall take place six months prior to the scheduled opening date of the program.

(c) A survey visit will be conducted by a representative of the commission before a decision regarding approval is rendered.

(d) Students may not be admitted to the program until approval has been granted by the commission.

(e) The nurse administrator of the program and other administrative officers of the organization shall attend the commission meeting to present the formal application and clarify and amplify materials included in the written report of the proposed program plan.

(f) The commission shall either grant or withhold provisional approval of the proposed nursing program.

(3) Provisional approval.

(a) The school shall submit course outlines to the commission for review and approval at least three months prior to offering the course;

(b) The school shall submit progress reports as requested by the commission; and

(c) Survey visits shall be scheduled as deemed necessary by the commission during the period of provisional approval.

(4) Full approval.

(a) A self-evaluation report of compliance with the standards for nursing education shall as identified in WAC 246-840-550 through 246-840-575 be submitted within three months following graduation of the first class, and a survey visit shall be made for consideration of full approval of the program.

(b) The commission will review the self-evaluation report, survey reports and added materials for full approval of the nursing education program only at scheduled commission meetings.

(c) The self-evaluation report, added materials and survey reports shall be in the commission office at least five weeks prior to the commission meeting.

(5) Satellite nursing education programs. An approved nursing education program wishing to initiate an off-campus, extended or satellite nursing program must submit a plan to the commission demonstrating that:

(a) A need for entry level nurses exists in the area.

(b) Faculty on-site meet all the requirements and qualifications of the parent nursing education program.

(c) Adequate clinical facilities are available and meet the requirements of the parent program.

(d) Academic facilities and resources are comparable to those of the parent program.

[Statutory Authority: RCW 18.79.110. 95-21-072, § 246-840-510, filed 10/16/95, effective 11/16/95.]

WAC 246-840-520 Periodic evaluation of approved programs. (1) To ensure continuing compliance with the plan and standards of nursing education, all nursing education programs will be surveyed and reevaluated for continued approval every eight years. More frequent visits may occur as deemed necessary by the commission or at the request of the nursing education program.

(a) The survey visit will be made by representative(s) of the commission on dates mutually agreeable to the commission and the nursing education program.

(b) Announcement of a survey visit will be sent to programs at least twelve months in advance of the visit.

(c) Prior to the survey a program shall submit a self-evaluation report which provides evidence of compliance with the standards of nursing education as identified in WAC 246-840-550 through 246-840-575.

(d) The self-evaluation report prepared for the national nursing accreditation body may be substituted in lieu of the commission's survey report for that year if a national accreditation survey is scheduled concurrently. Where appropriate the survey will be made in conjunction with a national accreditation visit. An addendum to the report for the national accreditation survey must be submitted to address requirements of the state not considered by the national accrediting body.

(e) A draft of the survey visit report will be made available to the school for review and corrections in statistical data and for response to issues raised.

(f) Following the commission's review and decision, written notification regarding approval of the program and the commission comments and recommendations will be sent to the administrator of the nursing education program.

(2) Any proposed major curriculum revision, such as changes affecting the philosophy and objectives, significant course content changes, or changes in the length of the program, shall be presented to the commission for approval at least three months prior to implementation.

(3) Annual reports will be submitted on forms provided by the commission.

[Statutory Authority: RCW 18.79.110. 95-21-072, § 246-840-520, filed 10/16/95, effective 11/16/95.]

WAC 246-840-525 Commission action following survey visits. (1) Whenever a matter directly concerning a nursing program is being considered by the commission, any commission member who is associated with the program shall not participate in the deliberation or decision-making action of the commission.

(2) Each program shall be evaluated in terms of its conformance to the curriculum standards as provided in this chapter.

(3) The commission shall give written notice to the educational institution and the nurse administrator of the nursing program information regarding its decision on the program's approval status.

(4) Continuing full approval shall be granted a nursing program that meets the requirements of the law and rules and regulations of the commission. Full approval may carry recommendations for improvement and for correcting deficiencies.

(5) If the commission determines that an approved nursing program is not maintaining the curriculum standards required for approval, the commission shall give written notice specifying the deficiencies and shall designate the period of time in which the deficiencies must be corrected. The program's approval shall be suspended if a program fails to correct the deficiencies within the specified period of time.

[Statutory Authority: RCW 18.79.110. 95-21-072, § 246-840-525, filed 10/16/95, effective 11/16/95.]

WAC 246-840-530 Denial, conditional approval or withdrawal of approval. (1) The commission may deny approval to new programs when it determines that a nursing education program fails substantially to meet the standards for nursing education as contained in WAC 246-840-550 through 246-840-575. All such commission actions shall be in accordance with the Washington Administrative Procedure Act and/or the administrative rules and regulations of the commission.

(2) Conditional approval shall be granted a nursing education program that has failed to meet the minimum standards contained in the law and the rules and regulations of the commission.

(a) Conditions that must be met within a designated time period shall be specified in writing.

(b) A conditionally approved program shall be reviewed at the end of the designated time period. Such review shall result in one of the following actions:

(i) Restoration of full approval;

(ii) Continuation of conditional approval for a specified period of time; or

(iii) Withdrawal of approval.

(3) The commission may withdraw approval from existing programs when it determines that a nursing education program fails substantially to meet the standards for nursing education as contained in WAC 246-840-550 through 246-840-575. All such actions shall be effected in accordance with the Administrative Procedure Act and/or the administrative rules and regulations of the commission.

[Statutory Authority: RCW 18.79.110. 95-21-072, § 246-840-530, filed 10/16/95, effective 11/16/95.]

WAC 246-840-535 Reinstatement of approval. The commission may consider reinstatement of withdrawn approval of a nursing education program upon submission of satisfactory evidence that the program meets the standards of nursing education, WAC 246-840-550 through 246-840-575.

[Statutory Authority: RCW 18.79.110. 95-21-072, § 246-840-535, filed 10/16/95, effective 11/16/95.]

WAC 246-840-540 Appeal of commission decisions. A nursing education program deeming itself aggrieved by a decision of the commission affecting its approval status shall have the right to appeal the commission's decision in accordance with the provisions of chapter 18.79 RCW and the Administrative Procedure Act, chapter 34.05 RCW.

[Statutory Authority: Chapter 18.79 RCW. 97-13-100, § 246-840-540, filed 6/18/97, effective 7/19/97. Statutory Authority: RCW 18.79.110. 95-21-072, § 246-840-540, filed 10/16/95, effective 11/16/95.]

WAC 246-840-545 Closing of an approved nursing education program. (1) Voluntary closing. When a governing institution decides to close a program it shall notify the commission in writing, stating the reason, plan, and date of intended closing. The governing institution may choose one of the following closing procedures:

(a) The program shall continue until the last class enrolled is graduated.

(i) The program shall continue to meet the standards for approval, WAC 246-840-550 through 246-840-575 until all of the enrolled students have graduated.

(ii) The date of closure is the date on the degree, diploma, or certificate of the last graduate.

(iii) The commission shall be notified by the governing institution of the closing date.

(b) The program shall close after assisting in the transfer of students to other approved programs.

(i) The program shall continue to meet the standard required for approval, WAC 246-840-550 through 246-840-575 until all students are transferred.

(ii) A list of the names of students who have been transferred to approved programs and the date on which the last student was transferred shall be submitted to the commission by the governing institution.

(iii) The date on which the last student was transferred shall be the closing date of the program.

(c) Custody of records.

(i) If the program closes but the governing institution continues to function, it shall assume responsibility for the records of the students and graduates. The commission shall be advised of the arrangements made to safeguard the records.

(ii) If the governing institution ceases to exist, the academic records of each student and graduate shall be transferred to the commission for safekeeping.

(iii) The commission shall be consulted about the disposition of all other records.

(2) Closing as a result of withdrawal of approval. When the commission withdraws approval of a nursing education program, the governing institution shall comply with the following procedures:

(a) Students of the program shall be notified in writing of their status and options for transfer to an approved program.

(b) The program shall close after assisting in the transfer of students to other approved programs. A time frame for the transfer process will be established by the commission.

(c) A list of the names of students who have transferred to approved programs and the date on which the last student was transferred shall be submitted to the commission by the governing institution.

(d) Custody of records.

(i) If the governing institution continues to function, it shall assume responsibility for the records of the students and the graduates. The commission shall be advised of the arrangements made to safeguard the records.

(ii) If the governing institution ceases to exist, the academic records of each student and graduate shall be transferred to the commission for safekeeping.

(iii) The commission shall be consulted about the disposition of all other records.

[Statutory Authority: RCW 18.79.110. 95-21-072, § 246-840-545, filed 10/16/95, effective 11/16/95.]

WAC 246-840-550 Purpose, philosophy, and objectives for approved nursing education programs. (1) The purpose, philosophy, and objectives of the program shall be stated clearly and shall be available in written form. They shall be consistent with the definitions of nursing practice as outlined in RCW 18.79.040 and 18.79.060.

(2) The nursing education program shall have a statement of philosophy that is consistent with the philosophy of the governing institution.

(3) The objectives shall be consistent with the philosophy and shall describe the cognitive, affective, and psychomotor capabilities of the graduate.

[Statutory Authority: RCW 18.79.110. 95-21-072, § 246-840-550, filed 10/16/95, effective 11/16/95.]

WAC 246-840-555 Organization and administration for approved nursing education programs. (1) The nursing education program shall be an integral part of the accredited governing institution. The governing institution accreditation must be by an approved accrediting body.

(2) The relationship of the nursing education program to other units within the governing institution shall be clearly delineated.

(3) The nursing education program shall be organized with clearly defined authority, responsibility, and channels of communication.

(4) The nursing education faculty shall be involved in determining academic policies and procedures of the nursing program.

(5) The nursing education program shall allow student participation in committees in the determination of program policies and procedures, curriculum planning and evaluation.

(6) The nursing education program shall be administered by a registered nurse currently licensed in this state with the following qualifications:

(a) In a program offering practical nursing education or associate degree, a minimum of a masters with a major in nursing, preparation in education and administration, and at least five years of professional experience as a registered nurse including two years of experience in nursing education. Exceptions allowed without prior commission approval:

(i) Current tenured faculty.

(ii) Ongoing reappointment of instructors or faculty prior to November 16, 1995.

(b) In a program offering the baccalaureate degree in nursing, a masters degree with a major in nursing, a doctoral degree in nursing or a related field, preparation in education and administration, and at least five years of experience as a registered nurse including two years of experience in nursing education at the baccalaureate level.

(7) The administrator of the nursing education program shall be responsible for creation and maintenance of an environment conducive to teaching and learning through:

(a) Facilitation of the development, implementation and evaluation of the curriculum.

(b) Liaison with central administration and other units of the governing institution.

(c) Facilitation of faculty development and performance review consistent with the policies of the institution. Encourage faculty to seek ways of improving clinical skills and methods of demonstrating continued clinical competence.

(d) Facilitation of faculty recruitment and appointment. The administration of the program is encouraged to establish a goal for acquiring faculty with diversity in ethnicity, gender, clinical specialty and experience that would be representative of the students enrolled in the program.

(e) Recommendation of faculty for appointment, promotion, tenure, and retention consistent with the policies of the institution.

(f) Facilitation of the development of long-range goals and objectives for the nursing program.

(g) Facilitation of recruitment, selection, and advisement of students.

(h) Assurance that the rules and regulations of the state nursing commission are effectively implemented.

(i) Notifying the commission of any major changes in the program or its administration.

(8) The administrator of the nursing education program shall have designated time provided to conduct relevant administrative duties and responsibilities.

[Statutory Authority: RCW 18.79.110. 95-21-072, § 246-840-555, filed 10/16/95, effective 11/16/95.]

WAC 246-840-560 Resources, facilities, and services for approved nursing education programs. (1) Classrooms, laboratories, and conference rooms shall be available and shall be adequate in size, number, and type according to the number of students and the educational purposes for which the rooms are to be used.

(2) Offices shall be available and adequate in size, number, and type to provide faculty with opportunity for uninterrupted work and privacy for the conferences with students. Adequate space shall be provided for clerical staff, records, files, and other equipment.

(3) Clinical facilities.

(a) A variety of sites shall be utilized for learning experiences to enable the student to observe and practice safe nursing care of persons at each stage of the human life cycle.

These experiences shall include opportunities for the student to learn and provide nursing care to clients in the areas of acute and chronic illnesses, promotion and maintenance of wellness, prevention of illness, rehabilitation and support in death. Clinical experiences shall include opportunities to learn and provide care to clients from diverse ethnic and cultural backgrounds. The emphasis placed on these areas and the scope encompassed shall be in keeping with the purpose, philosophy and objectives of the program. The experiences may include, but need not be limited to, hospitals, clinics, offices of health professionals, health centers, nursery schools, elementary and secondary schools, rehabilitation centers, mental health clinics, public health departments, and extended care resources.

(b) Clinical facilities shall be selected to provide learning experience of sufficient number and kind for student achievement of the course/curriculum objectives. The number of hours of class and clinical practice opportunities and distribution of these shall be in direct ratio to the amount of time necessary for the student at the particular stage of development to accomplish the objectives.

(c) Clinical facilities shall be approved by the appropriate accreditation or licensing evaluation bodies, if such exist.

(d) Throughout the program the total hours of class and required clinical practice opportunities shall not exceed forty hours per week.

(4) Library facilities shall be provided for use by the faculty and students. Physical facilities, hours, and scope and currency of learning resources shall be appropriate for the purpose of the program and for the number of faculty and students.

(5) Periodic evaluations of resources, facilities, and services shall be conducted by the administration, faculty, and/or students.

(6) Adequate financial support for faculty, support personnel, equipment, supplies, and services shall be demonstrated.

[Statutory Authority: RCW 18.79.110. 95-21-072, § 246-840-560, filed 10/16/95, effective 11/16/95.]

WAC 246-840-565 Students in approved nursing education programs. (1) The approved nursing education program shall:

(a) Provide in writing policies and procedures for selection, admission, progression, graduation, withdrawal, and dismissal. These policies shall be consistent with the policies of the governing institution. Where necessary, policies specific to nursing students may be adopted if justified by the nature and purposes of the nursing program.

(b) Maintain a system of student records.

(c) Provide a written statement of student rights and responsibilities.

(d) Require that students who seek admission by transfer from another approved nursing education program, or readmission for completion of the program, shall meet the equivalent of the program's current standards.

(2) The nursing education program shall provide the student in an ADN or BSN program with information on the legal definition and parameters of the nursing technician role, as in WAC 246-840-010(19) and 246-840-840. Such information shall be provided prior to the time of completion of the first clinical course and shall clearly advise the student of their responsibilities, should they choose to be employed as a nursing technician.

[Statutory Authority: Chapter 18.79 RCW. 97-13-100, § 246-840-565, filed 6/18/97, effective 7/19/97. Statutory Authority: RCW 18.79.110. 95-21-072, § 246-840-565, filed 10/16/95, effective 11/16/95.]

WAC 246-840-570 Faculty in approved nursing education programs. (1) There shall be a sufficient number of qualified faculty with adequate diversity of expertise in nursing to meet the purposes and objectives of the nursing education program.

(2) The maximum ratio of faculty to students in clinical areas involving direct care of patients or clients shall be one faculty member to twelve students. A lower ratio may be required by the commission of nursing for students in initial or highly complex learning situations. Factors to be considered in determining the ratio are:

(a) The preparation and expertise of the faculty member;

(b) The objectives to be achieved;

(c) The level of students;

(d) The number, type, and conditions of patients;

(e) The number, type, location, and physical layout of clinical facilities being used for a particular course(s).

(3) Nursing faculty, including those in career ladder programs, shall have the following qualifications:

(a) A current license to practice as a registered nurse in Washington.

(b) A masters degree with a major in nursing from an accredited college or university shall be the minimum requirement for faculty appointment in a program preparing registered nurses.

A Baccalaureate degree with a major in nursing from an accredited college or university shall be the minimum requirement for faculty appointment in program preparing practical nurses only.

(i) Exceptions allowed without prior commission approval:

(A) Current tenured faculty.

(B) Ongoing reappointment of instructors or faculty prior to November 3, 1995.

(C) Temporary faculty replacement for less than three quarters or two semesters.

(ii) Exceptions allowed with prior commission approval:

(A) Temporary short-term faculty appointment of less than one academic year.

(B) Faculty specializing in a highly selected clinical area such as an operating room.

(c) Clinical experience as a registered nurse relevant to area(s) of responsibility.

(4) Nonnurse faculty must have academic and professional education and experience in their field of specialization.

(5) Faculty shall be responsible for:

(a) Developing, implementing, and evaluating the purpose, philosophy, and objectives of the nursing education program.

(b) Designing, implementing, and evaluating the curriculum.

(c) Developing and evaluating student admission, progression, retention, and graduation policies within the framework of the policies of the governing institution.

(d) Participating in or providing for academic advising and guidance of students.

(e) Evaluating student achievement, in terms of curricular objectives as related to both nursing knowledge and practice.

(f) Selecting, guiding, and evaluating student learning.

(g) Participating in activities to improve their own nursing competency in area(s) of responsibility and to demonstrate current clinical competency.

[Statutory Authority: RCW 18.79.110. 95-21-072, § 246-840-570, filed 10/16/95, effective 11/16/95.]

WAC 246-840-575 Curriculum for approved nursing education programs. (1) The basic curriculum shall not be less than two academic years for preparation of a registered nurse. The basic curriculum shall not be less than nine months or forty weeks for preparation of a practical nurse.

(2) The length, organization, content, methods of instruction, and placement of courses shall be consistent with the philosophy of the program.

(3) The curriculum shall include:

FOR PRACTICAL NURSE PROGRAMS:

(a) Concepts of social, behavioral, and related foundation subjects which may be integrated, combined or presented as separate courses.

(i) Normal growth and development.

(ii) Psychology - social facts and principles; communication techniques and defense mechanisms, normal and abnormal behavior; loss, grief and dying.

(iii) Personal and vocational relationships.

(b) Biological and related foundation subjects, which may be integrated, combined or presented as separate courses.

(i) Anatomy and physiology.

(ii) Microbiology - elementary concepts.

(iii) Chemistry and physics - elementary concepts.

(iv) Nutrition and diet therapy.

(v) Pharmacology and applied mathematics.

(c) Principles and practice of practical nursing consistent with the practical nursing role of the beginning practitioner as provided by the standards of competency identified in WAC 246-838-260.

(i) Nursing ethics, nursing history and trends, vocational and legal aspects of nursing.

(ii) Medical and surgical nursing.

(iii) Parent/child nursing with only an assisting role in the care of clients during labor and delivery and those with complications.

(iv) Geriatric nursing.

(v) Mental health nursing.

(vi) All nursing courses shall include components of restorative, rehabilitative and supportive care.

(vii) Laboratory and clinical practice in the functions of the practical nurse, including but not limited to, administration of medications, common medical surgical techniques and related client teaching.

(viii) Concepts of client care management.

FOR REGISTERED NURSE PROGRAMS:

(a) Instruction in the physical and biological sciences and shall include content drawn from the areas of anatomy and physiology, physics, chemistry, microbiology, pharmacology and nutrition, which may be integrated, combined, or presented as separate courses.

(b) Instruction in the social and behavioral sciences and shall include content drawn from the areas of communications, psychology, sociology and anthropology, which may be integrated, combined, or presented as separate courses.

(c) Theory and clinical experiences in the areas of medical nursing, surgical nursing, obstetric nursing, nursing of children and psychiatric nursing, which may be integrated, combined, or presented as separate courses. Baccalaureate programs also shall include theory and clinical experiences in community health nursing.

(d) History, trends, and legal and ethical issues pertaining to the nursing profession, which may be integrated, combined, or presented as separate courses. Baccalaureate programs shall include study of research principles.

(e) Opportunities for the student to learn assessment of needs, planning, implementation, and evaluation of nursing care for diverse individuals and groups. Baccalaureate programs shall include the study and practice of leadership.

(f) Clinical experiences in the care of persons at each stage of the human life cycle. These experiences shall include opportunities for the student to learn and have direct involvement in, responsibility and accountability for nursing care in the areas of acute and chronic illnesses, promotion and maintenance of wellness. The emphasis placed on these areas, the scope encompassed, and other allied experiences offered shall be in keeping with the purpose, philosophy, and objectives of the program.

(g) Opportunities for the student to participate in multidisciplinary health care.

[Statutory Authority: RCW 18.79.110. 95-21-072, § 246-840-575, filed 10/16/95, effective 11/16/95.]

WAC 246-840-700 Standards of nursing conduct or practice. (1) The purpose of defining standards of nursing conduct or practice through WAC 246-840-700 and 246-840-710 is to identify responsibilities of the professional registered nurse and the licensed practical nurse in health care settings and as provided in the Nursing Practice Act, chapter 18.79 RCW. Violation of these standards may be grounds for disciplinary action under chapter 18.130 RCW. Each individual, upon entering the practice of nursing, assumes a measure of responsibility and public trust and the corresponding obligation to adhere to the professional and ethical standards of nursing practice. The nurse shall be responsible and accountable for the quality of nursing care given to clients. This responsibility cannot be avoided by accepting the orders or directions of another person. The standards of nursing conduct or practice include, but are not limited to the following;

(2) The nursing process is defined as a systematic problem solving approach to nursing care which has the goal of facilitating an optimal level of functioning and health for the client, recognizing diversity. It consists of a series of phases:

Assessment and planning, intervention and evaluation with each phase building upon the preceding phases.

(a) **Registered Nurse:** Minimum standards for registered nurses include the following:	(b) **Licensed Practical Nurse:** Minimum standards for licensed practical nurses include the following:
(i) **Standard I Initiating the Nursing Process:**	(i) **Standard I - Implementing the Nursing Process:** The practical nurse assists in implementing the nursing process;
(A) **Assessment and Analysis:** The registered nurse initiates data collection and analysis that includes pertinent objective and subjective data regarding the health status of the clients. The registered nurse is responsible for ongoing client assessment, including assimilation of data gathered from licensed practical nurses and other members of the health care team;	(A) **Assessment:** The licensed practical nurse makes basic observations, gathers data and assists in identification of needs and problems relevant to the clients, collects specific data as directed, and, communicates outcomes of the data collection process in a timely fashion to the appropriate supervising person;
(B) **Nursing Diagnosis/Problem Identification:** The registered nurse uses client data and nursing scientific principles to develop nursing diagnosis and to identify client problems in order to deliver effective nursing care;	(B) **Nursing Diagnosis/Problem Identification:** The licensed practical nurse provides data to assist in the development of nursing diagnoses which are central to the plan of care;
(C) **Planning:** The registered nurse shall plan nursing care which will assist clients and families with maintaining or restoring health and wellness or supporting a dignified death;	(C) **Planning:** The licensed practical nurse contributes to the development of approaches to meet the needs of clients and families, and, develops client care plans utilizing a standardized nursing care plan and assists in setting priorities for care;
(D) **Implementation:** The registered nurse implements the plan of care by initiating nursing interventions through giving direct care and supervising other members of the care team; and	(D) **Implementation:** The licensed practical nurse carries out planned approaches to client care and performs common therapeutic nursing techniques; and
(E) **Evaluation:** The registered nurse evaluates the responses of individuals to nursing interventions and is responsible for the analysis and modification of the nursing care plan consistent with intended outcomes;	(E) **Evaluation:** The licensed practical nurse, in collaboration with the registered nurse, assists with making adjustments in the care plan. The licensed practical nurse reports outcomes of care to the registered nurse or supervising health care provider;
(ii) **Standard II Delegation and Supervision:** The registered nurse is accountable for the safety of clients receiving nursing service by:	(ii) **Standard II Delegation and Supervision:** Under direction, the practical nurse is accountable for the safety of clients receiving nursing care:
(A) Delegating selected nursing functions to others in accordance with their education, credentials, and demonstrated competence as defined in WAC 246-840-010(10);	(A) The practical nurse may delegate selected nursing tasks to competent individuals in selected situations, in accordance with their education, credentials and competence as defined in WAC 246-840-010(10);
(B) Supervising others to whom he/she has delegated nursing functions as defined in WAC 246-840-010(10);	(B) The licensed practical nurse in delegating functions shall supervise the persons to whom the functions have been delegated;
(C) Evaluating the outcomes of care provided by licensed and other paraprofessional staff; and	(C) The licensed practical nurse reports outcomes of delegated nursing care tasks to the RN or supervising health care provider; and
(D) The registered nurse may delegate certain additional acts to certain individuals in community-based long-term care settings as provided by WAC 246-840-910 through 246-840-980 and WAC 246-841-405;	(D) In community based long-term care settings as provided by WAC 246-840-910 through 246-840-980 and WAC 246-841-405, the practical nurse may delegate only personal care tasks to qualified care givers;
(iii) **Standard III Health Teaching.** The registered nurse assesses learning needs including learning readiness for patients and families, develops plans to meet those learning needs, implements the teaching plan and evaluates the outcome.	(iii) **Standard III Health Teaching.** The practical nurse assists in health teaching of clients and provides routine health information and instruction recognizing individual differences.

(3) **The following standards apply to registered nurses and licensed practical nurses:**

(a) The registered nurse and licensed practical nurse shall communicate significant changes in the client's status to appropriate members of the health care team. This communication shall take place in a time period consistent with the client's need for care. Communication is defined as a process by which information is exchanged between individuals through a common system of speech, symbols, signs, and written communication or behaviors that serves as both a means of gathering information and of influencing the behavior, actions, attitudes, and feelings of others; and

(b) The registered nurse and licensed practical nurse shall document, on essential client records, the nursing care given and the client's response to that care; and

(c) The registered nurse and licensed practical nurse act as client advocates in health maintenance and clinical care.

(4) **Other responsibilities:**

(a) The registered nurse and the licensed practical nurse shall have knowledge and understanding of the laws and rules regulating nursing and shall function within the legal scope of nursing practice;

(b) The registered nurse and the licensed practical nurse shall be responsible and accountable for his or her practice based upon and limited to the scope of his/her education, demonstrated competence, and nursing experience consistent with the scope of practice set forth in this document; and

(c) The registered nurse and the licensed practical nurse shall obtain instruction, supervision, and consultation as necessary before implementing new or unfamiliar techniques or procedures which are in his/her scope of practice.

(d) The registered nurse and the licensed practical nurse shall be responsible for maintaining current knowledge in his/her field of practice; and

(e) The registered nurse and the licensed practical nurse shall respect the client's right to privacy by protecting confidential information and shall not use confidential health care information for other than legitimate patient care purposes or as otherwise provided in the Health Care Information Act, chapter 70.02 RCW.

[Statutory Authority: RCW 18.79.110. 02-06-117, § 246-840-700, filed 3/6/02, effective 4/6/02. Statutory Authority: Chapter 18.79 RCW. 97-13-100, § 246-840-700, filed 6/18/97, effective 7/19/97.]

WAC 246-840-705 Functions of a registered nurse and a licensed practical nurse.

(1) **Registered Nurses:**	(2) **Licensed Practical Nurses:**
The registered nurse performs acts that require substantial knowledge, judgment and skill based on the principles of biological, behavioral, health, and nursing sciences. Such acts are grounded in the elements of the nursing process which includes, but is not limited to, the assessment, analysis, diagnosis, planning, implementation and evaluation of nursing care and health teaching in the maintenance and the promotion of health or prevention of illness of others and the support of a dignified death. The registered nurse using specialized knowledge can perform the activities of administration, supervision, delegation and evaluation of nursing practice; and	The licensed practical nurse performs services requiring knowledge, skill and judgment necessary for carrying out selected aspects of the designated nursing regimen. The licensed practical nurse recognizes and is able to meet the basic needs of the client, and gives nursing care under the direction and supervision, to clients in **routine** nursing situations. A routine nursing situation is one that is relatively free of complexity, and the clinical and behavioral state of the client is relatively stable, requires care based upon a comparatively fixed and limited body of knowledge. In **complex** nursing care situations the licensed practical nurse functions as an assistant to the registered nurse and facilitates client care by carrying out selected aspects of the designated nursing regimen to assist the registered nurse in the performance of nursing care; and
(3) **Registered Nurses:**	(4) **Licensed Practical Nurses:**
The registered nurse functions in an **independent role** when utilizing the nursing process as defined in WAC 246-840-700(2) to meet the complex needs of the client.	The licensed practical nurse functions in an **interdependent** role to deliver care as directed and assists in the revision of care plans in collaboration with the registered nurse. The licensed practical nurse functions in a **dependent** role when executing a medical regimen under the direction and supervision of an advanced registered nurse practitioner, licensed physician and/or surgeon, dentist, osteopathic physician and/or surgeon, physician assistant, osteopathic physician assistant, podiatric physician and/or surgeon, or naturopathic physician. A licensed practical nurse may not accept delegation of acts not within his or her scope of practice.
In an interdependent role as a member of a healthcare team, the registered nurse functions to coordinate and evaluate the care of the client and independently revises the plan and delivery of nursing care. The registered nurse functions in an interdependent **role** when executing a medical regimen under the direction of an advanced registered nurse practitioner, licensed physician and/or surgeon, dentist,	This shall not be construed as authorizing an independent role for the LPN.

osteopathic physician and/or surgeon, physician assistant, osteopathic physician assistant, podiatric physician and/or surgeon, or naturopathic physician. A registered nurse may not accept delegation of acts not within his or her scope of practice.

[Statutory Authority: RCW 18.79.110. 02-06-117, § 246-840-705, filed 3/6/02, effective 4/6/02. Statutory Authority: Chapter 18.79 RCW. 97-13-100, § 246-840-705, filed 6/18/97, effective 7/19/97.]

WAC 246-840-710 Violations of standards of nursing conduct or practice. The following conduct may subject a nurse to disciplinary action under the Uniform Disciplinary Act, chapter 18.130 RCW:

(1) Engaging in conduct described in RCW 18.130.180;

(2) Failure to adhere to the standards enumerated in WAC 246-840-700 which may include, but are not limited to:

(a) Failing to assess and evaluate a client's status or failing to institute nursing intervention as required by the client's condition;

(b) Willfully or repeatedly failing to report or document a client's symptoms, responses, progress, medication, or other nursing care accurately and/or legibly;

(c) Willfully or repeatedly failing to make entries, altering entries, destroying entries, making incorrect or illegible entries and/or making false entries in employer or employee records or client records pertaining to the giving of medication, treatments, or other nursing care;

(d) Willfully or repeatedly failing to administer medications and/or treatments in accordance with nursing standards;

(e) Willfully or repeatedly failing to follow the policy and procedure for the wastage of medications where the nurse is employed or working;

(f) Nurses shall not sign any record attesting to the wastage of controlled substances unless the wastage was personally witnessed;

(g) Willfully causing or contributing to physical or emotional abuse to the client;

(h) Engaging in sexual misconduct with a client as defined in WAC 246-840-740; or

(i) Failure to protect clients from unsafe practices or conditions, abusive acts, and neglect;

(3) Failure to adhere to the standards enumerated in WAC 246-840-700(2) which may include:

(a) Delegating nursing care function or responsibilities to a person the nurse knows or has reason to know lacks the ability or knowledge to perform the function or responsibility, or delegating to unlicensed persons those functions or responsibilities the nurse knows or has reason to know are to be performed only by licensed persons. This section should not be construed as prohibiting delegation to family members and other caregivers exempted by RCW 18.79.040(3), 18.79.050, 18.79.060 or 18.79.240; or

(b) Failure to supervise those to whom nursing activities have been delegated. Such supervision shall be adequate to prevent an unreasonable risk of harm to clients;

(4)(a) Performing or attempting to perform nursing techniques and/or procedures for which the nurse lacks the appropriate knowledge, experience, and education and/or failing to obtain instruction, supervision and/or consultation for client safety;

(b) Violating the confidentiality of information or knowledge concerning the client, except where required by law or for the protection of the client; or

(c) Writing prescriptions for drugs unless authorized to do so by the commission;

(5) Other violations:

(a) Appropriating for personal use medication, supplies, equipment, or personal items of the client, agency, or institution. The nurse shall not solicit or borrow money, materials or property from clients;

(b) Practicing nursing while affected by alcohol or drugs, or by a mental, physical or emotional condition to the extent that there is an undue risk that he or she, as a nurse, would cause harm to him or herself or other persons; or

(c) Willfully abandoning clients by leaving a nursing assignment, when continued nursing care is required by the condition of the client(s), without transferring responsibilities to appropriate personnel or caregiver;

(d) Conviction of a crime involving physical abuse or sexual abuse including convictions of any crime or plea of guilty, including crimes against persons as defined in chapter 43.830 RCW and crimes involving the personal property of a patient, whether or not the crime relates to the practice of nursing; or

(e) Failure to make mandatory reports to the Nursing Care Quality Assurance Commission concerning unsafe or unprofessional conduct as required in WAC 246-840-730;

Other:

(6) The nurse shall only practice nursing in the state of Washington with a current Washington license;

(7) The licensed nurse shall not permit his or her license to be used by another person;

(8) The nurse shall have knowledge of the statutes and rules governing nursing practice and shall function within the legal scope of nursing practice;

(9) The nurse shall not aid, abet or assist any other person in violating or circumventing the laws or rules pertaining to the conduct and practice of professional registered nursing and licensed practical nursing; or

(10) The nurse shall not disclose the contents of any licensing examination or solicit, accept or compile information regarding the contents of any examination before, during or after its administration.

[Statutory Authority: RCW 18.79.110. 02-06-117, § 246-840-710, filed 3/6/02, effective 4/6/02. Statutory Authority: Chapter 18.79 RCW. 97-13-100, § 246-840-710, filed 6/18/97, effective 7/19/97.]

WAC 246-840-720 Mitigating circumstances. The commission recognizes that there may be circumstances inherent to various practice settings that may affect the commission's decision whether to issue a statement of charges, to

make a finding of unprofessional conduct, or to determine a sanction.

[Statutory Authority: Chapter 18.79 RCW. 97-13-100, § 246-840-720, filed 6/18/97, effective 7/19/97.]

WAC 246-840-730 Mandatory reporting. Mandatory reporting assists the nursing care quality assurance commission (nursing commission) in protecting the public health and safety through the discovery of unsafe or substandard nursing practice or conduct. These rules are intended to define the information that is to be reported and the obligation of nurses and others to report.

The nursing commission does not intend every minor nursing error to be reported or that mandatory reporting serve as a substitute for employer-based disciplinary action.

Who must make reports and what must be reported to the nursing commission?

(1) Any person, including, but not limited to, registered nurses, practical nurses, advanced registered nurse practitioners, health care facilities and governmental agencies shall always report the following, except as provided for in subsections (2) and (3) of this section:

(a) Information that a nurse may not be able to practice with reasonable skill and safety as a result of a mental or physical condition;

(b) Information regarding a conviction, determination or finding, including employer-based disciplinary action, that a nurse has committed an act that would constitute unprofessional conduct, as defined in RCW 18.130.180, including violations of chapter 246-840 WAC, including, but not limited to:

(i) Conviction of any crime or plea of guilty, including crimes against persons as defined in chapter 43.830 RCW, and crimes involving the personal property of a patient, whether or not the crime relates to the practice of nursing;

(ii) Conduct which leads to dismissal from employment for cause related to unsafe nursing practice or conduct in violation of the standards of nursing;

(iii) Conduct which reasonably appears to be a contributing factor to the death of a patient;

(iv) Conduct which reasonably appears to be a contributing factor to the harm of a patient that requires medical intervention;

(v) Conduct which reasonably appears to violate accepted standards of nursing practice and reasonably appears to create a risk of physical and/or emotional harm to a patient;

(vi) Conduct involving a pattern of repeated acts or omissions of a similar nature in violation of the standards of nursing that reasonably appears to create a risk to a patient;

(vii) Drug trafficking;

(viii) Conduct involving the misuse of alcohol, controlled substances or legend drugs, whether or not prescribed to the nurse, where such conduct is related to nursing practice or violates any other drug or alcohol-related nursing commission law;

(ix) Conduct involving sexual contact with a patient under RCW 18.130.180(24) or other sexual misconduct in violation of nursing commission law under WAC 246-840-740;

(x) Conduct involving patient abuse, including physical, verbal and emotional;

(xi) Conduct indicating unfitness to practice nursing or that would diminish the nursing profession in the eyes of the public;

(xii) Conduct involving fraud related to nursing practice;

(xiii) Conduct involving practicing beyond the scope of the nurse's license;

(xiv) Nursing practice, or offering to practice, without a valid nursing permit or license, including practice on a license lapsed for nonpayment of fees;

(xv) Violation of a disciplinary sanction imposed on a nurse's license by the nursing commission.

(2) Persons who work in federally funded substance abuse treatment programs are exempt from these mandatory reporting requirements to the extent necessary to comply with 42 CFR Part 2.

(3) Persons who work in approved substance abuse monitoring programs under RCW 18.130.175 are exempt from these mandatory reporting rules to the extent required to comply with RCW 18.130.175(3) and WAC 246-840-780(3).

How is a report made to the nursing commission?

(4) In providing reports to the nursing commission, a person may call the nursing commission office for technical assistance in submitting a report. Reports are to be submitted in writing and include the name of the nurse, licensure identification, if available, the name of the facility, the names of any patients involved, a brief summary of the specific concern which is the basis for the report, and the name, address and telephone number of the individual submitting the report.

(5) Failure of any licensed nurse to comply with these reporting requirements may constitute grounds for discipline under chapter 18.130 RCW.

What are the criteria for whistleblower protection?

(6) Whistleblower criteria is defined in chapter 246-15 WAC and RCW 43.70.075.

[Statutory Authority: RCW 18.79.110. 00-01-186, § 246-840-730, filed 12/22/99, effective 1/22/00. Statutory Authority: Chapter 18.79 RCW. 97-13-100, § 246-840-730, filed 6/18/97, effective 7/19/97.]

WAC 246-840-740 Sexual misconduct prohibited. (1) **What is the nursing commission's intent in prohibiting this type of misconduct?**

Sexual or romantic conduct with a client or the client's family is serious misconduct because it harms the nurse/client relationship and interferes with the safe and effective delivery of nursing services. A nurse does not need to be "assigned" to the client in order for the nurse/client relationship to exist. The role of the nurse in the nurse/client relationship places the nurse in the more powerful position and the nurse must not abuse this power. Under certain circumstances, the nurse/client relationship continues beyond the termination of nursing services. Not only does sexual or romantic misconduct violate the trust and confidence held by health care clients towards nursing staff, but it also undermines public confidence in nursing. Nurses can take measures to avoid allegations of such misconduct by establishing and maintaining professional boundaries in dealing with their clients.

(2) **What conduct is prohibited?**

Nurses shall never engage, or attempt to engage, in sexual or romantic conduct with clients, or a client's immediate family members or significant others. Such conduct does not have to involve sexual contact. It includes behaviors or expressions of a sexual or intimately romantic nature. Sexual or romantic conduct is prohibited whether or not the client, family member or significant other initiates or consents to the conduct. Such conduct is also prohibited between a nursing educator and student.

Regardless of the existence of a nurse/client relationship, nurses shall never use patient information derived through their role as a health care provider to attempt to contact a patient in pursuit of a nurse's own sexual or romantic interests or for any other purpose other than legitimate health care.

(3) **What should a nurse do to avoid allegations of sexual or romantic misconduct?**

Establishing and maintaining professional boundaries is critical to avoiding even the appearance of sexual or romantic misconduct. Nurses can take certain preventative steps to make sure safeguards are in place at all times, such as:

(a) Setting appropriate boundaries with patients, physically and verbally, at the outset of professional relationships, and documenting such actions and the basis for such actions;

(b) Consulting with supervisors regarding difficulties in establishing and maintaining professional boundaries with a given client; and/or

(c) Seeking reassignment to avoid incurring a violation of these rules.

(4) **What about former clients?**

A nurse shall not engage or attempt to engage a former client, or former client's immediate family member or significant other, in sexual or romantic conduct if such conduct would constitute abuse of the nurse/client relationship. The nurse/client relationship is abused when a nurse uses and/or benefits from the nurse's professional status and the vulnerability of the client due to the client's condition or status as a patient.

(a) Due to the unique vulnerability of mental health and chemical dependency clients, nurses are prohibited from engaging in or attempting to engage in sexual or romantic conduct with such former clients, or their immediate family or significant other, for a period of at least two years after termination of nursing services. After two years, sexual or romantic conduct may be permitted with a former mental health or chemical dependency client, but only if the conduct would not constitute abuse of the nurse/client relationship.

(b) Factors which the commission may consider in determining whether there was abuse of the nurse/client relationship include, but are not limited to:

(i) The amount of time that has passed since nursing services were terminated;

(ii) The nature and duration of the nurse/client relationship, the extent to which there exists an ongoing nurse/client relationship following the termination of services, and whether the client is reasonably anticipated to become a client of the nurse in the future;

(iii) The circumstances of the cessation or termination of the nurse/client relationship;

(iv) The former client's personal history;

(v) The former client's current or past mental status, and whether the client has been the recipient of mental health services;

(vi) The likelihood of an adverse impact on the former client and others;

(vii) Any statements or actions made by the nurse during the course of treatment suggesting or inviting the possibility of sexual or romantic conduct;

(viii) Where the conduct is with a client's immediate family member or significant other, whether such a person is vulnerable to being induced into such relationship due to the condition or treatment of the client or the overall circumstances.

(5) **Are there situations where these rules do not apply?**

These rules do not prohibit:

(a) The provision of nursing services on an urgent, unforeseen basis where circumstances will not allow a nurse to obtain reassignment or make an appropriate referral;

(b) The provision of nursing services to a spouse, or family member, or any other person who is in a preexisting, established relationship with the nurse where no evidence of abuse of the nurse/client relationship exists.

[Statutory Authority: RCW 18.130.180(24). 99-04-051, § 246-840-740, filed 1/28/99, effective 2/28/99.]

WAC 246-840-745 Adjudicative proceedings. The commission adopts the model procedural rules for adjudicative proceedings as adopted by the department of health and contained in chapter 246-11 WAC, including subsequent amendments.

[Statutory Authority: Chapter 18.79 RCW. 97-13-100, § 246-840-745, filed 6/18/97, effective 7/19/97.]

WAC 246-840-747 Appearance and practice before agency—Standards of ethical conduct. All persons appearing in proceedings before the commission in a representative capacity shall conform to the standards of ethical conduct required of attorneys before the courts of Washington. If any such person does not conform to such standards, the commission may decline to permit such person to appear in a representative capacity in any proceeding before it.

[Statutory Authority: Chapter 18.79 RCW. 97-13-100, § 246-840-747, filed 6/18/97, effective 7/19/97.]

WAC 246-840-750 Philosophy governing voluntary substance abuse monitoring programs. The commission recognizes the need to establish a means of proactively providing early recognition and treatment options for licensed practical nurses or registered nurses whose competency may be impaired due to the abuse of drugs or alcohol. The commission intends that such nurses be treated and their treatment monitored so that they can return to or continue to practice their profession in a way which safeguards the public. To accomplish this the commission shall approve voluntary substance abuse monitoring programs and shall refer licensed practical nurses or registered nurses impaired by substance abuse to approved programs as an alternative to instituting disciplinary proceedings as defined in RCW 18.130.160.

[Statutory Authority: Chapter 18.79 RCW. 97-13-100, § 246-840-750, filed 6/18/97, effective 7/19/97.]

WAC 246-840-760 Terms used in WAC 246-840-750 through 246-840-780. (1) "Approved substance abuse monitoring program" or "approved monitoring program" is a program the commission has determined meets the requirements of the law and the criteria established by the commission in WAC 246-840-770 which enters into a contract with nurses who have substance abuse problems regarding the required components of the nurse's recovery activity and oversees the nurse's compliance with these requirements. Substance abuse monitoring programs do not provide evaluation or treatment to participating nurses.

(2) "Contract" is a comprehensive, structured agreement between the recovering nurse and the approved monitoring program wherein the nurse consents to comply with the monitoring program and its required components of the nurse's recovery activity.

(3) "Approved treatment facility" is a facility approved by the bureau of alcohol and substance abuse, department of social and health services according to chapter 70.96A RCW or RCW 69.54.030 to provide concentrated alcoholism or drug treatment if located within Washington state. Drug and alcohol treatment programs located out-of-state must be equivalent to the standards required for approval under chapter 70.96A RCW or RCW 69.54.030.

(4) "Substance abuse" means the impairment, as determined by the commission, of a nurse's professional services by an addiction to, a dependency on, or the use of alcohol, legend drugs, or controlled substances.

(5) "Aftercare" is that period of time after intensive treatment that provides the nurse and the nurse's family with group or individual counseling sessions, discussions with other families, ongoing contact and participation in self-help groups and ongoing continued support of treatment program staff.

(6) "Nurse support group" is a group of nurses meeting regularly to support the recovery of its members. The group provides a confidential setting with a trained and experienced nurse facilitator in which nurses may safely discuss drug diversion, licensure issues, return to work and other professional issues related to recovery.

(7) "Twelve-step groups" are groups such as alcoholics anonymous, narcotics anonymous, and related organizations based on a philosophy of anonymity, belief in a power outside of oneself, peer group association, and self-help.

(8) "Random drug screens" are laboratory tests to detect the presence of drugs of abuse in body fluids which are performed at irregular intervals not known in advance by the person to be tested.

[Statutory Authority: Chapter 18.79 RCW. 97-13-100, § 246-840-760, filed 6/18/97, effective 7/19/97.]

WAC 246-840-770 Approval of substance abuse monitoring programs. The commission will approve the monitoring program(s) which will participate in the commission's substance abuse monitoring program. A monitoring program approved by the commission may be contracted with an entity outside the department but within the state, out-of-state, or a separate structure within the department.

(1) The approved monitoring program will not provide evaluation or treatment to the participating nurses.

(2) The approved monitoring program staff must have the qualifications and knowledge of both substance abuse and the practice of nursing as defined in this chapter to be able to evaluate:

(a) Clinical laboratories;

(b) Laboratory results;

(c) Providers of substance abuse treatment, both individuals and facilities;

(d) Nurses' support groups;

(e) The nursing work environment; and

(f) The ability of the nurse to practice with reasonable skill and safety.

(3) The approved monitoring program will enter into a contract with the nurse and the commission to oversee the nurse's compliance with the requirements of the program.

(4) The approved monitoring program may make exceptions to individual components of the contract on an individual basis.

(5) The approved monitoring program staff will determine, on an individual basis, whether a nurse will be prohibited from engaging in the practice of nursing for a period of time and restrictions, if any, or the nurse's access to controlled substances in the work place.

(6) The approved monitoring program shall maintain records on participants.

(7) The approved monitoring program will be responsible for providing feedback to the nurse as to the acceptability of treatment progress.

(8) The approved monitoring program shall report to the commission any nurse who fails to comply with the requirement of the monitoring program.

(9) The approved monitoring program shall provide the commission with a statistical report on the program, including progress of participants, at least annually.

(10) The approved monitoring program shall receive from the commission guidelines on treatment, monitoring, and limitations on the practice of nursing for those participating in the program.

[Statutory Authority: Chapter 18.79 RCW. 97-13-100, § 246-840-770, filed 6/18/97, effective 7/19/97.]

WAC 246-840-780 Participants entering the approved substance abuse monitoring program must agree to the following conditions. (1)(a) The nurse shall undergo a complete physical and psychosocial evaluation before entering the approved monitoring program. This evaluation will be performed by health care professional(s) with expertise in chemical dependency. The person(s) performing the evaluation shall not also be the provider of the recommended treatment.

(b) The nurse shall enter into a contract with the commission and the approved substance abuse monitoring program to comply with the requirements of the program which shall include, but not be limited to:

(i) The nurse will undergo intensive substance abuse treatment in an approved treatment facility.

(ii) The nurse will agree to remain free of all mind-altering substances including alcohol except for medications prescribed by an authorized prescriber, as defined in RCW 69.41.030 and 69.50.101.

(iii) The nurse must complete the prescribed aftercare, which may include individual and/or group psychotherapy.

(iv) The nurse must cause the treatment counselor(s) to provide reports to the approved monitoring program at specified intervals. Reports shall include treatment prognosis and goals.

(v) The nurse will submit to random drug screening as specified by the approved monitoring program.

(vi) The nurse will attend nurses' support groups facilitated by a nurse and/or twelve-step group meetings as specified by the contract.

(vii) The nurse will comply with specified employment conditions and restrictions as defined by the contract.

(viii) The nurse shall sign a waiver allowing the approved monitoring program to release information to the commission if the nurse does not comply with the requirements of this contract.

(c) The nurse is responsible for paying the costs of the physical and psychosocial evaluation, substance abuse treatment, and random drug screens.

(d) The nurse may be subject to disciplinary action under RCW 18.130.160 if the nurse does not participate in the approved monitoring program, does not comply with specified employment restrictions, or does not successfully complete the program.

(2) A nurse who is not being investigated by the commission or subject to current disciplinary action or currently being monitored by the commission for substance abuse may voluntarily participate in the approved substance abuse monitoring program without being referred by the commission.

(a) The nurse shall undergo a complete physical and psychosocial evaluation before entering the approved monitoring program. This evaluation will be performed by health care professional(s) with expertise in chemical dependency. The person(s) performing the evaluation shall not also be the provider of the recommended treatment.

(b) The nurse shall enter into a contract with the approved substance abuse monitoring program to comply with the requirements of the program which shall include, but not be limited to:

(i) The nurse will undergo intensive substance abuse treatment in an approved treatment facility.

(ii) The nurse will agree to remain free of all mind-altering substances including alcohol except for medications prescribed by an authorized prescriber as defined in RCW 69.41.030 and 69.50.101.

(iii) The nurse must complete the prescribed aftercare program of the intensive treatment facility, which may include individual and/or group psychotherapy.

(iv) The nurse must cause the treatment counselor(s) to provide reports to the approved monitoring program at specified intervals. Reports shall include treatment prognosis and goals.

(v) The nurse will submit to random drug screening as specified by the approved monitoring program.

(vi) The nurse will attend nurses' support groups facilitated by a nurse and/or twelve-step group meetings as specified by the contract.

(vii) The nurse will comply with employment conditions and restrictions as defined by the contract.

(viii) The nurse shall sign a waiver allowing the approved monitoring program to release information to the commission if the nurse does not comply with the requirements of this contract.

(c) The nurse is responsible for paying the costs of the physical and psychosocial evaluation, substance abuse treatment and random drug screens.

(3) The treatment and pretreatment records of license holders referred to or voluntarily participating in approved monitoring programs shall be confidential, shall be exempt from RCW 42.17.250 through 42.17.450, and shall not be subject to discovery by subpoena or admissible as evidence except for monitoring records reported to the disciplinary authority for cause as defined in subsections (1) and (2) of this section. Records held by the commission under this section shall be exempt from RCW 42.17.250 through 42.17.450 and shall not be subject to discovery by subpoena except by the license holder.

[Statutory Authority: Chapter 18.79 RCW. 97-13-100, § 246-840-780, filed 6/18/97, effective 7/19/97.]

WAC 246-840-800 Scope of practice—Advisory opinions. (1) The commission may issue advisory opinions in response to questions put to it by professional health associations, nursing practitioners and consumers concerning the authority of various categories of nursing personnel to perform particular acts. Such questions must be presented in writing to the department staff.

(2) Questions may be referred to a committee of the commission. Upon such referral, the committee shall develop a draft response which shall be presented to the full commission at a public meeting for ratification, rejection or modification. The committee may, at its discretion, consult with health care practitioners for assistance in developing its draft response.

(3) If the commission issues an opinion on a given issue, such opinion shall be provided to the requesting party and shall be included in the commission minutes.

(4) Each opinion issued shall include a clear statement to the effect that:

(a) The opinion is advisory and intended for the guidance of the requesting party only; and

(b) The opinion is not legally binding and does not have the force and effect of a duly promulgated regulation or a declaratory ruling by the commission.

(5) In no event shall this section be construed to supersede the authority of the commission to adopt rules related to the scope of practice nor shall it be construed to restrict the ability of any person to propose a rule or to seek a declaratory judgment from the commission.

[Statutory Authority: Chapter 18.79 RCW. 97-13-100, § 246-840-800, filed 6/18/97, effective 7/19/97.]

WAC 246-840-810 Provision for continuity of drug therapy for residents. When a resident of a long-term care

facility has the opportunity for an unscheduled therapeutic leave that would be precluded by the lack of an available pharmacist to dispense drugs prescribed by an authorized practitioner, a registered nurse designated by the facility and its consultant or staff pharmacist and who agrees to such designation, may provide the resident or a responsible person with up to a seventy-two-hour supply of a prescribed drug or drugs for use during that leave from the resident's previously dispensed package of such drugs. The drugs shall only be provided in accordance with protocols developed by the pharmaceutical services committee and shall be available for inspection. These protocols shall include the following:

(1) Criteria as to what constitutes an unscheduled therapeutic leave requiring the provision of drugs by the registered nurse;

(2) Procedures for repackaging and labeling the limited supply of previously dispensed drugs by the designated registered nurse that comply with all state and federal laws concerning the packaging and labeling of drugs;

(3) Provision to assure that none of the medication provided to the resident or responsible person may be returned to the resident's previously dispensed package of such drug or to the facility's stock.

(4) Assurance that the RN informs the resident or responsible person of:

(a) The name, strength and quantity of drug provided;

(b) The proper administration of the drug;

(c) Potential adverse responses to the drug; and

(d) What actions to take should adverse responses occur.

(5) Provision for documenting by the RN in the resident's health record:

(a) Date and time of unscheduled leave;

(b) Name, strength and quantity of drug provided;

(c) Name of person to whom the drug was given and by whom it was given; and

(d) Confirmation that information described in subsection (2) of this section was provided.

See WAC 246-865-070 for related regulations regarding this practice.

[Statutory Authority: Chapter 18.79 RCW. 97-13-100, § 246-840-810, filed 6/18/97, effective 7/19/97.]

WAC 246-840-820 Provision for clean, intermittent catheterization in schools. Public school districts and private schools that offer classes for any of the grades kindergarten through twelve may provide for clean, intermittent catheterization of students or assisted self-catheterization of students who are in the custody of the school district at the time in accordance with the following rules:

(1) The student's file shall contain a written request from the parent(s) or guardian for the clean, intermittent catheterization of the student.

(2) The student's file shall contain written permission from the parent(s) or guardian for the performance of the clean, intermittent catheterization procedure by the nonlicensed school employee.

(3) The student's file shall contain a current written order for clean, intermittent catheterization from the student's physician and shall include written instructions for the procedure. The order shall be reviewed and/or revised each school year.

(4) The student's file shall contain written, current, and unexpired instructions from a registered nurse licensed under chapter 18.79 RCW regarding catheterization which include:

(a) A designation of the school district or private school employee or employees who may provide for the catheterization; and

(b) A description of the nature and extent of any required supervision.

(5) The service shall be offered to all handicapped students and may be offered to the nonhandicapped students, at the discretion of the school board.

(6) The registered nurse shall develop instructions specific to the needs of the student. These shall be made available to the nonlicensed school employee and shall be updated each school year.

(7) The supervision of the self-catheterizing student shall be based on the needs of the student and the skill of the nonlicensed school employee.

(8) The registered nurse, designated by the school board, shall be responsible for the training of the nonlicensed school employees who are assigned to perform clean, intermittent catheterization of the students.

(9) The training of the nonlicensed school employee shall include but not be limited to:

(a) An initial in-service training, length determined by the registered nurse.

(b) An update of the instructions and a review of the procedure each school year.

(c) Anatomy, physiology, and pathophysiology of the urinary system including common anomalies for the appropriate age group served.

(d) Techniques common to the urinary catheterization procedure.

(e) Identification and care of the required equipment.

(f) Common signs and symptoms of infection and recommended procedures to prevent the development of infections.

(g) Identification of the psychosocial needs of the parent/guardian and the students with emphasis on the needs for privacy and confidentiality.

(h) Documentation requirements.

(i) Communication skills including the requirements for reporting to the registered nurse or the physician.

(j) Medications commonly prescribed for the clean, intermittent catheterization patient and their side effects.

(k) Contraindications for clean, intermittent catheterization and the procedure to be followed if the nonlicensed school employee is unable to catheterize the student.

(l) Training in catheterization specific to the student's needs.

(m) Developmental growth patterns of the appropriate age group served.

(n) Utilization of a teaching model to demonstrate catheterization techniques with return demonstration performed by the nonlicensed school employee, if a model is available.

(10) The training of the nonlicensed school employee shall be documented in the employee's permanent file.

[Statutory Authority: Chapter 18.79 RCW. 97-13-100, § 246-840-820, filed 6/18/97, effective 7/19/97.]

WAC 246-840-830 Determination and pronouncement of death by a licensed registered nurse. A registered nurse may determine and pronounce death, but shall not certify death as defined in RCW 70.58.160 unless the registered nurse is a licensed ARNP as defined in WAC 246-840-300.

(1) A registered nurse may assume responsibility for the determination and pronouncement of death only if there are written policies and procedures relating to the determination and pronouncement of death in the organization with which the registered nurse is associated as an employee or by contract, provided:

(a) The decedent was under the care of a health care practitioner qualified to certify cause of death; and

(b) The decedent was a patient of the organization with which the registered nurse is associated; and

(c) There is a "do not resuscitate order" in the patient's record when the decedent was assisted by mechanical life support systems at the time of determination and pronouncement of death.

(2) A registered nurse who assumes responsibility for the determination and pronouncement of death shall be knowledgeable of the laws and regulations regarding death and human remains which affect the registered nurse's practice of this responsibility.

(3) A registered nurse who assumes responsibility for the determination and pronouncement of death shall:

(a) Perform a physical assessment of the patient's condition;

(b) Insure that family and physician and other caregivers are notified of the death; and

(c) Document the findings of the assessment and notification in all appropriate records.

[Statutory Authority: RCW 70.58.170, 70.58.180 and 2000 c 133. 00-17-179, § 246-840-830, filed 8/23/00, effective 9/23/00. Statutory Authority: Chapter 18.79 RCW. 97-13-100, § 246-840-830, filed 6/18/97, effective 7/19/97.]

WAC 246-840-840 Nursing technician. The purpose of the role of nursing technician is to provide opportunity for students enrolled in an ADN or BSN program to gain work experience within the limits of their education, but not limited to the scope of functions of nursing assistant - certified.

(1) The nursing technician is as defined in WAC 246-840-010(19).

(2) The nursing technician shall have knowledge and understanding of the laws and rules regulating the nursing technician and shall function within the legal scope of nursing practice.

(3) The nursing technician shall be responsible and accountable for practicing within the scope and guidelines of policies defined by the employing agency.

(4) The nursing technician shall not be employed by a temporary agency.

[Statutory Authority: Chapter 18.79 RCW. 97-13-100, § 246-840-840, filed 6/18/97, effective 7/19/97.]

WAC 246-840-850 Use of nomenclature. (1) Any person who meets the qualifications under WAC 246-840-010(19) and 246-840-860 shall use the title nursing technician and this title shall not be abbreviated.

(2) No other person shall assume such title.

[Statutory Authority: Chapter 18.79 RCW. 97-13-100, § 246-840-850, filed 6/18/97, effective 7/19/97.]

WAC 246-840-860 Nursing technician criteria. To be eligible for employment as a nursing technician a student must meet the following criteria:

(1) Satisfactory completion of at least one academic term (quarter or semester) of a nursing program approved by a commission or board of nursing (ADN, diploma, or BSN). The term must have included a clinical component.

(2) Currently enrolled in a nursing commission approved program will be considered to include:

(a) All periods of regularly planned educational programs and all school scheduled vacations and holidays.

(b) The period of time of notification to the commission of completion of nursing education, following graduation and application for examination, not to exceed ninety days from the date of graduation.

(c) Current enrollment will not be construed to include:

(i) Leaves of absence or withdrawal, temporary or permanent, from the nursing educational program.

(ii) Students enrolled in nursing department classes who are solely enrolled in academic nonnursing supporting course work, whether or not those courses are required for the nursing degree.

(iii) Students who are awaiting the opportunity to reenroll in nursing courses.

[Statutory Authority: RCW 18.79.160. 97-17-049, § 246-840-860, filed 8/15/97, effective 9/15/97.]

WAC 246-840-870 Functions of the nursing technician. The nursing technician:

(1) Shall function only under the supervision of the registered nurse.

(2) May gather information about patients and administer care to patients.

(3) Shall not be responsible for performing the ongoing assessment, planning, implementation, and evaluation of the care of patients.

(4) Shall never function as an independent practitioner, as a team leader, charge nurse, or in a supervisory capacity.

(5) May administer medications only under the direct supervision of a registered nurse and within the limits described in this section. "Direct supervision" means that the registered nurse is on the premises, is quickly and easily available, and that the patients have been assessed by the registered nurse prior to the delegation of the medication duties to the nursing technician. The nursing technician shall not administer chemotherapy, blood or blood products, intravenous medications, scheduled drugs, nor carry out procedures on central lines.

There shall be written documentation from the nursing education program attesting to the nursing technician's preparation in the procedures of medication administration.

[Statutory Authority: Chapter 18.79 RCW. 97-13-100, § 246-840-870, filed 6/18/97, effective 7/19/97.]

WAC 246-840-880 Functions of the registered nurse supervising the nursing technician. The registered nurse:

(1) Is accountable at all times for the client's safety and well-being.

(2) Is responsible at all times for the nursing process as delineated in WAC 246-840-700 and this responsibility cannot be delegated.

(3) Shall maintain at all times an awareness of the care activities of the nursing technician and of the current assessment of the patient.

(4) Shall be available at all times to the nursing technician and shall be physically present within the health care facility.

[Statutory Authority: Chapter 18.79 RCW. 97-13-100, § 246-840-880, filed 6/18/97, effective 7/19/97.]

WAC 246-840-890 Responsibilities of the employing facility. The employer of the nursing technician shall:

(1) Verify the nursing technician's enrollment in a nursing education program approved by the state board of nursing or commission in the state in which the program is located.

(2) Verify satisfactory completion of each academic term (semester or quarter) within two weeks of completion date.

(3) Obtain written documentation from the approved nursing education program of the nursing technician's current level of education preparation and his/her knowledge and skills.

(4) Assign the nursing technician to perform only to the level identified in subsection (3) of this section.

(5) Provide the nursing technician from an educational program approved by a state board of nursing or commission other than the Washington nursing commission with board authorized information on the legal definition and parameters of the nursing technician role, as in WAC 246-840-010(19) and 246-840-840 through 246-840-870. Such information shall be provided prior to the commencement of patient care activities by the nursing technician. The facility shall obtain written verification from the nursing technician of receipt and review of this information and the facility shall retain the written verification for a minimum of three years from the last date of employment.

(6) Advise the commission of the names and addresses of the nursing technician and the name and address of the nursing education program for any and all nursing technicians employed at the facility.

(7) Identify the student nurse as a "nursing technician."

[Statutory Authority: Chapter 18.79 RCW. 97-13-100, § 246-840-890, filed 6/18/97, effective 7/19/97.]

WAC 246-840-900 Responsibilities of the nurse administrator. The nursing administrator or designee shall:

(1) Ensure that the nursing technician has been thoroughly oriented to the facility.

(2) Ensure that WAC 246-840-890 (3), (4), (5), (6), and (7) are accomplished prior to patient care assignments.

(3) Observe, evaluate, and document the skill level of the nursing technician in the administration of oral, intermuscular, and subcutaneous medication and nursing care skills.

(4) Convey in writing to all facility departments the scope within which the nursing technician may practice.

(5) Provide the supervising licensed registered nurse a written job description for the nursing technician.

[Statutory Authority: Chapter 18.79 RCW. 97-13-100, § 246-840-900, filed 6/18/97, effective 7/19/97.]

DELEGATION OF NURSING CARE TASKS IN COMMUNITY BASED CARE SETTINGS

WAC 246-840-910 Purpose. The purpose of this delegation protocol is to ensure that nursing care services have a consistent standard of practice upon which the public and profession may rely and to safeguard the authority of the registered nurse delegator to make independent professional decisions regarding the delegation of a nursing task. A licensed registered nurse may delegate specific nursing care tasks to nursing assistants who meet certain requirements and provide care to individuals served by certified community residential programs for the developmentally disabled, to residents in licensed adult family homes, and to residents of licensed boarding homes. Before delegating a task, the registered nurse delegator must determine that specific criteria described in the protocol are met and ensure that the patient is in a stable and predictable condition. Registered nurses delegating tasks are accountable to the Washington state nursing care quality assurance commission. The registered nurse delegator and nursing assistant are accountable for their own individual actions in the delegation process. No person may coerce a registered nurse into compromising patient safety by requiring the registered nurse to delegate if the registered nurse delegator determines it is inappropriate to do so. Registered nurse delegators cannot delegate the following care tasks under any circumstances:

(1) Administration of medications by injection (intramuscular, intradermal, subcutaneous, intraosseous and intravenous).

(2) Sterile procedures.

(3) Central line maintenance.

[Statutory Authority: Chapters 18.79 and 18.88A RCW. 02-02-047, § 246-840-910, filed 12/27/01, effective 1/27/02. Statutory Authority: Chapter 18.79 RCW. 96-05-060, § 246-840-910, filed 2/19/96, effective 3/21/96.]

WAC 246-840-920 Definitions. For the purposes of this chapter, the definitions in this section apply throughout the protocol.

(1) "Authorized representative" means a person authorized to provide informed consent for health care on behalf of a patient who is not competent to consent. Such person shall be a member of one of the classes of persons as directed in RCW 7.70.065.

(2) "Coercion" means to force or compel another, by authority, to do something that he/she would not otherwise choose to do.

(3) "Complex task" means that a nursing task may become more complicated because of the interrelationship between the following criteria:

(a) The patient's condition;

(b) The setting;

(c) The nursing care task(s) and involved risks; and

(d) The skill level required to perform the task.

The registered nurse delegator must identify and facilitate additional training of the nursing assistant prior to delegation in these situations. The registered nurse delegator may decide the task is not delegable. In no case, may administration of medications by injection, sterile procedures and central line maintenance be delegated.

(4) "Medication assistance" as defined in chapter 246-888 WAC does not require delegation by a licensed nurse.

(5) "Nursing assistant" means a nursing assistant-registered under chapter 18.88A RCW or a nursing assistant-certified under chapter 18.88A RCW, who provides care to individuals served by certified community residential programs for the developmentally disabled, to individuals residing in licensed adult family homes, and to individuals residing in licensed boarding homes.

(6) "Outcome" means the end result or consequence of an action after following an established plan of care.

(7) "Patient" means the individual recipient of nursing actions. In the community residential settings, the patient may also be referred to as client, consumer, or resident.

(8) "Personal care services" as defined in WAC 388-15-202 do not require delegation by a licensed nurse.

(9) "Procedure" means a series of steps by which a desired result is obtained; a particular course of action or way of doing something.

(10) "Protocol" means an explicit, detailed written plan specifying the procedures to be followed in providing care for a particular condition.

(11) "Registered nurse delegation" means the registered nurse transfers the performance of selected nursing tasks to competent nursing assistants in selected situations. The registered nurse delegating the task retains the responsibility and accountability for the nursing care of the patient.

(12) "Supervision" means the provision of guidance and evaluation by a registered nurse delegator for the accomplishment of a nursing task or activity, as outlined in this protocol, including the initial direction of the task or activity; periodic inspection at least every ninety days of the actual act of accomplishing the task or activity; and the authority to require corrective action.

(13) "Immediate supervision" means the registered nurse delegator is on the premises and is within audible and visual range of the patient and the patient has been assessed by the registered nurse delegator prior to the delegation of duties to any care giver.

(14) "Direct supervision" means the registered nurse delegator is on the premises, is quickly and easily available and the patient has been assessed by the registered nurse delegator prior to the delegation of the duties to any care giver.

(15) "Indirect supervision" means the registered nurse delegator is not on the premises but has previously given written instructions for the care and treatment of the patient and the patient has been assessed by the registered nurse delegator prior to the delegation of duties to any care giver. If oral clarification of the written instructions is required, it must be documented.

(16) "Stable and predictable condition" means a situation in which the patient's clinical and behavioral status is known through the registered nurse delegator's assessment to be non-fluctuating and consistent, including a terminally ill patient whose deteriorating condition is predictable. The registered nurse delegator determines that the patient does not require their frequent presence and evaluation.

[Statutory Authority: Chapters 18.79 and 18.88A RCW. 02-02-047, § 246-840-920, filed 12/27/01, effective 1/27/02. Statutory Authority: Chapter 18.79 RCW. 96-05-060, § 246-840-920, filed 2/19/96, effective 3/21/96.]

WAC 246-840-930 Criteria for delegation. (1) Before delegating a nursing task, the registered nurse delegator must determine that it is appropriate to delegate based on the elements of the nursing process: ASSESS, PLAN, IMPLEMENT, EVALUATE:

ASSESS

(2) Determine that the setting allows delegation because it is a certified community residential program for the developmentally disabled, a licensed adult family home, or a licensed boarding home.

(3) Assess the patient's nursing care needs and determine that the patient is in a stable and predictable condition.

(4) Determine that the task to be delegated is within the delegating nurse's area of responsibility.

(5) Determine that the task to be delegated can be properly and safely performed by the nursing assistant. The registered nurse delegator shall assess the potential risk of harm for the individual patient. Potential harm may include, but is not limited to, infection, hemorrhage, hypoxemia, nerve damage, physical injury, or psychological distress.

(6) Analyze the complexity of the nursing task and determine the required training or additional training needed by the nursing assistant to competently accomplish the task. The registered nurse delegator shall consider the psychomotor and cognitive skills required to perform the nursing task. More complex tasks may require additional training and supervision for the nursing assistant. The registered nurse delegator must identify and facilitate any additional training of the nursing assistant that is needed prior to delegation. The registered nurse delegator must ensure that the task to be delegated can be properly and safely performed by the nursing assistant.

(7) Assess the level of interaction required, considering language or cultural diversity that may affect communication or the ability to accomplish the task to be delegated, as well as methods to facilitate the interaction.

(8) Verify that the nursing assistant:

(a) Is currently registered or certified as a nursing assistant in Washington state and is in good standing without restriction;

(b) As required in WAC 246-841-405 (2)(a), nursing assistants registered must complete both the basic caregiver training and core delegation training before performing any delegated task;

(c) Has a certificate of completion issued by the department of social and health services indicating completion of nurse delegation for nursing assistants; and

(d) Is willing to perform the task in the absence of direct or immediate nurse supervision and accept responsibility for their actions.

(9) Assess the ability of the nursing assistant to competently perform the delegated nursing task in the absence of direct or immediate nurse supervision to ensure that the nursing task can be properly and safely performed by the nursing assistant.

(10) If the registered nurse delegator determines delegation is appropriate, the nurse must:

(a) Discuss the delegation process with the patient or authorized representative, including the level of training of the nursing assistant delivering care.

(b) Obtain patient consent. The patient, or authorized representative, must give written, informed consent to the delegation process under chapter 7.70 RCW. Documented verbal consent of patient or authorized representative may be acceptable if written consent is obtained within thirty days; electronic consent is an acceptable format.

(c) Written consent is only necessary at the initial use of the nurse delegation process for each patient and is not necessary for task additions or changes or if a different nurse or nursing assistant will be participating in the process.

PLAN

(11) Document in the patient's record the rationale for delegating or not delegating nursing tasks.

(12) Provide specific, written delegation instructions to the nursing assistant with a copy maintained in the patient's record that include:

(a) The rationale for delegating the nursing task;

(b) That the delegated nursing task is specific to one patient and is not transferable to another patient;

(c) That the delegated nursing task is specific to one nursing assistant and is not transferable to another nursing assistant;

(d) The nature of the condition requiring treatment and purpose of the delegated nursing task;

(e) A clear description of the procedure or steps to follow to perform the task;

(f) The predictable outcomes of the nursing task and how to effectively deal with them;

(g) The risks of the treatment;

(h) The interactions of prescribed medications;

(i) How to observe and report side effects, complications, or unexpected outcomes and appropriate actions to deal with them, including specific parameters for notifying the registered nurse delegator, health care provider, or emergency services;

(j) The action to take in situations where medications and/or treatments and/or procedures are altered by health care provider orders, including:

(i) How to notify the registered nurse delegator of the change;

(ii) The process the registered nurse delegator will use to obtain verification from the health care provider of the change in the medical order; and

(iii) The process to notify the nursing assistant of whether administration of the medication or performance of the procedure and/or treatment is delegated or not;

(k) How to document the task in the patient's record;

(l) Document what teaching was done and that a return demonstration, or other method for verification of competency, was correctly done; and

(m) A plan of nursing supervision describing how frequently the registered nurse will supervise the performance of the delegated task by the nursing assistant and reevaluate the delegated nursing task. Supervision shall occur at least every ninety days.

(13) The administration of medications may be delegated at the discretion of the registered nurse delegator. The registered nurse delegator must provide written parameters specific to an individual patient which includes guidelines for the nursing assistant to follow in the decision-making process to administer a medication and the procedure to follow for such administration.

IMPLEMENT

(14) Delegation requires the registered nurse delegator teach the nursing assistant how to perform the task, including return demonstration or other method of verification of competency as determined by the registered nurse delegator.

(15) The registered nurse delegator is accountable and responsible for the delegated nursing task. The registered nurse delegator must monitor the performance of the task(s) to assure compliance to established standards of practice, policies and procedures and to ensure appropriate documentation of the task(s).

EVALUATE

(16) The registered nurse delegator must evaluate the patient's responses to the delegated nursing care and to any modification of the nursing components of the patient's plan of care.

(17) The registered nurse delegator must supervise and evaluate the performance of the nursing assistant, including direct observation or other method of verification of competency of the nursing assistant to perform the delegated nursing task. The registered nurse delegator must also reevaluate the patient's condition, the care provided to the patient, the capability of the nursing assistant, the outcome of the task, and any problems.

(18) The registered nurse delegator must ensure safe and effective services are provided. Reevaluation and documentation must occur at least every ninety days. Frequency of supervision is at the discretion of the registered nurse delegator.

[Statutory Authority: Chapters 18.79 and 18.88A RCW. 02-02-047, § 246-840-930, filed 12/27/01, effective 1/27/02. Statutory Authority: Chapter 18.79 RCW. 97-13-100, § 246-840-930, filed 6/18/97, effective 7/19/97; 96-05-060, § 246-840-930, filed 2/19/96, effective 3/21/96.]

WAC 246-840-940 Washington state nursing care quality assurance commission community care setting delegation decision tree.

(1)	Does the patient reside in one of the following settings? A certified community residential program for the developmentally disabled, a licensed adult family home, a licensed boarding home	No →	Do not delegate
	Yes ↓		
(2)	Has the patient or authorized representative given consent to the delegation?	No →	Obtain the written, informed consent
	Yes ↓		
(3)	Is RN assessment of patient's nursing care needs completed?	No →	Do assessment, then proceed with a consideration of delegation
	Yes ↓		
(4)	Is the task within the registered nurse's scope of practice?	No →	Do not delegate
	Yes ↓		
(5)	Is the nursing assistant registered or certified and properly trained in the nurse delegation for nursing assistants?	No →	Do not delegate
	Yes ↓		
(6)	Can the task be performed without requiring judgment based on nursing knowledge?	No →	Do not delegate
	Yes ↓		
(7)	Are the results of the task reasonably predictable?	No →	Do not delegate
	Yes ↓		
(8)	Can the task be safely performed according to exact, unchanging directions?	No →	Do not delegate
	Yes ↓		
(9)	Can the task be performed without a need for complex observations or critical decisions?	No →	Do not delegate
	Yes ↓		
(10)	Can the task be performed without repeated nursing assessments?	No →	Do not delegate
	Yes ↓		
(11)	Can the task be performed improperly without life-threatening consequences?	No →	Do not delegate
	Yes ↓		
(12)	Is appropriate supervision available?	No →	Do not delegate
	Yes ↓		
(13)	There are no specific laws or rules prohibiting the delegation?	No →	Do not delegate
	Yes ↓		
(14)	Task is delegable		

[Statutory Authority: Chapters 18.79 and 18.88A RCW. 02-02-047, § 246-840-940, filed 12/27/01, effective 1/27/02. Statutory Authority: Chapter 18.79 RCW. 97-13-100, § 246-840-940, filed 6/18/97, effective 7/19/97; 96-05-060, § 246-840-940, filed 2/19/96, effective 3/21/96.]

WAC 246-840-950 How to make changes to the delegated tasks. (1) **Medication.** The registered nurse delegator will discuss with the nursing assistant the process for continuing, rescinding, or adding medications to the delegation list when the health care provider changes medication orders:

(a) The registered nurse delegator must verify the change in medication or a new medication order with the health care provider;

(b) If a change is made in the medication dosage or if a change is made in the type of medication for the same problem (i.e., one medication is deleted by the health care provider and another is substituted) and the patient remains in a stable and predictable condition, delegation may continue at the registered nurse delegator's discretion; and

(c) If a new medication is added, the registered nurse delegator must review the criteria and process for delegation prior to delegating the administration of the new medication to the nursing assistant. The registered nurse delegator maintains the authority to decide if the new medication can be delegated immediately, if a site visit is warranted prior to delegation, or if delegation is no longer appropriate. If delegation is to be rescinded, the registered nurse delegator must initiate and participate in developing an alternative plan to assure the needs of the patient are met.

(2) **Treatments and/or procedures.**

(a) The registered nurse delegator must verify the change in the medical order with the health care provider.

(b) The registered nurse delegator maintains the authority to decide if the new treatment or procedure can be delegated immediately, if a site visit is warranted prior to delegation, or if delegation is no longer appropriate. If delegation is to be rescinded, the registered nurse delegator must initiate and participate in developing an alternative plan to assure the needs of the patient are met.

Transferring delegation to another registered nurse.

(3) A registered nurse may assume delegating responsibilities from the registered nurse delegator for the delegation process, provided the registered nurse assuming responsibility knows the patient through their assessment, the skills of the nursing assistant, and the plan of care. This may include a reevaluation of the patient by the nurse assuming responsibility for delegation. The registered nurse assuming the responsibility for delegation from another registered nurse delegator is accountable and responsible for the delegated task. The registered nurse delegator must document the following in the patient's record.

(a) The reason and justification for another registered nurse assuming responsibility for the delegation;

(b) The registered nurse assuming responsibility must agree, in writing, to perform the supervision; and

(c) That the nursing assistant and patient have been informed of this change.

[Statutory Authority: Chapters 18.79 and 18.88A RCW. 02-02-047, § 246-840-950, filed 12/27/01, effective 1/27/02. Statutory Authority: Chapter 18.79 RCW. 96-05-060, § 246-840-950, filed 2/19/96, effective 3/21/96.]

WAC 246-840-960 Rescinding delegation. (1) The registered nurse delegator may rescind delegation of the nursing task based on the following circumstances which may include, but are not limited to:

(a) When the registered nurse delegator believes patient safety is being compromised;

(b) When the patient's condition is no longer stable and predictable as determined by the registered nurse delegator;

(c) When the frequency of staff turnover makes delegation impractical to continue in the setting;

(d) When there is a change in the nursing assistant's willingness or competency to do the task;

(e) When the task is not being performed correctly; or

(f) When the patient or authorized representative requests that the delegation be rescinded.

(2) In the event delegation is rescinded, the registered nurse delegator initiates and participates in developing an alternative plan to ensure the continuity for the provision of the task or assumes responsibility for performing the task.

(3) The registered nurse delegator must document the reason for rescinding delegation of the task and the plan for ensuring continuity of the task.

[Statutory Authority: Chapters 18.79 and 18.88A RCW. 02-02-047, § 246-840-960, filed 12/27/01, effective 1/27/02. Statutory Authority: Chapter 18.79 RCW. 96-05-060, § 246-840-960, filed 2/19/96, effective 3/21/96.]

WAC 246-840-970 Accountability, liability, and coercion. (1) The registered nurse delegator and nursing assistant are accountable for their own individual actions in the delegation process. The delegated task becomes the responsibility of the person to whom it is delegated but the registered nurse delegator retains overall accountability for the nursing care of the patient, including nursing assessment, evaluation, and assuring documentation is completed.

(2) Under RCW 18.79.260 (3)(d)(iv), delegating nurses acting within the protocols of their delegation authority shall be immune from liability for any action performed in the course of their delegation duties.

(3) Under RCW 18.88A.230(1), nursing assistants following written delegation instructions from registered nurse delegators for delegated tasks shall be immune from liability.

(4) Complaints regarding delegation of nursing tasks may be reported to the aging and adult services administration of the department of social and health services or via a toll-free telephone number.

(5) All complaints related to nurse delegation shall be referred to the nursing care quality assurance commission.

(6) Under RCW 18.79.260 (3)(c), no person may coerce the registered nurse delegator into compromising patient safety by requiring the nurse to delegate if the registered nurse delegator determines it is inappropriate to do so. Registered nurse delegators shall not be subject to any employer reprisal or disciplinary action by the Washington nursing care quality assurance commission for refusing to delegate tasks or refusing to provide the required training for delegation if the nurse determines delegation may compromise patient safety.

(7) Under RCW 18.88A.230(2), nursing assistants shall not be subject to any employer reprisal or disciplinary action by the secretary for refusing to accept delegation of a nursing task based on patient safety issues.

[Statutory Authority: Chapters 18.79 and 18.88A RCW. 02-02-047, § 246-840-970, filed 12/27/01, effective 1/27/02. Statutory Authority: Chapter 18.79 RCW. 96-05-060, § 246-840-970, filed 2/19/96, effective 3/21/96.]

WAC 246-840-990 Fees and renewal cycle. (1) Licenses for practical nurse and registered nurse must be renewed every year on the practitioner's birthday as provided in chapter 246-12 WAC, Part 2.

(2) Licenses for advanced registered nurse must be renewed every two years on the practitioner's birthday as provided in chapter 246-12 WAC, Part 2.

(3) The following nonrefundable fees shall be charged by the health professions quality assurance division of the department of health. Persons who hold an RN and an LPN license shall be charged separate fees for each license. Persons who are licensed as an advanced registered nurse practitioner in more than one specialty will be charged a fee for each specialty:

RN/LPN fees:

Title of Fee	Fee
Application (initial or endorsement)	$65.00
License renewal	50.00
Late renewal penalty	50.00
Expired license reissuance	50.00
Inactive renewal	20.00
Expired inactive license reissuance	20.00
Inactive late renewal penalty	10.00
Duplicate license	20.00
Verification of licensure/education (written)	25.00

Advanced registered nurse fees:

Title of Fee	Fee
ARNP application with or without prescriptive authority (per speciality)	$65.00
ARNP renewal with or without prescriptive authority (per speciality)	50.00
ARNP late renewal penalty (per speciality)	50.00
ARNP duplicate license (per speciality)	20.00
ARNP written verification of license (per speciality)	25.00

246-841-740 State and federal agencies. [Statutory Authority: RCW 43.70.040. 91-02-049 (Order 121), recodified as § 246-841-740, filed 12/27/90, effective 1/31/91. Statutory Authority: RCW 18.130.070. 89-14-092 (Order PM 842), § 308-173-080, filed 6/30/89.] Repealed by 97-20-101, filed 9/29/97, effective 10/30/97. Statutory Authority: RCW 43.70.040.

246-841-750 Cooperation with investigation. [Statutory Authority: RCW 18.88A.050, 18.130.050 and 18.130.080. 92-02-018 (Order 224), § 246-841-750, filed 12/23/91, effective 1/23/92. Statutory Authority: RCW 43.70.040. 91-02-049 (Order 121), recodified as § 246-841-750, filed 12/27/90, effective 1/31/91. Statutory Authority: RCW 18.130.070. 89-14-092 (Order PM 842), § 308-173-090, filed 6/30/89.] Repealed by 97-20-101, filed 9/29/97, effective 10/30/97. Statutory Authority: RCW 43.70.040.

WAC 246-841-400 Standards of practice and competencies of nursing assistants. The following standards are supported by statements of the competencies that a nursing assistant must hold to meet the standard to be certified to practice in the state of Washington. The competencies are statements of skills and knowledge, and are written as descriptions of behaviors which can be observed and measured. All competencies are performed, as per RCW 18.88A.-030, under the direction and supervision of a licensed (registered) nurse or licensed practical nurse. The level or depth of accomplishment of any given competency is as appropriate to the "assisting" role of basic nursing care under supervision of the licensed nurse.

(1) Basic technical skills. The nursing assistant demonstrates basic technical skills which facilitates an optimal level of functioning for the client, recognizing individual, cultural, and religious diversity. Competencies:

(a) Demonstrates proficiency in cardiopulmonary resuscitation (CPR).

(b) Takes and records vital signs.

(c) Measures and records height and weight.

(d) Measures and records fluid and food intake and output of client.

(e) Recognizes and reports abnormal signs and symptoms of common diseases and conditions.

(f) Demonstrates sensitivity to client's emotional, social, and mental health needs.

(g) Makes observations of client's environment to ensure safety and comfort of client.

(h) Participates in care planning and nursing reporting process.

(2) Personal care skills. The nursing assistant demonstrates basic personal care skills. Competencies:

(a) Assists client with bathing, mouth care, and skin care.

(b) Assists client with grooming and dressing.

(c) Provides toileting assistance to client.

(d) Assists client with eating and hydration.

(e) Utilizes proper feeding techniques.

(3) Mental health and social service needs. The nursing assistant demonstrates the ability to identify the psychosocial characteristics of all clients including persons with mental retardation, mental illness, dementia, Alzheimer's disease, and related disorders. Competencies:

(a) Modifies his/her own behavior in response to the client's behavior.

(b) Identifies adaptations necessary to accommodate the aging process.

(c) Provides training in, and the opportunity for, self care according to clients' capabilities.

(d) Demonstrates skills supporting client's personal choices.

(e) Identifies ways to use the client's family as a source of emotional support for the patient.

(4) Basic restorative services. The nursing assistant incorporates principles and skills of restorative nursing in providing nursing care. Competencies:

(a) Demonstrates knowledge and skill in using assistive devices in ambulation, eating, and dressing.

(b) Demonstrates knowledge and skill in the maintenance of range of motion.

(c) Demonstrates proper techniques for turning/positioning client in bed and chair.

(d) Demonstrates proper techniques for transferring client.

(e) Demonstrates knowledge about methods for meeting the elimination needs of clients.

(f) Demonstrates knowledge and skill for the care and use of prosthetic devices.

(5) Clients' rights and promotion of clients' independence. The nursing assistant demonstrates behavior which maintains and respects clients' rights and promotes clients' independence, regardless of race, religion, life-style, sexual preference, disease process, or ability to pay. Competencies:

(a) Recognizes that the client has the right to participate in decisions about his/her care.

(b) Recognizes and respects the clients' need for privacy and maintenance of confidentiality.

(c) Promotes and respects the client's right to make personal choices to accommodate their needs.

(d) Reports client's concerns.

(e) Provides assistance in getting to and participating in activities.

(f) Provides care of client's personal possessions.

(g) Provides care which maintains the client free from abuse, mistreatment or neglect; and reports any instances to appropriate facility staff.

(h) Maintains the client's environment and care through appropriate nursing assistant behavior so as to minimize the need for physical and chemical restraints.

(6) Communication and interpersonal skills. The nursing assistant uses communication skills effectively in order to function as a member of the nursing team. Competencies:

(a) Reads, writes, speaks, and understands English at the level necessary for performing duties of the nursing assistant.

(b) Listens and responds to verbal and nonverbal communication in an appropriate manner.

(c) Recognizes how one's own behavior influences client's behavior and know resources for obtaining assistance in understanding client's behavior.

(d) Makes adjustments for client's physical or mental limitations.

(e) Uses terminology accepted in the health care facility to record and report observations and pertinent information.

(f) Records and reports observations, actions, and information accurately and timely.

(g) Demonstrates ability to explain policies and procedures before and during care of the client.

(7) Infection control. The nursing assistant uses procedures and techniques to prevent the spread of microorganisms. Competencies:

(a) Uses principles of medical asepsis and demonstrates infection control techniques and universal precautions.

(b) Explains how disease causing microorganisms are spread; lists ways that HIV and Hepatitis B can spread from one person to another.

(c) Demonstrates knowledge of cleaning agents and methods which destroy microorganisms on surfaces.

(8) Safety/emergency procedures. The nursing assistant demonstrates the ability to identify and implement safety/emergency procedures. Competencies:

(a) Provides adequate ventilation, warmth, light, and quiet measures.

(b) Uses measures that promote comfort, rest, and sleep.

(c) Promotes clean, orderly, and safe environment and equipment for the client.

(d) Identifies and utilizes measures for accident prevention.

(e) Identifies and demonstrates principles of body mechanics.

(f) Demonstrates proper use of protective devices in care of clients.

(g) Demonstrates knowledge of fire and disaster procedures.

(h) Identifies and demonstrates principles of health and sanitation in the service of food.

(i) Demonstrates the proper use and storage of cleaning agents and other potentially hazardous materials.

(9) Rules and regulations knowledge. The nursing assistant demonstrates knowledge of and is responsive to the laws and regulations which affect his/her practice including but not limited to: Client abuse and neglect, client complaint procedures, workers right to know, and the Uniform Disciplinary Act.

[Statutory Authority: RCW 18.88A.060. 91-23-077 (Order 214B), § 246-841-400, filed 11/19/91, effective 12/20/91; 91-07-049 (Order 116B), recodified as § 246-841-400, filed 3/18/91, effective 4/18/91. Statutory Authority: RCW 18.88.080. 90-20-018 (Order 091), § 308-173-210, filed 9/21/90, effective 10/22/90.]

WAC 246-841-405 Nursing assistant delegation. Provision for delegation of certain tasks.

(1) Nursing assistants may perform the following tasks, when delegated by a registered nurse, for residents in certified community residential programs for the developmentally disabled, residents in licensed adult family homes, and to residents of licensed boarding homes contracting to provide assisted living services:

(a) Oral and topical medications and ointments;

(b) Nose, ear, eye drops, and ointments;

(c) Dressing changes and urinary catheterization using clean techniques;

(d) Suppositories, enemas, and ostomy care in established and healed condition;

(e) Blood glucose monitoring; and

(f) Gastrostomy feedings in established and healed condition.

(2) Any nursing assistant who receives authority to perform such delegated nursing task must, before performing any delegated task:

(a) For nursing assistants-registered, complete both the basic caregiver training and core delegation training as established by the department of social and health services.

(b) For nursing assistants-certified, complete the core delegation training as established by the department of social and health services.

(c) Comply with requirements and protocol established by the nursing care quality assurance commission in WAC 246-840-910 through 246-840-980.

(3) Any nursing assistant performing a delegated nursing care task pursuant to this section, shall perform the task:

(a) Only for the specific resident who was the subject of the delegation;

(b) Only with the resident's consent; and

(c) In compliance with all requirements and protocols established by the nursing care quality assurance commission in WAC 246-840-910 through 246-840-980.

(4) A nursing assistant may consent or refuse to consent to perform a delegated nursing care task listed in subsection (1) of this section, and shall be responsible for their own actions with regard to the decision to consent or refuse to consent and the performance of the delegated nursing care task.

[Statutory Authority: Chapter 18.88A RCW. 96-06-029, § 246-841-405, filed 2/28/96, effective 3/30/96.]

WAC 246-841-410 Purpose of review and approval of certified nursing assistant training programs. The board of nursing approves curriculum in nursing assistant education programs qualifying for admission to examination for certification for the following purposes:

(1) To assure preparation for safe practice as a nursing assistant by setting minimum standards for education programs.

(2) To provide guidance for the development of new training programs.

(3) To facilitate the career mobility of nursing assistants-certified in articulating into nursing educational programs in other levels of nursing.

(4) To identify training standards and achieved competencies of nursing assistants-certified in the state of Washington for the purpose of interstate communications and endorsements.

[Statutory Authority: RCW 18.88A.060. 91-23-077 (Order 214B), § 246-841-410, filed 11/19/91, effective 12/20/91; 91-07-049 (Order 116B), recodified as § 246-841-410, filed 3/18/91, effective 4/18/91. Statutory Authority: RCW 18.88.080. 90-20-018 (Order 091), § 308-173-220, filed 9/21/90, effective 10/22/90.]

WAC 246-841-420 Requirements for nursing assistant education and training program approval. Those institutions or facilities seeking approval to offer a program of training which qualifies graduates to apply for certification, in addition to other agency program approval requirements, must:

(1) Request an application/guidelines packet from department of health, professional licensing. The packet will include forms and instructions for the program to submit:

(a) Program objectives.

(b) Curriculum content outline.

(c) Qualifications of program director and additional instructional staff.

(d) Agency agreements as appropriate.

(e) A sample lesson plan for one unit.

(f) A sample skills checklist.

(g) Description of physical resources.

(h) Statement of assurance of compliance with administrative guidelines.

(2) If a program currently in existence as an approved program on the date of implementation of this code, submit the completed application, including all forms, fees, and assurances as specified, within sixty days of the effective date of the code for review for reapproval of the program.

(3) If a program not currently holding approval status, submit the completed application packet and fees as instructed, with all forms and assurances as specified, sixty days prior to the anticipated start date of the first class offered by the institution.

(4) Agree to on-site survey of the training program, as requested by the board, on a date mutually agreed upon by the institution and the board. This on-site visit will be coordinated with other on-site review requirements when possible.

(5) Provide review and update of program information every year, or as requested by the board or educational agency.

(6) Comply with any future changes in education standards and guidelines in order to maintain approved status.

(7) Notify the board and education agency of any changes in overall curriculum plan or major curriculum content changes prior to implementation.

(8) Notify the board and education agency of changes in program director or instructors.

[Statutory Authority: RCW 18.88A.060. 91-07-049 (Order 116B), recodified as § 246-841-420, filed 3/18/91, effective 4/18/91. Statutory Authority: RCW 18.88.080. 90-20-018 (Order 091), § 308-173-230, filed 9/21/90, effective 10/22/90.]

WAC 246-841-430 Denial of approval or withdrawal of approval for programs for which the board is the approving authority. (1) The board may deny approval to new programs when it determines that a nursing assistant training program fails substantially to meet the standards for training as contained in WAC 246-841-470 through 246-841-510. All such board actions shall be in accordance with the Washington Administrative Procedure Act and/or the administrative rules and regulations of the board.

(2) The board may withdraw approval from existing programs when it determines that a nursing education program fails substantially to meet the standards for nursing assistant training as contained in WAC 246-841-470 through 246-841-510. All such actions shall be effected in accordance with the Administrative Procedure Act and/or the administrative rules and regulations of the board.

[Statutory Authority: RCW 18.88A.060. 91-23-077 (Order 214B), § 246-841-430, filed 11/19/91, effective 12/20/91; 91-07-049 (Order 116B), recodified as § 246-841-430, filed 3/18/91, effective 4/18/91. Statutory Authority: RCW 18.88.080. 90-20-018 (Order 091), § 308-173-240, filed 9/21/90, effective 10/22/90.]

WAC 246-841-440 Reinstatement of approval. The board may consider reinstatement of withdrawn approval of a nursing assistant training program upon submission of satisfactory evidence that the program meets the standards of nursing assistant training, WAC 246-841-470 through 246-841-510.

[Statutory Authority: RCW 18.88A.060. 91-23-077 (Order 214B), § 246-841-440, filed 11/19/91, effective 12/20/91; 91-07-049 (Order 116B), recodified as § 246-841-440, filed 3/18/91, effective 4/18/91. Statutory Authority: RCW 18.88.080. 90-20-018 (Order 091), § 308-173-245, filed 9/21/90, effective 10/22/90.]

WAC 246-841-450 Appeal of board decisions. A nursing assistant training program deeming itself aggrieved by a decision of the board affecting its approval status shall have the right to appeal the board's decision in accordance with the provisions of chapter 18.88 RCW and the Administrative Procedure Act, chapter 34.05 RCW.

[Statutory Authority: RCW 18.88A.060. 91-07-049 (Order 116B), recodified as § 246-841-450, filed 3/18/91, effective 4/18/91. Statutory Authority: RCW 18.88.080. 90-20-018 (Order 091), § 308-173-250, filed 9/21/90, effective 10/22/90.]

WAC 246-841-460 Closing of an approved nursing assistant training program. When a governing institution decides to close a program it shall notify the board in writing, stating the reason and the date of intended closing.

[Statutory Authority: RCW 18.88A.060. 91-07-049 (Order 116B), recodified as § 246-841-460, filed 3/18/91, effective 4/18/91. Statutory Authority: RCW 18.88.080. 90-20-018 (Order 091), § 308-173-255, filed 9/21/90, effective 10/22/90.]

WAC 246-841-470 Program directors and instructors in approved training programs. (1) The program director will be a registered nurse licensed in the state of Washington.

(2) The program director will meet the minimum qualifications for instructors as required by the superintendent of public instruction in chapter 180-77 WAC or the state board for community college education in chapter 131-16 WAC.

(3) The program director will complete a "train-the-trainer" program approved by the state or have demonstrated competence to teach adults as defined by the state.

(4) The program director will have a minimum of three years of experience as an RN, of which at least one year will be in direct patient care.

(5) Program director responsibilities:

(a) Develop and implement a curriculum which meets as a minimum the requirements of WAC 246-841-490.

(b) Assure compliance with and assume responsibility for all regulations as stipulated in WAC 246-841-480 through 246-841-510.

(c) Directly supervise each course offering.

(d) Create and maintain an environment conducive to teaching and learning.

(e) Select and supervise all other instructors involved in the course, to include clinical instructors.

(f) Assure that students are not asked to, nor allowed to, perform any clinical skill with patients or clients until first demonstrating the skill satisfactorily to an instructor in a practice setting.

(g) Assure evaluation of competency of knowledge and skills of students before issuance of verification of completion of the course.

(h) Assure that students receive a verification of completion when requirements of the course have been satisfactorily met.

(6) Additional instructional staff:

(a) The program director may select instructional staff to assist in the teaching of the course, teaching in their area of expertise.

(b) All instructional staff must have a minimum of one year experience within the past three years in caring for the elderly and/or chronically ill of any age.

A guest lecturer, or individual with expertise in a specific course unit may be utilized for the teaching of that unit, following the program director's review of the currency of the content.

(c) All instructional staff must be, where applicable, currently licensed, registered, and/or certified in their field in the state of Washington.

(d) Instructional staff may assist the program director in development of curriculum, teaching modalities, and evaluation but will in all cases be under the supervision of the program director.

[Statutory Authority: RCW 18.88A.060. 91-23-077 (Order 214B), § 246-841-470, filed 11/19/91, effective 12/20/91; 91-07-049 (Order 116B), recodified as § 246-841-470, filed 3/18/91, effective 4/18/91. Statutory Authority: RCW 18.88.080. 90-20-018 (Order 091), § 308-173-260, filed 9/21/90, effective 10/22/90.]

WAC 246-841-480 Students (trainees) in approved training programs. (1) Students shall register with the department within three days of hire at a health care facility.

(2) Students shall wear name tags which clearly identify them as students or trainees at all times in interactions with patients, clients, and families.

[Statutory Authority: RCW 18.88A.060. 91-07-049 (Order 116B), recodified as § 246-841-480, filed 3/18/91, effective 4/18/91. Statutory Authority: RCW 18.88.080. 90-20-018 (Order 091), § 308-173-265, filed 9/21/90, effective 10/22/90.]

WAC 246-841-490 Core curriculum in approved training programs. (1) Curriculum will be competency based; that is composed of learning objectives and activities that will lead to the attainment of knowledge and skills required for the graduate to demonstrate mastery of the core competencies CNAs must hold, as per WAC 246-841-400.

(2) The program director will determine the amount of time required in the curriculum to achieve the objectives as above. The time designated will be expected to vary with characteristics of the learners and teaching/learning variables. In no case will the hours be less than eighty-five hours total, comprised of no less than thirty-five hours of classroom training and no less than fifty hours of clinical training.

(a) Of the thirty-five hours of classroom training, no less than seven hours must be in AIDS education and training, in the subject areas of: Epidemiology, pathophysiology, infection control guidelines, testing and counseling, legal and ethical issues, medical records, clinical manifestations and diagnosis, treatment and disease management, and psychosocial and special group issues.

(b) Training to orient the student to the health care facility and facility policies and procedures are not to be included in the minimum hours above.

(3) Each unit of the core curriculum will have:

(a) Behavioral objectives, that is statements of specific observable actions and behaviors that the learner is to perform or exhibit.

(b) An outline of information the learner will need to know in order to meet the objectives.

(c) Learning activities (that is, lecture, discussion, readings, film, clinical practice, etc.) that are designed to enable the student to achieve the stated objectives.

(4) Clinical teaching in a given competency area will be closely correlated with classroom teaching, to facilitate the integration of knowledge with manual skills.

(a) An identified instructor(s) will supervise clinical teaching/learning at all times. At no time will the ratio of students to instructor exceed ten students to one instructor in the clinical setting.

(5) The curriculum will include evaluation processes to assure mastery of competencies. Written and oral tests and clinical practical demonstrations are common methods. Students will not be asked to, nor allowed to, perform any clinical skill on patients or clients until first demonstrating the skill satisfactorily to an instructor in the practice setting.

[Statutory Authority: RCW 18.88A.060. 91-23-077 (Order 214B), § 246-841-490, filed 11/19/91, effective 12/20/91; 91-07-049 (Order 116B), recodified as § 246-841-490, filed 3/18/91, effective 4/18/91. Statutory Authority: RCW 18.88.080. 90-20-018 (Order 091), § 308-173-270, filed 9/21/90, effective 10/22/90.]

WAC 246-841-500 Physical resources for approved education programs. (1) Classroom facilities must provide

adequate space, lighting, comfort, and privacy for effective teaching and learning.

(2) Adequate classroom resources, such as chalkboard, AV materials, written materials, etc., with which to accomplish program objectives must be available.

(3) Adequate resources must also be provided for teaching and practice of clinical skills and procedures, before implementation of such skills with patients or residents.

[Statutory Authority: RCW 18.88A.060. 91-07-049 (Order 116B), recodified as § 246-841-500, filed 3/18/91, effective 4/18/91. Statutory Authority: RCW 18.88.080. 90-20-018 (Order 091), § 308-173-275, filed 9/21/90, effective 10/22/90.]

WAC 246-841-510 Administrative procedures for approved nursing assistant training programs. (1) A student file will be established and maintained for each student enrolled which includes dates attended, evaluation (test) results, a skills evaluation checklist with dates of skills testing and signature of evaluator, and documentation of successful completion of the course, or other outcome.

Each student file will be maintained by the institution for a period of thirty-five years, and copies of documents made available to students who request them.

(2) Verification of successful completion of the course of training will be provided to the board of nursing on forms provided by the board.

(3) For those programs based in a health care facility: Training evaluation and verification of successful completion of the course, including mastery of the required knowledge and skills, will be determined by the program director separately from other employee/employer issues. Verification of completion will not be withheld from a student who has successfully met the requirements of the course.

(4) Programs which are not sponsored by a health care facility, must submit with their application for approval an affiliation agreement between the educational institution and the health care facility which will provide the program access to the experience needed for clinical teaching. This agreement must specify the rights and responsibilities of both parties, students and clients.

(5) Failure to adhere to administrative requirements for programs may result in withdrawal of approval status by the board.

[Statutory Authority: RCW 18.88A.060. 91-07-049 (Order 116B), recodified as § 246-841-510, filed 3/18/91, effective 4/18/91. Statutory Authority: RCW 18.88.080. 90-20-018 (Order 091), § 308-173-280, filed 9/21/90, effective 10/22/90.]

WAC 246-841-520 Expired license. (1) If the certificate has expired for three years or less, the practitioner must meet the requirements of chapter 246-12 WAC, Part 2.

(2) If the certificate has expired for over three years the practitioner must:

(a) Demonstrate competence to the standards established by the nursing care quality assurance commission;

(b) Meet the requirements of chapter 246-12 WAC, Part 2.

[Statutory Authority: RCW 43.70.280. 98-05-060, § 246-841-520, filed 2/13/98, effective 3/16/98.]

WAC 246-841-610 AIDS prevention and information education requirements. Applicants must complete seven clock hours of AIDS education as required in chapter 246-12 WAC, Part 8.

[Statutory Authority: RCW 43.70.280. 98-05-060, § 246-841-610, filed 2/13/98, effective 3/16/98. Statutory Authority: RCW 18.88A.050, 18.130.050, 18.130.080 and 70.24.270. 92-02-018 (Order 224), § 246-841-610, filed 12/23/91, effective 1/23/92. Statutory Authority: RCW 43.70.040. 91-02-049 (Order 121), recodified as § 246-841-610, filed 12/27/90, effective 1/31/91. Statutory Authority: RCW 70.24.270. 88-22-077 (Order PM 786), § 308-173-100, filed 11/2/88.]

DISCIPLINARY PROCEDURES

WAC 246-841-720 Mandatory reporting. (1) All reports required by this chapter shall be submitted to the department as soon as possible, but no later than twenty days after a determination is made.

(2) A report should contain the following information if known:

(a) The name, address, and telephone number of the person making the report.

(b) The name and address and telephone numbers of the nursing assistant being reported.

(c) The case number of any patient whose treatment is a subject of the report.

(d) A brief description or summary of the facts which gave rise to the issuance of the report, including dates of occurrences.

(e) If court action is involved, the name of the court in which the action is filed along with the date of filing and docket number.

(f) Any further information which would aid in the evaluation of the report.

(3) Mandatory reports shall be exempt from public inspection and copying to the extent permitted under RCW 42.17.310 or to the extent that public inspection or copying of the report or any portion of the report would invade or violate a person's right to privacy as set forth in RCW 42.17.255.

(4) A person is immune from civil liability, whether direct or derivative, for providing information to the department pursuant to RCW 18.130.070.

(5) The administrator, executive officer, or their designee of any nursing home shall report to the department of health when any nursing assistant under chapter 18.130 RCW is terminated or such person's services are restricted based on a determination that the nursing assistant has committed an act or acts which may constitute unprofessional conduct as defined in RCW 18.130.180 or that the nursing assistant may be mentally or physically impaired as defined in RCW 18.130.170.

(6) The administrator, executive officer, or their designee of any nursing home shall report to the department of health when any person practices, or offers to practice as a nursing assistant in the state of Washington when the person is not registered or certified in the state; or when a person uses any title, abbreviation, card, or device to indicate the person is registered or certified when the person is not.

(7) The department of health requests the assistance of responsible personnel of any state or federal program operating in the state of Washington, under which a nursing assis-

tant is employed, to report to the department whenever such a nursing assistant is not registered or certified pursuant to this act or when such a nursing assistant has committed an act or acts which may constitute unprofessional conduct as defined in RCW 18.130.180 or may be mentally or physically impaired as defined in RCW 18.130.170.

[Statutory Authority: RCW 18.88A.050, 18.130.050 and 18.130.080. 92-02-018 (Order 224), § 246-841-720, filed 12/23/91, effective 1/23/92. Statutory Authority: RCW 43.70.040. 91-02-049 (Order 121), recodified as § 246-841-720, filed 12/27/90, effective 1/31/91. Statutory Authority: RCW 18.130.070. 89-14-092 (Order PM 842), § 308-173-020, filed 6/30/89.]

FEES

WAC 246-841-990 Nursing assistant—Fees and renewal cycle. (1) Certificates and registrations must be renewed every year on the practitioner's birthday as provided in chapter 246-12 WAC, Part 2.

(2) The following nonrefundable fees will be charged for registrations:

Title of Fee	Fee
Application - registration	$ 15.00
Renewal of registration	25.00
Duplicate registration	10.00
Registration late penalty	25.00
Expired registration reissuance	25.00

(3) The following nonrefundable fees will be charged for certifications:

Application for certification	15.00
Certification renewal	25.00
Duplicate certification	10.00
Certification late penalty	25.00
Expired registration reissuance	25.00

[Statutory Authority: RCW 18.88A.050(1). 99-24-062, § 246-841-990, filed 11/29/99, effective 12/30/99. Statutory Authority: RCW 43.70.280. 98-05-060, § 246-841-990, filed 2/13/98, effective 3/16/98. Statutory Authority: Chapter 18.88A RCW. 96-03-051, § 246-841-990, filed 1/12/96, effective 3/1/96. Statutory Authority: RCW 43.70.040. 91-02-049 (Order 121), recodified as § 246-841-990, filed 12/27/90, effective 1/31/91. Statutory Authority: RCW 43.70.250. 90-04-094 (Order 029), § 308-173-130, filed 2/7/90, effective 3/10/90. Statutory Authority: RCW 43.24.086. 88-20-075 (Order 783), § 308-173-130, filed 10/5/88.]

Chapter 246-842 WAC

NURSING ASSISTANTS—NURSING HOMES—NURSING ASSISTANTS TRAINING PROGRAM

WAC

WAC 246-842-100 Standards of practice and competencies of nursing assistants. The following standards are supported by statements of the competencies that a nursing assistant must hold to meet the standard to be certified to practice in the state of Washington. The competencies are statements of skills and knowledge, and are written as descriptions of behaviors which can be observed and measured. All competencies are performed under the direction and supervision of a licensed (registered) nurse or licensed practical nurse. The level or depth of accomplishment of any given competency is as appropriate to the "assisting" role of basic nursing care under supervision of the licensed nurse.

(1) Basic technical skills. The nursing assistant demonstrates basic technical skills which facilitates an optimal level of functioning for the client, recognizing individual, cultural, and religious diversity. Competencies:

(a) Demonstrates proficiency in cardiopulmonary resuscitation (CPR).

(b) Takes and records vital signs.

(c) Measures and records height and weight.

(d) Measures and records fluid and food intake and output of client.

(e) Recognizes and reports abnormal signs and symptoms of common diseases and conditions.

(f) Demonstrates sensitivity to client's emotional, social, and mental health needs.

(g) Makes observations of client's environment to ensure safety and comfort of client.

(h) Participates in care planning and nursing reporting process.

(2) Personal care skills. The nursing assistant demonstrates basic personal care skills. Competencies:

(a) Assists client with bathing, mouth care, and skin care.

(b) Assists client with grooming and dressing.

(c) Provides toileting assistance to client.

(d) Assists client with eating and hydration.

(e) Utilizes proper feeding techniques.

(3) Mental health and social service needs. The nursing assistant demonstrates the ability to identify the psychosocial characteristics of all clients including persons with mental retardation, mental illness, dementia, Alzheimer's disease, and related disorders. Competencies:

(a) Modifies his/her own behavior in response to the client's behavior.

(b) Identifies adaptations necessary to accommodate the aging process.

(c) Provides training in, and the opportunity for, self care according to clients' capabilities.

(d) Demonstrates skills supporting client's personal choices.

(e) Identifies ways to use the client's family as a source of emotional support for the patient.

(4) Basic restorative services. The nursing assistant incorporates principles and skills of restorative nursing in providing nursing care. Competencies:

(a) Demonstrates knowledge and skill in using assistive devices in ambulation, eating, and dressing.

(b) Demonstrates knowledge and skill in the maintenance of range of motion.

(c) Demonstrates proper techniques for turning/positioning client in bed and chair.

(d) Demonstrates proper techniques for transferring client.

(e) Demonstrates knowledge about methods for meeting the elimination needs of clients.

(f) Demonstrates knowledge and skill for the care and use of prosthetic devices.

(5) Clients' rights and promotion of clients' independence. The nursing assistant demonstrates behavior which maintains and respects clients' rights and promotes clients' independence, regardless of race, religion, life-style, sexual preference, disease process, or ability to pay. Competencies:

(a) Recognizes that the client has the right to participate in decisions about his/her care.

(b) Recognizes and respects the clients' need for privacy and maintenance of confidentiality.

(c) Promotes and respects the client's right to make personal choices to accommodate their needs.

(d) Reports client's concerns.

(e) Provides assistance in getting to and participating in activities.

(f) Provides care of client's personal possessions.

(g) Provides care which maintains the client free from abuse, mistreatment or neglect; and reports any instances to appropriate facility staff.

(h) Maintains the client's environment and care through appropriate nursing assistant behavior so as to minimize the need for physical and chemical restraints.

(6) Communication and interpersonal skills. The nursing assistant uses communication skills effectively in order to function as a member of the nursing team. Competencies:

(a) Reads, writes, speaks, and understands English at the level necessary for performing duties of the nursing assistant.

(b) Listens and responds to verbal and nonverbal communication in an appropriate manner.

(c) Recognizes how one's own behavior influences client's behavior and know resources for obtaining assistance in understanding client's behavior.

(d) Makes adjustments for client's physical or mental limitations.

(e) Uses terminology accepted in the nursing facility to record and report observations and pertinent information.

(f) Records and reports observations, actions, and information accurately and timely.

(g) Demonstrates ability to explain policies and procedures before and during care of the client.

(7) Infection control. The nursing assistant uses procedures and techniques to prevent the spread of microorganisms. Competencies:

(a) Uses principles of medical asepsis and demonstrates infection control techniques and universal precautions.

(b) Explains how disease causing microorganisms are spread; lists ways that HIV and Hepatitis B can spread from one person to another.

(c) Demonstrates knowledge of cleaning agents and methods which destroy microorganisms on surfaces.

(8) Safety/emergency procedures. The nursing assistant demonstrates the ability to identify and implement safety/emergency procedures. Competencies:

(a) Provides adequate ventilation, warmth, light, and quiet measures.

(b) Uses measures that promote comfort, rest, and sleep.

(c) Promotes clean, orderly, and safe environment and equipment for the client.

(d) Identifies and utilizes measures for accident prevention.

(e) Identifies and demonstrates principles of body mechanics.

(f) Demonstrates proper use of protective devices in care of clients.

(g) Demonstrates knowledge of fire and disaster procedures.

(h) Identifies and demonstrates principles of health and sanitation in the service of food.

(i) Demonstrates the proper use and storage of cleaning agents and other potentially hazardous materials.

(9) Rules and regulations knowledge. The nursing assistant demonstrates knowledge of and is responsive to the laws and regulations which affect his/her practice including but not limited to: Client abuse and neglect, client complaint procedures, workers right to know, and the Uniform Disciplinary Act.

[Statutory Authority: Chapter 18.52A RCW. 91-23-077 (Order 214B), § 246-842-100, filed 11/19/91, effective 12/20/91. Statutory Authority: RCW 18.88A.060. 91-07-049 (Order 116B), recodified as § 246-842-100, filed 3/18/91, effective 4/18/91. Statutory Authority: RCW 18.88.080. 90-17-042 (Order 079), § 308-121-110, filed 8/10/90, effective 9/10/90.]

WAC 246-842-110 Purpose of review and approval of nursing assistant training programs. The board of nursing approves nursing assistant education programs in health care facilities qualifying graduates for admission to the federally mandated examination for the following purposes:

(1) To assure preparation for safe practice as a nursing assistant by setting minimum standards for education programs.

(2) To provide guidance for the development of new training programs.

(3) To comply with federal and state laws and regulations affecting nursing assistant practice in nursing homes.

(4) To identify training standards and achieved competencies of nursing assistants in nursing homes in the state of Washington for the purpose of interstate communications and endorsements.

[Statutory Authority: RCW 18.88A.060. 91-07-049 (Order 116B), recodified as § 246-842-110, filed 3/18/91, effective 4/18/91. Statutory Authority: RCW 18.88.080. 90-17-042 (Order 079), § 308-121-120, filed 8/10/90, effective 9/10/90.]

WAC 246-842-120 Requirements for nursing assistant training program approval. Those institutions or facilities seeking approval to offer a program of training for nursing assistants in nursing homes which qualifies graduates for the certification examination shall:

(1) Request an application/guidelines packet from department of health, professional licensing. The packet will include forms and instructions for the program to submit:

(a) Program objectives.

(b) Program content outline.

(c) Qualifications of program director and additional instructional staff.

(d) Agency agreements as appropriate.

(e) A sample lesson plan for one unit.

(f) A sample skills checklist.

(g) Description of physical resources.

(h) Statement of assurance of compliance with administrative guidelines.

(2) If a program currently in existence as an approved program on the date of implementation of this regulation, submit the completed application, including all forms, fees, and assurances as specified, within sixty days of the effective date of the regulation for review for reapproval of the program.

(3) If a program not currently holding approval status, submit the completed application packet and fees as instructed, with all forms and assurances as specified, sixty days prior to the anticipated start date of the first class offered by the institution.

(4) Agree to on-site survey of the training program, as requested by the board, on a date mutually agreed upon by the institution and the board.

(5) Provide review and update of program information every year, or as requested by the board.

(6) Comply with any future changes in training standards and guidelines in order to maintain approved status.

(7) Notify the board of any changes in overall curriculum plan or major curriculum content changes prior to implementation.

(8) Notify the board of changes in program director or instructors.

[Statutory Authority: RCW 18.88A.060. 91-07-049 (Order 116B), recodified as § 246-842-120, filed 3/18/91, effective 4/18/91. Statutory Authority: RCW 18.88.080. 90-17-042 (Order 079), § 308-121-130, filed 8/10/90, effective 9/10/90.]

WAC 246-842-130 Denial of approval or withdrawal of approval for programs for which the board is the approving authority. (1) The board may deny approval to new programs when it determines that a nursing assistant training program fails substantially to meet the standards for training as contained in WAC 246-842-170 through 246-842-210. All such board actions shall be in accordance with the Washington Administrative Procedure Act and/or the administrative rules and regulations of the board.

(2) The board may withdraw approval from existing programs when it determines that a nursing education program fails substantially to meet the standards for nursing assistant training as contained in WAC 246-842-170 through 246-842-210. All such actions shall be effected in accordance with the Administrative Procedure Act and/or the administrative rules and regulations of the board.

[Statutory Authority: Chapter 18.52A RCW. 91-23-077 (Order 214B), § 246-842-130, filed 11/19/91, effective 12/20/91. Statutory Authority: RCW 18.88A.060. 91-07-049 (Order 116B), recodified as § 246-842-130, filed 3/18/91, effective 4/18/91. Statutory Authority: RCW 18.88.080. 90-17-042 (Order 079), § 308-121-140, filed 8/10/90, effective 9/10/90.]

WAC 246-842-140 Reinstatement of approval. The board may consider reinstatement of withdrawn approval of a nursing assistant training program upon submission of satisfactory evidence that the program meets the standards of nursing assistant training, WAC 246-842-170 through 246-842-210.

[Statutory Authority: Chapter 18.52A RCW. 91-23-077 (Order 214B), § 246-842-140, filed 11/19/91, effective 12/20/91. Statutory Authority: RCW 18.88A.060. 91-07-049 (Order 116B), recodified as § 246-842-140, filed 3/18/91, effective 4/18/91. Statutory Authority: RCW 18.88.080. 90-17-042 (Order 079), § 308-121-145, filed 8/10/90, effective 9/10/90.]

WAC 246-842-150 Appeal of board decisions. A nursing assistant training program deeming itself aggrieved by a decision of the board affecting its approval status shall have the right to appeal the board's decision in accordance with the provisions of chapter 18.88 RCW and the Administrative Procedure Act, chapter 34.05 RCW.

[Statutory Authority: RCW 18.88A.060. 91-07-049 (Order 116B), recodified as § 246-842-150, filed 3/18/91, effective 4/18/91. Statutory Authority: RCW 18.88.080. 90-17-042 (Order 079), § 308-121-150, filed 8/10/90, effective 9/10/90.]

WAC 246-842-160 Closing of an approved nursing assistant training program. When a facility decides to close a program it shall notify the board in writing, stating the reason and the date of intended closing.

[Statutory Authority: RCW 18.88A.060. 91-07-049 (Order 116B), recodified as § 246-842-160, filed 3/18/91, effective 4/18/91. Statutory Authority: RCW 18.88.080. 90-17-042 (Order 079), § 308-121-155, filed 8/10/90, effective 9/10/90.]

WAC 246-842-170 Program directors and instructors in approved training programs. (1) The program director will be a registered nurse licensed in the state of Washington.

(2) The program director will complete a "train-the-trainer" program approved by the state or have demonstrated competence to teach adults as defined by the state.

(3) The program director will have a minimum of three years of experience as an RN, of which at least one year will be in direct patient care.

(4) Program director responsibilities:

(a) Develop and implement a curriculum which meets as a minimum the requirements of WAC 246-842-190.

(b) Assure compliance with and assume responsibility for all regulations as stipulated in WAC 246-842-180 through 246-842-210.

(c) Directly supervise each course offering.

(d) Create and maintain an environment conducive to teaching and learning.

(e) Select and supervise all other instructors involved in the course, to include clinical instructors.

(f) Assure that students are not asked to, nor allowed to, perform any clinical skill with patients or clients until first demonstrating the skill satisfactorily to an instructor in a practice setting.

(g) Assure evaluation of competency of knowledge and skills of students before issuance of verification of completion of the course.

(h) Assure that students receive a verification of completion when requirements of the course have been satisfactorily met.

(5) Additional instructional staff:

(a) The program director may select instructional staff to assist in the teaching of the course, teaching in their area of expertise.

(b) All instructional staff must have a minimum of one year experience within the past three years in caring for the elderly and/or chronically ill of any age.

(c) A guest lecturer, or individual with expertise in a specific course unit may be utilized for the teaching of that unit, following the program director's review of the currency of the content.

(d) All instructional staff must be, where applicable, currently licensed, registered, and/or certified in their field in the state of Washington.

(e) Instructional staff may assist the program director in development of curriculum, teaching modalities, and evaluation but will in all cases be under the supervision of the program director.

[Statutory Authority: Chapter 18.52A RCW. 91-23-077 (Order 214B), § 246-842-170, filed 11/19/91, effective 12/20/91. Statutory Authority: RCW 18.88A.060. 91-07-049 (Order 116B), recodified as § 246-842-170, filed 3/18/91, effective 4/18/91. Statutory Authority: RCW 18.88.080. 90-17-042 (Order 079), § 308-121-160, filed 8/10/90, effective 9/10/90.]

WAC 246-842-180 Students (trainees) in approved training programs. (1) Students shall register with the department within three days of hire at a health care facility.

(2) Students shall wear name tags which clearly identify them as students or trainees at all times in interactions with patients, clients, and families.

[Statutory Authority: RCW 18.88A.060. 91-07-049 (Order 116B), recodified as § 246-842-180, filed 3/18/91, effective 4/18/91. Statutory Authority: RCW 18.88.080. 90-17-042 (Order 079), § 308-121-165, filed 8/10/90, effective 9/10/90.]

WAC 246-842-190 Core curriculum in approved training programs. (1) Curriculum will be competency based; that is composed of learning objectives and activities that will lead to the attainment of knowledge and skills required for the graduate to demonstrate mastery of the core competencies nursing assistants-certified must hold, as per WAC 246-842-100.

(2) The program director will determine the amount of time required in the curriculum to achieve the objectives as above. The time designated will be expected to vary with characteristics of the learners and teaching/learning variables. In no case will the hours be less than eighty-five hours total, comprised of thirty-five hours of classroom training and fifty hours of clinical training.

(a) Of the thirty-five hours of classroom training, no less than seven hours must be in AIDS education and training, in the subject areas of: Epidemiology, pathophysiology, infection control guidelines, testing and counseling, legal and ethical issues, medical records, clinical manifestations and diagnosis, treatment and disease management, and psychosocial and special group issues.

(b) Training to orient the student to the health care facility and facility policies and procedures are not to be included in the minimum hours above.

(3) Each unit of the core curriculum will have:

(a) Behavioral objectives, that is statements of specific observable actions and behaviors that the learner is to perform or exhibit.

(b) An outline of information the learner will need to know in order to meet the objectives.

(c) Learning activities (that is, lecture, discussion, readings, film, clinical practice, etc.,) that are designed to enable the student to achieve the stated objectives.

(4) Clinical teaching in a given competency area will be closely correlated with classroom teaching, to facilitate the integration of knowledge with manual skills.

An identified instructor(s) will supervise clinical teaching/learning at all times. At no time will the ratio of students to instructor exceed ten students to one instructor in the clinical setting.

(5) The curriculum will include evaluation processes to assure mastery of competencies. Written and oral tests and clinical practical demonstrations are common methods. Students will not be asked to, nor allowed to, perform any clinical skill on patients or clients until first demonstrating the skill satisfactorily to an instructor in the practice setting.

[Statutory Authority: Chapter 18.52A RCW. 91-23-077 (Order 214B), § 246-842-190, filed 11/19/91, effective 12/20/91. Statutory Authority: RCW 18.88A.060. 91-07-049 (Order 116B), recodified as § 246-842-190, filed 3/18/91, effective 4/18/91. Statutory Authority: RCW 18.88.080. 90-17-042 (Order 079), § 308-121-170, filed 8/10/90, effective 9/10/90.]

WAC 246-842-200 Physical resources for approved education programs. (1) Classroom facilities must provide adequate space, lighting, comfort, and privacy for effective teaching and learning.

(2) Adequate classroom resources, such as chalkboard, AV materials, written materials, etc., with which to accomplish program objectives must be available.

(3) Adequate resources must also be provided for teaching and practice of clinical skills and procedures, before implementation of such skills with patients or residents.

[Statutory Authority: RCW 18.88A.060. 91-07-049 (Order 116B), recodified as § 246-842-200, filed 3/18/91, effective 4/18/91. Statutory Authority: RCW 18.88.080. 90-17-042 (Order 079), § 308-121-175, filed 8/10/90, effective 9/10/90.]

WAC 246-842-210 Administrative procedures for approved nursing assistant training programs. (1) A student file will be established and maintained for each student enrolled which includes dates attended, evaluation (test) results, a skills evaluation checklist with dates of skills testing and signature of evaluator, and documentation of successful completion of the course, or other outcome.

Each student file will be maintained by the institution for a period of thirty-five years, and copies of documents made available to students who request them.

(2) Verification of successful completion of the course of training will be provided to the board of nursing on forms provided by the board.

(3) Training evaluation and verification of successful completion of the course, including mastery of the required

knowledge and skills, will be determined by the program director separately from other employee/employer issues. Verification of completion will not be withheld from a student who has successfully met the requirements of the course.

(4) Failure to adhere to administrative requirements for programs may result in withdrawal of approval status by the board.

[Statutory Authority: RCW 18.88A.060. 91-07-049 (Order 116B), recodified as § 246-842-210, filed 3/18/91, effective 4/18/91. Statutory Authority: RCW 18.88.080. 90-17-042 (Order 079), § 308-121-180, filed 8/10/90, effective 9/10/90.]

Chapter 246-843 WAC
NURSING HOME ADMINISTRATORS

WAC

DISPOSITION OF SECTIONS FORMERLY CODIFIED IN THIS CHAPTER

246-843-001 Source of authority—Title. [Statutory Authority: RCW 18.52.061. 93-13-004 (Order 371B), § 246-843-001, filed 6/3/93, effective 7/4/93. Statutory Authority: RCW 18.52.100. 91-24-050 (Order 217B), § 246-843-001, filed 11/27/91, effective 12/28/91; 91-06-060 (Order 141B), recodified as § 246-843-001, filed 3/1/91, effective 4/1/91. Statutory Authority: RCW 18.52.100(14). 78-02-009 (Order PL 282), § 308-54-010, filed 1/6/78; Order PL 107, § 308-54-010, filed 3/3/71.] Repealed by 00-01-073, filed 12/13/99, effective 1/13/00. Statutory Authority: Chapters 18.52 and 34.05 RCW.

246-843-015 Nursing homes temporarily without an administrator. [Statutory Authority: Chapters 18.52 and 34.05 RCW. 00-01-071, § 246-843-015, filed 12/13/99, effective 1/13/00.] Repealed by 02-17-055, filed 8/15/02, effective 9/15/02. Statutory Authority: RCW 18.52.061. Later promulgation, see WAC 388-97-160(4).

246-843-030 Board of examiners—Meetings. [Statutory Authority: RCW 18.52.100. 91-06-060 (Order 141B), recodified as § 246-843-030, filed 3/1/91, effective 4/1/91; Order PL 107, § 308-54-030, filed 3/3/71.] Repealed by 00-01-073, filed 12/13/99, effective 1/13/00. Statutory Authority: Chapters 18.52 and 34.05 RCW.

246-843-050 Board of examiners—Officers and duties. [Statutory Authority: RCW 18.52.100. 91-06-060 (Order 141B), recodified as § 246-843-050, filed 3/1/91, effective 4/1/91; Order PL 107, § 308-54-050, filed 3/3/71.] Repealed by 00-01-073, filed 12/13/99, effective 1/13/00. Statutory Authority: Chapters 18.52 and 34.05 RCW.

246-843-060 Program manager—Hiring and duties. [Statutory Authority: RCW 18.52.100. 91-24-050 (Order 217B), § 246-843-060, filed 11/27/91, effective 12/28/91; 91-06-060 (Order 141B), recodified as § 246-843-060, filed 3/1/91, effective 4/1/91. Statutory Authority: RCW 18.52.100(14). 87-02-008 (Order PM 633), § 308-54-060, filed 12/29/86; Order PL 126, § 308-54-060, filed 6/1/72; Order PL 107, § 308-54-060, filed 3/3/71.] Repealed by 99-03-069, filed 1/18/99, effective 2/18/99. Statutory Authority: RCW 18.52.061.

246-843-072 Examination candidate procedures. [Statutory Authority: Chapters 18.52, 34.05 RCW and RCW 18.130.075. 00-01-072, § 246-843-072, filed 12/13/99, effective 1/13/00.] Repealed by 01-03-114, filed 1/22/01, effective 2/22/01. Statutory Authority: RCW 18.52.061.

246-843-074 Examination review and appeal. [Statutory Authority: Chapters 18.52, 34.05 RCW and RCW 18.130.075. 00-01-072, § 246-843-074, filed 12/13/99, effective 1/13/00.] Repealed by 01-03-114, filed 1/22/01, effective 2/22/01. Statutory Authority: RCW 18.52.061.

246-843-080 Application for examination. [Statutory Authority: RCW 18.52.061. 93-23-034, § 246-843-080, filed 11/10/93, effective 12/11/93. Statutory Authority: RCW 18.52.100. 91-24-050 (Order 217B), § 246-843-080, filed 11/27/91, effective 12/28/91; 91-06-060 (Order 141B), recodified as § 246-843-080, filed 3/1/91, effective 4/1/91. Statutory Authority: RCW 18.52.100(14). 87-02-008 (Order PM 633), § 308-54-080, filed 12/29/86; Order PL 107, § 308-54-080, filed 3/3/71.] Repealed by 00-01-072, filed 12/13/99, effective 1/13/00. Statutory Authority: Chapters 18.52, 34.05 RCW and RCW 18.130.075.

246-843-100 Disqualification—Reexamination. [Statutory Authority: RCW 18.52.100. 91-24-050 (Order 217B), § 246-843-100, filed 11/27/91, effective 12/28/91; 91-06-060 (Order 141B), recodified as § 246-843-100, filed 3/1/91, effective 4/1/91. Statutory Authority: RCW 18.52.100(14). 87-02-008 (Order PM 633), § 308-54-100, filed 12/29/86; Order PL 215, § 308-54-100, filed 11/5/75; Order PL 107, § 308-54-100, filed 3/3/71.] Repealed by 00-01-072, filed 12/13/99, effective 1/13/00. Statutory Authority: Chapters 18.52, 34.05 RCW and RCW 18.130.075.

246-843-110 Subjects for examination. [Statutory Authority: RCW 18.52.100. 91-24-050 (Order 217B), § 246-843-110, filed 11/27/91, effective 12/28/91; 91-06-060 (Order 141B), recodified as § 246-843-110, filed 3/1/91, effective 4/1/91. Statutory Authority: RCW 18.52.100(14). 87-02-008 (Order PM 633), § 308-54-110, filed 12/29/86; Order PL 107, § 308-54-110, filed 3/3/71.] Repealed by 00-01-072, filed 12/13/99, effective 1/13/00. Statutory Authority: Chapter 18.52, 34.05 RCW and RCW 18.130.075.

246-843-115 Examination procedures. [Statutory Authority: RCW 18.52.100. 91-24-022 (Order 216B), § 246-843-115, filed 11/25/91, effective 12/26/91.] Repealed by 00-01-072, filed 12/13/99, effective 1/13/00. Statutory Authority: Chapters 18.52, 34.05 RCW and RCW 18.130.075.

246-843-120 Grading examinations. [Statutory Authority: RCW 18.52.100. 91-24-050 (Order 217B), § 246-843-120, filed 11/27/91, effective 12/28/91; 91-06-060 (Order 141B), recodified as § 246-843-120, filed 3/1/91, effective 4/1/91; 81-14-037 (Order PL 381), § 308-54-120, filed 6/29/81; Order PL 107, § 308-54-120, filed 3/3/71.] Repealed by 00-01-072, filed 12/13/99, effective 1/13/00. Statutory Authority: Chapters 18.52, 34.05 RCW and RCW 18.130.075.

246-843-122 Examination review procedures. [Statutory Authority: RCW 18.52.100. 91-24-022 (Order 216B), § 246-843-122, filed 11/25/91, effective 12/26/91.] Repealed by 00-01-072, filed 12/13/99, effective 1/13/00. Statutory Authority: Chapters 18.52, 34.05 RCW and RCW 18.130.075.

246-843-125 Continuing education credit for preceptors for administrators-in-training programs. [Statutory Authority: RCW 18.52.100. 91-24-050 (Order 217B), § 246-843-125, filed 11/27/91, effective 12/28/91; 91-06-060 (Order 141B), recodified as § 246-843-125, filed 3/1/91, effective 4/1/91. Statutory Authority: RCW 18.52.100(14) and 18.52.110. 80-01-057 (Order PL 328), § 308-54-125, filed 12/20/79.] Repealed by 00-01-074, filed 12/13/99, effective 1/13/00. Statutory Authority: Chapters 18.52 and 34.05 RCW.

246-843-155 Certification of compliance. [Statutory Authority: RCW 18.52.100. 91-06-060 (Order 141B), recodified as § 246-843-155, filed 3/1/91, effective 4/1/91. Statutory Authority: RCW 18.52.100(14) and 18.52.110. 80-01-057 (Order PL 328), § 308-54-155, filed 12/20/79.] Repealed by 98-05-060, filed 2/13/98, effective 3/16/98. Statutory Authority: RCW 43.70.280.

246-843-158 Responsibility for maintaining mailing address on file with the board. [Statutory Authority: RCW 18.52.061. 93-23-034, § 246-843-158, filed 11/10/93, effective 12/11/93.] Repealed by 97-20-101, filed 9/29/97, effective 10/30/97. Statutory Authority: RCW 43.70.040.

246-843-160 Licenses. [Statutory Authority: RCW 18.52.100. 91-24-050 (Order 217B), § 246-843-160, filed 11/27/91, effective 12/28/91; 91-06-060 (Order 141B), recodified as § 246-843-160, filed 3/1/91, effective 4/1/91; 80-08-066 (Order 348), § 308-54-160, filed 7/1/80. Statutory Authority: RCW 18.52.070, 18.52.080 and 18.52.100(14). 78-02-009 (Order PL 282), § 308-54-160, filed 1/6/78; Order PL 107, § 308-54-160, filed 3/3/71.] Repealed by 98-05-060, filed 2/13/98, effective 3/16/98. Statutory Authority: RCW 43.70.280.

246-843-170 Temporary permits. [Statutory Authority: RCW 18.52.100. 91-24-050 (Order 217B), § 246-843-170, filed 11/27/91, effective 12/28/91; 91-06-060 (Order 141B), recodified as § 246-843-170, filed 3/1/91, effective 4/1/91. Statutory Authority: RCW 18.52.100(11). 88-23-038 (Order PM 791), § 308-54-170, filed 11/9/88. Statutory Authority: RCW 18.52.100. 80-08-066 (Order 348), § 308-54-170, filed 7/1/80. Statutory Authority: RCW 18.52.100 (10) and (14). 78-02-009 (Order PL 282), § 308-54-170, filed 1/6/78; Order PL 107, § 308-54-170, filed 3/3/71.] Repealed by 00-01-072, filed 12/13/99, effective 1/13/00. Statutory Authority: Chapters 18.52, 34.05 RCW and RCW 18.130.075.

246-843-200 Standards of suitability and character. [Statutory Authority: RCW 18.52.100. 91-24-050 (Order 217B), § 246-843-200, filed 11/27/91, effective 12/28/91; 91-06-060 (Order 141B), recodified as § 246-843-200, filed 3/1/91, effective 4/1/91. Statutory Authority: RCW 18.52.100(14). 87-02-008 (Order PM 633), § 308-54-200, filed 12/29/86. Statutory Authority: RCW 18.52.100 (1) and (14). 78-02-009 (Order PL 282), § 308-54-200, filed 1/6/78; Order PL 107, § 308-54-200, filed 3/3/71.] Repealed by 99-03-068, filed 1/18/99, effective 2/18/99. Statutory Authority: RCW 18.52.061.

246-843-220 Complaints and hearing procedures. [Statutory Authority: RCW 18.52.100. 91-24-050 (Order 217B), § 246-843-220, filed 11/27/91, effective 12/28/91; 91-06-060 (Order 141B), recodified as § 246-843-220, filed 3/1/91, effective 4/1/91. Statutory Authority: RCW 18.52.090(2), 18.52.150, 18.52.100 (4), (5), (6) and (14). 78-02-009 (Order PL 282), § 308-54-220, filed 1/6/78; Order PL 107, § 308-54-220, filed 3/3/71.] Repealed by 99-03-067, filed 1/18/99, effective 2/18/99. Statutory Authority: RCW 18.52.061.

246-843-225 Issuance of subpoenas—Administering oaths and affirmations—Ruling when board or hearing panel not in session. [Statutory Authority: RCW 18.52.100. 91-06-060 (Order 141B), recodified as § 246-843-225, filed 3/1/91, effective 4/1/91; 80-08-066 (Order 348), § 308-54-225, filed 7/1/80. Statutory Authority: RCW 18.52.155. 78-02-009 (Order PL 282), § 308-54-225, filed 1/6/78.] Repealed by 99-03-067, filed 1/18/99, effective 2/18/99. Statutory Authority: RCW 18.52.061.

246-843-240 Restoration and reinstatement of licenses. [Statutory Authority: RCW 18.52.100. 91-24-050 (Order 217B), § 246-843-240, filed 11/27/91, effective 12/28/91; 91-06-060 (Order 141B), recodified as § 246-843-240, filed 3/1/91, effective 4/1/91. Statutory Authority: RCW 18.52.100(14) and 18.52.120. 78-02-009 (Order PL 282), § 308-54-240, filed 1/6/78; Order PL 107, § 308-54-240, filed 3/3/71.] Repealed by 95-07-128, filed 3/22/95, effective 4/22/95. Statutory Authority: RCW 18.52.061.

246-843-250 Duplicate licenses. [Statutory Authority: RCW 18.52.100. 91-24-050 (Order 217B), § 246-843-250, filed 11/27/91, effective 12/28/91; 91-06-060 (Order 141B), recodified as § 246-843-250, filed 3/1/91, effective 4/1/91; Order PL 107, § 308-54-250, filed 3/3/71.] Repealed by 98-05-060, filed 2/13/98, effective 3/16/98. Statutory Authority: RCW 43.70.280.

246-843-320 Renewal of licenses. [Statutory Authority: RCW 18.52.061. 95-07-128, § 246-843-320, filed 3/22/95, effective 4/22/95. Statutory Authority: RCW 18.52.100. 91-24-050 (Order 217B), § 246-843-320, filed 11/27/91, effective 12/28/91; 91-06-060 (Order 141B), recodified as § 246-843-320, filed 3/1/91, effective 4/1/91. Statutory Authority: RCW 18.52.100(14). 87-02-008 (Order PM 633), § 308-54-320, filed 12/29/86. Statutory Authority: RCW 43.24.140. 80-04-057 (Order 337), § 308-54-320, filed 3/24/80.] Repealed by 98-05-060, filed 2/13/98, effective 3/16/98. Statutory Authority: RCW 43.70.280.

WAC 246-843-010 General definitions. Terms used in these rules have the following meanings:

(1) "On-site, full-time administrator" is an individual in active administrative charge of one nursing home facility or collocated facilities, as licensed under chapter 18.51 RCW, a minimum of four days and an average of forty hours per week. Exception: "On-site, full-time administrator" in nursing homes with small resident populations, or in rural areas is an individual in active administrative charge of one nursing home facility, or collocated facilities, as licensed under chapter 18.51 RCW:

(a) A minimum of four days and an average of twenty hours per week at facilities with one to thirty beds; or

(b) A minimum of four days and an average of thirty hours per week at facilities with thirty-one to forty-nine beds.

(2) "Active administrative charge" is direct participation in the operating concerns of a nursing home. Operating concerns include, but are not limited to, interaction with staff and residents, liaison with the community, liaison with regulatory agencies, pertinent business and financial responsibilities, planning and other activities as identified in the most current job analysis published by the National Association of Boards of Examiners for Long-Term Care Administrators.

(3) "Person" means an individual and does not include the terms firm, corporation, institutions, public bodies, joint stock associations, and other such entities.

(4) "Nursing home administrator-in-training" means an individual in an administrator-in-training program approved by the board.

(5) "Secretary" means the secretary of the department of health or the secretary's designee.

(6) "Collocated facilities" means more than one licensed nursing facility situated on a contiguous or adjacent property, whether or not there are intersecting streets. Other criteria to qualify as a collocated facility would be determined by the nursing home licensing agency under chapter 18.51 RCW.

(7) "Recognized institution of higher learning" means an accredited degree granting institution in the United States or outside the United States that is listed in the directory of accredited institutions of postsecondary education published by the American Council on Education.

[Statutory Authority: Chapters 18.52 and 34.05 RCW. 00-01-071, § 246-843-010, filed 12/13/99, effective 1/13/00. WAC 246-843-040 Duties and responsibilities. The board, with the assistance of the secretary, shall have the following duties and responsibilities, within the limits of chapter 18.52 RCW.

(1) Develop standards for individuals in order to receive a license as a nursing home administrator.

(2) Develop techniques, including examinations and investigations to determine whether an individual meets such standards for licensing:

(3) Approve licenses or temporary permits for individuals meeting requirements applicable to them.

(4) Discipline or deny a license holder or applicant under authority granted by RCW 18.130.160 or who fails to meet requirements of chapter 18.52 RCW.

(5) Investigate and take action on a report or complaint filed with the board or secretary that any individual licensed as a nursing home administrator has failed to comply with the requirements of chapter 18.52 RCW.

(6) Adopt rules necessary to carry out the functions of chapter 18.52 RCW.

(7) Implement requirements of chapter 18.52 RCW, including:

(a) Recommend hiring consultants to advise on matters requiring expert advice;

(b) Delegate work responsibilities to subcommittees of the board;

(c) Supervise the administrator-in-training program.

[Statutory Authority: Chapters 18.52 and 34.05 RCW. 00-01-073, § 246-843-040, filed 12/13/99, effective 1/13/00. Statutory Authority: RCW 18.52.100. 91-24-050 (Order 217B), § 246-843-040, filed 11/27/91, effective 12/28/91; 91-06-060 (Order 141B), recodified as § 246-843-040, filed 3/1/91, effective 4/1/91. Statutory Authority: RCW 18.52.100(14). 78-02-009 (Order PL 282), § 308-54-040, filed 1/6/78; Order PL 107, § 308-54-040, filed 3/3/71.]

WAC 246-843-070 Examination. (1) The board approves subjects of examination for license. The scope, content, form, and character of examination shall be the same for all candidates taking the examination.

(2) The examination consists of the National Association of Boards of Examiners for Long-Term Care Administrators (NAB) national examination.

(3) Subjects for examination may include, but not be limited to: Resident care management, personnel management, financial management, environmental management, and governance and management.

(4) Examinations shall be given at least semiannually at times and places designated by the department.

[Statutory Authority: Chapters 18.52, 34.05 RCW and RCW 18.130.075. 00-01-072, § 246-843-070, filed 12/13/99, effective 1/13/00. Statutory Authority: RCW 18.52.100. 91-06-060 (Order 141B), recodified as § 246-843-070, filed 3/1/91, effective 4/1/91; Order PL 107, § 308-54-070, filed 3/3/71.]

WAC 246-843-071 Application. (1) An applicant must pay applicable fees and submit an application for initial credential on forms approved by the secretary. Refer to chapter 246-12 WAC, Part 2.

(2) Applications shall be completed in every respect prior to the examination date.

[Statutory Authority: Chapters 18.52, 34.05 RCW and RCW 18.130.075. 00-01-072, § 246-843-071, filed 12/13/99, effective 1/13/00.]

WAC 246-843-073 Examination score. (1) An applicant for a nursing home administrator license is required to pass the national examination with a passing score established by the National Association of Boards of Examiners for Long-Term Care Administrators (NAB).

(2) The candidate shall be notified about their examination score in writing.

(3) The board and the department shall not disclose the candidate's score to anyone other than the candidate, unless requested to do so in writing by the candidate.

(4) The NAB examination is scored using a criterion-referenced method.

(5) A permanent record of the result of examination for each candidate shall be kept by the board.

[Statutory Authority: Chapters 18.52, 34.05 RCW and RCW 18.130.075. 00-01-072, § 246-843-073, filed 12/13/99, effective 1/13/00.]

WAC 246-843-090 Administrator-in-training. An applicant shall be approved to take an examination for licensure as a nursing home administrator after submitting evidence satisfactory to the board that the applicant meets the following requirements:

(1) Be at least twenty-one years old.

(2) Complete an application for licensure provided by the division of health professions quality assurance, department of health that includes all information and fees requested. Refer to chapter 246-12 WAC, Part 2.

(3) Submit documentation of a minimum of a baccalaureate degree from a recognized institution of higher learning.

(4) Completed an administrator-in-training (AIT) program as described below:

(a) A one thousand five hundred hour AIT program in a nursing home; or

(b) A one thousand hour AIT program for individuals with a minimum of two years experience as a department manager in a state licensed nursing home or hospital with supervisory and budgetary responsibility; or

(c) A five hundred hour AIT program in a nursing home for individuals with a minimum of two years experience in the last five years with supervisory and budgetary responsibility in one of the following positions or their equivalent:

Hospital administrator;

Assistant administrator in a state licensed nursing home or hospital;

Director of a hospital based skilled nursing facility;

Director of a subacute or transitional care unit;

Director of the department of nursing in a state licensed nursing home;

Health care consultant to the long-term care industry;

Director of community-based long-term care service.

(5) The AIT program shall be:

(a) Under the guidance and supervision of a qualified preceptor;

(b) Designed to provide for individual learning experiences and instruction based upon the person's academic background, training, and experience;

(c) Described in a prospectus signed by the preceptor. The prospectus shall include a description of the rotation through departments and is to be submitted to the board for approval before beginning an AIT program. Changes in the AIT program shall be immediately reported in writing to the board. The board may withdraw approval or alter conditions

under which approval was given if the board finds that the approved program has not been or is not being followed.

(6) The AIT program prospectus shall include the following components:

(a) A minimum of ninety percent of the required AIT program hours are spent in a rotation through each department of a resident occupied nursing home licensed under chapter 18.51 RCW;

(b) Project assignment including at least one problem-solving assignment to improve the nursing home or nursing home procedures. A description of the project is to be submitted in writing to the board for approval before beginning the AIT program. The description of the project should indicate the definition of the project and method of approach such as data gathering. A project report that includes possible alternatives, conclusions, and final recommendations to improve the facility or procedure is to be submitted to the board for approval at least ten days before the scheduled end date of the AIT program;

(c) Planned reading and writing assignments as designated by the preceptor; and

(d) Other planned learning experiences including learning about other health and social services agencies in the community.

(7) Quarterly written reports to the board shall include a detailed outline of AIT activities during the reporting period. Reports shall be submitted by both the AIT and preceptor.

(8) The program shall provide for a broad range of experience with a close working relationship between preceptor and trainee. Toward that end, no program shall be approved if the facility has a capacity of fewer than 50 beds. Exceptions to this general rule may be granted by the board in unusual circumstances.

[Statutory Authority: Chapters 18.52 and 34.05 RCW. 00-01-070, § 246-843-090, filed 12/13/99, effective 1/13/00. Statutory Authority: RCW 18.52.061. 95-07-128, § 246-843-090, filed 3/22/95, effective 4/22/95; 93-23-034, § 246-843-090, filed 11/10/93, effective 12/11/93; 93-13-004 (Order 371B), § 246-843-090, filed 6/3/93, effective 7/4/93. Statutory Authority: RCW 18.52.100(14). 87-02-008 (Order PM 633), § 308-54-090, filed 12/29/86; Order PL 260, § 308-54-090, filed 12/10/76; Order PL 164, § 308-54-090, filed 3/27/74, effective 1/1/75; Order PL 107, § 308-54-090, filed 3/3/71.]

WAC 246-843-093 Exemption. No AIT program is required for:

(1) An individual with a minimum of five years experience in the last seven years with extensive supervisory and budgetary responsibility in one of the following positions or their equivalent:

Hospital administrator;

Assistant administrator in a hospital or state licensed nursing home;

Director of a hospital based skilled nursing facility; or

Director of a subacute or transitional care unit.

(2) An individual who worked as a licensed nursing home administrator for a minimum of five years, in the past ten years, and whose license did not expire more than three years prior to application date.

(3) An individual who graduated from a long-term care program in a college approved by the National Association of Boards of Examiners for Long-Term Care Administrators.

(4) An individual who graduated from a degree program in a recognized educational institution that included a one thousand hour practical experience (practicum) in a nursing home. This practical experience shall be structured to allow a student a majority of time in a systematic rotation through each department of a resident-occupied nursing home. The practical experience shall include planned readings, writing, and project assignments. The practical experience shall include regular contact with the administrator of the facility in which the practical experience was completed.

[Statutory Authority: Chapters 18.52 and 34.05 RCW. 00-01-070, § 246-843-093, filed 12/13/99, effective 1/13/00.]

WAC 246-843-095 Preceptors for administrator-in-training programs. The preceptor shall submit a statement describing his or her qualifications and an agreement to perform the duties of a preceptor.

(1) Qualifications of preceptor:

(a) The preceptor shall be employed as a licensed nursing home administrator for an accumulation of at least three years.

(b) The preceptor shall be employed full time as the nursing home administrator in the facility where the administrator-in-training is trained.

(c) The preceptor shall have an unrestricted license.

(d) The preceptor shall participate in and successfully complete any preceptor workshop or other training deemed necessary by the board.

(2) Duties of the preceptor:

(a) The preceptor shall take the time necessary and have at least a weekly face-to-face conference with the AIT about the activities of the AIT relative to the training program and the nursing home.

(b) The preceptor shall evaluate the AIT and submit quarterly reports to the board on the progress of the AIT program.

(3) A preceptor shall supervise no more than two AITs at the same time.

[Statutory Authority: Chapters 18.52 and 34.05 RCW. 00-01-070, § 246-843-095, filed 12/13/99, effective 1/13/00. Statutory Authority: RCW 18.52.100. 91-24-050 (Order 217B), § 246-843-095, filed 11/27/91, effective 12/28/91; 91-06-060 (Order 141B), recodified as § 246-843-095, filed 3/1/91, effective 4/1/91. Statutory Authority: RCW 18.52.100(14). 87-02-008 (Order PM 633), § 308-54-095, filed 12/29/86. Statutory Authority: RCW 18.52.100 (2) and (14). 78-02-009 (Order PL 282), § 308-54-095, filed 1/6/78.]

WAC 246-843-130 Continuing education courses. A course provided to satisfy the continuing education requirement of licensed nursing home administrators shall meet the following conditions before being approved by the board:

(1) A request for approval shall be submitted on forms provided by the department at least one day prior to the start of the course;

(2) Such course of study shall consist of a minimum of one hour of organized instruction with the exception of board-approved self-study courses;

(3) Such course of study may include the following general subject areas or their equivalents, and shall be oriented to the nursing home administrator and reasonably related to the administration of nursing homes:

(a) Resident management;

(b) Personnel management;

(c) Financial management;

(d) Environmental management;

(e) Governance and management;

(f) Laws relating to Washington state nursing homes;

(4) Within one hundred eighty days after becoming licensed, nursing home administrators shall attend an approved course on laws relating to nursing homes in Washington. The board will grant retroactive credit to those licensees who obtain the required training as administrators-in-training under WAC 246-843-090. The board will approve state law training courses based on the following criteria.

A minimum of a six-hour program, with formal training objectives, that covers the following subjects: The requirements of chapter 18.52 RCW and essential areas of laws that apply to nursing homes regulated by the department of social and health services under chapter 388-97 WAC:

- Resident services, medical and social;
- Resident rights, including resident decision making, informed consent, advance directives and notices to residents;
- Enforcement;
- Criminal history inquiries;
- Differences between federal and state law.

(5) Such course of study shall issue certificates of attendance or other evidence satisfactory to the board.

[Statutory Authority: Chapters 18.52 and 34.05 RCW. 00-01-074, § 246-843-130, filed 12/13/99, effective 1/13/00. Statutory Authority: RCW 18.52.100. 91-24-050 (Order 217B), § 246-843-130, filed 11/27/91, effective 12/28/91; 91-06-060 (Order 141B), recodified as § 246-843-130, filed 3/1/91, effective 4/1/91. Statutory Authority: RCW 18.52.100. 91-06-060 (Order 141B), recodified as § 246-843-162, filed 3/1/91, effective 4/1/91. Statutory Authority: RCW 18.52.100(11). 88-23-038 (Order PM 791), § 308-54-162, filed 11/9/88.]

WAC 246-843-180 Expired license. (1) To return to active status when the license has expired for three years or less, the practitioner must meet the requirements of WAC 246-12-040 (2)(a) or (b).

(2) To return to active status when the license has expired for over three years but less than five years, the practitioner must meet the requirements of WAC 246-12-040 (2)(c).

(3) To return to active status when the license has been expired for five years or more:

(a) If the practitioner has been in active practice as a licensed nursing home administrator in another jurisdiction during that time, the practitioner must:

(i) Meet the requirements of WAC 246-12-040 (2)(c); and

(ii) Provide proof of active practice; or

(b) If the practitioner has not been in active practice as a licensed nursing home administrator in another jurisdiction during that time, the practitioner must:

(i) Meet the requirements of WAC 246-12-040 (2)(c); and

(ii) Successfully complete the current licensing examination.

[Statutory Authority: RCW 18.52.061. 02-23-070, § 246-843-180, filed 11/19/02, effective 2/17/03. Statutory Authority: RCW 43.70.280. 98-05-060, § 246-843-180, filed 2/13/98, effective 3/16/98. Statutory Authority: RCW 18.52.061. 93-13-004 (Order 371B), § 246-843-180, filed 6/3/93, effective 7/4/93. Statutory Authority: RCW 18.52.100. 91-24-022 (Order 216B), § 246-843-180, filed 11/25/91, effective 12/26/91; 91-06-060 (Order 141B), recodified as § 246-843-180, filed 3/1/91, effective 4/1/91. WAC 246-843-205 Standards of conduct. Licensed nursing home administrators shall be on-site full time and in active administrative charge of the licensed nursing home, as licensed under chapter 18.51 RCW, in which they have consented to serve as administrator.

[Statutory Authority: Chapters 18.52 and 34.05 RCW. 00-01-067, § 246-843-205, filed 12/13/99, effective 1/13/00. Statutory Authority: RCW 18.52.061. 95-07-128, § 246-843-205, filed 3/22/95, effective 4/22/95; 93-13-004 (Order 371B), § 246-843-205, filed 6/3/93, effective 7/4/93. Statutory Authority: RCW 18.52.100. 91-24-050 (Order 217B), § 246-843-205, filed 11/27/91, effective 12/28/91; 91-06-060 (Order 141B), recodified as § 246-843-205, filed 3/1/91, effective 4/1/91; Order PL 164, § 308-54-205, filed 3/27/74.]

WAC 246-843-230 Endorsement. (1) The board may endorse a nursing home administrator currently licensed in another state if that state requires qualifications substantially equivalent to qualifications required by RCW 18.52.071. To obtain a license by endorsement the applicant must:

(a) Pay applicable application fee;

(b) Submit an application on forms approved by the secretary;

(c) Submit a verification form from all states in which currently or previously licensed that verifies the applicant:

(i) Was or is currently licensed;

(ii) Has not had a nursing home administrator license revoked or suspended; and

(iii) Has passed the national examination;

(d) Submit a certified transcript of baccalaureate or higher degree, mailed to the department directly from the college or university;

(e) Have completed seven clock hours of AIDS education and training. Refer to chapter 246-12 WAC, Part 8.

(2) Applicants who are:

(a) Certified by the American College of Health Care Administrators (ACHCA) may submit verification of ACHCA certification in lieu of college degree transcript.

(b) Currently certified by ACHCA are exempt from taking the current NAB national examination.

(c) Licensed as a nursing home administrator in another state and who have previously passed the national examination are exempt from taking the current NAB national examination.

[Statutory Authority: Chapters 18.52, 34.05 RCW and RCW 18.130.075. 00-01-072, § 246-843-230, filed 12/13/99, effective 1/13/00. Statutory Authority: RCW 43.70.280. 98-05-060, § 246-843-230, filed 2/13/98, effective 3/16/98. Statutory Authority: RCW 18.52.100. 91-24-050 (Order 217B), § 246-843-230, filed 11/27/91, effective 12/28/91; 91-06-060 (Order 141B), recodified as § 246-843-230, filed 3/1/91, effective 4/1/91. Statutory Authority: RCW 18.52.100(14). 87-02-008 (Order PM 633), § 308-54-230, filed 12/29/86; Order PL 107, § 308-54-230, filed 3/3/71.]

WAC 246-843-231 Temporary practice permits. (1) A temporary practice permit may be issued for a period up to six months. A temporary practice permit holder is not eligible for a subsequent permit. A temporary practice permit shall be valid only for the specific nursing home for which it is issued and shall terminate upon the permit holder's departure from the nursing home, unless otherwise approved by the board. An applicant shall meet the following criteria:

(a) Submit temporary permit fee and application form approved by the secretary for initial credential;

(b) Submit verification from each state in which currently licensed that applicant is currently licensed and in good standing as a nursing home administrator in that state;

(c) Have a written agreement for consultation with a Washington state licensed nursing home administrator.

(2) Subsection (1)(b) of this section does not apply if the applicant is an administrator of a religious care facility acting under a limited licensed described in RCW 18.52.071.

[Statutory Authority: Chapters 18.52, 34.05 RCW and RCW 18.130.075. 00-01-072, § 246-843-231, filed 12/13/99, effective 1/13/00.]

WAC 246-843-330 Inactive license. (1) A practitioner may obtain an inactive license. Refer to the requirements of chapter 246-12 WAC, Part 4.

(2) To return to active status from inactive status if the license has been on inactive status for less than five years, the practitioner must meet the requirements of WAC 246-12-110.

(3) To return to active status from inactive status if the license has been on inactive status for five years or more:

(a) If the practitioner has been in active practice as a licensed nursing home administrator in another jurisdiction during that time, the practitioner must:

(i) Meet the requirements of WAC 246-12-110; and

(ii) Provide proof of active practice; or

(b) If the practitioner has not been in active practice as a licensed nursing home administrator in another jurisdiction during that time, the practitioner must:

(i) Meet the requirements of WAC 246-12-110; and

(ii) Successfully complete the current licensing examination.

[Statutory Authority: RCW 18.52.061. 02-23-070, § 246-843-330, filed 11/19/02, effective 2/17/03. Statutory Authority: RCW 43.70.280. 98-05-060, § 246-843-330, filed 2/13/98, effective 3/16/98. Statutory Authority: RCW 18.52.100. 91-24-050 (Order 217B), § 246-843-330, filed 11/27/91, effective 12/28/91; 91-06-059 (Order 149B), § 246-843-330, filed 3/1/91, effective 4/1/91.]

WAC 246-843-340 Adjudicative proceedings. The board adopts the model procedural rules for adjudicative proceedings as adopted by the department of health and contained in chapter 246-11 WAC, including subsequent amendments.

[Statutory Authority: RCW 18.52.061. 93-23-034, § 246-843-340, filed 11/10/93, effective 12/11/93.]

WAC 246-843-990 Nursing home administrator fees and renewal cycle. (1) Licenses must be renewed every year on the practitioner's birthday as provided in chapter 246-12 WAC, Part 2.

(2) The following nonrefundable fees will be charged:

Title of Fee	Fee
Application - Original license	$200.00
Administrator-in-training	100.00
Application - Endorsement	295.00
Temporary permit	190.00
Renewal	295.00
Inactive license renewal	110.00
Late renewal penalty	145.00
Expired license reissuance	147.50
Late renewal penalty - inactive	55.00
Expired inactive license reissuance	55.00
Duplicate license	15.00
Certification of license	15.00

Chapter 246-845 WAC
NURSING POOL

WAC

DISPOSITION OF SECTIONS FORMERLY CODIFIED IN THIS CHAPTER

246-845-020 Registration of a nursing pool. [Statutory Authority: RCW 18.52C.030. 92-02-018 (Order 224), § 246-845-020, filed 12/23/91, effective 1/23/92. Statutory Authority: RCW 43.70.040. 91-02-049 (Order 121), recodified as § 246-845-020, filed 12/27/90, effective 1/31/91. Statutory Authority: RCW 18.52.030. 89-05-019 (Order PM 794), § 308-310-020, filed 2/10/89.] Repealed by 93-14-011, filed 6/24/93, effective 7/25/93. Statutory Authority: RCW 43.70.250.

246-845-030 Renewal of registration. [Statutory Authority: RCW 43.70.040. 91-02-049 (Order 121), recodified as § 246-845-030, filed 12/27/90, effective 1/31/91. Statutory Authority: RCW 18.52.030. 89-05-019 (Order PM 794), § 308-310-030, filed 2/10/89.] Repealed by 93-14-011, filed 6/24/93, effective 7/25/93. Statutory Authority: RCW 43.70.250.

246-845-040 Denial, suspension, or revocation of registration. [Statutory Authority: RCW 18.52C.030 and 18.130.050. 92-02-018 (Order 224), § 246-845-040, filed 12/23/91, effective 1/23/92. Statutory Authority: RCW 43.70.040. 91-02-049 (Order 121), recodified as § 246-845-040, filed 12/27/90, effective 1/31/91. Statutory Authority: RCW 18.52.030. 89-05-019 (Order PM 794), § 308-310-040, filed 2/10/89.] Repealed by 93-14-011, filed 6/24/93, effective 7/25/93. Statutory Authority: RCW 43.70.250.

246-845-100 Renewal of registration. [Statutory Authority: RCW 43.70.250. 93-14-011, § 246-845-100, filed 6/24/93, effective 7/25/93.] Repealed by 98-05-060, filed 2/13/98, effective 3/16/98. Statutory Authority: RCW 43.70.280.

WAC 246-845-050 Registration of a nursing pool. After January 1, 1989, no individual, firm, corporation, partnership, or association may advertise, operate, manage, conduct, open, or maintain a business providing, procuring, or referring health care personnel for temporary employment in health care facilities without first registering with the department of health.

[Statutory Authority: RCW 43.70.250. 93-14-011, § 246-845-050, filed 6/24/93, effective 7/25/93.]

WAC 246-845-060 Application. Applicants for nursing pool registration shall submit to the department of health:

(1) A completed application for registration on forms furnished by the department;

(2) A registration fee as established by the secretary;

(3) Evidence of professional or general liability insurance in accordance with WAC 246-845-080;

(4) A signed quality assurance standards affidavit, and documentation of methods used for compliance with the standards established in WAC 246-845-090;

(5) The Washington state corporation certification number or a copy of the "certificate of authority to do business in Washington" if the nursing pool is owned by a corporation.

[Statutory Authority: RCW 43.70.250. 93-14-011, § 246-845-060, filed 6/24/93, effective 7/25/93.]

WAC 246-845-070 Registrations. (1) If the applicant meets the requirements of this chapter and chapter 18.130 RCW, the department shall issue a nursing pool registration. The registration shall remain effective for a period of one year from date of issuance unless revoked or suspended pursuant to chapter 18.130 RCW, or voided pursuant to subsection (2) of this section.

(2) If the registered nursing pool is sold or ownership or management is transferred, the new owner or operator shall apply for a new registration.

(3) Each separate location of the business of a nursing pool shall have a separate registration.

[Statutory Authority: RCW 43.70.250. 93-14-011, § 246-845-070, filed 6/24/93, effective 7/25/93.]

WAC 246-845-080 Insurance requirements. Each nursing pool shall carry professional and general liability insurance in the amount of one million dollars per occurrence for each person who delivers patient care services. The policy must show coverage using one of the following methods:

(1) The nursing pool maintains insurance coverage in the amount indicated for the nursing pool itself and its employees or agents; or

(2) The nursing pool maintains professional and general liability insurance for its own liability in the amount indicated and only refers self-employed, independent contractors who must maintain their own professional and general liability insurance in the amount indicated. Written evidence of such insurance coverage shall be maintained by the nursing pool in the independent contractor's personnel file for a minimum of three years.

[Statutory Authority: RCW 43.70.250. 93-14-011, § 246-845-080, filed 6/24/93, effective 7/25/93.]

WAC 246-845-090 Quality assurance standards. Nursing pools shall comply with the quality assurance standards contained in this section. Evidence of compliance with these standards shall be retained by the nursing pool and be available for inspection by the department for a minimum of three years. These standards are as follows:

(1) Establishment of a prehire/precontract screening procedure which includes the following:

(a) Written or verbal verification of two references relevant to the work the applicant proposes to do for the nursing pool. References must include dates of employment/contracting;

(b) Written verification of applicant's current, unrestricted professional license, certificate, or registration issued by the department;

(c) Written verification of any certification by a private or public entity in clinical areas relevant to the applicant's proposed work;

(d) Written verification of current cardiopulmonary resuscitation certification;

(e) Written health screening plan that assures that each applicant is free of tuberculosis, physically able to perform the job duties required for the position, and compliance with OSHA regulations regarding the HBV virus;

(f) Compliance with RCW 43.43.830 regarding criminal history disclosure and background inquiries;

(g) Establishment of a post-hire/post-contract procedure which includes the following:

(i) Written procedure for orientation of all new hires/contractors to the nursing pool's policies and procedures prior to beginning work;

(ii) Written performance evaluation plan to include written evaluations from facilities regarding performance of persons who have delivered patient care services;

(iii) Written continuing education program for personnel/contractors that at a minimum provides educational programs on a variety of related topics relevant to the work performed to include: HIV/HBV information, fire and safety, universal precautions, infection control, and information concerning Washington state abuse reporting requirements;

(2) Compliance with state and federal wage and labor laws, and federal immigration laws.

[Statutory Authority: RCW 43.70.250. 93-14-011, § 246-845-090, filed 6/24/93, effective 7/25/93.]

WAC 246-845-110 Denial, suspension, or revocation of registration. The secretary may deny, suspend, or revoke the registration and/or assess penalties if any nursing pool is found to have violated the provisions of chapter 18.130 RCW, the Uniform Disciplinary Act, or of this chapter.

[Statutory Authority: RCW 43.70.250. 93-14-011, § 246-845-110, filed 6/24/93, effective 7/25/93.]

WAC 246-845-990 Nursing pool fees and renewal cycle. (1) Registrations must be renewed every year on the date of original issuance as provided in chapter 246-12 WAC, Part 3.

(2) The following nonrefundable fees will be charged:

Title	Fee
Registration application	$100.00
Registration renewal	115.00
Late renewal penalty	57.50
Expired registration reissuance	57.50

[Statutory Authority: RCW 43.70.250. 99-08-101, § 246-845-990, filed 4/6/99, effective 7/1/99. Statutory Authority: RCW 43.70.280. 98-05-060, § 246-845-990, filed 2/13/98, effective 3/16/98. Statutory Authority: RCW 43.70.250. 93-14-011, § 246-845-990, filed 6/24/93, effective 7/25/93; 91-13-002 (Order 173), § 246-845-990, filed 6/6/91, effective 7/7/91. Statutory Authority: RCW 43.70.040. 91-02-049 (Order 121), recodified as § 246-845-990, filed 12/27/90, effective 1/31/91. Statutory Authority: RCW 43.70.250. 90-04-094 (Order 029), § 308-310-010, filed 2/7/90, effective 3/10/90. Statutory Authority: RCW 43.24.086. 88-20-076 (Order 784), § 308-310-010, filed 10/5/88.]

Statutory Authority: RCW 18.59.110. 87-04-015 (Order PM 636), § 308-171-040, filed 1/26/87; 85-06-012 (Order PL 514), § 308-171-040, filed 2/22/85.] Repealed by 98-05-060, filed 2/13/98, effective 3/16/98. Statutory Authority: RCW 43.70.280.

246-847-200 Application for licensure. [Statutory Authority: RCW 18.59.130. 93-18-093 (Order 394B), § 246-847-200, filed 9/1/93, effective 10/2/93; 91-05-027 (Order 112B), recodified as § 246-847-200, filed 2/12/91, effective 3/15/91. Statutory Authority: RCW 18.59.130 and 18.130.050. 89-01-081 (Order PM 805), § 308-171-330, filed 12/20/88.] Repealed by 98-05-060, filed 2/13/98, effective 3/16/98. Statutory Authority: RCW 43.70.280.

WAC 246-847-010 Definitions. (1) The following terms in RCW 18.59.020(2) shall mean:

(a) "Scientifically based use of purposeful activity" is the treatment of individuals using established methodology based upon the behavioral and biological sciences and includes the analysis, application and adaptation of activities

for use with individuals having a variety of physical, emotional, cognitive and social disorders. Use of purposeful activity includes a process of continually modifying treatment to meet the changing needs of an individual. Purposeful activity is goal-oriented and cannot be routinely prescribed.

(b) "Teaching daily living skills" is the instruction in daily living skills based upon the evaluation of all the components of the individual's disability and the adaptation or treatment based on the evaluation. Components of a disability are physical, sensory, social, emotional and cognitive functions.

(c) "Developing prevocational skills and play and avocational capabilities" is not only the development of prevocational skills and play and avocational capabilities but involves the scientifically based use of purposeful activity.

(d) "Designing, fabricating, or applying selected orthotic and prosthetic devices or selected adaptive equipment" is not specific occupational therapy services if a person designs, fabricates, or applies selected orthotic and prosthetic devices or selected adaptive equipment for an individual if the device or equipment is prescribed or ordered by a health care professional authorized by the laws of the state of Washington to prescribe the device or equipment or direct the design, fabrication, or application of the device or equipment.

(e) "Adapting environments for the handicapped" is the evaluation of all the components of an individual's disability and the adaptation of the environment of the individual based on the evaluation. Components of a disability are physical, sensory, social, emotional and cognitive functions.

(2) "Supervision" and "regular consultation" of an occupational therapy assistant by an occupational therapist in RCW 18.59.020(4) and "direct supervision" of a person holding a limited permit by an occupational therapist in RCW 18.59.040(7) shall mean face to face meetings between the occupational therapist and occupational therapy assistant and between the occupational therapist and holder of a limited permit occurring at intervals as determined necessary by the occupational therapist to establish, review, or revise the client's treatment objectives. The meetings shall be documented and the documentation shall be maintained in each client's treatment record. The failure to meet to establish, review, or revise the client's treatment objectives at sufficient intervals to meet the client's needs shall be grounds for disciplinary action against the occupational therapist's license and/or the occupational therapy assistant's license to practice in the state of Washington and/or the limited permit pursuant to WAC 246-847-160 (4) and (14), 246-847-170 (2) and (3) and RCW 18.59.100 for conduct occurring prior to June 11, 1986 and pursuant to RCW 18.130.180 for conduct occurring on or after June 11, 1986.

(3) "Professional supervision" of an occupational therapy aide in RCW 18.59.020(5) shall mean:

(a) Documented training by the occupational therapist of the occupational therapy aide in each specific occupational therapy technique for each specific client and the training shall be performed on the client;

(b) Face to face meetings between the occupational therapy aide and the supervising occupational therapist or an occupational therapy assistant under the direction of the supervising occupational therapist occurring at intervals as determined by the occupational therapist to meet the client's needs, but shall occur at least once every two weeks; and

(c) The occupational therapist shall observe the occupational therapy aide perform on the client the specific occupational therapy techniques for which the occupational therapy aide was trained at intervals as determined by the occupational therapist to meet the client's needs, but shall occur at least once a month.

The meetings and client contacts shall be documented and the documentation shall be maintained in the client's treatment records. The failure to meet at sufficient intervals to meet the client's needs shall be grounds for disciplinary action against the occupational therapist's license to practice in the state of Washington pursuant to WAC 246-847-160 (4) and (14), 246-847-170 (2) and (3) and RCW 18.59.100 for conduct occurring prior to June 11, 1986 and pursuant to RCW 18.130.180 for conduct occurring on or after June 11, 1986.

(4) Sections (2) and (3) of this rule shall not be effective until July 1, 1985.

(5) "Clients" include patients, students, and those to whom occupational therapy services are delivered.

(6) "Evaluation" is the process of obtaining and interpreting data necessary for treatment, which includes, but is not limited to, planning for and documenting the evaluation process and results. The evaluation data may be gathered through record review, specific observation, interview, and the administration of data collection procedures, which include, but are not limited to, the use of standardized tests, performance checklists, and activities and tasks designed to evaluate specific performance abilities.

(7) "Work site" in RCW 18.59.080 means the primary work location.

(8) "In association" for RCW 18.59.040(7) shall mean practicing in a setting in which another occupational therapist licensed in the state of Washington is available for consultation and assistance as needed to provide protection for the clients' health, safety and welfare.

(9) One "contact hour" is considered to be fifty minutes.

(10) "Peer reviewer" shall mean a licensed occupational therapist chosen by the licensee to review the self study plan and verify that the self study activity meets the objectives for peer reviewed self study as defined in WAC 246-847-065.

[Statutory Authority: RCW 18.59.130. 92-18-015 (Order 300B), § 246-847-010, filed 8/24/92, effective 9/24/92; 91-11-064 (Order 171B), § 246-847-010, filed 5/16/91, effective 6/16/91; 91-05-027 (Order 112B), recodified as § 246-847-010, filed 2/12/91, effective 3/15/91. Statutory Authority: Chapter 18.59 RCW. 90-16-071 (Order 075), § 308-171-001, filed 7/30/90, effective 8/30/90. Statutory Authority: RCW 18.59.130 and 18.130.050. 87-09-044 (Order PM 645), § 308-171-001, filed 4/14/87. Statutory Authority: RCW 18.59.130(2) and 18.130.050(1). 86-17-064 (Order PM 610), § 308-171-001, filed 8/19/86. Statutory Authority: RCW 18.59.130(2) and 18.59.020(5). 86-10-004 (Order PL 588), § 308-171-001, filed 4/24/86. Statutory Authority: RCW 18.59.130(2). 85-12-010 (Order PL 529), § 308-171-001, filed 5/23/85. Statutory Authority: RCW 18.59.130(2) and 18.59.020. 85-05-008 (Order PL 513), § 308-171-001, filed 2/11/85.]

WAC 246-847-020 Persons exempt from the definition of an occupational therapy aide. An "occupational therapy aide" for whom an occupational therapist must provide professional supervision pursuant to RCW 18.59.020(5) does not include persons employed at a facility who are per-

forming services under the supervision or direction of another licensed health care practitioner or certified teacher if the occupational therapist serves solely in a consulting capacity to the facility.

[Statutory Authority: RCW 18.59.130. 91-05-027 (Order 112B), recodified as § 246-847-020, filed 2/12/91, effective 3/15/91. Statutory Authority: RCW 18.59.130 and 18.130.050. 87-09-044 (Order PM 645), § 308-171-002, filed 4/14/87. Statutory Authority: RCW 18.59.130(2). 87-01-088 (Order PM 630), § 308-171-002, filed 12/22/86.]

WAC 246-847-030 Occupational therapists acting in a consulting capacity. (1) "Consulting capacity" shall mean the providing of information and recommendations which the facility, licensed health care practitioners, or certified teachers employed at that facility may accept, reject, or modify at the election of the facility, the licensed health care practitioners, or certified teachers and if the occupational therapist's recommendations are accepted or modified then the recommendations shall be incorporated into the patient's health care plan as part of the nursing or physician's care plan or educational care plan and not held out as the providing of occupational therapy services to the patients or public or billed by the facility as the providing of occupational therapy services to the patients.

(2) An occupational therapist acting in a consulting capacity shall include the following information in the occupational therapist's documentation:

(a) Date of consultation;

(b) To whom the consultation is provided;

(c) Description of services provided;

(d) Consultation recommendation; and

(e) Recommendations concerning who should implement the consultation recommendations.

The documentation described above shall be retained by the consulting occupational therapist.

[Statutory Authority: RCW 18.59.130. 91-05-027 (Order 112B), recodified as § 246-847-030, filed 2/12/91, effective 3/15/91. Statutory Authority: RCW 18.59.130 and 18.130.050. 87-09-044 (Order PM 645), § 308-171-003, filed 4/14/87.]

WAC 246-847-040 Recognized educational programs—Occupational therapists. The board recognizes and approves courses of instruction conducted by schools that have obtained accreditation of the program in occupational therapy from the American Occupational Therapy Association's Accreditation Council for Occupational Therapy Education as recognized in the current Listing of *Educational Programs in Occupational Therapy* published by the American Occupational Therapy Association, Inc.

[Statutory Authority: RCW 18.59.130. 94-20-036, § 246-847-040, filed 9/28/94, effective 10/29/94; 91-23-047 (Order 213B), § 246-847-040, filed 11/14/91, effective 12/15/91; 91-11-064 (Order 171B), § 246-847-040, filed 5/16/91, effective 6/16/91; 91-05-027 (Order 112B), recodified as § 246-847-040, filed 2/12/91, effective 3/15/91. Statutory Authority: Chapter 18.59 RCW. 90-16-071 (Order 075), § 308-171-010, filed 7/30/90, effective 8/30/90. Statutory Authority: RCW 18.59.130 and 18.130.050. 89-01-081 (Order PM 805), § 308-171-010, filed 12/20/88. Statutory Authority: RCW 18.59.050. 88-09-031 (Order PM 721), § 308-171-010, filed 4/15/88. WAC 246-847-055 Initial application for individuals who have not practiced within the past four years. (1) Any initial applicant who has not been actively engaged in the practice of occupational therapy within the past four years shall provide, in addition to the requirements for licensure as specified in RCW 18.59.050 and WAC 246-847-190:

(a) Evidence of having successfully completed an approved occupational therapy or occupational therapy assistant program within the past four years and documentation of thirty hours of continued competency as described in WAC 246-847-065 for the previous two-year period; or

(b) Evidence of having passed the examination as defined in WAC 246-847-080 within the previous two-year period and documentation of thirty hours of continued competency as described in WAC 246-847-065 for the previous two year-period; or

(c) Evidence of having successfully completed a board approved educational program specifically designed for occupational therapists or occupational therapy assistants preparing for re-entry into the field of occupational therapy.

(2) The applicant may be required to appear before the board for oral interview.

[Statutory Authority: RCW 43.70.280. 98-05-060, § 246-847-055, filed 2/13/98, effective 3/16/98. Statutory Authority: RCW 18.59.130. 93-18-093 (Order 394B), § 246-847-055, filed 9/1/93, effective 10/2/93.]

WAC 246-847-065 Continued competency. Licensed occupational therapists must complete thirty hours of continuing education every two years as required in chapter 246-12 WAC, Part 7.

[Statutory Authority: RCW 43.70.280. 98-05-060, § 246-847-065, filed 2/13/98, effective 3/16/98. Statutory Authority: RCW 18.59.130. 92-18-015 (Order 300B), § 246-847-065, filed 8/24/92, effective 9/24/92; 91-11-064 (Order 171B), § 246-847-065, filed 5/16/91, effective 6/16/91; 91-05-027 (Order 112B), recodified as § 246-847-065, filed 2/12/91, effective 3/15/91; 90-22-011 (Order 094), § 308-171-041, filed 10/26/90, effective 11/26/90.]

WAC 246-847-068 Expired license. (1) If the license has expired for three years or less, the practitioner must meet the requirements of chapter 246-12 WAC, Part 2.

(2) If the license has expired for over three years, and the practitioner has been in active practice in another United States jurisdiction, the practitioner must:

(a) Submit verification of active practice from any other United States jurisdiction;

(b) Meet the requirements of chapter 246-12 WAC, Part 2.

(3) If the license has expired for over three years, and the practitioner has not been in active practice in another United States jurisdiction, the practitioner must:

(a) Either provide evidence of having passed the examination as defined in WAC 246-847-080 within the previous two-year period or provide evidence of successfully completing a board-approved educational program specifically designed for occupational therapists or occupational therapy assistants preparing for reentry into the field of occupational therapy;

(b) Meet the requirements of chapter 246-12 WAC, Part 2.

[Statutory Authority: RCW 43.70.280. 98-05-060, § 246-847-068, filed 2/13/98, effective 3/16/98. Statutory Authority: RCW 18.59.130. 94-20-036, § 246-847-068, filed 9/28/94, effective 10/29/94; 93-18-093 (Order 394B), § 246-847-068, filed 9/1/93, effective 10/2/93.]

WAC 246-847-070 Inactive credential. A practitioner may obtain an inactive credential. Refer to the requirements of chapter 246-12 WAC, Part 4.

[Statutory Authority: RCW 43.70.280. 98-05-060, § 246-847-070, filed 2/13/98, effective 3/16/98. Statutory Authority: RCW 18.59.090(3). 86-21-026 (Order PM 620), § 308-171-045, filed 10/8/86.]

WAC 246-847-080 Examinations. (1) The current series of the American Occupational Therapy Certification Board examination shall be the official examination for licensure as an occupational therapist or as an occupational therapy assistant.

(2) The examination for licensure as an occupational therapist shall be conducted twice a year.

(3) The examination for licensure as an occupational therapy assistant shall be conducted twice a year.

(4) The program manager of the board shall negotiate with the American Occupational Therapy Certification Board for the use of the certification examination.

(5) The examination shall be conducted in accordance with the American Occupational Therapy Certification Board security measures and contract.

(6) Applicants shall be notified of the examination results in accordance with the procedures developed by the American Occupational Therapy Certification Board.

(7) Examination scores will not be released except as authorized by the applicant in writing.

(8) To be eligible for a license, applicants must attain a passing score on the examination administered by the American Occupational Therapy Certification Board.

[Statutory Authority: RCW 18.59.130. 93-18-093 (Order 394B), § 246-847-080, filed 9/1/93, effective 10/2/93; 92-18-015 (Order 300B), § 246-847-080, filed 8/24/92, effective 9/24/92; 91-05-027 (Order 112B), recodified as § 246-847-080, filed 2/12/91, effective 3/15/91. Statutory Authority: RCW 18.59.130(2). 86-10-004 (Order PL 588), § 308-171-100, filed 4/24/86; 85-05-008 (Order PL 513), § 308-171-100, filed 2/11/85.]

WAC 246-847-090 Proof of actual practice. An applicant seeking waiver of the education and experience requirements as provided in RCW 18.59.070(3) shall submit the following as proof of actual practice:

(1) Applicant's affidavit containing the following information:

(a) Location and dates of employment between June 7, 1981 and June 7, 1984;

(b) Description of capacity in which applicant was employed, including job title and description of specific duties;

(c) Description of nature of clientele; and

(d) Name and title of direct supervisor.

(2) Written job description.

(3) Affidavit from employer(s), from June 7, 1981 through June 7, 1984, containing the following information:

(a) Dates of applicant's employment,

(b) Description of applicant's specific duties, and

(c) Employer's title.

After reviewing the information submitted, the board may require submission of additional information if the board deems additional information necessary for purposes of clarifying the information previously submitted.

The proof of actual practice shall be submitted to the board's office no later than March 1, 1985.

[Statutory Authority: RCW 18.59.130. 91-05-027 (Order 112B), recodified as § 246-847-090, filed 2/12/91, effective 3/15/91. Statutory Authority: RCW 18.59.130(2) and 18.59.070(3). 85-05-008 (Order PL 513), § 308-171-101, filed 2/11/85.]

WAC 246-847-100 Examination dates for applicants under RCW 18.59.070(3). (1) Applicants for an occupational therapist license under RCW 18.59.070(3) shall take the examination no later than June 29, 1985.

(2) Applicants for an occupational therapy assistant license under RCW 18.59.070(3) shall take the examination no later than July 20, 1985.

[Statutory Authority: RCW 18.59.130. 91-05-027 (Order 112B), recodified as § 246-847-100, filed 2/12/91, effective 3/15/91. Statutory Authority: RCW 18.59.130(2). 85-05-008 (Order PL 513), § 308-171-102, filed 2/11/85.]

WAC 246-847-110 Persons exempt from licensure pursuant to RCW 18.59.040(5). (1) To qualify for the exemption from licensure pursuant to RCW 18.59.040(5), the individual claiming the exemption shall have been actively engaged in the practice of occupational therapy within the preceding four-year period and shall in writing notify the department, at least thirty days before any occupational therapy services are performed in this state, of the following:

(a) In which state(s) the individual is licensed to perform occupational therapy services and the license number(s); and

(b) The name, address, and telephone number of at least one facility or employer where the individual has been

engaged in the practice of occupational therapy within the preceding four years; or

(c) If the exemption is claimed pursuant to RCW 18.59.040 (5)(b), the individual shall submit a signed notarized statement attesting to:

(i) Having passed the American Occupational Therapy Certification Board examination; and

(ii) Having engaged in occupational therapy practice within the preceding four years, including the name, address, and telephone number of at least one facility or employer during this period;

(iii) Not having engaged in unprofessional conduct or gross incompetency as established in WAC 246-847-160 for conduct occurring prior to June 11, 1986 and as established in RCW 18.130.180 for conduct occurring on or after June 11, 1986; and not having been convicted of a crime involving moral turpitude or a felony relating to the profession of occupational therapy; and

(d) A signed notarized statement describing when the occupational therapy services will be performed, where the occupational therapy services will be performed, and how long the individual will be performing occupational therapy services in this state.

(2) A ninety-day temporary permit must be received by the occupational therapist prior to rendering of occupational therapy services.

(3) "Working days" in RCW 18.59.040(5) shall mean consecutive calendar days.

[Statutory Authority: RCW 18.59.130. 92-18-015 (Order 300B), § 246-847-110, filed 8/24/92, effective 9/24/92; 91-11-064 (Order 171B), § 246-847-110, filed 5/16/91, effective 6/16/91; 91-05-027 (Order 112B), recodified as § 246-847-110, filed 2/12/91, effective 3/15/91. Statutory Authority: RCW 18.59.130(2) and 18.59.050(1). 86-17-064 (Order PM 610), § 308-171-103, filed 8/19/86. Statutory Authority: RCW 18.59.130(2) and 18.59.040 (5)(b). 86-10-004 (Order PL 588), § 308-171-103, filed 4/24/86. Statutory Authority: RCW 18.59.130(2). 85-12-010 (Order PL 529), § 308-171-103, filed 5/23/85.]

WAC 246-847-115 Limited permits. (1) An applicant is eligible for a limited permit under RCW 18.59.040(7), provided the applicant takes the first examination for which he or she is eligible.

(2) An applicant who successfully passes the examination for licensure and who has a valid limited permit through the department of health at the time the examination results are made public shall be deemed to be validly licensed under the limited permit for the next thirty calendar days.

[Statutory Authority: RCW 18.59.130. 93-18-093 (Order 394B), § 246-847-115, filed 9/1/93, effective 10/2/93; 91-23-047 (Order 213B), § 246-847-115, filed 11/14/91, effective 12/15/91.]

WAC 246-847-117 Temporary permits—Issuance and duration pursuant to RCW 18.130.075. (1) Unless there is a basis for denial of an occupational therapist or occupational therapy assistant license, an applicant who is currently licensed in a jurisdiction considered by the board to have licensing standards substantially equivalent to Washington's shall be issued a temporary practice permit after receipt of the following documentation by the department of health:

(a) Submission of a completed occupational therapist or occupational therapy assistant application on which the applicant indicates that he or she wishes to receive a temporary practice permit;

(b) Payment of the application fee and temporary practice permit fee; and

(c) Direct written verification of current licensure from the state whose licensing standards are substantially equivalent to Washington's.

(2) The temporary practice permit shall expire upon the issuance of a license by the board; initiation of an investigation by the board; or ninety days, whichever occurs first.

(3) An applicant who receives a temporary practice permit and who does not complete the licensure application process shall not receive additional temporary practice permits even upon submission of a new application in the future.

[Statutory Authority: RCW 18.59.130. 92-18-015 (Order 300B), § 246-847-117, filed 8/24/92, effective 9/24/92.]

WAC 246-847-120 Foreign trained applicants. An applicant obtaining education and training at foreign institutions shall submit the following information for the board's consideration in determining whether or not to waive the education and experience requirements for licensure, pursuant to RCW 18.59.070(1):

(1) An official description of the education program at the educational institution and if the description is not in English, then an English translation signed by the translator shall be submitted with the official description;

(2) An official transcript of the applicant's grades from the educational institution and if the transcript is not in English, then an English translation signed by the translator shall be submitted with the official transcript;

(3) Applicant's affidavit containing the following information:

(a) Location and dates of employment as an occupational therapist or occupational therapy assistant for up to three years immediately prior to the date of application;

(b) Description of capacity in which applicant was employed, including job titles and description of specific duties;

(c) Description of nature of clientele; and

(d) Name and title of direct supervisors;

(4) Written job description for each employment as an occupational therapist or occupational therapy assistant for up to three years immediately prior to the date of application;

(5) Signed, written statements from all employers or direct supervisors for up to three years immediately prior to the date of application containing the following information:

(a) Dates of applicant's employment;

(b) Description of applicant's specific duties; and

(c) Employer or direct supervisor's title;

(6) If the applicant graduated from the educational institution within the three years immediately prior to the application, the applicant shall obtain a signed, written statement from the applicant's program director at the educational institution discussing the applicant's fieldwork experience at the educational institution.

After reviewing the information submitted, the board may require submission of additional information necessary

for purposes of clarifying the information previously submitted.

[Statutory Authority: RCW 18.59.130. 91-05-027 (Order 112B), recodified as § 246-847-120, filed 2/12/91, effective 3/15/91. Statutory Authority: RCW 18.59.130(2). 86-17-064 (Order PM 610), § 308-171-104, filed 8/19/86; 86-10-004 (Order PL 588), § 308-171-104, filed 4/24/86.]

WAC 246-847-125 Applicants currently licensed in other states or territories. (1) Before licensure may be extended to any individual currently licensed to practice as an occupational therapist or occupational therapy assistant in another state, the District of Columbia, or a territory of the United States as provided in RCW 18.59.070(2), the following conditions must be met:

(a) Evidence of having met the requirements for licensure as provided in RCW 18.59.050; and

(b) Verification of current licensure from any state, the District of Columbia, or a territory of the United States on forms provided by the secretary; and

(c) Verification of having passed the examination as defined in WAC 246-847-080; and

(d) Evidence of having been actively engaged in the practice of occupational therapy within the preceding four-year period.

(2) If the applicant has not been actively engaged in the practice of occupational therapy within the past four years, the following conditions must be met:

(a) Evidence of having taken and passed the examination as defined in WAC 246-847-080 within the previous two-year period and documentation of thirty hours of continued competency as described in WAC 246-847-065 for the previous two-year period; or

(b) Evidence of having successfully completed a board approved educational program specifically designed for occupational therapists or occupational therapy assistants preparing for reentry into the field of occupational therapy.

(3) The applicant may be required to appear before the board for oral interview.

[Statutory Authority: RCW 18.59.130. 93-18-093 (Order 394B), § 246-847-125, filed 9/1/93, effective 10/2/93.]

WAC 246-847-130 Definition of "commonly accepted standards for the profession." "Commonly accepted standards for the profession" in RCW 18.59.040 (5)(b) and 18.59.070 shall mean having passed the American Occupational Therapy Association certification examination, not having engaged in unprofessional conduct or gross incompetency as established by the board in WAC 246-847-160 for conduct occurring prior to June 11, 1986 and as established in RCW 18.130.180 for conduct occurring on or after June 11, 1986, and not having been convicted of a crime of moral turpitude or a felony which relates to the profession of occupational therapy.

[Statutory Authority: RCW 18.59.130. 93-18-093 (Order 394B), § 246-847-130, filed 9/1/93, effective 10/2/93; 91-05-027 (Order 112B), recodified as § 246-847-130, filed 2/12/91, effective 3/15/91. WAC 246-847-140 Supervised fieldwork experience—Occupational therapists. "Supervised fieldwork experience" in RCW 18.59.050 (1)(c)(i) shall mean a minimum six months of Level II fieldwork conducted in settings approved by the applicant's academic program. Level II fieldwork is to provide an in-depth experience in delivering occupational therapy services to clients and to provide opportunities for supervised practice of occupational therapist entry-level roles. The minimum six months supervised fieldwork experience required by RCW 18.59.050 (1)(c)(i) shall not include Level I fieldwork experience as defined by the American Occupational Therapy Association.

The supervised fieldwork experience shall consist of a minimum of six months sustained fieldwork on a full-time basis. "Full-time basis" is as required by the fieldwork setting.

[Statutory Authority: RCW 18.59.130. 91-05-027 (Order 112B), recodified as § 246-847-140, filed 2/12/91, effective 3/15/91. Statutory Authority: RCW 18.59.130(2). 87-01-088 (Order PM 630), § 308-171-201, filed 12/22/86; 85-05-008 (Order PL 513), § 308-171-201, filed 2/11/85.]

WAC 246-847-150 Supervised fieldwork experience—Occupational therapy assistants. "Supervised fieldwork experience" in RCW 18.59.050 (1)(c)(ii) shall mean a minimum two months of Level II fieldwork conducted in settings approved by the applicant's academic or training program. Level II fieldwork is to provide an in-depth experience in delivering occupational therapy services to clients and to provide opportunities for supervised practice of occupational therapy assistant entry-level roles. The minimum two months supervised fieldwork experience required by RCW 18.59.050 (1)(c)(ii) shall not include Level I fieldwork experience as defined by the American Occupational Therapy Association.

The supervised fieldwork experience shall consist of a minimum of two one-month sustained fieldwork placements not less than forty full-time workdays. "Full-time workdays" is as required by the fieldwork setting.

[Statutory Authority: RCW 18.59.130. 91-05-027 (Order 112B), recodified as § 246-847-150, filed 2/12/91, effective 3/15/91. Statutory Authority: RCW 18.59.130(2). 85-05-008 (Order PL 513), § 308-171-202, filed 2/11/85.]

WAC 246-847-160 Unprofessional conduct or gross incompetency. The following conduct, acts, or conditions constitute unprofessional conduct or gross incompetency for any license holder or applicant if the conduct, acts, or conditions occurred or existed prior to June 11, 1986:

(1) The commission of any act involving moral turpitude, dishonesty, or corruption relating to the practice of the person's profession, whether the act constitutes a crime or not. If the act constitutes a crime, conviction in a criminal proceeding is not a condition precedent to disciplinary action. Upon such a conviction, however, the judgment and sentence is conclusive evidence at the ensuing disciplinary hearing of the guilt of the license holder or applicant of the crime described in the indictment or information, and of the person's violation of the statute on which it is based. For the purposes of this section, conviction includes all instances in which a plea of guilty or nolo contendere is the basis for the conviction and all proceedings in which the sentence has

been deferred or suspended. Nothing in this section abrogates rights guaranteed under chapter 9.96A RCW;

(2) Misrepresentation or concealment of a material fact in obtaining a license or in reinstatement thereof;

(3) All advertising which is false, fraudulent, or misleading;

(4) Incompetence, negligence, or actions in the practice of the profession which result in, or have a significant likelihood of resulting in, harm to the patient or public;

(5) Suspension, revocation, or restriction of the individual's license to practice the profession by competent authority in any state, federal, or foreign jurisdiction, a certified copy of the order or agreement being conclusive evidence of the revocation, suspension, or restriction;

(6) The possession, use, addiction to, prescription for use, diversion, or distribution of controlled substances or legend drugs in any way other than for legitimate or therapeutic purposes, or violation of any drug law;

(7) Violation of any state or federal statute or administrative rule regulating the profession in question, including any statute or rule defining or establishing standards of patient care or professional conduct or practice;

(8) Failure to cooperate with the disciplining authority by:

(a) Not furnishing any papers or documents;

(b) Not furnishing in writing a full and complete explanation covering the matter contained in the complaint filed with the disciplining authority; or

(c) Not responding to subpoenas issued by the disciplining authority, whether or not the recipient of the subpoena is the accused in the proceeding;

(9) Failure to comply with an order issued by the disciplining authority;

(10) Aiding or abetting an unlicensed person to practice when a license is required;

(11) Willful or repeated violations of rules established by any health agency or authority of the state or a political subdivision thereof;

(12) Practice beyond the scope of practice as defined by law;

(13) Misrepresentation or fraud in any aspect of the conduct of the business or profession;

(14) Failure to adequately supervise auxiliary staff to the extent that the consumer's health or safety is at risk;

(15) Engaging in a profession involving contact with the public while suffering from a contagious or infectious disease involving serious risk to public health;

(16) Promotion for personal gain of any unnecessary or inefficacious drug, device, treatment, procedure, or service;

(17) Conviction of any gross misdemeanor or felony relating to the practice of the person's profession. For the purposes of this subsection, conviction includes all instances in which a plea of guilty or nolo contendere is the basis for conviction and all proceedings in which the sentence has been deferred or suspended. Nothing in this section abrogates rights guaranteed under chapter 9.96A RCW;

(18) The offering, undertaking, or agreeing to cure or treat disease by a secret method, procedure, treatment, or medicine, or the treating, operating, or prescribing for any health condition by a method, means, or procedure which the licensee refuses to divulge upon demand of the disciplining authority;

(19) Violation of chapter 19.68 RCW;

(20) Interference with an investigation or disciplinary proceeding by wilful misrepresentation of facts before the disciplining authority or its authorized representative, or by the use of threats or harassment against any patient or witness to prevent them from providing evidence in a disciplinary proceeding or any other legal action;

(21) Any mental or physical condition which results in, or has a significant likelihood of resulting in, an inability to practice with reasonable skill and safety to consumers.

(22) Abuse of a client or patient or sexual contact resulting from abuse of the client-practitioner relationship.

[Statutory Authority: RCW 18.59.130. 91-05-027 (Order 112B), recodified as § 246-847-160, filed 2/12/91, effective 3/15/91. Statutory Authority: RCW 18.59.130(2) and 18.59.100. 85-05-008 (Order PL 513), § 308-171-300, filed 2/11/85.]

WAC 246-847-170 Code of ethics and standards of professional conduct. (1) It is the professional responsibility of occupational therapists and occupational therapy assistants to provide services for clients without regard to race, creed, national origin, gender, handicap or religious affiliation.

(2) Treatment objectives and the therapeutic process must be formulated to ensure professional accountability.

(3) Services shall be goal-directed in accordance with the overall educational, habilitation or rehabilitation plan and shall include a system to ensure professional accountability.

(4) Occupational therapists and occupational therapy assistants shall recommend termination of services when established goals have been met or when further services would not produce improved client performance.

(5) Occupational therapists and occupational therapy assistants shall accurately represent their competence, education, training and experience.

(6) Occupational therapists and occupational therapy assistants shall only provide services and use techniques for which they are qualified by education, training, and experience.

(7) Occupational therapists and occupational therapy assistants shall accurately record information and report information as required by facility standards and state and federal laws.

(8) All data recorded in permanent files or records shall be supported by the occupational therapist or the occupational therapy assistant's observations or by objective measures of data collection.

(9) Client's records shall only be divulged as authorized by law or with the client's consent for release of information.

(10) Occupational therapists and occupational therapy assistants shall not delegate to other personnel those client-related services where the clinical skills and expertise of an occupational therapist or occupational therapy assistant are required.

(11) If, after evaluating the client, the case is a medical case, the occupational therapist shall refer the case to a physician for appropriate medical direction if such direction is lacking.

(a) Appropriate medical direction shall be sought on at least an annual basis.

(b) A case is not a medical case if the following is present:

(i) There is an absence of pathology; or

(ii) If a pathology exists, the pathology has stabilized; and

(iii) The occupational therapist is only treating the client's functional deficits.

[Statutory Authority: RCW 18.59.130. 91-05-027 (Order 112B), recodified as § 246-847-170, filed 2/12/91, effective 3/15/91; 90-22-011 (Order 094), § 308-171-301, filed 10/26/90, effective 11/26/90. WAC 246-847-180 Mandatory reporting. (1) All persons, including licensees, corporations, organizations, health care facilities, and state or local governmental agencies shall report to the board any conviction, determination, or finding that an occupational therapist or an occupational therapy assistant has committed an act which constitutes unprofessional conduct as established in RCW 18.130.180 and shall report information which indicates that an occupational therapist or occupational therapy assistant may not be able to practice occupational therapy with reasonable skill and safety to consumers as a result of a mental or physical condition.

(2) All required reports shall be submitted to the board as soon as possible, but no later than sixty days after a conviction, determination, or finding is made or information is received.

(3) A report shall contain the following information if known:

(a) The name, address, and telephone number of the person making the report.

(b) The name, address, and telephone numbers of the occupational therapist or occupational therapy assistant being reported.

(c) The case number of any patient or the name of the patient whose treatment is a subject of the report.

(d) A brief description or summary of the facts which gave rise to the issuance of the report, including dates of occurrences.

(e) If court action is involved, the name of the court in which the action is filed along with the date of filing and cause number.

(f) Any further information which would aid in the evaluation of the report.

[Statutory Authority: RCW 18.59.130. 91-05-027 (Order 112B), recodified as § 246-847-180, filed 2/12/91, effective 3/15/91. Statutory Authority: RCW 18.59.070 and 18.130.050(1). 86-17-064 (Order PM 610), § 308-171-302, filed 8/19/86.]

WAC 246-847-190 AIDS education and training. Applicants must complete six clock hours of AIDS education as required in chapter 246-12 WAC, Part 8.

[Statutory Authority: RCW 43.70.280. 98-05-060, § 246-847-190, filed 2/13/98, effective 3/16/98. Statutory Authority: RCW 18.59.130 and 18.130.050. 89-01-081 (Order PM 805), § 308-171-320, filed 12/20/88.]

WAC 246-847-340 Philosophy governing voluntary substance abuse monitoring programs. The board recognizes the need to establish a means of proactively providing early recognition and treatment options for occupational therapists and occupational therapy assistants whose competency may be impaired due to the abuse of drugs or alcohol. The board intends that such occupational therapists or occupational therapy assistants be treated and their treatment monitored so that they can return to or continue to practice their profession in a way which safeguards the public. To accomplish this the board shall approve voluntary substance abuse monitoring programs and shall refer occupational therapists and occupational therapy assistants impaired by substance abuse to approved programs as an alternative to instituting disciplinary proceedings as defined in RCW 18.130.160.

[Statutory Authority: RCW 18.59.130. 92-18-015 (Order 300B), § 246-847-340, filed 8/24/92, effective 9/24/92.]

WAC 246-847-350 Terms used in WAC 246-847-340 through 246-847-370. (1) "Approved substance abuse monitoring program" or "approved monitoring program" is a program the board has determined meets the requirements of the law and the criteria established by the board in WAC 246-915-320 which enters into a contract with occupational therapists and occupational therapy assistants who have substance abuse problems regarding the required components of the occupational therapist's or occupational therapy assistant's recovery activity and oversees the occupational therapist's or occupational therapy assistant's compliance with these requirements. Substance abuse monitoring programs do not provide evaluation or treatment to participating occupational therapists or occupational therapy assistants.

(2) "Contract" is a comprehensive, structured agreement between the recovering occupational therapist or occupational therapy assistant and the approved monitoring program stipulating the occupational therapist's or occupational therapy assistant's consent to comply with the monitoring program and its required components of the occupational therapist's or occupational therapy assistant's recovery activity.

(3) "Approved treatment facility" is a facility approved by the bureau of alcohol and substance abuse, department of social and health services according to RCW 70.96A.020(2) or 69.54.030 to provide intensive alcoholism or drug treatment if located within Washington state. Drug and alcohol treatment programs located out-of-state must be equivalent to the standards required for approval under RCW 70.96A.020(2) or 69.54.030.

(4) "Substance abuse" means the impairment, as determined by the board, of a occupational therapist's or occupational therapy assistant's professional services by an addiction to, a dependency on, or the use of alcohol, legend drugs, or controlled substances.

(5) "Aftercare" is that period of time after intensive treatment that provides the occupational therapist or occupational therapy assistant and the occupational therapist's or occupational therapy assistant's family with group or individual counseling sessions, discussions with other families, ongoing

contact and participation in self-help groups and ongoing continued support of treatment program staff.

(6) "Support group" is a group of health care professionals meeting regularly to support the recovery of its members. The group provides a confidential setting with a trained and experienced health care professional facilitator in which occupational therapist or occupational therapy assistant may safely discuss drug diversion, licensure issues, return to work and other professional issues related to recovery.

(7) "Twelve steps groups" are groups such as alcoholics anonymous, narcotics anonymous, and related organizations based on a philosophy of anonymity, belief in a power outside of oneself, a peer group association, and self-help.

(8) "Random drug screens" are laboratory tests to detect the presence of drugs of abuse in body fluids which are performed at irregular intervals not known in advance by the person being tested.

(9) "Health care professional" is an individual who is licensed, certified or registered in Washington to engage in the delivery of health care to patients.

[Statutory Authority: RCW 18.59.130. 92-18-015 (Order 300B), § 246-847-350, filed 8/24/92, effective 9/24/92.]

WAC 246-847-360 Approval of substance abuse monitoring programs. The board will approve the monitoring program(s) which will participate in the board's substance abuse monitoring program. A monitoring program approved by the board may be contracted with an entity outside the department but within the state, out-of-state, or a separate structure within the department.

(1) The approved monitoring program will not provide evaluation or treatment to the participating occupational therapists or occupational therapy assistants.

(2) The approved monitoring program staff must have the qualifications and knowledge of both substance abuse and the practice of occupational therapy as defined in this chapter to be able to evaluate:

(a) Clinical laboratories;

(b) Laboratory results;

(c) Providers of substance abuse treatment, both individuals and facilities;

(d) Support groups;

(e) The occupational therapy work environment; and

(f) The ability of the occupational therapist or occupational therapy assistant to practice with reasonable skill and safety.

(3) The approved monitoring program will enter into a contract with the occupational therapist or occupational therapy assistant and the board to oversee the occupational therapist's or occupational therapy assistant's compliance with the requirements of the program.

(4) The approved monitoring program may make exceptions to individual components of the contract on an individual basis.

(5) The approved monitoring program staff will determine, on an individual basis, whether an occupational therapist or occupational therapy assistant will be prohibited from engaging in the practice of occupational therapy for a period of time and restrictions, if any, on the occupational therapist's or occupational therapy assistant's access to controlled substances in the work place.

(6) The approved monitoring program shall maintain records on participants.

(7) The approved monitoring program will be responsible for providing feedback to the occupational therapist or occupational therapy assistant as to whether treatment progress is acceptable.

(8) The approved monitoring program shall report to the board any occupational therapist or occupational therapy assistant who fails to comply with the requirement of the monitoring program.

(9) The approved monitoring program shall receive from the board guidelines on treatment, monitoring, and limitations on the practice of occupational therapy for those participating in the program.

[Statutory Authority: RCW 18.59.130. 92-18-015 (Order 300B), § 246-847-360, filed 8/24/92, effective 9/24/92.]

WAC 246-847-370 Participation in approved substance abuse monitoring program. (1) In lieu of disciplinary action, the occupational therapist or occupational therapy assistant may accept board referral into the approved substance abuse monitoring program.

(a) The occupational therapist or occupational therapy assistant shall undergo a complete physical and psychosocial evaluation before entering the approved monitoring program. This evaluation will be performed by health care professional(s) with expertise in chemical dependency. The person(s) performing the evaluation shall not also be the provider of the recommended treatment.

(b) The occupational therapist or occupational therapy assistant shall enter into a contract with the board and the approved substance abuse monitoring program to comply with the requirements of the program which shall include, but not be limited to:

(i) The occupational therapist or occupational therapy assistant will undergo intensive substance abuse treatment in an approved treatment facility.

(ii) The occupational therapist or occupational therapy assistant will agree to remain free of all mind-altering substances including alcohol except for medications prescribed by an authorized prescriber, as defined in RCW 69.41.030 and 69.50.101.

(iii) The occupational therapist or occupational therapy assistant must complete the prescribed aftercare program of the intensive treatment facility, which may include individual and/or group psychotherapy.

(iv) The occupational therapist or occupational therapy assistant must cause the treatment counselor(s) to provide reports to the approved monitoring program at specified intervals. Reports shall include treatment, prognosis and goals.

(v) The occupational therapist or occupational therapy assistant will submit to random drug screening as specified by the approved monitoring program.

(vi) The occupational therapist or occupational therapy assistant will attend support groups facilitated by a health care professional and/or twelve step group meetings as specified by the contract.

(vii) The occupational therapist or occupational therapy assistant will comply with specified employment conditions and restrictions as defined by the contract.

(viii) The occupational therapist or occupational therapy assistant shall sign a waiver allowing the approved monitoring program to release information to the board if the occupational therapist or occupational therapy assistant does not comply with the requirements of this contract.

(c) The occupational therapist or occupational therapy assistant is responsible for paying the costs of the physical and psychosocial evaluation, substance abuse treatment, and random drug screens.

(d) The occupational therapist or occupational therapy assistant may be subject to disciplinary action under RCW 18.130.160 if the occupational therapist or occupational therapy assistant does not consent to be referred to the approved monitoring program, does not comply with specified employment restrictions, or does not successfully complete the program.

(2) An occupational therapist or occupational therapy assistant who is not being investigated by the board or subject to current disciplinary action or currently being monitored by the board for substance abuse may voluntarily participate in the approved substance abuse monitoring program without being referred by the board. Such voluntary participants shall not be subject to disciplinary action under RCW 18.130.160 for their substance abuse, and shall not have their participation made known to the board if they meet the requirements of the approved monitoring program:

(a) The occupational therapist or occupational therapy assistant shall undergo a complete physical and psychosocial evaluation before entering the approved monitoring program. This evaluation will be performed by health care professional(s) with expertise in chemical dependency. The person(s) performing the evaluation shall not also be the provider of the recommended treatment.

(b) The occupational therapist or occupational therapy assistant shall enter into a contract with the approved substance abuse monitoring program to comply with the requirements of the program which shall include, but not be limited to:

(i) The occupational therapist or occupational therapy assistant will undergo intensive substance abuse treatment in an approved treatment facility.

(ii) The occupational therapist or occupational therapy assistant will agree to remain free of all mind-altering substances including alcohol except for medications prescribed by an authorized prescriber, as defined in RCW 69.41.030 and 69.50.101.

(iii) The occupational therapist or occupational therapy assistant must complete the prescribed aftercare program of the intensive treatment facility, which may include individual and/or group psychotherapy.

(iv) The occupational therapist or occupational therapy assistant must cause the treatment counselor(s) to provide reports to the approved monitoring program at specified intervals. Reports shall include treatment, prognosis and goals.

(v) The occupational therapist or occupational therapy assistant will submit to random drug screening as specified by the approved monitoring program.

(vi) The occupational therapist or occupational therapy assistant will attend support groups facilitated by a health care professional and/or twelve step group meetings as specified by the contract.

(vii) The occupational therapist or occupational therapy assistant will comply with employment conditions and restrictions as defined by the contract.

(viii) The occupational therapist or occupational therapy assistant shall sign a waiver allowing the approved monitoring program to release information to the board if the occupational therapist or occupational therapy assistant does not comply with the requirements of this contract.

(c) The occupational therapist or occupational therapy assistant is responsible for paying the costs of the physical and psychosocial evaluation, substance abuse treatment, and random drug screens.

(3) The treatment and pretreatment records of license holders referred to or voluntarily participating in approved monitoring programs shall be confidential, shall be exempt from RCW 42.17.250 through RCW 42.17.450 and shall not be subject to discovery by subpoena or admissible as evidence except for monitoring records reported to the disciplinary authority for cause as defined in subsections (1) and (2) of this section. Records held by the board under this section shall be exempt from RCW 42.17.250 through 42.17.450 and shall not be subject to discovery by subpoena except by the license holder.

[Statutory Authority: RCW 18.59.130. 92-18-015 (Order 300B), § 246-847-370, filed 8/24/92, effective 9/24/92.]

WAC 246-847-990 Occupational therapy fees and renewal cycle. (1) Licenses must be renewed every two years on the practitioner's birthday as provided in chapter 246-12 WAC, Part 2.

(2) The following nonrefundable fees will be charged for occupational therapist:

Title of Fee	Fee
Application and initial license fee	$125.00
License renewal	95.00
Limited permit fee	40.00
Late renewal fee	50.00
Expired license reissuance	50.00
Inactive license	5.00
Expired inactive license reissuance	5.00
Duplicate	15.00
Certification of license	25.00

(3) The following nonrefundable fees will be charged for occupational therapy assistant:

Application and initial license fee	125.00
License renewal	70.00
Late renewal fee	50.00
Expired license reissuance	50.00
Inactive license	5.00
Expired inactive license reissuance	5.00

Title of Fee	Fee
Limited permit fee	40.00
Duplicate	15.00
Certification of license	25.00

Chapter 246-849 WAC
OCULARISTS

WAC

WAC 246-849-020 General provisions. (1) "Unprofessional conduct" as used in this chapter shall mean the conduct described in RCW 18.130.180.

(2) "Hospital" means any health care institution licensed pursuant to chapter 70.41 RCW.

(3) "Nursing home" means any health care institution which comes under chapter 18.51 RCW.

(4) "Department" means the department of health, whose address is:

Department of Health
Professional Licensing Division
1300 S.E. Quince St., P.O. Box 47869
Olympia, Washington
98504-7869

(5) "Ocularist" means a person licensed under chapter 18.55 RCW.

(6) "Mentally or physically disabled ocularist" means an ocularist who is currently mentally incompetent or mentally ill as determined by a court, or who is unable to practice ocular prosthetic services with reasonable skill and safety to patients by reason of any mental or physical condition and who continues to practice while so impaired.

[Statutory Authority: RCW 18.130.050, 18.130.070 and 1991 c 180 § 8. 92-02-018 (Order 224), § 246-849-020, filed 12/23/91, effective 1/23/92. Statutory Authority: RCW 43.70.040. 91-02-049 (Order 121), recodified as § 246-849-020, filed 12/27/90, effective 1/31/91. Statutory Authority: RCW 18.130.070. 89-14-092 (Order PM 842), § 308-55-035, filed 6/30/89.]

WAC 246-849-030 Mandatory reporting. (1) All reports required by this chapter shall be submitted to the department as soon as possible, but no later than twenty days after a determination is made.

(2) A report should contain the following information if known:

(a) The name, address, and telephone number of the person making the report.

(b) The name and address and telephone numbers of the ocularist being reported.

(c) The case number of any client whose treatment is a subject of the report.

(d) A brief description or summary of the facts which gave rise to the issuance of the report, including dates of occurrences.

(e) If court action is involved, the name of the court in which the action is filed along with the date of filing and docket number.

(f) Any further information which would aid in the evaluation of the report.

(3) Mandatory reports shall be exempt from public inspection and copying to the extent permitted under RCW 42.17.310 or to the extent that public inspection or copying of the report or any portion of the report would invade or violate a person's right to privacy as set forth in RCW 42.17.255.

(4) A person is immune from civil liability, whether direct or derivative, for providing information to the department pursuant to RCW 18.130.070.

[Statutory Authority: RCW 43.70.040. 91-02-049 (Order 121), recodified as § 246-849-030, filed 12/27/90, effective 1/31/91. Statutory Authority: RCW 18.130.070. 89-14-092 (Order PM 842), § 308-55-045, filed 6/30/89.]

WAC 246-849-040 Health care institutions. The chief administrator or executive officer or their designee of any hospital or nursing home shall report to the department when any ocularist's services are terminated or are restricted based on a determination that the ocularist has either committed an act or acts which may constitute unprofessional conduct or that the ocularist may be unable to practice with reasonable skill or safety to clients by reason of any mental or physical condition.

[Statutory Authority: RCW 43.70.040. 91-02-049 (Order 121), recodified as § 246-849-040, filed 12/27/90, effective 1/31/91. Statutory Authority: RCW 18.130.070. 89-14-092 (Order PM 842), § 308-55-055, filed 6/30/89.]

WAC 246-849-050 Ocularist associations or societies. The president or chief executive officer of any ocularist association or society within this state shall report to the department when the association or society determines that an ocularist has committed unprofessional conduct or that an ocularist may not be able to practice ocular prosthetics with reasonable skill and safety to clients as the result of any mental or physical condition. The report required by this section shall be made without regard to whether the license holder appeals, accepts, or acts upon the determination made by the association or society. Notification of appeal shall be included.

[Statutory Authority: RCW 43.70.040. 91-02-049 (Order 121), recodified as § 246-849-050, filed 12/27/90, effective 1/31/91. Statutory Authority: RCW 18.130.070. 89-14-092 (Order PM 842), § 308-55-065, filed 6/30/89.]

WAC 246-849-060 Health care service contractors and disability insurance carriers. The executive officer of every health care service contractor and disability insurer, licensed under chapters 48.20, 48.21, 48.21A, and 48.44 RCW, operating in the state of Washington shall report to the department all final determinations that an ocularist has engaged in fraud in billing for services.

[Statutory Authority: RCW 43.70.040. 91-02-049 (Order 121), recodified as § 246-849-060, filed 12/27/90, effective 1/31/91. Statutory Authority: RCW 18.130.070. 89-14-092 (Order PM 842), § 308-55-075, filed 6/30/89.]

WAC 246-849-070 Professional liability carriers. Every institution or organization providing professional liability insurance directly or indirectly to ocularists shall send a complete report to the department of any malpractice settlement, award, or payment in excess of twenty thousand dollars as a result of a claim or action for damages alleged to have been caused by an insured ocularist's incompetency or negligence in the practice of ocular prosthetic services. Such institution or organization shall also report the award, settlement, or payment of three or more claims during a twelve-month period as a result of the ocularist's alleged incompetence or negligence.

[Statutory Authority: RCW 43.70.040. 91-02-049 (Order 121), recodified as § 246-849-070, filed 12/27/90, effective 1/31/91. Statutory Authority: RCW 18.130.070. 89-14-092 (Order PM 842), § 308-55-085, filed 6/30/89.]

WAC 246-849-080 Courts. The department requests the assistance of the clerk of trial courts within the state to report all professional malpractice judgments and all convictions of licensed ocularists, other than minor traffic violations.

[Statutory Authority: RCW 43.70.040. 91-02-049 (Order 121), recodified as § 246-849-080, filed 12/27/90, effective 1/31/91. Statutory Authority: RCW 18.130.070. 89-14-092 (Order PM 842), § 308-55-095, filed 6/30/89.]

WAC 246-849-090 State and federal agencies. The department requests the assistance of executive officers of any state or federal program operating in the state of Washington, under which an ocularist is employed to provide client care services, to report to the department whenever such an ocularist has been judged to have demonstrated his/her incompetency or negligence in the practice of ocular prosthetic services, or has otherwise committed unprofessional conduct, or is a mentally or physically disabled ocularist. These requirements do not supersede any federal or state law.

[Statutory Authority: RCW 43.70.040. 91-02-049 (Order 121), recodified as § 246-849-090, filed 12/27/90, effective 1/31/91. Statutory Authority: RCW 18.130.070. 89-14-092 (Order PM 842), § 308-55-105, filed 6/30/89.]

WAC 246-849-100 Cooperation with investigation. (1) A licensee must comply with a request for records, documents, or explanation from an investigator who is acting on behalf of the secretary of the department of health by submitting the requested items within fourteen calendar days of receipt of the request by either the licensee or their attorney, whichever is first. If the licensee fails to comply with the request within fourteen calendar days, the investigator will contact that individual or their attorney by telephone or letter as a reminder.

(2) Investigators may extend the time for response if the request for extension does not exceed seven calendar days. Any other requests for extension of time may be granted by the director or the director's designee.

(3) If the licensee fails to comply with the request within three business days after receiving the reminder, a subpoena will be served to obtain the requested items. A statement of charges may be issued pursuant to RCW 18.130.180(8) for failure to cooperate. If there is sufficient evidence to support additional charges, those charges may be included in the statement of charges.

(4) If the licensee complies with the request after the issuance of the statement of charges, the secretary or the secretary's designee will decide if the charges will be prosecuted or settled. If the charges are to be settled the settlement proposal will be negotiated by the secretary's designee. Settlements are not considered final until the secretary signs the settlement agreement.

[Statutory Authority: RCW 18.130.050, 18.130.070 and 1991 c 180 § 8. 92-02-018 (Order 224), § 246-849-100, filed 12/23/91, effective 1/23/92. Statutory Authority: RCW 43.70.040. 91-02-049 (Order 121), recodified as § 246-849-100, filed 12/27/90, effective 1/31/91. Statutory Authority: RCW 18.130.070. 89-14-092 (Order PM 842), § 308-55-115, filed 6/30/89.]

WAC 246-849-110 AIDS prevention and information education requirements. Applicants must complete four clock hours of AIDS education as required in chapter 246-12 WAC, Part 8.

[Statutory Authority: RCW 43.70.280. 98-05-060, § 246-849-110, filed 2/13/98, effective 3/16/98. Statutory Authority: RCW 43.70.040. 91-02-049 (Order 121), recodified as § 246-849-110, filed 12/27/90, effective 1/31/91. Statutory Authority: RCW 70.24.270. 88-22-077 (Order PM 786), § 308-55-200, filed 11/2/88.]

WAC 246-849-200 Apprenticeship training—Definitions. (1) For the purpose of administering and recording apprenticeship training and out-of-state work experience, the maximum number of hours that can be accumulated in one year shall be two thousand.

(2) "Direct supervision" means that the supervising ocularist inspect all of the apprentice's work and be physically present on the premises where the apprentice is working at all times.

[Statutory Authority: RCW 18.55.095. 93-10-008 (Order 355), § 246-849-200, filed 4/22/93, effective 5/23/93.]

WAC 246-849-210 Registration of apprentices. (1) An applicant for apprenticeship may request registration as an apprentice by submitting to the department:

(a) An application on a form provided by the secretary;

(b) A registration fee as specified in WAC 246-849-990.

(2) Training received from more than one supervisor shall require separate applications.

(3) Only the apprenticeship training received subsequent to the date that the apprentice was formally registered with the secretary will be considered towards the required ten thousand hours necessary to sit for the examination.

(4) A registered apprentice shall notify the department in writing whenever the apprenticeship training is terminated, unless such termination is concluded by reason of the apprentice becoming licensed as an ocularist in this state.

(5) In order to facilitate comments on the apprentice's performance, the apprentice registration card along with the name, business address, and business telephone number of the apprentice's supervisor shall be posted in public view on the premises where the apprentice works.

[Statutory Authority: RCW 43.70.280. 98-05-060, § 246-849-210, filed 2/13/98, effective 3/16/98. Statutory Authority: RCW 18.55.095. 93-10-008 (Order 355), § 246-849-210, filed 4/22/93, effective 5/23/93.]

WAC 246-849-220 Application for examination. (1) An individual shall make application for examination, in accordance with RCW 18.55.040, on an application form prepared by and provided by the secretary.

(2) The apprenticeship training requirement shall be supported with certification by the licensed individual (or individuals) who provided such training.

(3) If an applicant is unable to attend his or her scheduled examination, and so notifies the department in writing at least seven days prior to the scheduled examination date, the applicant will be rescheduled at no additional charge. A written request received less than seven days before the test shall be reviewed by the department to determine if the test may be rescheduled or the fee forfeited.

(4) If an applicant takes the examination and fails to obtain a satisfactory grade, he or she may be scheduled to retake the examination by submitting an application and paying the statutory examination fee.

(5) Applications and fees for examination and all documents required in support of the application must be submitted to the division of professional licensing, department of health, at least sixty days prior to the scheduled examination. Failure to meet the deadline will result in the applicant not being scheduled until the next scheduled examination.

(6) Apprenticeship training shall be completed prior to the application deadline.

[Statutory Authority: RCW 43.70.280. 98-05-060, § 246-849-220, filed 2/13/98, effective 3/16/98. Statutory Authority: RCW 18.55.095. 93-10-008 (Order 355), § 246-849-220, filed 4/22/93, effective 5/23/93.]

WAC 246-849-230 Temporary practice permits—Scope and purpose. The temporary practice permit is established to enable safe, qualified, and trained ocularists who are currently licensed in another state as defined in WAC 246-849-250 to work in the state of Washington prior to completing the licensing examination in this state. All licensing requirements established for the purpose of obtaining an ocularist license will need to be completed as part of the application for a temporary practice permit.

[Statutory Authority: RCW 18.55.095. 93-10-008 (Order 355), § 246-849-230, filed 4/22/93, effective 5/23/93.]

WAC 246-849-240 Definitions. For the purpose of issuing temporary practice permits the following definitions shall apply:

(1) "Licensed in another state" shall mean the applicant holds a current valid license to practice as an ocularist in another state and is in good standing;

(2) "Substantially equivalent" shall mean the applicant has successfully completed an examination administered by or authorized by a state other than Washington state. The examination shall cover the same subject matters as the Washington state approved examination. The law under which the applicant is licensed shall, at a minimum, include the duties described in RCW 18.55.075.

[Statutory Authority: RCW 18.55.095. 93-10-008 (Order 355), § 246-849-240, filed 4/22/93, effective 5/23/93.]

WAC 246-849-250 Issuance and duration of temporary practice permits. (1) The department shall issue a temporary practice permit unless there is a basis for denial of the license or issuance of a conditional license. In addition to general application requirements, a person applying for a temporary practice permit shall submit to the department as a condition of temporary permit issuance:

(a) A completed application requesting a temporary practice permit on a form provided by the department;

(b) Temporary practice permit fee, as specified in WAC 246-849-990;

(c) Request all states in which the applicant is or has been licensed to send written licensure verification directly to the licensing office. The verification must be completed by the state and must verify that the applicant has not had any disciplinary action taken against himself/herself and that the applicant is in good standing and not subject to charges or disciplinary action for unprofessional conduct or impairment; and

(d) An affidavit on forms provided by the department, attesting that the temporary permit applicant has read, understands, and shall abide by the Washington state laws regarding the practice of an ocularist.

(2) The temporary permit shall be issued only once to any applicant. The temporary practice permit is nonrenewable and shall expire upon any one of the following conditions whichever comes first:

(a) The release of the results of the next scheduled examination for which the applicant would be eligible;

(b) Issuance of a license by the department; or

(c) Six months.

[Statutory Authority: RCW 18.55.095. 93-10-008 (Order 355), § 246-849-250, filed 4/22/93, effective 5/23/93.]

WAC 246-849-260 Retired active credential. A practitioner may obtain a retired active credential. Refer to the requirements of chapter 246-12 WAC, Part 5.

[Statutory Authority: RCW 43.70.280. 98-05-060, § 246-849-260, filed 2/13/98, effective 3/16/98. Statutory Authority: RCW 18.55.095. 93-10-008 (Order 355), § 246-849-260, filed 4/22/93, effective 5/23/93.]

WAC 246-849-270 Service disclosure. The ocularist shall provide a written explanation of services to customers or patients. This explanation shall include at a minimum the type of prosthesis or service they are receiving or purchasing. This explanation shall be signed by the customer or patient and maintained in the customer or patient records for a mini-

mum of three years. This documentation shall be available and furnished to the department upon request.

[Statutory Authority: RCW 18.55.095. 93-10-008 (Order 355), § 246-849-270, filed 4/22/93, effective 5/23/93.]

WAC 246-849-990 Ocularist fees and renewal cycle. (1) Licenses must be renewed every year on the practitioner's birthday as provided in chapter 246-12 WAC, Part 2.

(2) The following nonrefundable fees will be charged:

Title of Fee	Fee
Application and examination	$125.00
Renewal	225.00
Late renewal penalty	112.50
Expired license reissuance	112.50
Duplicate license	25.00
Certification of license	25.00
Apprentice registration	25.00
Apprentice renewal	25.00
Temporary practice permit	25.00
Retired active license	50.00

[Statutory Authority: RCW 43.70.250. 99-08-101, § 246-849-990, filed 4/6/99, effective 7/1/99. Statutory Authority: RCW 43.70.280. 98-05-060, § 246-849-990, filed 2/13/98, effective 3/16/98. Statutory Authority: RCW 43.70.250. 93-14-011, § 246-849-990, filed 6/24/93, effective 7/25/93; 92-02-018 (Order 224), § 246-849-990, filed 12/23/91, effective 1/23/92. Statutory Authority: RCW 43.70.040. 91-02-049 (Order 121), recodified as § 246-849-990, filed 12/27/90, effective 1/31/91. Statutory Authority: RCW 43.24.086. 87-18-031 (Order PM 667), § 308-55-025, filed 8/27/87. Statutory Authority: 1983 c 168 § 12. 83-17-031 (Order PL 442), § 308-55-025, filed 8/10/83. Formerly WAC 308-55-010.]

WAC 246-849-995 Conversion to a birthday renewal cycle. (1) The annual license renewal date is changed to coincide with the practitioner's birthday.

(2) Renewal fees will be prorated during the transition period while renewal dates are changed to coincide with the practitioner's birthday.

(3) After the initial conversion to a staggered system, practitioners will annually renew their license on their birthday at the current renewal rate.

[Statutory Authority: RCW 43.70.280. 98-05-060, § 246-849-995, filed 2/13/98, effective 3/16/98.]

Chapter 246-850 WAC
ORTHOTICS AND PROSTHETICS RULES

WAC

WAC 246-850-010 Definitions. "Maintenance of an orthosis or prosthesis" includes replacement or repair of component parts that is equivalent to the original component and is required due to wear or failure. Maintenance of an orthosis or prosthesis does not include altering the original components or complete replacement of the orthosis or prosthesis.

[Statutory Authority: RCW 18.200.050(1). 98-21-086, § 246-850-010, filed 10/21/98, effective 11/21/98.]

WAC 246-850-020 Requirements for licensure. To qualify for licensure as either an orthotist or prosthetist in this state, a candidate must:

(1) Possess a bachelor degree in orthotics or prosthetics from an approved orthotic or prosthetic educational program as provided in WAC 246-850-110; alternatively, a candidate may complete a certificate program in orthotics or prosthetics from an approved education program as provided in WAC 246-850-110;

(2) Complete a clinical internship or residency of 1900 hours as required in WAC 246-850-050; and

(3) Complete an examination as required in WAC 246-850-060.

[Statutory Authority: RCW 18.200.050(1). 98-21-086, § 246-850-020, filed 10/21/98, effective 11/21/98.]

WAC 246-850-030 Application requirements. An applicant for licensure shall submit the following:

(1) A completed application and fee as required in chapter 246-12 WAC, Part 2;

(2) Official transcripts, certificate, or other documentation forwarded directly from the issuing agency where the applicant has earned a bachelor degree or completed a certificate program from an NCOPE or CAAHEP accredited program as set forth in WAC 246-850-110;

(3) Documentation of completion of an internship or residency of at least 1900 hours as provided in WAC 246-850-050;

(4) Documentation of successful completion of a licensing examination as approved by the secretary;

(5) Verification of four clock hours of AIDS education as required in chapter 246-12 WAC, Part 8.

(6) Verification from all states in which the applicant holds or has held a license, whether active or inactive, indicating that the applicant is or has not been subject to charges or disciplinary action for unprofessional conduct or impairment; and

(7) Additional documentation as required by the secretary to determine whether an applicant is eligible for licensure.

[Statutory Authority: RCW 18.200.050(1). 98-21-086, § 246-850-030, filed 10/21/98, effective 11/21/98.]

WAC 246-850-040 Licensure without examination. (1) The secretary may grant a license to an applicant who has practiced full time for five of the six years prior to December 1, 1998, and who has provided comprehensive services in an established practice as determined by the secretary.

(2) Applications must be received no later than December 1, 1999.

(3) For the purposes of this section, the following terms have the following meanings:

(a) "Full time" means at least 30 hours per week.

(b) "Comprehensive services" includes the continuum of direct patient care utilizing primary diagnostic evaluation,

assessment and follow up and measurable experience in initiating and providing independent measurement, design, fabrication, assembling, fitting, adjusting and servicing. Comprehensive services does not include the provision of incidental repairs, maintenance, or other services at the direction, or under the supervision of, a primary orthotic or prosthetic practitioner.

(c) "Established practice" means a recognized place of business with access to equipment essential to the provision of comprehensive orthotic and/or prosthetic services.

(4) An applicant for licensure without examination must provide the following:

(a) A completed application and fee as required in chapter 246-12 WAC, Part 2;

(b) Official certificates or transcripts sent directly from the issuing agency or institution documenting formal education, if any, including internships or residencies in the professional area for which a license is sought;

(c) Documentation of employment or work history in the professional area for which the license is sought, including the names and qualifications of individuals providing direction or supervision;

(d) A statement describing scope of practice of employment or work experience;

(e) Certification received directly from at least one supervisor describing the applicant's scope of practice and work experience and assessing the applicant's competence and skill level;

(f) Three letters of recommendation from employers or physicians from whom the applicant has received referrals;

(g) Verification of four clock hours of AIDS education as required in chapter 246-12 WAC, Part 8;

(h) Verification from all states in which the applicant holds or has held a health care practitioner license, whether active or inactive, indicating that the applicant has not been subject to charges or disciplinary action for unprofessional conduct or impairment; and

(i) Additional documentation as required by the secretary to determine whether an applicant is eligible for licensure.

[Statutory Authority: RCW 18.200.050(1). 98-21-086, § 246-850-040, filed 10/21/98, effective 11/21/98.]

WAC 246-850-050 Approved internship or residency requirement. Applicants must complete an internship of at least 1900 hours in each area for which a license is sought. Individual internships must be completed within a minimum period of one year and a maximum period of two years unless extended by the secretary for good cause shown. The internship or residency must be completed under a supervisor qualified by training and experience in an established facility and incorporate patient management and clinical experience in rehabilitation, acute and chronic care in pediatrics and of adults. Applicants who submit evidence of completion of a 1900 hour internship or residency which is approved by the National Commission on Orthotic and Prosthetic Education (NCOPE) or Commission for Accreditation of Allied Health Education Programs (CAAHEP) are considered to have met the requirements of this section. The 1900 hours of internship training must be completed subsequent to graduation from an approved program.

[Statutory Authority: RCW 18.200.050(1). 98-21-086, § 246-850-050, filed 10/21/98, effective 11/21/98.]

WAC 246-850-060 Examination requirements. (1) An applicant for licensure as an orthotist must successfully complete the following examinations:

(a) The orthotic written multiple choice examination prepared and administered by the American Board for Certification in Orthotics and Prosthetics, Inc., administered after July 1, 1991. The passing score is determined by utilizing a criterion-referenced cut score methodology.

(b) The orthotic written simulation examination prepared and administered by the American Board for Certification in Orthotics and Prosthetics, Inc., administered after July 1, 1991. The passing score is determined by utilizing a criterion-referenced cut score methodology.

(2) An applicant for licensure as a prosthetist must successfully complete the following examinations:

(a) The prosthetic written multiple choice examination prepared and administered by the American Board for Certification in Orthotics and Prosthetics, Inc., administered after July 1, 1991. The passing score is determined by utilizing a criterion-referenced cut score methodology.

(b) The prosthetic written simulation examination prepared and administered by the American Board for Certification in Orthotics and Prosthetics, Inc., administered after July 1, 1991. The passing score is determined by utilizing a criterion-referenced cut score methodology.

[Statutory Authority: RCW 18.200.050(8). 99-07-122, § 246-850-060, filed 3/24/99, effective 4/24/99.]

WAC 246-850-090 Inactive credential. A practitioner may obtain an inactive credential. Refer to the requirements of chapter 246-12 WAC, Part 4.

[Statutory Authority: RCW 18.200.050(1). 98-21-086, § 246-850-090, filed 10/21/98, effective 11/21/98.]

WAC 246-850-100 Retired active credential. A practitioner may obtain a retired active credential. Refer to the requirements of chapter 246-12 WAC, Part 5.

[Statutory Authority: RCW 18.200.050(1). 98-21-086, § 246-850-100, filed 10/21/98, effective 11/21/98.]

WAC 246-850-110 Approval of orthotic and prosthetic educational programs. (1) For purposes of WAC 246-850-020, the secretary recognizes as approved those orthotic and prosthetic programs that:

(a) Are approved by the National Commission on Orthotic and Prosthetic Education (NCOPE) or its successor, or the Commission on Accreditation of Allied Health Programs (CAAHEP) or its successor or other accrediting body with substantially equivalent requirements; and

(b) Meet the requirements of subsections (2) and (3) of this section.

(2) Approved baccalaureate degree programs or certificate programs must have as prerequisites the following college level coursework:

(a) Biology.
(b) Psychology.
(c) Physics.
(d) Chemistry.
(e) Physiology.
(f) Human anatomy.
(g) Algebra/higher math.

(3) Approved baccalaureate degree programs or certificate programs must include the following coursework within a minimum of three quarters or two semesters, or in a substantially equivalent accelerated program, in each practice area for which a license is sought.

(a) Orthotics only:
(i) Lower extremity orthotics.
(ii) Upper extremity orthotics.
(iii) Spinal orthotics.
(iv) Pathophysiology.
(v) Biomechanics and kinesiology.
(vi) Radiographic interpretation.
(vii) Normal and pathological gait.
(viii) Clinical evaluation.
(ix) Clinical affiliation.
(x) Research methods.
(xi) Practice management.
(b) Prosthetics only:
(i) Lower extremity prosthetics.
(ii) Upper extremity prosthetics.
(iii) Pathophysiology.
(iv) Biomechanics and kinesiology.
(v) Radiographic interpretation.
(vi) Normal and pathological gait.
(vii) Clinical evaluation.
(viii) Clinical affiliation.
(ix) Research methods.
(x) Practice management.

[Statutory Authority: RCW 18.200.050(1). 98-21-086, § 246-850-110, filed 10/21/98, effective 11/21/98.]

WAC 246-850-120 Withdrawal of program approval. Approval of educational programs may be withdrawn by the secretary, as provided in chapter 34.05 RCW and chapter 246-10 WAC, if:

(1) A program ceases to be approved by NCOPE or CAAHEP; or

(2) Fails to maintain the accreditation standards of NCOPE or CAAHEP; or

(3) Does not meet the minimum curriculum requirements as provided in WAC 246-850-110.

[Statutory Authority: RCW 18.200.050(1). 98-21-086, § 246-850-120, filed 10/21/98, effective 11/21/98.]

WAC 246-850-990 Orthotic and prosthetic fees. (1) Licenses must be renewed every year on the practitioner's birthday as provided in chapter 246-12 WAC, Part 2.

(2) The following nonrefundable fees will be charged:

Title of Fee	Fee
Orthotic application	$600.00
Prosthetic application	600.00
Orthotic renewal	575.00
Prosthetic renewal	575.00
Late renewal penalty fee	287.50
Expired credential reissuance fee	287.50
Inactive credential renewal fee	350.00
Late inactive renewal fee	175.00
Retired active credential renewal fee	350.00
Late retired active credential renewal fee	175.00
Duplicate credential or wall certificate	15.00
Certification	25.00

[Statutory Authority: RCW 18.200.050(1). 98-21-086, § 246-850-990, filed 10/21/98, effective 11/21/98.]

Statutory Authority: RCW 18.54.070.

246-851-060 Examination subjects. [Statutory Authority: RCW 18.54.070. 91-06-025 (Order 119B), recodified as § 246-851-060, filed 2/26/91, effective 3/29/91; 90-11-080 (Order 056), § 308-53-084, filed 5/16/90, effective 6/16/90. Statutory Authority: RCW 18.54.070(5). 87-09-046 (Order PM 646), § 308-53-084, filed 4/14/87; 86-13-008 (Order PM 598), § 308-53-084, filed 6/5/86.] Repealed by 95-14-114, filed 6/30/95, effective 7/31/95. Statutory Authority: RCW 18.54.070.

246-851-070 Grading examinations. [Statutory Authority: RCW 18.54.070. 91-06-025 (Order 119B), recodified as § 246-851-070, filed 2/26/91, effective 3/29/91; 90-11-080 (Order 056), § 308-53-085, filed 5/16/90, effective 6/16/90. Statutory Authority: RCW 18.54.070(5). 87-09-046 (Order PM 646), § 308-53-085, filed 4/14/87; 86-13-008 (Order PM 598), § 308-53-085, filed 6/5/86; 84-09-082 (Order PL 465), § 308-53-085, filed 4/18/84; 83-10-052 (Order PL 433), § 308-53-085, filed 5/3/83; 82-12-077 (Order PL 399), § 308-53-085, filed 6/2/82.] Repealed by 95-14-114, filed 6/30/95, effective 7/31/95. Statutory Authority: RCW 18.54.070.

246-851-080 Examination appeal procedures. [Statutory Authority: RCW 18.54.070. 91-22-061 (Order 210B), § 246-851-080, filed 11/1/91, effective 12/2/91; 91-06-025 (Order 119B), recodified as § 246-851-080, filed 2/26/91, effective 3/29/91; 87-17-020 (Order PM 666), § 308-53-320, filed 8/12/87.] Repealed by 96-20-087, filed 10/1/96, effective 11/1/96. Statutory Authority: RCW 18.54.070(2).

246-851-100 Credit hour defined. [Statutory Authority: RCW 18.54.070(2). 97-12-088, § 246-851-100, filed 6/4/97, effective 7/5/97. Statutory Authority: RCW 18.54.070. 91-06-025 (Order 119B), recodified as § 246-851-100, filed 2/26/91, effective 3/29/91; Order PL 239, § 308-53-110, filed 3/3/76.] Repealed by 98-05-060, filed 2/13/98, effective 3/16/98. Statutory Authority: RCW 43.70.280.

246-851-200 Dual acceptance of continuing education credits. [Statutory Authority: RCW 18.54.070(2). 97-12-088, § 246-851-200, filed 6/4/97, effective 7/5/97. Statutory Authority: RCW 18.54.070. 91-06-025 (Order 119B), recodified as § 246-851-200, filed 2/26/91, effective 3/29/91; Order PL 256, § 308-53-155, filed 9/13/76.] Repealed by 02-10-134, filed 5/1/02, effective 6/1/02. Statutory Authority: RCW 18.54.070(2).

246-851-210 Certification for continuing education courses. [Statutory Authority: RCW 18.54.070. 91-22-061 (Order 210B), § 246-851-210, filed 11/1/91, effective 12/2/91; 91-06-025 (Order 119B), recodified as § 246-851-210, filed 2/26/91, effective 3/29/91. Statutory Authority: RCW 18.54.070(2). 89-10-030 (Order PM 839), § 308-53-165, filed 4/27/89. Statutory Authority: RCW 18.54.070(5) and 18.54.075. 85-16-054 (Order PL 545), § 308-53-165, filed 7/31/85. Statutory Authority: RCW 18.54.070(5). 80-01-088 (Order PL 326), § 308-53-165, filed 12/28/79.] Repealed by 97-12-088, filed 6/4/97, effective 7/5/97. Statutory Authority: RCW 18.54.070(2).

246-851-220 Surplus credit hours. [Statutory Authority: RCW 18.54.070(2). 97-12-088, § 246-851-220, filed 6/4/97, effective 7/5/97. Statutory Authority: RCW 18.54.070. 91-06-025 (Order 119B), recodified as § 246-851-220, filed 2/26/91, effective 3/29/91. Statutory Authority: RCW 18.54.070(2). 89-10-030 (Order PM 839), § 308-53-170, filed 4/27/89. Statutory Authority: RCW 18.54.070. 88-07-047 (Order PM 710), § 308-53-170, filed 3/11/88; Order PL 239, § 308-53-170, filed 3/3/76.] Repealed by 98-05-060, filed 2/13/98, effective 3/16/98. Statutory Authority: RCW 43.70.280.

246-851-240 Discretionary exception for emergency situation. [Statutory Authority: RCW 18.54.070(2). 97-12-088, § 246-851-240, filed 6/4/97, effective 7/5/97. Statutory Authority: RCW 18.54.070. 91-06-025 (Order 119B), recodified as § 246-851-240, filed 2/26/91, effective 3/29/91. Statutory Authority: RCW 18.54.070(2). 89-10-030 (Order PM 839), § 308-53-180, filed 4/27/89; Order PL 239, § 308-53-180, filed 3/3/76.] Repealed by 98-05-060, filed 2/13/98, effective 3/16/98. Statutory Authority: RCW 43.70.280.

246-851-270 Retention of minimum contact lens records. [Statutory Authority: RCW 18.54.070. 92-20-048 (Order 308B), § 246-851-270, filed 9/30/92, effective 10/31/92; 91-06-025 (Order 119B), recodified as § 246-851-270, filed 2/26/91, effective 3/29/91; Order PL 256, § 308-53-210, filed 9/13/76.] Repealed by 99-16-047, filed 7/30/99, effective 8/30/99. Statutory Authority: RCW 18.54.070(2).

246-851-340 Transmittal of patient information and records. [Statutory Authority: RCW 18.54.070. 91-06-025 (Order 119B), recodified as § 246-851-340, filed 2/26/91, effective 3/29/91; Order PL-271, § 308-53-250, filed 7/25/77.] Repealed by 99-16-047, filed 7/30/99, effective 8/30/99. Statutory Authority: RCW 18.54.070(2).

246-851-360 Required identification on prescriptions. [Statutory Authority: RCW 18.54.070. 93-18-092 (Order 393B), § 246-851-360, filed 9/1/93, effective 10/2/93; 92-20-048 (Order 308B), § 246-851-360, filed 9/30/92, effective 10/31/92; 91-06-025 (Order 119B), recodified as § 246-851-360, filed 2/26/91, effective 3/29/91. Statutory Authority: RCW 18.54.070(5). 86-13-008 (Order PM 598), § 308-53-265, filed 6/5/86.] Repealed by 99-16-047, filed 7/30/99, effective 8/30/99. Statutory Authority: RCW 18.54.070(2).

246-851-480 Temporary permit. [Statutory Authority: RCW 18.54.070, 18.130.050 and 18.130.075. 92-06-030 (Order 248B), § 246-851-480, filed 2/26/92, effective 3/28/92.] Repealed by 96-20-087, filed 10/1/96, effective 11/1/96. Statutory Authority: RCW 18.54.070(2).

246-851-510 Reinstatement of lapsed license. [Statutory Authority: RCW 18.54.070. 92-20-019 (Order 305B), § 246-851-510, filed 9/25/92, effective 10/26/92.] Repealed by 98-05-060, filed 2/13/98, effective 3/16/98. Statutory Authority: RCW 43.70.280.

246-851-530 Determination of contact lens specifications by dispensing opticians. [Statutory Authority: RCW 18.54.070. 92-20-048 (Order 308B), § 246-851-530, filed 9/30/92, effective 10/31/92.] Repealed by 93-18-092 (Order 393B), filed 9/1/93, effective 10/2/93. Statutory Authority: RCW 18.54.070.

WAC 246-851-040 Approval of schools and colleges of optometry. To be eligible to take the optometry examination, a person must be a graduate of an accredited school or college of optometry approved by the Washington state board of optometry. The board of optometry adopts the most current standards of the Council on Optometric Education, or its successor organization, of the American Optometric Association. Optometric schools and colleges which apply for board approval must meet current Council on Optometric Education standards. It is the responsibility of a school to apply for approval and of a student to ascertain whether or not a school has been approved by the board.

The board reserves the right to withdraw approval of a school which ceases to meet the board's standards after notifying the school in writing and granting it an opportunity to contest the board's proposed withdrawal.

[Statutory Authority: RCW 18.54.070. 91-06-025 (Order 119B), recodified as § 246-851-040, filed 2/26/91, effective 3/29/91; 86-13-009 (Resolution No. PM 597), § 308-53-070, filed 6/5/86. Statutory Authority: RCW 18.54.070(5). 78-02-030 (Order PL 281), § 308-53-070, filed 1/17/78.]

WAC 246-851-090 Continuing education requirement. (1) Licensed optometrists must complete fifty hours of continuing education every two years as required in chapter 246-12 WAC, Part 7.

(2) In lieu of this requirement, licensees practicing solely outside of Washington may meet the continuing education requirements of the state or territory in which they practice.

[Statutory Authority: RCW 43.70.280. 98-05-060, § 246-851-090, filed 2/13/98, effective 3/16/98. Statutory Authority: RCW 18.54.070(2). 97-12-088, § 246-851-090, filed 6/4/97, effective 7/5/97. Statutory Authority: RCW 18.54.070. 92-06-030 (Order 248B), § 246-851-090, filed 2/26/92, effective 3/28/92; 91-06-025 (Order 119B), recodified as § 246-851-090, filed 2/26/91, effective 3/29/91; 88-07-047 (Order PM 710), § 308-53-100, filed 3/11/88. Statutory Authority: RCW 18.54.070(5). 80-01-088 (Order PL 326), § 308-53-100, filed 12/28/79; Order PL 239, § 308-53-100, filed 3/3/76.]

WAC 246-851-110 Courses presumed to qualify for credit. Courses offered by the following organizations are presumed to qualify as continuing education courses without specific prior approval of the board. However, the board reserves the right to not accept credits if the board determines that a course did not provide appropriate information or training.

(1) The American Optometric Association.

(2) Any college or school of optometry whose scholastic standards are deemed sufficient by the board under RCW 18.53.060(2).

(3) The Washington Association of Optometric Physicians.

(4) Any state optometric association which is recognized by the licensing authority of its state as a qualified professional association or educational organization.

(5) The state optometry board.

(6) The optometry licensing authority of any other state.

(7) The American Academy of Optometry.

(8) The Optometric Extension Program.

(9) The College of Optometrists in Vision Development.

(10) The National Eye Research Foundation.

(11) Regional congresses of any of the organizations listed in subsections (1) through (10) of this section.

(12) The Council on Post-Graduate Education of the American Optometric Association.

(13) The Council on Optometric Practitioner Education (C.O.P.E.).

[Statutory Authority: RCW 18.54.070(2). 97-12-088, § 246-851-110, filed 6/4/97, effective 7/5/97. Statutory Authority: RCW 18.54.070. 94-04-041, § 246-851-110, filed 1/27/94, effective 2/27/94; 93-18-092 (Order 393B), § 246-851-110, filed 9/1/93, effective 10/2/93; 91-06-025 (Order 119B), recodified as § 246-851-110, filed 2/26/91, effective 3/29/91. Statutory Authority: RCW 18.54.070(2). 89-10-030 (Order PM 839), § 308-53-120, filed 4/27/89. Statutory Authority: RCW 18.54.070. 88-07-047 (Order PM 710), § 308-53-120, filed 3/11/88. Statutory Authority: RCW 18.54.070(5). 84-09-082 (Order PL 465), § 308-53-120, filed 4/18/84; Order PL 239, § 308-53-120, filed 3/3/76.]

WAC 246-851-120 Approval of courses. (1) The board will individually consider requests for approval of continuing education courses. The board will consider the following course components:

(a) Whether the course contributes to the advancement and enhancement of skills in the practice of optometry.

(b) Whether the course is taught in a manner appropriate to the subject matter.

(c) Whether the instructor has the necessary qualifications, training and/or experience to present the course.

(2) Courses related to a single product or device will not normally be granted credit.

(3) Requests must be submitted at least sixty days prior to the date of the course and must include at least:

(a) Name of the course being offered.

(b) Location and date of course.

(c) Course outline.

(d) Format of activity (e.g., lecture, videotape, clinical participation, individual study).

(e) Total number of hours of continuing education being offered.

(f) Name and qualifications of the instructor or speaker.

[Statutory Authority: RCW 18.54.070(2). 97-12-088, § 246-851-120, filed 6/4/97, effective 7/5/97. Statutory Authority: RCW 18.54.070. 91-22-061 (Order 210B), § 246-851-120, filed 11/1/91, effective 12/2/91; 91-06-025 (Order 119B), recodified as § 246-851-120, filed 2/26/91, effective 3/29/91. Statutory Authority: RCW 18.54.070(2). 89-10-030 (Order PM 839), § 308-53-123, filed 4/27/89.]

WAC 246-851-130 Post-graduate educational program. The board or its agent will, when financially possible, provide an annual post-graduate educational program.

[Statutory Authority: RCW 18.54.070. 91-06-025 (Order 119B), recodified as § 246-851-130, filed 2/26/91, effective 3/29/91. Statutory Authority: RCW 18.54.070(2). 89-10-030 (Order PM 839), § 308-53-125, filed 4/27/89. Statutory Authority: RCW 18.54.070(5). 80-01-088 (Order PL 326), § 308-53-125, filed 12/28/79.]

WAC 246-851-140 Continuing education credit for admission to optometric organizations and participation in patient care reviews. (1) Credit may be granted for preparation and admission to optometric scientific groups (for example, the Academy of Optometry).

(2) Credit may be granted for participation in a local, county, state or federal professional standard review or planning organization relating to health care agencies or institutions.

(3) Requests for credit must be submitted to the board at least sixty days prior to the end of the reporting period.

(4) No more than five credit hours will be granted under this section for any licensee in any two-year reporting period.

[Statutory Authority: RCW 18.54.070(2). 97-12-088, § 246-851-140, filed 6/4/97, effective 7/5/97. Statutory Authority: RCW 18.54.070. 91-06-025 (Order 119B), recodified as § 246-851-140, filed 2/26/91, effective 3/29/91. Statutory Authority: RCW 18.54.070(2). 89-10-030 (Order PM 839), § 308-53-135, filed 4/27/89. Statutory Authority: RCW 18.54.070(5). 80-01-088 (Order PL 326), § 308-53-135, filed 12/28/79.]

WAC 246-851-150 Credit for individual research, publications, and small group study. (1) Subject to approval by the board, continuing education credit may be granted for:

(a) Participation in formal reviews and evaluations of patient care such as peer review and case conferences;

(b) Participation in small group study or individual research;

(c) Scholarly papers and articles whether or not the articles or papers are published.

Requests for credit for papers or articles should include a copy of the article and the number of hours requested.

(2) Licensees must submit requests for credit to the board at least sixty days prior to the end of the reporting period.

(3) No more than ten credit hours will be granted under this section to any licensee in any two-year reporting period.

[Statutory Authority: RCW 18.54.070(2). 02-10-065, § 246-851-150, filed 4/26/02, effective 5/27/02; 97-12-088, § 246-851-150, filed 6/4/97, effective 7/5/97. Statutory Authority: RCW 18.54.070. 91-06-025 (Order 119B), recodified as § 246-851-150, filed 2/26/91, effective 3/29/91; Order PL 239, § 308-53-140, filed 3/3/76.]

WAC 246-851-160 Credit for reports. (1) Continuing education credit will be granted for reports on professional optometric literature. Licensees must submit requests for credit at least sixty days prior to the end of the reporting period. The request must include a copy of the article, including publication source, date and author. The report must be typewritten and include at least ten descriptive statements from the article.

(2) Professional literature approved for these reports are:

(a) American Journal of Optometry and Physiological Optics;

(b) American Optometric Association News;

(c) Contact Lens Spectrum;

(d) Journal of American Optometric Association;

(e) Journal on Optometric Education;

(f) Journal of Optometric Vision Development;

(g) Optometric Management;

(h) Review of Optometry;

(i) 20/20 Magazine; and

(j) Other literature as approved by the board.

(3) Each report qualifies for one credit hour. No more than ten credit hours will be granted under this section to any licensee in any two-year reporting period.

[Statutory Authority: RCW 18.54.070(2). 02-10-065, § 246-851-160, filed 4/26/02, effective 5/27/02; 97-12-088, § 246-851-160, filed 6/4/97, effective 7/5/97. Statutory Authority: RCW 18.54.070. 91-22-061 (Order 210B), § 246-851-160, filed 11/1/91, effective 12/2/91; 91-06-025 (Order 119B), recodified as § 246-851-160, filed 2/26/91, effective 3/29/91. Statutory Authority: RCW 18.54.070(2). 89-10-030 (Order PM 839), § 308-53-145, filed 4/27/89. Statutory Authority: RCW 18.54.070. 88-07-047 (Order PM 710), § 308-53-145, filed 3/11/88. Statutory Authority: RCW 18.54.070(5). 80-04-054 (Order PL 331), § 308-53-145, filed 3/21/80.]

WAC 246-851-170 Credit for preprogrammed educational materials. Subject to approval by the board, continuing education credit may be granted for viewing and participation in the use of formal preprogrammed optometric educational materials. Preprogrammed educational materials include, but are not limited to:

(1) Correspondence courses taken through magazines or other publications, cassettes, videodiscs, videotapes, teaching machines, computer software, CD-ROM, diskettes or internet, other than those that qualify under subsection (2) of this section. No more than ten credit hours will be granted under this subsection to any licensee in any two-year reporting period. Requests for credit must be submitted to the board at least sixty days prior to the end of the reporting period and should include the title, date issued or released, author or source and the length of time spent viewing, listening or responding to the material.

(2) Cassettes, videodiscs, videotapes, teaching machines, computer software, CD-ROM, diskettes or internet, which are offered by a board-approved school or college of optometry or other entity or organization approved by the board for credit under this section and require successful completion of an examination for certification of completion. No more than twenty-five credit hours will be granted under this subsection to any licensee in any two-year reporting period.

[Statutory Authority: RCW 18.54.070(2). 97-12-088, § 246-851-170, filed 6/4/97, effective 7/5/97. Statutory Authority: RCW 18.54.070. 91-22-061 (Order 210B), § 246-851-170, filed 11/1/91, effective 12/2/91; 91-06-025 (Order 119B), recodified as § 246-851-170, filed 2/26/91, effective 3/29/91. Statutory Authority: RCW 18.54.070(2). 89-10-030 (Order PM 839), § 308-53-146, filed 4/27/89. Statutory Authority: RCW 18.54.070(5). 80-04-054 (Order PL 331), § 308-53-146, filed 3/21/80.]

WAC 246-851-180 Credit for lecturing. Subject to approval by the board, continuing education credit may be given for the preparation and presentation of courses and lectures in optometric education. Three hours of credit will be granted for each course hour. Requests for credit must be submitted to the board at least sixty days prior to the end of the reporting period. Credit for subsequent presentations will be considered if the applicant can demonstrate that substantial additional preparation was required. No more than ten hours will be granted under this section for any licensee in any two-year reporting period.

[Statutory Authority: RCW 18.54.070(2). 97-12-088, § 246-851-180, filed 6/4/97, effective 7/5/97. Statutory Authority: RCW 18.54.070. 91-22-061 (Order 210B), § 246-851-180, filed 11/1/91, effective 12/2/91; 91-06-025 (Order 119B), recodified as § 246-851-180, filed 2/26/91, effective 3/29/91. Statutory Authority: RCW 18.54.070(2). 89-10-030 (Order PM 839), § 308-53-150, filed 4/27/89; Order PL 239, § 308-53-150, filed 3/3/76.]

WAC 246-851-190 Credit for CPR training. Continuing education credit will be granted for certified training in cardio-pulmonary resuscitation (CPR). No more than ten credit hours will be granted under this section to any licensee in any two-year reporting period.

[Statutory Authority: RCW 18.54.070(2). 97-12-088, § 246-851-190, filed 6/4/97, effective 7/5/97. WAC 246-851-250 Minimum equipment requirements. (1) Licensed optometrists must have direct access on the premises to the following equipment and accessories, all of which must be in working condition:

(a) Adjustable examining chair;

(b) Phoropter/refractor;

(c) Retinoscope;

(d) Ophthalmoscope;

(e) Pupillary distance measuring device;

(f) Projector and screen; or illuminated test cabinet, or chart for distant vision testing;

(g) Nearpoint vision testing equipment;

(h) Lensometer;

(i) Tonometer;

(j) Biomicroscope/slit lamp;

(k) A clinically accepted visual field testing instrument or equipment.

(2) Licensed optometrists who prescribe contact lenses must have direct access on the premises to the following equipment, all of which must be in working condition:

(a) Diameter gauge;

(b) Thickness gauge;

(c) Cobalt or black light instrument;

(d) Radiuscope/contactogauge type measuring instrument;

(e) Thickness tables;

(f) Corneal measurement instrument that quantifies corneal curvature.

[Statutory Authority: RCW 18.54.070(2). 02-10-065, § 246-851-250, filed 4/26/02, effective 5/27/02. Statutory Authority: RCW 18.54.070. 91-06-025 (Order 119B), recodified as § 246-851-250, filed 2/26/91, effective 3/29/91; 89-01-087 (Order 812), § 308-53-200, filed 12/21/88, effective 1/1/90; Order PL 256, § 308-53-200, filed 9/13/76.]

WAC 246-851-260 Mobile optometric units. (1) Doctors of optometry operating mobile units are required to maintain the minimum equipment requirements of WAC 246-851-250 in such units.

(2) Before examining a patient or filling a prescription for a patient, the doctor of optometry must provide to the patient his complete name, his business phone number, the address of his regular office, and his regular office hours. If such doctor of optometry does not maintain a business phone or regular office, he must provide this information to the patient, and must give him his personal phone number and address in place of his business number and address. If the practice of a mobile unit is owned in whole or in part by someone other than the doctor of optometry operating the mobile unit, such fact must also be provided to the patient, along with the names, phone numbers and addresses of all those who own an interest in the practice. The information required by this section may be provided to the patients by means of a sign on or near the mobile unit which the public may reasonably be expected to see and comprehend.

[Statutory Authority: RCW 18.54.070. 91-22-061 (Order 210B), § 246-851-260, filed 11/1/91, effective 12/2/91; 91-06-025 (Order 119B), recodified as § 246-851-260, filed 2/26/91, effective 3/29/91. Statutory Authority: RCW 18.54.070(5). 78-02-030 (Order PL 281), § 308-53-205, filed 1/17/78.]

WAC 246-851-280 Contact lens advertising. Where contact lens prices are advertised, such advertisement shall clearly state: (a) The type of contact lens or lenses offered at the price(s) advertised and any exclusions or limitations therein; (b) whether examinations, dispensing, related supplies and/or other service charges are included or excluded in the advertised price(s); and (c) the manufacturer, laboratory of origin or brand name of the contact lenses.

[Statutory Authority: RCW 18.54.070. 91-06-025 (Order 119B), recodified as § 246-851-280, filed 2/26/91, effective 3/29/91. Statutory Authority: RCW 18.54.070(5). 81-06-012 (Order PL 367), § 308-53-215, filed 2/20/81.]

WAC 246-851-290 Maintenance of records. Licensed optometrists shall maintain records of eye examinations and prescriptions for a minimum of five years from the date of examination or prescription.

[Statutory Authority: RCW 18.54.070. 91-06-025 (Order 119B), recodified as § 246-851-290, filed 2/26/91, effective 3/29/91; Order PL 256, § 308-53-220, filed 9/13/76.]

WAC 246-851-300 Renting space from and practicing on premises of commercial (mercantile) concern. Where a doctor of optometry rents or buys space from and practices optometry on the premises of a commercial or mercantile concern:

(1) The practice must be owned by the doctor of optometry solely or in conjunction with other licensed doctors of optometry, and in every phase be under the exclusive control of the doctor(s) of optometry. The prescription files are the sole property of the doctor(s) of optometry.

(2) The space must be definite and distinct from space occupied by other occupants of the commercial or mercantile concern.

(3) The doctor(s) of optometry must be clearly identified to the public. Such identification must include the name of the doctor(s) of optometry and the term "doctor of optometry" or "independent doctor of optometry" or other similar phrase.

(4) All signs, advertising and display must be separate and distinct from that of the other occupants and of the commercial or mercantile concern. All optometric practice advertisements or announcements on the premises of a commercial or mercantile concern shall not make references which could reasonably convey the impression that the optometric practice is controlled by or part of the commercial or mercantile concern.

[Statutory Authority: RCW 18.54.070(2). 02-10-065, § 246-851-300, filed 4/26/02, effective 5/27/02. Statutory Authority: RCW 18.54.070. 91-06-025 (Order 119B), recodified as § 246-851-300, filed 2/26/91, effective 3/29/91. Statutory Authority: RCW 18.54.070(5). 81-06-012 (Order PL 367), § 308-53-230, filed 2/20/81; 78-02-030 (Order PL 281), § 308-53-230, filed 1/17/78; Order PL-271, § 308-53-230, filed 7/25/77.]

WAC 246-851-310 Proper identification of licensees. Each person licensed under chapter 18.53 RCW must be clearly identified to the public as a doctor of optometry at all practice locations. The identification must include the name of the licensee and the term "doctor of optometry" or "independent doctor of optometry" or other similar phrase, at or near the entrance to the licensee's office.

[Statutory Authority: RCW 18.54.070(2). 02-10-065, § 246-851-310, filed 4/26/02, effective 5/27/02. Statutory Authority: RCW 18.54.070. 91-06-025 (Order 119B), recodified as § 246-851-310, filed 2/26/91, effective 3/29/91. Statutory Authority: RCW 18.54.070(5). 78-02-030 (Order PL 281), § 308-53-235, filed 1/17/78.]

WAC 246-851-320 Doctor of optometry presumed responsible for advertisements. Every licensed doctor of optometry whose name or office address or place of practice appears or is mentioned in any advertisement of any kind or character shall be presumed to have caused, allowed, permitted, approved, and sanctioned such advertising and shall be presumed to be personally responsible for the content and character thereof. Once sufficient evidence of the advertisement's existence has been introduced at any administrative hearing before the board of optometry, the burden of proof to rebut this presumption by a preponderance of the evidence shall be upon the doctor of optometry.

[Statutory Authority: RCW 18.54.070. 91-06-025 (Order 119B), recodified as § 246-851-320, filed 2/26/91, effective 3/29/91; Order PL-271, § 308-53-240, filed 7/25/77.]

WAC 246-851-330 Misleading titles or degrees. An optometrist shall not use misleading or unrelated degrees or titles in connection with the professional practice of optometry. The use of an optometric designation such as "optometrist" or "doctor of optometry" or other similar phrase shall not be used in connection with a business or activity that is not related to optometric care.

[Statutory Authority: RCW 18.54.070(2). 02-10-065, § 246-851-330, filed 4/26/02, effective 5/27/02. Statutory Authority: RCW 18.54.070. 91-06-025 (Order 119B), recodified as § 246-851-330, filed 2/26/91, effective 3/29/91. Statutory Authority: RCW 18.54.070(5). 80-01-088 (Order PL 326), § 308-53-245, filed 12/28/79.]

WAC 246-851-350 Improper professional relationship. No doctor of optometry shall make any contracts or agreements, whether express or implied, nor engage in any arrangement with a retail dispensing optician whereby the optician or his agent shall:

(1) Pay any professional expenses for the doctor of optometry;

(2) Pay any or all of the professional fees of a doctor of optometry;

(3) Pay any commission, bonus, or rebate for volume of materials or services received from a doctor of optometry;

(4) Receive any commission, bonus or rebate for volume of materials or services furnished to a doctor of optometry;

(5) Pay any commission to the doctor of optometry in return for referral of patients to the optician;

(6) Receive any commission from a doctor of optometry in return for referral of patients to such doctor of optometry.

[Statutory Authority: RCW 18.54.070. 91-06-025 (Order 119B), recodified as § 246-851-350, filed 2/26/91, effective 3/29/91. Statutory Authority: RCW 18.54.070(5). 78-02-030 (Order PL 281), § 308-53-260, filed 1/17/78.]

WAC 246-851-370 Employed doctors of optometry, franchises and equipment use agreements. The salary, bonus or other remuneration of a doctor of optometry who is employed for professional optometric services, shall not be dependent upon the percentage or number of patients who obtain visual examinations or who have prescriptions filled. The employed optometrist, acting in the capacity of consultant, advisor or staff doctor of optometry, the optometrist who has acquired a franchise relating to the practice of optometry, and the optometrist who has a professional equipment use agreement/contract, shall at all times remain cognizant of his or her professional responsibilities and with demeanor, decorum and determination retain his or her right of independent professional judgment and title in all situations and circumstances. If at any time the right of independent professional judgment or title is abridged it shall be incumbent upon the optometrist to resign or correct his or her position as consultant, advisor or staff doctor of optometry, or to resign from or correct a franchise and/or equipment use agreement/contract relationship.

[Statutory Authority: RCW 18.54.070. 91-06-025 (Order 119B), recodified as § 246-851-370, filed 2/26/91, effective 3/29/91. Statutory Authority: RCW 18.54.070(5) and 18.54.075. 85-16-054 (Order PL 545), § 308-53-270, filed 7/31/85. Statutory Authority: RCW 18.54.070(5). 80-01-088 (Order PL 326), § 308-53-270, filed 12/28/79.]

WAC 246-851-380 Practice under another optometrist's name. Pursuant to RCW 18.53.140, when the initial right to practice under the name of any lawfully licensed optometrist is transferred to another lawfully licensed optometrist or association of lawfully licensed optometrists, the right to practice under such first optometrist's name may not be subsequently transferred by the first transferee and used by a third party or parties.

[Statutory Authority: RCW 18.54.070. 91-06-025 (Order 119B), recodified as § 246-851-380, filed 2/26/91, effective 3/29/91. Statutory Authority: RCW 18.54.070(5). 80-01-088 (Order PL 326), § 308-53-275, filed 12/28/79.]

WAC 246-851-390 Practice under trade name. The practice of optometry must be under the name of the licensed doctor of optometry. The practice of optometry under a trade name is prohibited except where an optometrist is associated with a nonprofit organization, or is associated with allied health care practitioners such as medical, dental and osteopathic professionals, or where the term "clinic" or "center" is used in conjunction with an in-state geographical location or an optometrist's name in nondeceptive manners.

[Statutory Authority: RCW 18.54.070. 92-20-019 (Order 305B), § 246-851-390, filed 9/25/92, effective 10/26/92; 91-06-025 (Order 119B), recodified as § 246-851-390, filed 2/26/91, effective 3/29/91. Statutory Authority: RCW 18.54.070(5). 80-04-054 (Order PL 331), § 308-53-280, filed 3/21/80.]

WAC 246-851-400 Certification required for use of pharmaceutical agents. (1) Licensed optometrists using pharmaceutical agents in the practice of optometry shall have a minimum of sixty hours of didactic and clinical instruction

in general and ocular pharmacology as applied to optometry, and for therapeutic purposes an additional minimum seventy-five hours of didactic and clinical instruction, and certification from an institution of higher learning, accredited by those agencies recognized by the United States Office of Education or the Council on Post-Secondary Accreditation to qualify for certification by the optometry board to use drugs for diagnostic and therapeutic purposes.

(2) Optometrists must obtain the required instructions in both diagnostic and therapeutic categories in order to be eligible to qualify for certification to use drugs for therapeutic purposes.

(3) The instruction in ocular therapeutics must cover the following subject area in order to qualify for certification training:

(a) Ocular pharmacology.

(i) Corneal barrier, blood-aqueous, /-retinal barrier.

(ii) Routes of drug administration for ocular disease.

(iii) Prescription writing and labeling.

(iv) Ocular side-effects of systemic drugs.

(b) Anti-infectives.

(i) General principles of anti-infective drugs.

(ii) Antibacterial drugs.

(iii) Treatment of ocular bacterial infections.

(iv) Antiviral drugs.

(v) Treatment of ocular viral infections.

(vi) Antifungal drugs.

(vii) Treatment of ocular fungal infections.

(viii) Antiparasitic drugs.

(ix) Treatment of parasitic eye disease.

(c) Anti-inflammatory drugs.

(i) Nonsteroidal anti-inflammatory drugs (NSAIDS).

(ii) General principles of mast-cell stabilizers.

(iii) Antihistamines.

(iv) Ocular decongestants.

(v) Treatment of allergic disease.

(vi) Treatment of inflammatory disease.

(vii) Cycloplegic drugs.

(viii) Treatment of ocular trauma.

(ix) Ocular lubricants.

(x) Hypertonic agents.

(xi) Antiglaucoma drugs.

Each subject area shall be covered in sufficient depth so that the optometrist will be informed about the general principles in the use of each drug category, drug side effects and contra indications, and for each disease covered the subjective symptoms, objective signs, diagnosis and recommended treatment and programs.

[Statutory Authority: RCW 18.54.070. 91-22-061 (Order 210B), § 246-851-400, filed 11/1/91, effective 12/2/91; 91-06-025 (Order 119B), recodified as § 246-851-400, filed 2/26/91, effective 3/29/91. Statutory Authority: RCW 18.53.010. 89-17-040 (Order PM 853), § 308-53-330, filed 8/11/89, effective 9/11/89.]

WAC 246-851-410 Drug formulary. Pursuant to RCW 18.53.010(3) the optometry board adopts the following drug formulary of topically applied drugs for diagnostic and treatment purposes.

(1) Drugs for diagnostic or therapeutic purposes.

(a) Mydriatics.

(b) Cycloplegics.

(c) Miotics.

(d) Anesthetics.

(2) Drugs for therapeutic purposes only.

(a) Anti-infectives.

(b) Antihistamines and decongestants.

(c) Ocular lubricants.

(d) Antiglaucoma and ocular hypotensives.

(e) Anti-inflammatories.

(f) Hyperosmotics.

(g) Other topical drugs approved for ocular use by the FDA.

[Statutory Authority: RCW 18.54.070. 91-06-025 (Order 119B), recodified as § 246-851-410, filed 2/26/91, effective 3/29/91. Statutory Authority: RCW 18.53.010. 89-17-040 (Order PM 853), § 308-53-340, filed 8/11/89, effective 9/11/89.]

WAC 246-851-420 Optometrist with prescriptive authorization. (1) Each prescription issued by an optometrist, who is certified by the board to prescribe legend drugs for therapeutic purposes, shall include on the prescription his/her license number and the letters "TX." These letters shall represent the authority which has been granted to the practitioner by the board and will serve to assure pharmacists that the prescription has been issued by an authorized practitioner. When the prescription is orally transmitted to a pharmacist, this information shall be included or shall be on file at the pharmacy.

(2) Any optometrist who issues a prescription without having: (a) Received appropriate certification from the board, or (b) fails to include the identifying information on the prescription, or (c) prescribes outside their scope of practice or for other than therapeutic or diagnostic purposes, or (d) violates any state or federal law or regulations applicable to prescriptions, may be found to have committed an act of unprofessional conduct and may be disciplined in accordance with the provisions of chapter 18.130 RCW.

[Statutory Authority: RCW 18.54.070. 91-06-025 (Order 119B), recodified as § 246-851-420, filed 2/26/91, effective 3/29/91; 89-22-102, § 308-53-350, filed 11/1/89, effective 12/2/89.]

WAC 246-851-430 AIDS prevention and information education requirements. Applicants must complete four clock hours of AIDS education as required in chapter 246-12 WAC, Part 8.

[Statutory Authority: RCW 43.70.280. 98-05-060, § 246-851-430, filed 2/13/98, effective 3/16/98. Statutory Authority: RCW 18.54.070 and 70.24.270. 91-22-061 (Order 210B), § 246-851-430, filed 11/1/91, effective 12/2/91. Statutory Authority: RCW 18.54.070. 91-06-025 (Order 119B), recodified as § 246-851-430, filed 2/26/91, effective 3/29/91. Statutory Authority: 1988 c 206 § 604. 89-09-027 (Order 833), § 308-53-400, filed 4/13/89.]

WAC 246-851-440 Philosophy governing voluntary substance abuse monitoring programs. The board recognizes the need to establish a means of proactively providing early recognition and treatment options for optometrists whose competency may be impaired due to the abuse of drugs or alcohol. The board intends that such optometrists be treated and their treatment monitored so that they can return to or continue to practice their profession in a way which

safeguards the public. To accomplish this the board shall approve voluntary substance abuse monitoring programs and shall refer optometrists impaired by substance abuse to approved programs as an alternative to instituting disciplinary proceedings as defined in RCW 18.130.160.

[Statutory Authority: RCW 18.54.070, 18.130.050 and 18.130.186. 92-06-030 (Order 248B), § 246-851-440, filed 2/26/92, effective 3/28/92.]

WAC 246-851-450 Terms used in WAC 246-851-440 through 246-851-470. (1) "Approved substance abuse monitoring program" or "approved monitoring program" is a program the board has determined meets the requirements of the law and the criteria established by the board in WAC 246-851-460 which enters into a contract with optometrists who have substance abuse problems regarding the required components of the optometrist's recovery activity and oversees the optometrist's compliance with these requirements. Substance abuse monitoring programs do not provide evaluation or treatment to participating optometrists.

(2) "Contract" is a comprehensive, structured agreement between the recovering optometrist and the approved monitoring program stipulating the optometrist's consent to comply with the monitoring program and its required components of the optometrist's recovery activity.

(3) "Approved treatment facility" is a facility approved by the bureau of alcohol and substance abuse, department of social and health services according to RCW 70.96A.020(2) or 69.54.030 to provide intensive alcoholism or drug treatment if located within Washington state. Drug and alcohol treatment programs located out-of-state must be equivalent to the standards required for approval under RCW 70.96A.-020(2) or 69.54.030.

(4) "Substance abuse" means the impairment, as determined by the board, of an optometrist's professional services by any addiction to, a dependency on, or the use of alcohol, legend drugs, or controlled substances.

(5) "Aftercare" is that period of time after intensive treatment that provides the optometrist and the optometrist's family with group or individual counseling sessions, discussions with other families, ongoing contact and participation in self-help groups and ongoing continued support of treatment program staff.

(6) "Support group" is a group of health care professionals meeting regularly to support the recovery of its members. The group provides a confidential setting with a trained and experienced health care professional facilitator in which optometrists may safely discuss drug diversion, licensure issues, return to work and other professional issues related to recovery.

(7) "Twelve step groups" are groups such as alcoholics anonymous, narcotics anonymous and related organizations based on a philosophy of anonymity, belief in a power outside of oneself, a peer group association, and self-help.

(8) "Random drug screens" are laboratory tests to detect the presence of drugs of abuse in body fluids which are performed at irregular intervals not known in advance by the person being tested.

(9) "Health care professional" is an individual who is licensed, certified, or registered in Washington to engage in the delivery of health care to patients.

[Statutory Authority: RCW 18.54.070, 18.130.050 and 18.130.186. 92-06-030 (Order 248B), § 246-851-450, filed 2/26/92, effective 3/28/92.]

WAC 246-851-460 Approval of substance abuse monitoring programs. The board shall approve the monitoring program(s) which shall participate in the board's substance abuse monitoring program. A monitoring program approved by the board may be contracted with an entity outside the department but within the state, out-of-state, or a separate structure within the department.

(1) The approved monitoring program shall not provide evaluation or treatment to the participating optometrists.

(2) The approved monitoring program staff shall have the qualifications and knowledge of both substance abuse and the practice of optometry as defined in this chapter to be able to evaluate:

(a) Clinical laboratories;

(b) Laboratory results;

(c) Providers of substance abuse treatment, both individuals and facilities;

(d) Support groups;

(e) The optometry work environment; and

(f) The ability of the optometrist to practice with reasonable skill and safety.

(3) The approved monitoring program shall enter into a contract with the optometrist and the board to oversee the optometrist's compliance with the requirements of the program.

(4) The approved monitoring program may make exceptions to individual components of the contract on an individual basis.

(5) The approved monitoring program staff shall determine, on an individual basis, whether an optometrist will be prohibited from engaging in the practice of optometry for a period of time and what restrictions, if any, are placed on the optometrist's practice.

(6) The approved monitoring program shall maintain records on participants.

(7) The approved monitoring program shall be responsible for providing feedback to the optometrist as to whether treatment progress is acceptable.

(8) The approved monitoring program shall report to the board any optometrist who fails to comply with the requirement of the monitoring program.

(9) The approved monitoring program shall receive from the board guidelines on treatment, monitoring, and limitations on the practice of optometry for those participating in the program.

[Statutory Authority: RCW 18.54.070, 18.130.050 and 18.130.186. 92-06-030 (Order 248B), § 246-851-460, filed 2/26/92, effective 3/28/92.]

WAC 246-851-470 Participation in approved substance abuse monitoring program. (1) In lieu of disciplinary action, the optometrist may accept board referral into the approved substance abuse monitoring program.

(a) The optometrist shall undergo a complete physical and psychosocial evaluation before entering the approved monitoring program. This evaluation will be performed by health care professional(s) with expertise in chemical depen-

dency. The person(s) performing the evaluation shall not also be the provider of the recommended treatment.

(b) The optometrist shall enter into a contract with the board and the approved substance abuse monitoring program to comply with the requirements of the program which shall include, but not be limited to:

(i) The optometrist shall undergo intensive substance abuse treatment in an approved treatment facility.

(ii) The optometrist shall agree to remain free of all mind-altering substances including alcohol except for medications prescribed by an authorized prescriber as defined in RCW 69.41.030 and 69.50.101.

(iii) The optometrist shall complete the prescribed aftercare program of the intensive treatment facility, which may include individual and/or group psychotherapy.

(iv) The optometrist shall cause the treatment counselor(s) to provide reports to the approved monitoring program at specified intervals. Reports shall include treatment, prognosis, and goals.

(v) The optometrist shall submit to random drug screening as specified by the approved monitoring program.

(vi) The optometrist shall attend support groups facilitated by a health care professional and/or twelve step group meetings as specified by the contract.

(vii) The optometrist shall comply with specified employment conditions and restrictions as defined by the contract.

(viii) The optometrist shall sign a waiver allowing the approved monitoring program to release information to the board if the optometrist does not comply with the requirements of this contract.

(c) The optometrist is responsible for paying the costs of the physical and psychosocial evaluation, substance abuse treatment, and random drug screens.

(d) The optometrist may be subject to disciplinary action under RCW 18.130.160 if the optometrist does not consent to be referred to the approved monitoring program, does not comply with specified employment restrictions, or does not successfully complete the program.

(2) An optometrist who is not being investigated by the board or subject to current disciplinary action or currently being monitored by the board for substance abuse may voluntarily participate in the approved substance abuse monitoring program without being referred by the board. Such voluntary participants shall not be subject to disciplinary action under RCW 18.130.160 for their substance abuse, and shall not have their participation made known to the board if they meet the requirements of the approved monitoring program:

(a) The optometrist shall undergo a complete physical and psychological evaluation before entering the approved monitoring program. This evaluation shall be performed by health care professional(s) with expertise in chemical dependency. The person(s) performing the evaluation shall not also be the provider of the recommended treatment.

(b) The optometrist shall enter into a contract with the approved substance abuse monitoring program to comply with the requirements of the program which shall include, but not be limited to:

(i) The optometrist shall undergo intensive substance abuse treatment in an approved treatment facility.

(ii) The optometrist shall agree to remain free of all mind-altering substances including alcohol except for medications prescribed by an authorized prescriber, as defined in RCW 69.41.030 and 69.50.101.

(iii) The optometrist shall complete the prescribed aftercare program of the intensive treatment facility, which may include individual and/or group psychotherapy.

(iv) The optometrist shall cause the treatment counselor(s) to provide reports to the approved monitoring program at specified intervals. Reports shall include treatment, prognosis, and goals.

(v) The optometrist shall submit to random drug screening as specified by the approved monitoring program.

(vi) The optometrist shall attend support groups facilitated by a health care professional and/or twelve step group meetings as specified by the contract.

(vii) The optometrist shall comply with employment conditions and restrictions as defined by the contract.

(viii) The optometrist shall sign a waiver allowing the approved monitoring program to release information to the board if the optometrist does not comply with the requirements of this contract.

(c) The optometrist is responsible for paying the costs of the physical and psychosocial evaluation, substance abuse treatment, and random drug screens.

(3) The treatment and pretreatment records of license holders referred to or voluntarily participating in approved monitoring programs shall be confidential, shall be exempt from RCW 42.17.250 through 42.17.450 and shall not be subject to discovery by subpoena or admissible as evidence except for monitoring records reported to the disciplinary authority for cause as defined in subsections (1) and (2) of this section. Records held by the board under this section shall be exempt from RCW 42.17.250 through 42.17.450 and shall not be subject to discovery by subpoena except by the license holder.

[Statutory Authority: RCW 18.54.070, 18.130.050 and 18.130.186. 92-06-030 (Order 248B), § 246-851-470, filed 2/26/92, effective 3/28/92.]

WAC 246-851-490 Examination and licensure. To qualify for licensure in this state a candidate must:

(1) Successfully complete Parts I, II, and III of the National Board of Examiners in Optometry (NBEO) examinations; the Part III having been administered and successfully completed after January 1, 1993;

(2) Applicants who completed the NBEO Part II examination prior to January 1, 1993, must successfully complete the International Association of Examiners in Optometry (IAB) examination in treatment and management of ocular disease; and

(3) Successfully complete a jurisprudence questionnaire; and

(4) Be a graduate of a state accredited high school or equivalent; and

(5) Be a graduate of a school or college of optometry accredited by the Council on Optometric Education of the American Optometric Association and approved by the Washington state board of optometry; and

(6) Be of good moral character.

[Statutory Authority: RCW 18.54.070(2). 96-20-087, § 246-851-490, filed 10/1/96, effective 11/1/96. Statutory Authority: RCW 18.54.070. 95-14-114, § 246-851-490, filed 6/30/95, effective 7/31/95; 92-20-019 (Order 305B), § 246-851-490, filed 9/25/92, effective 10/26/92; 92-06-030 (Order 248B), § 246-851-490, filed 2/26/92, effective 3/28/92.]

WAC 246-851-500 Credentialing by endorsement. A license to practice optometry may be issued without examination to an individual licensed in another state that has licensing standards substantially equivalent to those in Washington.

(1) The license may be issued upon receipt of:

(a) Documentation from the state in which the applicant is licensed indicating that the state's licensing standards are substantially equivalent to the licensing standards currently applicable in Washington state;

(b) A completed application form with application fees;

(c) Verification from all states in which the applicant holds a license, whether active or inactive, indicating that the applicant is not subject to charges or disciplinary action for unprofessional conduct or impairment; and

(d) Certification that the applicant has read chapters 18.53, 18.54, 18.195 and 18.130 RCW, and chapters 246-851 and 246-852 WAC.

(2) The board may require additional information as needed to determine if an applicant is eligible for credentialing by endorsement.

[Statutory Authority: RCW 18.54.070(2). 96-20-087, § 246-851-500, filed 10/1/96, effective 11/1/96. Statutory Authority: RCW 18.54.070. 95-14-114, § 246-851-500, filed 6/30/95, effective 7/31/95; 92-20-019 (Order 305B), § 246-851-500, filed 9/25/92, effective 10/26/92.]

WAC 246-851-520 Contact lens prescription defined. A contact lens prescription is a written, signed order from an optometrist to another optometrist, physician, or dispensing optician describing optical and physical characteristics of the contact lenses to be dispensed. It shall be based upon a comprehensive vision and eye health examination, followed by a diagnostic or trial evaluation, and a final evaluation of the contact lens on the eye by a prescribing doctor.

[Statutory Authority: RCW 18.54.070(2). 02-10-065, § 246-851-520, filed 4/26/02, effective 5/27/02. Statutory Authority: RCW 18.54.070. 92-20-048 (Order 308B), § 246-851-520, filed 9/30/92, effective 10/31/92.]

WAC 246-851-550 Sexual misconduct. (1) An optometrist shall not engage in sexual contact or sexual activity with a current patient.

(a) A current patient is a patient who has received professional services from the optometrist within the last three years and whose patient record has not been transferred to another optometrist or health care professional.

(b) A referral of the patient record must be in writing and with the knowledge of both the patient and the optometrist or health care practitioner to whom the record is transferred.

(2) The optometrist shall never engage in sexually harassing or demeaning behavior with current or former patients.

[Statutory Authority: RCW 18.54.070. 94-04-041, § 246-851-550, filed 1/27/94, effective 2/27/94.]

WAC 246-851-560 Adjudicative proceedings. The board of optometry adopts the model procedural rules for adjudicative proceedings of the department of health contained in chapter 246-11 WAC.

[Statutory Authority: RCW 18.54.070, 18.130.050(1). 95-04-084, § 246-851-560, filed 1/31/95, effective 3/3/95.]

WAC 246-851-990 Optometry fees and renewal cycle. (1) Licenses must be renewed every year on the practitioner's birthday as provided in chapter 246-12 WAC, Part 2.

(2) The following nonrefundable fees will be charged:

Title of Fee	Fee
Application	$125.00
Out-of-state seminar	100.00
License renewal	100.00
Late renewal penalty	50.00
Expired license reissuance	50.00
Duplicate license	15.00
Certification of license	25.00

[Statutory Authority: RCW 43.70.250. 99-08-101, § 246-851-990, filed 4/6/99, effective 7/1/99. Statutory Authority: RCW 43.70.280. 98-05-060, § 246-851-990, filed 2/13/98, effective 3/16/98. Chapter 246-852 WAC
CONSUMER ACCESS TO VISION CARE

WAC

WAC 246-852-010 Duties of practitioners pursuant to chapter 106, Laws of 1994. (1) Prescribers, including ophthalmologists and optometrists, under chapters 18.53, 18.57, or 18.71 RCW:

(a) When performing an eye examination including the determination of the refractive condition of the eye, shall provide the patient a copy of the prescription at the conclusion of the eye examination.

(b) Shall, if requested by the patient, at the time of the eye examination, also determine the appropriateness of contact lenses wear and include a notation of "OK for Contacts" or similar language on the prescription if the prescriber would have fitted the patient him or herself, if the patient has no contraindications for contact lenses.

(c) Shall inform the patient that failure to complete the initial fitting and obtain a follow-up evaluation by a prescriber within six months of the exam will void the "OK for Contacts" portion of the prescription.

(d) Shall provide a verbal explanation to the patient if the prescriber determines the ocular health of the eye presents a contraindication for contact lenses. Documentation of contraindication will also be maintained in the patient's record.

(e) May exclude categories of contact lenses where clinically indicated.

(f) Shall not expire prescriptions in less than two years, unless a shorter time period is warranted by the ocular health of the eye. If a prescription is to expire in less than two years, an explanatory notation must be made by the prescriber in the patient's record and a verbal explanation given to the patient at the time of the eye examination.

(g) Shall comply with WAC 246-852-020.

(2) When conducting a follow-up evaluation for contact lenses fitted and dispensed by another practitioner, the prescriber:

(a) Shall indicate on the written prescription, "follow-up completed" or similar language, and include his or her name and date of the follow-up;

(b) May charge a reasonable fee at the time the follow-up evaluation is performed.

(3) Opticians under chapter 18.34 RCW:

(a) May perform mechanical procedures and measurements necessary to adapt and fit contact lenses from a written prescription consisting of the refractive powers and a notation of "OK for Contacts" or similar language within six months of the eye examination date.

(b) Shall notify patients in writing that a prescriber is to evaluate the initial set of contact lenses on the eye within six months of the eye examination or the "OK for Contacts" portion of the prescription is void and replacement contact lenses will not be dispensed. The patient shall be requested to sign the written notification. The signed or unsigned notification will then be dated and placed in the patient's records.

(4) If the patient is fitted by a practitioner other than the initial prescriber, the contact lens specifications shall be provided to the patient and to a prescriber performing the follow-up evaluation.

(5) When the follow-up evaluation is completed, the approved contact lens specifications shall become a valid prescription with the signature of the evaluating prescriber. The patient shall be able to obtain replacement lenses, from this finalized prescription, for the remainder of the prescription period.

(6) All fitters and dispensers shall distribute safety pamphlets to all contact lens patients designed to inform the patient of consumer and health-related decisions.

[Statutory Authority: 1994 c 106 § 6. 94-17-101, § 246-852-010, filed 8/17/94, effective 9/17/94.]

WAC 246-852-020 Prescription for corrective lenses. (1) A prescription from a prescriber for corrective lenses shall at a minimum include:

(a) Patient name.

(b) Prescriber's name, address, professional license number, phone number and/or facsimile number.

(c) Spectacle prescription.

(d) Prescription expiration date.

(e) Date of eye exam.

(f) Signature of prescriber.

(2) If the patient requests contact lenses and has received an eye examination for contact lenses, the prescription shall also include:

(a) The notation "OK for Contacts" or similar language indicating there are no contraindications for contacts.

(b) Exclusion of categories of contact lenses, if any.

(c) Notation that the "OK for Contacts" portion of the prescription becomes void if the patient fails to complete the initial fitting and obtain the follow-up evaluation by a prescriber within the six-month time period.

(3) When the follow-up evaluation is completed, the approved contact lens specifications shall become a valid prescription with the signature of the evaluating prescriber. The patient shall be able to obtain replacement lenses, from this finalized prescription, for the remainder of the prescription period.

[Statutory Authority: 1994 c 106 § 6. 94-17-101, § 246-852-020, filed 8/17/94, effective 9/17/94.]

WAC 246-852-030 Transmittal of patient information and records. The finalized prescription of the contact lens specifications shall be available to the patient or the patient's designated practitioner for replacement lenses and may be transmitted by telephone, facsimile or mail or provided directly to the patient in writing. The initial prescriber may request and receive the finalized contact lens specifications, if the initial prescriber does not perform the fitting and follow-up evaluation.

[Statutory Authority: 1994 c 106 § 6. 94-17-101, § 246-852-030, filed 8/17/94, effective 9/17/94.]

WAC 246-852-040 Retention of patient contact lens records. (1) Practitioners shall maintain patient records for a minimum of five years. The records shall include the following which adequately reflects the level of care provided by the practitioners:

(a) The written prescription.

(b) Dioptric power.

(c) Lens material, brand name and/or manufacturer.

(d) Base curve (inside radius of curvature).

(e) Diameter.

(f) Color (when applicable).

(g) Thickness (when applicable).

(h) Secondary/peripheral curves (when applicable).

(i) Special features equivalent to variable curves, fenestration or coating.

(j) Suggested wearing schedule and care regimen.

(2) Opticians' records shall additionally include the following if fitting contact lenses:

(a) Documentation of written advisement to the patient of the need to obtain a follow-up evaluation by a prescriber.

(3) Prescribers' records shall additionally include the following:

(a) Documentation of contraindications which would prohibit contact lens wear and documentation that contraindications were explained to the patient by the prescriber.

(b) Explanatory notation of the reasons why a prescription has an expiration date of less than two years, and documentation that the reasons were explained to the patient at the time of the eye examination.

[Statutory Authority: 1994 c 106 § 6. 94-17-101, § 246-852-040, filed 8/17/94, effective 9/17/94.]

WAC 246-853-025 Special purpose examination. (1) The board of osteopathic medicine and surgery, upon review of an application for licensure pursuant to RCW 18.57.130 or reinstatement of an inactive license, may require an applicant to pass a special purpose examination, e.g., SPEX, and/or any other examination deemed appropriate. An applicant may be required to take an examination when the board has concerns with the applicant's ability to practice competently for reasons which may include but are not limited to the following:

(a) Resolved or pending malpractice suits;

(b) Pending action by another state licensing authority;

(c) Actions pertaining to privileges at any institution; or

(d) Not having practiced for an interval of time.

(2) As a result of a determination in a disciplinary proceeding a licensee may be required to pass the SPEX examination.

(3) The minimum passing score on the SPEX examination shall be seventy-five. The passing score for any other examination under this rule shall be determined by the board.

[Statutory Authority: RCW 18.57.005 and 18.130.050. 94-15-068, § 246-853-025, filed 7/19/94, effective 8/19/94. Statutory Authority: RCW 18.57.005 and chapter 18.57 RCW. 92-20-001 (Order 303B), § 246-853-025, filed 9/23/92, effective 10/24/92.]

WAC 246-853-030 Acceptable intern or residency programs. The board accepts the following training programs.

(1) Nationally approved one-year internship programs;

(2) The first year of a residency program approved by the American Osteopathic Association, the American Medical Association or by their recognized affiliate residency accrediting organizations.

[Statutory Authority: RCW 18.57.005. 90-24-055 (Order 100B), recodified as § 246-853-030, filed 12/3/90, effective 1/31/91. Statutory Authority: 1979 c 117 § 3(3). 79-12-068 (Order PL 321), § 308-138-065, filed 11/29/79.]

WAC 246-853-045 Inactive credential. A practitioner may obtain an inactive credential. Refer to the requirements of chapter 246-12 WAC, Part 4.

[Statutory Authority: RCW 43.70.280. 98-05-060, § 246-853-045, filed 2/13/98, effective 3/16/98. Statutory Authority: RCW 18.57.005 and chapter 18.57 RCW. 92-20-001 (Order 303B), § 246-853-045, filed 9/23/92, effective 10/24/92.]

WAC 246-853-050 Ethical considerations. The following acts and practices are unethical and unprofessional conduct warranting appropriate disciplinary action:

(1) The division or "splitting" of fees with other professionals or nonprofessionals as prohibited by chapter 19.68 RCW. Specifically, a person authorized by this board shall not:

(a) Employ another to so solicit or obtain, or remunerate another for soliciting or obtaining, patient referrals.

(b) Directly or indirectly aid or abet an unlicensed person to practice acupuncture or medicine or to receive compensation therefrom.

(2) Use of testimonials, whether paid for or not, to solicit or encourage use of the licensee's services by members of the public.

(3) Making or publishing, or causing to be made or published, any advertisement, offer, statement or other form of representation, oral or written, which directly or by implication is false, misleading or deceptive.

[Statutory Authority: RCW 18.57.005. 90-24-055 (Order 100B), recodified as § 246-853-050, filed 12/3/90, effective 1/31/91. Statutory Authority: RCW 18.57A.020. 79-02-011 (Order 297), § 308-138-180, filed 1/11/79.]

WAC 246-853-060 Continuing professional education required.

[Statutory Authority: RCW 43.70.280. 98-05-060, § 246-853-060, filed 2/13/98, effective 3/16/98. Statutory Authority: RCW 18.57.005. 90-24-055 (Order 100B), recodified as § 246-853-060, filed 12/3/90, effective 1/31/91. Statutory Authority: RCW 18.57.005, 18.57A.020 and 18.57A.070. 84-05-011 (Order PL 457), § 308-138-200, filed 2/7/84. Statutory Authority: 1979 c 117 § 3(4). 79-12-066 (Order 324), § 308-138-200, filed 11/29/79.]

WAC 246-853-070 Categories of creditable continuing professional education activities. The following are categories of creditable continuing medical education activities approved by the board. The credits must be earned in the thirty-six month period preceding application for renewal of licensure. One clock hour shall equal one credit hour for the purpose of satisfying the one hundred fifty hour continuing professional education requirement.

(1) Category 1 - A minimum of sixty credit hours of the total one hundred fifty hour requirements are mandatory under this general category.

(a) Category 1-A - Formal educational programs sponsored by nationally recognized osteopathic or medical institutions, organizations and their affiliates.

Examples of recognized sponsors include but are not limited to:

Accredited osteopathic or medical schools and hospitals.

Osteopathic or medical societies and specialty practice organizations.

Continuing medical education institutes.

Governmental health agencies and institutions.

Residencies, fellowships and preceptorships.

(b) Category 1-B - Preparation in publishable form of an original scientific paper (defined as one which reflects a search of the literature, appends a bibliography, and contains original data gathered by the author) and initial presentation before a postdoctoral audience qualified to critique the author's statements. Maximum allowable credit for the initial presentation will be ten credit hours per scientific paper. A copy of the paper in publishable form shall be submitted to the board. Publication of the above paper or another paper in a professional journal approved by the board may receive credits as approved by the board up to a maximum of fifteen credit hours per scientific paper.

(c) Category 1-C - Serving as a teacher, lecturer, preceptor or moderator-participant in any formal educational program. Such teaching would include classes in colleges of osteopathic medicine and medical colleges and lecturing to hospital interns, residents and staff. Total credits allowed under Category 1-C are forty-five per three-year period, with one hour's credit for each hour of actual instruction.

(A) Category 2-A - Home study - The board strongly believes that participation in formal professional education programs is essential in fulfilling a physician's total education needs. The board is also concerned that the content and educational quality of many unsolicited home study materials are not subject to impartial professional review and evaluation. It is the individual physician's responsibility to select home study materials that will be of actual benefit. For these reasons, the board has limited the number of credits which may be granted for home study, and has adopted strict guidelines in granting these credits.

Reading - Credits may be granted for reading the Journal of the AOA, and other selected journals published by recognized osteopathic organizations. One-half credit per issue is granted for reading alone. An additional one-half credit per issue is granted if the quiz found in the AOA Journal is completed and returned to the division of continuing medical education. Credit for all other reading is limited to recognized scientific journals listed in *Index Medicus.* One-half credit per issue is granted for reading these recognized journals.

Listening - Credits may be granted for listening to programs distributed by the AOA audio-educational service. Other audio-tape programs sponsored by nationally recog-

nized organizations and companies are eligible for credit. One-half credit per tape program may be granted. An additional one-half credit may be granted for each AOA audio-educational service program if the quiz card for the tape found in the AOA Journal is completed and returned.

Other home study courses - Subject-oriented and refresher home study courses and programs sponsored by recognized professional organizations are eligible for credit. The number of credit hours indicated by the sponsor will be accepted by the board.

A maximum of ninety credit hours per three-year period may be granted for all home study activities under Category 2-A.

(B) Category 2-B - Preparation and personal presentation of a scientific exhibit at a county, regional, state or national professional meeting. Total credits allowed under Category 2-B are thirty per three-year period, with ten credits granted for each new and different scientific exhibit. Appropriate documentation must be submitted with the request for credit.

(C) Category 2-C - All other programs and modalities of continuing professional education. Included under this category are informal educational activities such as observation at medical centers; programs dealing with experimental and investigative areas of medical practice, and programs conducted by non-recognized sponsors.

Total credits allowed under Category 2-C are thirty hours per three-year period.

[Statutory Authority: RCW 18.57.005. 90-24-055 (Order 100B), recodified as § 246-853-070, filed 12/3/90, effective 1/31/91. Statutory Authority: 1979 c 117 § 3(4). 79-12-066 (Order 324), § 308-138-210, filed 11/29/79.]

WAC 246-853-080 Continuing education. (1) Licensed osteopathic physicians and surgeons must complete one hundred fifty hours of continuing education every three years as required in chapter 246-12 WAC, Part 7.

(2) Certification of compliance with the requirement for continuing medical education of the American Osteopathic Association, or receipt of the AMA physicians recognitions award or a current certification of continuing medical education from medical practice academies shall be deemed sufficient to satisfy the requirements of these regulations.

(3) Original certification or recertification within the previous six years by a specialty board will be considered as evidence of equivalent compliance with these continuing professional education requirements.

[Statutory Authority: RCW 43.70.280. 98-05-060, § 246-853-080, filed 2/13/98, effective 3/16/98. Statutory Authority: RCW 18.57.005. 90-24-055 (Order 100B), recodified as § 246-853-080, filed 12/3/90, effective 1/31/91. Statutory Authority: 1979 c 117 § 3(4). 79-12-066 (Order 324), § 308-138-220, filed 11/29/79.]

WAC 246-853-090 Prior approval not required. (1) It will not be necessary for a physician to inquire into the prior approval of any continuing medical education. The board will accept any continuing professional education that reasonably falls within these regulations and relies upon each individual physician's integrity in complying with this requirement.

(2) Continuing professional education program sponsors need not apply for nor expect to receive prior board approval for continuing professional education programs. The continuing professional education category will depend solely upon the status of the organization or institution. The number of creditable hours may be determined by counting the contact hours of instruction and rounding to the nearest quarter hour. The board relies upon the integrity of program sponsors to present continuing professional education that constitutes a meritorious learning experience.

[Statutory Authority: RCW 18.57.005. 90-24-055 (Order 100B), recodified as § 246-853-090, filed 12/3/90, effective 1/31/91. Statutory Authority: 1979 c 117 § 3(4). 79-12-066 (Order 324), § 308-138-230, filed 11/29/79.]

WAC 246-853-100 Prohibited publicity and advertising. An osteopathic physician shall not use or allow to be used any form of public communications or advertising connected with his or her profession or in his or her professional capacity as an osteopathic physician which:

(1) Is false, fraudulent, deceptive or misleading;

(2) Uses testimonials;

(3) Guarantees any treatment or result;

(4) Makes claims of professional superiority;

(5) States or includes prices for professional services except as provided for in WAC 246-853-110;

(6) Fails to identify the physician as an osteopathic physician as described in RCW 18.57.140;

(7) Otherwise exceeds the limits of WAC 246-853-110.

[Statutory Authority: RCW 18.57.005. 91-20-120 (Order 199B), § 246-853-100, filed 9/30/91, effective 10/31/91; 90-24-055 (Order 100B), recodified as § 246-853-100, filed 12/3/90, effective 1/31/91; 85-22-016 (Order PL 562), § 308-138-300, filed 10/30/85. Statutory Authority: 1979 c 117 § 3(5). 79-12-064 (Order PL 322), § 308-138-300, filed 11/29/79.]

WAC 246-853-110 Permitted publicity and advertising. To facilitate the process of informed selection of a physician by potential patients, a physician may publish or advertise the following information, provided that the information disclosed by the physician in such publication or advertisement complies with all other ethical standards promulgated by the board;

(1) Name, including name of professional service corporation or clinic, and names of professional associates, addresses and telephone numbers;

(2) Date and place of birth;

(3) Date and fact of admission to practice in Washington and other states;

(4) Accredited schools attended with dates of graduation, degrees and other scholastic distinction;

(5) Teaching positions;

(6) Membership in osteopathic or medical fraternities, societies and associations;

(7) Membership in scientific, technical and professional associations and societies;

(8) Whether credit cards or other credit arrangements are accepted;

(9) Office and telephone answering service hours;

(10) Fee for an initial examination and/or consultation;

(11) Availability upon request of a written schedule of fees or range of fees for specific services;

(12) The range of fees for specified routine professional services, provided that the statement discloses that the specific fee within the range which will be charged will vary

depending upon the particular matter to be handled for each patient, and the patient is entitled without obligation to an estimate of the fee within the range likely to be charged;

(13) fixed fees for specified routine professional services, the description of which would not be misunderstood by or be deceptive to a prospective patient, provided that the statement discloses that the quoted fee will be available only to patients whose matters fall into the services described, and that the client is entitled without obligation to a specific estimate of the fee likely to be charged.

[Statutory Authority: RCW 18.57.005. 90-24-055 (Order 100B), recodified as § 246-853-110, filed 12/3/90, effective 1/31/91. Statutory Authority: 1979 c 117 § 3(5). 79-12-064 (Order PL 322), § 308-138-310, filed 11/29/79.]

WAC 246-853-120 Malpractice suit reporting. Every osteopathic physician shall, within sixty days after settlement or judgment, notify the board of any and all malpractice settlements or judgments in excess of twenty thousand dollars as a result of a claim or action for damages alleged to have been caused by a physician's incompetency or negligence in the practice of osteopathic medicine. Every osteopathic physician shall also report the settlement or judgment of three or more claims or actions for damages during a year as the result of the alleged physician's incompetence or negligence in the practice of osteopathic medicine regardless of the dollar amount of the settlement or judgment.

[Statutory Authority: RCW 18.57.005. 90-24-055 (Order 100B), recodified as § 246-853-120, filed 12/3/90, effective 1/31/91. Statutory Authority: RCW 18.57A.020, 18.57.005 and 18.130.050. 88-09-030 (Order PM 723), § 308-138-320, filed 4/15/88. Statutory Authority: 1979 c 117 § 3(6). 79-12-065 (Order 323), § 308-138-320, filed 11/29/79.]

WAC 246-853-130 General provisions for mandatory reporting rules. (1) "Unprofessional conduct" shall mean the conduct described in RCW 18.130.180.

(2) "Hospital" shall mean any health care institution licensed pursuant to chapter 70.41 RCW.

(3) "Nursing home" shall mean any health care institution regulated under chapter 18.51 RCW.

(4) "Board" shall mean the Washington state board of osteopathic medicine and surgery, whose address is:

Department of Health
Professional Licensing Services
1300 Quince St., MS: EY-23
Olympia, WA 98504

(5) "Physician" shall mean an osteopathic physician and surgeon licensed pursuant to chapter 18.57 RCW.

(6) "Physician's assistant" shall mean an osteopathic physician's assistant approved pursuant to chapter 18.57A RCW.

(7) "Mentally or physically impaired practitioner" shall mean an osteopathic physician and surgeon or osteopathic physician's assistant who has been determined by a court to be mentally incompetent or mentally ill or who is unable to practice medicine with reasonable skill and safety to patients by reason of any mental or physical condition.

[Statutory Authority: RCW 18.57.005. 91-20-120 (Order 199B), § 246-853-130, filed 9/30/91, effective 10/31/91; 90-24-055 (Order 100B), recodified as § 246-853-130, filed 12/3/90, effective 1/31/91. Statutory Authority: RCW 18.57.005 and 18.130.070. 87-11-062 (Order PM 651), § 308-138-321, filed 5/20/87.]

WAC 246-853-135 Temporary practice permit. A temporary permit to practice osteopathic medicine and surgery may be issued to an individual licensed in another state that has substantially equivalent licensing standards to those in Washington.

(1) The temporary permit may be issued upon receipt of:

(a) Documentation from the reciprocal state that the licensing standards used for issuing the license are substantially equivalent to the current Washington licensing standards;

(b) A completed application form on which the applicant indicates he or she wishes to receive a temporary permit and application and temporary permit fees;

(c) Verification of all state licenses, whether active or inactive, indicating that the applicant is not subject to charges or disciplinary action for unprofessional conduct or impairment;

(d) Verification from the federation of state medical board's disciplinary action data bank that the applicant has not been disciplined by a state board or federal agency.

(2) The temporary permit shall expire upon issuance of a license by the board or ninety days after issuance of the temporary permit, whichever occurs first.

(3) A temporary permit shall be issued only once to each applicant. An applicant who does not complete the application process shall not receive a subsequent temporary permit.

[Statutory Authority: RCW 18.57.005 and chapter 18.57 RCW. 92-20-001 (Order 303B), § 246-853-135, filed 9/23/92, effective 10/24/92.]

WAC 246-853-140 Mandatory reporting. (1) All reports required by these regulations shall be submitted to the board as soon as possible, but no later than sixty days after a determination is made.

(2) A report should contain the following information if known:

(a) The name, address, and telephone number of the person making the report.

(b) The name, address, and telephone number of the physician or physician's assistant being reported.

(c) The case number of any patient whose treatment is a subject of the report.

(d) A brief description or summary of the facts which give rise to the issuance of the report, including dates of occurrences.

(e) If court action is involved, the name of the court in which the action is filed along with the date of filing and docket number.

(f) Any further information which would aid in the evaluation of the report.

[Statutory Authority: RCW 18.57.005. 90-24-055 (Order 100B), recodified as § 246-853-140, filed 12/3/90, effective 1/31/91. Statutory Authority: RCW 18.57.005 and 18.130.070. 87-11-062 (Order PM 651), § 308-138-322, filed 5/20/87.]

WAC 246-853-150 Health care institutions. The chief administrator or executive officer of any hospital or nursing home shall report to the board when any physician's clinical

privileges are terminated or are restricted based on a determination that a physician has committed an act or acts which may constitute unprofessional conduct or that a physician may be mentally or physically impaired. Said officer shall also report if a physician accepts voluntary termination or restriction of clinical privileges in lieu of formal action based upon unprofessional conduct or upon being mentally or physically impaired.

[Statutory Authority: RCW 18.57.005. 90-24-055 (Order 100B), recodified as § 246-853-150, filed 12/3/90, effective 1/31/91. Statutory Authority: RCW 18.57.005 and 18.130.070. 87-11-062 (Order PM 651), § 308-138-323, filed 5/20/87.]

WAC 246-853-160 Medical associations or societies. The president or chief executive officer of any medical association or society within this state shall report to the board when a medical society hearing panel or committee determines that a physician or physician's assistant may have committed unprofessional conduct or that a physician or physician's assistant may not be able to practice medicine with reasonable skill and safety to patients as the result of any mental or physical condition and constitutes an apparent risk to the public health, safety, or welfare. The report required by this section shall be made without regard to whether the license holder appeals, accepts, or acts upon the termination made by the association or society. Notification of appeal shall be included.

[Statutory Authority: RCW 18.57.005. 90-24-055 (Order 100B), recodified as § 246-853-160, filed 12/3/90, effective 1/31/91. Statutory Authority: RCW 18.57.005 and 18.130.070. 87-11-062 (Order PM 651), § 308-138-324, filed 5/20/87.]

WAC 246-853-170 Health care service contractors and disability insurance carriers. The executive officer of every health care service contractor and disability insurer regulated under chapters 48.20, 48.21, 48.21A, or 48.44 RCW, shall report to the board all final determinations that an osteopathic physician may have engaged in unprofessional conduct, or by reason of mental or physical impairment may be unable to practice the profession with reasonable skill and safety.

[Statutory Authority: RCW 18.57.005. 90-24-055 (Order 100B), recodified as § 246-853-170, filed 12/3/90, effective 1/31/91. Statutory Authority: RCW 18.130.270 [18.130.070]. 88-01-104 (Order PM 698), § 308-138-325, filed 12/22/87.]

WAC 246-853-180 Courts. The board requests the assistance of all clerks of trial courts within the state to report all medical malpractice judgments and all convictions of osteopathic physicians and physician's assistants, other than minor traffic violations.

[Statutory Authority: RCW 18.57.005. 91-20-120 (Order 199B), § 246-853-180, filed 9/30/91, effective 10/31/91; 90-24-055 (Order 100B), recodified as § 246-853-180, filed 12/3/90, effective 1/31/91. Statutory Authority: RCW 18.57.005 and 18.130.070. 87-11-062 (Order PM 651), § 308-138-326, filed 5/20/87.]

WAC 246-853-190 State and federal agencies. The board requires the assistance of executive officers of any state and requests the assistance of executive officers of any federal program operating in the state of Washington, under which an osteopathic physician or physician's assistant is employed to provide patient care services, to report to the board whenever such an osteopathic physician or physician's assistant has demonstrated his/her incompetency or negligence in the practice of osteopathic medicine, or has otherwise committed unprofessional conduct, or is a mentally or physically impaired practitioner.

[Statutory Authority: RCW 18.57.005. 93-24-028, § 246-853-190, filed 11/22/93, effective 12/23/93; 91-20-120 (Order 199B), § 246-853-190, filed 9/30/91, effective 10/31/91; 90-24-055 (Order 100B), recodified as § 246-853-190, filed 12/3/90, effective 1/31/91. Statutory Authority: RCW 18.57.005 and 18.130.070. 87-11-062 (Order PM 651), § 308-138-327, filed 5/20/87.]

WAC 246-853-200 Professional review organizations. Unless prohibited by federal law, every professional review organization operating within the state of Washington shall report to the board any determinations that an osteopathic physician or osteopathic physician's assistant may have engaged in unprofessional conduct, or by reason of mental or physical impairment may be unable to practice the profession with reasonable skill and safety.

[Statutory Authority: RCW 18.57.005. 90-24-055 (Order 100B), recodified as § 246-853-200, filed 12/3/90, effective 1/31/91. Statutory Authority: RCW 18.130.270 [18.130.070]. 88-01-104 (Order PM 698), § 308-138-328, filed 12/22/87.]

WAC 246-853-210 Expired license. (1) If the license has expired for three years or less, the practitioner must meet the requirements of chapter 246-12 WAC, Part 2.

(2) If the license has expired for over three years, and the practitioner has been in active practice in another United States jurisdiction, the practitioner must:

(a) Submit verification of active practice from any other United States jurisdiction;

(b) Meet the requirements of chapter 246-12 WAC, Part 2.

(3) If the license has expired for over three years, and the practitioner has not been in active practice in another United States jurisdiction, the practitioner:

(a) May be required to be reexamined as provided in RCW 18.57.080;

(b) Must meet the requirements of chapter 246-12 WAC, Part 2.

[Statutory Authority: RCW 43.70.280. 98-05-060, § 246-853-210, filed 2/13/98, effective 3/16/98. Statutory Authority: RCW 18.57.005. 91-20-120 (Order 199B), § 246-853-210, filed 9/30/91, effective 10/31/91; 90-24-055 (Order 100B), recodified as § 246-853-210, filed 12/3/90, effective 1/31/91. Statutory Authority: RCW 18.57.005 and 18.130.070. 87-11-062 (Order PM 651), § 308-138-330, filed 5/20/87. Statutory Authority: RCW 18.57.005 and 18.57A.020. 82-17-005 (Order PL 402), § 308-138-330, filed 8/5/82.]

WAC 246-853-220 Use of drugs or autotransfusion to enhance athletic ability. (1) A physician shall not prescribe, administer or dispense anabolic steroids, growth hormones, testosterone or its analogs, human chorionic gonadotropin (HCG), other hormones, or any form of autotransfusion for the purpose of enhancing athletic ability and/or for nontherapeutic cosmetic appearance.

(2) A physician shall complete and maintain patient medical records which accurately reflect the prescription, administering or dispensing of any substance or drug

described in this rule or any form of autotransfusion. Patient medical records shall indicate the diagnosis and purpose for which the substance, drug or autotransfusion is prescribed, administered or dispensed and any additional information upon which the diagnosis is based.

(3) A violation of any provision of this rule shall constitute grounds for disciplinary action under RCW 18.130.-180(7). A violation of subsection (1) of this rule shall also constitute grounds for disciplinary action under RCW 18.130.180(6).

[Statutory Authority: RCW 18.57.005. 90-24-055 (Order 100B), recodified as § 246-853-220, filed 12/3/90, effective 1/31/91. Statutory Authority: RCW 18.57.005(2), 18.57A.020 and 18.130.050(1). 88-21-081 (Order PM 780), § 308-138-340, filed 10/19/88; 88-14-113 (Order 745), § 308-138-340, filed 7/6/88.]

WAC 246-853-221 How do advanced registered nurse practitioners qualify for prescriptive authority for Schedule II - IV drugs? Applicants must:

(1) Hold a valid and unrestricted registered nurse license.

(2) Hold or be eligible for an advanced registered nurse practitioner license with authority for legend drugs and Schedule V drugs. (See also WAC 246-840-410.) As noted in RCW 18.79.250, each advanced registered nurse practitioner prescribes within his or her scope of practice for a particular license specialty.

(3) Have a joint practice arrangement that meets requirements of WAC 246-853-222 with a physician or physicians licensed under chapter 18.71 or 18.57 RCW who holds a license without restrictions related to prescribing scheduled drugs.

(4) Submit a completed application form for Schedule II - IV endorsement on a form provided by the department of health, nursing care quality assurance commission accompanied by a fee as specified in WAC 246-840-990.

[Statutory Authority: RCW 18.57.005 and 18.57.280. 01-16-008, § 246-853-221, filed 7/19/01, effective 8/19/01.]

WAC 246-853-222 Criteria for joint practice arrangement. The joint practice arrangement shall include:

(1) The names of both the licensed advanced registered nurse practitioner and the licensed physician, both license numbers and both practice addresses;

(2) A written agreement that describes how collaboration will occur between the practitioners; and

(3) The description of the collaboration will vary according to the relationship between the advanced registered nurse practitioner and physician, but must include a description of:

(a) When the advanced registered nurse practitioner will consult with a physician;

(b) How consultation will occur (e.g., face-to-face, phone, fax, e-mail, etc.);

(c) How consultation will be documented.

(4) Joint practice arrangements may be made with more than one physician.

[Statutory Authority: RCW 18.57.005 and 18.57.280. 01-16-008, § 246-853-222, filed 7/19/01, effective 8/19/01.]

WAC 246-853-223 Endorsement of joint practice arrangements for ARNP licensure. (1) The joint practice arrangement shall be submitted by the advanced registered nurse practitioner to the department of health, nursing care quality assurance commission at the time of initial licensure or endorsement and biennially with renewal.

(2) A notice of the joint practice arrangement shall be forwarded by the nursing care quality assurance commission to either the medical quality assurance commission or to the board of osteopathic medicine and surgery for review to assure the physician's license is unrestricted. The medical quality assurance commission or the board of osteopathic medicine and surgery will notify the nursing care quality assurance commission in the event a physician who has signed a joint practice arrangement, has a license with restrictions related to prescribing scheduled drugs.

(3) The advanced registered nurse practitioner can only begin prescribing Schedule II - IV drugs after his or her license endorsement has been issued and he or she has obtained the appropriate Drug Enforcement Administration registration.

[Statutory Authority: RCW 18.57.005 and 18.57.280. 01-16-008, § 246-853-223, filed 7/19/01, effective 8/19/01.]

WAC 246-853-224 Process for joint practice arrangement termination. (1) The joint practice arrangement between the advanced registered nurse practitioner and the physician shall provide for written notice of termination of the arrangement. The nursing care quality assurance commission shall be notified of the termination. Once the joint practice arrangement is terminated, the advanced registered nurse practitioner must submit a new joint practice arrangement before resuming prescribing Schedule II - IV drugs.

(2) The nursing care quality assurance commission will notify either the medical quality assurance commission or the board of osteopathic medicine and surgery that the joint practice arrangement has been terminated.

(3) A joint practice arrangement may be terminated as a result of disciplining action taken by a disciplining authority.

(4) In the event either the advanced registered nurse practitioner or the physician is disciplined, the disciplining authority for the other party will be notified that the joint practice arrangement no longer exists due to disciplinary action.

(5) If an advanced registered nurse practitioner has multiple approved joint practice arrangements and one is terminated, he or she may continue to prescribe Schedule II - IV drugs under the other joint practice arrangement(s).

[Statutory Authority: RCW 18.57.005 and 18.57.280. 01-16-008, § 246-853-224, filed 7/19/01, effective 8/19/01.]

WAC 246-853-225 Seventy-two-hour limit. (1) Advanced registered nurse practitioners can dispense up to a seventy-two-hour supply of Schedule II - IV drugs.

(2) The seventy-two-hour limit on dispensing does not apply to prescribing Schedule II - IV drugs.

[Statutory Authority: RCW 18.57.005 and 18.57.280. 01-16-008, § 246-853-225, filed 7/19/01, effective 8/19/01.]

WAC 246-853-226 Education for prescribing Schedule II - IV drugs. Special education for advanced registered nurse practitioners is strongly recommended in the areas of pain management and drug seeking behaviors and/or addiction. Continuing education credit in these subjects may be applied to the biennial pharmacotherapeutics requirement found in WAC 246-840-450.

[Statutory Authority: RCW 18.57.005 and 18.57.280. 01-16-008, § 246-853-226, filed 7/19/01, effective 8/19/01.]

WAC 246-853-227 Jurisdiction. Nothing in WAC 246-853-221 through 246-853-226 shall be interpreted as giving a disciplining authority jurisdiction over a practitioner not licensed by that commission or board.

[Statutory Authority: RCW 18.57.005 and 18.57.280. 01-16-008, § 246-853-227, filed 7/19/01, effective 8/19/01.]

WAC 246-853-230 AIDS education and training. Applicants must complete seven clock hours of AIDS education as required in chapter 246-12 WAC, Part 8.

[Statutory Authority: RCW 43.70.280. 98-05-060, § 246-853-230, filed 2/13/98, effective 3/16/98. Statutory Authority: RCW 18.57.005. 91-20-120 (Order 199B), § 246-853-230, filed 9/30/91, effective 10/31/91; 90-24-055 (Order 100B), recodified as § 246-853-230, filed 12/3/90, effective 1/31/91. Statutory Authority: 1988 c 206 § 604. 88-23-124 (Order PM 801), § 308-138-350, filed 11/23/88.]

WAC 246-853-260 USMLE examination application deadline. (1) All applications for osteopathic physician and surgeon license by USMLE examination in the state of Washington shall be received in the office of the health professions quality assurance division, department of health, no later than September 12 for the following December examination and March 29 for the following June examination.

An applicant with extenuating circumstances for being unable to meet the deadline may petition the board for waiver of the deadline date.

(2) The examination application and fee shall be required to be received in the office of the board's designated testing administration agency no later than September 12 for the following December examination and March 29 for the following June examination.

[Statutory Authority: RCW 18.57.005 and 18.130.050. 94-15-068, § 246-853-260, filed 7/19/94, effective 8/19/94. Statutory Authority: RCW 18.57.005 and 18.130.175. 91-10-043 (Order 159B), § 246-853-260, filed 4/25/91, effective 5/26/91.]

WAC 246-853-290 Intent. It is the intent of the legislature that the board of osteopathic medicine and surgery seek ways to identify and support the rehabilitation of osteopathic physicians and surgeons and osteopathic physician assistants where practice or competency may be impaired due to the abuse of drugs or alcohol. The legislature intends that these practitioners be treated so that they can return to or continue to practice osteopathic medicine and surgery in a way which safeguards the public. The legislature specifically intends that the board of osteopathic medicine and surgery establish an alternate program to the traditional administrative proceedings against osteopathic physicians and surgeons and osteopathic physician assistants.

In lieu of disciplinary action under RCW 18.130.160 and if the board of osteopathic medicine and surgery determines that the unprofessional conduct may be the result of substance abuse, the board may refer the registrant/licensee to a voluntary substance abuse monitoring program approved by the board.

[Statutory Authority: RCW 18.57.005 and 18.130.175. 91-10-043 (Order 159B), § 246-853-290, filed 4/25/91, effective 5/26/91.]

WAC 246-853-300 Definitions used relative to substance abuse monitoring. (1) "Approved substance abuse monitoring program" or "approved monitoring program" is a program the board has determined meets the requirements of the law and rules established by the board, according to the Washington Administrative Code, which enters into a contract with osteopathic practitioners who have substance abuse problems. The approved substance abuse monitoring program oversees compliance of the osteopathic practitioner's recovery activities as required by the board. Substance abuse monitoring programs may provide evaluation and/or treatment to participating osteopathic practitioners.

(2) "Impaired osteopathic practitioner" means an osteopathic physician and surgeon or an osteopathic physician assistant who is unable to practice osteopathic medicine and surgery with judgment, skill, competence, or safety due to chemical dependence, mental illness, the aging process, loss of motor skills, or any other mental or physical condition.

(3) "Contract" is a comprehensive, structured agreement between the recovering osteopathic practitioner and the approved monitoring program wherein the osteopathic practitioner consents to comply with the monitoring program and the required components for the osteopathic practitioner's recovery activity.

(4) "Approved treatment facility" is a facility approved by the bureau of alcohol and substance abuse, department of social and health services as specified in RCW 18.130.175.

(5) "Chemical dependence/substance abuse" means a chronic progressive illness which involves the use of alcohol and/or other drugs to a degree that it interferes in the functional life of the registrant/licensee, as manifested by health, family, job (professional services), legal, financial, or emotional problems.

(6) "Drug" means a chemical substance alone or in combination, including alcohol.

(7) "Aftercare" means that period of time after intensive treatment that provides the osteopathic practitioner and the osteopathic practitioner's family with group, or individualized counseling sessions, discussions with other families, ongoing contact and participation in self-help groups, and ongoing continued support of treatment program staff.

(8) "Practitioner support group" is a group of osteopathic practitioners and/or other health care professionals meeting regularly to support the recovery of its members. The group provides a confidential setting with a trained and experienced facilitator in which participants may safely discuss drug diversion, licensure issues, return to work, and other professional issues related to recovery.

(9) "Twelve-step groups" are groups such as Alcoholics Anonymous, Narcotics Anonymous, and similar organizations.

(10) "Random drug screens" are laboratory tests to detect the presence of drugs of abuse in body fluids which are performed at irregular intervals not known in advance by the person to be tested. The collection of the body fluids must be observed by a treatment or health care professional or other board or monitoring program-approved observer.

(11) "Recovering" means that a chemically dependent osteopathic practitioner is in compliance with a treatment plan of rehabilitation in accordance with criteria established by an approved treatment facility and an approved substance abuse monitoring program.

(12) "Rehabilitation" means the process of restoring a chemically dependent osteopathic practitioner to a level of professional performance consistent with public health and safety.

(13) "Reinstatement" means the process whereby a recovering osteopathic practitioner is permitted to resume the practice of osteopathic medicine and surgery.

[Statutory Authority: RCW 18.57.005 and 18.130.175. 91-10-043 (Order 159B), § 246-853-300, filed 4/25/91, effective 5/26/91.]

WAC 246-853-310 Approval of substance abuse monitoring programs. The board will approve the monitoring program(s) which will participate in the recovery of osteopathic practitioners. The board will enter into a contract with the approved substance abuse monitoring program(s) on an annual basis.

(1) An approved monitoring program may provide evaluations and/or treatment to the participating osteopathic practitioners.

(2) An approved monitoring program staff must have the qualifications and knowledge of both substance abuse and the practice of osteopathic medicine and surgery as defined in chapter 18.57 RCW to be able to evaluate:

(a) Drug screening laboratories;

(b) Laboratory results;

(c) Providers of substance abuse treatment, both individual and facilities;

(d) Osteopathic practitioner support groups;

(e) Osteopathic practitioners' work environment; and

(f) The ability of the osteopathic practitioners to practice with reasonable skill and safety.

(3) An approved monitoring program will enter into a contract with the osteopathic practitioner and the board to oversee the osteopathic practitioner's compliance with the requirement of the program.

(4) The program staff of the approved monitoring program will evaluate and recommend to the board, on an individual basis, whether an osteopathic practitioner will be prohibited from engaging in the practice of osteopathic medicine and surgery for a period of time and restrictions, if any, on the osteopathic practitioner's access to controlled substances in the work place.

(5) An approved monitoring program shall maintain records on participants.

(6) An approved monitoring program will be responsible for providing feedback to the osteopathic practitioner as to whether treatment progress is acceptable.

(7) An approved monitoring program shall report to the board any osteopathic practitioner who fails to comply with the requirements of the monitoring program.

(8) An approved monitoring program shall provide the board with a statistical report on the program, including progress of participants, at least annually, or more frequently as requested by the board.

(9) The board shall provide the approved monitoring program guidelines on treatment, monitoring, and/or limitations on the practice of osteopathic medicine and surgery for those participating in the program.

(10) An approved monitoring program shall provide for the board a complete financial breakdown of cost for each individual osteopathic practitioner participant by usage at an interval determined by the board in the annual contract.

(11) An approved monitoring program shall provide for the board a complete annual audited financial statement.

(12) An approved monitoring program shall enter into a written contract with the board and submit monthly billing statements supported by documentation.

[Statutory Authority: RCW 18.57.005 and 18.130.175. 91-10-043 (Order 159B), § 246-853-310, filed 4/25/91, effective 5/26/91.]

WAC 246-853-320 Participation in approved substance abuse monitoring program. (1) The osteopathic practitioner who has been investigated by the board may accept board referral into the approved substance abuse monitoring program. This may occur as a result of disciplinary action.

(a) The osteopathic practitioner shall undergo a complete physical and psychosocial evaluation before entering the approved monitoring program. This evaluation is to be performed by a health care professional(s) with expertise in chemical dependency. The person(s) performing the evaluation shall not be the provider of the recommended treatment.

(b) The osteopathic practitioner shall enter into a contract with the board and the approved substance abuse monitoring program to comply with the requirements of the program which shall include, but not be limited to:

(i) The osteopathic practitioner will undergo intensive substance abuse treatment in an approved treatment facility.

(ii) The osteopathic practitioner shall agree to abstain from the use of all mind-altering substances, including alcohol, except for medications prescribed by an authorized prescriber, as defined in RCW 69.41.030 and 69.50.101. Said prescriber shall notify the monitoring program of all drugs prescribed within fourteen days of the date care was provided.

(iii) The osteopathic practitioner must complete the prescribed aftercare program of the intensive treatment facility. This may include individual and/or group psychotherapy.

(iv) The osteopathic practitioner must cause the treatment counselor(s) and authorized prescriber(s) to provide reports to the appropriate monitoring program at specified intervals. Reports shall include treatment prognosis, goals, drugs prescribed, etc.

(v) The osteopathic practitioner shall submit to random drug screening, with observed specimen collection, as specified by the approved monitoring program.

(vi) The osteopathic practitioner shall attend osteopathic practitioner support groups facilitated by health care professionals and/or twelve-step group meetings as specified by the contract.

(vii) The osteopathic practitioner shall comply with specified employment conditions and restrictions as defined by the contract.

(viii) The osteopathic practitioner shall sign a waiver allowing the approved monitoring program to release information to the board if the osteopathic practitioner does not comply with the requirements of the contract.

(c) The osteopathic practitioner is responsible for paying the costs of the physical and psychosocial evaluation, substance abuse treatment, random urine screens, and other personal expenses incurred in compliance with the contract.

(d) The osteopathic practitioner may be subject to disciplinary action under RCW 18.130.160 and 18.130.180 if the osteopathic practitioner does not consent to be referred to the approved monitoring program, does not comply with specified practice restrictions, or does not successfully complete the program.

(2) An osteopathic practitioner who is not being investigated by the board or subject to current disciplinary action, not currently being monitored by the board for substance abuse, may voluntarily participate in the approved substance abuse monitoring program without being referred by the board. Such voluntary participants shall not be subject to disciplinary action under RCW 18.130.160 and 18.130.180 for their substance abuse, and shall not have their participation made known to the board if they continue to satisfactorily meet the requirements of the approved monitoring program:

(a) The osteopathic practitioner shall undergo a complete physical and psychosocial evaluation before entering the approved monitoring program. This evaluation will be performed by a health care professional with expertise in chemical dependency. The person(s) performing the evaluation shall not also be the provider of the recommended treatment.

(b) The osteopathic practitioner shall enter into a contract with the approved substance abuse monitoring program to comply with the requirements of the program which shall include, but not be limited to:

(i) The osteopathic practitioner will undergo intensive substance abuse treatment in an approved treatment facility.

(ii) The osteopathic practitioner will agree to abstain from the use of all mind-altering substances, including alcohol, except for medications prescribed by an authorized prescriber, as defined in RCW 69.41.030 and 69.50.101. Said prescriber shall notify the monitoring program of all drugs prescribed within fourteen days of the date care was provided.

(iii) The osteopathic practitioner must complete the prescribed aftercare program of the intensive treatment facility. This may include individual and/or group psychotherapy.

(iv) The osteopathic practitioner must cause the treatment counselor(s) and authorized prescriber(s) to provide reports to the approved monitoring program at specified intervals. Reports shall include treatment prognosis, goals, drugs prescribed, etc.

(v) The osteopathic practitioner shall submit to random drug screening, with observed specimen collection, as specified by the approved monitoring program.

(vi) The osteopathic practitioner will attend practitioner support groups facilitated by a health care professional and/or twelve-step group meetings as specified by the individual's contract.

(vii) The osteopathic practitioner will comply with specified employment conditions and restrictions as defined by the contract.

(viii) The osteopathic practitioner shall sign a waiver allowing the approved monitoring program to release information to the board if the osteopathic practitioner does not comply with the requirements of the contract. The osteopathic practitioner may be subject to disciplinary action under RCW 18.130.160 and 18.130.180 for noncompliance with the contract or if he/she does not successfully complete the program.

(c) The osteopathic practitioner is responsible for paying the costs of the physical and psychosocial evaluation, substance abuse treatment, random urine screens, and other personal expenses incurred in compliance with the contract.

[Statutory Authority: RCW 18.57.005 and 18.130.175. 91-10-043 (Order 159B), § 246-853-320, filed 4/25/91, effective 5/26/91.]

WAC 246-853-330 Confidentiality. (1) The treatment and pretreatment records of license holders referred to or voluntarily participating in approved monitoring programs shall be confidential, shall be exempt from RCW 42.17.250 through 42.17.450 and shall not be subject to discovery by subpoena or admissible as evidence except for monitoring records reported to the disciplinary authority for cause as defined in WAC 246-853-320. Records held by the board under this section shall be exempt from RCW 42.17.250 through 42.17.450 and shall not be subject to discovery by subpoena except by the license holder.

(2) Notwithstanding subsection (1) of this section, board orders shall be subject to RCW 42.17.250 through 42.17.450.

[Statutory Authority: RCW 18.57.005 and 18.130.175. 91-10-043 (Order 159B), § 246-853-330, filed 4/25/91, effective 5/26/91.]

WAC 246-853-340 Examination appeal procedures. (1) Any candidate who takes and does not pass the osteopathic practices and principles examination, may request review of the results of the examination by the Washington state board of osteopathic medicine and surgery.

(a) The board will not modify examination results unless the candidate presents clear and convincing evidence of error in the examination content or procedure, or bias, prejudice, or discrimination in the examination process.

(b) The board will not consider any challenges to examination scores unless the total of the potentially revised score would result in issuance of a license.

(2) The procedure for requesting an informal review of examination results is as follows:

(a) The request must be in writing and must be received by the department within thirty days of the date on the letter of notification of examination results sent to the candidate.

(b) The following procedures apply to an appeal of the results of the written examination.

(i) In addition to the written request required in (a) of this subsection, the candidate must appear personally in the department office in Olympia for an examination review session. The candidate must contact the department to make an appointment for the examination review session.

(ii) The candidate's incorrect answers will be available during the review session. The candidate will be given a form to complete in defense of the examination answers. The candidate must specifically identify the challenged questions on the examination and must state the specific reason(s) why the candidate believes the results should be modified.

(iii) The candidate may not bring in any resource material for use while completing the informal review form.

(iv) The candidate will not be allowed to remove any notes or materials from the office upon completing the review session.

(c) The board will schedule a closed session meeting to review the examinations, score sheets, and forms completed by the candidate. The candidate will be notified in writing of the board's decision.

(i) The candidate will be identified only by candidate number for the purpose of this review.

(ii) Letters of referral or requests for special consideration will not be read or considered by the board.

(d) Any candidate not satisfied with the results of the informal examination review may request a formal hearing before the board to challenge the examination results.

(3) The procedures for requesting a formal hearing are as follows:

(a) The candidate must complete the informal review process before requesting a formal hearing.

(b) The request for formal hearing must be received by the department within twenty days of the date on the notice of the results of the board's informal review.

(c) The written request must specifically identify the challenged portion(s) of the examination and must state the specific reason(s) why the candidate believes the examination results should be modified.

(d) Candidates will receive at last twenty days notice of the time and place of the formal hearing.

(e) The hearing will be restricted to the specific portion(s) of the examination the candidate had identified in the request for formal hearing.

(f) The formal hearing will be conducted pursuant to the Administrative Procedure Act, chapter 34.05 RCW.

[Statutory Authority: RCW 18.57.005 and 18.130.175. 91-10-043 (Order 159B), § 246-853-340, filed 4/25/91, effective 5/26/91.]

WAC 246-853-350 Examination conduct. Any applicant who fails to follow written or oral instructions relative to the conduct of the examination, is observed talking or attempting to give or receive information, or use unauthorized materials during any portion of the examination will be terminated from the examination and not permitted to complete it.

[Statutory Authority: RCW 18.57.005 and 18.130.175. 91-10-043 (Order 159B), § 246-853-350, filed 4/25/91, effective 5/26/91.]

WAC 246-853-400 Brief adjudicative proceedings—Denials based on failure to meet education, experience, or examination prerequisites for licensure. The board adopts RCW 34.05.482 and 34.05.485 through 34.05.494 for adjudicative proceedings requested by applicants, who are denied a license under chapters 18.57 and 18.57A RCW for failure to meet the education, experience, or examination prerequisites for licensure. The sole issue at the adjudicative proceeding shall be whether the applicant meets the education, experience, and examination prerequisites for the issuance of a license.

[Statutory Authority: RCW 18.57.005 and chapter 18.57 RCW. 92-20-001 (Order 303B), § 246-853-400, filed 9/23/92, effective 10/24/92.]

WAC 246-853-500 Adjudicative proceedings. The board adopts the model procedural rules for adjudicative proceedings as adopted by the department of health and contained in chapter 246-11 WAC, including subsequent amendments.

[Statutory Authority: RCW 18.57.005 and 18.130.050. 94-15-068, § 246-853-500, filed 7/19/94, effective 8/19/94.]

WAC 246-853-990 Osteopathic fees and renewal cycle. (1) Licenses must be renewed every year on the practitioner's birthday as provided in chapter 246-12 WAC, Part 2, except postgraduate training limited licenses.

(2) Postgraduate training limited licenses must be renewed every year to correspond to program dates.

(3) The following nonrefundable fees will be charged for osteopath:

Title of Fee	Fee
Active renewal	$475.00
Active late renewal penalty	237.50
Certification of license	50.00

(4) The following nonrefundable fees will be charged for osteopathic physician:

Endorsement application	650.00
Active license renewal	475.00
Active late renewal penalty	237.50
Active expired license reissuance	237.50
Inactive license renewal	350.00
Expired inactive license reissuance	175.00
Inactive late renewal penalty	175.00
Endorsement/state exam application	750.00
Reexam	100.00
Certification of license	50.00
Limited license application	300.00
Limited license renewal	250.00
Temporary permit application	70.00
Duplicate certificate	20.00
Substance abuse monitoring surcharge	25.00

(5) The following nonrefundable fees will be charged for osteopathic physician assistant:

Application	250.00
Renewal	200.00
Late renewal penalty	100.00
Expired license reissuance	100.00

Title of Fee	Fee
Certification of license	30.00
Practice plan	70.00
Interim permit	167.00
License after exam	83.00
Duplicate certificate	20.00
Substance abuse monitoring surcharge	25.00

DISPOSITION OF SECTIONS FORMERLY CODIFIED IN THIS CHAPTER

246-854-070 Registration renewal requirement. [Statutory Authority: RCW 18.57.005. 90-24-055 (Order 100B), recodified as § 246-854-070, filed 12/3/90, effective 1/31/91. Statutory Authority: 1988 c 206 § 604. 88-23-124 (Order PM 801), § 308-138A-060, filed 11/23/88.] Repealed by 91-20-120 (Order 199B), filed 9/30/91, effective 10/31/91. Statutory Authority: RCW 18.57.005.

246-854-100 Osteopathic physicians' assistants reregistration. [Statutory Authority: RCW 18.57.005. 90-24-055 (Order 100B), recodified as § 246-854-100, filed 12/3/90, effective 1/31/91. Statutory Authority: RCW 18.57.005(2). 89-22-065 (Order PM 863), § 308-138A-090, filed 10/31/89, effective 12/1/89.] Repealed by 93-24-028, filed 11/22/93, effective 12/23/93. Statutory Authority: RCW 18.57.005.

WAC 246-854-020 Osteopathic physician assistant program. (1) Program approval required. No osteopathic physician assistant shall be entitled to licensure who has not successfully completed a program of training approved by the board in accordance with these rules.

(2) Program approval procedures. In order for a program for training osteopathic physician assistants to be considered for approval by the board it must meet the minimal criteria for such programs established by the committee on allied health education and Accreditation Association of the American Medical Association as of 1985. The director of the program shall submit to the board a description of the course of training offered, including subjects taught and methods of teaching, entrance requirements, clinical experience provided, etc. The director shall also advise the board concerning the basic medical skills which are attained in such course, and the method by which the proficiency of the students in those skills was tested or ascertained. All program applications shall be submitted at least thirty days prior to the meeting of the board in which consideration is desired. The board may require such additional information from program sponsors as it desires.

(3) Approved programs. The board shall approve programs in terms of skills attained by its graduates. A registry of approved programs shall be maintained by the board at health professions quality assurance division in Olympia, Washington, which shall be available upon request to interested persons.

(4) Reapproval. Programs maintaining standards as defined in the "essentials" of the council of medical education of the American Medical Association will continue to be approved by the board without further review. Each approved program not maintaining the standards as defined in the "essentials" of the council of medical education of the American Medical Association will be reexamined at intervals, not to exceed three years. Approval will be continued or withdrawn following each reexamination.

(5) Additional skills. No osteopathic physician's assistant shall be licensed to perform skills not contained in the program approved by the board unless the osteopathic physician's assistant submits with his or her application a certificate by the program director or other acceptable evidence showing that he or she was trained in the additional skill for which authorization is requested, and the board is satisfied that the applicant has the additional skill and has been properly and adequately tested thereon.

WAC 246-854-030 Osteopathic physician assistant prescriptions. An osteopathic physician assistant may issue written or oral prescriptions as provided herein when approved by the board and assigned by the supervising physician.

(1) Except for schedule two controlled substances as listed under federal and state controlled substances acts, a physician assistant may issue prescriptions for a patient who is under the care of the physician responsible for the supervision of the physician assistant.

(a) Written prescriptions shall be written on the blank of the supervising physician and shall include the name, address and telephone number of the physician and physician assistant. The prescription shall also bear the name and address of the patient and the date on which the prescription was written.

(b) The physician assistant shall sign such a prescription by signing his or her own name followed by the letters "P.A." and the physician assistant license number or physician assistant drug enforcement administration registration number or, if none, the supervising physician's drug enforcement administration registration number, followed by the initials "P.A." and the physician assistant license number issued by the board.

(c) Prescriptions for legend drugs and schedule three through five controlled substances must each be approved or signed by the supervising physician prior to administration, dispensing or release of the medication to the patient, except as provided in subsection (5) of this section.

(2) A physician assistant extended privileges by a hospital, nursing home or other health care institution may, if permissible under the bylaws, rules and regulations of the institution, write medical orders, except those for schedule two controlled substances, for inpatients under the care of the physician responsible for his or her supervision.

(3) The license of a physician assistant who issues a prescription in violation of these provisions shall be subject to revocation or suspension.

(4) Physician assistants may not dispense prescription drugs to exceed treatment for forty-eight hours, except as provided in subsection (6) of this section. The medication so dispensed must comply with the state law prescription labeling requirements.

(5) Authority to issue prescriptions for legend drugs and schedule three through five controlled substances without the prior approval or signature of the supervising physician may be granted by the board to an osteopathic physician assistant who has:

(a) Provided a statement signed by the supervising physician that he or she assumes full responsibility and that he or she will review the physician assistant's prescription writing practice on an ongoing basis;

(b) A certificate from the National Commission on Certification of Physician Assistants';

(c) Demonstrated the necessity in the practice for authority to be granted permitting a physician assistant to issue prescriptions without prior approval or signature of the supervising physician.

(6) A physician assistant authorized to issue prescriptions under subsection (5) of this section may dispense medications the physician assistant has prescribed from office supplies. The physician assistant shall comply with the state laws concerning prescription labeling requirements.

WAC 246-854-040 Osteopathic physician assistant use of drugs or autotransfusion to enhance athletic ability. (1) An osteopathic physician assistant shall not prescribe, administer, or dispense anabolic steroids, growth hormones, testosterone or its analogs, human chorionic gonadotropin (HCG), other hormones, or any form of autotransfusion for the purpose of enhancing athletic ability and/or for nontherapeutic cosmetic appearance.

(2) A physician assistant shall complete and maintain patient medical records which accurately reflect the prescription, administering, or dispensing of any substance or drug described in this section or any form of autotransfusion. Patient medical records shall indicate the diagnosis and purpose for which the substance, drug, or autotransfusion is prescribed, administered, or dispensed and any additional information upon which the diagnosis is based.

(3) A violation of any provision of this section shall constitute grounds for disciplinary action under RCW 18.130.180(7). A violation of subsection (1) of this section shall also constitute grounds for disciplinary action under RCW 18.130.180(6).

WAC 246-854-080 Osteopathic physician assistant licensure. The application shall detail the education, training, and experience of the osteopathic physician assistant and provide such other information as may be required. The application shall be accompanied by a fee determined by the secretary as provided in RCW 43.70.250. Each applicant shall furnish proof satisfactory to the board of the following:

(1) That the applicant has completed an accredited physician assistant program approved by the board and is eligible to take the National Commission on Certification of Physician Assistants examination;

(2) That the applicant has not committed unprofessional conduct as defined in RCW 18.130.180; and

(3) That the applicant is physically and mentally capable of practicing as an osteopathic physician assistant with reasonable skill and safety.

[Statutory Authority: RCW 43.70.280. 98-05-060, § 246-854-080, filed 2/13/98, effective 3/16/98. Statutory Authority: RCW 18.57.005(2). 89-22-065 (Order PM 863), § 308-138A-070, filed 10/31/89, effective 12/1/89.]

WAC 246-854-090 Osteopathic physician assistant practice plan. (1) A licensed physician assistant shall not practice except pursuant to a board approved practice arrangement plan jointly submitted by the osteopathic physician assistant and osteopathic physician or physician group under whose supervision the osteopathic physician assistant will practice. A fee as determined by the secretary of the department of health sufficient to recover the cost of administering the plan review shall accompany the practice plan.

(2) When a physician group is proposed to supervise the osteopathic physician assistant, one of the osteopathic physicians from that group shall be designated as primary responsible for the supervision of the osteopathic physician assistant and the plan shall specify how supervising responsibility is to be assigned among the remaining members of the group.

(3) Limitations, number. No osteopathic physician shall supervise more than one osteopathic physician assistant without specific authorization by the board. The board shall consider the individual qualifications and experience of the physician and physician assistant, community need, and review mechanisms available in making their determination.

(4) Authorization by board, powers. In granting authorizations for the practice plan, the board may limit the authority for utilizing an osteopathic physician assistant to a specific task or tasks, or may grant specific approval in conformity with the program approved pursuant to WAC 246-854-020 and on file with the board.

(5) Limitations—Geographic limitations. No osteopathic physician assistant shall be utilized in a place other than that designated in the practice plan.

(6) Limitations—Remote practice. A practice plan proposing utilization of an osteopathic physician assistant at a place remote from the physician's regular place for meeting patients may be approved only if:

(a) There is a demonstrated need for such utilization; and

(b) Adequate provision for immediate communication between the physician and his physician assistant exists; and

(c) A mechanism has been developed and specified in the practice plan to provide for the establishment of a direct patient-physician relationship between the supervising osteopathic physician and patients with ongoing medical needs who may be seen initially by the osteopathic physician assistant; and

(d) The responsible physician spends at least one-half day per week seeing patients in the remote office site; and

(e) The remote office site reflects the osteopathic physician assistant and osteopathic physician relationship by specifying such relationship on office signs, office stationery, advertisements, billing forms, and other communication with patients or the public.

(7) Limitations, hospital functions. An osteopathic physician assistant working in or for a hospital, clinic or other health organization shall be licensed in the same manner as any other osteopathic physician assistant. His/her responsibilities, if any, to other physicians must be defined in the board approved practice plan.

(8) Limitations, trainees. An individual enrolled in a training program for physician assistants may function only in direct association with his/her preceptorship physician or a delegated alternate physician in the immediate clinical setting or, as in the case of specialized training in a specific area, an alternate preceptor approved by the program. They may not function in a remote location or in the absence of the preceptor.

(9) Supervising osteopathic physician, responsibility. It shall be the responsibility of the supervising osteopathic physician to see to it that:

(a) Any osteopathic physician assistant at all times when meeting or treating patient(s) wears a placard or other identifying plate in a prominent place upon his or her person identifying him or her as a physician assistant;

(b) No osteopathic physician assistant represents himself or herself in any manner which would tend to mislead anyone that he or she is a physician;

(c) That the osteopathic physician assistant performs only those tasks which he or she is authorized to perform under the authorization granted by the board;

(d) All EKG's and x-rays and all abnormal laboratory tests shall be reviewed by the physician within twenty-four hours;

(e) The charts of all patients seen by the osteopathic physician assistant shall be reviewed, countersigned and dated within one week by the supervising osteopathic physician or in the case of a physician group, the designated supervising physician as outlined in the practice plan;

(f) All telephone advice given by the supervising osteopathic physician, alternate supervising physician, or member of a supervising physician group through the physician assistant shall be documented, reviewed, countersigned, and dated by the advising physician within one week;

(g) The supervising osteopathic physician shall advise the board of the termination date of the working relationship. The notification shall include a written report providing the reasons for termination and an evaluation of the osteopathic physician assistant's performance.

(10) Alternate physician, supervisor—Approved by board. In the temporary absence of the supervising osteopathic physician, the osteopathic physician assistant may carry out those tasks for which he is licensed, if the supervisory and review mechanisms are provided by a delegated alternate osteopathic physician supervisor. If an alternate osteopathic physician is not available in the community or practice, the board may authorize a physician licensed under

chapter 18.71 RCW or physician group to act as the alternate physician supervisor specified on the board approved practice plan.

[Statutory Authority: RCW 18.57.005. 93-24-028, § 246-854-090, filed 11/22/93, effective 12/23/93; 90-24-055 (Order 100B), recodified as § 246-854-090, filed 12/3/90, effective 1/31/91. Statutory Authority: RCW 18.57.005(2). 89-22-065 (Order PM 863), § 308-138A-080, filed 10/31/89, effective 12/1/89.]

WAC 246-854-110 Osteopathic physician assistant continuing education required. (1) Licensed osteopathic physician assistants must complete fifty hours of continuing education annually as required in chapter 246-12 WAC, Part 7.

(2) Certification of compliance with the requirement for continuing education of the American Osteopathic Association, Washington State Osteopathic Association, National Commission on Certification of Physician Assistants, Washington Academy of Physician Assistants, American Academy of Physician's Assistants, and the American Medical Association, or a recognition award or a current certification of continuing education from medical practice academies shall be deemed sufficient to satisfy the requirements of these regulations.

(3) In the case of a permanent retirement or illness, the board may grant indefinite waiver of continuing education as a requirement for licensure, provided an affidavit is received indicating that the osteopathic physician assistant is not providing osteopathic medical services to consumers. If such permanent retirement or illness status is changed or osteopathic medical services are resumed, it is incumbent upon the licensee to immediately notify the board and show proof of practice competency as determined necessary by the board.

(4) Prior approval not required.

(a) The Washington state board of osteopathic medicine and surgery does not approve credits for continuing education. The board will accept any continuing education that reasonably falls within these regulations and relies upon each individual osteopathic physician assistant's integrity in complying with this requirement.

(b) Continuing education program sponsors need not apply for nor expect to receive prior board approval for continuing education programs. The continuing education category will depend solely upon the determination of the accrediting organization or institution. The number of creditable hours may be determined by counting the contact hours of instruction and rounding to the nearest quarter hour.

[Statutory Authority: RCW 43.70.280. 98-05-060, § 246-854-110, filed 2/13/98, effective 3/16/98. Statutory Authority: RCW 18.57.005. 93-24-028, § 246-854-110, filed 11/22/93, effective 12/23/93.]

WAC 246-854-115 Categories of creditable continuing professional education activities. The following are categories of creditable continuing education activities approved by the board. The credits must be earned in the twelve-month period preceding application for renewal of licensure. One clock hour shall equal one credit hour for the purpose of satisfying the fifty hour continuing education requirement.

Category 1 - A minimum of thirty credit hours are mandatory under this category.

1-A Formal educational program sponsored by nationally recognized organizations or institutions which have been approved by the American Osteopathic Association, Washington State Osteopathic Association, Washington Academy of Physician Assistants, National Commission on Certification of Physician Assistants, American Medical Association, and the American Academy of Physician's Assistants.

1-B Preparation in publishable form of an original scientific paper.

a. A maximum of five credit hours for initial presentation or publication of a paper in a professional journal.

1-C Serving as a teacher, lecturer, preceptor or a moderator-participant in a formal educational program or preparation and scientific presentation at a formal educational program sponsored by one of the organizations or institutions specified in Category 1-A. One hour credit per each hour of instruction may be claimed.

a. A maximum of five credit hours per year.

Category 2 - Home study.

2-A A maximum of twenty credit hours per year may be granted.

a. Reading - Medical journals and quizzes.

1) One-half credit hour per issue

2) One-half credit hour per quiz

b. Listening - audio tape programs.

1) One-half credit hour per tape program

2) One-half credit hour per tape program quiz

c. Other - subject - oriented and refresher home study courses.

1) Credit hours indicated by sponsor will be accepted

2-B Preparation and presentation of a scientific exhibit at professional meetings.

a. Maximum of five credit hours per exhibit per year.

2-C Observation at medical centers; programs dealing with experimental and investigative areas of medical practice and programs conducted by nonrecognized sponsors.

a. Maximum of five credit hours per year.

[Statutory Authority: RCW 18.57.005. 93-24-028, § 246-854-115, filed 11/22/93, effective 12/23/93.]

WAC 246-855-010 Acupuncture—Definition. Acupuncture is a traditional system of medical theory, oriental diagnosis and treatment used to promote health and treat organic or functional disorders, by treating specific acupuncture points or meridians. Acupuncture includes the following techniques:

(a) Use of acupuncture needles to stimulate acupuncture points and meridians.

(b) Use of electrical, mechanical or magnetic devices to stimulate acupuncture points and meridians.

(c) Moxibustion.

(d) Acupressure.

(e) Cupping.

(f) Gwa hsa (dermal friction technique).

(g) Infrared.

(h) Sonopuncture.

(i) Laser puncture.

(j) Dietary advice.

(k) Manipulative therapies.

(l) Point injection therapy (aqua puncture).

These terms are to be understood within the context of the oriental medical art of acupuncture and as the board defines them.

[Statutory Authority: RCW 18.57.005. 90-24-055 (Order 100B), recodified as § 246-855-010, filed 12/3/90, effective 1/31/91. Statutory Authority: RCW 18.57.005, 18.57A.020 and 18.57A.070. 84-05-011 (Order PL 457), § 308-138B-165, filed 2/7/84.]

WAC 246-855-020 Acupuncture assistant education. Each applicant for an authorization to perform acupuncture must present evidence satisfactory to the board which discloses in detail the formal schooling or other type of training the applicant has previously undertaken which qualifies him or her as a practitioner of acupuncture. Satisfactory evidence of formal schooling or other training may include, but is not limited to, certified copies of certificates or licenses which acknowledge that the person has the qualifications to practice acupuncture, issued to an applicant by the government of the Republic of China (Taiwan), People's Republic of China, Korea or Japan. Whenever possible, all copies of official diplomas, transcripts and licenses or certificates should be forwarded directly to the board from the issuing agency rather than from the applicant. Individuals not licensed by the listed countries must document their education by means of transcripts, diplomas, patient logs verified by the preceptor, or by other means requested by the board. Applicants for registration must have successfully completed the following training:

(1) The applicant must have completed a minimum of two academic years or 72 quarter credits of undergraduate college education in the general sciences and humanities prior to entering an acupuncture training program. The obtaining of a degree is not required for the educational credits to qualify. Credits granted by the college towards prior life experience will not be accepted under this requirement.

(2) The applicant must have successfully completed a course of didactic training in basic sciences and acupuncture over a period of two academic years. The basic science training must include a minimum of 250 hours or 21 quarter credits and include such subjects as anatomy, physiology, bacteriology, biochemistry, pathology, hygiene and a survey in Western clinical sciences. The basic science classes must be equivalent to courses given in accredited bachelor of science programs. The acupuncture training must include a minimum of 700 hours or 58 quarter credits in acupuncture theory, and acupuncture diagnosis and treatment techniques. The board will not accept credits obtained on the basis of challenging an exam. Transfer credits from accredited colleges or board approved acupuncture programs will be accepted.

(3) The applicant must have successfully completed a course of clinical training in acupuncture over a period of one academic year. The training must include a minimum of 100 hours or 9 quarter credits of observation, which shall include case presentation and discussion. The observation portion of the clinical training may be conducted during the didactic training but will be considered part of the clinical training for calculation of hours or credits. There must also be a minimum of 350 hours or 29 quarter credits of supervised practice, consisting of 400 separate patient treatments. A minimum of 120 different patients must have been treated.

[Statutory Authority: RCW 18.57.005. 90-24-055 (Order 100B), recodified as § 246-855-020, filed 12/3/90, effective 1/31/91. Statutory Authority: RCW 18.57A.020. 83-16-024 (Order PL 440), § 308-138B-100, filed 7/27/83. Statutory Authority: RCW 18.57.005 and 18.57A.020. 82-17-005 (Order PL 402), § 308-138B-100, filed 8/5/82. Formerly WAC 308-138-100.]

WAC 246-855-030 Acupuncture—Program approval. (1) Procedure. The board will consider for approval any school, program, apprenticeship or tutorial which meets the requirements outlined in this regulation and provides the training required under WAC 246-855-020 - Acupuncture assistant education. Approval may be granted to an individual registration applicant's training, or to existing institutions which operate on a continuing basis. Clinical and didactic training may be approved as separate programs or as a joint program. The program approval process is as follows:

(a) Programs seeking approval shall file an application with the board in the format required by the board.

(b) The board will review the application and determine whether a site review is necessary (in the case of an institution) or an interview is appropriate (in the case of individual training) or approval may be granted on the basis of the application alone.

(c) The site review committee shall consist of two board members and one member of the board staff. The review committee may visit the program any time during school operating hours. The committee will report to the board in writing concerning the program's compliance with each section of the regulations.

(d) After reviewing all of the information collected concerning a program; the board may grant or deny approval, or grant approval conditional upon program modifications

being made. In the event of denial or conditional approval, the program may request a hearing before the board. No approval shall be extended to an institution for more than three years, at which time a request for reapproval may be made.

(e) The board expects approved programs to not make changes which will result in the program not being in compliance with the regulations. Programs must notify the board concerning significant changes in administration, faculty or curriculum. The board may inspect the school at reasonable intervals to check for compliance. Program approval may be withdrawn, after a hearing, if the board finds the program no longer in compliance with the regulations.

(2) Didactic faculty. Didactic training may only be provided by persons who meet the criteria for faculty as stated in the council for postsecondary education's WAC 250-55-090 - Personal qualifications. Under no circumstances will an unregistered instructor perform or supervise the performance of acupuncture.

(3) Clinical faculty. Clinical training may be provided only by persons who meet the following criteria:

(a) The instructor must be a practitioner who has had a minimum of five years of full time acupuncture practice experience.

(b) If the training is conducted in this state, the practitioner must be registered to practice in this state. In the case of a school or program, the approval of the institution will include a review of the instructor's qualifications and the training arrangements. Approval of the instructors will extend to instruction conducted within the program.

(c) For training not conducted in this state to be acceptable, the instructor must be licensed by a state or country with equivalent license standards.

(4) Supervision of training. Clinical training in this state must be conducted under the general supervision of the instructor's sponsoring physician. During any given clinic period, the acupuncture instructor may not supervise more than four students. The number of students present during an observation session should be limited according to the judgment of the instructor. Supervision by the instructor during clinical training must be direct: Each diagnosis and treatment must be done with the knowledge and concurrence of the instructor. During at least the first 100 treatments, the instructor must be in the room during treatment. Thereafter, the instructor must at least be in the facility, available for consultation and assistance. An osteopathic physician may only supervise two acupuncture assistance instructors per clinical instruction period.

[Statutory Authority: RCW 18.57.005. 91-20-120 (Order 199B), § 246-855-030, filed 9/30/91, effective 10/31/91; 90-24-055 (Order 100B), recodified as § 246-855-030, filed 12/3/90, effective 1/31/91. Statutory Authority: RCW 18.57A.020. 83-16-024 (Order PL 440), § 308-138B-105, filed 7/27/83.]

WAC 246-855-040 Osteopathic acupuncture physicians' assistant's examination. (1) Applicants for registration who have not been issued a license or certificate to practice acupuncture from the governments listed in RCW 18.57A.070, or from a country or state with equivalent standards of practice determined by the board, must pass the Washington acupuncture examination.

(2) A written and practical examination in English shall be given twice yearly for qualified applicants at a time and place determined by the board and shall examine the applicants' knowledge of anatomy, physiology, bacteriology, biochemistry, pathology, hygiene and acupuncture.

(3) An applicant must be approved by the board at least forty-five days in advance of the scheduled examination date to be eligible to take the written portion of the examination. The applicant shall provide his or her own needles and other equipment necessary for demonstrating the applicant's skill and proficiency in acupuncture.

(4) An applicant must have successfully completed the written portion of the examination prior to being eligible for the practical examination.

(5) The passing score for the examination is a converted score of seventy-five.

(6) Applicants requesting to retake either the written or practical portion of the examination shall submit the request for reexamination at least forty-five days in advance of the scheduled examination date.

[Statutory Authority: RCW 18.57.005. 90-24-055 (Order 100B), recodified as § 246-855-040, filed 12/3/90, effective 1/31/91. Statutory Authority: RCW 18.57.005(2), 18.57A.020 and 18.130.050(1). 88-21-081 (Order PM 780), § 308-138B-110, filed 10/19/88. WAC 246-855-050 Investigation. An applicant for an authorization to perform acupuncture shall, as part of his or her application, furnish written consent to an investigation of his or her personal background, professional training and experience by the board or any person acting on its behalf.

[Statutory Authority: RCW 18.57.005. 90-24-055 (Order 100B), recodified as § 246-855-050, filed 12/3/90, effective 1/31/91. Statutory Authority: RCW 18.57.005 and 18.57A.020. 82-17-005 (Order PL 402), § 308-138B-130, filed 8/5/82. Formerly WAC 308-138-130.]

WAC 246-855-060 English fluency. Each applicant must demonstrate sufficient fluency in reading, speaking and understanding the English language to enable the applicant to communicate with supervising physicians and patients concerning health care problems and treatment.

[Statutory Authority: RCW 18.57.005. 90-24-055 (Order 100B), recodified as § 246-855-060, filed 12/3/90, effective 1/31/91. Statutory Authority: RCW 18.57.005 and 18.57A.020. 82-17-005 (Order PL 402), § 308-138B-140, filed 8/5/82. Formerly WAC 308-138-140.]

WAC 246-855-070 Supervising physicians' knowledge of acupuncture. Osteopathic physicians applying for authorization to utilize the services of an osteopathic physician's acupuncture assistant shall demonstrate to the board that the osteopathic physician possesses sufficient understanding of the application of acupuncture treatment, its contraindications and hazards so as to adequately supervise the practice of acupuncture.

[Statutory Authority: RCW 18.57.005. 90-24-055 (Order 100B), recodified as § 246-855-070, filed 12/3/90, effective 1/31/91. Statutory Authority: RCW 18.57.005 and 18.57A.020. 82-17-005 (Order PL 402), § 308-138B-150, filed 8/5/82. Formerly WAC 308-138-150.]

WAC 246-855-080 Utilization. (1) Persons authorized as osteopathic physicians' acupuncture assistants shall be restricted in their activities to only those procedures which a duly licensed, supervising osteopathic physician may request them to do. Under no circumstances may an osteopathic physician's acupuncture assistant perform any diagnosis of patients or recommend or prescribe any forms of treatment or medication.

(2) An acupuncture assistant shall treat patients only under the direct supervision of a physician who is present on the same premises where the treatment is to be given.

(3) An osteopathic physician shall not employ or supervise more than one acupuncture assistant.

[Statutory Authority: RCW 18.57.005. 90-24-055 (Order 100B), recodified as § 246-855-080, filed 12/3/90, effective 1/31/91. Statutory Authority: RCW 18.57.005 and 18.57A.020. 82-17-005 (Order PL 402), § 308-138B-160, filed 8/5/82. Formerly WAC 308-138-160.]

WAC 246-855-090 Prohibited techniques and tests. No osteopathic physician's acupuncture assistant may prescribe, order, or treat by any of the following means, modalities, or techniques:

(1) Diathermy treatments

(2) Ultrasound or sonopuncture treatments

(3) Infrared treatments

(4) Electromuscular stimulation for the purpose of stimulating muscle contraction

(5) X-rays

(6) Laboratory tests

(7) Laser puncture

(8) Dietary therapy

(9) Manipulative therapies

(10) Point injection therapy (aqua puncture)

(11) Herbal remedies.

Chapter 246-856 WAC
BOARD OF PHARMACY—GENERAL

WAC

WAC 246-856-001 Purpose. The purpose of this chapter is to combine the common rules adopted by the board of pharmacy for all holders of licenses, registrations and certifications, as well as any other authorizations, issued by the board of pharmacy.

[Statutory Authority: RCW 18.64.005. 94-17-144, § 246-856-001, filed 8/23/94 effective 9/23/94.]

WAC 246-856-020 Adjudicative proceedings—Procedural rules for the board of pharmacy. The board adopts the model procedural rules for adjudicative proceedings as adopted by the department of health and contained in chapter 246-11 WAC, including subsequent amendments.

[Statutory Authority: RCW 18.64.005. 94-17-144, § 246-856-020, filed 8/23/94 effective 9/23/94.]

Chapter 246-858 WAC
PHARMACISTS—INTERNSHIP REQUIREMENTS

WAC

WAC 246-858-020 General requirements. (1) RCW 18.64.080(3) states: "Any person enrolled as a student of pharmacy in an accredited college may file with the department an application for registration as a pharmacy intern—." A student of pharmacy shall be defined as any person enrolled in a college or school of pharmacy accredited by the board of pharmacy or any graduate of any accredited college or school of pharmacy.

(2) As provided for in RCW 18.64.080(3) the board of pharmacy hereby establishes fifteen hundred hours for the internship requirement.

(a) For graduates prior to January 1, 1999, credit may be allowed:

(i) Up to seven hundred hours for experiential classes as part of the curriculum of an accredited college or school of pharmacy commonly referred to as externship/clerkship;

(ii) Eight hundred hours or more for experience obtained after completing the first quarter/semester of pharmacy education.

(b) For graduates after January 1, 1999, credit may be allowed:

(i) Up to twelve hundred hours of experiential classes as part of the curriculum of an accredited college or school of pharmacy commonly referred to as externship/clerkship;

(ii) Three hundred or more hours for experience obtained after completing the first quarter/semester of pharmacy education.

(c) The board will document hours in excess of these requirements for students qualifying for out-of-state licensure.

(3) An applicant for licensure as a pharmacist who has completed seven hundred internship hours will be permitted to take the state board examination for licensure; however, no pharmacist license will be issued to the applicant until the fifteen hundred internship hours have been completed. The hours must be completed and a pharmacist license issued within eighteen months of the date of graduation.

(4) To retain a certificate as a pharmacy intern, the intern must make continuing satisfactory progress in completing the pharmacy course.

(5) Experience must be obtained under the guidance of a preceptor who has met certification requirements prescribed in WAC 246-858-060 and has a certificate except as hereinafter provided for experience gained outside the state of Washington.

(6) Experience obtained in another state may be accepted toward the fulfillment of the fifteen hundred hour requirement provided that a letter is received from the board of pharmacy of that state in which the experience is gained and such letter indicates the experience gained would have been acceptable internship experience to the board of pharmacy in that state.

[Statutory Authority: RCW 18.64.005. 96-02-006, § 246-858-020, filed 12/20/95, effective 1/20/96; 92-12-035 (Order 277B), § 246-858-020, filed 5/28/92, effective 6/28/92. Statutory Authority: RCW 18.64.005 and chapter 18.64A RCW. 91-18-057 (Order 191B), recodified as § 246-858-020, filed 8/30/91, effective 9/30/91. Statutory Authority: RCW 18.64.005(11). 88-06-060 (Order 211), § 360-10-010, filed 3/2/88; Order 139, § 360-10-010, filed 12/9/77; Order 106, § 360-10-010, filed 6/3/71; Regulation 48, § I, filed 6/17/66.]

WAC 246-858-030 Registration of interns. To register as a pharmacy intern, an applicant shall file with the department an application for registration as a pharmacy intern as provided for in RCW 18.64.080. The application shall be accompanied by a fee as specified in WAC 246-907-030. Prior to engaging in the practice of pharmacy as an intern or extern, under the supervision of a preceptor, the applicant must be registered by the board as a pharmacy intern.

[Statutory Authority: RCW 18.64.005. 92-12-035 (Order 277B), § 246-858-030, filed 5/28/92, effective 6/28/92. Statutory Authority: RCW 18.64.005 and chapter 18.64A RCW. 91-18-057 (Order 191B), recodified as § 246-858-030, filed 8/30/91, effective 9/30/91. Statutory Authority: RCW 18.64.005(11). 88-01-025 (Order 208), § 360-10-020, filed 12/9/87. Statutory Authority: RCW 18.64.005 and 18.64A.020. 83-18-021 (Order 175), § 360-10-020, filed 8/30/83; Order 106, § 360-10-020, filed 6/3/71; Regulation 48, § II, filed 6/17/66.]

WAC 246-858-040 Rules for the pharmacy intern. (1) The intern shall send notification to the board of pharmacy on or before the intern's first day of training. Such notification shall consist of the date, the name of the pharmacy, and the name of the preceptor where the intern expects to begin his/her internship. The board of pharmacy shall promptly notify the intern of the acceptability of the preceptor under whom the intern expects to gain experience. Internship credit will not be accepted until the preceptor has been certified.

(2) The pharmacy intern shall engage in the practice of pharmacy, and the selling of items restricted to sale under the supervision of a licensed pharmacist, only while the intern is under the direct and personal supervision of a certified preceptor or a licensed pharmacist designated by the preceptor to supervise that intern during the preceptor's absence from the site. Provided, that hours of experience gained while the certified preceptor is absent from the site shall not be counted toward fulfilling any internship requirement.

[Statutory Authority: RCW 18.64.005. 92-12-035 (Order 277B), § 246-858-040, filed 5/28/92, effective 6/28/92. Statutory Authority: RCW 18.64.005 and chapter 18.64A RCW. 91-18-057 (Order 191B), recodified as § 246-858-040, filed 8/30/91, effective 9/30/91. Statutory Authority: RCW 18.64.005. 91-11-041 (Order 170B), § 360-10-030, filed 5/10/91, effective 6/10/91. Statutory Authority: RCW 18.64.005(11). 88-01-025 (Order 208), § 360-10-030, filed 12/9/87; Regulation 48, § III, filed 6/17/66.]

WAC 246-858-050 Intern training reports. (1) The intern shall file with the board on forms provided by the board an internship evaluation report at the completion of internship training experience at each site.

(2) The board of pharmacy shall provide the necessary affidavit forms to the intern for the purpose of certification of the hours of experience, which shall only include hours under the personal supervision of a preceptor. Affidavits must be certified and recorded in the office of the board of pharmacy not later than thirty days after the completion of any site internship experience. Completion of any site experience is intended to mean those situations when neither the intern nor the preceptor anticipate further intern experience at some later date at that site.

(3) The intern's report and all or part of the hours covered by the period of the report can be rejected by the board if, for the period involved, the pharmacy intern has not performed the practice of pharmacy adequately.

(4) Certification of at least seven hundred hours must be submitted to the board office thirty days prior to licensing examination.

[Statutory Authority: RCW 18.64.005 and chapter 18.64A RCW. 91-18-057 (Order 191B), recodified as § 246-858-050, filed 8/30/91, effective 9/30/91. Statutory Authority: RCW 18.64.005(11). 88-01-025 (Order 208), § 360-10-040, filed 12/9/87; Order 106, § 360-10-040, filed 6/3/71; Order 102, § 360-10-040, filed 12/5/69; Regulation 48, § IV, filed 6/17/66.]

WAC 246-858-060 Requirements for preceptor certification. (1) A pharmacist who is licensed and actively engaged in practice in a Class A pharmacy in the state of Washington, and who has met certification requirements prescribed in this section of the regulation and who has completed a board approved training program within the last five years, and who has been certified by the board of pharmacy shall be known as "pharmacist preceptor." The requirement for completion of an approved training program becomes effective June 30, 1991.

(2) The pharmacist preceptor must have completed twelve months as a licensed pharmacist engaged in the practice of pharmacy as defined in RCW 18.64.011(11).

(3) Any preceptor or preceptor applicant who has been found guilty of a drug or narcotic violation or whose pharmacist license has been revoked, suspended, or placed on probation by the state board of pharmacy shall not be eligible for certification as a preceptor, until completion of the probationary period, and a showing of good cause for certification as a pharmacist preceptor.

(4) The preceptor shall be responsible for the quality of the internship training under his/her supervision and he/she shall assure that the intern actually engages in pharmaceutical activities during that training period.

(5) The board of pharmacy shall withdraw a preceptor's certification upon proof that the preceptor failed to meet or maintain the requirements as stated in this section.

(6) In considering the approval of special internship programs pursuant to WAC 246-858-080, the board may approve alternative qualification requirements for the preceptors of such programs.

[Statutory Authority: RCW 18.64.005. 92-12-035 (Order 277B), § 246-858-060, filed 5/28/92, effective 6/28/92. Statutory Authority: RCW 18.64.005 and chapter 18.64A RCW. 91-18-057 (Order 191B), recodified as § 246-858-060, filed 8/30/91, effective 9/30/91. Statutory Authority: RCW 18.64.005. 91-11-041 (Order 170B), § 360-10-050, filed 5/10/91, effective 6/10/91; 90-11-079 (Order 055), § 360-10-050, filed 5/16/90, effective 6/16/90. Statutory Authority: RCW 18.64.005(11). 88-06-060 (Order 211), § 360-10-050, filed 3/2/88; Order 106, § 360-10-050, filed 6/3/71; Regulation 48, § V, filed 6/17/66.]

WAC 246-858-070 Rules for preceptors. (1) The pharmacist preceptor, or his or her designee in accordance with WAC 246-858-040(2), shall supervise the pharmacy intern and shall be responsible for the sale of restricted items, and the compounding and dispensing of pharmaceuticals dispensed by an intern.

(2) The pharmacist preceptor must use the board approved plan of instruction for interns.

(3) Upon completion of the intern's experience at each site, the preceptor under whom this experience was obtained shall file a report with the board. Such report shall briefly describe the type of professional experience received under the preceptor's supervision and the preceptor's evaluation of the intern's ability to practice pharmacy at that stage of internship.

(4) The board of pharmacy shall provide the necessary affidavit forms to certify hours of experience under the personal supervision of a preceptor. Affidavits must be certified and recorded in the office of the board not later than thirty days after the completion of any site intern experience; provided that any experience necessary for eligibility to take the licensing examination must be in the board office no later than thirty days prior to the examination.

(5) The pharmacist preceptor may supervise more than one intern during a given time period; however, two interns may not dispense concurrently under the direct supervision of the same preceptor.

[Statutory Authority: RCW 18.64.005. 92-12-035 (Order 277B), § 246-858-070, filed 5/28/92, effective 6/28/92. Statutory Authority: RCW 18.64.005 and chapter 18.64A RCW. 91-18-057 (Order 191B), recodified as § 246-858-070, filed 8/30/91, effective 9/30/91. Statutory Authority: RCW 18.64.005. 91-11-041 (Order 170B), § 360-10-060, filed 5/10/91, effective 6/10/91. Statutory Authority: RCW 18.64.005(11). 88-06-060 (Order 211), § 360-10-060, filed 3/2/88; Order 102, § 360-10-060, filed 12/5/69; Regulation 48, § VI, filed 6/17/66.]

WAC 246-858-080 Special internship approval. (1) The board will consider applications for approval of special internship programs. Such programs may be approved when the board determines that they offer a significant educational opportunity.

(2) Applications for special internship approval must be submitted at least thirty days prior to the next board meeting which will afford the board an opportunity to review the program.

[Statutory Authority: RCW 18.64.005 and chapter 18.64A RCW. 91-18-057 (Order 191B), recodified as § 246-858-080, filed 8/30/91, effective 9/30/91. Statutory Authority: RCW 18.64.005(11). 88-01-025 (Order 208), § 360-10-080, filed 12/9/87; Order 114, § 360-10-080, filed 6/28/73.]

Statutory Authority: RCW 43.70.280.

WAC 246-861-010 Definitions. (1) "Accredited programs/courses" means continuing education sponsored by providers which are approved by the American Council on Pharmaceutical Education (ACPE).

(2) "Board approved programs/courses" means continuing education which has been reviewed and approved by the board office.

(3) "Approved provider" means any person, corporation, or association approved either by the board or ACPE to conduct continuing professional education programs.

(4) "Continuing education" means accredited or approved post-licensure professional pharmaceutical education designed to maintain and improve competence in the practice of pharmacy, pharmacy skills, and preserve pharmaceutical standards for the purpose of protecting the public health, safety, and welfare.

[Statutory Authority: RCW 43.70.280. 98-05-060, § 246-861-010, filed 2/13/98, effective 3/16/98. Statutory Authority: RCW 18.64.005. 95-08-019, § 246-861-010, filed 3/27/95, effective 4/27/95; 92-03-029 (Order 234B), § 246-861-010, filed 1/8/92, effective 2/8/92.]

WAC 246-861-020 Renewal requirements. (1) A pharmacist who desires to reinstate his or her pharmacist license after having been unlicensed for over one year shall, as a condition for reinstatement, submit proof of fifteen hours of continuing education for each year unlicensed or complete such continuing education credits as may be specified by the board in each individual case.

(2) The board of pharmacy may accept comparable continuing education units which have been approved by other boards of pharmacy.

[Statutory Authority: RCW 43.70.280. 98-05-060, § 246-861-020, filed 2/13/98, effective 3/16/98. Statutory Authority: RCW 18.64.005. 95-08-019, § 246-861-020, filed 3/27/95, effective 4/27/95; 92-03-029 (Order 234B), § 246-861-020, filed 1/8/92, effective 2/8/92. Statutory Authority: RCW 18.64.005 and chapter 18.64A RCW. 91-18-057 (Order 191B), recodified as § 246-861-020, filed 8/30/91, effective 9/30/91. Statutory Authority: RCW 18.64.005(12). 80-08-036 (Order 156, Resolution No. 6/80), § 360-11-010, filed 6/26/80. Statutory Authority: RCW 69.50.201. 79-04-048 (Order 147, Resolution No. 3-79), § 360-11-010, filed 3/27/79; Order 116, § 360-11-010, filed 11/9/73.]

WAC 246-861-040 Applications for approval of continuing education program—Post-approval of continuing education program. (1) Applications for approval or post-approval of a continuing education program which is not an accredited program or provided by an approved provider shall be made on the form provided for this purpose by the Washington state board of pharmacy in the law book.

(2) The provider shall submit an application form forty-five days prior to the date the program will be held.

(3) A pharmacist who attends a program that has not been preapproved according to this rule, must submit application for approval within twenty days following the program.

(4) All programs approved by the American Council on Pharmaceutical Education or the board, are accepted for continuing education credit and do not require that an individual provider approval be obtained in each case.

(5) The board of pharmacy may accept comparable continuing education units which have been approved by other boards of pharmacy.

[Statutory Authority: RCW 18.64.005. 96-11-042, § 246-861-040, filed 5/8/96, effective 6/8/96; 95-08-019, § 246-861-040, filed 3/27/95, effective 4/27/95; 92-03-029 (Order 234B), § 246-861-040, filed 1/8/92, effective 2/8/92. Statutory Authority: RCW 18.64.005 and chapter 18.64A RCW. 91-18-057 (Order 191B), recodified as § 246-861-040, filed 8/30/91, effective 9/30/91. Statutory Authority: RCW 18.64.005(12). 80-08-036 (Order 156, Resolution No. 6/80), § 360-11-023, filed 6/26/80.]

WAC 246-861-050 Continuing education program approved providers. (1) Any provider may apply to the board on forms provided by the board for qualification as an approved provider. If a provider is approved, the board will issue a certificate or other notification of qualification. The approval shall be effective for a period of two years and shall be renewable as set forth by the board. Providers who apply to the board for approved provider status must document the following:

(a) Identify the individual responsible for the providers' CE program;

(b) Provide copies of CE material and information used by the provider the previous two years with each renewal; and

(c) Develop a procedure for establishing:

(i) Educational goals and objectives for each program;

(ii) Program evaluation component for each program.

(d) A continuing education provider shall supply each attendee or subscriber with a written program description which lists the topic(s) covered, number of speakers or authors, time devoted to the program topic(s), and the instructional objectives of the program. The program description must also bear a statement of the number of hours of continuing education credit assigned by the provider.

(e) The provider must make available to each attendee or subscriber proof of attendance or participation suitable for verifying to the board the completion of continuing education requirements.

(f) The provider shall retain, for a period of two years, a list of persons to whom proof of attendance or participation as specified in (b) of this subsection was supplied. Providers of nonevaluation self-instruction units shall be exempt from this requirement.

(2) The board shall establish the standards and specifications necessary for a provider to obtain approval. These standards and specifications shall at least be equivalent to those established for continuing education programs in pharmacy by the American Council on Pharmaceutical Education.

(3) The board may revoke or suspend an approval of a provider or refuse to renew such approval if the provider fails

to maintain the necessary standards and specifications required.

[Statutory Authority: RCW 18.64.005. 95-08-019, § 246-861-050, filed 3/27/95, effective 4/27/95; 92-03-029 (Order 234B), § 246-861-050, filed 1/8/92, effective 2/8/92. Statutory Authority: RCW 18.64.005 and chapter 18.64A RCW. 91-18-057 (Order 191B), recodified as § 246-861-050, filed 8/30/91, effective 9/30/91. Statutory Authority: RCW 18.64.005(12). 80-08-036 (Order 156, Resolution No. 6/80), § 360-11-027, filed 6/26/80.]

WAC 246-861-055 Continuing education program. (1) The continuing professional pharmaceutical education courses may consist of post-graduate studies, institutes, seminars, lectures, conferences, workshops, extension studies, correspondence courses and other similar methods of conveying continuing education as may be approved by the board.

(2) Such courses shall consist of subject matter pertinent to the following general areas of professional pharmaceutical education:

(a) The legal aspects of health care;

(b) The properties and actions of drugs and dosage forms;

(c) The etiology, characteristics, therapeutics, and prevention of the disease state;

(d) Specialized professional pharmacy practice.

(3) Full credit (hour for hour) shall be allowed for:

(a) Speakers.

(b) Panels.

(c) Structured discussion, workshops, and demonstrations.

(d) Structured question and answer sessions.

(4) Credit shall not be allowed for:

(a) Welcoming remarks.

(b) Time spent for meals or social functions.

(c) Business sessions.

(d) Unstructured demonstrations (e.g., poster sessions).

(e) Unstructured question and answer sessions (e.g., after programs ends).

(f) Degree programs except advanced degrees in pharmacy.

(5) Keynote speaker and topics must be submitted through the standard process.

[Statutory Authority: RCW 18.64.005. 95-08-019, § 246-861-055, filed 3/27/95, effective 4/27/95.]

WAC 246-861-060 Instructors' credit toward continuing education unit. Any pharmacist whose primary responsibility is *not* the education of health professionals, who leads, instructs or lectures to groups of nurses, physicians, pharmacists or others on pharmacy-related topics in organized continuing education shall be granted one hour of continuing education credit for each hour spent in actually presenting the initial course or program which has been approved for continuing education credit.

Any pharmacist whose primary responsibility is the education of health professionals shall be granted continuing education credit only for time expended in leading, instruction or lecturing to groups of physicians, pharmacists, nurses or others on pharmacy related topics outside his/her formal course responsibilities in a learning institution.

A presenter shall not be granted multiple credit for multiple presentations of the same program of continuing education.

[Statutory Authority: RCW 18.64.005. 95-08-019, § 246-861-060, filed 3/27/95, effective 4/27/95; 92-03-029 (Order 234B), § 246-861-060, filed 1/8/92, effective 2/8/92. Statutory Authority: RCW 18.64.005 and chapter 18.64A RCW. 91-18-057 (Order 191B), recodified as § 246-861-060, filed 8/30/91, effective 9/30/91; Order 116, § 360-11-030, filed 11/9/73.]

WAC 246-861-090 Amount of continuing education. (1) The equivalent of 1.5 continuing education unit (equal to fifteen contact hours) of continuing education shall be required annually of each applicant for renewal of licensure. 0.1 CEU will be given for each contact hour. A pharmacist may claim an incentive of 0.15 CEU for each contact hour for successfully completing a patient education training program which meets the criteria listed below, provided that the incentive credits shall not exceed 1.2 CEU (equal to eight contact hours and four incentive hours).

(2) Patient education training requirements: The program must include patient-pharmacist verbal interactive techniques developed by role-playing in which the pharmacist, in dispensing a medication to the patient can verify that:

(a) The patient knows how to use the medication correctly.

(b) The patient knows about the important or significant side effects and potential adverse effects of the medication.

(c) The patient has the information and demonstrates their understanding of the importance of drug therapy compliance.

[Statutory Authority: RCW 18.64.005. 96-02-007, § 246-861-090, filed 12/20/95, effective 1/20/96; 92-03-029 (Order 234B), § 246-861-090, filed 1/8/92, effective 2/8/92. Statutory Authority: RCW 18.64.005 and chapter 18.64A RCW. 91-18-057 (Order 191B), recodified as § 246-861-090, filed 8/30/91, effective 9/30/91. Statutory Authority: RCW 18.64.005(12). 80-08-036 (Order 156, Resolution No. 6/80), § 360-11-040, filed 6/26/80; Order 116, § 360-11-040, filed 11/9/73.]

WAC 246-861-095 Pharmacists licensed in other health professions. A pharmacist who is licensed to practice another health profession shall meet the same pharmacy continuing education requirements in the same manner as all other pharmacists and shall otherwise comply with this chapter. A licensee's compliance with the continuing education requirements of another health profession shall not qualify as compliance with this chapter, unless the subject matter of the continuing education meets the standards established in this chapter.

[Statutory Authority: RCW 18.64.005. 92-03-029 (Order 234B), § 246-861-095, filed 1/8/92, effective 2/8/92.]

Chapter 246-863 WAC
PHARMACISTS—LICENSING

WAC

DISPOSITION OF SECTIONS FORMERLY CODIFIED IN THIS CHAPTER

246-863-050 Licensed pharmacists change of address. [Statutory Authority: RCW 18.64.005. 93-10-007 (Order 357B), § 246-863-050, filed 4/22/93, effective 5/23/93. Statutory Authority: RCW 18.64.005 and chapter 18.64A RCW. 91-18-057 (Order 191B), recodified as § 246-863-050, filed 8/30/91, effective 9/30/91. Statutory Authority: RCW 18.64.005. 89-23-078, § 360-12-110, filed 11/17/89, effective 12/18/89. Statutory Authority: RCW 18.64.005(11). 79-10-007 (Order 151, Resolution No. 9/79), § 360-12-110, filed 9/6/79; Regulation 5, filed 3/23/60.] Repealed by 98-05-060, filed 2/13/98, effective 3/16/98. Statutory Authority: RCW 43.70.280.

WAC 246-863-020 Examinations. (1) The examination for licensure as a pharmacist shall be known as the full board examination in such form as may be determined by the board.

(2) The score required to pass the examination shall be 75. In addition, the score achieved in the jurisprudence section of the exam shall be no lower than 75.

(3) An examinee failing the jurisprudence section of the full board examination shall be allowed to retake the jurisprudence section at a time and place to be specified by the board.

(4) An examinee who fails the jurisprudence examination three times shall not be eligible for further examination until he or she has satisfactorily completed a pharmacy law course provided by a college of pharmacy or board directed study or tutorial program approved by the board.

(5) A person taking the licensing examination in another state for the purpose of score transfer to Washington shall be required to meet the same licensure requirements as a person taking the licensing examination in Washington. All of the documentation, fees, intern hours and reports shall be submitted. In order for the score transfer application to be valid, the licensing process must be completed within one year of the date the score transfer notification is received in the board office.

[Statutory Authority: RCW 18.64.005. 94-08-099, § 246-863-020, filed 4/6/94, effective 5/7/94. Statutory Authority: RCW 18.64.005 and chapter 18.64A RCW. 91-18-057 (Order 191B), recodified as § 246-863-020, filed 8/30/91, effective 9/30/91. Statutory Authority: RCW 18.64.005. 89-22-045, § 360-12-015, filed 10/30/89, effective 11/30/89; 87-18-066 (Order 207), § 360-12-015, filed 9/2/87. Statutory Authority: RCW 18.64.005(1) and 18.64.080. 84-04-029 (Order 183), § 360-12-015, filed 1/25/84. Statutory Authority: RCW 69.50.201. 79-04-048 (Order 147, Resolution No. 3-79), § 360-12-015, filed 3/27/79.]

WAC 246-863-030 Applicants—Reciprocity applicants. (1) Applicants for license by reciprocity whose applications have been approved shall be required to take and pass the jurisprudence examination given by the board prior to being issued his or her license. The jurisprudence examination shall be offered at least once in every two months. If the licensing process has not been completed within two years of the date of application, the application shall be considered abandoned.

(2) An applicant for license by reciprocity who has been out of the active practice of pharmacy for between three and five years must take and pass the jurisprudence examination and additionally must either serve an internship of 300 hours or take and pass such additional practical examinations as may be specified by the board in each individual case.

(3) An applicant for license by reciprocity who has been out of the active practice of pharmacy for over five years must take and pass the full board examination and serve an internship of 300 hours.

[Statutory Authority: RCW 43.70.280. 98-05-060, § 246-863-030, filed 2/13/98, effective 3/16/98. Statutory Authority: RCW 18.64.005. 94-08-099, § 246-863-030, filed 4/6/94, effective 5/7/94. Statutory Authority: RCW 18.64.005 and chapter 18.64A RCW. 91-18-057 (Order 191B), recodified as § 246-863-030, filed 8/30/91, effective 9/30/91. Statutory Authority: RCW 18.64.005. 87-18-066 (Order 207), § 360-12-050, filed 9/2/87. Statutory Authority: RCW 69.50.201. 79-04-048 (Order 147, Resolution No. 3-79), § 360-12-050, filed 3/27/79; Order 121, § 360-12-050, filed 8/8/74; Regulation 4, filed 3/23/60.]

WAC 246-863-035 Temporary permits. A temporary permit to practice pharmacy may be issued to an applicant licensed by examination in a state which participates in the licensure transfer process unless there is a basis for denial of the license or issuance of a conditional license. The applicant shall meet all the qualifications, submit the necessary paperwork and fees for licensure transfer, and submit a written request for a permit to practice pharmacy with the temporary permit fee specified in WAC 246-907-030.

Prior to issuance of the permit to practice pharmacy, the board shall receive the following documents:

(1) A completed Washington pharmacy license application;

(2) The fee specified in WAC 246-907-030;

(3) A disciplinary report from the National Association of Boards of Pharmacy (NABP) Clearinghouse;

(4) Completed NABP "Official Application for Transfer of Pharmaceutic Licensure";

(5) Proof of seven hours of approved AIDS education.

Such a permit shall expire on the first day of the month following the date of the next jurisprudence examination. In case of failure or nonattendance, the permit shall not be extended.

[Statutory Authority: RCW 18.64.005. 92-23-058 (Order 317B), § 246-863-035, filed 11/17/92, effective 12/18/92.]

WAC 246-863-040 Foreign-trained applicants. (1) Applicants whose academic training in pharmacy has been obtained from institutions in foreign countries, wishing to be licensed as pharmacists in the state of Washington shall take and pass the foreign pharmacy graduate equivalency examination prepared by the foreign pharmacy graduate education commission and shall have received an educational equivalency certificate from that commission.

(2) In addition, prior to licensure they shall pass the Washington state board of pharmacy full board examination and meet its internship requirements.

(3) Applicants whose academic training in pharmacy has been obtained from institutions in foreign countries and whose credentials are such that no further education is necessary must earn a total of 1500 intern hours before licensure.

The applicant must earn at least 1200 intern hours before taking the full board examination: Provided, That the board may, for good cause shown, waive the required 1500 hours.

[Statutory Authority: RCW 18.64.005 and chapter 18.64A RCW. 91-18-057 (Order 191B), recodified as § 246-863-040, filed 8/30/91, effective 9/30/91. Statutory Authority: RCW 18.64.005. 84-03-015 (Order 180), § 360-12-065, filed 1/9/84. Statutory Authority: RCW 69.50.201. 79-04-048 (Order 147, Resolution No. 3-79), § 360-12-065, filed 3/27/79; Order 122, § 360-12-065, filed 9/30/74.]

WAC 246-863-060 Licensed pharmacists—Employed as responsible managers—Duty to notify board. Licensed pharmacists employed as responsible managers for a pharmacy shall at once notify the state board of pharmacy of such employment and shall comply with such instructions as may be received. A pharmacist shall also at once notify the state board of pharmacy of termination of employment as a responsible manager. Please refer to WAC 246-869-070 for additional information.

[Statutory Authority: RCW 18.64.005. 92-12-035 (Order 277B), § 246-863-060, filed 5/28/92, effective 6/28/92. Statutory Authority: RCW 18.64.005 and chapter 18.64A RCW. 91-18-057 (Order 191B), recodified as § 246-863-060, filed 8/30/91, effective 9/30/91. Statutory Authority: RCW 18.64.005(11). 79-10-007 (Order 151, Resolution No. 9/79), § 360-12-120, filed 9/6/79; Regulation 8, filed 3/23/60.]

WAC 246-863-070 Inactive credential. (1) A pharmacist may obtain an inactive credential. Refer to the requirements of chapter 246-12 WAC, Part 4.

(2) Practitioners with an inactive credential for three years or less who wish to return to active status must meet the requirements of chapter 246-12 WAC, Part 4.

(3) Practitioners with an inactive credential for more than three years, who have been in active practice in another United States jurisdiction, and wish to return to active status must:

(a) Submit verification of active practice from any other United States jurisdiction;

(b) Take and pass the jurisprudence examination given by the department;

(c) Meet the requirements of chapter 246-12 WAC, Part 4.

(4) Practitioners with an inactive credential for between three and five years, who have not been in active practice in another United States jurisdiction, and wish to return to active status must:

(a) Take and pass the jurisprudence examination given by the department;

(b) Either serve an internship of 300 hours or take and pass such further written practical examinations as specified by the board in each individual case;

(c) Meet the requirements of chapter 246-12 WAC, Part 4.

(5) Practitioners with an inactive credential for over five years, who have not been in active practice in another United States jurisdiction, and wish to return to active status must:

(a) Take and pass the full board examination;

(b) Serve an internship of 300 hours;

(c) Meet the requirements of chapter 246-12 WAC, Part 4.

[Statutory Authority: RCW 43.70.280. 98-05-060, § 246-863-070, filed 2/13/98, effective 3/16/98. Statutory Authority: RCW 18.64.005. 92-12-035 (Order 277B), § 246-863-070, filed 5/28/92, effective 6/28/92. Statutory Authority: RCW 18.64.005 and chapter 18.64A RCW. 91-18-057 (Order 191B), recodified as § 246-863-070, filed 8/30/91, effective 9/30/91. Statutory Authority: RCW 18.64.140. 85-06-010 (Order 193), § 360-12-125, filed 2/22/85.]

WAC 246-863-080 Retired pharmacist license. (1) Any pharmacist who has been licensed in the state for twenty-five consecutive years, who wishes to retire from the practice of pharmacy, may apply for a retired pharmacist license by submitting to the board:

(a) An application on a form provided by the department; and

(b) A fee as specified in WAC 246-907-030.

(2) The holder of a retired pharmacist license shall not be authorized to practice pharmacy and need not comply with the continuing education requirements of chapter 246-861 WAC.

(3) A retired pharmacist license shall be granted to any qualified applicant and shall entitle such person to receive mailings from the board of pharmacy: Provided, That law-book updates shall not be mailed without charge.

(4) In order to reactivate a retired pharmacist license, the holder must comply with the provision of WAC 246-863-090 and chapter 246-12 WAC, Part 2.

(5) The annual renewal fee for a retired pharmacist license is set by the secretary in WAC 246-907-030.

[Statutory Authority: RCW 43.70.280. 98-05-060, § 246-863-080, filed 2/13/98, effective 3/16/98. Statutory Authority: RCW 18.64.005. 92-12-035 (Order 277B), § 246-863-080, filed 5/28/92, effective 6/28/92. Statutory Authority: RCW 43.70.040. 91-19-028 (Order 194), recodified as § 246-863-080, filed 9/10/91, effective 10/11/91. Statutory Authority: RCW 43.70.250. 91-13-002 (Order 173), § 360-12-128, filed 6/6/91, effective 7/7/91. Statutory Authority: RCW 18.64.005(11). 86-24-057 (Order 203), § 360-12-128, filed 12/2/86.]

WAC 246-863-090 Expired license. (1) If the license has expired for three years or less, the practitioner must meet the requirements of chapter 246-12 WAC, Part 2.

(2) If the license has expired for more than three years, and the practitioner has been in active practice in another United States jurisdiction, the practitioner must:

(a) Submit verification of active practice from any other United States jurisdiction;

(b) Take and pass the jurisprudence examination given by the department;

(c) Meet the requirements of chapter 246-12 WAC, Part 2.

(3) If the license has expired for between three and five years, and the practitioner has not been in active practice in another United States jurisdiction, the practitioner must:

(a) Take and pass the jurisprudence examination given by the department;

(b) Either serve an internship of 300 hours or take and pass such further written practical examinations as specified by the board in each individual case;

(c) Meet the requirements of chapter 246-12 WAC, Part 2.

(4) If the license has expired for over five years, and the practitioner has not been in active practice in another United States jurisdiction, the practitioner must:

(a) Take and pass the full board examination;

(b) Serve an internship of 300 hours;

(c) Meet the requirements of chapter 246-12 WAC, Part 2.

[Statutory Authority: RCW 43.70.280. 98-05-060, § 246-863-090, filed 2/13/98, effective 3/16/98. WAC 246-863-095 Pharmacist's professional responsibilities. (1) A pharmacist shall not delegate the following professional responsibilities:

(a) Receipt of a verbal prescription other than refill authorization from a prescriber.

(b) Consultation with the patient regarding the prescription, both prior to and after the prescription filling and/or regarding any information contained in a patient medication record system provided that this shall not preclude a pharmacy assistant from providing to the patient or the patient's health care giver certain information where no professional judgment is required such as dates of refills or prescription price information.

(c) Consultation with the prescriber regarding the patient and the patient's prescription.

(d) Extemporaneous compounding of the prescription provided that bulk compounding from a formula and IV admixture products prepared in accordance with chapter 246-871 WAC may be performed by a level A pharmacy assistant when supervised by a pharmacist.

(e) Interpretation of data in a patient medication record system.

(f) Ultimate responsibility for all aspects of the completed prescription and assumption of the responsibility for the filled prescription, such as: Accuracy of drug, strength, labeling, proper container and other requirements.

(g) Dispense prescriptions to patient with proper patient information as required by WAC 246-869-220.

(h) Signing of the poison register and the Schedule V controlled substance registry book at the time of sale in accordance with RCW 69.38.030 and WAC 246-887-030 and any other item required by law, rule or regulation to be signed or initialed by a pharmacist.

(i) Professional communications with physicians, dentists, nurses and other health care practitioners.

(2) Utilizing personnel to assist the pharmacist.

(a) The responsible pharmacist manager shall retain all professional and personal responsibility for any assisted tasks performed by personnel under his or her responsibility, as shall the pharmacy employing such personnel. The responsible pharmacist manager shall determine the extent to which personnel may be utilized to assist the pharmacist and shall assure that the pharmacist is fulfilling his or her supervisory and professional responsibilities.

(b) This does not preclude delegation to an intern or extern.

[Statutory Authority: RCW 18.64.005. 96-02-005, § 246-863-095, filed 12/20/95, effective 1/20/96.]

WAC 246-863-100 Pharmacist prescriptive authority—Prior board notification of written guideline or protocol required. (1) A pharmacist planning to exercise prescriptive authority in his or her practice (see RCW 18.64.011(11)) by initiating or modifying drug therapy in accordance with written guidelines or protocols previously established and approved for his or her practice by a practitioner authorized to prescribe drugs must have on file at his/her place of practice a properly prepared written guideline or protocol indicating approval has been granted by a practitioner authorized to prescribe. A copy of the written guideline or protocol must also be on file with the board of pharmacy.

(2) For purposes of pharmacist prescriptive authority under RCW 18.64.011(11), a written guideline or protocol is defined as an agreement in which any practitioner authorized to prescribe legend drugs delegates to a pharmacist or group of pharmacists authority to conduct specified prescribing functions. Any modification of the written guideline or protocol shall be treated as a new protocol. It shall include:

(a) A statement identifying the practitioner authorized to prescribe and the pharmacist(s) who are party to the agreement. The practitioner authorized to prescribe must be in active practice, and the authority granted must be within the scope of the practitioners' current practice.

(b) A time period not to exceed 2 years during which the written guideline or protocol will be in effect.

(c) A statement of the type of prescriptive authority decisions which the pharmacist(s) is (are) authorized to make, which includes:

(i) A statement of the types of diseases, drugs, or drug categories involved, and the type of prescriptive authority activity (e.g., modification or initiation of drug therapy) authorized in each case.

(ii) A general statement of the procedures, decision criteria, or plan the pharmacist(s) is (are) to follow when making therapeutic decisions, particularly when modification or initiation of drug therapy is involved.

(d) A statement of the activities pharmacist(s) is (are) to follow in the course of exercising prescriptive authority, including documentation of decisions made, and a plan for communication or feedback to the authorizing practitioner concerning specific decisions made. Documentation may occur on the prescription record, patient drug profile, patient medical chart, or in a separate log book.

[Statutory Authority: RCW 18.64.005 and chapter 18.64A RCW. 91-18-057 (Order 191B), recodified as § 246-863-100, filed 8/30/91, effective 9/30/91. Statutory Authority: RCW 18.64.005(11). 81-19-086 (Order 163, Resolution No. 8/81), § 360-12-140, filed 9/17/81. Statutory Authority: RCW 18.64.005(4) and (11). 80-08-035 (Order 155, Resolution No. 6/80), § 360-12-140, filed 6/26/80, effective 9/30/80.]

WAC 246-863-110 Monitoring of drug therapy by pharmacists. The term "monitoring drug therapy" used in RCW 18.64.011(11) shall mean a review of the drug therapy regimen of patients by a pharmacist for the purpose of evalu-

ating and rendering advice to the prescribing practitioner regarding adjustment of the regimen. Monitoring of drug therapy shall include, but not be limited to:

(1) Collecting and reviewing patient drug use histories;

(2) Measuring and reviewing routine patient vital signs including, but not limited to, pulse, temperature, blood pressure and respiration; and

(3) Ordering and evaluating the results of laboratory tests relating to drug therapy including, but not limited to, blood chemistries and cell counts, drug levels in blood, urine, tissue or other body fluids, and culture and sensitivity tests when performed in accordance with policies and procedures or protocols applicable to the practice setting, which have been developed by the pharmacist and prescribing practitioners and which include appropriate mechanisms for reporting to the prescriber monitoring activities and results.

[Statutory Authority: RCW 18.64.005 and chapter 18.64A RCW. 91-18-057 (Order 191B), recodified as § 246-863-110, filed 8/30/91, effective 9/30/91. Statutory Authority: RCW 18.64.005. 87-18-066 (Order 207), § 360-12-150, filed 9/2/87. Statutory Authority: RCW 18.64.005 and 69.41.075. 83-20-053 (Order 176), § 360-12-150, filed 9/29/83. Statutory Authority: RCW 18.64.005 and 69.41.240. 83-10-013 (Order 174), § 360-12-150, filed 4/26/83.]

WAC 246-863-120 AIDS prevention and information education requirements. Applicants must complete seven clock hours of AIDS education as required in chapter 246-12 WAC, Part 8.

[Statutory Authority: RCW 43.70.280. 98-05-060, § 246-863-120, filed 2/13/98, effective 3/16/98. Statutory Authority: RCW 18.64.005 and chapter 18.64A RCW. 91-18-057 (Order 191B), recodified as § 246-863-120, filed 8/30/91, effective 9/30/91. Statutory Authority: RCW 18.64.005. 88-23-058 (Order 221), § 360-12-160, filed 11/15/88.]

Chapter 246-865 WAC

PHARMACEUTICAL SERVICES—EXTENDED CARE FACILITY

WAC

WAC 246-865-010 Definitions. (1) "Board" means the Washington state board of pharmacy.

(2) "Department" means the state department of social and health services.

(3) "Dose" means the amount of drug to be administered at one time.

(4) "Drug facility" means a room or area designed and equipped for drug storage and the preparation of drugs for administration.

(5) "Legend drug" means a drug bearing the legend, "Caution, federal law prohibits dispensing without a prescription."

(6) "Licensed nurse" means either a registered nurse or a licensed practical nurse.

(7) "Licensed practical nurse" means a person duly licensed under the provisions of the licensed practical nurse act of the state of Washington, chapter 18.78 RCW.

(8) "Nursing home" means any home, place or institution licensed as a nursing home under chapter 18.51 RCW.

(9) "Pharmaceutical services committee" means a committee which develops and maintains written policies and procedures for safe and effective drug therapy, distribution, control, and use which are current and followed in practice. The pharmaceutical services committee shall consist of a staff or consultant pharmacist, a physician, the director of nursing or his/her designee and the administer or his/her designee.

(10) "Pharmacist" means a person duly licensed by the Washington state board of pharmacy to engage in the practice of pharmacy under the provisions of chapter 18.64 RCW.

(11) "Pharmacy" means a place where the practice of pharmacy is conducted, properly licensed under the provisions of chapter 18.64 RCW by the Washington state board of pharmacy.

(12) "Practitioner" means a physician under chapter 18.71 RCW; and osteopathic physician or an osteopathic physician and surgeon under chapter 18.57 RCW; a dentist under chapter 18.32 RCW; a podiatrist under chapter 18.22 RCW; an osteopathic physician's assistant under chapter 18.57A RCW when authorized by the committee of osteopathic commissioners; a physician's assistant under chapter 18.71A RCW when authorized by the board of medical examiners; a registered nurse when authorized by the board of nursing under chapter 18.88 RCW, or a pharmacist under chapter 18.64 RCW.

(13) "Registered nurse" means a person duly licensed under the provisions of the law regulating the practice of registered nursing in the state of Washington, chapter 18.88 RCW.

(14) "Unit-dose" means the ordered amount of a drug in an individually sealed package and in a dosage form ready for administration to a particular person by the prescribed route at the prescribed time.

(15) "Unit-dose drug distribution system" means a system of drug dispensing and control that is characterized by the dispensing of the majority of drugs in unit doses, ready to administer form, and for most drugs, not more than a 48-hour supply of doses is available at the residential care unit at any time.

[Statutory Authority: RCW 18.64.005 and chapter 18.64A RCW. 91-18-057 (Order 191B), recodified as § 246-865-010, filed 8/30/91, effective 9/30/91. Statutory Authority: RCW 18.64.005. 87-18-066 (Order 207), § 360-13-045, filed 9/2/87. Statutory Authority: RCW 18.64.005(11). 81-06-077 (Order 158), § 360-13-045, filed 3/4/81; Order 121, § 360-13-045, filed 8/8/74.]

WAC 246-865-020 Promulgation. In the interests of protecting public health the Washington state board of pharmacy shall hereby allow the use of an emergency drug kit in any nursing home holding a valid Washington state nursing home license. The emergency drug kit shall be considered to be a physical extension of the pharmacy supplying the emergency drug kit and shall at all times remain under the ownership of the supplying pharmacy.

[Statutory Authority: RCW 18.64.005 and chapter 18.64A RCW. 91-18-057 (Order 191B), recodified as § 246-865-020, filed 8/30/91, effective 9/30/91. Statutory Authority: RCW 18.64.005(11). 81-10-027 (Order 159), § 360-13-010, filed 4/28/81; Order 104, § 360-13-010, filed 12/5/69; Order 50 (part), filed 3/28/67.]

WAC 246-865-030 Emergency kit. (1) The contents and quantity of drugs and supplies in the emergency kit shall be determined by the pharmaceutical services committee as defined in WAC 246-865-010(9) which shall consider the number of residents to be served and their potential need for emergency medications.

(2) A copy of the approved list of contents shall be conspicuously posted on or near the kit.

(3) The emergency kit shall be used only for bonafide emergencies and only when medications cannot be obtained from a pharmacy in a timely manner.

(4) Records documenting the receipt and removal of drugs in the emergency kit shall be maintained by the nursing home and the supplying pharmacy.

(5) The pharmaceutical services committee shall be responsible for ensuring proper storage, security and accountability of the emergency kit

(a) The emergency kit shall be stored in a locked area or be locked itself;

(b) Emergency kit drugs shall be accessible only to licensed nurses as defined in WAC 246-865-010(6).

(6) The contents of the emergency kit, the approved list of contents, and all related records shall be made freely available and open for inspection to representatives of the board of pharmacy and the department.

[Statutory Authority: RCW 18.64.005. 92-12-035 (Order 277B), § 246-865-030, filed 5/28/92, effective 6/28/92. Statutory Authority: RCW 18.64.005 and chapter 18.64A RCW. 91-18-057 (Order 191B), recodified as § 246-865-030, filed 8/30/91, effective 9/30/91. Statutory Authority: RCW 18.64.005(11). 81-06-077 (Order 158), § 360-13-020, filed 3/4/81; Order 104, § 360-13-020, filed 12/5/69; Order 50, subsection 1-12, filed 3/28/67.]

WAC 246-865-040 Supplemental dose kits. (1) In addition to an emergency kit, each institution holding a valid Washington state nursing home license, and which employs a unit dose drug distribution system, may maintain a supplemental dose kit for supplemental nonemergency drug therapy if the necessary drug is not available from the pharmacy in a timely manner.

(2) The pharmaceutical services committee shall determine the quantities of drugs in the supplemental dose kit in light of the number of residents in the facility and their potential needs for supplemental doses.

(3) The supplemental dose kit shall remain the property of the supplying pharmacy.

(4) The supplying pharmacy and the facility's pharmaceutical services committee shall be responsible for proper storage, security and accountability of the kit.

[Statutory Authority: RCW 18.64.005 and chapter 18.64A RCW. 91-18-057 (Order 191B), recodified as § 246-865-040, filed 8/30/91, effective 9/30/91. Statutory Authority: RCW 18.64.005(11). 81-06-077 (Order 158), § 360-13-030, filed 3/4/81; Order 114, § 360-13-030, filed 6/28/73.]

WAC 246-865-050 Drug facilities. (1) There shall be facilities for drug preparation and storage near the nurses' station on each unit.

(2) The drug facilities shall be well illuminated, ventilated and equipped with a work counter, sink with hot and cold running water and drug storage units.

(3) The drug storage units shall provide:

(a) Locked storage for all drugs,

(b) Separately keyed storage for Schedule II and III controlled substances,

(c) Segregated storage of different resident's drugs.

(4) There shall be a refrigerator for storage of thermolabile drugs in the drug facility.

(5) Locks and keys, for drug facilities shall be different from other locks and keys within the nursing home.

(6) Poisons and other nonmedicinal chemical agents in containers bearing a warning label shall be stored in separate locked storage apart from drugs used for medicinal purposes.

[Statutory Authority: RCW 18.64.005 and chapter 18.64A RCW. 91-18-057 (Order 191B), recodified as § 246-865-050, filed 8/30/91, effective 9/30/91. Statutory Authority: RCW 18.64.005(11). 81-06-077 (Order 158), § 360-13-055, filed 3/4/81; Order 121, § 360-13-055, filed 8/8/74.]

WAC 246-865-060 Pharmaceutical services. (1) Administration of pharmaceutical services.

(a) There shall be provision for timely delivery of drugs and biologicals from a pharmacy so a practitioner's orders for drug therapy can be implemented without undue delay.

(b) Unless the nursing home operates a licensed pharmacy and employs a director of pharmaceutical services, the nursing home shall have a written agreement with one or more licensed pharmacists who provide for pharmaceutical consultant services. The staff pharmacist or consultant pharmacist supervises the entire spectrum of pharmaceutical services in the nursing home.

(c) There shall be a pharmaceutical services committee whose membership includes at least a staff or consultant pharmacist, a physician, the director of nursing or his/her designee, and the administrator or his/her designee. The pharmaceutical services committee develops and maintains written policies and procedures for safe and effective drug therapy, distribution, control, and use which are current and followed in practice.

(d) Reference material regarding the use of medication, adverse reactions, toxicology, and poison control center information shall be available to facility staff.

(e) There shall be procedures established for the reporting and recording of medication errors and adverse drug reactions.

(2) A staff pharmacist or consultant pharmacist shall be responsible for coordinating pharmaceutical services which include:

(a) Provision of pharmaceutical services evaluations and recommendations to the administrative staff.

(b) On-site reviews to ensure that drug handling and utilization procedures are carried out in conformance with recognized standards of practice.

(c) Regularly reviewing each resident's therapy to screen for potential or existing drug therapy problems and documenting recommendations.

(d) Provision of drug information to the nursing home staff and physicians as needed.

(e) Planning and participating in the nursing home staff development program.

(f) Consultation regarding resident care services with other departments.

(3) Security and storage of drugs.

(a) The nursing home shall store drugs under proper conditions of sanitation, temperature, light, moisture, ventilation, segregation, and security as defined by regulation and accepted standards of practice.

(b) All drugs shall be stored in locked cabinets, rooms, or carts, and shall be accessible only to personnel licensed to administer or dispense drugs.

(c) Schedule III controlled substances shall be stored apart from other drugs on a separate shelf or in a separate compartment or cabinet, provided, however, Schedule III controlled substances may be stored with Schedule II controlled substances. Schedule III controlled substances can be stored with other drugs when distributed in a unit dose drug distribution system.

(d) Drugs for external use shall be stored apart from drugs for internal use, on a separate shelf or in a separate compartment or cabinet. Any shelf, compartment, or separate cabinet used for storage of external drugs shall be clearly labeled to indicate it is to be used for external drugs only.

(e) At all times, all keys to drug boxes, cabinets, and rooms shall be carried by persons legally authorized to administer drugs and on duty on the premises.

(f) If a supplemental dose kit within a unit dose drug distribution system is provided it must comply with WAC 246-865-040.

(g) If an emergency kit is provided, it shall comply with Washington state board of pharmacy regulations WAC 246-865-020 and 246-865-030.

(4) Labeling of drugs.

(a) The label for each legend drug which is not dispensed in a unit dose shall have the name and address of the pharmacy from which the drug was dispensed; the prescription number; the physician's name; the resident's full name; the date of issue; the initials of the dispensing pharmacist; the name and strength of the drug; a controlled substances schedule, if any; the amount (e.g., number of tablets or cc's) of the drug dispensed, and the expiration date. In the case of a compounded drug which contains Schedule II or III controlled substances, the quantity of each controlled substance per cc or teaspoonful shall be shown on the label.

(b) In a unit dose drug distribution system, a clear, legible label shall be printed or affixed securely to each unit dose package. Each unit dose drug label shall include: the name, strength and, for each unit dose package, the dosage amount of the drug; the expiration date for any time-dated drug; the lot or control number; and controlled substances schedule number, if any. Each individual drug compartment shall be labeled with the full name of the resident whose drug the compartment contains and the name of the resident's physician.

(c) Nonlegend drugs shall be clearly labeled with at least the patient's name, date of receipt by the facility, as well as display a manufacturer's original label or a pharmacy label if repackaged by the pharmacist. Nonlegend drugs supplied by the extended care facility pursuant to WAC 388-88-050 need not be labeled with the patient's name.

(d) A label on a container of drugs shall not be altered or replaced except by the pharmacist. Drug containers having soiled, damaged, incomplete, or makeshift labels shall be returned to the pharmacy for relabeling or disposal. Drugs in containers having no labels or illegible labels shall be destroyed.

(5) Control and accountability.

(a) The nursing home shall maintain and follow written procedures which provide for the accurate control and accountability of all drugs in the nursing home.

(b) No drugs may be returned from the nursing home to a pharmacy except as provided in paragraph (4)(d) or if the drug is returned in unopened unit dose packages.

(c) Drugs shall be released to a resident upon discharge only on specific written authorization of the attending physician. A receipt containing information sufficient to document the drug's destination, the person who received the drug, and the name and quantity of drugs released shall be entered in the resident's health record.

(d) All of an individual resident's drugs including Schedule III, IV and V controlled substances, that are discontinued by the physician and remain unused, shall be destroyed by a licensed nurse employee of the nursing home in the presence of a witness within 90 days after having been discontinued, and accurate records of destruction maintained except from drugs which are sealed in unit dose packages.

(e) Outdated, unapproved, contaminated, deteriorated, adulterated, or recalled drugs shall not be available for use in the nursing home.

(f) Except in the case of Schedule II controlled substances and drugs which are sealed in unit dose packages, drugs which remain in the nursing home after the patient has died or been discharged, and drugs in containers with illegible or missing labels, shall be immediately and irretrievably disposed of by a licensed nurse employee in the presence of a witness and proper records maintained of such disposal. Destruction of Schedule II drugs shall be handled in accordance with (6)(g). Unit dose packages may be returned to the pharmacy.

(6) Special requirements for controlled substances.

(a) All Schedule II controlled substances shall be stored in separately keyed and locked secure storage within a drug facility.

(b) Schedule III controlled substances shall be stored apart from other drugs and may be stored on a separate shelf, drawer, or compartment with Schedule II controlled substances.

(c) There shall be a record book for Schedule II and Schedule III controlled substances which shall be a bound book with consecutively numbered pages in which complete records of receipt and withdrawal of Schedule II and III controlled substances are maintained.

(d) At least once each 24 hours, the amount of all Schedule II controlled substances stored in the facility shall be counted by at least two persons who are legally authorized to administer drugs. A similar count shall be made of all Schedule III controlled substances at least weekly. Records of

counts shall be entered in the Schedule II and III controlled substances book(s).

(e) When a resident is discharged, a record of release for any Schedule II or III controlled substances released shall be entered on the appropriate page for the given drug in the controlled substances record book.

(f) Any discrepancy in actual count of Schedule II or III controlled substances and the record shall be documented in the Schedule II or III controlled substances books and reported immediately to the responsible supervisor who shall investigate the discrepancy. Any discrepancy which has not been corrected within seven calendar days shall be reported to the consultant pharmacist and the Washington state board of pharmacy.

(g) Discontinued Schedule II controlled substances and all Schedule II controlled substances which remain after the discharge or death of residents shall:

(i) Be destroyed at the nursing home within 30 days by two of the following individuals: A licensed pharmacist, the director of nursing or a registered nurse designee, and a registered nurse employee of the nursing home with appropriate documentation maintained, or

(ii) Be destroyed at the nursing home by a representative of the Washington state board of pharmacy if so requested by the board or the nursing home.

(h) A nursing home may establish procedures which vary from those paragraphs (6)(a)(g) if they are using a unit dose drug distribution system and if that system provides for the accurate accounting, by the nursing home and the supplying pharmacy, of the receipt and disposition of all Schedule II and III controlled substances.

(7) Drug administration.

(a) Staff shall follow written procedures which provide for the safe handling and administration of drugs to residents.

(i) Drugs shall be administered only by persons licensed to administer drugs.

(ii) The resident shall be identified prior to administration.

(b) All drugs shall be identified up to the point of administration.

(c) Drugs shall be prepared immediately prior to administration and administered by the same person who prepares them except under a unit dose system.

(d) Drug administration shall be documented as soon as possible after the act of administration, and shall include:

(i) Verification of administration

(ii) Reasons for ordered doses not taken

(iii) Reasons for administration of, and response to drugs given on and as needed basis (PRN).

(e) Drug orders shall be received only by a licensed nurse and administered only on the written or verbal order of a practitioner. Verbal orders shall be signed by the prescribing practitioner in a timely manner.

(f) The self-administration of medication program shall provide evidence of:

(i) Assessment of the resident's capabilities

(ii) Instructions for administration

(iii) Monitoring of progress and compliance with orders

(iv) Safe storage of drugs.

[Statutory Authority: RCW 18.64.005. 94-02-077, § 246-865-060, filed 1/5/94, effective 2/5/94; 92-12-035 (Order 277B), § 246-865-060, filed 5/28/92, effective 6/28/92. Statutory Authority: RCW 18.64.005 and chapter 18.64A RCW. 91-18-057 (Order 191B), recodified as § 246-865-060, filed 8/30/91, effective 9/30/91. WAC 246-865-070 Provision for continuity of drug therapy for residents. When a resident of a long term care facility has the opportunity for an unscheduled therapeutic leave that would be precluded by the lack of an available pharmacist to dispense drugs prescribed by an authorized practitioner, a registered nurse designated by the facility and its consultant or staff pharmacist and who agrees to such designation, may provide the resident or a responsible person with up to a 72-hour supply of a prescribed drug or drugs for use during that leave from the resident's previously dispensed package of such drugs. The drugs shall only be provided in accordance with protocols developed by the pharmaceutical services committee and the protocols shall be available for inspection. These protocols shall include the following:

(1) Criteria as to what constitutes an unscheduled therapeutic leave requiring the provision of drugs by the registered nurse;

(2) Procedures for repackaging and labeling the limited supply of previously dispensed drugs by the designated registered nurse that comply with all state and federal laws concerning the packaging and labeling of drugs;

(3) Provision to assure that none of the medication provided to the resident or responsible person may be returned to the resident's previously dispensed package of such drug or to the facility's stock.

(4) A record-keeping mechanism that will provide for the maintenance of a permanent log that includes the following information:

(a) The name of the person to whom the drug was provided;

(b) The drug and quantity provided;

(c) The date and time that the request for the drug was made;

(d) The date and time that the drug was provided;

(e) The name of the registered nurse that provided the drug;

(f) The conditions or circumstances that precluded a pharmacist from providing the drug.

Refer to WAC 246-839-810 for related regulations on this practice.

Statutory Authority: RCW 18.64.005 and chapter 18.64A RCW. 91-18-057 (Order 191B), recodified as § 246-865-070, filed 8/30/91, effective 9/30/91. Statutory Authority: RCW 18.64.005 and 69.41.240. 83-10-013 (Order 174), § 360-13-100, filed 4/26/83.]

Chapter 246-867 WAC
IMPAIRED PHARMACIST REHABILITATION

WAC

WAC 246-867-001 Purpose and scope. These rules are designed to assist the board of pharmacy regarding a registrant/licensee whose competency may be impaired due to the abuse of alcohol and/or drugs. The board intends that such registrants/licensees be treated and their treatment monitored so that they can return or continue to practice pharmacy with judgment, skill, competence, and safety to the public. To accomplish this, the board shall approve voluntary substance abuse monitoring programs and shall refer registrants/licensees impaired by substance abuse to approved programs.

[Statutory Authority: RCW 18.64.005 and chapter 18.64A RCW. 91-18-057 (Order 191B), recodified as § 246-867-001, filed 8/30/91, effective 9/30/91. Statutory Authority: RCW 18.64.005. 90-03-054 (Order 025), § 360-15-010, filed 1/17/90, effective 2/17/90.]

WAC 246-867-010 Definitions. For the purpose of this chapter:

(1) "Chemical dependence - Substance abuse" means a chronic progressive illness which involves the use of alcohol and/or other drugs to a degree that it interferes in the functional life of the registrant/licensee, as manifested by health, family, job (professional services), legal, financial, or emotional problems.

(2) "Board" means the Washington state board of pharmacy.

(3) "Diversion" means illicit dispensing, distribution, or administration of a scheduled controlled substance or other legend drug not in the normal course of professional practice.

(4) "Drug" means a chemical substance alone or in combination, including alcohol.

(5) "Impaired pharmacist" means a pharmacist who is unable to practice pharmacy with judgment, skill, competence, or safety to the public due to chemical dependence, mental illness, the aging process, loss of motor skills, or any other mental or physical condition.

(6) "Approved substance abuse monitoring program" means a pharmacy recovery assistance program or program which the board has determined meets the requirement of the law and the criteria established by the board in WAC 246-867-040 which enters into a contract with pharmacists who have substance abuse problems regarding the required components of the pharmacists recovery activity and oversees the pharmacist's compliance with these requirements. Substance abuse monitoring programs do not provide evaluation or treatment to participating pharmacists.

(7) "Contract" means a comprehensive, structured agreement between the recovering pharmacist and the approved monitoring program stipulating the pharmacist's consent to comply with the monitoring program and its required components of the pharmacist's recovery program.

(8) "Approved treatment program" means a facility approved by the bureau of alcohol and substance abuse, department of social and health services according to RCW 70.96A.020(3) to provide concentrated alcoholism or drug addiction treatment if located within Washington state. Drug and alcohol addiction treatment programs located out-of-state must be equivalent to the standards required for approval under RCW 70.96A.020(3).

(9) "Aftercare" means that period of time after intensive treatment that provides the pharmacist and the pharmacist's family with group, or individualized counseling sessions, discussions with other families, ongoing contact and participation in self-help groups, and ongoing continued support of treatment program staff.

(10) "Twelve-step groups" means groups such as Alcoholics Anonymous, Narcotics Anonymous, Cocaine Anonymous, and related organizations based on a philosophy of anonymity, peer group associations, self-help belief in a power outside of oneself which offer support to the recovering individual to maintain a chemically free lifestyle.

(11) "Random drug screens" are laboratory tests to detect the presence of drugs of abuse in body fluids which are performed at irregular intervals not known in advance by the person to be tested. The collection of the body fluid must be observed by a treatment or health care professional or other board or monitoring program-approved observer.

(12) "Recovering" means that a chemically dependent pharmacist is in compliance with a treatment plan of rehabilitation in accordance with criteria established by an approved treatment facility and an approved substance abuse monitoring program.

(13) "Rehabilitation" means the process of restoring a chemically dependent pharmacist to a level of professional performance consistent with public health and safety.

(14) "Reinstatement" means the process whereby a recovering pharmacist is permitted to resume the practice of pharmacy.

(15) "Pharmacist support group" means a group of pharmacists meeting regularly to support the recovery of its members. The group provides a confidential setting with a trained and experienced pharmacist facilitator in which pharmacists may safely discuss drug diversion, licensure issues, return to work, and other issues related to recovery.

[Statutory Authority: RCW 18.64.005 and 18.130.050. 92-12-035 (Order 277B), § 246-867-010, filed 5/28/92, effective 6/28/92. Statutory Authority: RCW 18.64.005 and chapter 18.64A RCW. 91-18-057 (Order 191B), recodified as § 246-867-010, filed 8/30/91, effective 9/30/91. Statutory Authority: RCW 18.64.005. 90-03-054 (Order 025), § 360-15-020, filed 1/17/90, effective 2/17/90.]

WAC 246-867-020 Applicability. This chapter is applicable to all registered/licensed externs, interns, pharmacists, and any pharmacy assistants. For the purpose of this chapter, the word "pharmacist" shall include externs, interns and pharmacy assistants, as defined under chapter 18.64A RCW.

[Statutory Authority: RCW 18.64.005 and chapter 18.64A RCW. 91-18-057 (Order 191B), recodified as § 246-867-020, filed 8/30/91, effective 9/30/91. Statutory Authority: RCW 18.64.005. 90-03-054 (Order 025), § 360-15-030, filed 1/17/90, effective 2/17/90.]

WAC 246-867-030 Reporting and freedom from liability. (1) Reporting.

(a) If any pharmacist or pharmacy owner knows or suspects that a pharmacist is impaired by chemical dependence, mental illness, physical incapacity, or other factors, that per-

son shall report any relevant information to a pharmacy recovery assistance program or to the board.

(b) If a person is required by law to report an alleged impaired pharmacist to the board, the requirement is satisfied when the person reports the pharmacist to a board-approved and contracted pharmacist recovery assistance program.

(2) Any person who in good faith reports information concerning a suspected impaired pharmacist to a pharmacy recovery assistance program or to the board shall be immune from civil liability.

[Statutory Authority: RCW 18.64.005 and chapter 18.64A RCW. 91-18-057 (Order 191B), recodified as § 246-867-030, filed 8/30/91, effective 9/30/91. Statutory Authority: RCW 18.64.005. 90-03-054 (Order 025), § 360-15-040, filed 1/17/90, effective 2/17/90.]

WAC 246-867-040 Approval of substance abuse monitoring programs. The board will approve pharmacist recovery, assistance, and monitoring programs which will participate in the board's substance abuse monitoring program. The board may contract for these services.

(1) The approved monitoring program will not provide evaluation or treatment to participating pharmacists.

(2) The approved monitoring program/recovery assistance staff must have the qualifications and knowledge of both substance abuse and the practice of pharmacy as defined in this chapter to be able to evaluate:

(a) Clinical laboratories.

(b) Laboratory results.

(c) Providers of substance abuse treatment, both individuals and facilities.

(d) Pharmacist support groups.

(e) The pharmacist's work environment.

(f) The ability of the pharmacist to practice with reasonable skill and safety.

(3) The approved monitoring program will enter into a contract with the pharmacist and the board to oversee the pharmacists' compliance with the requirements of the program.

(4) The approved monitoring program may make exceptions to individual components of the contract on an individual basis.

(5) The approved monitoring program staff will determine, on an individual basis, whether a pharmacist will be prohibited from engaging in the practice of pharmacy for a period of time and restrictions, if any, on the pharmacist's access to controlled substances in the work place.

(6) The approved monitoring program shall maintain records on participants.

(7) The approved monitoring program will be responsible for providing feedback to the pharmacist as to whether treatment progress is acceptable.

(8) The approved monitoring program shall report to the board any pharmacist who fails to comply with the requirements of the monitoring program.

(9) The approved monitoring program shall provide the board with a statistical report on the program, including progress of participants, at least annually.

(10) The approved monitoring program shall receive from the board guidelines on treatment, monitoring, and limitations on the practice of pharmacy for those participating in the program.

[Statutory Authority: RCW 18.64.005 and chapter 18.64A RCW. 91-18-057 (Order 191B), recodified as § 246-867-040, filed 8/30/91, effective 9/30/91. Statutory Authority: RCW 18.64.005. 90-03-054 (Order 025), § 360-15-050, filed 1/17/90, effective 2/17/90.]

WAC 246-867-050 Participation in approved substance abuse monitoring program. (1) The pharmacist who has been investigated by the board may accept board referral into the approved substance abuse monitoring program. This may be part of disciplinary action.

(a) The pharmacist shall undergo a complete physical and psychosocial evaluation before entering the approved monitoring program. This evaluation will be performed by health care professionals with expertise in chemical dependency. The person(s) performing the evaluation shall not also be the provider of the recommended treatment.

(b) The pharmacist shall enter into a contract with the board and the approved substance abuse monitoring program to comply with the requirements of the program which shall include, but not be limited to:

(i) The pharmacist will undergo intensive substance abuse treatment in an approved treatment facility.

(ii) The pharmacist will agree to abstain from the use of all mind-altering substances, including alcohol, except for medications prescribed by an authorized prescriber, as defined in RCW 69.41.030 and 69.50.101. Said prescriber shall notify the monitoring program of all drugs prescribed within fourteen days of the date care was provided.

(iii) The pharmacist must complete the prescribed aftercare program of the intensive treatment facility. This may include individual and/or group psychotherapy.

(iv) The pharmacist must cause the treatment counselor(s) and authorized prescriber(s) to provide reports to the appropriate monitoring program at specified intervals. Reports shall include treatment prognosis, goals, drugs prescribed, etc.

(v) The pharmacist shall submit to random drug screening, with observed specimen collection, as specified by the approved monitoring program.

(vi) The pharmacist will attend pharmacist support groups facilitated by a pharmacist and/or twelve-step group meetings as specified by the contract.

(vii) The pharmacist will comply with specified employment conditions and restrictions as defined by the contract.

(viii) The pharmacist shall sign a waiver allowing the approved monitoring program to release information to the board if the pharmacist does not comply with the requirements of this contract.

(c) The pharmacist is responsible for paying the costs of the physical and psychosocial evaluation, substance abuse treatment, random urine screens, and other personal expenses incurred in compliance with this contract.

(d) The pharmacist may be subject to disciplinary action under RCW 18.64.160 if the pharmacist does not consent to be referred to the approved monitoring program, does not comply with specified employment restrictions, or does not successfully complete the program.

(2) A pharmacist who is not being investigated by the board or subject to current disciplinary action or currently being monitored by the board for substance abuse may voluntarily participate in the approved substance abuse monitoring program without being referred by the board. Such voluntary participants shall not be subject to disciplinary action under RCW 18.64.160 for their substance abuse and shall not have their participation known to the board if they meet the requirements of the approved monitoring program:

(a) The pharmacist shall undergo a complete physical and psychosocial evaluation before entering the approved monitoring program. This evaluation will be performed by a health care professional with expertise in chemical dependency. The person(s) performing the evaluation shall not also be the provider of the recommended treatment.

(b) The pharmacist shall enter into a contract with the approved substance abuse monitoring program to comply with the requirements of the program which shall include, but not be limited to:

(i) The pharmacist will undergo intensive substance abuse treatment in an approved treatment facility.

(ii) The pharmacist will agree to abstain from the use of all mind-altering substances, including alcohol, except for medications prescribed by an authorized prescriber, as defined in RCW 69.41.030 and 69.50.101. Said prescriber shall notify the monitoring program of all drugs prescribed within fourteen days of the date care was provided.

(iii) The pharmacist must cause the treatment counselor(s) and authorized prescriber(s) to provide reports to the approved monitoring program at specified intervals. Reports shall include treatment prognosis, goals, drugs prescribed, etc.

(v) The pharmacist shall submit to random drug screening, with observed specimen collection, as specified by the approved monitoring program.

(vi) The pharmacist will attend pharmacist support groups facilitated by a pharmacist and/or twelve-step group meetings as specified by the contract.

(vii) The pharmacist will comply with specified employment conditions and restrictions as defined by the contract.

(viii) The pharmacist shall sign a waiver allowing the approved monitoring program to release information to the board if the pharmacist does not comply with the requirements of this contract.

(c) The pharmacist is responsible for paying the costs of the physical and psychosocial evaluation, substance abuse treatment, random urine screens, and other personal expenses incurred in compliance with this contract.

[Statutory Authority: RCW 18.64.005 and chapter 18.64A RCW. 91-18-057 (Order 191B), recodified as § 246-867-050, filed 8/30/91, effective 9/30/91. Statutory Authority: RCW 18.64.005. 90-03-054 (Order 025), § 360-15-060, filed 1/17/90, effective 2/17/90.]

WAC 246-867-060 Confidentiality. (1) The treatment and pretreatment records of license holders referred to or voluntarily participating in approved monitoring programs shall be confidential, shall be exempt from RCW 42.17.250 through 42.17.450 and shall not be subject to discovery by subpoena or admissible as evidence except for monitoring records reported to the disciplinary authority for cause as defined in WAC 246-867-050 (1) and (2). Records held by the board under this section shall be exempt from RCW 42.17.250 through 42.17.450 and shall not be subject to discovery by subpoena except by the license holder.

(2) Notwithstanding subsection (1) of this section, board orders shall be subject to RCW 42.17.250 through 42.17.450.

[Statutory Authority: RCW 18.64.005 and 18.130.050. 92-12-035 (Order 277B), § 246-867-060, filed 5/28/92, effective 6/28/92. Statutory Authority: RCW 18.64.005 and chapter 18.64A RCW. 91-18-057 (Order 191B), recodified as § 246-867-060, filed 8/30/91, effective 9/30/91. Statutory Authority: RCW 18.64.005. 90-03-054 (Order 025), § 360-15-070, filed 1/17/90, effective 2/17/90.]

Chapter 246-869 WAC
PHARMACY LICENSING

WAC

DISPOSITION OF SECTIONS FORMERLY CODIFIED IN THIS CHAPTER

246-869-050 Pharmacy license renewal. [Statutory Authority: RCW 18.64.005. 92-12-035 (Order 277B), § 246-869-050, filed 5/28/92, effective 6/28/92. Statutory Authority: RCW 18.64.005 and chapter 18.64A RCW. 91-18-057 (Order 191B), recodified as § 246-869-050, filed 8/30/91, effective 9/30/91. Statutory Authority: RCW 18.64.005. 88-14-041 (Order 215), § 360-16-025, filed 6/30/88. Statutory Authority: RCW 18.64.043. 84-12-019 (Order 186), § 360-16-025, filed 5/25/84.] Repealed by 98-05-060, filed 2/13/98, effective 3/16/98. Statutory Authority: RCW 43.70.280.

246-869-240 Pharmacist's professional responsibilities. [Statutory Authority: RCW 18.64.005. 92-08-058 (Order 260B), § 246-869-240, filed 3/26/92, effective 4/26/92. Statutory Authority: RCW 18.64.005 and chapter 18.64A RCW. 91-18-057 (Order 191B), recodified as § 246-869-240, filed 8/30/91, effective 9/30/91; Order 129, § 360-16-290, filed 7/13/76; Order 127, § 360-16-290, filed 12/1/75.] Repealed by 96-03-016, filed 1/5/96, effective 2/5/96. Statutory Authority: RCW 18.64.005.

246-869-260 Pharmacist supervised sales—General. [Statutory Authority: RCW 18.64.005 and chapter 18.64A RCW. 91-18-057 (Order 191B), recodified as § 246-869-260, filed 8/30/91, effective 9/30/91; Regulation 15, filed 3/23/60.] Repealed by 97-20-165, filed 10/1/97, effective 11/1/97. Statutory Authority: RCW 18.64.005.

WAC 246-869-020 Pharmacies and differential hours. (1) A pharmacy must provide adequate security for its drug supplies and records and in the absence of a pharmacist the pharmacy must be closed and access limited to persons authorized by the pharmacist; for example, janitorial services, inventory services, etc. If a pharmacy is located within a larger mercantile establishment which is open to the public for business at times when a pharmacist is not present then the pharmacy must be enclosed by solid partitions at least seven feet in height, from the floor, which are sufficient to provide adequate security for the pharmacy. In the absence of a pharmacist such pharmacies must be locked and secured so that only persons authorized by the pharmacist can gain access, provided however that employees of the mercantile establishment cannot be authorized to enter the closed pharmacy during those hours that the mercantile establishment is open to the public for business.

(2) All equipment and records referred to in WAC 246-869-180 and all drugs, devices, poisons and other items or products which are restricted to sale either by or under the personal supervision of a pharmacist must be kept in the pharmacy area.

(3) Written prescription orders and refill request can be delivered to a pharmacy at any time. But if no pharmacist is present then the prescription orders must be deposited, by the patient or his agent delivering the prescription order or refill request to the establishment, into a "mail slot" or "drop box" such that the prescription order is stored in the pharmacy area. The times that the pharmacy is open for business must be so displayed that they are prominently visible to the person depositing the prescription orders.

(4) Prescriptions shall be stored in the pharmacy and cannot be removed from the pharmacy unless the pharmacist is present and the removal is for the immediate delivery to the patient, person picking up the prescription for the patient, or person delivering the prescription to the patient at his residence or similar place.

(5) No drugs, devices, poisons and other items or products which are restricted to sale either by or under the personal supervision of a pharmacist can be sold or delivered without a pharmacist being present in the pharmacy.

(6) Any pharmacy having hours differing from the remainder of an establishment shall have a separate and distinct telephone number from that business establishment. The phone shall not be answerable in the remainder of the establishment unless all conversations, when the pharmacist is absent, are recorded and played back by the pharmacist.

(7) Oral prescriptions cannot be taken if a pharmacist is not present unless it is taken on a recording which must inform the caller as to the times the pharmacy is open.

(8) A pharmacy must prominently display in a permanent manner on or adjacent to its entrance the times that it is open for business. If a pharmacy is located within a larger mercantile establishment having hours of operation different from the pharmacy then the pharmacy times of being open for business shall be prominently displayed in a permanent manner at the pharmacy area and on or adjacent to the entrance to the mercantile establishment.

(9) Any advertising by the mercantile establishment which makes reference to the pharmacy or those products which are sold only in the pharmacy which in such advertising sets forth the days and hours that the mercantile establishment is open to the public for business must also indicate the days and hours that the pharmacy is open to the public for business.

(10) Any person desiring to operate a pharmacy within an establishment having hours of business differing from the pharmacy must notify the board of pharmacy at least thirty days prior to commencing such differential hours. In order to constitute notification the applicant must complete the file forms provided by the board providing the required information. Board inspection and approval must be completed prior to the commencing of such differential hours. Such inspection and approval or disapproval shall be within 10 days of receiving notification that the premises are ready for inspection. Approval or disapproval shall be predicated upon compliance with this rule and pharmacy standards under chapter 246-869 WAC.

[Statutory Authority: RCW 18.64.005. 92-12-035 (Order 277B), § 246-869-020, filed 5/28/92, effective 6/28/92. Statutory Authority: RCW 18.64.005 and chapter 18.64A RCW. 91-18-057 (Order 191B), recodified as § 246-869-020, filed 8/30/91, effective 9/30/91; Order 106, § 360-16-005, filed 9/11/70.]

WAC 246-869-030 Pharmacy license notice requirements. (1) Applications for a new pharmacy license must be submitted at least thirty days prior to the next regularly scheduled board meeting and the board shall require the submission of proof of the applicant's identity, and qualifications and such other information as may be necessary to properly evaluate the application, and, at its option, the board may require a personal interview at the next scheduled board meeting.

(2) In case of change of ownership or location of a pharmacy, the original license comes void and must be returned with a new application, as set forth in paragraph (1) above, and the statutorily required fees.

[Statutory Authority: RCW 18.64.005 and chapter 18.64A RCW. 91-18-057 (Order 191B), recodified as § 246-869-030, filed 8/30/91, effective 9/30/91; Order 114, § 360-16-011, filed 6/28/73.]

WAC 246-869-040 New pharmacy registration. The state board of pharmacy shall issue no new pharmacy registrations after December 1, 1976 unless:

(1) The pharmacy will operate a bona fide prescription department, with such equipment, facilities, supplies and pharmaceuticals as are specified by state board regulations;

(2) The pharmacy passes inspection with a minimum of an "A" grade;

(3) The pharmacy in a new or remodeled building can produce evidence of being built or remodeled in accordance with all building, health and fire codes required for the particular area.

[Statutory Authority: RCW 18.64.005 and chapter 18.64A RCW. 91-18-057 (Order 191B), recodified as § 246-869-040, filed 8/30/91, effective 9/30/91; Order 130, § 360-16-020, filed 11/10/76; Regulation 10, filed 3/23/60.]

WAC 246-869-060 Employers to require evidence of pharmacist's qualifications. It shall be the duty of every employer to require suitable evidence of qualifications to

practice pharmacy before they permit anyone to be in charge, compound or dispense drugs on their premises.

[Statutory Authority: RCW 18.64.005 and chapter 18.64A RCW. 91-18-057 (Order 191B), recodified as § 246-869-060, filed 8/30/91, effective 9/30/91; Regulation 19 (part), filed 3/23/60.]

WAC 246-869-070 Responsible manager—Appointment. Every nonlicensed proprietor of one or more pharmacies shall place in charge of each pharmacy a licensed pharmacist who shall be known as the "responsible manager." The nonlicensed proprietor shall immediately report to the state board of pharmacy the name of the "responsible manager," who shall ensure that the pharmacy complies with all the laws, rules and regulations pertaining to the practice of pharmacy. Every portion of the establishment coming under the jurisdiction of the pharmacy laws shall be under the full and complete control of such responsible manager. A now-licensed proprietor shall at once notify the board of pharmacy of the termination of employment of a responsible manager. Please refer to WAC 246-863-060 for additional information.

[Statutory Authority: RCW 18.64.005. 92-12-035 (Order 277B), § 246-869-070, filed 5/28/92, effective 6/28/92. Statutory Authority: RCW 18.64.005 and chapter 18.64A RCW. 91-18-057 (Order 191B), recodified as § 246-869-070, filed 8/30/91, effective 9/30/91. Statutory Authority: RCW 18.64.005(11). 79-10-007 (Order 151, Resolution No. 9/79), § 360-16-050, filed 9/6/79; Regulation 6, filed 3/23/60.]

WAC 246-869-080 Clinic dispensaries. The clinics of this state shall place their dispensaries in charge of a registered pharmacist, or the dispensing must be done by each prescribing physician in person.

[Statutory Authority: RCW 18.64.005 and chapter 18.64A RCW. 91-18-057 (Order 191B), recodified as § 246-869-080, filed 8/30/91, effective 9/30/91; Regulation 9, filed 3/23/60.]

WAC 246-869-090 Prescription transfers. The transfer of original prescription information for a noncontrolled substance legend drug for the purpose of refill dispensing is permissible between pharmacies subject to the following requirements:

(1) The transfer is communicated directly between two licensed pharmacists and the transferring pharmacist records the following information:

(a) Record in the patient medication record system that a copy has been issued.

(b) Record in the patient medication record system the name and address of the pharmacy to which it was transferred and the name of the pharmacist receiving the prescription information.

(2) The pharmacist receiving the transferred prescription information shall reduce to writing the following:

(a) Write the word "TRANSFER" on the face of the transferred prescription.

(b) Provide all information required to be on the prescription - patient's name and address; doctor's name and address, and also include:

(i) Date of issuance of original prescription.

(ii) Number of valid refills remaining and date of last refill.

(iii) The pharmacy's name, address, and original prescription number from which the prescription information was transferred.

(iv) Name of transferor pharmacist.

(c) Both the original and transferred prescription must be maintained as if they were original prescriptions.

(d) A transferred prescription may not be refilled after one year from the date the original was issued.

(e) The above subsections apply to the transfer of prescription information for noncontrolled substances. The transfer of controlled substance prescription information must conform to the requirements of 21 CFR 1306.26.

(3) When a prescription is transferred, no further refills shall be issued by the transferring pharmacy.

(4) If two or more pharmacies utilize a common electronic data base for prescription recordkeeping, prescriptions may be refilled at any of these pharmacies as long as there is provided an audit trail which documents the location of each filling and provisions are made to assure that the number of authorized refills are not exceeded.

[Statutory Authority: RCW 18.64.005 and chapter 18.64A RCW. 91-18-057 (Order 191B), recodified as § 246-869-090, filed 8/30/91, effective 9/30/91. Statutory Authority: RCW 18.64.005. 88-23-058 (Order 221), § 360-16-094, filed 11/15/88.]

WAC 246-869-095 Facsimile transmission of prescription orders. Prescription orders may be transmitted to pharmacies from prescriber's offices and health care facilities using facsimile transmission devices subject to the following requirements:

(1) The order contains the date, time, and telephone number and location of the transmitting device.

(2) Transmission of orders for Schedule II drugs are not allowed provided that, when an emergency exists, an order for Schedule II controlled substances may be dispensed and delivered to a patient pursuant to a facsimile transmission subject to the requirements of WAC 246-887-020(7). And further provided that, in a nonemergent situation, an order for Schedule II controlled substances may be prepared for delivery to a patient pursuant to a facsimile transmission but may not be delivered to the patient except upon presentation of a written order.

(3) The transmitted order shall be filed in the same manner as any other prescription. However, the pharmacist is responsible for assuring that the quality of the order is sufficient to be legible for at least two years pursuant to the records retention requirements of WAC 246-869-100.

(4) Refill authorizations for prescriptions may be transmitted using a facsimile device.

(5) The pharmacist is responsible for assuring that each facsimile prescription is valid and shall verify authenticity with the prescriber whenever there is a question.

(6) No agreement between a prescriber and a pharmacy shall require that prescription orders be transmitted by facsimile machine from the prescriber to only that pharmacy.

[Statutory Authority: RCW 18.64.005. 92-14-032 (Order 283B), § 246-869-095, filed 6/23/92, effective 7/24/92.]

WAC 246-869-100 Prescription record requirements. (1) Records for the original prescription and refill

records shall be maintained on the filled prescription or in a separate record book or patient medication record. Such records must be maintained for a period of at least two years and shall be made available for inspection to representatives of the board of pharmacy.

(2) The pharmacist shall be required to insure that the following information be recorded:

(a) Original prescription—At the time of dispensing, a serial number, date of dispensing, and the initials of the responsible pharmacist shall be placed on the face of the prescription. The patient's address must be readily available to the pharmacist, either from the face of the prescription, a record book, patient medication record, or hospital or clinic record.

(b) Refill prescription authorization—Refills for prescription for legend drugs must be authorized by the prescriber prior to the dispensing of the refill prescription.

(c) Refill prescription—At the time of dispensing, the date of refilling, quantity of the drug (if other than original), the name of authorizing person (if other than original), and the initials of the responsible pharmacist shall be recorded on the back side of the prescription, or in a separate record book or patient medication record.

(d) Prescription refill limitations—No prescription may be refilled for a period longer than one year from the date of the original prescription. "PRN" prescriptions shall expire at the end of one year. Expired prescriptions require authorization before filling. If granted a new prescription shall be written and placed in the files.

(e) Prescription copies—Prescription copies and prescription labels presented for filling must be considered as informational only, and may not be used as the sole document. The prescriber shall be contacted for complete information and authorization. If granted, a new prescription shall be written and placed on file. Copies of prescriptions must be clearly identified as such on the face of the prescription. The transfer of original prescription information is permitted if the provisions of WAC 246-869-090 are met.

(f) Emergency refills—If the prescriber is not available and in the professional judgment of the pharmacist an emergency need for the medication has been demonstrated, the pharmacist may dispense enough medication to last until a prescriber can be contacted - but not to exceed 72 hours' supply. The prescriber shall be promptly notified of the emergency refill.

[Statutory Authority: RCW 18.64.005. 92-12-035 (Order 277B), § 246-869-100, filed 5/28/92, effective 6/28/92. Statutory Authority: RCW 18.64.005 and chapter 18.64A RCW. 91-18-057 (Order 191B), recodified as § 246-869-100, filed 8/30/91, effective 9/30/91. Statutory Authority: RCW 18.64.005. 89-22-046, § 360-16-096, filed 10/30/89, effective 11/30/89; 88-23-058 (Order 221), § 360-16-096, filed 11/15/88; Order 131, § 360-16-096, filed 2/4/77; Order 126, § 360-16-096, filed 5/21/75; Order 117, § 360-16-096, filed 11/9/73; Regulation 49, filed 12/1/65.]

WAC 246-869-110 Refusal to permit inspection. The refusal to permit an authorized representative of the Washington state board of pharmacy to examine during normal business hours the premises, inventory and/or records relating to drugs of licensed wholesalers, manufacturers, pharmacies and shopkeepers constitutes grounds for the suspension or revocation of the establishment's license and/or that of the pharmacist refusing such requested examination.

[Statutory Authority: RCW 18.64.005 and chapter 18.64A RCW. 91-18-057 (Order 191B), recodified as § 246-869-110, filed 8/30/91, effective 9/30/91; Order 109, § 360-16-098, filed 5/23/72; Order 103, § 360-16-098, filed 12/5/69.]

WAC 246-869-120 Mechanical devices in hospitals. Mechanical devices for storage of floor stock, shall be limited to hospitals and shall comply with all the following provisions:

(1) All drugs and medicines to be stocked in the device shall be prepared for use in the device by or under the direct supervision of a registered pharmacist in the employ of the hospital and shall be prepared in the hospital from the hospital stock in which the drug is to be administered. "Hospital" shall mean any hospital licensed by the state department of health or under the direct supervision of the state department of institutions.

(2) Such device shall be stocked with drugs and medicines only by a registered pharmacist in the employ of the hospital.

(3) A registered pharmacist in the employ of the hospital shall be personally responsible for the inventory and stocking of drugs and medicines in the device and he shall be personally responsible for the condition of the drugs and medicines stored in the device.

(4) A registered pharmacist in the employ of the hospital shall be the only person having access to that portion, section, or part of the device in which the drugs or medicines are stored.

(5) All containers of drugs or medicines to be stored in the device shall be correctly labeled to include: Name, strength, route of administration and if applicable, the expiration date.

(6) At the time of the removal of any drug or medicine from the device, the device shall automatically make a written record showing the name, strength, and quantity of the drug or medicine removed, the name of the patient for whom the drug or medicine was ordered, and the identification of the nurse removing the drug or medicine from the device. The record must be maintained for two years by the hospital and shall be accessible to the pharmacist.

(7) Medical practitioners authorized to prescribe, pharmacists authorized to dispense, or nurses authorized to administer such drugs shall be the only persons authorized to remove any drug or medicine from the device and such removal by a nurse or medical practitioner shall be made only pursuant to a chart order. An identification mechanism, required to operate the device shall be issued permanently to each operator while the operator is on the staff of, or employed by the hospital. Such mechanism must imprint the operator's name or number if it permits the device to operate.

(8) The device shall be used only for the furnishing of drugs or medicines for administration in the hospital to registered in-patients or emergency patients in the hospital.

(9) Every hospital seeking approval to use any device shall, prior to installation of the device, register with the board by filing an application. Such application shall contain: The name and address of the hospital; the name of the regis-

tered pharmacist who is to be responsible for stocking the device; the manufacturer's name and model, description, and the proposed location of each device in the hospital.

(10) No such device shall be used until approval has been granted by the board, and no change in the location of the device or in the registered pharmacist responsible for stocking the device shall be made without prior written notice to the board. No such device shall be removed from the licensed premises without prior approval of the board.

(11) As used in this section, a "pharmacist in the employ of the hospital" shall not include any pharmacist who is, or is employed by, a manufacturer, wholesaler, distributor, or itinerant vendor of drugs or medicines.

(12) Each and every device approved by the board shall be issued a certificate of location. Such certificate must be conspicuously displayed on the device and contain the following:

(a) Name and address of the hospital

(b) Name of the registered pharmacist who is to be responsible for stocking the device

(c) Location of the device in the hospital

(d) Manufacturer's name of the device and the serial number of the device.

(13) Upon any malfunction the device shall not be used until the malfunction has been corrected.

(14) A copy of this regulation shall be attached to each and every device certified by the board of pharmacy.

[Statutory Authority: RCW 18.64.005. 92-12-035 (Order 277B), § 246-869-120, filed 5/28/92, effective 6/28/92. Statutory Authority: RCW 18.64.005 and chapter 18.64A RCW. 91-18-057 (Order 191B), recodified as § 246-869-120, filed 8/30/91, effective 9/30/91; Regulation 47, filed 12/1/65.]

WAC 246-869-130 Return or exchange of drugs. Except as provided in this rule, prescriptions, drugs, medicines, sick room supplies and items of personal hygiene shall not be accepted for return or exchange by any pharmacist or pharmacy after such prescriptions, drugs, medicines, sick room supplies or items of personal hygiene have been taken from the premises where sold, distributed or dispensed.

(1) Those drugs and sick room supplies legally dispensed by prescription in unit dose forms or in sealed single or multiple dose ampoules or vials in which the pharmacist can readily determine that entry or attempted entry by any means has not been made and which, in the pharmacist's professional judgment, meet the standards of the United States Pharmacopeia for storage conditions including temperature, light sensitivity, chemical and physical stability may be returned.

(2) Pharmacies serving hospitals and long-term care facilities may accept for return and reuse, unit dose packages or full or partial multiple dose medication cards based on the following criteria;

(a) The pharmacist can readily determine that entry or attempt at entry to the unit dose package or blister card has not been made;

(b) In the pharmacist's professional judgment, the unit dose package or full or partial multiple dose medication card meets the standards of the United States Pharmacopeia for storage conditions including temperature, light sensitivity, chemical and physical stability;

(c) The drug has been stored in such a manner as to prevent contamination by a means that would affect the efficacy and toxicity of the drug;

(d) The drug has not come into physical possession of the person for whom it was prescribed and control of the drug being returned is known to the pharmacist to have been the responsibility of a person trained and knowledgeable in the storage and administration of drugs;

(e) The drug labeling or packaging has not been altered or defaced so that the identity of the drug, its potency, lot number, and expiration date is retrievable.

(f) If the drug is prepackaged, it shall not be mixed with drugs of different lot numbers and/or expiration dates unless the specific lot numbers are retrievable and the expiration dates accompany the drug. If the drug is extemporaneously packaged, it shall not be mixed with drugs of different expiration dates unless the earliest expiration date appears on the label of the drug.

(3) This rule shall not include items such as orthopedic appliances, crutches, canes, wheelchairs and other similar items unless otherwise prohibited.

(4) Controlled substances shall not be returned to a pharmacy except for destruction in accordance with rules of the drug enforcement administration or the Washington state board of pharmacy.

[Statutory Authority: RCW 18.64.005 and chapter 18.64A RCW. 91-18-057 (Order 191B), recodified as § 246-869-130, filed 8/30/91, effective 9/30/91. Statutory Authority: RCW 18.64.005. 84-12-020 (Order 187), § 360-16-150, filed 5/25/84; Regulation 28, filed 3/23/60.]

WAC 246-869-140 Prescription department—Conversing with pharmacist prohibited. Henceforth the prescription department of every licensed pharmacy in the state of Washington shall be protected against trespass by the lay public. No person shall be permitted to converse with a registered pharmacist while he or she is engaged in compounding a prescription, except nothing in this promulgation shall prevent one pharmacist from consulting with another pharmacist, a physician, a dentist or a veterinary surgeon, regarding the contents or technique connected with or pertaining to, the prescription being compounded.

[Statutory Authority: RCW 18.64.005 and chapter 18.64A RCW. 91-18-057 (Order 191B), recodified as § 246-869-140, filed 8/30/91, effective 9/30/91; Regulation 37, filed 11/23/60.]

WAC 246-869-150 Physical standards for pharmacies—Adequate stock. (1) The pharmacy must maintain at all times a representative assortment of drugs in order to meet the pharmaceutical needs of its patients.

(2) Dated items—All merchandise which has exceeded its expiration date must be removed from stock.

(3) All stock and materials on shelves or display for sale must be free from contamination, deterioration and adulteration.

(4) All stock and materials must be properly labeled according to federal and state statutes, rules and regulations.

(5) Devices that are not fit or approved by the FDA for use by the ultimate consumer shall not be offered for sale and must be removed from stock.

(6) All drugs shall be stored in accordance with USP standards and shall be protected from excessive heat or freezing except as those drugs that must be frozen in accordance with the requirements of the label. If drugs are exposed to excessive heat or frozen when not allowed by the requirements of the label, they must be destroyed.

[Statutory Authority: RCW 18.64.005 and chapter 18.64A RCW. 91-18-057 (Order 191B), recodified as § 246-869-150, filed 8/30/91, effective 9/30/91. Statutory Authority: RCW 18.64.005. 85-11-066 (Order 194), § 360-16-200, filed 5/21/85; Order 131, § 360-16-200, filed 2/4/77; Order 51 (part), filed 8/15/67.]

WAC 246-869-160 Physical standards for pharmacies—Adequate facilities. (1) The prescription department shall be well lighted (adequately to allow any person with normal vision to read a label without strain, 30-50 foot candles).

(2) The prescription department shall be well ventilated. There shall be a constant flow of air through the area.

(3) There shall be a minimum of three linear feet by a minimum of 18 inches in depth of counter working space for each pharmacist or intern compounding or filling prescriptions at the same time.

(4) The prescription counter shall be uncluttered and clean at all times. Only those items necessary to the filling of prescriptions shall be thereon. (Profile systems are excepted.)

(5) There shall be a sink with hot and cold running water in the prescription compounding area.

(6) There shall be refrigeration facilities with a thermometer in the prescription compounding area for the storage of pharmaceutical items requiring refrigeration. USP standards of refrigeration require that the temperature be maintained between two degrees and eight degrees Centigrade (36 degrees and 46 degrees Fahrenheit). A locked refrigerator in the immediate vicinity of the prescription department will meet the requirements of this paragraph.

(7) The prescription department shall be situated so that the public shall not have free access to the area where legend drugs, controlled substances, poisons, or other restricted items are stored, compounded or dispensed.

[Statutory Authority: RCW 18.64.005 and chapter 18.64A RCW. 91-18-057 (Order 191B), recodified as § 246-869-160, filed 8/30/91, effective 9/30/91; Order 131, § 360-16-210, filed 2/4/77; Order 51 (part), filed 8/15/67.]

WAC 246-869-170 Physical standards for pharmacies—Sanitary conditions. (1) The walls, ceilings, floors and windows shall be clean, free from cracked and peeling paint or plaster, and in general good repair and order.

(2) Adequate trash receptacles shall be available, both in the prescription compounding and in the retail areas.

(3) If a restroom is provided, there must be a sink with hot and cold running water, soap and towels, and the toilet must be clean and sanitary.

(4) All equipment must be kept in a clean and orderly manner. That equipment used in the compounding of prescriptions (counting, weighing, measuring, mixing and stirring equipment) must be clean and in good repair.

(5) All professional personnel and staff, while working in the pharmacy, shall keep themselves and their apparel neat and clean.

[Statutory Authority: RCW 18.64.005 and chapter 18.64A RCW. 91-18-057 (Order 191B), recodified as § 246-869-170, filed 8/30/91, effective 9/30/91; Order 131, § 360-16-220, filed 2/4/77; Order 51 (part), filed 8/15/67.]

WAC 246-869-180 Physical standards for pharmacies—Adequate equipment. (1) All pharmacies shall have in their possession the equipment and supplies necessary to compound, dispense, label, administer and distribute drugs and devices. The equipment shall be in good repair and shall be available in sufficient quantity to meet the needs of the practice of pharmacy conducted therein.

(2) All pharmacies will have in their possession:

(a) One up-to-date copy of the state of Washington statutes, rules and regulations governing the practice of pharmacy, the sale and dispensing of drugs, poisons, controlled substances, and medicines maintained in a binder.

(3) All pharmacies shall have up-to-date references in order for the pharmacist(s) to furnish patients and practitioners with information concerning drugs.

[Statutory Authority: RCW 18.64.005 and chapter 18.64A RCW. 91-18-057 (Order 191B), recodified as § 246-869-180, filed 8/30/91, effective 9/30/91. Statutory Authority: RCW 18.64.005. 85-11-066 (Order 194), § 360-16-230, filed 5/21/85; 84-03-015 (Order 180), § 360-16-230, filed 1/9/84; Order 131, § 360-16-230, filed 2/4/77; Order 118, § 360-16-230, filed 1/2/74; Order 51 (part), filed 8/15/67.]

WAC 246-869-190 Pharmacy inspections. (1) All pharmacies shall be subject to periodic inspections to determine compliance with the laws regulating the practice of pharmacy.

(2) Each inspected pharmacy shall receive a classification rating which will depend upon the extent of that pharmacy's compliance with the inspection standards.

(3) There shall be three rating classifications:

(a) "Class A" - for inspection scores of 90 to 100;

(b) "Conditional" - for inspection scores of 80 to 89; and,

(c) "Unsatisfactory" - for inspection scores below 80.

(4) Any pharmacy receiving a conditional rating shall have sixty days to raise its inspection score rating to 90 or better. If upon reinspection after sixty days, the pharmacy fails to receive a rating of 90 or better, then the pharmacy will be subject to disciplinary action.

(5) Any pharmacy receiving an unsatisfactory rating shall have fourteen days to raise its inspection score rating to 90 or better. If upon reinspection after fourteen days, the pharmacy fails to receive a rating of 90 or better, then the pharmacy will be subject to disciplinary action.

(6) The certificate of inspection must be posted in conspicuous view of the general public and shall not be removed or defaced.

(7) Noncompliance with the provisions of chapter 18.64A RCW (Pharmacy assistants) and, chapter 246-901 WAC (Pharmacy assistants) resulting in a deduction of at least five points shall result in an automatic unsatisfactory rating regardless of the total point score.

(8) Pharmacies receiving an unsatisfactory rating which represent a clear and present danger to the public health, safety and welfare will be subject to summary suspension of the pharmacy license.

[Statutory Authority: RCW 18.64.005. 92-12-035 (Order 277B), § 246-869-190, filed 5/28/92, effective 6/28/92. Statutory Authority: RCW 18.64.005

and chapter 18.64A RCW. 91-18-057 (Order 191B), recodified as § 246-869-190, filed 8/30/91, effective 9/30/91. Statutory Authority: RCW 18.64.005. 87-08-031 (Order 205), § 360-16-235, filed 3/27/87.]

WAC 246-869-200 Poison control. (1) The telephone number of the nearest poison control center shall be readily available.

(2) Each pharmacy shall maintain at least one ounce bottle of Ipecac syrup in stock at all times.

[Statutory Authority: RCW 18.64.005 and chapter 18.64A RCW. 91-18-057 (Order 191B), recodified as § 246-869-200, filed 8/30/91, effective 9/30/91. Statutory Authority: RCW 18.64.005. 87-08-031 (Order 205), § 360-16-245, filed 3/27/87; Order 120, § 360-16-245, filed 3/11/74.]

WAC 246-869-210 Prescription labeling. To every prescription container, there shall be fixed a label or labels bearing the following information:

(1) All information as required by RCW 18.64.246, provided that in determining an appropriate period of time for which a prescription drug may be retained by a patient after its dispensing, the dispenser shall take the following factors into account:

(a) The nature of the drug;

(b) The container in which it was packaged by the manufacturer and the expiration date thereon;

(c) The characteristics of the patient's container, if the drug is repackaged for dispensing;

(d) The expected conditions to which the article may be exposed;

(e) The expected length of time of the course of therapy; and

(f) Any other relevant factors.

The dispenser shall, on taking into account the foregoing, place on the label of a multiple unit container a suitable beyond-use date or discard-by date to limit the patient's use of the drug. In no case may this date be later than the original expiration date determined by the manufacturer.

(2) The quantity of drug dispensed, for example the volume or number of dosage units.

(3) The following statement, "Warning: State or federal law prohibits transfer of this drug to any person other than the person for whom it was prescribed."

(4) The information contained on the label shall be supplemented by oral or written information as required by WAC 246-869-220.

[Statutory Authority: RCW 18.64.005. 92-12-035 (Order 277B), § 246-869-210, filed 5/28/92, effective 6/28/92. Statutory Authority: RCW 18.64.005 and chapter 18.64A RCW. 91-18-057 (Order 191B), recodified as § 246-869-210, filed 8/30/91, effective 9/30/91. Statutory Authority: RCW 18.64.246. 85-06-010 (Order 193), § 360-16-255, filed 2/22/85. Statutory Authority: RCW 18.64.005. 84-22-027 (Order 191), § 360-16-255, filed 11/1/84.]

WAC 246-869-220 Patient counseling required. The purpose of this counseling requirement is to educate the public in the use of drugs and devices dispensed upon a prescription.

(1) The pharmacist shall directly counsel the patient or patient's agent on the use of drugs or devices.

(2) For prescriptions delivered outside of the pharmacy, the pharmacist shall offer in writing, to provide direct counseling and information about the drug, including information on how to contact the pharmacist.

(3) For each patient, the pharmacist shall determine the amount of counseling that is reasonable and necessary under the circumstance to promote safe and effective administration of the medication and to facilitate an appropriate therapeutic outcome for that patient from the prescription.

(4) This rule applies to all prescriptions except where a medication is to be administered by a licensed health professional authorized to administer medications.

[Statutory Authority: RCW 18.64.005(7). 01-04-055, § 246-869-220, filed 2/5/01, effective 3/8/01. Statutory Authority: RCW 18.64.005. 92-12-035 (Order 277B), § 246-869-220, filed 5/28/92, effective 6/28/92. Statutory Authority: RCW 18.64.005 and chapter 18.64A RCW. 91-18-057 (Order 191B), recodified as § 246-869-220, filed 8/30/91, effective 9/30/91. Statutory Authority: RCW 18.64.005. 89-04-016 (Order 223), § 360-16-265, filed 1/23/89.]

WAC 246-869-230 Child-resistant containers. (1) All legend drugs shall be dispensed in a child-resistant container as required by federal law or regulation, including CFR Part 1700 of Title 16, unless:

(a) Authorization is received from the prescriber to dispense in a container that is not child-resistant.

(b) Authorization is obtained from the patient or a representative of the patient to dispense in a container that is not child-resistant.

(2) Authorization from the patient to the pharmacist to use a regular container (nonchild-resistant) shall be verified in one of the following ways:

(a) The patient or his agent may sign a statement on the back of the prescription requesting a container that is not child-resistant.

(b) The patient or his agent may sign a statement on a patient medication record requesting containers that are not child-resistant.

(c) The patient or his agent may sign a statement on any other permanent record requesting containers that are not child-resistant.

(3) No pharmacist or pharmacy employee may designate himself or herself as the patient's agent.

[Statutory Authority: RCW 18.64.005 and chapter 18.64A RCW. 91-18-057 (Order 191B), recodified as § 246-869-230, filed 8/30/91, effective 9/30/91; Order 126, § 360-16-270, filed 5/21/75.]

WAC 246-869-235 Prescription drug repackaging—Definitions. (1) "Unit-dose" means the ordered amount of a drug in an individually sealed package and in a dosage form ready for administration to a particular person by the prescribed route at the prescribed time.

(2) "Unit-of-use" means a sufficient quantity of a drug for one normal course of therapy.

(3) "Lot number," "control number" means any distinctive combination of letters, numbers, or symbols, or any combination of them, from which a complete history of the manufacturer, processing, packing, holding, and distribution of a batch or lot of drug product or other material can be determined.

(4) "Med-pack" means any package prepared under the immediate supervision of a pharmacist for a specific patient comprising a series of containers and containing one or more

prescribed solid oral dosage forms including multifill blister packs.

[Statutory Authority: RCW 18.64.005. 93-01-051 (Order 320B), § 246-869-235, filed 12/10/92, effective 1/10/93.]

WAC 246-869-250 Closing a pharmacy. (1) Whenever a pharmacy ceases to operate, the owner shall notify the pharmacy board of the pharmacy's closing not later than fifteen days prior to the anticipated date of closing. This notice shall be submitted in writing and shall contain all of the following information:

(a) The date the pharmacy will close;

(b) The names and addresses of the persons who shall have custody of the prescription files, the bulk compounding records, the repackaging records, and the controlled substances inventory records of the pharmacy to be closed;

(c) The names and addresses of any persons who will acquire any of the legend drugs from the pharmacy to be closed, if known at the time the notification is filed.

(2) Not later than 15 days after the pharmacy has closed, the owner shall submit to the pharmacy board the following documents:

(a) The license of the pharmacy that closed; and

(b) A written statement containing the following information;

(i) Confirmation that all legend drugs have been transferred to an authorized person (or persons) or destroyed. If the legend drugs were transferred, the names and addresses of the person(s) to whom they were transferred;

(ii) If controlled substances were transferred, a list of the names and addresses to whom the substances were transferred, the substances transferred, the amount of each substance transferred, and the date on which the transfer took place;

(iii) Confirmation that the drug enforcement administration (DEA) registration and all unused DEA 222 forms (order forms) were returned to the DEA;

(iv) Confirmation that all pharmacy labels and blank prescriptions which were in the possession of the pharmacy were destroyed;

(v) Confirmation that all signs and symbols indicating the presence of the pharmacy have been removed.

[Statutory Authority: RCW 18.64.005 and chapter 18.64A RCW. 91-18-057 (Order 191B), recodified as § 246-869-250, filed 8/30/91, effective 9/30/91. Statutory Authority: RCW 18.64.005 and 69.41.240. 83-10-013 (Order 174), § 360-16-300, filed 4/26/83.]

WAC 246-869-255 Customized patient medication packages. The board approves the use of med-pack containers in the dispensing of prescription drugs within the same pharmacy, provided that:

(1) The pharmacy must maintain custody of the original prescription container at the pharmacy;

(2) No more than a thirty-one day supply of drugs is packaged;

(3) The signature of the patient or the patient's agent is obtained for dispensing in a nonchild resistant container;

(4) The container's label bear the following information:

(a) Pharmacy name and address;

(b) Patient's name;

(c) Drug name, strength, quantity;

(d) Directions;

(e) Serial prescription numbers; date

(f) Prescriber's name, and pharmacist's initials.

[Statutory Authority: RCW 18.64.005. 93-01-051 (Order 320B), § 246-869-255, filed 12/10/92, effective 1/10/93.]

Chapter 246-871 WAC

PHARMACEUTICAL—PARENTERAL PRODUCTS FOR NONHOSPITALIZED PATIENTS

WAC

WAC 246-871-001 Scope and purpose. The purpose of this chapter is to provide standards for the preparation, labeling, and distribution of parenteral products by licensed pharmacies, pursuant to an order or prescription. These standards are intended to apply to all parenteral products not administered in a hospital.

[Statutory Authority: RCW 18.64.005 and chapter 18.64A RCW. 91-18-057 (Order 191B), recodified as § 246-871-001, filed 8/30/91, effective 9/30/91. Statutory Authority: RCW 18.64.005. 90-03-055 (Order 026), § 360-16A-010, filed 1/17/90, effective 2/17/90.]

WAC 246-871-010 Definitions. (1) Biological safety cabinet - A containment unit suitable for the preparation of low to moderate risk agents where there is a need for protection of the product, personnel, and environment according to National Sanitation Foundation (NSF) Standard 49.

(2) Class 100 environment - An atmospheric environment which contains less than 100 particles 0.5 microns in diameter per cubic foot of air, according to Federal Standard 209B.

(3) Antineoplastic - A pharmaceutical that has the capability of killing malignant cells.

(4) Parenteral - Sterile preparations of drugs for injection through one or more layers of skin.

[Statutory Authority: RCW 18.64.005 and chapter 18.64A RCW. 91-18-057 (Order 191B), recodified as § 246-871-010, filed 8/30/91, effective 9/30/91. Statutory Authority: RCW 18.64.005. 90-03-055 (Order 026), § 360-16A-020, filed 1/17/90, effective 2/17/90.]

WAC 246-871-020 Policy and procedure manual. (1) A policy and procedure manual as it relates to parenteral products shall be available for inspection at the pharmacy. The manual shall be reviewed and revised on an annual basis by the on-site pharmacist-in-charge.

(2) The manual shall include policies and procedures for:

(a) Clinical services;

(b) Parenteral product handling, preparation, dating, storage, and disposal;

(c) Major and minor spills of antineoplastic agents, if applicable;

(d) Disposal of unused supplies and medications;

(e) Drug destruction and returns;
(f) Drug dispensing;
(g) Drug labeling—relabeling;
(h) Duties and qualifications for professional and nonprofessional staff;
(i) Equipment;
(j) Handling of infectious waste pertaining to drug administration;
(k) Infusion devices and drug delivery systems;
(l) Dispensing of investigational medications;
(m) Training and orientation of professional and nonprofessional staff commensurate with the services provided;
(n) Quality assurance;
(o) Recall procedures;
(p) Infection control:
(i) Suspected contamination of parenteral products;
(ii) Orientation of employees to sterile technique;
(q) Sanitation;
(r) Security;
(s) Transportation; and
(t) Absence of a pharmacist.

[Statutory Authority: RCW 18.64.005 and chapter 18.64A RCW. 91-18-057 (Order 191B), recodified as § 246-871-020, filed 8/30/91, effective 9/30/91. Statutory Authority: RCW 18.64.005. 90-03-055 (Order 026), § 360-16A-030, filed 1/17/90, effective 2/17/90.]

WAC 246-871-030 Physical requirements. (1) Space. The pharmacy shall have a designated area with entry restricted to designated personnel for preparing compounded parenteral products. This area shall be designed to minimize traffic and airflow disturbances. It shall be used only for the preparation of these specialty products. It shall be of sufficient size to accommodate a laminar airflow hood and to provide for the proper storage of drugs and supplies under appropriate conditions of temperature, light, moisture, sanitation, ventilation, and security.

(2) Equipment. The pharmacy preparing parenteral products shall have:

(a) Appropriate environmental control devices capable of maintaining at least a Class 100 environment condition in the workspace where critical objects are exposed and critical activities are performed; furthermore, these devices are capable of maintaining Class 100 environment conditions during normal activity;

(b) Clean room and laminar flow hood certification shall be conducted annually by an independent contractor according to Federal Standard 209B or National Sanitation Foundation 49 for operational efficiency. These reports shall be maintained for at least two years;

(c) Prefilters. Prefilters for the clean air source shall be replaced on a regular basis and the replacement date documented;

(d) Sink with hot and cold running water which is convenient to the compounding area for the purpose of hand scrubs prior to compounding;

(e) Appropriate disposal containers for used needles, syringes, etc., and if applicable, antineoplastic agents;

(f) Refrigerator/freezer with thermometer;

(g) Temperature controlled delivery container, if appropriate;

(h) Infusion devices, if appropriate.

(3) Reference library. The pharmacy shall have current reference materials related to parenteral products. These reference materials will contain information on stability, incompatibilities, mixing guidelines, and the handling of antineoplastic products.

[Statutory Authority: RCW 18.64.005 and chapter 18.64A RCW. 91-18-057 (Order 191B), recodified as § 246-871-030, filed 8/30/91, effective 9/30/91. Statutory Authority: RCW 18.64.005. 90-03-055 (Order 026), § 360-16A-040, filed 1/17/90, effective 2/17/90.]

WAC 246-871-040 Personnel. (1) Pharmacist-in-charge. Each pharmacy shall be managed on site by a pharmacist who is licensed to practice pharmacy in this state and who has been trained in the specialized functions of preparing and dispensing compounded parenteral products, including the principles of aseptic technique and quality assurance. This training may be obtained through residency training programs, continuing education programs, or experience in an IV admixture facility. The pharmacist-in-charge shall be responsible for the purchasing, storage, compounding, repackaging, dispensing, and distribution of all parenteral products. He/she shall also be responsible for the development and continuing review of all policies and procedures, training manuals, and the quality assurance programs. The pharmacist-in-charge may be assisted by additional pharmacists trained in this area of practice.

(2) Supportive personnel. The pharmacist-in-charge may be assisted by a level A pharmacy assistant. The level A pharmacy assistant shall have specialized training in this field and shall work under the immediate supervision of a pharmacist. The training provided to these personnel shall be described in writing in a training manual pursuant to chapter 246-901 WAC and chapter 18.64A RCW. The duties and responsibilities of the level A pharmacy assistant must be consistent with his/her training and experience.

(3) Staffing. A pharmacist shall be accessible twenty-four hours per day for each pharmacy to respond to patient's and other health professionals' questions and needs.

[Statutory Authority: RCW 18.64.005. 92-12-035 (Order 277B), § 246-871-040, filed 5/28/92, effective 6/28/92. Statutory Authority: RCW 18.64.005 and chapter 18.64A RCW. 91-18-057 (Order 191B), recodified as § 246-871-040, filed 8/30/91, effective 9/30/91. Statutory Authority: RCW 18.64.005. 90-03-055 (Order 026), § 360-16A-060, filed 1/17/90, effective 2/17/90.]

WAC 246-871-050 Drug distribution and control. (1) Prescription. The pharmacist, or pharmacy intern acting under the immediate supervision of a pharmacist, must receive a written or verbal prescription from an authorized prescriber before dispensing any parenteral product. Prescriptions may be filed within the pharmacy by patient-assigned consecutive numbers. A new prescription is required every twelve months or upon any prescription change. These prescriptions shall, at a minimum, contain the following:

(a) Patient name;
(b) Patient address;
(c) Drug name, strength, and dispensing quantity;
(d) Patient directions for use;
(e) Date written;

(f) Authorizing prescriber's name;

(g) Physician's address and Drug Enforcement Administration identification code, if applicable;

(h) Refill instructions, if applicable; and

(i) Provision for generic substitution.

(2) Profile or medication record system. A pharmacy-generated profile or medication record system must be separated from the oral prescription file. The patient profile or medication record system shall be maintained under the control of the pharmacist-in-charge for a period of two years after the last dispensing activity. The patient profile or medication record system shall contain, at a minimum:

(a) Patient's full name;

(b) Date of birth or age;

(c) Weight, if applicable;

(d) Sex, if applicable;

(e) Parenteral products dispensed;

(f) Date dispensed;

(g) Drug content and quantity;

(h) Patient directions;

(i) Prescription identifying number;

(j) Identification of dispensing pharmacist and preparing level A pharmacy assistant, if applicable;

(k) Other drugs patient is receiving;

(l) Known drug sensitivities and allergies to drugs and foods;

(m) Primary diagnosis, chronic conditions; and

(n) Name of manufacturer and lot numbers of components or a policy for return of recalled product if lot numbers are not recorded.

(3) Labeling. Parenteral products dispensed to patients shall be labeled with the following information with a permanent label:

(a) Name, address, and telephone number of the pharmacy;

(b) Date and prescription identifying number;

(c) Patient's full name;

(d) Name of each component, strength, and amount;

(e) Directions for use including infusion rate;

(f) Prescriber's name;

(g) Required transfer warnings;

(h) Date of compounding;

(i) Expiration date and expiration time, if applicable;

(j) Identity of pharmacist compounding and dispensing or other authorized individual;

(k) Storage requirements;

(l) Auxiliary labels, where applicable;

(m) Antineoplastic drug auxiliary labels, where applicable; and

(n) On all parenteral products, a twenty-four hour phone number where a pharmacist can be contacted.

(4) Records and reports. The pharmacist-in-charge shall maintain access to and submit, as appropriate, such records and reports as are required to ensure patient's health, safety, and welfare. Such records shall be readily available, maintained for two years, and subject to inspections by the board of pharmacy. These shall include, as a minimum, the following:

(a) Patient profile/medication record system;

(b) Policy and procedure manual;

(c) Training manuals; and

(d) Such other records and reports as may be required by law and rules of the board of pharmacy.

Information regarding individual patients shall be maintained in a manner to assure confidentiality of the patient's record. Release of this information shall be in accordance with federal and/or state laws or rules.

(5) Delivery service. There will be a provision for the timely delivery of parenteral products from a pharmacy so a practitioner's order for drug therapy can be implemented without undue delay. The pharmacist-in-charge shall assure the environmental control of all parenteral products shipped. Therefore, any parenteral products must be shipped or delivered to a patient in appropriate temperature controlled delivery containers (as defined by USP Standards) and stored appropriately in the patient's home. Chain of possession for the delivery of controlled substances via contracted courier must be documented, and a receipt required. The pharmacy, on request, will provide instruction for the destruction of unused parenteral products and supplies in the event a parenteral product is being discontinued or a patient dies.

(6) Disposal of infectious wastes. The pharmacist-in-charge is responsible for assuring that there is a system for the disposal of infectious waste pertaining to drug administration in a manner so as not to endanger the public health.

(7) Emergency kit. When parenteral products are provided to home care patients, the dispensing pharmacy may supply the registered nurse with emergency drugs if the physician has authorized the use of these drugs by a protocol for use in an emergency situation, e.g., anaphylactic shock. A protocol for the emergency kit must be submitted to and approved by the board of pharmacy.

[Statutory Authority: RCW 18.64.005 and chapter 18.64A RCW. 91-18-057 (Order 191B), recodified as § 246-871-050, filed 8/30/91, effective 9/30/91. Statutory Authority: RCW 18.64.005. 90-03-055 (Order 026), § 360-16A-070, filed 1/17/90, effective 2/17/90.]

WAC 246-871-060 Antineoplastic medications. The following additional requirements are necessary for those pharmacies that prepare antineoplatic medications to assure the protection of the personnel involved.

(1) All antineoplastic medications shall be compounded within a certified Class II type A or Class II type B vertical laminar airflow hood.

Policy and procedures shall be developed for the cleaning of the laminar airflow hood between compounding antineoplastic medications and other parenteral products, if applicable.

(2) Protective apparel shall be worn by personnel compounding antineoplastic medications. This shall include disposable gloves, gowns with tight cuffs, masks, and protective eye shields if the safety cabinet is not equipped with splash guards.

(3) Appropriate safety containment techniques for compounding antineoplastic medications shall be used in conjunction with the aseptic techniques required for preparing parenteral products.

(4) Disposal of antineoplastic waste shall comply with all applicable local, state, and federal requirements, i.e., Occupational Safety and Health Administration (OSHA) and

Washington Industrial Safety and Health Administration (WISHA).

(5) Written procedures for handling both major and minor spills of antineoplastic medications must be developed and must be included in the policy and procedure manual. These procedures will include providing spill kits along with directions for use to those persons receiving therapy.

(6) Prepared doses of antineoplastic medications must be dispensed and shipped in a manner to minimize the risk of accidental rupture of the primary container.

(7) Documentation that personnel have been trained in compounding, handling, and destruction of antineoplastic medications.

[Statutory Authority: RCW 18.64.005 and chapter 18.64A RCW. 91-18-057 (Order 191B), recodified as § 246-871-060, filed 8/30/91, effective 9/30/91. Statutory Authority: RCW 18.64.005. 90-03-055 (Order 026), § 360-16A-080, filed 1/17/90, effective 2/17/90.]

WAC 246-871-070 Clinical services. (1) Primary provider. There shall be an authorizing practitioner primarily responsible for the patient's medical care. There shall be a clear understanding between the authorizing practitioner, the patient, the home health care agency, and the pharmacy of the responsibilities of each in the areas of the delivery of care and the monitoring of the patient. This shall be documented in the patient's medication record system.

(2) A systematic process of medication use review must be designed, followed, and documented on an ongoing basis.

(3) Pharmacist-patient relationship. The pharmacist is responsible for seeing that the patient's compliance and adherence to a medication regimen is followed.

(4) Patient monitoring. The pharmacist will have access to clinical and laboratory data concerning each patient. Any abnormal values will be reported to the authorizing practitioner in a timely manner.

(5) Documentation. There must be documentation of ongoing drug therapy monitoring and assessment shall include but not be limited to:

(a) Therapeutic duplication in the patient's drug regimen;

(b) The appropriateness of the dose, frequency, and route of administration;

(c) Clinical laboratory or clinical monitoring methods to detect side effects, toxicity, or adverse effects and whether the findings have been reported to the authorizing practitioner.

(6) Patient training. The patient, the patient's agent, the authorizing practitioner, the home health care agency, or the pharmacy must demonstrate or document the patient's training and competency in managing this type of therapy in the home environment. A pharmacist is responsible for the patient training process in any area that relates to medication compounding, labeling, storage, stability, or incompatibility. The pharmacist must be responsible for seeing that the patient's competency in the above areas is reassessed on an ongoing basis.

(7) A pharmacist will verify that any parenteral product a patient has not received before will be administered under the supervision of a person authorized to manage anaphylaxis.

[Statutory Authority: RCW 18.64.005 and chapter 18.64A RCW. 91-18-057 (Order 191B), recodified as § 246-871-070, filed 8/30/91, effective 9/30/91. Statutory Authority: RCW 18.64.005. 90-03-055 (Order 026), § 360-16A-090, filed 1/17/90, effective 2/17/90.]

WAC 246-871-080 Quality assurance. There shall be a documented, ongoing quality assurance program that is reviewed at least annually.

(1) The quality assurance program shall include but not be limited to methods to document:

(a) Medication errors;

(b) Adverse drug reactions;

(c) Patient satisfaction;

(d) Product sterility.

There shall be written documentation that the end product has been tested on a sampling basis for microbial contamination by the employee responsible for compounding parenteral products. Documentation shall be on a quarterly basis at a minimum.

(2) Nonsterile compounding. If bulk compounding of parenteral solutions is performed utilizing nonsterile chemicals, extensive end product testing, as referenced in *Remington,* must be documented prior to the release of the product from quarantine. This process must include appropriate testing for particulate matter and testing for pyrogens.

(3) Expiration dates. There shall be written justification of the chosen expiration dates for compounded parenteral products.

[Statutory Authority: RCW 18.64.005 and chapter 18.64A RCW. 91-18-057 (Order 191B), recodified as § 246-871-080, filed 8/30/91, effective 9/30/91. Statutory Authority: RCW 18.64.005. 90-03-055 (Order 026), § 360-16A-100, filed 1/17/90, effective 2/17/90.]

Chapter 246-873 WAC
PHARMACY—HOSPITAL STANDARDS

WAC

WAC 246-873-010 Definitions. For the purpose of these rules and regulations, the following definitions apply:

(1) "Authenticated" or "authentication" means authorization of a written entry in a record by means of a signature which shall include, minimally, first initial, last name, and title.

(2) "Controlled substance" means those drugs, substances or immediate precursors listed in Schedule I through V, chapter 69.50 RCW, State Uniform Controlled Substance Act, as now or hereafter amended.

(3) "Drug" means any product referenced in RCW 18.64.011(3) as now or hereafter amended.

(4) "Drug administration" means an act in which a single dose of a prescribed drug or biological is given to a patient by an authorized person in accordance with all laws and regula-

tions governing such acts. The complete act of administration entails removing an individual dose from a previously dispensed, properly labeled container (including a unit dose container) reviewing it with a verified transcription, a direct copy, or the original medical practitioner's orders, giving the individual dose to the proper patient, and properly recording the time and dose given.

(5) "Drug dispensing" means an act entailing the interpretation of an order for a drug or biological and, pursuant to that order, proper selection, measuring, labeling, packaging, and issuance of the drug for a patient or for a service unit of the facility.

(6) "Hospital" means any institution licensed pursuant to chapters 70.41 or 71.12 RCW or designated pursuant to RCW 72.23.020.

(7) "Hospital pharmacy" means that portion of a hospital which is engaged in the manufacture, production, preparation, dispensing, sale, and/or distribution of drugs, components, biologicals, chemicals, devices and other materials used in the diagnosis and treatment of injury, illness and diseases; and which is licensed by the state board of pharmacy pursuant to the Washington State Pharmacy Practice Act, chapter 18.64 RCW.

(8) "Immediate supervision" means visual and/or physical proximity that insure adequate safety and controls.

(9) "Investigational drug" means any article which has not been approved for use in the United States, but for which an investigational drug application (IND) has been approved by the FDA.

(10) "Nurse" means a registered nurse or a licensed practical nurse licensed pursuant to chapters 18.88 or 18.78 RCW.

(11) "Practitioner" means any person duly authorized by law or rule in the state of Washington to prescribe drugs in RCW 18.64.011(9).

(12) "Pharmacist" means a person duly licensed by the state board of pharmacy to engage in the practice of pharmacy.

(13) "Pharmacy" means every place properly licensed by the board of pharmacy where the practice of pharmacy is conducted.

(14) "Pharmacy Assistant Level A and Level B" means persons certified under chapter 18.64A RCW.

(15) "Physician" means a doctor of medicine or a doctor of osteopathy licensed to practice in the state of Washington.

(16) "Practice of pharmacy" means the definition given in RCW 18.64.011(11) now or hereafter amended.

(17) "Protocol" means a written set of guidelines.

(18) "Registered nurse" means an individual licensed under the provisions of chapter 18.88 RCW, regulating the practice of registered nursing in the state of Washington.

(19) "Self-administration of drugs" means that a patient administers or takes his/her own drugs from properly labeled containers: Provided, That the facility maintains the responsibility for seeing that the drugs are used correctly and that the patient is responding appropriately.

(20) "Shall" means that compliance with regulation is mandatory.

(21) "Should" means that compliance with a regulation or standard is recommended.

[Statutory Authority: RCW 18.64.005 and chapter 18.64A RCW. 91-18-057 (Order 191B), recodified as § 246-873-010, filed 8/30/91, effective 9/30/91. Statutory Authority: RCW 18.64.005(12). 82-12-041 (Order 168), § 360-17-010, filed 5/28/82. Statutory Authority: RCW 18.64.005(11). 81-16-036 (Order 162), § 360-17-010, filed 7/29/81.]

WAC 246-873-020 Applicability. The following rules and regulations are applicable to all facilities licensed pursuant to chapters 70.41 and 71.12 RCW or designated pursuant to RCW 72.23.020.

[Statutory Authority: RCW 18.64.005 and chapter 18.64A RCW. 91-18-057 (Order 191B), recodified as § 246-873-020, filed 8/30/91, effective 9/30/91. Statutory Authority: RCW 18.64.005(12). 82-12-041 (Order 168), § 360-17-020, filed 5/28/82. Statutory Authority: RCW 18.64.005(11). 81-16-036 (Order 162), § 360-17-020, filed 7/29/81.]

WAC 246-873-030 Licensure. Hospital pharmacists shall be licensed by the board of pharmacy in accordance with chapter 18.64 RCW.

[Statutory Authority: RCW 18.64.005 and chapter 18.64A RCW. 91-18-057 (Order 191B), recodified as § 246-873-030, filed 8/30/91, effective 9/30/91. Statutory Authority: RCW 18.64.005(11). 81-16-036 (Order 162), § 360-17-030, filed 7/29/81.]

WAC 246-873-040 Personnel. (1) Director of pharmacy. The pharmacy, organized as a separate department or service, shall be directed by a licensed pharmacist appropriately qualified by education, training, and experience to manage a hospital pharmacy. The patient care and management responsibilities of the director of pharmacy shall be clearly delineated in writing and shall be in accordance with currently accepted principles of management, safety, adequate patient care and treatment. The responsibilities shall include the establishment and maintenance of policies and procedures, ongoing monitoring and evaluation of pharmaceutical service, use and control of drugs, and participation in relevant planning, policy and decision-making activities. Hospitals which do not require, or are unable to obtain the services of a fulltime director shall be held responsible for the principles contained herein and shall establish an ongoing arrangement in writing with an appropriately qualified pharmacist to provide the services. Where the director of pharmacy is not employed fulltime, then the hospital shall establish an ongoing arrangement in writing with an appropriately qualified pharmacist to provide the services described herein. The director of pharmacy shall be responsible to the chief executive officer of the hospital or his/her designee.

(2) Supportive personnel. The director of pharmacy shall be assisted by sufficient numbers of additional pharmacists and/or pharmacy assistants and clerical personnel required to operate safely and efficiently to meet the needs of the patients.

(3) Supervision. All of the activities and operations of each hospital pharmacy shall be professionally managed by the director or a pharmacist designee. Functions and activities shall be under the immediate supervision of a pharmacist and shall be performed according to written policies and procedures. When the hospital pharmacy is decentralized, each decentralized section(s) or separate organizational element(s) shall be under the immediate supervision of a pharmacist responsible to the director.

[Statutory Authority: RCW 18.64.005 and chapter 18.64A RCW. 91-18-057 (Order 191B), recodified as § 246-873-040, filed 8/30/91, effective 9/30/91. Statutory Authority: RCW 18.64.005(11). 81-16-036 (Order 162), § 360-17-040, filed 7/29/81.]

WAC 246-873-050 Absence of a pharmacist. (1) General. Pharmaceutical services shall be available on a 24-hour basis. If round-the-clock services of a pharmacist are not feasible, arrangements shall be made in advance by the director of pharmacy to provide reasonable assurance of pharmaceutical services.

(2) Access to the pharmacy. Whenever a drug is required to treat an immediate need and not available from floor stock when the pharmacy is closed, the drug may be obtained from the pharmacy by a designated registered nurse, who shall be accountable for his/her actions. One registered nurse shall be designated in each hospital shift for removing drugs from the pharmacy.

(a) The director of pharmacy shall establish written policy and recording procedures to assist the registered nurse who may be designated to remove drugs from the pharmacy, when a pharmacist is not present, in accordance with Washington State Pharmacy Practice Act, RCW 18.64.255(2), which states that the director of pharmacy and the hospital be involved in designating the nurse.

(b) The stock container of the drug or similar unit dose package of the drug removed shall be left with a copy of the order of the authorized practitioner to be checked by a pharmacist, when the pharmacy reopens, or as soon as is practicable.

(c) Only a sufficient quantity of drugs shall be removed in order to sustain the patient until the pharmacy opens.

(d) All drugs removed shall be completely labeled in accordance with written policy and procedures, taking into account state and federal rules and regulations and current standards.

[Statutory Authority: RCW 18.64.005 and chapter 18.64A RCW. 91-18-057 (Order 191B), recodified as § 246-873-050, filed 8/30/91, effective 9/30/91. Statutory Authority: RCW 18.64.005(11). 81-16-036 (Order 162), § 360-17-050, filed 7/29/81.]

WAC 246-873-060 Emergency outpatient medications. The director of pharmacy of a hospital shall, in concert with the appropriate committee of the hospital medical staff, develop policies and procedures, which shall be implemented, to provide emergency pharmaceuticals to outpatients during hours when normal community or hospital pharmacy services are not available. The delivery of a single dose for immediate administration to the patient shall not be subject to this regulation. Such policies shall allow the designated registered nurse(s) to deliver medications other than controlled substances, pursuant to the policies and procedures which shall require that:

(1) An order of a practitioner authorized to prescribe a drug is presented. Oral or electronically transmitted orders must be verified by the prescriber in writing within 72 hours.

(2) The medication is prepackaged by a pharmacist and has a label that contains:

(a) Name, address, and telephone number of the hospital.

(b) The name of the drug (as required by chapter 246-899 WAC), strength and number of units.

(c) Cautionary information as required for patient safety and information.

(d) An expiration date after which the patient should not use the medication.

(3) No more than a 24-hour supply is provided to the patient except when the pharmacist has informed appropriate hospital personnel that normal services will not be available within 24 hours.

(4) The container is labeled by the designated registered nurse(s) before presenting to the patient and shows the following:

(a) Name of patient;

(b) Directions for use by the patient;

(c) Date;

(d) Identifying number;

(e) Name of prescribing practitioner;

(f) Initials of the registered nurse;

(5) The original or a direct copy of the order by the prescriber is retained for verification by the pharmacist after completion by the designated registered nurse(s) and shall bear:

(a) Name and address of patient;

(b) Date of issuance;

(c) Units issued;

(d) Initials of designated registered nurse.

(6) The medications to be delivered as emergency pharmaceuticals shall be kept in a secure place in or near the emergency room in such a manner as to preclude the necessity for entry into the pharmacy.

(7) The procedures outlined in this rule may not be used for controlled substances except at the following rural hospitals which met all three of the rural access project criteria on May 17, 1989:

Hospital	City
1. Lake Chelan Community Hospital	Chelan
2. St. Joseph's Hospital	Chewelah
3. Whitman Community Hospital	Colfax
4. Lincoln Hospital	Davenport
5. Dayton General Hospital	Dayton
6. Ocean Beach Hospital	Ilwaco
7. Newport Community Hospital	Newport
8. Jefferson General Hospital	Port Townsend
9. Ritzville Memorial Hospital	Ritzville
10. Willapa Harbor Hospital	South Bend

[Statutory Authority: RCW 18.64.005. 92-12-035 (Order 277B), § 246-873-060, filed 5/28/92, effective 6/28/92. Statutory Authority: RCW 18.64.005 and chapter 18.64A RCW. 91-18-057 (Order 191B), recodified as § 246-873-060, filed 8/30/91, effective 9/30/91. Statutory Authority: RCW 18.64.005. 89-12-011 (Order 225), § 360-17-055, filed 5/26/89; 83-23-109 (Order 179), § 360-17-055, filed 11/23/83.]

WAC 246-873-070 Physical requirements. (1) Area. The pharmacy facilities shall include:

(a) Appropriate transportation and communications systems for the distribution and control of drugs within the hospital.

(b) Sufficient space and equipment for secure, environmentally controlled storage of drugs and other pharmaceutical supplies.

(2) In order to meet the medical services' need for drugs throughout the hospital, the pharmacy facilities should include:

(a) Space for the management and clinical functions of the pharmaceutical service.

(b) Space and equipment for the preparation of parenteral admixtures, radiopharmaceuticals, and other sterile compounding and packaging.

(c) Other equipment necessary.

(3) Access to unattended areas. All areas occupied by the hospital pharmacy shall be locked by key or combination in order to prevent access by unauthorized personnel. The director of pharmacy shall designate in writing, by title and/or position those individuals who shall be authorized access to particular areas within the pharmacy, including authorization of access to keys and/or combinations.

(4) Drug storage areas. Drugs shall be stored under proper conditions of sanitation, temperature, light, moisture, ventilation, segregation, and security.

(a) It is the joint responsibility of the director of pharmacy and the director of nursing to ensure that drug handling, storage, and preparation are carried out in conformance with established policies, procedures, and accepted standards.

(b) Locked storage or locked medication carts shall be provided for use on each nursing service area or unit.

(5) Flammable storage. All flammable material shall be stored and handled in accordance with applicable local and state fire regulations, and there shall be written policy and procedures for the destruction of these flammable materials.

[Statutory Authority: RCW 18.64.005 and chapter 18.64A RCW. 91-18-057 (Order 191B), recodified as § 246-873-070, filed 8/30/91, effective 9/30/91. Statutory Authority: RCW 18.64.005. 85-11-066 (Order 194), § 360-17-060, filed 5/21/85. Statutory Authority: RCW 18.64.005(11). 81-16-036 (Order 162), § 360-17-060, filed 7/29/81.]

WAC 246-873-080 Drug procurement, distribution and control. (1) General. Pharmaceutical service shall include:

(a) Procurement, preparation, storage, distribution and control of all drugs throughout the hospital.

(b) A monthly inspection of all nursing care units or other areas of the hospital where medications are dispensed, administered or stored. Inspection reports shall be maintained for one year.

(c) Monitoring the drug therapy.

(d) Provisions for drug information to patients, physicians and others.

(e) Surveillance and reporting of adverse drug reactions and drug product defect(s).

(2) Additional pharmaceutical services should include:

(a) Obtaining and recording comprehensive drug histories and participation in discharge planning in order to affect appropriate drug use.

(b) Preparation of all sterile products (e.g., IV admixtures, piggybacks, irrigation solutions), except in emergencies.

(c) Distribution and control of all radiopharmaceuticals.

(d) Administration of drugs.

(e) Prescribing.

(3) The director shall be responsible for establishing specifications for procurement, distribution and the maintenance of a system of accountability for drugs, IV solutions, chemicals, and biologicals related to the practice of pharmacy.

(4) The director shall establish, annually review and update when necessary comprehensive written policies and procedures governing the responsibilities and functions of the pharmaceutical service. Policies affecting patient care and treatment involving drug use shall be established by the director of pharmacy with the cooperation and input of the medical staff, nursing service and the administration.

(5) Labeling:

(a) Inpatient. All drug containers in the hospital shall be labeled clearly, legibly and adequately to show the drug's name (generic and/or trade) and strength when applicable. Accessory or cautionary statements and the expiration date shall be applied to containers as appropriate.

(b) Outpatients. Labels on medications used for outpatients, emergency room, and discharge drug orders shall meet the requirements of RCW 18.64.246.

(c) Parenteral and irrigation solutions. When drugs are added to intravenous solutions, a suitable label shall be affixed to the container. As a minimum the label shall indicate name and location of the patient, name and amount of drug(s) added, appropriate dating, initials of the personnel who prepared and checked the solution.

(6) Medication orders. Drugs are to be dispensed and administered only upon orders of authorized practitioners. A pharmacist shall review the original order or direct copy thereof, prior to dispensing any drug, except for emergency use or as authorized in WAC 246-873-050.

(7) Controlled substance accountability. The director of pharmacy shall establish effective procedures and maintain adequate records regarding use and accountability of controlled substances, and such other drugs as appropriate, in compliance with state and federal laws and regulations.

(a) Complete, accurate, and current records shall be kept of receipt of all controlled substances and in addition, a Schedule II perpetual inventory shall be maintained.

(b) The pharmacy shall maintain records of Schedule II drugs issued from the pharmacy to other hospital units which include:

(i) Date

(ii) Name of the drug

(iii) Amount of drug issued

(iv) Name and/or initials of the pharmacist who issued the drug

(v) Name of the patient and/or unit to which the drug was issued.

(c) Records shall be maintained by any unit of the hospital which utilizes Schedule II drugs indicating:

(i) Date

(ii) Time of administration

(iii) Name of the drug (if not already indicated on the records

(iv) Dosage of the drug which was used which shall include both the amount administered and any amount destroyed.

(v) Name of the patient to whom the drug was administered

(vi) Name of the practitioner who authorized the drug

(vii) Signature of the licensed individual who administered the drug.

(d) When it is necessary to destroy small amounts of controlled substances following the administration of a dose by a nurse, the destruction shall be witnessed by a second nurse who shall countersign the records of destruction.

(e) The director of the pharmacy shall develop written procedures for the proper destruction of controlled substances not covered by (d) above conforming with federal and state statutes. A copy of the procedures shall be forwarded to the Drug Enforcement Administration (DEA) and the state board of pharmacy. As a minimum, procedures shall include the following:

(i) All destructions shall render the drugs unrecoverable.

(ii) Destruction shall be accomplished by the pharmacist and one other licensed health professional.

(iii) Records of all destructions shall be maintained by the pharmacy. Quarterly summary reports shall be mailed to the DEA with copies to the state board of pharmacy.

(iv) A copy of the destruction record shall be maintained in the pharmacy for two years.

(f) Periodic monitoring of controlled substances records shall be performed by a nurse or a pharmacist to determine whether the drugs recorded on usage records have also been recorded on the patient's chart.

(g) Use of multiple dose vials of controlled substances shall be discouraged.

(h) Controlled substances, Schedule II and III, which are floor stocked, in any hospital patient or nursing service area shall be checked by actual count at the change of each shift by two authorized persons licensed to administer drugs.

(i) All controlled substance records shall be kept for two years.

(j) Hospitals wishing to use record systems other than that described above shall make application and receive written approval from the board of pharmacy prior to implementation.

(k) Significant losses or disappearances of controlled substances and the facts surrounding the discrepancy shall be reported to the board of pharmacy, the drug enforcement agency, the chief executive officer of the hospital and other appropriate authorities.

(8) Drug recall. The director shall develop and implement a recall procedure to assure that potential harm to patients within the hospital is prevented and that all drugs included on the recall are returned to the pharmacy for proper disposition.

(9) All medications administered to inpatients shall be recorded in the patient's medical record.

(10) Adverse drugs reactions. All adverse drug reactions shall be appropriately recorded in the patient's record and reported to the prescribing practitioner and to the pharmacy.

(11) Drug errors. All drug errors shall upon discovery be recorded in an incident report and reported to the prescribing practitioner and to the pharmacy.

[Statutory Authority: RCW 18.64.005. 92-12-035 (Order 277B), § 246-873-080, filed 5/28/92, effective 6/28/92. Statutory Authority: RCW 18.64.005 and chapter 18.64A RCW. 91-18-057 (Order 191B), recodified as § 246-873-080, filed 8/30/91, effective 9/30/91. Statutory Authority: RCW 18.64.005(11). 81-16-036 (Order 162), § 360-17-070, filed 7/29/81.]

WAC 246-873-090 Administration of drugs. (1) General. Drugs shall be administered only upon the order of a practitioner who has been granted clinical privileges to write such orders. Verbal orders for drugs shall only be issued in emergency or unusual circumstances and shall be accepted only by a licensed nurse, pharmacist, or physician, and shall be immediately recorded and signed by the person receiving the order. Such orders shall be authenticated by the prescribing practitioner within 48 hours.

(2) Administration. Drugs shall be administered only by appropriately licensed personnel in accordance with state and federal laws and regulations governing such acts and in accordance with medical staff approved hospital policy.

(3) Patient's drugs. The hospital shall develop written policies and procedures for the administration of drugs brought into the hospital by or for patients.

(a) Drugs brought into the hospital by or for the patient shall be administered only when there is a written order by a practitioner. Prior to use, such drugs shall be identified and examined by the pharmacist to ensure acceptable quality for use in the hospital.

(b) Drugs from outside the hospital which are not used during the patient's hospitalization shall be packaged and sealed, if stored in the hospital, and returned to the patient at time of discharge or given to the patient's family.

(c) Return of drugs may be prohibited due to possible jeopardy of the patient's health.

(d) Written procedures shall be developed for the disposal of unreturned drugs.

(4) Self-administration. Self-administration of drugs shall occur only within approved protocols in accordance with a program of self-care or rehabilitation. Policy and specific written procedures, approved by the appropriate medical staff, nursing service and administration shall be established by the director of pharmacy.

[Statutory Authority: RCW 18.64.005 and chapter 18.64A RCW. 91-18-057 (Order 191B), recodified as § 246-873-090, filed 8/30/91, effective 9/30/91. Statutory Authority: RCW 18.64.005(11). 81-16-036 (Order 162), § 360-17-080, filed 7/29/81.]

WAC 246-873-100 Investigational drugs. (1) Distribution. Storage, distribution, and control of approved investigational drugs used in the institution shall be the responsibility of the director of pharmacy or his designee. The pharmacy shall be responsible for maintaining and providing information on approved investigational drugs.

(2) General. Investigational drugs shall be properly labeled and stored for use only under the explicit direction of the authorized principal investigator or coinvestigator(s). Such drugs shall be approved by an appropriate medical staff committee.

(3) Administration. On approval of the principal investigator or coinvestigator(s), those authorized to administer drugs may administer these drugs after they have been given basic pharmacological information about the drug. Investigational drugs shall be administered in accordance with

approved written protocol that includes any requirements for the patient's appropriate informed consent.

[Statutory Authority: RCW 18.64.005 and chapter 18.64A RCW. 91-18-057 (Order 191B), recodified as § 246-873-100, filed 8/30/91, effective 9/30/91. Statutory Authority: RCW 18.64.005(11). 81-16-036 (Order 162), § 360-17-090, filed 7/29/81.]

WAC 246-873-110 Additional responsibilities of pharmacy service. (1) General. The pharmacy service shall participate in other activities and committees within the hospital affecting pharmaceutical services, drugs and drug use.

(2) Quality assurance. The pharmaceutical service shall establish a pharmacy quality assurance program.

(3) Clinical activities. The director of pharmacy should develop clinically oriented programs, including but not limited to obtaining and recording comprehensive drug histories and participation in discharge planning to affect appropriate drug use, a formal drug information service, prescribing, and administration of drugs.

[Statutory Authority: RCW 18.64.005 and chapter 18.64A RCW. 91-18-057 (Order 191B), recodified as § 246-873-110, filed 8/30/91, effective 9/30/91. Statutory Authority: RCW 18.64.005(11). 81-16-036 (Order 162), § 360-17-100, filed 7/29/81.]

Chapter 246-875 WAC
PHARMACY—PATIENT MEDICATION RECORD SYSTEMS

WAC

DISPOSITION OF SECTIONS FORMERLY CODIFIED IN THIS CHAPTER

246-875-090 Effective date. [Statutory Authority: RCW 18.64.005 and chapter 18.64A RCW. 91-18-057 (Order 191B), recodified as § 246-875-090, filed 8/30/91, effective 9/30/91. Statutory Authority: RCW 18.64.005. 84-03-016 (Order 181), § 360-19-100, filed 1/9/84.] Repealed by 92-12-035 (Order 277B), filed 5/28/92, effective 6/28/92. Statutory Authority: RCW 18.64.005.

WAC 246-875-001 Purpose. The purpose of this chapter shall be to insure that a patient medical record system is maintained by all pharmacies and other sites where the dispensing of drugs takes place, in order to insure the health and welfare of the patients served. This system will consist of certain patient and prescription information, and shall provide the pharmacist within the pharmacy means to retrieve all new prescription and refill prescription information relevant to patients of the pharmacy. It shall be designed to provide adequate safeguards against the improper manipulation or alteration of records, and to provide an audit trail. It may be either a manual system or an automated data processing system for the storage and retrieval of prescription and patient information. If an automated data processing system is utilized, an auxiliary recordkeeping procedure shall be available for documentation of new and refill prescriptions in case the automated system is inoperative for any reason. Establishment of a patient medication record system is intended to insure that the information it contains will be reviewed by the pharmacist in a manner consistent with sound professional practice when each prescription is filled.

[Statutory Authority: RCW 18.64.005 and chapter 18.64A RCW. 91-18-057 (Order 191B), recodified as § 246-875-001, filed 8/30/91, effective 9/30/91. Statutory Authority: RCW 18.64.005. 84-03-016 (Order 181), § 360-19-010, filed 1/9/84.]

WAC 246-875-010 Definitions. Terms used in this chapter shall have the meaning set forth in this section unless the context clearly indicates otherwise:

(1) "Address" means the place of residence of the patient.

(2) "Audit trail" means all materials and documents required for the entire process of filling a prescription, which shall be sufficient to document or reconstruct the origin of the prescription order, and authorization of subsequent modifications of that order.

(3) "Auxiliary recordkeeping procedure" means a back-up procedure used to record medication record system data in case of scheduled or unscheduled down-time of an automated data processing system.

(4) "Hard copy of the original prescription" shall include the prescription as defined in RCW 18.64.011(8) and/or the medical records or chart.

(5) "Therapeutic duplication" means two or more drugs in the same pharmacological or therapeutic category which when used together may have an additive or synergistic effect.

[Statutory Authority: RCW 18.64.005 and chapter 18.64A RCW. 91-18-057 (Order 191B), recodified as § 246-875-010, filed 8/30/91, effective 9/30/91. Statutory Authority: RCW 18.64.005. 84-03-016 (Order 181), § 360-19-020, filed 1/9/84.]

WAC 246-875-020 Minimum required information in an automated patient medication record system. An automated patient medication record system is an electronic system that must have the capability of capturing any data removed on a hard copy of microfiche copy. The hard copy of the original prescription and all documents in the audit trail shall be considered a part of this system.

(1) All automated patient medication record systems must maintain the following information with regard to ambulatory patients:

(a) Patient's full name and address.

(b) A serial number assigned to each new prescription.

(c) The date of all instances of dispensing a drug.

(d) The identification of the dispenser who filled the prescription.

(e) The name, strength, dosage form and quantity of the drug dispensed.

(f) Any refill instructions by the prescriber.

(g) The prescriber's name, address, and DEA number where required.

(h) The complete directions for use of the drug. The term "as directed" is prohibited pursuant to RCW 18.64.246 and 69.41.050.

(i) Any patient allergies, idiosyncrasies, or chronic condition which may relate to drug utilization. If there is no patient allergy data the pharmacist should indicate none or "NKA" (no known allergy) on the patient medication record.

(j) Authorization for other than child-resistant containers pursuant to WAC 246-869-230, if applicable.

(2) All automated patient medication record systems must maintain the following information with regard to institutional patients:

(a) Patient's full name.

(b) Unique patient identifier.

(c) Any patient allergies, idiosyncrasies, or chronic conditions which may relate to drug utilization. If there is no patient allergy data the pharmacist should indicate none or "NKA" (no known allergy) on the patient medication record.

(d) Patient location.

(e) Patient status, for example, active, discharge, or on-pass.

(f) Prescriber's name, address, and DEA number where required.

(g) Minimum prescription data elements:

(i) Drug name, dose, route, form, directions for use, prescriber.

(ii) Start date and time when appropriate.

(iii) Stop date and time when appropriate.

(iv) Amount dispensed when appropriate.

(h) The system shall indicate any special medication status for an individual prescription, for example, on hold, discontinued, self-administration medication, investigational drugs, patient's own medications, special administration times, restrictions, controlled substances.

(i) The system shall indicate on the labeling, and in the system, (for the pharmacist, nursing and/or physician alert) any special cautionary alerts or notations deemed necessary by the dispenser for the patient safety.

[Statutory Authority: RCW 18.64.005. 92-12-035 (Order 277B), § 246-875-020, filed 5/28/92, effective 6/28/92. Statutory Authority: RCW 18.64.005 and chapter 18.64A RCW. 91-18-057 (Order 191B), recodified as § 246-875-020, filed 8/30/91, effective 9/30/91. Statutory Authority: RCW 18.64.005. 84-03-016 (Order 181), § 360-19-030, filed 1/9/84.]

WAC 246-875-030 Minimum required information in a manual patient medication record system. A manual patient medication record system consists of the hard copy of the original prescription and a card or filing procedure that contains all data on new and refill prescriptions for a patient. This data must be organized in such a fashion that information relating to all prescription drugs used by a patient will be reviewed each time a prescription is filled.

(1) All manual patient medication record systems must maintain the following information with regard to ambulatory patients:

(a) Patient's full name and address.

(b) A serial number assigned to each new prescription.

(c) The date of all instances of dispensing a drug.

(d) The identification of the dispenser who filled the prescription.

(e) The name, strength, dosage form and quantity of the drug dispensed.

(f) The prescriber's name, address and DEA number where appropriate.

(g) Any patient allergies, idiosyncrasies or chronic conditions which may relate to drug utilization. If there is no patient allergy data the pharmacist should indicate none or "NKA" (no known allergy) on the patient medication record.

(2) All manual patient medication record systems must maintain the following information with regard to institutional patients:

(a) Patient's full name.

(b) Unique patient identifier.

(c) Any patient allergies, idiosyncrasies, or chronic conditions which may relate to drug utilization. If there is no patient allergy data the pharmacist should indicate none or "NKA" (no known allergy) on the patient medication record.

(d) Patient location.

(e) Patient status, for example, active, discharge, or on-pass.

(f) Prescriber's name, address and DEA number where required.

(g) Minimum prescription data elements:

(i) Drug name, dose, route, form, directions for use, prescriber.

(ii) Start date and time when appropriate.

(iii) Stop date and time when appropriate.

(iv) Amount dispensed when appropriate.

(h) The system shall indicate any special medication status for an individual prescription, for example, on hold, discontinued, self-administration medication, investigational drugs, patient's own medications, special administration times, restrictions, controlled substances.

(i) The system shall indicate on the labeling, and in the system, (for the pharmacist, nursing and/or physician alert) any special cautionary alerts or notations deemed necessary by the dispenser for the patient safety.

[Statutory Authority: RCW 18.64.005 and chapter 18.64A RCW. 91-18-057 (Order 191B), recodified as § 246-875-030, filed 8/30/91, effective 9/30/91. Statutory Authority: RCW 18.64.005. 84-03-016 (Order 181), § 360-19-040, filed 1/9/84.]

WAC 246-875-040 Minimum procedures for utilization of a patient medication record system. Upon receipt of a prescription or drug order, a dispenser must examine visually or via an automated data processing system, the patient's medication record to determine the possibility of a clinically significant drug interaction, reaction or therapeutic duplication, and to determine improper utilization of the drug and to consult with the prescriber if needed. Any order modified in the system must carry in the audit trail the unique identifier of the person who modified the order. Any change in drug name, dose, route, dose form or directions for use which occurs after an initial dose has been given requires that a new order be entered into the system and the old order be discontinued, or that the changes be accurately documented in the record system, without destroying the original record or its audit trail.

[Statutory Authority: RCW 18.64.005 and chapter 18.64A RCW. 91-18-057 (Order 191B), recodified as § 246-875-040, filed 8/30/91, effective 9/30/91.

Statutory Authority: RCW 18.64.005. 84-03-016 (Order 181), § 360-19-050, filed 1/9/84.]

WAC 246-875-050 Auxiliary recordkeeping procedure. If an automated data processing system is used to maintain a patient's medication record, an auxiliary recordkeeping procedure must be available for use when the automated data system is temporarily inoperative due to scheduled or unscheduled system interruption. The auxiliary recordkeeping procedure shall provide for the maintenance of all patient recordkeeping information as required by this chapter. Upon restoration of operation of the automated system the information placed in the auxiliary recordkeeping procedure shall be entered in each patient's records within two working days, after which the auxiliary records may be destroyed. This section does not require that a permanent dual recordkeeping system be maintained.

[Statutory Authority: RCW 18.64.005 and chapter 18.64A RCW. 91-18-057 (Order 191B), recodified as § 246-875-050, filed 8/30/91, effective 9/30/91. Statutory Authority: RCW 18.64.005. 84-03-016 (Order 181), § 360-19-060, filed 1/9/84.]

WAC 246-875-060 Retrieval of information from an automated system. All automated patient medication record systems must provide within 72 hours, via CRT or hard copy printout, the information required by WAC 246-875-020 and by 21 CFR § 1306.22(b) as amended July 1, 1980. Any data purged from an automated patient medication record system must be available within 72 hours.

[Statutory Authority: RCW 18.64.005. 92-12-035 (Order 277B), § 246-875-060, filed 5/28/92, effective 6/28/92. Statutory Authority: RCW 18.64.005 and chapter 18.64A RCW. 91-18-057 (Order 191B), recodified as § 246-875-060, filed 8/30/91, effective 9/30/91. Statutory Authority: RCW 18.64.005. 84-03-016 (Order 181), § 360-19-070, filed 1/9/84.]

WAC 246-875-070 Confidentiality and security of data. (1) Information contained in patient medication record systems shall be considered to be a part of prescription records maintained in accordance with RCW 18.64.245 and shall be maintained for a period of at least two years in the same manner as provided for all prescription records (see WAC 246-869-100).

(2) The information in the patient medication record system which identifies the patient shall be deemed confidential and may be released to persons other than the patient or a pharmacist, or a practitioner authorized to prescribe only on written release of the patient. If in the judgment of the dispenser, the prescription presented for dispensing is determined to cause a potentially harmful drug interaction or other problem due to a drug previously prescribed by another practitioner, the dispenser may communicate this information to the prescribers.

(3) Security codes or systems must be established on automated medication record systems to prevent unauthorized modification of data.

[Statutory Authority: RCW 18.64.005. 92-12-035 (Order 277B), § 246-875-070, filed 5/28/92, effective 6/28/92. Statutory Authority: RCW 18.64.005 and chapter 18.64A RCW. 91-18-057 (Order 191B), recodified as § 246-875-070, filed 8/30/91, effective 9/30/91. Statutory Authority: RCW 18.64.005. 84-03-016 (Order 181), § 360-19-080, filed 1/9/84.]

WAC 246-875-080 Extension of time for compliance. The rules regarding patient medication record systems contained in chapter 246-875 WAC shall apply to all pharmacists practicing pharmacy in the state of Washington upon the effective date of the chapter unless an extension is granted by the board pursuant to this rule. In order to seek an extension that will allow compliance with this chapter to be delayed, good cause for granting such extension must be shown. The board shall consider requests for extensions and if, in the board's judgment good cause is shown, the board may grant an extension for a period of time, specifying those portions of the rules with respect to which an extension is being granted.

[Statutory Authority: RCW 18.64.005. 92-12-035 (Order 277B), § 246-875-080, filed 5/28/92, effective 6/28/92. Statutory Authority: RCW 18.64.005 and chapter 18.64A RCW. 91-18-057 (Order 191B), recodified as § 246-875-080, filed 8/30/91, effective 9/30/91. Statutory Authority: RCW 18.64.005. 84-03-016 (Order 181), § 360-19-090, filed 1/9/84.]

Chapter 246-877 WAC
PHARMACEUTICAL—SALES PROHIBITED

WAC

DISPOSITION OF SECTIONS FORMERLY CODIFIED IN THIS CHAPTER

246-877-030 Unsealed hard gelatin capsule restrictions. [Statutory Authority: RCW 18.64.005 and chapter 18.64A RCW. 91-18-057 (Order 191B), recodified as § 246-877-030, filed 8/30/91, effective 9/30/91. Statutory Authority: RCW 18.64.005(11). 86-21-033 (Order 202), § 360-20-210, filed 10/9/86.] Repealed by 97-20-166, filed 10/1/97, effective 11/1/97. Statutory Authority: RCW 18.64.005.

WAC 246-877-020 Drug sample prohibitions. (1) The possession, distribution or dispensing of legend drug samples by a pharmacy is hereby prohibited.

(2) This shall not apply to any pharmacy of a licensed hospital or health care entity which receives and distributes drug samples at the request of an authorized practitioner pursuant to RCW 69.45.050.

(3) A health care entity means any organization or business entity that provides diagnostic, medical, surgical, or dental treatment and/or rehabilitative care, but does not include any wholesale distributor or retail pharmacy licensed under state law.

[Statutory Authority: RCW 18.64.005 and chapter 18.64A RCW. 91-18-057 (Order 191B), recodified as § 246-877-020, filed 8/30/91, effective 9/30/91. Statutory Authority: RCW 18.64.005. 89-22-047, § 360-20-100, filed 10/30/89, effective 11/30/89; Order 114, § 360-20-100, filed 6/28/73.]

Chapter 246-878 WAC
GOOD COMPOUNDING PRACTICES

WAC

WAC 246-878-010 Definitions. (1) "Compounding" shall be the act of combining two or more ingredients in the preparation of a prescription.

(2) "Manufacture" means the production, preparation, propagation, compounding, or processing of a drug or other substance or device or the packaging or repackaging of such substance or device, or the labeling or relabeling of the commercial container of such substance or device, but does not include the activities of a practitioner who, as an incident to his or her administration or dispensing such substance or device in the course of his or her professional practice, prepares, compounds, packages, or labels such substance or device.

(3) "Component" means any ingredient intended for use in the compounding of a drug product, including those that may not appear in such product.

[Statutory Authority: RCW 18.64.005. 94-08-101, § 246-878-010, filed 4/6/94, effective 5/7/94.]

WAC 246-878-020 Compounded drug products—Pharmacist. (1) Based on the existence of a pharmacist/patient/prescriber relationship and the presentation of a valid prescription, or in anticipation of prescription drug orders based on routine, regularly observed prescribing patterns, pharmacists may compound, for an individual patient, drug products that are commercially available in the marketplace. When a compounded product is to be substituted for a commercially available product, both the patient and also the prescriber must authorize the use of the compounded product. The pharmacist shall document these authorizations on the prescription or in the computerized patient medication record. The prescriber's authorization shall be in addition to signing on the "substitution permitted" side of a written prescription or advising that substitution is permitted when a verbal prescription is issued.

(2) Pharmacists shall receive, store, or use drug substances for compounding prescriptions that meet official compendia requirements. If these requirements can not be met, and pharmacists document such, pharmacists shall use their professional judgment in the procurement of acceptable alternatives.

(3) Pharmacists may compound drugs in very limited quantities prior to receiving a valid prescription based on a history of receiving valid prescriptions that have been generated solely within an established pharmacist/patient/prescriber relationship, and provided that they maintain the prescriptions on file for all such products compounded at the pharmacy. The compounding of inordinate amounts of drugs, relative to the practice site, in anticipation of receiving prescriptions without any historical basis is considered manufacturing.

(4) Pharmacists shall not offer compounded drug products to other state-licensed persons or commercial entities for subsequent resale, except in the course of professional practice for a practitioner to administer to an individual patient. Compounding pharmacies/pharmacists may advertise or otherwise promote the fact that they provide prescription compounding services; however, they shall not solicit business (e.g., promote, advertise, or use salespersons) to compound specific drug products.

(5) The distribution of inordinate amounts of compounded products without a prescriber/patient/pharmacist relationship is considered manufacturing.

[Statutory Authority: RCW 18.64.005. 94-08-101, § 246-878-020, filed 4/6/94, effective 5/7/94.]

WAC 246-878-030 Organization and personnel. (1) The pharmacist has the responsibility and authority to inspect and approve or reject all components, drug product containers, closures, in-process materials, and labeling; and the authority to prepare and review all compounding records to assure that no errors have occurred in the compounding process. The pharmacist is also responsible for the proper maintenance, cleanliness, and use of all equipment used in prescription compounding practice.

(2) Pharmacists who engage in drug compounding, and level A pharmacy assistants, supervised by pharmacists, who assist in drug compounding, shall be competent and proficient in compounding and shall maintain that proficiency through current awareness and training. Every pharmacist who engages in drug compounding and any level A pharmacy assistant who assists in compounding, must be aware of and familiar with all details of these good compounding practices.

(3) Pharmacy personnel engaged in the compounding of drugs shall wear clean clothing appropriate to the operation being performed. Protective apparel, such as coats/jackets, aprons, gowns, hand or arm coverings, or masks shall be worn as necessary to protect personnel from chemical exposure and drug products from contamination.

(4) Only personnel authorized by the responsible pharmacist shall be in the immediate vicinity of the drug compounding operation. Any person shown at any time (either by medical examination or pharmacist determination) to have an apparent illness or open lesions that may adversely affect the safety or quality of a drug product being compounded shall be excluded from direct contact with components, drug product containers, closures, in-process materials, and drug products until the condition is corrected or determined by competent medical personnel not to jeopardize the safety or quality of the products being compounded. All personnel who assist the pharmacist in compounding procedures shall be instructed to report to the pharmacist any health conditions that may have an adverse effect on drug products.

[Statutory Authority: RCW 18.64.005. 94-08-101, § 246-878-030, filed 4/6/94, effective 5/7/94.]

WAC 246-878-040 Facilities. (1) Pharmacies engaging in compounding shall have an adequate area for the orderly compounding of prescriptions, including the placement of equipment and materials. The drug compounding area for sterile products shall be separate and distinct from the area used for the compounding of nonsterile drug products. The area(s) used for compounding of drugs shall be maintained in a good state of repair.

(2) Bulk drugs and other chemicals or materials used in the compounding of drugs must be stored in adequately labeled containers in a clean, dry area or, if required, under proper refrigeration.

(3) Adequate lighting and ventilation shall be provided in all drug compounding areas. Potable water shall be supplied under continuous positive pressure in a plumbing system free of defects that could contribute contamination to any compounded drug product. Adequate washing facilities, easily accessible to the compounding area(s) of the pharmacy shall be provided. These facilities shall include, but not be limited to, hot and cold water, soap or detergent, and air driers or single-use towels.

(4) The area(s) used for the compounding of drugs shall be maintained in a clean and sanitary condition. It shall be free of infestation by insects, rodents, and other vermin. Trash shall be held and disposed of in a timely and sanitary manner. Sewage and other refuse in and from the pharmacy and immediate drug compounding area(s) shall be disposed of in a safe and sanitary manner.

[Statutory Authority: RCW 18.64.005. 94-08-101, § 246-878-040, filed 4/6/94, effective 5/7/94.]

WAC 246-878-050 Sterile pharmaceutical. If sterile products are being compounded, the conditions of chapter 246-871 WAC (Pharmaceutical—Parenteral products for nonhospitalized patients) shall be met.

[Statutory Authority: RCW 18.64.005. 94-08-101, § 246-878-050, filed 4/6/94, effective 5/7/94.]

WAC 246-878-060 Radiopharmaceuticals. If radiopharmaceuticals are being compounded, the conditions of chapter 246-903 WAC shall be met.

[Statutory Authority: RCW 18.64.005. 94-08-101, § 246-878-060, filed 4/6/94, effective 5/7/94.]

WAC 246-878-070 Special precaution products. If drug products with special precautions for contamination, such as penicillin, are involved in a compounding operation, appropriate measures, including either the dedication of equipment for such operations or the meticulous cleaning of contaminated equipment prior to its use for preparation of other drugs, must be utilized in order to prevent cross-contamination.

[Statutory Authority: RCW 18.64.005. 94-08-101, § 246-878-070, filed 4/6/94, effective 5/7/94.]

WAC 246-878-080 Equipment. (1) Equipment used in the compounding of drug products shall be of appropriate design, appropriate capacity, and suitably located to facilitate operations for its intended use and for its cleaning and maintenance. Equipment used in the compounding of drug products shall be suitable composition so that surfaces that contact components, in-process materials, or drug products shall not be reactive, additive, or absorptive so as to alter the safety, identity, strength, quality, or purity of the drug product beyond that desired.

(2) Equipment and utensils used for compounding shall be cleaned and sanitized immediately prior to use to prevent contamination that would alter the safety, identity, strength, quality, or purity of the drug product beyond that desired. In the case of equipment, utensils, and containers/closures used in the compounding of sterile drug products, cleaning, sterilization, and maintenance procedures as set forth in WAC 246-871-080.

(3) Equipment and utensils used for compounding drugs must be stored in a manner to protect them from contamination. Immediately prior to the initiation of compounding operations, they must be inspected by the pharmacist and determined to be suitable for use.

(4) Automatic, mechanical, electronic, or other types of equipment other than commercial scale manufacturing or testing equipment, may be used in the compounding of drug products. If such equipment is used, it shall be routinely inspected, calibrated (if necessary), or checked to ensure proper performance.

[Statutory Authority: RCW 18.64.005. 94-08-101, § 246-878-080, filed 4/6/94, effective 5/7/94.]

WAC 246-878-090 Control of components and drug product containers and closures. (1) Components, drug product containers, closures, and bagged or boxed components of drug product containers and closures used in the compounding of drugs shall be handled and stored in a manner to prevent contamination and to permit unhindered cleaning of the work area (e.g., floors) and inspection.

(2) Drug product containers and closures shall not be reactive, additive, or absorptive so as to alter the safety, identity, strength, quality, or purity of the compounded drug beyond the desired result. Components, drug product containers, and closures for use in the compounding of drug products shall be rotated so that the oldest stock is used first. Container closure systems shall provide adequate protection against foreseeable external factors in storage and use that can cause deterioration or contamination of the compounded drug product. Drug product containers and closures shall be clean and, where indicated by the intended use of the drug, sterilized and processed to remove pyrogenic properties to assure that they are suitable for their intended use.

(3) Drug product containers and closures intended for the compounding of sterile products must be handled, sterilized, processed and stored to remove pyrogenic properties to assure that they are suitable for their intended purpose. Methods of cleaning, sterilizing, and processing to remove pyrogenic properties shall be written and followed for drug product containers and closures used in the preparation of sterile pharmaceuticals. These processes shall be performed by pharmacists, or under the pharmacist's supervision.

[Statutory Authority: RCW 18.64.005. 94-08-101, § 246-878-090, filed 4/6/94, effective 5/7/94.]

WAC 246-878-100 Drug compounding controls. (1) There shall be written procedures for the compounding of drug products to assure that the finished products have the identity, strength, quality, and purity they purport or are represented to possess. Such procedures shall include a listing of the components (ingredients), their amounts (in weight or volume), the order of component mixing, and a description of the compounding process. All equipment and utensils and the

container/closure system, relevant to the sterility and stability of the intended use of the drug, shall be listed. These written procedures shall be followed in the execution of the drug compounding procedure.

(2) Components for drug product compounding shall be accurately weighed, measured, or subdivided as appropriate. These operations should be checked and rechecked by the compounding pharmacist at each stage of the process to ensure that each weight or measure is correct as stated in the written compounding procedures. If a component is transferred from the original container to another (e.g., a powder is taken from the original container, weighed, placed in a container, and stored in another container), the new container shall be identified with the:

(a) Component name; and

(b) Weight or measure.

(3) To assure the reasonable uniformity and integrity of compounded drug products, written procedures shall be established and followed that describe the tests or examinations to be conducted on the product compounded (e.g., degree of weight variation among capsules.) Such control procedures shall be established to monitor the output and to validate the performance of those compounding processes that may be responsible for causing variability in the final drug product. Such control procedures shall include, but are not limited to, the following (where appropriate):

(a) Capsule weight variation;

(b) Adequacy of mixing to assure uniformity and homogeneity;

(c) Clarity, completeness, or pH of solutions.

(4) Appropriate written procedures designed to prevent microbiological contamination of compounded drug products purporting to be sterile shall be established and followed. Such procedures shall include validation of any sterilization process.

[Statutory Authority: RCW 18.64.005. 94-08-101, § 246-878-100, filed 4/6/94, effective 5/7/94.]

WAC 246-878-110 Labeling control of excess products. (1) In the case where a quantity of compounded drug product in excess of that to be initially dispensed in accordance with WAC 246-878-020 is prepared, the excess product shall be labeled or documentation referenced with the complete list of ingredients (components), the preparation date, and the assigned beyond-use date based upon the pharmacist's professional judgment, appropriate testing, or published data. It shall also be stored and accounted for under conditions dictated by its composition and stability characteristics (e.g., in a clean, dry place on shelf or in the refrigerator) to ensure its strength, quality, and purity.

[Statutory Authority: RCW 18.64.005. 94-08-101, § 246-878-110, filed 4/6/94, effective 5/7/94.]

WAC 246-878-120 Records and reports. (1) Any procedures or other records required to be maintained in compliance with this chapter shall be retained for the same period of time as required in WAC 246-869-100 for the retention of prescription files.

(2) All records required to be retained under this chapter, or copies of such records, shall be readily available for authorized inspection during the retention period at the establishment where the activities described in such records occurred. These records or copies thereof shall be subject to photocopying or other means of reproduction as part of any such inspection.

(3) Records required under this chapter may be retained either as the original records or as true copies, such as photocopies, microfilm, microfiche, or other accurate reproductions of the original records.

[Statutory Authority: RCW 18.64.005. 94-08-101, § 246-878-120, filed 4/6/94, effective 5/7/94.]

Chapter 246-879 WAC
PHARMACEUTICAL WHOLESALERS

WAC

WAC 246-879-010 Definitions. (1) "Full line wholesaler" means any wholesaler authorized by the board to possess and sell legend drugs, controlled substances (additional registration required see WAC 246-879-080) and nonprescription drugs (over-the-counter - OTC see WAC 246-879-070) to a licensed pharmacy or other legally licensed or authorized person.

(2) "Over-the-counter only wholesaler" means any wholesaler authorized by the board to possess and sell nonprescription (OTC) drugs to any outlets licensed for resale.

(3) "Controlled substances wholesaler" means a licensed wholesaler authorized by the board to possess and sell controlled substances to a licensed pharmacy or other legally licensed or authorized person.

(4) "Export wholesaler" means any wholesaler authorized by the board to export legend drugs and nonprescription (OTC) drugs to foreign countries.

(5) "Blood" means whole blood collected from a single donor and processed either for transfusion or further manufacturing.

(6) "Blood component" means that part of the blood separated by physical or mechanical means.

(7) "Drug sample" means a unit of prescription drug that is not intended to be sold and is intended to promote the sale of the drug.

(8) "Manufacturer" means anyone who is engaged in manufacturing, preparing, propagating, compounding, processing, packaging, repackaging, or labeling of a drug, provided that a pharmacist compounding drugs to be dispensed from the pharmacy in which the drugs are compounded pursuant to prescriptions for individual patients shall not be considered a manufacturer.

(9) "Prescription drug" means any drug required by state or federal law or regulation to be dispensed only by a prescription, including finished dosage forms and active ingredients subject to section 503(b) of the Federal Food, Drug, and Cosmetic Act.

(10) "Wholesale distribution" means distribution of prescription drugs to persons other than a consumer or patient, but does not include:

(a) The sale, purchase, or trade of a drug, an offer to sell, purchase or trade a drug, or the dispensing of a drug pursuant to a prescription:

(b) The lawful distribution of drug samples by manufacturers' representatives or distributors' representatives; or

(c) The sale, purchase, or trade of blood and blood components intended for transfusion.

(d) Intracompany sales, being defined as any transaction or transfer between any division, subsidiary, parent and/or affiliated or related company under the common ownership and control of a corporate entity, unless such transfer occurs between a wholesale distributor and a health care entity or practitioner.

(e) The sale, purchase, or trade of a drug or an offer to sell, purchase, or trade a drug for emergency medical reasons; for purposes of this section, "emergency medical reasons" includes transfers of prescription drugs by retail pharmacy to another retail pharmacy or practitioner to alleviate a temporary shortage, except that the gross dollar value of such transfers shall not exceed five percent of the total prescription drug sale revenue of either the transferor or transferee pharmacy during any twelve consecutive month period.

(11) "Wholesale distributor" means anyone engaged in wholesale distribution of drugs, including but not limited to, manufacturers; repackers; own-label distributors; private-label distributors; jobbers; brokers; warehouses; including manufacturers' and distributors' warehouses, chain drug warehouses, and wholesale drug warehouses; independent wholesale drug traders; and retail pharmacies that conduct wholesale distributions.

[Statutory Authority: RCW 18.64.005. 92-15-069 (Order 289B), § 246-879-010, filed 7/14/92, effective 8/14/92. Statutory Authority: RCW 18.64.005 and chapter 18.64A RCW. 91-18-057 (Order 191B), recodified as § 246-879-010, filed 8/30/91, effective 9/30/91. Statutory Authority: RCW 18.64.005(11) and 69.41.075. 82-06-042 (Order 165), § 360-21-010, filed 3/2/82.]

WAC 246-879-020 Minimum standards for wholesalers. The following shall constitute minimum requirements for the storage and handling of prescription drugs, and for the establishment and maintenance of prescription drug distribution records by wholesale drug distributors and their officers, agents, representatives, and employees:

(1) Facilities. All facilities at which prescription drugs are stored, warehoused, handled, held, offered, marketed, or displayed shall:

(a) Be of suitable size and construction to facilitate cleaning, maintenance, and proper operations;

(b) Have storage areas designed to provide adequate lighting, ventilation, temperature, sanitation, humidity, space, equipment, and security conditions;

(c) Have a quarantine area for storage of prescription drugs that are outdated, damaged, deteriorated, misbranded, or adulterated, or that are in immediate or sealed, secondary containers that have been opened;

(d) Be maintained in a clean and orderly condition; and

(e) Be free from infestation by insects, rodents, birds, or vermin of any kind.

(2) Storage. All prescription drugs shall be stored at appropriate temperatures and under appropriate conditions in accordance with requirements, if any, in the labeling of such drugs or with the requirements in the 22nd edition of the United States Pharmacopeia/National Formulary (USP/NF). United States Pharmacopeia/National Formulary (USP/NF) is available for public inspection at the Office of the State Board of Pharmacy, 1300 Quince St SE, PO Box 47863, Olympia WA 98504-7863.

(a) If no storage requirements are established for a prescription drug, the drug may be held at "controlled" room temperature, as defined in an official compendium, to help ensure that its identity, strength, quality, and purity are not adversely affected.

(b) Appropriate manual, electromechanical, or electronic temperature and humidity recording equipment, devices, and/or logs shall be utilized to document proper storage of prescription drugs.

(3) Examination of materials.

(a) Upon receipt, each outside shipping container shall be visually examined for identity and to prevent the acceptance of contaminated prescription drugs or prescription drugs that are otherwise unfit for distribution. This examination shall be adequate to reveal container damage that would suggest possible contamination or other damage to contents.

(b) Each outgoing shipment shall be carefully inspected for identity of the prescription drug products and to ensure that there is no delivery of prescription drugs that have been damaged in storage or held under improper conditions.

(4) Returned, damaged, and outdated prescription drugs.

(a) Prescription drugs that are outdated, damaged, deteriorated, misbranded, or adulterated shall be quarantined and physically separated from other prescription drugs until they are destroyed or returned to their supplier.

(b) Any drug whose immediate or sealed outer or sealed secondary containers have been opened or used shall be identified as such, and shall be quarantined and physically separated from other drugs until they are either destroyed or returned to the supplier.

(c) If the conditions under which a drug has been returned cast doubt on the drug's safety, identity, strength, quality, or purity, then the drug shall be destroyed, or returned to the supplier, unless examination, testing, or other investigation proves that the drug meets appropriate standards of safety, identity, strength, quality, and purity. In determining whether the conditions under which a drug has been returned cast doubt on the drug's safety, identity, strength, quality, or purity, the wholesale drug distributor shall consider, among other things, the conditions under which the drug has been held, stored, or shipped before or during its return and the condition of the drug and its container, carton, or labeling, as a result of storage or shipping.

(5) Written policies and procedures. Wholesale drug distributors shall establish, maintain, and adhere to written policies and procedures, which shall be followed for the receipt,

security, storage, inventory, and distribution of prescription drugs, including policies and procedures for identifying, recording, and reporting losses or thefts, and for correcting all errors and inaccuracies in inventories. Wholesale drug distributors shall include in their written policies:

(a) A procedure whereby the oldest approved stock of a drug product is distributed first. The procedure may permit deviation from this requirement if such deviation is temporary and appropriate.

(b) A procedure to be followed for handling recalls and withdrawals of prescription drugs. Such procedure shall be adequate to deal with recalls and withdrawals due to:

(i) Any action initiated at the request of the Food and Drug Administration or other federal, state, or local law enforcement or other governmental agency, including the board of pharmacy;

(ii) Any voluntary action by the manufacturer to remove defective or potentially defective drugs from the market; or

(iii) Any action undertaken to promote public health and safety by replacing of existing merchandise with an improved product or new package design.

(c) A procedure to ensure that wholesale drug distributors prepare for, protect against, and handle any crisis that affects security or operation of any facility in the event of strike, fire, flood, or other natural disaster, or other situations of local, state, or national emergency.

(d) A procedure to ensure that any outdated drugs shall be segregated from other drugs and either returned to the manufacturer or destroyed. This procedure shall provide for written documentation of the disposition of outdated prescription drugs. This documentation shall be maintained for two years after disposition of the outdated drugs.

(6) Responsible persons. Wholesale drug distributors shall establish and maintain lists of officers, directors, managers, and other persons in charge of wholesale drug distribution, storage, and handling, including a description of their duties and a summary of their qualifications.

[Statutory Authority: RCW 18.64.005. 92-15-069 (Order 289B), § 246-879-020, filed 7/14/92, effective 8/14/92. Statutory Authority: RCW 18.64.005 and chapter 18.64A RCW. 91-18-057 (Order 191B), recodified as § 246-879-020, filed 8/30/91, effective 9/30/91. Statutory Authority: RCW 18.64.005(11) and 69.41.075. 82-06-042 (Order 165), § 360-21-020, filed 3/2/82.]

WAC 246-879-030 Inspections. (1) Inspections shall be performed by representatives of the board of pharmacy to ensure compliance with chapter 246-879 WAC. The following items shall be included in these inspections:

(a) Housekeeping, sanitation, recordkeeping, accountability, security, types of outlets sold to and sources of drugs purchased.

(b) Wholesale drug distributors shall operate in compliance with applicable federal, state, and local laws and regulations.

(2) Wholesale drug distributors shall permit the board's authorized personnel and authorized federal, state, and local law enforcement officials to enter and inspect their premises and delivery vehicles, and to audit their records and written operating procedures, at reasonable times and in a reasonable manner, to the extent authorized by law. Such officials shall be required to show appropriate identification prior to being permitted access to wholesale drug distributors' premises and delivery vehicles.

[Statutory Authority: RCW 18.64.005. 92-15-069 (Order 289B), § 246-879-030, filed 7/14/92, effective 8/14/92. Statutory Authority: RCW 18.64.005 and chapter 18.64A RCW. 91-18-057 (Order 191B), recodified as § 246-879-030, filed 8/30/91, effective 9/30/91. WAC 246-879-040 Records. (1) Recordkeeping. Wholesale drug distributors shall establish and maintain inventories and records of transactions regarding the receipt and distribution or other disposition of prescription drugs. These records shall include the following information:

(a) The source of the drugs, including the name and principal address of the seller or transferor, and the address of the location from which the drugs were shipped;

(b) The identity and quantity of the drugs received and distributed or disposed of; and

(c) The dates of receipt and distribution or other disposition of the drugs.

(2) Inventories and records shall be made available for inspection and photocopying by an authorized official of any governmental agency charged with enforcement of these rules for a period of two years following disposition of the drugs.

(3) Records described in this section that are kept at the inspection site or that can be immediately retrieved by computer or other electronic means shall be readily available for authorized inspection during the retention period. Records kept at a central location apart from the inspection site and not electronically retrievable shall be made available for inspection within two working days of a request by an authorized official of any governmental agency charged with enforcement of these rules.

[Statutory Authority: RCW 18.64.005. 92-15-069 (Order 289B), § 246-879-040, filed 7/14/92, effective 8/14/92. Statutory Authority: RCW 18.64.005 and chapter 18.64A RCW. 91-18-057 (Order 191B), recodified as § 246-879-040, filed 8/30/91, effective 9/30/91. Statutory Authority: RCW 18.64.005(11) and 69.41.075. 82-06-042 (Order 165), § 360-21-040, filed 3/2/82.]

WAC 246-879-050 Security. (1) All facilities shall be equipped with a security system that will provide suitable protection against theft and diversion. When appropriate, the security system shall provide protection against theft or diversion that is facilitated or hidden by tampering with computers or electronic records.

(2) Access from outside the premises shall be kept to a minimum and be well-controlled.

(3) Entry into areas where prescription drugs are held shall be limited to authorized personnel.

(4) All facilities used for wholesale drug distribution shall be secure from unauthorized entry.

(5) Drug storage areas shall be constructed in such a manner as to prevent illegal entry.

(6) Adequate lighting shall be provided at the outside perimeter of the premises to reduce the possibility of illegal entry.

(7) All applicants for a license as a controlled substances wholesaler must comply with the security requirements as

found in 21 CFR 1301.02, 1301.71 through 1301.74 and 1301.90 through 1301.92.

[Statutory Authority: RCW 18.64.005. 92-15-069 (Order 289B), § 246-879-050, filed 7/14/92, effective 8/14/92. Statutory Authority: RCW 18.64.005 and chapter 18.64A RCW. 91-18-057 (Order 191B), recodified as § 246-879-050, filed 8/30/91, effective 9/30/91. Statutory Authority: RCW 18.64.005(11) and 69.41.075. 82-06-042 (Order 165), § 360-21-050, filed 3/2/82.]

WAC 246-879-060 Unauthorized sales. No wholesaler distributor shall sell or distribute any prescription drugs or devices except to an individual, corporation, or entity who is authorized by law or regulation to possess such drugs or devices. No wholesaler shall sell any prescription drugs or devices to an ultimate consumer.

[Statutory Authority: RCW 18.64.005. 92-15-069 (Order 289B), § 246-879-060, filed 7/14/92, effective 8/14/92. Statutory Authority: RCW 18.64.005 and chapter 18.64A RCW. 91-18-057 (Order 191B), recodified as § 246-879-060, filed 8/30/91, effective 9/30/91. Statutory Authority: RCW 18.64.005(11) and 69.41.075. 82-06-042 (Order 165), § 360-21-060, filed 3/2/82.]

WAC 246-879-070 Application for full line wholesaler license and over-the-counter only wholesaler license. (1) All applications for licensure of a new or relocated wholesaler shall be accompanied by the required fee as set forth in chapter 246-907 WAC.

(2) All license renewal applications shall be accompanied by the annual fee and contain the same information required in subsection (6) of this section.

(3) A change of ownership or location requires a new license.

(4) The license is issued to a person or firm and is nontransferable. Additions or deletions of a partner/partners shall be considered as a change of ownership.

(5) The license fee cannot be prorated.

(6) Every wholesale distributor, wherever located, who engages in wholesale distribution into, out of, or within this state must be licensed by the board in accordance with the laws and regulations of this state before engaging in wholesale distribution of prescription drugs.

(a) Minimum required information for licensure. The board requires the following from each wholesale drug distributor as part of the initial licensing procedure and as part of any renewal of such license.

(i) The name, full business address, and telephone number of the licensee;

(ii) All trade or business names used by the licensee;

(iii) Addresses, telephone numbers, and the names of contact persons for the facility used by the licensee for the storage, handling, and distribution of prescription drugs;

(iv) The type of ownership or operation (i.e., partnership, corporation, or sole proprietorship); and

(v) The name(s) of the owner and/or operator of the licensee, including:

(A) If a person, the name of the person;

(B) If a partnership, the name of each partner, and the name of the partnership;

(C) If a corporation, the name and title of each corporate officer and director, the corporate names, and the name of the state of incorporation, and the name of the parent company, if any;

(D) If a sole proprietorship, the full name of the sole proprietor and the name of the business entity.

(vi) When operations are conducted at more than one location by a single wholesale distributor, each such location shall be licensed by the board.

(vii) Change in any information required by this section shall be submitted to the board within thirty days after such change.

(b) Minimum qualifications. The board shall consider, at a minimum, the following factors in reviewing the qualifications of persons who engage in wholesale distribution of prescription drugs within the state:

(i) Any convictions of the applicant under any federal, state, or local laws relating to drug samples, wholesale, or retail drug distribution, or distribution of controlled substances;

(ii) Any felony convictions of the applicant under federal, state, or local laws;

(iii) The applicant's past experience in the manufacture or distribution of prescription drugs, including controlled substances;

(iv) Any false or fraudulent material furnished by the applicant in any application made in connection with drug manufacturing or distribution;

(v) Suspension or revocation by federal, state, or local government of any license currently or previously held by the applicant for the manufacture or distribution of any drugs, including controlled substances;

(vi) Compliance with licensing requirements under previously granted licenses, if any;

(vii) Compliance with requirements to maintain and/or make available to the board, federal, state, or local enforcement officials those records required to be maintained by wholesale drug distributors; and

(viii) Any other factors or qualifications the board considers relevant to and consistent with public health and safety.

(c) The board shall have the right to deny a license to an applicant if it determines that the granting of such a license would not be in the public interest. Public interest considerations shall be based on factors and qualifications that are directly related to the protection of the public health and safety.

(d) Personnel. As a condition for receiving and retaining a wholesale drug distributor license, the licensee shall require each person employed in any prescription drug wholesale distribution activity to have education, training, and experience, or any combination thereof, sufficient for that person to perform the assigned functions in such a manner as to provide assurance that the drug product quality, safety and security will at all times be maintained as required by law.

[Statutory Authority: RCW 43.70.280. 98-05-060, § 246-879-070, filed 2/13/98, effective 3/16/98. Statutory Authority: RCW 18.64.005(11) and 69.41.075. 82-06-042 (Order 165), § 360-21-080, filed 3/2/82.]

WAC 246-879-090 Export wholesaler. (1) Upon application the board may issue a wholesaler license for the primary business of exporting drugs to foreign countries.

(2) Such license authorizes the holder to export non-controlled drugs to persons in a foreign jurisdiction that have legitimate reasons to possess such drugs.

(3) Letters from consulate of the country to which drugs are exported should verify consignee receiving such drugs is legally entitled in that country to receive them, if applicable. These letters shall be made available to the board upon its request.

(4) Records to be kept by export wholesaler:

(a) Complete description of drug, including, name, quantity, strength, and dosage unit.

(b) Name and address of purchaser.

(c) Name and address of consignee in the country of destination.

(d) Name and address of forwarding agent.

(e) Proposed export date.

(f) Shippers involved and methods of shipment.

(5) The issuance of an export wholesaler license does not authorize delivery of drugs in the United States.

[Statutory Authority: RCW 18.64.005 and chapter 18.64A RCW. 91-18-057 (Order 191B), recodified as § 246-879-090, filed 8/30/91, effective 9/30/91. Statutory Authority: RCW 18.64.005(11) and 69.41.075. 82-06-042 (Order 165), § 360-21-090, filed 3/2/82.]

WAC 246-879-100 Salvaging and reprocessing companies. Wholesale drug distributors shall be subject to the provisions of any applicable federal, state, or local laws or rules that relate to prescription drug product salvaging or reprocessing, including this chapter.

[Statutory Authority: RCW 18.64.005. 92-15-069 (Order 289B), § 246-879-100, filed 7/14/92, effective 8/14/92.]

WAC 246-879-110 Violations and penalties. The board shall have the authority to suspend or revoke any licenses granted under this chapter upon conviction of violations of the federal, state, or local drug laws or rules. Before any license may be suspended or revoked, a wholesale distributor shall have a right to prior notice and a hearing pursuant to the Administrative Procedure Act, chapter 34.05 RCW.

[Statutory Authority: RCW 18.64.005. 92-15-069 (Order 289B), § 246-879-110, filed 7/14/92, effective 8/14/92.]

WAC 246-879-120 Reciprocity. A wholesale distributor licensed in another state may be licensed in this state upon submission of the fee required in chapter 246-907 WAC and submission of information compiled by the National Association of Boards of Pharmacy (NABP) Clearinghouse demonstrating that the license is not, and has not been, the subject of adverse license action.

[Statutory Authority: RCW 18.64.005. 92-15-069 (Order 289B), § 246-879-120, filed 7/14/92, effective 8/14/92.]

Chapter 246-881 WAC
PHARMACY—PRESCRIPTION DRUG PRICE ADVERTISING

WAC

WAC 246-881-010 Drug price advertising defined. Drug price advertising is the dissemination of nonpromotional information pertaining to the prices of legend or prescription drugs.

[Statutory Authority: RCW 18.64.005 and chapter 18.64A RCW. 91-18-057 (Order 191B), recodified as § 246-881-010, filed 8/30/91, effective 9/30/91; Order 124, § 360-23-010, filed 10/31/74; Order 120, § 360-23-010, filed 3/11/74.]

WAC 246-881-020 Drug price advertising conditions. A pharmacy may advertise legend or prescription drug prices provided:

(1) The advertising complies with all state and federal laws, including regulations of the United States Food and Drug Administration and the Washington State Consumer Protection Act, chapter 19.86 RCW.

(2) The advertising is solely directed towards providing consumers with drug price information and does not promote the use of a prescription drug or drugs to the public.

(3) The drug price advertising shall contain all the following information for all drug products or brand names used in the advertisement:

(a) The proprietary name of the drug product advertised, if any,

(b) The generic name of the drug product advertised, if any,

(c) The strength of the drug product advertised. If the drug product advertised contains more than one active ingredient and a relevant strength can be associated with it without indicating each active ingredient, the generic name and quantity of each active ingredient is not required.

(d) The dosage form of the drug product advertised, and

(e) The price charged for a specified quantity of the drug product.

(4) Advertising of any generic drug that in any way compares a generic drug to a brand name drug may not in any manner imply that the brand name drug is the product offered for sale.

[Statutory Authority: RCW 18.64.005 and chapter 18.64A RCW. 91-18-057 (Order 191B), recodified as § 246-881-020, filed 8/30/91, effective 9/30/91. Statutory Authority: RCW 18.64.005(11). 79-10-007 (Order 151, Resolu-

tion No. 9/79), § 360-23-020, filed 9/6/79; Order 124, § 360-23-020, filed 10/31/74; Order 120, § 360-23-020, filed 3/11/74.]

WAC 246-881-030 Prohibition on advertising controlled substances. No person, partnership, corporation, association or agency shall advertise controlled substances for sale to the general public in any manner that promotes or tends to promote the use or abuse of those drugs. Controlled substances shall not be physically displayed to the public.

[Statutory Authority: RCW 18.64.005 and chapter 18.64A RCW. 91-18-057 (Order 191B), recodified as § 246-881-030, filed 8/30/91, effective 9/30/91; Order 124, § 360-23-030, filed 10/31/74.]

WAC 246-881-040 Drug price disclosure—Required. No pharmacy shall refuse to disclose the retail price of a prescription drug upon request by a consumer.

[Statutory Authority: RCW 18.64.005. 96-02-008, § 246-881-040, filed 12/20/95, effective 1/20/96. Statutory Authority: RCW 18.64.005 and chapter 18.64A RCW. 91-18-057 (Order 191B), recodified as § 246-881-040, filed 8/30/91, effective 9/30/91; Order 124, § 360-23-050, filed 10/31/74.]

Chapter 246-883 WAC

PHARMACEUTICAL—SALES REQUIRING PRESCRIPTIONS

WAC

WAC 246-883-020 Identification of legend drugs for purposes of chapter 69.41 RCW. (1) In accordance with chapter 69.41 RCW, the board of pharmacy finds that those drugs which have been determined by the Food and Drug Administration, under the Federal Food, Drug and Cosmetic Act, to require a prescription under federal law should also be classified as legend drugs under state law because of their toxicity or potential for harmful effect, the methods of their use and the collateral safeguards necessary to their use, indicate that they are only safe for use under the supervision of a practitioner.

(2) For the purposes of chapter 69.41 RCW, legend drugs are drugs which have been designated as legend drugs under federal law and are listed as such in the 2002 edition of the *Drug Topics Red Book*. Copies of the list of legend drugs as contained in the *Drug Topics Red Book* are available for public inspection at the headquarters office of the State Board of Pharmacy, 1300 Quince Street S.E., P.O. BOX 47863, Olympia, Washington 98504-7863. To obtain copies of this list, interested persons must submit a written request and payment of seventy-six dollars for each copy to the board.

(3) There may be changes in the marketing status of drugs after the publication of the above reference. Upon application of a manufacturer or distributor, the board may grant authority for the over the counter distribution of certain drugs which had been designated as legend drugs in this reference. These determinations will be made after public hearing and will be published as an amendment to this chapter.

[Statutory Authority: RCW 69.41.075 and 18.64.005(7). 02-14-049, § 246-883-020, filed 6/27/02, effective 7/28/02. Statutory Authority: RCW 69.41.075, 18.64.005. 00-06-078, § 246-883-020, filed 3/1/00, effective 4/1/00. Statutory Authority: RCW 69.41.075. 96-21-041, § 246-883-020, filed 10/11/96, effective 11/11/96. Statutory Authority: RCW 18.64.005. 92-09-070 (Order 264B), § 246-883-020, filed 4/14/92, effective 5/15/92. Statutory Authority: RCW 18.64.005 and chapter 18.64A RCW. 91-18-057 (Order 191B), recodified as § 246-883-020, filed 8/30/91, effective 9/30/91. Statutory Authority: RCW 18.64.005 and 69.44.075 [69.41.075]. 85-18-091 (Order 196), § 360-32-050, filed 9/4/85. Statutory Authority: RCW 18.64.005 and 69.41.075. 83-20-053 (Order 176), § 360-32-050, filed 9/29/83. Statutory Authority: RCW 69.41.075. 81-10-025 (Order 160), § 360-32-050, filed 4/28/81. Statutory Authority: 1979 1st ex. s. c 139. 79-09-138 (Order 149, Resolution No. 9/79), § 360-32-050, filed 9/5/79.]

WAC 246-883-025 Introductory trade or stock packages. Introductory trade or stock packages may be distributed by registered drug manufacturers to licensed pharmacies under the following conditions:

(1) The package shall be invoiced by the drug manufacturer as a no charge sale.

(2) The product shall be distributed by the manufacturer to the pharmacy by mail or common carrier.

(3) The drug's package shall not be marked as a sample or with any other labeling that is inconsistent with the claim that the manufacturer intended the package for sale.

(4) The manufacturer shall be limited to distributing one introductory package of each dosage strength of a product on a one-time basis to a pharmacy in order to familiarize and assure that a company's new product will be available in pharmacies. The quantity shall not be larger than one hundred solid dosage units or sixteen liquid ounces.

[Statutory Authority: RCW 18.64.005. 92-09-072 (Order 266B), § 246-883-025, filed 4/14/92, effective 5/15/92.]

WAC 246-883-030 Ephedrine prescription restrictions. (1) The board of pharmacy, pursuant to RCW 69.41.075, hereby identifies ephedrine, or any of its salts in a solid or aqueous form normally intended for oral administration, in any quantity, as a legend drug subject to the restrictions of RCW 69.41.030.

(2) The following products containing ephedrine or its salts in the amount of 25 mg. or less per solid dosage unit or per 5 ml. of liquid forms in combination with other ingredients in therapeutic amounts are exempt from subsection (1) of this section:

	TRADE NAME	EPHEDRINE CONTENT
1.	AMESAC capsule (Russ)	25 mg. ephedrine HCL
2.	AZMA AID tablet (Various, eg Purepac)	24 mg. ephedrine HCL
3.	BRONC-EASE PLUS (Natur-Pharma)	25 mg. ephedrine HCL
4.	BRONCHODILATOR AND EXPECTORANT (PDK Labs)	25 mg. ephedrine HCL
5.	BRONITIN tablet (Whitehall)	24 mg. ephedrine HCL
6.	BRONKAID tablet (Breon)	24 mg. ephedrine sulfate
7.	BRONKOLIXER (Sterling Winthrop)	12 mg. ephedrine
8.	BRONKOTABS tablet (Breon)	24 mg. ephedrine sulfate
9.	EFEDRON nasal jelly (Hyrex)	0.6% ephedrine HCL in 20 g.

	TRADE NAME	EPHEDRINE CONTENT
10.	MINI THINS asthma relief (BDI Pharmaceuticals)	25 mg. ephedrine
11.	PAZO HEMORRHOID suppositor (Bristol-Meyers)	3.86 mg. ephedrine sulfate
12.	PAZO HEMORRHOID ointment (Bristol-Meyers)	0.2% ephedrine sulfate
13.	PRIMATENE tablet (Whitehall)	24 mg. ephedrine HCL
14.	PRIMATENE M tablet (Whitehall)	24 mg. ephedrine HCL
15.	PRIMATENE P tablet (Whitehall)	24 mg. ephedrine HCL
16.	QUELIDRINE (Abbott)	5 mg. ephedrine HCL
17.	TEDRAL tablet (Parke-Davis)	24 mg. ephedrine HCL
18.	THEODRINE tablet (Rugby)	25 mg. ephedrine HCL
19.	VATRONOL nose drops (Vicks Health Care)	0.5% ephedrine sulfate

(3) Ma Huang or other botanical products of genus ephedra used in their natural state and containing 25 mg. or less of ephedrine per recommended dosage as a preparation for human consumption are not legend drugs for the purposes of this section.

(4) Any reformulation of listed products which increases the ephedrine content to more than 25 mg. of ephedrine per solid dosage unit or per 5 ml. of liquid forms shall negate the exemption. The manufacturers of listed products shall notify the board of any reformulation which increases the ephedrine content to more than 25 mg. of ephedrine per solid dosage unit or per 5 ml. of liquid forms prior to distributing that product in the state of Washington.

(5) Manufacturers of products containing 25 mg. or less of ephedrine per solid dosage unit or per 5 ml. of liquid forms in combination with other ingredients in therapeutic amounts may gain exemption from subsection (1) of this section if, prior to the distributing of any such product in the state of Washington, the manufacturer:

(a) Provides the board with the formulation of any such product;

(b) Provides the board samples of all dosage forms in which the product is to be marketed in the packaging in which the product is to be marketed; and

(c) Receives the board's approval to market such product.

[Statutory Authority: RCW 18.64.005. 94-08-100, § 246-883-030, filed 4/6/94, effective 5/7/94; 93-05-046 (Order 333B), § 246-883-030, filed 2/17/93, effective 3/20/93. Statutory Authority: RCW 18.64.005 and chapter 18.64A RCW. 91-18-057 (Order 191B), recodified as § 246-883-030, filed 8/30/91, effective 9/30/91. Statutory Authority: RCW 18.64.005. 89-22-048, § 360-32-060, filed 10/30/89, effective 11/30/89.]

WAC 246-883-050 Theophylline prescription restrictions. The board of pharmacy, pursuant to RCW 69.41.075, hereby identifies theophylline, or any of its salts in a solid or liquid form normally intended for oral administration in any quantity, as a legend drug subject to the restrictions of RCW 69.41.030. Provided, products containing 130 mg or less of theophylline per solid dosage unit or 130 mg or less per 5 ml of liquid forms, shall not be considered a legend drug and where the product contains other recognized therapeutic ingredients, may be sold or distributed without a prescription. Products with theophylline as the only active ingredient are identified as legend drugs.

[Statutory Authority: RCW 18.64.005. 92-09-070 (Order 264B), § 246-883-050, filed 4/14/92, effective 5/15/92.]

Chapter 246-885 WAC

PHARMACY—IDENTIFICATION, IMPRINTS, MARKINGS, AND LABELING OF LEGEND DRUGS

WAC

WAC 246-885-020 Drug imprint information provided by manufacturers and distributors. Each manufacturer and distributor who manufacturers or commercially distributes any legend drug in the state of Washington shall provide written information to the board identifying all current imprints used. This information shall be submitted on a form provided by the board and shall be updated annually, or as changes in imprints occur.

[Statutory Authority: RCW 18.64.005 and chapter 18.64A RCW. 91-18-057 (Order 191B), recodified as § 246-885-020, filed 8/30/91, effective 9/30/91. Statutory Authority: RCW 18.64.005 and 69.41.240. 83-10-013 (Order 174), § 360-33-050, filed 4/26/83.]

WAC 246-885-030 Over-the-counter (OTC) drug imprint regulation. (1) Pursuant to the provisions of RCW 69.60.090, chapter 69.60 RCW will cease to exist in its entirety upon implementation by the federal Food and Drug Administration (FDA) of provisions regulating solid dosage imprinting of OTC medications and upon a finding by the Washington state board of pharmacy that the FDA regulations are substantially equivalent to those in chapter 69.60 RCW.

(2) The FDA adopted a final rule regarding OTC solid dosage imprinting, codified in 21 CFR 206.01-10. This rule became effective September 13, 1995. The applicability of the federal rule is limited to those products introduced into interstate commerce on or after the effective date of the regulation. The rule is inapplicable to those noncompliant products introduced into interstate commerce prior to the effective date and to those products pending FDA review and approval of applications submitted by the manufacturer.

(3) The board finds that the inapplicability of the FDA rule to noncompliant products introduced into interstate commerce before the effective date and to those products currently on the market would permit the sale of these products in the state of Washington and thus fails to adequately protect the citizens of the state of Washington.

(4) Therefore, notwithstanding the provisions of 21 CFR 206.1 et seq. no nonimprinted solid dosage form drug that is intended for OTC sale may be distributed into or sold in the state of Washington unless it has been found by the board to be exempt from the provisions of this chapter or has received an exemption from the FDA pursuant to 21 CFR 206.7. Copies of official documents that support such exemptions shall

be filed with the board prior to any distribution of the nonimprinted product(s).

[Statutory Authority: RCW 18.64.005. 96-07-012, § 246-885-030, filed 3/11/96, effective 4/11/96.]

Chapter 246-886 WAC
ANIMAL CONTROL—LEGEND DRUGS

WAC

WAC 246-886-001 Purpose. The purpose of this chapter shall be to ensure compliance with the law and rules regarding the use of legend drugs by animal control agencies and humane societies for the sole purpose of sedating animals prior to euthanasia, when necessary, and for use in chemical capture programs.

[Statutory Authority: RCW 18.64.005 and chapter 18.64A RCW. 91-18-057 (Order 191B), recodified as § 246-886-001, filed 8/30/91, effective 9/30/91. Statutory Authority: RCW 18.64.005. 91-04-056 (Order 140B), § 360-35-010, filed 2/4/91, effective 3/7/91.]

WAC 246-886-010 Definitions. (1) "Board": The Washington state board of pharmacy.

(2) "Animal control agency": Any agency authorized by law to euthanize or destroy animals; to sedate animals prior to euthanasia or to engage in chemical capture of animals.

(3) "Humane society": A society incorporated and authorized to act under RCW 16.52.020.

(4) "Legend drugs": "Legend drugs" means any drugs which are required by state law or regulation of the state board of pharmacy to be dispensed on prescription only or are restricted to use by practitioners only.

(5) "Controlled substances": "Controlled substance" means a drug, substance, or immediate precursor in Schedule I through V of Article II of chapter 69.50 RCW.

(6) "Approved legend drug": Any legend drug approved by the board for use by registered humane societies or animal control agencies for the sole purpose of sedating animals prior to euthanasia, when necessary, and for use in chemical capture programs.

[Statutory Authority: RCW 18.64.005 and chapter 18.64A RCW. 91-18-057 (Order 191B), recodified as § 246-886-010, filed 8/30/91, effective 9/30/91. Statutory Authority: RCW 18.64.005. 91-04-056 (Order 140B), § 360-35-020, filed 2/4/91, effective 3/7/91.]

WAC 246-886-020 Registration. Humane societies and animal control agencies registered with the board under RCW 69.50.310 and WAC 246-887-050 to purchase, possess, and administer sodium pentobarbital as provided therein may also, under that registration, purchase, possess, and administer approved legend drugs as provided in RCW 69.41.080 and herein.

[Statutory Authority: RCW 69.41.080. 92-12-035 (Order 277B), § 246-886-020, filed 5/28/92, effective 6/28/92. Statutory Authority: RCW 18.64.005 and chapter 18.64A RCW. 91-18-057 (Order 191B), recodified as § 246-886-020, filed 8/30/91, effective 9/30/91. Statutory Authority: RCW 18.64.005. 91-04-056 (Order 140B), § 360-35-030, filed 2/4/91, effective 3/7/91.]

WAC 246-886-030 Approved legend drugs. (1) The following legend drugs are hereby designated as "approved legend drugs" for use by registered humane societies or animal control agencies for limited purposes:

(a) Acetylpromazine.

(b) Ketamine.

(c) Xylazine.

(2) A humane society or animal control agency shall not be permitted to purchase, possess, or administer approved legend drugs unless that society or agency:

(a) Is registered with the board under RCW 69.50.310 and WAC 246-887-050 to purchase, possess, and administer sodium pentobarbital;

(b) Submits to the board written policies and procedures ensuring that only those of its agents and employees who have completed a board-approved training program will possess or administer approved legend drugs; and

(c) Has on its staff at least one individual who has completed a board-approved training program.

(3) The following legend drugs are hereby designated as "approved legend drugs" only for use by agents and biologists of the Washington state department of wildlife: Naltrexone, detomidine, metdetomidine and yohimbine.

[Statutory Authority: RCW 18.64.005. 94-02-060, § 246-886-030, filed 1/3/94, effective 2/3/94. Statutory Authority: RCW 69.41.080. 92-12-035 (Order 277B), § 246-886-030, filed 5/28/92, effective 6/28/92. Statutory Authority: RCW 18.64.005 and chapter 18.64A RCW. 91-18-057 (Order 191B), recodified as § 246-886-030, filed 8/30/91, effective 9/30/91. Statutory Authority: RCW 18.64.005. 91-04-056 (Order 140B), § 360-35-040, filed 2/4/91, effective 3/7/91.]

WAC 246-886-040 Training of personnel. (1) Approved legend drugs may only be administered by those personnel who have completed a board-approved training program. Such training programs shall be submitted to the board for approval no later than thirty days prior to the initiation of training.

(2) Any training program shall use a text approved by the board. The board will make available a list of approved texts. Training programs shall be at least four hours in length and shall be taught by a licensed veterinarian or by a person who has completed an approved training program taught by a licensed veterinarian. Each program shall require that the trainee participate in both didactic and practical training in the use of these drugs and shall be required to score no less than seventy-five percent on a final examination. Training programs shall include the following topics:

(a) Anatomy and physiology;

(b) Pharmacology of the drugs;

(c) Indications, contraindications, and adverse effects;

(d) Human hazards;

(e) Disposal of medical waste (needles, syringes, etc.);

(f) Recordkeeping and security requirements.

[Statutory Authority: RCW 18.64.005 and chapter 18.64A RCW. 91-18-057 (Order 191B), recodified as § 246-886-040, filed 8/30/91, effective 9/30/91.

Statutory Authority: RCW 18.64.005. 91-04-056 (Order 140B), § 360-35-050, filed 2/4/91, effective 3/7/91.]

WAC 246-886-050 Legend drug administration. Humane societies and animal control agencies and the staff of those agencies may not purchase, possess, or administer controlled substances or legend drugs except sodium pentobarbital and approved legend drugs as provided herein. Provided, staff may administer legend drugs and controlled substances which have been prescribed by a licensed veterinarian for a specific animal and which drugs have been dispensed by a pharmacy or a veterinarian and are properly labeled in accordance with either RCW 18.64.246 or 69.41.050.

[Statutory Authority: RCW 18.64.005 and chapter 18.64A RCW. 91-18-057 (Order 191B), recodified as § 246-886-050, filed 8/30/91, effective 9/30/91. Statutory Authority: RCW 18.64.005. 91-04-056 (Order 140B), § 360-35-060, filed 2/4/91, effective 3/7/91.]

WAC 246-886-060 Responsible individuals. (1) Each agency or society registered in accordance with WAC 246-887-050 shall name a designated individual as the person who shall be responsible for maintaining all records and submitting all reports required by applicable federal or state law or regulation, including chapter 246-887 WAC.

(2) This designated individual shall also be responsible for the ordering, possession, safe storage, and utilization of the sodium pentobarbital and approved legend drugs.

[Statutory Authority: RCW 69.41.080. 92-12-035 (Order 277B), § 246-886-060, filed 5/28/92, effective 6/28/92. Statutory Authority: RCW 18.64.005 and chapter 18.64A RCW. 91-18-057 (Order 191B), recodified as § 246-886-060, filed 8/30/91, effective 9/30/91. Statutory Authority: RCW 18.64.005. 91-04-056 (Order 140B), § 360-35-070, filed 2/4/91, effective 3/7/91.]

WAC 246-886-070 Notification. Each humane society and animal control agency shall promptly notify the board of its designated individual, of all employees authorized to purchase, possess, or administer approved legend drugs, and of any change in the status of these individuals.

[Statutory Authority: RCW 18.64.005 and chapter 18.64A RCW. 91-18-057 (Order 191B), recodified as § 246-886-070, filed 8/30/91, effective 9/30/91. Statutory Authority: RCW 18.64.005. 91-04-056 (Order 140B), § 360-35-080, filed 2/4/91, effective 3/7/91.]

WAC 246-886-080 Recordkeeping and reports. (1) A bound log book with consecutively numbered pages shall be used to record the receipt, use, and disposition of approved legend drugs. No more than one drug shall be recorded on any single page. The record shall be in sufficient detail to allow an audit to be performed.

(2) All invoices, record books, disposition records, and other records regarding approved legend drugs shall be maintained in a readily retrievable manner for no less than two years.

(3) All records shall be available for inspection by the state board of pharmacy or any officer who is authorized to enforce this chapter.

(4) A physical inventory of approved legend drugs shall be performed and reconciled with the log book no less frequently than every six months.

(5) Any discrepancy in the actual inventory of approved legend drugs shall be documented in the log book and reported immediately to the responsible supervisor who shall investigate the discrepancy. Any discrepancy which has not been corrected within seven days shall be reported to the board of pharmacy in writing.

(6) Any approved legend drug which has become unfit for use due to contamination or having passed its expiration date shall be destroyed by a supervisor and another staff member. Record of such destruction shall be made in the log book which shall be signed and dated by the individuals involved.

[Statutory Authority: RCW 18.64.005 and chapter 18.64A RCW. 91-18-057 (Order 191B), recodified as § 246-886-080, filed 8/30/91, effective 9/30/91. Statutory Authority: RCW 18.64.005. 91-04-056 (Order 140B), § 360-35-090, filed 2/4/91, effective 3/7/91.]

WAC 246-886-090 Drug storage. All approved legend drugs shall be stored in a substantially constructed locked cabinet or drawer. Keys to the storage area shall be restricted to those persons authorized to administer the drugs. Specifically designated agents and employees of the registrant may possess a supply of approved legend drugs for emergency field use. Such emergency supply shall be stored in a locked metal box securely attached to the vehicle.

[Statutory Authority: RCW 18.64.005 and chapter 18.64A RCW. 91-18-057 (Order 191B), recodified as § 246-886-090, filed 8/30/91, effective 9/30/91. Statutory Authority: RCW 18.64.005. 91-04-056 (Order 140B), § 360-35-100, filed 2/4/91, effective 3/7/91.]

WAC 246-886-100 Violations. The board may suspend or revoke a registration issued under chapter 69.50 RCW if the board determines that any agent or employee of a registered humane society or animal control agency has purchased, possessed, or administered legend drugs in violation of RCW 69.41.080 or this chapter or has otherwise demonstrated inadequate knowledge in the administration of legend drugs. The board's revocation or suspension of a registration as provided herein would restrict the registered entity's ability to use both approved legend drugs and sodium pentobarbital.

[Statutory Authority: RCW 18.64.005 and chapter 18.64A RCW. 91-18-057 (Order 191B), recodified as § 246-886-100, filed 8/30/91, effective 9/30/91. Statutory Authority: RCW 18.64.005. 91-04-056 (Order 140B), § 360-35-110, filed 2/4/91, effective 3/7/91.]

Chapter 246-887 WAC

PHARMACY—REGULATIONS IMPLEMENTING THE UNIFORM CONTROLLED SUBSTANCES ACT

WAC

WAC 246-887-020 Uniform Controlled Substances Act. (1) Consistent with the concept of uniformity where possible with the federal regulations for controlled substances (21 CFR), the federal regulations are specifically made applicable to registrants in this state by virtue of RCW 69.50.306. Although those regulations are automatically applicable to registrants in this state, the board is nevertheless adopting as its own regulations the existing regulations of the federal government published in the Code of Federal Regulations revised as of April 1, 1991, and all references made therein to the director or the secretary shall have reference to the board of pharmacy, and the following sections are not applicable: Section 1301.11-.13, section 1301.31, section 1301.43-.57, section 1303, section 1308.41-.48, and section 1316.31-.67. The following specific rules shall take precedence over the federal rules adopted herein by reference, and therefore any inconsistencies shall be resolved in favor of the following specific rules.

(2) A separate registration is required for each place of business (as defined in section 1301.23) where controlled substances are manufactured, distributed or dispensed. Application for registration must be made on forms supplied by the pharmacy board, and all information called for thereon must be supplied unless the information is not applicable, in which case it must be indicated. An applicant for registration must hold the appropriate wholesaler, manufacturer or pharmacy license provided for in chapter 18.64 RCW.

(3) Every registrant shall be required to keep inventory records required by section 1304.04 (of the federal rules which have been adopted by reference by Rule 1) and must maintain said inventory records for a period of two years from the date of inventory. Such registrants are further required to keep a record of receipt and distribution of controlled substances. Such record shall include:

(a) Invoices, orders, receipts, etc. showing the date, supplier and quantity of drug received, and the name of the drug;

(b) Distribution records; i.e., invoices, etc. from wholesalers and manufacturers and prescriptions records for dispensers;

(c) In the event of a loss by theft or destruction, two copies of DEA 106 (report of theft or loss of controlled substances) must be transmitted to the federal authorities and a copy must be sent to the board;

(d) For transfers of controlled substances from one dispenser to another, a record of the transfer must be made at the time of transfer indicating the drug, quantity, date of transfer, who it was transferred to and from whom. Said record must be retained by both the transferee and the transferor. These transfers can only be made in emergencies pursuant to section 1307.11 (federal rules).

(4) The records must be maintained separately for Schedule II drugs. The records for Schedule III, IV and V drugs may be maintained either separately or in a form that is readily retrievable from the business records of the registrant. Prescription records will be deemed readily retrievable if the prescription has been stamped in red ink in the lower right hand corner with the letter "C" no less than one inch high, and said prescriptions are filed in a consecutively numbered prescription file which includes prescription and noncontrolled substances.

(5) A federal order form is required for each distribution of a Schedule I or II controlled substance, and said forms along with other records required to be kept must be made readily available to authorized employees of the board.

(6) Schedule II drugs require that a dispenser have a signed prescription in his possession prior to dispensing said drugs. An exception is permitted in an "emergency." An emergency exists when the immediate administration of the drug is necessary for proper treatment and no alternative treatment is available, and further, it is not possible for the physician to provide a written prescription for the drug at that time. If a Schedule II drug is dispensed in an emergency, the practitioner must deliver a signed prescription to the dispenser within 72 hours, and further he must note on the prescription that it was filled on an emergency basis.

[Statutory Authority: RCW 43.70.280. 98-05-060, § 246-887-020, filed 2/13/98, effective 3/16/98. Statutory Authority: RCW 18.64.005. 92-04-029 (Order 239B), § 246-887-020, filed 1/28/92, effective 2/29/92. Statutory Authority: RCW 18.64.005 and chapter 18.64A RCW. 91-18-057 (Order 191B), recodified as § 246-887-020, filed 8/30/91, effective 9/30/91. Statutory Authority: RCW 69.50.201. 89-17-023 (Order 226), § 360-36-010, filed 8/8/89, effective 9/8/89. Statutory Authority: RCW 69.50.301. 87-10-029 (Order 206), § 360-36-010, filed 5/1/87. Statutory Authority: RCW 18.64.005(4). 85-06-010 (Order 193), § 360-36-010, filed 2/22/85. Statutory Authority: RCW 69.50.301. 80-05-074 (Order 154, Resolution No. 4/80), § 360-36-010, filed 4/28/80; 79-10-007 (Order 151, Resolution No. 9/79), § 360-36-010, filed 9/6/79. Statutory Authority: RCW 69.50.301 and chapter 69.50 RCW. 78-02-070 (Order 140), § 360-36-010, filed 1/25/78; Order 132, § 360-36-010, filed 5/4/77; Order 108, § 360-36-010, filed 10/26/71.]

WAC 246-887-030 Dispensing Schedule V controlled substances. (1) Those drugs classified in Schedule V of the Uniform Controlled Substances Act (RCW 69.50.212) which can be dispensed without a prescription can be so distributed only for the medical purpose(s) indicated on the manufacturer's label (e.g., cough syrups may only be dispensed for the treatment of coughs) and shall be dispensed in accordance with the following rules.

(2) Only a licensed pharmacist or a pharmacy intern may dispense a Schedule V drug. The pharmacist or pharmacy intern making the sale is responsible for the recording of the required information in the Schedule V register book. The pharmacist or pharmacy intern shall not sell a Schedule V drug to a person below the age of 21 and shall require the purchaser to supply identification so that the purchaser's true name, address and age can be verified. The pharmacist must keep the Schedule V drugs in a safe place not accessible to members of the public. The name and address of the pharmacy must be placed on the bottle or vial of each Schedule V drug sold and the pharmacist or pharmacy intern dispensing the product must place the date of sale and his/her initials on the label at the time of sale. The pharmacist or pharmacy intern is required to show every purchaser of a Schedule V

product a copy of subsections (3) and (4) of this rule (sections relating to purchaser(s) of Schedule V drugs).

(3) No person shall obtain a Schedule V drug without a practitioner's prescription unless he/she complies with the following:

(a) The product must be purchased as a medicine for its indicated medical use only;

(b) The purchaser must sign the Schedule V register book with his/her true name and address and supply proof of identification.

(c) The purchaser cannot purchase more than 120 mls (four fluid ounces) of Schedule V cough preparations, nor more than 240 mls (eight fluid ounces) of Schedule V antidiarrheal preparations.

(4) In the absence of a practitioner's prescription, no pharmacist or pharmacy shall sell to any person, nor shall any person obtain, within a ninety-six hour period, more than the maximum quantity set forth in subsection (3)(c) of this rule. Further, no pharmacist or pharmacy shall sell to any person, nor shall any person obtain more than twice the maximum quantity set forth in (3)(c) above in any sixty-day period.

(5)(a) Every pharmacy handling Schedule V drugs must keep a Schedule V register book in which the following statement must appear at the top of each page: "I have not obtained any Schedule V preparations within the last ninety-six hours, nor obtained Schedule V preparations more than twice within the last sixty days. This is my true name and address." All sales of Schedule V preparations without a practitioner's prescription shall be recorded in the Schedule V register book and the following information must be recorded therein:

(i) Printed name of purchaser

(ii) Signature of purchaser

(iii) Address of purchaser

(iv) Name of the Schedule V preparation sold

(v) Quantity of Schedule V preparation sold

(vi) Date of sale

(vii) Initials or name of pharmacist or pharmacy intern who sold the Schedule V drug

(viii) Proof of identification: A unique identification number from a driver's license or from other state or federally issued photo identification card.

(b) All register books used to record the sale of Schedule V preparations shall conform to the following standards:

(i) The book shall be 8 1/2 inches wide, 11 inches long.

(ii) The book shall be securely bound, not loose leaf or spiral bound.

(iii) The book shall have its pages consecutively numbered with a unique number assigned to each book and identified on each page.

(iv) Each page shall consist of an original and duplicate. If any sales are recorded, the duplicate sheet must be mailed to the board of pharmacy when completed or on the last day of each month, whichever is earlier.

(3) All pharmacy records relating to Schedule V drugs shall be open to examination by state board of pharmacy investigators during normal business hours. The refusal to permit such examination shall constitute grounds for the suspension or revocation of the pharmacist's license.

[Statutory Authority: RCW 18.64.005 and chapter 18.64A RCW. 91-18-057 (Order 191B), recodified as § 246-887-030, filed 8/30/91, effective 9/30/91. Statutory Authority: RCW 18.64.005, 18.81.080 and 42.17.290. 83-01-083 (Order 171), § 360-36-020, filed 12/17/82. Statutory Authority: RCW 18.64.005 and 69.41.075. 82-19-022 (Order 169), § 360-36-020, filed 9/8/82; Order 108, § 360-36-020, filed 10/26/71.]

WAC 246-887-040 Designation of nonnarcotic stimulant drugs for purposes of RCW 69.50.402 (a)(3). The board of pharmacy hereby designates, the following Schedule II controlled substances as nonnarcotic stimulants for purposes of RCW 69.50.402 (a)(3):

(1) Amphetamine sulfate in any of its generic forms.

(2) Dextroamphetamine sulfate in any of its generic forms and under the following brand names:

(a) Dexedrine (SKF);

(b) Dexedrine spansules (SKF).

(3) Dextroamphetamine HCL in any of its generic forms.

(4) Dextroamphetamine tannate in any of its generic forms.

(5) Methamphetamine HCL (Desoxyephedrine HCL) in any of its generic forms and under the following brand name:

Desoxyn (Abbott).

(6) Amphetamine complex in any of its generic forms and under the following brand names:

(a) Biphetamine 12 1/2 (Pennwalt);

(b) Biphetamine 20 (Pennwalt).

(7) Combined amphetamines sold under the following brand names:

Obetrol-10 and 20 (Obetrol).

(8) Phenmetrazine HCL in any of its generic forms and under the following brand name:

(a) Preludin (Boehringer-Ingelheim).

(9) Methylphenidate HCL in any of its generic forms and under the following brand name:

(a) Ritalin (Ciba).

[Statutory Authority: RCW 18.64.005. 92-04-029 (Order 239B), § 246-887-040, filed 1/28/92, effective 2/29/92. Statutory Authority: RCW 18.64.005 and chapter 18.64A RCW. 91-18-057 (Order 191B), recodified as § 246-887-040, filed 8/30/91, effective 9/30/91. Statutory Authority: RCW 69.50.201. 79-08-069 (Order 148, Resolution No. 7-79), § 360-36-115, filed 7/24/79.]

WAC 246-887-050 Sodium pentobarbital for animal euthanasia. (1) Registration eligibility. Any humane society or animal control agency who designates a responsible individual under WAC 246-887-070 may apply to the Washington state board of pharmacy for a limited registration under chapter 69.50 RCW (Controlled Substances Act) to purchase, possess and administer sodium pentobarbital. The sodium pentobarbital will be used only to euthanize injured, sick, homeless or unwanted domestic pets and domestic or wild animals.

(2) Sodium pentobarbital restrictions. Sodium pentobarbital obtained under this limited registration shall be labeled "For veterinary use only." The board will make available a list of approved products.

(3) Sodium pentobarbital storage. The registered location supply of sodium pentobarbital shall be kept or stored in a safe or a substantial well-built double-locked drawer or cabinet.

(a) Registrants may designate only the following agents to possess and administer sodium pentobarbital at locations other than the registered location:

(i) Humane officer;

(ii) Animal control enforcement officer;

(iii) Animal control authority;

(iv) Peace officer authorized by police chief, sheriff or county commissioners.

(b) Specially designated agents of the registrant may possess a supply of sodium pentobarbital for emergency field use. Such emergency supply shall be stored in a locked metal box securely attached to the vehicle. The designated agent shall be responsible to insure that the sodium pentobarbital is present at the beginning and is present or accounted for at the end of each shift. A log book shall be kept in which all receipts and use of sodium pentobarbital from the emergency supply shall be recorded.

[Statutory Authority: Chapter 69.50 RCW and RCW 18.64.005. 92-12-035 (Order 277B), § 246-887-050, filed 5/28/92, effective 6/28/92. Statutory Authority: RCW 18.64.005 and chapter 18.64A RCW. 91-18-057 (Order 191B), recodified as § 246-887-050, filed 8/30/91, effective 9/30/91. Statutory Authority: RCW 69.50.201. 89-17-023 (Order 226), § 360-36-210, filed 8/8/89, effective 9/8/89; Order 138, § 360-36-210, filed 11/8/77.]

WAC 246-887-060 Sodium pentobarbital administration. All agencies registered under WAC 246-887-050 will establish written policies and procedures to insure that any of their agents or personnel which administer sodium pentobarbital for animal euthanasia have received sufficient training in its handling and administration, and have demonstrated adequate knowledge of the potentials and hazards, and proper techniques to be used in administering the drug. A copy of the written policies and procedures shall be filed with the board at the time of initial application for registration. The board shall be notified in writing of any individuals who have qualified to administer sodium pentobarbital or of any amendments or deletions to the policies and procedures.

[Statutory Authority: Chapter 69.50 RCW and RCW 18.64.005. 92-12-035 (Order 277B), § 246-887-060, filed 5/28/92, effective 6/28/92. Statutory Authority: RCW 18.64.005 and chapter 18.64A RCW. 91-18-057 (Order 191B), recodified as § 246-887-060, filed 8/30/91, effective 9/30/91. Statutory Authority: RCW 69.50.201. 89-17-023 (Order 226), § 360-36-250, filed 8/8/89, effective 9/8/89; Order 138, § 360-36-250, filed 11/8/77.]

WAC 246-887-070 Sodium pentobarbital records and reports. (1) Each agency or society registered in accordance with WAC 246-887-050 shall designate an individual as the registrant who shall be responsible for maintaining all records and submitting all reports required by applicable federal or state law or regulation, including chapter 246-887 WAC.

(2) This designated individual shall also be responsible for the ordering, possession, safe storage and utilization of the sodium pentobarbital.

[Statutory Authority: Chapter 69.50 RCW and RCW 18.64.005. 92-12-035 (Order 277B), § 246-887-070, filed 5/28/92, effective 6/28/92. Statutory Authority: RCW 18.64.005 and chapter 18.64A RCW. 91-18-057 (Order 191B), recodified as § 246-887-070, filed 8/30/91, effective 9/30/91. Statutory Authority: RCW 69.50.201. 89-17-023 (Order 226), § 360-36-260, filed 8/8/89, effective 9/8/89; Order 138, § 360-36-260, filed 11/8/77.]

WAC 246-887-080 Sodium pentobarbital registration disciplinary action. In addition to any criminal or civil liabilities that may occur, the board may deny, suspend, or revoke registration upon determination that (1) the registration was procured through fraud or misrepresentation, (2) the registrant or any agent or employee of the registrant has violated any of the federal or state laws related to drugs, or has violated any of the rules or regulations of the board of pharmacy.

[Statutory Authority: RCW 18.64.005 and chapter 18.64A RCW. 91-18-057 (Order 191B), recodified as § 246-887-080, filed 8/30/91, effective 9/30/91. Statutory Authority: RCW 69.50.201. 89-17-023 (Order 226), § 360-36-270, filed 8/8/89, effective 9/8/89; Order 138, § 360-36-270, filed 11/8/77.]

WAC 246-887-090 Authority to control. Pursuant to the authority granted to the board of pharmacy in RCW 69.50.201, the board has considered the following factors with regards to each of the substances listed in this chapter and in chapter 69.50 RCW:

(1) The actual or relative potential for abuse;

(2) The scientific evidence of its pharmacological effect, if known;

(3) The state of current scientific knowledge regarding the substance;

(4) The history and current pattern of abuse;

(5) The scope, duration, and significance of abuse;

(6) The risk to the public health;

(7) The potential of the substance to produce psychic or psychological dependence liability; and

(8) Whether the substance is an immediate precursor of a substance already controlled under the Uniform Controlled Substances Act (chapter 69.50 RCW).

[Statutory Authority: RCW 18.64.005 and chapter 18.64A RCW. 91-18-057 (Order 191B), recodified as § 246-887-090, filed 8/30/91, effective 9/30/91. Statutory Authority: RCW 69.50.201, 69.50.203, 69.50.205, 69.50.207, 69.50.209 and 69.50.211. 84-22-062 (Order 190), § 360-36-400, filed 11/7/84.]

WAC 246-887-100 Schedule I. The board finds that the following substances have high potential for abuse and have no accepted medical use in treatment in the United States or that they lack accepted safety for use in treatment under medical supervision. The board, therefore, places each of the following substances in Schedule I.

(a) The controlled substances listed in this section, by whatever official name, common or usual name, chemical name, or brand name, are included in Schedule I.

(b) Opiates. Unless specifically excepted or unless listed in another schedule, any of the following opiates, including their isomers, esters, ethers, salts, and salts of isomers, esters, and ethers, whenever the existence of these isomers, esters, ethers, and salts is possible within the specific chemical designation:

(1) Acetyl-alpha-methylfentanyl (N-[1-(1-methyl-2-phenethyl)-4-piperidinyl]-N-phenylacetamide);

(2) Acetylmethadol;

(3) Allylprodine;

(4) Alphacetylmethadol; [(except for levo-alphacetylmethadol - also known as levo-alpha-acetylmethadol, levomethadyl acetate or LAAM);]

(5) Alphameprodine;
(6) Alphamethadol;
(7) Alpha-methylfentanyl (N-[1-alpha-methyl-beta-phenyl) ethyl-4-piperidyl] propionanilide; 1-(1-methyl-2-phenylethyl)-4-(N-propanilido) piperidine);
(8) Benzethidine;
(9) Betacetylmethadol;
(10) Betameprodine;
(11) Betamethadol;
(12) Betaprodine;
(13) Clonitazene;
(14) Dextromoramide;
(15) Diampromide;
(16) Diethylthiambutene;
(17) Difenoxin;
(18) Dimenoxadol;
(19) Dimepheptanol;
(20) Dimethylthiambutene;
(21) Dioxaphetyl butyrate;
(22) Dipipanone;
(23) Ethylmethylthiambutene;
(24) Etonitazene;
(25) Etoxeridine;
(26) Furethidine;
(27) Gamma-hydroxybutyric Acid (other names include: GHB);
(28) Hydroxypethidine;
(29) Ketobemidone;
(30) Levomoramide;
(31) Levophenacylmorphan;
(32) 3-Methylfentanyl (N-[3-Methyl-1-(2-phenylethyl)-4-piperidyl)]-N-phenylpropanamide);
(33) Morpheridine;
(34) MPPP (1-Methyl-4-phenyl-4-propionoxypiperidine);
(35) Noracymethadol;
(36) Norlevorphanol;
(37) Normethadone;
(38) Norpipanone;
(39) PEPAP (1-(-2-phenethyl)-4-phenyl-4-acetoxypiperidine);
(40) Phenadoxone;
(41) Phenampromide;
(42) Phenomorphan;
(43) Phenoperidine;
(44) Piritramide;
(45) Proheptazine;
(46) Properidine;
(47) Propiram;
(48) Racemoramide;
(49) Tilidine;
(50) Trimeperidine.

(c) Opium derivatives. Unless specifically excepted or unless listed in another schedule, any of the following opium derivatives, their salts, isomers, and salts of isomers, whenever the existence of these salts, isomers, and salts of isomers is possible within the specific chemical designation:

(1) Acetorphine;
(2) Acetyldihydrocodeine;
(3) Benzylmorphine;
(4) Codeine methylbromide;
(5) Codeine-N-Oxide;
(6) Cyprenorphine;
(7) Desomorphine;
(8) Dihydromorphine;
(9) Drotebanol;
(10) Etorphine (except hydrochloride salt);
(11) Heroin;
(12) Hydromorphinol;
(13) Methyldesorphine;
(14) Methyldihydromorphine;
(15) Morphine methylbromide;
(16) Morphine methylsulfonate;
(17) Morphine-N-Oxide;
(18) Myrophine;
(19) Nicocodeine;
(20) Nicomorphine;
(21) Normorphine;
(22) Pholcodine;
(23) Thebacon.

(d) Hallucinogenic substances. Unless specifically excepted or unless listed in another schedule, any material, compound, mixture, or preparation which contains any quantity of the following hallucinogenic substances, or which contains any of its salts, isomers, and salts of isomers, whenever the existence of such salts, isomers, and salts of isomers is possible within the specific chemical designation (for purposes of paragraph (d) of this section, only, the term "isomer" includes the optical, position, and geometric isomers):

(1) 4-bromo-2,5-dimethoxy-amphetamine: Some trade or other names: 4-bromo-2,5-dimethoxy-a-methylphenethylamine; 4-bromo-2,5-DMA;

(2) 2,5-dimethoxyamphetamine: Some trade or other names: 2,5-dimethoxy-a-methylphenethylamine; 2,5-DMA;

(3) 2,5-dimethoxy-4-ethylamphetamine (DOET)

(4) 4-methoxyamphetamine: Some trade or other names: 4-methoxy-a-methylphenethylamine; paramethoxyamphetamine, PMA;

(5) 5-methoxy-3,4-methylenedioxy-amphetamine;

(6) 4-methyl-2,5-dimethoxy-amphetamine: Some trade and other names: 4-methyl-2,5-dimethoxy-a-methylphenethylamine; "DOM"; and "STP";

(7) 3,4-methylenedioxy amphetamine;

(8) 3,4-methylenedioxymethamphetamine (MDMA);

(9) 3,4,5-trimethoxy amphetamine;

(10) Bufotenine: Some trade or other names: 3-(beta-Dimethylaminoethyl)-5-hydroxindole; 3-(2-dimethylaminoethyl)-5-indolol; N, N-dimethylserotonin; 5-hydroxy-N,N-dimethyltryptamine; mappine;

(11) Diethyltryptamine: Some trade or other names: N,N-Diethyltryptamine; DET;

(12) Dimethyltryptamine: Some trade or other names: DMT;

(13) Ibogaine: Some trade or other names: 7-Ethyl-6,6 beta,7,8,9,10,12,13,-octahydro-2-methoxy-6,9methano-5H-pyndo (1',2':1,2) azepino (5,4-b) indole; Tabernanthe iboga;

(14) Lysergic acid diethylamide;

(15) Marihuana;

(16) Mescaline;

(17) Parahexyl-7374; some trade or other names: 3-Hexyl-1-hydroxy-7, 8, 9, 10-tetrahydro-6, 6, 9-trimethyl-6H-dibenzo[b,d]pyran; synhexyl;

(18) Peyote, meaning all parts of the plant presently classified botanically as Lophophora Williamsii Lemaire, whether growing or not, the seeds thereof, any extract from any part of such plant, and every compound, manufacture, salts, derivative, mixture, or preparation of such plant, its seeds, or extracts; (interprets 21 USC § 812 (c), Schedule I (c)(12))

(19) N-ethyl-3-piperidyl benzilate;

(20) N-methyl-3-piperidyl benzilate;

(21) Psilocybin;

(22) Psilocyn;

(23) Tetrahydrocannabinols, synthetic equivalents of the substances contained in the plant, or in the resinous extractives of Cannabis, sp., and/or synthetic substances, derivatives, and their isomers with similar chemical structure and pharmacological activity such as the following:

(i) Delta 1 - cis - or transtetrahydrocannabinol, and their optical isomers, excluding tetrahydrocannabinol in sesame oil and encapsulated in a soft gelatin capsule in a drug product approved by the United States Food and Drug Administration;

(ii) Delta 6 - cis - or transtetrahydrocannabinol, and their optical isomers;

(iii) Delta 3,4 - cis - or transtetrahydrocannabinol, and its optical isomers;

(Since nomenclature of these substances is not internationally standardized, compounds of these structures, regardless of numerical designation of atomic positions covered.)

(24) Ethylamine analog of phencyclidine: Some trade or other names: N-ethyl-1-phenylcyclohexylamine, (1-phenylcyclohexyl) ethylamine, N-(1-phenylcyclohexyl)ethylamine, cyclohexamine, PCE;

(25) Pyrrolidine analog of phencyclidine: Some trade or other names: 1-(1-phencyclohexyl)pyrrolidine; PCPy; PHP;

(26) Thiophene analog of phencyclidine: Some trade or other names: 1-(1-[2-thenyl]-cyclohexly)-pipendine; 2-thienylanalog of phencyclidine; TPCP; TCP;

(e) Depressants. Unless specifically excepted or unless listed in another schedule, any material, compound, mixture, or preparation which contains any quantity of the following substances having a depressant effect on the central nervous system, including its salts, isomers, and salts of isomers whenever the existence of such salts, isomers, and salts of isomers is possible within the specific chemical designation:

(i) Mecloqualone;

(ii) Methaqualone.

(f) Stimulants. Unless specifically excepted or unless listed in another schedule, any material, compound, mixture, or preparation which contains any quantity of the following substances having a stimulant effect on the central nervous system, including its salts, isomers, and salts of isomers:

(i) Cathinone (also known as 2-amino-1-phenyl-1-propanone, alpha-aminopropiophenone, 2-aminopropiophenone and norephedrone)

(ii) Fenethylline;

(iii) N-ethylamphetamine;

(iv) 4-methylaminorex;

(v) N,N-dimethylamphetamine.

[01-03-108, § 246-887-100, filed 1/22/01, effective 1/22/01. Statutory Authority: RCW 18.64.005. 94-08-098, § 246-887-100, filed 4/6/94, effective 5/7/94. Statutory Authority: RCW 18.65.005 and 18.64.005. 94-07-105, § 246-887-100, filed 3/18/94, effective 3/18/94. Statutory Authority: RCW 18.64.005. 92-04-029 (Order 239B), § 246-887-100, filed 1/28/92, effective 2/29/92. Statutory Authority: RCW 18.64.005 and chapter 18.64A RCW. 91-18-057 (Order 191B), recodified as § 246-887-100, filed 8/30/91, effective 9/30/91. Statutory Authority: RCW 69.50.201. 89-17-023 (Order 226), § 360-36-410, filed 8/8/89, effective 9/8/89; 86-16-057 (Order 200), § 360-36-410, filed 8/1/86. Statutory Authority: RCW 69.50.201, 69.50.203, 69.50.205, 69.50.207, 69.50.209 and 69.50.211. 84-22-062 (Order 190), § 360-36-410, filed 11/7/84.]

Reviser's note: The brackets and enclosed material in the text of the above section occurred in the copy filed by the agency.

Reviser's note: RCW 34.05.395 requires the use of underlining and deletion marks to indicate amendments to existing rules, and deems ineffectual changes not filed by the agency in this manner. The bracketed material in the above section does not appear to conform to the statutory requirement.

Reviser's note: Under RCW 34.05.030 (1)(c), as amended by section 103, chapter 288, Laws of 1988, the above section was not adopted under the Administrative Procedure Act, chapter 34.05 RCW, but was published in the Washington State Register and codified into the Washington Administrative Code exactly as shown by the agency filing with history notes added by the code reviser's office.

WAC 246-887-110 Adding MPPP to Schedule I. The Washington state board of pharmacy finds that 1-methyl-4-phenyl-4-propionoxypiperidine (MPPP) has high potential for abuse and has no medical use in treatment in the United States or lacks accepted safety for use in treatment under medical supervision, and hereby places that substance in Schedule I.

[Statutory Authority: RCW 18.64.005 and chapter 18.64A RCW. 91-18-057 (Order 191B), recodified as § 246-887-110, filed 8/30/91, effective 9/30/91. Statutory Authority: RCW 18.64.005 and 69.44.075 [69.41.075]. 85-18-091 (Order 196), § 360-36-411, filed 9/4/85.]

WAC 246-887-120 Adding PEPAP to Schedule I. The Washington state board of pharmacy finds that 1-(2-phenylethyl)-4-phenyl-4-acetyloxypiperidine (PEPAP) has high potential for abuse and has no medical use in treatment in the United States or lacks accepted safety for use in treatment under medical supervision, and hereby places that substance in Schedule I.

[Statutory Authority: RCW 18.64.005 and chapter 18.64A RCW. 91-18-057 (Order 191B), recodified as § 246-887-120, filed 8/30/91, effective 9/30/91. Statutory Authority: RCW 18.64.005 and 69.44.075 [69.41.075]. 85-18-091 (Order 196), § 360-36-412, filed 9/4/85.]

WAC 246-887-130 Adding MDMA to Schedule I. The Washington state board of pharmacy finds that 3,4-methylenedioxymethamphetamine (MDMA) has high potential for abuse and has no medical use in treatment in the United States or lacks accepted safety for use in treatment under medical supervision, and hereby places that substance in Schedule I.

[Statutory Authority: RCW 18.64.005 and chapter 18.64A RCW. 91-18-057 (Order 191B), recodified as § 246-887-130, filed 8/30/91, effective 9/30/91. Statutory Authority: RCW 18.64.005 and 69.44.075 [69.41.075]. 85-18-091 (Order 196), § 360-36-413, filed 9/4/85.]

WAC 246-887-131 Adding Methcathinone to Schedule I. The Washington state board of pharmacy finds that Methcathinone (also called 2-methylamino-1-phenylpropan-1-one, ephedrone, Monomethylpropion, UR 1431) its salts, optical isomers and salts of optical isomers has high potential for abuse and has no medical use in treatment in the United States or lacks accepted safety for use in treatment under medical supervision and hereby places that substance in Schedule I.

[Statutory Authority: RCW 18.64.005. 92-23-059 (Order 318B), § 246-887-131, filed 11/17/92, effective 12/18/92.]

WAC 246-887-132 Adding Aminorex to Schedule I. The Washington state board of pharmacy finds that Aminorex (also called aminoxaphen, 2-amino-5-phenyl-2-oxazoline or 4.5-dihydro-5-phenyl-2-oxazolamine) its salts, optical isomers and salts of optical isomers has high potential for abuse and has no medical use in treatment in the United States or lacks accepted safety for use in treatment under medical supervision and hereby places that substance in Schedule I.

[Statutory Authority: RCW 18.64.005. 93-14-037 (Order 375B), § 246-887-132, filed 6/29/93, effective 7/30/93.]

WAC 246-887-133 Adding Alpha-ethyltryptamine to Schedule I. The Washington state board of pharmacy finds that Alpha-ethyltryptamine has been classified as both a central nervous system stimulant and as a tryptamine hallucinogen. The DEA used its emergency scheduling authority to place this under Schedule I after finding that immediate CSA control was necessary to avoid an imminent hazard to public safety. The substance has been found by DEA in clandestine laboratories and on the illicit drug market. Therefore the Washington State Board of Pharmacy places Alpha-ethyltryptamine under control of Schedule I of the Controlled Substances Act.

[Statutory Authority: RCW 18.64.005. 94-08-098, § 246-887-133, filed 4/6/94, effective 5/7/94.]

WAC 246-887-140 Schedule II. The board finds that the following substances have a high potential for abuse and have currently accepted medical use in treatment in the United States, or currently accepted medical use with severe restrictions and that the abuse of the following substances may lead to severe psychic or psychological dependence. The board, therefore, places each of the following substances in Schedule II.

(a) The drugs and other substances listed in this section, by whatever official name, common or usual name, chemical name, or brand name designated, are included in Schedule II.

(b) Substances. (Vegetable origin or chemical synthesis.) Unless specifically excepted, any of the following substances, except those listed in other schedules, whether produced directly or indirectly by extraction from substances of vegetable origin, or independently by means of chemical synthesis, or by combination of extraction and chemical synthesis:

(1) Opium and opiate, and any salt, compound, derivative, or preparation of opium or opiate, excluding apomorphine, dextrorphan, nalbuphine, naloxone, and naltrexone, and their respective salts, but including the following:

(i) Raw opium;
(ii) Opium extracts;
(iii) Opium fluid;
(iv) Powdered opium;
(v) Granulated opium;
(vi) Tincture of opium;
(vii) Codeine;
(viii) Ethylmorphine;
(ix) Etorphine hydrochloride;
(x) Hydrocodone;
(xi) Hydromorphone;
(xii) Metopon;
(xiii) Morphine;
(xiv) Oxycodone;
(xv) Oxymorphone; and
(xvi) Thebaine.

(2) Any salt, compound, isomer, derivative, or preparation thereof which is chemically equivalent or identical with any of the substances referred to in paragraph (b)(1) of this section, but not including the isoquinoline alkaloids of opium.

(3) Opium poppy and poppy straw.

(4) Coca leaves and any salt, compound, derivative, or preparation of coca leaves, and any salt, compound, derivative, or preparation thereof which is chemically equivalent or identical with any of these substances, but not including decocainized coca leaves or extractions which do not contain cocaine or ecgonine.

(5) Methylbenzoylecgonine (cocaine—its salts, optical isomers, and salts of optical isomers).

(6) Concentrate of poppy straw (The crude extract of poppy straw in either liquid, solid, or powder form which contains the phenanthrine alkaloids of the opium poppy.)

(c) Opiates. Unless specifically excepted or unless in another schedule any of the following opiates, including its isomers, esters, ethers, salts, and salts of isomers, esters, and ethers whenever the existence of such isomers, esters, ethers, and salts is possible within the specific chemical designation, dextrorphan and levopropoxyphene excepted:

(1) Alfentanil;
(2) Alphaprodine;
(3) Anileridine;
(4) Bezitramide;
(5) Bulk dextropropoxyphene (nondosage forms);
(6) Carfentanil;
(7) Dihydrocodeine;
(8) Diphenoxylate;
(9) Fentanyl;
(10) Isomethadone;
(11) Levo-alphacetylmethadol - also known as levo-alpha-acetylmethadol, levomethadyl acetate or LAAM;
(12) Levomethorphan;
(13) Levorphanol;
(14) Metazocine;
(15) Methadone;
(16) Methadone—Intermediate, 4-cyano-2-dimethylamino-4,4-diphenyl butane;

(17) Moramide—Intermediate, 2-methyl-3-morpholino-1,1-diphenylpropane-carboxylic acid;

(18) Pethidine (meperidine);

(19) Pethidine—Intermediate—A,4-cyano-1-methyl-4-phenylpiperidine;

(20) Pethidine—Intermediate—B,ethyl-4-phenylpiperidine-4-carboxylate;

(21) Pethidine—Intermediate—C,1-methyl-4-phenylpiperidine-4-carboxylic acid;

(22) Phenazocine;

(23) Piminodine;

(24) Racemethorphan;

(25) Remifentanil;

(26) Racemorphan;

(27) Sufentanil.

(d) Stimulants. Unless specifically excepted or unless listed in another schedule, any material, compound, mixture, or preparation which contains any quantity of the following substances having a stimulant effect on the central nervous system:

(1) Amphetamine, its salts, optical isomers, and salts of its optical isomers;

(2) Methamphetamine, its salts, optical isomers, and salts of optical isomers;

(3) Phenmetrazine and its salts;

(4) Methylphenidate.

(e) Depressants. Unless specifically excepted or unless listed in another schedule, any material, compound, mixture, or preparation which contains any quantity of the following substances having a depressant effect on the central nervous system, including its salts, isomers, and salts of isomers whenever the existence of such salts, isomers, and salts of isomers is possible within the specific chemical designation:

(1) Amobarbital;

(2) Glutethimide;

(3) Pentobarbital;

(4) Phencyclidine;

(5) Secobarbital.

(f) Immediate precursors. Unless specifically excepted or unless listed in another schedule, any material, compound, mixture, or preparation which contains any quantity of the following substances:

(1) Immediate precursor to amphetamine and methamphetamine:

(2) Phenylacetone: Some trade or other names phenyl-2-propanone, P2P, benzyl methyl ketone, methyl benzyl ketone.

(3) Immediate precursors to phencyclidine (PCP):

(i) 1-phenylcyclohexylamine;

(ii) 1-piperidinocyclohexanecarbonitrile (PCC).

(g) Hallucinogenic substances.

(1) Nabilone. (Another name for nabilone: (±)-trans-3-(1,1-dimethylheptyl)-6,6a,7,8,10,10a-hexahydro-1-hydroxy-6,6-dimethyl-9H-dibenzo[b,d]pyran-9-one.)

[00-01-075, § 246-887-140, filed 12/13/99. 97-21-054, § 246-887-140, filed 10/13/97, effective 11/13/97. Statutory Authority: RCW 18.65.005 and 18.64.005. 94-07-105, § 246-887-140, filed 3/18/94, effective 3/18/94. Statutory Authority: RCW 18.64.005. 92-04-029 (Order 239B), § 246-887-140, filed 1/28/92, effective 2/29/92. Statutory Authority: RCW 18.64.005 and chapter 18.64A RCW. 91-18-057 (Order 191B), recodified as § 246-887-140, filed 8/30/91, effective 9/30/91. Statutory Authority: RCW 69.50.201. 89-17-023 (Order 226), § 360-36-420, filed 8/8/89, effective 9/8/89; 86-16-057 (Order 200), § 360-36-420, filed 8/1/86. Statutory Authority: RCW 69.50.201, 69.50.203, 69.50.205, 69.50.207, 69.50.209 and 69.50.211. 84-22-062 (Order 190), § 360-36-420, filed 11/7/84.]

Reviser's note: The brackets and enclosed material in the text of the above section occurred in the copy filed by the agency.

Reviser's note: Under RCW 69.50.201 (2)(e), the above section was **not** adopted under the Administrative Procedure Act, chapter 34.05 RCW, but was published in the Washington State Register and codified into the Washington Administrative Code exactly as shown by the agency filing with history notes added by the code reviser's office.

WAC 246-887-150 Schedule II immediate precursors. (1) The board finds and designates the following substances as being the principal compound used or produced primarily for use and which are an immediate chemical intermediary used or likely to be used, in the manufacture of a Schedule II controlled substance, the control of which is necessary to prevent, curtail or limit manufacture.

(2) Unless specifically excepted or listed in another schedule, any material, compound, mixture or preparation which contains any quantity of the following substances or their salts or isomers having potential for abuse associated with the preparation of controlled substances shall be a Schedule II controlled substance.

(a) Anthranilic acid.

(b) Ephedrine.

(c) Hydriodic acid.

(d) Methylamine.

(e) Phenylacetic acid.

(f) Pseudoephedrine.

(g) Methephedrine.

(h) Lead acetate.

(i) Methyl formamide.

Provided: That any drug or compound containing Ephedrine, or any of its salts or isomers, or Pseudoephedrine, or any of its salts or isomers that are prepared for dispensing or over-the-counter distribution and are in compliance with the Federal Food, Drug and Cosmetic Act and applicable regulations are not controlled substances for the purpose of this section: And Provided Further, That any cosmetic containing lead acetate that is distributed in compliance with the Federal Food, Drug and Cosmetic Act and applicable regulations are not controlled substances.

[Statutory Authority: RCW 18.65.005 and 18.64.005. 94-07-105, § 246-887-150, filed 3/18/94, effective 3/18/94. Statutory Authority: RCW 18.64.005 and chapter 18.64A RCW. 91-18-057 (Order 191B), recodified as § 246-887-150, filed 8/30/91, effective 9/30/91. Statutory Authority: RCW 18.64.005. 88-11-007 (Order 214), § 360-36-425, filed 5/9/88. Statutory Authority: RCW 18.64.005(11). 88-06-060 (Order 211), § 360-36-425, filed 3/2/88.]

WAC 246-887-160 Schedule III. The board finds that the following substances have a potential for abuse less than the substances listed in Schedules I and II, and have currently accepted medical use in treatment in the United States and that the abuse of the substances may lead to moderate or low physical dependency or high psychological dependency. The board, therefore, places each of the following substances in Schedule III.

(a) The drugs and other substances listed in this section, by whatever official name, common or usual name, chemical name, or brand name designated, are included in Schedule III.

(b) Stimulants. Unless specifically excepted or unless listed in another schedule, any material, compound, mixture, or preparation which contains any quantity of the following substances having a stimulant effect on the central nervous system, including its salts, isomers (whether optical, position, or geometric), and salts of such isomers whenever the existence of such salts, isomers, and salts of isomers is possible within the specific chemical designation:

(1) Those compounds, mixtures, or preparations in dosage unit form containing any stimulant substances listed in Schedule II which compounds, mixtures, or preparations are referred to as excepted compounds in Schedule III as published in 21 CFR 1308.13 (b)(1) as of April 1, 1984, and any other drug of the quantitative composition shown in that list for those drugs or which is the same except that it contains a lesser quantity of controlled substances;

(2) Benzphetamine;

(3) Chlorphentermine;

(4) Clortermine;

(5) Phendimetrazine.

(c) Depressants. Unless specifically excepted or unless listed in another schedule, any material, compound, mixture, or preparation which contains any quantity of the following substances having a depressant effect on the central nervous system:

(1) Any compound, mixture, or preparation containing:

(i) Amobarbital;

(ii) Secobarbital;

(iii) Pentobarbital;

or any salt thereof and one or more other active medicinal ingredients which are not listed in any schedule;

(2) Any suppository dosage form containing:

(i) Amobarbital;

(ii) Secobarbital;

(iii) Pentobarbital;

or any salt of any of these drugs and approved by the Food and Drug Administration for marketing only as a suppository;

(3) Any substance which contains any quantity of a derivative of barbituric acid, or any salt of a derivative of barbituric acid;

(4) Chlorhexadol;

(5) Ketamine, its salts, isomers, and salts of isomers—some other names for ketamine: (<plus-minus>)-2-(2-chlorophenyl)-2-(methylamino)-cyclohexanone;

(6) Lysergic acid;

(7) Lysergic acid amide;

(8) Methyprylon;

(9) Sulfondiethylmethane;

(10) Sulfonethylmethane;

(11) Sulfonmethane;

(12) Tiletamine and zolazepam or any salt thereof—some trade or other names for a tiletamine-zolazepam combination product: Telazol some trade or other names for tiletamine: 2-(ethylamino)-2-(2-thienyl) cyclohexanone—some trade or other names for zolazepam: 4-(2-fluorophenyl)-6,8-dihydro-1,3,8-trimethylpyrazolo-[3,4-e] [1,4] diazepin 7 (1H)-one flupyrazapon.

(d) Nalorphine.

(e) Anabolic steroids. The term "anabolic steroid" means any drug or hormonal substance, chemically and pharmacologically related to testosterone (other than estrogens, progestins, and corticosteroids) that promotes muscle growth, and includes:

(1) Boldenone;

(2) Chlorotestosterone;

(3) Clostebol;

(4) Dehydrochlormethyltestosterone;

(5) Dihydrotestosterone;

(6) Drostanolone;

(7) Ethylestrenol;

(8) Fluoxymesterone;

(9) Formebulone (Formebolone);

(10) Mesterolone;

(11) Methandienone;

(12) Methandranone;

(13) Methandriol;

(14) Methandrostenolone;

(15) Methenolone;

(16) Methyltestosterone;

(17) Mibolerone;

(18) Nandrolone;

(19) Norethandrolone;

(20) Oxandrolone;

(21) Oxymesterone;

(22) Oxymetholone;

(23) Stanolone;

(24) Stanozolol;

(25) Testolactone;

(26) Testosterone;

(27) Trenbolone; and

(28) Any salt, ester, or isomer of a drug or substance described or listed in this paragraph, if that salt, ester, or isomer promotes muscle growth. Except such term does not include an anabolic steroid which is expressly intended for administration through implants to cattle or other nonhuman species and which has been approved by the secretary of health and human services for such administration. If any person prescribes, dispenses, or distributes such steroid for human use such person shall be considered to have prescribed, dispensed, or distributed an anabolic steroid within the meaning of this paragraph.

The following are implants or pellets which are exempt:

Ingredients	Trade Name	Company
Testosterone Propionate, Oestradiol Benzoate	F-TO	Animal Health Div. Upjohn International Kalamazoo, MI
Trenbolone Acetate	Finaplix-H	Hoechst-Roussel Agri-Vet Co., Somerville, NJ
Trenbolone Acetate	Finaplix-S	Hoechst-Roussel Agri-Vet Co., Somerville, NJ
Testosterone Propionate, Estradiol Benzoate	Heifer-oid	Anchor Division Boehringer Ingelheim St. Joseph, MO
Testosterone Propionate, Estradiol Benzoate	Heifer-oid	Bio-Ceutic Division Boehringer Ingelheim St. Joseph, MO

Ingredients	Trade Name	Company
Testosterone Propionate, Estradiol Benzoate	Heifer-oid	Ivy Laboratories, Inc. Overland Park, KS
Testosterone Propionate, Estradiol Benzoate	Implus	The Upjohn Co. Kalamazoo, MI
Trenbolone Acetate, Estradiol	Revalor-s	Hoechst-Roussel Agri-Vet Co., Somerville, NJ
Testosterone Propionate, Estradiol Benzoate	Synovex H	Syntex Laboratories Palo Alto, CA

(f) The following anabolic steroid products containing compounds, mixtures, or preparations are exempt from the recordkeeping, refill restrictions, and other Controlled Substances Act requirements:

Ingredients	Trade Name	Company
Testosterone enanthate 90 mg/ml Estradiol valerate 4 mg/ml	Androgyn L.A.	Forest Pharmaceuticals St. Louis, MO
Testosterone enanthate 90 mg/ml Estradiol valerate 4 mg/ml	Andro-Estro 90-4	Rugby Laboratories Rockville Centre, NY
Testosterone cypionate 50 mg/ml Estradiol cypionate 2 mg/ml	depANDROGYN	Forest Pharmaceuticals St. Louis, MO
Testosterone cypionate 50 mg/ml Estradiol cypionate 2 mg/ml	DEPO-T.E.	Quality Research Laboratories Carmel, IN
Testosterone cypionate 50 mg/ml Estradiol cypionate 2 mg/ml	depTESTROGEN	Martica Pharmaceuticals Phoenix, AZ
Testosterone enanthate 90 mg/ml Estradiol valerate 4 mg/ml	Duomone	Wintec Pharmaceutical Pacific, MO
Testosterone cypionate 50 mg/ml Estradiol cypionate 2 mg/ml	DURATESTRIN	W.E. Hauck Alpharetta, GA
Testosterone cypionate 50 mg/ml Esterified cypionate 2 mg/ml	DUO-SPAN II	Primedics Laboratories Gardena, CA
Esterified estrogens 1.25 mg. Methyltestosterone 2.5 mg.	Estratest	Solvay Pharmaceuticals Marietta, GA
Esterified estrogens 0.525 mg. Methyltestosterone 1.25 mg.	Estratest HS	Solvay Pharmaceuticals Marietta, GA
Testosterone cypionate 50 mg/ml Estradiol cypionate 2 mg/ml	PAN ESTRA TEST	Pan American Labs Covington, LA
Conjugated estrogens 1.25 mg. Methyltestosterone 10 mg.	Premarin with Methyltestosterone	Ayerst Labs, Inc. New York, NY
Conjugated estrogens 0.625 mg. Methyltestosterone 5 mg.	Premarin with Methyltestosterone	Ayerst Labs, Inc. New York, NY
Testosterone propionate 25 mg Estradiol benzoate 2.5 mg	Synovex H Pellets in process	Syntex Animal Health Palo Alto, CA
Testosterone propionate 10 parts Estradiol benzoate 1 part	Synovex H Pellets in process, granulation	Syntex Animal Health Palo Alto, CA
Testosterone cypionate 50 mg/ml Estradiol cypionate 2 mg/ml	Testagen	Clint Pharmaceutical Nashville, TN
Testosterone cypionate 50 mg/ml Estradiol cypionate 2 mg/ml	TEST-ESTRO Cypionates	Rugby Laboratories Rockville Centre, NY
Testosterone cypionate 50 mg/ml Estradiol cypionate 2 mg/ml	Testosterone Cyp 50 Estradiol Cyp 2	I.D.E.-Interstate Amityville, NY
Testosterone cypionate 50 mg/ml Estradiol cypionate 2 mg/ml	Testosterone Cypionate-Estradiol Cypionate Injection	Best Generics No. Miami Beach, FL
Testosterone cypionate 50 mg/ml Estradiol cypionate 2 mg/ml	Testosterone Cypionate-Estradiol Cypionate Injection	Goldline Labs Ft. Lauderdale FL
Testosterone cypionate 50 mg/ml Estradiol cypionate 2 mg/ml	Testosterone Cypionate-Estradiol Cypionate Injection	Schein Pharmaceuticals Port Washington, NY
Testosterone cypionate 50 mg/ml Estradiol cypionate 2 mg/ml	Testosterone Cypionate-Estradiol Cypionate Injection	Steris Labs, Inc. Phoenix, AZ
Testosterone enanthate 90 mg/ml Estradiol valerate 4 mg/ml	Testosterone Enanth-ate-Estradiol Valer-ate Injection	Goldline Labs Ft. Lauderdale FL
Testosterone enanthate 90 mg/ml Estradiol valerate 4 mg/ml	Testosterone Enanthate-Estradiol Valerate Injection	Schein Pharmaceuticals Port Washington, NY
Testosterone enanthate 90 mg/ml Estradiol valerate 4 mg/ml	Testosterone Enanthate-Estradiol Valerate Injection	Steris Labs, Inc. Phoenix, AZ

(g) Narcotic drugs. Unless specifically excepted or unless listed in another schedule, any material, compound, mixture, or preparation containing limited quantities of any of the following narcotic drugs, or any salts thereof calculated as the free anhydrous base or alkaloid, in limited quantities as set forth in paragraph (e) of this section:

(1) Not more than 1.8 grams of codeine per 100 milliliters or not more than 90 milligrams per dosage unit, with an equal or greater quantity of an isoquinoline alkaloid of opium;

(2) Not more than 1.8 grams of codeine per 100 milliliters or not more than 90 milligrams per dosage unit, with one or more active, nonnarcotic ingredients in recognized therapeutic amounts;

(3) Not more than 300 milligrams of dihydrocodeinone per 100 milliliters or not more than 15 milligrams per dosage unit, with a fourfold or greater quantity of an isoquinoline alkaloid of opium;

(4) Not more than 300 milligrams of dihydrocodeinone per 100 milliliters or not more than 15 milligrams per dosage unit, with one or more active, nonnarcotic ingredients in recognized therapeutic amounts;

(5) Not more than 1.8 grams of dihydrocodeine per 100 milliliters or not more than 90 milligrams per dosage unit,

with one or more active, nonnarcotic ingredients in recognized therapeutic amounts;

(6) Not more than 300 milligrams of ethylmorphine per 100 milliliters or not more than 15 milligrams per dosage unit, with one or more active, nonnarcotic ingredients in recognized therapeutic amounts;

(7) Not more than 500 milligrams of opium per 100 milliliters or per 100 grams, or not more than 25 milligrams per dosage unit, with one or more active, nonnarcotic ingredients in recognized therapeutic amounts;

(8) Not more than 50 milligrams of morphine per 100 milliliters or per 100 grams with one or more active, nonnarcotic ingredients in recognized therapeutic amounts.

(h) Hallucinogenic substances.

(1) Dronabinol (synthetic) in sesame oil and encapsulated in a soft gelatin capsule in a United States Food and Drug Administration approved product. (Some other names for dronabinol [6aR-trans]-6a,7,8, 10a-tetrahydro-6,6,9-trimethyl-3-pentyl-6H-dibenzo[b,d] pyran-i-ol, or (-)-delta-9-(trans)-tetrahydrocannabinol.)

[Statutory Authority: RCW 69.50.201 and 18.64.005(7). 03-02-021, § 246-887-160, filed 12/23/02, effective 1/23/03; 00-10-113, § 246-887-160, filed 5/3/00. 00-01-075, § 246-887-160, filed 12/13/99. Statutory Authority: RCW 18.64.005. 96-01-032, § 246-887-160, filed 12/12/95, effective 1/12/96; 94-08-098, § 246-887-160, filed 4/6/94, effective 5/7/94. Statutory Authority: RCW 18.64.005. 93-14-038 (Order 376B), § 246-887-160, filed 6/29/93, effective 7/30/93; 93-06-093 (Order 343B), § 246-887-160, filed 3/3/93, effective 4/3/93; 92-04-029 (Order 239B), § 246-887-160, filed 1/28/92, effective 2/29/92. Statutory Authority: RCW 18.64.005 and chapter 18.64A RCW. 91-18-057 (Order 191B), recodified as § 246-887-160, filed 8/30/91, effective 9/30/91. Statutory Authority: RCW 69.50.201. 89-17-023 (Order 226), § 360-36-430, filed 8/8/89, effective 9/8/89. Statutory Authority: RCW 69.50.201, 69.50.203, 69.50.205, 69.50.207, 69.50.209 and 69.50.211. 84-22-062 (Order 190), § 360-36-430, filed 11/7/84.]

Reviser's note: The brackets and enclosed material in the text of the above section occurred in the copy filed by the agency.

Reviser's note: Under RCW 34.05.030 (1)(c), as amended by section 103, chapter 288, Laws of 1988, the above section was not adopted under the Administrative Procedure Act, chapter 34.05 RCW, but was published in the Washington State Register and codified into the Washington Administrative Code exactly as shown by the agency filing with history notes added by the code reviser's office.

WAC 246-887-170 Schedule IV. The board finds that the following substances have a low potential for abuse relative to substances in Schedule III and have currently accepted medical use in treatment in the United States and that the abuse of the substances may lead to limited physical dependence or psychological dependence relative to the substances in Schedule III. The board, therefore, places each of the following substances in Schedule IV.

(a) The drugs and other substances listed in this section, by whatever official name, common or usual name, chemical name, or brand name designated, are included in Schedule IV.

(b) Narcotic drugs. Unless specifically excepted or unless listed in another schedule, any material, compound, mixture, or preparation containing any of the following narcotic drugs, or their salts calculated as the free anhydrous base or alkaloid, in limited quantities as set forth below:

(1) Not more than 1 milligram of difenoxin and not less than 25 micrograms of atropine sulfate per dosage unit.

(2) Dextropropoxyphene (alpha-(+)-e-dimethylamino-1,2-diphenyl-3-methyl-2 propionoxybutane).

(c) Depressants. Unless specifically excepted or unless listed in another schedule, any material, compound, mixture, or preparation which contains any quantity of the following substances, including its salts, isomers, and salts of isomers whenever the existence of such salts, isomers, and salts of isomers is possible within the specific chemical designation:

(1) Alprazolam;
(2) Barbital;
(3) Bromazepam;
(4) Camazepam;
(5) Chloral betaine;
(6) Chloral hydrate;
(7) Chlordiazepoxide;
(8) Clobazam;
(9) Clonazepam;
(10) Clorazepate;
(11) Clotiazepam;
(12) Cloxazolam;
(13) Delorazepam;
(14) Diazepam;
(15) Estazolam;
(16) Ethchlorvynol;
(17) Ethinamate;
(18) Ethyl loflazepate;
(19) Fludiazepam;
(20) Flunitrazepam;
(21) Flurazepam;
(22) Halazepam;
(23) Haloxazolam;
(24) Ketazolam;
(25) Loprazolam;
(26) Lorazepam;
(27) Lormetazepam;
(28) Mebutamate;
(29) Medazepam;
(30) Meprobamate;
(31) Methohexital;
(32) Methylphenobarbital (mephobarbital);
(33) Midazolam;
(34) Nimetazepam;
(35) Nitrazepam;
(36) Nordiazepam;
(37) Oxazepam;
(38) Oxazolam;
(39) Paraldehyde;
(40) Petrichloral;
(41) Phenobarbital;
(42) Pinazepam;
(43) Prazepam;
(44) Quazepam;
(45) Temazepam;
(46) Tetrazepam;
(47) Triazolam.
(48) Zolpidem

(d) Fenfluramine. Any material, compound, mixture, or preparation which contains any quantity of the following substances, including its salts, isomers (whether optical, position

or geometric), and salts of such isomers, whenever the existence of such salts, isomers and salts of isomers is possible.

(e) Stimulants. Unless specifically excepted or unless listed in another schedule, any material, compound, mixture, or preparation which contains any quantity of the following substances having a stimulant effect on the central nervous system, including its salts, isomers (whether optical, position, or geometric), and salts of such isomers whenever the existence of such salts, isomers, and salts of isomers is possible within the specific chemical designation:

(1) Cathine ((+) - norpseudoephedrine);

(2) Diethylpropion;

(3) Fencamfamin;

(4) Fenproporex;

(5) Mazindol;

(6) Mefenorex;

(7) Pemoline (including organometallic complexes and chelates thereof);

(8) Phentermine;

(9) Pipradrol;

(10) SPA ((-)-1-dimethylamino-1, 2-dephenylethane.

(f) Other substances. Unless specifically excepted or unless listed in another schedule, any material, compound, mixture, or preparation which contains any quantity of the following substances, including its salts:

(1) Pentazocine;

(2) Butorphanol.

[98-02-084 § 246-887-170, filed 1/7/98, effective 1/7/98. Statutory Authority: RCW 18.64.005. 94-08-098, § 246-887-170, filed 4/6/94, effective 5/7/94; 92-04-029 (Order 239B), § 246-887-170, filed 1/28/92, effective 2/29/92. Statutory Authority: RCW 18.64.005 and chapter 18.64A RCW. 91-18-057 (Order 191B), recodified as § 246-887-170, filed 8/30/91, effective 9/30/91. Statutory Authority: RCW 69.50.201. 89-17-023 (Order 226), § 360-36-440, filed 8/8/89, effective 9/8/89. Statutory Authority: RCW 69.50.201, 69.50.203, 69.50.205, 69.50.207, 69.50.209 and 69.50.211. 84-22-062 (Order 190), § 360-36-440, filed 11/7/84.]

Reviser's note: Under RCW 69.50.221 (2)(e), the above section was **not** adopted under the Administrative Procedure Act, chapter 34.05 RCW, but was published in the Washington State Register and codified into the Washington Administrative Code exactly as shown by the agency filing with history notes added by the code reviser's office.

WAC 246-887-180 Schedule V. The board finds that the following substances have low potential for abuse relative to substances in Schedule IV and have currently accepted medical use in treatment in the United States and that the substances have limited physical dependence or psychological dependence liability relative to the substance in Schedule IV. The board, therefore, places each of the following substances in Schedule V.

(a) The drugs and other substances listed in this section, by whatever official name, common or usual name, chemical name, or brand name designated, are included in Schedule V.

(b) Narcotic drugs containing nonnarcotic active medicinal ingredients. Any compound, mixture, or preparation containing any of the following narcotic drugs, or their salts calculated as the free anhydrous base or alkaloid, in limited quantities as set forth in this section, which shall include one or more nonnarcotic active medicinal ingredients in sufficient proportion to confer upon the compound, mixture, or preparation, valuable medicinal qualities other than those possessed by the narcotic drug alone:

(1) Not more than 200 milligrams of codeine per 100 milliliters or per 100 grams;

(2) Not more than 100 milligrams of dihydrocodeine per 100 milliliters or per 100 grams;

(3) Not more than 100 milligrams of ethylmorphine per 100 milliliters or per 100 grams;

(4) Not more than 2.5 milligrams of diphenoxylate and not less than 25 micrograms of atropine sulfate per dosage unit;

(5) Not more than 100 milligrams of opium per 100 milliliters or per 100 grams;

(6) Not more than 0.5 milligrams of difenoxin and not less than 25 micrograms of atropine sulfate per dosage unit.

[Statutory Authority: RCW 18.64.005 and chapter 18.64A RCW. 91-18-057 (Order 191B), recodified as § 246-887-180, filed 8/30/91, effective 9/30/91. Statutory Authority: RCW 69.50.201, 69.50.203, 69.50.205, 69.50.207, 69.50.209 and 69.50.211. 84-22-062 (Order 190), § 360-36-450, filed 11/7/84.]

WAC 246-887-190 Adding buprenorphine to Schedule V. The Washington state board of pharmacy finds that buprenorphine has a low potential for abuse relative to substances in Schedule IV; has currently accepted medical use in treatment in the United States; and the substance has limited physical dependence or psychological dependence liability relative to the substances in Schedule IV, and hereby places that substance in Schedule V.

[Statutory Authority: RCW 18.64.005 and chapter 18.64A RCW. 91-18-057 (Order 191B), recodified as § 246-887-190, filed 8/30/91, effective 9/30/91. Statutory Authority: RCW 18.64.005 and 69.44.075 [69.41.075]. 85-18-091 (Order 196), § 360-36-451, filed 9/4/85.]

WAC 246-887-200 Other controlled substance registrants—Requirements. (1) All persons and firms, except persons exempt from registration, shall register with the board in order legally to possess or use controlled substances.

(2) Persons or firms which are not classified as pharmacies, wholesalers, manufacturers, or researchers shall be classified as other controlled substance registrants. Examples of persons or firms in this classification include analytical laboratories, dog handlers/trainers who use dogs for drug detection purposes, school laboratories and other agencies which have a legitimate need to use precursor chemicals as defined in WAC 246-887-150.

(3) The applicant for a controlled substance registration shall complete and return an application form supplied by the board. Either on the form or on an addendum, the applicant shall list the controlled substances to be used, the purpose for such use, and the names of the persons authorized to access the controlled substances.

(4) All controlled substances shall be stored in a substantially constructed locked cabinet. The registrant shall maintain records in sufficient detail in order to account for the receipt, use, and disposition of all controlled substances. An inventory of all controlled substances in the possession of the registrant shall be completed every two years on the anniversary of the issuances of the registration and shall be maintained for two years. Unwanted, outdated, or unusable controlled substances shall be returned to the source from which obtained or surrendered to the Federal Drug Enforcement Administration.

[Statutory Authority: Chapter 69.50 RCW and RCW 18.64.005. 92-12-035 (Order 277B), § 246-887-200, filed 5/28/92, effective 6/28/92. Statutory Authority: RCW 18.64.005 and chapter 18.64A RCW. 91-18-057 (Order 191B), recodified as § 246-887-200, filed 8/30/91, effective 9/30/91. Statutory Authority: RCW 69.50.201. 89-17-023 (Order 226), § 360-36-500, filed 8/8/89, effective 9/8/89.]

WAC 246-887-210 Standards for transmission of controlled substances sample distribution reports. These standards describe the format for transmission of data regarding distribution of controlled substance samples by manufacturers or distributors to licensed practitioners in the state of Washington.

(1) Each report shall contain the following information regarding the firm distributing controlled substance samples:

(a) Name of firm.

(b) DEA number of firm.

(c) Complete address of firm including zip code.

(d) Name and phone number of contact person.

(2) Each report shall contain the following information regarding the licensed practitioner to whom samples are distributed:

(a) First and last name of practitioner.

(b) DEA number of practitioner.

(c) Professional designation of practitioner. (E.g., MD, DO, DDS.)

(d) Complete address of practitioner including zip code.

(3) Each report shall contain the following information regarding the controlled substance(s) distributed:

(a) Name of controlled substance(s) distributed.

(b) Dosage units of controlled substance(s) distributed.

(c) Quantity distributed.

(d) Date distributed.

(4) Each report shall be submitted in alphabetical order by practitioner's last name.

(5) Each report shall be submitted quarterly.

[Statutory Authority: RCW 18.64.005. 92-09-071 (Order 265B), § 246-887-210, filed 4/14/92, effective 5/15/92.]

Chapter 246-888 WAC
MEDICATION ASSISTANCE

WAC

WAC 246-888-010 Purpose. The legislature recognizes that individuals residing in community-based settings or their own homes, may need assistance self-administering their medications, legend drugs and controlled substances, due to physical or mental limitations. The following rules provide guidance to the individual/resident and caregiver on medication assistance and administration.

[Statutory Authority: RCW 18.64.005 and 69.41.085. 00-01-123, § 246-888-010, filed 12/17/99, effective 1/17/00.]

WAC 246-888-020 What is self-administration with assistance and how is it different from independent self-administration or medication administration? Self-administration with assistance means assistance rendered by a nonpractitioner to an individual residing in a community-based setting or his/her own home. It includes reminding or coaching the individual to take their medication, handing the medication container to the individual, opening the medication container, using an enabler, or placing the medication in the hand of the individual/resident. The individual/resident must be able to put the medication into his or her mouth or apply or instill the medication. The individual/resident does not necessarily need to state the name of the medication, intended effects, side effects, or other details, but must be aware that he/she is receiving medications. The individual/resident retains the right to refuse medication. Assistance with the administration of intravenous and injectable medications are specifically excluded. Self-administration with assistance shall occur immediately prior to the ingestion or application of a medication.

Independent self-administration occurs when an individual/resident is independently able to directly apply a legend drug or controlled substance by ingestion, inhalation, injection or other means. In licensed boarding homes, self-administration may include situations in which an individual cannot physically self-administer medications but can accurately direct others per WAC 246-316-300. These regulations do not limit the rights of people with functional disabilities to self direct care according to chapter 74.39 RCW.

If an individual/resident is not able to physically ingest or apply a medication independently or with assistance, then the medication must be administered to the individual/resident by a person legally authorized to do so (e.g., physician, nurse, pharmacist). All laws and regulations applicable to medication administration apply. If an individual/resident cannot safely self-administer medication or self-administer with assistance and/or cannot indicate an awareness that he or she is taking a medication, then the medication must be administered to the individual/resident by a person legally authorized to do so.

[Statutory Authority: RCW 18.64.005 and 69.41.085. 00-01-123, § 246-888-020, filed 12/17/99, effective 1/17/00.]

WAC 246-888-030 How is self-administration with assistance initiated in a community based setting? An individual/resident or his or her representative from a community based setting may request self-administration with assistance. The practitioner consults with the individual or his or her representative and the facility in making the decision. A practitioner considers such factors as the physical and mental limitations of the individual and the setting or envi-

ronment in which the individual resides, for purposes of determining whether or not the individual can safely self-administer with assistance. Practitioners include: A physician, osteopathic physician, podiatric physician, dentist, licensed practical nurse, registered nurse, advanced registered nurse practitioner, and a pharmacist. Refer to chapter 69.41 RCW for a complete listing of authorized practitioners.

No additional separate assessment or documentation of the needs of the individual/resident are required in order to initiate self-administration with assistance. It is recommended that providers document their decision making process in the health record of the individual or resident health record.

[Statutory Authority: RCW 18.64.005 and 69.41.085. 00-01-123, § 246-888-030, filed 12/17/99, effective 1/17/00.]

WAC 246-888-040 What if there is a change in the individual's situation? If there is a change in the health status of the individual/resident, medications, physical or mental limitations, or environment, the practitioner may need to be re-involved in the process.

[Statutory Authority: RCW 18.64.005 and 69.41.085. 00-01-123, § 246-888-040, filed 12/17/99, effective 1/17/00.]

WAC 246-888-050 What is an enabler? Enablers are physical devices used to facilitate an individual's/resident's self-administration of a medication. Physical devices include, but are not limited to, a medicine cup, glass, cup, spoon, bowl, prefilled syringes, syringes used to measure liquids, specially adapted table surface, straw, piece of cloth or fabric.

An individual's hand may also be an enabler. The practice of "hand-over-hand" administration is not allowed. Medication administration with assistance includes steadying or guiding an individual's hand while he or she applies or instills medications such as ointments, eye, ear and nasal preparations.

[Statutory Authority: RCW 18.64.005 and 69.41.085. 00-01-123, § 246-888-050, filed 12/17/99, effective 1/17/00.]

WAC 246-888-060 How can medications be altered to assist with self-administration? Alteration of a medication for self-administration with assistance includes, but is not limited to, crushing tablets, cutting tablets in half, opening capsules, mixing powdered medications with foods or liquids, or mixing tablets or capsules with foods or liquids. Individuals/residents must be aware that the medication is being altered or added to their food.

[Statutory Authority: RCW 18.64.005 and 69.41.085. 00-01-123, § 246-888-060, filed 12/17/99, effective 1/17/00.]

WAC 246-888-070 Can all medications be altered to facilitate self-administration? A pharmacist or other practitioner practicing within their scope of practice must determine that it is safe to alter a medication. If the medication is altered, documentation of the appropriateness of the alteration must be on the prescription container, or in the individual's/resident's record.

[Statutory Authority: RCW 18.64.005 and 69.41.085. 00-01-123, § 246-888-070, filed 12/17/99, effective 1/17/00.]

WAC 246-888-080 What other type of assistance can a nonpractitioner provide? A nonpractitioner can transfer a medication from one container to another for the purpose of an individual dose. Examples include: Pouring a liquid medication from the medication container to a calibrated spoon or medication cup.

[Statutory Authority: RCW 18.64.005 and 69.41.085. 00-01-123, § 246-888-080, filed 12/17/99, effective 1/17/00.]

WAC 246-888-090 Is oxygen covered under this rule? Under state law, oxygen is not a medication and is not covered under this rule. While oxygen is not considered a medication under state law, oxygen does require an order/prescription from a practitioner.

[Statutory Authority: RCW 18.64.005 and 69.41.085. 00-01-123, § 246-888-090, filed 12/17/99, effective 1/17/00.]

WAC 246-888-100 If a individual/resident is able to administer his or her own oral medication through a gastrostomy or "g-tube," can a nonpractitioner provide assistance as outlined in these rules? If the prescription is written as an oral medication via "g-tube," and if a practitioner has determined that the medication can be altered, if necessary, for use via "g-tube," the rules as outlined for self-administration with assistance would also apply.

[Statutory Authority: RCW 18.64.005 and 69.41.085. 00-01-123, § 246-888-100, filed 12/17/99, effective 1/17/00.]

WAC 246-888-110 Are there any other requirements I need to be aware of? You should be familiar with the rules specifically regulating your residential setting. The department of social and health services has adopted rules relating to medication services in boarding homes and adult family homes.

[Statutory Authority: RCW 18.64.005 and 69.41.085. 00-01-123, § 246-888-110, filed 12/17/99, effective 1/17/00.]

Chapter 246-889 WAC
PHARMACEUTICAL—PRECURSOR SUBSTANCE CONTROL

WAC

WAC 246-889-020 Precursor substance defined. (1) For the purpose of this chapter a precursor substance is any of the following substances or their salts or isomers:

(a) Anthranilic acid;
(b) Barbituric acid;
(c) Chlorephedrine;
(d) Diethyl malonate;
(e) D-lysergic acid;
(f) Ephedrine;
(g) Ergotamine tartrate;
(h) Ethylamine;
(i) Ethyl malonate;
(j) Ethylephedrine;
(k) Gamma-butyrolactone (GBL);

(l) Hydriodic acid;
(m) Lead acetate;
(n) Malonic acid;
(o) Methylamine;
(p) Methylformamide;
(q) Methylephedrine;
(r) Methylpseudoephedrine;
(s) N-acetylanthranilic acid;
(t) Norpseudoephedrine;
(u) Phenylacetic acid;
(v) Phenylpropanolamine;
(w) Piperidine;
(x) Pseudoephedrine; and
(y) Pyrrolidine.

Provided; that this definition shall not include any drug that contains ephedrine, phenylpropanolamine, or pseudoephedrine or any cosmetic if that drug or cosmetic can be lawfully sold, transferred, or furnished over-the-counter without a prescription or by a prescription under chapter 69.04 or 69.41 RCW.

(2) The board finds that the reference to methylformanide in RCW 69.43.010, was intended to refer to methylformamide and corrects that reference by deleting "methylformanide" and adding "methylformamide." This change is based upon the finding that this revision conforms to the tests set forth in RCW 69.43.010(2).

(3) Registrants should be aware that precursor substances in subsection (1)(a), (f), (k), (l), (n), (o), (p), (t), and (w) of this section are also regulated as schedule II immediate precursors pursuant to WAC 246-887-150 and all applicable rules and laws governing the distribution of schedule II controlled substances must also be complied with.

[Statutory Authority: RCW 69.43.050, 18.64.005. 02-18-024, § 246-889-020, filed 8/23/02, effective 9/23/02. Statutory Authority: RCW 18.65.005 and 18.64.005. 94-07-105, § 246-889-020, filed 3/18/94, effective 3/18/94. Statutory Authority: RCW 69.43.050. 92-12-035 (Order 277B), § 246-889-020, filed 5/28/92, effective 6/28/92. Statutory Authority: RCW 18.64.005 and chapter 18.64A RCW. 91-18-057 (Order 191B), recodified as § 246-889-020, filed 8/30/91, effective 9/30/91. Statutory Authority: 1988 c 147 § 5. 88-14-096 (Order 218), § 360-38-010, filed 7/6/88.]

WAC 246-889-030 Reports of precursor receipt. (1) Any manufacturer, wholesaler, retailer, or any other person who receives from any source outside the state of Washington any precursor substance listed in WAC 246-889-020 shall submit a report of such transaction within fourteen days of the receipt of that substance.

(2) The report shall contain the following information:
(a) Name of substance;
(b) Quantity received;
(c) Date received;
(d) Name and address of firm or person receiving substance; and
(e) Name and address of the source selling, transferring, or furnishing the substance.

(3) The report shall be on a form approved by the board: Provided, That in lieu of an approved form the board will accept a copy of an invoice, packing list, or other shipping document which contains the information set forth in subsection (2) of this section. Under this option purchase price information appearing on the document can be deleted.

[Statutory Authority: RCW 69.43.050. 92-12-035 (Order 277B), § 246-889-030, filed 5/28/92, effective 6/28/92. Statutory Authority: RCW 18.64.005 and chapter 18.64A RCW. 91-18-057 (Order 191B), recodified as § 246-889-030, filed 8/30/91, effective 9/30/91. Statutory Authority: 1988 c 147 § 5. 88-14-096 (Order 218), § 360-38-020, filed 7/6/88.]

WAC 246-889-040 Monthly reporting option. (1) Permit holders who regularly transfer the same precursor substance to the same recipient can apply to the board for authorization to submit the report of said transactions on a monthly basis. Requests for monthly reporting authorization must be received at the board office at least thirty days prior to the board meeting at which the request will be considered. The board will review each request to determine if the requirements of RCW 69.43.010(5), are met and will notify the permit holder of its decision and the reporting format that will be authorized.

(2) Permit holders may also petition the board to accept the monthly report on a computer-generated basis. The report can be furnished in hard copy, on board-approved data storage methods or by computer interface with a board-operated computer. The permit holder will be responsible for the accuracy of the report and the prompt correction of any data entry or transmission errors.

(3) The authorization to use monthly reports or computer-generated monthly reports can be rescinded at the board's discretion and with thirty days notice.

[Statutory Authority: RCW 69.43.050. 92-12-035 (Order 277B), § 246-889-040, filed 5/28/92, effective 6/28/92. Statutory Authority: RCW 18.64.005 and chapter 18.64A RCW. 91-18-057 (Order 191B), recodified as § 246-889-040, filed 8/30/91, effective 9/30/91. Statutory Authority: 1988 c 147 § 5. 88-14-096 (Order 218), § 360-38-030, filed 7/6/88.]

Chapter 246-891 WAC
PHARMACY—PROPHYLACTICS

WAC

WAC 246-891-010 Definitions. (1) The following definitions shall be applicable to these rules.

(1) "Board" shall mean the Washington state board of pharmacy;

(2) "Condom" shall mean a prophylactic consisting of a very thin sheath designed to be placed over the penis to prevent conception or venereal disease during coitus, and is commonly made of rubber, parchment skins, plastic or similar materials;

(3) "Prophylactic" shall mean any device or medical preparation or compound which is or may be used, designed, intended or which has or may have special utility, for the prevention and/or treatment of venereal diseases;

(4) "Sell" and "sale" shall, in addition to their usual and ordinary meanings, include possession in violation of the intent of this chapter, exchange, give away or gift, or any disposal.

[Statutory Authority: RCW 18.64.005 and chapter 18.64A RCW. 91-18-057 (Order 191B), recodified as § 246-891-010, filed 8/30/91, effective 9/30/91. Statutory Authority: RCW 18.64.005 and 69.040.730 [69.04.730]. 85-06-010 (Order 193), § 360-40-010, filed 2/22/85. Statutory Authority: RCW

18.64.005, 18.81.080 and 42.17.290. 83-01-083 (Order 171), § 360-40-010, filed 12/17/82; Order 108, § 360-40-010, filed 10/26/71.]

WAC 246-891-020 Conditions for the sale of condoms. Condoms sold in this state must meet the following conditions:

(1) All condoms shall be individually sealed in plastic, foil or a comparable type seal to protect the product from deterioration due to exposure to air.

(2) The container in which the condom is sold to the purchaser shall bear the date of manufacture or shall bear an expiration date not more than five years after the date of manufacture. Condoms may not be sold in this state five years after the date of manufacture. Condoms bearing an expiration date may not be sold in this state after their expiration date. Condoms not bearing an expiration date may not be sold in this state more than five years after the date of manufacture.

(3) All consumer packages containing one or more individually wrapped condoms shall contain easily understood directions for use.

[Statutory Authority: RCW 18.64.005. 95-08-020, § 246-891-020, filed 3/27/95, effective 4/27/95. Statutory Authority: RCW 18.64.005 and chapter 18.64A RCW. 91-18-057 (Order 191B), recodified as § 246-891-020, filed 8/30/91, effective 9/30/91. Statutory Authority: RCW 18.64.005. 88-20-038 (Order 219), § 360-40-040, filed 9/30/88. Statutory Authority: RCW 18.64.005 and 69.040.730 [69.04.730]. 85-06-010 (Order 193), § 360-40-040, filed 2/22/85. Statutory Authority: RCW 18.64.005, 18.81.080 and 42.17.290. 83-01-083 (Order 171), § 360-40-040, filed 12/17/82.]

WAC 246-891-030 Condom standards. All condoms shall meet the following standards:

(1) Latex rubber condoms shall comply with applicable United States Food and Drug Administration requirements current at the time of manufacture.

(2) Condoms made from materials other than rubber shall conform to applicable United States Food and Drug Administration requirements current at the time of manufacture.

[Statutory Authority: RCW 18.64.005. 95-08-020, § 246-891-030, filed 3/27/95, effective 4/27/95. Statutory Authority: RCW 18.64.005 and chapter 18.64A RCW. 91-18-057 (Order 191B), recodified as § 246-891-030, filed 8/30/91, effective 9/30/91. Statutory Authority: RCW 18.64.005 and 69.040.730 [69.04.730]. 85-06-010 (Order 193), § 360-40-070, filed 2/22/85. Statutory Authority: RCW 18.64.005, 18.81.080 and 42.17.290. 83-01-083 (Order 171), § 360-40-070, filed 12/17/82.]

Chapter 246-895 WAC
PHARMACY—GOOD MANUFACTURING PRACTICE FOR FINISHED PHARMACEUTICALS

WAC

WAC 246-895-010 Definitions. (1) As used in these regulations, "act" means the Uniform Food, Drug and Cosmetic Act, chapter 69.04 RCW.

(2) The definitions and interpretations contained in the act shall be applicable to such terms used in these regulations.

(3) As used in these regulations:

(a) The term "component" means any ingredient intended for use in the manufacture of a drug product, including those that may not appear in the finished product.

(b) The term "drug product" means a finished dosage form (e.g., tablet, capsule, solution) that contains an active drug ingredient generally, but not necessarily, in association with inactive ingredients. The term also includes a finished dosage form that does not contain an active ingredient but is intended to be used as a placebo.

(c) The term "active ingredient" means any component that is intended to furnish pharmacological activity or other direct effect in the diagnosis, cure, mitigation, treatment, or prevention of disease, or to affect the structure or any function of the body of humans or other animals. The term includes those components that may undergo chemical change in the manufacture of the drug product and be present in that drug product in a modified form intended to furnish the specified activity or effect.

(d) The term "inactive ingredient" means any component other than an "active ingredient" present in a drug product.

(e) The term "batch" means a specific quantity of a drug or other material that has uniform character and quality, within specified limits, and is produced according to a single manufacturing order during the same cycle of manufacture.

(f) The term "lot" means a batch or a specific identified portion of a batch having uniform character and quality within specified limits; or, in the case of a drug product produced by continuous process, it is a specific identified amount produced in a unit of time or quantity in a manner that assures its having uniform character and quality within specified limits.

(g) The terms "lot number," "control number," or "batch number" mean any distinctive combination of letters, numbers, or symbols, or any combination of them, from which the complete history of the manufacture, processing, packing, holding, and distribution of a batch or lot of drug product or other material can be determined.

(h) The term "quality control unit" means any person or organizational element having the authority and responsibility to approve or reject components, in-process materials, packaging components, and final products.

(i) The term "strength" means:

(i) The concentration of the drug product (for example, w/w, w/v, or unit dose/volume basis); and/or

(ii) The potency, that is, the therapeutic activity of the drug product as indicated by appropriate laboratory tests or by adequately developed and controlled clinical data (expressed, for example, in terms of units by reference to a standard).

(j) The term "fiber" means any particulate contaminant with a length at least three times greater than its width.

(k) The term "nonfiber-releasing filter" means any filter, which after any appropriate pretreatment such as washing or flushing, will not release fibers into the component or drug product that is being filtered. All filters composed of asbestos are deemed to be fiber-releasing filters.

(l) The term "manufacture" means the production, preparation, propagation, compounding, or processing of a drug or other substance or device or the packaging or repackaging of such substance or device, or the labeling or relabeling of the commercial container of such substance or device, but does not include the activities of a practitioner who, as an incident to his or her administration or dispensing such substance or device in the course of his or her professional practice, prepares, compounds, packages or labels such substance or device.

[Statutory Authority: RCW 18.64.005 and chapter 18.64A RCW. 91-18-057 (Order 191B), recodified as § 246-895-010, filed 8/30/91, effective 9/30/91. Statutory Authority: RCW 18.64.005. 88-21-025 (Order 220), § 360-46-010, filed 10/10/88; Order 133, § 360-46-010, filed 8/4/77.]

WAC 246-895-020 Finished pharmaceuticals—Manufacturing practice. (1) The criteria in WAC 246-895-040 through 246-895-160, inclusive, shall apply in determining whether the methods used in, or the facilities or controls used for, the manufacture, processing, packing, or holding of a drug conform to or are operated or administered in conformity with current good manufacturing practice to assure that a drug meets the requirements of the act as to safety and has the identity and strength and meets the quality and purity characteristics which it purports or is represented to possess as required by the act.

(2) The regulations in this chapter permit the use of precision automatic, mechanical, or electronic equipment in the production and control of drugs when written inspection and checking policies and procedures are used to assure proper performance.

[Statutory Authority: RCW 18.64.005. 92-12-035 (Order 277B), § 246-895-020, filed 5/28/92, effective 6/28/92. Statutory Authority: RCW 18.64.005 and chapter 18.64A RCW. 91-18-057 (Order 191B), recodified as § 246-895-020, filed 8/30/91, effective 9/30/91. Statutory Authority: RCW 18.64.005. 88-21-025 (Order 220), § 360-46-020, filed 10/10/88; Order 133, § 360-46-020, filed 8/4/77.]

WAC 246-895-030 Personnel. (1) The personnel responsible for directing the manufacture and control of the drug shall be adequate in number and background of education, training, and experience, or combination thereof, to assure that the drug has the safety, identity, strength, quality, and purity that it purports to possess. All personnel shall have capabilities commensurate with their assigned functions, a thorough understanding of the manufacturing or control operations they perform, the necessary training or experience, and adequate information concerning the reason for application of pertinent provisions of this part to their respective functions.

(2) Any person shown at any time (either by medical examination or supervisory observation) to have an apparent illness or open lesions that may adversely affect the safety or quality of drugs shall be excluded from direct contact with components, drug product containers, closures, in-process materials, and drug products until the condition is corrected or determined by competent medical personnel not to jeopardize the safety or quality of drug products. All employees shall be instructed to report to supervisory personnel any conditions that may have such an adverse effect on drug products.

[Statutory Authority: RCW 18.64.005 and chapter 18.64A RCW. 91-18-057 (Order 191B), recodified as § 246-895-030, filed 8/30/91, effective 9/30/91. Statutory Authority: RCW 18.64.005. 88-21-025 (Order 220), § 360-46-030, filed 10/10/88; Order 133, § 360-46-030, filed 8/4/77.]

WAC 246-895-040 Buildings or facilities. Buildings shall be maintained in a clean and orderly manner and shall be of suitable size, construction, and location to facilitate adequate cleaning, maintenance, and proper operations in the manufacturing, processing, packing, repacking, labeling, or holding of a drug. The buildings shall:

(1) Provide adequate space for:

(a) Orderly placement of equipment and materials to minimize any risk of mixups between different drugs, drug components, drug products, in-process materials, packaging materials, or labeling, and to minimize the possibility of contamination.

(b) The receipt, storage, and withholding from use of components pending sampling, identification, and testing prior to release by the quality control unit for manufacturing or packaging.

(c) The holding of rejected components prior to disposition to preclude the possibility of their use in manufacturing or packaging procedures for which they are unsuitable.

(d) The storage of components, containers, packaging materials, and labeling.

(e) Any manufacturing and processing operations performed.

(f) Any packaging or labeling operations.

(g) Storage of finished products.

(h) Control and production-laboratory operations.

(2) Provide adequate lighting, ventilation, and screening and, when necessary for the intended production or control purposes, provide facilities for adequate air-pressure, microbiological, dust humidity, and temperature controls to:

(a) Minimize contamination of products by extraneous adulterants, including cross-contamination of one product by dust or particles of ingredients arising from the manufacture, storage, or handling of another product.

(b) Minimize dissemination of micro-organisms from one area to another.

(c) Provide suitable storage conditions for drug components, in-process materials, and finished drugs in conformance with stability information as derived under WAC 246-895-110.

(3) Provide adequate locker facilities and hot and cold water washing facilities, including soap or detergent, air drier or single service towels, and clean toilet facilities near working areas.

(4) Provide an adequate supply of potable water under continuous positive pressure in a plumbing system free of defects that could cause or contribute to contamination of any drug. Drains shall be of adequate size and, where connected directly to a sewer, shall be equipped with traps to prevent back-siphonage.

(5) Provide suitable housing and space for the care of all laboratory animals.

(6) Provide for safe and sanitary disposal of sewage, trash, and other refuse within and from the buildings and immediate premises.

(7) Be maintained in a clean, orderly, and sanitary condition. There shall be written procedures assigning responsibility for sanitation and describing the cleaning schedule and methods.

[Statutory Authority: RCW 18.64.005. 92-12-035 (Order 277B), § 246-895-040, filed 5/28/92, effective 6/28/92. Statutory Authority: RCW 18.64.005 and chapter 18.64A RCW. 91-18-057 (Order 191B), recodified as § 246-895-040, filed 8/30/91, effective 9/30/91. Statutory Authority: RCW 18.64.005. 88-21-025 (Order 220), § 360-46-040, filed 10/10/88; Order 133, § 360-46-040, filed 8/4/77.]

WAC 246-895-050 Equipment. Equipment used for the manufacture, processing, packing, labeling, holding, testing, or control of drugs shall be maintained in a clean and orderly manner and shall be of suitable design, size, construction, and location to facilitate cleaning, maintenance, and operation for its intended purpose. The equipment shall:

(1) Be so constructed that all surfaces that come into contact with a drug component, in-process material, or drug product shall not be reactive, additive, or absorptive so as to alter the safety, identity, strength, quality, or purity of the drug product beyond the official or other established requirements.

(2) Be so constructed that any substances required for operation of the equipment, such as lubricants or coolants, do not contact drug products so as to alter the safety, identity, strength, quality, or purity of the drug or its components beyond the official or other established requirements.

(3) Be constructed and installed to facilitate adjustment, disassembly cleaning and maintenance to assure the reliability of control procedures, uniformity of production and exclusion from the drugs of contaminants from previous and current operations that might affect the safety, identity, strength, quality, or purity of the drug or its components beyond the official or other established requirements.

(4) Be of suitable type, size and accuracy for any testing, measuring, mixing, weighing, or other processing or storage operations.

[Statutory Authority: RCW 18.64.005 and chapter 18.64A RCW. 91-18-057 (Order 191B), recodified as § 246-895-050, filed 8/30/91, effective 9/30/91. Statutory Authority: RCW 18.64.005. 88-21-025 (Order 220), § 360-46-050, filed 10/10/88; Order 133, § 360-46-050, filed 8/4/77.]

WAC 246-895-060 Production and control procedures. Production and control procedures shall include all reasonable precautions, including the following, to assure that the drugs produced have the safety, identity, strength, quality, and purity they purport to possess:

(1) Each significant step in the process, such as the selection, weighing, and measuring of components, the addition of ingredients during the process, weighing and measuring during various stages of the processing, and the determination of the finished yield, shall be performed by a competent and responsible individual and checked by a second competent and responsible individual; or if such steps in the processing are controlled by precision automatic, mechanical, or electronic equipment, their proper performance is adequately checked by one or more competent individuals. The written record of the significant steps in the process shall be identified by the individual performing these tests and by the individual charged with checking these steps. Such identifications shall be recorded immediately following the completion of such steps.

(2) All containers, lines, and equipment used during the production of a batch of a drug shall be properly identified at all times to accurately and completely indicate their contents, including batch number, and, when necessary, the stage of processing of the batch.

(3) To minimize contamination and prevent mixups, equipment, utensils, and containers shall be thoroughly and appropriately cleaned and properly stored and have previous batch identification removed or obliterated between batches or at suitable intervals in continuous production operations.

(4) Appropriate written procedures, designed to prevent objectionable microorganisms in drug products not requiring to be sterile, shall be established and followed.

(5) Appropriate written procedures, designed to prevent microbiological contamination of drug products purporting to be sterile, shall be established and followed. Such procedures shall include validation of any sterilization process.

(6) Appropriate procedures shall be established to minimize the hazard of cross-contamination of any drugs while being manufactured or stored.

(7) To assure the uniformity and integrity of products, there shall be adequate in-process controls, such as checking the weights and disintegration times of tablets, the adequacy of mixing, the homogeneity of suspensions, and the clarity of solutions. In-process sampling shall be done at appropriate intervals using suitable equipment.

(8) Representative samples of all dosage form drugs shall be tested to determine their conformance with the specifications for the product before distribution.

(9) Procedures shall be instituted whereby review and approval of all production and control records, including packaging and labeling, shall be made prior to the release or distribution of a batch. A thorough investigation of any unexplained discrepancy or the failure of a batch to meet any of its specifications shall be undertaken whether or not the batch has already been distributed. This investigation shall be undertaken by a competent and responsible individual and shall extend to other batches of the same drug and other drugs that may have been associated with the specific failure. A written record of the investigation shall be made and shall include the conclusions and followup.

(10) Returned goods shall be identified as such and held. If the conditions under which returned goods have been held, stored, or shipped prior to or during their return, or the condition of the product, its container, carton, or labeling as a result of storage or shipping, cast doubt on the safety, identity, strength, quality, or purity of the drug product, the returned goods shall be destroyed or subjected to adequate examination or testing to assure that the material meets all appropriate standards or specifications before being returned to stock for warehouse distribution or repacking. If the product is neither destroyed nor returned to stock, it may be reprocessed provided the final product meets all its standards and specifica-

tions. Records of returned goods shall be maintained and shall indicate the quantity returned, date, and actual disposition of the product. If the reason for returned goods implicates associated batches, an appropriate investigation shall be made in accordance with the requirements of subsection (9) of this section.

(11) Filters used in the manufacture, processing, or packaging of components of drug products for parenteral injection in humans shall not release fibers into such products. No asbestos-containing or other fiber-releasing filter may be used in the manufacture, processing, or packaging of such products. Filtration, as needed, shall be through a non-fiber-releasing filter.

(12) Appropriate procedures shall be established to destroy beyond recognition and retrievability any and all components or drug products that are to be discarded or destroyed for any reason.

[Statutory Authority: RCW 18.64.005 and chapter 18.64A RCW. 91-18-057 (Order 191B), recodified as § 246-895-060, filed 8/30/91, effective 9/30/91. Statutory Authority: RCW 18.64.005. 88-21-025 (Order 220), § 360-46-060, filed 10/10/88; Order 133, § 360-46-060, filed 8/4/77.]

WAC 246-895-070 Components. All components and other materials used in the manufacture, processing, and packaging of drug products, and materials necessary for building and equipment maintenance, upon receipt shall be stored and handled in a safe, sanitary, and orderly manner. Adequate measures shall be taken to prevent mixups and cross-contamination affecting drugs and drug products. Components shall be withheld from use until they have been identified, sampled, and tested for conformance with established specifications and are released by a quality control unit. Control of components shall include the following:

(1) Each container of component shall be examined visually for damage or contamination prior to use, including examination for breakage of seals when indicated.

(2) An adequate number of samples shall be taken from a representative number of component containers from each lot and shall be subjected to one or more tests to establish the specific identity.

(3) Sample containers shall be identified so that the following information can be determined: Name of the material sampled, the lot number, the container from which the sample was taken, and the name of the person who collected the sample.

(4) Containers from which samples have been taken shall be marked to show that samples have been removed from them.

(5) Representative samples of components liable to contamination with filth, insect infestation, or other extraneous contaminants shall be appropriately examined.

(6) Representative samples of all components intended for use as active ingredients shall be tested to determine their strength in order to assure conformance with appropriate specifications.

(7) Representative samples of components liable to microbiological contamination shall be subjected to microbiological tests prior to use. Such components shall not contain microorganisms that are objectionable in view of their intended use.

(8) Approved components shall be appropriately identified and retested as necessary to assure that they conform to appropriate specifications of identity, strength, quality, and purity at time of use. This requires the following:

(a) Approved components shall be handled and stored to guard against contaminating or being contaminated by other drugs or components.

(b) Approved components shall be rotated in such a manner that the oldest stock is used first.

(c) Rejected components shall be identified and held to preclude their use in manufacturing or processing procedures for which they are unsuitable.

(9) Appropriate records shall be maintained, including the following:

(a) The identity and quantity of the component, the name of the supplier, the supplier's lot number, and the date of receipt.

(b) Examinations and tests performed and rejected components and their disposition.

(c) An individual inventory and record for each component used in each batch of drug manufactured or processed.

(10) An appropriately identified reserve sample of all active ingredients consisting of at least twice the quantity necessary for all required tests, except those for sterility and determination of the presence of pyrogens, shall be retained for at least two years after distribution of the last drug lot incorporating the component has been completed or one year after the expiration date of this last drug lot, whichever is longer.

[Statutory Authority: RCW 18.64.005 and chapter 18.64A RCW. 91-18-057 (Order 191B), recodified as § 246-895-070, filed 8/30/91, effective 9/30/91. Statutory Authority: RCW 18.64.005. 88-21-025 (Order 220), § 360-46-070, filed 10/10/88; Order 133, § 360-46-070, filed 8/4/77.]

WAC 246-895-080 Component and drug product containers and closures. (1) Component and drug product containers and closures shall:

(a) Not be reactive, additive, or absorptive so as to alter the safety, identity, strength, quantity, or purity of the product or its components beyond the official or established requirements;

(b) Provide adequate protection against foreseeable external factors in storage and use that can cause deterioration or contamination of the drug product; and

(c) Be clean and, where indicated by the nature of the drug, sterilized and processed to remove pyrogenic properties to assure that they are suitable for their intended use.

Containers and their components for parenterals shall be cleansed with water which has been filtered through a nonfiber-releasing filter.

(2) Standards or specifications, methods of testing, and, where indicated, processing to remove pyrogenic properties shall be written and followed for component and drug product containers and closures.

(3) Except as provided for in WAC 246-895-090, drug product containers and closures shall not be reused for component or drug product packaging.

[Statutory Authority: RCW 18.64.005. 92-12-035 (Order 277B), § 246-895-080, filed 5/28/92, effective 6/28/92. Statutory Authority: RCW 18.64.005 and chapter 18.64A RCW. 91-18-057 (Order 191B), recodified as § 246-

895-080, filed 8/30/91, effective 9/30/91. Statutory Authority: RCW 18.64.005(11). 88-01-025 (Order 208), § 360-46-081, filed 12/9/87.]

WAC 246-895-090 Reuse of teat dip containers and closures. The reuse of teat dip containers and closures shall be allowed under the following circumstances:

(1) Teat dip containers for reuse must have attached a labelling panel bearing product name, brand name and distributor address if marketed by other than the manufacturer, manufacturer name and address, product strength, quantity, expiration date, directions for use, and appropriate cautionary statements for the product contained within.

(2) All reusable teat dip containers will be hot stamped for permanent identification as teat dip containers. The hot stamp shall imprint on the plastic container, in an immutable manner, the words "teat dip only" and the manufacturer's name. Teat dip manufacturers may only refill containers bearing their company name.

(3) With cooperation from dairy producers, dairy sanitarians will take random samples of teat dip in reusable containers while on regular farm inspections. The samples, along with appropriate label information, will be forwarded to the board of pharmacy for analysis to insure that the product meets label specifications and is free of contamination.

(4) Reusable teat dip containers shall not be reactive, additive, or absorptive so as to alter the safety, identity, strength, quantity, or purity of the product.

(5) Upon return to the manufacturer, reusable teat dip containers shall be cleaned and sanitized. To insure adequate cleaning occurs, the board of pharmacy may require a manufacturer to submit and have approved a cleaning procedure. Containers showing structural damage, or any signs of being used for substances or materials other than teat dip shall not be reused as teat dip containers.

[Statutory Authority: RCW 18.64.005 and chapter 18.64A RCW. 91-18-057 (Order 191B), recodified as § 246-895-090, filed 8/30/91, effective 9/30/91. Statutory Authority: RCW 18.64.005(11). 88-01-025 (Order 208), § 360-46-082, filed 12/9/87.]

WAC 246-895-100 Laboratory controls. Laboratory controls shall include the establishment of scientifically sound and appropriate written specifications, standards, and test procedures to assure that components, in-processed drugs, and finished products conform to appropriate standards of identity, strength, quality and purity. Laboratory controls shall include:

(1) The establishment of master records containing appropriate specifications for the acceptance of each lot of drug components, product containers, and their components used in drug production and packaging and a description of the sampling and testing procedures used for them. Said samples shall be representative and adequately identified. Such records shall also provide for appropriate retesting of drug components, product containers, and their components subject to deterioration.

(2) A reserve sample of all active ingredients as required by WAC 246-895-070.

(3) The establishment of master records, when needed, containing specifications and a description of sampling and testing procedures for in-process drug preparations. Such samples shall be adequately representative and properly identified.

(4) The establishment of master records containing a description of sampling procedures and appropriate specifications for finished drug products. Such samples shall be adequately representative and properly identified.

(5) Adequate provisions for checking the identity and strength of drug products for all active ingredients and for assuring:

(a) Sterility of drugs purported to be sterile and freedom from objectionable microorganisms for those drugs which should be so by virtue of their intended use.

(b) The absence of pyrogens for those drugs purporting to be pyrogen-free.

(c) Minimal contamination of ophthalmic ointments by foreign particles and harsh or abrasive substances.

(d) That the drug release pattern of sustained release products is tested by laboratory methods to assure conformance to the release specifications.

(6) Adequate provision for auditing the reliability, accuracy, precision, and performance of laboratory test procedures and laboratory instruments used.

(7) A properly identified reserve sample of the finished product (stored in the same immediate container-closure system in which the drug is marketed) consisting of at least twice the quantity necessary to perform all the required tests, except those for sterility and determination of the absence of pyrogens, and stored under conditions consistent with product labeling shall be retained for at least two years after the drug distribution has been completed or one year after the drug's expiration date, whichever is longer.

(8) Provision for retaining complete records of all laboratory data relating to each batch or lot of drug to which they apply. Such records shall be retained for at least two years after distribution has been completed or one year after the drug's expiration date, whichever is longer.

(9) Provision that animals shall be maintained and controlled in a manner that assures suitability for their intended use. They shall be identified and appropriate records maintained to determine the history of use.

(10) Provision that firms which manufacture nonpenicillin products (including certifiable antibiotic products) on the same premises or use the same equipment as that used for manufacturing penicillin products, or that operate under any circumstances that may reasonably be regarded as conducive to contamination of other drugs by penicillin, shall test such nonpenicillin products to determine whether any have become cross-contaminated by penicillin. Such products shall not be marketed if intended for use in humans and the product is contaminated with an amount of penicillin equivalent to 0.5 unit or more of penicillin G per maximum single dose recommended in the labeling of a drug intended for parenteral administration, or an amount of penicillin equivalent to 0.5 unit or more of penicillin G per maximum single dose recommended in the labeling of a drug intended for oral use.

[Statutory Authority: RCW 18.64.005. 92-12-035 (Order 277B), § 246-895-100, filed 5/28/92, effective 6/28/92. Statutory Authority: RCW 18.64.005 and chapter 18.64A RCW. 91-18-057 (Order 191B), recodified as § 246-895-100, filed 8/30/91, effective 9/30/91. Statutory Authority: RCW

18.64.005. 88-21-025 (Order 220), § 360-46-090, filed 10/10/88; Order 133, § 360-46-090, filed 8/4/77.]

WAC 246-895-110 Stability. There shall be written procedures for assurance of the stability of finished drug products. This stability shall be:

(1) Determined by reliable, meaningful, and specific test methods.

(2) Determined on products in the same container-closure system in which they are marketed.

(3) Determined on any dry drug product that is to be reconstituted at the time of dispensing (as directed in its labeling), as well as on the reconstituted product.

(4) Recorded and maintained in such manner that the stability data may be utilized in establishing product expiration dates.

[Statutory Authority: RCW 18.64.005 and chapter 18.64A RCW. 91-18-057 (Order 191B), recodified as § 246-895-110, filed 8/30/91, effective 9/30/91. Statutory Authority: RCW 18.64.005. 88-21-025 (Order 220), § 360-46-100, filed 10/10/88; Order 133, § 360-46-100, filed 8/4/77.]

WAC 246-895-120 Expiration dating. To assure that drug products liable to deterioration meet appropriate standards of identity, strength, quality, and purity at the time of use, the label of all such drugs shall have suitable expiration dates which relate to stability tests performed on the product.

(1) Expiration dates appearing on the drug labeling shall be justified by readily available data from stability studies such as described in WAC 246-895-110.

(2) Expiration dates shall be related to appropriate storage conditions stated on the labeling wherever the expiration date appears.

(3) When the drug is marketed in the dry state for use in preparing a liquid product, the labeling shall bear expiration information for the reconstituted product as well as an expiration date for the dry product.

[Statutory Authority: RCW 18.64.005. 92-12-035 (Order 277B), § 246-895-120, filed 5/28/92, effective 6/28/92. Statutory Authority: RCW 18.64.005 and chapter 18.64A RCW. 91-18-057 (Order 191B), recodified as § 246-895-120, filed 8/30/91, effective 9/30/91; Order 133, § 360-46-110, filed 8/4/77.]

WAC 246-895-130 Packaging and labeling. Packaging and labeling operations shall be adequately controlled: To assure that only those drug products that have met the standards and specifications established in their master production and control records shall be distributed; to prevent mixups between drugs during filling, packaging, and labeling operations; to assure that correct labels and labeling are employed for the drug; and to identify the finished product with a lot or control number that permits determination of the history of the manufacture and control of the batch. An hour, day, or shift code is appropriate as a lot or control number for drug products manufactured or processed in continuous production equipment. Packaging and labeling operations shall:

(1) Be separated (physically or spatially) from operations on other drugs in a manner adequate to avoid mixups and minimize cross-contamination. Two or more packaging or labeling operations having drugs, containers, or labeling similar in appearance shall not be in process simultaneously on adjacent or nearby lines unless these operations are separated either physically or spatially.

(2) Provide for an inspection of the facilities prior to use to assure that all drugs and previously used packaging and labeling materials have been removed.

(3) Include the following labeling controls:

(a) The holding of labels and package labeling upon receipt pending review and proofing against an approved final copy by a competent and responsible individual to assure that they are accurate regarding identity, content, and conformity with the approved copy before release to inventory.

(b) The maintenance and storage of each type of label and package labeling representing different products, strength, dosage forms, or quantity of contents in such a manner as to prevent mixups and provide proper identification.

(c) A suitable system for assuring that only current labels and package labeling are retained and that stocks of obsolete labels and package labeling are destroyed.

(d) Restriction of access to labels and package labeling to authorized personnel.

(e) Avoidance of gang printing of cut labels, cartons, or inserts when the labels, cartons, or inserts are for different products or different strengths of the same products or are of the same size and have identical or similar format and/or color schemes. If gang printing is employed, packaging and labeling operations shall provide for added control procedures. These added controls should consider sheet layout, stacking, cutting, and handling during and after printing.

(4) Provide strict control of the package labeling issued for use with the drug. Such issue shall be carefully checked by a competent and responsible person for identity and conformity to the labeling specified in the batch production record. Said record shall identify the labeling and the quantities issued and used and shall reasonably reconcile any discrepancy between the quantity of drug finished and the quantities of labeling issued. All excess package labeling bearing lot or control numbers shall be destroyed. In event of any significant unexplained discrepancy, an investigation should be carried out according to WAC 246-895-060(9).

(5) Provide for adequate examination or laboratory testing of representative samples of finished products after packaging and labeling to safeguard against any errors in the finishing operations and to prevent distribution of any batch until all specified tests have been met.

(6) Provide for compliance with the Poison Prevention Packaging Act, (16 CFR Part 1700).

(7) Provide for compliance with WAC 246-895-080(2).

[Statutory Authority: RCW 18.64.005. 92-12-035 (Order 277B), § 246-895-130, filed 5/28/92, effective 6/28/92. Statutory Authority: RCW 18.64.005 and chapter 18.64A RCW. 91-18-057 (Order 191B), recodified as § 246-895-130, filed 8/30/91, effective 9/30/91. Statutory Authority: RCW 18.64.005. 88-21-025 (Order 220), § 360-46-120, filed 10/10/88; Order 133, § 360-46-120, filed 8/4/77.]

WAC 246-895-140 Master production and control records—Batch production and control records. (1) To assure uniformity from batch to batch, a master production and control record for each drug product and and each batch size of drug product shall be prepared, dated, and signed or initialed by a competent and responsible individual and shall

be independently checked, reconciled, dated, and signed or initialed by a second competent and responsible individual. The master production and control record shall include:

(a) The name of the product, description of the dosage form, and a specimen or copy of each label and all other labeling associated with the retail or bulk unit, including copies of such labeling signed or initialed and dated by the person or persons responsible for approval of such labeling.

(b) The name and weight or measure of each active ingredient per dosage unit or per unit of weight or measure of the finished drug and a statement of the total weight or measure of any dosage unit.

(c) A complete list of ingredients designated by names or codes sufficiently specific to indicate any special quality characteristic; and accurate statement of the weight or measure of each ingredient regardless of whether it appears in the finished product, except that reasonable variations may be permitted in the amount of components necessary in the preparation in dosage form provided that provisions for such variations are included in the master production and control record; an appropriate statement concerning any calculated excess of an ingredient; an appropriate statement of theoretical weight or measure at various stages of processing; and a statement of the theoretical yield.

(d) A description of the containers, closures, and packaging and finishing materials.

(e) Manufacturing and control instructions, procedures, specifications special notations, and precautions to be followed.

(2) The batch production and control record shall be prepared for each batch of drug produced and shall include complete information relating to the production and control of each batch. These records shall be retained for at least two years after the batch distribution is complete or at least one year after the batch expiration date, whichever is longer. These records shall identify the specific labeling and lot or control numbers used on the batch and shall be readily available during such retention period. The batch record shall include:

(a) An accurate reproduction of the appropriate master formula record checked, dated, and signed or initialed by a competent and responsible individual.

(b) A record of each significant step in the manufacturing, processing, packaging, labeling testing, and controlling of the batch, including: Dates; individual major equipment and lines employed; specific identification of each batch of components used; weights and measures of components and products used in the course of processing; in-process and laboratory control results; and identifications of the individual(s) actively performing and the individual(s) directly supervising or checking each significant step in the operation.

(c) A batch number that identifies all the production and control documents relating to the history of the batch and all lot or control numbers associated with the batch.

(d) A record of any investigation made according to WAC 246-895-060(9).

[Statutory Authority: RCW 18.64.005. 92-12-035 (Order 277B), § 246-895-140, filed 5/28/92, effective 6/28/92. Statutory Authority: RCW 18.64.005 and chapter 18.64A RCW. 91-18-057 (Order 191B), recodified as § 246-895-140, filed 8/30/91, effective 9/30/91. Statutory Authority: RCW 18.64.005. 88-21-025 (Order 220), § 360-46-130, filed 10/10/88; Order 133, § 360-46-130, filed 8/4/77.]

WAC 246-895-150 Distribution records. (1) Finished goods warehouse control and distribution procedures shall include a system by which the distribution of each lot of drug can be readily determined to facilitate its recall if necessary. Records within the system shall contain the name and address of the consignee, date and quantity shipped, and lot or control number of the drug. Records shall be retained for at least two years after the distribution of the drug has been completed or one year after the expiration date of the drug, whichever is longer.

(2) To assure the quality of the product, finished goods warehouse control shall also include a system whereby the oldest approved stock is distributed whenever possible.

[Statutory Authority: RCW 18.64.005 and chapter 18.64A RCW. 91-18-057 (Order 191B), recodified as § 246-895-150, filed 8/30/91, effective 9/30/91; Order 133, § 360-46-140, filed 8/4/77.]

WAC 246-895-160 Complaint files. Records shall be maintained of all written and oral complaints regarding each product. An investigation of each complaint shall be made in accordance with WAC 246-895-060(8). The record of each investigation shall be maintained for at least two years after distribution of the drug has been completed or one year after the expiration date of the drug, whichever is longer.

[Statutory Authority: RCW 18.64.005. 92-12-035 (Order 277B), § 246-895-160, filed 5/28/92, effective 6/28/92. Statutory Authority: RCW 18.64.005 and chapter 18.64A RCW. 91-18-057 (Order 191B), recodified as § 246-895-160, filed 8/30/91, effective 9/30/91; Order 133, § 360-46-150, filed 8/4/77.]

WAC 246-895-170 Variance and procedure. Licensees may request that the board issue a variance from specific requirements of WAC 246-895-040 through 246-895-160. The request must be in writing and must explain why the criteria should not apply and how the public's safety would be protected. Issuance of a variance shall be based on the information supplied by the manufacturer requesting the variance, as well as any other information available as a result of any investigation by the board and/or any other relevant information available. After due consideration of all the information, the board may issue or deny the requested variance. Any variance granted shall be limited to the particular case described in the request and shall be posted at the manufacturing location during the time it is in effect. Variances will be reviewed at least every three years. Variances shall be subject to withdrawal or modification at any time if the board finds the variance has resulted in actual or potential harm to the public.

[Statutory Authority: RCW 18.64.005. 92-12-035 (Order 277B), § 246-895-170, filed 5/28/92, effective 6/28/92. Statutory Authority: RCW 18.64.005 and chapter 18.64A RCW. 91-18-057 (Order 191B), recodified as § 246-895-170, filed 8/30/91, effective 9/30/91. Statutory Authority: RCW 18.64.005. 88-21-025 (Order 220), § 360-46-160, filed 10/10/88.]

Statutory Authority: RCW 18.64.005.

AMYGDALIN (LAETRILE)

WAC 246-897-020 Availability. Amygdalin (laetrile) shall be available in intrastate commerce to the citizens of the state of Washington in accordance with all applicable state laws and regulations. Amygdalin (laetrile) imported into the state of Washington shall be so imported in conformity with federal regulations and/or court decisions.

[Statutory Authority: RCW 18.64.005 and chapter 18.64A RCW. 91-18-057 (Order 191B), recodified as § 246-897-020, filed 8/30/91, effective 9/30/91; Order 135, § 360-47-010, filed 10/5/77.]

WAC 246-897-060 Identity. Certification of batches of amygdalin (laetrile) shall be made under the direction of the state board of pharmacy, with the costs for required testing, including purity and potency, to be borne by the manufacturer and/or wholesale distributor. The manufacturer and/or wholesale distributor shall be held totally responsible for the quality of the drug product, in accordance with RCW 18.64.270.

[Statutory Authority: RCW 18.64.005 and chapter 18.64A RCW. 91-18-057 (Order 191B), recodified as § 246-897-060, filed 8/30/91, effective 9/30/91; Order 135, § 360-47-050, filed 10/5/77.]

Chapter 246-899 WAC
PHARMACEUTICAL—DRUG PRODUCT SUBSTITUTION

WAC

WAC 246-899-020 Dispensing responsibilities. When the pharmacist dispenses, with the practitioner's authorization, a therapeutically equivalent drug product, the following information shall be noted:

(a) On oral prescriptions, the pharmacist shall indicate on the permanent prescription record, if substitution is permitted.

(b) The manufacturer or distributor of the drug product actually dispensed or its national drug code number or short name code or trade name shall be noted on the permanent record, or on the patient medication record if this document is utilized for providing and recording refills. This requirement

shall also apply to refill prescriptions when a different distributor or manufacturer's product is used.

(c) The generic or trade name of the drug actually dispensed shall be noted on the prescription label or package label. For combination drug products, the generic names of the drugs combined or the trade name of the manufacturer or distributor shall be noted on the prescription label. For prescriptions compounded with multiple ingredients, the label designation will be left to the discretion of the pharmacist.

(d) For institutionalized and closed system patients, the pharmacist may identify the manufacturer or distributor of the product actually dispensed through pharmacy purchasing records or packaging records, and a published formulary designation may be used on the label.

[Statutory Authority: RCW 18.64.005 and chapter 18.64A RCW. 91-18-057 (Order 191B), recodified as § 246-899-020, filed 8/30/91, effective 9/30/91. Statutory Authority: RCW 69.41.180. 79-12-063 (Order 152), § 360-49-010, filed 11/29/79; Order 143, § 360-49-010, filed 12/9/77.]

WAC 246-899-030 Product selection responsibilities. (1) The determination of the drug product to be dispensed on a prescription is a professional responsibility of the pharmacist, and the pharmacist shall not dispense any product that in his/her professional opinion does not meet adequate standards.

(2) Pharmacists may utilize as the basis for their decisions on therapeutically equivalent drug products:

(a) Available drug product information from federal and state agencies, official compendia, and drug manufacturers, or

(b) Other scientific or professional resources, or

(c) The federal food and drug administration "approved drug products" as a board approved reference for a positive formulary of therapeutically equivalent products within the limitations stipulated in that publication.

(3) Those pharmacies that fill prescriptions based on prior authorization for therapeutically equivalent drug substitution must have available for inspection and review such authorization documentation in the institutional records or in the pharmacy.

[Statutory Authority: RCW 18.64.005 and chapter 18.64A RCW. 91-18-057 (Order 191B), recodified as § 246-899-030, filed 8/30/91, effective 9/30/91. Statutory Authority: RCW 69.41.180. 79-12-063 (Order 152), § 360-49-020, filed 11/29/79; Order 143, § 360-49-020, filed 12/9/77.]

WAC 246-899-040 Manufacturers, wholesalers, distributors, pharmacy location, requirement that drug products offered for sale comply with 21 USC 355—Immediate suspension and subsequent revocation of licenses authorized for violation. (1) In order to provide for enforcement of RCW 69.41.100 through 69.41.180 and to protect the public health and safety when generic drugs are substituted for brand name drugs pursuant to RCW 69.41.110 through 69.41.180 drug products which are offered for sale by, or stored at the premises of, any manufacturer, distributor, wholesaler or pharmacy location must have an approved new drug application (NDA) or abbreviated new drug application (ANDA) designation by the Federal Food and Drug Administration pursuant to 21 USC 355 unless they are exempt from the requirements for such a designation.

(2) In order to provide for enforcement of RCW 69.41.100 through 69.41.180 and to protect the public health and safety drug products offered for sale by, or stored at the premises of, a manufacturer, wholesaler, distributor or pharmacy location which do not have the required NDA or ANDA, or exemption therefrom referenced in subsection (1) of this section, are hereby declared to be contraband and subject to surrender to and destruction by the Washington state board of pharmacy. This surrender and destruction shall take place as specified below.

(3) The board shall publish in its newsletter the source from which the current list compiled by the Federal Food and Drug Administration of generic drugs which do not have an NDA or ANDA and are not exempt from such a requirement and are therefore contraband as provided in subsection (2) of this section may be obtained. The board shall also respond to both written and telephone inquiries from any source regarding the status of any generic drug.

(4) Whenever it is made to appear to the board that a manufacturer, wholesaler, distributor or pharmacy location within he [the] state of Washington is in possession of a stock of drugs which are contraband as defined in subsection (2) of this section, a representative of the board shall confirm with the Federal Food and Drug Administration, by telephone, that the particular drug or drugs involved do not have the required NDA or ANDA and that they are not exempt from this requirement. Upon receipt of this confirmation, the board shall direct such of its investigative personnel as it deem necessary to proceed to the premises of the manufacturer, wholesaler, distributor or pharmacy location and to then inform the owner, or person in charge, of the contraband status of the drugs in question.

(5) The pharmacy board investigative personnel shall offer the owner, or person in charge, of the premises at which the drug products are being kept the opportunity to immediately voluntarily surrender to the board all stocks of the drug products whether kept at the premises of the manufacturer, wholesaler, distributor, or pharmacy location, or at any separate storage facility under the control of the manufacturer, wholesaler, distributor or retailer, which are contraband under subsection (2) of this section. A receipt shall be given to the owner, or person in charge, for all drug products voluntarily surrendered.

(6) All drug products voluntarily surrendered pursuant to subsection (5) of this section shall be destroyed by the board of pharmacy unless they are ordered returned to the manufacturer, wholesaler, distributor or pharmacy location by order of a court of competent jurisdiction. No destruction of any drug products surrendered will be accomplished until thirty days after the date of their surrender to the board.

(7) Retention, dispensing, promotion or advertisement, of any drug products by a manufacturer, wholesaler, distributor or pharmacy location, either at their business premises or at any separate storage facility after notification of their contraband status under subsection (2) of this section shall constitute a direct and immediate danger to the public health and safety and will be good and sufficient cause for the immediate summary suspension and subsequent revocation of any license issued by the board of pharmacy to the manufacturer, wholesaler, distributor or pharmacy location and will also

constitute good and sufficient cause for revocation of any license issued by the board of pharmacy to the owner of any manufacturer, wholesaler, distributor or pharmacy location or any person in charge thereof who knowingly retains, dispenses, promotes or advertises, any drug products which are contraband under subsection (2) of this section after notification of their status.

[Statutory Authority: RCW 69.41.180. 92-12-035 (Order 277B), § 246-899-040, filed 5/28/92, effective 6/28/92. Statutory Authority: RCW 18.64.005 and chapter 18.64A RCW. 91-18-057 (Order 191B), recodified as § 246-899-040, filed 8/30/91, effective 9/30/91. Statutory Authority: RCW 18.64.005. 87-18-066 (Order 207), § 360-49-040, filed 9/2/87. Statutory Authority: RCW 69.41.180. 80-14-012 (Order 157, Resolution No. 9/80), § 360-49-040, filed 9/22/80; 80-02-113 (Order 153, Resolution No. 1/80), § 360-49-040, filed 1/28/80.]

WAC 246-899-050 Out-of-state prescriptions. (1) When dispensing a prescription issued by a practitioner licensed in a state other than Washington, and recognized in RCW 69.41.030, the pharmacist must honor the instructions of the practitioner regarding substitution. These instructions may be on a prescription blank different than that required for Washington practitioners by RCW 69.41.120 and may include the use of the words "dispense as written," words of similar meaning, a checkoff box, or some other indication of intent.

(2) If the practitioner has not clearly provided instructions regarding substitution, a pharmacist may substitute a therapeutically equivalent generic drug only if the pharmacist has determined substitution is permitted by one of the following means:

(a) The pharmacist has personal knowledge and is familiar with the laws and rules regarding substitution in the state of origin; or

(b) The pharmacist obtains oral or written authorization from the practitioner; or

(c) The pharmacist obtains current information regarding the manner in which an out-of-state practitioner provides instruction from:

(i) The Washington state board of pharmacy; or

(ii) The board of pharmacy in the state, other than Washington, in which the practitioner practices; or

(iii) Some other professional source.

(3) Drug product selection shall be based on Washington law and rule as set forth in WAC 246-899-030.

[Statutory Authority: RCW 69.41.180. 92-12-035 (Order 277B), § 246-899-050, filed 5/28/92, effective 6/28/92. Statutory Authority: RCW 18.64.005 and chapter 18.64A RCW. 91-18-057 (Order 191B), recodified as § 246-899-050, filed 8/30/91, effective 9/30/91. Statutory Authority: RCW 18.64.005. 91-13-004 (Order 174B), § 360-49-050, filed 6/7/91, effective 7/8/91.]

[Statutory Authority: RCW 18.64.005 and chapter 18.64A RCW. 91-18-057 (Order 191B), recodified as § 246-901-110, filed 8/30/91, effective 9/30/91; Order 141, § 360-52-100, filed 12/9/77.] Repealed by 00-15-081, filed 7/19/00, effective 8/19/00. Statutory Authority: RCW 18.64.005, chapter 18.64A RCW.

WAC 246-901-010 Definitions. (1) "Consultation" means:

(a) A communication or deliberation between a pharmacist and a patient, a patient's agent, or a patient's health care provider in which the pharmacist uses professional judgment to provide advice about drug therapy.

(b) A method by which the pharmacist meets patient information requirements as set forth in WAC 246-869-220.

(2) "Dispense" as defined in RCW 18.64.011(16).

(3) "Intravenous admixture preparation" means the preparation of a drug product that combines two or more ingredients using aseptic technique and is intended for administration into a vein.

(4) "Parenteral" as defined in WAC 246-871-010.

(5) "Pharmacy technician specialized function" means certain tasks normally reserved to a pharmacist according to WAC 246-863-095 that may be performed by a pharmacy technician who has met board requirements.

(6) "Prescription" as defined in RCW 18.64.011(8).

(7) "Responsible manager" as defined in WAC 246-869-070.

(8) "Unit-dose" and "unit-dose drug distribution system" as defined in WAC 246-865-010.

(9) "Unit-dose medication cassettes" means containers for a patient's medications into which each individually packaged and labeled drug is placed.

(10) "Verification" means the pharmacist has reviewed a patient drug order initiated by an authorized prescriber, has examined the patient's drug profile, and has approved the drug order after taking into account pertinent drug and disease information to insure the correctness of the drug order for a specific patient. The verification process must generate an audit trail that identifies the pharmacist. The pharmacist who performs the verification of a drug order is responsible for all reports generated by the approval of that order. The unit-dose medication fill and check reports are an example.

(11) "Immediate supervision" means visual and/or physical proximity to a licensed pharmacist to ensure patient safety.

[Statutory Authority: RCW 18.64.005, chapter 18.64A RCW. 00-15-081, § 246-901-010, filed 7/19/00, effective 8/19/00. Statutory Authority: RCW 18.64.050. 94-08-097, § 246-901-010, filed 4/6/94, effective 5/7/94.]

WAC 246-901-020 Pharmacy ancillary personnel utilization. (1) Pharmacy technicians may perform certain nondiscretionary and specialized functions consistent with their training in pharmacy practice while under the immediate supervision of a licensed pharmacist.

(2) The discretionary tasks reserved to a pharmacist are listed in WAC 246-863-095.

(3) Unless authorized as a specialized function according to WAC 246-901-035, the pharmacy technician shall assist a pharmacist in the performance of all tasks except those reserved to a pharmacist in subsection (2) of this section.

(4) Entry of a new medication order into the pharmacy computer system and retrieval of the drug product to fill a prescription are tasks reserved to the pharmacist and pharmacy technician.

(5) The pharmacy assistant may assist a pharmacist in performance of all tasks except those reserved to the pharmacist and pharmacy technician.

(6) Pharmacy ancillary personnel may record or provide medication data when no interpretation is required.

[Statutory Authority: RCW 18.64.005, chapter 18.64A RCW. 00-15-081, § 246-901-020, filed 7/19/00, effective 8/19/00. Statutory Authority: RCW 18.64.050. 94-08-097, § 246-901-020, filed 4/6/94, effective 5/7/94. Statutory Authority: RCW 18.64A.020 and 18.64A.030. 92-12-035 (Order 277B), § 246-901-020, filed 5/28/92, effective 6/28/92. Statutory Authority: RCW 18.64.005 and chapter 18.64A RCW. 91-18-057 (Order 191B), recodified as § 246-901-020, filed 8/30/91, effective 9/30/91; Order 141, § 360-52-010, filed 12/9/77.]

WAC 246-901-030 Technician education and training. (1) Pharmacy technicians must obtain education or training from one of the following:

(a) Formal academic program for pharmacy technician training approved by the board.

(b) On-the-job training program approved by the board.

(2) The minimum educational prerequisite for entering a training program shall be high school graduation or G.E.D.

(3) In order to receive certification as a pharmacy technician, the technician must send the board the following:

(a) A state application indicating completion of board approved training program;

(b) Proof of successful completion of a certification examination approved by the board.

(4) An out-of-state pharmacy technician applicant must meet the same requirements as a pharmacy technician trained in this state. The board must approve training programs approved in other states.

(5) Applicants whose academic training has been obtained in foreign countries shall meet certification requirements as listed below:

(a) Foreign pharmacy school graduates. Board approval of program completed for the degree.

(b) Foreign medical school graduates. Board approval of program completed for the degree.

(c) All foreign graduates for whom English is not the primary language shall provide proof of receiving a score of at least 173 on the Test of English as a Foreign Language (TOEFL) and a score of 50 on the Test of Spoken English (TSE) prior to certification.

(d) Foreign trained applicants must earn 520 hours of supervised experience in an approved pharmacy technician training program.

(6) Prior to performing specialized functions, pharmacy technicians shall complete specialized training and meet proficiency criteria set forth by the board.

(a) Unit-dose medication checking. The training proficiency criteria requires demonstration of 99% accuracy in medication checking.

(b) Intravenous admixture preparation. The training proficiency criteria requires demonstration of 100% accuracy in intravenous admixture preparation of a representative sample of preparations provided by the facility using aseptic technique.

[Statutory Authority: RCW 18.64.005, chapter 18.64A RCW. 00-15-081, § 246-901-030, filed 7/19/00, effective 8/19/00. Statutory Authority: RCW 18.64.050. 94-08-097, § 246-901-030, filed 4/6/94, effective 5/7/94. Statutory Authority: RCW 18.64.005 and chapter 18.64A RCW. 91-18-057 (Order 191B), recodified as § 246-901-030, filed 8/30/91, effective 9/30/91; Order 141, § 360-52-020, filed 12/9/77.]

WAC 246-901-035 Pharmacy technician specialized functions. A pharmacy technician who meets established criteria for employment, experience, training and demonstrated proficiency may perform specialized functions. The criteria shall be specified in the utilization plan of the pharmacy for pharmacy technicians performing specialized functions required in WAC 246-901-100 (2)(b). Records of pharmacy technician training and of demonstration of proficiency shall be retrievable within seventy-two hours upon request of the board. Specialized functions include the following:

(1) Unit-dose medication checking. Following verification of the drug order by a licensed pharmacist, a pharmacy technician may check unit-dose medication cassettes filled by another pharmacy technician or pharmacy intern in pharmacies serving facilities licensed under chapter 70.41, 71.12, 71A.20 or 74.42 RCW. No more than a forty-eight hour supply of drugs may be included in the patient medication cassettes and a licensed health professional must check the drug before administering it to the patient.

(2) Intravenous admixture and other parenteral preparations. A pharmacy technician may prepare intravenous admixtures and other parenteral drugs. A licensed pharmacist must check each parenteral drug prepared by a pharmacy technician.

[Statutory Authority: RCW 18.64.005, chapter 18.64A RCW. 00-15-081, § 246-901-035, filed 7/19/00, effective 8/19/00. Statutory Authority: RCW 18.64.050. 94-08-097, § 246-901-035, filed 4/6/94, effective 5/7/94.]

WAC 246-901-040 Limitations, trainees. An individual enrolled in a training program for pharmacy technicians will perform technician functions only under the immediate supervision of a pharmacist preceptor or a delegated alternate pharmacist.

[Statutory Authority: RCW 18.64.005, chapter 18.64A RCW. 00-15-081, § 246-901-040, filed 7/19/00, effective 8/19/00; 91-18-057 (Order 191B), recodified as § 246-901-040, filed 8/30/91, effective 9/30/91; Order 141, § 360-52-030, filed 12/9/77.]

WAC 246-901-050 Technician program approval. (1) Program standards. The board will establish standards for judging pharmacy technician training programs.

(2) Approval. In order for a program for training pharmacy technicians to be considered for approval by the board, the director of the program, who shall be a pharmacist, shall submit to the board a description of the course of training offered, including subjects taught, method of teaching, and practical experience provided. The director of the program shall also advise the board concerning the skills and knowledge which are obtained in the course, and the method by which the proficiency of the pharmacy technician in those skills and knowledge is tested or ascertained. The board may require such additional information from program sponsors.

(3) Program change. The director shall request board approval before implementing any significant program change.

(4) Reapproval. The director shall submit each approved program to the board for reapproval every five years.

(5) Registry. The board will maintain a registry of approved programs. Interested persons may request a copy of the registry by contacting the board.

[Statutory Authority: RCW 18.64.005, chapter 18.64A RCW. 00-15-081, § 246-901-050, filed 7/19/00, effective 8/19/00; 91-18-057 (Order 191B), recodified as § 246-901-050, filed 8/30/91, effective 9/30/91; Order 141, § 360-52-040, filed 12/9/77.]

WAC 246-901-060 Technician certification. To become certified as a pharmacy technician, an individual must:

(1) Complete an approved pharmacy technician program;

(2) Apply to the board for certification. The application must include a notarized statement of program verification signed by the program director.

It is the responsibility of the pharmacy technician to maintain a current mailing address with the board as required by chapter 246-12 WAC. Pharmacy technicians shall notify the board of any change of mailing address within thirty days of the change.

[Statutory Authority: RCW 18.64.005, chapter 18.64A RCW. 00-15-081, § 246-901-060, filed 7/19/00, effective 8/19/00. Statutory Authority: RCW 18.64.005. 93-17-097 (Order 387B), § 246-901-060, filed 8/17/93, effective 9/17/93. Statutory Authority: RCW 18.64.005 and chapter 18.64A RCW. 91-18-057 (Order 191B), recodified as § 246-901-060, filed 8/30/91, effective 9/30/91. Statutory Authority: RCW 18.64A.030. 88-14-043 (Order 217), § 360-52-050, filed 6/30/88; Order 141, § 360-52-050, filed 12/9/77.]

WAC 246-901-065 Expired technician license. (1) If the technician license has expired for five years or less, the practitioner must meet the requirements of chapter 246-12 WAC, Part 2.

(2) If the license has expired for over five years, the practitioner must:

(a) Complete certification requirements within one year of application to the board for certification;

(b) Meet the requirements of chapter 246-12 WAC, Part 2.

(3) If the practitioner has been in an active practice in another United States jurisdiction with duties that are substantially equivalent to a pharmacy technician in Washington state, the practitioner must:

(a) Submit verification of active practice from any other United States jurisdiction;

(b) Meet the requirements of chapter 246-12 WAC, Part 2.

[Statutory Authority: RCW 18.64.005, chapter 18.64A RCW. 00-15-081, § 246-901-065, filed 7/19/00, effective 8/19/00. Statutory Authority: RCW 43.70.280. 98-05-060, § 246-901-065, filed 2/13/98, effective 3/16/98. Statutory Authority: RCW 18.64.005. 93-17-097 (Order 387B), § 246-901-065, filed 8/17/93, effective 9/17/93.]

WAC 246-901-070 Pharmacy assistant utilization. Pharmacy assistants may perform, under the general supervision of a licensed pharmacist, all duties except those reserved to the pharmacist and the pharmacy technician.

Pharmacy assistants may:

(1) Prepackage and label drugs for subsequent use in prescription dispensing operations.

(2) Count, pour, and label for individual prescriptions.

[Statutory Authority: RCW 18.64.005, chapter 18.64A RCW. 00-15-081, § 246-901-070, filed 7/19/00, effective 8/19/00; 91-18-057 (Order 191B), recodified as § 246-901-070, filed 8/30/91, effective 9/30/91. Statutory Authority: RCW 18.64A.030. 88-14-043 (Order 217), § 360-52-060, filed 6/30/88. Statutory Authority: RCW 18.64.005(11) and 18.64A.030. 80-02-113 (Order 153, Resolution No. 1/80), § 360-52-060, filed 1/28/80. Statutory Authority: RCW 69.50.201. 79-04-048 (Order 147, Resolution No. 3-79), § 360-52-060, filed 3/27/79; Order 141, § 360-52-060, filed 12/9/77.]

WAC 246-901-080 Pharmacy assistant registration. (1) Training. No formal training or educational program will be required by the board, and there will be no age or educational restrictions. The supervising pharmacist shall thoroughly instruct the pharmacy assistant in the limitations of the functions he or she may perform.

(2) Registration of pharmacy assistants. Any person desiring registration as a pharmacy assistant shall apply to the board for registration on forms to be supplied by the board. The fee for registration will be included in the fee for authorization to utilize the services of pharmacy ancillary personnel.

(3) It is the responsibility of the pharmacy assistant to maintain a current mailing address with the board as required by chapter 246-12 WAC. Pharmacy assistants shall notify the board of any change of mailing address within thirty days of the change.

(4) A pharmacy assistant registration must be renewed every two years on the assistant's birthdate. The fee for renewal is included in the fee the pharmacy pays to utilize pharmacy ancillary personnel.

[Statutory Authority: RCW 18.64.005, chapter 18.64A RCW. 00-15-081, § 246-901-080, filed 7/19/00, effective 8/19/00; 91-18-057 (Order 191B), recodified as § 246-901-080, filed 8/30/91, effective 9/30/91; Order 141, § 360-52-070, filed 12/9/77.]

WAC 246-901-090 Identification. All pharmacy ancillary personnel working within the pharmacy and having contact with patients or the general public shall wear badges or tags clearly identifying them as pharmacy assistants or technicians.

[Statutory Authority: RCW 18.64.005, chapter 18.64A RCW. 00-15-081, § 246-901-090, filed 7/19/00, effective 8/19/00; 91-18-057 (Order 191B),

recodified as § 246-901-090, filed 8/30/91, effective 9/30/91; Order 141, § 360-52-080, filed 12/9/77.]

WAC 246-901-100 Board approval of pharmacies utilizing pharmacy ancillary personnel and specialized functions. (1) Application. All licensed pharmacies may apply on a form supplied by the board for permission to utilize the services of pharmacy ancillary personnel.

(2) Utilization plan for pharmacy technicians.

(a) General. The application for approval must describe the manner in which the pharmacy technicians will be utilized and supervised, including job descriptions, task analysis or similar type documents that define the duties performed and the conditions under which they are performed, number of positions in each category, as well as other information as may be required by the board. The board will be notified of all changes to the utilization plan. A copy of the utilization plan must be maintained in the pharmacy.

(b) Specialized function. The utilization plan for pharmacy technicians performing specialized functions. The utilization plan must include:

(i) The criteria for selection of pharmacy technicians to perform specialized functions;

(ii) A description of the methods of training and of initial demonstration of proficiency;

(iii) A copy of the part of the section of the pharmacy's quality assurance plan related to pharmacy technician specialized functions;

(iv) Other information that may be required by the board.

(c) To gain approval for specialized functions, a pharmacy must follow board-approved guidelines regarding pharmacy technician training, implementation and evaluation.

(3) Utilization plan for pharmacy assistants. The application for approval shall list the job title or function of the pharmacy assistant.

(4) The board may give conditional approval for pilot or demonstration projects for innovative applications in the utilization of pharmacy ancillary personnel.

[Statutory Authority: RCW 18.64.005, chapter 18.64A RCW. 00-15-081, § 246-901-100, filed 7/19/00, effective 8/19/00. Statutory Authority: RCW 18.64.050. 94-08-097, § 246-901-100, filed 4/6/94, effective 5/7/94. Statutory Authority: RCW 18.64.005 and chapter 18.64A RCW. 91-18-057 (Order 191B), recodified as § 246-901-100, filed 8/30/91, effective 9/30/91. Statutory Authority: RCW 18.64A.030. 88-14-043 (Order 217), § 360-52-090, filed 6/30/88; Order 141, § 360-52-090, filed 12/9/77.]

WAC 246-901-120 AIDS prevention and information education requirements. Pharmacy technician and assistant applicants must complete four clock hours of AIDS education as required in chapter 246-12 WAC, Part 8.

[Statutory Authority: RCW 18.64.005, chapter 18.64A RCW. 00-15-081, § 246-901-120, filed 7/19/00, effective 8/19/00. Statutory Authority: RCW 43.70.280. 98-05-060, § 246-901-120, filed 2/13/98, effective 3/16/98. Statutory Authority: RCW 18.64.005 and chapter 18.64A RCW. 91-18-057 (Order 191B), recodified as § 246-901-120, filed 8/30/91, effective 9/30/91. Statutory Authority: RCW 18.64.005. 89-04-015 (Order 222), § 360-52-110, filed 1/23/89.]

WAC 246-901-130 Pharmacist to pharmacy technician ratio. (1) A standard ratio of one pharmacist to a maximum of three technicians is established for each licensed pharmacy.

(2) The pharmacist must be actively practicing pharmacy.

(3) In determining which pharmacists may be included in the calculation of the ratio, the board will consider approval of pharmacy technician utilization plans which include all pharmacists within the pharmacy who are engaged in the actual practice of pharmacy. When the pharmacy provides service to inpatients of a hospital or extended care facility, pharmacists who are practicing pharmacy outside of the confines of the licensed pharmacy (for example, performing nursing unit inspections, reviewing charts, consulting with health professional staff) may be included in the ratio, if:

(a) There are sufficient numbers of pharmacists within the pharmacy to properly supervise the work of the pharmacy technicians;

(b) The pharmacy is not open to the public;

(c) The medications are being checked by another health professional before being given to the patient;

(d) Drug orders are not dispensed from the pharmacy without being checked by a licensed pharmacist or pharmacy intern except for board-approved pharmacy technician specialized functions provided a pharmacy technician may check unit-dose medication cassettes.

[Statutory Authority: RCW 18.64.005, chapter 18.64A RCW. 00-15-081, § 246-901-130, filed 7/19/00, effective 8/19/00. Statutory Authority: RCW 18.64.050. 94-08-097, § 246-901-130, filed 4/6/94, effective 5/7/94. Statutory Authority: RCW 18.64.005 and chapter 18.64A RCW. 91-18-057 (Order 191B), recodified as § 246-901-130, filed 8/30/91, effective 9/30/91. Statutory Authority: RCW 18.64.005. 91-11-040 (Order 169B), § 360-52-120, filed 5/10/91, effective 6/10/91.]

WAC 246-901-140 Pharmacy services plan. A pharmacy may use more pharmacy technicians than prescribed by the standard ratio if the board approves the pharmacy's pharmacy services plan.

(1) The pharmacy services plan shall include, at a minimum, the following information: Pharmacy design and equipment, information systems, workflow, and quality assurance procedures. In addition, the pharmacy services plan shall demonstrate how it facilitates the provision of pharmaceutical care by the pharmacy.

(2) The board may require additional information to ensure appropriate oversight of pharmacy technicians before approving a pharmacy services plan.

(3) The board may give conditional approval for pilot or demonstration projects.

[Statutory Authority: RCW 18.64.005, chapter 18.64A RCW. 00-15-081, § 246-901-140, filed 7/19/00, effective 8/19/00.]

Chapter 246-903 WAC
NUCLEAR PHARMACIES AND PHARMACISTS

WAC

WAC 246-903-001 Purpose and scope. (1) No person may lawfully provide radiopharmaceutical services unless he or she is a nuclear pharmacist, or is performing radiopharma-

ceutical services under the supervision of a nuclear pharmacist, and is acting in accordance with the state board of pharmacy and state radiation control agency regulations.

(2) These regulations shall not apply to anyone who is an "authorized practitioner" as that term is defined in section 2 of these regulations.

(3) The requirements imposed by these nuclear pharmacy regulations shall apply in addition to, and not in place of, any other requirements contained in regulations of the state board of pharmacy, the state radiation control agency, or any other state or federal agency.

[Statutory Authority: RCW 18.64.005 and chapter 18.64A RCW. 91-18-057 (Order 191B), recodified as § 246-903-001, filed 8/30/91, effective 9/30/91. Statutory Authority: RCW 18.64.005(9). 79-02-061 (Order 145, Resolution No. 1-79), § 360-54-010, filed 2/1/79.]

WAC 246-903-010 Definitions. (1) A "nuclear pharmacy" is a class A pharmacy providing radiopharmaceutical services.

(2) "Nuclear pharmacist" means a licensed pharmacist who has submitted evidence to the board of pharmacy that he or she meets the requirements of WAC 246-903-030 of these regulations regarding training, education, and experience, and who has received notification by letter from the board of pharmacy that, based on the evidence submitted, he or she is recognized by the board of pharmacy as qualified to provide radiopharmaceutical services.

(3) "Radiopharmaceutical service" shall mean, but shall not be limited to, the compounding, dispensing, labeling and delivery of radiopharmaceuticals; the participation in radiopharmaceutical selection and radiopharmaceutical utilization reviews; the proper and safe storage and distribution of radiopharmaceuticals; the maintenance of radiopharmaceutical quality assurance; the responsibility for advising, where necessary or where regulated, of therapeutic values, hazards and use of radiopharmaceuticals; and the offering or performing of those acts, services, operations or transactions necessary in the conduct, operation management and control of a nuclear pharmacy.

(4) A "radiopharmaceutical" is any substance defined as a drug in section 201(g)(1) of the Federal Food, Drug and Cosmetic Act which exhibits spontaneous disintegration of unstable nuclei with the emission of nuclear particles or photons and includes any such drug which is intended to be made radioactive. This definition includes nonradioactive reagent kits and nuclide generators which are intended to be used in the preparation of any such substance but does not include drugs such as carbon-containing compounds or potassium-containing compounds or potassium-containing salts which contain trace quantities of naturally occurring radionuclides.

(5) "Radiopharmaceutical quality assurance" means, but is not limited to, the performance of appropriate chemical, biological and physical tests on radiopharmaceuticals and the interpretation of the resulting data to determine their suitability for use in humans and animals, including internal test assessment authentication of product history and the keeping of proper records.

(6) "Internal test assessment" means, but is not limited to, conducting those tests of quality assurance necessary to insure the integrity of the test.

(7) "Authentication of product history" means, but is not limited to, identifying the purchasing source, the ultimate fate, and intermediate handling of any component of a radiopharmaceutical.

(8) "Authorized practitioner" means a practitioner duly authorized by law to possess, use, and administer radiopharmaceuticals.

(9) "Accepted professional standards" are those set forth in the *Nuclear Pharmacy Practice Standards* published by the American Pharmaceutical Association, Board of Pharmaceutical Specialties, adopted on March 18, 1986.

[Statutory Authority: RCW 18.64.005. 93-04-016 (Order 329B), § 246-903-010, filed 1/25/93, effective 2/25/93; 92-12-035 (Order 277B), § 246-903-010, filed 5/28/92, effective 6/28/92. Statutory Authority: RCW 18.64.005 and chapter 18.64A RCW. 91-18-057 (Order 191B), recodified as § 246-903-010, filed 8/30/91, effective 9/30/91. Statutory Authority: RCW 18.64.005(9). 79-02-061 (Order 145, Resolution No. 1-79), § 360-54-020, filed 2/1/79.]

WAC 246-903-020 Nuclear pharmacies. (1) A permit to operate a nuclear pharmacy providing radiopharmaceutical services shall only be issued to a qualified nuclear pharmacist. All personnel performing tasks in the preparation and distribution of radiopharmaceuticals shall be under the supervision of a nuclear pharmacist. The nuclear pharmacist shall be responsible for all operations of the licensed area. In emergency situations, in the nuclear pharmacist's absence, he or she may designate one or more qualified, registered or certified health care personnel to have access to the licensed area. These individuals may obtain radiopharmaceuticals for the immediate emergency and must document such withdrawals in the control system.

(2) Nuclear pharmacies shall have adequate space, commensurate with the scope of services to be provided. The nuclear pharmacy area shall be separate from the pharmacy areas for nonradiopharmaceuticals and shall be secured from access by unauthorized personnel. A nuclear pharmacy handling radiopharmaceuticals exclusively may be exempted from the general space requirements for pharmacies by obtaining a waiver from the state board of pharmacy. Detailed floor plans shall be submitted to the state board of pharmacy and the state radiation control agency before approval of the license.

(3) Nuclear pharmacies shall compound and dispense radiopharmaceuticals in accordance with accepted professional standards.

(4) The board recognizes that the preparation of nuclear pharmaceuticals involves the compounding skills of the nuclear pharmacist to assure that the final drug product meets accepted professional standards.

(5) Nuclear pharmacies shall maintain records of acquisition and disposition of all radiopharmaceuticals in accordance with applicable regulations of the state board of pharmacy, the state radiation control agency and other state and federal agencies.

(6) For nuclear pharmacies handling radiopharmaceuticals exclusively, the state board of pharmacy may waive regulations pertaining to the pharmacy permits for nonradiopharmaceuticals for requirements that do not pertain to the practice of nuclear pharmacy.

(7) Radiopharmaceuticals are to be dispensed only upon a prescription from a practitioner authorized to possess, use and administer radiopharmaceuticals. A nuclear pharmacy may also furnish radiopharmaceuticals for office use to these practitioners.

(8) A nuclear pharmacist may transfer to authorized persons radioactive materials not intended for drug use, in accordance with regulations of the state radiation control agency.

(9) In addition to any labeling requirements of the state board of pharmacy for nonradiopharmaceuticals, the immediate outer container of the radiopharmaceutical to be dispensed shall also be labeled with: (a) Standard radiation symbol; (b) the words "caution-radioactive material"; (c) the name of the radiopharmaceutical; (d) the amount of radioactive material contained, in millicuries or microcuries; (e) if a liquid, the volume in milliliters; (f) the requested calibration time for the amount of radioactivity contained; (g) expiration data, if applicable; and (h) specific concentration of radioactivity.

(10) The immediate container shall be labeled with: (a) The standard radiation symbol; (b) the words "caution-radioactive material"; (c) the name of the nuclear pharmacy; (d) the prescription number; (e) the name of the radiopharmaceutical; (f) the date; and (g) the amount of radioactive material contained in millicuries or microcuries.

(11) The amount of radioactivity shall be determined by radiometric methods for each individual preparation immediately prior to dispensing.

(12) Nuclear pharmacies may redistribute NDA approved radiopharmaceuticals if the pharmacy does not process the radiopharmaceuticals in any manner or violate the product packaging.

(13) The nuclear pharmacy shall have the current revisions of state laws and regulations of the state board of pharmacy and state radiation control agency.

(14) The nuclear pharmacy shall maintain a library commensurate with the level of radiopharmaceutical service to be provided. A detailed library listing shall be submitted to the state board of pharmacy and state radiation control agency before approval of the license.

[Statutory Authority: RCW 18.64.005. 93-04-016 (Order 329B), § 246-903-020, filed 1/25/93, effective 2/25/93. Statutory Authority: RCW 18.64.005 and chapter 18.64A RCW. 91-18-057 (Order 191B), recodified as § 246-903-020, filed 8/30/91, effective 9/30/91. Statutory Authority: RCW 18.64.005(9). 79-02-061 (Order 145, Resolution No. 1-79), § 360-54-030, filed 2/1/79.]

WAC 246-903-030 Nuclear pharmacists. In order for a pharmacist to qualify under these regulations as a nuclear pharmacist, he or she must:

(1) Meet minimal standards of training and experience in the handling of radioactive materials in accordance with the requirements of the state radiation control agency; and,

(2) Be a pharmacist licensed to practice in Washington; and,

(3) Submit to the board of pharmacy either:

(a) Certification that he or she has completed a minimum of 6 months on-the-job training under the supervision of a qualified nuclear pharmacist in a nuclear pharmacy providing radiopharmaceutical services, or

(b) Certification that he or she has completed a nuclear pharmacy training program in an accredited college of pharmacy or

(c) That upon application to the board in affidavit form, and upon the furnishing of such other information as the board may require, the board may grant partial or equivalent credit for education and experience gained in programs not sponsored by an accredited college of pharmacy, if, in the opinion of the board, the education and experience gained by participants in these programs would provide the same level of competence as participation in a program at an accredited college of pharmacy; and

(4) Receive a letter of notification from the board of pharmacy that the evidence submitted that the pharmacist meets the requirements of subsections 1, 2, and 3 above has been accepted by the board and that, based thereon, the pharmacist is recognized by the board as a nuclear pharmacist.

[Statutory Authority: RCW 18.64.005 and chapter 18.64A RCW. 91-18-057 (Order 191B), recodified as § 246-903-030, filed 8/30/91, effective 9/30/91. Statutory Authority: RCW 18.64.005(9). 79-02-061 (Order 145, Resolution No. 1-79), § 360-54-040, filed 2/1/79.]

WAC 246-903-040 Minimum equipment requirements. (1) Nuclear pharmacies shall have adequate equipment commensurate with the scope of radiopharmaceutical services to be provided. A detailed list of equipment and description of use must be submitted to the state board of pharmacy and radiation control agency before approval of the license.

(2) The state board of pharmacy may, for good cause shown, waive regulations pertaining to the equipment and supplies required for nuclear pharmacies handling radiopharmaceuticals exclusively.

[Statutory Authority: RCW 18.64.005 and chapter 18.64A RCW. 91-18-057 (Order 191B), recodified as § 246-903-040, filed 8/30/91, effective 9/30/91. Statutory Authority: RCW 18.64.005(9). 79-02-061 (Order 145, Resolution No. 1-79), § 360-54-050, filed 2/1/79.]

Chapter 246-904 WAC
HEALTH CARE ENTITIES

WAC

WAC 246-904-010 Definition. Health care entity - an organization that provides health care services in a setting that is not otherwise licensed by the state. Health care entity includes any of the following which are not part of another licensed facility, including: Outpatient surgery centers, cardiac care centers, or kidney dialysis centers. It does not include an individual practitioner's office or a multipractitioner clinic.

[Statutory Authority: RCW 18.64.450. 97-02-015, § 246-904-010, filed 12/20/96, effective 1/20/97.]

WAC 246-904-020 New health care entity licensing. No health care entity shall be issued a license until the facility has submitted an application along with the applicable fees set forth in WAC 246-907-020 through 246-907-030 and has passed an inspection by a Washington state board of pharmacy investigator. The investigator shall determine if the purchase, ordering, storing, compounding, delivering, dispensing and administration of controlled substances and/or legend drugs complies with all applicable state and federal statutes and regulations. Physical requirements for the areas of a health care entity where drugs are stored, compounded, delivered or dispensed shall comply with WAC 246-873-070.

[Statutory Authority: RCW 18.64.450. 97-02-015, § 246-904-020, filed 12/20/96, effective 1/20/97.]

WAC 246-904-030 Pharmacist in charge. Every health care entity licensed under this chapter shall designate a pharmacist in charge. The pharmacist in charge may be employed in a full-time capacity or as a pharmacist consultant. The pharmacist in charge must be licensed to practice pharmacy in the state of Washington. The pharmacist in charge designated by a health care entity shall have the authority and responsibility to assure that the area(s) within the health care entity where drugs are stored, compounded, delivered or dispensed are operated in compliance with all applicable state and federal statutes and regulations.

It shall be the responsibility of the pharmacist in charge:

(1) To create and implement policy and procedures relating to:

(a) Purchasing, ordering, storing, compounding, delivering, dispensing or administering of controlled substances or legend drugs.

(b) Accuracy of inventory records, patient medical records as related to the administration of controlled substances and legend drugs, and any other records required to be kept by state and federal regulations.

(c) Adequate security of legend drugs and controlled substances.

(d) Controlling access to controlled substances and legend drugs.

(2) To assure that the Washington state board of pharmacy is in possession of all current policies and procedures identified in subsection (1) of this section.

(3) To execute all forms for the purchase and order of legend drugs and controlled substances.

(4) To verify receipt of all legend drugs and controlled substances purchased and ordered by the health care facility.

[Statutory Authority: RCW 18.64.450. 97-02-015, § 246-904-030, filed 12/20/96, effective 1/20/97.]

WAC 246-904-040 Drug procurement, distribution and control. The procurement, distribution and control of drugs shall be in accordance with WAC 246-873-080.

[Statutory Authority: RCW 18.64.450. 97-02-015, § 246-904-040, filed 12/20/96, effective 1/20/97.]

WAC 246-904-050 Dispensing of prescription medications from health care entities. Drugs dispensed to patients of a health care entity must be dispensed in a manner consistent with the requirements of RCW 18.64.246 through 18.64.247, chapters 69.41 and 69.50 RCW, and WAC 246-869-220 through 246-869-240.

[Statutory Authority: RCW 18.64.450. 97-02-015, § 246-904-050, filed 12/20/96, effective 1/20/97.]

WAC 246-904-060 Labeling. Drugs dispensed to patients of a health care entity must comply with the labeling requirements of WAC 246-869-210.

[Statutory Authority: RCW 18.64.450. 97-02-015, § 246-904-060, filed 12/20/96, effective 1/20/97.]

WAC 246-904-070 Records. To the extent applicable, all prescription records shall be maintained in accordance with WAC 246-869-100 and chapter 246-875 WAC et seq.

[Statutory Authority: RCW 18.64.450. 97-02-015, § 246-904-070, filed 12/20/96, effective 1/20/97.]

WAC 246-904-080 Absence of a pharmacist. Pharmaceutical services shall be available at all times patients are present in the facility. At times when no pharmacist is in the facility, the entity must comply with the requirements of WAC 246-873-050 and 246-873-060.

[Statutory Authority: RCW 18.64.450. 97-02-015, § 246-904-080, filed 12/20/96, effective 1/20/97.]

WAC 246-904-090 Administration. Administration of drugs to patients of a health care entity shall be in accordance with WAC 246-873-090.

[Statutory Authority: RCW 18.64.450. 97-02-015, § 246-904-090, filed 12/20/96, effective 1/20/97.]

WAC 246-904-100 Closing. When a health care entity ceases to do business or to provide pharmaceutical services to patients, the entity shall follow the provisions of WAC 246-869-250.

[Statutory Authority: RCW 18.64.450. 97-02-015, § 246-904-100, filed 12/20/96, effective 1/20/97.]

Chapter 246-905 WAC
PHARMACY—HOME DIALYSIS PROGRAM

WAC

WAC 246-905-020 Home dialysis program—Legend drugs. Pursuant to RCW 18.64.257 and 69.41.032, a Medicare-approved dialysis center or facility operating a Medicare-approved home dialysis program may sell, deliver, possess and/or dispense directly to its home dialysis patients in cases or full shelf package lots, if prescribed by a physician, the following legend drugs:

(a) Sterile heparin, 1000u/ml, in vials;

(b) Sterile potassium chloride, 2mEq/ml, for injection;

(c) Commercially available dialysate; and,

(d) Sterile sodium chloride, 0.9%, for injection in containers of not less than 150ml.

[Statutory Authority: RCW 18.64.005 and chapter 18.64A RCW. 91-18-057 (Order 191B), recodified as § 246-905-020, filed 8/30/91, effective 9/30/91. Statutory Authority: RCW 18.64.005. 88-06-026 (Order 210), § 360-60-010, filed 2/25/88.]

WAC 246-905-030 Pharmacist consultant. Home dialysis programs involved in the distribution of legend drugs as permitted by RCW 18.64.257 and 69.41.032, shall have an agreement with a pharmacist which provides for consultation as necessary. This shall include advice on the drug distribution process to home dialysis patients and on the location used for storage and distribution of the authorized drugs, which shall be reasonably separated from other activities and shall be secure.

[Statutory Authority: RCW 18.64.005 and chapter 18.64A RCW. 91-18-057 (Order 191B), recodified as § 246-905-030, filed 8/30/91, effective 9/30/91. Statutory Authority: RCW 18.64.005. 88-06-026 (Order 210), § 360-60-020, filed 2/25/88.]

WAC 246-905-040 Records. (1) A record of shipment shall be attached to the prescriber's order and shall include: The name of the patient, strengths, and quantities of drugs; the manufacturers' names; date of shipment; names of persons who selected, assembled and packaged for shipment; and, the name of the pharmacist or designated individual responsible for the distribution.

(2) Prescription and drug distribution records shall be maintained in accordance with board of pharmacy record retention requirements.

[Statutory Authority: RCW 18.64.005 and chapter 18.64A RCW. 91-18-057 (Order 191B), recodified as § 246-905-040, filed 8/30/91, effective 9/30/91. Statutory Authority: RCW 18.64.005. 88-06-026 (Order 210), § 360-60-030, filed 2/25/88.]

WAC 246-905-050 Quality assurance. Home dialysis programs involved in the distribution of legend drugs as permitted by RCW 18.64.257 and 69.41.032, shall develop a quality assurance program for drug distribution and shall maintain records of drug distribution errors and other problems, including loss due to damage or theft.

[Statutory Authority: RCW 18.64.005 and chapter 18.64A RCW. 91-18-057 (Order 191B), recodified as § 246-905-050, filed 8/30/91, effective 9/30/91. Statutory Authority: RCW 18.64.005. 88-06-026 (Order 210), § 360-60-040, filed 2/25/88.]

Chapter 246-907 WAC
PHARMACEUTICAL LICENSING PERIODS AND FEES

WAC

DISPOSITION OF SECTIONS FORMERLY CODIFIED IN THIS CHAPTER

246-907-020 Licensing periods. [Statutory Authority: RCW 43.70.040. 97-06-019, § 246-907-020, filed 2/25/97, effective 3/28/97. Statutory Authority: RCW 18.64.005. 94-14-038 § 246-907-020, filed 6/29/94, effective 7/30/94. Statutory Authority: RCW 43.70.250. 92-07-099 (Order 256), § 246-907-020, filed 3/18/92, effective 4/18/92. Statutory Authority: RCW 43.70.040. 91-19-028 (Order 194), recodified as § 246-907-020, filed 9/10/91, effective 10/11/91. Statutory Authority: RCW 18.64.005, 18.81.080 and 42.17.290. 83-01-083 (Order 171), § 360-18-010, filed 12/17/82. Statutory Authority: RCW 18.64.005 (4) and (11). 80-05-074 (Order 154, Resolution No. 4/80), § 360-18-010, filed 4/28/80.] Repealed by 98-05-060, filed 2/13/98, effective 3/16/98. Statutory Authority: RCW 43.70.280.

WAC 246-907-030 Fees and renewal cycle. (1) Pharmacist, pharmacy technician, and pharmacy intern licenses must be renewed every year on the practitioner's birthday as provided in chapter 246-12 WAC, Part 2.

(2) Pharmacy location, controlled substance registration (pharmacy), pharmacy technician utilization, and shopkeepers differential hours licenses will expire on June 1 of each year.

(3) All other licenses, including health care entity licenses, registrations, permits, or certifications will expire on October 1 of each year.

(4) The following nonrefundable fees will be charged for pharmacy location:

Title of fee	Fee
Original pharmacy fee	$365.00
Original pharmacy technician utilization fee	65.00
Renewal pharmacy fee	265.00
Renewal pharmacy technician utilization fee	75.00
Penalty pharmacy fee	132.50

(5) The following nonrefundable fees will be charged for vendor:

Original fee	75.00
Renewal fee	75.00
Penalty fee	50.00

(6) The following nonrefundable fees will be charged for pharmacist:

Original license fee	130.00
Renewal fee, active and inactive license	135.00
Renewal fee, retired license	20.00
Penalty fee	67.50
Expired license reissuance (active and inactive)	67.50
Reciprocity fee	330.00
Certification of license status to other states	20.00
Retired license	20.00
Temporary permit	65.00

(7) The following nonrefundable fees will be charged for shopkeeper:

Original fee	35.00
Renewal fee	35.00
Penalty fee	35.00
Shopkeeper - with differential hours:	
Original fee	35.00
Renewal fee	35.00
Penalty fee	35.00

(8) The following nonrefundable fees will be charged for drug manufacturer:

Original fee	590.00
Renewal fee	590.00
Penalty fee	295.00

(9) The following nonrefundable fees will be charged for drug wholesaler - full line:

Original fee	590.00
Renewal fee	590.00
Penalty fee	295.00

(10) The following nonrefundable fees will be charged for drug wholesaler - OTC only:

Original fee	330.00
Renewal fee	330.00
Penalty fee	165.00

(11) The following nonrefundable fees will be charged for drug wholesaler - export:

Original fee	590.00
Renewal fee	590.00
Penalty	295.00

(12) The following nonrefundable fees will be charged for drug wholesaler - export nonprofit humanitarian organization.

Original fee	25.00
Renewal fee	25.00
Penalty	25.00

(13) The following nonrefundable fees will be charged for pharmacy technician:

Original fee	50.00
Renewal fee	40.00
Penalty fee	40.00
Expired license reissuance	40.00

(14) The following nonrefundable fees will be charged for pharmacy intern:

Original registration fee	20.00
Renewal registration fee	20.00

(15) The following nonrefundable fees will be charged for Controlled Substances Act (CSA):

Registrations	
Dispensing registration fee (i.e. pharmacies and health care entities)	80.00
Dispensing renewal fee (i.e. pharmacies and health care entities)	65.00
Distributors registration fee (i.e. wholesalers)	115.00
Distributors renewal fee (i.e. wholesalers)	115.00
Manufacturers registration fee	115.00
Manufacturers renewal fee	115.00
Sodium pentobarbital for animal euthanization registration fee	40.00
Sodium pentobarbital for animal euthanization renewal fee	40.00
Other CSA registrations	40.00

(16) The following nonrefundable fees will be charged for legend drug sample - distributor:

Registration fees	
Original fee	365.00
Renewal fee	265.00
Penalty fee	132.50

(17) The following nonrefundable fees will be charged for poison manufacturer/seller - license fees:

Original fee	40.00
Renewal fee	40.00

(18) The following nonrefundable fees will be charged for facility inspection fee:

200.00

(19) The following nonrefundable fees will be charged for precursor control permit:

Original fee	65.00
Renewal fee	65.00

(20) The following nonrefundable fees will be charged for license reissue:

Reissue fee	15.00

(21) The following nonrefundable fees will be charged for health care entity:

Original fee	365.00
Renewal	265.00
Penalty	132.50

WAC 246-907-040 Fee payment. (1) A licensed pharmacist, wholesaler, or manufacturer shall pay a facility inspection fee in lieu of the original license fee when there is only a change of facility location within the premises identified by the license address. Any change of location to a dif-

ferent address shall require a new application and payment of the original license fee.

(2) An original license fee shall be paid whenever there is any change in ownership, including change in business structure or organizational structure such as a change from sole proprietorship to a corporation, or a change of more than fifty percent ownership in a corporation.

(3) All fees are charged on an annual basis and will not be prorated.

[Statutory Authority: RCW 43.70.040. 91-19-028 (Order 194), recodified as § 246-907-040, filed 9/10/91, effective 10/11/91. Statutory Authority: RCW 18.64.005. 88-07-011 (Order 209), § 360-18-025, filed 3/3/88.]

WAC 246-907-995 Conversion to a birthday renewal cycle. (1) Effective July 1, 1998, the annual pharmacist, pharmacy assistant, and pharmacy intern credential renewal dates are changed to coincide with the practitioner's birthday.

(2) Renewal fees will be prorated during the transition period while renewal dates are changed to coincide with the practitioner's birthday.

(3) After the initial conversion to a staggered system, practitioners will annually renew their credential on their birthday at the current renewal rate.

[Statutory Authority: RCW 43.70.280. 98-05-060, § 246-907-995, filed 2/13/98, effective 3/16/98.]

Chapter 246-915 WAC
PHYSICAL THERAPISTS

WAC

DISPOSITION OF SECTIONS FORMERLY CODIFIED IN THIS CHAPTER

246-915-015 Examination appeal procedures. [Statutory Authority: RCW 18.74.023. 92-08-039 (Order 259B), § 246-915-015, filed 3/24/92, effective 4/24/92; 91-05-094 (Order 144B), § 246-915-015, filed 2/20/91, effective 3/23/91.] Repealed by 92-16-082 (Order 294B), filed 8/4/92, effective 9/4/92. Statutory Authority: RCW 18.74.023.

246-915-060 Applications. [Statutory Authority: RCW 18.74.023. 91-02-011 (Order 103B), recodified as § 246-915-060, filed 12/21/90, effective 1/31/91. Statutory Authority: RCW 18.74.023(3). 88-23-014 (Order PM 789), § 308-42-090, filed 11/7/88.] Repealed by 98-05-060, filed 2/13/98, effective 3/16/98. Statutory Authority: RCW 43.70.280.

246-915-080 Renewal of license. [Statutory Authority: RCW 18.74.023. 93-04-081 (Order 328B), § 246-915-080, filed 2/1/93, effective 3/4/93; 91-05-094 (Order 144B), § 246-915-080, filed 2/20/91, effective 3/23/91; 91-02-011 (Order 103B), recodified as § 246-915-080, filed 12/21/90, effective 1/31/91. Statutory Authority: RCW 18.74.023(3). 89-21-008, § 308-42-120, filed 10/6/89, effective 11/6/89; 88-23-014 (Order PM 789), § 308-42-120, filed 11/7/88. Statutory Authority: RCW 18.74.023. 84-03-055 (Order PL 455), § 308-42-120, filed 1/18/84. Statutory Authority: RCW 43.24.140. 80-04-057 (Order 337), § 308-42-120, filed 3/24/80.] Repealed by 97-20-103, filed 9/29/97, effective 10/30/97. Statutory Authority: RCW 43.70.280.

246-915-090 Change of address or name—Notification of department. [Statutory Authority: RCW 18.74.023. 94-05-014 (Order 403B), § 246-915-090, filed 2/4/94, effective 3/7/94; 91-02-011 (Order 103B), recodified as § 246-915-090, filed 12/21/90, effective 1/31/91. Statutory Authority: RCW 18.74.023(3). 89-21-009, § 308-42-121, filed 10/6/89, effective 11/6/89.] Repealed by 97-20-103, filed 9/29/97, effective 10/30/97. Statutory Authority: RCW 43.70.280.

WAC 246-915-010 Definitions. For the purposes of administering chapter 18.74 RCW, the following terms are to be construed as set forth herein:

(1) The "performance of tests of neuromuscular function" includes the performance of electroneuromyographic examinations.

(2) "Consultation" means a communication regarding a patient's evaluation and proposed treatment plan with an authorized health care practitioner.

(3) "Supervisor" shall mean the licensed physical therapist.

(4) "Physical therapist assistant" shall mean a graduate of an approved school of physical therapy who is eligible for licensure but has not been licensed to practice physical therapy in Washington state, or an individual who has received an associate degree as a physical therapist assistant from an approved school.

(5) "Physical therapist aide" shall mean an individual who shall have received on-the-job training from a physical therapist.

(6) "Immediate supervision" shall mean the supervisor is in audible or visual range of the patient and the person treating the patient.

(7) "Direct supervision" shall mean the supervisor is on the premises, is quickly and easily available and the patient has been examined by the physical therapist at such time as acceptable physical therapy practice requires, consistent with the delegated health care task.

(8) "Indirect supervision" shall mean the supervisor is not on the premises, but has given either written or oral instructions for treatment of the patient and the patient has been examined by the physical therapist at such time as acceptable health care practice requires, and consistent with the particular delegated health care task.

(9) "Acquired immunodeficiency syndrome" or "AIDS" means the clinical syndrome of HIV-related illness as defined by the board of health by rule.

(10) "Office on AIDS" means that section within the department of social and health services or any successor department with jurisdiction over public health matters as defined in chapter 70.24 RCW.

(11) "Spinal manipulation" or "manipulative mobilization" is defined as movement beyond the normal physiological range of motion.

[Statutory Authority: RCW 43.70.280. 98-05-060, § 246-915-010, filed 2/13/98, effective 3/16/98. Statutory Authority: RCW 18.74.023. 92-08-039 (Order 259B), § 246-915-010, filed 3/24/92, effective 4/24/92; 91-05-094 (Order 144B), § 246-915-010, filed 2/20/91, effective 3/23/91; 91-02-011 (Order 103B), recodified as § 246-915-010, filed 12/21/90, effective 1/31/91. Statutory Authority: RCW 18.74.023(3). 89-21-007, § 308-42-010, filed 10/6/89, effective 11/6/89; 88-23-014 (Order PM 789), § 308-42-010, filed 11/7/88. Statutory Authority: RCW 18.74.023. 84-13-057 (Order PL 471), § 308-42-010, filed 6/19/84; Order PL 191, § 308-42-010, filed 5/29/75; Order 704207, § 308-42-010, filed 8/7/70, effective 9/15/70.]

WAC 246-915-020 Examinations—When held. (1) Examinations of applicants for licensure as physical therapists shall be held at least twice a year at the time and location prescribed by the board.

(2) Physical therapy students in their last year may apply for licensure by examination prior to graduation under the following circumstances:

(a) Receipt of a letter from an official, of their physical therapy school, verifying the probability of graduation prior to the date of the examination for which they are applying.

(b) Results of the examination will be withheld until a diploma, official transcript or certification letter from the registrar's office certifying completion of all requirements for degree or certificate in physical therapy is received by the department.

(3) Applicants who do not pass the examination after two attempts shall demonstrate evidence satisfactory to the board of having successfully completed clinical training and/or coursework as determined by the board before being permitted two additional attempts.

[Statutory Authority: RCW 18.74.023. 93-04-081 (Order 328B), § 246-915-020, filed 2/1/93, effective 3/4/93; 91-02-011 (Order 103B), recodified as § 246-915-020, filed 12/21/90, effective 1/31/91; 87-08-065 (Order PM 644), § 308-42-040, filed 4/1/87; 84-03-055 (Order PL 455), § 308-42-040, filed 1/18/84. Statutory Authority: RCW 18.74.020. 83-05-032 (Order PL 426), § 308-42-040, filed 2/10/83; 79-05-035 (Order PL 302), § 308-42-040, filed 4/24/79; Order PL 191, § 308-42-040, filed 5/29/75; Order 704207, § 308-42-040, filed 8/7/70, effective 9/15/70.]

WAC 246-915-030 Examination. (1) The examination acceptable to and approved for use under the provisions of RCW 18.74.035 shall be the examination for physical therapists as reviewed and approved by the board of physical therapy. A passing score is considered to be one of the following:

(a) Beginning November 8, 1995, the criterion referenced passing point recommended by the Federation of State Boards of Physical Therapy for the examination approved by the board. The passing point shall be set to equal a scaled score of 600 based on a scale ranging from 200 to 800.

(b) Beginning February 28, 1991, through July 12, 1995, not less than sixty-eight percent of the raw score for the examination approved by the board; or

(c) Prior to February 28, 1991, not less than sixty percent raw score on each of the three examination parts for the examination approved by the board.

(2) If a candidate fails to receive a passing score on the examination, he or she will be required to retake the examination.

(3) Where necessary, applicant's score will be rounded off to the nearest whole number.

[Statutory Authority: RCW 18.74.023. 96-13-008, § 246-915-030, filed 6/6/96, effective 6/7/96; 92-16-082 (Order 294B), § 246-915-030, filed 8/4/92, effective 9/4/92; 91-14-006 (Order 178B), § 246-915-030, filed 6/21/91, effective 7/22/91; 91-05-094 (Order 144B), § 246-915-030, filed 2/20/91, effective 3/23/91; 91-02-011 (Order 103B), recodified as § 246-915-030, filed 12/21/90, effective 1/31/91. Statutory Authority: Chapter 18.74 RCW. 90-16-070 (Order 074), § 308-42-045, filed 7/30/90, effective 8/30/90. Statutory Authority: RCW 18.74.023. 86-19-063 (Order PM 619), § 308-42-045, filed 9/16/86; 84-17-032 (Order PL 477), § 308-42-045, filed 8/8/84. Statutory Authority: RCW 18.74.020. 83-05-032 (Order PL 426), § 308-42-045, filed 2/10/83; 81-19-071 (Order PL 384), § 308-42-045, filed 9/15/81; Order PL 191, § 308-42-045, filed 5/29/75.]

WAC 246-915-040 Licensure by endorsement—Applicants from approved schools. (1) Before licensure by endorsement is extended to any individual licensed to practice physical therapy under the law of another state, territory, or District of Columbia, the applicant shall have graduated from a board approved school, shall have taken the examination for physical therapy and shall have achieved a passing score approved by the board.

(2) If the decision to extend licensure by endorsement is based on an examination other than the examination approved in WAC 246-915-030(1), the board shall determine if such examination is equivalent to that required by the laws of this state.

(3) The board shall not recommend to the secretary that a person be licensed as a physical therapist under the licensure by endorsement provisions of RCW 18.74.060, unless said applicant shall have taken and passed the examination approved by the board, or other examination equivalent to that required by the laws of this state.

(4) If a licensee has not worked in physical therapy in the last two years, the applicant may be granted licensure by endorsement under the following conditions:

(a) The board may require reexamination of an applicant who has not been actively engaged in lawful practice in another state or territory; or

(b) Waive reexamination in favor of evidence of continuing education satisfactory to the board.

[Statutory Authority: RCW 18.74.023. 94-05-014 (Order 403B), § 246-915-040, filed 2/4/94, effective 3/7/94; 91-05-094 (Order 144B), § 246-915-040, filed 2/20/91, effective 3/23/91; 91-02-011 (Order 103B), recodified as § 246-915-040, filed 12/21/90, effective 1/31/91. Statutory Authority: Chapter 18.74 RCW. 90-16-070 (Order 074), § 308-42-060, filed 7/30/90, effective 8/30/90. Statutory Authority: RCW 18.74.023. 86-19-063 (Order PM 619), § 308-42-060, filed 9/16/86; 84-17-032 (Order PL 477), § 308-42-060, filed 8/8/84. Statutory Authority: RCW 18.74.020. 83-05-032 (Order PL 426), § 308-42-060, filed 2/10/83; 81-19-071 (Order PL 384), § 308-42-060,

filed 9/15/81; Order PL 191, § 308-42-060, filed 5/29/75; Order 704207, § 308-42-060, filed 8/7/70, effective 9/15/70.]

WAC 246-915-050 Expired license. (1) If the license has expired for three years or less, the practitioner must meet the requirements of chapter 246-12 WAC, Part 2.

(2) If the license has expired for over three years, and the practitioner has been in active practice in another United States jurisdiction, the practitioner must:

(a) Submit verification of active practice from any other United States jurisdiction;

(b) Meet the requirements of chapter 246-12 WAC, Part 2.

(3) If the license has expired for over three years, and the practitioner has not been in active practice in another United States jurisdiction, the practitioner must:

(a) Successfully pass the examination as provided in RCW 18.74.035. The board may waive reexamination in favor of evidence of continuing competency satisfactory to the board;

(b) Must meet the requirements of chapter 246-12 WAC, Part 2.

[Statutory Authority: RCW 43.70.280. 98-05-060, § 246-915-050, filed 2/13/98, effective 3/16/98. Statutory Authority: RCW 18.74.023. 94-05-014 (Order 403B), § 246-915-050, filed 2/4/94, effective 3/7/94; 91-05-094 (Order 144B), § 246-915-050, filed 2/20/91, effective 3/23/91; 91-02-011 (Order 103B), recodified as § 246-915-050, filed 12/21/90, effective 1/31/91; 84-03-055 (Order PL 455), § 308-42-070, filed 1/18/84. Statutory Authority: RCW 18.74.020. 83-05-032 (Order PL 426), § 308-42-070, filed 2/10/83.]

WAC 246-915-070 Application due date. All examination applications must be submitted no later than sixty days prior to the examination.

[Statutory Authority: RCW 18.74.023. 91-02-011 (Order 103B), recodified as § 246-915-070, filed 12/21/90, effective 1/31/91. Statutory Authority: RCW 18.74.020. 79-05-035 (Order PL 302), § 308-42-110, filed 4/24/79.]

WAC 246-915-075 Temporary permits—Issuance and duration. (1) Unless there is a basis for denial of a physical therapy license, an applicant who is licensed in another jurisdiction shall be issued a temporary practice permit after receipt of the following documentation by the department of health:

(a) Submission of a completed physical therapy license application on which the applicant indicates that he or she wishes to receive a temporary practice permit;

(b) Payment of the application fee and temporary practice permit fee;

(c) Submission of all required supporting documentation as described in the application forms and instructions provided by the department of health, excepting the seven hour AIDS education requirement as described in WAC 246-915-110.

(2) Applicants wishing to receive a temporary practice permit shall be granted an additional ninety days to complete the AIDS education requirement; however, issuance of a physical therapy license is contingent upon evidence of having met this requirement.

(3) The temporary permit shall expire upon the issuance of a license by the board; initiation of an investigation by the board of the applicant; or ninety days, whichever occurs first.

(4) An applicant who receives a temporary practice permit and who does not complete the application process may not receive additional temporary practice permits even upon submission of a new application in the future.

[Statutory Authority: RCW 18.74.023. 92-16-082 (Order 294B), § 246-915-075, filed 8/4/92, effective 9/4/92.]

WAC 246-915-078 Interim permits. An applicant who has not previously taken the physical therapy examination may be eligible for an interim permit under RCW 18.74.075 upon submission of the following:

(1) Payment of the application fee and interim permit fee;

(2) Evidence of having obtained a physical therapy degree from a board approved school;

(3) Completed physical therapy license application on which the applicant:

(a) Requests to be scheduled for the first examination for which he or she is eligible no later than sixty days before the date of the examination;

(b) Requests to receive an interim permit;

(c) Provides the name, location and telephone number of his or her place of employment;

(d) Provides the name and license number of his or her licensed supervising physical therapist; and

(e) Provides written confirmation from the licensed supervising physical therapist attesting that he or she will:

(i) Ensure that a licensed physical therapist will remain on the premises at all times to provide "graduate supervision" as specified in RCW 18.74.075;

(ii) Report to the board any change in supervision or any change in location where services are to be provided;

(iii) Ensure that the holder of the interim permit wears a badge identifying his or her clinical title and/or role in the facility as a graduate physical therapist; and

(iv) Ensure that the holder of the interim permit ceases practice immediately upon notification of examination failure; or

(v) Ensure that the holder of the interim permit obtains his or her physical therapy license immediately upon notification of having passed the examination.

[Statutory Authority: RCW 18.74.023. 94-05-014 (Order 403B), § 246-915-078, filed 2/4/94, effective 3/7/94.]

WAC 246-915-085 Continuing competency. Evidence of continuing competency in the form of continuing education and employment related to physical therapy must be submitted every two years. Licensees born in even numbered years shall submit their continuing competency record form with license renewal every even numbered year. Licensees born in odd numbered years shall submit their continuing competency record form with license renewal every odd numbered year.

(1) Education - Licensed physical therapists must complete 40 hours of continuing education every two years as required in chapter 246-12 WAC, Part 7.

(a) Continuing education specifically relating to the practice of physical therapy.

(i) Participation in a course with specific goals and objectives relating to the practice of physical therapy;

(ii) Cassette tape, video tape, and/or book review;

(iii) Correspondence coursework completed.

(2) Physical therapy employment - 200 hours specifically relating to physical therapy.

(3) Licensees shall maintain records of all activities relating to continuing education and professional experience for a period of seven years. Acceptable documentation shall mean:

(a) Continuing education. Certificates of completion, course sponsors, goals and objectives of the course, dates of attendance and total contact hours, for all continuing education being reported.

(b) Cassette tape, video tape, and/or book review. A two page synopsis of each item reviewed must be written by the licensee.

(c) Correspondence coursework completed. Course description and/or syllabus and copies of the completed and scored examination must be kept on file by the licensee.

(d) Physical therapy employment. Certified copies of employment records or proof acceptable to the board of physical therapy employment for the hours being reported.

[Statutory Authority: RCW 43.70.280. 98-05-060, § 246-915-085, filed 2/13/98, effective 3/16/98. Statutory Authority: RCW 18.74.023. 94-05-014 (Order 403B), § 246-915-085, filed 2/4/94, effective 3/7/94.]

WAC 246-915-100 Approved physical therapy schools. The board adopts the standards of the American Physical Therapy Association for the approval of physical therapy schools. Individuals who have a baccalaureate degree in physical therapy or who have a baccalaureate degree and a certificate or advanced degree from an institution of higher learning accredited by the American Physical Therapy Association will be considered qualified under RCW 18.74.-030(2).

[Statutory Authority: RCW 18.74.023. 91-02-011 (Order 103B), recodified as § 246-915-100, filed 12/21/90, effective 1/31/91; 85-10-002 (Order PL 525), § 308-42-122, filed 4/18/85.]

WAC 246-915-110 AIDS education and training. Applicants must complete seven clock hours of AIDS education as required in chapter 246-12 WAC, Part 8.

[Statutory Authority: RCW 43.70.280. 98-05-060, § 246-915-110, filed 2/13/98, effective 3/16/98. Statutory Authority: RCW 18.74.023. 91-05-094 (Order 144B), § 246-915-110, filed 2/20/91, effective 3/23/91; 91-02-011 (Order 103B), recodified as § 246-915-110, filed 12/21/90, effective 1/31/91. Statutory Authority: RCW 18.74.023(3). 88-23-014 (Order PM 789), § 308-42-123, filed 11/7/88.]

WAC 246-915-120 Applicants from unapproved schools. Applicants who have not graduated from a physical therapy program approved by the board must have a valid, unencumbered license to practice physical therapy in the country in which the physical therapy education was obtained must have graduated from a program of physical therapy education with requirements substantially equal to those required of graduates of board approved schools, and must submit an application for review by the board. Supporting documentation will include but not be limited to:

(1) Official transcript from the physical therapy program showing degree date;

(2) Evaluation report of transcripts from a credentialing service approved by the board.

(3) Verification that English is the national language of the country where the physical therapy program is located and the physical therapy program employs English as the language of training; or achieved a score of not less than five hundred fifty on the test of English as a foreign language (TOEFL); and that the applicant has a score of not less than two hundred thirty on the test of spoken English (TSE);

(4) Verification of a valid, unencumbered license or authorization to practice physical therapy from the country in which the physical therapy education was obtained.

[Statutory Authority: RCW 18.74.023. 94-05-014 (Order 403B), § 246-915-120, filed 2/4/94, effective 3/7/94; 93-04-081 (Order 328B), § 246-915-120, filed 2/1/93, effective 3/4/93; 92-08-039 (Order 259B), § 246-915-120, filed 3/24/92, effective 4/24/92; 91-02-011 (Order 103B), recodified as § 246-915-120, filed 12/21/90, effective 1/31/91; 84-13-057 (Order PL 471), § 308-42-125, filed 6/19/84.]

WAC 246-915-130 Initial evaluation—Referral—Nonreferral—Recommendations—Follow-up. (1) Initial evaluation of a patient shall include history, chief complaint, examination, and recommendation for treatment.

(2) Direct referral of a patient by an authorized health care practitioner may be by telephone, letter, or in person: Provided, however, If the instructions are oral, the physical therapist may administer treatment accordingly, but must make a notation for his/her record describing the nature of the treatment, the date administered, the name of the person receiving treatment, and the name of the referring authorized health care practitioner.

(3) The physical therapist will follow-up each patient visit with the appropriate recordkeeping as defined in WAC 246-915-200.

[Statutory Authority: RCW 18.74.023. 91-05-094 (Order 144B), § 246-915-130, filed 2/20/91, effective 3/23/91; 91-02-011 (Order 103B), recodified as § 246-915-130, filed 12/21/90, effective 1/31/91; 84-13-057 (Order PL 471), § 308-42-130, filed 6/19/84.]

WAC 246-915-140 Delineation of responsibilities—Supportive personnel. A physical therapist is professionally and legally responsible for patient care given by supportive personnel under the physical therapist's supervision. If a physical therapist fails to adequately supervise patient care given by supportive personnel, the board may take disciplinary action against the physical therapist. Supervision of supportive personnel requires that the physical therapist perform the following activities:

(1) Provide initial evaluation of the patient.

(2) Develop a treatment plan and program, including treatment goals.

(3) Assess the competence of supportive personnel to perform assigned tasks.

(4) Select and delegate appropriate portions of the treatment plan and program.

(5) Direct and supervise supportive personnel in delegated functions.

(6) Reevaluate the patient and adjust the treatment plan as acceptable physical therapy practice requires, consistent with the delegated health care task.

(7) Document sufficient in-service training and periodic evaluation of performance to assure safe performance of the tasks assigned to supportive personnel.

(8) Provide discharge planning.

[Statutory Authority: RCW 18.74.023. 94-05-014 (Order 403B), § 246-915-140, filed 2/4/94, effective 3/7/94; 91-05-094 (Order 144B), § 246-915-140, filed 2/20/91, effective 3/23/91; 91-02-011 (Order 103B), recodified as § 246-915-140, filed 12/21/90, effective 1/31/91; 84-17-032 (Order PL 477), § 308-42-135, filed 8/8/84.]

WAC 246-915-150 Physical therapist assistant and physical therapy aide supervision ratio. The number of full-time equivalent physical therapist assistants and aides utilized in any physical therapy practice shall not exceed twice in number the full-time equivalent licensed physical therapists practicing therein.

[Statutory Authority: RCW 18.74.023. 92-08-039 (Order 259B), § 246-915-150, filed 3/24/92, effective 4/24/92; 91-05-094 (Order 144B), § 246-915-150, filed 2/20/91, effective 3/23/91; 91-02-011 (Order 103B), recodified as § 246-915-150, filed 12/21/90, effective 1/31/91; 85-11-049 (Order PL 531), § 308-42-136, filed 5/16/85.]

WAC 246-915-160 Personnel identification. (1) Each person shall wear identification showing his or her clinical title, and/or role in the facility as a physical therapist, a physical therapist assistant, [or] a physical therapy aide, or a graduate physical therapist as appropriate. Supportive personnel shall not use any term or designation which indicates or implies that he or she is licensed in the state of Washington.

(2) The license or interim permit[,] or a certified copy of the license or interim permit shall be posted in a safe, conspicuous location at the licensee's work site. The licensee's address may be blocked out before posting the license or interim permit.

[Statutory Authority: RCW 18.74.023. 94-05-014 (Order 403B), § 246-915-160, filed 2/4/94, effective 3/7/94; 91-05-094 (Order 144B), § 246-915-160, filed 2/20/91, effective 3/23/91; 91-02-011 (Order 103B), recodified as § 246-915-160, filed 12/21/90, effective 1/31/91; 84-13-057 (Order PL 471), § 308-42-140, filed 6/19/84.]

Reviser's note: RCW 34.05.395 requires the use of underlining and deletion marks to indicate amendments to existing rules, and deems ineffectual changes not filed by the agency in this manner. The bracketed material in the above section does not appear to conform to the statutory requirement.

WAC 246-915-170 Special requirements for physical therapist assistant utilization. The physical therapist assistant may function under immediate, direct or indirect supervision if the following requirements are met:

(1) Patient reevaluation must be performed by a supervising licensed physical therapist every five visits, or if treatment is performed more than once a day, reevaluation must be performed at least once a week.

(2) Any change in the patient's condition not consistent with planned progress or treatment goals necessitates a reevaluation by the licensed physical therapist before further treatment is carried out.

[Statutory Authority: RCW 18.74.023. 91-05-094 (Order 144B), § 246-915-170, filed 2/20/91, effective 3/23/91; 91-02-011 (Order 103B), recodified as § 246-915-170, filed 12/21/90, effective 1/31/91. Statutory Authority: RCW 18.74.023(3). 89-19-007 (Order PM 859), § 308-42-145, filed 9/8/89, effective 10/9/89. Statutory Authority: RCW 18.74.023. 84-17-032 (Order PL 477), § 308-42-145, filed 8/8/84.]

WAC 246-915-180 Professional conduct principles. (1) The patient's lawful consent is to be obtained before any information related to the patient is released, except to the consulting or referring authorized health care practitioner and/or authorized governmental agency(s).

(a) Physical therapists are responsible for answering legitimate inquiries regarding a patient's physical dysfunction and treatment progress, and

(b) Information is to be provided to insurance companies for billing purposes only.

(2) Physical therapists are not to compensate to give anything of value to a representative of the press, radio, television, or other communication medium in anticipation of, or in return for, professional publicity in a news item. A paid advertisement is to be identified as such unless it is apparent from the context it is a paid advertisement.

(3) It is the licensee's responsibility to report any unprofessional, incompetent or illegal acts which are in violation of chapter 18.74 RCW or any rules established by the board.

(4) It is the licensee's responsibility to recognize the boundaries of his or her own professional competencies and that he or she uses only those in which he or she can prove training and experience.

(5) Physical therapists shall recognize the need for continuing education and shall be open to new procedures and changes.

(6) It is the licensee's responsibility to represent his or her academic credentials in a way that is not misleading to the public.

(7) It is the responsibility of the physical therapist to refrain from undertaking any activity in which his or her personal problems are likely to lead to inadequate performance or harm to a client and/or colleague.

(8) A physical therapist shall not use or allow to be used any form of public communication or advertising connected with his or her profession or in his or her professional capacity as a physical therapist which:

(a) Is false, fraudulent, deceptive, or misleading;

(b) Uses testimonials;

(c) Guarantees any treatment or result;

(d) Makes claims of professional superiority.

(9) Physical therapists are to recognize that each individual is different from all other individuals and to be tolerant of and responsive to those differences.

[Statutory Authority: RCW 18.74.023. 92-08-039 (Order 259B), § 246-915-180, filed 3/24/92, effective 4/24/92; 91-05-094 (Order 144B), § 246-915-180, filed 2/20/91, effective 3/23/91; 91-02-011 (Order 103B), recodified as § 246-915-180, filed 12/21/90, effective 1/31/91; 84-13-057 (Order PL 471), § 308-42-150, filed 6/19/84.]

WAC 246-915-185 Standards for appropriateness of physical therapy care. (1) Appropriate, skilled physical therapy treatment is treatment which is reasonable in terms of accepted physical therapy practice, and necessary to recovery of function by the patient. The use of a nontraditional treatment by itself shall not constitute unprofessional conduct,

provided that it does not result in injury to a patient or create an unreasonable risk that a patient may be harmed.

(2) Appropriate physical therapy services must be of such a level of complexity and sophistication, or the condition of the patient must be such, that the services required can be safely and effectively performed only by a qualified physical therapist, or under supervision of a qualified physical therapist.

[Statutory Authority: RCW 18.74.023. 92-08-039 (Order 259B), § 246-915-185, filed 3/24/92, effective 4/24/92.]

WAC 246-915-190 Division of fees—Rebating—Financial interest—Endorsement. (1) Physical therapists are not to directly or indirectly request, receive or participate in the dividing, transferring, assigning, rebating or refunding of an unearned fee, or to profit by means of a credit or other valuable consideration such as an unearned commission, discount, or gratuity in connection with the furnishing of physical therapy services.

(2) Physical therapists who practice physical therapy as partners or in other business entities may pool fees and moneys received, either by the partnership or other entity, for the professional services furnished by any physical therapist member or employee of the partnership or entity. Physical therapists may divide or apportion the fees and moneys received by them, in the partnership or other business entity, in accordance with the partnership or other agreement.

(3) There shall be no rebate to any health care practitioner who refers or authorizes physical therapy treatment or evaluation as prohibited by chapter 19.68 RCW.

(4) Physical therapists are not to influence patients to rent or purchase any items which are not necessary for the patient's care.

[Statutory Authority: RCW 18.74.023. 91-02-011 (Order 103B), recodified as § 246-915-190, filed 12/21/90, effective 1/31/91; 84-13-057 (Order PL 471), § 308-42-155, filed 6/19/84.]

WAC 246-915-200 Physical therapy records. In order to maintain the integrity of physical therapy practice, the physical therapist is responsible for obtaining all necessary information, such as medical history, contraindications or, any special instructions from an authorized health care practitioner. The evaluation and treatment plan shall be written according to acceptable physical therapy practice consistent with the delegated health care task. Records must be maintained and include date of treatment, treatment record, and signature of person responsible for the treatment.

[Statutory Authority: RCW 18.74.023. 92-08-039 (Order 259B), § 246-915-200, filed 3/24/92, effective 4/24/92; 91-02-011 (Order 103B), recodified as § 246-915-200, filed 12/21/90, effective 1/31/91; 84-17-032 (Order PL 477), § 308-42-160, filed 8/8/84.]

WAC 246-915-210 General provisions. (1) "Unprofessional conduct" as used in these regulations shall mean the conduct described in RCW 18.130.180.

(2) "Hospital" means any health care institution licensed pursuant to chapter 70.41 RCW.

(3) "Nursing home" means any health care institution which comes under chapter 18.51 RCW.

(4) "Board" means the physical therapy board, whose address is:

Department of Health
1300 Quince Street
Olympia, WA 98504

(5) "Physical therapist" means a person licensed pursuant to chapter 18.74 RCW.

(6) "Mentally or physically disabled physical therapist" means a physical therapist who has either been determined by a court to be mentally incompetent or mentally ill or who is unable to practice physical therapy with reasonable skill and safety to patients by reason of any mental or physical condition.

[Statutory Authority: RCW 18.74.023. 91-05-094 (Order 144B), § 246-915-210, filed 2/20/91, effective 3/23/91; 91-02-011 (Order 103B), recodified as § 246-915-210, filed 12/21/90, effective 1/31/91. Statutory Authority: RCW 18.130.070. 87-18-040 (Order PM 675), § 308-42-210, filed 8/28/87.]

WAC 246-915-220 Mandatory reporting. (1) All reports required by these regulations shall be submitted to the board as soon as possible, but no later than sixty days after a determination is made.

(2) A report should contain the following information if known:

(a) The name, address and telephone number of the person making the report.

(b) The name and address and telephone numbers of the physical therapist being reported.

(c) The case number of any patient whose treatment is a subject of the report.

(d) A brief description or summary of the facts which gave rise to the issuance of the report, including dates of occurrences.

(e) If court action is involved, the name of the court in which the action is filed along with the date of filing and docket number.

(f) Any further information which would aid the evaluation of the report.

[Statutory Authority: RCW 18.74.023. 91-02-011 (Order 103B), recodified as § 246-915-220, filed 12/21/90, effective 1/31/91. Statutory Authority: RCW 18.130.070. 87-18-040 (Order PM 675), § 308-42-220, filed 8/28/87.]

WAC 246-915-230 Health care institutions. The chief administrator or executive officer of any hospital or nursing home shall report to the board when any physical therapist's services are terminated or are restricted based on a determination that the physical therapist has either committed an act or acts which may constitute unprofessional conduct or that the physical therapist may be mentally or physically disabled.

[Statutory Authority: RCW 18.74.023. 91-02-011 (Order 103B), recodified as § 246-915-230, filed 12/21/90, effective 1/31/91. Statutory Authority: RCW 18.130.070. 87-18-040 (Order PM 675), § 308-42-230, filed 8/28/87.]

WAC 246-915-240 Physical therapy associations or societies. The president or chief executive officer of any physical therapy association or society within this state shall report to the board when an association or society determines that a physical therapist has committed unprofessional conduct or that a physical therapist may not be able to practice

physical therapy with reasonable skill and safety to patients as the result of any mental or physical condition and constitutes an apparent risk to the public health, safety or welfare. The report required by this subsection shall be made without regard to whether the license holder appeals, accepts or acts upon the determination made by the association or society. Notification of appeal shall be included.

[Statutory Authority: RCW 18.74.023. 91-02-011 (Order 103B), recodified as § 246-915-240, filed 12/21/90, effective 1/31/91. Statutory Authority: RCW 18.130.070. 87-18-040 (Order PM 675), § 308-42-240, filed 8/28/87.]

WAC 246-915-250 Health care service contractors and disability insurance carriers. The executive officer of every health care service contractor and disability insurer, licensed under chapters 48.20, 48.21, 48.21A and 48.44 RCW operating in the state of Washington, shall report to the board all final determinations that a physical therapist has engaged in overcharging for services or has engaged in overutilization of services or has charged fees for services not actually provided.

[Statutory Authority: RCW 18.74.023. 91-02-011 (Order 103B), recodified as § 246-915-250, filed 12/21/90, effective 1/31/91. Statutory Authority: RCW 18.130.070. 87-18-040 (Order PM 675), § 308-42-250, filed 8/28/87.]

WAC 246-915-260 Professional liability carriers. Every institution or organization providing professional liability insurance directly or indirectly to physical therapists shall send a complete report of any malpractice settlement, award or payment as a result of a claim or action for damages alleged to have been caused by an insured physical therapist's incompetency or negligence in the practice of physical therapy.

[Statutory Authority: RCW 18.74.023. 91-02-011 (Order 103B), recodified as § 246-915-260, filed 12/21/90, effective 1/31/91. Statutory Authority: RCW 18.130.070. 87-18-040 (Order PM 675), § 308-42-260, filed 8/28/87.]

WAC 246-915-270 Courts. The board requests the assistance of all clerks of trial courts within the state to report all professional malpractice judgments and all convictions of licensed physical therapists, other than minor traffic violations.

[Statutory Authority: RCW 18.74.023. 91-02-011 (Order 103B), recodified as § 246-915-270, filed 12/21/90, effective 1/31/91. Statutory Authority: RCW 18.130.070. 87-18-040 (Order PM 675), § 308-42-270, filed 8/28/87.]

WAC 246-915-280 State and federal agencies. The board requests the assistance of executive officers of any state or federal program operating in the state of Washington, under which a physical therapist is employed to provide patient care services, to report to the board whenever such a physical therapist has been judged to have demonstrated his/her incompetency or negligence in the practice of physical therapy, or has otherwise committed unprofessional conduct; or is a mentally or physically disabled physical therapist.

[Statutory Authority: RCW 18.74.023. 91-02-011 (Order 103B), recodified as § 246-915-280, filed 12/21/90, effective 1/31/91. Statutory Authority: RCW 18.130.070. 87-18-040 (Order PM 675), § 308-42-280, filed 8/28/87.]

WAC 246-915-300 Philosophy governing voluntary substance abuse monitoring programs. The board recognizes the need to establish a means of proactively providing early recognition and treatment options for physical therapists whose competency may be impaired due to the abuse of drugs or alcohol. The board intends that such physical therapists be treated and their treatment monitored so that they can return to or continue to practice their profession in a way which safeguards the public. To accomplish this the board shall approve voluntary substance abuse monitoring programs and shall refer physical therapists impaired by substance abuse to approved programs as an alternative to instituting disciplinary proceedings as defined in RCW 18.130.160.

[Statutory Authority: RCW 18.74.023. 91-14-006 (Order 178B), § 246-915-300, filed 6/21/91, effective 7/22/91.]

WAC 246-915-310 Terms used in WAC 246-915-300 through 246-915-330. (1) "Approved substance abuse monitoring program" or "approved monitoring program" is a program the board has determined meets the requirements of the law and the criteria established by the board in WAC 246-915-320 which enters into a contract with physical therapists who have substance abuse problems regarding the required components of the physical therapist's recovery activity and oversees the physical therapist's compliance with these requirements. Substance abuse monitoring programs do not provide evaluation or treatment to participating physical therapists.

(2) "Contract" is a comprehensive, structured agreement between the recovering physical therapist and the approved monitoring program stipulating the physical therapist's consent to comply with the monitoring program and its required components of the physical therapist's recovery activity.

(3) "Approved treatment facility" is a facility approved by the bureau of alcohol and substance abuse, department of social and health services according to RCW 70.96A.020(2) or 69.54.030 to provide intensive alcoholism or drug treatment if located within Washington state. Drug and alcohol treatment programs located out-of-state must be equivalent to the standards required for approval under RCW 70.96A.020(2) or 69.54.030.

(4) "Substance abuse" means the impairment, as determined by the board, of a physical therapist's professional services by an addiction to, a dependency on, or the use of alcohol, legend drugs, or controlled substances.

(5) "Aftercare" is that period of time after intensive treatment that provides the physical therapist and the physical therapist's family with group or individual counseling sessions, discussions with other families, ongoing contact and participation in self-help groups and ongoing continued support of treatment program staff.

(6) "Support group" is a group of health care professionals meeting regularly to support the recovery of its members. The group provides a confidential setting with a trained and experienced health care professional facilitator in which physical therapists may safely discuss drug diversion, licensure issues, return to work and other professional issues related to recovery.

(7) "Twelve steps groups" are groups such as alcoholics anonymous, narcotics anonymous, and related organizations based on a philosophy of anonymity, belief in a power outside of oneself, a peer group association, and self-help.

(8) "Random drug screens" are laboratory tests to detect the presence of drugs of abuse in body fluids which are performed at irregular intervals not known in advance by the person being tested.

(9) "Health care professional" is an individual who is licensed, certified or registered in Washington to engage in the delivery of health care to patients.

[Statutory Authority: RCW 18.74.023. 91-14-006 (Order 178B), § 246-915-310, filed 6/21/91, effective 7/22/91.]

WAC 246-915-320 Approval of substance abuse monitoring programs. The board will approve the monitoring program(s) which will participate in the board's substance abuse monitoring program. A monitoring program approved by the board may be contracted with an entity outside the department but within the state, out-of-state, or a separate structure within the department.

(1) The approved monitoring program will not provide evaluation or treatment to the participating physical therapists.

(2) The approved monitoring program staff must have the qualifications and knowledge of both substance abuse and the practice of physical therapy as defined in this chapter to be able to evaluate:

(a) Clinical laboratories;

(b) Laboratory results;

(c) Providers of substance abuse treatment, both individuals and facilities;

(d) Support groups;

(e) The physical therapy work environment; and

(f) The ability of the physical therapist to practice with reasonable skill and safety.

(3) The approved monitoring program will enter into a contract with the physical therapist and the board to oversee the physical therapist's compliance with the requirements of the program.

(4) The approved monitoring program may make exceptions to individual components of the contract on an individual basis.

(5) The approved monitoring program staff will determine, on an individual basis, whether a physical therapist will be prohibited from engaging in the practice of physical therapy for a period of time and restrictions, if any, on the physical therapist's access to controlled substances in the work place.

(6) The approved monitoring program shall maintain records on participants.

(7) The approved monitoring program will be responsible for providing feedback to the physical therapist as to whether treatment progress is acceptable.

(8) The approved monitoring program shall report to the board any physical therapist who fails to comply with the requirement of the monitoring program.

(9) The approved monitoring program shall receive from the board guidelines on treatment, monitoring, and limitations on the practice of physical therapy for those participating in the program.

[Statutory Authority: RCW 18.74.023. 91-14-006 (Order 178B), § 246-915-320, filed 6/21/91, effective 7/22/91.]

WAC 246-915-330 Participation in approved substance abuse monitoring program. (1) In lieu of disciplinary action, the physical therapist may accept board referral into the approved substance abuse monitoring program.

(a) The physical therapist shall undergo a complete physical and psychosocial evaluation before entering the approved monitoring program. This evaluation will be performed by health care professional(s) with expertise in chemical dependency. The person(s) performing the evaluation shall not also be the provider of the recommended treatment.

(b) The physical therapist shall enter into a contract with the board and the approved substance abuse monitoring program to comply with the requirements of the program which shall include, but not be limited to:

(i) The physical therapist will undergo intensive substance abuse treatment in an approved treatment facility.

(ii) The physical therapist will agree to remain free of all mind-altering substances including alcohol except for medications prescribed by an authorized prescriber, as defined in RCW 69.41.030 and 69.50.101.

(iii) The physical therapist must complete the prescribed aftercare program of the intensive treatment facility, which may include individual and/or group psychotherapy.

(iv) The physical therapist must cause the treatment counselor(s) to provide reports to the approved monitoring program at specified intervals. Reports shall include treatment, prognosis and goals.

(v) The physical therapist will submit to random drug screening as specified by the approved monitoring program.

(vi) The physical therapist will attend support groups facilitated by a health care professional and/or twelve step group meetings as specified by the contract.

(vii) The physical therapist will comply with specified employment conditions and restrictions as defined by the contract.

(viii) The physical therapist shall sign a waiver allowing the approved monitoring program to release information to the board if the physical therapist does not comply with the requirements of this contract.

(c) The physical therapist is responsible for paying the costs of the physical and psychosocial evaluation, substance abuse treatment, and random drug screens.

(d) The physical therapist may be subject to disciplinary action under RCW 18.130.160 if the physical therapist does not consent to be referred to the approved monitoring program, does not comply with specified employment restrictions, or does not successfully complete the program.

(2) A physical therapist who is not being investigated by the board or subject to current disciplinary action or currently being monitored by the board for substance abuse may voluntarily participate in the approved substance abuse monitoring program without being referred by the board. Such voluntary participants shall not be subject to disciplinary action under RCW 18.130.160 for their substance abuse, and shall not

have their participation made known to the board if they meet the requirements of the approved monitoring program:

(a) The physical therapist shall undergo a complete physical and psychosocial evaluation before entering the approved monitoring program. This evaluation will be performed by health care professional(s) with expertise in chemical dependency. The person(s) performing the evaluation shall not also be the provider of the recommended treatment.

(b) The physical therapist shall enter into a contract with the approved substance abuse monitoring program to comply with the requirements of the program which shall include, but not be limited to:

(i) The physical therapist will undergo intensive substance abuse treatment in an approved treatment facility.

(ii) The physical therapist will agree to remain free of all mind-altering substances including alcohol except for medications prescribed by an authorized prescriber, as defined in RCW 69.41.030 and 69.50.101.

(iii) The physical therapist must complete the prescribed aftercare program of the intensive treatment facility, which may include individual and/or group psychotherapy.

(iv) The physical therapist must cause the treatment counselor(s) to provide reports to the approved monitoring program at specified intervals. Reports shall include treatment, prognosis and goals.

(v) The physical therapist will submit to random drug screening as specified by the approved monitoring program.

(vi) The physical therapist will attend support groups facilitated by a health care professional and/or twelve step group meetings as specified by the contract.

(vii) The physical therapist will comply with employment conditions and restrictions as defined by the contract.

(viii) The physical therapist shall sign a waiver allowing the approved monitoring program to release information to the board if the physical therapist does not comply with the requirements of this contract.

(c) The physical therapist is responsible for paying the costs of the physical and psychosocial evaluation, substance abuse treatment, and random drug screens.

(3) The treatment and pretreatment records of license holders referred to or voluntarily participating in approved monitoring programs shall be confidential, shall be exempt from RCW 42.17.250 through 42.17.450 and shall not be subject to discovery by subpoena or admissible as evidence except for monitoring records reported to the disciplinary authority for cause as defined in subsections (1) and (2) of this section. Records held by the board under this section shall be exempt from RCW 42.17.250 through 42.17.450 and shall not be subject to discovery by subpoena except by the license holder.

[Statutory Authority: RCW 18.74.023. 91-14-006 (Order 178B), § 246-915-330, filed 6/21/91, effective 7/22/91.]

WAC 246-915-340 Adjudicative proceedings. The board adopts the model procedural rules for adjudicative proceedings as adopted by the department of health and contained in chapter 246-11 WAC, including subsequent amendments.

[Statutory Authority: RCW 18.74.023. 94-05-014 (Order 403B), § 246-915-340, filed 2/4/94, effective 3/7/94.]

WAC 246-915-990 Physical therapy fees and renewal cycle. (1) Licenses must be renewed every year on the practitioner's birthday as provided in chapter 246-12 WAC, Part 2.

(2) The following nonrefundable fees will be charged:

Title of Fee	Fee
Application	$100.00
License renewal	65.00
Late renewal penalty	50.00
Expired license reissuance	50.00
Duplicate license	15.00
Certification	25.00

[Statutory Authority: RCW 43.70.250. 99-08-101, § 246-915-990, filed 4/6/99, effective 7/1/99. Statutory Authority: RCW 43.70.280. 98-05-060, § 246-915-990, filed 2/13/98, effective 3/16/98. PHYSICIAN ASSISTANTS—MEDICAL QUALITY ASSURANCE COMMISSION

WAC

DISPOSITION OF SECTIONS FORMERLY CODIFIED IN THIS CHAPTER

246-918-006 Refunds. [Statutory Authority: RCW 18.71.017 and 18.71A.020. 96-03-073, § 246-918-006, filed 1/17/96, effective 2/17/96. Statutory Authority: RCW 18.71.017. 92-12-089 (Order 278B), § 246-918-006, filed 6/3/92, effective 7/4/92.] Repealed by 98-05-060, filed 2/13/98, effective 3/16/98. Statutory Authority: RCW 43.70.280.

246-918-008 Brief adjudicative proceedings—Denials based on failure to meet education, experience, or examination prerequisites for licensure. [Statutory Authority: RCW 18.71.017 and 18.71A.020. 96-03-073, § 246-918-008, filed 1/17/96, effective 2/17/96. Statutory Authority: RCW 18.71.017. 92-12-089 (Order 278B), § 246-918-

008, filed 6/3/92, effective 7/4/92.] Repealed by 98-09-118, filed 4/22/98, effective 5/23/98. Statutory Authority: RCW 18.71.017.

246-918-009 Adjudicative proceedings. [Statutory Authority: RCW 18.71.017 and 18.71A.020. 96-03-073, § 246-918-009, filed 1/17/96, effective 2/17/96. Statutory Authority: RCW 18.71A.020 and 18.71.060. 93-21-016, § 246-918-009, filed 10/11/93, effective 11/11/93.] Repealed by 98-09-118, filed 4/22/98, effective 5/23/98. Statutory Authority: RCW 18.71.017.

246-918-020 Physicians' assistants—Scope of jurisdiction. [Statutory Authority: RCW 18.71.017. 91-06-030 (Order 147B), recodified as § 246-918-020, filed 2/26/91, effective 3/29/91. Statutory Authority: RCW 18.71A.020. 78-04-029 (Order PL 285, Resolution No. 78-140), § 308-52-136, filed 3/14/78.] Repealed by 92-12-089, (Order 278B), filed 6/3/92, effective 7/4/92. Statutory Authority: RCW 18.71.017.

246-918-040 Emergency narcotic administration. [Statutory Authority: RCW 18.71.017. 91-06-030 (Order 147B), recodified as § 246-918-040, filed 2/26/91, effective 3/29/91. Statutory Authority: RCW 18.71A.020. 81-03-078 (Order PL 368), § 308-52-132, filed 1/21/81.] Repealed by 92-12-089, (Order 278B), filed 6/3/92, effective 7/4/92. Statutory Authority: RCW 18.71.017.

246-918-060 Physician assistants—Program approval. [Statutory Authority: RCW 18.71.017. 91-06-030 (Order 147B), recodified as § 246-918-060, filed 2/26/91, effective 3/29/91. Statutory Authority: RCW 18.71A.020. 88-06-008 (Order PM 706), § 308-52-138, filed 2/23/88; 85-03-083 (Order PL 507), § 308-52-138, filed 1/18/85; 83-03-031 (Order PL 421), § 308-52-138, filed 1/14/83; 81-03-078 (Order PL 368), § 308-52-138, filed 1/21/81; 78-04-029 (Order PL 285, Resolution No. 78-140), § 308-52-138, filed 3/14/78.] Repealed by 92-12-089, (Order 278B), filed 6/3/92, effective 7/4/92. Statutory Authority: RCW 18.71.017.

246-918-085 License renewal form. [Statutory Authority: RCW 18.71.017 and 18.71A.020. 96-03-073, § 246-918-085, filed 1/17/96, effective 2/17/96. Statutory Authority: RCW 18.130.250. 93-01-078 (Order 321B), § 246-918-085, filed 12/14/92, effective 1/14/93.] Repealed by 98-05-060, filed 2/13/98, effective 3/16/98. Statutory Authority: RCW 43.70.280.

246-918-100 Physician assistants—Responsibility of supervising physician. [Statutory Authority: RCW 18.71.017. 91-06-030 (Order 147B), recodified as § 246-918-100, filed 2/26/91, effective 3/29/91. Statutory Authority: RCW 18.71A.020. 86-12-031 (Order PM 599), § 308-52-141, filed 5/29/86; 81-03-078 (Order PL 368), § 308-52-141, filed 1/21/81; 78-04-029 (Order PL 285, Resolution No. 78-140), § 308-52-141, filed 3/14/78.] Repealed by 92-12-089, (Order 278B), filed 6/3/92, effective 7/4/92. Statutory Authority: RCW 18.71.017.

246-918-160 Physician assistant and certified physician assistant disciplinary actions. [Statutory Authority: RCW 18.71.017. 92-12-089 (Order 278B), § 246-918-160, filed 6/3/92, effective 7/4/92; 91-06-030 (Order 147B), recodified as § 246-918-160, filed 2/26/91, effective 3/29/91. Statutory Authority: RCW 18.71A.020. 82-24-013 (Order PL 412), § 308-52-160, filed 11/19/82.] Repealed by 98-09-119, filed 4/22/98, effective 5/23/98. Statutory Authority: RCW 18.71.017.

246-918-190 Categories of creditable continuing medical education activities. [Statutory Authority: RCW 18.71.017. 91-06-030 (Order 147B), recodified as § 246-918-190, filed 2/26/91, effective 3/29/91. Statutory Authority: RCW 18.71A.020. 81-03-078 (Order PL 368), § 308-52-205, filed 1/21/81.] Repealed by 92-12-089, (Order 278B), filed 6/3/92, effective 7/4/92. Statutory Authority: RCW 18.71.017.

246-918-200 Continuing medical education clock hour credit requirement. [Statutory Authority: RCW 18.71.017. 91-06-030 (Order 147B), recodified as § 246-918-200, filed 2/26/91, effective 3/29/91. Statutory Authority: RCW 18.71A.020. 81-03-078 (Order PL 368), § 308-52-211, filed 1/21/81.] Repealed by 92-12-089, (Order 278B), filed 6/3/92, effective 7/4/92. Statutory Authority: RCW 18.71.017.

246-918-210 Prior activity approval not required. [Statutory Authority: RCW 18.71.017. 91-06-030 (Order 147B), recodified as § 246-918-210, filed 2/26/91, effective 3/29/91. Statutory Authority: RCW 18.71A.020. 81-03-078 (Order PL 368), § 308-52-215, filed 1/21/81.] Repealed by 92-12-089, (Order 278B), filed 6/3/92, effective 7/4/92. Statutory Authority: RCW 18.71.017.

246-918-220 Certification of compliance. [Statutory Authority: RCW 18.71.017. 91-06-030 (Order 147B), recodified as § 246-918-220, filed 2/26/91, effective 3/29/91. Statutory Authority: RCW 18.71A.020. 81-03-078 (Order PL 368), § 308-52-221, filed 1/21/81.] Repealed by 92-12-089, (Order 278B), filed 6/3/92, effective 7/4/92. Statutory Authority: RCW 18.71.017.

246-918-240 Noncertified physician assistant—Surgical assistant. [Statutory Authority: RCW 18.71.017. 91-06-030 (Order 147B), recodified as § 246-918-240, filed 2/26/91, effective 3/29/91. Statutory Authority: RCW 18.71A.020. 89-13-002 (Order PM 850), § 308-52-640, filed 6/8/89, effective 9/30/89.] Repealed by 92-12-089, (Order 278B), filed 6/3/92, effective 7/4/92. Statutory Authority: RCW 18.71.017.

246-918-270 Major surgical procedures. [Statutory Authority: RCW 18.71.017. 91-06-030 (Order 147B), recodified as § 246-918-270, filed 2/26/91, effective 3/29/91. Statutory Authority: RCW 18.71A.020. 89-20-023, § 308-52-680, filed 9/27/89, effective 10/28/89.] Repealed by 92-12-089, (Order 278B), filed 6/3/92, effective 7/4/92. Statutory Authority: RCW 18.71.017.

246-918-280 Surgical assistant program requirements reconsideration. [Statutory Authority: RCW 18.71.017. 91-06-030 (Order 147B), recodified as § 246-918-280, filed 2/26/91, effective 3/29/91. Statutory Authority: RCW 18.71A.020. 89-20-023, § 308-52-690, filed 9/27/89, effective 10/28/89.] Repealed by 92-12-089, (Order 278B), filed 6/3/92, effective 7/4/92. Statutory Authority: RCW 18.71.017.

246-918-290 Acupuncture assistant education. [Statutory Authority: RCW 18.71.017. 91-06-030 (Order 147B), recodified as § 246-918-290, filed 2/26/91, effective 3/29/91. Statutory Authority: RCW 18.71.080 and 18.71A.020. 85-23-043 (Order PL 565), § 308-52-500, filed 11/18/85. Statutory Authority: RCW 18.71A.020. 83-07-014 (Order PL 428), § 308-52-500, filed 3/10/83; 79-06-055 (Order PL 301), § 308-52-500, filed 5/22/79.] Repealed by 92-12-089, (Order 278B), filed 6/3/92, effective 7/4/92. Statutory Authority: RCW 18.71.017.

246-918-300 Acupuncture—Program approval. [Statutory Authority: RCW 18.71.017. 91-06-030 (Order 147B), recodified as § 246-918-300, filed 2/26/91, effective 3/29/91. Statutory Authority: RCW 18.71A.020. 86-16-054 (Order PM 609), § 308-52-502, filed 8/1/86; 83-07-014 (Order PL 428), § 308-52-502, filed 3/10/83.] Repealed by 92-12-089, (Order 278B), filed 6/3/92, effective 7/4/92. Statutory Authority: RCW 18.71.017.

246-918-320 Acupuncture equivalency examination. [Statutory Authority: RCW 18.71.017. 91-06-030 (Order 147B), recodified as § 246-918-320, filed 2/26/91, effective 3/29/91. Statutory Authority: RCW 18.71.080 and 18.71A.020. 85-23-043 (Order PL 565), § 308-52-510, filed 11/18/85. Statutory Authority: RCW 18.71A.020. 79-06-055 (Order PL 301), § 308-52-510, filed 5/22/79.] Repealed by 92-12-089, (Order 278B), filed 6/3/92, effective 7/4/92. Statutory Authority: RCW 18.71.017.

246-918-330 Acupuncture examination review procedures. [Statutory Authority: RCW 18.71.017. 91-06-030 (Order 147B), recodified as § 246-918-330, filed 2/26/91, effective 3/29/91. Statutory Authority: RCW 18.71A.020. 86-16-054 (Order PM 609), § 308-52-515, filed 8/1/86.] Repealed by 92-12-089, (Order 278B), filed 6/3/92, effective 7/4/92. Statutory Authority: RCW 18.71.017.

246-918-340 Investigation. [Statutory Authority: RCW 18.71.017. 91-06-030 (Order 147B), recodified as § 246-918-340, filed 2/26/91, effective 3/29/91. Statutory Authority: RCW 18.71A.020. 79-06-055 (Order PL 301), § 308-52-530, filed 5/22/79.] Repealed by 92-12-089, (Order 278B), filed 6/3/92, effective 7/4/92. Statutory Authority: RCW 18.71.017.

246-918-350 English fluency. [Statutory Authority: RCW 18.71.017. 91-06-030 (Order 147B), recodified as § 246-918-350, filed 2/26/91, effective 3/29/91. Statutory Authority: RCW 18.71A.020. 79-06-055 (Order PL 301), § 308-52-540, filed 5/22/79.] Repealed by 92-12-089, (Order 278B), filed 6/3/92, effective 7/4/92. Statutory Authority: RCW 18.71.017.

246-918-360 X-rays and laboratory tests. [Statutory Authority: RCW 18.71.017. 91-06-030 (Order 147B), recodified as § 246-918-360, filed 2/26/91, effective 3/29/91. Statutory

Authority: RCW 18.71A.020. 82-24-013 (Order PL 412), § 308-52-570, filed 11/19/82; 79-06-055 (Order PL 301), § 308-52-570, filed 5/22/79.] Repealed by 92-12-089, (Order 278B), filed 6/3/92, effective 7/4/92. Statutory Authority: RCW 18.71.017.

246-918-370 Ethical considerations. [Statutory Authority: RCW 18.71.017. 91-06-030 (Order 147B), recodified as § 246-918-370, filed 2/26/91, effective 3/29/91. Statutory Authority: RCW 18.71A.020. 82-24-013 (Order PL 412), § 308-52-580, filed 11/19/82; 79-06-055 (Order PL 301), § 308-52-580, filed 5/22/79.] Repealed by 92-12-089, (Order 278B), filed 6/3/92, effective 7/4/92. Statutory Authority: RCW 18.71.017.

WAC 246-918-005 Definitions. The following terms used in this chapter shall have the meanings set forth in this section unless the context clearly indicates otherwise:

(1) "Certified physician assistant" means an individual who has successfully completed an accredited and commission approved physician assistant program and has passed the initial national boards examination administered by the National Commission on Certification of Physician Assistants (NCCPA).

(2) "Physician assistant" means an individual who either:

(a) Successfully completed an accredited and commission approved physician assistant program, is eligible for the NCCPA examination and was licensed in Washington state prior to July 1, 1999;

(b) Qualified based on work experience and education and was licensed prior to July 1, 1989;

(c) Graduated from an international medical school and was licensed prior to July 1, 1989; or

(d) Holds an interim permit issued pursuant to RCW 18.71A.020(1).

(3) "Physician assistant-surgical assistant" means an individual who was licensed as a physician assistant between September 30, 1989, and December 31, 1989, to function in a limited extent as authorized in WAC 246-918-230.

(4) "Licensee" means an individual credentialed as a certified physician assistant, physician assistant, or physician assistant-surgical assistant.

(5) "Commission approved program" means a physician assistant program accredited by the Committee on Allied Health Education and Accreditation (CAHEA); the Commission on Accreditation of Allied Health Education Programs (CAAHEP); the Accreditation Review Committee on Education for the Physician Assistant (ARC-PA); or any successive accrediting organizations.

(6) "Sponsoring physician" means the physician who is responsible for consulting with a certified physician assistant. An appropriate degree of supervision is involved.

(7) "Supervising physician" means the physician who is responsible for closely supervising, consulting, and reviewing the work of a physician assistant.

[Statutory Authority: RCW 18.71.017, 18.71.050 and chapter 18.71 RCW. 01-18-085, § 246-918-005, filed 9/5/01, effective 10/6/01. Statutory Authority: RCW 18.71.017 and 18.71A.020. 96-03-073, § 246-918-005, filed 1/17/96, effective 2/17/96. Statutory Authority: RCW 18.71A.020 and 18.71.060. 93-21-016, § 246-918-005, filed 10/11/93, effective 11/11/93. Statutory Authority: RCW 18.71.017. 92-12-089 (Order 278B), § 246-918-005, filed 6/3/92, effective 7/4/92.]

WAC 246-918-007 Application withdrawals. An application for a license or interim permit may not be withdrawn if grounds for denial exist.

[Statutory Authority: RCW 18.71.017, 18.71.050 and chapter 18.71 RCW. 01-18-085, § 246-918-007, filed 9/5/01, effective 10/6/01. Statutory Authority: RCW 18.71.017 and 18.71A.020. 96-03-073, § 246-918-007, filed 1/17/96, effective 2/17/96. Statutory Authority: RCW 18.71.017. 92-12-089 (Order 278B), § 246-918-007, filed 6/3/92, effective 7/4/92.]

WAC 246-918-030 Prescriptions issued by physician assistants. A physician assistant may issue written or oral prescriptions as provided herein when approved by the commission and assigned by the supervising physician(s).

(1) A physician assistant may not prescribe controlled substances unless specifically approved by the commission or its designee. A physician assistant may issue prescriptions for legend drugs for a patient who is under the care of the physician(s) responsible for the supervision of the physician assistant.

(a) Written prescriptions shall include the name, address, and telephone number of the physician or medical group; the name and address of the patient and the date on which the prescription was written.

(b) The physician assistant shall sign such a prescription using his or her own name followed by the letters "P.A."

(c) Written prescriptions for schedule two through five must include the physician assistant's D.E.A. registration number, or, if none, the supervising physician's D.E.A. registration number, followed by the letters "P.A." and the physician assistant's license number.

(2) A physician assistant employed or extended privileges by a hospital, nursing home or other health care institution may, if permissible under the bylaws, rules and regulations of the institution, order pharmaceutical agents for inpatients under the care of the physician(s) responsible for his or her supervision.

(3) The license of a physician assistant who issues a prescription in violation of these provisions shall be subject to revocation or suspension.

(4) Physician assistants may dispense medications the physician assistant has prescribed from office supplies. The physician assistant shall comply with the state laws concerning prescription labeling requirements.

[Statutory Authority: RCW 18.71.017 and 18.71A.020. 96-03-073, § 246-918-030, filed 1/17/96, effective 2/17/96. Statutory Authority: RCW 18.71.017. 92-12-089 (Order 278B), § 246-918-030, filed 6/3/92, effective 7/4/92. Statutory Authority: RCW 18.71A.020. 91-08-007 (Order 153B), § 246-918-030, filed 3/26/91, effective 4/26/91. Statutory Authority: RCW 18.71.017. 91-06-030 (Order 147B), recodified as § 246-918-030, filed 2/26/91, effective 3/29/91. Statutory Authority: RCW 18.71A.020. 86-12-031 (Order PM 599), § 308-52-135, filed 5/29/86; 83-07-014 (Order PL 428), § 308-52-135, filed 3/10/83; 82-03-022 (Order PL 390), § 308-52-135, filed 1/14/82; 79-10-041 (Order PL 317), § 308-52-135, filed 9/13/79; Order PL 264, § 308-52-135, filed 3/15/77.]

WAC 246-918-035 Certified physician assistant prescriptions. A certified physician assistant may issue written or oral prescriptions as provided herein when approved by the commission or its designee.

(1) Written prescriptions shall include the name, address, and telephone number of the physician or medical group; the

name and address of the patient and the date on which the prescription was written.

(a) The certified physician assistant shall sign such a prescription using his or her own name followed by the letters "P.A.-C."

(b) The written prescriptions for schedule two through five must include the physician assistant's D.E.A. registration number, or, if none, the sponsoring physician's D.E.A. registration number, followed by the letters "P.A.-C" and the physician assistant's license number.

(2) A certified physician assistant employed or extended privileges by a hospital, nursing home or other health care institution may, if permissible under the bylaws, rules and regulations of the institution, order pharmaceutical agents for inpatients under the care of the sponsoring physician(s).

(3) The license of a certified physician assistant who issues a prescription in violation of these provisions shall be subject to revocation or suspension.

(4) Certified physician assistants may dispense medications the certified physician assistant has prescribed from office supplies. The certified physician assistant shall comply with the state laws concerning prescription labeling requirements.

[Statutory Authority: RCW 18.71.017 and 18.71A.020. 96-03-073, § 246-918-035, filed 1/17/96, effective 2/17/96. Statutory Authority: RCW 18.71.017. 92-12-089 (Order 278B), § 246-918-035, filed 6/3/92, effective 7/4/92. Statutory Authority: RCW 18.71A.020. 91-08-007 (Order 153B), § 246-918-035, filed 3/26/91, effective 4/26/91.]

WAC 246-918-050 Physician assistant qualifications effective July 1, 1999. Individuals applying to the commission under chapter 18.71A RCW after July 1, 1999, must have graduated from an accredited physician assistant program approved by the commission and be certified by successful completion of the NCCPA examination: EXCEPT those applying for an interim permit under RCW 18.71A.020(1) who will have one year from issuance of the interim permit to successfully complete the examination.

[Statutory Authority: RCW 18.71.017, 18.71.050 and chapter 18.71 RCW. 01-18-085, § 246-918-050, filed 9/5/01, effective 10/6/01. Statutory Authority: RCW 18.71.017 and 18.71A.020. 88-21-047 (Order PM 782), § 308-52-610, filed 10/13/88.]

WAC 246-918-080 Physician assistant—Licensure. (1) Application procedure. Applications may be made jointly by the physician and the physician assistant on forms supplied by the commission. Applications and supporting documents must be on file in the commission office prior to consideration for a license or interim permit.

(2) No physician assistant or physician assistant-surgical assistant shall begin practice without commission approval of the practice plan of that working relationship. Practice plans must be submitted on forms provided by the commission.

(3) Changes or additions in supervision. In the event that a physician assistant or physician assistant-surgical assistant who is currently credentialed desires to become associated with another physician, he or she must submit a new practice plan. See WAC 246-918-110 regarding termination of working relationship.

WAC 246-918-095 Scope of practice—Osteopathic alternate physician. The physician assistant licensed under chapter 18.71A RCW practices under the practice plan and prescriptive authority approved by the commission whether the alternate sponsoring physician or alternate supervising physician is licensed under chapter 18.57 or 18.71 RCW.

[Statutory Authority: RCW 18.71.017 and 18.71A.020. 96-03-073, § 246-918-095, filed 1/17/96, effective 2/17/96. Statutory Authority: RCW

18.71A.020, 18.71A.040 and 18.130.186(2). 94-15-065, § 246-918-095, filed 7/19/94, effective 8/19/94.]

WAC 246-918-105 Disciplinary action of sponsoring or supervising physician. To the extent that the sponsoring or supervising physician's practice has been limited by disciplinary action under chapter 18.130 RCW, the physician assistant's practice is similarly limited while working under that physician's sponsorship or supervision.

[Statutory Authority: RCW 18.71A.020, 18.71A.040 and 18.130.186(2). 94-15-065, § 246-918-105, filed 7/19/94, effective 8/19/94.]

WAC 246-918-110 Termination of sponsorship or supervision. Upon termination of the working relationship, the sponsoring or supervising physician and the licensee are each required to submit a letter to the commission indicating the relationship has been terminated and may summarize their observations of the working relationship. Exceptions to this requirement may be authorized by the commission or its designee.

[Statutory Authority: RCW 18.71.017 and 18.71A.020. 96-03-073, § 246-918-110, filed 1/17/96, effective 2/17/96. Statutory Authority: RCW 18.71.017. 92-12-089 (Order 278B), § 246-918-110, filed 6/3/92, effective 7/4/92; 91-06-030 (Order 147B), recodified as § 246-918-110, filed 2/26/91, effective 3/29/91. Statutory Authority: RCW 18.71A.020. 86-24-068 (Order PM 627), § 308-52-146, filed 12/3/86.]

WAC 246-918-120 Remote site—Utilization—Limitations, geographic. (1) No licensee shall be utilized in a remote site without approval by the commission or its designee. A remote site is defined as a setting physically separate from the sponsoring or supervising physician's primary place for meeting patients or a setting where the physician is present less than twenty-five percent of the practice time of the licensee.

(2) Approval by the commission or its designee may be granted to utilize a licensee in a remote site if:

(a) There is a demonstrated need for such utilization;

(b) Adequate provision for timely communication between the primary or alternate physician and the licensee exists;

(c) The responsible sponsoring or supervising physician spends at least ten percent of the practice time of the licensee in the remote site. In the case of part time or unique practice settings, the physician may petition the commission to modify the on-site requirement providing the sponsoring physician demonstrates that adequate supervision is being maintained by an alternate method. The commission will consider each request on an individual basis;

(d) The names of the sponsoring or supervising physician and the licensee shall be prominently displayed at the entrance to the clinic or in the reception area.

[Statutory Authority: RCW 18.71.017 and 18.71A.020. 96-03-073, § 246-918-120, filed 1/17/96, effective 2/17/96. Statutory Authority: RCW 18.71.017. 92-12-089 (Order 278B), § 246-918-120, filed 6/3/92, effective 7/4/92; 91-06-030 (Order 147B), recodified as § 246-918-120, filed 2/26/91, effective 3/29/91. Statutory Authority: RCW 18.71A.020. 88-06-008 (Order PM 706), § 308-52-147, filed 2/23/88.]

WAC 246-918-130 Physician assistants. (1) A physician assistant may perform only those services as outlined in the standardized procedures reference and guidelines established by the commission. If said assistant is being trained to perform additional procedures beyond those established by the commission, the training must be carried out under the direct, personal supervision of the supervising physician or a qualified person mutually agreed upon by the supervising physician and the physician assistant. Requests for approval of newly acquired skills shall be submitted to the commission and may be granted by a reviewing commission member or at any regular meeting of the commission.

(2) The physician assistant may not practice in a remote site, or prescribe controlled substances unless specifically approved by the commission or its designee.

(3) A physician assistant may sign and attest to any document that might ordinarily be signed by a licensed physician, to include but not limited to such things as birth and death certificates.

(4) A physician assistant and supervising physician shall ensure that, with respect to each patient, all activities, functions, services and treatment measures are immediately and properly documented in written form by the physician assistant. Every written entry shall be reviewed and countersigned by the supervising physician within two working days unless a different time period is authorized by the commission.

(5) It shall be the responsibility of the physician assistant and the supervising physician to ensure that adequate supervision and review of the work of the physician assistant are provided.

(6) In the temporary absence of the supervising physician, the supervisory and review mechanisms shall be provided by a designated alternate supervisor(s).

(7) The physician assistant, at all times when meeting or treating patients, must wear a badge identifying him or her as a physician assistant.

(8) No physician assistant may be presented in any manner which would tend to mislead the public as to his or her title.

[Statutory Authority: RCW 18.71.017 and 18.71A.020. 96-03-073, § 246-918-130, filed 1/17/96, effective 2/17/96. Statutory Authority: RCW 18.71.017. 92-12-089 (Order 278B), § 246-918-130, filed 6/3/92, effective 7/4/92; 91-06-030 (Order 147B), recodified as § 246-918-130, filed 2/26/91, effective 3/29/91. Statutory Authority: RCW 18.71A.020. 88-06-008 (Order PM 706), § 308-52-148, filed 2/23/88.]

WAC 246-918-140 Certified physician assistants. (1) A certified physician assistant may perform only those services as outlined in the standardized procedures reference and guidelines established by the commission. If said assistant is being trained to perform additional procedures beyond those established by the commission, the training must be carried out under the direct, personal supervision of the sponsoring physician or a qualified person mutually agreed upon by the sponsoring physician and the certified physician assistant. Requests for approval of newly acquired skills shall be submitted to the commission and may be granted by a reviewing commission member or at any regular meeting of the commission.

(2) A certified physician assistant may sign and attest to any document that might ordinarily be signed by a licensed physician, to include, but not limited to such things as birth and death certificates.

(3) It shall be the responsibility of the certified physician assistant and the sponsoring physician to ensure that appropriate consultation and review of work are provided.

(4) In the temporary absence of the sponsoring physician, the consultation and review of work shall be provided by a designated alternate sponsor(s).

(5) The certified physician assistant must, at all times when meeting or treating patients, wear a badge identifying him or her as a certified physician assistant.

(6) No certified physician assistant may be presented in any manner which would tend to mislead the public as to his or her title.

[Statutory Authority: RCW 18.71.017 and 18.71A.020. 96-03-073, § 246-918-140, filed 1/17/96, effective 2/17/96. Statutory Authority: RCW 18.71.017. 92-12-089 (Order 278B), § 246-918-140, filed 6/3/92, effective 7/4/92; 91-06-030 (Order 147B), recodified as § 246-918-140, filed 2/26/91, effective 3/29/91. Statutory Authority: RCW 18.71A.020. 88-06-008 (Order PM 706), § 308-52-149, filed 2/23/88.]

WAC 246-918-150 Assistance or consultation with other physicians. (1) Physician sponsor. A physician assistant may assist or consult with a physician other than his or her sponsor or alternate concerning the care or treatment of the sponsor's patients, provided it is done with the knowledge and concurrence of the sponsor. The sponsor must maintain on file a written statement which instructs the physician assistant as to who may be assisted or consulted and under what circumstances or if no list is possible, then the method to be used in determining who may be consulted or assisted. The sponsor retains primary responsibility for the performance of his or her physician assistant.

(2) Responsibility of a nonsponsoring physician. A nonsponsoring physician utilizing or advising a physician assistant as indicated in section (1) of this rule, shall assume responsibility for patient services provided by a physician assistant if the physician:

(a) Knowingly requests that patient services be rendered by the physician assistant; or

(b) Knowingly consults with the physician assistant concerning the rendering of patient services.

[Statutory Authority: RCW 18.71.017. 91-06-030 (Order 147B), recodified as § 246-918-150, filed 2/26/91, effective 3/29/91. Statutory Authority: RCW 18.71A.020. 83-03-031 (Order PL 421), § 308-52-150, filed 1/14/83.]

WAC 246-918-170 Physician assistant and certified physician assistant AIDS prevention and information education requirements. Applicants must complete four clock hours of AIDS education as required in chapter 246-12 WAC, Part 8.

[Statutory Authority: RCW 43.70.280. 98-05-060, § 246-918-170, filed 2/13/98, effective 3/16/98. Statutory Authority: RCW 18.71.017 and 18.71A.020. 96-03-073, § 246-918-170, filed 1/17/96, effective 2/17/96. Statutory Authority: RCW 18.71.017. 92-12-089 (Order 278B), § 246-918-170, filed 6/3/92, effective 7/4/92; 91-06-030 (Order 147B), recodified as § 246-918-170, filed 2/26/91, effective 3/29/91. Statutory Authority: RCW 70.24.270. 89-08-063 (Order PM 831), § 308-52-190, filed 4/3/89.]

WAC 246-918-171 Renewal and continuing medical education cycle revision. Beginning January 1, 2000, the one-year renewal cycle for physician assistants will transition to a two-year cycle and two-year continuing medical education cycle. The renewal and continuing medical education will be as follows:

(1) Effective January 1, 2000, any physician assistant whose birth year is an even number will renew their credential for twenty-four months and every two years thereafter. Those physician assistants must obtain one hundred hours of continuing medical education within the twenty-four months following the date their first two-year license is issued and every two years thereafter.

(2) Effective January 1, 2001, any physician assistant whose birth year is an odd number will renew their credential for twenty-four months and every two years thereafter. Those physician assistants must obtain one hundred hours of continuing medical education within the twenty-four months following the date their first two-year license is issued and every two years thereafter.

[Statutory Authority: RCW 18.71.017, 18.130.050(1), 18.130.040(4), 18.130.050(12) and 18.130.340. 99-23-090, § 246-918-171, filed 11/16/99, effective 1/1/00.]

WAC 246-918-180 Continuing medical education requirements. (1) Licensed physician assistants must complete one hundred hours of continuing education every two years as required in chapter 246-12 WAC, Part 7.

(2) In lieu of one hundred hours of continuing medical education the commission will accept a current certification with the National Commission for the Certification of Physician Assistants and will consider approval of other programs as they are developed.

(3) The commission approves the following categories of creditable continuing medical education. A minimum of forty credit hours must be earned in Category I.

Category I	Continuing medical education activities with accredited sponsorship
Category II	Continuing medical education activities with nonaccredited sponsorship and other meritorious learning experience.

(4) The commission adopts the standards approved by the American Academy of Physician Assistants for the evaluation of continuing medical education requirements in determining the acceptance and category of any continuing medical education experience.

(5) It will not be necessary to inquire into the prior approval of any continuing medical education. The commission will accept any continuing medical education that reasonably falls within these regulations and relies upon each licensee's integrity in complying with this requirement.

(6) Continuing medical education sponsors need not apply for nor expect to receive prior commission approval for a formal continuing medical education program. The continuing medical education category will depend solely upon the accredited status of the organization or institution. The number of hours may be determined by counting the contact hours of instruction and rounding to the nearest quarter hour. The commission relies upon the integrity of the program sponsors to present continuing medical education for licensees that constitutes a meritorious learning experience.

[Statutory Authority: RCW 43.70.280. 98-05-060, § 246-918-180, filed 2/13/98, effective 3/16/98. Statutory Authority: RCW 18.71.017 and 18.71A.020. 96-03-073, § 246-918-180, filed 1/17/96, effective 2/17/96.

Statutory Authority: RCW 18.71.017. 92-12-089 (Order 278B), § 246-918-180, filed 6/3/92, effective 7/4/92; 91-06-030 (Order 147B), recodified as § 246-918-180, filed 2/26/91, effective 3/29/91. Statutory Authority: RCW 18.71A.020. 82-03-022 (Order PL 390), § 308-52-201, filed 1/14/82; 81-03-078 (Order PL 368), § 308-52-201, filed 1/21/81.]

WAC 246-918-230 Practice of medicine—Surgical procedures. The following duties constitute the practice of medicine under chapters 18.71 and 18.71A RCW if performed by persons who are not registered, certified, or licensed by an agency of the state to perform these tasks when utilized by surgeons as assistants and are not otherwise exempted by RCW 18.71.030:

(1) Assisting surgeons in opening incisions by use of any surgical method including laser, scalpel, scissors, or cautery;

(2) Assisting surgeons in closing of incisions by use of suture material, staples, or other means;

(3) Controlling bleeding with direct tissue contact by the clamping and tying of blood vessels, cautery, and surgical clips;

(4) Suturing or stapling tissue; and

(5) Tying of closing sutures in any tissues.

[Statutory Authority: RCW 18.71.017. 91-06-030 (Order 147B), recodified as § 246-918-230, filed 2/26/91, effective 3/29/91. Statutory Authority: RCW 18.71A.020. 89-13-002 (Order PM 850), § 308-52-630, filed 6/8/89, effective 9/30/89.]

WAC 246-918-250 Basic physician assistant-surgical assistant duties. The physician assistant-surgical assistant who is not eligible to take the NCCPA certifying exam shall:

(1) Function only in the operating room as approved by the commission;

(2) Only be allowed to close skin and subcutaneous tissue, placing suture ligatures, clamping, tying and clipping of blood vessels, use of cautery for hemostasis under direct supervision;

(3) Not be allowed to perform any independent surgical procedures, even under direct supervision, and will be allowed to only assist the operating surgeon;

(4) Have no prescriptive authority; and

(5) Not write any progress notes or order(s) on hospitalized patients, except operative notes.

[Statutory Authority: RCW 18.71.017 and 18.71A.020. 96-03-073, § 246-918-250, filed 1/17/96, effective 2/17/96. Statutory Authority: RCW 18.71A.020 and 18.71.060. 93-21-016, § 246-918-250, filed 10/11/93, effective 11/11/93. Statutory Authority: RCW 18.71.017. 92-12-089 (Order 278B), § 246-918-250, filed 6/3/92, effective 7/4/92; 91-06-030 (Order 147B), recodified as § 246-918-250, filed 2/26/91, effective 3/29/91. Statutory Authority: RCW 18.71A.020. 89-13-002 (Order PM 850), § 308-52-650, filed 6/8/89, effective 9/30/89.]

WAC 246-918-260 Physician assistant-surgical assistant—Utilization and supervision. (1) Responsibility of physician assistant-surgical assistant. The physician assistant-surgical assistant is responsible for performing only those tasks authorized by the supervising physician(s) and within the scope of physician assistant-surgical assistant practice described in WAC 246-918-250. The physician assistant-surgical assistant is responsible for ensuring his or her compliance with the rules regulating physician assistant-surgical assistant practice and failure to comply may constitute grounds for disciplinary action.

(2) Limitations, geographic. No physician assistant-surgical assistant shall be utilized in a place geographically separated from the institution in which the assistant and the supervising physician are authorized to practice.

(3) Responsibility of supervising physician(s). Each physician assistant-surgical assistant shall perform those tasks he or she is authorized to perform only under the supervision and control of the supervising physician(s), but such supervision and control shall not be construed to necessarily require the personal presence of the supervising physician at the place where the services are rendered. It shall be the responsibility of the supervising physician(s) to insure that:

(a) The operating surgeon in each case directly supervises and reviews the work of the physician assistant-surgical assistant. Such supervision and review shall include remaining in the surgical suite until the surgical procedure is complete;

(b) The physician assistant-surgical assistant shall wear a badge identifying him or her as a "physician assistant-surgical assistant" or "P.A.S.A." In all written documents and other communication modalities pertaining to his or her professional activities as a physician assistant-surgical assistant, the physician assistant-surgical assistant shall clearly denominate his or her profession as a "physician assistant-surgical assistant" or "P.A.S.A.";

(c) The physician assistant-surgical assistant is not presented in any manner which would tend to mislead the public as to his or her title.

[Statutory Authority: RCW 18.71.017 and 18.71A.020. 96-03-073, § 246-918-260, filed 1/17/96, effective 2/17/96. Statutory Authority: RCW 18.130.250. 93-11-008 (Order 360B), § 246-918-260, filed 5/5/93, effective 6/5/93. Statutory Authority: RCW 18.71.017. 92-12-089 (Order 278B), § 246-918-260, filed 6/3/92, effective 7/4/92; 91-06-030 (Order 147B), recodified as § 246-918-260, filed 2/26/91, effective 3/29/91. Statutory Authority: RCW 18.71A.020. 89-13-002 (Order PM 850), § 308-52-660, filed 6/8/89, effective 9/30/89.]

WAC 246-918-310 Acupuncture—Definition. (1) Acupuncture is a traditional system of medical theory, oriental diagnosis and treatment used to promote health and treat organic or functional disorders, by treating specific acupuncture points or meridians. Acupuncture includes the following techniques:

(a) Use of acupuncture needles to stimulate acupuncture points and meridians.

(b) Use of electrical, mechanical or magnetic devices to stimulate acupuncture points and meridians.

(c) Moxibustion.

(d) Acupressure.

(e) Cupping.

(f) Gwa hsa (dermal friction technique).

(g) Infra-red.

(h) Sonopuncture.

(i) Laser puncture.

(j) Dietary advice.

(k) Manipulative therapies.

(l) Point injection therapy (aquapuncture).

These terms are to be understood within the context of the oriental medical art of acupuncture, and as the commission defines them.

[Statutory Authority: RCW 18.71.017 and 18.71A.020. 96-03-073, § 246-918-310, filed 1/17/96, effective 2/17/96. Statutory Authority: RCW 18.71.017. 91-06-030 (Order 147B), recodified as § 246-918-310, filed 2/26/91, effective 3/29/91. Statutory Authority: RCW 18.71A.020. 83-07-014 (Order PL 428), § 308-52-504, filed 3/10/83; 82-24-013 (Order PL 412), § 308-52-504, filed 11/19/82.]

WAC 246-918-990 Fees and renewal cycle. (1) Licenses must be renewed every two years on the practitioner's birthday as provided in chapter 246-12 WAC, Part 2.

(2) The applicant or licensee must pay the following nonrefundable fees:

Title of Fee	Fee
Physician assistants, certified physician assistants, physician assistant-surgical assistants, acupuncture physician assistants:	
Application*	$50.00
Two-year renewal*	70.00
Expired license reissuance	35.00
Duplicate license	15.00
Impaired physician program surcharge	25.00
*(assessed at $25.00 on each application and for each year of the renewal period as required in RCW 18.71.310(2))	

[Statutory Authority: RCW 18.71.017, 18.71A.020 and 43.70.280. 02-05-009, § 246-918-990, filed 2/8/02, effective 3/11/02. Statutory Authority: RCW 18.71.017, 18.130.050(1), 18.130.040(4), 18.130.050(12) and 18.130.340. 99-23-090, § 246-918-990, filed 11/16/99, effective 1/1/00. Statutory Authority: RCW 43.70.040. 91-06-027 (Order 131), § 246-918-990, filed 2/26/91, effective 3/29/91.]

Chapter 246-919 WAC
MEDICAL QUALITY ASSURANCE COMMISSION

WAC

DISPOSITION OF SECTIONS FORMERLY CODIFIED IN THIS CHAPTER

246-919-030 Current address. [Statutory Authority: RCW 18.71.017 and 18.71A.020. 96-03-073, § 246-919-030, filed 1/17/96, effective 2/17/96.] Repealed by 98-05-060, filed 2/13/98, effective 3/16/98. Statutory Authority: RCW 43.70.280.

246-919-200 Petitions for rule making, amendment or repeal—Who may petition. [Statutory Authority: RCW 18.71.017 and 18.71A.020. 96-03-073, § 246-919-200, filed 1/17/96, effective 2/17/96.] Repealed by 96-19-042, filed 9/12/96, effective 10/13/96. Statutory Authority: RCW 18.71.017.

246-919-210 Petitions for rule making, amendment or repeal—Requisites. [Statutory Authority: RCW 18.71.017 and 18.71A.020. 96-03-073, § 246-919-210, filed 1/17/96, effective 2/17/96.] Repealed by 96-19-042, filed 9/12/96, effective 10/13/96. Statutory Authority: RCW 18.71.017.

246-919-220 Petitions for rule making, amendment or repeal—Agency must consider. [Statutory Authority: RCW 18.71.017 and 18.71A.020. 96-03-073, § 246-919-220, filed 1/17/96, effective 2/17/96.] Repealed by 96-19-042, filed 9/12/96, effective 10/13/96. Statutory Authority: RCW 18.71.017.

246-919-230	Petitions for rule making, amendment or repeal—Notice of disposition. [Statutory Authority: RCW 18.71.017 and 18.71A.020. 96-03-073, § 246-919-230, filed 1/17/96, effective 2/17/96.] Repealed by 96-19-042, filed 9/12/96, effective 10/13/96. Statutory Authority: RCW 18.71.017.
246-919-240	Declaratory rulings. [Statutory Authority: RCW 18.71.017 and 18.71A.020. 96-03-073, § 246-919-240, filed 1/17/96, effective 2/17/96.] Repealed by 96-19-042, filed 9/12/96, effective 10/13/96. Statutory Authority: RCW 18.71.017.
246-919-305	Refunds. [Statutory Authority: RCW 18.71.017 and 18.71A.020. 96-03-073, § 246-919-305, filed 1/17/96, effective 2/17/96.] Repealed by 98-05-060, filed 2/13/98, effective 3/16/98. Statutory Authority: RCW 43.70.280.
246-919-400	Scope. [Statutory Authority: RCW 18.71.017 and 18.71A.020. 96-03-073, § 246-919-400, filed 1/17/96, effective 2/17/96.] Repealed by 98-05-060, filed 2/13/98, effective 3/16/98. Statutory Authority: RCW 43.70.280.
246-919-410	License renewal. [Statutory Authority: RCW 18.71.017 and 18.71A.020. 96-03-073, § 246-919-410, filed 1/17/96, effective 2/17/96.] Repealed by 98-05-060, filed 2/13/98, effective 3/16/98. Statutory Authority: RCW 43.70.280.
246-919-420	License renewal form. [Statutory Authority: RCW 18.71.017 and 18.71A.020. 96-03-073, § 246-919-420, filed 1/17/96, effective 2/17/96.] Repealed by 98-05-060, filed 2/13/98, effective 3/16/98. Statutory Authority: RCW 43.70.280.
246-919-440	Certification of compliance. [Statutory Authority: RCW 18.71.017 and 18.71A.020. 96-03-073, § 246-919-440, filed 1/17/96, effective 2/17/96.] Repealed by 98-05-060, filed 2/13/98, effective 3/16/98. Statutory Authority: RCW 43.70.280.
246-919-500	Brief adjudicative proceedings—Denials based on failure to meet education, experience, or examination prerequisites for licensure. [Statutory Authority: RCW 18.71.017 and 18.71A.020. 96-03-073, § 246-919-500, filed 1/17/96, effective 2/17/96.] Repealed by 98-09-118, filed 4/22/98, effective 5/23/98. Statutory Authority: RCW 18.71.017.
246-919-510	Adjudicative proceedings. [Statutory Authority: RCW 18.71.017 and 18.71A.020. 96-03-073, § 246-919-510, filed 1/17/96, effective 2/17/96.] Repealed by 98-09-118, filed 4/22/98, effective 5/23/98. Statutory Authority: RCW 18.71.017.

WAC 246-919-010 Definitions. (1) "Commission" means the Washington state medical quality assurance commission.

(2) "Applicant" is an individual who has completed the application form and has paid the application fee.

(3) "Physician" means a physician licensed pursuant to chapter 18.71 RCW.

(4) "Unprofessional conduct" as used in these regulations shall mean the conduct described in RCW 18.71.0193 for conduct occurring before June 11, 1986, and the conduct described in RCW 18.130.180 for conduct occurring on or after June 11, 1986.

(5) "Hospital" means any health care institution licensed pursuant to chapter 70.41 RCW.

(6) "Nursing home" means any health care institution which comes under chapter 18.51 RCW.

(7) "Mentally or physically disabled physician" means a physician who has either been determined by a court to be mentally incompetent or mentally ill or who is unable to practice medicine with reasonable skill and safety by reason of any mental or physical condition.

[Statutory Authority: RCW 18.71.017 and 18.71A.020. 96-03-073, § 246-919-010, filed 1/17/96, effective 2/17/96.]

WAC 246-919-020 Commission address. The commission's official mailing address is:

Medical Quality Assurance Commission
Department of Health
P.O. Box 47866
Olympia, WA 98504-7866

[Statutory Authority: RCW 18.71.017 and 18.71A.020. 96-03-073, § 246-919-020, filed 1/17/96, effective 2/17/96.]

WAC 246-919-100 Panel composition. The term "commission" as used in chapter 246-919 WAC shall mean a duly constituted panel of the Washington state medical quality assurance commission if a panel has been constituted to preside at a hearing. If a panel has not been so constituted, then the term "commission" shall mean the entire commission or a quorum of the entire commission.

[Statutory Authority: RCW 18.71.017 and 18.71A.020. 96-03-073, § 246-919-100, filed 1/17/96, effective 2/17/96.]

WAC 246-919-110 Commission meetings. Regular commission meetings shall be held at least four times yearly. Additional regular or special meetings may be called at the discretion of the chair or quorum of the commission.

[Statutory Authority: RCW 18.71.017 and 18.71A.020. 96-03-073, § 246-919-110, filed 1/17/96, effective 2/17/96.]

WAC 246-919-120 Appearance and practice before agency—Solicitation of business unethical. It shall be unethical for any person while acting as a representative and/or member of the commission to solicit business based on their association with the commission by circulars, advertisements, or by personal communication or interviews, provided that such representative may publish or circulate business cards. It is equally unethical to procure business indirectly by solicitation of any kind.

[Statutory Authority: RCW 18.71.017 and 18.71A.020. 96-03-073, § 246-919-120, filed 1/17/96, effective 2/17/96.]

WAC 246-919-130 Appearance and practice before agency—Standards of ethical conduct. All persons appearing in proceedings before the commission in a representative capacity shall conform to the standards of ethical conduct required of attorneys before the courts of Washington. If any such person does not conform to such standards, the commission may decline to permit such person to appear in a representative capacity in any proceeding before it.

[Statutory Authority: RCW 18.71.017 and 18.71A.020. 96-03-073, § 246-919-130, filed 1/17/96, effective 2/17/96.]

WAC 246-919-140 Appearance and practice before agency—Appearance by former member of attorney general's staff. No member of the attorney general's staff assigned to represent the commission may at any time after severing his or her employment with the attorney general appear, except with the written permission of the commission, in a representative capacity on behalf of other parties in a formal proceeding wherein he or she previously took an

active part in the investigation as a representative of the commission.

[Statutory Authority: RCW 18.71.017 and 18.71A.020. 96-03-073, § 246-919-140, filed 1/17/96, effective 2/17/96.]

WAC 246-919-150 Appearance and practice before agency—Former employee and board/commission member as witness. No former employee of a board/commission or department of health or former board/commission member shall, at any time after severing employment or serving as a board/commission member, appear as a witness on behalf of parties other than the board/commission or department of health in a formal proceeding wherein he or she previously took an active part in the investigation or deliberation as a representative of the board/commission of the department of health except with the written permission of the commission.

[Statutory Authority: RCW 18.71.017 and 18.71A.020. 96-03-073, § 246-919-150, filed 1/17/96, effective 2/17/96.]

APPLICATIONS AND EXAMINATIONS

WAC 246-919-300 Application withdrawals. An application for a license may not be withdrawn after the commission or the reviewing commission member determines that grounds exist for denial of the license or for the issuance of a conditional license. Applications which are subject to investigation for unprofessional conduct or impaired practice may not be withdrawn.

[Statutory Authority: RCW 18.71.017 and 18.71A.020. 96-03-073, § 246-919-300, filed 1/17/96, effective 2/17/96.]

WAC 246-919-310 Credentialing of physicians and surgeons. All completed applications, for either limited or full licensure, must be reviewed by a member of the commission or a designee authorized in writing by the commission prior to examination and/or licensure.

[Statutory Authority: RCW 18.71.017 and 18.71A.020. 96-03-073, § 246-919-310, filed 1/17/96, effective 2/17/96.]

WAC 246-919-320 Approved United States and Canadian medical schools. For the purposes of the Medical Practice Act, the commission approves those medical schools listed as accredited medical schools in the United States set forth in Appendix II, Table I, and as accredited schools in Canada set forth in Appendix III, Table I, as published in the *Journal of the American Medical Association* for March 7, 1980.

[Statutory Authority: RCW 18.71.017 and 18.71A.020. 96-03-073, § 246-919-320, filed 1/17/96, effective 2/17/96.]

WAC 246-919-330 Postgraduate medical training defined. (1) For the purposes of this chapter, postgraduate medical training means clinical training approved by the commission in general medicine or surgery, or a recognized specialty or subspecialty in the field of medicine or surgery. The training must be acquired after completion of a formal course of undergraduate medical instruction outlined in RCW 18.71.055. Only satisfactory clinical performance evaluations will be accepted. This definition includes, but is not limited to, internships, residencies and fellowships in medical or surgical subjects.

(2) The commission approves only the following postgraduate clinical training courses:

(a) Programs accredited by the Accreditation Council for Graduate Medical Education (ACGME) which are listed in the 1984-85 directory of residency programs, or programs approved by the Accreditation Council at the time of residency.

(b) Programs accredited by the Royal College of Physicians and Surgeons of Canada (RCPSC) or the College of Family Physicians of Canada (CFPC), or programs accredited by the RCPSC or CFPC at the time of residency.

[Statutory Authority: RCW 18.71.017, 18.71.050 and chapter 18.71 RCW. 01-18-087, § 246-919-330, filed 9/5/01, effective 10/6/01. Statutory Authority: RCW 18.71.017 and 18.71A.020. 96-03-073, § 246-919-330, filed 1/17/96, effective 2/17/96.]

WAC 246-919-340 Additional requirements for international medical school graduates. All graduates of medical schools outside the United States, Canada, or Puerto Rico must have either:

(1) Been licensed in another state prior to 1958;

(2) Obtained a certificate with an indefinite status granted by the Educational Commission for Foreign Medical Graduates (ECFMG); or

(3) Successfully completed one year of supervised academic clinical training in the United States, commonly referred to as a Fifth Pathway program.

[Statutory Authority: RCW 18.71.017, 18.71.050 and chapter 18.71 RCW. 01-18-086, § 246-919-340, filed 9/5/01, effective 10/6/01. Statutory Authority: RCW 18.71.017 and 18.71A.020. 96-03-073, § 246-919-340, filed 1/17/96, effective 2/17/96.]

WAC 246-919-350 Examinations. All applications for examination in the state of Washington shall be complete and on file with the Federation of State Medical Boards no later than three months before any USMLE examination.

[Statutory Authority: RCW 18.71.017 and 18.71A.020. 96-03-073, § 246-919-350, filed 1/17/96, effective 2/17/96.]

WAC 246-919-355 Examination scores. Examinations accepted by the Washington state medical quality assurance commission:

(1) The commission adopts the United States Medical Licensing Examination (USMLE) as the examination accepted by the commission.

(2) The minimal passing scores for each component of any approved examination combination shall be a score of seventy-five as defined by the examining authority.

(3) Applicants who do not pass Step 3 of the USMLE examination after three sittings within seven years after passing the first examination, either Step 1 or Step 2, or acceptable combination, shall demonstrate evidence satisfactory to the commission of having completed a remedial or refresher medical course approved by the commission prior to being permitted to sit for the examination again. Applicants who do not pass after the fourth sitting may not sit for another examination without completing an additional year of postgraduate

training or satisfying any other conditions specified by the commission.

(4) To be eligible for USMLE Step 3, the applicant must:

(a) Have obtained the M.D. degree;

(b) Have successfully completed the Federation Licensure Examination (FLEX) Component 1 or both National Boards Examination (NBE) Parts I and II or USMLE Steps 1 and 2 or NBE Part I and USMLE Step 2 or Step 1 and NBE Part II; and

(c) Be certified by the ECFMG if a graduate of an international medical school, or have successfully completed a fifth pathway program; and postgraduate training year in a program of graduate medical education accredited by the Accreditation Council for Graduate Medical Education.

[Statutory Authority: RCW 18.71.017 and 18.71A.020. 96-03-073, § 246-919-355, filed 1/17/96, effective 2/17/96.]

WAC 246-919-360 Examinations accepted for reciprocity or waiver. (1) The commission may accept certain examinations as a basis for licensure. These examinations include USMLE, FLEX, NBE, or those given by the other states, with the exception of Florida and Hawaii. Those who have taken the Licentiate of the Medical Council of Canada (L.M.C.C.) and holds a valid LMCC certification obtained after 1969, may be granted a license without examination.

(2) Examination combination acceptable. Any applicant who has successfully completed Part I (NBE) or Step 1 (USMLE) plus Part II or Step 2 plus Part III or Step 3; or FLEX Component 1 plus Step 3; or Part I or Step 1, plus Part II or Step 2, plus FLEX Component 2 shall be deemed to have successfully completed a medical licensure examination as required by RCW 18.71.070. (For clarification, see Table 1.)

Accepted Examinations taken in Sequence	Other Acceptable Combinations
NBME Part I *plus* NBME Part II *plus* NBME Part III	NBME Part I or USMLE Step 1 *plus* NBME Part II or USMLE Step 2 *plus* NBME Part III or USMLE Step 3
FLEX Component 1 *plus* FLEX Component 2	FLEX Component 1 *plus* USMLE Step 3 or NBME Part I or USMLE Step 1 *plus* NBME Part II or USMLE Step 2 *plus* FLEX Component 2
USMLE Step 1 *plus* USMLE Step 2 *plus* USMLE Step 3	

[Statutory Authority: RCW 18.71.017 and 18.71A.020. 96-03-073, § 246-919-360, filed 1/17/96, effective 2/17/96.]

WAC 246-919-365 FLEX examination standards. Reciprocity applicants who were licensed in another state by passing the FLEX examination will be eligible for a waiver of examination if the applicant received a FLEX weighted average score of at least 75. The score may be obtained in a single setting of the three-day examination or by averaging the individual day scores from different examinations. The individual day scores will be averaged according to the following formula:

Day 1 equals 1/6.

Day 2 equals 2/6.

Day 3 equals 3/6.

The overall average score shall be truncated to the nearest whole number (i.e., an average of 74.9 equals 74). Single subject averaging is not permitted. The commission will accept the FLEX weighted average of 75 reported from the Federation of State Medical Boards. All FLEX scores must be submitted directly from the Federation of State Medical Boards. FLEX scores reported by other states will not be accepted.

[Statutory Authority: RCW 18.71.017 and 18.71A.020. 96-03-073, § 246-919-365, filed 1/17/96, effective 2/17/96.]

WAC 246-919-370 Special purpose examination. (1) The commission may require an applicant or licensee to pass the Special Purpose Examination (SPEX) or any other examination deemed appropriate. An applicant or licensee may be required to take an examination when the commission has concerns with the applicant's or licensee's ability to practice competently for reasons which may include, but are not limited to, the following:

(a) Resolved or pending malpractice suits;

(b) Pending action by another state licensing authority;

(c) Actions pertaining to privileges at any institution; or

(d) Not having practiced for an interval of time.

(2) The minimum passing score on the SPEX examination shall be seventy-five. The passing score for any other examination under this rule shall be determined by the commission.

[Statutory Authority: RCW 18.71.017 and 18.71A.020. 96-03-073, § 246-919-370, filed 1/17/96, effective 2/17/96.]

WAC 246-919-380 AIDS prevention and information education requirements. Applicants must complete four clock hours of AIDS education as required in chapter 246-12 WAC, Part 8.

[Statutory Authority: RCW 43.70.280. 98-05-060, § 246-919-380, filed 2/13/98, effective 3/16/98. Statutory Authority: RCW 18.71.017 and 18.71A.020. 96-03-073, § 246-919-380, filed 1/17/96, effective 2/17/96.]

WAC 246-919-390 Temporary permits—Recognized jurisdictions. (1) For the issuance of temporary permits under RCW 18.130.075 to applicants who graduated from a school of medicine located in any state, territory, or possession of the United States, the District of Columbia, or the Dominion of Canada prior to July 28, 1985, the following jurisdictions are deemed to have licensing standards substantially equivalent to Washington state's licensing standards: Alabama, Alaska, Arizona, Arkansas, California, Colorado, Connecticut, Delaware, District of Columbia, Florida, Georgia, Guam, Hawaii, Idaho, Illinois, Indiana, Iowa, Kansas, Kentucky, Louisiana, Maine, Maryland, Massachusetts, Michigan, Minnesota, Mississippi, Missouri, Montana, Nebraska, Nevada, New Hampshire, New Jersey, New Mexico, New York, North Carolina, North Dakota, Ohio, Oklahoma, Oregon, Pennsylvania, Rhode Island, South Carolina, South Dakota, Texas, Utah, Vermont, Virginia, West Virginia, Wisconsin, and Wyoming.

(2) For the issuance of temporary permits under RCW 18.130.075 to applicants who graduated from a school of medicine located in any state, territory, or possession of the United States, the District of Columbia, or the Dominion of Canada after July 28, 1985, the following jurisdictions are deemed to have licensing standards substantially equivalent to Washington state's licensing standards: Connecticut, Maine, Michigan, Nevada, and New Hampshire.

(3) For the issuance of temporary permits under RCW 18.130.075 to applicants who graduated from a school of medicine located outside the states, territories, and possessions of the United States, the District of Columbia, or the Dominion of Canada prior to July 28, 1985, the following jurisdictions are deemed to have licensing standards substantially equivalent to Washington state's licensing standards: Alabama, Alaska, Arizona, Arkansas, California, Colorado, Connecticut, Delaware, District of Columbia, Florida, Georgia, Guam, Hawaii, Idaho, Illinois, Indiana, Iowa, Kansas, Kentucky, Louisiana, Maine, Maryland, Massachusetts, Michigan, Minnesota, Mississippi, Missouri, Montana, Nebraska, Nevada, New Hampshire, New Jersey, New Mexico, New York, North Carolina, North Dakota, Ohio, Oklahoma, Oregon, Pennsylvania, Rhode Island, South Carolina, South Dakota, Tennessee, Texas, Utah, Vermont, Virginia, West Virginia, Wisconsin, and Wyoming.

(4) For the issuance of temporary permits under RCW 18.130.075 to applicants who graduated from a school of medicine located outside the states, territories, and possessions of the United States, the District of Columbia, or the Dominion of Canada after July 28, 1985, the following jurisdictions are deemed to have licensing standards substantially equivalent to Washington state's licensing standards: Arizona, Colorado, Connecticut, Delaware, Georgia, Hawaii, Idaho, Indiana, Kansas, Kentucky, Louisiana, Maine, Maryland, Massachusetts, Minnesota, Michigan, Mississippi, Missouri, Montana, Nebraska, Nevada, New Hampshire, New Jersey, New Mexico, New York, North Carolina, North Dakota, Ohio, Oregon, Rhode Island, Tennessee, Texas, Virginia, West Virginia, and Wyoming.

[Statutory Authority: RCW 18.71.017 and 18.71A.020. 96-03-073, § 246-919-390, filed 1/17/96, effective 2/17/96.]

WAC 246-919-395 Temporary permits—Issuance and duration. (1) Upon submission of a completed license application form on which the applicant indicates that he or she wishes to receive a temporary practice permit; payment of the application fee and temporary practice permit fee; receipt of the American Medical Association's physicians' data profile verifying states in which the applicant is or was licensed; receipt of disciplinary action data bank report from the Federation of State Medical Boards and receipt of written verification attesting that the applicant has a license in good standing and is not subject to charges or disciplinary action for unprofessional conduct or impairment from all states which the applicant is or was licensed, the applicant shall be issued a temporary practice permit unless there is a basis for denial of the license or issuance of a conditional license.

(2) The temporary permit shall expire upon the issuance of a license by the commission; initiation of an investigation by the commission of the applicant; or ninety days, whichever occurs first.

(3) An applicant who receives a temporary practice permit and who does not complete the application process may not receive additional temporary practice permits even upon submission of a new application in the future.

[Statutory Authority: RCW 18.71.017 and 18.71A.020. 96-03-073, § 246-919-395, filed 1/17/96, effective 2/17/96.]

RENEWAL AND CME REQUIREMENTS

WAC 246-919-421 Renewal and continuing medical education cycle revision. Beginning January 1, 2000, the one-year renewal cycle for physicians will transition to a two-year cycle and a four-year continuing medical education reporting cycle. The renewal and continuing medical education reporting cycle will be as follows:

(1) Effective January 1, 2000, any physician whose birth year is an even number will renew their credential for twenty-four months and every two years thereafter. Those physicians must obtain two hundred hours of continuing medical education within the next forty-eight months from the date of the initial two-year license and every four years thereafter.

(2) Effective January 1, 2001, any physician whose birth year is an odd number will renew their credential for twenty-four months and every two years thereafter. Those physicians must obtain two hundred hours of continuing medical education within the next forty-eight months from the date of the initial two-year license and every four years thereafter.

(3) Effective January 1, 2000, in order to attain full license status, individuals with a post-graduate limited license will pay the fee difference between the limited license application and the full license application. This license will expire on their second birthdate after issuance and every two years thereafter.

(4) Effective January 1, 2000, those physicians on a retired active status will remain on the annual renewal cycle and a four-year continuing medical education reporting

cycle. Those retired active physicians must report two hundred hours of continuing medical education within the next forty-eight months and every four years thereafter.

[Statutory Authority: RCW 18.71.017, 18.130.050(1), 18.130.040(4), 18.130.050(12) and 18.130.340. 99-23-090, § 246-919-421, filed 11/16/99, effective 1/1/00.]

WAC 246-919-430 General requirements. (1) Licensed physicians must complete two hundred hours of continuing education every four years as required in chapter 246-12 WAC, Part 7.

(2) In lieu of the two hundred hours of continuing medical education, the commission will accept a current Physician's Recognition Award from the American Medical Association or a current certificate from any specialty board approved by the American Board of Medical Specialties (ABMS) which is considered by the specialty board as equivalent to the two hundred hours of continuing medical education required under WAC 246-919-430(1). The commission will also accept certification or recertification by a specialty board as the equivalent of two hundred hours of continuing medical education. A list of the approved specialty boards are designated in the *1995 Official American Boards of Medical Specialty Director of Board Certified Medical Specialist* and will be maintained by the commission. The list shall be made available upon request. The certification or recertification must be obtained in the four years preceding application for renewal.

[Statutory Authority: RCW 18.71.017, 18.130.050(1), 18.130.040(4), 18.130.050(12) and 18.130.340. 99-23-090, § 246-919-430, filed 11/16/99, effective 1/1/00. Statutory Authority: RCW 43.70.280. 98-05-060, § 246-919-430, filed 2/13/98, effective 3/16/98. Statutory Authority: RCW 18.71.017 and 18.71A.020. 96-03-073, § 246-919-430, filed 1/17/96, effective 2/17/96.]

WAC 246-919-450 Categories of creditable continuing medical education activities. The following are categories of creditable continuing medical education activities approved by the commission:

Category I	Continuing medical education activities with accredited sponsorship
Category II	Continuing medical education activities with nonaccredited sponsorship (maximum of eighty hours)
Category III	Teaching of physicians or other allied health professionals (maximum of eighty hours)
Category IV	Books, papers, publications, exhibits (maximum of eighty hours)
Category V	Self-directed activities: Self-assessment, self-instruction, specialty board examination preparation, quality of care and/or utilization review (maximum of eighty hours).

[Statutory Authority: RCW 18.71.017, 18.130.050(1), 18.130.040(4), 18.130.050(12) and 18.130.340. 99-23-090, § 246-919-450, filed 11/16/99, effective 1/1/00. Statutory Authority: RCW 18.71.017 and 18.71A.020. 96-03-073, § 246-919-450, filed 1/17/96, effective 2/17/96.]

WAC 246-919-460 Continuing medical education requirement. (1) The credits must be earned in the forty-eight-month period preceding application for renewal of licensure.

(2) **Category I: Continuing medical education activities with accredited sponsorship.** The commission has approved the standards adopted by the Accreditation Council for Continuing Medical Education or its designated interstate accrediting agency, the Washington State Medical Association, in accrediting organizations and institutions offering continuing medical education programs, and will accept attendance at such programs offered by organizations and institutions offering continuing medical education programs, and will accept attendance at such programs offered by organizations and institutions so recognized as Category I credit towards the licensee's continuing medical education requirement for annual renewal of licensure. The licensee may earn all two hundred credit hours in Category I.

(3) **Category II: Continuing medical education activities with nonaccredited sponsorship.** A maximum of eighty credit hours may be earned by attendance at continuing medical education programs that are not approved in accordance with the provisions of Category I.

(4) **Category III: Teaching of physicians or other allied health professionals.** A maximum of eighty credit hours may be earned for serving as an instructor of medical students, house staff, other physicians or allied health professionals from a hospital or institution with a formal training program if the hospital or institution has approved the instruction.

(5) **Category IV: Books, papers, publications, exhibits.**

(a) A maximum of eighty credit hours may be earned under Category IV, with specific subcategories listed below. Credit may be earned only during the forty-eight-month period following presentations or publications.

(b) Ten credit hours may be claimed for a paper, exhibit, publication, or for each chapter of a book that is authored and published. A paper must be published in a recognized medical journal. A paper that is presented at a meeting or an exhibit that is shown must be to physicians or allied health professionals. Credit may be claimed only once for the scientific materials presented. Credit should be claimed as of the date materials were presented or published.

Medical editing can not be accepted in this or any other category for credit.

(6) **Category V: Self-directed activities.**

(a) A maximum of eighty credit hours may be earned under Category V.

(b) Self-assessment: Credit hours may be earned for completion of a multimedia medical education program.

(c) Self-instruction: Credit hours may be earned for the independent reading of scientific journals and books.

(d) Specialty board examination preparation: Credit hours may be earned for preparation for specialty board certification or recertification examinations.

(e) Quality care and/or utilization review: Credit hours may be earned for participation on a staff committee for qual-

ity of care and/or utilization review in a hospital or institution or government agency.

[Statutory Authority: RCW 18.71.017, 18.130.050(1), 18.130.040(4), 18.130.050(12) and 18.130.340. 99-23-090, § 246-919-460, filed 11/16/99, effective 1/1/00. Statutory Authority: RCW 43.70.280. 98-05-060, § 246-919-460, filed 2/13/98, effective 3/16/98. Statutory Authority: RCW 18.71.017 and 18.71A.020. 96-03-073, § 246-919-460, filed 1/17/96, effective 2/17/96.]

WAC 246-919-470 Approval not required. (1) The commission will not give prior approval for any continuing medical education. The commission will accept any continuing medical education that reasonably falls within these regulations and relies upon each individual physician's integrity in complying with this requirement.

(2) The commission will not give prior approval for any formal continuing medical education program. The continuing medical education category will depend solely upon the accredited status of the organization or institution. The number of creditable hours may be determined by counting the contact hours of instruction and rounding to the nearest quarter hour. The commission relies upon the integrity of program sponsors to present continuing medical education that constitutes a meritorious learning experience.

[Statutory Authority: RCW 18.71.017 and 18.71A.020. 96-03-073, § 246-919-470, filed 1/17/96, effective 2/17/96.]

WAC 246-919-475 Expired license. (1) If the license has expired for three years or less the practitioner must meet the requirements of chapter 246-12 WAC, Part 2.

(2) If the license has expired for over three years, the practitioner must:

(a) Reapply for licencing under current requirements as stipulated in RCW 18.71.050 (1)(b) and WAC 246-919-330; and

(b) Meet the requirements of chapter 246-12 WAC, Part 2.

[Statutory Authority: RCW 18.71.017. 01-03-115, § 246-919-475, filed 1/22/01, effective 2/22/01.]

WAC 246-919-480 Retired active credential. (1) A practitioner may obtain a retired active credential. Refer to the requirements of chapter 246-12 WAC, Part 5.

(2) The practitioner's practice is limited to providing health care services without compensation;

(3) Services are provided in community clinics located in the state of Washington that are operated by public or private tax-exempt corporations; and

(4) Services must be limited to primary care.

[Statutory Authority: RCW 43.70.280. 98-05-060, § 246-919-480, filed 2/13/98, effective 3/16/98. Statutory Authority: RCW 18.71.017 and 18.71A.020. 96-03-073, § 246-919-480, filed 1/17/96, effective 2/17/96.]

ADJUDICATIVE PROCEDURES

WAC 246-919-520 Revocation of a physician's license. This section sets forth the procedure by which a respondent may request a review by the medical quality assurance commission of its decision to revoke the respondent's license under RCW 18.71.019:

(1) If the commission issues a final order revoking a respondent's license following an adjudicative proceeding, the respondent may request a review of the decision by a review panel of the commission.

(2) The respondent shall file a written request with the commission within twenty days of effective date of the final order. The respondent may not request an extension of the twenty-day period to file a request for review.

(3) The respondent's request for review of the final order does not change the effective date of the final order.

(4) A review panel shall review the final order. The review panel is composed of the members of the commission who did not:

(a) Review the initial investigation and make the decision to issue a statement of charges against the respondent in this matter; or

(b) Hear the evidence at the adjudicative proceeding and issue the final order revoking the respondent's license.

(5) Within seven days of receipt of the request for review of the final order, a scheduling order is issued setting a date for the review hearing, and a date for the filing of written argument by the parties. The review hearing must take place within sixty days of the respondent's request for review of the final order.

(6) The review panel shall convene in person for the review hearing on the date set in the scheduling order. If a commission member is unavailable to meet on the scheduled date, a pro tempore member shall take that person's place on the review panel. At the review hearing, the review panel:

(a) Shall review the final order;

(b) Shall review written argument presented by the parties; and

(c) May hear oral argument by the parties.

(7) If the review panel determines that revocation of the respondent's license is not the appropriate sanction, it shall issue an amended order setting the appropriate sanction(s) necessary to protect the public.

(8) If the review panel determines that revocation of the respondent's license is appropriate, it shall issue an order confirming that decision.

[Statutory Authority: RCW 18.71.019. 97-21-053, § 246-919-520, filed 10/13/97, effective 11/13/97.]

STANDARDS FOR PROFESSIONAL CONDUCT

WAC 246-919-600 Prescriptions—Schedule II stimulant drugs. (1) A physician shall be guilty of unprofessional conduct if he or she prescribes, orders, dispenses, administers, supplies or otherwise distributes any amphetamines or other Schedule II nonnarcotic stimulant drug to any person except for the therapeutic treatment of:

(a) Narcolepsy;

(b) Hyperkinesis;

(c) Brain dysfunction of sufficiently specific diagnosis, or etiology which clearly indicates the need for these substances in treatment or control;

(d) Epilepsy;

(e) Differential psychiatric evaluation of depression; or

(f) Depression shown to be refractory of other therapeutic modalities; or for the clinical investigation of the effects of

such drugs or compounds in which case an investigative protocol must be submitted to and reviewed and approved by the commission before the investigation has begun.

(2) A physician prescribing or otherwise distributing controlled substances as permitted by subsection (1) of this section shall maintain a complete record which must include:

(a) Documentation of the diagnosis and reason for prescribing; and

(b) Name, dose, strength, and quantity of drug, and the date prescribed or distributed.

(3) The records required by subsection (2) of this section shall be made available for inspection by the commission or its authorized representative upon request.

(4) Schedule II stimulant drugs shall not be dispensed or prescribed for the treatment or control of exogenous obesity.

[Statutory Authority: RCW 18.71.017 and 18.71A.020. 96-03-073, § 246-919-600, filed 1/17/96, effective 2/17/96.]

WAC 246-919-610 Use of drugs or autotransfusion to enhance athletic ability. (1) A physician shall not prescribe, administer or dispense anabolic steroids, growth hormones, testosterone or its analogs, human chorionic gonadotropin (HCG), other hormones, or any form of autotransfusion for the purpose of enhancing athletic ability.

(2) A physician shall complete and maintain patient medical records which accurately reflect the prescribing, administering or dispensing of any substance or drug described in this rule or any form of autotransfusion. Patient medical records shall indicate the diagnosis and purpose for which the substance, drug or autotransfusion is prescribed, administered or dispensed and any additional information upon which the diagnosis is based.

(3) A violation of any provision of this rule shall constitute grounds for disciplinary action under RCW 18.130.180(7). A violation of subsection (1) of this section shall also constitute grounds for disciplinary action under RCW 18.130.180(6).

[Statutory Authority: RCW 18.71.017 and 18.71A.020. 96-03-073, § 246-919-610, filed 1/17/96, effective 2/17/96.]

WAC 246-919-620 Cooperation with investigation. (1) A licensee must comply with a request, under RCW 70.02.050, for health care records or documents from an investigator who is acting on behalf of the disciplining authority pursuant to RCW 18.130.050(2) by submitting the requested items within fourteen calendar days of receipt of the request by the licensee or the licensee's attorney, whichever is first. If the licensee fails to comply with the request within fourteen calendar days, the investigator shall contact the licensee or the licensee's attorney by letter as a reminder.

(a) Investigators may extend the time for response if the licensee requests an extension for a period not to exceed seven calendar days. Other requests for extension may be granted by the commission chair or the commission's designee.

(b) If the licensee fails to comply with the request within three business days after the receipt of the written reminder, a statement of charges shall be issued pursuant to RCW 18.130.180(8) and, if there is sufficient evidence to support additional charges, those charges may be included in the statement of charges.

(2) A licensee must comply with a request for nonhealth care records or documents from an investigator who is acting on behalf of the commission pursuant to RCW 18.130.050(2) by submitting the requested items within fourteen calendar days of receipt of the request by the licensee or the licensee's attorney, whichever is first. If the licensee fails to comply with the request within fourteen calendar days, the investigator shall contact the licensee or the licensee's attorney by letter as a reminder.

(a) Investigators may extend the time for response if the licensee requests an extension for a period not to exceed seven calendar days. Other requests for extension may be granted by the commission chair or the commission's designee.

(b) If the licensee fails to comply with the request within three business days after the receipt of the written reminder, then a subpoena shall be served upon the licensee to obtain the requested items.

(c) If the licensee fails to comply with the subpoena, a statement of charges shall be issued pursuant to RCW 18.130.180(8) and, if there is sufficient evidence to support additional charges, then those charges may be included in the statement of charges.

(3) A licensee must comply with a request for information from an investigator who is acting on behalf of the commission pursuant to RCW 18.130.050(2). This information may include, but is not limited to, an explanation of the matter under investigation, curriculum vitae, continuing medical education credits, malpractice action summaries, or hospital affiliations. The licensee will submit the requested information within fourteen calendar days of receipt of the request by the licensee or the licensee's attorney, whichever is first. If the licensee fails to comply with the request within fourteen calendar days, the investigator shall contact the licensee or the licensee's attorney by letter as a reminder.

(a) Investigators may extend the time for response if the licensee requests an extension for a period not to exceed seven calendar days. Other requests for extension may be granted by the commission chair or the commission's designee.

(b) If the licensee fails to comply with the written reminder within three business days after the receipt of the reminder, a statement of charges shall be issued pursuant to RCW 18.130.180(8) and, if there is sufficient evidence to support additional charges, then those charges may be included in the statement of charges.

(4) In negotiating a settlement on a statement of charges based on RCW 18.130.180(8), the reviewing commission member may take into consideration whether the licensee has complied with the request after the statement of charges has been issued. Any settlement proposal shall be presented to the commission or a duly constituted panel of the commission for a decision on ratification and until ratified, the settlement is not final.

[Statutory Authority: RCW 18.71.017 and 18.71A.020. 96-03-073, § 246-919-620, filed 1/17/96, effective 2/17/96.]

MANDATORY REPORTING

WAC 246-919-700 Mandatory reporting. (1) All reports required by these regulations shall be submitted to the commission as soon as possible, but not later than sixty days after a determination is made.

(2) A report should contain the following information if known:

(a) The name, address and telephone number of the person making the report;

(b) The name, address and telephone numbers of the physician being reported;

(c) The case number of any patient whose treatment is a subject of the report;

(d) A brief description or summary of the facts which gave rise to the issuance of the report, including dates of occurrences;

(e) If court action is involved, the name of the court in which the action is filed along with the date of filing and docket number; and

(f) Any further information which would aid the evaluation of the report.

(3) The mandatory reporting shall not act as a waiver of confidentiality of medical records and committee reports. The information reported or disclosed shall be kept for the confidential use of the commission as provided in the Uniform Disciplinary Act and shall not be subject to subpoena or discovery proceedings in any civil action as provided in RCW 4.24.250, and shall be exempt from public disclosure pursuant to chapter 42.17 RCW except for review as provided in RCW 18.71.0195.

[Statutory Authority: RCW 18.71.017 and 18.71A.020. 96-03-073, § 246-919-700, filed 1/17/96, effective 2/17/96.]

WAC 246-919-710 Mandatory reporting requirement satisfied. The requirement for a report to the commission under RCW 18.71.0193(1) may be satisfied by submitting the report to the impaired physician program approved by the commission under this chapter.

[Statutory Authority: RCW 18.71.017 and 18.71A.020. 96-03-073, § 246-919-710, filed 1/17/96, effective 2/17/96.]

WAC 246-919-720 Health care institutions. The chief administrator or executive officer of any health care institutions, which includes, but is not limited to, hospitals, clinics and nursing homes, shall report to the commission when any physician's clinical privileges are terminated or are restricted based on a determination, in accordance with an institution's bylaws, that a physician has either committed an act or acts which may constitute unprofessional conduct or that a physician may be mentally or physically disabled. Said officer shall also report if a physician accepts voluntary termination or restriction of clinical privileges in lieu of formal action based upon unprofessional conduct or upon being mentally or physically disabled.

[Statutory Authority: RCW 18.71.017 and 18.71A.020. 96-03-073, § 246-919-720, filed 1/17/96, effective 2/17/96.]

WAC 246-919-730 Medical associations or societies. The president or chief executive officer of any medical association or society within this state shall report to the commission when a medical society hearing panel or committee determines that a physician has committed unprofessional conduct or that a physician may not be able to practice medicine with reasonable skill and safety to patients as the result of any mental or physical condition and constitutes an apparent risk to the public health, safety or welfare. The report required by this subsection shall be made without regard to whether the license holder appeals, accepts or acts upon the determination made by the association or society. Notification of appeal shall be included.

[Statutory Authority: RCW 18.71.017 and 18.71A.020. 96-03-073, § 246-919-730, filed 1/17/96, effective 2/17/96.]

WAC 246-919-740 Health care service contractors and disability insurance carriers. The executive officer of every health care service contractor and disability insurer, licensed under chapters 48.20, 48.21, 48.21A and 48.44 RCW operating in the state of Washington, shall report to the commission all final determinations that a physician has engaged in flagrant overcharging for medical services or has flagrantly engaged in overutilization of medical services or has charged fees for medical services not actually provided.

[Statutory Authority: RCW 18.71.017 and 18.71A.020. 96-03-073, § 246-919-740, filed 1/17/96, effective 2/17/96.]

WAC 246-919-750 Courts. The commission requests the assistance of all clerks of trial courts within the state to report all medical malpractice judgments and all convictions of licensed medical doctors, other than minor traffic violations.

[Statutory Authority: RCW 18.71.017 and 18.71A.020. 96-03-073, § 246-919-750, filed 1/17/96, effective 2/17/96.]

WAC 246-919-760 State and federal agencies. The commission requests the assistance of executive officers of any state or federal program operating in the state of Washington, under which a physician is employed to provide patient care services, to report to the commission whenever such a physician has been judged to have demonstrated his/her incompetency or negligence in the practice of medicine, or has otherwise committed unprofessional conduct; or is a mentally or physically disabled physician.

[Statutory Authority: RCW 18.71.017 and 18.71A.020. 96-03-073, § 246-919-760, filed 1/17/96, effective 2/17/96.]

WAC 246-919-770 Professional standards review organizations. When authorized by federal law, every professional standards review organization operating within the state of Washington shall report to the commission any determinations that a physician has engaged or is engaging in consistent, excessive utilization of any medical or surgical test, treatment or procedure when such procedures are clearly not called for under the circumstances in which such services were provided.

[Statutory Authority: RCW 18.71.017 and 18.71A.020. 96-03-073, § 246-919-770, filed 1/17/96, effective 2/17/96.]

PAIN MANAGEMENT

WAC 246-919-800 Purpose. (1) The medical quality assurance commission recognizes that effective pain management is an essential component of quality medical care and that no single approach to the treatment of pain is exclusively correct.

(2) The commission wishes to reassure practitioners that they need not fear disciplinary action from the commission for prescribing, dispensing, or administering opioids when treating pain so long as the care provided is consistent with currently acceptable medical practices. This includes acute, chronic and intractable pain (RCW 69.50.308(g)).

(3) While many other medications may be appropriate in the treatment of pain, these regulations specifically address the use of opioids. As used in these regulations, the term opioid means any natural or synthetic medication that has morphine like activity.

[Statutory Authority: RCW 18.71.017, 18.130.050(1) and (12) and 18.130.340. 99-22-090, § 246-919-800, filed 11/2/99, effective 12/3/99.]

WAC 246-919-810 What specific guidance should a practitioner follow? (1) The commission has adopted guidelines for the management of pain in order to acquaint practitioners with recognized national standards in the field of pain treatment.

(2) These guidelines specifically address the patient evaluation and treatment plan, informed consent, periodic reviews, use of consultations, and the necessity for maintaining accurate and complete medical records.

(3) These guidelines may be revised from time to time to reflect changes in the practice of pain management.

(4) Practitioners who cannot or choose not to treat patients who have complex or chronic pain conditions should offer appropriate referrals for those patients.

[Statutory Authority: RCW 18.71.017, 18.130.050(1) and (12) and 18.130.340. 99-22-090, § 246-919-810, filed 11/2/99, effective 12/3/99.]

WAC 246-919-820 What knowledge should a practitioner possess to treat pain patients? Practitioners treating pain should be:

(1) Knowledgeable about the complex nature of pain;

(2) Familiar with the pain treatment terms used in the commission's pain treatment guidelines; and

(3) Knowledgeable about acceptable pain treatment modalities.

[Statutory Authority: RCW 18.71.017, 18.130.050(1) and (12) and 18.130.340. 99-22-090, § 246-919-820, filed 11/2/99, effective 12/3/99.]

WAC 246-919-830 How will the commission evaluate prescribing for pain? (1) The practitioner's treatment will be evaluated by a review of the provided care to see if it is clinically sound and in accordance with currently acceptable medical practice regarding the treatment of pain.

(2) No disciplinary action will be taken against a practitioner based solely on the quantity and/or frequency of opioids prescribed.

[Statutory Authority: RCW 18.71.017, 18.130.050(1) and (12) and 18.130.340. 99-22-090, § 246-919-830, filed 11/2/99, effective 12/3/99.]

PRACTICE AGREEMENTS WITH ADVANCED REGISTERED NURSE PRACTITIONERS

WAC 246-919-840 How do advanced registered nurse practitioners qualify for prescriptive authority for Schedule II - IV drugs? Applicants must:

(1) Hold a valid and unrestricted registered nurse license.

(2) Hold or be eligible for an advanced registered nurse practitioner license with authority for legend drugs and Schedule V drugs. (See also WAC 246-840-410.) As noted in RCW 18.79.250, each advanced registered nurse practitioner prescribes within his or her scope of practice for a particular license specialty.

(3) Have a joint practice arrangement that meets requirements of WAC 246-919-841 with a physician or physicians licensed under chapter 18.71 or 18.57 RCW who holds a license without restrictions related to prescribing scheduled drugs.

(4) Submit a completed application form for Schedule II - IV endorsement on a form provided by the department of health, nursing care quality assurance commission accompanied by a fee as specified in WAC 246-840-990.

[Statutory Authority: RCW 18.71.017 and 18.71.370. 01-16-010, § 246-919-840, filed 7/19/01, effective 8/19/01.]

WAC 246-919-841 Criteria for joint practice arrangement. The joint practice arrangement shall include:

(1) The names of both the licensed advanced registered nurse practitioner and the licensed physician, both license numbers and both practice addresses;

(2) A written agreement that describes how collaboration will occur between the practitioners; and

(3) The description of the collaboration will vary according to the relationship between the advanced registered nurse practitioner and physician, but must include a description of:

(a) When the advanced registered nurse practitioner will consult with a physician;

(b) How consultation will occur (e.g., face-to-face, phone, fax, e-mail, etc.);

(c) How consultation will be documented.

(4) Joint practice arrangements may be made with more than one physician.

[Statutory Authority: RCW 18.71.017 and 18.71.370. 01-16-010, § 246-919-841, filed 7/19/01, effective 8/19/01.]

WAC 246-919-842 Endorsement of joint practice arrangements for ARNP licensure. (1) The joint practice arrangement shall be submitted by the advanced registered nurse practitioner to the department of health, nursing care quality assurance commission at the time of initial licensure or endorsement and biennially with renewal.

(2) A notice of the joint practice arrangement shall be forwarded by the nursing care quality assurance commission to either the medical quality assurance commission or to the board of osteopathic medicine and surgery for review to assure the physician's license is unrestricted. The medical quality assurance commission or the board of osteopathic medicine and surgery will notify the nursing care quality assurance commission in the event a physician who has

signed a joint practice arrangement, has a license with restrictions related to prescribing scheduled drugs.

(3) The advanced registered nurse practitioner can only begin prescribing Schedule II - IV drugs after his or her license endorsement has been issued and he or she has obtained the appropriate Drug Enforcement Administration registration.

[Statutory Authority: RCW 18.71.017 and 18.71.370. 01-16-010, § 246-919-842, filed 7/19/01, effective 8/19/01.]

WAC 246-919-843 Process for joint practice arrangement termination. (1) The joint practice arrangement between the advanced registered nurse practitioner and the physician shall provide for written notice of termination of the arrangement. The nursing care quality assurance commission shall be notified of the termination. Once the joint practice arrangement is terminated, the advanced registered nurse practitioner must submit a new joint practice arrangement before resuming prescribing Schedule II - IV drugs.

(2) The nursing care quality assurance commission will notify either the medical quality assurance commission or the board of osteopathic medicine and surgery that the joint practice arrangement has been terminated.

(3) A joint practice arrangement may be terminated as a result of disciplining action taken by a disciplining authority.

(4) In the event either the advanced registered nurse practitioner or the physician is disciplined, the disciplining authority for the other party will be notified that the joint practice arrangement no longer exists due to disciplinary action.

(5) If an advanced registered nurse practitioner has multiple approved joint practice arrangements and one is terminated, he or she may continue to prescribe Schedule II - IV drugs under the other joint practice arrangement(s).

[Statutory Authority: RCW 18.71.017 and 18.71.370. 01-16-010, § 246-919-843, filed 7/19/01, effective 8/19/01.]

WAC 246-919-844 Seventy-two-hour limit. (1) Advanced registered nurse practitioners can dispense up to a seventy-two-hour supply of Schedule II - IV drugs.

(2) The seventy-two-hour limit on dispensing does not apply to prescribing Schedule II - IV drugs.

[Statutory Authority: RCW 18.71.017 and 18.71.370. 01-16-010, § 246-919-844, filed 7/19/01, effective 8/19/01.]

WAC 246-919-845 Education for prescribing Schedule II - IV drugs. Special education for advanced registered nurse practitioners is strongly recommended in the areas of pain management and drug seeking behaviors and/or addiction. Continuing education credit in these subjects may be applied to the biennial pharmacotherapeutics requirement found in WAC 246-840-450.

[Statutory Authority: RCW 18.71.017 and 18.71.370. 01-16-010, § 246-919-845, filed 7/19/01, effective 8/19/01.]

WAC 246-919-846 Jurisdiction. Nothing in WAC 246-919-840 through 246-919-845 shall be interpreted as giving a disciplining authority jurisdiction over a practitioner not licensed by that commission or board.

[Statutory Authority: RCW 18.71.017 and 18.71.370. 01-16-010, § 246-919-846, filed 7/19/01, effective 8/19/01.]

PHYSICIAN AND SURGEON FEES

WAC 246-919-990 Physician and surgeon fees and renewal cycle. (1) Licenses must be renewed every two years on the practitioner's birthday as provided in chapter 246-12 WAC, Part 2, except postgraduate training limited licenses and retired active physician licenses.

(2) Postgraduate training limited licenses must be renewed every year to correspond to program date.

(3) Retired active physician licenses shall be renewed every year.

(4) The applicants and licensees must pay the following nonrefundable fees:

Title of Fee	Fee
Physicians and surgeons: Chapter 18.71 RCW	
Application*	$300.00
Retired active physician license renewal*	100.00
Retired active late renewal penalty	50.00
Two-year renewal*	400.00
Late renewal penalty	100.00
Expired license reissuance	200.00
Certification of license	50.00
Duplicate license	15.00
Temporary permit	50.00
Application fee for transitioning from a postgraduate training limited license*	100.00
Postgraduate limited license fees: RCW 18.71.095	
Limited license application*	200.00
Limited license renewal*	200.00
Limited duplicate license	15.00
Impaired physician program *(assessed at $25.00 on each application and for each year of the renewal period as required in RCW 18.71.-310(2))	25.00

246-922-280 Renewal expiration date. [Statutory Authority: RCW 18.22.015. 91-10-041 (Order 158B), § 246-922-280, filed 4/25/91, effective 5/26/91.] Repealed by 98-05-060, filed 2/13/98, effective 3/16/98. Statutory Authority: RCW 43.70.280.

246-922-320 Certification of compliance. [Statutory Authority: RCW 18.22.015. 91-10-041 (Order 158B), § 246-922-320, filed 4/25/91, effective 5/26/91.] Repealed by 98-05-060, filed 2/13/98, effective 3/16/98. Statutory Authority: RCW 43.70.280.

WAC 246-922-001 Scope of practice. (1) An "ailment of the human foot" as set forth in RCW 18.22.010 is defined as any condition, symptom, disease, complaint, or disability involving the functional foot. The functional foot includes the anatomical foot and any muscle, tendon, ligament, or other soft tissue structure directly attached to the anatomical foot and which impacts upon or affects the foot or foot function and osseous structure up to and including the articulating surfaces of the ankle joint.

(2) In diagnosing or treating the ailments of the functional foot, a podiatric physician and surgeon is entitled to utilize medical, surgical, mechanical, manipulative, radiological, and electrical treatment methods and the diagnostic procedure or treatment method may be utilized upon an anatomical location other than the functional foot. The diagnosis and treatment of the foot includes diagnosis and treatment necessary for preventive care of the well foot.

(3) A podiatric physician and surgeon may examine, diagnose, and commence treatment of ailments for which differential diagnoses include an ailment of the human foot. Upon determination that the condition presented is not an ailment of the human foot, the podiatric physician and surgeon shall obtain an appropriate consultation or make an appropriate referral to a licensed health care practitioner authorized by law to treat systemic conditions. The podiatric physician and surgeon may take emergency actions as are reasonably necessary to protect the patient's health until the intervention of a licensed health care practitioner authorized by law to treat systemic conditions.

(4) A podiatric physician and surgeon may diagnose or treat an ailment of the human foot caused by a systemic condition provided an appropriate consultation or referral for the systemic condition is made to a licensed health care practitioner authorized by law to treat systemic conditions.

(5) A podiatric physician and surgeon shall not administer a general or spinal anesthetic, however, a podiatric physician and surgeon may treat ailments of the human foot when the treatment requires use of a general or spinal anesthetic provided that the administration of the general or spinal anesthetic is by or under the supervision of a physician authorized under chapter 18.71 or 18.57 RCW.

[Statutory Authority: RCW 18.22.015. 91-10-041 (Order 158B), § 246-922-001, filed 4/25/91, effective 5/26/91; 91-03-095 (Order 118B), recodified as § 246-922-001, filed 1/18/91, effective 2/18/91; 87-09-045 (Order PM 643), § 308-31-025, filed 4/14/87; 87-04-050 (Order PM 638), § 308-31-025, filed 2/3/87.]

WAC 246-922-010 Definitions. (1) Chiropody, podiatry, and podiatric medicine and surgery shall be synonymous.

(2) "Board" shall mean the Washington state podiatric medical board.

(3) "Secretary" shall mean the secretary of the department of health.

(4) "Supervision" shall mean that a licensed podiatric physician and surgeon whose patient is being treated has personally diagnosed the condition to be treated and has personally authorized and directed the procedures to be performed.

A podiatric physician and surgeon shall be physically present in the treatment facility while the procedures are performed.

(5) "Treatment facility" means a podiatric medical office or connecting suite of offices, podiatric medical clinic, room or area with equipment to provide podiatric medical treatment, or the immediately adjacent rooms or areas. A treatment facility does not extend to any other area of a building in which the treatment facility is located.

(6) "Unlicensed person" means a person who is not a podiatric physician and surgeon duly licensed pursuant to the provisions of chapter 18.22 RCW.

(7) Orthotic devices defined:

(a) Prefabricated or off-the-shelf orthotics, are devices that are manufactured as commercially available stock items for no specific patient. It is appropriate to dispense prefabricated orthotic devices for some conditions.

(b) Direct-formed orthotics are devices formed or shaped during the molding process directly on the patient's foot.

(c) Custom-fabricated orthotics, also known as custom-made orthotics, are devices designed and fabricated, in turn, from raw materials for a specific patient, and require the generation of an image, form, or mold that replicates the patient's foot, and, in turn, involves the rectification of dimensions, contours, and volumes to achieve proper fit, comfort, and function for that specific patient.

Prefabricated orthotic devices that have been adjusted or modified may not be dispensed and sold to consumers as custom fabricated or custom-made orthotics. All orthotic devices must be correctly represented and charged to the patient.

[Statutory Authority: RCW 18.22.015 and 18.130.050. 99-14-074, § 246-922-010, filed 7/6/99, effective 8/6/99. Statutory Authority: RCW 18.22.015. 91-10-041 (Order 158B), § 246-922-010, filed 4/25/91, effective 5/26/91; 91-03-095 (Order 118B), recodified as § 246-922-010, filed 1/18/91, effective 2/18/91; 84-02-077 (Order PL 450), § 308-31-020, filed 1/4/84; Order PL 128, § 308-31-020, filed 7/7/72.]

WAC 246-922-020 Board officers. In addition to electing a board member to serve as chairperson as required by RCW 18.22.014, the board shall also elect a vice-chairperson and a secretary from among its members.

The board shall schedule an annual election of members to the above named offices.

[Statutory Authority: RCW 18.22.015. 91-03-095 (Order 118B), recodified as § 246-922-020, filed 1/18/91, effective 2/18/91. Statutory Authority: RCW 18.22.015(8). 86-01-041 (Order PL 573), § 308-31-001, filed 12/13/85.]

WAC 246-922-030 Approved schools of podiatric medicine. For the purpose of the laws relating to podiatric medicine, the board approves the following list of schools of podiatric medicine: California College of Podiatric Medicine, San Francisco, California; College of Podiatric Medicine and Surgery, Des Moines, Iowa; New York College of Podiatric Medicine, New York, New York; Ohio College of Podiatric Medicine, Cleveland, Ohio; Pennsylvania College of Podiatric Medicine, Philadelphia, Pennsylvania; Dr. William Scholl College of Podiatric Medicine, Chicago, Illinois; Barry University School of Podiatric Medicine, Miami Shores, Florida.

[Statutory Authority: RCW 18.22.015. 91-10-041 (Order 158B), § 246-922-030, filed 4/25/91, effective 5/26/91; 91-03-095 (Order 118B), recodified as § 246-922-030, filed 1/18/91, effective 2/18/91. Statutory Authority: RCW 18.22.015 and 18.22.010(5). 86-22-042 (Order PM 624), § 308-31-030, filed 11/3/86. Statutory Authority: 1982 c 21 § 10. 83-03-032 (Order 418), § 308-31-030, filed 1/14/83.]

WAC 246-922-032 Postgraduate podiatric medical training defined. (1) For the purposes of this chapter, postgraduate podiatric medical training shall be considered to mean clinical training that meets the educational standards established by the profession. The training must be acquired after satisfactory completion of a course in an approved school of podiatric medicine and surgery as specified in RCW 18.22.040. Clinical performance shall be deemed satisfactory to fulfill the purposes of this requirement. This definition shall be considered to include, but not be limited to, rotating podiatric residency, podiatric orthopedic residency, and podiatric surgical residency.

(2) The board approves the following postgraduate clinical training courses: Programs approved by the American Podiatric Medical Association Council on Podiatric Medical Education which are listed in the 1992-1993 directory of *Approved Residencies in Podiatric Medicine,* and programs approved by the Council on Podiatric Medical Education at the time the postgraduate training was obtained.

[Statutory Authority: RCW 18.22.015. 94-05-051, § 246-922-032, filed 2/10/94, effective 3/13/94.]

WAC 246-922-033 Eligibility for licensure. An applicant for licensure or limited licensure must file a completed application and applicable fee, which shall include information and documentation relative to education and training, past practice performance, licensure history, and a record of all adverse or correctional actions taken by another state or appropriate regulatory body, ability to safely practice podiatric medicine with reasonable skill and safety to the consumer, and other relevant documentation or information as the board may require to determine fitness or eligibility for licensure.

(1) Applicants requesting a license to practice podiatric medicine shall have completed one year postgraduate podiatric medical training in a program approved by the board as defined in WAC 246-922-032, provided that applicants graduating before July 1, 1993, shall be exempt from the postgraduate training requirement.

(2) Applicants requesting a limited license to practice in an approved postgraduate podiatric medical training program shall have graduated from an approved school of podiatric medicine and surgery.

[Statutory Authority: RCW 18.22.015. 94-05-051, § 246-922-033, filed 2/10/94, effective 3/13/94.]

WAC 246-922-035 Temporary practice permit. A temporary permit to practice podiatric medicine and surgery may be issued to an individual licensed in another state that has substantially equivalent licensing standards to those in Washington.

(1) The temporary permit may be issued upon receipt of the following:

(a) Documentation from the reciprocal state that the licensing standards used for issuing the license are substan-

tially equivalent to the current Washington licensing standards;

(b) A completed application form and application and temporary permit fees;

(c) Verification of all state licenses, whether active or inactive, indicating that the applicant is not subject to charges or disciplinary action for unprofessional conduct or impairment; and

(d) Verification from the federation of state podiatric medical board's disciplinary action data bank that the applicant has not been disciplined by a state board or federal agency.

(2) The temporary permit shall be issued for sixty days at which time it will become invalid.

(3) A temporary permit shall be issued only once to each applicant. An applicant who does not complete the application process shall not receive a subsequent temporary permit or refund.

[Statutory Authority: RCW 18.22.015. 93-18-036, § 246-922-035, filed 8/26/93, effective 9/26/93.]

WAC 246-922-040 Examinations. (1) In order to be licensed to practice podiatric medicine and surgery in the state of Washington, all applicants except those who are seeking licensure by endorsement from another state under subsection (8) of this section, must pass Part I and Part II of the national examination prepared by the National Board of Podiatric Medical Examiners in addition to the PMLexis examination approved by the Washington state podiatric medical board as the state examination.

(2) The Washington state podiatric medical examination shall include the following topics: Medicine and general podiatric medicine, to include but not limited to, microbiological diseases, dermatology, neurology, cardiovascular-respiratory, musculoskeletal, metabolic and endocrine, medical emergencies and trauma, rheumatology; and therapeutics, to include but not limited to, pharmacology, physical medicine and rehabilitation, local therapy, systemic therapy, surgery, and biomechanics.

(3) The state examination shall be administered twice annually on the second Tuesday of June and the first Tuesday of December. Applications for examination or reexamination shall be received in the office of the professional licensing services division, department of health, no later than April 15th for the following June examination and October 1 for the following December examination.

(4) Every applicant for a podiatric physician and surgeon license shall be required to pass the state examination with a grade of at least 75.

(5) The board shall approve the method of grading each examination, and shall apply such method uniformly to all applicants taking the examination.

(6) The board and the department shall not disclose any applicant's examination score to anyone other than the applicant, unless requested to do so in writing by the applicant.

(7) The applicant will be notified, in writing, of his or her examination scores.

(8) Applicants for licensure who have been licensed by examination in another state or who have successfully passed the examinations given by the National Board of Podiatric Medical Examiners will be required to pass the state approved examination. If the examination taken in another state is the Virginia or PMLexis examination and the applicant passed the Virginia examination or PMLexis on or after June 1988 the applicant shall be deemed to have passed the approved examination in this state.

(9) Applicants failing the state approved examination whether taken in this or another state in which the Virginia or PMLexis examination was taken after June 1988 may be reexamined no more than three times. Applicants who have failed the state approved examination three times may petition the board to be permitted to retake the examination on additional occasions and the applicant must provide satisfactory evidence to the board that he or she has taken remedial measures to increase his or her likelihood of passing the examination. If the applicant does not provide satisfactory evidence to the board, the board shall deny the request to retake the examination until such time that the applicant can provide satisfactory evidence of remedial measures undertaken to increase his or her likelihood of passing the examination.

[Statutory Authority: RCW 18.22.015. 91-10-041 (Order 158B), § 246-922-040, filed 4/25/91, effective 5/26/91; 91-03-095 (Order 118B), recodified as § 246-922-040, filed 1/18/91, effective 2/18/91. Statutory Authority: RCW 18.22.015 and 1988 c 206 § 604. 89-02-047 (Order PM 813), § 308-31-010, filed 12/30/88. Statutory Authority: RCW 18.22.015(8). 88-11-034 (Order 733), § 308-31-010, filed 5/13/88. Statutory Authority: RCW 18.22.015 and 18.22.010(5). 86-22-042 (Order PM 624), § 308-31-010, filed 11/3/86. Statutory Authority: 1982 c 21 § 10. 83-03-032 (Order 418), § 308-31-010, filed 1/14/83; Order PL 250, § 308-31-010, filed 5/28/76; Order PL 128, § 308-31-010, filed 7/7/72.]

WAC 246-922-045 Examination conduct. Failure to follow written or oral instructions relative to the conduct of the examination, including termination time of the examination will be considered grounds for expulsion from the examination.

Applicants will be required to refrain from talking to other examinees during the examination unless specifically directed or permitted to do so by a test proctor. Any applicant observed talking or attempting to give or receive information, or using unauthorized materials during any portion of the examination may be expelled from the examination and deemed to have failed the examination.

[Statutory Authority: RCW 18.22.015. 91-10-041 (Order 158B), § 246-922-045, filed 4/25/91, effective 5/26/91.]

WAC 246-922-050 Identification of licensees. Each person licensed pursuant to chapter 18.22 RCW must be clearly identified to the public as a doctor of podiatric medicine at every establishment in which he or she is engaged in the practice of podiatric medicine and surgery. Such identification must indicate the name of the licensee at or near the entrance to the licensee's office. Only the names of people actually practicing at a location may appear at that location or in any advertisements or announcements regarding that location. The name of an individual who has previously practiced at a location may remain in use in conjunction with that location for a period of no more than one year from the date that person ceases to practice at the location.

[Statutory Authority: RCW 18.22.015. 91-10-041 (Order 158B), § 246-922-050, filed 4/25/91, effective 5/26/91; 91-03-095 (Order 118B), recodified as § 246-922-050, filed 1/18/91, effective 2/18/91. Statutory Authority: 1982 c 21 § 10. 83-03-032 (Order 418), § 308-31-040, filed 1/14/83.]

WAC 246-922-055 Reciprocity requirements. An applicant licensed in another state must file with the secretary verification of the license certified by the proper authorities of the issuing state to include the issue date, license number, current expiration date, and whether any action has been taken to revoke, suspend, restrict, or otherwise sanction the licensee for unprofessional conduct or that the licensee may not be able to practice his or her profession with reasonable skill and safety to consumers as a result of a physical or mental condition. The applicant must document that the educational standards, eligibility requirements, and examinations of that state are at least equal in all respects to those of this state.

[Statutory Authority: RCW 18.22.015. 91-10-041 (Order 158B), § 246-922-055, filed 4/25/91, effective 5/26/91.]

WAC 246-922-060 Presumption of responsibility for advertisements. Any licensed doctor of podiatric medicine whose name, office address or place of practice is mentioned in any advertisement of any kind or character shall be presumed to have caused, allowed, permitted, approved and sanctioned such advertising and shall be presumed to be personally responsible for the content and character thereof. Once sufficient evidence of the existence of the advertisement has been introduced at any hearing before the Washington podiatric medical board, the burden of establishing proof to rebut this presumption by a preponderance of the evidence shall be upon the doctor of podiatric medicine.

[Statutory Authority: RCW 18.22.015. 91-10-041 (Order 158B), § 246-922-060, filed 4/25/91, effective 5/26/91; 91-03-095 (Order 118B), recodified as § 246-922-060, filed 1/18/91, effective 2/18/91. Statutory Authority: 1982 c 21 § 10. 83-03-032 (Order 418), § 308-31-050, filed 1/14/83.]

WAC 246-922-070 AIDS prevention and information education requirements. Applicants must complete seven clock hours of AIDS education as required in chapter 246-12 WAC, Part 8.

[Statutory Authority: RCW 43.70.280. 98-05-060, § 246-922-070, filed 2/13/98, effective 3/16/98. Statutory Authority: RCW 18.22.015. 91-10-041 (Order 158B), § 246-922-070, filed 4/25/91, effective 5/26/91; 91-03-095 (Order 118B), recodified as § 246-922-070, filed 1/18/91, effective 2/18/91. Statutory Authority: RCW 18.22.015 and 1988 c 206 § 604. 89-02-047 (Order PM 813), § 308-31-057, filed 12/30/88.]

WAC 246-922-080 Advertisements prior to licensure prohibited. Any individual who has not been licensed to practice as a podiatric physician and surgeon by the state of Washington is prohibited from advertising as practicing podiatric medicine and surgery in this state, by any means including placement of a telephone listing in any telephone directory.

[Statutory Authority: RCW 18.22.015. 91-10-041 (Order 158B), § 246-922-080, filed 4/25/91, effective 5/26/91; 91-03-095 (Order 118B), recodified as § 246-922-080, filed 1/18/91, effective 2/18/91. Statutory Authority: 1982 c 21 § 10. 83-03-032 (Order 418), § 308-31-060, filed 1/14/83.]

WAC 246-922-100 Acts that may be delegated to an unlicensed person. A podiatric physician and surgeon may authorize the delegation of certain duties to nonpodiatric personnel and prohibit the delegation of certain other duties. The licensed podiatric physician and surgeon is ultimately responsible for all treatments performed at his or her direction. Duties that may be delegated to a person not licensed to practice podiatric medicine and surgery may be performed only under the supervision of a licensed podiatric physician and surgeon. The extent of delegation and the degree of supervision required to assure that the treatment is appropriate and does not jeopardize the systemic or pedal health of the patient varies with, among other considerations, the nature of the procedure and the qualifications of the person to whom the duty is delegated. A podiatric physician and surgeon may allow an unlicensed person to perform the following acts under the podiatric physician and surgeon's supervision limited to the following:

(1) Patient education in foot hygiene.

(2) Deliver a sedative drug in an oral dosage form to patient.

(3) Give preoperative and postoperative instructions.

(4) Assist in administration of nitrous oxide analgesia or sedation, but the unlicensed person shall not start the administration of the gases and shall not adjust the flow of the gases unless instructed to do so by the podiatric physician and surgeon. Patients must never be left unattended while nitrous oxide analgesia or sedation is administered to them. This regulation shall not be construed to prevent any person from taking appropriate action in the event of a medical emergency.

(5) Take health histories.

(6) Determine rate and quality of patient's radial pulses.

(7) Measure the patient's blood pressure.

(8) Perform a plethysmographic or doppler study.

(9) Observe the nature of the patient's shoes and hose.

(10) Observe and report wearing patterns on the patient's shoes.

(11) Assist in obtaining material for a culture-sensitivity test.

(12) Take scrapings from the skin or nails of the feet, prepare them for microscopic and culture examination.

(13) Perform weightbearing and nonweightbearing x-rays.

(14) Photograph patient's foot disorder.

(15) Debride hyperkeratotic tissues of the foot.

(16) Remove and apply dressing and/or padding.

(17) Make necessary adjustments to the biomechanical device.

(18) Produce impression casting of the foot.

(19) Produce the following:

(a) Removable impression insoles and modifications.

(b) Protective devices for alleviating or dispersing pressure on certain deformities or skin lesions such as ulcers, corns, calluses, digital amputation stumps (e.g., latex shields).

(20) Apply strap and/or pad to the foot and/or leg.

(21) Prepare the foot for anesthesia as needed.

(22) Know the indications for and application of cardiopulmonary resuscitation (CPR).

(23) Prepare and maintain a surgically sterile field.

(24) Apply flexible cast (e.g., Unna Boot).

(25) Apply cast material for immobilization of the foot and leg.

(26) Remove sutures.

(27) Debride nails.

(28) Administer mechanical, manipulative and electrical treatment as directed by the podiatric physician and surgeon.

(29) Counsel and instruct patients in the basics of:

(a) Their examination, treatment regimen and prophylaxis for a problem.

(b) Patient and family foot health promotion practices.

(c) Patient and family care of specific diseases affecting the foot (e.g., diabetes, cerebrovascular accident, arthritis).

(d) Performing certain exercises and their importance.

(30) Give patient or family supplementary health education materials.

[Statutory Authority: RCW 18.22.015 and 18.130.050. 99-14-074, § 246-922-100, filed 7/6/99, effective 8/6/99. Statutory Authority: RCW 18.22.015. 94-05-051, § 246-922-100, filed 2/10/94, effective 3/13/94; 91-10-041 (Order 158B), § 246-922-100, filed 4/25/91, effective 5/26/91; 91-03-095 (Order 118B), recodified as § 246-922-100, filed 1/18/91, effective 2/18/91; 84-02-077 (Order PL 450), § 308-31-110, filed 1/4/84.]

WAC 246-922-120 General provisions. (1) "Unprofessional conduct" as used in these regulations shall mean the conduct described in RCW 18.130.180.

(2) "Hospital" shall mean any health care institution licensed pursuant to chapter 70.41 RCW.

(3) "Nursing home" shall mean any health care institution which comes under chapter 18.51 RCW.

(4) "Board" shall mean the Washington state podiatric medical board, whose address is:

Department of Health
Professional Licensing Services
1300 Quince St.,
P.O. Box 47868
Olympia, WA 98504-7868

(5) "Podiatric physician and surgeon" shall mean a person licensed pursuant to chapter 18.22 RCW.

(6) "Mentally or physically disabled podiatric physician and surgeon" shall mean a podiatric physician and surgeon who has either been determined by a court to be mentally incompetent or mentally ill or who is unable to practice podiatric medicine and surgery with reasonable skill and safety to patients by reason of any mental or physical condition.

[Statutory Authority: RCW 18.22.015. 94-05-051, § 246-922-120, filed 2/10/94, effective 3/13/94; 91-10-041 (Order 158B), § 246-922-120, filed 4/25/91, effective 5/26/91; 91-03-095 (Order 118B), recodified as § 246-922-120, filed 1/18/91, effective 2/18/91. Statutory Authority: RCW 18.130.170 and chapter 18.22 RCW. 90-12-013 (Order 060), § 308-31-210, filed 5/30/90, effective 6/30/90.]

WAC 246-922-130 Mandatory reporting. (1) All reports required by these regulations shall be submitted to the board as soon as possible, but no later than sixty days after a determination is made.

(2) A report should contain the following information if known:

(a) The name, address and telephone number of the person making the report.

(b) The name, address and telephone number of the podiatric physician and surgeon being reported.

(c) The case number of any patient whose treatment is a subject of the report.

(d) A brief description or summary of the facts which gave rise to the issuance of the report, including dates of occurrences.

(e) If court action is involved, the name of the court in which the action is filed along with the date of filing and docket number.

(f) Any further information which would aid in the evaluation of the report.

[Statutory Authority: RCW 18.22.015. 91-10-041 (Order 158B), § 246-922-130, filed 4/25/91, effective 5/26/91; 91-03-095 (Order 118B), recodified as § 246-922-130, filed 1/18/91, effective 2/18/91. Statutory Authority: RCW 18.130.170 and chapter 18.22 RCW. 90-12-013 (Order 060), § 308-31-220, filed 5/30/90, effective 6/30/90.]

WAC 246-922-140 Health care institutions. The chief administrator or executive officer of any hospital or nursing home shall report to the board when any podiatric physician and surgeon's services are terminated or are restricted based on a determination that the podiatric physician and surgeon has either committed an act or acts which may constitute unprofessional conduct or that the podiatric physician and surgeon may be mentally or physically impaired. Said officer shall also report if a podiatric physician and surgeon accepts voluntary termination or restriction of clinical privileges in lieu of formal action based upon unprofessional conduct or upon being mentally or physically impaired.

[Statutory Authority: RCW 18.22.015. 91-10-041 (Order 158B), § 246-922-140, filed 4/25/91, effective 5/26/91; 91-03-095 (Order 118B), recodified as § 246-922-140, filed 1/18/91, effective 2/18/91. Statutory Authority: RCW 18.130.170 and chapter 18.22 RCW. 90-12-013 (Order 060), § 308-31-230, filed 5/30/90, effective 6/30/90.]

WAC 246-922-150 Podiatric medical associations or societies. The president or chief executive officer of any podiatric medical association or society within this state shall report to the board when the association or society determines that a podiatric physician and surgeon has committed unprofessional conduct or that a podiatric physician and surgeon may not be able to practice podiatric medicine and surgery with reasonable skill and safety to patients as the result of any mental or physical condition and constitutes an apparent risk to the public health, safety or welfare. The report required by this subsection shall be made without regard to whether the license holder appeals, accepts or acts upon the determination made by the association or society. Notification of appeal shall be included.

[Statutory Authority: RCW 18.22.015. 91-10-041 (Order 158B), § 246-922-150, filed 4/25/91, effective 5/26/91; 91-03-095 (Order 118B), recodified as § 246-922-150, filed 1/18/91, effective 2/18/91. Statutory Authority: RCW 18.130.170 and chapter 18.22 RCW. 90-12-013 (Order 060), § 308-31-240, filed 5/30/90, effective 6/30/90.]

WAC 246-922-160 Health care service contractors and disability insurance carriers. The executive officer of every health care service contractor and disability insurer regulated under chapters 48.20, 48.21, 48.21A and 48.44 RCW, operating in the state of Washington shall report to the

board all final determinations that a podiatric physician and surgeon may have engaged in over-utilization of services, has charged fees for services not actually provided, may have engaged in unprofessional conduct, or by reason of mental or physical impairment may be unable to practice the profession with reasonable skill and safety.

[Statutory Authority: RCW 18.22.015. 91-10-041 (Order 158B), § 246-922-160, filed 4/25/91, effective 5/26/91; 91-03-095 (Order 118B), recodified as § 246-922-160, filed 1/18/91, effective 2/18/91. Statutory Authority: RCW 18.130.170 and chapter 18.22 RCW. 90-12-013 (Order 060), § 308-31-250, filed 5/30/90, effective 6/30/90.]

WAC 246-922-170 State and federal agencies. The board requests the assistance of executive officers of any state or federal program operating in the state of Washington, under which a podiatric physician and surgeon is employed to provide patient care services, to report to the board whenever such a podiatric physician and surgeon has been judged to have demonstrated his/her incompetency or negligence in the practice of podiatric medicine and surgery, or has otherwise committed unprofessional conduct, or is mentally or physically impaired.

[Statutory Authority: RCW 18.22.015. 91-10-041 (Order 158B), § 246-922-170, filed 4/25/91, effective 5/26/91; 91-03-095 (Order 118B), recodified as § 246-922-170, filed 1/18/91, effective 2/18/91. Statutory Authority: RCW 18.130.170 and chapter 18.22 RCW. 90-12-013 (Order 060), § 308-31-260, filed 5/30/90, effective 6/30/90.]

WAC 246-922-180 Professional review organizations. Unless prohibited by federal law, every professional review organization operating within the state of Washington shall report to the board any determinations that a podiatric physician and surgeon may have engaged in unprofessional conduct, or by reason of mental or physical impairment may be unable to practice the profession with reasonable skill and safety.

[Statutory Authority: RCW 18.22.015. 91-10-041 (Order 158B), § 246-922-180, filed 4/25/91, effective 5/26/91; 91-03-095 (Order 118B), recodified as § 246-922-180, filed 1/18/91, effective 2/18/91. Statutory Authority: RCW 18.130.170 and chapter 18.22 RCW. 90-12-013 (Order 060), § 308-31-270, filed 5/30/90, effective 6/30/90.]

WAC 246-922-190 Malpractice suit reporting. Every licensed podiatric physician and surgeon shall, within sixty days after settlement or judgment, notify the board of any and all malpractice settlements or judgments in excess of twenty thousand dollars as a result of a claim or action for damages alleged to have been caused by a podiatric physician and surgeon's incompetency or negligence in the practice of podiatric medicine and surgery. Every podiatric physician and surgeon shall also report the settlement or judgment of three or more claims or actions for damages during a one-year period as the result of the alleged podiatric physician and surgeon's incompetence or negligence in the practice of podiatric medicine and surgery regardless of the dollar amount of the settlement or judgment.

[Statutory Authority: RCW 18.22.015. 91-10-041 (Order 158B), § 246-922-190, filed 4/25/91, effective 5/26/91; 91-03-095 (Order 118B), recodified as § 246-922-190, filed 1/18/91, effective 2/18/91. Statutory Authority: RCW 18.130.170 and chapter 18.22 RCW. 90-12-013 (Order 060), § 308-31-280, filed 5/30/90, effective 6/30/90.]

WAC 246-922-200 Professional and ethical standards. In addition to those standards specifically expressed in chapter 18.22 RCW and chapter 18.130 RCW, the board adopts the standards that follow in governing or regulating the practice of podiatric physicians and surgeons within the state of Washington.

Podiatric medicine and surgery is that specialty of medicine and research that seeks to diagnose, treat, correct and prevent ailments of the human foot. A podiatrist shall hold foremost the principal objectives to render appropriate podiatric medical services to society and to assist individuals in the relief of pain or correction of abnormalities, and shall always endeavor to conduct himself or herself in such a manner to further these objectives.

The podiatric physician and surgeon owes to his or her patients a reasonable degree of skill and quality of care. To this end, the podiatric physician and surgeon shall endeavor to keep abreast of new developments in podiatric medicine and surgery and shall pursue means that will lead to improvement of his or her knowledge and skill in the practice of podiatric medicine and surgery. "Quality of care" consists of the following elements:

(1) Necessity of care.

(2) Appropriateness of service rendered in view of the diagnosis.

(3) Utilization of services (over or under).

(4) Quality of service(s) rendered.

(5) Whether the service(s) reported had been actually rendered.

[Statutory Authority: RCW 18.22.015. 91-10-041 (Order 158B), § 246-922-200, filed 4/25/91, effective 5/26/91; 91-03-095 (Order 118B), recodified as § 246-922-200, filed 1/18/91, effective 2/18/91; 87-09-045 (Order PM 643), § 308-31-500, filed 4/14/87; 87-04-050 (Order PM 638), § 308-31-500, filed 2/3/87; 84-02-077 (Order PL 450), § 308-31-500, filed 1/4/84.]

WAC 246-922-210 Patient abandonment. The podiatric physician and surgeon shall always be free to accept or reject a particular patient, but once care is undertaken, the podiatric physician and surgeon shall not neglect the patient as long as that patient cooperates with, requests, and authorizes the podiatric medical services for the particular problem.

[Statutory Authority: RCW 18.22.015. 91-10-041 (Order 158B), § 246-922-210, filed 4/25/91, effective 5/26/91; 91-03-095 (Order 118B), recodified as § 246-922-210, filed 1/18/91, effective 2/18/91; 84-02-077 (Order PL 450), § 308-31-510, filed 1/4/84.]

WAC 246-922-230 Prohibited transactions. A podiatric physician and surgeon shall not compensate or give anything of value to a representative of the press, radio, television or other communication media in anticipation of or in return for professional publicity of any individual podiatric physician and surgeon in a news item.

[Statutory Authority: RCW 18.22.015. 91-10-041 (Order 158B), § 246-922-230, filed 4/25/91, effective 5/26/91; 91-03-095 (Order 118B), recodified as § 246-922-230, filed 1/18/91, effective 2/18/91; 84-02-077 (Order PL 450), § 308-31-530, filed 1/4/84.]

WAC 246-922-235 Prohibited publicity and advertising. A podiatric physician and surgeon shall not use or allow to be used any form of public communications or advertising

connected with his or her profession or in his or her professional capacity as a podiatric physician which is false, fraudulent, deceptive, or misleading or which contains any implication or statement likely to mislead or deceive because in context it makes only a partial disclosure of relevant facts.

[Statutory Authority: RCW 18.22.015. 93-18-036, § 246-922-235, filed 8/26/93, effective 9/26/93.]

WAC 246-922-240 Soliciting patients. A podiatric physician and surgeon shall not participate in the division of fees or agree to split or divide fees received for podiatric medical services with any person for bringing or referring patients.

[Statutory Authority: RCW 18.22.015. 91-10-041 (Order 158B), § 246-922-240, filed 4/25/91, effective 5/26/91; 91-03-095 (Order 118B), recodified as § 246-922-240, filed 1/18/91, effective 2/18/91; 84-02-077 (Order PL 450), § 308-31-540, filed 1/4/84.]

WAC 246-922-260 Maintenance of patient records. Any podiatric physician and surgeon who treats patients in the state of Washington shall maintain complete and legible treatment records regarding patients treated. These records shall include, but shall not be limited to x-rays, treatment plans, patient charts, patient histories, correspondence, financial data and billing. These records shall be retained by the podiatric physician and surgeon in an orderly, accessible file and shall be readily available for inspection by the Washington state podiatric medical board or its authorized representative. Complete patient treatment records shall be maintained for a minimum of seven years after treatment is rendered.

[Statutory Authority: RCW 18.22.015. 94-05-051, § 246-922-260, filed 2/10/94, effective 3/13/94; 91-10-041 (Order 158B), § 246-922-260, filed 4/25/91, effective 5/26/91; 91-03-095 (Order 118B), recodified as § 246-922-260, filed 1/18/91, effective 2/18/91; 84-02-077 (Order PL 450), § 308-31-560, filed 1/4/84.]

WAC 246-922-270 Inventory of legend drugs and controlled substances. Every podiatric physician and surgeon shall maintain a record of all legend drugs and controlled substances that he or she has prescribed or dispensed. This record shall include the date prescribed or the date dispensed, the name of the patient prescribed or dispensed to, the name of the medication, and the dosage and amount of the medication prescribed or dispensed. The record of the medication prescribed or dispensed will be clearly indicated on the patient record.

[Statutory Authority: RCW 18.22.015. 91-10-041 (Order 158B), § 246-922-270, filed 4/25/91, effective 5/26/91; 91-03-095 (Order 118B), recodified as § 246-922-270, filed 1/18/91, effective 2/18/91; 84-02-077 (Order PL 450), § 308-31-570, filed 1/4/84.]

WAC 246-922-285 Retired active credential. A practitioner may obtain a retired active credential. Refer to the requirements of chapter 246-12 WAC, Part 5.

[Statutory Authority: RCW 43.70.280. 98-05-060, § 246-922-285, filed 2/13/98, effective 3/16/98.]

WAC 246-922-290 Inactive credential. A practitioner may obtain an inactive credential. Refer to the requirements of chapter 246-12 WAC, Part 4.

[Statutory Authority: RCW 43.70.280. 98-05-060, § 246-922-290, filed 2/13/98, effective 3/16/98. Statutory Authority: RCW 18.22.015. 91-10-041 (Order 158B), § 246-922-290, filed 4/25/91, effective 5/26/91.]

WAC 246-922-295 Expired license. (1) If the license has expired for three years or less, the practitioner must meet the requirements of chapter 246-12 WAC, Part 2.

(2) If the license has expired for over three years, and the practitioner has been in active practice in another United States jurisdiction, the practitioner must:

(a) Submit verification of active practice from any other United States jurisdiction;

(b) Provide documentation relative to any malpractice settlements or judgments within the past five years;

(c) Meet the requirements of chapter 246-12 WAC, Part 2.

(3) If the license has expired for over three years, and the practitioner has not been in active practice in another United States jurisdiction, the practitioner:

(a) May be required to be reexamined as provided in RCW 18.22.083;

(b) Provide documentation relative to any malpractice settlements or judgments within the past five years;

(c) Must meet the requirements of chapter 246-12 WAC, Part 2.

[Statutory Authority: RCW 43.70.280. 98-05-060, § 246-922-295, filed 2/13/98, effective 3/16/98. Statutory Authority: RCW 18.22.015. 91-10-041 (Order 158B), § 246-922-295, filed 4/25/91, effective 5/26/91.]

WAC 246-922-300 Podiatric continuing education required. The podiatric medical board encourages licensees to deliver high-quality patient care. The board recognizes that continuing education programs designed to inform practitioners of recent developments within podiatric medicine and relative fields and review of various aspects of basic professional education and podiatric practice are beneficial to professional growth. The board encourages participation in podiatric continuing education as a mechanism to maintain and enhance competence.

(1) Fifty contact hours of scientific podiatric continuing education is required every two years when the license is renewed to maintain a current license as provided in chapter 246-12 WAC, Part 7.

Five credit hours may be granted for one hour of course instruction. A maximum of ten hours may be claimed per reporting period.

(2) Approved courses shall be scientific in nature designed to provide information and enhancement of current knowledge of the mechanisms of disease and treatment, which may include applicable clinical information.

(a) Serving as a resident in an approved post-graduate residency training program shall satisfy the continuing education credit for the reporting period.

(b) Continuing education activities which do not affect the delivery of patient care, (e.g., marketing and billing), may not be claimed for continuing education credit.

[Statutory Authority: RCW 18.22.015. 99-20-096, § 246-922-300, filed 10/5/99, effective 11/5/99. Statutory Authority: RCW 43.70.280. 98-05-060, § 246-922-300, filed 2/13/98, effective 3/16/98. Statutory Authority: RCW 18.22.015. 94-05-051, § 246-922-300, filed 2/10/94, effective 3/13/94; 91-10-041 (Order 158B), § 246-922-300, filed 4/25/91, effective 5/26/91.]

WAC 246-922-310 Categories of creditable podiatric continuing education activities. The following categories of creditable podiatric continuing education activities sponsored by the following organizations are approved by the board. The credits must be earned in the twenty-four month period preceding the licensee's reporting period. One contact hour is defined as a typical fifty-minute classroom instructional session or its equivalent.

(1) Scientific courses or seminars approved by the American Podiatric Medical Association and its component societies and affiliated and related organizations.

(2) Scientific courses or seminars offered by accredited, licensed, or otherwise approved hospitals, colleges, and universities and their associated foundations and institutes offering continuing education programs in podiatric medicine.

(3) Scientific courses or seminars offered by recognized nonpodiatric medical and health-care related societies (e.g., the American Medical Association, the American Physical Therapy Association) offering continuing education programs related to podiatric medicine.

(4) Scientific courses or seminars offered by other nonprofit organizations, other proprietary organizations, and individuals offering continuing education in podiatric medicine.

(5) A post-graduate residency training program accredited by the council on podiatric medical education.

[Statutory Authority: RCW 18.22.015. 99-20-096, § 246-922-310, filed 10/5/99, effective 11/5/99; 94-05-051, § 246-922-310, filed 2/10/94, effective 3/13/94; 91-10-041 (Order 158B), § 246-922-310, filed 4/25/91, effective 5/26/91.]

WAC 246-922-400 Intent. It is the intent of the legislature that the podiatric medical board seek ways to identify and support the rehabilitation of podiatric physicians and surgeons where practice or competency may be impaired due to the abuse of or dependency upon drugs or alcohol. The legislature intends that these practitioners be treated so that they can return to or continue to practice podiatric medicine and surgery in a way which safeguards the public. The legislature specifically intends that the podiatric medical board establish an alternate program to the traditional administrative proceedings against podiatric physicians and surgeons.

In lieu of disciplinary action under RCW 18.130.160, if the podiatric medical board determines that the unprofessional conduct may be the result of substance abuse or dependency, the board may refer the licensee to a voluntary substance abuse monitoring program approved by the board.

[Statutory Authority: RCW 18.22.015 and chapter 18.22 RCW. 94-14-082, § 246-922-400, filed 7/5/94, effective 8/5/94.]

WAC 246-922-405 Definitions used relative to substance abuse monitoring. (1) "Approved substance abuse/dependency monitoring program" or "approved monitoring program" is a program the board has determined meets the requirements of the law and rules established by the board according to the Washington Administrative Code which enters into a contract with podiatric practitioners who have substance abuse/dependency problems. The approved substance abuse monitoring program oversees compliance of the podiatric practitioner's recovery activities as required by the board. Substance abuse monitoring programs may provide evaluation and/or treatment to participating podiatric practitioners.

(2) "Impaired podiatric practitioner" means a podiatric physician and surgeon who is unable to practice podiatric medicine and surgery with judgment, skill, competence, or safety due to chemical dependence/substance abuse.

(3) "Contract" is a comprehensive, structured agreement between the recovering podiatric practitioner and the approved monitoring program wherein the podiatric practitioner consents to comply with the monitoring program and the required components for the podiatric practitioner's recovery activity.

(4) "Approved treatment facility" is a facility approved by the bureau of alcohol and substance abuse, department of social and health services.

(5) "Chemical dependence/substance abuse" means an illness/condition which involves the inappropriate use of alcohol and/or other drugs to a degree that such use interferes in the functional life of the licensee, as manifested by personal, family, physical, emotional, occupational (professional services), legal, or spiritual problems.

(6) "Drug" means a chemical substance alone or in combination with other drugs, including alcohol.

(7) "Aftercare/continuing care" means that period of time after intensive treatment that provides the podiatric practitioner and the podiatric practitioner's family with group, or individualized counseling sessions, discussions with other families, ongoing contact and participation in self-help groups, and ongoing continued support of treatment program staff.

(8) "Podiatric practitioner support group" is a group of podiatric practitioners and/or other health care professionals meeting regularly to support the recovery of its members. The group provides a confidential setting with a trained and experienced facilitator in which participants may safely discuss drug diversion, licensure issues, return to work, and other professional issues related to recovery.

(9) "Twelve-step groups" are groups such as Alcoholics Anonymous, Narcotics Anonymous, and related organizations based on a philosophy of anonymity, belief in a power greater than oneself, peer group association, and self-help.

(10) "Random drug screens" are laboratory tests to detect the presence of drugs of abuse or dependency in body fluids which are performed at irregular intervals not known in advance by the person to be tested. The collection of the body fluids must be observed by a treatment or health care professional or other board or monitoring program-approved observer.

(11) "Recovering" means that a chemically dependent podiatric practitioner is in compliance with a treatment plan of rehabilitation in accordance with criteria established by an approved treatment facility and an approved substance abuse monitoring program.

(12) "Rehabilitation" means the process of restoring a chemically dependent podiatric practitioner to a level of professional performance consistent with public health and safety.

(13) "Reinstatement" means the process whereby a recovering podiatric practitioner is permitted to resume the practice of podiatric medicine and surgery.

[Statutory Authority: RCW 18.22.015 and chapter 18.22 RCW. 94-14-082, § 246-922-405, filed 7/5/94, effective 8/5/94.]

WAC 246-922-410 Approval of substance abuse monitoring programs. The board will approve the monitoring program(s) which will participate in the recovery of podiatric practitioners. The board will enter into a contract with the approved substance abuse monitoring program(s).

(1) An approved monitoring program:

(a) May provide evaluations and/or treatment to the participating podiatric practitioners;

(b) Shall enter into a contract with the podiatric practitioner and the board to oversee the podiatric practitioner's compliance with the requirement of the program;

(c) Shall maintain records on participants;

(d) Shall be responsible for providing feedback to the podiatric practitioner as to whether treatment progress is acceptable;

(e) Shall report to the board any podiatric practitioner who fails to comply with the requirements of the monitoring program;

(f) Shall provide the board with a statistical report and financial statement on the program, including progress of participants, at least annually, or more frequently as requested by the board;

(g) Shall provide for the board a complete biennial audited financial statement;

(h) Shall enter into a written contract with the board and submit monthly billing statements supported by documentation;

(2) Approved monitoring program staff must have the qualifications and knowledge of both substance abuse/dependency and the practice of podiatric medicine and surgery as defined in chapter 18.22 RCW to be able to evaluate:

(a) Drug screening laboratories;

(b) Laboratory results;

(c) Providers of substance abuse treatment, both individual and facilities;

(d) Podiatric practitioner support groups;

(e) Podiatric practitioners' work environment; and

(f) The ability of the podiatric practitioners to practice with reasonable skill and safety.

(3) The program staff of the approved monitoring program may evaluate and recommend to the board, on an individual basis, whether a podiatric practitioner will be prohibited from engaging in the practice of podiatric medicine and surgery for a period of time and restrictions, if any, on the podiatric practitioner's access to controlled substances in the workplace.

(4) The board shall provide the approved monitoring program board orders requiring treatment, monitoring, and/or limitations on the practice of podiatric medicine and surgery for those participating in the program.

[Statutory Authority: RCW 18.22.015 and chapter 18.22 RCW. 94-14-082, § 246-922-410, filed 7/5/94, effective 8/5/94.]

WAC 246-922-415 Participation in approved substance abuse monitoring program. (1) The podiatric practitioner who has been investigated by the board may accept board referral into the approved substance abuse monitoring program. Referral may occur in lieu of disciplinary action under RCW 18.130.160 or as a result of a board order as final disposition of a disciplinary action. The podiatric practitioner:

(a) Shall undergo a complete physical and psychosocial evaluation before entering the approved monitoring program. This evaluation is to be performed by a health care professional(s) with expertise in chemical dependency;

(b) Shall enter into a contract with the approved substance abuse monitoring program to comply with the requirements of the program which shall include, but not be limited to: The podiatric practitioner:

(i) Shall undergo intensive substance abuse treatment by an approved treatment facility;

(ii) Shall agree to abstain from the use of all mind-altering substances, including alcohol, except for medications prescribed by an authorized prescriber, as defined in RCW 69.41.030 and 69.50.101. Said prescriber shall notify the monitoring program of all drugs prescribed within fourteen days of the date care was provided;

(iii) Must complete the prescribed aftercare/continuing care program of the intensive treatment facility. This may include individual and/or group psychotherapy;

(iv) Must cause the treatment counselor(s) and authorized prescriber(s) to provide reports to the appropriate monitoring program at specified intervals. Reports shall include treatment prognosis, goals, drugs prescribed, etc;

(v) Shall submit to random drug screening, with observed specimen collection, as specified by the approved monitoring program;

(vi) Shall attend podiatric practitioner support groups facilitated by health care professionals and/or twelve-step group meetings as specified by the contract;

(vii) Shall comply with specified employment conditions and restrictions as defined by the contract;

(viii) Shall sign a waiver allowing the approved monitoring program to release information to the board if the podiatric practitioner does not comply with the requirements of the contract;

(c) Is responsible for paying the costs of the physical and psychosocial evaluation, substance abuse/dependency treatment, random urine screens and other personal expenses incurred in compliance with the contract;

(d) May be subject to disciplinary action under RCW 18.130.160 and 18.130.180 if the podiatric practitioner does not consent to be referred to the approved monitoring program, does not comply with specified practice restrictions, or does not successfully complete the program.

(2) A podiatric practitioner who is not being investigated by the board or subject to current disciplinary action, not currently being monitored by the board for substance abuse or dependency, may voluntarily participate in the approved substance abuse monitoring program without being referred by the board. Such voluntary participants shall not be subject to disciplinary action under RCW 18.130.160 and 18.130.180 for their substance abuse/dependency, and shall not have

their participation made known to the board if they continue to satisfactorily meet the requirements of the approved monitoring program. The podiatric practitioner:

(a) Shall undergo a complete physical and psychosocial evaluation before entering the approved monitoring program. This evaluation will be performed by a health care professional with expertise in chemical dependency;

(b) Shall enter into a contract with the approved substance abuse monitoring program to comply with the requirements of the program which shall include, but not be limited to: The podiatric practitioner:

(i) Shall undergo intensive substance abuse treatment by an approved treatment facility;

(ii) Shall agree to abstain from the use of all mind-altering substances, including alcohol, except for medications prescribed by an authorized prescriber, as defined in RCW 69.41.030 and 69.50.101. Said prescriber shall notify the monitoring program of all drugs prescribed within fourteen days of the date care was provided;

(iii) Must complete the prescribed aftercare/continuing care program of the intensive treatment facility. This may include individual and/or group therapy;

(iv) Must cause the treatment counselor(s) and authorized prescriber(s) to provide reports to the approved monitoring program at specified intervals. Reports shall include treatment prognosis, goals, drugs prescribed, etc;

(v) Shall submit to random drug screening, with observed specimen collection, as specified by the approved monitoring program;

(vi) Shall attend podiatric practitioner support groups facilitated by a health care professional and/or twelve-step group meetings as specified by the contract;

(vii) Shall comply with specified employment conditions and restrictions as defined by the contract;

(viii) Shall sign a waiver allowing the approved monitoring program to release information to the board if the podiatric practitioner does not comply with the requirements of the contract. The podiatric practitioner may be subject to disciplinary action under RCW 18.130.160 and 18.130.180 for noncompliance with the contract or if he/she does not successfully complete the program;

(c) Is responsible for paying the costs of the physical and psychosocial evaluation, substance abuse/dependency treatment, random urine screens, and other personal expenses incurred in compliance with the contract.

[Statutory Authority: RCW 18.22.015 and chapter 18.22 RCW. 94-14-082, § 246-922-415, filed 7/5/94, effective 8/5/94.]

WAC 246-922-500 Adjudicative proceedings. The board adopts the model procedural rules for adjudicative proceedings as adopted by the department of health and contained in chapter 246-11 WAC, including subsequent amendments.

[Statutory Authority: RCW 18.22.015 and 18.130.050. 94-09-008, § 246-922-500, filed 4/11/94, effective 5/12/94.]

WAC 246-922-990 Podiatry fees and renewal cycle. (1) Licenses must be renewed every year on the practitioner's birthday as provided in chapter 246-12 WAC, Part 2, except for postgraduate training limited licenses.

(2) Postgraduate training limited licenses must be renewed every year to correspond to program dates.

(3) The following nonrefundable fees will be charged:

Title of Fee	Fee
Application (examination and reexamination)	$825.00
Reciprocity application	825.00
License renewal	825.00
Inactive license renewal	135.00
Inactive late renewal penalty	67.50
Active late renewal penalty	300.00
Active expired license reissuance	300.00
Expired inactive license reissuance	67.50
Duplicate license	30.00
Certification of license	50.00
Retired active status	150.00
Temporary practice permit	50.00
Limited license application	400.00
Limited license renewal	480.00
Substance abuse monitoring surcharge	25.00

[Statutory Authority: RCW 43.70.250, 2001 2nd sp.s. c 7 and RCW 18.22.120. 01-23-101, § 246-922-990, filed 11/21/01, effective 1/21/02. WAC 246-922-995 Conversion to a birthday renewal cycle. (1) The annual license renewal date is changed to coincide with the practitioner's birthday.

(2) Renewal fees will be prorated during the transition period while renewal dates are changed to coincide with the practitioner's birthday.

(3) After the initial conversion to a staggered system, practitioners will annually renew their license on their birthday at the current renewal rate.

[Statutory Authority: RCW 43.70.280. 98-05-060, § 246-922-995, filed 2/13/98, effective 3/16/98.]

Chapter 246-924 WAC
PSYCHOLOGISTS

WAC

DISPOSITION OF SECTIONS FORMERLY CODIFIED IN THIS CHAPTER

246-924-120 Psychologists—Renewal of licenses. [Statutory Authority: RCW 18.83.050(5). 94-12-039, § 246-924-120, filed 5/25/94, effective 6/25/94. Statutory Authority: RCW 18.83.050. 91-04-020 (Order 117B), recodified as § 246-924-120, filed 1/28/91, effective 2/28/91. Statutory Authority: 1988 c 206 § 604. 88-23-059 (Order PM 798), § 308-122-350, filed 11/15/88; Order PL 227, § 308-122-350, filed 11/5/75; Order PL 177, § 308-122-350, filed 10/15/74.] Repealed by 98-05-060, filed 2/13/98, effective 3/16/98. Statutory Authority: RCW 43.70.280.

246-924-190 Staggered effective periods for new continuing education rules, WAC 308-122-563 through 308-122-583. [Statutory Authority: RCW 18.83.050. 91-04-021 (Order 129B), § 246-924-190, filed 1/28/91, effective 2/28/91.] Repealed by 94-12-039, filed 5/25/94, effective 6/25/94. Statutory Authority: RCW 18.83.050(5).

246-924-200 Continuing education—General requirements. [Statutory Authority: RCW 18.83.050. 91-04-020 (Order 117B), recodified as § 246-924-200, filed 1/28/91, effective 2/28/91. Statutory Authority: RCW 18.83.050(5). 86-04-087 (Order PL 578), § 308-122-505, filed 2/5/86; Order PL 276, § 308-122-505, filed 11/16/77.] Repealed by 94-12-039, filed 5/25/94, effective 6/25/94. Statutory Authority: RCW 18.83.050(5).

246-924-210 Continuing education—Categories of creditable activities. [Statutory Authority: RCW 18.83.050. 91-04-020 (Order 117B), recodified as § 246-924-210, filed 1/28/91, effective 2/28/91; Order PL 276, § 308-122-510, filed 11/16/77.] Repealed by 94-12-039, filed 5/25/94, effective 6/25/94. Statutory Authority: RCW 18.83.050(5).

246-924-220 Continuing education—Categories of creditable activities. [Statutory Authority: RCW 18.83.050. 91-04-021 (Order 129B), § 246-924-220, filed 1/28/91, effective 2/28/91.] Repealed by 94-12-039, filed 5/25/94, effective 6/25/94. Statutory Authority: RCW 18.83.050(5).

246-924-260 Continuing education—Enforcement. [Statutory Authority: RCW 18.83.050. 91-04-020 (Order 117B), recodified as § 246-924-260, filed 1/28/91, effective 2/28/91; Order PL 276, § 308-122-530, filed 11/16/77.] Repealed by 94-12-039, filed 5/25/94, effective 6/25/94. Statutory Authority: RCW 18.83.050(5).

246-924-270 Continuing education—Exemptions. [Statutory Authority: RCW 18.83.050. 91-04-020 (Order 117B), recodified as § 246-924-270, filed 1/28/91, effective 2/28/91; Order PL 276, § 308-122-535, filed 11/16/77.] Repealed by 94-12-039, filed 5/25/94, effective 6/25/94. Statutory Authority: RCW 18.83.050(5).

246-924-280 Continuing education—Program or course approval. [Statutory Authority: RCW 18.83.050. 91-04-020 (Order 117B), recodified as § 246-924-280, filed 1/28/91, effective 2/28/91; Order PL 276, § 308-122-540, filed 11/16/77.] Repealed by 94-12-039, filed 5/25/94, effective 6/25/94. Statutory Authority: RCW 18.83.050(5).

246-924-290 Continuing education—Certification of compliance. [Statutory Authority: RCW 18.83.050(5). 94-12-039, § 246-924-290, filed 5/25/94, effective 6/25/94. Statutory Authority: RCW 18.83.050. 91-04-020 (Order 117B), recodified as § 246-924-290, filed 1/28/91, effective 2/28/91; Order PL 276, § 308-122-545, filed 11/16/77.] Repealed by 98-05-060, filed 2/13/98, effective 3/16/98. Statutory Authority: RCW 43.70.280.

246-924-310 Continuing education—Special considerations. [Statutory Authority: RCW 18.83.050. 91-04-021 (Order 129B), § 246-924-310, filed 1/28/91, effective 2/28/91.] Repealed by 94-12-039, filed 5/25/94, effective 6/25/94. Statutory Authority: RCW 18.83.050(5).

246-924-320 Continuing education—Enforcement. [Statutory Authority: RCW 18.83.050(5). 94-12-039, § 246-924-320, filed 5/25/94, effective 6/25/94. Statutory Authority: RCW 18.83.050. 91-04-021 (Order 129B), § 246-924-320, filed 1/28/91, effective 2/28/91.] Repealed by 98-05-060, filed 2/13/98, effective 3/16/98. Statutory Authority: RCW 43.70.280.

246-924-340 Continuing education—Program or course approval. [Statutory Authority: RCW 18.83.050. 91-04-021 (Order 129B), § 246-924-340, filed 1/28/91, effective 2/28/91.] Repealed by 99-14-075, filed 7/6/99, effective 8/6/99. Statutory Authority: RCW 18.83.090.

246-924-350 Code of ethics—General considerations. [Statutory Authority: RCW 18.83.050. 91-04-020 (Order 117B), recodified as § 246-924-350, filed 1/28/91, effective 2/28/91. Statutory Authority: RCW 18.83.050(5). 85-06-044 (Order PL 522), § 308-122-600, filed 3/5/85.] Repealed by 93-07-036 (Order 337B), filed 3/10/93, effective 4/10/93. Statutory Authority: RCW 18.83.050(5) and chapter 18.83 RCW.

246-924-360 Responsibility. [Statutory Authority: RCW 18.83.050. 91-04-020 (Order 117B), recodified as § 246-924-360, filed 1/28/91, effective 2/28/91. Statutory Authority: RCW 18.83.050(5). 85-06-044 (Order PL 522), § 308-122-610, filed 3/5/85.] Repealed by 93-07-036 (Order 337B), filed 3/10/93, effective 4/10/93. Statutory Authority: RCW 18.83.050(5) and chapter 18.83 RCW.

246-924-370 Competence. [Statutory Authority: RCW 18.83.050. 91-04-020 (Order 117B), recodified as § 246-924-370, filed 1/28/91, effective 2/28/91. Statutory Authority: RCW 18.83.050(5). 85-06-044 (Order PL 522), § 308-122-620, filed 3/5/85.] Repealed by 93-07-036 (Order 337B), filed 3/10/93, effective 4/10/93. Statutory Authority: RCW 18.83.050(5) and chapter 18.83 RCW.

246-924-380 Moral and legal standards. [Statutory Authority: RCW 18.83.050. 91-04-020 (Order 117B), recodified as § 246-924-380, filed 1/28/91, effective 2/28/91. Statutory Authority: RCW 18.83.050(5). 86-04-087 (Order PL 578), § 308-122-630, filed 2/5/86.] Repealed by 93-07-036 (Order 337B), filed 3/10/93, effective 4/10/93. Statutory Authority: RCW 18.83.050(5) and chapter 18.83 RCW.

246-924-390 Public statements. [Statutory Authority: RCW 18.83.050. 91-04-020 (Order 117B), recodified as § 246-924-390, filed 1/28/91, effective 2/28/91; 88-09-029 (Order PM 722), § 308-122-640, filed 4/15/88. Statutory Authority: RCW 18.83.050(5). 86-04-087 (Order

PL 578), § 308-122-640, filed 2/5/86; 85-06-044 (Order PL 522), § 308-122-640, filed 3/5/85.] Repealed by 93-07-036 (Order 337B), filed 3/10/93, effective 4/10/93. Statutory Authority: RCW 18.83.050(5) and chapter 18.83 RCW.

246-924-400 Confidentiality. [Statutory Authority: RCW 18.83.050. 91-04-020 (Order 117B), recodified as § 246-924-400, filed 1/28/91, effective 2/28/91. Statutory Authority: RCW 18.83.050(5). 85-06-044 (Order PL 522), § 308-122-650, filed 3/5/85.] Repealed by 93-07-036 (Order 337B), filed 3/10/93, effective 4/10/93. Statutory Authority: RCW 18.83.050(5) and chapter 18.83 RCW.

246-924-410 Welfare of the consumer. 246-924-450 Care and use of animals. [Statutory Authority: RCW 18.83.050. 91-04-020 (Order 117B), recodified as § 246-924-450, filed 1/28/91, effective 2/28/91. Statutory Authority: RCW 18.83.050(5). 85-06-044 (Order PL 522), § 308-122-695, filed 3/5/85.] Repealed by 93-07-036 (Order 337B), filed 3/10/93, effective 4/10/93. Statutory Authority: RCW 18.83.050(5) and chapter 18.83 RCW.

246-924-460 Telephone directory listings. [Statutory Authority: RCW 18.83.050. 91-04-020 (Order 117B), recodified as § 246-924-460, filed 1/28/91, effective 2/28/91. Statutory Authority: RCW 18.83.070(3). 85-06-043 (Order PL 521), § 308-122-700, filed 3/5/85.] Repealed by 94-12-039, filed 5/25/94, effective 6/25/94. Statutory Authority: RCW 18.83.050(5).

246-924-490 Responsibility for maintaining mailing address on file with the board. [Statutory Authority: RCW 18.83.050(5). 94-12-039, § 246-924-490, filed 5/25/94, effective 6/25/94.] Repealed by 98-05-060, filed 2/13/98, effective 3/16/98. Statutory Authority: RCW 43.70.280.

WAC 246-924-001 Guidelines for the promulgation of administrative rules. The examining board of psychology shall not promulgate rules which restrict access to information from applicant/employee psychological evaluations sought by public safety agencies.

[Statutory Authority: RCW 18.83.050. 91-04-020 (Order 117B), recodified as § 246-924-001, filed 1/28/91, effective 2/28/91. Statutory Authority: RCW 18.83.050(1). 86-19-061 (Order PM 616), § 308-122-001, filed 9/16/86.]

WAC 246-924-010 Definitions. (1) "Acquired immunodeficiency syndrome" or "AIDS" means the clinical syndrome of HIV-related illness as defined by the board of health by rule.

(2) "Office on AIDS" means that section within the department of social and health services or any successor department with jurisdiction over public health matters as defined in chapter 70.24 RCW.

[Statutory Authority: RCW 18.83.050. 91-04-020 (Order 117B), recodified as § 246-924-010, filed 1/28/91, effective 2/28/91. Statutory Authority: 1988 c 206 § 604. 88-23-059 (Order PM 798), § 308-122-005, filed 11/15/88.]

WAC 246-924-020 Applications for licensure. Effective January 1, 1989, persons applying for licensure or certification shall submit, in addition to the other requirements, evidence to show compliance with the educational requirements of WAC 246-924-110.

[Statutory Authority: RCW 18.83.050(5). 94-12-039, § 246-924-020, filed 5/25/94, effective 6/25/94. Statutory Authority: RCW 18.83.050. 91-04-020 (Order 117B), recodified as § 246-924-020, filed 1/28/91, effective 2/28/91. Statutory Authority: 1988 c 206 § 604. 88-23-059 (Order PM 798), § 308-122-006, filed 11/15/88.]

WAC 246-924-030 Guidelines for the employment and/or supervision of auxiliary staff. (1) Qualifications of the supervisor: The supervisor shall be licensed in Washington state for the practice of psychology and have adequate training, knowledge, and skill to evaluate the competence of the work of the auxiliary staff. The supervisor may not be employed by the auxiliary staff.

(2) Qualifications of the auxiliary staff: The staff person must have the background, training, and experience that is appropriate to the functions performed. The supervisor is responsible for determining the adequacy of the qualifications of the staff person and the designation of his/her title.

(3) Responsibilities of the supervisor: The supervisor accepts full legal and professional responsibility for all services that may be rendered by the auxiliary staff. To this end, the supervisor shall have sufficient knowledge of all clients, including face-to-face contact when necessary, in order to plan and assure the delivery of effective services. The supervisor is responsible for assuring that appropriate supervision is available or present at all times. The supervisor is responsible for assuring that auxiliary staff are informed of and adhere to requirements of confidentiality. The supervisor shall assure that the staff person providing services is appropriately covered by professional liability insurance and adheres to accepted business practices.

(4) Conduct of supervision: It is recognized that variability in preparation for duties to be assumed will require individually tailored supervision. In the case of auxiliary staff providing psychological services, a detailed job description shall be developed and a contract for supervision prepared.

(5) Conduct of services that may be provided by auxiliary staff: Procedures to be carried out by the auxiliary staff shall be planned in consultation with the supervisor. Clients of the auxiliary staff shall be informed as to his/her status and shall be given specific information as to his/her qualifications and functions. Clients shall be informed of the identity of the supervisor. They shall be informed that they might meet with

the supervisor at their own request, the auxiliary staff person's or the supervisor's request. Written reports and communications shall be countersigned by the supervisor.

[Statutory Authority: RCW 18.83.050. 91-04-020 (Order 117B), recodified as § 246-924-030, filed 1/28/91, effective 2/28/91. Statutory Authority: RCW 18.83.050(5). 86-04-087 (Order PL 578), § 308-122-060, filed 2/5/86.]

WAC 246-924-040 Psychologists—Education prerequisite to licensing. This rule shall apply for applicants enrolled after October 19, 1987, in a program leading to a doctoral degree. To meet the education requirement of RCW 18.83.070, an applicant shall possess a doctoral degree from an institution of higher education accredited in the region in which the doctoral program is offered at the time the applicant's degree was awarded. In that doctoral program, at least forty semester hours, or sixty quarter-hours, of graduate courses shall have been passed successfully, and can be clearly identified by title and course content as being part of a psychology program. One of the standards for issuance of said degree shall have been the submission of an original dissertation which was psychological in nature. Endorsement by the program administrator shall be requested and considered.

An integrated program of graduate study in psychology shall be defined as follows:

(1) The following defines the organizational structure of the program:

(a) The program shall be clearly identified and labeled as a psychology program. Pertinent catalogues and brochures shall show intent to educate and train psychologists.

(b) The psychology program shall stand as a recognized, coherent, entity within the institution.

(c) There shall be a clear authority and primary responsibility for the core and specialty areas, whether or not the program cuts across administrative lines.

(d) There shall be an organized sequence of study planned by those responsible for the program to provide an appropriate, integrated experience covering the field of psychology.

(e) There shall be an identifiable psychology faculty and a psychologist administratively responsible for the program.

(f) There shall be an identified body of students selected on the basis of high ability and appropriate educational preparation.

(2) The following defines the academic program:

(a) The curriculum shall encompass a minimum of three academic years of full-time graduate study or their equivalent. The doctoral program shall involve at least one continuous year of full-time residency at the institution which grants the degree. A minimum of seven hundred fifty hours of student-faculty contact involving face-to-face individual or group educational meetings shall be considered in lieu of one year residency. Such educational meetings must include both faculty-student and student-student interaction, be conducted by the psychology faculty of the institution at least seventy-five percent of the time, be fully documented by the institution and the applicant, and relate substantially to the program components specified. The applicant shall clearly have had instruction in: History and systems, research design and methodology, statistics and psychometrics. The program shall require each student to complete three or more semester hours (five or more quarter-hours) of core study in each of the following content areas:

(i) Biological bases of behavior (physiological psychology, comparative psychology, neurobases, sensation and perception, biological bases of development);

(ii) Cognitive-affective bases of behavior (learning, thinking, motivation, emotion, cognitive development);

(iii) Social bases of behavior (social psychology, organizational theory, community psychology, social development);

(iv) Individual differences (personality theory, psychopathology); and

(v) Scientific and professional ethics.

(b) The program shall include practicum, internship, field or laboratory experience appropriate to the area of psychology that is the student's major emphasis.

(3) If the major emphasis is in clinical, counseling, school or other applied area, the program shall include coordinated practicum and internship experience.

(a) Practicum experience shall total at least two semesters (three quarters) and consist of a total of at least 300 hours of direct experience and 100 hours of supervision.

(b) The practica shall be followed by an organized internship. Predoctoral internship programs accredited by the American Psychological Association and/or the Association of Psychology Postdoctoral and Internship Centers shall be accepted by the board as meeting this requirement. Otherwise, an organized internship shall be as follows:

(i) The internship shall be designed to provide a planned, programmed sequence of training experiences, the primary focus of which is to assure breadth and quality of training.

(ii) The internship setting shall have a clearly designated psychologist who is responsible for the integrity and quality of the training program and who is licensed/certified by the state/provincial board of psychology examiners.

(iii) The internship setting shall have two or more psychologists available as supervisors, at least one of whom is licensed/certified as a psychologist.

(iv) Supervision shall be provided by the person who is responsible for the cases being supervised. At least seventy-five percent of the supervision shall be provided by a psychologist(s).

(v) At least twenty-five percent of the intern's time shall be spent in direct client contact (minimum 375 hours) providing assessment and intervention services.

(vi) There shall be a minimum of 2 hours per week of regularly scheduled, formal, face-to-face individual supervision with the specific intent of dealing with the direct psychological services rendered by the intern. There shall also be a minimum of 2 hours of other learning activities such as: Case conferences, seminars on applied issues, co-therapy with a staff person including discussion, group supervision.

(vii) Supervision/training relating to ethics shall be an ongoing aspect of the internship program.

(viii) Trainees shall have titles such as "intern," "resident," "fellow," or other designation of trainee status.

(ix) The internship setting shall have a written statement or brochure describing the goals and content of the intern-

ship, stating clear expectations and quality of trainees' work, and made available to prospective interns.

(x) The internship experience shall consist of at least 1500 hours and shall be completed within twenty-four months.

(4) Applicants for licensure who obtained degrees from foreign universities shall first submit, at their own expense, their credentials to an independent, private professional organization approved by the board to establish equivalency of training required by this section.

[Statutory Authority: RCW 18.83.050(5). 94-12-039, § 246-924-040, filed 5/25/94, effective 6/25/94. WAC 246-924-050 Psychologists—Education prerequisites to licensing for applicants enrolled in a doctoral program between December 28, 1978 to October 19, 1987. (1) This rule applies for applicants enrolled between December 28, 1978 and October 19, 1987 in a program leading to a doctoral degree. To meet the education requirement imposed by the statute, an applicant must possess a doctoral degree from a training institution approved by the board in which at least forty semester hours, or sixty quarter-hours, of graduate courses were passed successfully, and were clearly identified by title and course content as being primarily psychological in nature, as determined by the board. Part of the standards for issuance of said degree must require the submission of an original dissertation which must be psychological in nature, as determined by the board.

(2) The following guidelines define the "academic core" of study that should have been completed by each applicant:

(a) Programs accredited by the American Psychological Association are recognized as one way of meeting the definition of a professional psychology program. The criteria for accreditation serve as a model for professional training.

(b) Training in professional psychology is doctoral training offered in regionally accredited institution of higher education.

(c) The program must be clearly identified and labeled as a psychology program. Pertinent catalogues and brochures must show intent to educate and train professional psychologists.

(d) The psychology program must stand as a recognizable, coherent, organizational entity within the institution.

(e) There must be a clear authority and primary responsibility for the core and specialty areas whether or not the program cuts across administrative lines.

(f) There must be an organized sequence of study planned by those responsible for the training program to provide an appropriate, integrated, experience applicable to the professional practice of psychology.

(g) There must be an identifiable psychology faculty and a psychologist responsible for the program.

(h) There must be an identifiable body of students, selected on the basis of high ability and appropriate educational preparation.

(i) Programs must include practicum, internship, field or laboratory experience appropriate to the practice of psychology.

(j) The curriculum should encompass a minimum (or equivalent) of three academic years of full-time graduate study. The doctoral program should involve at least one continuous year of full-time residency at the university at which the degree is granted. Instruction should include scientific and professional ethics and standards, history and systems: Research design and methodology; statistics and psychometrics. The core program should also require each student to obtain an academic background of the following content areas (typically six or more semester hours):

(i) Biological bases of behavior: e.g., physiological psychology, comparative, neuropsychology, sensation and perception, psychopharmacology.

(ii) Cognitive-affective bases of behavior: e.g., learning, thinking, motivation, emotions.

(iii) Social bases of behavior: e.g., social, psychology, group processes, organizational and systems theory.

(iv) Individual differences: e.g., personality theory, human development, abnormal psychology.

(3) If the major emphasis is in an applied area such as clinical, counseling, school or other pertinent areas, the program must include a set of coordinated practicum and internship experiences which total at least two semesters in the practicum setting, and additionally a "one-year" internship. A minimum of 300 hours of practicum, including 100 hours of scheduled individual supervision, should precede the internship.

(4) The psychological services offered in the internship program in "Standards for providers of psychological services" published by the American Psychological Association and/or the Association of Psychology Postdoctoral and Internship Centers may be used as a framework for the internship program. The board also recognizes other quality internship programs.

[Statutory Authority: RCW 18.83.050(5). 94-12-039, § 246-924-050, filed 5/25/94, effective 6/25/94. Statutory Authority: RCW 18.83.050. 91-04-020 (Order 117B), recodified as § 246-924-050, filed 1/28/91, effective 2/28/91; 89-11-054 (Order PM 845), § 308-122-211, filed 5/17/89.]

WAC 246-924-055 Psychologists—Educational prerequisites to licensing for applicants enrolled in a doctoral program prior to December 28, 1978. This section shall apply to applicants enrolled in a program leading to a doctoral degree prior to December 28, 1978. To meet the education requirement imposed by the statute, the applicant must possess a doctoral degree from a training institution approved by the board in which at least forty semester hours, or sixty quarter hours, of graduate courses were passed successfully, and were clearly identified by title and course content as being primarily psychological in nature, as determined by the board. Part of the standards for issuance of said degree must

require the submission of an original dissertation which must be psychological in nature, as determined by the board.

[Statutory Authority: RCW 18.83.050(5) and chapter 18.83 RCW. 93-06-092 (Order 335B), § 246-924-055, filed 3/3/93, effective 4/3/93.]

WAC 246-924-060 Psychologists—Experience prerequisite to licensing. This section shall apply to applicants whose post-doctoral experience was commenced after March 5, 1985.

(1) Need for supervision. The law requires that the applicant have at least twelve months experience practicing psychology under qualified supervision after having completed all requirements for a doctoral degree. Supervision must be appropriate to the area(s) of professional activity in which the candidate intends to function.

(2) Twelve months of experience shall include a MINIMUM of 1500 supervised clock hours of psychological work. There should be a MINIMUM of one hour of individual supervision for every twenty hours of psychological work. The majority of supervised hours should be in the area(s) of intended psychological work. Documentation of experience and supervision hours shall be kept by supervisee and supervisor. The supervisor(s) shall forward to the board a written evaluation at the end of the twelve-month period, and shall indicate whether the supervisee has satisfactorily completed the supervised clock hours of psychological work. If any supervisor's(s') written evaluation indicates that the supervisee has failed to satisfactorily complete the required work, the board may require additional supervised clock hours of psychological work.

(3) Appropriate supervision is that provided by a licensed psychologist with two years post-license experience, a psychiatrist with three years of experience beyond residency, or an MSW with five years post-degree experience or a doctoral level psychologist by training and degree with two years of post-doctoral experience who is exempt from licensure by RCW 18.83.200 (1); (2); (3); or, (4), but only when supervising within the exempt setting. At least 50 percent of supervision must be provided by a licensed psychologist. The supervisor must have competence in the area(s) of intended psychological work of the supervisee. The supervisor shall not supervise in any area in which he or she does not have competence.

(4) Content of supervision. Supervision should include, but not be limited to, the following content area:

(a) Discussion of services provided by the supervisee;

(b) Selection, service plan, and review of each case or work unit of the supervisee;

(c) Discussion of and instruction in theoretical conceptions underlying the supervised work;

(d) Discussion of the management of professional practice or other administrative or business issues;

(e) Evaluation of the supervisory process, supervisee, and supervisor;

(f) Discussion of the coordination of services among other professionals involved in particular work units;

(g) Review of relevant Washington laws and rules and regulations;

(h) Discussion of ethical principles including principles that apply to current work;

(i) Review of standards for providers of psychological services;

(j) Discussion of other relevant reading materials specific to cases, ethical issues, and the supervisory process.

(5) Mode of supervision. The nature of supervision will vary depending on the theoretical orientation of the supervisor, the training and experience of the supervisee, and the duration of the supervisory relationship. It is reasonable for a supervisor to ask for detailed process notes and progress reports. Audio tapes, video tapes, client supplied information such as behavioral ratings, and one-way mirror observations are also appropriate when deemed useful and/or necessary. However accomplished, supervision shall include some direct observation of the supervisee's work. The preferred mode of supervision is face-to-face discussion between supervisor and supervisee.

(6) Authority of supervisor. The supervisor is ethically and legally responsible for all supervisee work covered in the written agreement for supervision. Therefore, it is the authority of the supervisor to alter service plans or otherwise direct the course of psychological work.

(7) Written agreement for supervision. The supervisor and supervisee shall have a written agreement for supervision. This shall include:

(a) The area(s) of professional activity in which supervision will occur;

(b) Hours of supervision and/or ratio of supervisory hours or professional hours;

(c) Supervisory fees, if appropriate;

(d) Process of supervision including mode of supervision, expectations for recordkeeping, and expectations for evaluation and feedback;

(e) Relevant business arrangements;

(f) How the supervisee will represent him or herself;

(g) How disagreements will be handled.

(8) Representation of supervisee to the public. It shall be the responsibility of the supervisee to represent him or herself to the consuming public as being in training status with a suitable supervisor. Clients shall be informed of the identity and responsibilities of the supervisor; and shall be informed of their right to consult or speak directly with the supervisor. Such titles as psychological resident, psychological intern or psychological supervisee, are deemed appropriate for the supervisee. NO services provided by the supervisee shall be represented to third parties as having been provided by the supervisor. Insurance forms should be filled out to indicate the nature of the supervisory relationship.

[Statutory Authority: RCW 18.83.050(5) and chapter 18.83 RCW. 93-06-092 (Order 335B), § 246-924-060, filed 3/3/93, effective 4/3/93. Statutory Authority: RCW 18.83.050. 91-04-020 (Order 117B), recodified as § 246-924-060, filed 1/28/91, effective 2/28/91; 88-09-029 (Order PM 722), § 308-122-215, filed 4/15/88. Statutory Authority: RCW 18.83.050(5). 86-04-087 (Order PL 578), § 308-122-215, filed 2/5/86. Statutory Authority: RCW 18.83.070(3). 85-06-043 (Order PL 521), § 308-122-215, filed 3/5/85.]

WAC 246-924-065 Psychologists—Experience requirement prerequisite to licensing for experience prior to March 5, 1985. This section shall apply to applicants whose post-doctoral experience was commenced prior to March 5, 1985.

(1) The applicant shall have at least one year experience practicing psychology under qualified supervision after completion of all requirements for a doctoral degree. Such supervision shall be appropriate to the area of professional activity in which the applicant intended or intends to function. To be considered qualifying experience, the applicant must have worked under the direct supervision of a licensed psychologist or other professional deemed appropriate by the board. Supervision includes an ongoing awareness of all aspects of the activities of the person being supervised within the operational setting. The amount and intensity of supervision must be appropriate to the applicant's level of training and experience. A year of experience consists of a minimum of 1500 supervised clock hours. Functioning as an autonomous provider of psychological services and independent individual or group practice will not ordinarily be considered as meeting the experience requirement.

(2) In addition, the following considerations apply for experience commenced after December 27, 1978.

(a) In clinical and counseling areas, supervision should include selection of cases, assessment, treatment plan, ongoing treatment, and termination.

(b) With respect to teaching, supervision should include discussion of course outline(s), discussion of teaching and evaluation methods, and direct observation and/or review of taped class lectures and discussions.

(c) Regarding school psychology, supervision should include application of appropriate rules and regulations as promulgated by the office of the superintendent of public instruction, assessment procedures, psychological reporting, consultation, and follow through.

[Statutory Authority: RCW 18.83.050(5) and chapter 18.83 RCW. 93-06-092 (Order 335B), § 246-924-065, filed 3/3/93, effective 4/3/93.]

WAC 246-924-070 Psychologists—Written examination. Written examination requirements: The written examination that is used in the state of Washington is the examination of professional practice of psychology. The examination consists of objective multiple choice questions covering the major areas of psychology. Each form of the examination contains between 150 and 200 items in the areas listed below:

(1) Background information, including physiological psychology and comparative psychology, learning, history, theory and systems, sensation and perception, motivation, social psychology, personality, cognitive processes, developmental psychology and psychopharmacology.

(2) Methodology including research design and interpretation, statistics, test construction and interpretation, scaling.

(3) Clinical psychology including test usage and interpretation, diagnosis, psychopathology, therapy, judgment in clinical situations, community mental health.

(4) Behavior modification including learning and applications.

(5) Other specialties including management consulting, industrial and human engineering, social psychology, t-groups, counseling and guidance, communication systems analysis.

(6) Professional conduct and ethics including inter-disciplinary relations and knowledge of professional affairs.

The cutoff score which the Washington state board of examiners uses is 70% of the raw score, or the national mean of all first time doctorates, whichever is the lowest.

[Statutory Authority: RCW 18.83.050. 93-07-078 (Order 349B), § 246-924-070, filed 3/18/93, effective 4/18/93; 91-04-020 (Order 117B), recodified as § 246-924-070, filed 1/28/91, effective 2/28/91; 82-18-073 (Order PL 404), § 308-122-220, filed 9/1/82; 80-07-010 (Order PL 346), § 308-122-220, filed 6/9/80; 79-08-009 (Order PL-309), § 308-122-220, filed 7/9/79; Order PL-245, § 308-122-220, filed 4/15/76.]

WAC 246-924-080 Psychology examination—Application submittal date. To be eligible to take any particular written examination, an applicant for licensure must file his or her application and examination administration fee with the department of health not less than sixty days prior to the examination date. In the case of late filing, the time requirement for filing may be reduced if good cause for the late filing is shown and the application can still be processed prior to the examination date.

Examinations are normally held in April and October of each year.

[Statutory Authority: RCW 18.130.250 and 18.83.050. 96-08-007, § 246-924-080, filed 3/22/96, effective 4/22/96. Statutory Authority: RCW 18.83.050(5). 94-12-039, § 246-924-080, filed 5/25/94, effective 6/25/94. Statutory Authority: RCW 18.83.050. 91-04-020 (Order 117B), recodified as § 246-924-080, filed 1/28/91, effective 2/28/91. Statutory Authority: RCW 18.83.030, 18.83.050 and 18.83.060. 79-08-008 (Order PL-308), § 308-122-225, filed 7/9/79.]

WAC 246-924-090 Psychologists—Oral examination. Oral examination: The oral exam covers the same core issues for all candidates ranging through four major foci:

(1) Professional judgment in areas of stated competence;

(2) Knowledge of state laws pertaining to psychologist and psychological ethics;

(3) Knowledge and skills in area of stated competence. The candidate must be able to articulate and relate conceptual rationale and methodological interventions;

(4) Adequacy of candidate's professional training, supervision and experience.

[Statutory Authority: RCW 18.83.050. 91-04-020 (Order 117B), recodified as § 246-924-090, filed 1/28/91, effective 2/28/91; 79-08-009 (Order PL-309), § 308-122-230, filed 7/9/79; Order PL-245, § 308-122-230, filed 4/15/76.]

WAC 246-924-095 Failure of oral examination. After an oral examination failure, an applicant shall sit for reexamination as follows:

(1) First reexamination: At the next administration date or any subsequent administration date;

(2) Second reexamination: At least one year after the date of the first reexamination;

(3) Successive reexamination: At least one year after the date of the previous reexamination and after having shown adequate proof of meeting any additional professional training required by the board.

[Statutory Authority: RCW 18.83.050(5). 94-12-039, § 246-924-095, filed 5/25/94, effective 6/25/94.]

WAC 246-924-100 Qualifications for granting of license by endorsement. (1) Candidates applying for licensure pursuant to the provisions of RCW 18.83.170 (1) and (2) shall:

(a) Provide evidence of meeting the educational requirements set forth in RCW 18.83.070 in effect at the time the applicant entered his/her doctoral program;

(b) Pass the oral examination administered by the board pursuant to RCW 18.83.050.

(2) Candidates applying for licensure pursuant to the provisions of RCW 18.83.170(3) shall:

(a) Pass the oral examination administered by the board pursuant to RCW 18.83.050.

[Statutory Authority: RCW 18.83.050(5). 93-21-024, § 246-924-100, filed 10/13/93, effective 11/13/93. Statutory Authority: RCW 18.83.050. 91-04-020 (Order 117B), recodified as § 246-924-100, filed 1/28/91, effective 2/28/91; 88-09-029 (Order PM 722), § 308-122-235, filed 4/15/88.]

WAC 246-924-110 AIDS education and training. Applicants must complete seven clock hours of AIDS education as required in chapter 246-12 WAC, Part 8.

[Statutory Authority: RCW 43.70.280. 98-05-060, § 246-924-110, filed 2/13/98, effective 3/16/98. Statutory Authority: RCW 18.83.050(5). 94-12-039, § 246-924-110, filed 5/25/94, effective 6/25/94. Statutory Authority: RCW 18.83.050. 91-04-020 (Order 117B), recodified as § 246-924-110, filed 1/28/91, effective 2/28/91. Statutory Authority: 1988 c 206 § 604. 88-23-059 (Order PM 798), § 308-122-280, filed 11/15/88.]

WAC 246-924-115 Brief adjudicative proceedings—Denials based on failure to meet education, experience, or examination prerequisites for licensure. The board adopts RCW 34.05.482 and 34.05.485 through 34.05.494 for adjudicative proceedings requested by applicants, who are denied a license under chapter 18.83 RCW for failure to meet the education, experience, or examination prerequisites for licensure. The sole issue at the adjudicative proceeding shall be whether the applicant meets the education, experience, and examination prerequisites for the issuance of a license.

[Statutory Authority: RCW 18.83.050 and chapter 18.83 RCW. 92-20-029 (Order 304B), § 246-924-115, filed 9/28/92, effective 10/29/92.]

WAC 246-924-130 Certificates of qualification. Certificates of qualification shall not be granted. Those holding certificates of qualification as of July 1, 1990, shall continue to be in conformance with WAC 246-924-140, 246-924-150, and 246-924-160.

[Statutory Authority: RCW 18.83.050(5). 94-12-039, § 246-924-130, filed 5/25/94, effective 6/25/94. Statutory Authority: RCW 18.83.050. 91-04-021 (Order 129B), § 246-924-130, filed 1/28/91, effective 2/28/91; 91-04-020 (Order 117B), recodified as § 246-924-130, filed 1/28/91, effective 2/28/91. Statutory Authority: RCW 18.83.090. 89-19-053 (Order PM 862), § 308-122-360, filed 9/19/89, effective 10/20/89; Order PL 202, § 308-122-360, filed 10/1/75.]

WAC 246-924-140 Certificates of qualification—Title. Applicants receiving the certificates of qualification shall hold the title of "psychological assistant," unless the board approves the applicant's petition to work without immediate supervision in which case the applicant shall hold the title of "psychological affiliate."

[Statutory Authority: RCW 18.83.050. 91-04-020 (Order 117B), recodified as § 246-924-140, filed 1/28/91, effective 2/28/91. Statutory Authority: RCW 18.83.090. 89-19-053 (Order PM 862), § 308-122-370, filed 9/19/89, effective 10/20/89; Order PL 202, § 308-122-370, filed 10/1/75.]

WAC 246-924-150 Certificates of qualification—Procedure for additional areas of function. A person receiving a certificate of qualification may apply for certification in an additional area of function by updating his/her application form and references, submitting the required fee and by taking an oral examination in the new area following the procedures outlined above.

[Statutory Authority: RCW 18.83.050. 91-04-020 (Order 117B), recodified as § 246-924-150, filed 1/28/91, effective 2/28/91. Statutory Authority: RCW 18.83.090. 89-19-053 (Order PM 862), § 308-122-430, filed 9/19/89, effective 10/20/89; Order PL 202, § 308-122-430, filed 10/1/75.]

WAC 246-924-160 Continued supervision of persons receiving certificates of qualification. (1) The law states that the holder of a certificate of qualification must perform psychological functions "under the periodic direct supervision of a psychologist licensed by the board." The board's interpretation of this statement is that the psychological assistant is certified *in tandem* with a licensed psychologist and not in his or her own right. That is, the board will evaluate simultaneously the professional capabilities of the applicant and the qualifications of the licensed psychologist to supervise the assistant in the specific professional functions outlined by the assistant. The board's approval of an association between a psychological assistant and a licensed psychologist is done purely on an examination of the professional qualifications of the two parties concerned and on the execution of an agreement between the two of them as proposed supervisor and supervisee. The board in no way involves itself with the specific work conditions, fees, salaries, and related factors except insofar as they have a bearing on the quality of the professional relationship or services offered to the public.

(2) The applicant must indicate on the application form, in detail, his or her areas of intended practice. After initial screening (evaluation of the person's education, experience and supervision) and passing the national written examination, the applicant shall furnish the board with a plan for continued supervision which will include detailed information regarding the supervisor which indicates an agreement to supervise. The board will use this information in conjunction with the oral examination to assess the supervision plans.

(3) Minimum supervision shall entail discussion of the assistant's work through regularly scheduled contacts with the supervisor at appropriate intervals. Whenever possible, supervision should consist of occasional direct observation or review of taped case material. The supervisor shall be responsible for preparing evaluative reports of the assistant's performance, which will be forwarded to the division of professional licensing on a periodic basis.

(4) When a licensed psychologist assumes the responsibility of supervision, he or she shares the professional and ethical responsibility for the nature and quality of all of the psychological services as the assistant may provide. Failure to provide supervision when such a relationship is claimed may result in appropriate action against the license of the supervisor.

(5) Interruption or termination of a supervisory relationship shall be promptly communicated to the division of professional licensing.

(6) In every case where psychological testing is done and a report is written based on that testing by a psychological assistant, the supervising licensed psychologist will countersign the report indicating his approval.

(7) An applicant or holder of a certificate may apply to the board for authority to work without immediate supervision in particular areas of function. In these cases the board may require further evidence of proficiency. Even though the immediate supervision requirement is waived for the psychological affiliate, periodic supervisory consultation as deemed appropriate by the board is required. Evidence of supervisory consultation must be submitted to the division of professional licensing with the annual license fee.

[Statutory Authority: RCW 18.83.050. 91-04-020 (Order 117B), recodified as § 246-924-160, filed 1/28/91, effective 2/28/91. Statutory Authority: RCW 18.83.090. 89-19-053 (Order PM 862), § 308-122-440, filed 9/19/89, effective 10/20/89; Order PL 202, § 308-122-440, filed 10/1/75.]

WAC 246-924-170 Certificates of qualification—Representations to clients. (1) Each client of the psychological assistant or psychological affiliate must be informed of the nature of the assistant's or affiliate's professional status, the function in which he or she is certified, and the fact that said assistant is under the supervision of a licensed psychologist.

(2) Only psychological affiliates may advertise their services (e.g. representations of themselves in telephone directories and announcements and on business cards). In doing so, the affiliate must list the functions for which he or she is certified and state his or her academic degree.

[Statutory Authority: RCW 18.83.050. 91-04-020 (Order 117B), recodified as § 246-924-170, filed 1/28/91, effective 2/28/91. Statutory Authority: RCW 18.83.090. 89-19-053 (Order PM 862), § 308-122-450, filed 9/19/89, effective 10/20/89; Order PL 202, § 308-122-450, filed 10/1/75.]

WAC 246-924-180 Continuing education—Purpose and scope. The ultimate aim of continuing education is to ensure the highest quality of professional work. Continuing education consists of educational activities designed to review existing concepts and techniques and to convey information and knowledge about advances in psychology as applied to the work settings. The objectives are to improve and increase the ability of the psychologist to deliver the highest possible quality of psychological work and to keep the professional psychologist abreast of current developments in a rapidly changing field. All psychologists, licensed pursuant to chapter 18.83 RCW, and holders of certificates of qualification issued pursuant to RCW 18.83.105, will be required to meet the continuing education requirements set forth in these rules as a prerequisite to license renewal.

[Statutory Authority: RCW 18.83.090. 99-14-075, § 246-924-180, filed 7/6/99, effective 8/6/99. Statutory Authority: RCW 18.83.050. 91-04-021 (Order 129B), § 246-924-180, filed 1/28/91, effective 2/28/91.]

WAC 246-924-230 Continuing education requirements. (1) The Washington state board of psychology (hereafter referred to as the board) requires a minimum of sixty hours of continuing education (hereafter referred to as CE) every three years.

(2) A minimum of four hours credit in ethics must be included in the sixty hours required. Areas to be covered, depending on the licensee's primary area(s) of function are practice, consultation, research, teaching, and/or supervision.

(3) Faculty providing CE offerings shall meet the training and the full qualifications of their respective professions. All faculty shall have demonstrated an expertise in the areas in which they are instructing.

(4) The board reserves the right to require any licensee to submit evidence, e.g., course or program certificate of training, transcript, course or workshop brochure description, evidence of attendance, etc., in addition to the affidavit form in order to demonstrate compliance with the sixty hours CE requirement.

[Statutory Authority: RCW 18.83.090. 99-14-075, § 246-924-230, filed 7/6/99, effective 8/6/99. Statutory Authority: RCW 43.70.280. 98-05-060, § 246-924-230, filed 2/13/98, effective 3/16/98. Statutory Authority: RCW 18.83.050(5). 94-12-039, § 246-924-230, filed 5/25/94, effective 6/25/94. Statutory Authority: RCW 18.83.050. 91-04-021 (Order 129B), § 246-924-230, filed 1/28/91, effective 2/28/91; 91-04-020 (Order 117B), recodified as § 246-924-230, filed 1/28/91, effective 2/28/91; Order PL 276, § 308-122-515, filed 11/16/77.]

WAC 246-924-240 Definitions of categories of creditable CE. All CE activities shall be directly relevant to maintaining or increasing professional or scientific competence in psychology. Courses or workshops primarily designed to increase practice income or office efficiency, while valuable to the licensee, are specifically noneligible for CE credit. Program sponsors or institutes should not apply for, nor expect to receive, prior or current board approval for CE status or category. Recognized activities shall include:

(1) Courses, seminars, workshops and post-doctoral institutes offered by educational institutions chartered by a state and recognized (accredited) by a regional association of schools, colleges and universities as providing graduate level course offerings. Such educational activities shall be recorded on an official transcript or certificate of completion.

(2) Courses (including correspondence courses), seminars, workshops and post-doctoral institutes sponsored by the American Psychological Association, regional or state psychological associations or their subchapters, psychology internship training centers, other professionally or scientifically recognized behavioral science organizations, and the board.

(3) Credit toward the CE requirement may be earned through teaching an approved CE program. Credit earned through teaching shall not exceed thirty hours every three years. Credit for teaching an approved CE program may be earned on the following basis:

(a) One credit hour for each sixty minutes actually spent teaching the program for the first event. Credit may be conferred for teaching similar subject matter only if the psychologist has actually spent an equal or greater amount of preparation time updating the subject matter to be taught on a later occasion.

(b) One credit hour for each sixty minutes actually spent participating in a panel presentation.

[Statutory Authority: RCW 18.83.090. 99-14-075, § 246-924-240, filed 7/6/99, effective 8/6/99. Statutory Authority: RCW 18.83.050(5). 94-12-039, § 246-924-240, filed 5/25/94, effective 6/25/94. Statutory Authority: RCW 18.83.050. 91-04-021 (Order 129B), § 246-924-240, filed 1/28/91, effective 2/28/91; 91-04-020 (Order 117B), recodified as § 246-924-240, filed 1/28/91, effective 2/28/91; Order PL 276, § 308-122-520, filed 11/16/77.]

WAC 246-924-250 Continuing education—Special considerations. In lieu (total or partial) of sixty hours of CE the board may consider credit hour approval and acceptance of other programs as they are developed and implemented, such as:

(1) Compliance with a CE program developed by the American Psychological Association which provides either a recognition award or certificate, may be evaluated and considered for partial or total fulfillment of the CE credit hour requirements of the board.

(2) Psychologists licensed in the state of Washington but practicing in a different state or country which has a mandatory or voluntary CE program may submit to the board evidence of completion of that other state's or country's CE requirements for evaluation and partial or total credit hour approval.

(3) Psychologists licensed in the state of Washington but practicing in a state, U.S. territory or foreign country without CE requirements, or who are not legally required to meet those CE requirements, may submit evidence of their CE activities pursued outside of Washington state directly to the board for evaluation and approval based on conformity to the board's CE requirements.

(4) The board may also accept evidence of diplomate award by the American Board of Professional Psychology (ABPP) and American Board of Psychological Hypnosis (ABPH) in lieu of sixty hours of CE for that three year period in which the diplomate was awarded.

(5) Credit hours may be earned for other specialty board or diploma certifications if and when such are established.

(6) In accordance with WAC 246-12-040 (2)(c)(ix), psychologists who have allowed their credential to expire for three years or more must document completion of forty hours of CE, of which four hours must be in ethics. This CE must have been obtained within the two most recent years immediately prior to reinstatement.

[Statutory Authority: RCW 18.83.090. 99-14-075, § 246-924-250, filed 7/6/99, effective 8/6/99. Statutory Authority: RCW 18.130.250 and 18.83.050. 96-08-007, § 246-924-250, filed 3/22/96, effective 4/22/96. WAC 246-924-300 Definition of acceptable documentation and proof of CE. Licensees are responsible for acquiring and maintaining all acceptable documentation of their CE activities.

Acceptable documentation shall include transcripts, letters from course instructors, or certificate of completion or other formal certification. In all cases other than transcripts, the documentation must show the participant's name, the activity title, number of CE credit hours, date(s) of activity, faculty's name(s) and degree and the signature of verifying individual (program sponsor).

[Statutory Authority: RCW 18.83.090. 99-14-075, § 246-924-300, filed 7/6/99, effective 8/6/99. Statutory Authority: RCW 18.83.050(5). 94-12-039, § 246-924-300, filed 5/25/94, effective 6/25/94. Statutory Authority: RCW 18.83.050. 91-04-021 (Order 129B), § 246-924-300, filed 1/28/91, effective 2/28/91.]

WAC 246-924-330 Continuing education—Exemptions. In the event a licensee fails to meet requirements, because of illness, retirement (with no further provision of psychological services to consumers), failure to renew, or other extenuating circumstances, each case will be considered by the board on an individual basis. When circumstances justify it, the board may grant a time extension. The board may, in its discretion, limit in part or in whole the provision of psychological services to the consumers until the CE requirements are met. In the case of retirement or illness, the board may grant indefinite waiver of CE as a requirement for relicensure, provided an affidavit is received indicating the psychologist is not providing psychological services to consumers. If such illness or retirement status is changed or consumer psychological services are resumed, it is incumbent upon the licensee to immediately notify the board and to resume meeting CE requirements for relicensure. CE credit hours will be prorated for the portion of that three year period involving resumption of such services.

[Statutory Authority: RCW 18.83.090. 99-14-075, § 246-924-330, filed 7/6/99, effective 8/6/99. Statutory Authority: RCW 18.83.050. 91-04-021 (Order 129B), § 246-924-330, filed 1/28/91, effective 2/28/91.]

WAC 246-924-351 Rules of ethical conduct. (1) Scope. The psychologist shall be governed by these rules of conduct whenever practicing as a psychologist.

(2) Responsibility for own actions. The psychologist shall be fully responsible for his/her own professional decisions and professional actions.

[Statutory Authority: RCW 18.83.050(5) and chapter 18.83 RCW. 93-07-036 (Order 337B), § 246-924-351, filed 3/10/93, effective 4/10/93.]

WAC 246-924-352 Definitions. (1) "Client" means a recipient of psychological services or that person's legal guardian. A corporate entity or other organization can be a client when the professional contract is to provide services of primary benefit to the organization rather than to individuals.

(2) "Confidential client information" means information revealed by the client or otherwise obtained by a psychologist, where there is reasonable expectation, because of the relationship between the client and the psychologist, or the circumstances under which the information was revealed or obtained, that the information was private.

(3) "Supervisee" means any person who functions under the extended authority of the psychologist to provide psychological services or any person who is in training and provides psychological services.

[Statutory Authority: RCW 18.83.050(5) and chapter 18.83 RCW. 93-07-036 (Order 337B), § 246-924-352, filed 3/10/93, effective 4/10/93.]

WAC 246-924-353 Competence. (1) Limits on practice. The psychologist shall limit practice to the areas in

which he/she is competent. Competency at a minimum must be based upon appropriate education, training, or experience.

(2) Referral. The psychologist shall refer to other health care resources, legal authorities, or social service agencies when such referral is in the best interest of the client.

[Statutory Authority: RCW 18.83.050(5) and chapter 18.83 RCW. 93-07-036 (Order 337B), § 246-924-353, filed 3/10/93, effective 4/10/93.]

WAC 246-924-354 Maintenance and retention of records. (1) The psychologist rendering professional services to a client or clients or rendering services billed to a third party payor, shall document services except as provided in (g) of this subsection. That documentation shall include:

(a) The presenting problem(s), purpose or diagnosis;

(b) The fee arrangement;

(c) The date and service provided;

(d) A copy of all tests and evaluative reports prepared;

(e) Notation and results of formal consults including information obtained from other persons or agencies through a release of information;

(f) Progress notes reflecting on-going treatment and current status;

(g) If a client requests that no treatment records be kept and the psychologist agrees to the request, the request must be in writing and only the following must be retained:

(i) Identity of the recipient of services;

(ii) Service dates and fees;

(iii) Description of services;

(iv) Written request that no records be kept.

(2) The psychologist shall not agree to the request if maintaining records is required by other state or federal law.

[Statutory Authority: RCW 18.83.050(5) and chapter 18.83 RCW. 93-07-036 (Order 337B), § 246-924-354, filed 3/10/93, effective 4/10/93.]

WAC 246-924-355 Continuity of care. The psychologist shall make arrangements to deal with emergency needs of her/his clients during periods of anticipated absences from the psychologist's routine professional availability.

[Statutory Authority: RCW 18.83.050(5) and chapter 18.83 RCW. 93-07-036 (Order 337B), § 246-924-355, filed 3/10/93, effective 4/10/93.]

WAC 246-924-356 Impaired objectivity. The psychologist shall not undertake or continue a professional relationship with a client when the competency of the psychologist is impaired due to mental, emotional, physical, pharmacological, or substance abuse conditions. If such a condition develops after a professional relationship has been initiated, the psychologist shall terminate the relationship in an appropriate manner, and shall assist the client in obtaining services from another professional.

[Statutory Authority: RCW 18.83.050(5) and chapter 18.83 RCW. 93-07-036 (Order 337B), § 246-924-356, filed 3/10/93, effective 4/10/93.]

WAC 246-924-357 Multiple relationships. The psychologist shall not undertake or continue a professional relationship with a client when the objectivity or competency of the psychologist is impaired because of the psychologist's present or previous familial, social, sexual, emotional, financial, supervisory, political, administrative, or legal relationship with the client or a person associated with or related to the client. When such relationship impairs objectivity, the psychologist shall terminate the professional relationship with adequate notice and in an appropriate manner; and shall assist the client in obtaining services from another professional.

[Statutory Authority: RCW 18.83.050(5) and chapter 18.83 RCW. 93-07-036 (Order 337B), § 246-924-357, filed 3/10/93, effective 4/10/93.]

WAC 246-924-358 Sexual misconduct. (1) The psychologist shall never engage in sexual contact or sexual activity with current clients.

(2) Sexual contact or sexual activity is prohibited with a former client for two years after cessation or termination of professional services.

(3) The psychologist shall never engage in sexual contact or sexual activity with former clients if such contact or activity involves the abuse of the psychologist-client relationship. Factors which the board may consider in evaluating if the psychologist-client relationship has been abusive includes but is not limited to:

(a) The amount of time that has passed since therapy terminated;

(b) The nature and duration of the therapy;

(c) The circumstances of cessation or termination;

(d) The former client's personal history;

(e) The former client's current mental status;

(f) The likelihood of adverse impact on the former client and others; and

(g) Any statements or actions made by the therapist during the course of therapy suggesting or inviting the possibility of a post termination sexual or romantic relationship with the former client.

(4) The psychologist shall never engage in sexually harassing or demeaning behavior with current or former clients.

(5) Psychologists do not accept as therapy patients or clients, persons with whom they have engaged in sexual contact or activity.

[Statutory Authority: RCW 18.83.050(5) and chapter 18.83 RCW. 93-07-036 (Order 337B), § 246-924-358, filed 3/10/93, effective 4/10/93.]

WAC 246-924-359 Client welfare. (1) Providing explanation of procedures. The psychologist shall upon request give a truthful, understandable, and reasonably complete account of the client's condition to the client or to those responsible for the care of the client. The psychologist shall keep the client fully informed as to the purpose and nature of any evaluation, treatment, or other procedures, and of the client's right to freedom of choice regarding services provided subject to the exceptions contained in the Uniform Health Care Information Act, chapter 70.02 RCW.

(2) Termination of services. Whenever professional services are terminated, the psychologist shall offer to help locate alternative sources of professional services or assistance if necessary. Psychologists shall terminate a professional relationship when it would become clear to a reasonable, prudent psychologist that the client no longer needs the service, is not benefitting, or is being harmed by continued service.

(3) Stereotyping. In their work-related activities, psychologists do not engage in unfair discrimination based on age, gender, race, ethnicity, national origin, religion, sexual orientation, disability, socioeconomic status, or any basis proscribed by law.

(4) Solicitation of business by clients. The psychologist shall not request or induce any client, who is not an organization, to solicit business on behalf of the psychologist.

(5) Referrals on request. When making referrals the psychologist shall do so in the best interest of the client. The referral shall not be motivated primarily by financial gain.

[Statutory Authority: RCW 18.83.050(5) and chapter 18.83 RCW. 93-07-036 (Order 337B), § 246-924-359, filed 3/10/93, effective 4/10/93.]

WAC 246-924-361 Exploiting supervisees and research subjects. (1) Psychologists shall not exploit persons over whom they have supervisory, evaluative, or other authority such as students, supervisees, employees, research participants, clients, or patients.

(2) Psychologist shall not engage in sexual relationships with students or supervisees in training over whom the psychologist has evaluative or direct authority.

[Statutory Authority: RCW 18.83.050(5) and chapter 18.83 RCW. 93-07-036 (Order 337B), § 246-924-361, filed 3/10/93, effective 4/10/93.]

WAC 246-924-363 Protecting confidentiality of clients. (1) In general. The psychologist shall safeguard the confidential information obtained in the course of practice, teaching, research, or other professional duties. With the exceptions set forth below, the psychologist shall disclose confidential information to others only with the informed written consent of the client.

When a corporation or other organization is the client, rules of confidentiality apply to information pertaining to the organization, including personal information about individuals when obtained in the proper course of that contract. Such information about individuals is subject to confidential control of the organization, not of the individual, and can be made available to the organization, unless the information was obtained in a separate professional relationship with that individual.

(2) Disclosure without informed written consent. The psychologist may disclose confidential information without the informed written consent of the client only in compliance with the Uniform Health Care Information Act, chapter 70.02 RCW.

(3) Services involving more than one interested party. In a situation in which more than one party has a legally recognized interest in the professional services rendered by the psychologist to a recipient, the psychologist shall, to the extent possible, clarify to all parties, in writing, prior to rendering the services the dimensions of confidentiality and professional responsibility that shall pertain in the rendering of services. Such clarification is specifically indicated, among other circumstances, when the client is an organization.

(4) Legally dependent clients. At the beginning of a professional relationship, to the extent that the client can understand, the psychologist shall inform a client who is under the age of thirteen or who has a legal guardian of the limit the law imposes on the right of confidentiality with respect to his/her communications with the psychologist. For clients between the age of thirteen and eighteen, the psychologist shall clarify any limits to confidentiality between the minor and legal guardians at the outset of services. The psychologist will act in the minor's best interests in deciding whether to disclose confidential information to the legal guardians without the minor's consent.

(5) Limited access to client records. The psychologist shall limit access to client records and shall ensure that all persons working under his/her authority are familiar with the requirements for confidentiality of client material.

(6) When rendering psychological services as part of a team which includes nonhealth care professionals, if the psychologist shares confidential information about the client when so authorized by the client, the psychologist shall advise all persons receiving the information from the psychologist that the information should be maintained in a confidential manner.

(7) Reporting of abuse of children and vulnerable adults. The psychologist shall comply with chapter 26.44 RCW.

(8) Observation and electronic recording. The psychologist shall obtain documented informed consent of the client, guardian or agent for observed or electronically recorded sessions.

(9) Disguising confidential information. When case reports or other confidential information are used as the basis of teaching, research, or other published reports, the psychologist shall exercise reasonable care to insure that the reported material is appropriately disguised to prevent client identification.

(10) Confidentiality if client is deceased. The psychologist shall comply with the Uniform Health Care Information Act, chapter 70.02 RCW.

(11) Confidentiality after termination of professional relationship. The psychologist shall continue to treat information regarding a client as confidential after the professional relationship between the psychologist and the client has ceased.

[Statutory Authority: RCW 18.83.050(5) and chapter 18.83 RCW. 93-07-036 (Order 337B), § 246-924-363, filed 3/10/93, effective 4/10/93.]

WAC 246-924-364 Fees. (1) Disclosure of cost of services. The psychologist shall not mislead or withhold from the client, a prospective client, or third party payor, information about the cost of his/her professional services. A psychologist may participate in bartering only if:

(a) It is not clinically contraindicated; and

(b) The bartering relationship is not exploitive.

(2) Reasonableness of fee. The psychologist shall not exploit the client or responsible payor by charging a fee that is excessive for the services performed or by entering into an exploitive bartering arrangement in lieu of a fee.

[Statutory Authority: RCW 18.83.050(5) and chapter 18.83 RCW. 93-07-036 (Order 337B), § 246-924-364, filed 3/10/93, effective 4/10/93.]

WAC 246-924-365 Assessment procedures. (1) Communication of results. The psychologist shall accompany communication of assessment procedures and test results, including automated test results, with appropriate interpretive

aids and explanations. Psychologists shall not rely exclusively on automated test results in performing assessments.

(2) Limitations regarding assessment results. When reporting of the results of an assessment procedure, the psychologist shall include any relevant reservations, qualifications or limitations which affect the validity, reliability, or other interpretation of results.

(3) Protection of integrity of assessment procedures. In publications, lectures, or public presentations, psychologists shall not reproduce or describe psychological tests or other devices in ways which might invalidate them.

(4) Psychologists shall maintain the integrity and security of tests and other assessment techniques consistent with contractual obligations and the law, including the Uniform Health Care Information Act, chapter 70.02 RCW.

(5) Advertising newly developed procedures. Information for professional users. The psychologist advertising for sale a newly developed assessment procedure or automated interpretation service to other professionals shall provide or make available a manual or other printed material which fully describes the development of the assessment procedure or service, the rationale, evidence of validity and reliability, and characteristics of the normative population. The psychologist shall explicitly state the purpose and application for which the procedure is recommended and identify special qualifications required to administer and interpret it properly. The psychologist shall ensure that the advertisements for the assessment procedure or interpretive service are factual and descriptive.

[Statutory Authority: RCW 18.83.050(5) and chapter 18.83 RCW. 93-07-036 (Order 337B), § 246-924-365, filed 3/10/93, effective 4/10/93.]

WAC 246-924-366 Fraud, misrepresentation, or deception. The psychologist shall not use fraud, misrepresentation, or deception in obtaining a psychology license, in passing a psychology licensing examination, in assisting another to obtain a psychology license, or to pass a psychology licensing examination, in billing clients or third party payors, in providing psychological service, in reporting the results of psychological evaluations or services, or in conducting any other activity related to the practice of psychology.

[Statutory Authority: RCW 18.83.050(5) and chapter 18.83 RCW. 93-07-036 (Order 337B), § 246-924-366, filed 3/10/93, effective 4/10/93.]

WAC 246-924-367 Aiding illegal practice. Delegating professional responsibility. The psychologist shall not delegate professional responsibilities to a person not qualified and/or not appropriately credentialed to provide such services.

[Statutory Authority: RCW 18.83.050(5) and chapter 18.83 RCW. 93-07-036 (Order 337B), § 246-924-367, filed 3/10/93, effective 4/10/93.]

WAC 246-924-470 Examination fees—Failure to appear at examination session. Examination and examination administration fees shall be forfeited whenever a candidate fails to attend a scheduled examination session, except in the case of a bona fide emergency.

[Statutory Authority: RCW 18.130.250 and 18.83.050. 96-08-007, § 246-924-470, filed 3/22/96, effective 4/22/96. Statutory Authority: RCW 18.83.050. 91-04-020 (Order 117B), recodified as § 246-924-470, filed 1/28/91, effective 2/28/91. Statutory Authority: RCW 18.83.070(3). 85-06-043 (Order PL 521), § 308-122-710, filed 3/5/85.]

WAC 246-924-475 Model procedural rules. The examining board of psychology hereby adopts the model procedural rules for boards as filed by the department of health as chapter 246-11 WAC, including subsequent amendments.

[Statutory Authority: RCW 18.83.050(5). 93-16-027 (Order 382), § 246-924-475, filed 7/26/93, effective 8/26/93.]

WAC 246-924-480 Temporary permits. (1) Pursuant to RCW 18.83.082(1), a temporary permit issued to a license applicant:

(a) Is valid for no more than 1 year from the date of issue;

(b) Is terminated if the license applicant fails either the written or oral examination administered by the board pursuant to RCW 18.83.050; and/or,

(c) Is terminated if the license applicant fails to appear for a scheduled written or oral examination, unless the applicant notifies the board in advance of the inability to appear.

[Statutory Authority: RCW 18.83.050. 91-04-020 (Order 117B), recodified as § 246-924-480, filed 1/28/91, effective 2/28/91; 88-09-029 (Order PM 722), § 308-122-720, filed 4/15/88.]

WAC 246-924-500 Retired active credential. A practitioner may obtain a retired active credential. Refer to the requirements of chapter 246-12 WAC, Part 5.

[Statutory Authority: RCW 43.70.280. 98-05-060, § 246-924-500, filed 2/13/98, effective 3/16/98. Statutory Authority: RCW 18.130.250 and 18.83.050. 96-08-007, § 246-924-500, filed 3/22/96, effective 4/22/96.]

WAC 246-924-990 Psychology fees and renewal cycle. (1) Licenses must be renewed every year on the practitioner's birthday as provided in chapter 246-12 WAC, Part 2.

(2) The following nonrefundable fees will be charged:

Title of Fee	Fee
Application	$260.00
Renewal	285.00
Renewal retired active	100.00
Late renewal penalty	142.50
Expired license reissuance	142.50
Duplicate license	25.00
Oral examination	350.00
Certification of license	25.00
Amendment of certificate of qualification	30.00

[Statutory Authority: RCW 43.70.250, 2001 2nd sp.s. c 7 and RCW 18.83.020. 01-23-101, § 246-924-990, filed 11/21/01, effective 1/21/02. Statutory Authority: RCW 43.70.250. 99-08-101, § 246-924-990, filed 4/6/99, effective 7/1/99. Statutory Authority: RCW 43.70.280. 98-05-060, § 246-924-990, filed 2/13/98, effective 3/16/98. Statutory Authority: RCW 43.70.250. 96-08-006, § 246-924-990, filed 3/22/96, effective 4/22/96; 91-13-002 (Order 173), § 246-924-990, filed 6/6/91, effective 7/7/91. Statutory Authority: RCW 43.70.040. 91-05-028 (Order 133), recodified as § 246-924-990, filed 2/12/91, effective 3/15/91. Statutory Authority: RCW 43.70.250. 90-04-094 (Order 029), § 308-122-275, filed 2/7/90, effective 3/10/90. Statutory Authority: RCW 43.24.086. 87-10-028 (Order PM 650), § 308-122-275, filed 5/1/87. Statutory Authority: 1983 c 168 § 12. 83-17-031 (Order PL 442), § 308-122-275, filed 8/10/83. Formerly WAC 308-122-460.]

Chapter 246-926 WAC
RADIOLOGICAL TECHNOLOGISTS

WAC

DISPOSITION OF SECTIONS FORMERLY CODIFIED IN THIS CHAPTER

246-926-160 Renewals. [Statutory Authority: RCW 18.84.040 and 18.84.110. 92-05-010 (Order 237), § 246-926-160, filed 2/7/92, effective 2/19/92. Statutory Authority: RCW 43.70.040. 91-02-049 (Order 121), recodified as § 246-926-160, filed 12/27/90, effective 1/31/91. Statutory Authority: RCW 18.84.040. 89-01-015 (Order PM 802), § 308-183-150, filed 12/9/88.] Repealed by 98-05-060, filed 2/13/98, effective 3/16/98. Statutory Authority: RCW 43.70.280.

WAC 246-926-020 General provisions. (1) "Unprofessional conduct" as used in this chapter shall mean the conduct described in RCW 18.130.180.

(2) "Hospital" means any health care institution licensed pursuant to chapter 70.41 RCW.

(3) "Nursing home" means any health care institution which comes under chapter 18.51 RCW.

(4) "Department" means the department of health.

(5) "Radiological technologist" means a person certified pursuant to chapter 18.84 RCW.

(6) "Registered x-ray technician" means a person who is registered with the department, and who applies ionizing radiation at the direction of a licensed practitioner.

(7)(a) "Immediate supervision" means the appropriate licensed practitioner is in audible or visual range of the patient and the person treating the patient.

(b) "Direct supervision" means the appropriate licensed practitioner is on the premises, is quickly and easily available.

(c) "Indirect supervision" means the appropriate licensed practitioner is on site no less than half-time.

(8) "Mentally or physically disabled " means a radiological technologist or x-ray technician who is currently mentally incompetent or mentally ill as determined by a court, or who is unable to practice with reasonable skill and safety to patients by reason of any mental or physical condition and who continues to practice while so impaired.

[Statutory Authority: RCW 18.84.040 and 18.130.070. 92-05-010 (Order 237), § 246-926-020, filed 2/7/92, effective 2/19/92. Statutory Authority: RCW 43.70.040. 91-02-049 (Order 121), recodified as § 246-926-020, filed 12/27/90, effective 1/31/91. Statutory Authority: RCW 18.130.070. 89-14-092 (Order PM 842), § 308-183-010, filed 6/30/89.]

WAC 246-926-030 Mandatory reporting. (1) All reports required by this chapter shall be submitted to the department as soon as possible, but no later than twenty days after a determination is made.

(2) A report should contain the following information if known:

(a) The name, profession, address, and telephone number of the person making the report.

(b) The name and address and telephone numbers of the radiological technologist or x-ray technician being reported.

(c) The case number of any client whose treatment is a subject of the report.

(d) A brief description or summary of the facts which gave rise to the issuance of the report, including dates of occurrences.

(e) If court action is involved, the name of the court in which the action is filed along with the date of filing and docket number.

(f) Any further information which would aid in the evaluation of the report.

(3) Mandatory reports shall be exempt from public inspection and copying to the extent permitted under RCW 42.17.310 or to the extent that public inspection or copying of the report or any portion of the report would invade or violate a person's right to privacy as set forth in RCW 42.17.255.

(4) A person is immune from civil liability, whether direct or derivative, for providing information to the department pursuant to RCW 18.130.070.

[Statutory Authority: RCW 18.84.040 and 18.130.070. 92-05-010 (Order 237), § 246-926-030, filed 2/7/92, effective 2/19/92. Statutory Authority: RCW 43.70.040. 91-02-049 (Order 121), recodified as § 246-926-030, filed 12/27/90, effective 1/31/91. Statutory Authority: RCW 18.130.070. 89-14-092 (Order PM 842), § 308-183-020, filed 6/30/89.]

WAC 246-926-040 Health care institutions. The chief administrator or executive officer or their designee of any hospital or nursing home shall report to the department when any radiological technologist's or x-ray technician's services are terminated or are restricted based on a determination that the radiological technologist or x-ray technician has either committed an act or acts which may constitute unprofessional conduct or that the radiological technologist or x-ray technician may be unable to practice with reasonable skill or safety to clients by reason of a mental or physical condition.

[Statutory Authority: RCW 18.84.040 and 18.130.070. 92-05-010 (Order 237), § 246-926-040, filed 2/7/92, effective 2/19/92. Statutory Authority: RCW 43.70.040. 91-02-049 (Order 121), recodified as § 246-926-040, filed 12/27/90, effective 1/31/91. Statutory Authority: RCW 18.130.070. 89-14-092 (Order PM 842), § 308-183-030, filed 6/30/89.]

WAC 246-926-050 Radiological technologist associations or societies. The president or chief executive officer of any radiological technologist association or society within this state shall report to the department when the association or society determines that a radiological technologist has committed unprofessional conduct or that a radiological technologist may not be able to practice radiological technology

with reasonable skill and safety to clients as the result of any mental or physical condition. The report required by this section shall be made without regard to whether the certificate holder appeals, accepts, or acts upon the determination made by the association or society. Notification of appeal shall be included.

[Statutory Authority: RCW 43.70.040. 91-02-049 (Order 121), recodified as § 246-926-050, filed 12/27/90, effective 1/31/91. Statutory Authority: RCW 18.130.070. 89-14-092 (Order PM 842), § 308-183-040, filed 6/30/89.]

WAC 246-926-060 Professional liability carriers. Every institution or organization providing professional liability insurance directly or indirectly to radiological technologists or x-ray technicians shall send a complete report to the department of any malpractice settlement, award, or payment in excess of twenty thousand dollars as a result of a claim or action for damages alleged to have been caused by an insured radiological technologist's or x-ray technician's incompetency or negligence in the practice of radiology technology. Such institution or organization shall also report the award, settlement, or payment of three or more claims during a twelve-month period as a result of the radiological technologist's or x-ray technician's alleged incompetence or negligence.

[Statutory Authority: RCW 18.84.040 and 18.130.070. 92-05-010 (Order 237), § 246-926-060, filed 2/7/92, effective 2/19/92. Statutory Authority: RCW 43.70.040. 91-02-049 (Order 121), recodified as § 246-926-060, filed 12/27/90, effective 1/31/91. Statutory Authority: RCW 18.130.070. 89-14-092 (Order PM 842), § 308-183-050, filed 6/30/89.]

WAC 246-926-070 Courts. The department requests the assistance of the clerk of trial courts within the state to report all professional malpractice judgments and all convictions of radiological technologists or x-ray technicians, other than minor traffic violations.

[Statutory Authority: RCW 18.84.040 and 18.130.070. 92-05-010 (Order 237), § 246-926-070, filed 2/7/92, effective 2/19/92. Statutory Authority: RCW 43.70.040. 91-02-049 (Order 121), recodified as § 246-926-070, filed 12/27/90, effective 1/31/91. Statutory Authority: RCW 18.130.070. 89-14-092 (Order PM 842), § 308-183-060, filed 6/30/89.]

WAC 246-926-080 State and federal agencies. The department requests the assistance of executive officers of any state or federal program operating in the state of Washington, under which a radiological technologist or x-ray technician is employed to provide client care services, to report to the department whenever such a radiological technologist or x-ray technician has been judged to have demonstrated his/her incompetency or negligence in the practice of radiological technology, or has otherwise committed unprofessional conduct, or is a mentally or physically disabled radiological technologist. These requirements do not supersede any federal or state law.

[Statutory Authority: RCW 18.84.040 and 18.130.070. 92-05-010 (Order 237), § 246-926-080, filed 2/7/92, effective 2/19/92. Statutory Authority: RCW 43.70.040. 91-02-049 (Order 121), recodified as § 246-926-080, filed 12/27/90, effective 1/31/91. Statutory Authority: RCW 18.130.070. 89-14-092 (Order PM 842), § 308-183-070, filed 6/30/89.]

WAC 246-926-090 Cooperation with investigation. (1) A certificant or registrant must comply with a request for records, documents, or explanation from an investigator who is acting on behalf of the secretary of the department of health by submitting the requested items within fourteen calendar days of receipt of the request by either the certificant, registrant or their attorney, whichever is first. If the certificant or registrant fails to comply with the request within fourteen calendar days, the investigator will contact that individual or their attorney by telephone or letter as a reminder.

(2) Investigators may extend the time for response if the request for extension does not exceed seven calendar days. Any other requests for extension of time may be granted by the secretary or the secretary's designee.

(3) If the certificant or registrant fails to comply with the request within three business days after receiving the reminder, a subpoena will be served to obtain the requested items. A statement of charges may be issued pursuant to RCW 18.130.180(8) for failure to cooperate. If there is sufficient evidence to support additional charges, those charges may be included in the statement of charges.

(4) If the certificant or registrant complies with the request after the issuance of the statement of charges, the secretary or the secretary's designee will decide if the charges will be prosecuted or settled. If the charges are to be settled the settlement proposal will be negotiated by the secretary's designee. Settlements are not considered final until the secretary signs the settlement agreement.

[Statutory Authority: RCW 18.84.040 and 18.130.070. 92-05-010 (Order 237), § 246-926-090, filed 2/7/92, effective 2/19/92. Statutory Authority: RCW 43.70.040. 91-02-049 (Order 121), recodified as § 246-926-090, filed 12/27/90, effective 1/31/91. Statutory Authority: RCW 18.130.070. 89-14-092 (Order PM 842), § 308-183-080, filed 6/30/89.]

WAC 246-926-100 Definitions—Alternative training radiologic technologists. (1) Definitions. For the purposes of certifying radiologic technologists by alternative training methods the following definitions shall apply:

(a) "One quarter credit hour" equals eleven "contact hours";

(b) "One semester credit hour" equals sixteen contact hours;

(c) "One contact hour" is considered to be fifty minutes lecture time or one hundred minutes laboratory time;

(d) "One clinical year" is considered to be 1900 contact hours.

(e) "Immediate supervision" means the radiologist or nuclear medicine physician is in audible or visual range of the patient and the person treating the patient.

(f) "Direct supervision" means the supervisory clinical evaluator is on the premises, is quickly and easily available.

(g) "Indirect supervision" means the supervising radiologist or nuclear medicine physician is on site no less than half-time.

(h) "Allied health care profession" means an occupation for which programs are accredited by the American Medical Association Committee on Allied Health Education and Accreditation, Sixteenth Edition of the Allied Health Education Directory, 1988 or a previous edition.

(i) "Formal education" shall be obtained in postsecondary vocational/technical schools and institutions, community or junior colleges, and senior colleges and universities

accredited by regional accrediting associations or by other recognized accrediting agencies or programs approved by the Committee on Allied Health Education and Accreditation of the American Medical Association.

(2) Clinical practice experience shall be supervised and verified by the approved clinical evaluators who must be:

(a) A certified radiologic technologist designated in the specialty area the individual is requesting certification who provides direct supervision; and

(b) A radiologist for those individuals requesting certification in practice of diagnostic radiologic technology or therapeutic radiologic technology; or for those individuals requesting certification as a nuclear medicine technologist, a physician specialist in nuclear medicine who provides indirect supervision. The physician supervisor shall routinely critique the films and evaluate the quality of the trainees' work.

[Statutory Authority: RCW 43.70.040. 91-02-049 (Order 121), recodified as § 246-926-100, filed 12/27/90, effective 1/31/91. Statutory Authority: RCW 18.84.040. 89-01-015 (Order PM 802), § 308-183-090, filed 12/9/88.]

WAC 246-926-110 Diagnostic radiologic technologist—Alternative training. An individual must possess the following alternative training qualifications to be certified as a diagnostic radiologic technologist.

(1) Have obtained a high school diploma or GED equivalent, a minimum of four clinical years supervised practice experience in radiography, and completed the course content areas outlined in subsection (2) of this section; or have obtained an associate or higher degree in an allied health care profession or meets the requirements for certification as a therapeutic radiologic technologist or nuclear medicine technologist, have obtained a minimum of three clinical years supervised practice experience in radiography, and completed course content areas outlined in subsection (2) of this section.

(2) The following course content areas of training may be obtained directly by supervised clinical practice experience: Introduction to radiography, medical ethics and law, medical terminology, methods of patient care, radiographic procedures, radiographic film processing, evaluation of radiographs, radiographic pathology, introduction to quality assurance, and introduction to computer literacy. Clinical practice experience must be verified by the approved clinical evaluators.

The following course content areas of training must be obtained through formal education: Human anatomy and physiology - 100 contact hours; principles of radiographic exposure - 45 contact hours; imaging equipment - 40 contact hours; radiation physics, principles of radiation protection, and principles of radiation biology - 40 contact hours.

(3) Must satisfactorily pass an examination approved or administered by the secretary.

(4) Individuals who are registered as a diagnostic radiologic technologist with the American Registry of Radiologic Technologists shall be considered to have met the alternative education and training requirements.

[Statutory Authority: RCW 18.84.040 and 18.84.080. 92-05-010 (Order 237), § 246-926-110, filed 2/7/92, effective 2/19/92. Statutory Authority: RCW 43.70.040. 91-02-049 (Order 121), recodified as § 246-926-110, filed 12/27/90, effective 1/31/91. Statutory Authority: RCW 18.84.040. 89-01-015 (Order PM 802), § 308-183-100, filed 12/9/88.]

WAC 246-926-120 Therapeutic radiologic technologist—Alternative training. An individual must possess the following alternative training qualifications to be certified as a therapeutic radiologic technologist.

(1) Have obtained a baccalaureate or associate degree in one of the physical, biological sciences, or allied health care professions, or meets the requirements for certification as a diagnostic radiologic technologist or nuclear medicine technologist; have obtained a minimum of five clinical years supervised practice experience in therapeutic radiologic technology; and completed course content areas outlined in subsection (2) of this section.

(2) The following course content areas of training may be obtained by supervised clinical practice experience: Orientation to radiation therapy technology, medical ethics and law, methods of patient care, computer applications, and medical terminology. At least fifty percent of the clinical practice experience must have been in operating a linear accelerator. Clinical practice experience must be verified by the approved clinical evaluators.

The following course content areas of training must be obtained through formal education: Human anatomy and physiology - 100 contact hours; oncologic pathology - 22 contact hours; radiation oncology - 22 contact hours; radiobiology, radiation protection, and radiographic imaging - 73 contact hours; mathematics (college level algebra or above) - 55 contact hours; radiation physics - 66 contact hours; radiation oncology technique - 77 contact hours; clinical dosimetry - 150 contact hours; quality assurance - 12 contact hours; and hyperthermia - 4 contact hours.

(3) Must satisfactorily pass an examination approved or administered by the secretary.

(4) Individuals who are registered as a therapeutic radiologic technologist by the American Registry of Radiologic Technologists shall be considered to have met the alternative education and training requirements.

[Statutory Authority: RCW 18.84.040 and 18.84.080. 92-05-010 (Order 237), § 246-926-120, filed 2/7/92, effective 2/19/92. Statutory Authority: RCW 43.70.040. 91-02-049 (Order 121), recodified as § 246-926-120, filed 12/27/90, effective 1/31/91. Statutory Authority: RCW 18.84.040. 89-01-015 (Order PM 802), § 308-183-110, filed 12/9/88.]

WAC 246-926-130 Nuclear medicine technologist—Alternative training. An individual must possess the following alternative training qualifications to be certified as a nuclear medicine technologist.

(1) Have obtained a baccalaureate or associate degree in one of the physical, biological sciences, allied health care professions, or meets the requirements for certification as a diagnostic radiologic technologist or a therapeutic radiologic technologist; have obtained a minimum of four clinical years supervised practice experience in nuclear medicine technology; and completed course content areas outlined in subsection (2) of this section.

(2) The following course content areas of training may be obtained by supervised clinical practice experience: Methods of patient care, computer applications, department organization and function, nuclear medicine in-vivo and in-vitro procedures, and radionuclide therapy. Clinical practice

experience must be verified by the approved clinical evaluators.

The following course content areas of training must be obtained through formal education: Radiation safety and protection - 10 contact hours; radiation biology - 10 contact hours; nuclear medicine physics and radiation physics - 80 contact hours; nuclear medicine instrumentation - 22 contact hours; statistics - 10 contact hours; radionuclide chemistry and radiopharmacology - 22 contact hours.

(3) Must satisfactorily pass an examination approved or administered by the secretary.

(4) Individuals who are registered as a nuclear medicine technologist with the American Registry of Radiologic Technologists or with the nuclear medicine technology certifying board shall be considered to have met the alternative education and training requirements.

[Statutory Authority: RCW 18.84.040 and 18.84.080. 92-05-010 (Order 237), § 246-926-130, filed 2/7/92, effective 2/19/92. Statutory Authority: RCW 43.70.040. 91-02-049 (Order 121), recodified as § 246-926-130, filed 12/27/90, effective 1/31/91. Statutory Authority: RCW 18.84.040. 89-01-015 (Order PM 802), § 308-183-120, filed 12/9/88.]

WAC 246-926-140 Approved schools. Approved schools and standards of instruction for diagnostic radiologic technologist, therapeutic radiologic technologist, and nuclear medicine technologist are those recognized as radiography, radiation therapy technology, and nuclear medicine technology educational programs that have obtained accreditation from the Committee on Allied Health Education and Accreditation of the American Medical Association as recognized in the publication Allied Health Education Directory, Sixteenth Edition, published by the American Medical Association, 1988 or any previous edition.

[Statutory Authority: RCW 43.70.040. 91-02-049 (Order 121), recodified as § 246-926-140, filed 12/27/90, effective 1/31/91. Statutory Authority: RCW 18.84.040. 89-01-015 (Order PM 802), § 308-183-130, filed 12/9/88.]

WAC 246-926-150 Certification designation. A certificate shall be designated in a particular field of radiologic technology by:

(1) The educational program completed; diagnostic radiologic technologist - radiography program; therapeutic radiologic technologist - radiation therapy technology program; and nuclear medicine technologist - nuclear medicine technology program; or

(2) By meeting the alternative training requirements established in WAC 246-926-100, 246-926-110, 246-926-120, or 246-926-130.

[Statutory Authority: RCW 18.84.040 and 18.84.080. 92-05-010 (Order 237), § 246-926-150, filed 2/7/92, effective 2/19/92. Statutory Authority: RCW 43.70.040. 91-02-049 (Order 121), recodified as § 246-926-150, filed 12/27/90, effective 1/31/91. Statutory Authority: RCW 18.84.040. 89-01-015 (Order PM 802), § 308-183-140, filed 12/9/88.]

WAC 246-926-170 Expired license. (1) If the license has expired for three years or less, the practitioner must meet the requirements of chapter 246-12 WAC, Part 2.

(2) If the license has expired for over three years, the practitioner must:

(a) Demonstrate competence to the standards established by the secretary;

(b) Meet the requirements of chapter 246-12 WAC, Part 2.

[Statutory Authority: RCW 43.70.280. 98-05-060, § 246-926-170, filed 2/13/98, effective 3/16/98. Statutory Authority: RCW 18.84.040 and 18.84.110. 92-05-010 (Order 237), § 246-926-170, filed 2/7/92, effective 2/19/92. Statutory Authority: RCW 43.70.040. 91-02-049 (Order 121), recodified as § 246-926-170, filed 12/27/90, effective 1/31/91. Statutory Authority: RCW 18.84.040. 89-01-015 (Order PM 802), § 308-183-160, filed 12/9/88.]

WAC 246-926-180 Parenteral procedures. (1) A certified radiologic technologist may administer diagnostic and therapeutic agents under the direction and immediate supervision of a radiologist if the following guidelines are met:

(a) The radiologic technologist has had the prerequisite training and thorough knowledge of the particular procedure to be performed;

(b) Appropriate facilities are available for coping with any complication of the procedure as well as for emergency treatment of severe reactions to the diagnostic or therapeutic agent itself, including the ready availability of appropriate resuscitative drugs, equipment, and personnel; and

(c) After parenteral administration of a diagnostic or therapeutic agent, competent personnel and emergency facilities shall be available for at least thirty minutes in case of a delayed reaction.

(2) A certified radiologic technologist may perform venipuncture at the direction and immediate supervision of a radiologist.

[Statutory Authority: RCW 43.70.040. 92-19-060 (Order 302), § 246-926-180, filed 9/11/92, effective 10/12/92; 91-02-049 (Order 121), recodified as § 246-926-180, filed 12/27/90, effective 1/31/91. Statutory Authority: RCW 18.84.040. 89-01-015 (Order PM 802), § 308-183-170, filed 12/9/88.]

WAC 246-926-190 State examination/examination waiver/examination application deadline. (1) The American Registry of Radiologic Technologists certification examinations for radiography, radiation therapy technology, and nuclear medicine technology shall be the state examinations for certification as a radiologic technologist.

(a) The examination for certification as a radiologic technologist shall be conducted three times a year in the state of Washington, in March, July, and October.

(b) The examination shall be conducted in accordance with the American Registry of Radiologic Technologists security measures and contract.

(c) Examination candidates shall be advised of the results of their examination in writing.

(2) Applicants taking the state examination must submit the application, supporting documents, and fees to the department of health no later than the fifteenth day of December, for the March examination; the fifteenth day of April, for the July examination; and the fifteenth day of July, for the October examination.

(3) A scaled score of seventy-five is required to pass the examination.

[Statutory Authority: RCW 18.84.040 and 18.84.080. 92-05-010 (Order 237), § 246-926-190, filed 2/7/92, effective 2/19/92. Statutory Authority: RCW 43.70.040. 91-02-049 (Order 121), recodified as § 246-926-190, filed 12/27/90, effective 1/31/91. Statutory Authority: RCW 18.84.040. 89-01-015 (Order PM 802), § 308-183-190, filed 12/9/88.]

WAC 246-926-200 AIDS prevention and information education requirements. Applicants must complete seven clock hours of AIDS education as required in chapter 246-12 WAC, Part 8.

[Statutory Authority: RCW 43.70.280. 98-05-060, § 246-926-200, filed 2/13/98, effective 3/16/98. Statutory Authority: RCW 18.84.040 and 70.24.270. 92-05-010 (Order 237), § 246-926-200, filed 2/7/92, effective 2/19/92. Statutory Authority: RCW 43.70.040. 91-02-049 (Order 121), recodified as § 246-926-200, filed 12/27/90, effective 1/31/91. Statutory Authority: RCW 70.24.270. 88-22-077 (Order PM 786), § 308-183-200, filed 11/2/88.]

WAC 246-926-990 Certification and registration fees and renewal cycle. (1) Certificates and registrations must be renewed every two years on the practitioner's birthday as provided in chapter 246-12 WAC, Part 2.

(2) The following nonrefundable fees will be charged:

Title of Fee	Fee
Application - certification	$45.00
Exam fee - certification	30.00
Application - registration	35.00
Certification renewal	45.00
Registration renewal	35.00
Late renewal penalty - certification	45.00
Late renewal penalty - registration	35.00
Expired certificate reissuance	45.00
Expired registration reissuance	35.00
Certification of registration or certificate	15.00
Duplicate registration of certificate	15.00

[Statutory Authority: RCW 43.70.250. 99-08-101, § 246-926-990, filed 4/6/99, effective 7/1/99. Statutory Authority: RCW 43.70.280. 98-05-060, § 246-926-990, filed 2/13/98, effective 3/16/98. Statutory Authority: RCW 18.84.040 and 18.84.100. 92-05-010 (Order 237), § 246-926-990, filed 2/7/92, effective 2/19/92. Statutory Authority: RCW 43.70.040. 91-02-049 (Order 121), recodified as § 246-926-990, filed 12/27/90, effective 1/31/91. 246-928-050 Definition of "commonly accepted standards for the profession." [Statutory Authority: RCW 43.70.040. 91-02-049 (Order 121), recodified as § 246-928-050, filed 12/27/90, effective 1/31/91. Statutory Authority: RCW 18.89.050. 88-10-015 (Order 724), § 308-195-050, filed 4/27/88.] Repealed by 01-11-165, filed 5/23/01, effective 6/23/01. Statutory Authority: RCW 18.89.050(1).

246-928-060 Grandfather—Verification of practice. [Statutory Authority: RCW 43.70.040. 91-02-049 (Order 121), recodified as § 246-928-060, filed 12/27/90, effective 1/31/91. Statutory Authority: RCW 18.89.050. 88-10-015 (Order 724), § 308-195-060, filed 4/27/88.] Repealed by 01-11-165, filed 5/23/01, effective 6/23/01. Statutory Authority: RCW 18.89.050(1).

246-928-070 Grandfather—Examination dates. [Statutory Authority: RCW 43.70.040. 91-02-049 (Order 121), recodified as § 246-928-070, filed 12/27/90, effective 1/31/91. Statutory Authority: RCW 18.89.050. 88-23-001 (Order PM 787), § 308-195-070, filed 11/3/88; 88-10-015 (Order 724), § 308-195-070, filed 4/27/88.] Repealed by 92-02-018 (Order 224), filed 12/23/91,

WAC 246-928-310 Introduction. This chapter explains the requirements for respiratory care practitioner licensure. These rules, which implement the provisions of chapter 18.89 RCW, are divided into four parts:

Part I explains the definitions for and the process to become licensed as a respiratory care practitioner;

Part II specifies the requirements for licensure including educational and examination criteria;

Part III explains the requirements for reporting unprofessional conduct;

Part IV lists the fees for licensure and renewal cycle for respiratory care practitioners.

[Statutory Authority: RCW 18.89.050(1). 01-11-165, § 246-928-310, filed 5/23/01, effective 6/23/01.]

WAC 246-928-320 General definitions. This section defines terms used in the rules contained in this chapter.

(1) "Respiratory care practitioner" means a person licensed by the department of health, who is authorized under chapter 18.89 RCW and these rules to practice respiratory therapy. WAC 246-928-410 explains who must be licensed as a respiratory care practitioner.

(2) "Applicant" means a person whose application for licensure as a respiratory care practitioner is being submitted to the department of health.

(3) "Department" means the Washington state department of health.

[Statutory Authority: RCW 18.89.050(1). 01-11-165, § 246-928-320, filed 5/23/01, effective 6/23/01.]

PART I
DEFINITIONS AND PROCEDURES FOR LICENSING AS A RESPIRATORY CARE PRACTITIONER

WAC 246-928-410 Who must be licensed as a respiratory care practitioner with the department. This section identifies who must be licensed as a respiratory care practitioner with the department and who is exempt from licensure.

(1) Any person performing or offering to perform the functions authorized in RCW 18.89.040 must be licensed as a respiratory care practitioner. A certification, registration or other credential issued by a professional organization does not substitute for licensure as a respiratory care practitioner in Washington state.

(2) The following individuals are exempt from licensure as a respiratory care practitioner with the department:

(a) Any person performing or offering to perform the functions authorized in RCW 18.89.040, if that person already holds a current licensure, certification or registration that authorizes these functions;

(b) Any person employed by the United States government who is practicing respiratory care as a performance of the duties prescribed for him or her by the laws of and rules of the United States;

(c) Any person who is pursuing a supervised course of study leading to a degree or certificate in respiratory care, if the person is designated by a title that clearly indicates his or her status as a student or trainee and limited to the extent of demonstrated proficiency of completed curriculum, and under direct supervision;

(d) Any person who is licensed as a registered nurse under chapter 18.79 RCW;

(e) Any person who is practicing respiratory care without compensation for a family member.

[Statutory Authority: RCW 18.89.050(1). 01-11-165, § 246-928-410, filed 5/23/01, effective 6/23/01.]

WAC 246-928-420 How to become licensed as a respiratory care practitioner. This section explains how a person may become licensed as a respiratory care practitioner with the department.

(1) The department shall provide forms for use by an applicant for licensure as a respiratory care practitioner. All applications for licensure must be submitted on these forms, with the appropriate fee required in WAC 246-928-990. The specific requirements and process for licensure is set forth in WAC 246-12-020.

(2) The applicant shall certify that all information on the application forms is accurate. The applicant is subject to investigation and discipline by the department for any apparent violation of chapters 18.130 and 18.89 RCW, or this chapter.

[Statutory Authority: RCW 18.89.050(1). 01-11-165, § 246-928-420, filed 5/23/01, effective 6/23/01.]

WAC 246-928-430 How and when to renew a respiratory care practitioner license. This section explains how and when to renew a respiratory care practitioner license.

(1) Applications for renewal of the license for respiratory care practitioner shall be submitted on forms provided by the department, with the appropriate fee required in WAC 246-928-990. The specific requirements and process for renewal of a license are set forth in WAC 246-12-030.

(2) Renewal fees must be postmarked on or before the renewal date or the department will charge a late renewal penalty fee and licensure reissuance fee.

[Statutory Authority: RCW 18.89.050(1). 01-11-165, § 246-928-430, filed 5/23/01, effective 6/23/01.]

WAC 246-928-440 Continuing education requirements. Purposes. The ultimate aim of continuing education is to ensure the highest quality of professional work. Continuing education consists of educational activities designed to review existing concepts and techniques and to convey information and knowledge about advances in respiratory care as applied to the work settings. The objectives are to improve and increase the ability of the respiratory care practitioner to deliver the highest possible quality of respiratory care work and to keep the professional respiratory care practitioner abreast of current developments in a rapidly changing field. All respiratory care practitioners licensed under chapter 18.89 RCW will be required to meet the continuing education requirements set forth in these rules as a prerequisite to license renewal.

[Statutory Authority: RCW 18.89.050(1) and 18.89.140. 01-21-136, § 246-928-440, filed 10/24/01, effective 11/24/01.]

WAC 246-928-441 Implementation. (1) This rule explains implementation process, the number of hours that are required, the type of continuing education approved by the secretary, how to demonstrate compliance of continuing education to the department, and the auditing of continuing education requirements.

(2) Effective October 2003, renewal of any current license or reinstatement of any license lapsed or on disciplinary status shall require evidence of completion of continuing education which meets the requirements of subsection (3) of this section.

(3) Requirements. RCW 18.89.140 requires that all licensed respiratory care practitioners seeking to renew their license shall acquire thirty credit hours of continuing respiratory care education every two years as required in chapter 246-12 WAC, Part 7.

[Statutory Authority: RCW 18.89.050(1) and 18.89.140. 01-21-136, § 246-928-441, filed 10/24/01, effective 11/24/01.]

WAC 246-928-442 Acceptable continuing education. (1) Continuing respiratory care education must be a minimum of ten hours of continuing respiratory care education approved by the American Association for Respiratory Care. The remaining twenty hours of continuing respiratory care education may be in any of the following:

(a) Additional courses approved by the American Association for Respiratory Care.

(b) Category I level formal in-service approved by the American Association for Respiratory Care.

(c) Courses in respiratory care approved by the American Medical Association, the American Osteopathic Association and the American Nurses Association.

(d) Initial and renewal certification courses in Advanced Cardiac Life Support, Pediatric Advanced Life Support and Neonatal Resuscitation Program.

(e) Courses in respiratory care at any accredited college.

(f) Self-study courses in respiratory care.

(g) Passing the National Board for Respiratory Care's self-assessment competency examination with a minimum score of 75. Three hours of continuing education may be applied for successful completion of this examination.

(h) Educational offerings in respiratory care which include learning objectives provided by hospitals or health organizations.

(i) Educational offerings in respiratory care which include learning objectives, where the licensee serves as the instructor subject to the limitation described in subsection (3) of this section.

(2) Documentation. Licensees are responsible for acquiring and maintaining all acceptable documentation of their continuing education activities. Acceptable documentation shall include transcripts, letters from course instructors, or certificates of completion or other formal certifications provided by hospitals, course instructors, and health organizations, as required in chapter 246-12 WAC, Part 7. In all cases other than transcripts, the documentation must show the participant's name, activity title, number of continuing education credit hours, date(s) of activity, instructor's name(s) and degree and the signature of the verifying individual program sponsor.

(3) The licensee who prepares and presents lectures or education courses that contributes to the professional competence of a licensed respiratory care practitioner may accumulate the same number of hours obtained for continuing education purposes by attendees as determined in WAC 246-12-220. The hours for presenting a specific topic lecture or education may only be used for continuing education credit once during each renewal period.

[Statutory Authority: RCW 18.89.050(1) and 18.89.140. 01-21-136, § 246-928-442, filed 10/24/01, effective 11/24/01.]

WAC 246-928-443 Verification of continuing education. (1) The licensee shall:

(a) Verify on renewal forms provided by the department, that the minimum continuing education has been completed within the two-year renewal cycle prior to the licensee's renewal date; and

(b) Keep records for four years as required in chapter 246-12 WAC, Part 7.

(2) Audits. The department may conduct random compliance audits of continuing education records, as described in chapter 246-12 WAC, Part 7.

(3) Exemptions. In certain emergency situations, the department may excuse all or part of the continuing education requirement as described in chapter 246-12 WAC, Part 7. The department may require verification of the emergency.

[Statutory Authority: RCW 18.89.050(1) and 18.89.140. 01-21-136, § 246-928-443, filed 10/24/01, effective 11/24/01.]

WAC 246-928-450 How to reinstate an expired respiratory care practitioner license. This section explains the process for reinstatement of an expired respiratory care practitioner license. Applications for reinstatement of an expired license may be submitted on forms provided by the department, with the appropriate fee required in WAC 246-928-990. The specific requirements and process for reinstatement of an expired license is set forth in WAC 246-12-040.

[Statutory Authority: RCW 18.89.050(1). 01-11-165, § 246-928-450, filed 5/23/01, effective 6/23/01.]

PART II
REQUIREMENTS FOR LICENSURE AS A RESPIRATORY CARE PRACTITIONER

WAC 246-928-510 Overview of the qualifications required for licensure as a respiratory care practitioner. This section provides an overview of the qualifications required for licensure as a respiratory care practitioner.

The requirements for licensure are intended to ensure the minimum level of knowledge, skill and experience necessary to practice safely as a respiratory care practitioner. Licensure requires applicants to submit proof to the department that they have satisfied educational and examination requirements in this chapter.

[Statutory Authority: RCW 18.89.050(1). 01-11-165, § 246-928-510, filed 5/23/01, effective 6/23/01.]

WAC 246-928-520 Minimum educational qualifications for licensure as a respiratory care practitioner. This section provides the minimum educational qualifications for licensure as a respiratory care practitioner.

(1) To meet the educational requirements required by RCW 18.89.090, an applicant must be a graduate of a two-year respiratory therapy educational program. Programs must be:

Accredited by the Committee On Accreditation for Respiratory Care (COARC) or accredited by the American Medical Association's (AMA) Committee on Allied Health Education and Accreditation (CAHEA), or its successor, the Commission on Accreditation of Allied Health Education Program (CAAHEP).

(2) An official transcript indicating completion of a two-year program must be provided as evidence of fulfillment of the required education.

[Statutory Authority: RCW 18.89.050(1). 01-11-165, § 246-928-520, filed 5/23/01, effective 6/23/01.]

WAC 246-928-530 How new graduates may qualify for temporary practice and what is required. (1) An individual who has completed an approved program under WAC 246-928-520 is eligible for temporary practice. To meet the requirements for temporary practice under this rule, an individual is required to:

(a) Submit the application and fee as required in WAC 246-928-990;

(b) Sit for the examination within ninety days of graduation as required in WAC 246-928-560; and

(c) Be under the supervision of a licensed respiratory care practitioner.

Temporary practice may begin from the time the application and fee is submitted to the department.

(2) An applicant shall request examination results be submitted directly to the department from National Board for Respiratory Care.

(3) An applicant who receives notification that he or she successfully passed the examination may continue to practice under the supervision of a licensed respiratory care practitioner until the department has issued a license to the applicant.

(4) An applicant who receives notification of failure to pass the examination shall cease practice immediately. Resumption of practice may occur only after successfully passing the examination and becoming licensed as a respiratory care practitioner by the department.

[Statutory Authority: RCW 18.89.050(1). 01-11-165, § 246-928-530, filed 5/23/01, effective 6/23/01.]

WAC 246-928-540 Examination requirements for licensure as a respiratory care practitioner. This section provides the minimum examination requirements for licensure as a respiratory care practitioner.

An applicant who has taken and passed the National Board for Respiratory Care (NBRC) entry level examination, has met the minimum examination requirements of RCW 18.89.090 (1)(b). Applicants shall request the NBRC to verify to the department that the applicant has successfully passed the NBRC examination.

[Statutory Authority: RCW 18.89.050(1). 01-11-165, § 246-928-540, filed 5/23/01, effective 6/23/01.]

WAC 246-928-550 Education and training in AIDS prevention is required for licensure as a respiratory care practitioner. This section explains the required education and training in AIDS prevention.

Applicants must complete seven hours of AIDS education as required in chapter 246-12 WAC, Part 8.

[Statutory Authority: RCW 18.89.050(1). 01-11-165, § 246-928-550, filed 5/23/01, effective 6/23/01.]

WAC 246-928-560 How to apply for licensure for persons credentialed out-of-state. This section explains how a person holding a license in another state or jurisdiction may apply for licensure.

(1) An applicant who is currently or was previously credentialed in another state or jurisdiction may qualify for licensure in Washington state. Applicants must submit the following documentation to be considered for licensure:

(a) An application fee and forms as specified in WAC 246-928-420 and 246-928-990; and

(b) Written verification directly from all states in which the applicant is or was credentialed, attesting that the applicant has or had a license in good standing and is not subject to charges or disciplinary action for unprofessional conduct or impairment; and

(c) Verification of completion of the required education and examination as specified in WAC 246-928-520.

(2) Applicants who have completed a two-year program recognized by the Canadian Society of Respiratory Therapists (CSRT) in their current list, or any previous lists, and are eligible to sit for the CSRT registry examination; or have been issued a registration by the CSRT are considered to have met the educational and examination requirements in this chapter. Canadian applicants are required to submit verification directly from CSRT, as well as all of the information listed above for applicants licensed in another jurisdiction.

[Statutory Authority: RCW 18.89.050(1). 01-11-165, § 246-928-560, filed 5/23/01, effective 6/23/01.]

WAC 246-928-570 How to apply for temporary practice permit for persons credentialed out-of-state. This section explains how a person holding a license in another state or jurisdiction may apply for a temporary practice permit.

(1) An applicant who is currently or was previously credentialed in another state or jurisdiction may qualify for licensure in Washington state. Applicants must submit the following documentation to be considered for a temporary practice permit:

(a) A completed application on forms provided by the department with the request for a temporary practice permit indicated;

(b) An application fee and a temporary practice permit fee as specified in WAC 246-928-990;

(c) Written verification directly from all states or jurisdictions in which the applicant is or was licensed, attesting that the applicant has or had a license in good standing and is not subject to charges or disciplinary action for unprofessional conduct or impairment; and

(d) Verification of completion of the required education and examination as specified in WAC 246-928-520.

(2) The department shall issue a one-time-only temporary practice permit unless the department determines a basis for denial of the license or issuance of a conditional license.

(3) The temporary permit shall expire upon the issuance of a license by the department, or within three months, whichever occurs first. The permit shall not be extended beyond the expiration date.

(4) Issuance of a temporary practice permit does not ensure that the department will grant a full license. Temporary permit holders are subject to the same education and examination requirements as set forth in WAC 246-928-520 and 246-928-550.

(5) The following situations are not considered substantially equal for Washington state licensure:

(a) Certification of persons credentialed out-of-state through a state-constructed examination; or

(b) Grandfathering provisions where proof of education and examination was not required.

[Statutory Authority: RCW 18.89.050(1). 01-11-165, § 246-928-570, filed 5/23/01, effective 6/23/01.]

PART III
REQUIREMENTS FOR REPORTING UNPROFESSIONAL CONDUCT

WAC 246-928-710 Mandatory reporting. (1) All reports required by this chapter shall be submitted to the department as soon as possible, but no later than twenty days after a determination is made.

(2) A report should contain the following information if known:

(a) The name, address, and telephone number of the person making the report.

(b) The name, address, and telephone numbers of the respiratory care practitioner being reported.

(c) The case number of any patient whose treatment is a subject of the report.

(d) A brief description or summary of the facts which prompted the issuance of the report, including dates of occurrences.

(e) If court action is involved, the name of the court in which the action is filed along with the date of filing and docket number.

(f) Any further information which would aid in the evaluation of the report.

(3) Mandatory reports shall be exempt from public inspection and copying to the extent permitted under RCW 42.17.310 or to the extent that public inspection or copying of the report or any portion of the report would invade or violate a person's right to privacy as set forth in RCW 42.17.255.

(4) A person is immune from civil liability, whether direct or derivative, for providing information to the department pursuant to RCW 18.130.070.

[Statutory Authority: RCW 18.89.050(1). 01-11-165, § 246-928-710, filed 5/23/01, effective 6/23/01.]

WAC 246-928-720 Health care institutions. The chief administrator, executive officer, or any health care institution shall report to the department when any respiratory care practitioner's services are terminated or are restricted based on a determination that the respiratory care practitioner has either committed an act or acts which may constitute unprofessional conduct or that the respiratory care practitioner may be unable to practice with reasonable skill or safety to clients by reason of any mental or physical condition.

[Statutory Authority: RCW 18.89.050(1). 01-11-165, § 246-928-720, filed 5/23/01, effective 6/23/01.]

WAC 246-928-730 Respiratory care practitioner associations or societies. The president or chief executive officer of any respiratory care practitioner association or society within this state shall report to the department when the association or society determines that a respiratory care practitioner has committed unprofessional conduct or that a respiratory care practitioner may not be able to practice respiratory care with reasonable skill and safety to patients as the result of any mental or physical conditions. The report required by this section shall be made without regard to whether the license holder appeals, accepts, or acts upon the determination made by the association or society. Notification of appeal shall be included.

[Statutory Authority: RCW 18.89.050(1). 01-11-165, § 246-928-730, filed 5/23/01, effective 6/23/01.]

WAC 246-928-740 Professional liability carriers. Every institution or organization providing professional liability insurance directly or indirectly to respiratory care practitioners shall send a complete report to the department of any malpractice settlement, award, or payment in excess of twenty thousand dollars as a result of a claim or action for damages alleged to have been caused by an insured respiratory care practitioner's incompetency or negligence in the practice of respiratory care. Such institution or organization shall also report the award, settlement, or payment of three or more claims during a twelve-month period as a result of the respiratory care practitioner's alleged incompetence or negligence.

[Statutory Authority: RCW 18.89.050(1). 01-11-165, § 246-928-740, filed 5/23/01, effective 6/23/01.]

WAC 246-928-750 Courts. The department requests the assistance of the clerk of trial courts within the state to report all professional malpractice judgments and all convictions of licensed respiratory care practitioners, other than minor traffic violations.

[Statutory Authority: RCW 18.89.050(1). 01-11-165, § 246-928-750, filed 5/23/01, effective 6/23/01.]

WAC 246-928-760 State and federal agencies. The department requests the assistance of executive officers of any state or federal program operating in the state of Washington, under which a respiratory care practitioner is employed to provide patient care services, to report to the department whenever such a respiratory care practitioner has been judged to have demonstrated his/her incompetency or negligence in the practice of respiratory care, or has otherwise committed unprofessional conduct, or has a mental or physical disability that prevents them from practicing competently and professionally. These requirements do not supersede any state or federal law.

[Statutory Authority: RCW 18.89.050(1). 01-11-165, § 246-928-760, filed 5/23/01, effective 6/23/01.]

PART IV
RESPIRATORY CARE PRACTITIONER LICENSING AND RENEWAL FEES

WAC 246-928-990 Respiratory care fees and renewal cycle. (1) Licenses must be renewed every two years on the practitioner's birthday as provided in chapter 246-12 WAC, Part 2.

(2) The following nonrefundable fees will be charged:

Title of Fee	Fee
Application	$ 70.00
Temporary practice permit	35.00
Duplicate license	15.00
Verification of licensure	15.00

Title of Fee	Fee
Renewal	50.00
Late renewal penalty	50.00
Expired license reissuance	50.00

[Statutory Authority: RCW 18.89.050(1). 01-11-165, § 246-928-990, filed 5/23/01, effective 6/23/01. Statutory Authority: RCW 43.70.250. 99-08-101, § 246-928-990, filed 4/6/99, effective 7/1/99. Statutory Authority: RCW 43.70.280. 98-05-060, § 246-928-990, filed 2/13/98, effective 3/16/98. Statutory Authority: Chapter 18.89 RCW and RCW 43.70.040. 95-18-019, § 246-928-990, filed 8/24/95, effective 9/24/95. Statutory Authority: RCW 43.70.250. 92-15-032 (Order 285), § 246-928-990, filed 7/7/92, effective 8/7/92. Statutory Authority: RCW 18.89.050 and 43.70.250. 92-02-018 (Order 224), § 246-928-990, filed 12/23/91, effective 1/23/92. Statutory Authority: RCW 43.70.040. 91-02-049 (Order 121), recodified as § 246-928-990, filed 12/27/90, effective 1/31/91. Statutory Authority: RCW 43.24.086. 88-17-099 (Order PM 741), § 308-195-110, filed 8/23/88.]

Chapter 246-930 WAC
SEX OFFENDER TREATMENT PROVIDER

WAC

DISPOSITION OF SECTIONS FORMERLY CODIFIED IN THIS CHAPTER

246-930-400 Issuance and renewal of certification. [Statutory Authority: RCW 18.155.040. 92-12-027 (Order 275), § 246-930-400, filed 5/28/92, effective 6/28/92; 91-11-063 (Order 168), § 246-930-400, filed 5/16/91, effective 6/16/91.] Repealed by 98-05-060, filed 2/13/98, effective 3/16/98. Statutory Authority: RCW 43.70.280.

246-930-430 Reinstatement. [Statutory Authority: RCW 18.155.040. 94-13-179, § 246-930-430, filed 6/21/94, effective 7/22/94.] Repealed by 98-05-060, filed 2/13/98, effective 3/16/98. Statutory Authority: RCW 43.70.280.

246-930-499 Temporary and provisional certificate during initial implementation of certification program. [Statutory Authority: RCW 18.155.040. 93-14-095, § 246-930-499, filed 7/1/93, effective 8/1/93; 92-12-027 (Order 275), § 246-930-499, filed 5/28/92, effective 6/28/92; 91-11-063 (Order 168), § 246-930-499, filed 5/16/91, effective 6/16/91.] Repealed by 99-07-018, filed 3/9/99, effective 4/9/99. Statutory Authority: RCW 18.155.040.

WAC 246-930-010 General definitions. In these rules, the following terms shall have the definition described below, unless another definition is stated:

(1) "Department" means the department of health.

(2) "Secretary" means the secretary of the department of health, or designee.

(3) "Provider" means a certified sex offender treatment provider.

(4) "Affiliate" means affiliate sex offender treatment provider.

(5) "Committee" means the sex offender treatment providers advisory committee.

(6) "Credential" or its derivative means the process of licensing, registration, certification or the equivalent through which a person is legally recognized by a state agency as lawfully authorized to practice a health profession.

(7) "Evaluation."

(a) For purposes of determining eligibility for certification, evaluation is defined as the direct provision of comprehensive evaluation and assessment services to persons who have been investigated by law enforcement or child protective services for commission of a sex offense, or who have been adjudicated or convicted of a sex offense. Such evaluation shall be related to a client's offending behavior. Such services shall have resulted in preparation of a formal written report. To qualify, the individual shall have had primary responsibility for interviewing the offender and shall have completed the written report. Only hours in face-to-face contact with a client may be counted for evaluation credit. Evaluation hours performed by affiliate providers under the supervision of fully certified providers count toward certification under this definition. Note that limited assessments for the purpose of institution classification, treatment monitoring, and reporting do not qualify for evaluation credit under this definition.

(b) Standards for evaluations of clients by certified providers as defined in RCW 9.94A.120 (7)(a) and 13.40.160 are set forth in WAC 246-930-320.

(8) "Treatment" for purposes of determining eligibility for certification, treatment is defined as the provision of face-to-face individual, group, or family therapy with persons who have been investigated by law enforcement or child protective services for commission of a sex offense, or who have been adjudicated or convicted of a sex offense. The professional seeking certification has formal responsibility for providing primary treatment services, and such services shall have had direct relevance to a client's offending behavior. Face-to-face treatment hours performed by affiliate providers under the supervision of certified providers count toward certification under this definition. "Cotherapy hours" are defined as the actual number of hours the applicant spent facilitating a group session. Cotherapists may each claim credit for therapy hours as long as both persons have formal responsibility for the group sessions. Time spent in maintaining collateral contacts and written case/progress notes are not counted under this definition.

(9) A "certified sex offender treatment provider" is an applicant who has met the educational, experience and training requirements as specified for full certification, has satisfactorily passed the examination, and has been issued a certificate by the department to evaluate and treat sex offenders pursuant to chapter 18.155 RCW.

(10) An "affiliate sex offender treatment provider" is an applicant who has met the educational, experience and train-

ing requirements as specified for affiliate certification applicants, and has satisfactorily passed the examination. An affiliate sex offender treatment provider evaluates and treats sex offenders pursuant to chapter 18.155 RCW under the supervision of a certified sex offender treatment provider in accordance with the supervision requirements set forth in WAC 246-930-075.

(11) "SSOSA" is special sex offender sentencing alternative as defined in RCW 9.94A.120 (7)(a).

(12) "SSODA" is special sex offender disposition alternative as defined in RCW 13.40.160.

(13) "Supervising officer" means the designated representative of the agency having oversight responsibility for a client sentenced under SSOSA or SSODA, under the sentence or disposition order, for example, community correction officer, probation officer.

(14) "Treatment plan" means the plan set forth in the evaluation detailing how the treatment needs of the client will be met while the community is protected during the course of treatment.

(15) "Community protection contract" means the document specifying the treatment rules and requirements the client has agreed to follow in order to maximize community safety.

(16) "Parties" means the defendant, the prosecuting attorney, the community corrections officer and the juvenile probation officer.

[Statutory Authority: RCW 18.155.040. 94-13-179, § 246-930-010, filed 6/21/94, effective 7/22/94; 92-12-027 (Order 275), § 246-930-010, filed 5/28/92, effective 6/28/92; 91-23-076 (Order 212), § 246-930-010, filed 11/19/91, effective 12/20/91; 91-11-063 (Order 168), § 246-930-010, filed 5/16/91, effective 6/16/91.]

WAC 246-930-020 Underlying credential as a health professional required. (1) Under RCW 18.155.020(1), only credentialed health professionals may be certified as providers.

(2) A person who is credentialed as a health professional in a state or jurisdiction other than Washington may satisfy this requirement by submitting the following:

(a) A copy of the current nonexpired credential issued by the credentialing state;

(b) A copy of the statute, administrative regulation, or other official document of the issuing state which sets forth the minimum requirements for the credential;

(c) A statement from the issuing authority:

(i) That the credential is in good standing;

(ii) That there is no disciplinary action currently pending; and

(iii) Listing any formal discipline actions taken by the issuing authority with regard to the credential;

(d) A statement signed by the applicant, on a form provided by the department, submitting to the jurisdiction of the Washington state courts for the purpose of any litigation involving his or her practice as a sex offender treatment provider;

(e) A statement signed by the applicant on a form provided by the department, that the applicant does not intend to practice the health profession for which he or she is credentialed by another state within the state of Washington without first obtaining an appropriate credential to do so from the state of Washington, except as may be authorized by Washington state law; and

(f) Applicants must complete four clock hours of AIDS education as required in chapter 246-12 WAC, Part 8.

(3) Underlying registration, certification, or licensure shall be maintained in good standing. If an underlying registration, certification, or licensure is not renewed or is revoked, certification as a sex offender treatment provider, affiliate sex offender treatment provider, or temporary or provisional treatment provider is revoked. If an underlying license is suspended, the sex offender treatment provider certification is suspended. If there is a stay of the suspension of an underlying license the sex offender treatment provider program must independently evaluate the reasonableness of a stay for the sex offender treatment provider.

[Statutory Authority: RCW 43.70.280. 98-05-060, § 246-930-020, filed 2/13/98, effective 3/16/98. Statutory Authority: RCW 18.155.040. 94-13-179, § 246-930-020, filed 6/21/94, effective 7/22/94; 92-12-027 (Order 275), § 246-930-020, filed 5/28/92, effective 6/28/92; 91-11-063 (Order 168), § 246-930-020, filed 5/16/91, effective 6/16/91.]

WAC 246-930-030 Education required prior to examination. (1) An applicant for full certification shall have completed:

(a) A master's or doctoral degree in social work, psychology, counseling, or educational psychology from a regionally accredited institution of higher education; or

(b) A medical doctor or doctor of osteopathy degree if the individual is a board certified/eligible psychiatrist; or

(c) A master's or doctoral degree in an equivalent field from a regionally accredited institution of higher education with documentation of thirty graduate semester hours or forty-five graduate quarter hours in approved subject content. Approved subject content includes at least five graduate semester hours or seven graduate quarter hours in (c)(i) and (ii) of this subsection and five graduate semester hours or seven graduate quarter hours in at least two additional content areas from (c)(i) through (viii) of this subsection:

(i) Counseling and psychotherapy.

(ii) Personality theory.

(iii) Behavioral science and research.

(iv) Psychopathology/personality disorders.

(v) Assessment/tests and measurement.

(vi) Group therapy/family therapy.

(vii) Human growth and development/sexuality.

(viii) Corrections/criminal justice.

(d) The applicant is responsible for submitting proof that the hours used to meet this requirement are in fact, equivalent.

(2) Transcripts of all graduate work shall be submitted directly to the department from the institution where earned.

[Statutory Authority: RCW 18.155.040. 94-13-179, § 246-930-030, filed 6/21/94, effective 7/22/94; 92-12-027 (Order 275), § 246-930-030, filed 5/28/92, effective 6/28/92; 91-11-063 (Order 168), § 246-930-030, filed 5/16/91, effective 6/16/91.]

WAC 246-930-040 Professional experience required prior to examination. (1) To qualify for examination, an applicant must complete at least two thousand hours of treatment and evaluation experience, as defined in WAC 246-

930-010. These two thousand hours shall include at least two hundred fifty hours of evaluation experience and at least two hundred fifty hours of treatment experience.

(2) All of the prerequisite experience shall have been within the seven-year period preceding application for certification as a provider.

[Statutory Authority: RCW 18.155.040. 94-13-179, § 246-930-040, filed 6/21/94, effective 7/22/94; 92-12-027 (Order 275), § 246-930-040, filed 5/28/92, effective 6/28/92; 91-11-063 (Order 168), § 246-930-040, filed 5/16/91, effective 6/16/91.]

WAC 246-930-050 Education required for affiliate prior to examination. (1) An applicant for affiliate certification shall have completed: Effective July 1, 1995, new applicants must have a master's or doctorate degree to meet the minimum requirement for affiliate certification.

(a) A bachelor's, master's, or doctorate degree in social work, psychology, counseling, or educational psychology from a regionally accredited institution of higher education; or

(b) A medical doctor or doctor of osteopathy degree if the individual is a board certified/eligible psychiatrist; or

(c) A bachelor's, master's, or doctorate degree in an equivalent field from a regionally accredited institution of higher education when there is documentation of thirty semester hours or forty-five quarter hours in approved subject content. Approved subject content includes at least five semester hours or seven quarter hours in (c)(i) and (ii) of this subsection and five semester hours or seven quarter hours in at least two additional content areas from (c)(i) through (viii) of this subsection:

(i) Counseling and psychotherapy.

(ii) Personality theory.

(iii) Behavioral science and research.

(iv) Psychopathology/personality disorders.

(v) Assessment/tests and measurement.

(vi) Group therapy/family therapy.

(vii) Human growth and development/sexuality.

(viii) Corrections/criminal justice.

(d) The applicant is responsible for submitting proof that the hours used to meet this requirement are in fact, equivalent.

(2) Transcripts of all academic work shall be submitted directly to the department from the institution where earned.

[Statutory Authority: RCW 18.155.040. 94-13-179, § 246-930-050, filed 6/21/94, effective 7/22/94; 92-12-027 (Order 275), § 246-930-050, filed 5/28/92, effective 6/28/92; 91-11-063 (Order 168), § 246-930-050, filed 5/16/91, effective 6/16/91.]

WAC 246-930-060 Professional experience required for affiliate prior to examination. (1) An applicant meeting only the minimal academic requirements for affiliate status (bachelor's degree), shall have a total of two thousand hours of experience in evaluation and/or treatment as defined in WAC 246-930-010. No specific minimum number of hours in either category is required for an affiliate applicant.

(2) All of the prerequisite experience shall have been within the seven-year period preceding application for certification as a provider.

(3) If the applicant for affiliate status meets the academic requirements for full certification, post-graduate degree as outlined in WAC 246-930-030, no experience requirement applies.

[Statutory Authority: RCW 18.155.040. 94-13-179, § 246-930-060, filed 6/21/94, effective 7/22/94; 92-12-027 (Order 275), § 246-930-060, filed 5/28/92, effective 6/28/92; 91-11-063 (Order 168), § 246-930-060, filed 5/16/91, effective 6/16/91.]

WAC 246-930-070 Training required for certified providers. (1) All applicants for certification as providers shall submit documentation of attendance at fifty hours of formal conferences, symposia, or seminars directly related to the treatment and evaluation of sex offenders. No more than ten hours of training may be related to victims of abuse.

(2) All such training shall have been received within the three years preceding application for certification.

[Statutory Authority: RCW 18.155.040. 01-02-065, § 246-930-070, filed 12/29/00, effective 1/29/01; 94-13-179, § 246-930-070, filed 6/21/94, effective 7/22/94; 91-11-063 (Order 168), § 246-930-070, filed 5/16/91, effective 6/16/91.]

WAC 246-930-075 Description of supervision of affiliates. Supervision of affiliates is considerably different than consultation with other professionals. Consultation is solely advisory; consultants do not assume responsibility for those individuals to whom they consult. Supervision of affiliates requires that the provider take full ethical and legal responsibility for the quality of work of the affiliate. The following rules apply to providers and affiliates when service is being provided to SSOSA and SSODA clients:

(1) Whether providing training, consultation, or supervision, sex offender treatment providers shall avoid presenting themselves as having qualifications in areas where they do not have expertise.

(2) The supervisor shall provide sufficient training and supervision to the affiliate to insure the health and safety of the client and community. The supervisor shall have the expertise and knowledge to directly supervise the work of the affiliate.

(3) The supervisor shall insure that any person he or she supervises has sufficient education, background, and preparation for the work they will be doing.

(4) Supervision of an affiliate shall require that the supervisor and supervisee enter into a formal written contract defining the parameters of the professional relationship. This supervision contract shall be submitted to the department for approval and shall be renewed on a yearly basis. The contract shall include, but is not limited to:

(a) Supervised areas of professional activity;

(b) Amount of supervision time and the frequency of supervisory meetings. This information may be presented as a ratio of supervisory time to clinical work conducted by the affiliate;

(c) Supervisory fees and business arrangements, when applicable;

(d) Nature of the supervisory relationship and the anticipated process of supervision;

(e) Selected and review of clinical cases;

(f) Methodology for recordkeeping, evaluation of the affiliate, and feedback; and

(g) How the affiliate is represented to the public.

(5) Supervision of affiliates shall involve regular, direct, face-to-face supervision. Based on the affiliate's skill and experience levels, supervision shall include a reasonable degree of direct observation of the affiliates by means of the supervisor sitting in sessions, audio tape recording, videotape, etc. In some cases, special flexible supervision arrangements which deviate from the standard are permitted, for example, due to geography or disability; special flexible supervision contracts shall be submitted to the department for approval.

(6) The level of supervision shall insure that the affiliate is prepared to conduct professional work and provide adequate oversight. There shall be a minimum of one hour of supervision time for every ten hours of supervised professional work. Supervision meetings shall regularly occur at least every other week.

(7) A certified sex offender treatment provider shall undertake no contract which exceeds the provider's ability to comply with supervision standards. A supervisor shall not supervise more than thirty hours of SSOSA and SSODA case clinical work each week.

(8) Generally, a supervisor shall not provide supervision for more than two affiliates. However, the special needs of certain locales, particularly rural areas, are recognized. Where appropriate, deviation from the standards in subsections (4)(b), (6) and (7) of this section are permitted subject to department approval, if quality of supervision can be maintained. Special supervisory arrangements shall be submitted for approval with the supervision contract to the department. A supervisor may adjust a supervision plan, as necessary, but shall notify the department of the amendment to the contract within thirty days.

(9) The status of the affiliate's relationship to the supervisor is to be accurately communicated to the public, other professionals, and to all clients served.

(10) An affiliate sex offender treatment provider may represent himself or herself as an affiliate only when doing clinical work supervised by the contracted sex offender treatment provider. If the affiliate is providing unsupervised clinical services to clients who are not SSOSA or SSODA cases, the individual shall not utilize the title "affiliate". This is not intended to prohibit an affiliate from describing their experience and qualifications to potential referral sources.

(11) All written reports and correspondence by the affiliate acting under SSOSA or SSODA shall be cosigned by the supervisor, indicating the supervisory relationship. The work shall be represented as conducted by the affiliate with oversight provided by the supervisor.

(12) All work relating to SSOSA and SSODA clients conducted by the affiliate is the responsibility of the supervisor. The supervisor shall have authority to direct the practice of the affiliate involving SSOSA and SSODA clients.

(13) Supervision includes, but is not limited to the following:

(a) Discussion of services provided by the affiliate;

(b) Case selection, service plan, and review of each case or work unit of the affiliate;

(c) Discussions regarding theory and practice of the work being conducted;

(d) Review of Washington statutes, rules, and criminal justice procedures relevant to the work being conducted;

(e) Discussion of the standards of practice for providers as adopted by the department and the ethical issues involved in providing professional services for sex offenders;

(f) Discussion regarding coordination of work with other professionals;

(g) Discussion of relevant professional literature and research; and

(h) Periodic review of the supervision itself.

(14) Both the supervisor and affiliate shall maintain full documentation of the work done and supervision provided.

(15) The supervisor will evaluate the affiliate's work and professional progress on an ongoing basis.

(16) It is the responsibility of the supervisor to remedy the problems or terminate the supervision contract. If the work of the supervisee does not meet sufficient standards to protect the best interests of the clients and the community. The supervisor shall notify the department and provide the department with a letter of explanation, if a supervision contract is terminated.

(17) Supervision is a power relationship and the supervisee-supervisor relationship is not to be exploited. This standard in no way precludes reasonable compensation for supervisory services.

(18) It is the responsibility of the supervisor to provide, on request, accurate and objective letters of reference and work documentation regarding the affiliate, when requested by affiliate.

(19) If a supervisee is in the employ of a provider it is the responsibility of the supervisor to provide:

(a) Appropriate working conditions;

(b) Opportunities to further the supervisee's skills and professional development; and

(c) Consultation in all areas of professional practice appropriate to the supervisee's employment.

(20) All records of both affiliate and supervisor are subject to audit to determine compliance with appropriate statutes and rules.

[Statutory Authority: RCW 18.155.040. 94-13-179, § 246-930-075, filed 6/21/94, effective 7/22/94; 92-12-027 (Order 275), § 246-930-075, filed 5/28/92, effective 6/28/92; 91-21-035 (Order 201), § 246-930-075, filed 10/10/91, effective 11/10/91.]

WAC 246-930-200 Application and examination. (1) In order to be certified to practice under this chapter as a provider or affiliate provider in the state of Washington all applicants shall pass an examination approved by the secretary.

(2) An applicant shall meet all education, experience, and training requirements and be a health care provider before being allowed to sit for the examination.

(3) Examinations shall be given at a time and place determined by the secretary.

(4) A completed application with the appropriate fee for certification shall be received in the office of the department, no later than sixty days prior to the examination date. All supporting documentation shall be received no later than twenty days prior to the scheduled examination date.

(5) Any applicant who fails to follow written or oral instructions relative to the conduct of the examination, is observed talking or attempting to give or receive information, or attempting to remove materials from the examination or using or attempting to use unauthorized materials during any portion of the examination shall be terminated from the examination and not permitted to complete it.

(6) The department shall approve the method of grading each examination, and apply the method uniformly to all applicants taking the examination.

(7) Applicants will be notified in writing of their examination scores.

(8) Applicant's examination scores are not disclosed to anyone other than the applicant, unless requested to do so in writing by the applicant.

(9) An applicant who fails to make the required grade in the first examination is entitled to take up to two additional examinations upon the payment of a reexamination fee for each subsequent examination. After failure of three examinations, the secretary may require remedial education before admission to future examinations.

[Statutory Authority: RCW 18.155.040. 94-13-179, § 246-930-200, filed 6/21/94, effective 7/22/94; 92-12-027 (Order 275), § 246-930-200, filed 5/28/92, effective 6/28/92; 91-11-063 (Order 168), § 246-930-200, filed 5/16/91, effective 6/16/91.]

WAC 246-930-210 Examination appeal procedures. (1) Any candidate who takes and does not pass the sex offender treatment provider examination may request an informal review of the results of the examination.

(a) The examination results shall not be modified unless the candidate presents clear and convincing evidence of error in the examination content or procedure, or bias, prejudice, or discrimination in the examination process.

(b) Any challenges to examination scores shall not be considered unless the total of the potentially revised score would result in issuance of a certificate.

(2) The procedure for requesting an informal review of examination results is as follows: The request shall be in writing and shall be received by the department within thirty days of the date on the letter of notification of examination results sent to the candidate.

(3) The candidate shall be identified only by candidate number for the purpose of this review. The candidate shall be notified in writing of the decision.

Letters of referral or requests for special consideration shall not be read or considered.

(4) Any candidate not satisfied with the results of the informal examination review may request a formal hearing before the secretary to challenge the informal review decision. The procedures for requesting a formal hearing are as follows:

(a) The candidate shall complete the informal review process before requesting a formal hearing.

(b) The request for formal hearing shall be received by the department within twenty days of the date on the notice of the results of the informal review.

(c) The written request shall specifically identify the challenged portion(s) of the examination and shall state the specific reason(s) why the candidate believes the examination results should be modified.

(d) Appeals are brief adjudicative proceedings, as provided under the Administrative Procedure Act, chapter 34.05 RCW and chapter 246-11 WAC. The presiding officer is the secretary or the secretary's designee.

(5) The hearing shall be restricted to the specific portion(s) of the examination the candidate had identified in the request for formal hearing.

[Statutory Authority: RCW 18.155.040. 94-13-179, § 246-930-210, filed 6/21/94, effective 7/22/94; 92-12-027 (Order 275), § 246-930-210, filed 5/28/92, effective 6/28/92; 91-11-063 (Order 168), § 246-930-210, filed 5/16/91, effective 6/16/91.]

WAC 246-930-220 Reexamination. (1) An applicant for certification who has been previously certified shall retake the examination and achieve a passing score before recertification under any of the following circumstances:

(a) The applicant has been uncertified voluntarily for more than twenty-four calendar months; or

(b) The applicant's certificate has been revoked or suspended by reason of a disciplinary action by the secretary.

(2) The secretary may require reexamination in any disciplinary order as a condition of reissuing a certificate or confirming certification.

(3) Whenever reexamination is required, the applicant shall pay the examination fees set forth in WAC 246-930-990.

[Statutory Authority: RCW 18.155.040. 94-13-179, § 246-930-220, filed 6/21/94, effective 7/22/94; 92-12-027 (Order 275), § 246-930-220, filed 5/28/92, effective 6/28/92; 91-11-063 (Order 168), § 246-930-220, filed 5/16/91, effective 6/16/91.]

WAC 246-930-300 Mandatory reporting. (1) Pursuant to RCW 18.130.070, the persons designated in subsection (2) of this section are required to report to the department any conviction, determination, or finding of which they have personal knowledge that any person certified as a provider or affiliate provider has committed an act which constitutes unprofessional conduct under RCW 18.130.180.

(2) The following persons are required to report the information identified in subsection (1) of this section:

(a) Persons certified as providers or affiliate providers;

(b) The president, chief executive officer, or designated official of any professional association or society whose members are certified providers or affiliate providers;

(c) Prosecuting attorneys and deputy prosecuting attorneys;

(d) Community corrections officers employed by the department of corrections;

(e) Juvenile probation or parole counselors who provide counseling or supervision to juveniles;

(f) The president, chief executive officer, or designated official of any public or private agency which employs certified providers or affiliate providers;

(g) The president, chief executive officer, or designated official of any credentialing agency for health professionals.

(3) Reports under this section shall be made in writing, and must include the name, address, and telephone number of the person making the report, the name and address of the

person about whom the report is made, and complete information about the circumstances giving rise to the report.

[Statutory Authority: RCW 18.155.040. 94-13-179, § 246-930-300, filed 6/21/94, effective 7/22/94; 92-12-027 (Order 275), § 246-930-300, filed 5/28/92, effective 6/28/92; 91-11-063 (Order 168), § 246-930-300, filed 5/16/91, effective 6/16/91.]

WAC 246-930-301 Purpose—Professional standards and ethics. (1) Sex offender treatment providers are also credentialed health professionals, and are subject to the standards of practice of their primary field of practice. However, standards of practice vary from profession to profession, and sex offender evaluation and treatment represents significant differences in practice from general mental health interventions.

(2) The standards set forth in WAC 246-930-301 through 246-930-340 apply to all sex offender treatment providers evaluating or treating SSOSA or SSODA clients. Failure to comply with these standards in providing evaluation and/or treatment to SSOSA/SSODA clients may constitute unprofessional conduct pursuant to RCW 18.130.180(7).

(3) Standards of practice specific to this area of specialization are necessary due to the unique characteristics of this area of practice, the degree of control that a provider exercises over the lives of clients, and the community protection issues inherent in this work.

[Statutory Authority: RCW 18.155.040. 94-13-179, § 246-930-301, filed 6/21/94, effective 7/22/94; 92-12-027 (Order 275), § 246-930-301, filed 5/28/92, effective 6/28/92; 91-23-076 (Order 212), § 246-930-301, filed 11/19/91, effective 12/20/91.]

WAC 246-930-310 Standards for professional conduct and client relationships. (1) General considerations. Sex offender treatment providers shall:

(a) Not discriminate against clients with regard to race, religion, gender or disability; and

(b) Treat clients with dignity and respect, regardless of the nature of their crimes or offenses.

(2) Competence in practice. Providers shall:

(a) Be fully aware of the standards of their area of credentialling as health professionals and adhere to those standards;

(b) Be knowledgeable of statutes and scientific data relevant to specialized sex offender treatment and evaluation practice;

(c) Be familiar with the statutory requirements for assessments, treatment plans and reports for the court under SSOSA and SSODA;

(d) Perform professional duties with the highest level of integrity, maintaining confidentiality within the scope of statutory responsibilities;

(e) Be committed to community protection and safety;

(f) Be aware of all statutes related to client confidentiality;

(g) Not make claims regarding the efficacy of treatment that exceed what can be reasonably expected;

(h) Make appropriate referrals when they are not qualified or are otherwise unable to offer services to a client; and

(i) Exercise due prudence and care in making referral to other professionals.

(3) Confidentiality. Providers shall:

(a) Insure that the client fully understands the scope and limits of confidentiality, and the relevance to the client's particular situation. The provider shall inform the client of the provider's method of reporting disclosures made by the client and to whom disclosures are reported, before evaluation and treatment commence;

(b) Inform clients of any circumstances which may trigger an exception to the agreed upon confidentiality;

(c) Not require or seek waivers of privacy or confidentiality beyond the requirements of evaluation, treatment, training, or community safety. Providers shall evaluate the impact of authorizations for release of information upon their clients; and

(d) Understand and explain to their juvenile clients the rights of their parents and/or guardians to obtain information relating to the client.

(4) Conflict of interest. Providers shall:

(a) Refrain from using professional relationships to further their personal, religious, political, or economic interest other than accepting customary fees;

(b) Avoid relationships with clients which may constitute a conflict of interest, impair professional judgment and risk exploitation. (For example, bartering, service for service, and/or treating individuals where a social, business, or personal relationship exists); and

(c) Have no sexual relationships with a client.

(5) Fee-setting and client interaction. Providers shall:

(a) Prior to commencing service, fully inform the client of the scope of professional services to be provided and the fees associated with the services;

(b) Review any changes in financial arrangements and requirements with the client pursuant to the rules initially specified;

(c) Neither offer nor accept payment for referral; and

(d) Provide clients or their responsible person timely statements accurately indicating all services provided, the fees charged, and payments made.

(6) Termination or alteration of therapist/client relationship. Providers shall:

(a) Not unreasonably withdraw services to clients, and shall take care to minimize possible adverse effects on the client and the community;

(b) Notify clients promptly when termination or disruptions of services are anticipated, and provide for a transfer, referral, or continuation of service consistent with client needs and preferences, when appropriate; and

(c) Refrain from knowingly providing treatment services to a client who is in mental health treatment with another professional without consultation with the current provider.

(7) The department neither requires nor prohibits the use of psychological or physiological testing. The use of these and other treatment and evaluation techniques is at the discretion of the provider, subject to the terms of the court order in a particular case. The following standards apply when such techniques are used.

(a) Psychological testing: Psychological testing may provide valuable data during the assessment phase and in determining treatment progress. However, psychological testing should not be conducted by a provider who is not a

licensed psychologist, unless the specific test(s) standardized administration procedures provide for administration by a nonpsychologist.

Psychological assessment data provided by a psychologist, other than the examiner, shall not be integrated into an assessment report unless the provider is familiar with the psychological instruments used and aware of their strengths and/or limitations.

The interpretation of psychological testing through blind analysis has significant limitations. Providers reporting psychological test data derived in this manner shall also report the way in which the information was derived and the limitations of the data.

It is important to report any information which might influence the validity of psychological test findings. Examples of such information include, but are not limited to, the context of the evaluation, the information available to the professional who interpreted the data, whether the interpretations were computer derived and any special population characteristics of the person examined.

(b) Use of polygraph: The use of the polygraph examination may enhance the assessment, treatment and monitoring processes by encouraging disclosure of information relevant and necessary to understanding the extent of present risk and compliance with treatment and court requirements. When obtained, the polygraph data achieved through periodic examinations is an important asset in monitoring the sex offender client in the community. Other alternative sources of verification may also be utilized. Sex offender treatment providers shall be knowledgeable of the limitations of the polygraph and shall take into account its appropriateness with each individual client and special client populations. Examinations shall be given in accordance with the treatment plan. Sex offender treatment providers shall not base decisions solely on the results of the polygraph examination.

(c) Use of plethysmography: The use of physiological assessment measures, such as penile plethysmography, may yield useful information regarding the sexual arousal patterns of sex offenders. This data can be useful in assessing baseline arousal patterns and therapeutic progress. Decisions about the use of plethysmography should be made on a case-by-case basis with due consideration given to the limitations and the intrusiveness of the procedure. Consideration also should be given to the available literature on the usefulness of the information obtained as it relates to a specific sex offender population.

When obtained, physiological assessment data shall not be used as the sole basis for offender risk assessment and shall not be used to determine if an individual has committed a specific sexually deviant act. Providers shall recognize that plethysmographic data is only meaningful within the context of a comprehensive evaluation and/or treatment process. Sex offender treatment providers shall ensure that physiologic assessment data is interpreted only by sex offender treatment providers who possess the necessary training and experience. Sex offender treatment providers shall insure that particular care is taken when performing physiological assessment with juvenile offenders and other special populations, due to concerns about exposure to deviant materials. Given the intrusiveness of this procedure, care shall be given to the dignity of the client.

[Statutory Authority: RCW 18.155.040. 94-13-179, § 246-930-310, filed 6/21/94, effective 7/22/94; 92-12-027 (Order 275), § 246-930-310, filed 5/28/92, effective 6/28/92; 91-23-076 (Order 212), § 246-930-310, filed 11/19/91, effective 12/20/91.]

WAC 246-930-320 Standards for SSOSA and SSODA assessment and evaluation reports. (1) General considerations in evaluating clients. Providers shall:

(a) Be knowledgeable of assessment procedures used;

(b) Be aware of the strengths and limitations of self-report and make reasonable efforts to verify information provided by the offender;

(c) Be knowledgeable of the client's legal status including any court orders applicable. Have a full understanding of the SSOSA and SSODA process and be knowledgeable of relevant criminal and legal considerations;

(d) Be impartial; provide an objective and accurate base of data; and

(e) Avoid addressing or responding to referral questions which exceed the present level of knowledge in the field or the expertise of the evaluator.

(2) Scope of assessment data.

Comprehensive evaluations under SSOSA and SSODA shall include a compilation of data from as many sources as reasonable, appropriate, and available. These sources may include but are not limited to:

(a) Collateral information (i.e., police reports, child protective services information, criminal correctional history and victim statements);

(b) Interviews with the offender;

(c) Interviews with significant others;

(d) Previous assessments of the offender conducted (i.e., medical, substance abuse, psychological and sexual deviancy);

(e) Psychological/physiological tests;

(f) If a report fails to include information specified in (a) through (e) of this subsection, the evaluation should indicate the information not included and cite the reason the information is not included; and

(g) Second evaluations shall state whether other evaluations were considered. The decision regarding use of other evaluations prior to conducting the second evaluation is within the professional discretion of the provider. The second evaluation need not repeat all assessment or data compilation measures if it reasonably relies on existing current information. The second evaluation must address all issues outlined in subsection (3) of this section, and include conclusions, recommendations and a treatment plan if one is recommended.

(3) Evaluation reports.

(a) Written reports shall be accurate, comprehensive and address all of the issues required for court disposition as provided in the statutes governing SSOSA and SSODA;

(b) Written reports shall present all knowledge relevant to the matters at hand in a clear and organized manner;

(c) Written reports shall include the referral sources, the conditions surrounding the referral and the referral questions addressed; and

(d) Written reports shall state the sources of information utilized in the evaluation. The evaluation and written report shall address, at a minimum, the following issues:

(i) A description of the current offense(s) including, but not limited to, the evaluator's conclusion about the reasons for any discrepancy between the official and offender's versions of the offenses;

(ii) A sexual history, sexual offense history and patterns of sexual arousal/preference/interest;

(iii) Prior attempts to remediate and control offense behavior including prior treatment;

(iv) Perceptions of significant others, when appropriate, including their ability and/or willingness to support treatment efforts;

(v) Potentiators of offending behavior to include alcohol and drug abuse, stress, mood, sexual patterns, use of pornography, and social and environmental influences;

(vi) A personal history to include medical, marital/relationships, employment, education and military;

(vii) A family history;

(viii) History of violence and/or criminal behavior;

(ix) Mental health functioning to include coping abilities, adaptational styles, intellectual functioning and personality attributes; and

(x) The overall findings of psychological/physiological/medical assessment when such assessments have been conducted.

(e) Conclusions and recommendations shall be supported by the data presented in the body of the report and include:

(i) The evaluator's conclusions regarding the appropriateness of community treatment;

(ii) A summary of the clinician's diagnostic impressions;

(iii) A specific assessment of relative risk factors, including the extent of the offender's dangerousness in the community at large;

(iv) The client's amenability to outpatient treatment and conditions of treatment necessary to maintain a safe treatment environment.

(f) Proposed treatment plan shall be described in detail and clarity and include:

(i) Anticipated length of treatment, frequency and type of contact with providers, and supplemental or adjunctive treatment;

(ii) The specific issues to be addressed in treatment and a description of planned treatment interventions including involvement of significant others in treatment and ancillary treatment activities;

(iii) Recommendations for specific behavioral prohibitions, requirements and restrictions on living conditions, lifestyle requirements, and monitoring by family members and others that are necessary to the treatment process and community safety;

(iv) Proposed methods for monitoring and verifying compliance with the conditions and prohibitions of the treatment program; and

(v) If the evaluator will not be providing treatment, a specific certified provider should be identified to the court. The provider shall adopt the proposed treatment plan or submit an alternative treatment plan for approval by the court, including each of the elements in WAC 246-930-330 (5)(a) through (d).

(4) The provider shall submit to the court and the parties a statement that the provider is either adopting the proposed treatment plan or submitting an alternate plan. The plan and the statement shall be provided to the court before sentencing.

[Statutory Authority: RCW 18.155.040. 94-13-179, § 246-930-320, filed 6/21/94, effective 7/22/94; 92-12-027 (Order 275), § 246-930-320, filed 5/28/92, effective 6/28/92; 91-23-076 (Order 212), § 246-930-320, filed 11/19/91, effective 12/20/91.]

WAC 246-930-330 Standards for treatment. Introduction-SSOSA/SSODA offender treatment: It is recognized that effective sexual deviancy treatment will involve a broad set of planned therapeutic experiences and interventions designed to ultimately reduce the risk of a client engaging in criminal sexual behavior. Such treatment shall be consistent with current professional literature and shall emphasize community safety.

(1) **General considerations.**

(a) In most cases clients shall be seen by a certified or affiliate treatment provider a minimum of once per week for at least forty-five minutes for individual or ninety minutes for group.

(b) Changes in client circumstances or treatment provider schedule may require a reduction in frequency or duration of contacts appropriate, provided that:

(i) Such changes are made on a case-by-case basis;

(ii) Any changes that constitute a permanent change in the treatment plan or that reduce community safety shall be communicated to the supervising officer, the prosecutor and the court prior to the implementation of the change; and

(iii) Other short term, temporary changes in the treatment plan due to illness, vacation, etc., should be reported in the regular progress report.

(c) Any reduction in frequency or duration of contacts which constitutes a deviation from the treatment plan shall be reported to the supervising officer, the prosecutor, and the court; and

(d) The treatment methods employed by the provider shall:

(i) Reflect concern for the well being of clients, victims and the safety of potential victims;

(ii) Take into account the legal/civil rights of clients, including the right to refuse therapy and return to court for review; and

(iii) Be individualized to meet the unique needs of each client.

(2) **Planning and interventions.** The treatment plan and the interventions used by the provider to achieve the goals of the plan shall:

(a) Address the sexual deviancy treatment needs identified;

(b) Include provisions for the protection of victims and potential victims;

(c) Give priority to those treatment interventions most likely to avoid sexual reoffense; and

(d) Take reasonable care to not cause victims to have unsafe, or unwanted contact with their offenders.

(3) **Community protection contract.** The provider shall present a contract to the client within ninety days of the start of treatment which:

(a) Details the treatment rules and requirements which the client must follow in order to preserve community safety;

(b) Outlines the client's responsibility to adhere to the contract and the provider's responsibility to report any violations;

(c) Is a separate document from any other evaluation or treatment agreements between the client and the provider; and

(d) Is signed by both client and provider, sent to the supervising officer after sentencing, and updated when conditions change throughout the course of treatment.

(4) **Treatment methods.** The methods used by the provider shall:

(a) Address clients' deviant sexual urges and recurrent deviant sexual fantasies;

(b) Educate clients and the individuals who are part of their support systems about the potential for reoffense, and risk factors;

(c) Teach clients to use self control methods to avoid sexual reoffense;

(d) Consider the effects of trauma and past victimization as factors in reoffense potential where applicable;

(e) Address clients' thought processes which facilitate sexual reoffense and other victimizing or assaultive behaviors;

(f) Modify client thinking errors and cognitive distortions;

(g) Enhance clients appropriate adaptive/legal sexual functioning;

(h) Insure that clients have accurate knowledge about the effect of sexual offending upon victims, their families, and the community;

(i) Help clients develop a sensitivity to the effects of sexual abuse upon victims;

(j) Address clients' personality traits and personality deficits which are related to increased reoffense potential;

(k) Address clients' deficits in coping skills;

(l) Include and integrate clients' families, guardians, and residential program staff into the treatment process when appropriate; and

(m) To maintain communication with other significant persons in the client's support system, when deemed appropriate by the provider.

(5) **Monitoring of treatment requirements.** The monitoring of the client's compliance with treatment requirements by the provider shall:

(a) Recognize the reoffense potential of the sex offender client, the damage that may be caused by sexual reoffense or attempted reoffense, and the limits of self report by the sex offender client;

(b) Consider multiple sources of input regarding the client's out of office behavior;

(c) As a general principle, increase monitoring during those times of increased risk and notify the supervising officer:

(i) When a client is in crisis;

(ii) When visits with victims or potential victims are authorized; and

(iii) When clients are in high risk environments.

(d) Work in collaboration with the supervising officer to verify that the client is following the treatment plan by reducing the frequency of those behaviors that are most closely related to sexual reoffense and that the client's living, work and social environments have sufficient safeguards and protection for victims and potential victims; and

(e) The provider and the supervising officer should discuss the verification methods used so that each can more fully collaborate to protect community safety and assist the client in successfully completing treatment.

(6) **Contacts with victims/vulnerable persons for SSOSA clients.** When authorizing SSOSA clients to have contact with victims or children, the provider shall recognize that supervision during contact with children is critical for those offenders who have had crimes against children, or have the potential to abuse children. Providers shall:

(a) Consider victim's wishes about contact and reasonably ensure that all contact is safe and in accordance with court directives;

(b) Restrict, as necessary, offender decision-making authority over victims and vulnerable children;

(c) Prior to offender contact with children, collaborate with other relevant professionals regarding contact with victims, rather than make isolated decisions;

(d) Consult with the victim's parents, custodial parents, or guardians prior to authorizing any contact between offenders and children;

(e) Include educational experiences for chaperones/supervisors of SSOSA clients; and

(f) Devise a plan/protocol for reuniting or returning SSOSA clients to homes where children reside. Such plan/protocol should emphasize child safety, and provide for some monitoring of the impact on the victim and other children.

(7) **Contacts with victims/vulnerable persons for SSODA clients.** While the rationale behind the standards for SSOSA clients in subsection (6)(a) through (f) of this section is equally relevant for juvenile SSODA clients, there are some substantial differences that warrant specific standards. The prohibitions on contact with children are not intended to prohibit reasonable peer-age social or educational contacts for juvenile SSODA clients. It is further understood that providers working with juvenile SSODA clients have limited authority over their clients, and that they have limited authority to govern the decisions or supervision of a juvenile client's parents. Reasonable and practical supervision plans/strategies for juvenile SSODA clients require the cooperation and involvement of parents, foster parents, group home staff, and the supervising officer. Providers shall work in collaboration with the supervising officer to meet the following standards:

(a) Establish reasonable guidelines for contacts with victims or vulnerable children commensurate with the offender's offending history, treatment progress, and the current disposition order.

(b) Make reasonable efforts to advise, inform, and educate adults who will be in contact with and responsible for the offender's behavior around victims or vulnerable children.

(c) Restrict, as necessary, offender decision-making authority over victims and vulnerable children.

(d) Devise plans/protocols for reuniting or returning SSODA clients to homes where the victim or other children reside, specifically considering the victim's wishes and victim impact of reunification.

(e) Closely scrutinize victim requests for offender contact to ensure the request is free of emotional strain and is in the victim's best interests.

(8) **Documentation of treatment.** Providers shall maintain and safeguard client files in accordance with the professional standards of their individual disciplines and with Washington state law regarding health care records. Providers shall insure that the client files reflect the content of professional contact, treatment progress, sessions attended and treatment plan change information necessary for completion of the required SSOSA/SSODA reports; and

(9) **Completion of court ordered treatment.** In fulfilling the SSOSA requirements for the end of court ordered treatment hearing, the treatment provider shall:

(a) Assess and document how the goals of the treatment plan have been met, what changes in the client's reoffense potential have been accomplished, and what risk factors remain;

(b) Report to the court in a timely manner regarding the client's compliance with treatment and monitoring requirements and make a recommendation regarding modification of conditions of community supervision, and either termination of treatment or extension of treatment for up to the remaining period of community supervision.

(10) **Completion of treatment for SSODA.** Sex offender treatment providers who are treating juvenile offenders shall comply with subsection (9) of this section.

[Statutory Authority: RCW 18.155.040. 94-13-179, § 246-930-330, filed 6/21/94, effective 7/22/94; 92-12-027 (Order 275), § 246-930-330, filed 5/28/92, effective 6/28/92; 91-23-076 (Order 212), § 246-930-330, filed 11/19/91, effective 12/20/91.]

WAC 246-930-340 Standards for communication with other professionals. (1) Professional relationships with corrections/probation officers and other supervising agencies.

(a) The provider shall establish a cooperative relationship with the supervising officer and/or responsible agency for purposes of the effective supervision and monitoring of an offender's behavior in the community.

(b) All violations of the provider client contract shall be reported immediately to the supervising officer.

(c) Quarterly progress reports documenting dates of attendance, treatment activities and duration, changes in the treatment plan, client compliance with requirements, and treatment progress shall be made in a timely manner to the court and parties. Providers shall provide additional information regarding treatment progress when requested by the court or a party. If there is more than one provider, the primary provider shall confer on all quarterly reports and provide one report to the required parties in a timely manner.

(d) Prior to implementation, plans for contact with the victim, potential victims and plans for family reunification or return (where appropriate) should be reviewed with the supervising officer.

(e) Prior to implementation the provider shall communicate with the supervising officer when approving chaperones and supervisors for offender contact with children. If an urgency of circumstances requires independent approval of a chaperone by a provider, the provider will notify the community correction officer or supervising officer in a timely manner.

(2) Communication with the department of social and health services or other agencies responsible for the care or supervision of the client. When appropriate, the provider shall seek an authorization for release of information from the client to communicate with such agencies for treatment or monitoring purposes.

(3) Communication with others. Where appropriate and consistent with the offender's informed consent, the provider shall communicate with the victim's therapist, guardian ad litem, custodial parent, guardian, caseworker, or other involved professional in making decisions regarding family reunification or return, or victim contact with the offender.

(4) Reporting of additional victims.

(a) Providers are expected to comply with the mandatory reporting law, RCW 26.44.030.

(b) All clients shall be notified of the limits of confidentiality imposed on therapists by the mandatory reporting law (RCW 26.44.030).

[Statutory Authority: RCW 18.155.040. 94-13-179, § 246-930-340, filed 6/21/94, effective 7/22/94; 92-12-027 (Order 275), § 246-930-340, filed 5/28/92, effective 6/28/92; 91-23-076 (Order 212), § 246-930-340, filed 11/19/91, effective 12/20/91.]

WAC 246-930-410 Continuing education requirements. Certified sex offender treatment providers must complete forty hours of continuing education every two years as required in chapter 246-12 WAC, Part 7.

(1) **Purpose and scope.** The aim of continuing education for sex offender treatment providers is to ensure that professionals practicing in this specialty field are knowledgeable of current scientific and practice principles that affect the supervision and treatment of sex offenders in community-based treatment. Since the treatment of sex offenders in communities raises significant public safety concerns, continuing education is required to help sex offender treatment providers deliver the highest quality of professional service by being familiar with current developments in a rapidly changing profession. Certified sex offender treatment providers, regardless of certification status (e.g., full, affiliate, or provisional), shall meet the continuing education requirements set forth in this section as a prerequisite to license renewal.

(2) **Specific requirements.**

(a) A minimum of thirty hours of the CE shall be earned through attendance at courses, workshops, institutes, and/or formal conference presentations with direct, specific relevance to the assessment and treatment of sex offenders.

(i) Consultative or supervisory training obtained from other certified sex offender treatment providers is not creditable under this CE definition.

(ii) Independent study of audio or video tapes of seminar presentations not actually attended are creditable under this

definition, up to a maximum of ten hours in any two-year period. Credit for independent study will only be granted if accompanied by documentation of the learning activity, such as a written summary of the independent study activity.

(iii) CE credit for assessment and treatment of sex offender training courses presented to other professionals may be claimed by the certified provider who provides the training one time only (usually the first time it is taught, unless there is substantial revision), up to a maximum of ten hours in any two-year period.

(iv) Courses specifically oriented toward assessment or treatment of sex offenders may be claimed as CE. The following are examples of subjects that qualify under this definition:

(A) Ethics and professional standards;

(B) Relapse prevention with sex offenders;

(C) Plethysmographic assessment;

(D) Sexual arousal assessment and reconditioning;

(E) Risk assessment with sex offenders;

(F) Psychopharmacological therapy with sex offenders;

(G) Family therapy with sex offenders;

(H) Research concerning sexual deviancy;

(I) Sexual addiction; and

(J) Therapy/clinical methods specific to sex offenders.

(b) In addition to the thirty hours of CE with direct, specific relevance to the assessment and treatment of sex offenders, ten hours of the total requirement may be earned through participation in training courses with indirect relevance to the assessment and treatment of sex offenders. The following subjects qualify under this definition:

(i) Victimology/victim therapy;

(ii) General counseling methods;

(iii) Psychological test interpretation;

(iv) Addiction/substance abuse;

(v) Family therapy;

(vi) Group therapy; and

(vii) Legal issues.

(3) **Program or course approval.** The department shall accept any CE that reasonably falls within the above categories and requirements. The department relies upon each individual provider's integrity with the intent and spirit of the CE requirements.

(4) **CE requirement for newly certified providers.** Providers who are newly certified within six months of their renewal date shall not be required to submit proof of continuing education for the preceding twelve-month period. Providers who are newly certified from six to nine months prior to the renewal date shall be required to submit proof of ten hours of the annual CE requirement for the preceding twelve-month period. Providers who are newly certified from nine to twelve months prior to the renewal date shall be required to submit proof of the full twenty hour annual CE requirement at the renewal date. The above noted prorated CE requirements apply only to the first renewal following certification. If proof of CE is not required at the first renewal (dependent on birthdate), the prorated amount shall be added to the full twenty hour annual requirement for the second year following certification.

[Statutory Authority: RCW 43.70.280. 98-05-060, § 246-930-410, filed 2/13/98, effective 3/16/98. Statutory Authority: RCW 18.155.040. 94-13-179, § 246-930-410, filed 6/21/94, effective 7/22/94; 92-12-027 (Order 275), § 246-930-410, filed 5/28/92, effective 6/28/92.]

WAC 246-930-420 Inactive credential. A practitioner may obtain an inactive credential. Refer to the requirements of chapter 246-12 WAC, Part 4.

[Statutory Authority: RCW 43.70.280. 98-05-060, § 246-930-420, filed 2/13/98, effective 3/16/98. Statutory Authority: RCW 18.155.040. 94-13-179, § 246-930-420, filed 6/21/94, effective 7/22/94.]

WAC 246-930-431 Expired license. (1) If the license has expired for three years or less, the practitioner must meet the requirements of chapter 246-12 WAC, Part 2.

(2) If the license has expired for over three years, the practitioner must:

(a) Successfully pass the examination as provided in WAC 246-930-200;

(b) Meet the requirements of chapter 246-12 WAC, Part 2.

[Statutory Authority: RCW 43.70.280. 98-05-060, § 246-930-431, filed 2/13/98, effective 3/16/98.]

WAC 246-930-490 Sexual misconduct. (1) The sex offender treatment provider shall not engage in sexual contact or sexual activity with SSOSA/SSODA clients.

(2) Sexual contact or sexual activity is prohibited with former SSOSA/SSODA clients for ten years after cessation or termination of professional services.

(3) The sex offender treatment provider shall not engage in sexual contact or sexual activity with any former client if such contact or activity involves the abuse of the sex offender treatment provider and client relationship. Factors to be considered in evaluating if the sex offender treatment provider and client relationship is abused include, but are not limited to:

(a) The amount of time that has passed since the last therapeutic contact;

(b) The nature and duration of the therapy;

(c) The circumstances of cessation or termination;

(d) The client's personal history;

(e) The client's current mental status;

(f) The likelihood of adverse impact on the client and others; and

(g) Any statements or actions made by the therapist during the course of therapy suggesting or inviting the possibility of a post termination sexual or romantic relationship with the client.

(4) The sex offender treatment provider shall not engage in sexual contact or sexual activity with any person participating in the treatment process of a SSOSA or SSODA client while the therapy is ongoing.

(5) The sex offender treatment provider shall not engage in sexual contact or sexual activity with any person formally participating in the treatment process, if such contact or activity involves the abuse of the sex offender treatment provider and client relationship. Factors to be considered in evaluating if the sex offender treatment provider and client relationship is abused include, but are not limited to:

(a) The amount of time that has passed since the last therapeutic contact;

(b) The amount of time that has passed since the last professional contact between the provider and the other person;

(c) The knowledge the provider has obtained about the person because of the professional contact; and

(d) The likelihood of adverse impact on the former client.

[Statutory Authority: RCW 18.155.040. 94-13-179, § 246-930-490, filed 6/21/94, effective 7/22/94.]

WAC 246-930-990 Sex offender treatment provider fees and renewal cycle. (1) Certificates must be renewed every year on the practitioner's birthday as provided in chapter 246-12 WAC, Part 2.

(2) The following nonrefundable fees will be charged for:

Title of Fee	Fee
Sex offender treatment provider:	
Application and examination	$ 500.00
Reexamination	250.00
Initial certification	100.00
Renewal	800.00
Inactive status	300.00
Late renewal penalty	300.00
Expired certificate reissuance	300.00
Expired inactive certificate reissuance	150.00
Duplicate certificate	15.00
Extension fee	1,475.00

(3) The following nonrefundable fees will be charged for affiliate treatment provider:

Application and examination	200.00
Reexamination	100.00
Renewal	300.00
Inactive status	200.00
Late renewal penalty	150.00
Expired affiliate certificate reissuance	150.00
Expired inactive affiliate certificate reissuance	100.00
Duplicate certificate	15.00
Extension fee	850.00

WAC 246-930-995 Conversion to a birthday renewal cycle. (1) The annual license renewal date is changed to coincide with the practitioner's birthday.

(2) Renewal fees will be prorated during the transition period while renewal dates are changed to coincide with the practitioner's birthday.

(3) After the initial conversion to a staggered system, practitioners will annually renew their license on their birthday at the current renewal rate.

[Statutory Authority: RCW 43.70.280. 98-05-060, § 246-930-995, filed 2/13/98, effective 3/16/98.]

Chapter 246-933 WAC
VETERINARIANS—VETERINARY BOARD

WAC

DISPOSITION OF SECTIONS FORMERLY CODIFIED IN THIS CHAPTER

246-933-120 Nonnarcotic Schedule II controlled substances—Prohibited. [Statutory Authority: RCW 18.92.030. 91-02-060 (Order 108B), recodified as § 246-933-120, filed 12/28/90, effective 1/31/91; Order PL 179, § 308-150-050, filed 11/27/74.] Repealed by 92-17-076 (Order 299B), filed 8/19/92, effective 9/19/92. Statutory Authority: RCW 18.92.030.

246-933-170 Cooperation with the board. [Statutory Authority: RCW 18.92.030. 92-17-076 (Order 299B), § 246-933-170, filed 8/19/92, effective 9/19/92; 91-02-060 (Order 108B), recodified as § 246-933-170, filed 12/28/90, effective 1/31/91; 80-09-106 (Order PL 351), § 308-150-070, filed 7/23/80.] Repealed by 97-20-101, filed 9/29/97, effective 10/30/97. Statutory Authority: RCW 43.70.040.

246-933-180 Responsibility for maintaining mailing address on file with the board. [Statutory Authority: RCW 18.92.030. 93-08-029 (Order 353B), § 246-933-180, filed 3/30/93,

effective 4/30/93.] Repealed by 98-05-060, filed 2/13/98, effective 3/16/98. Statutory Authority: RCW 43.70.280.

246-933-240 Practical examination requirement. [Statutory Authority: RCW 18.92.030. 91-24-098 (Order 221B), § 246-933-240, filed 12/4/91, effective 1/4/92; 91-02-060 (Order 108B), recodified as § 246-933-240, filed 12/28/90, effective 1/31/91; 79-10-087 (Order 318), § 308-151-070, filed 9/21/79.] Repealed by 92-17-076 (Order 299B), filed 8/19/92, effective 9/19/92. Statutory Authority: RCW 18.92.030.

246-933-430 Effective date of requirement. [Statutory Authority: RCW 18.92.030. 91-24-098 (Order 221B), § 246-933-430, filed 12/4/91, effective 1/4/92; 91-02-060 (Order 108B), recodified as § 246-933-430, filed 12/28/90, effective 1/31/91; Order 233, § 308-154-030, filed 2/16/77.] Repealed by 98-05-060, filed 2/13/98, effective 3/16/98. Statutory Authority: RCW 43.70.280.

246-933-470 Continuing education—Certification of compliance. [Statutory Authority: RCW 18.92.030. 91-24-098 (Order 221B), § 246-933-470, filed 12/4/91, effective 1/4/92; 91-02-060 (Order 108B), recodified as § 246-933-470, filed 12/28/90, effective 1/31/91; 80-16-023 (Order PL 358), § 308-154-080, filed 10/29/80.] Repealed by 98-05-060, filed 2/13/98, effective 3/16/98. Statutory Authority: RCW 43.70.280.

246-933-980 Licensing/renewal/late penalty. [Statutory Authority: RCW 18.92.030. 93-08-029 (Order 353B), § 246-933-980, filed 3/30/93, effective 4/30/93. Statutory Authority: RCW 43.70.040 and 18.92.140. 92-07-036 (Order 252), § 246-933-980, filed 3/10/92, effective 4/10/92. Statutory Authority: RCW 43.70.040.

PROFESSIONAL CONDUCT/ETHICS

WAC 246-933-010 Definitions. For the purposes of this chapter, the following words and phrases shall have the following meanings unless the context clearly indicates otherwise. Unless stated, words used in the singular may be read in the plural.

(1) "Advertise" means to announce publicly by any form of media in order to aid directly or indirectly in the sale of a commodity or service.

(2) "Animal" means any species normally recognized as treatable by veterinary medicine.

(3) "Controlled substances" as defined in RCW 69.50.-101.

(4) "Department" means the department of health.

(5) "Drugs" as defined in RCW 69.50.101.

(6) "Health certificate" means a document prepared pursuant to law and which attests to the fact that an animal is in a certain state of health.

(7) "Patient" means any animal under the care and treatment of a veterinarian.

(8) "Secretary" means the secretary of the department of health.

(9) "Veterinary board of governors" is that board appointed by the governor pursuant to chapter 18.92 RCW.

[Statutory Authority: RCW 18.92.030. 93-08-029 (Order 353B), § 246-933-010, filed 3/30/93, effective 4/30/93; 91-24-098 (Order 221B), § 246-933-010, filed 12/4/91, effective 1/4/92; 91-02-060 (Order 108B), recodified as § 246-933-010, filed 12/28/90, effective 1/31/91; Order PL 179, § 308-150-005, filed 11/27/74.]

WAC 246-933-020 Objectives. The principal objectives of the veterinary profession are to render veterinary services to society, to assist in conserving livestock resources, and to assist in relieving suffering of animals. The veterinarian shall always endeavor to act in such a manner to further these objectives.

[Statutory Authority: RCW 18.92.030. 91-24-098 (Order 221B), § 246-933-020, filed 12/4/91, effective 1/4/92; 91-02-060 (Order 108B), recodified as § 246-933-020, filed 12/28/90, effective 1/31/91; 80-09-106 (Order PL 351), § 308-150-006, filed 7/23/80.]

WAC 246-933-030 Degree of skills. The veterinarian shall endeavor to keep abreast of new developments in veterinary medicine, surgery and dentistry, and shall endeavor to improve his or her knowledge and skill in the practice of veterinary medicine, surgery and dentistry.

[Statutory Authority: RCW 18.92.030. 91-24-098 (Order 221B), § 246-933-030, filed 12/4/91, effective 1/4/92; 91-02-060 (Order 108B), recodified as § 246-933-030, filed 12/28/90, effective 1/31/91; 80-09-106 (Order PL 351), § 308-150-007, filed 7/23/80.]

WAC 246-933-040 Exercise of professional judgment and skills. The veterinarian shall not accept employment under terms and conditions that interfere with the free exercise of the veterinarian's professional judgment or infringe upon the utilization of his or her professional skills.

[Statutory Authority: RCW 18.92.030. 91-02-060 (Order 108B), recodified as § 246-933-040, filed 12/28/90, effective 1/31/91; 80-09-106 (Order PL 351), § 308-150-008, filed 7/23/80.]

WAC 246-933-050 Emergency care of animals of unknown ownership. The veterinarian shall endeavor to provide at least minimal treatment to alleviate the suffering of an animal presented in the absence of the owner or the owner's agent.

[Statutory Authority: RCW 18.92.030. 91-24-098 (Order 221B), § 246-933-050, filed 12/4/91, effective 1/4/92; 91-02-060 (Order 108B), recodified as § 246-933-050, filed 12/28/90, effective 1/31/91; 86-01-085 (Order PL 575), § 308-150-009, filed 12/18/85; 80-09-106 (Order PL 351), § 308-150-009, filed 7/23/80.]

WAC 246-933-060 Patient abandonment. The veterinarian shall always be free to accept or reject a particular patient, but once care is undertaken, the veterinarian shall not neglect the patient, as long as the person presenting the patient requests and authorizes the veterinarian's services for the particular problem. Emergency treatment not authorized by the owner shall not constitute acceptance of a patient.

[Statutory Authority: RCW 18.92.030. 91-02-060 (Order 108B), recodified as § 246-933-060, filed 12/28/90, effective 1/31/91; 80-09-106 (Order PL 351), § 308-150-011, filed 7/23/80.]

WAC 246-933-070 Emergency services. (1) Emergency services shall mean the delivery of veterinary care by a licensed veterinarian during the hours when the majority of regional, daytime veterinary practices have no regularly scheduled office hours (are closed).

(2) Emergency service shall be provided at all times. This requirement does not mean that a veterinary medical facility shall be open to the public at all times but that the provision of professional services must be accomplished by appropriate means including the assignment of veterinarians or cooperation between practices or after-hours emergency

veterinary medical facilities serving the area. In the absence of an emergency veterinary medical facility serving the area, the phone shall be answered at all times so that inquirers can be told if the veterinarian is available and, if not, where emergency service is available.

(3) A veterinarian who represents, in any way, that he or she provides emergency veterinary services, including but not limited to, using names or terms such as "after hours clinic," or "after hours veterinary hospital," or use of the word "emergency" in any way, shall include in all advertisements the following information:

The availability of the veterinarian who is to provide emergency services, in print at least as large as that used to advertise the availability of emergency services, as either:

(a) "Veterinarian on premises," or term of like import, which phrase shall be used when there is a veterinarian actually present at the facility who is prepared to render veterinary services and the hours such services are available; or

(b) "Veterinarian on call," or term of like import, which phrase shall be used when the veterinarian is not present at the hospital, but is able to respond within a reasonable time to requests for emergency veterinary services and has been designated to so respond.

(4) All licensees shall comply with this section by December 1, 1989.

[Statutory Authority: RCW 18.92.030. 91-24-098 (Order 221B), § 246-933-070, filed 12/4/91, effective 1/4/92; 91-02-060 (Order 108B), recodified as § 246-933-070, filed 12/28/90, effective 1/31/91; 88-08-033 (Order PM 719), § 308-150-013, filed 4/1/88; 86-01-085 (Order PL 575), § 308-150-013, filed 12/18/85.]

WAC 246-933-080 Honesty, integrity and fair dealing. A veterinarian's practice shall be conducted on the highest plane of honesty, integrity and fair dealing with clients in time and services rendered, and in the amount charged for services, facilities, appliances and drugs. It is unprofessional and unethical for a veterinarian to attempt to mislead or deceive a client or to make untruthful statements or representations to a client.

It is also unprofessional and unethical for a veterinarian to attempt to dissuade a client from filing a disciplinary complaint by, but not limited to, a liability release, waiver, or written agreement, wherein the client assumes all risk or releases the veterinarian from liability for any harm, damage, or injury to an animal while under the care, custody, or treatment by the veterinarian.

[Statutory Authority: RCW 18.92.030. 91-24-098 (Order 221B), § 246-933-080, filed 12/4/91, effective 1/4/92; 91-02-060 (Order 108B), recodified as § 246-933-080, filed 12/28/90, effective 1/31/91. Statutory Authority: 1988 c 206 § 604 and RCW 18.92.030. 89-10-076 (Order PM 836), § 308-150-014, filed 5/3/89. Statutory Authority: RCW 18.92.030. 86-01-085 (Order PL 575), § 308-150-014, filed 12/18/85.]

WAC 246-933-090 Validation of health certificate. It is unethical to sign or otherwise validate any health certificate without actually, physically inspecting the animal. A health certificate shall be dated as of the time of examination.

[Statutory Authority: RCW 18.92.030. 91-24-098 (Order 221B), § 246-933-090, filed 12/4/91, effective 1/4/92; 91-02-060 (Order 108B), recodified as § 246-933-090, filed 12/28/90, effective 1/31/91; Order PL 179, § 308-150-030, filed 11/27/74.]

WAC 246-933-100 Inspection of animals. It is unethical for a veterinarian when employed to inspect an animal for health and soundness, to accept a fee or other compensation in relation to the inspection from a person other than the veterinarian's employer.

[Statutory Authority: RCW 18.92.030. 91-24-098 (Order 221B), § 246-933-100, filed 12/4/91, effective 1/4/92; 91-02-060 (Order 108B), recodified as § 246-933-100, filed 12/28/90, effective 1/31/91; Order PL 179, § 308-150-035, filed 11/27/74.]

WAC 246-933-110 Drugs and controlled substances. It is unethical to violate any laws or regulations of either the state of Washington or the United States relating to prescription drugs or controlled substances.

[Statutory Authority: RCW 18.92.030. 91-02-060 (Order 108B), recodified as § 246-933-110, filed 12/28/90, effective 1/31/91; Order PL 179, § 308-150-045, filed 11/27/74.]

WAC 246-933-130 Minimum sanitary conditions. It is unethical for a veterinarian to own or operate a clinic, office, hospital, mobile veterinary clinic, or other animal facility contrary to the health and sanitary standards as established by the rules and regulations as adopted by the veterinary board of governors.

[Statutory Authority: RCW 18.92.030. 91-02-060 (Order 108B), recodified as § 246-933-130, filed 12/28/90, effective 1/31/91; Order PL 179, § 308-150-055, filed 11/27/74.]

WAC 246-933-140 Prohibited publicity and advertising. A veterinarian shall not, on behalf of himself or herself, any partner, associate or other veterinarian affiliated with his or her office or clinic, use or allow to be used any form of public communication or advertising which:

(1) Is false, fraudulent, deceptive or misleading;

(2) Refers to secret methods of treatment;

(3) Is not identified as a paid advertisement or solicitation;

(4) States or implies that a veterinarian is a certified specialist unless the veterinarian is certified in such specialty by a board recognized by the American Veterinary Medical Association.

[Statutory Authority: RCW 18.92.030. 91-24-098 (Order 221B), § 246-933-140, filed 12/4/91, effective 1/4/92; 91-02-060 (Order 108B), recodified as § 246-933-140, filed 12/28/90, effective 1/31/91; 80-09-106 (Order PL 351), § 308-150-060, filed 7/23/80.]

WAC 246-933-150 Honoring of publicity and advertisements. (1) If a veterinarian advertises a fee for a service, the veterinarian shall render that service for no more than the fee advertised.

(2) Unless otherwise specified in the advertisement, if a veterinarian publishes any fee information, the veterinarian shall be bound by any representation made therein for the periods specified in the following categories:

(a) If in a publication which is published more frequently than one time per month, for a period of not less than thirty days after such publication.

(b) If in a publication which is published once a month or less frequently, until the publication of the succeeding issue.

(c) If in a publication which has no fixed date for publication of the succeeding issue, for a reasonable period of time after publication, but in no event less than one year.

[Statutory Authority: RCW 18.92.030. 91-24-098 (Order 221B), § 246-933-150, filed 12/4/91, effective 1/4/92; 91-02-060 (Order 108B), recodified as § 246-933-150, filed 12/28/90, effective 1/31/91; 80-09-106 (Order PL 351), § 308-150-061, filed 7/23/80.]

WAC 246-933-160 Prohibited transactions. A veterinarian shall not compensate or give anything of value to representatives of the press, radio, television or other communication media in anticipation of or in return for professional publicity of any individual veterinarian in a news item.

[Statutory Authority: RCW 18.92.030. 91-02-060 (Order 108B), recodified as § 246-933-160, filed 12/28/90, effective 1/31/91; 80-09-106 (Order PL 351), § 308-150-062, filed 7/23/80.]

WAC 246-933-190 Adjudicative proceedings. The board adopts the model procedural rules for adjudicative proceedings as adopted by the department of health and contained in chapter 246-11 WAC, including subsequent amendments.

[Statutory Authority: RCW 18.92.030. 93-21-007, § 246-933-190, filed 10/7/93, effective 11/7/93.]

VETERINARIAN EDUCATION AND EXAMINATION REQUIREMENTS

WAC 246-933-220 Approval of courses. A course of instruction conducted by a school, that has obtained accreditation of the course of instruction in the care and treatment of animals from the American Veterinary Medical Association, is an approved course within the meaning of section 1, chapter 44, Laws of 1974 1st ex. sess., RCW 18.92.015.

[Statutory Authority: RCW 18.92.030. 91-02-060 (Order 108B), recodified as § 246-933-220, filed 12/28/90, effective 1/31/91; Order PL 179, § 308-151-050, filed 11/27/74.]

WAC 246-933-230 Foreign trained veterinarians. A person who is a graduate of a college of veterinary medicine not accredited by the American Veterinary Medical Association shall be eligible to take the regularly scheduled licensing examination given by the board upon furnishing the certificate of the American Veterinary Medical Association Education Commission for Foreign Veterinary Graduates (ECFVG). Applications and instructions for certification are obtained from:

ECFVG
American Veterinary Medical Association
930 North Meacham Road
Schaumburg, Illinois 60172.

[Statutory Authority: RCW 18.92.030. 91-02-060 (Order 108B), recodified as § 246-933-230, filed 12/28/90, effective 1/31/91; Order PL 232, § 308-151-060, filed 11/17/75.]

WAC 246-933-250 Examination requirement and procedures. In order to be licensed, any applicant for licensure must have successfully completed the North American Veterinary Licensing Examination (NAVLE), or the National Board Examination for Veterinary Medical Licensing (NBE), and the Clinical Competency Test (CCT). All applicants must also pass the Washington state examination. The Washington state examination shall consist of questions pertaining to laws regulating the practice of veterinary medicine in the state. The applicant may take the examinations up to six months prior to graduation from a course of instruction as described in WAC 246-933-220.

[Statutory Authority: RCW 18.92.030. 01-02-066, § 246-933-250, filed 12/29/00, effective 1/29/01; 92-17-076 (Order 299B), § 246-933-250, filed 8/19/92, effective 9/19/92; 92-03-074 (Order 235B), § 246-933-250, filed 1/14/92, effective 2/14/92; 91-02-060 (Order 108B), recodified as § 246-933-250, filed 12/28/90, effective 1/31/91; 88-08-033 (Order PM 719), § 308-151-080, filed 4/1/88; 85-03-085 (Order PL 509), § 308-151-080, filed 1/18/85. Statutory Authority: RCW 18.92.030 and 18.92.070. 83-07-050 (Order PL 429), § 308-151-080, filed 3/18/83. Statutory Authority: RCW 18.92.030. 80-05-032 (Order 340), § 308-151-080, filed 4/15/80.]

WAC 246-933-260 Frequency and location of examinations. (1) The secretary or his or her designee establishes the time and location for the veterinary examination.

(2) If an applicant fails to appear for the North American Veterinary Licensing Examination at the designated time and place, the applicant shall forfeit the examination fee unless the applicant has notified the Veterinary Board of Governors in writing of his or her inability to appear for the scheduled exam at least five business days prior to the scheduled time.

[Statutory Authority: RCW 18.92.030. 01-02-066, § 246-933-260, filed 12/29/00, effective 1/29/01; 91-24-098 (Order 221B), § 246-933-260, filed 12/4/91, effective 1/4/92; 91-02-060 (Order 108B), recodified as § 246-933-260, filed 12/28/90, effective 1/31/91; 88-08-033 (Order PM 719), § 308-151-090, filed 4/1/88; 80-05-032 (Order 340), § 308-151-090, filed 4/15/80.]

WAC 246-933-270 Examination results. (1) In order to pass the examination for licensure as a veterinarian, the applicant shall attain a grade that meets or exceeds the criterion-referenced passing score established by the National Board Examination Committee of the American Veterinary Medical Association for the North American Veterinary Licensing Examination (NAVLE). Additionally, the applicant must attain a minimum grade of ninety percent on the Washington state examination.

(2) An applicant who fails the North American Veterinary Licensing Examination (NAVLE), or the Washington state examination may retake the examination that he or she failed by completing an application and by submitting the reexamination fee to the Veterinary Board of Governors.

[Statutory Authority: RCW 18.92.030. 01-02-066, § 246-933-270, filed 12/29/00, effective 1/29/01; 92-17-076 (Order 299B), § 246-933-270, filed 8/19/92, effective 9/19/92; 91-24-098 (Order 221B), § 246-933-270, filed 12/4/91, effective 1/4/92; 91-02-060 (Order 108B), recodified as § 246-933-270, filed 12/28/90, effective 1/31/91; 85-07-021 (Order PL 523), § 308-151-100, filed 3/13/85; 85-03-085 (Order PL 509), § 308-151-100, filed 1/18/85. Statutory Authority: RCW 18.92.030 and 18.92.070. 83-07-050 (Order PL 429), § 308-151-100, filed 3/18/83. Statutory Authority: RCW 18.92.030. 80-16-023 (Order PL 358), § 308-151-100, filed 10/29/80; 80-05-032 (Order 340), § 308-151-100, filed 4/15/80.]

WAC 246-933-280 Examination review procedures. (1) Each individual who takes the Washington state examination for licensure as a veterinarian and does not pass the Washington state examination section may request review of the examination results by the board. This request shall be in writing and shall be postmarked to the board within thirty

days of notification of the examination results. The request shall state the reason or reasons the applicant feels the results of the examination should be changed. The board shall not consider any challenges to examination scores unless the total revised score could result in the issuance of a license. The board shall consider the following to be adequate reasons for consideration for review and possible modification of examination results:

(a) A showing of a significant procedural error in the examination process;

(b) Evidence of bias, prejudice or discrimination in the examination process;

(c) Other significant errors which result in substantial disadvantage to the applicant.

(2) Any applicant who is not satisfied with the result of the examination review may appeal the board's decision and may request a formal hearing to be held before the board pursuant to the Administrative Procedure Act. Such hearing shall be requested and postmarked within twenty days of the receipt of the board's review of the examination results. The board shall not consider any challenges to examination scores unless the total revised score could result in the issuance of a license.

[Statutory Authority: RCW 18.92.030. 92-03-074 (Order 235B), § 246-933-280, filed 1/14/92, effective 2/14/92; 91-02-060 (Order 108B), recodified as § 246-933-280, filed 12/28/90, effective 1/31/91; 86-08-068 (Order PL 584), § 308-151-110, filed 4/1/86.]

WAC 246-933-300 Veterinary specialty licensure. (1) A person may be licensed to practice only specialized veterinary medicine in Washington state. Application for specialty licensure shall be made on forms provided by the secretary and include:

(a) Official transcript or other evidence of graduation from an American Veterinary Medical Association approved or accredited college or university; or

(b) Certification from the Educational Commission for Foreign Veterinary Graduates; and

(c) Documented licensure, in good standing, to practice veterinary medicine in any state, United States territory, or province of Canada; and

(d) Certification as a diplomate of a national board or college recognized in the specialty area for which application is submitted.

(2) Applicants must pass a written examination approved by the board pertaining to laws regulating the practice of veterinary medicine in the state of Washington. Examination grades will be based on a possible score of one hundred percent with a minimum passing score of ninety percent.

(3) At the time of license renewal, licensees must present evidence of continued certification by the veterinary specialty board authority.

(4) The veterinary board of governors recognizes all veterinary medicine specialties recognized by the American Veterinary Medical Association. The practice of a veterinarian licensed as a specialized practitioner is limited to the specific specialty for which licensed.

(5) Individuals licensed as a veterinary specialist are subject to chapter 18.130 RCW.

(6) Veterinary specialty licensees shall be charged the impaired veterinarian assessment on each license issuance or renewal: Provided however, That no licensee shall pay more than one impaired veterinarian assessment per year.

[Statutory Authority: RCW 18.92.030. 92-17-076 (Order 299B), § 246-933-300, filed 8/19/92, effective 9/19/92; 92-03-074 (Order 235B), § 246-933-300, filed 1/14/92, effective 2/14/92.]

WAC 246-933-305 Retired active credential. A practitioner may obtain a retired active credential. Refer to the requirements of chapter 246-12 WAC, Part 5.

[Statutory Authority: RCW 43.70.280. 98-05-060, § 246-933-305, filed 2/13/98, effective 3/16/98. Statutory Authority: RCW 18.92.030. 92-03-074 (Order 235B), § 246-933-305, filed 1/14/92, effective 2/14/92.]

FACILITIES AND PRACTICE MANAGEMENT STANDARDS

WAC 246-933-310 Definitions. (1) **Veterinary medical facility:** Any premise, unit, structure or vehicle where any animal is received and/or confined to be examined, diagnosed or treated medically, surgically or prophylactically, as defined in RCW 18.92.010.

(2) **Mobile clinic:** A vehicle, including a camper, motor home, trailer or mobile home, used as a veterinary medical facility. A mobile clinic is not required for house calls or farm calls.

(3) **Aseptic surgery:** Aseptic surgical technique exists when everything that comes in contact with the wound is sterile and precautions are taken to ensure such sterility during the procedure. These precautions include, but are not limited to, such things as the surgery room itself, sterilization procedures, scrubbing hands and arms, sterile gloves, caps and masks, sterile long-sleeved gowns, and sterile draping and operative techniques.

(4) **Antiseptic surgery:** Antiseptic surgical technique exists when care is taken to avoid bacterial contamination but the precautions are not as thorough and extensive as in aseptic surgery. Surgeons and surgical assistants shall wear clean attire and sterile gloves, and the patient shall be appropriately draped. A separate sterile surgical pack shall be used for each animal.

[Statutory Authority: RCW 18.92.030. 91-24-098 (Order 221B), § 246-933-310, filed 12/4/91, effective 1/4/92; 91-02-060 (Order 108B), recodified as § 246-933-310, filed 12/28/90, effective 1/31/91; 89-02-006 (Order PM 804), § 308-153-010, filed 12/27/88. Statutory Authority: RCW 18.92.030, 18.130.050 (1) and (12) and 1986 c 259 § 139. 86-13-070 (Order PM 600), § 308-153-010, filed 6/18/86; Order PL-236, § 308-153-010, filed 2/18/76.]

WAC 246-933-320 General requirements for all veterinary medical facilities. (1) **Construction and maintenance:** All facilities shall be so constructed and maintained as to provide comfort and safety for patients and clients. All areas of the premises shall be maintained in a clean and orderly condition, free of objectionable odors. All facilities shall comply with applicable state, county and municipal laws, ordinances and regulations.

(2) **Ventilation:** Adequate heating and cooling shall be provided for the comfort of the animals, and the facility shall have sufficient ventilation in all areas.

(3) **Lighting:** Proper lighting shall be provided in all rooms utilized for the practice of veterinary medicine. Outside lighting shall be adequate to identify the building and to assist the clients.

(4) **Water:** Potable water shall be provided.

(5) **Basic sanitation:** Any equipment, instruments or facilities used in the treatment of animals shall be clean and sanitary at all times to protect against the spread of diseases, parasites and infection.

(6) **Waste disposal:** Covered waste containers, impermeable by water, shall be used for the removal and disposal of animal and food wastes, bedding, animal tissues, debris and other waste.

Disposal facilities shall be so operated as to minimize insect or other vermin infestation, and to prevent odor and disease hazards or other nuisance conditions.

The facility shall employ a procedure for the prompt, sanitary and esthetic disposal of dead animals which complies with all applicable state, county and municipal laws, ordinances and regulations.

(7) **Records:**

(a) Every veterinarian shall keep daily written reports of the animals he or she treats. Separate records for companion animals shall be kept for each animal. Records for food and fibre producing animals and animals kept in herds or flocks, etc., may be maintained on a group or client basis. These records shall be readily retrievable and shall be kept for a period of three years following the last treatment or examination. They shall include, but not be limited to, the following:

(i) Name, address and telephone number of the owner.

(ii) Name, number or other identification of the animal or group.

(iii) Species, breed, age, sex and color of the animal.

(iv) Immunization record.

(v) Beginning and ending dates of custody of the animal.

(vi) A short history of the animal's condition as it pertains to its medical status.

(vii) Physical examination findings and any laboratory data.

(viii) Provisional or final diagnosis.

(ix) Treatment and medication administered, prescribed or dispensed.

(x) Surgery and anesthesia.

(xi) Progress of the case.

(b) Veterinary medical records and radiographs are the property of the veterinarian or the veterinary facility which originally ordered their preparation. When requested by the client, copies of records will be made available as promptly as required under the circumstances, but no later than fifteen working days upon the client's request. The veterinarian may charge a reasonable copying fee, not to exceed the actual cost for providing the veterinary care information. A radiograph shall be released upon the request of another veterinarian who has the authorization of the owner of the animal to which it pertains. Such radiograph shall be returned to the originating veterinarian or veterinary facility within fifteen working days of receipt of a written request.

(8) **Storage:** All supplies, including food and bedding, shall be stored in facilities which adequately protect such supplies against infestation, contamination or deterioration. Refrigeration shall be provided for all supplies that are of a perishable nature, including foods, drugs and biologicals.

(9) **Biologicals and drugs:** Biologicals and other drugs shall be stored in such a manner as to prevent contamination and deterioration in accordance with the packaging and storage requirements of the current editions of the *U.S. Pharmacopeia,* 12601 Twinbrook Parkway, Rockville, Maryland 20852, and the *National Formulary,* Mack Publishing Company, 20th and Northampton Streets, Easton, Pennsylvania 18042 and/or manufacturers' recommendation.

All controlled substances shall be maintained in a locked cabinet or other suitable secure container in accordance with federal and Washington state laws.

Controlled substance records shall be readily retrievable, in accordance with federal and Washington state laws.

[Statutory Authority: RCW 18.92.030. 92-17-076 (Order 299B), § 246-933-320, filed 8/19/92, effective 9/19/92; 91-24-098 (Order 221B), § 246-933-320, filed 12/4/91, effective 1/4/92; 91-02-060 (Order 108B), recodified as § 246-933-320, filed 12/28/90, effective 1/31/91; 88-08-033 (Order PM 719), § 308-153-020, filed 4/1/88. Statutory Authority: RCW 18.92.030, 18.130.050 (1) and (12) and 1986 c 259 § 139. 86-13-070 (Order PM 600), § 308-153-020, filed 6/18/86; Order PL-236, § 308-153-020, filed 2/18/76.]

WAC 246-933-330 Minimum physical facilities. All veterinary medical facilities in which animals are received for medical, surgical or prophylactic treatment shall have the following minimum facilities, but are not limited to only these facilities:

(1) **Reception room and office:** Or a combination of the two.

(2) **Examination room:** Should be separate but may be combined with a room having a related function, such as a pharmacy or laboratory. It must be of sufficient size to accommodate the veterinarian, patient and client.

Examination tables shall have impervious surfaces. Waste receptacles shall be lined, covered or in a closed compartment, and properly maintained. A sink with clean or disposable towels must be within easy access.

(3) **Surgery:** If surgery is performed, a separate and distinct area so situated as to keep contamination and infection to a minimum; provided, however, a separate and distinct room so situated as to keep contamination and infection to a minimum shall be required.

(4) **Laboratory:** Shall be either in the facility or through consultative facilities, adequate to render diagnostic information.

(5) **Radiology:** Facilities for diagnostic radiography shall be available either on or off the premises. The facilities shall meet federal and Washington state protective requirements and be capable of producing good quality diagnostic radiographs.

(6) **Animal housing areas:** Any veterinary medical facility confining animals shall have individual cages, pens, exercise areas or stalls to confine said animals in a comfortable, sanitary and safe manner.

Cages and stalls shall be of impervious material and of adequate size to assure patient comfort and sanitation.

Runs and exercise pens shall be of a size to allow patient comfort and exercise. Runs and exercise pens shall provide

and allow effective separation of adjacent animals and their waste products, and shall be constructed in such a manner as to protect against escape or injury. Floors of runs shall be of impervious material.

Animals that are hospitalized for treatment of contagious diseases shall be isolated in such a manner as to prevent the spread of contagious diseases.

[Statutory Authority: RCW 18.92.030. 91-24-098 (Order 221B), § 246-933-330, filed 12/4/91, effective 1/4/92; 91-02-060 (Order 108B), recodified as § 246-933-330, filed 12/28/90, effective 1/31/91; 89-02-006 (Order PM 804), § 308-153-030, filed 12/27/88; 88-08-033 (Order PM 719), § 308-153-030, filed 4/1/88. Statutory Authority: RCW 18.92.030, 18.130.050 (1) and (12) and 1986 c 259 § 139. 86-13-070 (Order PM 600), § 308-153-030, filed 6/18/86; Order PL-236, § 308-153-030, filed 2/18/76.]

WAC 246-933-340 Practice management. All veterinary medical facilities shall maintain a sanitary environment to avoid sources and transmission of infection. This includes the proper sterilization or sanitation of all equipment used in diagnosis or treatment and the proper routine disposal of waste materials.

(1) **Surgery:** Surgery shall be performed in a manner compatible with current veterinary practice with regard to anesthesia, asepsis or antisepsis, life support and monitoring procedures, and recovery care. The minimum standards for surgery shall be:

(a) Aseptic or antiseptic surgery shall be performed in a room designated and reserved for surgery and directly related noncontaminating activities.

(b) The surgery room shall be clean, orderly, well lighted and maintained in a sanitary condition, free of offensive odors.

(c) Storage in the surgery room shall be limited only to items and equipment related to surgery and surgical procedures.

(d) Instruments and equipment utilized in the surgery room shall be appropriate for the type of surgical service being provided.

(e) The operating table shall be constructed of a smooth and impervious material.

(f) Chemical disinfection ("cold sterilization") may be used only for field conditions or minor surgical procedures. Sterilizing of all appropriate equipment is required. Provisions for sterilization shall include a steam pressure sterilizer (autoclave) or a gas sterilizer (e.g., ethylene oxide).

(g) Surgical packs include towels, drapes, gloves, sponges and proper instrumentation. They shall be properly prepared for sterilization by heat or gas (sufficient to kill spores) for each sterile surgical procedure.

(h) For any major procedure, such as opening the abdominal or thoracic cavity or exposing bones or joints, a separate sterile surgical pack shall be used for each animal. Surgeons and surgical assistants shall use aseptic technique throughout the entire surgical procedure.

(i) Uncomplicated ovariohysterectomy or castration of normal healthy animals, and minor surgical procedures, such as excising small skin lesions or suturing superficial lacerations, may be performed under clean, antiseptic conditions. Surgeons and surgical assistants shall wear clean attire and sterile gloves, and care shall be taken to avoid introducing bacterial contamination.

(j) All animals shall be properly prepared for surgery as follows:

(i) Clipping and shaving of the surgical area for major procedures requiring aseptic technique as in (h) of this subsection shall be performed in a room other than the surgery room. Loose hair shall be removed from the surgical area.

(ii) Scrubbing the surgical area with soap and water.

(iii) Disinfecting the surgical area.

(iv) Draping the surgical area if appropriate.

(k) Anesthetic equipment appropriate for the type of patient and surgery performed shall be available at all times.

(l) Compressed oxygen or other adequate means shall be available to be used for resuscitation.

(m) Emergency drugs shall be available to the surgery area.

(n) Grossly contaminated procedures, such as lancing and draining abscesses, shall not be performed in the room designated for aseptic or antiseptic surgery.

(2) **Library:** A library of appropriate veterinary journals and textbooks shall be available on the premises for ready reference.

(3) **Laboratory:** Veterinary medical facilities shall have the capability for use of either in-house or consultant laboratory service for blood chemistry, bacterial cultures and antibiotic sensitivity examinations, complete blood counts, histopathologic examinations and complete necropsies. The in-house laboratory facility shall meet the following minimum standards:

(a) The laboratory room shall be clean and orderly with provision for ample storage.

(b) Ample refrigeration shall be provided.

(c) Any tests performed shall be properly conducted by currently recognized methods to assure reasonable accuracy and reliability of results.

(4) **Radiology:** Veterinary medical facilities shall have the capability for use of either in-house or consultant services for obtaining radiographs of diagnostic quality. Radiology equipment and use shall be in compliance with federal and Washington state laws, and shall follow the guidelines approved by the American Veterinary Medical Association.

(5) **Biologicals and drugs:** The minimum standards for drug procedures shall be:

(a) All controlled substances shall be stored, maintained, administered, dispensed and prescribed in compliance with federal and Washington state laws.

(b) Among things otherwise provided by RCW 69.41.050, legend drugs dispensed by a veterinarian shall be labeled with the following:

(i) Name of client or identification of animal.

(ii) Date dispensed.

(iii) Complete directions for use.

(iv) Name and strength of the drug.

(v) Name of prescribing veterinarian.

(c) A record of all drugs administered or dispensed shall be kept in the client's record. In the case of companion animals this record shall be by individual animal.

(6) **Limited services:** If veterinary medical services are limited to specific aspects of practice,

(a) The public shall be informed of the limitation of services provided.

(b) All veterinary services provided in the facility shall conform to the requirements for those services listed in WAC 246-933-330 and this section.

(c) The general requirements prescribed in WAC 246-933-320 shall apply to all veterinary medical facilities.

(7) **Exceptions:**

(a) The standards and requirements prescribed in WAC 246-933-330(3) and subsection (1)(a), (c), (j)(i), (n) of this section, shall not apply to equine or food animal veterinary procedures performed in medical facilities.

(b) The standards and requirements prescribed in WAC 246-933-320 (1), (2), (3), (4), (6), (8), 246-933-330 and subsections (1)(a), (b), (c), (e), (h), (j)(i), (l), (n), (2), (3), (4), (6)(b), (c) of this section, shall not apply to equine or food animal veterinary procedures performed on the owner's premises by a veterinarian.

[Statutory Authority: RCW 18.92.030. 91-24-098 (Order 221B), § 246-933-340, filed 12/4/91, effective 1/4/92; 91-02-060 (Order 108B), recodified as § 246-933-340, filed 12/28/90, effective 1/31/91; 89-02-006 (Order PM 804), § 308-153-045, filed 12/27/88. Statutory Authority: RCW 18.92.030, 18.130.050 (1) and (12) and 1986 c 259 § 139. 86-13-070 (Order PM 600), § 308-153-045, filed 6/18/86.]

CONTINUING EDUCATION REQUIREMENTS

WAC 246-933-401 Citation and purpose. These rules may be cited and referred to as the "Veterinary continuing education rules." The purpose of these rules is to require licensed veterinarians to continue their professional educations as a condition of maintaining a license to practice veterinary medicine in this state.

[Statutory Authority: RCW 18.92.030. 91-02-060 (Order 108B), recodified as § 246-933-401, filed 12/28/90, effective 1/31/91; Order 233, § 308-154-010, filed 2/16/77.]

WAC 246-933-420 Basic requirement—Amount. Licensed veterinarians must complete thirty hours of continuing education every three years as required in chapter 246-12 WAC, Part 7.

[Statutory Authority: RCW 43.70.280. 98-05-060, § 246-933-420, filed 2/13/98, effective 3/16/98. Statutory Authority: RCW 18.92.030. 91-24-098 (Order 221B), § 246-933-420, filed 12/4/91, effective 1/4/92; 91-02-060 (Order 108B), recodified as § 246-933-420, filed 12/28/90, effective 1/31/91; Order 233, § 308-154-020, filed 2/16/77.]

WAC 246-933-440 Exceptions. The following are exceptions from the continuing education requirements:

Upon a showing of good cause by a licensee to the board, the board may exempt such licensee from any, all, or part of the continuing education requirement. Good cause includes, but is not limited to:

(1) Illness;

(2) Hardship to practice.

[Statutory Authority: RCW 18.92.030. 91-24-098 (Order 221B), § 246-933-440, filed 12/4/91, effective 1/4/92; 91-02-060 (Order 108B), recodified as § 246-933-440, filed 12/28/90, effective 1/31/91; 80-16-023 (Order PL 358), § 308-154-040, filed 10/29/80; Order 233, § 308-154-040, filed 2/16/77.]

WAC 246-933-450 Qualification of program for continuing education credit. Generally: Generally a formal completion of program of learning which contributes directly to the professional competence of an individual to practice veterinary medicine after he/she has been licensed to do so shall qualify an individual to receive credit for continuing education.

[Statutory Authority: RCW 18.92.030. 91-24-098 (Order 221B), § 246-933-450, filed 12/4/91, effective 1/4/92; 91-02-060 (Order 108B), recodified as § 246-933-450, filed 12/28/90, effective 1/31/91; Order 233, § 308-154-050, filed 2/16/77.]

WAC 246-933-460 Programs approved by the veterinary board. Completion of the following are deemed to qualify an individual for continuing education credit: Attendance at a recognized local, state, national, or international continuing education program having a featured speaker.

[Statutory Authority: RCW 18.92.030. 91-02-060 (Order 108B), recodified as § 246-933-460, filed 12/28/90, effective 1/31/91; Order 233, § 308-154-060, filed 2/16/77.]

WAC 246-933-480 AIDS prevention and information education requirements. Applicants must complete four clock hours of AIDS education as required in chapter 246-12 WAC, Part 8. Alternatives to formal coursework may be in the form of video tapes, professional journal articles, periodicals, or audio tapes, that contain current or updated information.

[Statutory Authority: RCW 43.70.280. 98-05-060, § 246-933-480, filed 2/13/98, effective 3/16/98. Statutory Authority: RCW 18.92.030 and 70.24.270. 91-24-098 (Order 221B), § 246-933-480, filed 12/4/91, effective 1/4/92. Statutory Authority: RCW 18.92.030. 91-02-060 (Order 108B), recodified as § 246-933-480, filed 12/28/90, effective 1/31/91. Statutory Authority: 1988 c 206 § 604 and RCW 18.92.030. 89-10-076 (Order PM 836), § 308-154-085, filed 5/3/89.]

SUBSTANCE ABUSE MONITORING

WAC 246-933-601 Intent. It is the intent of the legislature that the veterinary board of governors seek ways to identify and support the rehabilitation of veterinarians where practice or competency may be impaired due to the abuse of drugs or alcohol. The legislature intends that these veterinarians be treated so that they can return to or continue to practice veterinary medicine in a way which safeguards the public. The legislature specifically intends that the veterinary board of governors establish an alternate program to the traditional administrative proceedings against such veterinarians.

In lieu of disciplinary action under RCW 18.130.160 and if the veterinary board of governors determines that the unprofessional conduct may be the result of substance abuse, the veterinary board of governors may refer the license holder to a voluntary substance abuse monitoring program approved by the veterinary board of governors.

[Statutory Authority: RCW 18.92.030. 91-02-060 (Order 108B), recodified as § 246-933-601, filed 12/28/90, effective 1/31/91. Statutory Authority: RCW 18.130.175. 90-21-029 (Order 93), § 308-158-010, filed 10/9/90, effective 11/10/90.]

WAC 246-933-610 Definitions. As used in this chapter:

(1) "Approved substance abuse monitoring program" or "approved monitoring program" is a program, complying with applicable state law and approved by the board, which

oversees a veterinarian's compliance with a contractually prescribed substance abuse recovery program. Substance abuse monitoring programs may provide evaluation and/or treatment to participating veterinarians.

(2) "Contract" is a comprehensive, structured agreement between the recovering veterinarian and the approved monitoring program wherein the veterinarian consents to comply with the monitoring program and the required components for the veterinarian's recovery activity.

(3) "Approved treatment facility" is a facility recognized as such according to RCW 18.130.175(1).

(4) "Substance abuse" means the impairment, as determined by the board, of a veterinarian's professional services by an addiction to, a dependency on, or the use of alcohol, legend drugs, controlled substances, or other addictive drugs.

(5) "Aftercare" is that period of time after intensive treatment that provides the veterinarian or the veterinarian's family with group or individual counseling sessions, discussions with other families, ongoing contact and participation in self-help groups, and ongoing continued support of treatment and/or monitoring program staff.

(6) "Veterinarian support group" is a group of veterinarians and/or other health professionals meeting regularly to support the recovery of its members. The group provides a confidential setting with a trained and experienced facilitator in which participants may safely discuss drug diversion, licensure issues, return to work, and other professional issues related to recovery.

(7) "Twelve-steps groups" are groups such as Alcoholics Anonymous, Narcotics Anonymous, and related organizations based on a philosophy of anonymity, peer group association, and self-help.

(8) "Random drug screens" are the observed collection of specified bodily fluids together with laboratory tests to detect the presence of drugs of abuse in bodily fluids. Collection must occur at irregular intervals not known in advance by the person to be tested.

(9) "Veterinarian" means an impaired practitioner.

[Statutory Authority: RCW 18.92.030. 91-02-060 (Order 108B), recodified as § 246-933-610, file 12/28/90, effective 1/31/91. Statutory Authority: RCW 18.130.175. 90-21-029 (Order 93), § 308-158-020, filed 10/9/90, effective 11/10/90.]

WAC 246-933-620 Approval of substance abuse monitoring programs. The board shall approve the monitoring program(s) which shall participate in the recovery of veterinarians. The board shall enter into a contract with the approved substance abuse monitoring program(s) on an annual basis.

(1) An approved monitoring program may provide referrals for evaluations and/or treatment to the participating veterinarians.

(2) An approved monitoring program staff shall have the qualifications and knowledge of both substance abuse as defined in this chapter and the practice of veterinary medicine to be able to evaluate:

(a) Drug screening laboratories;

(b) Laboratory results;

(c) Providers of substance abuse treatment, both individual and facilities;

(d) Veterinarians' support groups;

(e) The veterinarians' work environment; and

(f) The ability of the veterinarian to practice with reasonable skill and safety.

(3) An approved monitoring program shall enter into a contract with the veterinarian and the board to oversee the veterinarian's compliance with the requirements of the program.

(4) An approved monitoring program staff shall evaluate and recommend to the board, on an individual basis, whether a veterinarian will be prohibited from engaging in the practice of veterinary medicine for a period of time and restrictions, if any, on the veterinarian's access to controlled substances in the work place.

(5) An approved monitoring program shall maintain records on participants.

(6) An approved monitoring program shall be responsible for providing feedback to the veterinarian as to whether treatment progress is acceptable.

(7) An approved monitoring program shall report to the board any veterinarian who fails to comply with the requirements of the monitoring program.

(8) An approved monitoring program shall provide the board with a statistical report on the program, including progress of participants, at least annually, or more frequently as requested by the board. Progress reports shall not include names or any identifying information regarding voluntary participants.

(9) The board shall approve and provide the monitoring program guidelines on treatment, monitoring, and/or limitations on the practice of veterinary medicine for those participating in the program.

(10) An approved monitoring program shall provide for the board a complete financial breakdown of cost for each individual veterinary participant by usage at an interval determined by the board in the annual contract.

(11) An approved monitoring program shall provide for the board a complete annual audited financial statement.

[Statutory Authority: RCW 18.92.030 and 18.130.050. 91-24-098 (Order 221B), § 246-933-620, filed 12/4/91, effective 1/4/92. Statutory Authority: RCW 18.92.030. 91-02-060 (Order 108B), recodified as § 246-933-620, filed 12/28/90, effective 1/31/91. Statutory Authority: RCW 18.130.175. 90-21-029 (Order 93), § 308-158-030, filed 10/9/90, effective 11/10/90.]

WAC 246-933-630 Participation in approved substance abuse monitoring program. (1) In lieu of disciplinary action, the veterinarian may accept board referral into an approved substance abuse monitoring program.

(a) The veterinarian shall undergo a complete physical and psychosocial evaluation before entering the approved monitoring program. This evaluation will be performed by health care professionals with expertise in chemical dependency.

(b) The veterinarian shall enter into a contract with the approved substance abuse monitoring program to comply with the requirements of the program which shall include, but not be limited to the following:

(i) The veterinarian shall agree to remain free of all mind-altering substances, including alcohol, except for med-

ications prescribed by an authorized prescriber, as defined in RCW 69.41.030 and 69.50.101.

(ii) The veterinarian shall submit to random drug screening as specified by the approved monitoring program.

(iii) The veterinarian shall sign a waiver allowing the approved monitoring program to release information to the board if the veterinarian does not comply with the requirements of this contract.

(iv) The veterinarian shall undergo approved substance abuse treatment in an approved treatment facility.

(v) The veterinarian shall complete the prescribed aftercare program of the approved treatment facility, which may include individual and/or group psychotherapy.

(vi) The veterinarian shall cause the treatment counselor(s) to provide reports to the approved monitoring program at specified intervals. Reports shall include treatment prognosis and goals.

(vii) The veterinarian shall attend veterinarians' support groups and/or twelve-step group meetings as specified by the contract.

(viii) The veterinarian shall comply with specified practice conditions and restrictions as defined by the contract.

(ix) Except for (b)(i) through (iii) of this subsection, an approved monitoring program may make an exception to the foregoing requirements on individual contracts.

(c) The veterinarian is responsible for paying the costs of the physical and psychosocial evaluation, substance abuse treatment, random drug screens, and therapeutic group sessions.

(d) The veterinarian may be subject to disciplinary action under RCW 18.130.160 and 18.130.180 if the veterinarian does not consent to be referred to the approved monitoring program, does not comply with specified practice restrictions, or does not successfully complete the program.

(2) A veterinarian who is not being investigated or monitored by the board for substance abuse and who is not currently the subject of current disciplinary action, may voluntarily participate in the approved substance abuse monitoring program without being referred by the board. Such voluntary participants shall not be subject to disciplinary action under RCW 18.130.160 and 18.130.180 for their substance abuse, and shall not have their participation made known to the board if they meet the requirements of the approved monitoring program:

(a) The veterinarian shall undergo a complete physical and psychosocial evaluation before entering the approved monitoring program. This evaluation shall be performed by health care professional(s) with expertise in chemical dependency.

(b) The veterinarian shall enter into a contract with the approved substance abuse monitoring program to comply with the requirements of the program which may include, but not be limited to the following:

(i) The veterinarian shall undergo approved substance abuse treatment in an approved treatment facility.

(ii) The veterinarian shall agree to remain free of all mind-altering substances, including alcohol, except for medications prescribed by an authorized prescriber as defined in RCW 69.41.030 and 69.50.101.

(iii) The veterinarian shall complete the prescribed aftercare program of the approved treatment facility, which may include individual and/or group psychotherapy.

(iv) The veterinarian shall cause the treatment counselor(s) to provide reports to the approved monitoring program at specified intervals. Reports shall include treatment prognosis and goals.

(v) The veterinarian shall submit to random observed drug screening as specified by the approved monitoring program.

(vi) The veterinarian shall attend veterinarians' support groups and/or twelve-step group meetings as specified by the contract.

(vii) The veterinarian shall comply with practice conditions and restrictions as defined by the contract.

(viii) The veterinarian shall sign a waiver allowing the approved monitoring program to release information to the board if the veterinarian does not comply with the requirements of this contract.

(ix) Except for (b)(ii) through (iii) of this subsection, an approved monitoring program may make an exception to the foregoing requirements on individual contracts.

(c) The veterinarian is responsible for paying the costs of the physical and psychosocial evaluation, substance abuse treatment, random drug screens, and therapeutic group sessions.

(3) Treatment and pretreatment records shall be confidential as provided by law.

[Statutory Authority: RCW 18.92.030 and 18.130.050. 91-24-098 (Order 221B), § 246-933-630, filed 12/4/91, effective 1/4/92. Statutory Authority: RCW 18.92.030. 91-02-060 (Order 108B), recodified as § 246-933-630, filed 12/28/90, effective 1/31/91. Statutory Authority: RCW 18.130.175. 90-21-029 (Order 93), § 308-158-040, filed 10/9/90, effective 11/10/90.]

FEES

WAC 246-933-990 Veterinarian fees and renewal cycle. (1) Licenses must be renewed every year on the practitioner's birthday as provided in chapter 246-12 WAC, Part 2.

(2) The following nonrefundable fees will be charged:

Title of Fee	Fee
State examination (initial/retake)	$125.00
Initial state license	115.00
Specialty licensure	115.00
Impaired veterinarian assessment	10.00
Temporary permit	200.00
State or specialty license renewal	120.00
Retired active license and renewal	55.00
Late renewal penalty (state and specialty license)	60.00
Expired license reissuance	60.00
Late renewal penalty (retired active license)	50.00
Duplicate license	15.00
Certification of license	15.00

VETERINARY TECHNICIANS

WAC

DISPOSITION OF SECTIONS FORMERLY CODIFIED IN THIS CHAPTER

246-935-080 Grading of examinations. [Statutory Authority: RCW 18.92.030. 91-24-098 (Order 221B), § 246-935-080, filed 12/4/91, effective 1/4/92; 91-02-060 (Order 108B), recodified as § 246-935-080, filed 12/28/90, effective 1/31/91; 85-03-085 (Order PL 509), § 308-156-070, filed 1/18/85. Statutory Authority: RCW 18.92.015 and 18.92.030. 83-19-055 (Order PL 445), § 308-156-070, filed 9/19/83. Statutory Authority: RCW 18.92.030. 80-01-069 (Order PL 332), § 308-156-070, filed 12/21/79.] Repealed by 93-08-029 (Order 353B), filed 3/30/93, effective 4/30/93. Statutory Authority: RCW 18.92.030

246-935-125 Registration/renewal/late penalty. [Statutory Authority: RCW 18.92.030. 93-08-029 (Order 353B), § 246-935-125, filed 3/30/93, effective 4/30/93. Statutory Authority: RCW 43.70.040 and 18.92.140. 92-07-036 (Order 252), § 246-935-125, filed 3/10/92, effective 4/10/92.] Repealed by 97-20-101, filed 9/29/97, effective 10/30/97. Statutory Authority: RCW 43.70.040.

246-935-140 Disciplinary reinstatement procedures. [Statutory Authority: RCW 18.92.030. 91-24-098 (Order 221B), § 246-935-140, filed 12/4/91, effective 1/4/92; 91-02-060 (Order 108B), recodified as § 246-935-140, filed 12/28/90, effective 1/31/91; 89-02-006 (Order PM 804), § 308-157-010, filed 12/27/88.] Repealed by 99-14-076, filed 7/6/99, effective 8/6/99. Statutory Authority: RCW 18.92.030.

WAC 246-935-010 Definitions. (1) "Veterinary technician" means any person who has met the requirements of RCW 18.92.015 and who is registered as required by chapter 18.92 RCW.

(2) "Direct supervision" means the supervisor is on the premises, is quickly and easily available and the animal has been examined by a veterinarian at such times as acceptable veterinary medical practice requires, consistent with the particular delegated animal health care task.

(3) "Emergency" means that the animal has been placed in a life-threatening condition where immediate treatment is necessary to sustain life.

(4) "Immediate supervision" means the supervisor is in audible and visual range of the animal patient and the person treating the patient.

(5) "Indirect supervision" means the supervisor is not on the premises, but has given either written or oral instructions for treatment of the animal patient and the animal has been examined by a veterinarian at such times as acceptable veterinary medical practice requires, consistent with the particular delegated animal health care task and the animal is not anesthetized.

(6) "Supervisor" means a veterinarian or, if a task so provides, a veterinary technician.

(7) "Unregistered assistant" means any individual who is not a veterinary technician or veterinarian.

(8) "Veterinarian" means a person authorized by chapter 18.92 RCW to practice veterinary medicine in the state of Washington.

(9) "Veterinary medical facility" is as defined by WAC 246-933-310.

[Statutory Authority: RCW 18.92.030. 02-10-135, § 246-935-010, filed 5/1/02, effective 6/1/02; 91-24-098 (Order 221B), § 246-935-010, filed 12/4/91, effective 1/4/92; 91-02-060 (Order 108B), recodified as § 246-935-010, filed 12/28/90, effective 1/31/91. Statutory Authority: RCW 18.92.015 and 18.92.030. 83-19-055 (Order PL 445), § 308-156-010, filed 9/19/83. Statutory Authority: RCW 18.92.030. 80-01-069 (Order PL 332), § 308-156-010, filed 12/21/79.]

WAC 246-935-020 Applications—Veterinary technicians. Applications for registration as a veterinary technician shall be made on forms prepared by the secretary of the department of health and submitted to the department of health. Applications must be received at least sixty days prior to the scheduled examination. The application, in addition to the required fee, must be accompanied by satisfactory evidence of experience and/or official transcripts or other evidence of completion of educational courses approved by the board. The application shall be signed by the applicant. When the application and the accompanying evidence are found satisfactory, the secretary shall notify the applicant of eligibility to be scheduled for the veterinary technician examination.

[Statutory Authority: RCW 18.92.030. 02-10-135, § 246-935-020, filed 5/1/02, effective 6/1/02; 92-02-057 (Order 233B), § 246-935-020, filed 12/30/91, effective 1/30/92; 91-02-060 (Order 108B), recodified as § 246-935-020, filed 12/28/90, effective 1/31/91. Statutory Authority: RCW 18.92.015 and 18.92.030. 83-19-055 (Order PL 445), § 308-156-020, filed 9/19/83. Statutory Authority: RCW 18.92.030. 80-01-069 (Order PL 332), § 308-156-020, filed 12/21/79.]

WAC 246-935-030 Grounds for denial, suspension or revocation of registration. The board may suspend, revoke or deny the issuance or renewal of registration of any veterinary technician and file its decision in the secretary's office if the veterinary technician:

(1) Has employed fraud or misrepresentation in applying for or obtaining the registration;

(2) Has within ten years prior to the date of application been found guilty of a criminal offense relating to the practice of veterinary medicine, surgery and dentistry, including, but not limited to:

(a) Any violation of the Uniform Controlled Substances Act or the Legend Drug Act;

(b) Chronic inebriety;

(c) Cruelty to animals;

(3) Has violated or attempted to violate any provision of chapter 18.92 RCW or any rule or regulation adopted pursuant to that chapter;

(4) Has assisted, abetted or conspired with another person to violate chapter 18.92 RCW, or any rule or regulation adopted under that chapter;

(5) Has performed any animal health care service not authorized by WAC 246-935-040 or 246-935-050.

[Statutory Authority: RCW 18.92.030. 02-10-135, § 246-935-030, filed 5/1/02, effective 6/1/02; 91-24-098 (Order 221B), § 246-935-030, filed 12/4/91, effective 1/4/92; 91-02-060 (Order 108B), recodified as § 246-935-030, filed 12/28/90, effective 1/31/91. Statutory Authority: RCW 18.92.015 and 18.92.030. 83-19-055 (Order PL 445), § 308-156-030, filed 9/19/83. Statutory Authority: RCW 18.92.030. 80-01-069 (Order PL 332), § 308-156-030, filed 12/21/79.]

WAC 246-935-040 Responsibilities of veterinarian supervising a veterinary technician or an unregistered assistant. (1) A veterinarian must not:

(a) Permit any veterinary technician in his/her employ to perform any animal health care services not authorized by WAC 246-935-040 or 246-935-050.

(b) Permit any unregistered assistant to perform any animal health care services not authorized by WAC 246-935-040 or 246-935-050.

(2) The supervising veterinarian shall:

(a) Have legal responsibility for the health, safety and welfare of the animal patient which the veterinary technician or unregistered assistant serves.

(b) Delegate animal health care tasks only if the veterinary technician or unregistered assistant is qualified to perform the task.

(c) Use the level of supervision required for a specific task.

(d) Make all decisions relating to the diagnosis, treatment, management, and future disposition of an animal patient.

(e) Limit the number of unregistered assistants under indirect supervision to two at any single time.

(f) Allow veterinary technicians and unregistered assistants the right and responsibility to refuse to perform duties they are not legally or technically able to perform.

(3) A supervising veterinarian shall examine the animal patient prior to the delegation of any animal health care task to either a veterinary technician or unregistered assistant. The examination of the animal patient must be conducted at the times and in the manner consistent with veterinary medicine practice, and the particular delegated animal health care task.

(4) If a veterinary technician is authorized, to provide supervision for an unregistered assistant performing a specified health care task, the veterinary technician shall be under the same degree of supervision by the veterinarian, as if the veterinary technician were performing the task.

(5) Unless specifically allowed by regulation, a veterinarian shall not authorize a veterinary technician or an unregistered assistant to perform the following functions:

(a) Surgery, other than outlined in WAC 246-935-050 (1)(a);

(b) Diagnosis and prognosis of animal disease;

(c) Prescribing of drugs, medicines and appliances.

[Statutory Authority: RCW 18.92.030. 02-02-046, § 246-935-040, filed 12/27/01, effective 1/27/02; 92-02-057 (Order 233B), § 246-935-040, filed 12/30/91, effective 1/30/92; 91-24-098 (Order 221B), § 246-935-040, filed 12/4/91, effective 1/4/92; 91-02-060 (Order 108B), recodified as § 246-935-040, filed 12/28/90, effective 1/31/91. Statutory Authority: RCW 18.92.015 and 18.92.030. 83-19-055 (Order PL 445), § 308-156-045, filed 9/19/83.]

WAC 246-935-050 Animal health care tasks. (1) **Veterinary technicians.**

No individual, other than a registered veterinary technician, may advertise or offer her/his services in a manner calculated to lead others to believe that she/he is a trained or registered veterinary technician.

Veterinary technicians are prohibited from performing the following activities: Surgery except as outlined below; diagnosis and prognosis; prescribing drugs, medication or appliances; initiation of treatment without prior instruction by a veterinarian except as outlined under emergency animal care.

(a) Immediate supervision. A veterinary technician may perform the following tasks only under the immediate supervision of a veterinarian:

(i) Assist veterinarian in surgery by tissue handling;

(ii) Assist veterinarian in surgery by instrument handling;

(iii) Dental extractions.

(b) Direct supervision. A veterinary technician may perform the following tasks under the direct supervision of a veterinarian:

(i) Endotracheal intubation;

(ii) Blood administration;

(iii) Fluid aspiration, including cystocentesis;

(iv) Intraperitoneal injections;

(v) Monitoring of vital signs of anesthetized patient;

(vi) Application of splints;

(vii) Induce anesthesia by intravenous, intramuscular, or subcutaneous injection or by inhalation;

(viii) Administration of immunological agents including rabies vaccination;

(ix) Catheterization of the unobstructed bladder;

(x) Ophthalmological procedure including:

(A) Tear production testing

(B) Topical anesthetic application

(C) Fluorescein staining of the cornea

(D) Tonometry;

(xi) Teeth cleaning, provided an oral examination of the anesthetized patient has been conducted by the veterinarian;

(xii) Microchip implantation;

(xiii) Floating teeth;

(xiv) Removal of partially exposed foxtails and porcupine quills;

(xv) Provide massage.

(c) Indirect supervision. A veterinary technician may perform the following tasks under the indirect supervision of a veterinarian. If the animal is anesthetized, these tasks require the direct supervision of a veterinarian.:

(i) Enema;

(ii) Electrocardiography;

(iii) Application of bandages;

(iv) Gavage;

(v) Ear flush;

(vi) Radiology;

(A) Patient positioning;

(B) Operation of radiograph machines;

(C) Oral and rectal administration of radio-opaque materials;

(vii) Placement and securing of an intravenous catheter;

(viii) Injections of medications not otherwise prohibited:
(A) Intramuscular, excluding immunological agents
(B) Subcutaneous, excluding immunological agents
(C) Intravenous, including giving medication through an established intravenous catheter;
(ix) Oral medications;
(x) Topical medications;
(xi) Laboratory (specimen collections):
(A) Collection of tissue during or after a veterinarian has performed a necropsy
(B) Urine, except cystocentesis
(C) Blood
(D) Parasitology
(E) Exfoliative cytology
(F) Microbiology
(G) Fecal material
(xii) Laboratory (specimen testing):
(A) Urinalysis
(B) Hematology
(C) Serology
(D) Chemistries
(E) Endocrinology
(F) Parasitology
(G) Exfoliative cytology
(H) Microbiology
(I) Fecal analysis;
(xiii) Administration of preanesthetic drugs;
(xiv) Oxygen therapy;
(xv) Euthanasia in all circumstances as otherwise allowed by law;
(xvi) Removal of sutures;
(xvii) Indirect blood pressure measurement;
(xviii) Obtaining a general history from a client of a patient and the client's concerns regarding that patient;
(xix) Preliminary physical examination including temperature, pulse and respiration;
(xx) Behavioral consultation with clients;
(xxi) Dietary consultation with clients.

(2) **Unregistered assistants.**

Induction of anesthesia by any method is prohibited.

(a) Immediate supervision by veterinarian. An unregistered assistant may perform the following tasks only under the immediate supervision of a veterinarian:
(i) Assist veterinarian in surgery by tissue handling;
(ii) Assist veterinarian in surgery by instrument handling.

(b) Immediate supervision by veterinarian or veterinary technician. An unregistered assistant may perform the following tasks only under the immediate supervision of either a veterinarian or veterinary technician:
(i) Blood administration;
(ii) Laboratory (specimen collections):
(A) Hematology
(B) Exfoliative cytology, including skin scraping
(C) Microbiology
(D) Serology;
(iii) Placement and securing of an intravenous catheter.

(c) Direct supervision by veterinarian. An unregistered assistant may perform the following tasks only under the direct supervision of a veterinarian:
(i) Monitor vital signs of anesthetized patient;
(ii) Euthanasia in all circumstances as otherwise allowed by law;
(iii) Removal of sutures;
(iv) Teeth cleaning, provided an oral examination of the anesthetized patient has been conducted by the veterinarian;
(v) Provide massage;
(vi) Administration of immunological agents including rabies vaccination;
(vii) Microchip implantation;
(viii) Enema;
(ix) Removal of partially exposed foxtails and porcupine quills from skin and feet.

(d) Direct supervision by veterinarian or veterinary technician. An unregistered assistant may perform the following tasks under direct supervision of either a veterinarian or veterinary technician. If the animal is anesthetized, these tasks require immediate supervision of a veterinarian or a veterinary technician:
(i) Application of bandages;
(ii) Ear flush;
(iii) Electrocardiography;
(iv) Intramuscular or subcutaneous injections of medications not otherwise prohibited;
(v) Laboratory (test preparation, not evaluation):
(A) Parasitology
(B) Serology
(C) Urinalysis;
(vi) Preliminary physical examination including temperature, pulse and respiration;
(vii) Radiology:
(A) Patient positioning
(B) Operation of radiograph machines
(C) Rectal and oral administration of radio-opaque materials.

(e) Indirect supervision. An unregistered assistant may perform the following tasks under the indirect supervision of a veterinarian. If the animal is anesthetized, these tasks require the direct supervision of a veterinarian:
(i) Oral medications;
(ii) Topical medications;
(iii) Laboratory (specimen collection):
Collecting of voided urine and fecal material;
(iv) Oxygen therapy;
(v) Obtaining a general history from a client of a patient and the client's concerns;
(vi) Behavioral consultation with clients;
(vii) Dietary consultation with clients.

(3) **Emergency animal care.**

(a) Under conditions of an emergency, a veterinary technician and unregistered assistant may render certain life saving aid to an animal. A veterinary technician may:
(i) Apply tourniquets and/or pressure bandages to control hemorrhage;
(ii) Administer pharmacologic agents to prevent or control shock. Placement of an intravenous catheter and administering parenteral fluids, must only be performed after direct communication with a veterinarian, and only if the veterinarian is either present or immediately enroute to the location of the distressed animal;

(iii) Administer resuscitative oxygen procedures;

(iv) Establish open airways including the use of intubation appliances, but excluding surgery;

(v) Administer external cardiac resuscitation;

(vi) Apply temporary splints or bandages to prevent further injury to bones or soft tissues;

(vii) Apply appropriate wound dressings and external supportive treatment in severe burn cases;

(viii) Apply external supportive treatment to stabilize body temperature.

(b) An unregistered assistant may:

(i) Apply tourniquets and/or pressure bandages to control hemorrhage;

(ii) Administer resuscitative oxygen procedures;

(iii) Establish open airways including intubation appliances, but excluding surgery;

(iv) Apply external supportive treatment to stabilize body temperature.

[Statutory Authority: RCW 18.92.030. 02-02-046, § 246-935-050, filed 12/27/01, effective 1/27/02; 91-02-060 (Order 108B), recodified as § 246-935-050, filed 12/28/90, effective 1/31/91. Statutory Authority: RCW 18.92.015 and 18.92.030. 83-19-055 (Order PL 445), § 308-156-050, filed 9/19/83.]

WAC 246-935-060 Eligibility for examination as veterinary technician. Applicants must meet one of the following criteria to be eligible for the examination.

(1) Completion of a post secondary educational program for animal or veterinary technology approved by the Committee on Veterinary Technician Education and Activities (CVTEA) of the American Veterinary Medical Association (AVMA). The board approves all institutions accredited by, and in good standing with, the AVMA. AVMA-accredited programs in veterinary technology means any postsecondary educational program of two or more academic years that has fulfilled the essential criteria established by the Committee on Veterinary Technician Education and Activities and approved by the AVMA House of Delegates (AVMA/NAVTA Liaison Committee Model Practice Act adopted 1992). Other institutions applying for board approval must meet the accreditation standards of the CVTEA. It is the responsibility of the institution to apply for approval and of a student to ascertain whether or not a school has been approved by the board. The examination may not be taken prior to six months preceding graduation from the course of instruction.

(2) Graduation from a two-year curriculum in animal health or veterinary technology which is not accredited by the CVTEA plus a minimum of thirty-six months of full-time experience under the supervision of a licensed veterinarian(s) who must attest to the completion of that experience.

(3) Award of a D.V.M. or V.M.D. degree or equivalent from an American Veterinary Medical Association accredited or listed college of veterinary medicine.

(4) Registration, certification, or licensure as an animal health or veterinary technician in one or more states and thirty-six months of full-time experience under the supervision of a licensed veterinarian(s).

(5) Completion of a course in veterinary technician education as a member of the United States military and completion of a tour of active duty as a veterinary technician or specialist.

(6) Five years full-time experience as an unregistered assistant under the supervision of a licensed veterinarian(s) who must attest to the completion of that experience.

[Statutory Authority: RCW 18.92.030. 02-02-046, § 246-935-060, filed 12/27/01, effective 1/27/02; 93-12-126 (Order 368B), § 246-935-060, filed 6/2/93, effective 7/3/93; 91-24-098 (Order 221B), § 246-935-060, filed 12/4/91, effective 1/4/92; 91-02-060 (Order 108B), recodified as § 246-935-060, filed 12/28/90, effective 1/31/91. Statutory Authority: RCW 18.92.015 and 18.92.030. 83-19-055 (Order PL 445), § 308-156-055, filed 9/19/83.]

WAC 246-935-070 Examination for registration as animal technician. (1) All applicants shall be required to complete the veterinary technician national examination and the Washington state veterinary technician examination

(a) The national examination shall consist of questions on the following areas: Basic sciences, animal care and management/husbandry (including farm, pet, and research animals) and clinical sciences (including small and large animal patient care). The examination is designed to measure essential job-related knowledge at the entry level.

(b) The Washington state examination shall consist of questions pertaining to laws regulating animal technicians and to laws regulating animal health care in the state.

(2) In order to pass examination for registration as an animal technician, the applicant shall attain a minimum grade of:

(a) 1.5 standard deviation below the national mean of the criterion population on the national examination.

(b) Ninety percent on the Washington state examination.

[Statutory Authority: RCW 18.92.030. 93-08-029 (Order 353B), § 246-935-070, filed 3/30/93, effective 4/30/93; 91-24-098 (Order 221B), § 246-935-070, filed 12/4/91, effective 1/4/92; 91-02-060 (Order 108B), recodified as § 246-935-070, filed 12/28/90, effective 1/31/91; 88-08-033 (Order PM 719), § 308-156-060, filed 4/1/88. Statutory Authority: RCW 18.92.015 and 18.92.030. 83-19-055 (Order PL 445), § 308-156-060, filed 9/19/83. Statutory Authority: RCW 18.92.030. 80-01-069 (Order PL 332), § 308-156-060, filed 12/21/79.]

WAC 246-935-090 Examination review procedures. (1) Each individual who takes the examination for registration as a veterinary technician and does not pass the examination may request review by the board of his or her examination results. This request must be in writing and shall be received by the board within thirty days of notification of the examination results. The request shall state the reason or reasons the applicant feels the results of the examination should be changed. The board shall not consider any challenges to examination scores unless the total revised score could result in the issuance of a registration. The board shall consider the following to be adequate reasons for consideration for review and possible modification of examination results:

(a) A showing of a significant procedural error in the examination process;

(b) Evidence of bias, prejudice or discrimination in the examination process;

(c) Other significant errors which result in substantial disadvantage to the applicant.

(2) Any applicant who is not satisfied with the result of the examination review may appeal the board's decision and may request a formal hearing before the board under the

Administrative Procedure Act. The hearing shall be requested within twenty days of receipt of the result of the board's review of the examination results.

[Statutory Authority: RCW 18.92.030. 02-10-135, § 246-935-090, filed 5/1/02, effective 6/1/02; 91-24-098 (Order 221B), § 246-935-090, filed 12/4/91, effective 1/4/92; 91-02-060 (Order 108B), recodified as § 246-935-090, filed 12/28/90, effective 1/31/91; 86-08-068 (Order PL 584), § 308-156-075, filed 4/1/86.]

WAC 246-935-100 Reexamination. An applicant who has failed the veterinary technician examination may apply for reexamination.

[Statutory Authority: RCW 18.92.030. 02-10-135, § 246-935-100, filed 5/1/02, effective 6/1/02; 91-24-098 (Order 221B), § 246-935-100, filed 12/4/91, effective 1/4/92; 91-02-060 (Order 108B), recodified as § 246-935-100, filed 12/28/90, effective 1/31/91. Statutory Authority: RCW 18.92.015 and 18.92.030. 83-19-055 (Order PL 445), § 308-156-080, filed 9/19/83. Statutory Authority: RCW 18.92.030. 80-01-069 (Order PL 332), § 308-156-080, filed 12/21/79.]

WAC 246-935-110 Examination procedures. Failure to follow written or oral instructions relative to the conduct of the examination, including termination times of the examination, shall be considered grounds for expulsion from the examination.

[Statutory Authority: RCW 18.92.030. 91-24-098 (Order 221B), § 246-935-110, filed 12/4/91, effective 1/4/92; 91-02-060 (Order 108B), recodified as § 246-935-110, filed 12/28/90, effective 1/31/91; 88-08-033 (Order PM 719), § 308-156-090, filed 4/1/88. Statutory Authority: RCW 18.92.015 and 18.92.030. 83-19-055 (Order PL 445), § 308-156-090, filed 9/19/83. Statutory Authority: RCW 18.92.030. 80-01-069 (Order PL 332), § 308-156-090, filed 12/21/79.]

WAC 246-935-120 Frequency and location of examination. (1) The examination for veterinary technicians shall be given at least once a year at times and places authorized by the secretary.

(2) If the applicant fails to appear for examination at the designated time and place, the applicant will forfeit the examination fee unless the applicant has notified the department of health in writing of an inability to appear for the scheduled exam at least five days before the designated time.

[Statutory Authority: RCW 18.92.030. 02-10-135, § 246-935-120, filed 5/1/02, effective 6/1/02; 91-24-098 (Order 221B), § 246-935-120, filed 12/4/91, effective 1/4/92; 91-02-060 (Order 108B), recodified as § 246-935-120, filed 12/28/90, effective 1/31/91; 88-08-033 (Order PM 719), § 308-156-100, filed 4/1/88. Statutory Authority: RCW 18.92.015 and 18.92.030. 83-19-055 (Order PL 445), § 308-156-100, filed 9/19/83. Statutory Authority: RCW 18.92.030. 80-01-069 (Order PL 332), § 308-156-100, filed 12/21/79.]

WAC 246-935-130 AIDS prevention and information education requirements. Applicants must complete four clock hours of AIDS education as required in chapter 246-12 WAC, Part 8. Alternatives to formal coursework may be in the form of video tapes, professional journal articles, periodicals, or audio tapes, that contain current or updated information.

[Statutory Authority: RCW 43.70.280. 98-05-060, § 246-935-130, filed 2/13/98, effective 3/16/98. Chapter 246-937 WAC

REGISTERED VETERINARY MEDICATION CLERKS

WAC

DISPOSITION OF SECTIONS FORMERLY CODIFIED IN THIS CHAPTER

246-937-100 Renewal of certification. [Statutory Authority: Chapter 18.92 RCW. 95-04-083, § 246-937-100, filed 1/31/95, effective 3/3/95.] Repealed by 97-20-101, filed 9/29/97, effective 10/30/97. Statutory Authority: RCW 43.70.040.

WAC 246-937-010 Definitions. (1) "Registered veterinary medication clerk" means any person who has met the requirements for registration as established by the veterinary board of governors (board) and WAC 246-937-040.

(2) "Direct supervision" means the supervising licensed veterinarian is on the premises and is quickly and easily available.

(3) "Indirect supervision" means the supervising licensed veterinarian is not on the premises, but has given either written or oral instructions regarding policies and procedures for the handling of legend drugs.

(4) "On-the-job training program" means a program following the guidelines approved by the board.

(5) "Supervising veterinarian" means the licensed veterinarian who is responsible for closely supervising the registered veterinary medication clerk while performing daily duties.

(6) "Sponsoring veterinarian" means the licensed veterinarian who is responsible for training and reviewing the work of a registered veterinary medication clerk. An appropriate degree of supervision is involved.

[Statutory Authority: RCW 18.92.030 and 18.92.145. 02-11-022, § 246-937-010, filed 5/7/02, effective 6/7/02. Statutory Authority: Chapter 18.92 RCW. 95-04-083, § 246-937-010, filed 1/31/95, effective 3/3/95.]

WAC 246-937-020 Responsibility for supervision. Licensed veterinarians are responsible and accountable for the ordering, inventory, labeling, counting, packaging and delivery of legend drugs utilized in their practice. In accordance with chapter 18.92 RCW, certain nondiscretionary pharmaceutical tasks may be delegated by a veterinarian to a qualified nonveterinarian. The delegating veterinarian is responsible for the supervision of pharmaceutical tasks performed by veterinary medication clerks and veterinary technicians. Records shall be maintained that account for the receipt and disposition of all legend drugs. A registered veterinary medication clerk may be supervised by a licensed veterinarian other than the sponsor subject to the sponsoring veterinarian's approval. The sponsoring veterinarian shall be primarily responsible for the performance and acts of the registered veterinary medication clerk.

[Statutory Authority: RCW 18.92.030 and 18.92.145. 02-11-022, § 246-937-020, filed 5/7/02, effective 6/7/02. Statutory Authority: Chapter 18.92 RCW. 95-04-083, § 246-937-020, filed 1/31/95, effective 3/3/95.]

WAC 246-937-030 Tasks and prohibited functions. (1) A registered veterinary medication clerk may perform the following tasks only under the direct supervision of a licensed veterinarian: Counting, labeling, and packaging of legend drugs. A licensed veterinarian must personally inspect all packaged medication orders to ensure the accuracy of the order prior to delivery to the client. The licensed veterinarian will document the medication inspection by placing his/her initials in the patient's record.

(2) A registered veterinary medication clerk may perform the following tasks under the indirect supervision of a licensed veterinarian: Ordering, stocking, inventorying, and the delivery of legend drugs. The identity of the client must be confirmed before the delivery of legend drugs.

(3) The following functions must not be delegated by a licensed veterinarian to a registered veterinary medication clerk:

(a) Consultation with a client regarding the medication order and/or any information involving professional clinical judgment.

(b) Dispensing any medication. The medication must be recorded in the patient's record by the authorizing veterinarian.

(c) Extemporaneous compounding of a medication order.

(d) Interpretation of data in a patient record.

(e) Final inspection of a completed medication order as described in WAC 246-937-030(1).

(f) Any duties required by law to be performed by a licensed veterinarian.

(g) Any ordering, accountability, packaging, or delivery of controlled substances as defined in or under chapter 69.50 RCW.

[Statutory Authority: RCW 18.92.030 and 18.92.145. 02-11-022, § 246-937-030, filed 5/7/02, effective 6/7/02. Statutory Authority: Chapter 18.92 RCW. 95-04-083, § 246-937-030, filed 1/31/95, effective 3/3/95.]

WAC 246-937-040 Training and education. (1) The training of veterinary medication clerks must be obtained by completion of an on-the-job training program following guidelines approved by the board.

(2) The minimum educational requirement must be high school graduation or equivalency.

[Statutory Authority: RCW 18.92.030 and 18.92.145. 02-11-022, § 246-937-040, filed 5/7/02, effective 6/7/02. Statutory Authority: Chapter 18.92 RCW. 95-04-083, § 246-937-040, filed 1/31/95, effective 3/3/95.]

WAC 246-937-050 Applications. In addition to the requirements of chapter 246-12 WAC, Part 2, the application must be signed by the sponsoring veterinarian attesting that the applicant is qualified to perform the responsibilities of a registered veterinary medication clerk and is familiar with the procedures and policies of the practice. Registration is valid only for employment at the veterinary practice identified in the application and/or pursuant to WAC 246-937-020.

[Statutory Authority: RCW 18.92.030 and 18.92.145. 02-11-022, § 246-937-050, filed 5/7/02, effective 6/7/02. Statutory Authority: RCW 43.70.280. 98-05-060, § 246-937-050, filed 2/13/98, effective 3/16/98. Statutory Authority: Chapter 18.92 RCW. 95-04-083, § 246-937-050, filed 1/31/95, effective 3/3/95.]

WAC 246-937-060 Transfer of registration. In the event that a veterinary medication clerk who is currently registered, desires to be sponsored by another licensed veterinarian, application for transfer of registration must be made on forms provided by the board and be subject to the board's approval.

[Statutory Authority: RCW 18.92.030 and 18.92.145. 02-11-022, § 246-937-060, filed 5/7/02, effective 6/7/02. Statutory Authority: Chapter 18.92 RCW. 95-04-083, § 246-937-060, filed 1/31/95, effective 3/3/95.]

WAC 246-937-070 Termination of sponsorship. Upon termination of the working relationship, between the registered veterinary medication clerk and the sponsoring veterinarian, the sponsoring veterinarian shall notify the board in writing.

[Statutory Authority: RCW 18.92.030 and 18.92.145. 02-11-022, § 246-937-070, filed 5/7/02, effective 6/7/02. Statutory Authority: Chapter 18.92 RCW. 95-04-083, § 246-937-070, filed 1/31/95, effective 3/3/95.]

WAC 246-937-080 HIV/AIDS prevention and information education requirements. Applicants must complete four clock hours of AIDS education as required in chapter 246-12 WAC, Part 8. Alternatives to formal coursework may be in the form of video tapes, professional journal articles, periodicals, or audio tapes, that contain current or updated information.

[Statutory Authority: RCW 43.70.280. 98-05-060, § 246-937-080, filed 2/13/98, effective 3/16/98. Statutory Authority: Chapter 18.92 RCW. 95-04-083, § 246-937-080, filed 1/31/95, effective 3/3/95.]

WAC 246-937-090 Grounds for denial, suspension, or revocation of registration. The board may suspend, revoke or deny the issuance or renewal of registration of any veterinary medication clerk and file its decision in the secretary's office if the veterinary medication clerk:

(1) Has employed fraud or misrepresentation in applying for or obtaining the registration;

(2) Has within ten years prior to the date of application been found guilty by any court of competent jurisdiction of violation of laws relating to the practice of veterinary medicine, surgery and dentistry, including, but not limited to:

(a) State or federal laws relating to the regulation of drugs;

(b) Chronic inebriety;

(c) Cruelty to animals;

(3) Has violated or attempted to violate any provision of chapter 18.92 RCW or any rule or regulation adopted pursuant to that chapter;

(4) Has assisted, abetted or conspired with another person to violate chapter 18.92 RCW, or any rule or regulation adopted pursuant to that chapter;

(5) Has performed any animal health care service not authorized by WAC 246-937-030.

[Statutory Authority: RCW 18.92.030 and 18.92.145. 02-11-022, § 246-937-090, filed 5/7/02, effective 6/7/02. Statutory Authority: Chapter 18.92 RCW. 95-04-083, § 246-937-090, filed 1/31/95, effective 3/3/95.]

WAC 246-937-110 Exemption. All employees, including but not limited to, animal health technicians, employed by research facilities or other testing or educational businesses or institutions, shall be exempt from the provisions of this chapter provided, that said employees are under the direct supervision of licensed veterinarians and further, that animals being treated, tested or utilized are not client-owned animals.

[Statutory Authority: Chapter 18.92 RCW. 95-04-083, § 246-937-110, filed 1/31/95, effective 3/3/95.]

WAC 246-937-990 Veterinary medication clerk fees and renewal cycle. (1) Registrations must be renewed every year on the practitioner's birthday as provided in chapter 246-12 WAC, Part 2.

(2) The following nonrefundable fees will be charged:

Title of Fee	Fee
Initial registration	$30.00
Renewal	30.00
Late renewal penalty	30.00
Expired registration reissuance	30.00
Duplicate registration	15.00

[Statutory Authority: RCW 43.70.250, 2001 2nd sp.s. c 7 and RCW 18.92.125. 01-23-101, § 246-937-990, filed 11/21/01, effective 1/21/02. Statutory Authority: RCW 43.70.280. 98-05-060, § 246-937-990, filed 2/13/98, effective 3/16/98. Statutory Authority: Chapter 34.05 RCW. 94-19-098, § 246-937-990, filed 9/21/94, effective 10/22/94.]

Chapter 246-939 WAC
SURGICAL TECHNOLOGIST PROGRAM

WAC

WAC 246-939-005 What is the purpose of these rules? These rules:

(1) Implement the law passed by the legislature to register surgical technologists and place them under chapter 18.130 RCW, the Uniform Disciplinary Act.

(2) Inform the public of who must register under this law.

(3) Inform applicants and registrants of the type of actions that can lead to discipline against their credential.

(4) Inform applicants of their recourse in the event their application is denied.

[Statutory Authority: Chapter 18.215 RCW and RCW 18.130.050 and 18.215.040. 01-14-044, § 246-939-005, filed 6/29/01, effective 7/30/01.]

WAC 246-939-010 Who can delegate to a surgical technologist? Health care practitioners who may delegate as referenced in RCW 18.215.010 and include:

(1) Physicians licensed under chapter 18.71 RCW.

(2) Registered nurses and advanced registered nurse practitioners licensed under chapter 18.79 RCW.

(3) Osteopathic physicians licensed under chapter 18.57 RCW.

(4) Osteopathic physician assistants licensed under chapter 18.57A RCW.

(5) Podiatric physicians licensed under chapter 18.22 RCW.

(6) Dentists licensed under chapter 18.32 RCW.

(7) Physician's assistants and physician's assistant surgical assistants licensed under chapter 18.71A RCW.

(8) Naturopathic physicians as licensed under chapter 18.36A RCW.

[Statutory Authority: Chapter 18.215 RCW and RCW 18.130.050. 00-23-119, § 246-939-010, filed 11/22/00, effective 12/23/00.]

WAC 246-939-020 How do I register as a surgical technologist? (1) How do I obtain a registration application?

(a) Applicant may obtain an application by contacting the department. Applicants must return the completed application to be registered.

(b) Completed original applications shall be sent to the department of health.

(c) All applicants shall refer to chapter 246-12 WAC, Parts 1, 2, 10, and 11.

(2) Is there a requirement for education?

(a) Applicants must complete seven clock hours of AIDS education as required by RCW 70.24.270 and chapter 246-12 WAC, Part 8.

(b) Registration does not require additional education.

[Statutory Authority: Chapter 18.215 RCW and RCW 18.130.050 and 18.215.040. 01-14-044, § 246-939-020, filed 6/29/01, effective 7/30/01.]

WAC 246-939-030 Who needs to be registered as a surgical technologist? (1) Anyone representing themselves as a surgical technologist by title or by description as a person who performs tasks in the surgical setting under the delegation of authority of a licensed health care practitioner.

(2) For the purposes of this chapter "surgical setting" means any place surgery takes place where the patient is placed in a sterile field.

(3) Surgical technologists perform tasks that typically consist of, but are not limited to, the following tasks in a surgical setting:

(a) Prepare basic sterile packs and trays.

(b) Assist with the physical preparation of the operating room, creating the sterile field, and maintaining sterile technique during operative procedure.

(c) Identify and select appropriate packs, trays and accessory/specialty equipment for each surgery.

(d) Prepare supplies and instruments for sterile field.

(e) Assists with the count of instruments, sponges, needles and other surgical items. Surgical technologists are not accountable for the final count of surgical instrumentation.

(f) Pass correct instruments, supplies and sutures as needed by the surgeon.

(g) Sponge or suction the operative site, retract tissue for exposure at the operative site and assist with irrigation under immediate supervision of the licensed health care practitioner.

(h) Cut sutures placed by the authorized health care practitioner.

(i) Prepare specimens for submission for pathological analysis.

(j) Fire automatic staple gun as directed by the licensed health care practitioner for skin stapling. Deep tissue stapling is not allowed.

(k) Move drugs to the sterile field.

(4) Registered nurses, practical nurses and other credentialed providers acting within their scope do not need to register.

[Statutory Authority: Chapter 18.215 RCW and RCW 18.130.050. 00-23-119, § 246-939-030, filed 11/22/00, effective 12/23/00.]

WAC 246-939-040 How do I renew my surgical technologist registration if it has expired? (1) If the credential has expired for three years or less, the practitioner must meet the requirements of chapter 246-12 WAC, Part 2.

(2) If the credential has expired for more than three years, the practitioner must reapply for registration under the requirements of this chapter and the requirements of chapter 246-12 WAC, Part 2.

[Statutory Authority: Chapter 18.215 RCW and RCW 18.130.050 and 18.215.040. 01-14-044, § 246-939-040, filed 6/29/01, effective 7/30/01.]

WAC 246-939-050 Are there tasks a surgical technologist is not allowed to do? Tasks that shall not be performed by a surgical technologist include:

(1) Activities that constitute the practice of medicine under the Medical Practice Act in RCW 18.71.011 including: Prescribing or administering; penetrating or severing tissue, including, but not limited to, suturing and cutting/incisions, regardless of instrumentality.

(2) Dispensing medications, as defined in RCW 18.64.011 and 69.41.010.

[Statutory Authority: Chapter 18.215 RCW and RCW 18.130.050. 00-23-119, § 246-939-050, filed 11/22/00, effective 12/23/00.]

WAC 246-939-990 Surgical technologists—Fees and renewal cycle. (1) Registration must be renewed every year on registrant's birthday as provided in chapter 246-12 WAC, Part 2.

(2) The following nonrefundable fees will be charged for registration:

Title of Fee	Fee
Application for registration	$50.00
Renewal of registration	125.00
Registration late fee	62.50
Duplicate registration	10.00
Expired registration reissuance	62.50
Registration issuance	25.00

[Statutory Authority: Chapter 18.215 RCW. 99-24-097, § 246-939-990, filed 11/30/99, effective 12/31/99.]

Chapter 246-976 WAC
EMERGENCY MEDICAL SERVICES AND TRAUMA CARE SYSTEMS

WAC

TRAUMA TEAM ACTIVATION, QUALITY ASSESSMENT, EDUCATIONAL REQUIREMENTS, AND TRANSFER GUIDELINES

SYSTEM ADMINISTRATION

DISPOSITION OF SECTIONS FORMERLY CODIFIED IN THIS CHAPTER

246-976-020 First responder training—Course contents, registration, instructor qualifications. [Statutory Authority: RCW 43.70.040 and chapters 18.71, 18.73 and 70.168 RCW. 93-01-148 (Order 323), § 246-976-020, filed 12/23/92, effective 1/23/93.] Repealed by 00-08-102, filed 4/5/00, effective 5/6/00. Statutory Authority: Chapters 18.71, 18.73, and 70.168 RCW.

246-976-025 First responder—Continuing medical education. [Statutory Authority: RCW 43.70.040, chapters 18.71, 18.73 and 70.168 RCW. 93-01-148 (Order 323), § 246-976-025, filed 12/23/92, effective 1/23/93.] Repealed by 00-08-102, filed 4/5/00, effective 5/6/00. Statutory Authority: Chapters 18.71, 18.73, and 70.168 RCW.

246-976-030 Emergency medical technician training—Course content, registration, and instructor qualifications. [Statutory Authority: RCW 43.70.040 and chapters 18.71, 18.73 and 70.168 RCW. 93-01-148 (Order 323), § 246-976-030, filed 12/23/92, effective 1/23/93.] Repealed by 00-08-102, filed 4/5/00, effective 5/6/00. Statutory Authority: Chapters 18.71, 18.73, and 70.168 RCW.

246-976-035 Emergency medical technician—Continuing medical education. [Statutory Authority: RCW 43.70.040 and chapters 18.71, 18.73 and 70.168 RCW. 93-01-148 (Order 323), § 246-976-035, filed 12/23/92, effective 1/23/93.] Repealed by 00-08-102, filed 4/5/00, effective 5/6/00. Statutory Authority: Chapters 18.71, 18.73, and 70.168 RCW.

246-976-040 Specialized training. [Statutory Authority: RCW 43.70.040 and chapters 18.71, 18.73 and 70.168 RCW. 93-01-148 (Order 323), § 246-976-040, filed 12/23/92, effective 1/23/93.] Repealed by 00-08-102, filed 4/5/00, effective 5/6/00. Statutory Authority: Chapters 18.71, 18.73, and 70.168 RCW.

246-976-045 Levels of intermediate life support personnel and advanced life support paramedics. [Statutory Authority: Chapter 18.71 RCW. 96-03-052, § 246-976-045, filed 1/12/96, effective 2/12/96.] Repealed by 00-08-102, filed 4/5/00, effective 5/6/00. Statutory Authority: Chapters 18.71, 18.73, and 70.168 RCW.

246-976-050 Intravenous therapy technician training—Course content, registration, instructor qualifications. [Statutory Authority: RCW 43.70.040 and chapters 18.71, 18.73 and 70.168 RCW. 93-01-148 (Order 323), § 246-976-050, filed 12/23/92, effective 1/23/93.] Repealed by 00-08-102, filed 4/5/00, effective 5/6/00. Statutory Authority: Chapters 18.71, 18.73, and 70.168 RCW.

246-976-055 Intravenous therapy technicians—Continuing medical education. [Statutory Authority: RCW 43.70.040 and chapters 18.71, 18.73 and 70.168 RCW. 93-01-148 (Order 323), § 246-976-055, filed 12/23/92, effective 1/23/93.] Repealed by 00-08-102, filed 4/5/00, effective 5/6/00. Statutory Authority: Chapters 18.71, 18.73, and 70.168 RCW.

246-976-060 Airway technician training—Course content, registration, instructor qualifications. [Statutory Authority: RCW 43.70.040 and chapters 18.71, 18.73 and 70.168 RCW. 93-01-148 (Order 323), § 246-976-060, filed 12/23/92, effective 1/23/93.] Repealed by 00-08-102, filed 4/5/00, effective 5/6/00. Statutory Authority: Chapters 18.71, 18.73, and 70.168 RCW.

323), § 246-976-350, filed 12/23/92, effective 1/23/93.] Repealed by 00-08-102, filed 4/5/00, effective 5/6/00. Statutory Authority: Chapters 18.71, 18.73, and 70.168 RCW.

246-976-370 Ambulance and aid services—Prehospital trauma triage procedures. [Statutory Authority: RCW 43.70.040 and chapters 18.71, 18.73 and 70.168 RCW. 93-01-148 (Order 323), § 246-976-370, filed 12/23/92, effective 1/23/93.] Repealed by 00-08-102, filed 4/5/00, effective 5/6/00. Statutory Authority: Chapters 18.71, 18.73, and 70.168 RCW.

246-976-440 Trauma registry—Reports. [Statutory Authority: RCW 43.70.040 and chapters 18.71, 18.73 and 70.168 RCW. 93-01-148 (Order 323), § 246-976-440, filed 12/23/92, effective 1/23/93.] Repealed by 00-08-102, filed 4/5/00, effective 5/6/00. Statutory Authority: Chapters 18.71, 18.73, and 70.168 RCW.

246-976-450 Access and release of trauma registry information. [Statutory Authority: RCW 43.70.040 and chapters 18.71, 18.73 and 70.168 RCW. 93-01-148 (Order 323), § 246-976-450, filed 12/23/92, effective 1/23/93.] Repealed by 00-08-102, filed 4/5/00, effective 5/6/00. Statutory Authority: Chapters 18.71, 18.73, and 70.168 RCW.

246-976-470 Trauma care facilities—Designation process. [Statutory Authority: Chapter 70.168 RCW. 93-20-063, § 246-976-470, filed 10/1/93, effective 11/1/93. Statutory Authority: RCW 43.70.040 and chapters 18.71, 18.73 and 70.168 RCW. 93-01-148 (Order 323), § 246-976-470, filed 12/23/92, effective 1/23/93.] Repealed by 98-04-038, filed 1/29/98, effective 3/1/98. Statutory Authority: Chapter 70.168 RCW.

246-976-475 On-site review for designation. [Statutory Authority: RCW 43.70.040 and chapters 18.71, 18.73 and 70.168 RCW. 93-01-148 (Order 323), § 246-976-475, filed 12/23/92, effective 1/23/93.] Repealed by 98-04-038, filed 1/29/98, effective 3/1/98. Statutory Authority: Chapter 70.168 RCW.

246-976-480 Denial, revocation, or suspension of designation. [Statutory Authority: RCW 43.70.040 and chapters 18.71, 18.73 and 70.168 RCW. 93-01-148 (Order 323), § 246-976-480, filed 12/23/92, effective 1/23/93.] Repealed by 98-04-038, filed 1/29/98, effective 3/1/98. Statutory Authority: Chapter 70.168 RCW.

246-976-880 Trauma quality assurance programs for designated trauma care hospitals. [Statutory Authority: RCW 43.70.040 and chapters 18.71, 18.73 and 70.168 RCW. 93-01-148 (Order 323), § 246-976-880, filed 12/23/92, effective 1/23/93.] Repealed by 98-04-038, filed 1/29/98, effective 3/1/98. Statutory Authority: Chapter 70.168 RCW.

WAC 246-976-001 Purpose. The purpose of these rules is to implement RCW 18.71.200 through 18.71.215, and chapters 18.73 and 70.168 RCW; and those sections of chapter 70.24 RCW relating to EMS/TC personnel and services.

(1) This chapter establishes criteria for:

(a) Training and certification of basic, intermediate and advanced life support technicians;

(b) Licensure and inspection of ambulance and aid services;

(c) Verification of prehospital trauma services;

(d) Development and operation of a statewide trauma registry;

(e) The designation process and operating requirements for designated trauma care services;

(f) A statewide emergency medical communication system;

(g) Administration of the statewide EMS/TC system.

(3) This chapter does not contain detailed procedures to implement the state EMS/TC system. Request procedures, guidelines, or any publications referred to in this chapter from the Office of Emergency Medical and Trauma Prevention, Department of Health, Olympia, WA 98504-7853 or on the internet at www.doh.wa.gov.

[Statutory Authority: Chapters 18.71, 18.73, and 70.168 RCW. 00-08-102, § 246-976-001, filed 4/5/00, effective 5/6/00. Statutory Authority: RCW 43.70.040 and chapters 18.71, 18.73 and 70.168 RCW. 93-01-148 (Order 323), § 246-976-001, filed 12/23/92, effective 1/23/93.]

WAC 246-976-010 Definitions. Definitions in RCW 18.71.200, 18.71.205, 18.73.030, and 70.168.015 apply to this chapter. In addition, unless the context plainly requires a different meaning, the following words and phrases used in this chapter mean:

"ACLS" means advanced cardiac life support, a course developed by the American Heart Association.

"Activation of the trauma system" means mobilizing resources to care for a trauma patient in accordance with regional patient care procedures. When the prehospital provider identifies a major trauma patient, using approved prehospital trauma triage procedures, he or she notifies both dispatch and medical control from the field.

"Adolescence" means the period of physical and psychological development from the onset of puberty to maturity, approximately twelve to eighteen years of age.

"Advanced first aid," for the purposes of RCW 18.73.-120, 18.73.150, and 18.73.170, means a course of at least twenty-four hours of instruction, which includes at least:

- CPR;
- Airway management;
- Trauma/wound care;
- Immobilization.

"Agency response time" means the interval from agency notification to arrival on the scene. It is the combination of activation and enroute times defined under system response times in this section.

"Aid service" means an agency licensed by the department to operate one or more aid vehicles, consistent with regional and state plans.

"Airway technician" means a person who:

- Has been trained in an approved program to perform endotracheal airway management and other authorized aids to ventilation under written or oral authorization of an MPD or approved physician delegate; and
- Has been examined and certified as an airway technician by the department or by the University of Washington's school of medicine.

"ALS" means advanced life support.

"Ambulance service" means an agency licensed by the department to operate one or more ground or air ambulances. Ground ambulance service operation must be consistent with regional and state plans. Air ambulance service operation must be consistent with the state plan.

"Approved" means approved by the department of health.

"ATLS" means advanced trauma life support, a course developed by the American College of Surgeons.

"Attending surgeon" means a physician who is board-certified or board-qualified in general surgery, and who has surgical privileges delineated by the facility's medical staff. The attending surgeon is responsible for care of the trauma patient, participates in all major therapeutic decisions, and is present during operative procedures.

"Available" for designated trauma services described in WAC 246-976-485 through 246-976-890 means physically

present in the facility and able to deliver care to the patient within the time specified. If no time is specified, the equipment or personnel must be available as reasonable and appropriate for the needs of the patient.

"BLS" means basic life support.

"Basic life support" means emergency medical services requiring basic medical treatment skills as defined in chapter 18.73 RCW.

"Board certified" means that a physician has been certified by the appropriate specialty board recognized by the American Board of Medical Specialties. For the purposes of this chapter, references to "board certified" include physicians who are board-qualified.

"Board-qualified" means physicians who have graduated less than five years previously from a residency program accredited for the appropriate specialty by the accreditation council for graduate medical education.

"BP" means blood pressure.

"Certification" means the department recognizes that an individual has met predetermined qualifications, and authorizes the individual to perform certain procedures.

"CME" means continuing medical education.

"Consumer" means an individual who is not associated with the EMS/TC system, either for pay or as a volunteer, except for service on the steering committee, licensing and certification committee, or regional or local EMS/TC councils.

"Continuing medical education (CME)" means ongoing education after initial certification to maintain and enhance skill and knowledge.

"CPR" means cardiopulmonary resuscitation.

"Dispatch" means to identify and direct an emergency response unit to an incident location.

"E-code" means external cause code, an etiology included in the International Classification of Diseases (ICD).

"ED" means emergency department.

"Emergency medical services and trauma care (EMS/TC) system" means an organized approach to providing personnel, facilities, and equipment for effective and coordinated medical treatment of patients with a medical emergency or injury requiring immediate medical or surgical intervention to prevent death or disability. The emergency medical service and trauma care system includes prevention activities, prehospital care, hospital care, and rehabilitation.

"EMS" means emergency medical services.

"EMS/TC" means emergency medical services and trauma care.

"EMT" means emergency medical technician.

"General surgeon" means a licensed physician who has completed a residency program in surgery and who has surgical privileges delineated by the facility.

"ICD" means the international classification of diseases, a coding system developed by the World Health Organization.

"ILS" means intermediate life support.

"Injury prevention" means any combination of educational, legislative, enforcement, engineering and emergency response initiatives used to reduce the number and severity of injuries.

"Interfacility transport" means medical transport of a patient between recognized medical treatment facilities requested by a licensed health care provider.

"Intermediate life support (ILS) technician" means a person who:

- Has been trained in an approved program to perform specific phases of advanced cardiac and trauma life support as specified in this chapter, under written or oral direction of an MPD or approved physician delegate; and
- Has been examined and certified as an ILS technician by the department or by the University of Washington's school of medicine.

"Intravenous therapy technician" means a person who:

- Has been trained in an approved program to initiate IV access and administer intravenous solutions under written or oral authorization of an MPD or approved physician delegate; and
- Has been examined and certified as an intravenous therapy technician by the department or by the University of Washington's school of medicine.

"IV" means intravenous.

"Licensing and certification committee (L&C committee)" means the emergency medical services licensing and certification advisory committee created by RCW 18.73.040.

"Local council" means a local EMS/TC council authorized by RCW 70.168.120(1).

"Local medical community" means the organized local medical society existing in a county or counties; or in the absence of an organized medical society, majority physician consensus in the county or counties.

"Medical control" means MPD authority to direct the medical care provided by certified EMS personnel in the prehospital EMS system.

"Medical control agreement" means a written agreement between two or more MPDs, using similar protocols that are consistent with regional plans, to assure continuity of patient care between counties, and to facilitate assistance.

"MPD" means medical program director.

"Must" means shall.

"Ongoing training and evaluation" (OTEP) means a course of education authorized for first responders and EMTs in RCW 18.73.081 (3)(b).

"PALS" means pediatric advanced life support, a course developed by the American Heart Association.

"Paramedic" means a person who:

- Has been trained in an approved program to perform all phases of prehospital emergency medical care, including advanced life support, under written or oral authorization of an MPD or approved physician delegate; and
- Has been examined and certified as a paramedic by the department or by the University of Washington's school of medicine.

"Physician" means an individual licensed under the provisions of chapters 18.71 or 18.57 RCW.

"Practical examination" means a test conducted in an initial course, or a test or series of evaluations during a recertification period, to determine competence in each of the practical skills specified by the department.

"Prehospital agencies" means providers of prehospital care or interfacility ambulance transport.

"Prehospital index" means a scoring system used to activate a hospital trauma resuscitation team.

"Prehospital patient care protocols" means the written procedures adopted by the MPD under RCW 18.73.030(13) and 70.168.015(26) which direct the out-of-hospital emergency care of the emergency patient which includes the trauma care patient. These protocols are related only to delivery and documentation of direct patient treatment.

"Prehospital trauma care services" means agencies that are verified to provide prehospital trauma care.

"Prehospital trauma triage procedures" means the method used by prehospital providers to evaluate injured patients and determine whether to activate the trauma system from the field. It is described in WAC 246-976-930(2).

"Public education" means education of the population at large, targeted groups or individuals, in preventive measures and efforts to alter specific injury-related behaviors.

"Quality assurance (QA)" means an organized quality assessment and improvement program to audit and evaluate care provided in EMS/TC systems, with the goal of improving patient outcomes.

"Regional council" means the regional EMS/TC council established by RCW 70.168.100.

"Regional patient care procedures (RPCP)" means procedures adopted by a regional council under RCW 18.73.-030(14) and 70.168.015(23), and approved by the department. Regional patient care procedures do not relate to direct patient care.

"Regional plan" means the plan defined in WAC 246-976-960 (1)(b) that has been approved by the department.

"Registered nurse" means an individual licensed under the provisions of chapter 18.79 RCW.

"Response area" means a service coverage zone identified in an approved regional plan.

"Rural" means unincorporated or incorporated areas with total populations less than ten thousand people, or with a population density of less than one thousand people per square mile.

"Senior EMT instructor (SEI)" means an individual approved to be responsible for the quality of instruction and the conduct of basic life support training courses.

"Special competence" means that an individual has been deemed competent and committed to a medical specialty area with documented training, board certification and/or experience, which has been reviewed and accepted as evidence of a practitioner's expertise:

- For physicians, by the facility's medical staff;
- For registered nurses, by the facility's department of nursing;
- For physician assistants and advanced registered nurse practitioners, as defined in the facility's bylaws.

"Specialized training" means approved training of certified EMS personnel to use a skill, technique, or equipment that is not included in the standard course curriculum.

"State plan" means the emergency medical services and trauma care system plan described in RCW 70.168.015(7), adopted by the department under RCW 70.168.060(10).

"Steering committee" means the EMS/TC steering committee created by RCW 70.168.020.

"Suburban" means an incorporated or unincorporated area with a population of ten thousand to twenty-nine thousand nine hundred ninety nine or any area with a population density of one thousand to two thousand people per square mile.

"System response time" for trauma means the interval from discovery of an injury until the patient arrives at a designated trauma facility. It includes:

"Discovery time": The interval from injury to discovery of the injury;

"System access time": The interval from discovery to call received;

"911 time": The interval from call received to dispatch notified, including the time it takes the call answerer to:

- Process the call, including citizen interview; and
- Give the information to the dispatcher;

"Dispatch time": The interval from call received by the dispatcher to agency notification;

- "Activation time": The interval from agency notification to start of response;
- "Enroute time": The interval from the end of activation time to the beginning of on-scene time;
- "Patient access time": The interval from the end of enroute time to the beginning of patient care;
- "On scene time": The interval from arrival at the scene to departure from the scene. This includes extrication, resuscitation, treatment, and loading;
- "Transport time": The interval from leaving the scene to arrival at a health care facility;

"Training agency" means an organization or individual that is approved to be responsible for specified aspects of training of EMS personnel.

"Training physician" means a physician delegated by the MPD and approved by the department to be responsible for specified aspects of training of EMS personnel.

"Trauma rehabilitation coordinator" means a person designated to facilitate early rehabilitation interventions and the trauma patient's access to a designated rehabilitation center.

"Urban" means:

- An incorporated area over thirty thousand; or
- An incorporated or unincorporated area of at least ten thousand people and a population density over two thousand people per square mile.

"Wilderness" means any rural area not readily accessible by public or private maintained road.

[Statutory Authority: Chapters 18.71, 18.73, and 70.168 RCW. 00-08-102, § 246-976-010, filed 4/5/00, effective 5/6/00. Statutory Authority: Chapter 18.71 RCW. 96-03-052, § 246-976-010, filed 1/12/96, effective 2/12/96. TRAINING

WAC 246-976-021 Training course requirements. (1) **Department responsibilities:** The department will publish procedures for agencies to conduct EMS training courses, including:

(a) The registration process;

(b) Requirements, functions, and responsibilities of course instructional and administrative personnel;

(c) Necessary information and administrative forms to conduct the course;

(2) **Training agency responsibilities:**

(a) **General.** Agencies providing initial training of certified EMS personnel at all levels (except advanced first aid) must:

(i) Have MPD approval for the course content;

(ii) Have MPD approval for all instructional personnel, who must be experienced and qualified in the area of training;

(iii) Have local EMS/TC council recommendation for each course;

(iv) Have written approval from the department to conduct each course;

(v) Approve or deny applicants for training consistent with the prerequisites for applicants in WAC 246-976-041 and 246-976-141.

(b) **Basic life support** (first responder, EMT). Agencies providing initial training of basic life support personnel must identify a senior EMS instructor to be responsible for the quality of instruction and the conduct of the course.

(c) **Intermediate life support** (IV, airway and ILS technicians). Agencies providing initial training of intermediate life support personnel must:

(i) Have a written agreement with the clinical facility, if it is separate from the academic facility;

(ii) Ensure that clinical facilities provide departments or sections, personnel, and policies, including:

(A) Written program approval from the administrator and chief of staff;

(B) A written agreement to participate in continuing education;

(C) Supervised clinical experience for students during the clinical portion of the program;

(D) An orientation program.

(d) **Paramedics.** Agencies training paramedics must be accredited by a national accrediting organization approved by the department.

(3) **Course curriculum.** The department recognizes the following National Standard EMS training courses published by the United States Department of Transportation as amended by the department:

(a) First responder: The first responder training course published 1996, amended by the department March 1998;

(b) EMT: The emergency medical technician — Basic training course published 1994, amended by the department February 1999;

(c) IV technician: Those parts of the emergency medical technician — Intermediate course published 1999 which relate to intravenous therapy lessons 1-1, 1-2, 1-3, 2-1, 2-2, 2-3, 2-6, 2-7, 3-2, 3-3, 4-1, and 4-2; amended by the department February 1999;

(d) Airway technician: Those parts of the emergency medical technician — Intermediate course published 1999 which relate to airway management lessons 1-1, 1-2, 1-3, 2-1, 2-2, 2-3, 2-5, 3-2, 3-3, 4-1, and 4-2; amended by the department February 1999;

(e) ILS technician: Those parts of the emergency medical technician — Intermediate course published 1999 which relate to IV therapy and intraosseous infusion, the use of multi-lumen airway adjuncts, and the following medications:

(i) Epinephrine for anaphylaxis administered by a commercially preloaded measured-dose device;

(ii) Albuterol administered by inhalation;

(iii) Dextrose 50% and 25%;

(iv) Nitroglycerine, sublingual and/or spray;

(v) Naloxone;

(vi) Aspirin PO (oral), for suspected myocardial infarction lessons 1-1, 1-2, 1-3, 2-1, 2-2, 2-3, 2-4, 2-6, 2-7, 3-1, 3-2, 3-3, 4-1, and 4-2; amended by the department February 1999;

(f) Paramedic: The emergency medical technician — Paramedic training course published 1999, as amended by the department January 2000.

(4) Initial training for first responders and EMTs must also include approved infectious disease training that meets the requirements of chapter 70.24 RCW.

(5) Specialized training. The department, in conjunction with the advice and assistance of the L&C committee, may approve specialized training for certified EMS personnel to use skills, techniques, or equipment that is not included in standard course curricula. Agencies providing specialized training must have MPD and department approval of:

(a) Course curriculum;

(b) Lesson plans;

(c) Course instructional personnel, who must be experienced and qualified in the area of training;

(d) Student selection criteria;

(e) Criteria for satisfactory completion of the course, including student evaluations and/or examinations;

(f) Prehospital patient care protocols that address the specialized skills.

(6) Local government agencies: The department recognizes county agencies established by ordinance and approved by the MPD to coordinate EMS training. These agencies must comply with the requirements of this section.

[Statutory Authority: Chapters 18.71, 18.73, and 70.168 RCW. 00-08-102, § 246-976-021, filed 4/5/00, effective 5/6/00.]

WAC 246-976-031 Senior EMS instructor (SEI). (1) **Responsibilities.** The SEI is responsible for the overall instructional quality of initial first responder or EMT-basic courses, under the general supervision of the medical program director (MPD). The SEI must conduct courses following department-approved curricula identified in WAC 246-976-021. The SEI candidate shall document the completion of requirements for initial and renewal recognition on forms provided by the department.

(2) **Initial recognition.** The department will publish *Initial Recognition Application Procedures for Senior EMS Instructors* (IRAP), which include the *Initial Senior EMS Instructor Application and Agreement,* instructor objectives, instructions and forms necessary for initial recognition.

(a) **Prerequisites.** Candidates for initial recognition must document proof of the following:

(i) Current Washington state certification as an EMT or higher EMS certification;

(ii) At least three years prehospital EMS experience as an EMT or higher EMS certification level, with at least one recertification;

(iii) Successful completion of an approved ongoing training and evaluation program (OTEP)/basic life support (BLS) evaluator workshop;

(iv) Current recognition as a CPR instructor for health care providers by the American Heart Association, the American Red Cross, the National Safety Council, or other nationally recognized organization with substantially equivalent standards approved by the department;

(v) Successful completion of an instructor training course by the U.S. Department of Transportation, National Highway Traffic Safety Administration, or an instructor training course from an accredited institution of higher education;

(vi) Successful completion of an examination developed and administered by the department on current EMS training and certification statutes, Washington Administrative Code (WAC) and the Uniform Disciplinary Act (UDA).

(b) **Submission of prerequisites.** Candidates must submit proof of successful completion of the prerequisites to the department.

(i) Candidates meeting the prerequisites will be issued the IRAP by the department.

(ii) The department will provide instruction to each candidate prior to beginning the initial recognition process.

(c) **Candidate objectives.** Candidates who have been issued the IRAP and received instructions on the recognition process must successfully complete the IRAP, under the supervision of a currently recognized, EMT-basic course lead SEI:

As part of an initial EMT-basic course, the candidate must demonstrate to the course lead SEI, the knowledge and skills necessary to complete the following instructor objectives;

(i) Accurately complete the course application process and meet application timelines;

(ii) Notify EMT-basic course students of course entry prerequisites;

(iii) Assure students selected for admittance to the course meet DOH training and certification prerequisites and notify training agency selection board of discrepancies;

(iv) Maintain course records adequately;

(v) Track student attendance, scores, quizzes, and performance, and counsel/remediate students as necessary;

(vi) Assist in the coordination and instruction of one entire EMT-basic course under the supervision of the course lead SEI; utilizing the EMT-basic training course curriculum identified in WAC 246-976-021, and be evaluated on the instruction of each of the following lessons:

(A) Lesson 1-2—Well Being of the EMT-Basic, including Infectious Disease Prevention for EMS Providers, Revised 10/1997 (available from the department of health, office of emergency medical and trauma prevention);

(B) Lesson 2-1—Airway;

(C) Lesson 3-2—Initial Assessment;

(D) Lesson 3-3—Focused History and Physical Exam: Trauma;

(E) Lesson 3-4—Focused History and Physical Exam: Medical;

(F) Lesson 3-5—Detailed Physical Exam;

(G) Lesson 3-6—Ongoing Assessment;

(H) Lesson 3-9—Practical Lab: Patient Assessment;

(I) Lesson 4-1—General Pharmacology;

(J) Lesson 4-2—Respiratory Emergencies;

(K) Lesson 4-3—Cardiovascular Emergencies;

(L) Lesson 4-9—Obstetrics/Gynecology;

(M) Lesson 5-4—Injuries to the Head and Spine, Chest and Abdomen;

(N) Lesson 5-5—Practical Lab: Trauma;

(O) Lesson 6-1—Infants and Children;

(P) Lesson 7-2—Gaining Access (including patient removal, treatment and transport).

(vii) Coordinate and conduct an EMT-basic final end of course comprehensive practical skills evaluation.

(d) **Candidate evaluation.** Performance evaluations will be conducted by an SEI for each instructor objective performed by the candidate on documents identified in the IRAP. These documents consist of:

(i) An evaluation form, to evaluate lesson instruction objectives performed by the candidate;

(ii) A quality improvement record, to document improvement necessary to successfully complete an instructor objective performed by the candidate;

(iii) An objective completion record, to document successful completion of each instructor objective performed by the candidate.

(e) **Application and approval.**

(i) Candidates must submit the completed IRAP, including the application/agreement and all documents completed during the initial recognition process, to the county MPD to obtain a recommendation of approval to the department.

(ii) Upon recommendation of approval by the county MPD, the SEI candidate will submit the following documents to the department:

(A) Current proof of completion of prerequisites listed in subsection (2)(a)(i), (iv) and (vi) of this section;

(B) The original initial SEI application/agreement, signed by the candidate and the MPD; and

(C) The original completed IRAP document and all forms used for evaluation, quality improvement purposes, and verification of successful completion as identified in the IRAP.

(3) **Renewal of recognition.** The department will publish *Renewal Application Procedures for Senior EMS Instructors* (RAP), which include the *Senior EMS Instructor Renewal Application and Agreement*, instructor objectives, instructions and forms necessary for renewal.

(a) The RAP will be provided by the department to individuals upon recognition as a SEI, to be completed during the recognition period.

(b) **Candidate objectives.** Candidates who have been issued the RAP must successfully complete the RAP during each approval period, which includes the following instructor objectives:

(i) Coordinate and perform as the lead SEI for one initial first responder or EMT-basic course including the supervision of all practical skills evaluations;

(ii) Receive performance evaluations from a currently recognized SEI, on two candidate instructed first responder or EMT-basic course lessons;

(iii) Perform two performance evaluations on the instruction of first responder or EMT-basic course lessons for SEI initial or renewal recognition candidates; and

(iv) Attend one DOH approved SEI workshop.

(c) **Candidate evaluation.** Evaluations of the performance of instructor objectives will be conducted by an SEI and completed on documents identified in the RAP. These documents consist of:

(i) An evaluation form, to evaluate lesson instruction objectives performed by the candidate.

(ii) A quality improvement record, to document improvement necessary to successfully complete an instructor objective performed by the candidate.

(iii) An objective completion record, to document successful completion of each instructor objective performed by the candidate.

(d) **Prerequisites.** Candidates for renewal of recognition must document proof of the following:

(i) Current or previous recognition as a Washington state SEI;

(ii) Current Washington state certification as an EMT or higher EMS certification;

(iii) Current recognition as a CPR instructor for health care providers by the American Heart Association, the American Red Cross, the National Safety Council, or other nationally recognized organization with substantially equivalent standards.

(iv) Successful completion of an examination developed and administered by the department on current EMS training and certification statutes, WAC and the UDA.

(e) **Application and approval.**

(i) Candidates must submit the completed RAP, including the application/agreement and all documents completed during the renewal of recognition process, to the county MPD to obtain a recommendation of approval to the department.

(ii) Upon recommendation of approval by the county MPD, the renewal candidate must submit the following documents to the department:

(A) Current proof of successful completion of the prerequisites listed in subsection (3)(d)(ii), (iii), and (iv) of this section;

(B) The original SEI renewal application/agreement that has been signed by the candidate and the MPD; and

(C) The original completed RAP document and all forms used for evaluation, quality improvement purposes and verification of successful completion as identified in the RAP.

(4) **Length of recognition.** Recognition as a SEI is for three years.

(5) **Denial, suspension, modification or revocation of SEI recognition.**

(a) The department may deny, suspend, modify or revoke an SEI's recognition when it finds:

(i) Violations of chapter 18.130 RCW, the Uniform Disciplinary Act;

(ii) A failure to:

(A) Maintain EMS certification;

(B) Update the following personal information with DOH as changes occur:

(I) Name;

(II) Address;

(III) Home and work phone numbers;

(C) Maintain knowledge of current EMS training and certification statutes, WAC and the UDA;

(D) Comply with requirements in WAC 246-976-031(1);

(E) Participate in the instructor candidate evaluation process in an objective and professional manner without cost to the individual being reviewed or evaluated;

(F) Adequately complete all forms and adequately maintain records in accordance with this chapter;

(G) Demonstrate all skills and procedures based on current standards;

(H) Follow the requirements of the Americans with Disabilities Act;

(I) Maintain security on all department examination materials.

(b) The candidate or SEI may request a hearing to contest department decisions in regard to denial, suspension, modification or revocation of SEI recognition in accordance with the Administrative Procedure Act (APA) (chapter 34.05 RCW) and associated administrative codes.

[Statutory Authority: RCW 18.73.081 and 70.168.120. 02-14-053, § 246-976-031, filed 6/27/02, effective 7/28/02. Statutory Authority: Chapters 18.71, 18.73, and 70.168 RCW. 00-08-102, § 246-976-031, filed 4/5/00, effective 5/6/00.]

WAC 246-976-041 To apply for training. (1) You must be at least eighteen years old at the beginning of the course.

(2) For training at the intermediate (IV, airway and ILS technicians) and advanced life support (paramedic) levels, you must have completed at least one year as a certified EMT or above.

[Statutory Authority: Chapters 18.71, 18.73, and 70.168 RCW. 00-08-102, § 246-976-041, filed 4/5/00, effective 5/6/00.]

CERTIFICATION

WAC 246-976-141 To apply for certification. (1) Department responsibilities. The department will publish procedures for initial certification which include:

(a) Examinations. An applicant may have up to three attempts within six months after course completion to successfully complete the examinations;

(b) The process for administration of examinations; and

(c) Administrative requirements and the necessary forms.

(2) Applicant responsibilities. To apply for initial certification, submit to the department:

(a) An application for certification on forms provided by the department;

(b) Proof of identity: An official photo identification (which may be state, federal or military identification, drivers' license, or passport);

(c) Proof of age;

(d) Proof of completion of an approved course or courses for the level of certification sought;

(e) Proof of completion of approved infectious disease training to meet the requirements of chapter 70.24 RCW;

(f) Proof of successful completion of an approved examination within eighteen months prior to application;

(g) Proof of active membership, paid or volunteer, in one of the following EMS/TC organizations:

(i) Licensed provider of aid or ambulance services;

(ii) Law enforcement agency; or

(iii) Other affiliated EMS/TC service;

(h) The MPD's recommendation for certification;

(i) For EMTs, proof of high school graduation, GED, or equivalent;

(j) Other information required by this chapter.

(3) Certification is effective on the date the department issues the certificate, and will be valid for three years except as extended by the department for the efficient processing of license renewals. The expiration date will be indicated on the certification card.

(4) Certification of intermediate level technicians and paramedics is valid only:

(a) In the county or counties where recommended by the MPD and approved by the department;

(b) In other counties where formal EMS/TC medical control agreements are in place; or

(c) In other counties when accompanying a patient in transit from a county meeting the criteria in (a) or (b) of this subsection.

With approval of the MPD, a certified intermediate level technician or paramedic may function as an EMT in counties other than those described in (a) through (c) of this subsection.

[Statutory Authority: Chapters 18.71, 18.73, and 70.168 RCW. 00-08-102, § 246-976-141, filed 4/5/00, effective 5/6/00.]

WAC 246-976-151 Reciprocity, challenges, reinstatement and other actions. (1) The department will publish procedures for:

(a) Reciprocal certification of individuals with current EMS certification in another state, or who are currently recognized by a national accrediting agency approved by the department.

(i) All applicants must pass an approved examination;

(ii) Paramedics whose training started after June 30, 1996, must have successfully completed a course accredited by a national accrediting organization approved by the department, and be currently recognized by a national accrediting agency approved by the department;

(b) Reinstatement of individuals whose Washington state EMS/TC certification has lapsed, or been suspended or revoked;

(c) Challenge of prerequisites for certification examinations by individuals who have not completed the course work and practical training required by this chapter, but who document equivalent EMS training and/or experience;

(d) Voluntary reversion from a level of certification to a lower level of certification.

(2) Before granting reciprocity, reinstatement, or challenge, the department will verify that infectious disease training required for EMS/TC personnel by chapter 70.24 RCW has been accomplished.

[Statutory Authority: Chapters 18.71, 18.73, and 70.168 RCW. 00-08-102, § 246-976-151, filed 4/5/00, effective 5/6/00.]

WAC 246-976-161 Continuing medical education (CME), skills maintenance, and ongoing training and evaluation (OTEP). (1) General requirements. See Tables A and B. You must document your annual CME and skills maintenance requirements, as indicated in the tables. You must complete all CME and skills maintenance requirements for your current certification period to be eligible for recertification.

(2)(a) You must complete the number of MPD-approved CME hours appropriate to your level of certification, as indicated in Table A.

(b) If you are a first responder or EMT, you may choose to complete an approved OTEP program instead of completing the required number of CME hours and taking the recertification exams.

(3) You must demonstrate proficiency in certain critical skills, indicated in Table B, to the satisfaction of the MPD:

(4) IV starts.

(a) During your first year of certification as an IV technician, combined IV/airway technician, ILS technician, or paramedic, you must perform a minimum of thirty-six successful IV starts. EXCEPTION: If you have completed a certification period as an IV or ILS technician, you do not need to meet this requirement during your first year of certification as a paramedic.

(b) By the end of your initial certification period, you must perform a minimum of one hundred eight successful IV starts.

(5) Intubations.

(a) During your first year of certification as an airway technician, combined IV/airway technician, combined ILS/airway technician or paramedic, you must perform a minimum of twelve successful endotracheal intubations. EXCEPTION: If you have completed a certification period as an airway technician, you do not need to meet this requirement during your first year of certification as a paramedic.

(b) By the end of your initial certification period, you must perform a minimum of thirty-six successful endotracheal intubations.

(6) Description of selected terms used in the table:

TABLE A: CME REQUIREMENTS	Basic Life Support		Intermediate Life Support					Paramedic
	FR	EMT	IV	Air	IV/Air	ILS	ILS/Air	Paramedic
Annual								
CPR & Airway	X	X	X	X	X	X	X	
Spinal Immobilization	X	X	X	X	X	X	X	
Patient Assessment	X	X	X	X	X	X	X

IV Starts - demonstrate proficiency	X		X	X	X	X
Endotracheal intubations - average (see par 4)		4	4		4	4
Demonstrate intraosseous infusion proficiency	X		X	X	X	X
• During the Certification Period						
Demonstrate pediatric airway proficiency		X	X		X	X
Multi-Lumen Airway				per MPD	per MPD	
Defibrillation				per MPD	per MPD	

• Infectious disease: Infectious disease training must meet the requirements of chapter 70.24 RCW.

• CPR includes the use of airway adjuncts appropriate to the level of certification.

• Pharmacology: Pharmacology specific to the medications approved by your MPD (NOT REQUIRED FOR FIRST RESPONDERS).

• Pediatrics: This includes patient assessment, CPR and airway management, and spinal immobilization and packaging.

• "IV starts": Proficiency in intravenous catheterization performed on sick, injured, or preoperative adult and pediatric patients. With written authorization of the MPD, IV starts may be performed on artificial training aids.

• Endotracheal intubation: Proficiency in endotracheal intubations, at least half of which must be performed on human subjects. With written authorization of the MPD, up to half of the intubations may be performed on artificial training aids.

• Intraosseous infusion: Proficiency in intraosseous line placement in pediatric patients.

• Proficiency: Ability to perform a skill properly, demonstrated to the satisfaction of the MPD.

• Pediatric airway: Proficiency in pediatric airway management.

[Statutory Authority: Chapters 18.71, 18.73, and 70.168 RCW. 00-08-102, § 246-976-161, filed 4/5/00, effective 5/6/00.]

WAC 246-976-171 Recertification. (1) The department will publish procedures for renewal of certification, including:

(a) An ongoing training and evaluation program (OTEP) of skills as authorized in RCW 18.73.081 (3)(b) for first responders and EMTs; and

(b) Examinations for renewal of certification.

If you are a first responder or an EMT, you may choose to complete an approved OTEP program instead of completing the required number of CME hours and taking the recertification exam.

(2) To apply for renewal of certification, submit to the department on approved forms:

(a) All the information identified in WAC 246-976-141(2); EXCEPT current certification is considered proof of course completion, age, and initial infectious disease training;

(b) Proof of completion of CME and skills maintenance required for the level of certification sought, as defined in this chapter and identified on the table above. For first responders and EMTs, this includes proof of successful demonstration of skills, by:

(i) Successfully completing an approved OTEP; or

(ii) Passing an approved practical examination within the six months prior to application. An applicant changing from the ongoing training and evaluation program to the practical examination program must take the practical examination prior to the end of the certification period.

[Statutory Authority: Chapters 18.71, 18.73, and 70.168 RCW. 00-08-102, § 246-976-171, filed 4/5/00, effective 5/6/00.]

WAC 246-976-182 Authorized care. (1) Certified EMS/TC personnel are only authorized to provide patient care that is:

(a) Included in the approved curriculum for the individual's level of certification;

(b) Included in approved specialized training; and

(c) That is included in approved MPD protocols.

(2) When a patient is identified as needing care which is not authorized for the providers, the certified person in charge of that patient must consult with medical control as soon as possible, if protocols and regional patient care procedures do not provide adequate off-line direction for the situation.

(3) For trauma patients, all prehospital providers must follow the approved trauma triage procedures, regional patient care procedures and MPD patient care protocols.

[Statutory Authority: Chapters 18.71, 18.73, and 70.168 RCW. 00-08-102, § 246-976-182, filed 4/5/00, effective 5/6/00.]

WAC 246-976-191 Disciplinary actions. (1) The department will publish procedures for modification, suspension, revocation, or denial of certification. The procedures will be consistent with the requirements of the Administrative Procedure Act (chapter 34.05 RCW), the Uniform Disciplinary Act (chapter 18.130 RCW), and practice and procedure (chapter 246-10 WAC).

(2) The department will publish procedures:

(a) To investigate complaints and allegations against certified personnel;

(b) For MPDs to recommend corrective action regarding certified individuals.

(3) Before recommending revocation, suspension, modification, or denial of a certificate, the MPD must initiate corrective action with the certified individual, consistent with department procedures.

(4) The MPD may request the department to summarily suspend certification of an individual if the MPD believes that continued certification will be detrimental to patient care.

(5) In cases where the MPD recommends denial of recertification, the department will investigate the individual, and may revoke his or her certification.

(6) If an employing or sponsoring agency disciplines a certified individual for conduct or circumstances as described in RCW 18.130.070, the Uniform Disciplinary Act, the agency must report the cause and the action taken to the department.

[Statutory Authority: Chapters 18.71, 18.73, and 70.168 RCW. 00-08-102, § 246-976-191, filed 4/5/00, effective 5/6/00.]

LICENSURE AND VERIFICATION

WAC 246-976-260 Licenses required. (1) The department will publish procedures to license ambulance and aid services and vehicles, to provide service that is consistent with the state plan and approved regional plans.

(2) To become licensed as an ambulance or aid service, an applicant must submit application forms to the department, including:

(a) A declaration that the service is able to comply with standards, rules, and regulations of this chapter;

(b) A declaration that staffing will meet the personnel requirements of RCW 18.73.150 and 18.73.170;

(c) A declaration that operation will be consistent with the statewide and regional EMS/TC plans and approved patient care procedures;

(d) Evidence of liability insurance coverage;

(e) A description of the general area to be served and the number of vehicles to be used. The description includes:

(i) The services to be offered (e.g., emergency response and/or interfacility transports);

(ii) The dispatch process, including a backup plan if the primary unit is unavailable;

(iii) A plan for tiered response that is consistent with approved regional patient care procedures;

(iv) A plan for rendezvous with other services that is consistent with approved regional patient care procedures;

(v) A map of the proposed response area;

(vi) The level of service to be provided: BLS, ILS, or paramedic; and the scheduled hours of operation; and

(vii) For licensed ambulance services, a written plan to continue patient transport if a vehicle becomes disabled, consistent with regional patient care procedures.

(3) To renew a license, submit application forms to the department at least thirty days before the expiration of the current license.

(4) Licensed ambulance and aid services must comply with the approved prehospital trauma triage procedures defined in WAC 246-976-010.

[Statutory Authority: Chapters 18.71, 18.73, and 70.168 RCW. 00-08-102, § 246-976-260, filed 4/5/00, effective 5/6/00. Statutory Authority: RCW 43.70.040 and chapters 18.71, 18.73 and 70.168 RCW. 93-01-148 (Order 323), § 246-976-260, filed 12/23/92, effective 1/23/93.]

WAC 246-976-270 Denial, suspension, revocation of license. (1) The department may suspend, modify, or revoke any ambulance or aid service license issued under this chapter, or deny licensure to an applicant when it finds:

(a) Failure to comply with the requirements of chapters 18.71, 18.73, 18.130, or 70.168 RCW, or other applicable laws or rules, or with this chapter;

(b) Failure to comply or ensure compliance with prehospital patient care protocols or regional patient care procedures;

(c) Failure to cooperate with the department in inspections or investigations;

(d) Failure to supply data as required in chapter 70.168 RCW and this chapter.

(2) Under the provisions of the Administrative Procedure Act, chapter 34.05 RCW, and the Uniform Disciplinary Act, chapter 18.130 RCW, the department may impose sanctions against a licensed service as provided in chapter 18.130 RCW. The department will not take action against a licensed, nonverified service under this section for providing emergency trauma care consistent with regional patient care procedures when the wait for the arrival of a verified service would place the life of the patient in jeopardy or seriously compromise patient outcome.

[Statutory Authority: Chapters 18.71, 18.73, and 70.168 RCW. 00-08-102, § 246-976-270, filed 4/5/00, effective 5/6/00. Statutory Authority: RCW 43.70.040 and chapters 18.71, 18.73 and 70.168 RCW. 93-01-148 (Order 323), § 246-976-270, filed 12/23/92, effective 1/23/93.]

WAC 246-976-290 Ground ambulance vehicle standards. (1) Essential equipment for patient and provider safety and comfort must be in good working order.

(2) All ambulance vehicles must be clearly identified by appropriate emblems and markings on the front, side, and rear of the vehicle.

(3) Tires must be in good condition with not less than two-thirty-seconds inch useable tread, appropriately sized to support the weight of the vehicle when loaded.

(4) The electrical system must meet the following requirements:

(a) Interior lighting in the driver compartment must be designed and located so that no glare is reflected from surrounding areas to the driver's eyes or line of vision from the instrument panel, switch panel, or other areas which may require illumination while the vehicle is in motion;

(b) Interior lighting in the patient compartment must be adequate throughout the compartment, and provide an intensity of twenty foot-candles at the level of the patient;

(c) Exterior lights must comply with the appropriate sections of Federal Motor Vehicle Safety Standards, and include body-mounted flood lights over the rear door which provide adequate loading visibility;

(d) Emergency warning lights must be provided in accordance with RCW 46.37.380, as administered by the state commission on equipment.

(5) Windshield wipers and washers must be dual, electric, multispeed, and maintained in good condition.

(6) Battery and generator system:

(a) Battery with a minimum seventy ampere hour rating. It must be located in a ventilated area sealed off from the vehicle interior, and completely accessible for checking and removal;

(b) Generating system capable of supplying the maximum built-in DC electrical current requirements of the ambulance. Extra fuses must be provided.

(7) Seat belts that comply with Federal Motor Vehicle Safety Standards 207, 208, 209, and 210. Restraints must be provided in all seat positions in the vehicle, including the attendant station.

(8) Mirrors on the left side and right side of the vehicle. The location of mounting must provide maximum rear vision from the driver's seated position.

(9) One ABC two and one-half pound fire extinguisher.

(10) Ambulance body:

(a) The length of the patient compartment must be at least one hundred twelve inches in length, measured from the partition to the inside edge of the rear loading doors;

(b) The width of the patient compartment, after cabinet and cot installation, must provide at least nine inches of clear walkway between cots or the squad bench;

(c) The height of the patient compartment must be at least fifty-three inches at the center of the patient area, measured from floor to ceiling, exclusive of cabinets or equipment;

(d) There must be secondary egress from the curb side of the patient compartment;

(e) Back doors must open in a manner to increase the width for loading patients without blocking existing working lights of the vehicle;

(f) The floor at the lowest level permitted by clearances. It must be flat and unencumbered in the access and work area, with no voids or pockets in the floor to side wall areas where water or moisture can become trapped to cause rusting and/or unsanitary conditions;

(g) Floor covering applied to the top side of the floor surface. It must withstand washing with soap and water or disinfectant without damage to the surface. All joints in the floor covering must have minimal void between matching edges, cemented with a suitable water-proof and chemical-proof cement to eliminate the possibility of joints loosening or lifting;

(h) The finish of the entire patient compartment must be impervious to soap and water and disinfectants to permit washing and sanitizing;

(i) Exterior surfaces must be smooth, with appurtenances kept to a minimum;

(j) Restraints provided for all litters. If the litter is floor supported on its own support wheels, a means must be provided to secure it in position. These restraints must permit quick attachment and detachment for quick transfer of patient.

(11) Vehicle brakes, tires, regular and special electrical equipment, windshield wipers, heating and cooling units, safety belts, and window glass, must be in good working order.

[Statutory Authority: Chapters 18.71, 18.73, and 70.168 RCW. 00-08-102, § 246-976-290, filed 4/5/00, effective 5/6/00. Statutory Authority: RCW 43.70.040 and chapters 18.71, 18.73 and 70.168 RCW. 93-01-148 (Order 323), § 246-976-290, filed 12/23/92, effective 1/23/93.]

WAC 246-976-300 Ground ambulance and aid vehicles—Equipment. Ground ambulance and aid services must provide equipment listed in Table C on each licensed vehicle, when available for service.

WAC 246-976-310 Ground ambulance and aid vehicles—Communications equipment. (1) Licensed services must provide each licensed ambulance and aid vehicle with communication equipment which:

(a) Is consistent with state and regional plans;

(b) Is in good working order;

(c) Allows direct two-way communication between the vehicle and its dispatch control point;

(d) Allows communication with medical control.

(2) If cellular telephones are used, there must also be another method of radio contact with dispatch and medical control for use when cellular service is unavailable.

(3) Licensed services must provide each licensed ambulance with communication equipment which:

(a) Allows direct two-way communication with all hospitals in the service area of the vehicle, from both the driver's and patient's compartment;

(b) Incorporates appropriate encoding and selective signaling devices; and

(c) When transporting patients, allows communications with medical control and designated EMS/TC receiving facilities.

[Statutory Authority: Chapters 18.71, 18.73, and 70.168 RCW. 00-08-102, § 246-976-310, filed 4/5/00, effective 5/6/00. Statutory Authority: RCW 43.70.040 and chapters 18.71, 18.73 and 70.168 RCW. 93-01-148 (Order 323), § 246-976-310, filed 12/23/92, effective 1/23/93.]

WAC 246-976-320 Air ambulance services. (1) Air ambulance services must:

(a) Comply with all regulations in this chapter pertaining to ambulance services and vehicles, except that WAC 246-976-290 and 246-976-300 are replaced for air ambulance services by subsection (4)(b) and (c) of this section;

(b) Comply with the standards in this section for all types of transports, including inter-facility and prehospital transports;

(c) Be in current compliance with all state and Federal Aviation Administration statutes and regulations that apply to air carriers, including, but not limited to, those regulations that apply to certification requirements, operations, equipment, crew members, and maintenance, and any specific regulations that apply to air ambulance services;

(d) Air ambulance services must provide a physician director who is practicing medicine in the response area of the aircraft, as identified in the state EMS/TC plan.

(2) Air ambulance services currently licensed or seeking relicensure after July 31, 2001, must have and maintain accreditation by the Commission on Accreditation of Medical Transport Services or another accrediting organization approved by the department as having equivalent requirements as CAMTS for aeromedical transport. Until August 1, 2001, subsections (4) and (5) of this section apply to air ambulance services currently licensed or seeking relicensure.

(3) Air ambulance services requesting initial licensure that are ineligible to attain accreditation because they lack a history of operation at the site, must meet the criteria of subsections (4) and (5) of this section and within four months of licensure must have completed an initial consultation with CAMTS or another accrediting organization approved by the department as having equivalent requirements as CAMTS for aeromedical transport. A provisional license will be granted for no longer than two years at which time the service must provide documentation that it is accredited by CAMTS or another accrediting organization approved by the department as having equivalent requirements as CAMTS for aeromedical transport.

(4) Air ambulance services must provide:

(a) A physician director who is:

(i) Practicing medicine in the response area of the aircraft, as identified in the state EMS/TC plan;

(ii) Trained and experienced in emergency, trauma, and critical care;

(iii) Knowledgeable of the operation of air medical services; and

(iv) Responsible for supervising and evaluating the quality of patient care provided by the air medical flight personnel;

(b) Sufficient air medical personnel on each response to provide adequate patient care, specific to the mission, including:

(i) One specially trained, experienced registered nurse or paramedic; and

(ii) One other person who must be a physician, nurse, physician's assistant, respiratory therapist, paramedic, EMT, or other appropriate specialist appointed by the physician director. If an air ambulance responds directly to the scene of an incident, at least one of the air medical personnel must be trained in prehospital emergency care;

(c) Aircraft that, when operated as air ambulances:

(i) Are configured so that the medical attendants can access the patient to begin and maintain advanced life support and other treatment;

(ii) Allow loading and unloading the patient without excessive maneuvering or tilting of the stretcher;

(iii) Have appropriate communication equipment to insure internal crew and air-to-ground exchange of information between flight personnel and hospitals, medical control, the flight operations center, and air traffic control facilities;

(iv) Are equipped with:

(A) Appropriate navigational aids;

(B) Airway management equipment, including:

(I) Oxygen;

(II) Suction;

(III) Ventilation and intubation equipment, adult and pediatric;

(C) Cardiac monitor/defibrillator;

(D) Supplies, equipment, and medication as required by the program physician director, for emergency, cardiac, trauma, pediatric care, and other missions; and

(E) The ability to maintain appropriate patient temperature; and

(v) Have adequate interior lighting for patient care arranged so as not to interfere with the pilot's vision;

(d) If using fixed-wing aircraft, pressurized, multiengine aircraft when appropriate to the mission;

(e) If using helicopter aircraft:

(i) A protective barrier sufficiently isolating the cockpit, to minimize in-flight distraction or interference;

(ii) Appropriate communication equipment to communicate with ground EMS/TC services and public safety vehicles, in addition to the communication equipment specified in (c)(iii) of this subsection.

(5) All air medical personnel must:

(a) Be certified in ACLS;

(b) Be trained in:

(i) Emergency, trauma, and critical care;

(ii) Altitude physiology;

(iii) EMS communications;

(iv) Aircraft and flight safety; and

(v) The use of all patient care equipment on board the aircraft;

(c) Be familiar with survival techniques appropriate to the terrain;

(d) Perform under protocols.

(6) Exceptions:

(a) If aeromedical evacuation of a patient is necessary because of a life threatening condition and a licensed air ambulance is not available, the nearest available aircraft that can accommodate the patient may transport. The physician ordering the transport must justify the need for air transport of the patient in writing to the department within thirty days after the incident.

(b) Excluded from licensure requirements those services operating aircraft for primary purposes other than civilian air medical transport, but which may be called into service to initiate an emergency air medical transport of a patient to the nearest available treatment facility or rendezvous point with other means of transportation. Examples are: United States Army Military Assistance to Safety and Traffic, United States Navy, United States Coast Guard, Search and Rescue, and the United States Department of Transportation.

[Statutory Authority: RCW 18.73.140. 00-22-124, § 246-976-320, filed 11/1/00, effective 12/2/00. Statutory Authority: Chapters 18.71, 18.73, and 70.168 RCW. 00-08-102, § 246-976-320, filed 4/5/00, effective 5/6/00. Statutory Authority: RCW 43.70.040 and chapters 18.71, 18.73 and 70.168 RCW. 93-01-148 (Order 323), § 246-976-320, filed 12/23/92, effective 1/23/93.]

WAC 246-976-330 Ambulance and aid services—Record requirements. (1) Each ambulance and aid service must maintain a record of:

(a) Current certification levels of all personnel;

(b) Make, model, and license number of all vehicles; and

(c) Each patient contact with at least the following information:

(i) Names and certification levels of all personnel;

(ii) Date and time of medical emergency;

(iii) Age of patient;

(iv) Applicable components of system response time as defined in this chapter;

(v) Patient vital signs;

(vi) Procedures performed on the patient;

(vii) Mechanism of injury or type of illness;

(viii) Patient destination;

(ix) For trauma patients, other data points identified in WAC 246-976-430 for the trauma registry.

(2) Transporting agencies must provide an initial written report of patient care to the receiving facility at the time the patient is delivered. For patients meeting the state of Washington prehospital trauma triage (destination) procedures, as described in WAC 246-976-930(3), the transporting agency must provide additional trauma data elements described in WAC 246-976-430 to the receiving facility within ten days.

(3) Licensed services must make all records available for inspection and duplication upon request of the department.

[Statutory Authority: RCW 70.168.060 and 70.168.090. 02-02-077, § 246-976-330, filed 12/31/01, effective 1/31/02. Statutory Authority: Chapters 18.71, 18.73, and 70.168 RCW. 00-08-102, § 246-976-330, filed 4/5/00, effective 5/6/00. Statutory Authority: RCW 43.70.040 and chapters 18.71, 18.73 and 70.168 RCW. 93-01-148 (Order 323), § 246-976-330, filed 12/23/92, effective 1/23/93.]

WAC 246-976-340 Ambulance and aid services—Inspections and investigations. (1) The department may conduct periodic, unannounced inspections of licensed ambulances and aid vehicles and services.

(2) If the service is also verified in accordance with WAC 246-976-390, the department will include a review for compliance with verification standards as part of the inspections described in this section.

(3) Licensed services shall make available to the department and provide copies of any printed or written materials relevant to the inspection, verification review, or investigative process in a timely manner.

[Statutory Authority: Chapters 18.71, 18.73, and 70.168 RCW. 00-08-102, § 246-976-340, filed 4/5/00, effective 5/6/00. Statutory Authority: RCW 43.70.040 and chapters 18.71, 18.73 and 70.168 RCW. 93-01-148 (Order 323), § 246-976-340, filed 12/23/92, effective 1/23/93.]

WAC 246-976-390 Verification of trauma care services. (1) The department will:

(a) Publish procedures for verification. Verification will expire with the period of licensure. The application for verification will be incorporated in the application for licensure;

(b) Verify prehospital trauma care services in the following categories:

(i) Aid service: Basic, intermediate and advanced (paramedic) life support;

(ii) Ground ambulance service: Basic, intermediate and advanced (paramedic) life support;

(iii) Air ambulance service: After July 31, 2001, the department will consider that an air ambulance service has met the requirements of subsections (4), (6), and (9) of this section if it has been accredited by CAMTS or another accrediting organization approved by the department as having equivalent requirements as CAMTS for aeromedical transport;

(c) Review the minimum response times for verified prehospital trauma services at least biennially, considering data available from the trauma registry and with the advice of the steering committee;

(d) Forward applications for verification for aid and ground ambulance services to the appropriate regional council for review and comment;

(e) Approve an applicant to provide verified prehospital trauma care, based on satisfactory evaluations as described in this section;

(f) Notify the regional council and the MPD in writing of the name, location, and level of verified services;

(g) Renew approval of a verified service upon reapplication, if the service continues to meet standards established in this chapter and verification remains consistent with the regional plan.

(2) The department will identify minimum and maximum numbers of prehospital services, based on the approved regional and state plans. The department will:

(a) Establish and review biennially the minimum and maximum number of prehospital services based upon distri-

bution and level of service identified for each response area in the approved regional plan.

(b) Evaluate an applicant for trauma verification based upon demonstrated ability of the provider to meet standards defined in this section 24-hours every day.

(c) Verify the trauma capabilities of a licensed prehospital service if it determines that the applicant:

(i) Proposes services that are identified in the regional plan for ground services, or the state plan for air ambulance services, in the proposed response areas.

(ii) Agrees to operate under approved regional patient care procedures and prehospital patient care protocols.

(3) Regional council responsibilities regarding verification are described in WAC 246-976-960.

(4) To apply for verification, a licensed ambulance or aid service must submit application on forms provided by the department, including:

(a) Documentation required for licensure specified by WAC 246-976-260(2);

(b) A policy that a trauma training program is required for all personnel responding to trauma incidents. The program must meet learning objectives established by the department and be approved by the MPD;

(c) Documentation that the provider has the ability twenty-four hours every day to deliver personnel and equipment required for verification to the scene of a trauma within the agency response times identified in this section; and

(d) Documentation that the provider will participate in an approved regional quality assurance program.

(5) Verified aid services must provide personnel on each trauma response including:

(a) Basic life support: At least one individual, first responder or above;

(b) Intermediate life support:

(i) At least one ILS technician; or

(ii) At least one IV/airway technician; or

(iii) At least two individuals, one IV technician and one airway technician.

(c) Advanced life support - Paramedic: At least one paramedic.

(6) Verified ambulance services must provide personnel on each trauma response including:

(a) Basic life support: At least two certified individuals — one EMT plus one first responder;

(b) Intermediate life support:

(i) One ILS technician, plus one EMT; or

(ii) One IV/airway technician, plus one EMT; or

(iii) One IV technician and one airway technician;

(c) Advanced life support - Paramedic: At least two certified individuals — one paramedic and one EMT.

(7) Verified BLS vehicles must carry equipment identified in WAC 246-976-300, Table C.

(8) Verified ILS and paramedic vehicles must provide equipment identified in Table D, in addition to meeting the requirements of WAC 246-976-300:

TABLE D: EQUIPMENT FOR VERIFIED TRAUMA SERVICES
(NOTE: "ASST" MEANS ASSORTMENTS)

	AMBULANCE		AID VEHICLE	
	PAR	ILS	PAR	ILS
AIRWAY MANAGEMENT				
Airway Adjuncts				
Adjunctive airways, per protocol	1	1	1	1
Laryngoscope handle, spare batteries	1	1	1	1
Adult blades, set	1	1	1	1
Pediatric blades, straight (0,1,2)	1ea	1ea	1ea	1ea
Pediatric blades, curved (2)	1ea	1ea	1ea	1ea
McGill forceps, adult & pediatric	1	1	1	1
ET tubes, adult (±1/2 mm)	1ea	1ea	1ea	1ea
ET tubes, pediatric, with stylet				
Uncuffed (2.5 - 5.0 mm)	1ea	1ea	1ea	1ea
Cuffed or uncuffed (6.0 mm)	1ea	1ea	1ea	1ea

Adult	1	1	1	1
Pediatric, w/volume control	4	4	2	2
Catheters, intravenous (14-24 ga)	asst	asst	asst	asst
Needles				
Hypodermic	asst	asst	asst	asst

TABLE D: EQUIPMENT FOR VERIFIED TRAUMA SERVICES
(NOTE: "ASST" MEANS ASSORTMENTS)

	AMBULANCE		AID VEHICLE	
	PAR	ILS	PAR	ILS
Intraosseous, per protocol	2	2	1	1
Sharps container	1	1	1	1
Syringes	asst	asst	asst	asst
Glucose measuring supplies	Yes	Yes	Yes	Yes
Pressure infusion device	1	1	1	1
Medications according to local patient care protocols				

(9) Verified air ambulance services must meet equipment requirements described in WAC 246-976-320.

(10) Verified aid services must meet the following minimum agency response times for all major trauma responses to response areas as defined by the department and identified in the regional plan:

(a) To urban response areas: Eight minutes or less, eighty percent of the time;

(b) To suburban response areas: Fifteen minutes or less, eighty percent of the time;

(c) To rural response areas: Forty-five minutes or less, eighty percent of the time;

(d) To wilderness response areas: As soon as possible.

(11) Verified ground ambulance services must meet the following minimum agency response times for all major trauma responses to response areas as defined by the department and identified in the regional plan:

(a) To urban response areas: Ten minutes or less, eighty percent of the time;

(b) To suburban response areas: Twenty minutes or less, eighty percent of the time;

(c) To rural response areas: Forty-five minutes or less, eighty percent of the time;

(d) To wilderness response areas: As soon as possible.

(12) Verified air ambulance services must meet minimum agency response times as identified in the state plan.

[Statutory Authority: RCW 18.73.140. 00-22-124, § 246-976-390, filed 11/1/00, effective 12/2/00. Statutory Authority: Chapters 18.71, 18.73, and 70.168 RCW. 00-08-102, § 246-976-390, filed 4/5/00, effective 5/6/00. Statutory Authority: RCW 43.70.040 and chapters 18.71, 18.73 and 70.168 RCW. 93-01-148 (Order 323), § 246-976-390, filed 12/23/92, effective 1/23/93.]

WAC 246-976-400 Verification—Noncompliance with standards. If the department finds that a verified prehospital trauma care service is out of compliance with verification standards:

(1) The department shall promptly notify in writing: The service, the MPD, the local and regional EMS/TC councils.

(2) Within thirty days of the department's notification, the service must submit a corrective plan to the department, the MPD and the regional council outlining proposed action to return to compliance.

(3) If the service is either unable or unwilling to comply with the verification standards, under the provisions of chapter 34.05 RCW, the department may suspend or revoke the verification. The department shall promptly notify the regional council and the MPD of any revocation or suspension of verification.

If the MPD or the regional council receive information that a service is out of compliance with the regional plan, they may forward their recommendations for corrections to the department.

(4) The department will review the plan within thirty days, including consideration of any recommendations from the MPD or regional council. The department will notify the service whether the plan is accepted or rejected.

(5) The department will monitor the service's progress in fulfilling the terms of the approved plan.

[Statutory Authority: Chapters 18.71, 18.73, and 70.168 RCW. 00-08-102, § 246-976-400, filed 4/5/00, effective 5/6/00. Statutory Authority: RCW 43.70.040 and chapters 18.71, 18.73 and 70.168 RCW. 93-01-148 (Order 323), § 246-976-400, filed 12/23/92, effective 1/23/93.]

TRAUMA REGISTRY

WAC 246-976-420 Trauma registry—Department responsibilities. (1) **Purpose:** The department maintains a trauma registry, as required by RCW 70.168.060 and 70.168.090. The purpose of this registry is to:

(a) Provide data for injury surveillance, analysis, and prevention programs;

(b) Monitor and evaluate the outcome of care of major trauma patients, in support of statewide and regional quality assurance and system evaluation activities;

(c) Assess compliance with state standards for trauma care;

(d) Provide information for resource planning, system design and management;

(e) Provide a resource for research and education.

(2) **Confidentiality:** It is essential for the department to protect information regarding specific patients and providers. Data elements related to the identification of individual patient's, provider's, and facility's care outcomes shall be confidential, shall be exempt from RCW 42.17.250 through 42.17.450, and shall not be subject to discovery by subpoena or admissible as evidence.

(a) The department may release confidential information from the trauma registry in compliance with applicable laws and regulations. No other person may release confidential information from the trauma registry without express written permission from the department.

(b) The department may approve requests for trauma registry data from qualified agencies or individuals, consistent with applicable statutes and rules. The department may charge reasonable costs associated with such requests.

(c) The data elements indicated as confidential in Tables E, F and G below are considered confidential.

(d) The department will establish criteria defining situations in which additional registry information is confidential, in order to protect confidentiality for patients, providers, and facilities.

(e) This paragraph does not limit access to confidential data by approved regional quality assurance programs established under chapter 70.168 RCW and described in WAC 246-976-910.

(3) **Inclusion criteria:**

(a) The department will establish inclusion criteria to identify those injured patients that designated trauma services must report to the trauma registry.

These criteria will include:

(i) All patients who were discharged with ICD diagnosis codes of 800.0 - 904.99, 910 - 959.9 (injuries), 994.1 (drowning), 994.7 (asphyxiation), or 994.8 (electrocution) and:

(A) For whom the hospital trauma resuscitation team was activated; or

(B) Who were dead on arrival at your facility; or

(C) Who were dead at discharge from your facility; or

(D) Who were transferred by ambulance into your facility from another facility; or

(E) Who were transferred by ambulance out of your facility to another acute care facility; or

(F) Adult patients (age fifteen or greater) who were admitted as inpatients to your facility and have a length of stay greater than two days or forty-eight hours; or

(G) Pediatric patients (ages under fifteen years) who were admitted as inpatients to your facility, regardless of length of stay; or

(ii) All patients who meet the requirements of the state of Washington prehospital trauma triage procedures described in WAC 246-976-930(3);

(b) For all licensed rehabilitation services, these criteria will include all patients who were included in the trauma registry for acute care.

(4) **Other data:** The department and regional quality assurance programs may request data from medical examiners and coroners in support of the registry.

(5) **Data linking:** To link data from different sources, the department will establish procedures to assign a unique identifying number (trauma band number) to each trauma patient. All providers reporting to the trauma registry must include this trauma number.

(6) **Data submission:** The department will establish procedures and format for providers to submit data electronically. These will include a mechanism for the reporting agency to check data for validity and completeness before data is sent to the registry.

(7) **Data quality:** The department will establish mechanisms to evaluate the quality of trauma registry data. These mechanisms will include at least:

(a) Detailed protocols for quality control, consistent with the department's most current data quality guidelines.

(b) Validity studies to assess the timeliness, completeness and accuracy of case identification and data collection. The department will report quarterly on the timeliness, accuracy and completeness of data.

(8) **Registry reports:**

(a) Annually, the department will report:

(i) Summary statistics and trends for demographic and related information about trauma care, for the state and for each EMS/TC region;

(ii) Outcome measures, for evaluation of clinical care and system-wide quality assurance and quality improvement programs.

(b) Semiannually, the department will report:

(i) Trends, patient care outcomes, and other data, for each EMS/TC region and for the state, for the purpose of regional evaluation;

(ii) On all patient data entered into the trauma registry during the reporting period;

(iii) Aggregate regional data to the regional EMS/TC council, excluding any confidential or identifying data.

(c) The department will provide:

(i) Provider-specific raw data to the provider that originally submitted it;

(ii) Periodic reports on financial data;

(iii) Registry reports to all providers that have submitted data;

(iv) For the generation of quarterly reports to all providers submitting data to the registry, for the purpose of planning, management, and quality assurance.

[Statutory Authority: RCW 70.168.060 and 70.168.090. 02-02-077, § 246-976-420, filed 12/31/01, effective 1/31/02. Statutory Authority: Chapters 18.71, 18.73, and 70.168 RCW. 00-08-102, § 246-976-420, filed 4/5/00, effective 5/6/00. Statutory Authority: RCW 43.70.040 and chapters 18.71, 18.73 and 70.168 RCW. 93-01-148 (Order 323), § 246-976-420, filed 12/23/92, effective 1/23/93.]

WAC 246-976-430 Trauma registry—Provider responsibilities. (1) Trauma care providers, prehospital and hospital, must place a trauma ID band on trauma patients, if not already in place from another agency.

(2) All trauma care providers must protect the confidentiality of data in their possession and as it is transferred to the department.

(3) All trauma care providers must correct and resubmit records which fail the department's validity tests described in WAC 246-976-420(6). You must send corrected records to the department within three months of notification.

(4) Licensed prehospital services that transport trauma patients must:

(a) Assure personnel use the trauma ID band.

(b) Report data as shown in Table E for trauma patients defined in WAC 246-976-420. Data is to be reported to the receiving facility in an approved format within ten days.

(5) Designated trauma services must:

(a) Assure personnel use the trauma ID band.

(b) Report data elements shown in Table F for all patients defined in WAC 246-976-420.

(c) Report patients discharged in a calendar quarter in an approved format by the end of the following quarter. The department encourages more frequent data reporting.

(6) Designated trauma rehabilitation services must:

(a) Report data on all patients who were included in the trauma registry for acute care.

(b) Report either:

(i) Data elements shown in Table G; or

(ii) If the service submits data to the uniform data set for medical rehabilitation, provide a copy of the data to the department.

TABLE F: Hospital Data Elements for the Washington Trauma Registry

All licensed hospitals must submit the following data for patients identified in WAC 246-976-420(3):

Note: (C) identifies elements that are confidential. See WAC 246-976-420(2).

Record Identification
- Identification of reporting facility (C);
- Date and time of arrival at reporting facility (C - day only);
- Unique patient identification number assigned to the patient by the reporting facility (C);
- Patient's trauma identification band number (C);

Patient Identification
- Name (C);
- Date of birth (C - day only);
- Sex;
- Race;
- Social Security number (C);
- Home zip code;

Prehospital Incident Information
- Date and time of incident (C - day only);
- Prehospital trauma system activated?;
- First agency on-scene ID number;
- Arrival via EMS system?;
- Transporting (reporting) agency ID number;
- Transporting agency run number (C);
- Mechanism of injury;
- Respiratory quality;
- Consciousness;
- Incident county code;
- Incident location type;
- Response area type;
- Occupational injury?;
- Safety restraint/device used;

Earliest Available Prehospital Vital Signs
- Time;
- Systolic blood pressure;
- Respiratory rate;
- Pulse rate;
- Glasgow coma score (three components);
- Pupils;
- Vitals from 1st on-scene agency?;

Extrication time over twenty minutes?;

Prehospital procedures performed;

Prehospital Triage
- Vital signs/consciousness;
- Anatomy of injury;
- Biomechanics of injury;
- Other risk factors;
- Gut feeling of medic;

Transportation Information
- Time transporting agency dispatched;
- Time transporting agency arrived at scene;
- Time transporting agency left scene;
- Transportation mode;
- Personnel level;
- Transported from;
- Reason for destination;

ED or Admitting Information
- Time ED physician called;
- ED physician called "code"?;
- Time ED physician available for patient care;
- Time trauma team activated;
- Level of trauma team activation;
- Time trauma surgeon called;
- Time trauma surgeon available for patient care;
- Vital Signs in ED
- Patient dead on arrival at your facility?;
- First and last systolic blood pressure;
- First and last temperature;
- First and last pulse rate;
- First and last spontaneous respiration rate;
- Lowest systolic blood pressure;
- Glasgow coma scores (eye, verbal, motor);
- Injury Severity scores
- Prehospital Index (PHI) score;
- Revised Trauma Score (RTS) on admission;
- For pediatric patients:
  - Pediatric Trauma Score (PTS) on admission;
  - Pediatric Risk of Mortality (PRISM) score on admission;
  - Pediatric Risk of Mortality - Probability of Survival (PRISM P(s));
  - Pediatric Overall Performance Category (POPC);
  - Pediatric Cerebral Performance Category (PCPC):
- ED procedures performed;
- ED complications;
- Time of ED discharge;
- ED discharge disposition, including
- If admitted, the admitting service;
- If transferred out, ID of receiving hospital

Diagnostic and Consultative Information
- Date and time of head CT scan;
- Date of physical therapy consult;
- Date of rehabilitation consult;
- Blood alcohol content;
- Toxicology screen results;
- Drugs found;
- Co-morbid factors/Preexisting conditions;

Surgical Information
- For the first operation:
- Date and time patient arrived in operating room;
- Date and time operation started;
- OR procedure codes;
- For later operations:
- Date of operation
- OR Procedure Codes

Critical Care Unit Information
- Date and time of admission for primary stay in critical care unit;
- Date and time of discharge from primary stay in critical care unit;
- Length of readmission stay(s) in critical care unit;

Other procedures performed (not in OR)

Discharge Status
- Date and time of facility discharge **(C - day only)**;
- Most recent ICD diagnosis codes/discharge codes, including nontrauma codes;
- E-codes, primary and secondary;
- Glasgow Score at discharge;
- Disability at discharge (Feeding/Locomotion/Expression)

Discharge disposition
- If transferred out, ID of facility patient was transferred to **(C)**
- If patient died in your facility
- Date and time of death **(C - day only)**;
- Was an autopsy done?;
- Was case referred to coroner or medical examiner?
- Did coroner or medical examiner accept jurisdiction?
- Was patient evaluated for organ donation?

Financial Information (All Confidential)
- For each patient
- Total billed charges;
- Payer sources (by category);
- Reimbursement received (by payer category);
- Annually, submit ratio-of-costs-to-charges, by department.

TABLE G: Data Elements for Designated Rehabilitation Services

Designated trauma rehabilitation services must submit the following data for patients identified in WAC 246-976-420(3).

Note: **(C)** identifies elements that are confidential. WAC 246-976-420(2)

Rehabilitation services, Levels I and II

Patient Information
- Facility ID **(C)**
- Facility Code
- Patient Code
- Trauma tag/identification Number **(C)**
- Date of Birth **(C - day only)**
- Social Security Number **(C)**
- Patient Name **(C)**
- Patient Sex

Care Information
- Date of Admission **(C - day only)**
- Admission Class
- Date of Discharge **(C - day only)**
- Impairment Group Code
- ASIA Impairment Scale

Diagnosis (ICD-9) Codes
- Etiologic Diagnosis
- Other significant diagnoses
- Complications/comorbidities
- Diagnosis for transfer or death

Other Information
- Date of onset
- Admit from (Type of facility)
- Admit from (ID of facility)
- Acute trauma care by (ID of facility)
- Prehospital living setting
- Prehospital vocational category
- Discharge-to-living setting

Functional Independence Measure (FIM) - One set on admission and one on discharge
- Self Care
  - Eating
  - Grooming
  - Bathing
  - Dressing - Upper
  - Dressing - Lower
  - Toileting
- Sphincter control
  - Bladder
  - Bowel
- Transfers
  - Bed/chair/wheelchair
  - Toilet
  - Tub/shower
- Locomotion
  - Walk/wheelchair
  - Stairs
- Communication
  - Comprehension
  - Expression
- Social cognition
  - Social interaction
  - Problem solving
  - Memory

Payment Information (all confidential)
- Payer source - primary and secondary
- Total Charges
- Remitted reimbursement by category

Rehabilitation, Level III

Patient Information
- Facility ID **(C)**
- Patient number **(C)**
- Trauma tag/identification Number **(C)**
- Social Security Number **(C)**
- Patient Name **(C)**

Care Information
- Date of Admission **(C - day only)**

Impairment Group Code

Diagnosis (ICD-9) Codes
- Etiologic Diagnosis
- Other significant diagnoses
- Complications/comorbidities

Other Information
- Admit from (Type of facility)
- Admit from (ID of facility) **(C)**
- Acute trauma care given by (ID of facility) **(C)**
- Inpatient trauma rehabilitation given by (ID of facility) **(C)**
- Discharge-to-living setting

Payment Information (all confidential)
- Payer source - primary and secondary

Total Charges
Remitted reimbursement by category

Statutory Authority: Chapters 18.71, 18.73, and 70.168 RCW. 00-08-102, § 246-976-430, filed 4/5/00, effective 5/6/00. Statutory Authority: RCW 43.70.040 and chapters 18.71, 18.73 and 70.168 RCW. 93-01-148 (Order 323), § 246-976-430, filed 12/23/92, effective 1/23/93.]

DESIGNATION OF TRAUMA CARE FACILITIES

WAC 246-976-485 Designation of facilities to provide trauma care services. (1) The department designates trauma services as part of the comprehensive, statewide emergency medical services and trauma care system. This section and WAC 246-976-490 describe the designation process. WAC 246-976-500 through 246-976-890 identify standards for trauma services. The department uses a competitive process to select designated services, including:

(a) An application schedule. You will have at least ninety days to complete the application;

(b) A description of the documents you must submit to demonstrate that you meet the standards;

(c) An on-site review fee schedule. You must pay any required fees at least thirty days before an on-site review;

(d) The department's evaluation criteria; and

(e) The department's decision criteria.

(2) To apply for trauma service designation, you must:

(a) Send a notice of intent to the department by the time required in the application schedule;

(b) Submit a completed application by the time required in the application schedule. If you are applying for multiple designation, you must submit a separate application for each level and category of designation for which you are applying.

If you represent more than one facility applying for joint designation, you must submit a single application for each level and category. The department's evaluation of joint applications will use the same criteria as for a single facility designation.

(c) Provide the department's on-site review team access to your facility, staff, and all documents concerning trauma care. This will include at least your standards of care, policy and procedures, patient care records, trauma quality assurance/improvement materials, and other relevant documents.

(3) The department must conduct an on-site review of your facility before you can be designated as level I, II or III trauma care service, or level I, II or III pediatric trauma care service. The department will use a multidisciplinary team to conduct this review.

(a) For level I and II services, the department will only choose members for the review team who live or work outside your state.

(b) For level III services, the department will only choose members for the review team who live or work outside your region.

(c) The department will provide you with the names of members of the review team. You should send any objections to the department within ten days of notification.

(d) The team will give an oral report of preliminary findings before leaving your facility.

(e) The department and the team will maintain confidentiality of information, records, and reports developed pursuant to on-site reviews in accordance with the provisions of RCW 70.41.200 and 70.168.070.

(f) The department will conduct an on-site review within eighteen months of designating a joint service, to confirm that you meet the requirements of this chapter. This requirement shall not be construed to limit the department's right to conduct an on-site review at any earlier or later time, or to limit its authority under WAC 246-976-490 to suspend or revoke designation for cause at any time prior to the on-site review of the jointly designated trauma care service.

(4) The department may conduct an on-site review of your facility if you applied for designation as a level IV or V trauma care service, as a level I-III trauma rehabilitation service, or as a level I-pediatric trauma rehabilitation service.

(5) After designation as a trauma service, you may ask the department to conduct an on-site survey for technical assistance. The department may require you to reimburse its costs for conducting the survey.

(6) The department will designate the health care facilities it considers most qualified to provide trauma care services. The decision to designate will be based on at least the following:

(a) Evaluation of all applications submitted;

(b) Recommendations from the on-site review team;

(c) Trauma patient outcomes during the previous designation period;

(d) The impact of designation on the effectiveness of the trauma care system;

(e) Expected patient volume of the area;

(f) The number, levels, and distribution of designated health care facilities established in the state and regional EMS/TC plans;

(g) Ability of each applicant to comply with goals of the state and regional EMS/TC plans; and

(h) Each applicant's compliance with its designation contract during the previous designation period.

(7) The department will notify you in writing of its designation decision. It will also provide you with a written report summarizing its review of your application, any on-site review findings, and any decisions:

(a) In regions where there is competition for designation, the department will send you the report within ninety days of announcing its decisions. There is competition for designation in any region where the number of applications for a level and type of designation is more than the maximum number of services identified in the state plan.

(b) In regions where there is no competition, the department will send you the report within ninety days of the on-site review.

(8) The department will notify regional EMS/TC councils of the name, location, and level of services that have been designated in their regions.

(9) The department will not approve your application if it finds that your facility:

(a) Is not the most qualified applicant, if there is competition for designation;

(b) Does not meet the requirements of this chapter for the level you applied for;

(c) Does not meet the requirements of the approved regional plan;

(d) Has made a false statement about a material fact in its application for designation; or

(e) Refuses to allow the department to inspect any part of your facility that relates to the delivery of trauma services, including records, documentation, or files.

(10) If the department denies an application for trauma service designation, the department will notify you in writing, including the reasons for its action and explaining your rights. You may appeal the department's decisions. Your appeal must follow the requirements of chapter 34.05 RCW and chapter 246-10 WAC. Send your appeal to the adjudicative clerk's office at the address indicated on the notice of decision.

(11) The department may:

(a) Consider applications from facilities located and licensed in adjacent states in the same manner as applications received from facilities located and licensed in Washington;

(b) Consider the administrative findings, conclusions and determination of an adjacent state to determine if you meet Washington standards. The department may request additional information. The department will base its decision on these considerations only if:

(i) There is no competition in the region for designation at the level/category you applied for; and

(ii) Your facility is located in an adjacent state that has an established trauma care system, with standards that meet or exceed Washington standards; and your facility is designated by your state to provide trauma service;

(c) Provisionally designate trauma services that are not able to meet all the requirements of this chapter, if this is necessary to ensure adequate trauma care in an area. The provisional designation will not be for more than two years;

(d) Consider additional applications without regard to the schedule, if this is needed to ensure adequate coverage according to the state plan.

(12) You and the department must agree to a contract to provide trauma services. The contract will include at least:

(a) Your authority to provide trauma services for a three-year period;

(b) Both the department's and your contractual and financial requirements and responsibilities;

(c) Allowance for the department to monitor your compliance with trauma service standards;

(d) Allowance for the department access to discharge summaries for trauma patients, patient care logs, trauma patient care records, hospital trauma care quality assurance/improvement materials, including minutes, and other relevant documents;

(e) A requirement for confidentiality of information relating to individual patient's, provider's, and facility's care outcomes.

(13) The department will notify all interested parties of the application process and schedule at least one hundred fifty days before the expiration of designation in each region.

[Statutory Authority: Chapter 70.168 RCW. 98-04-038, § 246-976-485, filed 1/29/98, effective 3/1/98.]

WAC 246-976-490 Suspension or revocation of designation. The Administrative Procedure Act, chapter 34.05 RCW, and chapter 246-10 WAC govern the process of suspending or revoking trauma service designation.

(1) The department may suspend or revoke your trauma service designation if the designated facility and/or any owner, officer, director, or managing employee:

(a) Is substantially out of compliance with the requirements of this chapter and chapter 70.168 RCW, and has been unable or unwilling to comply as required by the department;

(b) Makes a false statement of a material fact in the application for designation, or in any record required by this chapter, or in a matter under investigation;

(c) Prevents, interferes with, or attempts to impede in any way, the work of a representative of the department in the lawful enforcement of this chapter or chapter 70.168 RCW;

(d) Uses false, fraudulent, or misleading advertising, or makes any public claims regarding the facility's ability to care for nontrauma patients based on its trauma care designation status;

(e) Misrepresents or is fraudulent in any aspect of conducting business.

(2) The department will use the following process to suspend trauma service designation:

(a) The department will notify you in writing if it intends to suspend your designation. It will send the notice at least twenty-eight days before it takes action, unless it is a summary suspension as provided for in the Administrative Procedure Act. The notice will include the reasons for the action, and describe your right to a hearing to contest the department's notice of intent to suspend your designation. If you request a hearing within twenty-eight days of the date the notice was mailed to you, a hearing before a health law judge will be scheduled. If you do not request a hearing within twenty-eight days of the date the notice was mailed to you, the suspension becomes final.

(b) You may submit a plan to the department within twenty-eight days after service of the department's notice of intent to suspend your designation, describing how you will correct deficiencies. The department will approve or disapprove your plan within thirty days of receiving your plan. If the department approves your plan, you must begin to implement it within thirty days. You must notify the department when the problems are corrected. When you have shown the department that you are meeting the requirements of chapter 70.168 RCW and this chapter, which may require a site review, the department will withdraw its notice of intent to suspend your designation or will otherwise reinstate designation if a final decision suspending designation has already occurred.

(c) The department will notify the regional EMS/TC council of the actions it has taken.

(3) The department will use the following process to revoke designation:

(a) The department will notify you in writing if it intends to revoke your designation. It will send the notice at least twenty-eight days before it takes action, unless it is a summary revocation as provided for in the Administrative Procedure Act. The notice will include the reasons for the action, and describe your right to a hearing to contest the depart-

ment's notice of intent to revoke your designation. If you request a hearing, a hearing before a health law judge will be scheduled. If you do not request a hearing within twenty-eight days of the date the notice was mailed to you, the revocation becomes final.

(b) The department will notify the regional EMS/TC council of the actions it has taken.

(4) You may appeal final decisions to superior court under the Administrative Procedure Act, chapter 34.05 RCW.

[Statutory Authority: Chapter 70.168 RCW. 98-04-038, § 246-976-490, filed 1/29/98, effective 3/1/98.]

WAC 246-976-500 Designation standards for facilities providing level I trauma care service—Administration and organization. A facility with a designated level I trauma care service shall have:

(1)(a) Organization and direction by a general surgeon with special competence in care of the injured. The service may have as codirector another general surgeon with special competence in care of the injured;

(b) Ongoing coordination of the trauma care service by a registered nurse with special competence in care of the injured;

(c) A multidisciplinary trauma committee chaired by the trauma service director with input to hospital management, including:

(i) An emergency physician;

(ii) An emergency department registered nurse;

(iii) A general surgeon with special competence in trauma care;

(iv) A neurosurgeon;

(v) An orthopaedic surgeon;

(vi) A pediatrician;

(vii) An anesthesiologist;

(viii) The physician director of critical care service;

(ix) The trauma care service nurse coordinator;

(x) Critical care registered nurse; and

(xi) The trauma rehabilitation coordinator;

(d) The multidisciplinary trauma committee shall adopt an approved method to determine activation of the trauma team, as described in WAC 246-976-870.

(e) A trauma team to provide initial evaluation, resuscitation and treatment.

(i) The team shall be organized and directed by a general surgeon with special competence in care of the injured, and who assumes responsibility for coordination of overall care of the trauma patient. The surgeon shall be at least a postgraduate year four resident;

(ii) All members of the team, including the surgeon, shall be available within five minutes of notification of team activation;

(iii) The team shall include an emergency physician who is:

(A) Responsible for activating the team, using an approved method as defined in WAC 246-976-870; and

(B) Responsible for providing team leadership and care for the trauma patient until the arrival of the general surgeon in the resuscitation area;

(iv) The trauma care service shall identify all other members of the team;

(f) Specific delineation of trauma surgery privileges by the medical staff.

(2) An emergency department with written standards of care to ensure immediate and appropriate care for adult and pediatric trauma patients.

(3) A surgery department, including:

(a) General surgery;

(b) A neurosurgical service. Coverage shall be available within five minutes of notification of team activation. Coverage shall be provided by:

(i) A neurosurgeon; or

(ii) A surgeon who has been judged competent by the neurosurgical consultants on staff to initiate measures to stabilize the patient, and to initiate diagnostic procedures, with a board-certified neurosurgeon on-call and available within thirty minutes of notification of team activation.

(c) The following surgical services on-call and available within thirty minutes of request by the trauma team leader:

(i) Cardiac surgery;

(ii) Gynecologic surgery;

(iii) Hand surgery;

(iv) Microsurgery;

(v) Obstetric surgery;

(vi) Ophthalmic surgery;

(vii) Oral/maxillofacial or otorhinolaryngologic surgery;

(viii) Orthopaedic surgery;

(ix) Pediatric surgery;

(x) Plastic surgery;

(xi) Thoracic surgery;

(xii) Urologic surgery; and

(xiii) Vascular surgery.

(4) Nonsurgical specialties including:

(a) Anesthesiology, with an anesthesiologist who:

(i) Is ACLS trained, except this requirement shall not apply to a physician board-certified in anesthesiology;

(ii) Has completed the pediatric education requirement (PER) as defined in WAC 246-976-886;

(iii) Is available within five minutes of notification of team activation;

(b) A radiologist on-call and available for patient service within twenty minutes of notification of team activation;

(c) The following services on-call and available for patient consultation or management:

(i) Cardiology;

(ii) Gastroenterology;

(iii) Hematology;

(iv) Infectious disease specialists;

(v) Internal medicine;

(vi) Nephrology;

(vii) Neurology;

(viii) Pathology;

(ix) Pediatrics; and

(x) Pulmonology.

(5) Written policy and procedures for access to ancillary services, including:

(a) Chemical dependency services;

(b) Child and adult protection services;

(c) Clergy or pastoral care;

(d) Nutritionist services;
(e) Occupational therapy services;
(f) Pharmacy services, with a pharmacist in-house;
(g) Physical therapy services;
(h) Rehabilitation services;
(i) Social services;
(j) Psychological services; and
(k) Speech therapy services.

(6) A pediatric trauma policy that:

(a) Provides for initial stabilization and resuscitation of pediatric trauma patients, including emergency department and surgical interventions; and

(b) If the facility is not designated as a pediatric trauma care service, identifies and establishes its scope of pediatric trauma care, including but not limited to:

(i) Criteria for admission of pediatric patients;

(ii) Written transfer guidelines and agreements for pediatric trauma patients requiring critical care services.

(7) A written policy and procedures to divert patients to other designated trauma care services. The policy shall be based on criteria which reflect the service's ability to resuscitate and stabilize each patient at a particular time.

(8) A trauma registry as required in WAC 246-976-430.

(9) A quality assurance program in accordance with WAC 246-976-880; and cooperate with regional trauma care quality assurance programs throughout the state established pursuant to WAC 246-976-910.

(10) Interfacility transfer guidelines and agreements consistent with WAC 246-976-890.

[Statutory Authority: Chapter 70.168 RCW. 02-12-107, § 246-976-500, filed 6/5/02, effective 7/6/02; 98-04-038, § 246-976-500, filed 1/29/98, effective 3/1/98. Statutory Authority: RCW 43.70.040 and chapters 18.71, 18.73 and 70.168 RCW. 93-01-148 (Order 323), § 246-976-500, filed 12/23/92, effective 1/23/93.]

WAC 246-976-510 Designation standards for facilities providing level I trauma care service—Basic resources and capabilities. A facility with a designated level I trauma care service shall have:

(1) An emergency department with:

(a) A physician director who:

(i)(A) Is board-certified in emergency medicine, surgery or other relevant specialty; or

(B) Has documented experience as director of an emergency department which has been previously recognized as a level I trauma center either by a regional entity or as verified by the Committee on Trauma of the American College of Surgeons;

(ii) Is ATLS and ACLS trained, except this requirement shall not apply to a physician board-certified in emergency medicine; and

(iii) Has completed the pediatric education requirement (PER) as defined in WAC 246-976-886, except that this requirement shall not apply to a physician board-certified in pediatric emergency medicine.

(b) Physicians who:

(i) Are board-certified in emergency medicine, or board-certified in a specialty and practicing emergency medicine as their primary practice with special competence in care of trauma patients; (this requirement may be met by a surgical resident post graduate year two who is ATLS, and ACLS trained, has completed the PER as defined in WAC 246-976-886, and is working under the direct supervision of the attending emergency physician, until the arrival of the surgeon to assume leadership of the trauma team);

(ii) Are available within five minutes of patient's arrival in the emergency department;

(iii) Are ATLS and ACLS trained, except this requirement shall not apply to a physician board-certified in emergency medicine;

(iv) Have completed the PER as defined in WAC 246-976-886, except this requirement shall not apply to a physician board-certified in pediatric emergency medicine; and

(v) Are designated as members of the trauma team;

(c) Registered nurses who:

(i) Are ACLS trained;

(ii) Have completed the PER as defined in WAC 246-976-886;

(iii) Have successfully completed a trauma life support course as defined in WAC 246-976-885; and

(iv) Are in the emergency department and available within five minutes of patient's arrival in the emergency department;

(d) An area designated for adult and pediatric resuscitation, with equipment for resuscitation and life support of pediatric and adult trauma patients, including equipment described in WAC 246-976-620;

(e) Routine radiological capabilities by a technician available within five minutes of notification of team activation.

(2) A surgery department including:

(a) An attending general surgeon available within five minutes of notification of team activation, except as provided in (b) of this subsection. The attending surgeon shall:

(i) Provide trauma team leadership upon arrival in the resuscitation area;

(ii) Be board-certified;

(iii) Have trauma surgery privileges as delineated by the medical staff;

(b) A postgraduate year four or above surgical resident may initiate evaluation and treatment upon the patient's arrival in the emergency department until the arrival of the attending surgeon. In this case the attending surgeon shall be available within twenty minutes of notification of team activation.

(c) All general surgeons and surgical residents who are responsible for care and treatment of trauma patients shall:

(i) Be trained in ATLS and ACLS, except this requirement shall not apply to a physician board-certified in surgery; and

(ii) Have completed the PER as defined in WAC 246-976-886.

(3) An operating room available within five minutes of notification of team activation, with:

(a) A registered nurse or designee of the operating room staff who is available within five minutes of notification of team activation to open the operating room, and to coordinate responsibilities to ensure the operating room is ready for surgery upon arrival of the patient, the surgeon, and the anesthesiologist;

(b) A written policy providing for mobilization of additional surgical teams for trauma patients; and

(c) Instruments and equipment appropriate for pediatric and adult surgery, including equipment described in WAC 246-976-620.

(4) A post anesthetic recovery unit with:

(a) Essential personnel, including at least one registered nurse available twenty-four hours a day;

(b) Nurses ACLS trained;

(c) Nurses who have completed the PER as defined in WAC 246-976-886; and

(d) Appropriate monitoring and resuscitation equipment.

(5) A critical care service with:

(a) A medical director of the surgical critical care unit who is:

(i) Board-certified in surgery with special competence in critical care;

(ii) ATLS and ACLS trained, except this requirement shall not apply to a physician board-certified in surgery;

(iii) Responsible for coordinating with the attending staff for the care of trauma patients, including:

(A) Development and implementation of policies;

(B) Coordination of medical care;

(C) Determination of patient isolation;

(D) Authority for patient placement decisions;

(E) Equipment;

(F) Coordination of staff education;

(G) Coordination of statistics;

(H) Identification of criteria for reviewing quality of care on all critical care unit trauma patients, in conjunction with the trauma service medical director;

(b) A physician with special competence in critical care available in the critical care unit within five minutes of notification;

(c) A physician directed code team;

(d) Critical care unit registered nurses with special competence in trauma care, who:

(i) Are ACLS trained; and

(ii) Have successfully completed a trauma life support course as defined in WAC 246-976-885;

(e) If the facility is not designated as a pediatric trauma care service, have a written transfer agreement and guidelines for pediatric trauma patients;

(f) Equipment as described in WAC 246-976-620.

(6) Respiratory therapy available within five minutes of notification.

(7) A clinical laboratory technologist available within five minutes of notification;

(8) Clinical laboratory services, including:

(a) Standard analysis of blood, urine, and other body fluids;

(b) Coagulation studies;

(c) Blood gases and pH determination;

(d) Serum and urine osmolality;

(e) Microbiology;

(f) Serum alcohol and toxicology determination;

(g) Drug screening; and

(h) Microtechnique.

(9) Blood and blood-component services, including:

(a) Blood and blood components available from in-house or through community services, to meet patient needs;

(b) Noncrossmatched blood available on patient arrival in the emergency department;

(c) Blood typing and cross-matching;

(d) Policies and procedures for massive transfusion;

(e) Autotransfusion; and

(f) Blood storage capability.

(10) Radiological services, including:

(a) A technician available within five minutes of notification, able to perform the following:

(i) Computerized tomography; and

(ii) Routine radiological capabilities;

(b) A technician on-call and available within twenty minutes of notification, able to perform the following:

(i) Angiography of all types;

(ii) Sonography; and

(iii) Nuclear scanning.

(11) Acute dialysis capability, or written transfer agreements.

(12)(a) A physician-directed burn unit staffed by nursing personnel trained in burn care; and is equipped to care for extensively burned patients; or

(b) Written transfer guidelines in accordance with the guidelines of the American Burn Association, and transfer agreements for burn care.

(13) The ability to manage acute head and/or spinal cord injuries. Early transfer to an appropriate designated trauma rehabilitation service shall be considered.

(14) A trauma rehabilitation coordinator to facilitate the trauma patient's access to rehabilitation services.

(15)(a) A designated trauma rehabilitation service; or

(b) Written agreements to transfer patients to a designated trauma rehabilitation service when medically feasible.

(16) A heli-stop, landing zone, or airport located close enough to permit the facility to receive or transfer patients by fixed-wing or rotary-wing aircraft.

[Statutory Authority: Chapter 70.168 RCW. 02-12-107, § 246-976-510, filed 6/5/02, effective 7/6/02; 98-04-038, § 246-976-510, filed 1/29/98, effective 3/1/98; 93-20-063, § 246-976-510, filed 10/1/93, effective 11/1/93. WAC 246-976-520 Designation standards for facilities providing level I trauma care service—Outreach, public education, trauma care education, and research. A facility with a designated level I trauma care service shall have:

(1) An outreach program with telephone and on-site consultations with physicians of the community and outlying areas regarding trauma care;

(2) A public education program addressing injury prevention;

(3) Training, including:

(a) A formal program of continuing trauma care education for:

(i) Staff physicians;

(ii) Nurses;

(iii) Allied health care professionals;

(iv) Community physicians; and

(v) Prehospital personnel;

(b) Residency programs accredited by the accreditation council of graduate medical education, with a commitment to training physicians in trauma management;

(c) In-house initial and maintenance training of invasive manipulative skills for prehospital personnel;

(4) A trauma research program.

[Statutory Authority: Chapter 70.168 RCW. 98-04-038, § 246-976-520, filed 1/29/98, effective 3/1/98; 93-20-063, § 246-976-520, filed 10/1/93, effective 11/1/93. Statutory Authority: RCW 43.70.040 and chapters 18.71, 18.73 and 70.168 RCW. 93-01-148 (Order 323), § 246-976-520, filed 12/23/92, effective 1/23/93.]

WAC 246-976-550 Designation standards for facilities providing level II trauma care service—Administration and organization. A facility with a designated level II trauma care service shall have:

(1)(a) Organization and direction by a general surgeon with special competence in care of the injured. The service may have as codirector another physician with special competence in care of the injured;

(b) Ongoing coordination of the trauma care service by a registered nurse with special competence in care of the injured;

(c) A multidisciplinary trauma committee chaired by the trauma service director, with input to hospital management, including:

(i) An emergency physician;

(ii) An emergency department registered nurse;

(iii) A general surgeon with special competence in trauma care;

(iv) A neurosurgeon;

(v) An orthopaedic surgeon;

(vi) A pediatrician;

(vii) An anesthesiologist;

(viii) The physician director of the critical care service;

(ix) The trauma care service nurse coordinator;

(x) A critical care registered nurse; and

(xi) The trauma rehabilitation coordinator;

(d) The multidisciplinary trauma committee shall adopt an approved method to determine activation of the trauma team, as described in WAC 246-976-870;

(e) A trauma team to provide initial evaluation, resuscitation and treatment.

(i) The team shall be organized and directed by a general surgeon with special competence in care of the injured, and who assumes responsibility for coordination of overall care of the trauma patient;

(ii) All members of the team, except the surgeon and anesthesiologist, shall be available within five minutes of notification of team activation;

(iii) The team shall include:

(A) An emergency physician who is:

(I) Responsible for activating the team, using an approved method as defined in WAC 246-976-870; and

(II) Responsible for providing team leadership and care for the trauma patient until the arrival of the general surgeon in the resuscitation area;

(B) A general surgeon on-call and available within twenty minutes of notification of team activation, who shall assume responsibility for patient care upon arrival in the resuscitation area;

(iv) The trauma care service shall identify all other members of the team;

(f) Specific delineation of trauma surgery privileges by the medical staff.

(2) An emergency department with written standards of care to ensure immediate and appropriate care for adult and pediatric trauma patients.

(3) A surgery department, including:

(a) General surgery;

(b) A neurosurgical service. Coverage shall be available within five minutes of notification of team activation. In-house coverage shall be provided by:

(i) A neurosurgeon; or

(ii) A surgeon or other physician who has been judged competent by the neurosurgical consultants on staff to initiate measures to stabilize the patient, and to initiate diagnostic procedures; with a surgeon with neurosurgical privileges on-call and available within thirty minutes of notification of team activation;

(c) The following surgical services on-call and available within thirty minutes of request by the trauma team leader:

(i) Gynecologic surgery;

(ii) Hand surgery;

(iii) Obstetric surgery;

(iv) Ophthalmic surgery;

(v) Oral/maxillofacial or otorhinolaryngologic surgery;

(vi) Orthopaedic surgery;

(vii) Plastic surgery;

(viii) Thoracic surgery;

(ix) Urologic surgery; and

(x) Vascular surgery.

(4) Nonsurgical specialties, including:

(a) Anesthesiology, with an anesthesiologist who:

(i) Is ACLS trained, except this requirement shall not apply to a physician board-certified in anesthesiology;

(ii) Has completed the pediatric education requirement (PER) as defined in WAC 246-976-886; and

(iii) Is on-call and available within twenty minutes of notification of team activation;

(b) A radiologist on-call and available for patient service within twenty minutes of notification of team activation; and

(c) The following services on-call and available for patient consultation or management:

(i) Cardiology;

(ii) Gastroenterology;

(iii) Hematology;

(iv) Infectious disease specialists;

(v) Internal medicine;

(vi) Nephrology;

(vii) Neurology;

(viii) Pathology;

(ix) Pediatrics; and

(x) Pulmonology.

(5) Written policy and procedures for access to ancillary services, including:

(a) Chemical dependency services;

(b) Child and adult protection services;

(c) Clergy or pastoral care;

(d) Nutritionist services;

(e) Occupational therapy services;

(f) Pharmacy;

(g) Physical therapy services;

(h) Rehabilitation services;

(i) Social services; and

(j) Speech therapy services.

(6) A pediatric trauma policy that:

(a) Provides for initial stabilization and resuscitation of pediatric trauma patients, including emergency department and surgical interventions; and

(b) If the facility is not designated as a pediatric trauma care service, identifies and establishes its scope of pediatric trauma care, including but not limited to:

(i) Criteria for admission of pediatric patients;

(ii) Written transfer guidelines and agreements for pediatric trauma patients requiring critical care services.

(7) A written policy and procedures to divert patients to other designated trauma care services. The policy shall be based on criteria which reflect the service's ability to resuscitate and stabilize each patient at a particular time.

(8) A trauma registry as required in WAC 246-976-430.

(9) A quality assurance program in accordance with WAC 246-976-880; and cooperate with regional trauma care quality assurance programs throughout the state established pursuant to WAC 246-976-910.

(10) Interfacility transfer guidelines and agreements consistent with WAC 246-976-890.

[Statutory Authority: Chapter 70.168 RCW. 02-12-107, § 246-976-550, filed 6/5/02, effective 7/6/02; 98-04-038, § 246-976-550, filed 1/29/98, effective 3/1/98. Statutory Authority: RCW 43.70.040 and chapters 18.71, 18.73 and 70.168 RCW. 93-01-148 (Order 323), § 246-976-550, filed 12/23/92, effective 1/23/93.]

WAC 246-976-560 Designation standards for facilities providing level II trauma care service—Basic resources and capabilities. A facility with a designated level II trauma care service shall have:

(1) An emergency department, with:

(a) A physician director who:

(i) Is board-certified in emergency medicine or other relevant specialty;

(ii) Is ATLS and ACLS trained, except this requirement shall not apply to a physician board-certified in emergency medicine; and

(iii) Has completed the pediatric education requirement (PER) as defined in WAC 246-976-886, except that this requirement shall not apply to a physician board-certified in pediatric emergency medicine.

(b) Physicians who:

(i) Are board-certified in emergency medicine, or board-certified in a specialty and practicing emergency medicine as their primary practice with special competence in care of trauma patients;

(ii) Are available within five minutes of patient's arrival in the emergency department;

(iii) Are ATLS and ACLS trained, except this requirement shall not apply to a physician board-certified in emergency medicine;

(iv) Have completed the PER as defined in WAC 246-976-886, except this requirement shall not apply to a physician board-certified in pediatric emergency medicine; and

(v) Are designated as members of the trauma team;

(c) Registered nurses who:

(i) Are ACLS trained;

(ii) Have completed the PER as defined in WAC 246-976-886;

(iii) Have successfully completed a trauma life support course as defined in WAC 246-976-885; and

(iv) Are in the emergency department and available within five minutes of patient's arrival in the emergency department;

(d) An area designated for adult and pediatric resuscitation, with equipment for resuscitation and life support of pediatric and adult trauma patients, including equipment as described in WAC 246-976-620;

(e) Routine radiological capabilities by a technician available within five minutes of notification of team activation.

(2) A surgery department, including:

(a) An attending general surgeon on-call and available within twenty minutes of notification of team activation. The attending surgeon shall:

(i) Provide trauma team leadership upon arrival in the resuscitation area;

(ii) Be board-certified;

(iii) Have trauma surgery privileges as delineated by the medical staff; or

(b) A postgraduate year four or above surgical resident may initiate evaluation and treatment upon the patient's arrival in the emergency department until the arrival of the attending surgeon. The attending surgeon shall be available within twenty minutes upon notification of team activation. The resident shall have ATLS training and have completed the PER as defined in WAC 246-976-886;

(c) All general surgeons who are responsible for care and treatment of trauma patients shall:

(i) Be trained in ATLS and ACLS, except this requirement shall not apply to a physician board-certified in surgery; and

(ii) Have completed the PER as defined in WAC 246-976-886.

(3) An operating room available within five minutes of notification of team activation, with:

(a) A registered nurse or designee of the operating room staff who is available within five minutes of notification of team activation to open the operating room, and to coordinate responsibilities to ensure the operating room is ready for surgery upon arrival of the patient, the surgeon, and the anesthesiologist;

(b) Other essential personnel on-call and available within twenty minutes of notification of team activation;

(c) A written policy providing for mobilization of additional surgical teams for trauma patients; and

(d) Instruments and equipment appropriate for pediatric and adult surgery, including equipment as described in WAC 246-976-620.

(4) A post anesthetic recovery unit with:

(a) Essential personnel, including at least one registered nurse, on-call and available twenty-four hours a day;

(b) Nurses ACLS trained;

(c) Nurses who have completed the PER as defined in WAC 246-976-886; and

(d) Appropriate monitoring and resuscitation equipment.

(5) A critical care service, with:

(a) A medical director who is:

(i) Board-certified in surgery, internal medicine, or anesthesiology, with special competence in critical care; and

(ii) Responsible for coordinating with the attending staff for the care of trauma patients, including:

(A) Development and implementation of policies;

(B) Coordination of medical care;

(C) Determination of patient isolation;

(D) Authority for patient placement decisions;

(E) Equipment;

(F) Coordination of staff education;

(G) Coordination of statistics;

(H) Identification of criteria for reviewing quality of care on all critical care unit trauma patients, in conjunction with the trauma service medical director;

(b) A physician available in the critical care unit within five minutes of notification;

(c) A physician directed code team;

(d) Critical care unit registered nurses with special competence in trauma care, who:

(i) Are ACLS trained;

(ii) Have successfully completed a trauma life support course as defined in WAC 246-976-885;

(e) If the facility is not designated as a pediatric trauma care service, have a written transfer agreement and guidelines for pediatric trauma patients;

(f) Equipment as described in WAC 246-976-620.

(6) Respiratory therapy available within five minutes of notification.

(7) A clinical laboratory technologist available within five minutes of notification.

(8) Clinical laboratory services, including:

(a) Standard analysis of blood, urine, and other body fluids;

(b) Coagulation studies;

(c) Blood gases and pH determination;

(d) Serum and urine osmolality;

(e) Microbiology;

(f) Serum alcohol and toxicology determination;

(g) Drug screening; and

(h) Microtechnique.

(9) Blood and blood-component services, including:

(a) Blood and blood components available from in-house or through community services, to meet patient needs;

(b) Noncrossmatched blood available on patient arrival in emergency department;

(c) Blood typing and cross-matching;

(d) Policies and procedures for massive transfusion;

(e) Autotransfusion; and

(f) Blood storage capability.

(10) Radiological services, including:

(a) A technician available within five minutes of notification, able to perform routine radiological procedures;

(b) A technician on-call and available within twenty minutes of notification, able to perform the following:

(i) Computerized tomography;

(ii) Angiography of all types; and

(iii) Sonography.

(11) Acute dialysis capability, or written transfer agreements.

(12)(a) A physician-directed burn unit staffed by nursing personnel trained in burn care; and equipped to care for extensively burned patients; or

(b) Written transfer guidelines in accordance with the guidelines of the American Burn Association, and transfer agreements for burn care.

(13)(a) The ability to manage acute head and/or spinal cord injuries or;

(b) Have written transfer guidelines and agreements for head and spinal cord injuries.

(c) Early transfer to an appropriate designated trauma rehabilitation service shall be considered.

(14) A trauma rehabilitation coordinator to facilitate the trauma patient's access to rehabilitation services.

(15)(a) A designated trauma rehabilitation service; or

(b) Written agreements to transfer patients to a designated trauma rehabilitation service when medically feasible.

(16) A heli-stop, landing zone, or airport located close enough to permit the facility to receive or transfer patients by fixed-wing or rotary-wing aircraft.

[Statutory Authority: Chapter 70.168 RCW. 02-12-107, § 246-976-560, filed 6/5/02, effective 7/6/02; 98-19-107, § 246-976-560, filed 9/23/98, effective 10/24/98; 98-04-038, § 246-976-560, filed 1/29/98, effective 3/1/98; 93-20-063, § 246-976-560, filed 10/1/93, effective 11/1/93. Statutory Authority: RCW 43.70.040 and chapters 18.71, 18.73 and 70.168 RCW. 93-01-148 (Order 323), § 246-976-560, filed 12/23/92, effective 1/23/93.]

WAC 246-976-570 Designation standards for facilities providing level II trauma care service—Outreach, public education and trauma care education. A facility with a designated level II trauma care service shall have:

(1) An outreach program with telephone and on-site consultations with physicians of the community and outlying areas regarding trauma care;

(2) A public education program addressing injury prevention;

(3) A formal program of continuing trauma care education for:

(a) Staff physicians;

(b) Nurses;

(c) Allied health care professionals;

(d) Community physicians; and

(e) Prehospital personnel;

(4) Make the facility available for initial and maintenance training of invasive manipulative skills for prehospital personnel.

[Statutory Authority: Chapter 70.168 RCW. 98-04-038, § 246-976-570, filed 1/29/98, effective 3/1/98. Statutory Authority: RCW 43.70.040 and chapters 18.71, 18.73 and 70.168 RCW. 93-01-148 (Order 323), § 246-976-570, filed 12/23/92, effective 1/23/93.]

WAC 246-976-600 Designation standards for facilities providing level III trauma care service—Administration and organization. A facility with a designated level III trauma care service shall have:

(1)(a) Organization and direction by a general surgeon or other physician with special competence in care of the injured. The service may have as codirector another physician with special competence in care of the injured;

(b) Ongoing coordination of the trauma care service by a registered nurse with special competence in care of the injured;

(c) A multidisciplinary trauma committee chaired by the trauma service director, with input to hospital management, including:

(i) An emergency physician;

(ii) An emergency department registered nurse;

(iii) A general surgeon with special competence in trauma care;

(iv) An orthopaedic surgeon;

(v) A pediatrician;

(vi) An anesthesiologist;

(vii) The physician director of the critical care service;

(viii) The trauma care service nurse coordinator;

(ix) A critical care registered nurse; and

(x) The trauma rehabilitation coordinator.

(d) The multidisciplinary trauma committee shall adopt an approved method to determine activation of the trauma team, as described in WAC 246-976-870.

(e) A trauma team to provide initial evaluation, resuscitation and treatment.

(i) The team shall be organized and directed by a general surgeon with special competence in care of the injured, and who assumes responsibility for coordination of overall care of the trauma patient;

(ii) All members of the team, except the surgeon and anesthesiologist or CRNA (if a member of the team), shall be available within five minutes of notification of team activation;

(iii) The team shall include:

(A) An emergency physician who is:

(I) Responsible for activating the trauma team, using an approved method as defined in WAC 246-976-870; and

(II) Responsible for providing team leadership and care for the trauma patient until the arrival of the general surgeon in the resuscitation area;

(B) A general surgeon on-call and available within thirty minutes of notification of team activation, who shall assume responsibility for patient care upon arrival in the resuscitation area;

(iv) The trauma care service shall identify all other members of the team.

(f) Specific delineation of trauma surgery privileges by the medical staff.

(2) An emergency department with written standards of care to ensure immediate and appropriate care for adult and pediatric trauma patients.

(3) A surgery department, including:

(a) General surgery;

(b)(i) Written transfer guidelines and agreements for head and spinal cord injuries; or

(ii) Neurosurgery, with a neurosurgeon on-call and available within thirty minutes of notification of team activation.

(c)(i) Have written transfer guidelines and procedures for patients requiring orthopaedic surgery; or

(ii) Orthopaedic surgery, with an orthopaedic surgeon on-call and available within thirty-minutes of request by the trauma team leader.

(4) Nonsurgical specialties, including:

(a) Anesthesiology, with an anesthesiologist or certified registered nurse anesthetist who:

(i) Is ACLS trained, except this requirement shall not apply to a physician board-certified in anesthesiology;

(ii) Has completed the pediatric education requirement (PER) as defined in WAC 246-976-886;

(iii) Is on-call and available within thirty minutes of notification of team activation;

(b) A radiologist on-call and available for patient service within thirty minutes of notification of team activation.

(c) The following services on-call and available for patient consultation or management:

(i) Internal medicine; and

(ii) General pediatrics, with board-certified pediatricians available for pediatric patient consultation or management.

(5) Written policy and procedures for access to ancillary services, including:

(a) Chemical dependency services;

(b) Child and adult protection services;

(c) Clergy or pastoral care;

(d) Nutritionist services;

(e) Occupational therapy services;

(f) Pharmacy services;

(g) Physical therapy services;

(h) Rehabilitation services;

(i) Social services.

(6) A pediatric trauma policy that:

(a) Provides for initial stabilization and resuscitation of pediatric trauma patients including emergency department and surgical interventions; and

(b) If the facility is not designated as a pediatric trauma care service, identifies and establishes its scope of pediatric trauma care, including but not limited to:

(i) Criteria for admission of pediatric patients;

(ii) Written transfer guidelines and agreements for pediatric trauma patients requiring critical care services.

(7) A written policy and procedure to divert patients to other designated trauma care services. The policy shall be based on criteria which reflect the service's ability to resuscitate and stabilize each patient at a particular time.

(8) A trauma registry as required in WAC 246-976-430.

(9) A quality assurance program in accordance with WAC 246-976-880; and cooperate with regional trauma care quality assurance programs throughout the state established pursuant to WAC 246-976-910.

(10) Interfacility transfer guidelines and agreements consistent with WAC 246-976-890.

[Statutory Authority: Chapter 70.168 RCW. 02-12-107, § 246-976-600, filed 6/5/02, effective 7/6/02; 98-04-038, § 246-976-600, filed 1/29/98, effective 3/1/98; 93-20-063, § 246-976-600, filed 10/1/93, effective 11/1/93. Statutory Authority: RCW 43.70.040 and chapters 18.71, 18.73 and 70.168 RCW. 93-01-148 (Order 323), § 246-976-600, filed 12/23/92, effective 1/23/93.]

WAC 246-976-610 Designation standards for facilities providing level III trauma care service—Basic resources and capabilities. A facility with a designated level III trauma care service shall have:

(1) An emergency department with:

(a) A physician director who:

(i) Is board-certified in emergency medicine, or other relevant specialty;

(ii) Is ATLS and ACLS trained, except this requirement shall not apply to a physician board-certified in emergency medicine;

(iii) Has completed the pediatric education requirement (PER) as defined in WAC 246-976-886, except this requirement shall not apply to a physician board-certified in pediatric emergency medicine.

(b) Physicians who:

(i) Have special competence in the resuscitation and care of trauma patients;

(ii) Are available within five minutes of patient's arrival in the emergency department;

(iii) Are ATLS and ACLS trained, except this requirement shall not apply to a physician board-certified in emergency medicine;

(iv) Have completed the PER as defined in WAC 246-976-886, except this requirement shall not apply to a physician board-certified in pediatric emergency medicine; and

(v) Are designated as members of the trauma team;

(c) Registered nurses who:

(i) Are ACLS trained;

(ii) Have completed the PER as defined in WAC 246-976-886;

(iii) Have successfully completed a trauma life support course as defined in WAC 246-976-885; and

(iv) Are in the emergency department and available within five minutes of patient's arrival in the emergency department;

(d) An area designated for adult and pediatric resuscitation, with equipment for resuscitation and life support of pediatric and adult trauma patients, including equipment as described in WAC 246-976-620.

(e) Routine radiological capabilities by a technician available within twenty minutes of notification of team activation.

(2) A surgery department, including an attending general surgeon who:

(a) Is on-call and available within thirty minutes of notification of team activation;

(b) Has general surgery privileges;

(c) Has ATLS and ACLS training, except this requirement shall not apply to a physician board-certified in surgery; and

(d) Has completed the PER as defined in WAC 246-976-886.

(3) An operating room available within five minutes of notification of team activation, with:

(a) A registered nurse or designee of the operating room staff who is available within five minutes of notification of team activation to open the operating room, and to coordinate responsibilities to ensure the operating room is ready for surgery upon arrival of the patient, the surgeon, and the anesthesiologist;

(b) Other essential personnel on-call and available within thirty minutes of notification of team activation;

(c) A written policy providing for mobilization of additional surgical teams for trauma patients; and

(d) Instruments and equipment appropriate for pediatric and adult surgery, including equipment as described in WAC 246-976-620.

(4) A post anesthetic recovery unit with:

(a) Essential personnel on-call and available twenty-four hours a day;

(b) Nurses ACLS trained;

(c) Nurses who have completed the PER as defined in WAC 246-976-886; and

(d) Appropriate monitoring and resuscitation equipment.

(5) A critical care service, with:

(a) A medical director who is:

(i) Board-certified in surgery, internal medicine, or anesthesiology, with special competence in critical care;

(ii) Responsible for coordinating with the attending staff for the care of trauma patients, including:

(A) Development and implementation of policies;

(B) Coordination of medical care;

(C) Determination of patient isolation;

(D) Authority for patient placement decisions;

(E) Equipment;

(F) Coordination of staff education;

(G) Coordination of statistics;

(H) Identification of criteria for reviewing quality of care on all critical care unit trauma patients, in conjunction with the trauma service medical director;

(b) A physician-directed code team;

(c) Critical care unit registered nurses with special competence in trauma care, who:

(i) Are ACLS trained; and

(ii) Have successfully completed a trauma life support course as defined in WAC 246-976-885;

(d) If the facility is not designated as a pediatric trauma care service, have a written transfer agreement and guidelines for pediatric trauma patients requiring critical care services;

(e) Equipment as described in WAC 246-976-620.

(6) Respiratory therapy on-call and available within thirty minutes of notification.

(7) A clinical laboratory technologist available within twenty minutes of notification.

(8) Clinical laboratory services, including:

(a) Standard analysis of blood, urine, and other body fluids;

(b) Coagulation studies;

(c) Blood gases and pH determination;

(d) Microbiology;

(e) Serum alcohol and toxicology determination; and

(f) Microtechnique.

(9) Blood and blood-component services, including:

(a) Blood and blood components available from in-house or through community services, to meet patient needs;

(b) Noncrossmatched blood available on patient arrival in emergency department;

(c) Blood typing and cross-matching;

(d) Policies and procedures for massive transfusion;

(e) Autotransfusion; and

(f) Blood storage capability.

(10) Radiological services with a technician on-call and available within twenty minutes of notification, able to perform:

(a) Routine radiological procedures; and

(b) Computerized tomography.

(11) Acute dialysis capability, or written transfer agreements.

(12) Ability to resuscitate and stabilize burn patients, and have written transfer guidelines in accordance with the guidelines of the American Burn Association, and transfer agreements for burn care.

(13) Ability to resuscitate and stabilize head and spinal cord injuries, and have:

(a) Written transfer guidelines and agreements for patients with head or spinal cord injuries; or

(b) Neurosurgery, with a neurosurgeon on-call and available within thirty minutes of request by the trauma team leader.

(c) Early transfer to an appropriate designated trauma rehabilitation service shall be considered.

(14) A trauma rehabilitation coordinator to facilitate the trauma patient's access to rehabilitation services.

(15)(a) A designated trauma rehabilitation service; or

(b) Written agreements to transfer patients to a designated trauma rehabilitation service when medically feasible.

(16)(a) A heli-stop, landing zone, or airport located close enough to permit the facility to receive or transport patients by fixed-wing or rotary-wing aircraft; or

(b) A written policy and procedures addressing the receipt of patients by air, and transfer of patients to other designated trauma services by ground or air.

[Statutory Authority: Chapter 70.168 RCW. 02-12-107, § 246-976-610, filed 6/5/02, effective 7/6/02; 98-19-107, § 246-976-610, filed 9/23/98, effective 10/24/98; 98-04-038, § 246-976-610, filed 1/29/98, effective 3/1/98; 93-20-063, § 246-976-610, filed 10/1/93, effective 11/1/93. WAC 246-976-615 Designation standards for facilities providing level III trauma care service—Trauma care education. A facility with a designated level III trauma care service shall:

(1) Have a public education program addressing injury prevention;

(2) Make the facility available for initial and maintenance training of invasive manipulative skills for prehospital personnel.

[Statutory Authority: Chapter 70.168 RCW. 98-04-038, § 246-976-615, filed 1/29/98, effective 3/1/98.]

WAC 246-976-620 Equipment requirements for levels I - III and levels I - III pediatric trauma care services. A facility providing level I - III or level I - III pediatric trauma care services shall have the following equipment:

(1) In the emergency department:

(a) Airway control and ventilation equipment, including:

(i) Airways, neonate to adult;

(ii) Laryngoscopes, including curved and straight blades, size 0-4;

(iii) Endotracheal tubes size 2.5 to 8.0 with stylets available;

(iv) Bag-valve-mask resuscitator, neonate, child and adult;

(v) Pulse oximeter with infant, child, and adult probes;

(vi) CO_2 measurement;

(vii) Sources of oxygen;

(viii) Ability to provide mechanical ventilation;

(b) Suction devices, including:

(i) Back up suction source;

(ii) Pediatric and adult suction catheters, size 5.0 to 14 fr; and

(iii) Tonsil tip suction;

(c) Cardiac monitoring devices, including:

(i) Cardiac monitor;

(ii) Defibrillator, including pediatric paddles;

(iii) Electrocardiograph;

(iv) Portable transport monitor with ECG;

(v) Blood pressure cuffs, neonate, infant, child, adult;

(vi) Noninvasive blood pressure monitor; and

(vii) Doppler device;

(d) Intravenous supplies, including:

(i) Standard apparatus to establish central venous pressure monitoring;

(ii) Standard intravenous fluids and administration devices, including:

(A) Intravenous catheters: Size 24g to 14g;

(B) Intraosseous needles;

(C) Umbilical catheters: Size 5.0 - 8.0;

(D) Infusion controllers or pumps;

(iii) Pediatric and adult dosages/dilutions of medications;

(e) Sterile surgical sets appropriate for pediatric and adult patients, for standard emergency department procedures, including:

(i) Thoracotomy set;

(ii) Chest tubes, sizes 10-36 with sealing devices;

(iii) Emergency surgical airway set;

(iv) Peritoneal lavage set;

(v) Cutdown set;

(f) Gastric supplies, including:

(i) Gastric lavage equipment;

(ii) Nasogastric tubes, size 10 fr to 18 fr;

(g) Ability to provide thermal control equipment, including:

(i) Patient warming/cooling device;

(ii) Blood and fluid warming device;

(iii) Expanded scale thermometer capable of detecting hypothermia;

(iv) Device for assuring maintenance of infant warmth during evaluation and transport;

(h) Immobilization equipment, including:

(i) Traction splint;

(ii) Rigid cervical collars;

(iii) Cervical injury immobilization device;

(iv) Long-bone stabilization device; and

(v) Backboard;

(i) Other equipment, including:

(i) Urinary bladder catheters;

(ii) Infant scale for accurate weight measurement under twenty-five pounds;

(iii) Medication chart, tape or other system to assure ready access to information on proper dose-per-kilogram for resuscitation drugs and equipment sizes for pediatric patients; and

(iv) Two-way radio linked with EMS vehicles from trauma facility;

(2) In the surgery department, instruments and equipment or capabilities appropriate for pediatric and adult surgery (in levels I - III) or pediatric surgery (in pediatric levels I - III), including:

(a) Cardiopulmonary bypass (level I and pediatric level I only);

(b) Ability to provide thermal control equipment for:

(i) Patient warming/cooling;

(ii) Blood and fluid warming;

(c) Rapid infusion capability;

(d)(i) For level I and II and level I and II pediatric trauma care services, intraoperative autologous blood recovery and transfusion;

(ii) For level III and level III pediatric trauma care services, autologous blood recovery and transfusion;

(e) Ability to provide bronchoscopic capability in the operating room;

(f) Ability to provide endoscopes;

(g) Craniotomy set; except this is not required for level III or level III pediatric trauma care services; and

(h) Monitoring equipment;

(3) In the critical care unit for levels I - III, equipment appropriate for adult patients, including:

(a) Airway control and ventilation devices;

(b) Oxygen source with concentration controls;

(c) Cardiac emergency cart;

(d) Cardiac pacing capabilities;

(e) Electrocardiograph-cardiac monitor-defibrillator;

(f) Cardiac output monitoring;

(g) Electronic pressure monitoring;

(h) Ability to provide mechanical ventilator;

(i) Ability to provide patient weighing devices;

(j) Ability to provide thermal control equipment for:

(i) Patient warming/cooling;

(ii) Blood and fluid warming;

(k) Intracranial pressure monitoring devices, except this is not required in level III or level III pediatric trauma care services;

(4) In the critical care unit for level I - III pediatrics:

(a) Airway control and ventilation equipment, including:

(i) Oral and nasopharyngeal airways, all sizes neonate to adult (NOTE: Neonate and infants can use ETT for NP airway);

(ii) Laryngoscopes with curved and straight blades, size 0-4;

(iii) Endotracheal tubes size 2.5 to 8.0, with stylets available;

(iv) Bag-valve-mask resuscitators: Neonate, child, adult;

(v) Mechanical ventilator appropriate for entire pediatric spectrum;

(vi) Noninvasive oximetry and capnometry;

(b) Suction devices, including:

(i) Suction machine;

(ii) Suction catheters size 5.0 to 14 fr;

(iii) Tonsil tip suction;

(c) Cardiac monitoring devices, including:

(i) Cardiac monitor with capability to continuously monitor: Heart rate, respiration, temperature, and at least two pressure monitoring modules;

(ii) Hard copy monitor recording capabilities;

(iii) Defibrillator with pediatric paddles;

(iv) Electrocardiograph; and

(v) Portable transport monitor with ECG and pressure monitoring capability;

(d) Intravenous supplies, including:

(i) Standard apparatus to establish central venous pressure monitoring;

(ii) Standard IV fluids and administration devices appropriate for pediatric patients including:

(A) IV catheters: Size 24g to 16g;

(B) Intraosseous needles;

(C) Infusion sets and pumps with micro-infusion capabilities;

(D) Infusion controllers;

(iii) Pediatric dosages/dilutions of medications;

(e) Sterile surgical sets appropriate for pediatric patients, including:

(i) Thoracotomy set;

(ii) Chest tubes; (sizes 10 to 36);

(iii) Emergency surgical airway sets;

(iv) Peritoneal lavage set;

(v) Cutdown set;

(vi) Lumbar puncture set;

(f) Gastric supplies, including NG tubes: Size 10 fr to 16 fr;

(g) Ability to provide thermal control equipment, including:

(i) Temperature controlled heating units with or without open crib;

(ii) Heating/cooling blanket;

(iii) Heat lamp;

(iv) Blood and fluid warming device;

(v) Expanded scale thermometer capable of detecting hypothermia;

(vi) Device for assuring maintenance of infant warmth during transport;

(h) Equipment specific to pediatric trauma care including:

(i) Urinary bladder catheters;

(ii) Otoscope/ophthalmoscope;

(iii) Refractometer;

(iv) Blood pressure cuffs: Neonate, infant, child, adult;

(v) Doppler device;

(vi) Noninvasive blood pressure machine;

(vii) Ability to provide patient weighing devices including an infant scale for accurate weight measurement under twenty-five pounds;

(viii) Provision for life support with emergency cardiopulmonary arrest cart.

[Statutory Authority: Chapter 70.168 RCW. 98-04-038, § 246-976-620, filed 1/29/98, effective 3/1/98.]

WAC 246-976-640 Designation standards for facilities providing level IV trauma care services—Administration and organization. A facility with a designated level IV trauma care service shall:

(1) Define a system for providing emergency care twenty-four hours every day, which shall include ongoing coordination by a registered nurse;

(2) Establish emergency care services consistent with community needs, the approved regional plan, and within the facility's capabilities. The service shall have a policy that identifies and establishes its scope of trauma care for both adult and pediatric patients, including but not limited to:

(a) Initial resuscitation and stabilization;

(b) Admission criteria;

(c) Surgical capabilities;

(d) Critical care capabilities;

(e) Rehabilitation capabilities;

(3) Have a method of activating trauma-response personnel consistent with the scope of trauma care and in keeping with the goals of WAC 246-976-870;

(4) Have a written policy and procedures to divert trauma patients to other designated trauma care services. The policy shall be based on criteria which reflect the ability of the service to accept, resuscitate and stabilize each patient at a particular time, and shall include notification of prehospital providers of the facility's diversion status;

(5) Have interfacility transfer guidelines and agreements consistent with WAC 246-976-890;

(6) Participate in the state trauma registry as required in WAC 246-976-430, with a person identified as responsible for coordination of trauma registry activities;

(7) Have a quality assurance program in accordance with WAC 246-976-881; and

(8) Participated in the regional trauma quality assurance program as required in WAC 246-976-910.

[Statutory Authority: Chapter 70.168 RCW. 98-04-038, § 246-976-640, filed 1/29/98, effective 3/1/98. Statutory Authority: RCW 43.70.040 and chapters 18.71, 18.73 and 70.168 RCW. 93-01-148 (Order 323), § 246-976-640, filed 12/23/92, effective 1/23/93.]

WAC 246-976-650 Designation standards for facilities providing level IV trauma care services—Basic resources and capabilities. A facility with a designated level IV trauma care service shall have:

(1) An emergency department with:

(a) A physician with special competence in resuscitation, care and treatment of trauma patients, who:

(i) Is on-call and available within twenty minutes of notification;

(ii) Is responsible for activating trauma-response personnel;

(iii) Is ATLS and ACLS trained, except this requirement shall not apply to a physician board-certified in emergency medicine; and

(iv) Has completed the pediatric education requirement (PER) as defined in WAC 246-976-886, except this requirement shall not apply to a physician board-certified in emergency medicine or pediatric emergency medicine;

(b) A registered nurse in-house and available within five minutes of notification, who:

(i) Is ACLS trained;

(ii) Has successfully completed a trauma life support course as defined in WAC 246-976-885; and

(iii) Has completed the PER as defined in WAC 246-976-886;

(c) Basic emergency services including:

(i) Assessment of the patient's condition;

(ii) Determination of the nature and urgency of the patient's medical need, including the timing and place of care; and

(iii) Diagnosis and treatment of any life threatening condition, including procedures to minimize aggravation of the patient's condition during transport to another designated trauma care service;

(d) Equipment available for resuscitation and life support of adult and pediatric trauma patients, including:

(i) Airway control and ventilation equipment including:

(A) Airways, neonatal to adult;

(B) Laryngoscope, including curved and straight blades, sizes 0-4;

(C) Endotracheal tubes sizes 2.5 to 8.0, with stylets;

(D) Bag-valve-mask resuscitator sizes neonatal, child and adult;

(E) Sources of oxygen;

(F) Pulse oximeter with infant, child and adult probes; and

(G) Suction devices;

(ii) Cardiac monitoring devices, including:

(A) Electrocardiograph;

(B) Cardiac monitor;

(C) Defibrillator with pediatric paddles;

(iii) Standard intravenous fluids and administering devices, including:

(A) Intravenous catheters, size 24g to 14g;

(B) Intraosseous needles;

(C) Infusion control device;

(iv) Gastric lavage equipment;

(v) Drugs and supplies necessary for adult and pediatric emergency care;

(vi) Medication chart, tape, or other system to assure ready access to information on proper dose-per-kilogram for resuscitation drugs and equipment sizes for pediatric patients;

(vii) Immobilization devices, including:

(A) Cervical injury immobilization devices, adult and pediatric sizes;

(B) Long-bone stabilization device; and

(C) Backboard;

(viii) Ability to provide thermal control equipment for:

(A) Patient warming and cooling;

(B) Blood warming and cooling;

(ix) Other equipment:

(A) Sterile surgical sets for procedures standard for emergency department;

(B) Two-way radio linked with EMS/TC vehicles;

(e) Routine radiological capabilities by a technician available within twenty minutes of notification of activation of trauma response personnel.

(2) If the service's scope of trauma care defined under WAC 246-976-640(2) includes surgery and/or critical care capabilities, it shall have:

(a) Staff, including:

(i) A physician on-call and available within thirty minutes of notification of activation of trauma response personnel, who:

(A) Has specific delineation of surgical privileges by the medical staff for resuscitation, stabilization and treatment of major trauma patients;

(B) Is ATLS and ACLS trained, except this requirement shall not apply to a physician board-certified in surgery; and

(C) Is responsible for coordinating care and transfer of trauma patients;

(ii) Anesthesiology, with an anesthesiologist or certified registered nurse anesthetist, who:

(A) Has ACLS training, except this requirement shall not apply to a physician board-certified in anesthesiology; and

(B) Is on-call and available within thirty minutes of notification of activation of trauma response personnel;

(b) An operating room with a registered nurse or designee of the operating room staff who is available within five minutes of notification of activation of trauma response personnel, to open the operating room, and to coordinate responsibilities to ensure the operating room is ready for surgery upon arrival of the patient, the surgeon, and the anesthesiologist;

(c) Other essential personnel on-call and available within thirty minutes of notification;

(d) The operating room shall have available:

(i) Ability to provide thermal control equipment for:

(A) Patient warming;

(B) Blood and fluid warming;

(ii) Radiological capabilities;

(iii) Ability to provide endoscopes appropriate to trauma resuscitation; and

(iv) Monitoring equipment;

(e) Post anesthetic recovery services, with:

(i) Essential personnel on-call and available twenty-four hours every day;

(ii) Nurses ACLS trained;

(iii) Appropriate monitoring and resuscitation equipment;

(3)(a) A critical care unit which meets requirements for a designated level III trauma service as described in WAC 246-976-610; or

(b) Written transfer guidelines and agreements with designated trauma care services for patients requiring critical care;

(4) Clinical laboratory services available, for:

(a) Standard analysis of blood, urine, and other body fluids;

(b) Blood gases and pH determination;

(5) Blood and blood-component services, including:

(a) Blood and blood components available in-house or through community services, to meet patient needs in a timely fashion;

(b) Policies and procedures for massive transfusions; and

(c) Blood storage capability;

(6) Acute dialysis capabilities, or have written transfer guidelines and agreements for dialysis service;

(7) Ability to resuscitate and stabilize burn patients; and have written transfer guidelines in accordance with the guidelines of the American Burn Association, and agreements for burn care;

(8) Ability to resuscitate and stabilize acute head and/or spinal cord injuries; and

(a) Written transfer guidelines and agreements for patients with head or spinal cord injuries; or

(b) Have neurosurgery, with a neurosurgeon on-call and available within thirty minutes of request by the emergency department physician; or

(c) Early transfer to an appropriate designated trauma rehabilitation facility shall be considered;

(9) A qualified person assigned to coordinate trauma rehabilitation activities and referrals;

(10) A written plan addressing receipt and transfer of patients by fixed-wing and rotary-wing aircraft.

[Statutory Authority: Chapter 70.168 RCW. 02-12-107, § 246-976-650, filed 6/5/02, effective 7/6/02; 98-19-107, § 246-976-650, filed 9/23/98, effective 10/24/98; 98-04-038, § 246-976-650, filed 1/29/98, effective 3/1/98; 93-20-063, § 246-976-650, filed 10/1/93, effective 11/1/93. WAC 246-976-680 Designation standards for facilities providing level V trauma care services—Administration and organization. A facility with a designated level V trauma care service shall:

(1) Have written policies and procedures for providing emergency care, twenty-four hours every day for adult and pediatric trauma patients; and

(2) Establish emergency care services consistent with community needs, the approved regional plan, and within the facilities capabilities. The service shall have a policy that identifies and establishes its scope of trauma care for both adult and pediatric trauma patients, including but not limited to:

(a) Initial resuscitation and stabilization;

(b) Admission criteria;

(3) Have a method of activating trauma-response personnel consistent with the scope of trauma care and in keeping with the goals of WAC 246-976-870;

(4) Participate in the state trauma registry as required in WAC 246-976-430;

(5) Have a written policy and procedures to divert patients to other designated trauma care services. The policy shall be based on criteria which reflect the ability of the service to resuscitate and stabilize each patient at a particular time; and

(6) Have interfacility transfer guidelines and agreements consistent with WAC 246-976-890;

(7) Have a quality assurance program in accordance with WAC 246-976-881;

(8) Participate in the regional trauma quality assurance program as required in WAC 246-976-910.

[Statutory Authority: Chapter 70.168 RCW. 98-04-038, § 246-976-680, filed 1/29/98, effective 3/1/98; 93-20-063, § 246-976-680, filed 10/1/93,

effective 11/1/93. Statutory Authority: RCW 43.70.040 and chapters 18.71, 18.73 and 70.168 RCW. 93-01-148 (Order 323), § 246-976-680, filed 12/23/92, effective 1/23/93.]

WAC 246-976-690 Designation standards for facilities providing level V trauma care service—Basic resources and capabilities. A facility with a designated level V trauma care service shall have:

(1) A physician, physician assistant registered in accordance with chapter 18.71 RCW, or advanced registered nurse practitioner, on-call and available within twenty minutes of notification, who has ATLS training, except the ATLS requirement shall not apply to a physician board-certified in emergency medicine or board-certified in surgery;

(2) Equipment for resuscitation and life support of adult and pediatric trauma patients, including:

(a) Airway control and ventilation equipment, including:

(i) Airways, neonate to adult;

(ii) Laryngoscope, including curved and straight blades, sizes 0-4;

(iii) Endotracheal tubes available, sizes 2.5 to 8.0, with stylets;

(iv) Bag-valve-mask resuscitator, sizes neonatal, child, and adult;

(v) Sources of oxygen;

(vi) Pulse oximeter with infant, child and adult probes; and

(vii) Suction devices;

(b) Cardiac monitoring devices, including:

(i) Electrocardiograph;

(ii) Cardiac monitor;

(iii) Defibrillator, with pediatric paddles;

(c) All standard intravenous fluids and administering devices, including:

(i) Intravenous catheters, size 24g to 14g;

(ii) Intraosseous needles;

(iii) Infusion control device;

(d) Gastric lavage equipment;

(e) Drugs and supplies necessary for adult and pediatric emergency care;

(f) Medication chart, tape or other system to assure ready access to information on proper dose-per-kilogram for resuscitation drugs and equipment sizes for pediatric patients;

(g) Immobilization devices, including:

(i) Cervical injury immobilization devices, adult and pediatric sizes;

(ii) Long-bone stabilization device; and

(iii) Backboard;

(3) A plan addressing receipt and transfer of patients by fixed-wing and rotary-wing aircraft.

[Statutory Authority: Chapter 70.168 RCW. 98-04-038, § 246-976-690, filed 1/29/98, effective 3/1/98. Statutory Authority: RCW 43.70.040 and chapters 18.71, 18.73 and 70.168 RCW. 93-01-148 (Order 323), § 246-976-690, filed 12/23/92, effective 1/23/93.]

WAC 246-976-720 Designation standards for facilities providing level I pediatric trauma care service—Administration and organization. A facility with a designated level I pediatric trauma care service shall have:

(1)(a) Organization and direction by a general surgeon with special competence in care of the injured child. The service may have as codirector another physician or general surgeon with special competence in care of the injured child;

(b) Ongoing coordination of the trauma care service by a registered nurse with special competence in care of the injured child;

(c) A multidisciplinary trauma committee chaired by the trauma service director, with input to hospital management, including:

(i) A pediatric emergency physician;

(ii) An emergency department registered nurse;

(iii) A pediatric surgeon or general surgeon with special competence in pediatric trauma care;

(iv) A neurosurgeon;

(v) An orthopaedic surgeon;

(vi) An anesthesiologist;

(vii) The physician director of pediatric critical care service;

(viii) A pediatrician with special competence in critical care;

(ix) The pediatric trauma care service nurse coordinator;

(x) A pediatric critical care registered nurse;

(xi) A pediatric intensivist; and

(xii) The trauma rehabilitation coordinator;

(d) The multidisciplinary trauma committee shall adopt an approved method to determine activation of the trauma team, as described in WAC 246-976-870;

(e) A trauma team to provide initial evaluation, resuscitation and treatment.

(i) The team shall be organized and directed by a pediatric surgeon or general surgeon with special competence in care of the injured child, and who assumes responsibility for coordination of overall care of the pediatric trauma patient. The surgeon shall be at least a PGY4.

(ii) All members of the team, including the surgeon, shall be available within five minutes of notification of team activation.

(iii) The team shall include an emergency physician with special competence in pediatric care, who is:

(A) Responsible for activating the trauma team, using an approved method as defined in WAC 246-976-870; and

(B) Responsible for providing team leadership and care for the pediatric trauma patient until the arrival of the general surgeon with special competence in pediatric care in the resuscitation area.

(iv) The trauma care service shall identify all other members of the team.

(v) The team shall work in conjunction with a pediatric intensivist or pediatric emergency physician.

(f) Specific delineation of pediatric trauma surgery privileges by the medical staff.

(2) An emergency department with written standards of care to ensure immediate and appropriate care for pediatric trauma patients.

(3) A surgery department, including:

(a) General surgery with special competence in care of the pediatric trauma patient;

(b) A neurosurgical service. Coverage shall be available within five minutes of notification of team activation, provided by:

(i) A neurosurgeon; or

(ii) A surgeon who has been judged competent by the neurosurgical consultants on staff to initiate measures to stabilize the pediatric patient, and to initiate diagnostic procedures, with a board-certified neurosurgeon on call and available within thirty minutes of notification of team activation.

(c) The following surgical services on-call and available within thirty minutes of request by the trauma team leader:

(i) Cardiac surgery;

(ii) Gynecologic surgery;

(iii) Hand surgery;

(iv) Microsurgery;

(v) Obstetric surgery;

(vi) Ophthalmic surgery;

(vii) Oral/maxillofacial or otorhinolaryngologic surgery;

(viii) Orthopaedic surgery;

(ix) Pediatric surgery;

(x) Plastic surgery;

(xi) Thoracic surgery;

(xii) Urologic surgery; and

(xiii) Vascular surgery.

(4) Nonsurgical specialties with special competence in pediatric care, including:

(a) Anesthesiology, with an anesthesiologist who:

(i) Is ACLS trained, except this requirement shall not apply to a physician board-certified in anesthesiology;

(ii) Has completed the pediatric education requirement (PER) as defined in WAC 246-976-887; and

(iii) Available within five minutes of team activation;

(b) A radiologist on-call and available for patient service within twenty minutes of notification of team activation;

(c) The following services on-call and available for pediatric patient consultation or management:

(i) Cardiology;

(ii) Gastroenterology;

(iii) General pediatrics;

(iv) Hematology;

(v) Infectious disease specialists;

(vi) Nephrology;

(vii) Pediatric neurology;

(viii) Pathology;

(ix) Pediatric critical care;

(x) Pulmonology; and

(xi) Psychiatry;

(5) Written policy and procedures for access to ancillary services specific for pediatric patients, including:

(a) Chemical dependency services;

(b) Child and adult protection services;

(c) Clergy or pastoral care;

(d) Nutritionist services;

(e) Occupational therapy services;

(f) Pediatric therapeutic recreation;

(g) Pharmacy, with a pharmacist in-house;

(h) Physical therapy services;

(i) Psychological services;

(j) Rehabilitation services;

(k) Social services;

(l) Speech therapy services;

(6) A written policy and procedures to divert patients to other designated trauma care services. The policy shall be based on criteria which reflect the service's ability to resuscitate and stabilize each patient at a particular time.

(7) A trauma registry as required in WAC 246-976-430;

(8) A quality assurance program in accordance with WAC 246-976-881, and cooperate with regional trauma care quality assurance programs throughout the state established pursuant to WAC 246-976-910;

(9) Interfacility transfer guidelines and agreements consistent with WAC 246-976-890.

[Statutory Authority: Chapter 70.168 RCW. 02-12-107, § 246-976-720, filed 6/5/02, effective 7/6/02; 98-19-107, § 246-976-720, filed 9/23/98, effective 10/24/98; 98-04-038, § 246-976-720, filed 1/29/98, effective 3/1/98; 93-20-063, § 246-976-720, filed 10/1/93, effective 11/1/93. Statutory Authority: RCW 43.70.040 and chapters 18.71, 18.73 and 70.168 RCW. 93-01-148 (Order 323), § 246-976-720, filed 12/23/92, effective 1/23/93.]

WAC 246-976-730 Designation standards for facilities providing level I pediatric trauma care services—Resources and capabilities. A facility with a designated level I pediatric trauma care service shall have:

(1) An emergency department with:

(a) A physician director who:

(i) Is board-certified in emergency medicine, pediatric emergency medicine, surgery or other relevant specialty; or

(ii) Has documented experience as director of an emergency department which has been previously recognized as a level I trauma center either by a regional entity or as verified by the Committee on Trauma of the American College of Surgeons;

(iii) Is ATLS and ACLS trained, except this requirement shall not apply to a physician board-certified in emergency medicine or in surgery; and

(iv) Has completed the pediatric education requirement (PER) as defined in WAC 246-976-887, except this requirement shall not apply to a physician board-certified in pediatric emergency medicine;

(b) Emergency physicians who:

(i) Are board-certified in emergency medicine, or pediatric emergency medicine, or in a specialty practicing emergency medicine as their primary practice with special competence in care of pediatric trauma patients; (this requirement may be met by a surgical resident post graduate year two who is ATLS and ACLS trained, has completed the PER as defined in WAC 246-976-887, and is working under the direct supervision of the attending emergency department physician, until the arrival of the surgeon to assume leadership of the trauma team);

(ii) Are available within five minutes of the patient's arrival in the emergency department;

(iii) Are ATLS and ACLS trained, except this requirement shall not apply to a physician board-certified in emergency medicine;

(iv) Have completed the PER as defined in WAC 246-976-887, except this requirement shall not apply to a physician board-certified in pediatric emergency medicine; and

(v) Are designated members of the trauma team;

(c) Registered nurses who:

(i) Have completed the PER as defined in WAC 246-976-887;

(ii) Have successfully completed a trauma life support course as defined in WAC 246-976-885;

(iii) Are in the emergency department and available within five minutes of patient's arrival in the emergency department;

(d) An area designated for pediatric resuscitation, with equipment for resuscitation and life support of pediatric patients, including equipment as described in WAC 246-976-620;

(e) Routine radiological capabilities by a technician available within five minutes of notification of team activation;

(2) A surgery department including:

(a) An attending pediatric surgeon or general surgeon with special competence in pediatric care who is available within five minutes of notification of team activation, except as provided in (b) of this subsection. The attending surgeon shall:

(i) Provide trauma team leadership upon arrival in the resuscitation area;

(ii) Be board-certified;

(iii) Have trauma surgery privileges as delineated by the medical staff;

(b) A postgraduate year four or above surgical resident may initiate evaluation and treatment upon the patient's arrival in the emergency department until the arrival of the attending surgeon. In this case, the attending surgeon shall be available within twenty minutes of notification of team activation.

(c) All general surgeons and surgical residents who are responsible for care and treatment of trauma patients shall:

(i) Be trained in ATLS and ACLS, except this requirement shall not apply to a physician board-certified in surgery;

(ii) Have completed the PER as defined in WAC 246-976-887;

(3) An operating room available within five minutes of notification of team activation, with:

(a) A registered nurse or designee of the operating room staff who is available within five minutes of team activation to open the operating room, and to coordinate responsibilities to ensure the operating room is ready for surgery upon arrival of the patient, the surgeon, and the anesthesiologist;

(b) A written policy providing for mobilization of additional surgical teams for pediatric trauma patients;

(c) Instruments and equipment appropriate for pediatric surgery, including equipment as described in WAC 246-976-620;

(4) A post-anesthetic recovery unit with:

(a) Essential personnel, including at least one registered nurse available twenty-four hours a day;

(b) Nurses ACLS trained;

(c) Nurses who have completed the PER as defined in WAC 246-976-887;

(d) Appropriate monitoring and resuscitation equipment.

(5) A pediatric critical care service, with:

(a) A pediatric critical care unit, including patient isolation capacity;

(b) A medical director or codirector who is board-certified in pediatrics, with sub-board certification in critical care, with responsibility for coordinating with the attending staff for the care of pediatric trauma patients, including:

(i) Development and implementation of policies;

(ii) Coordination of medical care;

(iii) Determination of patient isolation;

(iv) Authority for patient placement decisions;

(v) Equipment;

(vi) Coordination of staff education;

(vii) Coordination of statistics; and

(viii) Identification of criteria for reviewing quality of care on all pediatric critical care unit trauma patients in conjunction with the trauma service medical director;

(c) A physician with special competence in pediatric critical care available within five minutes of notification;

(d) A physician-directed code team;

(e) Pediatric critical care nursing with registered nurses who have:

(i) Special competence in pediatric trauma care; and

(ii) Completed the PER as defined in WAC 246-976-887;

(f) Equipment as described in WAC 246-976-620 and 246-976-825;

(6) Respiratory therapy available within five minutes of notification;

(7) A clinical laboratory technologist available within five minutes of notification;

(8) Clinical laboratory services, including:

(a) Standard analyses of blood, urine, and other body fluids;

(b) Coagulation studies;

(c) Blood gases and pH determination;

(d) Serum and urine osmolality;

(e) Microbiology;

(f) Serum alcohol and toxicology determination;

(g) Drug screening; and

(h) Microtechnique.

(9) Blood and blood-component services, including:

(a) Blood and blood components available from in-house or through community services, to meet patient needs;

(b) Noncrossmatched blood available on patient arrival in the emergency department;

(c) Blood typing and cross-matching;

(d) Policies and procedures for massive transfusion;

(e) Autotransfusions; and

(f) Blood storage capability;

(10) A radiological service, including:

(a) A technician available within five minutes of notification, able to perform the following:

(i) Routine radiological procedures; and

(ii) Computerized tomography;

(b) A technician on-call and available within twenty minutes of notification, able to perform the following:

(i) Angiography of all types;

(ii) Sonography;

(iii) Nuclear scanning;

(11) Acute dialysis capability, or written transfer agreements.

(12)(a) A physician-directed burn unit staffed by nursing personnel trained in burn care, and equipped to care for extensively burned pediatric patients; or

(b) Written transfer guidelines and agreements for burn care, in accordance with the guidelines of the American Burn Association.

(13) The ability to manage acute head and/or spinal cord injuries. Early transfer to an appropriate pediatric trauma rehabilitation service shall be considered.

(14) A trauma rehabilitation coordinator to facilitate the trauma patient's access to pediatric rehabilitation services.

(15)(a) A designated pediatric trauma rehabilitation service; or

(b) Written agreements to transfer patients to designated pediatric trauma rehabilitation services when medically feasible.

(16) Heli-stop, landing zone or airport located close enough to permit the facility to receive or transfer patients by fixed-wing or rotary-wing aircraft.

[Statutory Authority: Chapter 70.168 RCW. 02-12-107, § 246-976-730, filed 6/5/02, effective 7/6/02; 98-19-107, § 246-976-730, filed 9/23/98, effective 10/24/98; 98-04-038, § 246-976-730, filed 1/29/98, effective 3/1/98; 93-20-063, § 246-976-730, filed 10/1/93, effective 11/1/93. WAC 246-976-740 Designation standards for facilities providing level I pediatric trauma care service—Outreach, public education, trauma care education, and research. A facility with a designated level I pediatric trauma care service shall have:

(1) An outreach program with telephone and on-site consultations with physicians in the community and outlying areas regarding pediatric trauma care;

(2) A public education program addressing injury prevention;

(3) Training, including:

(a) A formal program of continuing trauma care education for:

(i) Staff physicians;

(ii) Nurses;

(iii) Allied health care professionals;

(iv) Community physicians; and

(v) Prehospital personnel;

(b) Residency programs accredited by the accreditation council of graduate medical education, with commitment to training physicians in pediatric trauma management;

(c) In-house initial and maintenance training of invasive manipulative skills for prehospital personnel;

(4) A pediatric trauma research program.

[Statutory Authority: Chapter 70.168 RCW. 98-04-038, § 246-976-740, filed 1/29/98, effective 3/1/98. Statutory Authority: RCW 43.70.040 and chapters 18.71, 18.73 and 70.168 RCW. 93-01-148 (Order 323), § 246-976-740, filed 12/23/92, effective 1/23/93.]

WAC 246-976-770 Designation standards for facilities providing level II pediatric trauma care service—Administration and organization. A facility with a designated level II pediatric trauma care service shall have:

(1)(a) Organization and direction by a general surgeon with special competence in care of the injured child. The service may have as codirector another physician with special competence in care of the injured child;

(b) Ongoing coordination of the trauma care service by a registered nurse with special competence in care of the injured child;

(c) A multidisciplinary trauma committee chaired by the trauma service director, with input to hospital management, including:

(i) An emergency physician with special competence in pediatric care;

(ii) An emergency department registered nurse;

(iii) A pediatric surgeon or general surgeon with special competence in pediatric trauma care;

(iv) A neurosurgeon;

(v) An orthopaedic surgeon;

(vi) An anesthesiologist;

(vii) The physician director of pediatric critical care service;

(viii) A pediatrician with special competence in critical care;

(ix) The pediatric trauma care service nurse coordinator;

(x) A pediatric critical care registered nurse;

(xi) Pediatric intensivist; and

(xii) The trauma rehabilitation coordinator;

(d) The multidisciplinary trauma committee shall adopt an approved method to determine activation of the trauma team, as described in WAC 246-976-870;

(e) A trauma team to provide initial evaluation, resuscitation and treatment.

(i) The team shall be organized and directed by a pediatric surgeon or general surgeon with special competence in care of the injured child, and who assumes responsibility for coordination of overall care of the pediatric trauma patient.

(ii) The team shall work in conjunction with a pediatric intensivist or pediatric emergency physician.

(iii) All members of the team, except the surgeon and the anesthesiologist, shall be available within five minutes of notification of team activation.

(iv) The team shall include:

(A) An emergency physician with special competence in pediatric care, who is:

(I) Responsible for activating the trauma team, using an approved method as defined in WAC 246-976-870; and

(II) Responsible for providing team leadership and care for the pediatric trauma patient until the arrival of the general surgeon in the resuscitation area.

(B) A pediatric surgeon, or general surgeon with special competence in pediatric trauma surgery, on-call and available within twenty minutes of notification of team activation, who shall assume responsibility for patient care upon arrival in the resuscitation area;

(v) The trauma care service shall identify all other members of the team.

(f) Specific delineation of pediatric trauma surgery privileges by the medical staff.

(2) An emergency department with written standards of care to ensure immediate and appropriate care for pediatric trauma patients.

(3) A surgery department, including:

(a) General surgery, with special competence in care of the pediatric trauma patient;

(b) A neurosurgical service. Coverage shall be available within five minutes of notification of team activation. In-house coverage shall be provided by:

(i) A neurosurgeon; or

(ii) A surgeon or other physician who has been judged competent by the neurosurgical consultants on staff to initiate measures to stabilize the patient, and to initiate diagnostic procedures, with a neurosurgeon on-call and available within thirty minutes of notification of team activation;

(c) The following surgical services on-call and available within thirty minutes of request by the trauma team leader:

(i) Gynecologic surgery;

(ii) Hand surgery;

(iii) Obstetric surgery;

(iv) Ophthalmic surgery;

(v) Oral/maxillofacial or otorhinolaryngologic surgery;

(vi) Orthopaedic surgery;

(vii) Pediatric surgery;

(viii) Plastic surgery;

(ix) Thoracic surgery;

(x) Urologic surgery; and

(xi) Vascular surgery.

(4) Nonsurgical specialties with special competence in pediatric care, including:

(a) Anesthesiology, with an anesthesiologist who:

(i) Is ACLS trained, except this requirement shall not apply to a physician board-certified in anesthesiology;

(ii) Has completed the pediatric education requirement (PER) as defined in WAC 246-976-887; and

(iii) Is on-call and available within twenty minutes of notification of team activation;

(b) A radiologist on-call and available for patient service within twenty minutes of notification of team activation;

(c) The following services on-call and available for pediatric patient consultation or management:

(i) Cardiology;

(ii) Gastroenterology;

(iii) General pediatrics;

(iv) Hematology;

(v) Infectious disease specialists;

(vi) Nephrology;

(vii) Neurology;

(viii) Pathology;

(ix) Pediatric critical care; and

(x) Pulmonology;

(5) Written policy and procedures for access to ancillary services specific for pediatric patients, including:

(a) Chemical dependency services;

(b) Child and adult protection services;

(c) Clergy or pastoral care;

(d) Nutritionist services;

(e) Occupational therapy services;

(f) Pediatric therapeutic recreation;

(g) Pharmacy;

(h) Physical therapy services;

(i) Rehabilitation services;

(j) Social services; and

(k) Speech therapy services.

(6) A written policy and procedures to divert patients to other designated trauma care services. The policy shall be based on criteria which reflect the service's ability to resuscitate and stabilize each patient at a particular time.

(7) A trauma registry as required in WAC 246-976-430.

(8) A quality assurance program in accordance with WAC 246-976-881; and cooperate with regional trauma care quality assurance programs throughout the state established pursuant to WAC 246-976-910.

(9) Interfacility transfer guidelines and agreements consistent with WAC 246-976-890.

[Statutory Authority: Chapter 70.168 RCW. 02-12-107, § 246-976-770, filed 6/5/02, effective 7/6/02; 98-19-107, § 246-976-770, filed 9/23/98, effective 10/24/98; 98-04-038, § 246-976-770, filed 1/29/98, effective 3/1/98; 93-20-063, § 246-976-770, filed 10/1/93, effective 11/1/93. Statutory Authority: RCW 43.70.040 and chapters 18.71, 18.73 and 70.168 RCW. 93-01-148 (Order 323), § 246-976-770, filed 12/23/92, effective 1/23/93.]

WAC 246-976-780 Designation standards for facilities providing level II pediatric trauma care service—Basic resources and capabilities. A facility with a designated level II pediatric trauma care service shall have:

(1) An emergency department, with:

(a) A physician director who:

(i) Is board-certified in emergency medicine or pediatric emergency medicine;

(ii) Is ATLS trained, except this requirement shall not apply to a physician board-certified in emergency medicine; and

(iii) Has completed the pediatric education requirement (PER) as defined in WAC 246-976-887, except this requirement shall not apply to a physician board-certified in pediatric emergency medicine.

(b) Physicians who:

(i) Are board-certified in emergency medicine, or pediatric emergency medicine, or board-certified in a specialty practicing emergency medicine as their primary practice with special competence in the care of pediatric trauma patients;

(ii) Are available within five minutes of patient's arrival in the emergency department;

(iii) Are ATLS and ACLS trained, except this requirement shall not apply to a physician board-certified in emergency medicine;

(iv) Have completed the PER as defined in WAC 246-976-887, except this requirement shall not apply to a physician board-certified in pediatric emergency medicine; and

(v) Are designated as members of the trauma team;

(c) Registered nurses who:

(i) Have completed the PER as defined in WAC 246-976-887;

(ii) Have successfully completed a trauma life support course as defined in WAC 246-976-885;

(iii) Are in the emergency department and available within five minutes of patient's arrival in the emergency department;

(d) An area designated for pediatric resuscitation, with equipment for resuscitation and life support of pediatric patients, including equipment as described in WAC 246-976-620;

(e) Routine radiological capabilities by a technician available within five minutes of notification of team activation;

(2) A surgery department, including:

(a) An attending pediatric surgeon, or general surgeon with special competence in pediatric care, who is on-call and available within twenty minutes of notification of team activation. The attending surgeon shall:

(i) Provide trauma team leadership upon arrival in the resuscitation area;

(ii) Be board-certified;

(iii) Have trauma surgery privileges as delineated by the medical staff;

(b) All general surgeons who are responsible for care and treatment of trauma patients shall:

(i) Be trained in ATLS, except this requirement shall not apply to a physician board-certified in surgery;

(ii) Have completed the PER as defined in WAC 246-976-887.

(3) An operating room available within five minutes of notification of team activation, with:

(a) A registered nurse or designee of the operating room staff who is available within five minutes of notification of team activation to open the operating room, and to coordinate responsibilities to ensure the operating room is ready for surgery upon arrival of the patient, the surgeon, and the anesthesiologist;

(b) Other essential personnel on-call and available within twenty minutes of notification of team activation;

(c) A written policy providing for mobilization of additional surgical teams for pediatric trauma patients;

(d) Instruments and equipment appropriate for pediatric surgery, including equipment as described in WAC 246-976-620;

(4) A post-anesthetic recovery unit, with:

(a) Essential personnel, including at least one registered nurse on-call and available twenty-four hours a day; and

(b) Nurses ACLS trained;

(c) Nurses who have completed the PER as defined in WAC 246-976-887;

(d) Appropriate monitoring and resuscitation equipment.

(5) A pediatric critical care service, with:

(a) A pediatric critical care unit, including patient isolation capacity;

(b) A medical director or codirector who is board-certified in pediatrics with sub-board certification in critical care, with responsibility for coordinating with the attending staff for the care of pediatric trauma patients, including:

(i) Development and implementation of policies;

(ii) Coordination of medical care;

(iii) Determination of patient isolation;

(iv) Authority for patient placement decisions;

(v) Equipment;

(vi) Coordination of staff education;

(vii) Coordination of statistics; and

(viii) Identification of criteria for reviewing quality of care on all pediatric critical care unit trauma patients, in conjunction with the trauma service medical director;

(c) A physician with special competence in pediatric critical care available within five minutes of notification;

(d) A physician-directed code team;

(e) Pediatric critical care nursing, with registered nurses who have:

(i) Special competence in pediatric trauma care; and

(ii) Completed the PER as defined in WAC 246-976-887;

(f) Equipment as described in WAC 246-976-620 and 246-976-825.

(6) Respiratory therapy available within five minutes of notification;

(7) A clinical laboratory technologist available within five minutes of notification;

(8) Clinical laboratory services, including:

(a) Standard analyses of blood, urine, and other body fluids;

(b) Coagulation studies;

(c) Blood gases and pH determination;

(d) Serum and urine osmolality;

(e) Microbiology;

(f) Serum alcohol and toxicology determination;

(g) Drug screening; and

(h) Microtechnique;

(9) Blood and blood-component services, including:

(a) Blood and blood components available from in-house or through community services, to meet patient needs;

(b) Noncrossmatched blood available on patient arrival in the emergency department;

(c) Blood typing and cross-matching;

(d) Policies and procedures for massive transfusion;

(e) Autotransfusions; and

(f) Blood storage capability;

(10) Radiological services, including:

(a) A technician available within five minutes of notification, able to perform routine radiologic procedures;

(b) A technician on-call and available within twenty minutes of notification, able to perform the following:

(i) Angiography of all types;

(ii) Computerized tomography;

(iii) Sonography;

(11) Acute dialysis capability, or written transfer agreements.

(12)(a) A physician-directed burn unit staffed by nursing personnel trained in burn care; and equipped to care for extensively burned pediatric patients; or

(b) Written transfer guidelines and transfer agreements for burn care, in accordance with the guidelines of the American Burn Association.

(13)(a) The ability to manage acute head and/or spinal cord injuries; or

(b) Written transfer guidelines and agreements for head and spinal cord injuries.

(c) Early transfer to an appropriate designated trauma rehabilitation service shall be considered;

(14) A trauma rehabilitation coordinator to facilitate the trauma patient's access to pediatric rehabilitation services;

(15)(a) A designated pediatric trauma rehabilitation service; or

(b) Written agreements to transfer patients to a designated pediatric trauma rehabilitation service when medically feasible.

(16) A heli-stop, landing zone or airport located close enough to permit the facility to receive or transfer patients by fixed-wing or rotary-wing aircraft.

[Statutory Authority: Chapter 70.168 RCW. 02-12-107, § 246-976-780, filed 6/5/02, effective 7/6/02; 98-19-107, § 246-976-780, filed 9/23/98, effective 10/24/98; 98-04-038, § 246-976-780, filed 1/29/98, effective 3/1/98; 93-20-063, § 246-976-780, filed 10/1/93, effective 11/1/93. Statutory Authority: RCW 43.70.040 and chapters 18.71, 18.73 and 70.168 RCW. 93-01-148 (Order 323), § 246-976-780, filed 12/23/92, effective 1/23/93.]

WAC 246-976-790 Designation standards for facilities providing level II pediatric trauma care service—Outreach, public education, and trauma care education. A facility with a designated level II pediatric trauma care service shall have:

(1) An outreach program with telephone and on-site consultations with physicians of the community and outlying areas regarding pediatric trauma care;

(2) A public education program addressing injury prevention;

(3) A formal program of continuing trauma care education for:

(a) Staff physicians;

(b) Nurses;

(c) Allied health care professionals;

(d) Community physicians; and

(e) Prehospital personnel;

(4) Make the facility available for initial and maintenance training of invasive manipulative skills for prehospital personnel.

[Statutory Authority: Chapter 70.168 RCW. 98-04-038, § 246-976-790, filed 1/29/98, effective 3/1/98; 93-20-063, § 246-976-790, filed 10/1/93, effective 11/1/93. Statutory Authority: RCW 43.70.040 and chapters 18.71, 18.73 and 70.168 RCW. 93-01-148 (Order 323), § 246-976-790, filed 12/23/92, effective 1/23/93.]

WAC 246-976-810 Designation standards for facilities providing level III pediatric trauma care service—Administration and organization. A facility with a designated level III pediatric trauma care service shall have:

(1)(a) Organization and direction by a general surgeon or other physician with special competence in care of the injured child. The service may have as codirector another physician with special competence in care of the injured child;

(b) Ongoing coordination of the trauma care service by a registered nurse with special competence in care of the injured child;

(c) A multidisciplinary trauma committee chaired by the trauma service director, with input to hospital management, including:

(i) An emergency physician with special competence in pediatric trauma care;

(ii) An emergency department registered nurse;

(iii) A general surgeon with special competence in pediatric trauma care;

(iv) An orthopaedic surgeon;

(v) An anesthesiologist;

(vi) The pediatric trauma care service nurse coordinator;

(vii) A pediatric critical care registered nurse;

(viii) A pediatrician with special competence in critical care; and

(ix) The trauma rehabilitation coordinator;

(d) The multidisciplinary trauma committee shall adopt an approved method to determine activation of the trauma team, as described in WAC 246-976-870;

(e) A trauma team to provide initial evaluation, resuscitation and treatment.

(i) The team shall be organized and directed by a general surgeon with special competence in care of the injured child; and who assumes responsibility for coordination of overall care of the pediatric trauma patient;

(ii) All members of the team, except the surgeon and the anesthesiologist or CRNA (if a member of the team), shall be available within five minutes of notification of team activation;

(iii) The team shall include:

(A) An emergency physician with special competence in pediatric trauma care, who is:

(I) Responsible for activating the trauma team, using an approved method as defined in WAC 246-976-870; and

(II) Responsible for providing team leadership and care for the pediatric trauma patient until the arrival of the general surgeon in the resuscitation area;

(B) A pediatric surgeon, or general surgeon with special competence in pediatric trauma surgery, on-call and available within thirty minutes of notification of team activation, who shall assume responsibility for patient care upon arrival in the resuscitation area;

(iv) The trauma care service shall identify all other members of the team.

(f) Specific delineation of pediatric trauma surgery privileges by the medical staff.

(2) An emergency department with written standards of care to ensure immediate and appropriate care for pediatric trauma patients.

(3) A surgery department, including:

(a) General surgery, with special competence in care of the pediatric trauma patient;

(b)(i) Written transfer guidelines and agreements for head and spinal cord injuries; or

(ii) Neurosurgery, with a neurosurgeon on-call and available within thirty minutes of notification of team activation;

(c)(i) Written transfer guidelines and procedures for patients requiring orthopaedic surgery; or

(ii) Orthopaedic surgery, with an orthopaedic surgeon on-call and available within thirty minutes of request by the trauma team leader;

(4) Nonsurgical specialties, including:

(a) Anesthesiology, with an anesthesiologist or certified registered nurse anesthetist, who:

(i) Is ACLS trained, except this requirement shall not apply to a physician board-certified in anesthesiology;

(ii) Has completed the pediatric education requirement (PER) as defined in WAC 246-976-887; and

(iii) On-call and available within thirty minutes of notification of team activation;

(b) A radiologist on-call and available for patient service within thirty minutes of notification of team activation;

(c) General pediatrics, with board-certified pediatricians on-call and available for pediatric patient consultation or management;

(5) Written policy and procedures for access to ancillary services specific for pediatric patients, including:

(a) Chemical dependency services;

(b) Child and adult protection services;

(c) Clergy or pastoral care;

(d) Nutritionist services;

(e) Pediatric therapeutic recreation;

(f) Pharmacy;

(g) Physical therapy services;

(h) Rehabilitation services;

(i) Social services;

(6) A written policy and procedures to divert patients to other designated trauma care services. The policy shall be based on criteria which reflect the service's ability to resuscitate and stabilize each patient at a particular time;

(7) A trauma registry as required by WAC 246-976-430;

(8) A quality assurance program in accordance with WAC 246-976-881; and cooperate with regional trauma care quality assurance programs throughout the state established pursuant to WAC 246-976-910;

(9) Interfacility transfer guidelines and agreements consistent with WAC 246-976-890.

[Statutory Authority: Chapter 70.168 RCW. 02-12-107, § 246-976-810, filed 6/5/02, effective 7/6/02; 98-19-107, § 246-976-810, filed 9/23/98, effective 10/24/98; 98-04-038, § 246-976-810, filed 1/29/98, effective 3/1/98; 93-20-063, § 246-976-810, filed 10/1/93, effective 11/1/93. Statutory Authority: RCW 43.70.040 and chapters 18.71, 18.73 and 70.168 RCW. 93-01-148 (Order 323), § 246-976-810, filed 12/23/92, effective 1/23/93.]

WAC 246-976-820 Designation standards for facilities providing level III pediatric trauma care service—Basic resources and capabilities. A facility with a designated level III pediatric trauma care service shall have:

(1) An emergency department with:

(a) A physician director who:

(i) Is board-certified in emergency medicine or pediatric emergency medicine;

(ii) Is ATLS and ACLS trained, except this requirement shall not apply to a physician board-certified in emergency medicine; and

(iii) Has completed the pediatric education requirement (PER) as defined in WAC 246-976-887, except this requirement shall not apply to a physician board-certified in pediatric emergency medicine;

(b) Physicians who:

(i) Have special competence in the resuscitation and care of pediatric trauma patients;

(ii) Are available within five minutes of patient's arrival in the emergency department;

(iii) Are ATLS and ACLS trained, except this requirement shall not apply to a physician board-certified in emergency medicine;

(iv) Have completed the PER as defined in WAC 246-976-887, except this requirement shall not apply to a physician board-certified in pediatric emergency medicine; and

(v) Are designated as members of the trauma team;

(c) Registered nurses who:

(i) Have completed the PER as defined in WAC 246-976-887;

(ii) Have successfully completed a trauma life support course as defined in WAC 246-976-885;

(iii) Are in the emergency department and available within five minutes of patient's arrival in the emergency department;

(d) An area designated for pediatric resuscitation, with equipment for resuscitation and life support of pediatric patients, including equipment as described in WAC 246-976-620;

(e) Routine radiological capabilities, by a technician available within twenty minutes of notification of team activation.

(2) A surgery department, including an attending surgeon who is:

On-call and available within thirty minutes of notification of team activation; and

(a) Has general surgery privileges, with special competence in pediatric care;

(b) Has completed the PER as defined in WAC 246-976-887;

(c) Has ATLS, except this requirement shall not apply to a physician board-certified in surgery.

(3) An operating room available within five minutes of notification of team activation, with:

(a) A registered nurse or designee of the operating room staff who is available within five minutes of notification of team activation to open the operating room, and to coordinate responsibilities to ensure the operating room is ready for surgery upon arrival of the patient, the surgeon, and the anesthesiologist;

(b) Other essential personnel on-call and available within thirty minutes of notification of team activation;

(c) A written policy providing for mobilization of additional surgical teams for pediatric trauma patients.

(d) Instruments and equipment appropriate for pediatric surgery, including equipment as described in WAC 246-976-620;

(4) A post-anesthetic recovery unit with:

(a) Essential personnel on-call and available twenty-four hours a day;

(b) Nurses ACLS trained;

(c) Nurses who have completed the PER as defined in WAC 246-976-887;

(d) Appropriate monitoring and resuscitation equipment;

(5) Availability of pediatric critical care, with:

(a) A written transfer agreement and guidelines for pediatric trauma patients requiring critical care services; or

(b) A pediatric critical care unit in accordance with standards as delineated for level II pediatric trauma service in WAC 246-976-780(5), except the medical director or codirector shall be board-certified in pediatrics or another relevant specialty with special competence in pediatric critical care;

(c) A physician with special competence in pediatric critical care, available within five minutes of notification;

(d) A physician-directed code team;

(e) Pediatric critical care nursing, with registered nurses who have:

(i) Special competence in pediatric trauma care; and

(ii) Completed the PER as defined in WAC 246-976-887;

(f) Equipment as described in WAC 246-976-620 and WAC 246-976-825.

(6) Respiratory therapy on-call and available within five minutes of notification;

(7) A clinical laboratory technologist available within twenty minutes of notification;

(8) Clinical laboratory services, including:

(a) Standard analyses of blood, urine, and other body fluids;

(b) Coagulation studies;

(c) Blood gases and pH determination;

(d) Microbiology;

(e) Serum alcohol and toxicology determination; and

(f) Microtechnique.

(9) Blood and blood-component services, including:

(a) Blood and blood components available from in-house or through community services, to meet patient needs;

(b) Noncrossmatched blood available on patient arrival in the emergency department;

(c) Blood typing and cross-matching;

(d) Policies and procedures for massive transfusion;

(e) Autotransfusions; and

(f) Blood storage capability;

(10) Radiological services, including a technician on-call and available within twenty minutes of notification, able to perform:

(a) Routine radiological studies;

(b) Computerized tomography;

(11) Acute dialysis capability, or written transfer agreements;

(12) Written transfer guidelines in accordance with the guidelines of the American Burn Association, and transfer agreements for burn care;

(13)(a) Written transfer guidelines and agreements for patients with head or spinal cord injuries; or

(b) Have neurosurgery, with a neurosurgeon on-call and available within thirty minutes of request by the trauma team leader.

(c) Early transfer to an appropriate designated trauma rehabilitation service shall be considered;

(14) A trauma rehabilitation coordinator to facilitate the pediatric trauma patient's access to pediatric rehabilitation services;

(15)(a) A designated pediatric trauma rehabilitation service; or

(b) Written agreements to transfer patients to a designated pediatric trauma rehabilitation service when medically feasible.

(16)(a) A heli-stop, landing zone, or airport located close enough to permit the facility to receive or transfer patients by fixed-wing or rotary-wing aircraft; or

(b) Have a written policy and procedures addressing the receipt of patients by air, and transfer of patients to other designated trauma services by ground or air.

[Statutory Authority: Chapter 70.168 RCW. 02-12-107, § 246-976-820, filed 6/5/02, effective 7/6/02; 98-19-107, § 246-976-820, filed 9/23/98, effective 10/24/98; 98-04-038, § 246-976-820, filed 1/29/98, effective 3/1/98; 93-20-063, § 246-976-820, filed 10/1/93, effective 11/1/93. Statutory Authority: RCW 43.70.040 and chapters 18.71, 18.73 and 70.168 RCW. 93-01-148 (Order 323), § 246-976-820, filed 12/23/92, effective 1/23/93.]

WAC 246-976-822 Designation standards for facilities providing level III pediatric trauma care service—Trauma care education. A facility with a designated level III trauma care service shall:

(1) Have a public education program addressing injury prevention;

(2) Make the facility available for initial and maintenance training of invasive manipulative skills for prehospital personnel.

[Statutory Authority: Chapter 70.168 RCW. 98-04-038, § 246-976-822, filed 1/29/98, effective 3/1/98.]

WAC 246-976-830 Designation standards for facilities providing level I trauma rehabilitation service. (1) Level I trauma rehabilitation services shall:

(a) Treat trauma inpatients and outpatients, regardless of disability or level of severity or complexity, who are fifteen years old or older. For adolescent trauma patients, the service shall consider whether educational goals, premorbid learning or developmental status, social or family needs and other factors indicate treatment in an adult or pediatric rehabilitation service;

(b) Have and retain accreditation by the commission on accreditation of rehabilitation facilities (CARF) for hospital-based comprehensive inpatient rehabilitation, category one;

(i) Abeyance or deferral status from CARF do not qualify an applicant for designation;

(ii) If the applicant holds one-year accreditation, the application for trauma care service designation shall include a copy of the CARF survey report and recommendations;

(c) House patients on a designated rehabilitation nursing unit;

(d) Provide a peer group for persons with similar disabilities;

(e) Be directed by a physiatrist who is in-house or on-call and responsible for rehabilitation concerns twenty-four hours every day;

(f) Have a diversion or transfer policy with protocols on an individual patient basis, based on the ability to manage that patient at that time;

(g) In addition to the CARF medical consultative service requirements, have the following medical services in-house or on-call twenty-four hours every day:

(i) Anesthesiology, with an anesthesiologist or certified registered nurse anesthetist (CRNA); and

(ii) Radiology;

(h) Provide rehabilitation nursing personnel twenty-four hours every day, with:

(i) Management by a registered nurse;

(ii) At least one certified rehabilitation registered nurse (CRRN) on duty each day and evening shift when a trauma patient is present;

(iii) A minimum of six clinical nursing care hours per patient day for each trauma patient;

(iv) The initial care plan and weekly update reviewed and approved by a CRRN; and

(v) An orientation and training program for all levels of rehabilitation nursing personnel;

(i) Provide the following health personnel and services twenty-four hours every day:

(i) Access to pharmaceuticals, with a pharmacist on-call and available for consultation, with capability to have immediate access to patient and pharmacy data bases, within five minutes of notification;

(ii) Personnel trained in intermittent urinary catheterization; and

(iii) Respiratory therapy;

(j) Provide the following trauma rehabilitation services with staff who are licensed, registered, or certified, and who are in-house or available for treatment every day when indicated in the rehabilitation plan:

(i) Occupational therapy;

(ii) Physical therapy;

(iii) Psychology, including:

(A) Neuropsychological services;

(B) Clinical psychological services, including testing and counseling; and

(C) Substance abuse counseling;

(iv) Social services;

(v) Speech/language pathology;

(k) Provide the following services in-house or through affiliation or consultative arrangements with staff who are licensed, registered, certified, or degreed:

(i) Communication augmentation;

(ii) Driver evaluation and training;

(iii) Orthotics;

(iv) Prosthetics;

(v) Rehabilitation engineering for device development and adaptations;

(vi) Therapeutic recreation; and

(vii) Vocational rehabilitation;

(l) Provide the following diagnostic services in-house or through affiliation or consultative arrangements with staff who are licensed, registered, certified, or degreed:

(i) Diagnostic imaging, including computerized tomography, magnetic resonance imaging, nuclear medicine, and radiology;

(ii) Electrophysiologic testing, to include:

(A) Electroencephalography;

(B) Electromyography;

(C) Evoked potentials;

(iii) Laboratory services; and

(iv) Urodynamic testing;

(m) Serve as a regional referral center for patients in their geographical area needing only level II or III rehabilitation care;

(n) Have an outreach program regarding trauma rehabilitation care, consisting of telephone and on-site consultations with physicians and other health care professionals in the community and outlying areas;

(o) Have a formal program of continuing trauma rehabilitation care education, both in-house and outreach, provided for nurses and allied health care professionals;

(p) Have an ongoing structured program to conduct clinical studies, applied research, or analysis in rehabilitation of trauma patients, and report results within a peer review process.

(2) A level I trauma rehabilitation service shall:

(a) Have a quality assurance/improvement program in accordance with WAC 246-976-881;

(b) Participate in trauma registry activities as required in WAC 246-976-430;

(c) Participate in the regional trauma quality assurance program as required in WAC 246-976-910.

[Statutory Authority: Chapter 70.168 RCW. 98-04-038, § 246-976-830, filed 1/29/98, effective 3/1/98; 93-20-063, § 246-976-830, filed 10/1/93, effective 11/1/93.]

WAC 246-976-840 Designation standards for facilities providing level II trauma rehabilitation service. (1) Level II trauma rehabilitation services shall:

(a) Treat trauma inpatients and outpatients with any disability or level of severity or complexity within the service's capabilities as defined in (c) of this subsection, who are fifteen years old or older;

(b) For adolescent trauma patients, the service shall consider whether educational goals, premorbid learning or developmental status, social or family needs, and other factors indicate treatment in an adult or pediatric rehabilitation service;

(c) Delineate criteria for admission based on diagnosis and severity of impairment;

(d) Have and retain accreditation by the commission on accreditation of rehabilitation facilities (CARF) for comprehensive inpatient rehabilitation, category one or two;

(i) Abeyance or deferral status do not qualify an applicant for designation;

(ii) If the applicant holds one-year accreditation, the application for trauma service designation shall include a copy of the CARF survey report and recommendations;

(e) House patients on a designated rehabilitation nursing unit;

(f) Provide a peer group for persons with similar disabilities;

(g) Be directed by a physiatrist who is responsible for rehabilitation concerns twenty-four hours every day;

(h) Have a diversion or transfer policy with protocols on an individual patient basis, based on the ability to manage that patient at that time;

(i) In addition to the CARF medical consultative service requirements, provide the following medical services in-house or on-call twenty-four hours every day:

(i) Anesthesiology, with an anesthesiologist or certified registered nurse anesthetist (CRNA); and

(ii) Radiology;

(j) Provide rehabilitation nursing personnel twenty-four hours every day, with:

(i) Management by a registered nurse;

(ii) At least one certified rehabilitation registered nurse (CRRN) on duty one shift each day when a trauma patient is present;

(iii) A minimum of six clinical nursing care hours per patient day for each trauma patient;

(iv) The initial care plan and weekly update reviewed and approved by a CRRN; and

(v) An orientation and training program for all levels of rehabilitation nursing personnel;

(k) Provide the following health personnel and services twenty-four hours every day:

(i) Access to pharmaceuticals, with a pharmacist on-call and available for consultation, with capability to have immediate access to patient and pharmacy data bases, within five minutes of notification;

(ii) Personnel trained in intermittent urinary catheterization; and

(iii) Respiratory therapy;

(l) Provide the following trauma rehabilitation services with staff who are licensed, registered, or certified, and who are in-house or available for treatment every day when indicated in the rehabilitation plan:

(i) Occupational therapy;

(ii) Physical therapy;

(iii) Psychology, including:

(A) Neuropsychological services;

(B) Clinical psychological services, including testing and counseling;

(C) Substance abuse counseling;

(iv) Social services;

(v) Speech/language pathology;

(m) Provide the following services in-house or through affiliation or consultative arrangements with staff who are licensed, registered, certified, or degreed:

(i) Communication augmentation;

(ii) Driver evaluation and training;

(iii) Orthotics;

(iv) Prosthetics;

(v) Rehabilitation engineering for device development and adaptations;

(vi) Therapeutic recreation; and

(vii) Vocational rehabilitation;

(n) Provide the following diagnostic services in-house or through affiliation or consultative arrangements with staff who are licensed, registered, certified, or degreed:

(i) Diagnostic imaging, including computerized tomography, magnetic resonance imaging, nuclear medicine, and radiology;

(ii) Electrophysiologic testing, to include:

(A) Electroencephalography;

(B) Electromyography; and

(C) Evoked potentials;

(iii) Laboratory services;

(iv) Urodynamic testing;

(o) Have an outreach program regarding trauma rehabilitation care, consisting of telephone and on-site consultations with physicians and other health care professionals in the community and outlying areas;

(p) Have a formal program of continuing trauma rehabilitation care education, both in-house and outreach, provided for nurses and allied health care professionals.

(2) A level II trauma rehabilitation service shall:

(a) Have a quality assurance/improvement program in accordance with WAC 246-976-881;

(b) Participate in trauma registry activities as required in WAC 246-976-430;

(c) Participate in the regional trauma quality assurance program as required in WAC 246-976-910.

[Statutory Authority: Chapter 70.168 RCW. 98-04-038, § 246-976-840, filed 1/29/98, effective 3/1/98; 93-20-063, § 246-976-840, filed 10/1/93, effective 11/1/93.]

WAC 246-976-850 Designation standards for level III trauma rehabilitation service. (1) Level III trauma rehabilitation services shall:

(a) Provide a community based program of coordinated and integrated outpatient trauma rehabilitation services, evaluation, and treatment to those persons with trauma-related functional limitations, who do not need or no longer require comprehensive inpatient rehabilitation. Services may be provided in, but not limited to, the following settings:

(i) Freestanding outpatient rehabilitation centers;

(ii) Organized outpatient rehabilitation programs in acute hospital settings;

(iii) Day hospital programs; and

(iv) Other community settings;

(b) Treat patients according to admission criteria based on diagnosis and severity;

(c) Be directed by a physician with training and/or experience necessary to provide rehabilitative physician services, acquired through one of the following:

(i) Formal residency in physical medicine and rehabilitation;

(ii) A fellowship in rehabilitation for a minimum of one year; or

(iii) A minimum of two years' experience in providing rehabilitation services for patients typically seen in CARF-accredited comprehensive inpatient categories one, two, and three;

(d) Provide the following trauma rehabilitation services by staff who are licensed, registered, or certified:

(i) Occupational therapy;

(ii) Physical therapy;

(iii) Social services;

(iv) Speech/language pathology;

(e) Provide or assist the patient to obtain the following as defined in the rehabilitation plan:

(i) Audiology;

(ii) Chaplaincy;

(iii) Dentistry;

(iv) Dietetics;

(v) Driver evaluation and training;

(vi) Education;

(vii) Nursing;

(viii) Orthotics;

(ix) Prosthetics;

(x) Psychology;

(xi) Rehabilitation engineering for device development and adaptations;

(xii) Respiratory therapy;

(xiii) Substance abuse counseling;

(xiv) Therapeutic recreation;

(xv) Vocational rehabilitation;

(2) A level III trauma rehabilitation service shall:

(a) Have a quality assurance/improvement program in accordance with WAC 246-976-881;

(b) Participate in trauma registry activities as required in WAC 246-976-430;

(c) Participate in the regional trauma quality assurance program established pursuant to WAC 246-976-910.

[Statutory Authority: Chapter 70.168 RCW. 98-04-038, § 246-976-850, filed 1/29/98, effective 3/1/98; 93-20-063, § 246-976-850, filed 10/1/93, effective 11/1/93.]

WAC 246-976-860 Designation standards for facilities providing level I pediatric trauma rehabilitation service. (1) Level I pediatric rehabilitation services shall:

(a) Treat inpatients and outpatients, regardless of disability or level of severity or complexity, who are:

(i) Under fifteen years old; or

(ii) For adolescent trauma patients, determine whether educational goals, premorbid learning or developmental status, social or family needs, or other factors indicate treatment in an adult or pediatric setting.

(b) Have and retain accreditation by the commission on accreditation of rehabilitation facilities (CARF) for hospital-based comprehensive inpatient rehabilitation category one, including the additional designated pediatric program standards required to provide pediatric rehabilitative services;

(i) Abeyance or deferral status do not qualify an applicant for designation;

(ii) If the applicant holds one-year accreditation, the application for trauma care service designation shall include a copy of the CARF survey report and recommendations;

(c) House patients in a designated pediatric rehabilitation area, providing a pediatric milieu;

(d) Provide a peer group for persons with similar disabilities;

(e) Be directed by a physiatrist who is in-house or on-call and responsible for rehabilitation concerns twenty-four hours every day;

(f) Have a diversion or transfer policy with protocols on an individual patient basis, based on the ability to manage that patient at that time;

(g) In addition to the CARF medical consultative service requirements, have the following medical services in-house or on-call twenty-four hours every day:

(i) Anesthesiology, with an anesthesiologist or certified registered nurse anesthetist (CRNA);

(ii) A pediatrician;

(iii) Radiology;

(h) Provide rehabilitation nursing personnel twenty-four hours every day, with:

(i) Management by a registered nurse;

(ii) At least one certified rehabilitation registered nurse (CRRN) on duty each day shift and evening shift when a trauma patient is present;

(iii) A minimum of six clinical nursing care hours per patient day for each trauma patient;

(iv) All nursing personnel trained and/or experienced in pediatric rehabilitation;

(v) The initial care plan and weekly update reviewed and approved by a CRRN; and

(vi) An orientation and training program for all levels of rehabilitation nursing personnel;

(i) Provide the following health personnel and services twenty-four hours every day:

(i) Access to pharmaceuticals, with pharmacist in house;

(ii) Personnel trained in intermittent urinary catheterization; and

(iii) Respiratory therapy;

(j) Provide the following trauma rehabilitation services with staff who are licensed, registered, or certified, who are trained and/or experienced in pediatric rehabilitation, and who are in-house or available for treatment every day when indicated in the rehabilitation plan:

(i) Occupational therapy;

(ii) Physical therapy;

(iii) Psychology, including:

(A) Neuropsychological services;

(B) Clinical psychological services, including testing and counseling; and

(C) Substance abuse counseling;

(iv) Social services;

(v) Speech/language pathology;

(k) Provide the following services in-house or through affiliation or consultative arrangements with staff who are licensed, registered, certified, or degreed:

(i) Communication augmentation;

(ii) Educational component of the program appropriate to the disability and developmental level of the child, to include educational screening, instruction, and discharge planning coordinated with the receiving school district;

(iii) Orthotics;

(iv) Play space, with supervision by a pediatric therapeutic recreation specialist or child life specialist, to provide assessment and play activities;

(v) Prosthetics;

(vi) Rehabilitation engineering for device development and adaptations;

(vii) Therapeutic recreation;

(l) Provide the following diagnostic services in-house or through affiliation or consultative arrangements with staff who are licensed, registered, certified, or degreed:

(i) Electrophysiologic testing, to include:

(A) Electroencephalography;

(B) Electromyography;

(C) Evoked potentials;

(ii) Diagnostic imaging, including computerized tomography, magnetic resonance imaging, nuclear medicine, and radiology;

(iii) Laboratory services; and

(iv) Urodynamic testing;

(m) Have an outreach program regarding pediatric trauma rehabilitation care, consisting of telephone and on-site consultations with physicians and other health care professionals in the community and outlying areas;

(n) Have a formal program of continuing pediatric trauma rehabilitation care education, both in-house and outreach, provided for nurses and allied health care professionals;

(o) Have an ongoing structured program to conduct clinical studies, applied research or analysis in rehabilitation of pediatric trauma patients, and report results within a peer-review process.

(2) A level I pediatric rehabilitation service shall:

(a) Have a quality assurance/improvement program in accordance with WAC 246-976-881;

(b) Participate in trauma registry activities as required in WAC 246-976-430;

(c) Participate in the regional trauma quality assurance program as required in WAC 246-976-910.

[Statutory Authority: Chapter 70.168 RCW. 98-19-107, § 246-976-860, filed 9/23/98, effective 10/24/98; 98-04-038, § 246-976-860, filed 1/29/98, effective 3/1/98; 93-20-063, § 246-976-860, filed 10/1/93, effective 11/1/93.]

TRAUMA TEAM ACTIVATION, QUALITY ASSESSMENT, EDUCATIONAL REQUIREMENTS, AND TRANSFER GUIDELINES

WAC 246-976-870 Trauma team activation. (1) The purpose of trauma team activation is to assure all personnel and resources necessary for optimal care of the trauma patient are available when the patient arrives in the emergency department. To assure optimal patient care:

(a) Patient status shall be reported from the field by prehospital providers to the emergency department in the receiving trauma care service;

(i) It is the responsibility of the prehospital providers to determine all relevant information and report it to the receiving facility;

(ii) It is the responsibility of the receiving facility to request any relevant information that is not volunteered by the prehospital providers.

(b) The service shall use the prehospital information to determine activation of a trauma team and/or resources appropriate for the care of the patient.

(c) The presence of the general surgeon, when included in the service's scope of practice, is necessary both to exercise his or her professional judgment that immediate surgery is not indicated, as well as to perform surgery when it is indicated, and to direct resuscitation and patient transfer if necessary.

(2) Each designated trauma care service shall use an approved method to determine activation of its trauma team. The method shall include information obtained from prehospital providers and other sources appropriate to the circumstances.

(a) The method shall use notification by a prehospital provider that the patient meets trauma patient triage criteria, as defined in WAC 246-976-370; and

(b) A scoring system such as the Prehospital Index, or patient-based criteria, which includes evaluation of each patient's:

(i) Vital signs and level of consciousness;

(ii) Anatomy of injury, including evaluation;

(iii) Mechanism of injury; and

(iv) Comorbid factors.

(c) If a methodology is used for modified trauma team response, it shall:

(i) Provide a mechanism to upgrade the level of trauma team response based on newly acquired information; and

(ii) Be approved by the department.

(d) The method may include a response by a neurosurgeon in place of response by a general surgeon when, based on prehospital information, the mechanism of injury clearly indicates isolated penetrating trauma to the brain.

[Statutory Authority: Chapter 70.168 RCW. 98-04-038, § 246-976-870, filed 1/29/98, effective 3/1/98.]

WAC 246-976-881 Trauma quality assurance programs for designated trauma care services. (1) All designated levels I - V and pediatric levels I - III trauma care services shall have a quality assessment and improvement program that reflects and demonstrates a process for continuous quality improvement in the delivery of trauma care, with:

(a) An organizational structure that facilitates the process of quality assurance and improvement and identifies the authority to change policies, procedures, and protocols that address the care of the trauma patient;

(b) Participation of members of the trauma team;

(c) Developments of standards of quality care;

(d) A process for monitoring compliance with or adherence to the standards;

(e) A process of peer review to evaluate specific cases or problems identified by the monitoring process;

(f) A process for correcting problems or deficiencies;

(g) A process to analyze and evaluate the effect of corrective action;

(h) A process to insure that confidentiality of patient and provider information is maintained according to the standards of RCW 70.41.200 and 70.168.090.

(2) Designated levels I and II trauma rehabilitation services and level I pediatric trauma rehabilitation services shall have a quality assessment and improvement program that reflects and demonstrates a process for continuous quality improvement in the delivery of trauma care, with:

(a) An organizational structure and plan that facilitates the process of quality assurance and improvement and identified the authority to change policies, procedures, and protocols that address the care of the major trauma patient;

(b) Participation of members of the multidisciplinary trauma rehabilitation team, including involvement of the trauma rehabilitation coordinator of the referring acute trauma care service;

(c) Development of outcome standards;

(d) A process for monitoring compliance with or adherence to the outcome standards;

(e) A process of internal peer review to evaluate specific cases or problems identified by the outcome monitoring process;

(f) A process for implementing corrective action to address problems or deficiencies;

(g) A process to analyze and evaluate the effect of corrective action;

(h) A process to insure that confidentiality of patient and provider information is maintained according to the standards of RCW 70.41.200 and 70.168.090.

(3) A designated level III trauma rehabilitation service shall have an organized trauma rehabilitation quality assessment and improvement program that reflects and demonstrates a process for continuous quality improvement in the delivery of trauma care, with:

(a) A special audit process for rehabilitation trauma patients to identify the trauma rehabilitation outcome standards and indicators which monitor this program;

(b) A multidisciplinary team, to include the physician identified as responsible for coordination of rehabilitation trauma activities;

(c) A process to insure that confidentiality of patient and provider information is maintained according to the standards of RCW 70.41.200 and 70.168.090.

[Statutory Authority: Chapter 70.168 RCW. 98-04-038, § 246-976-881, filed 1/29/98, effective 3/1/98.]

WAC 246-976-885 Educational requirements—Designated trauma care service personnel. (1) To allow for timely and orderly establishment of the trauma system, the department shall consider that education requirements established in this chapter for all personnel caring for trauma patients in a designated trauma care service, have been met if:

(a) At the time of initial designation, twenty-five percent of all personnel meet the education and training requirements defined in this chapter;

(b) At the end of the first year of designation, fifty percent of all personnel meet the education and training requirements defined in this chapter;

(c) At the end of the second year of designation, seventy-five percent of all personnel meet the education and training requirements defined in this chapter; and

(d) At the end of the third year of designation, and in all subsequent designation periods, ninety percent of all personnel meet the education and training requirements defined in this chapter.

(2) To meet the requirements for a trauma life support course:

(a) Emergency department registered nurses in levels I, II, III and IV trauma care services, and in levels I, II, and III pediatric trauma care services, shall have successfully completed a trauma nurse core course (TNCC), or a department-approved equivalent that includes a minimum of sixteen contact hours of trauma-specific education on the following topics:

(i) Mechanism of injury;

(ii) Shock and fluid resuscitation;

(iii) Initial assessment;

(iv) Pediatric trauma;

(v) Stabilization and transport;

(b) Registered nurses in critical care units in level I or II trauma care services shall have successfully completed a minimum of eight contact hours of trauma-specific education;

(c) Registered nurses in critical care units in level III trauma care services shall have successfully completed a minimum of four contact hours of trauma-specific education;

(d) For level IV services, if the service's scope of care defined in WAC 246-976-640(2) includes critical care for trauma patients, registered nurses in critical care units shall have successfully completed a minimum of four contact hours of trauma-specific education.

[Statutory Authority: Chapter 70.168 RCW. 98-04-038, § 246-976-885, filed 1/29/98, effective 3/1/98. Statutory Authority: RCW 43.70.040 and chapters 18.71, 18.73 and 70.168 RCW. 93-01-148 (Order 323), § 246-976-885, filed 12/23/92, effective 1/23/93.]

WAC 246-976-886 Pediatric education requirements (PER) for nonpediatric designated facilities. (1) In designated levels I, II, III, and IV general trauma care services emergency physicians and emergency RNs who are involved in the resuscitation and stabilization of pediatric trauma patients shall have PER, as provided in subsection (3) of this section, appropriate to their scope of trauma care.

(2) In designated levels I, II, and III general trauma care services general surgeons, anesthesiologists, CRNAs and PACU RNs who are involved in the resuscitation and stabilization of pediatric trauma patients shall have PER, as provided in subsection (3) of this section, appropriate to their scope of trauma care.

(3) PER can be met by the following methods:

(a) One-time completion of pediatric advanced life support (PALS) or a substantially equivalent training course;

(b) Current certification in ATLS; or

(c) Completion of a least five contact hours of pediatric trauma education during each designation period. PER contact hours will:

(i) Include the following topics:

(A) Initial stabilization and transfer of pediatric trauma;

(B) Assessment and management of pediatric airway and breathing;

(C) Assessment and management of pediatric shock, including vascular access;

(D) Assessment and management of pediatric head injuries;

(E) Assessment and management of pediatric blunt abdominal trauma;

(ii) Be accomplished through one or more of the following methods:

(A) Review and discussion of individual pediatric trauma cases within the trauma QA/QI program;

(B) Staff meetings;

(C) Classes, formal or informal;

(D) Web-based learning; or

(E) Other methods of learning which appropriately communicate the required topics listed in this section.

[Statutory Authority: Chapter 70.168 RCW. 02-12-107, § 246-976-886, filed 6/5/02, effective 7/6/02.]

WAC 246-976-887 Pediatric education requirements (PER) for pediatric designated facilities. (1) In designated levels I, II, III pediatric trauma care services emergency physicians, emergency RNs, general surgeons, pediatric intensivists, anesthesiologists, CRNAs, ICU RNs and PACU RNs who are involved in the resuscitation, stabilization and inpatient care of pediatric trauma patients shall have PER, as provided in subsection (2) of this section, appropriate to their scope of trauma care.

(2) PER can be met by the following methods:

(a) One-time completion of pediatric advance life support (PALS) or a substantially equivalent training course;

(b) Current certification in ATLS; or

(c) Completion of at least seven contact hours of pediatric trauma education during each designation period. PER contact hours will:

(i) Include the following topics:

(A) Initial stabilization and transfer of pediatric trauma;

(B) Assessment and management of pediatric airway and breathing;

(C) Assessment and management of pediatric shock, including vascular access;

(D) Assessment and management of pediatric head injuries;

(E) Assessment and management of pediatric blunt abdominal trauma;

(F) Pediatric sedation and analgesia;

(G) Complications of pediatric multiple system trauma;

(ii) Be accomplished through one or more of the following methods:

(A) Review and discussion of individual pediatric trauma cases within the trauma QA/QI program;

(B) Staff meetings;

(C) Classes, formal or informal;

(D) Web-based learning; or

(E) Other methods of learning which appropriately communicate the required topics listed in this section.

[Statutory Authority: Chapter 70.168 RCW. 02-12-107, § 246-976-887, filed 6/5/02, effective 7/6/02.]

SYSTEM ADMINISTRATION

WAC 246-976-890 Interhospital transfer guidelines and agreements. Designated trauma services must:

(1) Have written guidelines for the identification and transfer of patients with special care needs exceeding the capabilities of the trauma service.

(2) Have written transfer agreements with other designated trauma services.The agreements must address the responsibility of the transferring hospital, the receiving hospital, and the prehospital transport agency, including a mechanism to assign medical control during interhospital transfer.

(3) Have written guidelines to identify trauma patients who are transferred in from other facilities, whether admitted through the emergency department or directly into other hospital services.

(4) Use verified prehospital trauma services for interfacility transfer of trauma patients.

[Statutory Authority: Chapters 18.71, 18.73, and 70.168 RCW. 00-08-102, § 246-976-890, filed 4/5/00, effective 5/6/00. Statutory Authority: Chapter 70.168 RCW. 98-04-038, § 246-976-890, filed 1/29/98, effective 3/1/98. Statutory Authority: RCW 43.70.040 and chapters 18.71, 18.73 and 70.168 RCW. 93-01-148 (Order 323), § 246-976-890, filed 12/23/92, effective 1/23/93.]

WAC 246-976-910 Regional quality assurance and improvement program. (1) The department will:

(a) Develop guidelines for a regional EMS/TC system quality assurance and improvement program including:

(i) Purpose and principles of the program;

(ii) Establishing and maintaining the program;

(iii) Process;

(iv) Membership of the quality assurance and improvement program committee;

(v) Authority and responsibilities of the quality assurance and improvement program committee;

(b) Review and approve written regional quality assurance and improvement plans;

(c) Provide trauma registry data to regional quality assurance and improvement programs in the following formats:

(i) Quarterly standard reports;

(ii) Ad hoc reports as requested according to department guidelines.

(2) Levels I, II, and III, and Level I, II and III pediatric trauma care services must:

(a) Establish, coordinate and participate in regional EMS/TC systems quality assurance and improvement programs;

(b) Ensure participation in the regional quality assurance and improvement program of:

(i) Their trauma service director or codirector; and

(ii) The RN who coordinates the trauma service;

(c) Ensure maintenance and continuation of the regional quality assurance and improvement program.

(3) The regional quality assurance and improvement program committee must include:

(a) At least one member of each designated facility's medical staff;

(b) The RN coordinator of each designated trauma service;

(c) An EMS provider.

(4) The regional quality assurance program must invite the MPD and all other health care providers and facilities providing trauma care in the region, to participate in the regional trauma quality assurance program.

(5) The regional quality assurance and improvement program may invite:

(a) One or more regional EMS/TC council members;

(b) A trauma care provider who does not work or reside in the region.

(6) The regional quality assurance and improvement program must include a written plan for implementation including:

(a) Operational policies and procedures that detail committee actions and processes;

(b) Audit filters for adult and pediatric patients;

(c) Monitoring compliance with the requirements of chapter 70.168 RCW and this chapter;

(d) Policies and procedures for notifying the department and the regional EMS/TC council of identified regional or statewide trauma system issues, and any recommendations;

(e) Policies regarding confidentiality of:

(i) Information related to provider's and facility's clinical care, and patient outcomes, in accordance with chapter 70.168 RCW;

(ii) Quality assurance and improvement committee minutes, records, and reports in accordance with RCW 70.168.-090(4), including a requirement that each attendee of a regional quality assurance and improvement committee meeting is informed in writing of the confidentiality requirement. Information identifying individual patients may not be publicly disclosed without the patient's consent.

[Statutory Authority: Chapters 18.71, 18.73, and 70.168 RCW. 00-08-102, § 246-976-910, filed 4/5/00, effective 5/6/00. Statutory Authority: RCW 43.70.040 and chapters 18.71, 18.73 and 70.168 RCW. 93-01-148 (Order 323), § 246-976-910, filed 12/23/92, effective 1/23/93.]

WAC 246-976-920 Medical program director. (1) The MPD must:

(a) Be knowledgeable in the administration and management of prehospital emergency medical care and services;

(b) Provide medical control and direction of EMS/TC certified personnel in their medical duties, by oral or written communication;

(c) Develop and adopt written prehospital patient care protocols to direct EMS/TC certified personnel in patient care. These protocols may not conflict with regional patient care procedures or with the authorized care of the certified prehospital personnel as described in WAC 246-976-182;

(d) Establish protocols for storing, dispensing, and administering controlled substances, in accordance with state and federal regulations and guidelines;

(e) Participate with the local and regional EMS/TC councils and emergency communications centers to develop and revise regional patient care procedures;

(f) Participate with the local and regional EMS/TC councils to develop and revise regional plans and make timely recommendations to the regional council;

(g) Work within the parameters of the approved regional patient care procedures and the regional plan;

(h) Supervise training of all EMS/TC certified personnel;

(i) Develop protocols for special training described in WAC 246-976-021(5);

(j) Periodically audit the medical care performance of EMS/TC certified personnel;

(k) Recommend to the department certification, recertification, or denial of certification of EMS/TC personnel;

(l) Recommend to the department disciplinary action to be taken against EMS/TC personnel, which may include modification, suspension, or revocation of certification;

(m) Recommend to the department individuals applying for recognition as senior EMS instructors.

(2) In accordance with department policies and procedures, the MPD may:

(a) Delegate duties to other physicians, except for duties described in subsection (1)(c), (k), and (l) of this section. The delegation must be in writing;

(i) The MPD must notify the department in writing of the names and duties of individuals so delegated, within fourteen days;

(ii) The MPD may remove delegated authority at any time, which shall be effective upon written notice to the delegate and the department;

(b) Delegate duties relating to training, evaluation, or examination of certified EMS/TC personnel, to qualified nonphysicians. The delegation must be in writing;

(c) Enter into EMS/TC medical control agreements with other MPDs;

(d) Recommend denial of certification to the department for any applicant the MPD can document is unable to function as an EMS provider, regardless of successful completion of training, evaluation, or examinations; and

(e) Utilize examinations to determine the knowledge and abilities of IV technicians, airway technicians, intermediate life support technicians, or paramedics prior to recommending applicants for certification or recertification.

(3) The department may withdraw the certification of an MPD for failure to comply with the Uniform Disciplinary Act (chapter 18.130 RCW) and other applicable statutes and regulations.

[Statutory Authority: Chapters 18.71, 18.73, and 70.168 RCW. 00-08-102, § 246-976-920, filed 4/5/00, effective 5/6/00. Statutory Authority: RCW 43.70.040 and chapters 18.71, 18.73 and 70.168 RCW. 93-01-148 (Order 323), § 246-976-920, filed 12/23/92, effective 1/23/93.]

WAC 246-976-930 General responsibilities of the department. In addition to the requirements described in chapters 18.71, 18.73, and 70.168 RCW, and elsewhere in this chapter:

(1) The department shall review, recommend changes to, and approve regional plans and regional patient care procedures based on the requirements of this chapter and recommendations from the steering committee, and upon consideration of the needs of patients.

(a) The department may approve regional plans which include standards that are consistent with chapter 70.168 RCW and other state and federal laws, but which exceed the requirements of this chapter.

(b) The department will develop a process for biennial update of regional and statewide planning. The process will include provisions to amend regional plans between biennial updates.

(2) The department will publish standards for minimum required knowledge and skill objectives for ongoing training and evaluation programs (OTEP) for first responders and EMTs, as authorized in RCW 18.73.081 (3)(b). The department will publish procedures to approve OTEPs.

(3) The department will publish prehospital trauma triage procedures for activation of the trauma system from the field. The procedures will include assessment of the patient's:

(a) Vital signs and level of consciousness;

(b) Anatomy of injury;

(c) Biomechanics of the injury; and

(d) Comorbid and associated risk factors.

(4) The department may approve pilot programs and projects which have:

(a) Stated objectives;

(b) A specified beginning and ending date;

(c) An identified way to measure the outcome;

(d) A review process;

(e) A work plan with a time line;

(f) If training of EMS/TC personnel is involved, consistency with the requirements of WAC 246-976-021(5).

(5) The department will review at least every four years:

(a) Rules, policies, and standards for EMS/TC, with the advice of the steering committee;

(b) Rules and standards for licensure of services and vehicles, and for certification of EMS/TC personnel, with the advice of the L&C committee;

[Statutory Authority: Chapters 18.71, 18.73, and 70.168 RCW. 00-08-102, § 246-976-930, filed 4/5/00, effective 5/6/00. Statutory Authority: RCW

43.70.040 and chapters 18.71, 18.73 and 70.168 RCW. 93-01-148 (Order 323), § 246-976-930, filed 12/23/92, effective 1/23/93.]

WAC 246-976-935 Emergency medical services and trauma care system trust account. RCW 70.168.040 establishes the emergency medical services and trauma care system trust account. With the advice of the EMS/TC steering committee, the department will develop a method to budget and distribute funds in the trust account. The department may use an injury severity score to define a major trauma patient. Initially, the method and budget will be based on the department's *Trauma Care Cost Reimbursement Study, final report (October 1991).* The committee and the department will review the method and the budget at least every two years.

(1) Definitions: The following phrases used in this section mean:

(a) "Initial acute episode of injury" refers to care that is related to a major trauma. This can include prehospital care, resuscitation, stabilization, inpatient care and/or subsequent transfer, and rehabilitation. It does not include later readmission or outpatient care.

(b) "Needs grant" is a trust account payment that is based on a demonstrated need to develop and maintain service that meets the trauma care standards of chapter 70.168 RCW and this chapter. Needs grants are awarded to verified trauma care ambulance or aid services. Services must be able to show that they have looked for other resources without success before they will be considered for a needs grant.

(c) "Participation grant" refers to a trust account payment designed to compensate the recipient for participation in the state's comprehensive trauma care system. These grants are intended as a tool for assuring access to trauma care. Participation grants are awarded to:

(i) Verified trauma care ambulance or aid services;

(ii) Designated trauma care services; and

(iii) Designated trauma rehabilitation services.

(2) The department will distribute trust account funds to:

(a) Verified trauma care ambulance and aid services;

(b) Designated trauma care services:

(i) Levels I-V general; and

(ii) Levels I-III pediatric;

(c) Physicians and other clinical providers who:

(i) Are members of designated trauma care services;

(ii) Meet the response-time standards of this chapter;

(iii) Provide care for major trauma patients during the initial acute episode of injury. This includes physiatrists who consult on rehabilitation during the acute hospital stay, or who provide care in a designated trauma rehabilitation service;

(iv) Complete trauma records in a timely manner according to the trauma care services current requirements; and

(v) Participate in quality assurance activities;

(d) Designated trauma rehabilitation services:

(i) Levels I-III; and

(ii) I-pediatric.

(3) The department's distribution method for verified trauma care ambulance and aid services will include at least:

(a) Participation grants, which will be awarded once a year to services that comply with verification standards. Services that are eligible to receive Medicaid funds will have the option of either receiving the participation grant or receiving an increased payment by the department of social and health services for medical emergency transportation of medical assistance clients who meet trauma triage criteria;

(b) Needs grants, based on the service's ability to meet the standards of chapter 70.168 RCW and chapter 246-976 WAC (this chapter). The department may consider:

(i) Level of service (BLS, ILS, ALS);

(ii) Type of service (aid or ambulance);

(iii) Response area (rural, suburban, urban, wilderness);

(iv) Volume of service;

(v) Other factors that relate to trauma care;

(4) The department's distribution method for designated trauma care services, levels I-V general and I-III-pediatric will include at least:

(a) Participation grants, which will be awarded once a year only to services that comply with designation standards. The department will review the compliance requirements annually. The department may consider:

(i) Level of designation;

(ii) Service area (rural, suburban, urban, wilderness);

(iii) Volume of service;

(iv) The percentage of uncompensated major trauma care;

(v) Other factors that relate to trauma care;

(b) Increased payment by the department of social and health services for major trauma care for medical assistance clients during the initial acute episode of injury;

(5) The department's distribution method for physicians and other clinical providers included in subsection (2)(c) of this section will include at least:

(a) Increased payment by the department of social and health services for trauma care of medical assistance clients and care provided within six months of the date of injury for inpatient surgical procedures related to the injury, which were planned during the initial acute episode of injury, using Medicare rates as a benchmark;

(b) Partial reimbursement for care of other major trauma patients who meet DOH eligibility criteria. The department's criteria will consider at least:

(i) The patient's ability to pay;

(ii) The patient's eligibility for other health insurance, such as medical assistance or Washington's basic health plan;

(iii) Other sources of payment.

(6) The department's distribution method for designated trauma rehabilitation services, levels I-III and I-pediatric will include at least:

(a) Participation grants, which will be awarded once a year only to services that comply with designation standards. The department will review the compliance requirements annually. The department may consider:

(i) Level of designation;

(ii) Volume of service;

(iii) Other factors that relate to trauma care;

(b) Partial reimbursement for trauma rehabilitation provided during the initial acute episode of injury for major trauma patients who:

(i) Meet DOH eligibility criteria. The department's criteria will include at least:

(A) Residence in Washington at the time of injury;

(B) The patient's ability to pay;

(C) The patient's eligibility for other health insurance, such as medical assistance or Washington's basic health plan;

(D) Other sources of payment;

(ii) Were admitted for rehabilitation service within ninety days of the injury;

(c) The department will give priority to acute inpatient rehabilitation services.

(7) Chapter 70.168 RCW requires regional match of state funds from the emergency medical services and trauma care trust account. Contributions to regional matching funds may include:

(a) Hard match;

(b) Soft match:

(i) The value of services provided by volunteer prehospital agencies;

(ii) Local government support;

(iii) The cost of care by designated trauma care services which exceeds insurance or patient payment;

(iv) The value of volunteer time (excluding any expenses paid with state funds) to establish and operate:

(A) State EMS/TC committees and their subcommittees;

(B) Regional and local EMS/TC councils, and their committees and subcommittees;

(C) Regional and local quality assurance programs;

(D) Injury prevention and public education programs;

(E) EMS training and education programs;

(F) Trauma-related stress management and support programs;

(c) The department will determine the value of personnel time included in soft match, to be applied statewide.

[Statutory Authority: RCW 70.168.040. 02-04-045, § 246-976-935, filed 1/29/02, effective 3/1/02. Statutory Authority: Chapter 70.168 RCW. 98-05-035, § 246-976-935, filed 2/10/98, effective 3/13/98.]

WAC 246-976-940 Steering committee. In addition to the requirements of chapter 70.168 RCW and elsewhere in this chapter, the EMS/TC steering committee will:

(1) Review and comment on the department's rules, policies, and standards;

(2) Review and comment on the department's budget for the EMS/TC system at least biennially;

(3) Periodically review and recommend changes to:

(a) The department's prehospital triage procedures;

(b) Regional patient care procedures;

(c) Regional plans; and

(d) Inter-facility transfer guidelines.

[Statutory Authority: Chapters 18.71, 18.73, and 70.168 RCW. 00-08-102, § 246-976-940, filed 4/5/00, effective 5/6/00. Statutory Authority: RCW 43.70.040 and chapters 18.71, 18.73 and 70.168 RCW. 93-01-148 (Order 323), § 246-976-940, filed 12/23/92, effective 1/23/93.]

WAC 246-976-950 Licensing and certification committee. In addition to the requirements of RCW 18.73.050, the licensing and certification committee will review and comment biennially on the department's EMS/TC rules and standards pertaining to licensure of vehicles and services, verification of services, and to certification of individuals.

[Statutory Authority: Chapters 18.71, 18.73, and 70.168 RCW. 00-08-102, § 246-976-950, filed 4/5/00, effective 5/6/00. Statutory Authority: RCW 43.70.040 and chapters 18.71, 18.73 and 70.168 RCW. 93-01-148 (Order 323), § 246-976-950, filed 12/23/92, effective 1/23/93.]

WAC 246-976-960 Regional emergency medical services and trauma care councils. (1) In addition to meeting the requirements of chapter 70.168 RCW and elsewhere in this chapter, regional EMS/TC councils must:

(a) Identify and analyze system trends to evaluate the EMS/TC system and its component subsystems, using trauma registry data provided by the department;

(b) Develop and submit to the department regional EMS/TC plans to:

(i) Identify the need for and recommend distribution and level of care (basic, intermediate or advanced life support) for verified aid and ambulance services for each response area. The recommendations will be based on criteria established by the department relating to agency response times, geography, topography, and population density;

(ii) Identify EMS/TC services and resources currently available within the region;

(iii) Describe how the roles and responsibilities of the MPD are coordinated with those of the regional EMS/TC council and the regional plan;

(iv) Describe and recommend improvements in medical control communications and EMS/TC dispatch, with at least the elements of the state communication plan described in RCW 70.168.060 (1)(h);

(v) Include a schedule for implementation.

(2) In developing or modifying its plan, the regional council must seek and consider the recommendations of:

(a) Local EMS/TC councils;

(b) EMS/TC systems established by ordinance, resolution, interlocal agreement or contract by counties, cities, or other governmental bodies.

(3) In developing or modifying its plan, the regional council must use regional and state analyses provided by the department based on trauma registry data and other appropriate sources;

(4) Approved regional plans may include standards, including response times for verified services, which exceed the requirements of this chapter.

(5) An EMS/TC provider who disagrees with the regional plan may bring its concerns to the steering committee before the department approves the plan.

(6) The regional council must adopt regional patient care procedures as part of the regional plans. In addition to meeting the requirements of RCW 18.73.030(14) and 70.168.015(23):

(a) For all emergency patients, regional patient care procedures must identify:

(i) Guidelines for rendezvous with agencies offering higher levels of service if appropriate and available, in accordance with the regional plan.

(ii) The type of facility to receive the patient, as described in regional patient destination and disposition guidelines.

(iii) Procedures to handle types and volumes of trauma that may exceed regional capabilities, taking into consideration resources available in other regions and adjacent states.

(b) For major trauma patients, regional patient care procedures must identify procedures to activate the trauma system.

(7) In areas where no local EMS/TC council exists, the regional EMS/TC council shall:

(a) Make recommendations to the department regarding appointing members to the regional EMS/TC council;

(b) Review applications for initial training classes and OTEP programs, and make recommendations to the department.

(8) Matching grants made under the provisions of chapter 70.168 RCW may include funding to:

(a) Develop, implement, and evaluate prevention programs; or

(b) Accomplish other purposes as approved by the department.

[Statutory Authority: RCW 18.73.081 and 70.168.120. 02-14-053, § 246-976-960, filed 6/27/02, effective 7/28/02. Statutory Authority: Chapters 18.71, 18.73, and 70.168 RCW. 00-08-102, § 246-976-960, filed 4/5/00, effective 5/6/00. Statutory Authority: RCW 43.70.040 and chapters 18.71, 18.73 and 70.168 RCW. 93-01-148 (Order 323), § 246-976-960, filed 12/23/92, effective 1/23/93.]

WAC 246-976-970 Local emergency medical services and trauma care councils. (1) If a county or group of counties creates a local EMS/TC council, it must be composed of representatives of hospital and prehospital trauma care and EMS providers, local elected officials, consumers, local law enforcement officials, local government agencies, physicians, and prevention specialists involved in the delivery of EMS/TC.

(2) In addition to meeting the requirements of chapter 70.168 RCW and this chapter, local EMS/TC councils must:

(a) Participate with the MPD and emergency communication centers in making recommendations to the regional council about the development of regional patient care procedures; and

(b) Review applications for initial training classes and OTEP programs, and make recommendations to the department.

(3) Local EMS/TC councils may make recommendations to the department regarding certification and termination of MPDs, as provided in RCW 18.71.205(4).

[Statutory Authority: RCW 18.73.081 and 70.168.120. 02-14-053, § 246-976-970, filed 6/27/02, effective 7/28/02. Statutory Authority: Chapters 18.71, 18.73, and 70.168 RCW. 00-08-102, § 246-976-970, filed 4/5/00, effective 5/6/00. Statutory Authority: RCW 43.70.040 and chapters 18.71, 18.73 and 70.168 RCW. 93-01-148 (Order 323), § 246-976-970, filed 12/23/92, effective 1/23/93.]

WAC 246-976-990 Fees and fines. (1) The department shall assess individual health care facilities submitting a proposal to be designated as a level I general trauma care facility a fee, not to exceed seven thousand dollars, to help defray the costs to the department of inspections and review of applications.

(2) The department shall assess individual health care facilities submitting a proposal to be designated as a level II general trauma care facility a fee, not to exceed six thousand dollars, to help defray the costs to the department of inspections and review of applications.

(3) The department shall assess individual health care facilities submitting a proposal to be designated as a level III general trauma care facility a fee, not to exceed one thousand nine hundred fifty dollars, to help defray the costs to the department of inspections and review of applications.

(4) The department shall assess individual health care facilities submitting a proposal to be designated as a level I pediatric trauma care facility a fee, not to exceed nine thousand two hundred dollars, to help defray the costs to the department of inspections and review of applications.

(5) The department shall assess individual health care facilities submitting a proposal to be designated as a level II pediatric trauma care facility a fee, not to exceed eight thousand dollars, to help defray the costs to the department of inspections and review of applications.

(6) The department shall assess individual health care facilities submitting a proposal to be designated as a level III pediatric trauma care facility a fee, not to exceed two thousand dollars, to help defray the costs to the department of inspections and review of applications.

(7) The department shall assess health care facilities submitting a joint proposal to be jointly designated as a level I general or pediatric trauma care facility a fee, of at least seven thousand dollars, and based upon a determined hourly rate and per diem expense per inspection team member, not to exceed fourteen thousand five hundred dollars to help defray the costs to the department of inspections and review of applications.

(8) The department shall assess health care facilities submitting a joint proposal to be jointly designated as a level II general or pediatric trauma care facility a fee, of at least six thousand dollars, and based upon a determined hourly rate and per diem expense per inspection team member, not to exceed twelve thousand five hundred dollars to help defray the costs to the department of inspections and review of applications.

(9) The department shall assess health care facilities submitting a joint proposal to be jointly designated as a level III general or pediatric trauma care facility a fee, of at least one thousand nine hundred fifty dollars, and based upon a determined hourly rate and per diem expense per inspection team member, not to exceed three thousand one hundred dollars to help defray the costs to the department of inspections and review of applications.

(10) The department shall assess health care facilities submitting a proposal to be designated at multiple levels to provide adult and pediatric care a fee, not to exceed nine thousand two hundred dollars to help defray the costs to the department of inspections and review of applications.

(11) The department shall not assess such fees to health care facilities applying to provide level IV and V trauma care services.

(12) If an ambulance or aid service fails to comply with the requirements of chapters 18.71, 18.73, 70.168 RCW, the Uniform Disciplinary Act, or with the requirements of this chapter, the department may notify the appropriate local, state or federal agencies.

[Statutory Authority: Chapters 18.71, 18.73, and 70.168 RCW. 00-08-102, § 246-976-990, filed 4/5/00, effective 5/6/00. Statutory Authority: Chapter 70.168 RCW. 93-20-063, § 246-976-990, filed 10/1/93, effective 11/1/93.
